

WHEELS AND A CAR

There is something fine and great about a crasher. It shows the driver's skill and the car's ability to handle a bad road.

On a lovely stretch of road we found a half dozen of them. Some had walked nine miles to where they boarded the bus, others had walked only four or five miles. (Expressed in city terms this lesser distance would be approximately 65 blocks—all of this after a hard day's work in the woods.)

The logging operation was 21 miles from the mill. One truck (this was "Ed's" truck), had got the head of logs and had started for the mill early in the afternoon. An hour or two later a second truck got the load and started for the mill with the woods crew and all the gear.

But only a mile from the last tree and in some of the worst roads Florida offered, the driver of the first truck, who was a lumberjack, was hit by a stump which he had cut and had caused the truck to stop and back up a few feet.

Due to this transmission got locked in reverse. All of the tools and mechanical talent aboard could not get it unlocked. Two hours of unsuccessful effort and approaching darkness forced the general decision to start walking.

They had gone about five miles (getting one ahead of the other) when one of the men saw something up ahead in the thick darkness that looked like a truck. This conclusion that "Ed" was waiting for them was correct. The pilot of the first truck, was waiting, with his helper, to ride in on the second truck. He had turned up his transmission.

So the whole outfit pitched in and walked another four miles to the highway. The party had a lively time on the bus for the next few miles. Each talked as if the misfortune did not affect him, but was a great joke on the rest of the outfit.

The one they called "Ed" was over sixty. His leg was "topping," he told me. This is rinning the trunk of branches and cutting off the top with an axe, after the tree had been cut down with a power saw. Said he "never got tired." Can do a lot of walking but has to do it slow.

A younger man said there were "really big bear tracks all over those woods." That he "felt sorry for Dad, coming out there in the dark by himself a half mile or more behind."

But he reminded it out this way: "If a bear should get poor Dad, and I was back there with him, the bear would get me too. So I figured I could save one of us by keeping up with the crowd."

(There was a lot of this sort of discussion. The softness toward Dad may have been influenced by the fact that Dad had financed all of this that had any money.) All, including Dad, got off the bus in the best of humor about 6:30 p. m. None had had anything to eat since noon. And from the bus stop they had only about two miles to walk to the mill site where they lived. I love a cracker who can have so much fun out of a lot of trouble.

## Better Farming On More Farms

It's one thing to discover a better farming practice through research and experimentation and quite another to have the better practice adopted by a substantial percentage of the farmers in the county, says C. Parker Anderson, Chairman of the Highlands County Agricultural Conservation Committee.

This is especially true where there is considerable expense in getting the new practice in use on the farm and often the returns are delayed.

Because of immediate costs and delayed return from the investment, farmers often are unable to carry out needed practices. But, the chairman points out, the Agricultural Conservation Program has been effective in getting such practices into use on a great many farms of the county where otherwise they would be delayed and possibly never carried out.

Through assistance provided by the program adoption of the better methods—especially better methods of conserving and strengthening the soil—has been widespread and effective, the chairman points out.

With the Agricultural Conservation Program operating in every nearly 8 million farms,

## State Board Of Health Campaign

A "grass roots" campaign to find approximately 4,000 unknown cases of infectious syphilis will be conducted by the Florida State Board of Health during July and August, Dr. Wilson T. Sowder, state health officer, declared here today.

Federal funds have already been allocated for the work.

The program will "lie in" with a nationwide educational drive to stimulate syphilis case-finding in local areas.

Purpose of the campaign is: To educate all people so that those who have the disease will recognize the symptoms and seek medical care.

To persuade those who have the disease and suspect or know it, to seek adequate medical care;

To further educate those who have had syphilis to guard their health so that they will not get the disease again.

Dr. Sowder said that there were 15,484 cases of syphilis reported last year. Out of that number, 4,847 cases were early, infectious syphilis.

"Syphilis can be eradicated only by eliminating the infectious stages that are spread from one person to another," he stressed.

Five State health department venereal disease case workers are already in the field ready to begin July 1 visiting various communities to promote the campaign.

They intend to carry important messages about syphilis straight to the people through the use of portable loud speakers, and record players, pamphlets, posters, etc. The recordings were made by top-flight screen and radio stars and produced by Columbia University.

Dr. Sowder said that this type of a health education campaign is new in Florida.

## Farmers, Citrus Growers And All Drivers

Under the new law which goes into effect July 1, 1949, all motorists and drivers are required to have liability insurance at the time of an accident.

The old law required liability after the first accident, the new law requires that you have liability insurance when involved in an accident and it is your fault, you will have to pay the damages.

The Florida Safety Council does not sell insurance but we are urging drivers for their own protection to carry liability insurance, otherwise, you may lose your car, home or anything you may have due to lack of proper coverage.

While listening to the arguments on this responsibility law in Tallahassee, it was developed that the passage of this law would reduce traffic accidents and also remove the irresponsible driver from the highway, it will compensate you and your family if injured in a traffic accident and tend to reduce liability insurance rates.

We are asking everyone who uses an automobile or truck to get protection before they lose their driving privilege, as well as other personal possessions.

# How about the Glorious 5th?

There are no part-time Americans when it comes to being good citizens every day. But do we? The shocking fact is that almost half the eligible voters in the land stayed home from the polls in the last presidential election. And you only have to look around you to see countless other examples of part-time citizenship—the jury duty dodgers, the parents who don't belong to the P.T.A., the Union members who consider their duty done when they have paid their dues, the Stockholders who don't vote.

Remember, celebrating Independence won't keep it for you. You have to work for Freedom. And in this country it's a full-time, 365-day-a-year job—it takes 150 million full-time citizens to do it right!

EVERY HOME should have this guide to the Rights and Duties of an American.

Do you know your rights? Do you know the nine keys to good citizenship—the how and why of each? You'll find all this useful information and many other interesting facts about your country in this handy little booklet. Send \$2.00 to the American Heritage Foundation, 17 East 45th Street, New York City.

## Are you a full-time citizen? Check here!

- ☐ Do You Find Out Election Issues? Attend local political gatherings? Hear both sides? Ask questions? (N.Y.O.W.I. issues?)
- ☐ Do You Vote Intelligently? Is All Elections? No election is unimportant. Vote in all of them, according to your conscience.
- ☐ Do You Serve Gladly On Juries? If you haven't served before, you'll be surprised to find how interesting and important it is.
- ☐ Do You Join Local Civic Groups? Being to Parents-Teacher's Association or serve on School Board? Good education promotes Freedom.
- ☐ Do You Vote In Union Elections and Stockholders Meetings? Help make decisions that affect your life. Don't let others do it!

## Clubs

Wedding Plans.  
For Miss Gee  
Announced

Mr. and Mrs. Arthur C. Gee of Sebring have announced the wedding plans of their daughter, Miss Winona Gee and George B. Gribble, son of Mr. and Mrs. H. Gribble of this city.

The wedding will be an event of Saturday, July 9, at seven-thirty at the First Methodist Church in Sebring, with Rev. E. F. Carwithen officiating.

Miss Gee will be given in marriage by her father, Arthur C. Gee. Mrs. Russell L. Courson, Jr., of Winter Haven will be her sister as matron of honor and bridesmaid will be Miss Betty Ann Cuddy of Sebring. Miss Joyce Gee, sister of the bride will serve as junior bridesmaid.

Lloyd Gribble, brother of the groom will be best man. George Nader, George Childress, Wendell Smith and James Harris, all of Avon Park, will serve as ushers.

Miss Harris Gives  
Summer Party

Heard any noises lately? If you have don't be surprised. Thursday night, there was a big slumber party at the home of Roberta Harris.

After consuming Cokes and potato chips, the girls settled down to a nice quiet evening of telling ghost stories. After some horrifying ones, a curtain was seen to be moving out and straight up (with the window closed and apparently no one near it). There was thought, it was found out later.

A couple more stories were told when it was discovered there was a strange light in the middle of the room in mid-air. When someone finally got enough courage to move it was just a watch tied to the light cord.

It was practically daylight then so with the roosters crowing echoing in their ears, the girls got up and went to the City Beach at Lake Loletia where they went swimming and had a picnic.

About 12:30 everyone went home and went to bed. Their remark: Oh, well, who wants to sleep at night anyway.

Those enjoying this exciting night were Myra Sapp, Virginia Landress, Wilma Giddens, Gerry Elder, Jane Suggs, Norma Thompson, Joan Harris, Beth Suggs, Pat Boyard, Beth McBride and Roberta Harris.

Fishermen, during dry weather it takes only a spark from a cigarette, cigar, or match to start Florida's piney woods to burning. Charred sediments pollute Florida's fishing streams and kill her fish. For better fishing, help keep Florida green.

BOYS RATE BLAZER TOPS FOR SUMMER LEISURE  
Junior Copies Styles Set By Dad

BOYS CHOOSE BLAZERS FOR SUMMER SPORTSWEAR... Like Pop, these lads like color in summer sports clothes and insist on looking neat and well-groomed, too. Their choice for travel or resort leisure wear is a bright striped or solid fauon blazer and contrasting fauon slacks—(B692)

NEW YORK—The modern boy is running a close second to Dad when it comes to clothes consciousness. Previewing summer styles for boys recently, the Wool Bureau reports increased interest in fashion by the growing male generation of the nation.

The lads give every indication of following Dad's example in how to dress—and especially

how to keep cool and neat for warm weather doings. First choice for dress-up clothes, for example, is a smart single-breasted tropical worsted or gabardine suit. For sportswear, it's a gay candy-stripe or solid blazer. For the more practical, a new lightweight tweed jacket with a quiet all-over pattern.

When they take to the water in the coming season, these

young male heroes will demonstrate a strong preference for wool briefs and trunks. They like the body-hugging look of wool and its comfort-making qualities.

For the tennis courts, these lads are finding to have named the traditional tennis sweater as the top flight fashion. Wool polo shirts and shorts rate too.

## Social Activities

## Fascinatin' Fashions

By  
Judy Seaton

Vivacious Dorothy Babbs is playing both ends against the middle... she makes frequent appearances on the "Lambie Gambler" television show, while at the same time holding down a part in the Broadway hit "Lead An Egg".

For those of you facing the same busy schedule, Dorothy dashed off a formula that makes fashion sense— inexpensive multi-colored scarves to double your working wardrobe.

Take a large (36") scarf—fold one side of the square two or three times—place the folded side around your neck, bringing the opposite scarf ends to the front—and tie in a little bow. Now tuck the scarf into skirt belt, fling your jacket over your shoulders, and you're ready.

Another multiplier—make triangle of scarf. Fold the scarf in half with point of triangle hanging down, a half knot at neckline. Now cover bottom with scarf and button through as you fasten your jacket.

An accessory for fun! To make a hobo bag, the opposite ends of the scarf are knotted—then tie the other ends. Flatten to small pouch. Fill pouch with beach or picnic accessories, and with the stick on your shoulder, you're off!

Or why not make a simple blouse, with two scarves—one plain, one printed? Place right side of the scarves together, leaving about 11" open in center; gather 1 1/2" on

Petite Dorothy Babbs models one of her scarf styles... an example of minute magic.

either side of the 11" band opening, shir to fit shoulders. Let extra 5" hang softly off shoulders. Then measure for armholes, seam to side and presto!... a turnabout blouse! Leave one of these simple scarf blouses at the office, and you'll always be prepared for that last-minute date!

Church Circle Meets With Mrs. Bass.

The Olive Lawton Circle of the First Baptist W. M. U. met at the home of Mrs. A. G. Hansen for its regular business and Bible Study meeting, Tuesday.

Mrs. W. G. Robinson was chosen to represent the Circle in the W. M. U. nominating committee, and Mrs. Talmadge Suggs was elected secretary of the Circle.

Mrs. Coen led an interesting study of the Bible.

The hostess served delicious refreshments of home made coconut cake, ice cream and nuts.

Members attending were the Mesdames: Bernice Johnson, W. G. Robinson, Paul McFarland, J. B. Coen, Jr., A. G. Hansen, J. M. Davis and Talmadge Suggs.

A picnic ground on the Florida Forest Service's Plymouth Tower Site in Orange County has been visited by people from more than 22 of the United States, Bolivia, France, and Scotland and Canada.

Norfolk, Va., claims to have been the first to have a kind-drying plant for wool.

Be careful! Woods fires destroy lives, homes, crops and timber.

4-H Better Methods  
Activity Benefits  
Home, Community

Time and motion studies are not tools of industry alone in Florida nearly 200 farms have become proving grounds where boys and girls enrolled in the 1948 National 4-H Better Methods Electric awards program are finding easier and better ways of doing a job. Everything from unloading to washing dishes is analyzed to save time and energy. The family and community alike benefit from more efficient practices developed through this activity.

Guided by club leaders and county agents, 4-Hers are "learning by doing" some of the 300 ways in which electricity is used on the farm. Doing the family wash, roasting a chicken, pumping water, milking cows, and making minor electrical repairs are only a few examples of tasks the teen-agers try to improve. And on farms where electricity is not available (about 30%) better methods of doing everyday chores are worked out and practiced.

Club members keep records of accomplishments, and for the best in each county the Westinghouse Educational Foundation presents a gold-filled medal of honor. The state winner is given an educational trip to the National 4-H Club Congress in Chicago, and to the six top ranking members in the

awarded. To the county in Florida reporting the most outstanding 4-H better methods electrical program, Westinghouse sends an appropriately inscribed plaque.

County medal winners in 1948 in Florida were: Nelson Lewis Dade; Roy Floyd, Escambia; Howard Kilgore, Hillsboro; Gene Smith, Jackson; Chester Weinman, Lake; Lois Moore, Madison; Ralph Sales, Orange; Leonard Peterson, Volusia.

The Cooperative Extension Service supervises the program.
