VOTE The Straight Democratic Ticket On Tuesday, Nov. 2nd

REMEMBER HARDING?
REMEMBER COOLIDGE?
REMEMBER HOOVER?

Remember the succession of failures of these Republican Presidents from 1920 to 1934? During the 8 long and trying years we came to know what the 'Forgotten Man by The Millions' really meant. Then came 16 years of Government 'of the people, by the people, and for the people'—and no 2 chickens in every pot but a chance to live as they should in an enlightened era.

The Democratic Resolve, which is 'the greatest good for the greatest number' has never been shaken. Through the years of time Government by the People will triumph.

Save yourself, your family, your farm, your business, the hardship of a Republican administration by going to the polls November 2nd and voting the straight Democratic ticket.

The spirit of JEFFERSON
JACKSON
WILSON
ROOSEVELT
Will prevail November 2nd.

Be sure to vote — rain or shine, early or late. In any event, vote and see that your neighbors and friends get to the polls and vote for Democracy.

Friends of HIGHLANDS

please take time off to vote, Tuesday.

It's the American way of life.

Sincerely,

Congratulations to the City Administration, or who ever was responsible for the slick appearance of the Mail on Sunday morning following the Halloween party of Saturday night. When we left the Mail on Saturday evening it was certainly littered with paper streamers and a lot of other refuse, but we admired the early Sunday morning that some one had done a good job and shipped a Sunday shirt on our beautiful Mail.

South Florida Motor Club in Miami, a division of the American Automobile Association, strongly stresses a six-week slogan that we should select him in AP—Be Friendly and Courteous with Tourists. It has been followed by extensive research, a successful program of courtesy is one in which persons in all walks of life participate.

A gruff word from a service station attendant, or lack of attention on the part of a waitress, can indeed be harmful to Florida's outstanding reputation as a friendly state. State employees, city employees, school officials and in fact, John Q. Citizen himself should be friendly and courteous with tourists at all times.

The grapevine has it that one man in this peaceful little city dropped 2,000 bucks at odds of 10 to 1 on Dewey.

Christmas shopping ads are beginning to appear in several of the papers that come to our desk every week. It is not too early to start thinking about and buying for Christmas now, and we would like to suggest that people shop here at home before rushing off to the larger shopping centers, as our local stores have a fine stock of merchandise on hand and you will find that their prices compare favorably with any that you will find in other towns. Money spent at home will help build Avon Park.

One tree can make a million mistakes. One match can destroy a million trees.

You envy people who are able to clip coupons? Subscribers of this paper are being given an opportunity to do just that. Coupons worth 50 cents to \$10.00 will be found in an ad of Ward's Department Store on another page of this paper. Mr. Ward is offering some real bargains as an incentive for Avon Park people to do their buying at home. Grib the shears folks and make some easy money.

U. S. Marines are called "leathernecks" because in 1915 a goat leather collar was worn on their coats for decoration and to ward off enemy sword strokes.

The elections Tuesday turned out to be the surprise of the year, when Harry S. Truman was elected to the Presidency of the United States. That is, it was a surprise to everyone except Truman and thousands of his staunch admirers. Truman was a tireless campaigner, and this proves the old adage that "hard work and integrity" is the way to win success. Good luck to you Mr. President, in the trying years ahead.

Rotary Flashies

Mrs. Maude Vane, associated with Highlands County for the past six years at educational coordinator was guest speaker at the Wednesday Rotary Meeting. Speaking on American Education Week which begins November 7 and continues through November 13 Mrs. Vane stressed the personal responsibility of parents, teachers and children in the progress and stability of our way of life.

Visiting Rotarians and guests included James Wilson, Vernon Farrier, and Bob Smith of Ft. Marion, of Avon Park, Major Keenan of Frostproof, and David Lutz, executive of the Gulf Ridge Council.

Dr. Jordan gave a brief insight into the life of next week's speaker, assuring us of a fine program for November 10.

It seemed to this writer that the Halloween party at the school was a success. It was a party for all ages, from the smallest child to the largest adult. The party was held at the school and was a great success. The children were very happy and the adults were very interested. The party was a great success and we hope to have it again next year.

PTA Observes American Education Week

The next meeting of the Parent-Teachers Association will be held November 10 in the High School. The meeting will be held at the school and will be a great success. The children will be very happy and the adults will be very interested. The meeting will be a great success and we hope to have it again next year.

Everyone is urged to attend as the program has been built around American Education Week, which is a special time set aside by the schools, to inform the general public and parents in particular of what the schools are doing for their children, and to urge the closer cooperation of teachers and parents.

At a special meeting last week Mrs. Maribel Boardman, County Chairman of National Education Week, asked civic organizations to stress the fact that the schools are doing for their children, and to urge the closer cooperation of teachers and parents.

The PTA is vitally interested in putting these facts before the public. It is hoped that the meeting November 10, will be a stepping stone in that direction, and will be attended by all those desiring a better school system for our town.

Florida Citrus Mutual Short On Members

The orange market took a decided drop during the past two weeks, due to heavy supplies of citrus on top of large quantities of other fruits and melons in the large market centers. The price for Florida oranges ranged from 11.75 to 12.25. With the cost of packing and shipping at about 1.50 a box, it is evident that the growers face another dangerous season. The citrus growers are working to stabilize the market.

Growers of citrus received about \$100,000,000 less for their 1947-48 crop as a result of the organized marketing methods. Orderly marketing is the first proposed objective of Florida Citrus Mutual, the growers' organization, now in process of formation.

Mutual is short of the goal of 75% of the production, which is necessary before it can begin to stabilize the market. A number of meetings are planned for November in citrus producing areas in an effort to sign up the required amount. The complete convention program will be necessary for the remainder of the year. The growers have not signed up as preventing those who have joined from gaining any benefit from the plan.

Week before last, Florida shipped 1200 cars of oranges and apples valued at \$4.5 million. This fact is a concrete illustration of what good marketing methods can accomplish.

Many of the outstanding people in the industry as well as business interests have urged that Florida Citrus Mutual be tried. They feel that this is the only thing in view now that offers any reasonable solution to Florida's second greatest industry.

With the ruinous prices being paid for fresh oranges, and canners who use a great portion of the crop paying about 45¢ delivered for oranges, disaster faces Florida growers.

State Cattlemen To Meet At Sebring

There are many events of interest to ranchers on the program for the annual convention of Florida State Cattlemen's Association at Sebring, Nov. 6-10.

There may be a proposal that a law be enacted to provide that cattle, even though three years old, be branded at the time of dipping to eradicate the fever tick at an end, be dipped every six months to prevent another outbreak of ticks.
