Morning Worship, 11 A.M.
Evening Worship, 8 P.M.
Wed. Prayer Service 8 P.M.

VETERANS INFORMATION

Veterans Administration today advised all veterans to have photostatic or certified copies made of their original discharge or separation papers for use in applying for veterans benefits.

Veterans with service since June 27, 1950—the start of the Korean Conflict—should have these copies made immediately if they plan to attend school under the Korean GI Bill this fall.

Post-Korea veterans can avoid delay in receiving their education and training benefits if they have their report of separation (Form DD 214) papers, which are acceptable to VA, copied before the original is sent to the armed services for mustering-out payments.

VA also asked veterans to make sure, in submitting photostatic or certified copies of discharge or separation papers, that they submit copies of both sides of the document and not just the front.

Veterans who have been released to the reserves since June 27, 1950 should submit their report of separation or certificate of service since they do not get discharge papers.

MANUEL RIOS (right) and **Gen. Bathurst**, U. S. commandant in Antilles, salute flag as **Puerto Rico** becomes a free commonwealth.

WASHINGTON NEWS LETTER

From **Large**

Weekly Press

(Written Exclusively for Florida)

During Senator Smathers' visit to western European countries, his column is being written by his Administrative Assistant, John T. Carlisle, veteran Florida newspaperman and Washington correspondent. It is expected that Senator Smathers will return to the United States on September 1.

Washington — A general on whose staff I served during World War II once walked into my office at headquarters one day to find me sitting at my desk with my feet cocked on my desk.

"Before I could in chagrin disentangle my legs and scramble to my feet, he waved me down and drew up a chair.

"I observe," he said, "That you are very efficient. Any executive who can sit with his feet on his desk has done a good job of staff organization and is getting the job done without wasted effort."

During the past three weeks, however, since we finished our work at the Democratic Convention and when Senator Smathers took off for Europe and sent me back to the office, we have had little desk resting for our feet.

Senator Smathers does a prodigious labor when he is here, and we who remain behind inherit a large volume of work to keep the wheels moving in his absence. But in the best fashion of so-called military efficiency, Senator Smathers had so planned, recruited and organized his staff and its assignments that all of us are happy to say there has been no retarding of workday activity during his absence.

Senator Smathers, we expect, will return from Europe with his usual extraordinary store of information, based upon his observations there during visits in France, Germany, Spain and other parts of the continent and British Isles. We hope that he will find the time, as soon as he arrives back in Washington, to write about his experiences and findings.

Many of his friends will recall that in 1949, while a member of the House Foreign Affairs Committee, Mr. Smathers, then a Congressman, visited Europe and came back to write most enterprisingly and informatively of conditions there.

In that year he also attended the Moral Re-Armament World Conference in Cannes, Switzerland, as well as touring the "Cold War" battle fronts.

This year he is especially appropriate time for the Senator to gain first hand information regarding affairs in Europe. The nation will have new leadership in January, and with the new Congress convening at the same time, careful scrutiny will be given to all of the programs relating to foreign aid and mutual security. Then, too, after the November elections which will insure Senator Smathers moving up the ladder of seniority, his position and influence in the Congress will increase and he likely will move to a stronger committee post.

(Although such good is accomplished for the nation by the visits of Congressmen to foreign countries during the congressional recess, there is much misunderstanding about the purpose and achievements of such trips. Hence the popular term for such trips—"junket." However, as in the case of three years ago, Senator Smathers has not been travelling at government expense. He has combined business with pleasure and has paid for it all out of his own pocket.)

RAIDERS AWAIT FLYING SAUCERS . . . Always operations specialists men the radio-capsule of Washington national airport's CAA are much content center in which they are the unidentified "ships" commonly labelled "flying saucers."

Brickell Property Acquired by City

(Continued from Page 1)

Highland Park Subdivision, Section 27, subject to the construction of a house upon said lots within one year from date of deed. Upon roll call vote, Councilman Smith, Thomas, Kirkland, and Sparks voted aye. Councilman Rush voted nay.

H. D. Briley appeared relative to the proposed extension and work on city sewers. He discussed the proposed plans at length and then introduced Mr. Wilson Holt who discussed the financing of such work. Mr. Holt stated that with a bond issue backed solely by revenue from sewer charges, the income would be insufficient to satisfy bond buyers and was therefore impossible. He advised the Council to combine the present water system bonds with new sewer bonds and stated that such a combination would be attractive to buyers.

Motion by Councilman Sparks, seconded by Councilman Smith to table the sewer project indefinitely with the provision that Briley, Wild and Associates be retained as consulting engineers if and when the project is resumed. Motion carried unanimously.

Motion by Councilman Sparks, seconded by Councilman Smith to instruct Briley, Wild and Associates to draw plans and prepare specifications for the portion of the Civic Center to be located on the property recently acquired from the Brickell Estate and to authorize the Mayor and City Clerk to execute a contract with them for engineering services upon approval of contract by the City Council. Motion carried unanimously.

Motion by Councilman Smith, seconded by Councilman Thomas to pay Mr. Charles Guernsey \$800.00 for his work as assistant tax assessor. Motion carried unanimously.

Motion by Councilman Sparks, seconded by Councilman Smith to install street lights at the intersection of East Main Street and North Highlands Avenue and in the middle of the block on Park Avenue. Motion carried unanimously.

The City Clerk announced that he had prepared budget estimates for next year and that he and the City Engineer had received the Occupational License Ordinance and that these were ready for action of the Council.

Motion by Councilman Kirkland, seconded by Councilman Thomas to recess the meeting until 7:30 p.m., August 29, 1952. Motion carried unanimously and meeting recessed at 12:45 a.m.

What To Do With Your Home Freezer If Power Fails

With the hurricane season at hand, many persons are worrying about what will happen to their home freezers if the electric power goes off. Mrs. Marion Radcliffe, home demonstration adviser for the Florida Power Corporation, has prepared the following list of answers for the Sun.

A well-filled freezer, kept closed, will be safe for 48 to 72 hours after the power goes off. If less than one-half full, it will be safe for 24 hours.

How long the contents of a freezer will stay frozen depends on the following factors:

1. The amount of food: a full box stays cold many hours longer than one-quarter full.

2. The kinds of food: meat, for instance, won't warm up as fast as baked goods.

3. The temperature of the food. The colder it is, the longer it stays frozen.

4. The size of the freezer. The larger it is the longer the food will stay frozen.

What to do in case service is off longer than the safety period:

1. Wrap food in thick pads of newspaper, pack in cartons and take to locker plant.

2. Use dry ice. Be sure to wear gloves as dry ice causes severe burns.

A Fifty pounds will keep the temperature down to 15 degrees for about two days in the average freezer.

3. Move any food from freezing compartments to storage compartments, place heavy cardboard directly on top of packages of frozen foods and put dry ice on top of that.

4. Covering freezer with blanket or quilts helps insulate further. Excelsior or crumpled newspaper between freezer and covering further aids. Be sure to pin coverings up so air vents are open.

Soil Conservation News

By C. F. Howerton.

The Supervisors of the Highlands Soil Conservation District held a special meeting in the courthouse Monday night. The meeting was called for the purpose of making final plans for the annual meeting of the State Association of Soil Conservation District Supervisors to be held in Sebring September 17-18.

A square dance, tour of local groves and ranches, and a barbecue has been arranged for the occasion.

The board expects delivery on the five foot tandem Marden Chopper in a few days. It will do the same quality work as the seven foot chopper that has been used in the District for several years. The five foot chopper can be pulled with a wheel-type tractor, whereas, it takes a crawler for the seven foot.

The board of supervisors set a price of \$2.50 per pound on the \$3 pounds of Argentine Bahia seed they now have on hand.

Use, first come first served basis, and same price regardless of quantity.

RETURNING SERVICEMEN ENTITLED REEMPLOYMENT RIGHTS AND BENEFITS

Tallahassee, August 27 — Chairman Raymond E. Barnes of the Florida Industrial Commission announced today that in a report received from Secretary of Labor, Maurice I. Tobin, it states that returning servicemen are entitled to reemployment rights and benefits similar to those of the World War II veteran.

In the report, Chairman Barnes states, it is pointed out that since times dealing with the Veterans' Readjustment Assistance Act of 1952 (Korean GI Bill of Rights) made no mention of reemployment rights benefits, many people assumed that such rights were not in effect; he said that reinstatement benefits were provided.

CLAY PIT WANTED
The Board of County Commissioners of Highlands County wishes to purchase a clay pit, about 10 acres of land for a clay pit, to be used for the manufacture of bricks and other clay products. The Board desires to purchase the pit on or before the 1st day of September, 1952. The Commissioners reserve the right to purchase the pit on or before the 1st day of September, 1952. A. J. Tobin, Chairman, Board of County Commissioners, Tallahassee, Fla. 21 Aug. 25 - Sept. 8

for the Universal Military Training and Service Act of 1951 as well as earlier legislation and that all persons entering the military service since World War II will be protected in those rights.

For further information on the subject contact the nearest local office of the State Employment Service.

TAKES CERTAIN — BUT DEATH CAN BE AVOIDED
Jacksonville, Florida — The Labor Day week-end will be no holiday from taxes, but death can be avoided, Glen P. Woodard, Jr., Executive Secretary of the Florida Petroleum Industries Committee commented in urging motorists to take extra care in the three-day motoring spree.

He predicted 844,000 Florida motorists will drive 108,500,000 miles over the three-day week-end, burn up 7,033,000 gallons of gasoline, and pay \$653,000 in state and federal gasoline taxes.

"The knowledge as to making automobiles our way of life," he said, "but if we do not watch out automobiles will become just as well known as our way of death."

"Death may be inevitable, but it doesn't have to come on the highways this weekend unless we make it so," he said. "Taxes, of course, are a different matter."

Even the careful driver won't be the Grim Reaper.
