WASHINGTON NEWS LETTER From

(Written Exclusively for Florida's Weekly Press)

(This is another of Senator Smathers' reports on his recent tour of Western Europe)

Washington — It was a little foggy around Paris that morning, so we strolled about the terminal building at Le Bourget airport, and had time for several cups of coffee. We were waiting for the plane that would take us to Madrid.

French people are friendly; they are neither hurried nor suspicious so it was not difficult to get in conversation with those who served us coffee, those who handled our baggage, and those who stood in line with us while checking our tickets, our passports, and our baggage.

"Bet it will be a nice day yet", the pert little waitress assured us, happily. I though the remark was significant because it was optomistic. Three years ago when I was over there the conversation was neither friendly nor optimistic. The hardpressed and war-impoverished French people — many of them — eyed Yankees with suspicion and perhaps envy. Many of them would not admit what is well known — that most Parisians speak English passably, many of them fluently.

In one of the lines in which I stood, I talked with a man obviously accustomed to his task and apparently a travelling businessman of some sort. We talked some politics and he assured me that, while French politics would never be as simple as in the United States where we have only two parties, the Communists are "through" in France.

What he said was in more polished phrases than this. But he told me that the Communist strength in the French government had gone steadily down, that the Red "line" no longer appeals to the people, and that without a national impoverishment which is not now in the picture, Communism is pretty well washed up in all France.

"France will see she stays that way", he said.

As for Russia, time after time, I was told that "she is one big bluff — always afraid." A great reason for the absence of war jitters and the obvious relative tranquility in western Europe is that people do not believe Russia wants to start a war and western Europe wants only to be let alone.

"Who is going to fight?" was the question I heard time and again.

The representatives of our government know of this attitude on the part of the run-of-the-mill folk of western Europe. It can be dangerous, or it can be symptomatic of a wonderfully good turn in international relations and world affairs.

Russia may be afraid, but she is powerful and she is ruthless. We are not yet in sight of the conditions under which we can relax, let our guard down, and start thinking of disarmament.

SPECIAL COURSE FOR CATTLEMEN AT FLORIDA SOUTHERN COLLEGE

A special course for cattlemen interested in improved pasture will be offered in the fall semester of the Community College of Florida Southern College, Dean J. C. Peel announced today.

He said that Prof. William R. Lyle will teach a three-hour course in "Pasture Grasses and Legumes" on Tuesday nights beginning at 6:30 o'clock.

Dean Peel also stated that two special courses in citrus have been scheduled for the Community College. Thomas B. Mack will be the instructor in "Plant Propagation," a class which will be held on Thursday nights from 6:30 to 9:20 o'clock, and Robert C. White will teach "Agricultural Marketing" on Monday nights at the same time. Each citrus course carries three hours of academic credit.

Students may register for the special courses on Friday, Sept. 26, with classes getting underway on Monday, Sept. 29. Full information may be obtained at the office of Dean J. C. Peel.

'TOO LATE TO CLASSIFY"

By Russell Kay

A million people would pack their grips and head for Florida tomorrow if they knew they could make a living in this state.

Every day the Florida State Advertising Commission receives hundreds of letters from folks who have visited Florida and yearn for the day that they can call it home. The only thing that prevents them from buying a one-way ticket is fear that they might not be able to get a job or find some way to make sufficient money to meet expenses after they arrive.

Two enterprising Florida newspapermen, aware of this desire for information as to how to make a living in Florida, have just published an informative booklet entitled "47 Ways to Make Money in Florida." It is edited by Tom Q. and Mike Smith of Miami.

Last night I took their booklet home with me, stretched out on the davenport with a Coca-Cola on one side and a package of cagarettes on the other and began reading. The book is not only informative - it is inspirational. It won't appeal to the folks who figure the world owes them a living and who seek to find fame and fortune as charges of the State or Federal Government. It will have no appeal to New Dealers, rabid Union advocates or others of their ilk, but it will serve as a star for those who believe in free enterprise and who have faith and courage in America and are willing to put their intelligence and effort in the drive for fame and fortune.

These authors have given readers a blueprint for only 47 ways in which newcomers have found a means of developing a substantial income for activities in Florida. There are many others.

Since I am personally familiar with most of the 47 ways they describe, I can not only endorse the book to anyone interested in Florida, but if space permitted could add a dozen more avenues of profit that await the alert and courageous prospect who is willing to forget New Deal and Fair Deal boloney and strike out for himself in an effort to make his way in the world.

The Smith boys tell of Henry Cobb who came to Florida with a capital of $10 and built up a million dollar business in gift boxes of citrus fruit; of McGregor Smith who brought a piston ring manufacturer to Florida where production costs were half what they were in the North.

Of folks with vision who have made fortunes out of Florida's wild sea grapes, sea shells, seaweed, tropical plants and flowers and built fabulous businesses because of their ability to visualize and organize.

No state in the Union offers greater opportunities today for the men or women who still retain the spark of freedom of thought, imagination and enterprise. It offers nothing to those poor deluded souls who have lost the secret of America's greatness and seek only security and the questionable gifts of a benevolent government.

Inspiring is the story of Tom Gaskins, the chap who went into the Everglades and carved a fortune for himself and family from cypress knees; or the chap in St. Petersburg who built a worldwide business by raising four leaf clovers.

Even the lowly earthworm has put hundreds and hundreds of dollars into the pockets of folks who learned that fishermen and gardners would pay cash on the barrelhead for worms. Today many folks are making a comfortable living raising worms. It requires little or no capital and pays handsome dividends.

Tropical fruits offer another lucrative avenue for profit. Thousands of boxes of choice tropical Florida products are shipped North each year, avocadoes, sugar apples, tangeloes, Key limes and so on, to a ready market, by folks who came here with a little or no capital but who had courage, enterprise and faith.

The opportunities for establishing a profitable business in Florida are unlimited, but they await only those of vision and courage.

I am reminded of the entrancing story of Cecil Webb who came to Florida and got a job as a truck driver for a concern handling meal and grits. Not content to drive a truck the rest of his life, Cecil made it his business to study the process and in a few years he ventured out on his own, establishing the Dixie Lily Milling Company. Now he has one of the most prosperous and promising businesses in the South.

Recently he established a farm for the raising of white African guineas. He has a demand from night clubs, exclusive hotels that he cannot fill. His white African guineas are shipped throughout the country and bring $1.25 a pound because he had the enterprise and courage to try something that no one else had ever attempted, and made good.

AVON PARK SERMONETTE

THE WORD OF GOD

Craig Wyant, Pastor,
Church of the Nazarene

There is a vast difference between preachers and churches today. The issue is not so much denominational differences as it is the difference between modernism —which is man-made religion, leaving out the blood of Christ— and true, fundamental, Bible-believing Christianity.

Since modernists do not preach salvation through the blood of Christ, but are interested only in "a better world," according to man's standards, and having turned their backs upon the Lord Jesus Christ and His Word, it is not surprising that many modernists drift into the ideologies of Socialism and Communism.

Satan has never denied the existence of God. Neither has Satan rejected the Bible as the Word of God. Satan's job is to twist and distort the Scriptures in order to deceive and mislead men and women.

Our God has not left His people in the dark.

As we "try the spirits, whether they are of God," (I John 4:1) we are definitely warned in 2 Cor. 6:14, 15 to "Be ye not unequally yoked together with unbelievers: for what fellowship hath righteousness with unrighteousness? and what communion hath light with darkness? and what concord hath Christ with Belial? or what part hath he that believeth with an infidel." A Christian is unfaithful to Christ if he joins any organization — social, fraternal, labor or otherwise — that is not Christian in character and purpose, and that causes him to compromise his separation unto Christ (2 Cor. 6:17).

What the world needs:

A leader like Moses who refused to be called the son of Pharoah's daughter but was willing to go with God.

Army generals like Joshua who knew God and could pray and shout things to pass rather than blow them to pieces with atomic energy.

A food administrator like Joseph who knew God and had the answer to famines.

Preachers like Peter, who would not be afraid to look people in the two eyes and say, "Repent or perish", and denounce their personal as well as national sin.

Mothers like Hannah who would pray for a child that she might give him to God, rather than women who are delinquent parents with delinquent children.

Children like Samuel, who would talk to God in the night hours.

A God like Israel's instead of the Dollar God and the Movie God.

LOCAL MAN TOURS 13 STATES AND CANADA

Jerome Shiltz arrived home Saturday from a trip of around 4,800 miles having left August the 4th. Mr. Shiltz was in 13 states and two provinces of Canada having traveled 900 miles in Canada going as far as Quebec City. He went on a tour of Montreal, including a ride on one of the famous tally ho's on Mont Royal. At Niagara Falls he got to see the falls and at Quebec he had a ride across the St. Lawrence River. In the early part of August Mr. Shiltz was the newspaper reporter for one of the nation's largest interdenominational camp meetings, Camp Sychar located at Mt. Vernon, Ohio. While in Ohio he called on his two brothers who are ministers in the Methodist Church. In New York he attended three radio programs, with one of them being on television, Voice of Firestone, City Service Band of America and America's Town Meeting of the Air. At Ocean Grove, N.J. he attended the Methodist Camp meeting, on the last night Rev. Billy Graham preached to around 12,000 filling two buildings to more than full. The radio program, Hour of Decision originated in the huge auditorium. On Tuesday Sept. 2 he attended a session of the Security Council at United Nations. Mr. Shiltz started back to work this past Monday at the Ward's Department store.

FCM To Organize Local Councils

A "kick-off" meeting, first of approximately 50 to be held in all parts of the Florida citrus belt for the organizing of small local councils of Florida Citrus Mutual members, will be held Sept. 15 at Orlando.

This was announced by Robert W. Rutledge, Mutual general manager.

Other meetings are planned that same week on Sept. 16 at Haines City, Garden Club Building, 3 p.m.; Sept. 16, Kissimmee, county agent's office, 7:30 p.m.; Sept. 17, Winter Garden, American Legion Home, 2:30 p.m.; Sept. 17, Apopka, Community Hall, 7:30 p.m., and Sept. 19, Lakeland, lobby of Mutual building, 7:30 p.m.

The Orlando meeting will be held at 7:30 p.m. at the Chamber of Commerce.

Perry Murray of Frostproof, former speaker of the Florida House of Representatives and president of Mutual, has urged all Mutual members to attend the organizational meeting in their particular area. Arrangements for the meetings are being made by Mutual's field men. Rutledge and Morris O. Nelms, head of the grower relations division, will attend as many of the meetings as possible, which will be held throughout September.

The approximately 50 local groups are being formed to furnish the medium through which Mutual can get information about its activities to its membership. It is believed this system will provide a method of doing this more effectively that at present, even though Mutual now uses all available publicity and informational outlets.

Commenting on the plan to form these "grass roots" councils, Rutledge pointed out that "Mutual members are entitled to know what we are doing and we at Mutual in turn want to know what our members are thinking and whether they like the way we are running their organization.

"When Mutual's members know the program of their organization —the job it has undertaken for them and how it is going about getting that job done, they will have a much better appreciation of its worth."

President Murray said he wanted to "urge with every ounce of my ability that every member of Mutual join his local council. These grower groups will bring Mutual into their own neighborhood."

A chairman, co-chairman and secretary will be elected at each of the local meetings. Announcement of other meetings will be made as rapidly as arrangements are completed.

Winn and Lovett Gives Pay Hike

Cost of living pay raises effective Monday, September 8 have been authorized for several thousand employes of Winn and Lovett Grocery Co., operators of a large group of Florida supermarkets.

In announcing the wage increases, F. C. Bexley, manager of Winn and Lovett's Tampa division, said the payroll boost will benefit several hundred employes in the 45 stores and the offices and warehouse of the Tampa division.

The wage boosts will apply to both salaried and hourly rate employes, the company official explained.

For the hourly rate personnel the increase is to be 3 cents per hour, with a maximum of $131 an hour.

Salaried employes are to get a straight $1.32 more per week, with a maximum of $52.50 a week.

"These are not the first cost of living raises to be extended by Winn and Lovett," Mr. Bexley said. His firm, he said, was a pioneer in involving cost of living pay increase based on price indices out of Washington, the first such raises being given to Winn and Lovett employes as early as October 1950.

The salary increases come on the heels of the big Winn and Lovett Family Frolics Day at Sarasota's Lido Beach last Sunday, when 2500 employes and members of their families were entertained with a big picnic and all-day outing, an event which has been set up on an annual basis as another employe benefit of the Winn and Lovett organization.

VETERANS INFORMATION

Veterans with service since the start of the Korean campaign who are planning to go to school under the Korean GI Bill were advised today by the Veterans Administration to take along enough money of their own to tide them over for about two months.

The reason, H. F. Dickensheets, manager of the Pass-a-Grille VA Regional Office explained, is that under the law, GI education and training allowances can't be paid until sometime after a veteran actually completes each month of training. Therefore, one month of the delay will be caused by the veteran completing his initial month of training.

The law also requires that both the veteran and his school or training establishment submit a certification to VA — after the end of the month — to the effect that the veteran actually was enrolled in training during that period.

This, too, takes time, so VA urged schools and establishments to get the certifications in as quickly as possible after the end of the month to keep the time at a minimum.

Finally, after VA receives the certifications, it must compute how much GI allowance each veteran is entitled to, and must mail out the payments. This process, VA said, normally will be kept down to 20 days from the date VA receives the certification.

Because of all these factors, post-Korea veterans would be wise to allow for two months before they can expect a check from the Government, VA said. Afterwards, of course, checks will come regularly each month, so long as they remain in training and their certifications are in order.

A veteran who starts GI training after the 20th of a month will have to wait several days longer for his initial payment, VA pointed out. The reason is that VA can't process his certification until after he has completed his first month of training. Payments for both periods — the complete month and the few days of the preceding month — will be included in his first check.

The allowances for veterans training full-time in schools and colleges under the new Korean GI Bill are $110 for those without dependents; $135 for those with one dependent, and $160 for those with more than one dependent. Allowances for part-time training, on-the-job training and institutional on-farm training are somewhat lower.

The GI allowances are paid directly to veterans, and are the only payments made under the new Korean GI Bill. They are for the purpose of assisting veterans in meeting the costs of their training.

Learn to labour and to wait.
—Longfellow

Mrs. Tomek Honored With Baby Shower

The Florida Power's Customers' Room was the setting for a shower given Mrs. Edward Tomek (the former Miss Ruth Elder) last Monday night. Mrs. Dot LaFiam and Mrs. Grace Pickett were the hostesses. Approximately eighty guests were invited.

The chair for the guest of honor was decorated with pastel blue and pink crepe paper, and canopied by an umbrella decorated in the same hues. The attractive gifts presented to Mrs. Tomek more than filled a huge pink and blue bootee placed on a table. Bouquets of flowers about the room also carried out the color theme.

The guests played various games. Mrs. Doris Sherer, Mrs. Erie Weeks, and Mrs. Norma Carlisle tied for high score in unscrambling a jumbled list of articles necessary in caring for infants; the list for each guest were written on paper cut in the shape of milk bottles.

Mrs. Mary Lucy Hall won the prize for pinning, while blindfolded, a baby's diaper on a pictured stork's mouth.

Refreshments were nuts, candies, Coca-Colas, ice cream, and small cakes, ornamented with baby rattles in pink and blue icing. Favors were paper napkins folded in the familiar triangle and pinned with a single safety pin; they were filled with after-dinner mints.

Mrs. H. H. Rhiner modeled an authentic costume.

Most of the articles on display were sent to Mrs. Clifford Craft by her husband who is now in Korea. Mrs. Craft's sharing these was much appreciated.
