Liles Reports On National Training Conference

The Boy Scouts of America will launch a three-year program known as "Forward on Liberty's Team" to help make America a land of character, spirit, strength and worthy of the emulation of the world. It was announced by David L. Liles Scout Executive of the Gulf-Ridge Council of the organization.

Mr. Liles returned from the 9th National Training Conference of 2,200 Boy Scout Executives, full-time professional leaders of the organization, who met for one week at the Michigan State College at East Lansing, Michigan. Coming from every state and United States possession, they studied successful organization methods and the effective means of recruiting and using manpower, resources, staff, programs, outdoor and indoor activities.

With Mr. Liles representing the Gulf-Ridge Council were Field Executives Maurice Paige, M. B. McMullen and Harold Morgan.

Dr. Arthur A. Schuck, Chief Scout Executive, chairman of the conference, said:

"The fundamental requirements for a democracy of the kind of which I speak is character in the individual citizen. There is nothing wrong with America; that character could not change. That change can be effected in one generation with the proper training of youth."

As part of the new three-year program the organization will "put out to sea" in the presidential elections in 1952. "Non-partisan, without reference to any candidate or party," said Dr. Schuck, "the Boy Scouts of America will urge the people of America to exercise their franchise and go to the polls. It is planned to place on every door-knob in America—thirty million homes—a cardboard hanger in the form of a Liberty Bell, with the slogan of our country, 'Forward on Liberty's Team,' and the injunction for every citizen to vote."

Juvenile Court Counselor Needed

Under the new Juvenile Court Act, there will be a Counselor to the Juvenile Court, and applications for this position in Highlands County are being sought.

The Counselor will be appointed by the Juvenile Judge from a list of not less than three applicants approved by the Juvenile Court Board. This board is composed of the members of the County Children's Committee who are (1) a member of the District Welfare Board, (2) a member of the Board of County Commissioners, (3) the County School Superintendent or a member of the County School Board, and (4) the director of the County Health Unit, together with the County Board of Visitors, this last to be seven responsible citizens from various parts of the county.

Those interested in the position should submit applications to Katherine Waggoner, Dr. Beaumont, Director of County Health Unit, or Arthur J. Tobbs, the Board of County Commissioners, as soon as possible. As soon as the Board of County Visitors is appointed, their names will be referred to the applicants, in order that the latter may contact them.

All persons who are sincerely interested in the welfare of children, and who feel that they have the ability and time to perform extensive investigation work are urged to submit their applications for the position. The success of the Juvenile Court will depend to a large extent upon the Counselor, and while the position carries a small salary, it will call for a person who is willing to devote a large amount of time for an inadequate compensation.

The Juvenile Court Act stipulates that the Counselor shall be a college graduate or have had four years' experience in work with children, or shall have served as counselor or assistant counselor to a juvenile court in Florida. However, it is not necessary that our counselor have all these qualifications, although his qualifications should be as nearly equivalent as possible.

The salary of the Counselor has been set at \$1,040.00 annually. The same salary has been established for the Juvenile Judge.

Soil Conservation News

By C. F. Howerton
Soil Conservationist

Most of the ranchers in the Highlands Soil Conservation District have been very successful in getting a good stand of grass from this year's plantings but some are having trouble keeping the grass growing after it has been cut. Lots of the pangola grass has come up good but in a short time it starts turning yellow and dying back, particularly in the wet areas. Most of this trouble is caused by a deficiency of copper sulphate or bluestone. It is advisable for those whose grass is beginning to turn yellow to put on their fall application of fertilizer with the minor elements, especially copper sulphate (15 to 20 lbs. per acre) mixed with the fertilizer.

One of these fields of pangola is that of Wesley Davis' near Hendricks Field. He has a planting of 2000 lbs. of 6-6-8 fertilizer including the minor elements and this should bring the grass out in time to give him some very good grazing this winter.

Work Group Engineer Bob Waite of Arcadia and Lloyd Zorn have been working on the topographical survey for an irrigation system on the Highlands Ranch and Grove Co. property near Avon Park and have also run the levels and are designing a water control system for Marvin Kahn on his Ranch South of Lake Placid.

Redmon Dortch has requested the assistance of the Highlands Soil Conservation District in working out a complete soil and water conservation plan on his Wolf Lake Ranch near Sebring.

MID-STATE TURNPIKE URGED RATHER THAN EAST COAST ROUTE

A suggestion was made today that the proposed toll super highway between Jacksonville and Miami be routed through the middle of Florida instead of down the East Coast.

Holbrook Scott, vice chairman of the Republican state executive committee, said in a prepared statement that a super highway through the "Ridge section" of the state following U.S. Route 27 would serve many more people.

"If your guests are going to have to pay a toll to get to South Florida, let us give them a road from which they will get their money's worth in scenery as well as fast traveling," he said.

Chambers of commerce in East Coast cities favor a super highway along Route 1.

All States now have Farm Bureau except Rhode Island.

Air Force Studies Sebring Field For Possible B-36 Use

An Air Force survey team, headed by Brig. Gen. Sydney Grubbs, commanding general of Ramon AFB, Puerto Rico, inspected Sebring's Hendricks Field, B-17 pilot training school during World War II, to determine its feasibility as an operational field for a heavy bombardment wing, possibly B-36's.

The general appeared to be favorably impressed by the size and facilities of the field, but he gave no hint as to what he would recommend to General Curtis LeMay, commanding general of the Strategic Air Command, and Air Force headquarters. The latter will decide whether the field is to be reactivated in what General Grubbs described as a "normal evolutionary expansion of air power."

City and county officials and a committee of other leading Sebringites learned in a conference with the general that reactivation would mean an expenditure of about \$50,000,000 to put the field in shape for the heavy bombers. It would bring in from 10,000 to 12,000 persons, including families of the military personnel, with a resultant payroll of \$10,000,000 annually.

In the near future, General Grubbs informed the local group, a crew of civilian architects will arrive here to survey the field's present facilities and future needs. Money for the survey has already been appropriated.

At the close of the conference, arranged at the request of General Lamay, General Grubbs said two prime questions were to be answered. He held the answer to the first: Is it feasible to operate Hendricks Field?

The second question—Does Sebring want the Air Force back?—was answered in the affirmative unequivocally by Council President Floyd M. Schumacher.

The general was assured that additional housing needed for an influx of military personnel would be forthcoming, by W. C. Schafer, Jr., chamber of commerce president, and County School Superintendent Fred Wild promised the general that school facilities would be expanded to care for the surge in enrollment should the field be reactivated.

C of C Needs More Rental Listings

Quite a number of persons have been to the office of the Chamber of Commerce recently, inquiring for houses and apartments that can be rented. Other inquiries have come in by mail.

Those inquiring include families and single persons, residents, and those who would like to live here. Soldiers who are to be stationed here, many of them with wives and children, have also inquired.

And a good portion of those inquiring have needed two-bedroom houses or apartments.

The rental properties now listed at the Chamber of Commerce will not take care of all those who desire such accommodations. If you have a house or an apartment to rent, and it is not listed, the Chamber of Commerce will be grateful if you will list it with the Executive Secretary, phone 280.

"TOOTHACH TREE" AT FLORIDA CAVERNS

By Carol H. Beck, Botanist
Florida Park Service

There is scarcely a more peculiar tree than the herculean pricklyash or "toothache tree" which can be observed at Florida Caverns State Park near Marianna.

The bark, leaves and fruit contain small crystals which, when eaten in small quantities, have a pleasant flavor, but they numb the mouth. For this reason, they were chewed by early settlers as a relief of toothache.

The trunk of this tree is covered with huge warts over an inch wide and nearly as high. These warts are close enough together so that your hand will cover two of them.

Few would believe that such an oddity could be related to the orange, but the tiny little flowers tell the botanist that it is.

"Which one has the tooth?"

Perhaps you can't tell one car from another. We can. We know how to service your car properly. We know how to service you properly. We know how to service your car properly. We know how to service you properly. We know how to service your car properly. We know how to service you properly.

"THE CHRISTIAN CHURCH"
Rev. Herbert D. Graess
Union Congregational Church

The Christian Church was born of the Spirit of God. It is the coming into being of God's purpose in history. It is the end for which God made the world. In this sense the Church is a fellowship of Christian concern at the heart of which is to be found the embodiment of the grace and love of God. "It consists of those who, though falling before God, yet daily surrender themselves to Him in a fellowship of forgiveness, in deep humility and penitence, and seek for that 'city which hath foundations whose builder and maker is God.'"

The Christian Church is for all men, and all conditions of men. In the church men find the answer to their spiritual problems, and our Lord Jesus Christ gave him- self for the redemption of men, to receive the pardon of God, seek and receive His care and help. Immediately following the dinner, the Rev. Herbert D. Gratz, who served as master of ceremonies, introduced Dr. and Mrs. Tuttle and Miss Warren. Mr. A. B. Wilcox, supervising principal, then introduced the faculty present, making particular mention of those new to the community.

Around 140 persons attended the dinner.

Wells-Camp Wedding Held Sat. In Home Ceremony

Miss Betty Jo Wells, daughter of Mrs. J. Lawler Wells, and the late Mr. Wells, became the bride of Benjamin Camp, Jr., son of Mr. and Mrs. B. F. Camp, at 6 o'clock Saturday night, Sept. 15, in a ceremony at the home of the bride's mother, 128 East Pine Street. The Rev. Robert T. Linder, pastor of the First Baptist Church, officiated at the double ring ceremony.

The vows were spoken before an embankment of palms and green foliage, flanked by baskets of double yellow chrysanthemums with cushion mums, and illuminated with tall tapered burning in branched candelabra. Other beautiful arrangements were placed at various points in the gracious reception room.

Miss Gloria Garber, pianist, and Mrs. John Garber, vocalist, furnished a program of nuptial music.

The bride wore an ice blue satin wedding gown, fashioned with sweetheart neckline and tiny puff sleeves of lace over satin. The extremely full ballerina length skirt featuring unpressed pleats was joined to the fitted bodice at a low waistline. She wore lace mitts over satin to match her gown and her shoulder length veil fell from a halo of shirred satin. She carried a Bible covered with blue satin and topped with a yellow glansella.

Mrs. Darwin Stoll, of Tampa, matron of honor, wore a ballerina gown of light yellow satin designed on lines similar to the bride's gown. The sweetheart neck and cap sleeves accented the slim bodice. She wore a princess cap to match her gown and carried red roses in an arm basket.

Darwin Stoll attended the groom as best man, and ushers were Wiley Sauls, Jr., and George Gribble.

Mrs. Wells entertained at a reception following the ceremony. Those assisting in the hospitalities were Mrs. Charles O. Locke, matron of the bride, Mrs. L. D. McGiboney, Mrs. E. C. Weaver, Mrs. M. B. Davis, Mrs. W. J. Head, Mrs. Ruby Bass and Mrs. M. G. Whitcomb, of Avon Park; Miss Cecelia Bull and Miss Vee Vee Sheffield of Sebring; Mrs. Donald Bowers and Mrs. George Bowers, of Lake Placid; and Miss Suzanne Shields of Columbus, Ohio.

Out of town guests included Mr. and Mrs. Ralph Lohr, Mr. and Mrs. J. A. Lohr, Mr. and Mrs. Bernice Johnson and children, Bernice and Bill, Mrs. J. B. Wells, Mr. and Mrs. C. F. L. Ann and children from Mayo; Mrs. Frank Wilkerson of St. Petersburg; Miss Eleanor Wilkerson of New York City; and Mrs. B. F. Jackson of Tallahassee.

When the couple left for a wedding trip, Mrs. Camp was wearing a navy blue fall suit with navy and white accessories and a small white felt hat.

The couple may make their home in Sebring, where Mr. Camp is employed by the Life and Casualty Company of Tennessee, and Mrs. Camp is employed at American Industrial Sales.
