Add errors: Mr. Floyd Hayes was at Weems Hospital, Sebring, not Walker Memorial. Mr. Koumbaras Koumbaras visited his son-in-law, Mr. George Mostris, not his daughter, Mrs. Mostris, who, of course, is still in Greece. Sorry.

Mr. G. L. Clapp of Macon, Ga., paid a brief visit to his cousin, Mrs. Helen L. Lincoln, who resides at Walker Memorial Hospital and Sanatorium.

Last week we rather too hastily reported that Mr. and Mrs. Elbert D. Chapin were moving to Jacksonville. Apparently, Mr. Chapin did consider going to Jacksonville, but has decided to remain here, at least for awhile. We regret the erroneous report, but are glad that it was incorrect.

## AVON PARK SERMONETTE

By Rev. Frank M. Butler  
Church of the Redeemer  
St. James, Apostle and Martyr  
Ye know not what ye ask. Are ye able to drink of the cup that I shall drink of and to be baptized with the baptism that I am baptized with? (St. Matt. xx, 22)

In the Gospel for St. James' Day in the book of Common Prayer the two sons of Zebedee, with their mother, came to Jesus and asked for positions of honor in the kingdom of God. Jesus answered: "Ye know not what ye ask."

The application of these words is universal. We know not what we ask even in the simplest prayer. Supposing that we ask God that we be made over into true Christians? Do we realize at the moment that the granting of such a request may mean deep humiliation of the soul, bitter shame for the past, sharp discipline, loss of friends, being crucified to the world and many other things which we naturally shrink from? Christians in all ages have found that to be an authentic Christian involved a complete change in one's manner of living and a completely new set of values. Perhaps Christians in our own day will discover with the Abbe Gedin that, "to be a Christian is not to become a member of a party," which fights for the right ideas. It is not to be respectable. It is to give up one's own life to the cause, the cause of Christ, to a person the Lord Jesus. To be a Christian is not to put on an overcoat of religion for one hour on Sunday. One recognizes a Christian because of the practical and active way in which he loves his brothers. It is in one's whole life that one is a Christian.

When our Lord said to St. James: "Are ye able to drink of the cup that I shall drink of?" He was surely thinking of both the inward and outward sufferings which the psalmist foretold of the Son of God: "I am come into deep waters, so that the floods run over me. They that hate me without cause are more than the hairs of my head. They that are mine enemies, and would destroy me, are many."

All of us, like St. James and St. John, face the question: "Are ye able to drink of the cup that I shall drink of?" Like the two brothers we are not able and yet we are able. We are not able of ourselves to do anything as of ourselves, but we are able through Christ to endure what God allots to us.

God grant that we, forsaking all worldly and carnal affections, may always be ready with Blessed James to follow the calling of our Lord Jesus Christ in all ways in which He shall lead us.

AVON PARK, FLORIDA, FRIDAY, JULY 28, 1950

NUMBER 37

## R. R. Brown Made Manager Apalachicola Division FPC

Announcement was made yesterday by W. W. Wolff, vice president of the Florida Power Corporation, that R. R. Brown, manager of the utility here, had been promoted to manager of the Apalachicola division of the utility.

Mr. Brown and his family expect to leave Avon Park in the near future. He will have charge of Florida Power's operations not only in Apalachicola but other towns in northwestern Florida served by the company.

In making this announcement Wolff said, "R. R. Brown is one of our most valued executives, and this latest promotion comes in full recognition of his outstanding abilities not only in the utility field but as a civic worker without peer."

During his 14 years' residence here, Mr. Brown has been president of the Rotary Club, Community Chest, and Chamber of Commerce, chairman of the Bond Campaign and March of Dimes, and is at present Highlands County Chairman of the American Cancer Society. He has also been an enthusiastic worker in many other civic activities here.

At press time last night no successor had been appointed to succeed "Brown" here, but executives of the company assured this paper that an announcement would be forthcoming in a few days.

## Federal "Aid" Bills Reach Total of 307

Uncle Sam has a bargain basement sale in the making with a total of 307 attractive offers of financial aid to state and local governments. All the Federal Government wants in return is a bigger say in running hometown affairs.

In a special study released today State Chambers of Commerce added the bills for Federal aid before this 81st Congress and came up with the total of 307.

If all of them were passed, they would add approximately \$3,200,000 to present Federal spending the first year and \$6,000,000,000 a year by the sixth.

None of the bills hinted that the people in the states would be in full by Federal taxes, for the very "aid" they were offered.

These proposals cover 41 different types of grants-in-aid. They include such measures as spending \$80 million for the Federal Government to enter the character training field and another \$30 million to promote the health and soundness of youth.

Federal grants-in-aid to state and local governments have grown steadily since the end of World War II, both in total dollars.

## Entarged Production For War-Time Crises

Mrs. R. K. Bachell has an ordinary, average Rhode Island Red hen that consistently lays double-yolked, out-size eggs, really more the size of duck eggs than chicken eggs. The hen usually lays every other day, sometimes every day, and always double-yolked. Except that she once outdid herself, producing a larger egg which contained three yolks.

So, when Mrs. Bachell again found a larger egg in the hen's nest, she called a witness. It was a bad egg, all right—about three inches long.

Mrs. Bachell first broke one of her hens' everyday eggs. Yet, two yolks in it. Then, while the witness watched with suspended breath, she broke the larger egg. Oh, shoot! Only two yolks again. Apparently, the hen had fooled by adding two whites to the ingredients that time, instead of an extra yolk.

No one knows why the hen should double the contents of her eggs, unless being a family pet, as are all the Bachell chickens, has made her so contented that she doubles her efforts.

Is This You?

You were seen Wednesday afternoon on the Mall walking in front of the Jacaranda Hotel wearing tan pants, gray shirt and brown shoes. You are about 5 feet 9 inches tall and have graying black hair. If this is you, call the Sun office or Hilans boxoffice and receive two passes to see Maureen O'Hara in "Bachelors" Thursday and Friday.

Last week's "Is This You" was Mrs. Spike Rhiner.

## 3 Teams Tied For Softball Lead

By Leslie LaFlam

Stimson's Gulf softball team completely upset the dope bucket and Demos Mandis too by handing the Mandis team their first whipping of the season. The Mandis aggregation went into the first half of the season with no losses and were riding the undefeated trail till the O'Brien surprised all the fans, including the winners by scoring three runs in the seventh frame and sewing up the game. H. B. George Grubbs, slugged a long fly to left center with the bases full and it fell for a double, and all hands crossed the plate. It is rumored that the price of milk at Mandis Dairy went up the next day.

The second game proved to be a dilly, the Boy Scouts who were unable to win a game in the first half of the season and bolstered by such Tenderfoot Scouts as Crocker Crawford, Robert Barben and Ed Touchton slipped a 17-7 win over the Firemen. The Scouts were all the way, and the coaching of Parson Graetz had the Scouts awake all the time. The Firemen were hampered by a few hard luck players that night. Mack Flowers was caught at plate twice and the first time when he was trying to stretch a three bagger into a home run.

The Roscoe Skipper team defeated the Exchange Club 9-7 in the first half opener. Thursday night to bring their second half record to one win and no losses.

## A&P Will Resist Any Unwarranted Price Increases

The great Atlantic & Pacific Tea Company, largest food distributor, served against inflation today by pledging to "resist all unwarranted price rises with all our might."

The pledge was contained in one of the rare public statements issued by John A. Hartford, chairman of the 31-year-old food chain, who said that A&P "will cooperate unhesitatingly with our national government in the present crisis."

We will make every effort to hold our inventories at the lowest point consistent with good service to our customers," he said, "because hoarding, whether by wholesalers, retailers or consumers, will cause higher prices."

"We will continue to maintain the lowest profit rate generally prevailing in the entire retail industry. Our net profit now is less than one cent on each dollar of sales."

Mr. Hartford said a full statement of the company's policy in the current national emergency will appear over his signature in national wide newspaper advertisements this week.

## CITIES MAY USE CIGARETTE TAX FOR SIDEWALKS

Cities may use their cigarette tax receipts to construct sidewalks, Attorney General Ervin said Tuesday.

Ervin said sidewalks are not specifically listed in a cigarette tax law setting forth the purposes for which funds can be used.

## Highlands County Over On Bond Sales

Gunnard Mackey Chairman of the U. S. Treasury's Savings Bonds Committee for Highlands County announced today that the report of the final week's sales in the Independence Drive added \$42,497 Sales Ex. U. S. Savings Bonds to the previously announced total of \$39,147. This brought Highlands County's figure for the campaign up to \$81,644 which is 233 1/3 of the county's quota of \$35,000.

The promotion period of the campaign which featured an exact replica of the Liberty Bell as its symbol, extended from May 15 to July 4. The accounting period ended July 17 to permit the processing and transmission of sales resulting from the drive activity.

The final week's report added \$35,000 to the state total which brought the state sales to \$9,017, 325 or 109 1/3 of its quota of \$8,250,000. The people of the nation bought 109 1/3 of the national quota in Florida finished in 18th place nationally. In all, 44 of Florida's 67 counties overachieved their Independence Drive quotas.

Highlands County Savings Bond Chairman Gunnard Mackey stated that he had received an expression of gratification from State Advisory Chairman V. H. Northcott of Tampa and R. L. Markham, State Director of the Savings Bonds Division.

The people of Florida and of Highlands County they point out that individuals in Florida have increased their holdings of Savings Bonds by more than \$9 million since the information has been disseminated by more than \$12 million if held to maturity in 1960.

## Avon Parkers To Be Alerted

All the office help drowsing over their hot desks at midday, the housewives catching a short nap before their men come home to dinner, and all the home-dops snoozing under porches, are going to be startled from their slumbers at high noon August 1st, and every noon thereafter, by one long wail from a siren.

In other and more serious words, the City Council of Avon Park, having learned that a good many citizens would approve such a siren, has ruled to begin August 1, the whistle at the fire station shall be blown at 12:00 M. and 12:00 P. until about two years ago.

Well, at any rate, we'll know why the time it is at least once a day.

## FREE MOTION PICTURE FRIDAY NIGHT

A motion picture, "Teaching Time to Drive," will be shown Friday night, July 28, at 7:45, in the Mail near the Police Station. It is being sponsored by the Drivers' Education Program, and was announced by Don Hansen, of Sebring, in charge of the program for Highlands County.

This is an interesting and instructive movie, and everyone interested is urged to attend.

## High Prices For Milk Hits Florida Schools

High prices are keeping milk off school lunchroom menus in many Florida schools, according to Mrs. Thelma Flanagan, Department of Education school lunch supervisor.

Mrs. Flanagan reports 7,000 of the 148,000 children who ate lunch in school last year couldn't get milk with their meals because of the high prices charged the schools.

She said a drop in the milk price to 5 cents a half pint would save the state schools \$300,000 a year.

Price-fixing by the Florida Milk Commission, which sets a minimum price on milk sales, was blamed for the high prices and Florida county school superintendents voted to ask the Commission to exclude school from the price controls.

Prices now range from 5 cents to 7 cents a half-pint. That's from 20 to 32 cents a quart. Avon Park schools were paying 5 1/2 cents at the end of the school term.

## Broward County Sheriff Suspended

Following a brief hearing, Sheriff Walter E. Clark of Broward County was suspended by Governor Warren. Clark testified before the Kefauver senate crime committee that he was a partner in an operation which had \$241,000 in business in 1945 and 1946 and which paid income taxes on 100 slot machines. Clark did not make any statement before the governor, other than to admit his identity and to answer that he had testified before the senate committee. Warren's order of suspension is the second time that Clark has been removed, once before by Governor Holland. He was reinstated by the state senate. Warren will appoint a successor who will serve until the next meeting of the legislature.

The Avon Park Junior American Legion baseball team defeated the Wauchula Legion 4-3 in the semi-finals of the District Eight playoffs at the Wauchula baseball field Wednesday night.

The boys played Wauchula in the District final last night (Thursday) after the Sun had gone to press, so we will have to wait for the results in the next issue. Bobby Wootton started from the mound for Avon Park, pitching a 1-10 game. Avon Park started the game, Mandis and lost to Ft. Myers in the final elimination game in the district of 26. The issue held off in working the Boston Legion to a 2-2 tie last Tuesday and Wednesday afternoon. They came out to face with the team that had the this summer won over them. Ft. Myers Avon Park scored on the road to send the Lee County boys home with a 3-5 thrashing. Bill Saunders and Crawley walked, turned a double. The leading hitter for the Lee County team was a single. The Lee County team was defeated in a sudden death game. The Wauchula team was undefeated in tournament play and needed to win that game to take the tourney. Avon Park went ahead 1-0 in the third frame on the strength of Ralph Hill's long home run blast over the center field fence. Wauchula rallied for three runs in the fourth inning. Saunders and Crawley walked. Whidden lashed a sharp single to center and Saunders and Crawley scored. The other tally came on a ground out.

Avon Park rallied for three runs in the sixth frame to take the lead. Harvey gained first on an error. Whitecomb fanned for the first out. Cowart lashed out a single sending Harvey to third. Dug Fields sent both runners home with a well placed single. Hill rapped a base hit off the pitcher's glove to score Fields with the fourth and final run. Wauchula threatened to tie up the game in the sixth frame by putting runners on second and third with two easy hits walked. See to lead the bases. The last man fanned to end the threat and the Hardee county boys' scoring chance.

EVERYTHING that has happened in Washington recently has been centered on the Korean war. Most significant was the shoring of the tax bill by the senate which would have slashed excise taxes by about a billion dollars and the unanimous endorsement by the house foreign affairs committee of the administration's plan to request \$1.5 billion dollar arm aid program for nations resisting Communism.

But in the face of President Truman's request for an appropriation of \$50 million for a new "campaign of truth" against Communism throughout the world, the senate by a 55 to 33 roll-call voted down a fund boost for the Voice of America program.

Except for the vote on FEPC, the backbone of the President's civil rights program was defeated by a southern-Democratic-Republican coalition. It appeared that the Democrats were drawing nearer together on party unity than the Republicans on the basis of test votes. These votes showed the Democrats were standing together on an average of 85 per cent of the time while the GOP minority showed only 72 per cent party regularity.

While there was some criticism of the administration and the President from sources whence criticism would come in any eventuality, among the responsible leaders on both sides of the political fence there is almost unanimity in support of the President and his stand on the Korean question. Unfortunately, this does not include the two principal leaders of the GOP in the senate, Senator Robert A. Taft of Ohio, who backs the GOP policy committee, and Senator Kenneth Wherry, the senate GOP floor leader.

Had this country defaulted on its given word as did Russia in Korea, then probably the Soviet puppet North Korean government would never have dared to invade the Southern Korean Republic before the 38th parallel. But this nation has a reputation for keeping its word with other nations and, what is to be expected from the home front.

## State Accepts Two Top-Notch National 4-H Award Programs

Two highly important national 4-H awards programs, Meat Animal and Soil and Water Conservation—have been accepted for the current year by the Florida State Club office.

This will be the 21st consecutive year that The E. Wilson, most popular and chairman of the National Committee on Boys and Girls Club Work, has provided incentives to help encourage 4-H boys and girls in livestock club work. Awards in the Meat Animal activity include gold-filled medals, gold watches, Chicago 4-H Club Congress trips and \$300 college scholarships, on county, state, sectional and national levels, respectively.

The Soil and Water Conservation program is now set up for two age groups—one for boys and girls 15 to 21 years old, and the other for those 10 to 14, inclusive. The older group has been expanded to complete a more comprehensive project.

Medals for county winners, and gold watches and \$25 Savings Bonds for State champions are provided by Firestone Tire and Rubber Company. Sectional winners get Chicago Club Congress trips. National awards are \$300 program is the result of combined planning by representatives of the Cooperative Extension Service, Soil Conservation Service, Firestone, and the National Committee.

Lloyd Bradley, of Tallahassee, Manatee county, won both national and State honors last year in the Soil Conservation program. Charles Congdon, of Haines City, Polk county, was the State champion in the Meat Animal project.

Complete information on these programs may be obtained from County Extension agents.

## OPINION OF THE ATTORNEY GENERAL

In an opinion to Marion H. Grace, County Commissioner, Highlands County, the Attorney General held that if a county judge failed to approve payment of the statutory fee for an investigation made by the constable authorized to make such investigation by the prosecuting attorney of the county judge's court, the board of county commissioners has no statutory authority to pay the fee. It was noted that as a practical matter, it would appear that if a constable entertains any doubt as to whether or not approval would be forthcoming for such an investigation, then the constable may first seek an approval from the court having criminal jurisdiction of the matter before proceeding to investigate.

## Weekly Business Review

Striking variations in population size and growth in the six congressional districts in Florida stress the increasing need for new district lines in the State, the Florida State Chamber of Commerce pointed out yesterday.

Florida's most populous district is reported in this week's business review of the State Chamber's research and industrial division as having 24 per cent of the 2,734,116 total population of the State. The State's smallest district includes less than half that number of persons. Further, the two most populous districts in Florida contain 45 per cent of the total State population. All figures are preliminary but final census totals will not vary highly.

Rates of growth of the population of the districts during the last decade have varied from 82 per cent to 27 per cent. The State's population increased 44 per cent.
