Armed Forces Day May 20; Open House At Armory

Battery C. of the 712th Anti Aircraft Gun Battalion will observe Armed Forces Day, May 20, by holding open house at the Avon Park Armory from 2 P. M. to 4 P. M.

In former years, the Army, the Navy, the Air Force and the Marine Corps have had separate "Days". But now that the services have united under the Department of Defense, it is only fitting that they unite in their report to the Nation on this first Armed Forces Day. The purpose of Armed Forces Day is to familiarize Americans with the state of national defense and with the organization of the Armed Forces. Since its organization in July 1949, Battery C. has increased its membership from 15 to 40 men. Its quota is 50 men. It has also received hundreds of pieces of equipment, including trucks, jeeps, machine guns, carbines, field kitchen equipment, and a ten ton 90 M Gun. Battery C. will do its part to familiarize the people of this area with the armed forces by holding open house and displaying the equipment which is used in the anti-aircraft battery in combat.

Radio and telephone equipment, highly essential in the communications systems of modern warfare will be displayed and explained by Sgt. P. C. Holmes, Kenneth Lee, and P. F. C. Robert Palmer.

The ten ton tractor which is used to handle the 90 M gun will be in charge of Cpl. Brady Parrish of the motor section. A complete soldier's field pack which consists of everything from bedding to kitchen utensils will be displayed by P. C. Williams, McGuire.

A field kitchen, including all cooking utensils, gas ranges, water bags etc., will be set up by Sgt. First Class Willie M. Strenth, Ret. Ronald Langford, and Ret. Fred M. Brown.

In the small arms section, 50 caliber machine guns, .30 caliber carbines will be shown by Cpl. Eldon Cobb, P. F. C. Leven T. Landress, and Ret. Billy Morrell.

The 90 M Gun, with a range of approximately ten miles will be set up in the rear of the Armory and manned by the following men: R. C. Thomas, J. Grice, Bobby J. Barnes, Jimmy W. White, Hurst, Owen Pose, George Wilkes, Owen E. Prescott, and Norman Riley.

Many of the personnel of Battery C. are ex-combat men but a large percentage are younger men who are taking advantage of the pay and schooling offered by the National Guard. In addition to receiving their clothing and food, full pay per month, the members of Battery C. may attend army schools throughout the United States. While in attendance at these schools, they are furnished clothing and food. They will receive full pay per month for their respective rank. They may take most any course they desire, including radar, radio, mechanics, mathematics and many other technical courses. The courses range from six weeks to twelve months.

The average payroll of Battery C. is twelve hundred dollars and will increase as the full quota is reached. On July 2, Battery C. will join other Florida units in their annual 15 day summer training at Camp Stewart, Georgia. In this intensive training, the personnel will use the equipment under simulated combat conditions. The gunnery crews will receive ground firing as well as ground to air practice.

AP Children To Be Registered For 1950-51 School Term

Dear Parents: You are urged to bring your child who will be a beginner in our school next year to the Avon Park High School Auditorium on Thursday, May 25, at 9:00 A. M. for registration for 1950-1951 school term. The Highlands County Health Department under the direction of Dr. Beaumont and assisted by Mrs. Rankin has consented to be present on that day to give physical check-ups to any children whom the parents desire to have it. This is a great aid to you parents because it gives you sufficient time to make proper corrections of the physical defects of diseased tonsils, decayed teeth, and other defects that a child may have before he begins his school year in September.

We hope to make this a profitable occasion for you and hope that you will cooperate with us by being present on the above date. Be sure to bring to the clinic on May 25 a copy of the child's birth certificate or other accurate evidence of proof of age.

P. T. A. mothers will serve refreshments and look after the children. It is suggested that those who can, bring play toys to help entertain the children while they are waiting to be checked.

Yours truly,
W. W. Driggers
Elementary Principal

Mrs. Frank Morgan Guest Speaker At Rotary Wednesday

Mrs. Frank Morgan, Highlands county music supervisor, was the guest speaker at the regular Wednesday luncheon of the Avon Park Rotary Club this week. Mrs. Morgan gave a very interesting talk of her work with the teachers of this county, and explained that starting in the first grade the children are taught to carry a tune, and when you learn to carry a tune singing comes naturally thereafter.

President, Vaughan Driggers, presented Mrs. Morgan with a Certificate of Appreciation from the Club for her talk.

Six high school students were guests of the Club, and presented two vocal numbers that were greatly appreciated by everyone present. The girls trio made up by Lynn Longbottom, LaVerne Purvis and Joyce Thomas rendered the first number, and this was followed by the three young Misses and Edgar Faber, Bruce Spencer and John Clements, accompanied by Mrs. Morgan at the piano.

Billy Wingfield, is the Junior Rotarian for the month of May. Visiting Rotarians at the meeting were Charles Goodman of Orlando; Bill Pharris of Frostproof; E. F. Armstrong and R. L. Maxson who spend part of the year in Avon Park. Art Kinney, editor of the Avon Park News, was also a guest of the Club.

Had it not been for the fact that four members were out of the City the Club would have enjoyed a hundred percent attendance.

Blueprints For Avon Park Tourist Center To Be On Display

The proposed new Tourist Center to be erected in Donaldson Park is moving towards becoming a reality. The blueprints will be completed this week, according to W. J. Heim, Avon Park architect who is drawing them. Bids from contractors to construct the Center will soon be advertised for by the City of Avon Park. Reason Shivers and M. Kirkland have been chosen by the City Council to represent the City in pushing forward the work on this new project.

A copy of the overall plans for the complete Donaldson Park project, including the proposed Chamber of Commerce unit, library unit, band shell, etc., will be posted in City Hall, so that the citizens may have a clear picture of what the intended Civic and Tourist Center will be like.

The present City Administration plans to erect the Tourist unit, with the hope that following year, they will see the other units added, one by one, until the Center is complete.

Blowhere in this paper will be found a notice that the City is advertising for bids to purchase the present Winter Guest Club building.

Murderer Returns To Scene of Crime

This is the sad and unusual story of a veteran rattlesnake with only one fang who killed a rabbit being chased by a dog, and killed the dog that chased the rabbit, and died therefrom.

A number of men, accompanied by a dog, were working this week in the grove owned by the Avon Florida Citrus Corp., about the distance of one block north of the airport. The dog chased a rabbit into the woods. Suddenly, the men heard the dog yelp with pain. The rabbit rushed out of the trees, and fell dead. The dog was still alive when found, but died in spite of being rushed to the veterinarian at Sebring.

Both the rabbit and dog had been bitten by a rattlesnake, a snake swift and venomous enough to strike both the pursued and the pursuer as they dashed upon the five.

Elton Thompson, one of the grove workers, suggested that the snake might return to the fallen rabbit, and so the body of the furry victim was watched. The snake indeed returned about four hours later and was killed by the men in the very act of swallowing the rabbit.

The rattler measured five and a half feet, and had 14 rattles.

Mr. and Mrs. A. T. Annalee of Miami visited Mr. and Mrs. George L. Harrison here last Monday evening, May 15. Annalee is Mr. Harrison's nephew.

AVON PARK SERMONETTE

REV. HERBERT D. GRAETZ
Union Congregational Church

E. Stanley Jones tells the story of a missionary doctor who was crippled of everything by bandits. Afterward one of the bandits came to the doctor's hospital for an operation. They recognized each other. The bandit was now in the doctor's power. He used that power to forgive and heal and in doing so interpreted the meaning of Christ to the man who had robbed him.

In Job 33:23 we discover Eliphaz saying that to suffering men an angel of God sometimes comes and interprets their pains and sorrows. Man needs interpreters. He turns to the astronomer for knowledge of the heavens above. The Geologist reads for him the story written by flood, ice and upheaval in the earth. The saints and seers have left for him their testimony concerning the inner voice of conscience and the moral sense. The great prophets have given him the revelation of God's wisdom, power and holiness. However, Christ is God's real interpreter. Christ is God made visible.

"He that hath seen me hath seen the Father". The pity, compassion, grace and redeeming love that we see in Christ are that which is at the heart of God.

Christ needs interpreters. So many must see Him, if they are to learn how holy and loving and forgiving Christ was. They must learn it by seeing those qualities exhibited in our lives.

"The dear Lord's best interpreters are humble human souls. The Gospel of a life like hers is more than a book of scrolls."

A Hindu speaker, addressing a Hindu audience, told of an incident that illustrates the possibility of the presence of Christ becoming incarnate in you and me. Said the speaker: "I once saw Christ, and I have never forgotten the vision. The plague was raging in the city and everybody had fled in terror except the sick and dying. Whole sections were deserted. I drove down through the plague-stricken section, and to my surprise I saw a missionary lady coming out of one of the houses where there was plague. She came with her hands extended before her, and she said, 'I am sorry, that I cannot shake hands with you, for my hands are plague-stained.' As I looked at her with her plague-stained hands I saw Christ."

"From scheme and creed the light goes out,
The saintly fact survives;
The blessed Master none can doubt,
Revealed in holy lives."

NEW STATE SAFETY COUNCIL

Tallahassee—A new state safety council operating on a \$20,000 release from the state treasury has been authorized by the cabinet here, after listening to a report from the National Safety Council that 107 more persons were killed on Florida highways through March of this year than in the same period a year before. Further, the highway patrol was instructed to stop motorists driving more than 60 miles an hour in the daytime or 50 at night, and give them warnings. If the patrol catches you doing 75 miles an hour in daytime or 65 at night, the charge will be reckless driving. The state has no speed limit.

Since Ponce de Leon first set foot in Florida, at least 4,500,000 acres of the state's forests have been lost through burning, improper cutting and erosion.

Be careful with trash and brush fires! A stray spark can start a raging forest inferno that will destroy timber, wildlife, buildings and even lives.

Since that year Avon Park has successfully defended their crown. They have met Sebring three times in the finals and Ft. Meade twice. Avon Park drew a first round bye in the tourney and are to play the winner of the Kathleen-Lake Placid game, which turned out to be Kathleen. Lake Placid was shut out 2-0 Monday night after playing the best game of the Tournament at this writing.

Captain Edwin Carter is expected to lead Ralph Hill or Billy Morrell to the mound to see if Avon Park can best the Kathleen Red Devils.

The Sebring Blue Streaks, defending State Class B champs will play the Auburndale Bloodhounds in the second and final game that night. Sebring also drew a first round bye and drew the easiest team to play, Auburndale eliminated Frostproof Monday night. They won the game in the age old way of putting the winning run across in the seventh inning.

HIGH SCHOOL POW-WOW

By PAT LAGONI

Only ten school days remain before the completion of another busy year for students at Avon Park High.

Senior graduation activities are in the spotlight now, since graduation isn't far off. The calendar of events until then is full. May 30, is a holiday; June 1, marks the date for the elementary recital; June 2, is the last day of school; the Baccalaureate sermon is set for June 4; the senior breakfast and class night are to be June 6; reports will be given out on June 7 and graduation is June 8.

It was recently announced that Avon Park will have co-valedictorians this year as Anna Vilbittis and Virginia Norris have the same average for their four years of high school. Helen Knowles will present the salutatory address. Congratulations, girls!

On Wednesday, the 17th, during activity period, Mr. Don Hanson spoke to the student body about drivers' instruction course being offered this summer and next school term, of which Mr. Hanson is in charge. The course this summer will begin on June 15 and end on August 15. Many students signed up for the course.

Congratulations to Emily Ingram, a member of the class of 1949 now attending Florida State University in Tallahassee, who was recently tapped for Alpha Lambda Delta, a freshman women's scholastic honorary. Requirements for the society are a 2.5 over all average for the first two quarters while carrying a minimum of 14 hours each quarter.

The fourth annual county music festival was held in the Sebring high auditorium on May 11, 1949 at 8 o'clock P. M. Over 300 students from Lake Placid, Avon Park, and Sebring participated in the program. School bands and glee clubs combined to present several numbers. Vocal solos were given by Margaret Culpepper and Sylvia Wright. Laverne Purvis, Joyce Thomas, Lynn Longbottom, John Clements, Edgar Faber and Bruce Spencer formed a sextet and sang a novelty tune, "Three Blind Mice".

The senior girls thank Jordon's Jewelry Store for a Coca-Cola party given them on Tuesday afternoon. The girls who chose their silver pattern will be given a gift from Jordon's.

The last issue of the Devil's Chatter came out this week with plenty of news about the banquet and senior activities. The class of '50 was featured in the issue. Students interested in being on the staff of next year are being considered by the Chatter sponsor, Miss Harding and by the English teachers for positions on next year's staff.

That's about all for now, but tune in again next week for news from station A. P. H. S.

All the second graders of the Avon Park Elementary School enjoyed a picnic and outing at Highlands Hammock park Tuesday afternoon, May 16. They were shown interesting points around the park, and taken for a walk along some of the trails and over the catwalk across the cypress swamp.

Mrs. Abbey Vanderford, Highlands Lakes section, had as her guests last Sunday Mrs. Brannard with her son Mr. Bill Pippin, and her two grandchildren.

"Poppy making has given these veterans the encouraging experience of being able to earn money again, often after many months of idleness. They are paid by the Auxiliary for each poppy they make and are able to earn helpful amounts during the poppy-making season."

"Much of the money is sent home by the veterans to help support their wives and children, who often have a difficult time when the veterans require hospitalization and are unable to work for long periods. Thus the veterans a decided lift in morale when they are able to send something to their families. Those without dependents use the money to create a nest egg for themselves against the day when they leave the hospitals and endeavor to re-establish themselves in life."

NUMBER 28

Jr. Woman's Show Promises To Be Outstanding Success

Interest and enthusiasm is running high about the bigger and better 3rd annual dance revue "The Woman in the Shoe" to be held at the High School, Monday, May 29. The show will start promptly at 8 P. M.

Avon Park audiences will enjoy clever songs and dances performed in a professional manner by children of the city. The revue to be given by the Junior Woman's Club, and is under the direction of England's Professional Studio of Dancing.

The program will be based on the theme of the woman who lived in a shoe, but unlike the fairy-tale character, this old woman does know what to do with her many talented young girls. The stages a sparkling revue. The scene opens with kiddies singing "Toyland" before a large and colorful old shoe. Countess special novelties, with costumes of beauty and dazzling color, will be offering. A real treat is in store for those who attend.

This revue presents the newest thing in dancing—tote, tap, and acrobatic, and scores of wonderful musical numbers. The children appearing have youth and zest that will delight any spectator.

The Junior Women have been working hard to make this revue the biggest yet. Please do not let them down. Tickets are now on sale by the cast and the Junior Woman's Club.

MISS EDNA PEARCE
Retains Seat In House

The voters of Highlands County Tuesday of this week and re-elected Miss Edna Pearce as the only lady representative to the State Legislature.

In a runoff election, Miss Pearce defeated County Prosecutor Otis Whitehurst by a vote of 2492-1850. Wilbur C. King won over Grady Albright to retain his place on the Florida State Railroad and Public Utilities Commission by a large margin.

Chester B. McMullen scored an easy win over Tom Watson of Tampa to succeed J. Hardin Peterson in Congress.

Auto and Trailer Truck Tangle

A car owned and driven by James M. Lutton, 15 N. Summit, Avon Park, was hit by a trailer truck on Wednesday evening, at about 6:15. No one was injured, but the car was badly damaged.

The accident occurred on the highway to Frostproof, opposite the turnoff to Lake Wales.

In the car with Mr. Lutton were Mrs. Lutton, Miss Jennie Coe, and Mrs. Estella Hicks. The party were on their way to a church supper at Lake Wales Lodge. Apparently the driver of the truck failed to see Mr. Lutton signal that he was turning. The truck did not stop, and as the Lutton car turned, it was sideswiped by the trailer and pushed off the road. Fortunately, neither car was travelling at a high rate of speed. The occupants of Mr. Lutton's car, which remained upright, escaped injury beyond a shaking-up and were able to continue on to Lake Wales.

Sixth Grade Poster Winners

The Junior Woman's Club called upon volunteers from the three divisions of the Sixth Grades to make posters for the 3rd Annual Dance Revue, "Woman in the Shoe".

Prizes were awarded for the best posters and the winners were Irangene Patterson and Patricia Pollock from Mrs. McEaddy's room.

Congratulations to you children for the clever art work you displayed on these posters.

The posters have been placed in the various store windows downtown. The Junior Woman's club wishes to thank the children who spent time making up these posters and also we wish to thank the merchants in whose store posters were noticed.

Fishing Is Excellent In Highlands County

These beauties were caught by the above anglers Thursday evening of last week at Ahbuck Creek. Reading from left to right (the fishermen) are: R. L. Holley, J. W. ATTENTION ALL YOUNG BALL PLAYERS

All you young fellows that want to play Junior Legion Baseball this summer are requested to get in touch with Dick Langford at once. All you would be ball players can contact Dick by calling 274-R. So get busy if you want to play.

High School Stages Modern Education Demonstration

A short play based on Irving's "Legend of Sleepy Hollow" given in the Avon Park High School auditorium last Friday morning, May 19, was an entertaining example of the school's work with modern equipment, such as projection machines, sound recorders, etc. The play was provided with lighting effects, enlivening sound effects, and a projected moon all provided by the Projection Club, a group of 15 boys supervised by Mrs. Lena Suggs, who study the production of such effects, as well as the handling of film strips and sound amplifying systems.

The play, written by James Mathis, who also played Ichabod Crane, was the chapel program for a whole day's audio-visual demonstration presented by the High School for teachers from neighboring towns and interested parents. Mrs. Lena Suggs and Mrs. Elizabeth Driggers were in charge of the demonstration.

A class in oral English demonstrated how sound recordings of the student's voices helped improve dictation. Mrs. J. C. Mathews used the tape, which projects scientific slides, to display "The Microscopic World".

The science project was demonstrated in Mr. Elbert Chapin's mathematics class; this machine is used to project individual papers of geometric forms, since it can show any written or printed material. A blueprint display, which is in Mr. Louis Wright's shop. Film projectors were also used in the demonstration.

The interesting display of the use of new machines and techniques in education was the growth of the High School's having been made an audio-visual demonstration center by the National Education Center.

Effort Being Made To Organize Softball League

On Tuesday night there was a meeting of people interested in having a lighted soft ball league. The meeting was called by the Avon Park Junior Chamber of Commerce to see if there was enough interest to warrant such a project. A committee, headed by Walter Mandie and Leon Campbell will inquire into the cost of lighting the field. John Garber, Jr., is head of the committee to contact people which might sponsor a team. There will be a complete report on Thursday night, June 1, at the regular meeting of the Jaycees. All that are interested are urged to attend the meeting.

Don't throw that book away! Give it to the Avon Park Library.

Charles Edgar Pabor Invested With The Rank Of Eagle Scout

Explanation On Mail Delivery

No regular civil service employee will be deprived of his work by the present curtailment of postal service, according to a statement issued by Postmaster Jesse M. Donaldson on May 11. Those employees whose the Post Office Department must drop will all be substitute clerks and carriers or non-civil service workers, and few of them are employed on a full-time basis.

Congress, in its efforts to economize government spending, has set the appropriation for the national Post Office Department at a figure entailing a reduction of \$89,500,000 in postal expenditures. The only way to make this saving is to cut down the Department's services and to reduce the number of people employed.

It is not possible for the Postmaster General to increase postage rates, Mr. Donaldson further states, nor for him to cut down the rates paid to railroads and other common carriers for transporting the mail. Postal rates are fixed by Congress, and the rates paid for transportation are fixed by other governmental agencies, such as the Interstate Commerce Commission and the Civil Aeronautics Board.

Butler, in an introductory talk to the two groups, outlined the needs of the parish and the diocese of South Florida during the next three years. The Diocesan program of Advance Work adopted at the recent Convention of the Church in West Palm Beach will establish a home for the aged in the Diocese of South Florida, a chapel and a full time chaplain for Episcopal students at the University of Miami, and a fund to be used in expanding existing missionary work in South Florida.

Exchange Club News

The Exchange Club held its 19th regular meeting May 18, 1950 at the Hotel Duquesne.

Mr. R. D. Cooper, local cattleman and Pioneering for the Wausau Livestock Market gave a very interesting talk on the cattle industry in Florida. He called attention to the large number of cattle that were raised in Florida, shipped to other states to be fattened, then shipped back to Florida for consumption, but it was his opinion that the Lake Okechobee area would someday become the largest fattening area in North America. Mr. Cooper also stated that our neighboring state of Georgia shipped all the cotton seed and other grains needed to fatten the cattle of Texas to her.
