SAFETY CONFERENCE PLANS PROGRESSING RAPIDLY

General Chairman Carl D. Brorein (above) of the Governor's Highway Safety Conference says plans for the sessions in Tampa are moving ahead rapidly and that three Conference committees already have met and made preliminary recommendations. The three groups which have held their first meetings are those on Public Education, Engineering and Public Information. Prior to to the Conference in Tampa Sept. 28-29, committees on Enforcement, Accident Records, Traffic Courts, Organized Public Support, Driver Licensing and Laws and Ordinances also will convene to prepare reports and recommendations. Brorein, designated General Chairman by Governor Warren, is a Tampa telephone company executive.

Hunting Dates Set For Ducks

Migratory bird regulations for Florida will remain substantially the same for the 1950-51 season as they were last year, Director Coleman Newman, State Game and Fresh Water Fish Commission, disclosed today.

Regulations released to Newman by the U. S. Fish and Wildlife Service through Secretary of Interior Oscar L. Chapman are as follows:

Open season on ducks, geese and coots extends from November 27 to January 5. Hunting permitted from one half hour before sunrise to one hour before sunset, except on opening day, when shooting will begin at 12:00 noon. Daily bag limit on ducks was set at four, with the bag including one wood duck only. Possession limit is eight. Daily bag and possession limit on geese was set at two, which can include two Canada geese or two white-fronted geese, and in addition three blue geese. Daily bag and possession limit for coot was set at 15.

Hunting season for marsh hens, and gallinules extends from September 15 to November 13, with hunting permitted from one half hour before sunrise to sunset. Daily bag and possession limit was set at 15, including a single species or mixed bag.

Open season on mourning doves extends from December 17 to January 15, except in Dade, Monroe and Broward Counties, where season will extend from October 1 to October 30. Hunting permitted daily from 12:00 noon to sunset. Daily bag and possession limit was set at 10.

Director Newman pointed out that the regulation barring use of automatic-loading or repeating shotguns capable of holding more than three shells will continue in effect. Rifles of all kinds, he pointed out are prohibited in the taking of any migratory birds.

Federal duck stamps will be required for the taking of ducks or geese.

FLORIDA FROZEN PUREES WILL GROW MORE POPULAR

Florida fruit growers will be selling more and more of their fruit to a growing frozen fruit puree industry, according to D.G. Sorber, United States department of agriculture scientist.

Sorber reports in Florida Grower magazine that smooth, "sieved" fruit products will be used more and more in ice cream, sherberts, and other frozen desserts; also in sundee toppings, beverages, and confections—to the benefit of fruit growers, packers, food manufacturers, and consumers.

Frozen purees may eventually be packed in small containers for retail sale — along with other frozen foods. Sorber points out that frozen purees are "tailor made" for a great fruit consuming nation like the United States. Their advantage to the fruit grower is not only that they offer another outlet for his crops, but thet they take more of his fruit than any other product except juice because offsizes and shapes may be used, as well as fully ripe fruit of finest flavor which is too mellow for shipping or for canning.

Already nearly a dozen different frozen fruit purees are being produced commercially — apricot, boysenberry, banana, lemon, orange, tangerine, nectarine, peach, plum, raspberry, and strawberry.

Weekly Business Review

Floridians paid 121 per cent more taxes to the State of Florida during the fiscal year ending in 1949 than during the year 1939-1940, the Florida State Chamber of Commerce stated yesterday.

This week's business review of the State Chamber's research and industrial division brought out that this increase in total taxes is partly due to the increase in population of the State. However, this total represents a per capita increase from $35 in 1940 to $54 last year. The average for other states last year was $59. Grants received from the federal government, about $42 million last year, were not included in either the total or the per capita computations.

On the other side of the ledger, expenditures by the State of monies from taxes, federal grants and other sources, have increased 192 per cent during the ten years. In the 1948-1949 fiscal year, total expenditures exceeded total receipts by some $30 million.

A breakdown of the total monies expended by and through the State during the fiscal year ending in 1949 showed these three principal items: schools and universities $69 million; welfare and related aids $57 million and highways $51 million. The ten-year increase in expenditures for these items were: welfare and related aids 332 per cent; schools and universities 139 per cent and highways 40 per cent.

"SMALL BUSINESS"

By C. WILSON HARDER

Here's the background of battle on the Potomac to set aside anti-trust laws as an emergency measure. You'll be hearing a lot about it.

• • •

Opposition to this move is hampered by lack of understanding today by the general public of the term "anti-trust."

• • •

Around 1900 when the first anti-trust laws were passed, a "trust" meant any industry group, monopoly, or cartel, that conspired to artificially control a commodity, or to fix prices so that members of the industry would not be in competition with each other.

• • •

Anti-trust laws are not anti-big business, although a great effort has been made to sell this idea to the public. Anti-trust laws are merely rules so any business has the opportunity to get as big as it can. "Anti-trust" merely means "anti-leadpipe cinch."

• • •

During World War II anti-trust laws were suspended. The American free competition system has not yet recovered from this blow.

• • •

Congress knows that in 1948 66% of American manufacturing was done by 15,000 firms; today only 250 firms do this volume. Senator Herbert O'Conner, Md., states "in 1946 1/10 of 1% of American corporations owned 58% of total corporate assets . . . 5% owned 94%."

• • •

"Unless anti-trust laws are suspended," says one side. "Industry cannot get together on voluntary allocations of scarce materials without violating the law."

"Nonsense," says the opposition. "It would be simple for government to set aside raw materials required; leave the balance to free trade."

• • •

But the drive to repeal or suspend anti-trust laws is being pushed by a strange partnership.

• • •

Half of this partnership is composed of short-sighted industrialists who want the assured long profits only possible when competition is eliminated; are using the war effort as an excuse. They are the "leadpipe cinch" boys.

• • •

The other half is composed of Socialist planners. They are well educated realists in strategy. Alger Hiss . . . atom spies, were not illiterate dreamers.

• • •

American Socialists want business further concentrated in the hands of a few. They, too, are using the war effort as an excuse. They know from history when business control is closely concentrated it only takes one economic crisis; one session of a hysterical or "left wing" legislature to nationalize, or socialize, industry. This has been the pattern in all nations where Socialism has taken over.

• • •

This background of a current fight to squeeze out the American middle class is useful in analyzing coming developments in the battle. They will be bitter.

• • •

Not only does small business have a big stake in the outcome of this battle. Labor, agriculture, all who believe in the American system have as big a stake in the outcome.

"TOO LATE TO CLASSIFY"

By Russell Kay

The BIG LIE is a far more dangerous weapon than the atomic bomb. Russia is using it with telling effect against the United States and the world. Unless we as a people arise in our might and retaliate with the BIG TRUTH, we may find ourselves enslaved as other nations are today because they failed to act in time.

The United States is being pictured as a nation of money-mad morons. The world is being told, over and over again, that we are aggressors, that we seek to conquer the world. We are pointed out as a nation of brutes and gangsters, power-and money-mad.

We try to comfort ourselves with the belief that these lies are so monstrous that no one will believe them. But people do believe them, people who hear these things about us, repeated over and over again.

It is imperative that we get our side of the story to these uninformed millions. We must pierce the IRON Curtain with TRUTH.

President Truman knows this. General Eisenhower knows it. General Clay, whose airlift saved us in Berlin, knows it. They know that unless we can win this gigantic struggle for men's minds, peace is impossible.

In a warning broadcast on all radio fireworks on Labor Day, General Eisenhower called on you and me and every good American to enlist in a campaign against the BIG LIE.

This movement has been well organized and calls for the establishment of several powerful radio stations over which hundreds of refugees from enslaved countries will tell the TRUTH about America to their uninformed and unfortunate fellow-countrymen. they will make these talks in their own native language which will be beamed directly to the countries concerned.

In addition, it is proposed to establish a great Freedom Shrine behind the Iron Curtain in Berlin. This shrine will house a giant 10-ton Freedom Bell and it will be dedicated on United Nations Day, October 24.

Between now and that date you will be called upon to sign the "Freedom Scroll" subscribing to the following declaration:

"I believe in the sacredness and dignity of the individual.

I believe that all men derive the right of freedom equally from God.

I pledge to resist aggression and tyranny wherever they appear on earth.

I am proud to enlist in the Crusade for Freedom.

I am proud to help make the Freedom Bell possible, to be a signer of this declaration, to have my name included as permanent part of the Freedom Shrine in Berlin and to join with millions of men and women throughout the world who hold the cause of freedom sacred."

The amount you contribute to this worthy cause is up to you. Every cent you contribute will go to fight Communism and preserve freedom for you, your loved ones and all who love freedom.

This great campaign began last week. First name on the Freedom Scroll was that of our Governor Fuller Warren, followed by the signatures of cabinet members, R. A. Gray, Secretary of State; Richard Ervin, Attorney General; Edwin Larson, State Treasurer; T. D. Bailey, Superintendent of Public Instruction; and State Comptroller C. M. Gay.

The goal for Florida in the "Crusade for Freedom" is one million names. Even though you may not be able to face the foe on the battle field, you can do your part in the cold war for men's minds. Make sure your name is enrolled on the "Freedom Scroll" and be generous in your contribution to help raise the Iron Curtain and give voice to TRUTH.

Citrus accidents in Florida last year cost $273,670 according to the Florida Industrial Commission.

YOUR SUMMER VACATION

Summer vacations are the high light of the year for most people. They can be everything you anticipate if you go equipped with some words of caution from your doctor of medicine.

No matter where you go for your vacation or what you plan to do for relaxation, the primary rule is to know where to find a doctor, hospital or ambulance if an emergency should arise. Other advice differs with the vacation. For instance, if you will be swimming, a good rule is to wait one hour after meals to go swimming. Don't swim in swift water or after dark. It is wise to learn to float so that you can rest on the water when you are tired or exhausted. Avoid swimming in extremely cold water and always test the water depth before you try the springboard.

Everyone should know the rule against standing up or changing places in a rowboat or canoe. It is a good idea to inspect a boat for leaks before pushing off from shore and if a storm is coming on, you had better postpone your boat ride until the sun is shining. In any weather, it is a poor policy to overload the boat.

Often the sun is the vacationer's worst enemy—even when it is hidden by clouds and mist. Many people don't suspect that the misty and cloudy days are the worst burners because the rays come right through the vapor.

Severe sunburn is dangerous and just like other severe burns, should be treated by a physician. The best way to avoid sunburn is to build up a protective coat of tan through gradual exposure to the sun's rays. You have had enough sun when the skin feels hot to the touch. Olive oil and cocoa butter are good to put on the skin before going into the sun.

Accidents will happen even when all precautions are observed. If and when they strike, lose no time in getting a doctor to the scene of the accident or in getting the victim to a hospital.

FLORIDA LED NATION IN WATERMELONS

According to Florida Grower Magazine, Florida led the nation in the production of watermelons last season with an estimated 14,640,000 melons on 61,000 acres.

Georgia was second in production with an estimated 12,500,000 on 49,850 acres. By July 20 Florida had made 10,066 earlet shipments, roughly half of the total U. S. shipments at that time. Top market prices were paid during the week of May 25. That week 32-pound melons sold for $1000 to $1150 a car.

The state's yield per acre for 1950 was estimated at 240 melons, the same as for 1949, but production was up nearly a half million melons.

600 HEAD CATTLE SHIPPED TO ARIZONA

Wauchula's growing importance as a cattle market was underscored last week when a trainload of stocker calves was shipped from here to Arizona.

The shipper was William D Noland. The cattle were billed to San Simon, Arizona, where they will be fed on ensilage, cake and grass.

The shipment comprised over 600 head and required 11 railroad cars. Many of the calves were bought on the Wauchula auction block and others were purchased privately.—Hardee County Herald

"BIG JOE" CORN HARVEST

The harvest of "Big Joe" variety of corn in the Belle Glade area was well underway in early August. Several plants in South Bay are processing that harvest and some corn is being shipped to Tampa feed mills. The Florida variety of corn has grown in importance as an animal feed in recent years. It has a tough skin which discourages weevils.

GREYHOUND OFFICIAL RECOMMENDS FALL SEASON FOR PLEASURE TRIPS

People who take vacation and pleasure trips in Autumn are choosing an ideal time of the year for travel, according to T. B. O'Steen, Traffic Manager of Florida Greyhound Lines, who today announced Greyhound's nationwide effort to call attention to the desirability of Fall as the time for more pleasant highway travel. O'Steen emphasized the many and varied places to go and exciting things to do in the Fall . . . such as seeing a big football game, taking a group trip to special events, visiting the folks back home, going on a hunting or fishing trip, or taking an expense-paid tour to one of the country's wonder spots.

"People are just beginning to realize the many distinct advantages of Fall travel," O'Steen pointed out. "They are becoming aware of the increased pleasure of such things as cooler weather for traveling, a much wider choice of hotel and resort accomodations, the more colorful scenic beauty of the countryside during the Autumn months."

HOUSEHOLD ZOO

This was a week for wild life, particularly at the home of Brady Parrish, King's Court. One morning, Mrs. Parrish discovered that a wood rat had somehow found his way into a bureau drawer and was happily resting among the clothes. Parrish disposed of that unwelcome addition to the household. A day or two later, Mrs. Parrish, investigating her laundry basket, found a large rat snake coiled in it. Her outcry brought her neighbor, Joe Greger, to get rid of that one for her. Why and how the critters moved in on the Parrish family isn't known. Maybe the beasts of field and stream have been informed that we are going to have a chilly winter, and are hunting warm nests.

Reception For Teachers

This year's reception for the public school teachers was held by the Parent-Teacher's Association last Thursday evening at 8:00 in the Palm Room of the Jacaranda Hotel. The teachers, most of them old friends of Avon Park citizens, and all refreshed by their summer vacation, formed the reception line to greet the parents.

Cookies and fruit punch were served from a long table, centered by a bowl of assorted small flowers. A tray of georgous single hibiscus blooms in shades of red, pink and yellow, placed on a small table near the entrance, also decorated the room.

The P. T. A. committee responsible for the reception was Mrs. Roscoe Bass and Mrs. Charles G. Metcalfe, co-chairmen, Mrs. Paul Crichfield and Mrs. C. R. Ginn, Mrs. L. M. Lagoni and Mrs. E. Allen Martin presided over the punchbowls. Mrs. James A. Johnson did the floral arrangements. Refreshments were donated by P. T. A. mothers.

GOING TO COLLEGE

Avon Park is going to be well represented in the field of higher learning this year, as shown by the listing below of those students who are going to college this fall. Most are leaving this week or next. Of course, some names were probably missed, and the Sun apologizes to their owners.

Those going to the University of Florida, Gainesville, are: Ann Brodie, William Brodie, Jimmie Tomlinson, Robert L. Hall, Susan Ward, David Lanier, John Roberts, Coram Lamb, Rosemary Mena, Glenn Whitcomb, Harold Worden, Jr., Kathryn Howell, Julius Collins, Leslie Collins, John R. Delegal, Jr., Willie Bennett, Donald Ford, Clare Skipper, Vivian Dean, Garth Spencer, George Childress, Norman Todd.

To Florida State University, Tallahassee: Emily Ingram, Betty Sue Davidson, Anne Pabor, Gloria Garber.

To Florida Southern College, Lakeland, Arden Anderson, Bill Connell, Marjorie Hetherington, Janet Sauls, Margaret Lawhon. Marjorie and Arden are leaving for college around Sept. 28.

We've been informed these are going to college, but we haven't learned where: John Clements, Virginia Norris, Gordon Carlisle, Frank Camp, Jr., Billy Wingfield, Joyce Wingfield.

Other schools: Ted Ward, Wheaton College, Wheaton, Ill.; Daisy Ivell Mann, Anderson College, Anderson, S. C., Lillie Mae Collins, Stetson, Deland; Wendell Driggers, cadet in Coastguard Academy.

James Davis, S. C. Weaver, Jr., and Ralph Hill have already gone to Erskine College, Due West, S. C.

Mrs. I. L. Hall and Mr. George Liner are thanked for their assistance in compiling this list.

Attending the fifth annual convention of the Florida Association of Soil Conservation District Supervisors in Gainesville next week are these Highlands District members: Mrs. G. B. Waggaman, Lorida, Mr. Cole Danley, Lake Placid, Mr. C. D. Holmes, Lake Placid, and Mr. Franklin Ward, Avon Park.

P.T.A. Can Be Fun

By Anne Hutchinson
President, Avon Park, P.T.A.

It is time to start thinking of joining P.T.A., since our first meeting is next Thursday, Sept. 21. Membership isn't limited to parents and teachers of children in school, but all people interested in child welfare, better education, or even pretty single teachers. We should like to have more pre-school parents and grandparents, interest there could work into a kindergarten. And parents of college students are needed to help with the program of acquainting the citizen youth with needs and responsibilities of the citizen adult, and to provide a connection between college deans and high school students and parents.

In order to cooperate with Pres. Truman, our price is still 50 cents. (And something new has been added. You will be given a year book compiled by Mr. and Mrs. J. Welch Fisher.)

The plans for the year look fine. We shall have alternate day and night meetings, be more social, get better acquainted with our teachers. We have room fathers now as well as room mothers. (One room father asked his son what he was supposed to do. The son told him he had to be able to lecture sting, play a piano among other things. It isn't really that complicated.) Charles Metcalfe, Guy Bolt, Ted Ward, are our chairmen of room fathers for the three divisions of the school. There will be three fathers elected from each room.

The programs will be excellent. Mr. and Mrs. Bob Marshall are chairmen. Mr. and Mrs. Leon Campbell, Mrs. T. Hayes Maxwell, and you know who I'll not mention his name too often, helped with the plans and had a good time making them.

Our first meeting will begin with a study group at 10 A. M. and our teacher, Mrs. Sibyl Griffin, state past president, will teach and be speaker on the program that afternoon.

Our first night meeting will be a box supper and Juvenile Judge G. Bowdon Hunt will be guest speaker. He taught a very interesting class at Tallahassee this summer, and can tell us surprising things about juvenile delinquents. (He's handsome, too.)

Dr. and Mrs. Hubert W. Coleman are budget and finance chairmen. Mr. and Mrs. James A. Johnson, ways and means, have to worry about what the Coleman's spend. I understand there won't be a lot of little money-making schemes, but one maximum effort on the circus.

And why make money? For one thing, take a look at the teachers' room, where they get away from it all to relax.

Did you know that the Avon Park school was a demonstration center for audio-visual education and got special recognition in that field and a certificate of merit last year, and has even bigger plans this term?

Parents admit they must continue education and maintain alert minds, or our children will grow away from us. So we have Professor Charles C. Bushong, University of Florida, coming to give us four classes in audio-visual education. He is a child psychologist and quite young. (Definition: anyone younger than you are.) But what he doesn't know on that subject isn't worth knowing.

We also have study groups so we can keep abreast of the times and exchange ideas.

Now this isn't half of it, but the Sun has to draw a line somewhere, so do join P.T.A. If you don't have 50 cents, or a new dress, you are just as welcome. P.T.A. needs you, and the citizen child needs P.T.A.

Newspaper Is Greatest Buy In World, Says Babson

Commenting on the importance of newspapers and newspaper advertising in his copyrighted column in the Sanders newspapers in Livingston County, New York, Roger W. Babson, well-known business and finacial adviser recently said:

"I have just been reading a most interesting advertisement of a great steel company. In effect it constitutes a report of the progress this company has made in its production of steel plates for ships, bombs, and other war materials. This company has nothing whatever to sell to the general public, but it chooses to buy considerable newspaper space to give the people some most interesting facts.

"The public has come to rely upon advertisements. In countless instances people make it a practice to read the ads first and the news stories second.

Civic Duty To Advertise

"Too many readers accept their newspapers as a matter of course. Newspapers are, however, as important to their communities as are municipal conviences and other services. Probably no single item would be missed more from our daily lives than our local newspaper. A newspaper is the greatest buy in the world. All newspapers, regardless of size, are highly educational. Unlike other great institutions of learning, however, they are not endowed and must be self-supporting. Naturally, what keeps a paper going is its advertising revenue. Everyone should help on this as a civic duty.

Newspapers are vastly more important to retailers, manufacturers and the community itself than merely increasing sales. All kinds of civic and social organizations rely upon free notices of their activities. We all have more of a stake in the business of advertising than we realize. Our papers not only give us the community news but the growth of our communities depend upon the prosperity of our local newspapers. Washington certainly owes a debt to all newspapers whether editorially they are for or 'agin' the administration.

"Successful manufacturers are carrying on a most sensible campaign of paid publicity with no chance of now getting their money back thru immediate increased sales. I hope more local firms will take advantage of the opportunities to advertise which are offered today. Yes, I am optimistic for advertising for those who will stick to it 'rain or shine.' Sensible continuous advertising is the best investment there is."

Mrs. H. W. Reddick was able to return home from Walker Memorial Hospital on Monday. She is reported to be doing well.

Avon Park School To Receive Audio-Visual Award

Word has been received by the Avon Park Schools that the Audio-Visual Committee of the National Education Association will present the local schools with $500.00 worth of audio-visual materials as an award for outstanding work in the Audio-Visual field in 1949-1950.

These materials will be presented at appropriate auditorium exercises as a highlight in connection with the schools' participation in the Activities of National Audio-Visual Education Week, Oct. 22-28.

Mr. William Lewin, Chairman of the Audio-Visual Committee, Washington, D. C., in a letter to Mrs. Elizabeth Driggers and Mrs. Lena Suggs, co-chairmen of the project, complimented the committee and the school for the outstanding work and progress made during the past school year.

The Avon Park Schools were issued a Certificate of Merit for commendable advances in this area of instructional materials in 1949.

Judge Howard G. Livingston reports that the sale of drivers' licenses in Highlands County compares favorably with last year, not lagging behind. A tabulated report will not be available until the end of this month.

Stimson Gulf Win Over Firemen

The Stimson Gulf Oilmen won their first game of the third round in the City Softball League Tuesday night by a close score of 10 to 9 over the Firemen.

The Firemen got the lead in the first part of the game and held on till the last and final inning, when the Oilmen scored. Shannon for the losing club, leaving Dick Landress on third for the final play of the game. Catcher Newsome of the Firemen dropped a pitched ball, retrieved it and threw it to the pitcher and Landress dashed for home and was called safe. An argument followed as to whether the play was legal according to Rose rules.

The ball game as a whole was well played by both teams.

The Firemen introduced two new players, Frank Stalls at 1.F and Joe McConnell at CF. The Oilmen made changes by putting Hubert Pate on the mound for the first time in this position and James Rollen on the first sack.

Umpires were Kelly behind the plate and Hufstetler on bases. The Boy Scout—Exchange game was postponed as neither team could muster enough players. The game will be played at a later date.

• • • •

The fans Monday night had quite a change in the softball game when two teams of women players were introduced. One team was sponsored by O. K. McClure and one by the Mandis Dairy. This game was only a 5 inning practice game, and the Mandis players won by a score of 7-6. These two teams are scheduled to play another game Monday night, and they expect to have some of the rough spots ironed out by that time and the fans will be able to see a much better game of ball.

• • • •

Tonight, Friday, Avon Park will be hosts to the American Industrial Sales Corp., Sebring, softball game for a double header. The leadoff team will be the Firemen and the nightcap will see the Oilmen take their turn against the Sebring City League winners.

The Flyers from Sebring are playing the games tonight to get much needed practice before they journey to St. Petersburg to tangle with the Clearwater Bombers, Saturday.

HIGHLANDS MEN ARE INDUCTED IN ARMY

Highlands County sent its first contingent of inductees to the armed services Wednesday morning, when nine left by bus for Drew Field, Tampa. The nine:

Algier Ray Rimes, Venus; Leslie A. LaFlam, Jesse Ray Johnson, Ernest Eugene Prevatt and Charles Aubrey Martin, Avon Park; Richard Zaven Seron and James Clarence Crawford, Sebring. Negroes: Frank Ash, Avon Park, and Samuel Burnett, Sebring.

Mr. and Mrs. Robert Willis and Mr. and Mrs. Ed Sharpe visited Clearwater Beach Sunday.

Legislators Caucus Held at Tampa

Legislators, holding their caucus in Tampa last weekend, put an emphatic thumbs down on a proposal to investigate racetrack gambling campaign expenses. The vote was 89 against 1 favoring the single vote being cast by Representative Edwin R. Kirkland of Orange County, who introduced the resolution.

Appearing at the opening of the caucus, Governor Warren was in fine form and made a favorable impression.

In his address of welcome to the legislature visitors, Mayor Dixon complimented Alfred M. Kethan of the State Road Department for the recognition given the West Coast which he said had already boosted the sale of bonds for improvements in this territory and saved interest costs.

The resolution aimed at the Governor drew fire from both supporters and members who fought him toe to toe in the last session.

As the Clements of Pinellas, a Warren floor leader, said the investigation would serve no purpose. "We are going to have plenty of trouble in Tallahassee, without dragging this in," he said.

Representative Thomas B. Dowda of Putnam county contended that the resolution "was out of order," but Representative Richard H. Simpson of Jefferson county said he thought there should be a vote on it because it was a serious matter.

The group voted to ditch the house rules adopted in 1949 and go back to those used in 1945.

In the face of present world conditions they recommended repeal of Senate Memorial 282, known as the World Government Memorial.

The legislators were in general agreement that millions more in new taxes would be needed next session, possibly as much as $65,000,000. Indications are that the sales tax will be revised and a 2 per cent tax across the board adopted.

Changes in Florida laws to throw more of the burden of public relief on sons and relatives and help check the rapidly rising cost to the taxpayer were advanced by Senator R. B. Gautier of Miami, chairman of the sub-committee on welfare.

Senator Gautier also pointed to the need for legislation that would permit better law enforcement and a committee is now studying this problem.

Red Cross Veteran Visits Avon Park

Mrs. Walter T. Aye, veteran of World War II and survivor of many adventures, including a plane wreck and Bedouin attacks, spent last weekend here visiting her uncle, Mr. D. A. Brodie. Mrs. Aye served with the Red Cross during the war in three capacities —athletic director, musical entertainer and ambulance driver.

She and another young woman were practically alone for two years on a two-car train travelling back and forth across the desert from the Persian Gulf to Tehran; this train provided entertainment and various comforts to the American men transporting lend-lease aid to the Russians. The two young women were menaced by Bedouin mauraurders several times. Once, the Bedouins actually boarded the train, but the chance presence of a U. S. soldier frightened them away.

When Mrs. Aye and her companion on the train were returning home from Egypt, their plane fell into the ocean just off the take-off port in Bermuda. It was 4 A. M., and pitch dark. Fortunately, those on the Bermuda shore saw the light of the plane disappear, and sent out rescue boats. All the 24 persons on board were saved, suffering no more hurt than some bruises and a good scare.

While Mrs. Aye, the former Lillian Hackworth of Seattle, Washington, was on the desert train she met her husband, Capt. Walter T. Aye, then in charge of building a road and transferring lend-lease goods.

Mrs. Aye went on to Clearwater Sunday, to visit her friend, the young woman who served with her on the train.

CITY PROHIBITS SUNDAY BEER SALE

Sale of beer in Avon Park has been banned from Saturday midnight until Monday morning, starting last Sunday, as a result of pressure put on the City Council by religious groups and citizens objecting to the sale of beer on Sunday. Mayor Sauls' order closing beer parlors in the city is based on an old ordinance.

During the fiscal year ending June 30, 1950, the Florida Department of Veterans Affairs assisted Florida veterans and their dependents in the preparation of claims and securing compensation, hospitalization, vocational training and other benefits in the amount og $16,691,419.61. The most important fact is, that this money actually went into the pockets of the veteran, his widow and his

FIELDS APPOINTED LOCAL CHAIRMAN "CRUSADE FOR FREEDOM"

Jacksonville: Sept. 18 — Harold Colee, State Chairman of the "Crusade For Freedom" in Fla., announced today the appointment of Clayton Fields, Avon Park, as local chairman.

During the next six weeks millions of Americans will be asked to sign the Freedom Scroll and contribute to the all-out fight against Communist aggression and false propaganda.

The Crusade for Freedom was planned long before the Red Invasion of Korea. Success of Communist propaganda among the Koreans shows clearly the need for a great counter-offensive with Truth as its weapon.

This will be accomplished through the establishment of independent radio stations on which refugees from Iron Curtain countries will talk to their ex-countrymen on the airwaves of the nations called "Radio Free Europe."

Is This You?

You were seen walking near the bank. You wore a white sun dress with dark stripes, and had a blue ribbon around your head. You are a blonde, about 5 ft. 3 in. tall. If this is you, call at the Hilans boxoffice or the Sun, and collect two passes to see Gloria Swanson in "Sunset Boulevard" next Thursday and Friday.

Last week's "Is This You?" was Ann Sides.

REV. DR. ROBERT G. LEE

Hold Baptist Bible Institute Sept. 26

Lakeland, Sept 21 — Founders Day here at the Baptist Bible Institute, Sept. 26, has, as the featured speaker of the occasion, the Rev. Dr. Robert G. Lee, president of the Southern Baptist Convention three successive sessions, and now pastor of Bellevue Baptist Church, Memphis, Tennessee. Dr. Lee, born a tenant farmer's son, and now holder of a Doctor of Philosophy degree from the University of Chicago, is widely-sought as a speaker, not only in religious and clerical circles, but in all types of civic and laymen's groups, and his eloquence and forceful messages have won him acclaim not only in the States but in European centers. His sermon, "Pay Day Some Day," already has been given before more than 400 audiences.

As a member of the Baptist Bible Institute Advisory Board, he always finds a chance to "make" Founders Day here, and this time he is rushing to Lakeland by plane from Brownwood, Texas to deliver morning, afternoon and evening addresses, before he returns to his pastoral duties at Memphis, where he has charge of more than 8,000 members.

On the 25th, a musical program at 7:30 P. M., in the chapel, will be followed at 8:30 by an address from Dr. J. S. Day, Jr., "Baptist Bible Institute, Past, Present, Future."

American Legion Regular Meeting

The American Legion held its regular meeting Wednesday night, at which time Jim Heim reported that a final list of names, with additions and corrections, had been forwarded to the Turner Marble and Granite Co. in Tampa for completion of the War Memorial in the Mall.

Ray Campbell was appointed Adjutant by Commander Boardman.

A committee was appointed by the Legion to contact the Federal Draft Board and request that a World War II veteran be placed in the vacancy on the Highlands County Draft Board.

Highlands Group Attend Meeting and Tour at LaBelle

On **September 15 the Agricultural Committee of the Florida Bankers Association, the Agricultural Extension Service of the University of Florida and the Federal Reserve Bank of Atlanta, Jacksonville branch co-sponsored** a Banker-Professional agricultural worker meeting at **LaBelle, Florida. About one hundred fifty bankers and agricultural workers from this area met at the courthouse in LaBelle and toured the ranches of Roy Dana, J. W. McDaniel and Oscar Willis. Latest recommended practices in cattle ranching were demonstrated. Modern equipment for the clearing of lands was shown in operation and the result of improvement in pasture lands was a revelation to the ones attending as to what can be done in a period of a few months with raw lands covered with palmetto and bush.**

The Agricultural Committee for the Florida Bankers Association has long been one of the most important and active Committees. This is as it should be, because the work with which it is concerned is basic to our entire economy and therefore to every bank and banker in the state.

This meeting at LaBelle was one of the three regional meetings held over the state to help bankers learn more about agriculture and to learn to know better those professional workers who help guide farmers, ranchers and growers.

After the tours, the group met on the ranch of Oscar Willis where a barbecue was enjoyed.

Those attending from Highlands County were S. F. Longbottom, President of the Barnett Bank of Avon Park, Group Chairman for this area; V. T. Oxer, County Agent, Bert Harris, Jr., Assistant County Agent, Hiram L. Swain, Work Unit Conservationist for Sebring area, and Lloyd Zorn Work Unit Conservationist for Lake Placid area.
