Chamber Directors Make Get Acquainted Tour Of The Avon Park Lakes Development

Members of the Board of Directors of the Chamber of Commerce met Thursday evening at 5 o'clock at the field office for an informal get-acquainted tour of the Avon Park Lakes Development. The tour was conducted by Ira Glockner, manager of the development, and Bill Franklin, one of the engineers, was also on hand to help answer the many questions asked by the Board members as to drainage, roads, number of lots sold and other informative questions. The members also inspected one of the recently built homes in the development.

The tour was completed at 7 o'clock after which Mr. Glockner was dinner host at Griffin's Restaurant to the following members who made the tour: Ray Wells, R. R. King, Jim E. Paul Jordan, Ed Paul Jordan, Malcolm Crews, Barney Howard, Jack Delaney, Hubbard Biggs and Mrs. Anna Belle Worden. Dr. Coleman was unable to make the tour but joined the Directors for dinner.

After dinner the Directors adjourned to the Chamber of Commerce office for their regular business meeting.

Jim Hein, Chamber president, felt that each Director should have first hand information and figures pertaining to the workings of the Avon Park Lakes Development field office and property and to the future plans of the development.

Tourist Involved In Accident On Highway Monday

An accident on Highway 27 Monday afternoon climaxed the vacation for two families who were touring the state.

Murray Segal, 50, accompanied by his wife, of Forest Hills, Long Island, N. Y., was traveling on the highway and pulled out to park on the edge of the road about 4 miles north of Lake Itasca Court. His car was struck by one driven by George Dohanchik, 42, a school teacher from Herrin, Ill. Also in the car were Mrs. Dohanchik and their two daughters who were taken to Walker Memorial Hospital for treatment. Mrs. Dohanchik received a cut on left knee and damage to her jaw and teeth. Sarah, 8, received injury to her right leg and arm, and Linda, 11, had her teeth knocked out, lower lip cut, and was badly bruised and shocked.

Segal was charged with improper parking and Dohanchik with following too close behind a car. Estimated damage to Segal car was placed at \$450 and to the Dohanchik car at \$650.

Police Chief Harrison and Assistant Chief Blanford were the investigating officers.

JC's Study Communities' Civic Needs At Summer Conference

The Summer Conference of Florida Junior Chamber of Commerce Clubs was held in Sarasota August 16 thru August 18 at which time detailed studies of communities' civic needs were held.

Three members of the Avon Park Jaycees attended the conference; they were: Jim Turnbull, president of the local club; J. L. (Spike) Roberts, past president, and Carl Prioc, secretary-treasurer. The local president was pleased that 2 local members were appointed to State Committees. Spike Roberts was named chairman of the Sixth District Outstanding Farmer Award Committee and Carl Prioc will serve on the State-Public Relations committee to get more publicity not only for the Jaycees but for their various towns and cities.

Robert M. Silver, of Coral Gables, State President, recommended to the executive committee the study of civic needs in each club's community. He discussed the needs for better parks and recreation facilities, and told them he based his recommendations for Florida Jaycees projects on data obtained at the national convention last month.

Each local Jaycee club will survey their community to determine the top civic needs and the results will be used to set a course of plans and actions in sponsoring these improvements. In each of the nine state districts, awards will be made to those clubs making the best results.

Mr. Silver also recommended improved public relations program with business firms throughout the state, and to encourage the firms to be sponsoring club members and participate in the planning of future projects.

During the conference a number of panel discussions and groups were held for the planning of projects for the State. Also two board of directors meetings were held during the conference, at which time various projects were set up.

Arrests Reported By County Sheriff

A total of 28 arrests were reported by the Highlands County Sheriff's office this week, as follows:

Drunk, 5. Breaking and entering, 1. Speeding, 13. Improper Passing, 1. Following too closely, 1. Failing to have vehicle under control, 1. No Drivers License, 1.

Mrs. Delahunty To Teach At New School Of Retarded Children

Mrs. Maxine Shelley Delahunty arrived in Highlands County on August 18, to assume her duties as a Highlands County teacher. Mrs. Delahunty is under contract to the Highlands County Board of Public Instruction and has been appointed to teach the school being opened in Avon Park for the first time this September by the Ridge Area Assn. for Retarded Children.

Mrs. Delahunty comes from Sharon, Pa., where she was music supervisor for the Greenville Area Joint School. Among her pupils was Sharon, a group of handicapped children. She graduated from Grove City College, did graduate work at Duke University and Appalachian State Teachers.

House Destroyed By Fire Monday

A fire at 12:35 a.m. Monday morning at 940 South Fairfield totally destroyed the residence and rooming house of Mitchell Walker, Negro.

The complete building was ablaze when the Avon Park Fire Department received and answered the call. According to the investigation the fire started in the southeast part of the building from defective wiring.

The Fire Department did a wonderful job in keeping the fire from spreading to the nearby buildings. Estimated value of the building was set at \$1500 and an additional \$800 for contents.

Red Devils Start Football Practice Today

Coch Joe Fransa has issued a call for prospective Red Devil football players to report for practice at the high school gym Thursday, August 22, at 6 p.m.

The boys will be issued shoes on Thursday and are asked to bring gym shorts for that first practice. Pads and other heavy equipment cannot be issued until Sept. 1 according to state regulations.

Next week the coaches plan to hold two practices daily on Thursday and Friday at 6 p.m. in order to get the boys in shape for their first game on September 30 against the Mulberry Panthers.

Coach Guy Garrett and Coach Lee Maness will assist Coach Fransa in shaping up the Red Devils for the coming season.

The Avon Park eleven will be the defending Ridge Conference champions this year and their chances of holding on to the Ridge title are good in spite of the fact that the squad lost several men off last years team.

The 1957 schedule for the Red Devils is as follows: Sept. 30 Mulberry, Home; Oct. 7 Kathleen, Home; Oct. 14 Ft. Meade, Away; Oct. 21 Open; Oct. 28 Suburban, Away; Oct. 25 Arcadia, Away; Nov. 1 Prosthoff, Home; Nov. 8 Kissimmee, Home; Nov. 15 Bartow, Away; Nov. 22 Open; Nov. 27 Sebring, Away.

Mail Declared Prettiest Main Street In State

(Recently Avon Park was honored by a visit by the nationally known "Beachcomber," Wesley W. Stout. His column appeared in a number of papers and our city was chosen worthy enough for him to write the following story that first appeared in the Fort Lauderdale Daily News on July 23.)

AVON PARK, Fla. (Prettiest Main Street in Florida easily in Avon Park, a mile long. Mail down the center planted with more than a thousand varieties of flowering trees and shrubs, and carefully tended by the town.

It had a botanist mayor in 1928, Dr. C. S. Davidson, retired from the U.S. Department of Agriculture. The town provided the land, the doctor the plantings through the Plant Introduction Service. Result: An arboretum of tropical, exotic donated by the jacaranda. Something always is in bloom. Miami or any other city could be proud of its like.

Fewer and fewer tourists will see it, unfortunately, now that they whizz by half a mile west on a new U.S. 27 cut-off. Though other businesses may have suffered from the bypass, the big Jacaranda Hotel, oddly, has benefited. It now can rent its front rooms.

It is a 120-room boom-time hotel, too big for the town, which faces the park. Before the bypass, the big trucks rolled by all night long. Traffic lights stopped them at the hotel corner, and when the trucks started up again in low gear, they shook the front room guests right out of their beds. It got so the Jacaranda could not sell a room in front.

Those ice-box rolls were invented here and by accident. Joe Gregor, a mess sergeant back from the wars, had a little bakery and was a volunteer fireman. When the fire whistle blew one day, he yanked an unfinished batch of rolls from the oven and took off.

In that fashion, he discovered what he called "Pop 'n' Oven" rolls and what General Mills, which bought the rights, calls "Brown 'n' Serve." Yeasted products baked at lower than normal temperatures until the interior dough becomes hot enough to "set," but before the outside browns, will stay fresh several days at room temperature, two weeks in the refrigerator, indefinitely in the deep-freeze.

Gregor sold for cash and no great sum, put most of it into a canned french-fried potato deal at Winifred Park last night. He travels for a wholesale grocery now.

The same two New Yorkers, Walter and Arthur Smadbeck, who sold some 30,000 mail-order lots of Venice through the "Venice Area Chamber of Commerce," now are operating here through the Avon Park chamber.

This is a legitimate, 22-year-old Chamber of Commerce, as the other was not; and the Smadbecks' sales manager for Avon Park Lakes says the job they had done in "putting Venice on the map" came to them and asked for the same. So far as we can learn, this is true.

The land here is better located and more slightly, the price higher, much the largest number of lots have been sold to Floridians, and houses are going up. The Smadbecks built 85 miles of blacktop streets into a thousand miles. Mrs. Anna Belle Worden of here, she has a nickname: Suntan, for the perfect copper tone shade of skin she manages the year around.

George F. Foley Promoted By Fla. Power Corp.

George F. Foley, Florida Power Corp. vice president, has been elected vice president, secretary and treasurer of the utility, and a member of the board of directors, to succeed E. K. Igenfritz, President. J. Clapp has announced Igenfritz will continue to serve Florida Power as a financial consultant.

Hubbard Biggs Purchase Ratliff-Roberts Agency

Hubbard Biggs purchased the Ratliff-Roberts Agency on Tuesday of this week. Mr. Biggs announced that he will continue to represent the same insurance companies and will handle the same policies which the Agency sold. He will also continue to maintain the real estate office on South Lake Avenue as well as his office on the Highway.

The purchase of the Ratliff-Roberts Agency makes three insurance agencies which Biggs has purchased since he opened his own agency in 1951. During 1953 he purchased the Margaret Vogt Agency and James Anderson Agency, which was formerly the Dornier Agency.

The Hubbard Biggs Agency is located in the Carver Bldg. on Highway 27 North, also located in the same office is Biggs Real Estate. He is a registered Broker, and employs four real estate salesmen, so one of the salesmen will always be on duty at the new office on South Lake Ave.

The Hubbard Biggs Agency represents nationally known insurance companies and can write a policy for you to cover your every need.

The First Annual Peace River "Seminole" Boat-A-Cade, August 25

The group will assemble at the bridge at Fort Meade, 1 1/2 miles east from the old hotel on U.S. 90. Begin launching boats at 6 a.m. Have short religious service at 7 a.m. There will be coffee and donuts for all, tea, gas, water and drinks will be available. Boats will be grouped together according to cruising speeds. Our own Boat Club members will act as guides.

The Arcadia American Legion, under Commander Beryl Barney, will have a barbecue chicken dinner ready for us for and gas will be available here also. We will then return to Fort Meade.

The Fresh Water Game & Fish Commission have promised us air and boat patrol, with radio contact.

There will be sufficient personnel to help you unload and load your boats and park your cars.

The County Patrol will be on duty from 9 a.m. until you return, to protect your cars.

Historical Peace River is unsurpassed in beauty. It is clear of logs.

For further information, call Bufton on Cade, Fort Meade, 4-3061. Plenty of parking area.

Teamwork Is Important Says Kirkman

Tallahassee — Teamwork on the highway is just as important as teamwork on the field of sports, and it is the one game, if played right that can bring victory to both sides, declared Comdr. H. N. Kirkman of the Florida Highway Patrol.

He was talking about the August safety theme, which is "Share The Road."

"Driving in today's traffic is not a one-man show. The modern day driver who makes a grandstand play or a show-off move on the highway, loses — usually — for both sides," he declared.

Kirkman said that the sooner every driver realizes that it is his responsibility to share the road with others and keep step with the traffic around him, the sooner will our death rate show a marked decrease.

The officer emphasizes the foolhardiness of such traffic stunts as changing lanes in fast traffic, bumper chasing, making sudden stops, and turning from the wrong lane.

"When you drive courteously, you're protecting your own safety, because a driver rarely causes an accident without suffering some degree of misfortune himself," Kirkman said.

Keep alert. Think ahead. Be adaptable to traffic conditions. Pace yourself by the traffic around you. Take ONLY your share of the road, obey the letter all traffic laws.

"Do those simple things," said Comdr. Kirkman, "and you have written one of the best life insurance policies a fellow can get."

Students Visit Florida School For Boys

Marianna — Theology students in the Episcopal Diocese of Florida visited the Florida School For Boys at Marianna last week as a part of their community orientation program.

The Rev. Canon Robert J. McCloskey is director of the group, which is looking at campuses of local and state institutions during July and August. Purpose of the tour, according to the director, is to help future clergymen to see the needs of communities they will serve. They are trying to find out how the church can aid and support the social agencies.

"Defining the role of the clergyman is one of our aims," (Continued on page 10)

Voting Machines To Be Used In City Election

Voting machines will be used in the City Election on Tuesday, September 18.

This will be the first time that the voting machines have been used in a City Election in Avon Park. The machines were used in the last General Election Highlands County for the first time.

Arrangements have been made by the City with the Board of County Commissioners and with Supervisor Roland Drott for four machines to be placed in the City Hall for use during the election.

"Don't forget! Friday afternoon, August 30, at 5 o'clock is the deadline for registering as well as the deadline for qualifying as a candidate. So make sure that your name is included in the City Book."

General Business Conducted At Meet Of County Commissioners

Business of a general nature was undertaken and discussed at the regular meeting of the Highlands County Commissioners Tuesday morning.

The Board approved Units 33, 34, and 35 of the Avon Park Lakes Development subject to the approval of the County Clerk, Attorney and R. E. Miller.

Bids were received and opened for a refrigerator for the new jail from Dutton's Appliances \$210.00; Lee Gray Refrigerators \$1195 and Louis Wohl \$812. The bid was awarded to the lowest bidder.

The Board accepted all bids submitted on appeal the 22 hours order.

The Commissioners granted Avon Park permission to move voting machines to and from City Hall for use during the election of County Supervisor. (Continued on page 10)

Special Meeting At Youth Center

A special meeting of the Youth Association for the election of officers will be held at the Youth Center Tuesday night, August 27, at 7:30 o'clock. The new Board of Directors will also be appointed by the coming year.

Parents having children entering the seventh grade this year and those having children over 12 years of age are invited to join the Association. An invitation is also extended to anyone interested in the welfare of the youth of Avon Park.

Mr. A. W. Mincks has done a wonderful job for the youth at the Center and has had to do a lot of the work by himself, so an appeal is made for other parents to assist in carrying some of the load.

Simple Issue

A House committee has approved a bill which would ease federal controls on natural gas producers. The bill was drawn up with the aid of gas industry representatives and Federal Power Commission officials.

According to press dispatches, this proposal is similar to a law which was passed by both House and Senate about a year ago, but was then vetoed by the President. That veto, it should be remembered, was not carried because the President disagreed with the law's objectives. Indeed, in his veto message, he specifically said that he agreed with those objectives in general. However, he had been so offended by lobbying methods used on behalf of the bill by a few individuals that he felt a veto was necessary on moral and ethical grounds.

That to one side, the issue at stake is a simple one. It is whether stringent federal controls should be exerted over natural gas at the wellhead. This is a highly competitive and risky business. The gas producers have no protected markets, and are in no sense operators of public utilities. There is small question that if such controls are continued, and become a matter of fixed policy, gas prospectors and producers will become discouraged and will refuse to take the long risks when they may be denied an adequate return if they succeed. That would mean a gas shortage in many regions.

The House committee has taken a wise action on each dollar of sales—which means that if it had earned nothing at all we wouldn't have been able to see the difference in the price we paid for meat. Earnings for all U. S. manufacturing corporations averaged 5.3 cents on the sales dollar.

A Big Service at a Small Cost

Last year, the American Meat Institute reports, the meat packing industry produced more meat than ever before. And the packers' earnings showed an improvement over 1955.

This does not mean, however, that the packers are waxing fat at a high cost to all us meat consumers. For instance, the 1956 net earnings for the entire industry came to about \$114 million. That sounds like a lot of money and it is—but it also is modest for an industry which ranks second in the United States in total sales. By way of comparison, in that year there were 10 individual U. S. companies whose net earnings exceeded the total for the whole packing industry.

Another set of figures makes the packers' profit situation clearer to the consumer. The industry's 1956 earnings equaled but one cent

on each dollar of sales—which means that if it had earned nothing at all we wouldn't have been able to see the difference in the price we paid for meat. Earnings for all U. S. manufacturing corporations averaged 5.3 cents on the sales dollar.

The Institute reports another interesting fact, gleaned from a survey of 109 packing concerns. Two-thirds of the income of these companies, on the average, was retained in the business—while only one-third was distributed to company owners. And 55 per cent of the companies reinvested more than 80 per cent of earnings.

Meat packing is an extremely competitive enterprise all along the line—which is the big reason why profits are so modest. We get a world of service for a mighty small price.

MY FRIEND

Folks used to wonder what Grandpa Brown and I had in common. He must have been close to eighty when I was just a kid. But I remember him as one of the best friends I ever had. He was a wonderful old man, with a simple, native wisdom. We used to go fishing together, and he would talk to me about God and Faith and Love. I remember he used to say people shouldn't wait until they're in trouble before going to Church. "When you're happy," he told me, "take time out to offer a prayer of thanks for your good fortune."

The Church, he used to say, had acted as a balance wheel for him during good times, and a bulwark during bad times. Down through the centuries the Church has made great Christians out of unassuming people, who in turn have transmitted the blessings of the Church to the oncoming generations. I hope I can impress Grandpa Brown's Faith and Wisdom upon others as I was impressed by him.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without it we can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Faith Lutheran Missionary League Meet

Faith Lutheran Women's Missionary League held their regular monthly meeting at the church on August 14. The meeting was called to order by the president, Mrs. Barbara Pitts, and opened with the singing of the League Song and a prayer led by Pastor Bischoff.

Mrs. Bischoff was cordially welcomed into the League as a new member. The following members were present: Mrs. Barbara Pitts, Mrs. Catherine Anderson, Mrs. Frieda Miller, Mrs. Eva Matyas and Mrs. Ruth McCausland. Mr. Roy Hitchcock from Ohio was the guest of the evening.

Plans for the Zone Rally to be held on Oct. 13 are well under way. Faith Lutheran Church is in the area known as the Western Zone, which includes Leagues from the Lutheran Churches in Clearwater (First Lutheran), Fort Myers (St. Michael), Lakeland (St. Paul), St. Petersburg (Grace), Winter Haven (Grace) and Zephyrhills-Dade City (Our Saviour). The Rally, which is held in the spring and fall of the year, consists of the business meeting of the Zone, held in the afternoon and the Banquet which is held in the evening. These rallies are usually well attended because they tend to inspire the Leagues and also to inform the members of the progress made in the various projects sponsored by the Florida-Georgia District of which the Western Zone is a member. Funds for the projects are raised entirely by the collections from Mite-Boxes. These funds are used to help purchase church furnishings for the new missions, help furnish various chapels, and many other worthwhile projects.

The meeting was adjourned and closed with the Lord's Prayer in union.

Mrs. Freda Miller was the hostess for the evening.

White-Alexander

Miss Kathryn Mae White of Bluefield, West Virginia, became the bride of Andrew Alexander, Jr., Wednesday afternoon, August 14, in an impressive double ring ceremony performed by Dr. Fred Wyant at the First Methodist Church before members of the immediate families.

The bride is the daughter of Mr. and Mrs. W. P. White of Bluefield, W. Va., and her husband is the son of Mr. Ruby Alexander and the late Andrew Alexander, Sr., of Avon Park.

The bride wore a street length dress of periwinkle blue lace with silver thread with a Queen Anne collar over blue tulle. Her accessories were white and she carried a white Bible adorned with white carnations.

Her only attendant was her sister, Mrs. Lillian Henry of Hollywood, Fla., who wore a street length dress of baby blue lace over tulle with white accessories and a white carnation corsage.

Mrs. Alexander chose a pink silk with white accessories for her son's wedding and wore a white carnation corsage.

Out of town guests included Miss Marie Pilgrim of Hollywood, Fla., and Mrs. Donnie McLendon of Miami.

The young couple left for a wedding trip to the East Coast and Mr. Alexander of the U. S. Navy left Tuesday for a tour of duty in Cuba.

The Roxie Jacobs Circle met with Mrs. Charles Houze on August 8, with five members present.

Mrs. George Lewis presided over the business meeting, after which Mrs. Eileen Hall led the group in the study of John 16.

Everyone enjoyed the home-made ice cream served by the hostess.

Mrs. Melvin Bean has invited the group for the next meeting, which will be on Sept. 12.

Belgium's New Foreign Affairs Minister Endorses Closer U. S. Economic Ties

Victor Laroock, Belgian Minister of Foreign Trade since 1964, has succeeded Paul-Henri Spaak as Minister of Foreign Affairs for Belgium. Mr. Spaak has gone to NATO as new Secretary-General, replacing Lord Ismay of the United Kingdom, the first Secretary-General of the International North Atlantic Treaty Organization. Henri Fayet has become Belgian Minister of Foreign Trade, the post formerly held by Victor Laroock.

Mr. Laroock has been active in Belgian political and governmental affairs since the Belgian occupation of Belgium during World War II when he took part in the Belgian resistance movement. In recognition of this service, he received the Croix de Guerre with palm and the Resistance Medal.

An ardent supporter of various measures for European union and close ties of friendship between all nations of the Atlantic community, Mr. Laroock summarized Belgium's successful commercial policy as follows in April, 1957: 1) maintenance of price levels; 2) reinforcement of Belgium's "presence" abroad through her export trade; 3) increased export of consumer goods and finished products. Mr. Laroock devoted his efforts in the Ministry of Foreign Trade to raising Belgian export trade to a high level.

Victor Laroock has been a strong advocate of the new policy to attract American industrial techniques to Belgium. While he was Minister of Foreign Trade, 12 companies were added to the list

of over 300 U. S. firms that have already established other branch operations or manufacturing agreements in Belgium.

CRACKER POLITICS

BY ALLEN MORRIS

Tallahassee — Right where the Legislature left off with its enactment of a \$100 million plus additional tax program, a committee of the Legislature is taking over.

"Yes, we're going to follow the State's money situation very closely because financing of the government is going to be a major problem again in the 1958 session," reported the wise Senator B. C. Pearce of East Palatka.

Pearce is being named by Chairman James S. Moody of the Legislative council to head its committee on taxation. The Council, made up of 18 key legislators, possesses the technical staff to direct year-round fact-finding for the Legislature.

"So long as thousands of new residents are coming into Florida — and the last estimate I saw was 4,000 a week — the Legislature will have revenue as its No. 1 concern," opined Pearce. "The government must provide the facilities promised those people when they are asked to come here."

The designation of Pearce, a Putnam county potato and cabbage grower, as the Council's tax chairman appears to be a happy one for a number of reasons.

He was chairman of the Senate Committee on Finance and Taxation during this year's regular session.

RESOLUTION

WHEREAS, the Tax Assessor has completed a survey of all taxable real and personal property within the corporate limits of the City of Avon Park, and

WHEREAS, the Tax Assessor has completed a tax assessment roll for the tax year 1957 and filed the same with the City Clerk,

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF AVON PARK, FLORIDA, THAT AUGUST 29th, 1957, is fixed as the day upon which the City Council will sit as an EQUALIZING BOARD and hear the complaints of all parties who are dissatisfied with the Assessment of their property as fixed by the Tax Assessor; the said City Council having the authority under the City Charter to raise or lower any assessment made or to make any adjustments thereto, as to them may seem proper.

BE IT FURTHER RESOLVED, the City Council will convene as an EQUALIZING BOARD at 7:30 p.m. August 29, 1957, at the City Hall, Avon Park, Florida.

ADOPTED at a regular meeting of the City Council held August 12, at 7:30 p.m., City Hall, 1957.

"It's my idea," explained Chairman Pearce, "that the Committee should maintain close liaison with the Comptroller (Ray E. Green) and the Budget Director (Harry G. Smith) so we will know at once of significant revenue trends."

"Further, it is my intention to conduct public hearings around the state prior to the '59 session, when money needs are fairly clear, so the Committee may obtain the benefit of what people think of the tax program."

Pearce said Gov. Collins' Citizens Tax Council, which went out of existence with the convening of the '57 regular session, had collected some useful information now available to his group.

"The facts and figures collected by the Council were particularly helpful in answering the arguments of groups opposed to new taxes," recalled Pearce. "The automobile dealers, for example, had the propo-

Surles' taxation experience rather duplicates that of Pearce. Surles served as chairman of the House Committee on Finance and Taxation in the '57 session, and he preceded Pearce as Council chairman. Each, therefore, should know the revenue situation quite intimately and each also should know how to put the Council's researchers on useful labor.

Legion And Aux. Supper Set For Wed. Aug. 28

Members of the American Legion, Highlands Post #6, and their wives or dates and members of the American Legion Auxiliary and their wives will have a covered dish supper at the Legion Home on Wednesday night, August 28. All members are urged to attend.

At the regular weekly meeting Wednesday night, August 14, a general discussion was held on the selling of the Legion Home and property on Lake Lotela and different sites were suggested as the new Legion Home. At the present time they have not decided on a site to purchase for they hope for one large enough for a new Legion Home and Fair Grounds.

Regular meetings are held each Wednesday night at the Home at 8 o'clock and all members are urged to attend as important business matters and interesting programs have been planned.

The submarine was not generally recognized as a legitimate instrument of warfare until the Civil War.

Hitching Post Scene Of Surprise Birthday Party

The Hitching Post Restaurant on North U. S. Highway 27 was the scene of a delightful surprise birthday party Monday night, August 12, honoring Edward Koch on the event of his birthday.

Among those who gathered to help him celebrate were Sally and Dallas Burns of Boloxi, Miss.; Bill Clem, Sammy Wright, Norma Spurluck, Kelson and Benny Keith Hill, Jr., of Register; Larry Bond, of Luscombe; Sue Turner, Sandra Williams, Nancy Maly, Butch Meeker, and Buck DeAntano.

During the evening refreshments were served the guests by Mrs. Meeker and the Lavender. After the party the guests were treated to a movie party by the host and his wife, Mr. and Mrs. Jerry Meeker.

2800 Winn-Dixie Employees Receive Bonus

Employees of Kwik Chek and Winn-Dixie stores are over two million dollars richer today according to an announcement by Mr. M. H. Hollingsworth, Vice President in charge of the firm's Tampa and West Coast Area Division. The distribution, totaling \$2,165,000 has been made to approximately 2800 employees who are eligible to participate in the Winn-Dixie Employees' Profit Sharing Program by virtue of completing five years of continuous service with the company. Under the program, a portion of the distribution is made in the form of a cash payment to employees and the balance credited to individual trust accounts for their retirement. The cash payment for the current year amounted to \$560,000. Employees are not required to contribute any part of the cost of the program.

The Retirement Trust, now in its 11th year, has assets in excess of \$4,000,000 which are invested in individual accounts of the 2800 eligible employees.

"We feel that we have one of the finest employee benefit programs in the country," Mr. Hollingsworth said. "In addition to our Profit Sharing Program, our employees have low cost group life insurance, hospital and accident insurance, sick pay program, stock purchase plan and college scholarship program for their children, to name a few. We know

World's Longest Covered Bridge In Canada

New Brunswick has more than 215 covered bridges including the longest one in the World—1,282 feet over the St. John River at Hartland. These covered wooden structures are still in daily use and are much photographed by visitors to the Province. The bridge roof protects the large timbers of the bridge from weathering and so lengthen their life from 25 to as much as 70 years, engineers say.

42 Visitors Register At Local Chamber

Forty-two visitors have registered at the Avon Park Chamber of Commerce office during the past two weeks, from 10 different states. Summer is nearly over and the tourist are once again beginning to come to our community for the winter months. A welcome to each and every one of them.

Those registering were: Kenneth Z. Osborn, Hobart, Ind.; Mr. and Mrs. L. W. Bleum, Minneapolis, Minn.; Mr. and Mrs. Harold E. DO YOU KNOW?

By DALE I. ROYAL, Evangelist

Did you know that the term FAITH ONLY occurs but once in the entire Bible? Did you know that in the passage FAITH ONLY appears that it teaches the opposite of what most Preachers would have the people believe? Most creeds include a statement like this, "Wherefore, that we are justified by faith only is a most wholesome doctrine, and very full of comfort." The only trouble with this concept is that if the Bible is our standard the doctrine is neither wholesome nor full of comfort.

James, speaking by inspiration of the Holy Spirit, says just the opposite. In concluding his reasoning on salvation or justification James writes, "Ye see then how that by works a man is justified, and not by faith only." While modern Preachers and Teachers proclaim that men are justified by faith only (James 2:24) Where do you put your faith? In man or in God?

Paul never said that man was justified by faith only and James never said that man was justified by works only. The truth is that both are absolutely necessary for salvation. Faith without works is dead (James 2:17) and works without faith is dead (Hebrews 11:6). To make Paul and James contradict one another is to destroy faith in the Bible. To teach the necessity of Faith and works (obedience) is to understand what Jesus meant when He said, "He that believeth and is baptized shall be saved" (Mark 16:15-16).

Spiritual Freedom

AN entire book of the Old Testament is devoted to the experiences of a man called Job, who found himself bereft of supply, family, and health through the machinations of the devil, or evil. Job first clothed himself in sackcloth and ashes, accepting the belief that he was a sinner and responsible in some way for these dire happenings. Job's enlightenment and healing began when he stopped probing for faults in himself or listening to human theories regarding his guilt and listened instead for God's voice, which told him (Job 40:10), "Deck thyself now with majesty and excellency; and array thyself with glory and beauty."

Job glimpsed the dignity of man as God knows him when he attained an increased awareness of God's presence and power. Then Job was released from ugly concepts of a cursed man. Through his understanding of God as the creator, Job's prosperity was restored. He found freedom from disease, lack, and grief, as he also found spiritual freedom to rejoice in God's goodness and majesty.

The Biblical record of enlightened men and women who solved their problems through the understanding of God culminates in Jesus of Nazareth, who fully understood and manifested the Christ, God's spiritual ideal. In this accepting the Christ, the Son of God, as his true identity, Jesus cast off human limitations and false concepts and thus was able to present to mankind the true man glorified by God. . . .

The individual, however, who is seeking his true status as the child of God is not encouraged to stay in the sackcloth and ashes of self-condemnation and self-pity, the physical and mental bondage produced by wrong beliefs, but to move quickly through reformation to the demonstration of his real selfhood. God's image and likeness. Would a mathematician whose pupil

has made a mistake in arithmetic condemn that pupil to remain in a state of ignorance, to keep error in his consciousness; would he not rather replace the error with the specific mathematical truth which would counteract the mistake?

No one is spiritually free who is hampered by false humility, self-depreciation, and disencouragement. These are arguments of the devil which would blind us to the real nature of man as the evidence of God's power and goodness. The remedy is to understand the ever-present and allness of God, Love, and to welcome the light of Truth, which dispels the darkness of error. Repentance is over when the error of belief is recognized, separated from identity as a man, and proved to be nothing.

Spiritual freedom is the natural and permanent right of man to reflect the qualities of God, good, and to know himself as the Father's beloved child. Each individual must progress to the understanding of his true selfhood as the reflection of God and of the eternal continuity of his spiritual perfection. God's expression must be discovered to be the only real man, forever blessed by his Father-Mother with unlimited good. In the atmosphere of spiritual perfection, one lives happily and prosperously freely, who can understand within the sphere of Jesus' influence felt this benediction and spiritual freedom it bestowed.

"Science and Health with Key to the Scriptures" by Mary Baker Eddy was written in order that all mankind might find spiritual freedom. We read therein (p. 228), "Mortals will some day ascribe their freedom in the name of Almighty God. And Mrs. Eddy encourages mankind thus (ch. p. 227): "Citizens of the world, accept the glorious liberty of the children of God, and be free! This is your destiny, right."—The Christian Science Monitor.

Dear Mr. Meyer:

As it is getting close to election time, we are wondering why you haven't published in your paper just where our tax money has gone during the last two years.

Three years ago we had a lot of new buildings, as we had two years ago, and we tax payers would like to know how many of the bonds have been paid off and how much money there is in OUR treasury.

It is only fair that our local paper publish the reports given them by our city officials. Let us know through the Sun, Please.

WCS Honors Dr. And Mrs. Wyand At Farewell Party

The Woman's Society of Christian Service of the First Methodist Church honored Dr. and Mrs. Fred Wyand at a farewell party in Wesley Hall after church services Sunday evening, August 11. Dr. Wyand has been the visiting minister at the church while Rev. Wilmer O. Lattrell was away on vacation.

W. R. Dinnison on behalf of the Woman's Society expressed their appreciation to Dr. and Mrs. Wyand for the many services they performed while visiting at the church. Nute presented Dr. Wyand with a money gift from the church during the evening.

Approximately fifty persons joined at the party to bid farewell to Dr. and Mrs. Wyand before they returned to West Virginia.

Punch and cookies were served from a long table beautifully decorated by Mrs. A. F. Higgins and Mrs. W. P. O'Steen and their committees.

Robert Fulton, inventor of the steamboat, was an avid submarine enthusiast. He built several submersible warships, one of which was known as the Nautilus.

Soprano Helen Morgan Would Shock Us Today Says Polly Bergen

By Willard R. Kopy

"But wasn't Helen Morgan a soprano?" I asked. "You're no soprano, are you?"

"Yes, Helen Morgan was a soprano and no, I'm not." Polly Bergen was the lady answering the questions and we were sitting in her big, comfortable and cool upper Fifth Avenue living room discussing, as you might suspect, her recent performance in the title role of "The Helen Morgan Story" on TV's Playhouse 90.

"I'm a contralto," Polly went on. "I didn't attempt to sing as Helen Morgan did technically on the show — or on my album, either. I tried to get the 'feel' of Helen Morgan, not the sound of her. I think people would have been shocked if she had been portrayed as a soprano."

"Why is that?" seemed the logical question next and Polly, blue eyes sparkling, had a ready answer.

"In the 20's," she said, "most of the top female singers were sopranos. Most of the top male singers, then, were tenors. But musical styles have changed now. Today we think of a torch singer as having a low, husky voice. It seems to go better with the sentimentality expressed."

"You must be too young to have ever seen Helen Morgan perform when she was in her

prime," I said. "Yet I have it on good authority that when

POLLY BERGEN

You began rehearsal for the TV show, you knew more about Helen than Lulu Morgan, her own mother."

Polly looked serious. "I never did see her perform in person, she admitted. 'But I saw movies. I've always loved the songs she sang. I've been singing them in my night club act for years. And when I started preparing for the TV show, I did a lot of research."

Looking about Polly's New York home — or at least the artfully decorated living room of it — it occurred to me that Polly Bergen had obviously done some research on other things besides Helen Morgan. It had been glaring hot on the street earlier. Here, it seemed as cool as a mountain bower. I remembered a Redbook cover story I'd seen featuring Polly Bergen's ideas on the subject of beating the New York heat. "How do you do it?" I asked her.

She laughed. "It's mostly an illusion," she said, and pointed to the bright green ivy plants bordering the window. "Greens and bamboo. I try to bring the outdoors indoors. Let the sunlight in, but without letting it get overpowering. And you have to think cool. Heat in many ways, is just psychological, you know. Learning to live with it, you might say, is another job of setting."

I left the second-floor living room and went out again into the sun-drenched asphalt. I tried to think cool, but, somehow, without Polly Bergen to spin the illusion, it wasn't quite the same.

Do You Have

CHICKEN A LA ROYALE

- 3 fryers cut in pieces
- 1 teaspoon salt
- 1/2 teaspoon pepper
- Paprika
- 2 cloves garlic, chopped
- 4 medium onions, chopped
- 3 green peppers, chopped fine
- 3 No. 2 cans tomatoes
- 1 dash cayenne
- 1/2 teaspoon thyme
- 1 teaspoon curry powder
- 1/2 cup chopped parsley
- 1 cup currants
- 1/2 pound blanched toasted almonds

Roll chickens in mixture of flour, salt, pepper, and paprika. Fry in deep fat until golden brown. Place in a roaster, add 1/2 cup hot water, and steam until tender. Meikrowave

—By Don Meikrow

As anyone who watched him campaign for governor knows, Bradley Odham is an outspoken fellow.

The Sanford contractor doesn't waste time with fancy words when he gets his mind made up to do something. He wades in, asks questions — often embarrassing — and generally puts the pot to boiling.

After a two-day hearing of the "new look" milk commission, Odham has the pot boiling, and all indications are that he intends to keep it boiling.

He admits he doesn't like milk price controls or regulatory agencies such as the commission, but says he is willing to study the situation.

I have to admit I'm opinionated against it (the Milk Commission), but I'm willing to look at it from the inside and see if there's anything to it. I'm not enough to change my mind if I find out there is," Odham said.

He added, "If it's possible to shake it up so it's right for the people, it's going to happen."

Commenting on the commission being "stuck against industry" by new appointments, Odham said he agreed it was stuck, but "stuck for the people."

The day before, he officially became chairman, he said he wouldn't tolerate closed meetings. He had a chance to prove his point.

After being shown laws about getting fined \$500 for giving out information obtained in his official duties, and behind the scenes attempts to get a hearing on a dairy farmer's complaint against Odham's Dairy in Pensacola, he was asked if it would be closed to the public, Odham said it would be open.

Later when the hearing was underway and getting to a controversial part, the attorney for the Borden Co. tried to get the meeting closed, Odham said, "No" and was backed up by the Commission in a roll call.

If nothing else, such open dealing will go along way toward public confidence that they are getting the full story — whether they agree with Odham or not.

The Milk Industry is complex. For years, there's been a lot of talk about milk price fixing. The industry has said commissions are necessary because milk is a perishable commodity and requires an "orderly flow."

There have been arguments over whether the price should be fixed for the milk the farmer sells the dairy, or should it also be fixed for retail sales.

There have been rumors that the farmers, who for the most part have supported health controls, were afraid to speak their true feelings. That's one of the main things Odham says he intends to find out, and he pledged that there will be no reason to be afraid to speak.

There's another place where the public will be able to say, "That's what they really mean, and instead of saying, 'Who are they afraid of.' Maybe after everything is

well be seeing "Highway Patrol featuring Col. H. N. Kirkman instead of Broderick Crawford or "Constant of Sweet Gum Head" instead of "Gunsmoke."

One wag said it was going to be a giveaway show, featuring the Legislature.

Talk in Tallahassee is that the number of Senate seats will have to be "even" if the so-called pork choppers take it.

If state officials switch to blue shirts and start talking in closed sentences, the answer seems to be in a "confidential" project of the Florida Development Commission.

In hushed tones at a meeting recently, the commission members were told of a big deal brewing with "one of the largest producers of television films."

Through the whispers, you gathered it would be a "Badge '74" type program with pulled down hats and turned up collars using a state agency as the basis for the yarn. Something also was mentioned about it being a program "I Love Lucy."

In checking around, it was found that the references were to the type of show and not subject matter. In other words, the show would be filmed in Florida and would be commercial.

Could be that pretty soon,

HAPPY VACATION!—HERE'S WHAT YOU DO

Vacationists spend \$2,000,000,000 annually buying among other things: CLOTHING—LUGGAGE—FISHING TACKLE—PLACAMARAS—SUN GLASSES—SUN LOTIONS

This vacation map is based on business surveys which indicate that during the year, 85,000,000 persons will go on vacation with 10,000,000 traveling by car. The most popular vacation area appears to be the North Atlantic States from New Jersey upward. Other popular areas are around Lake Michigan, and on the Pacific Coast and along the South Atlantic Coast. However, there are many popular vacation states outside these areas. About 300 million is spent annually having fun and relaxing.

We think of the Pelican as a sub-tropic bird, probably because the Brown Pelican is found in the area around, but these beautiful birds spend only the months of January, February and March with us.

Although they procure their food by wading or gliding softly on the surface of the water to locate their prey, they do not spear the fish as the Heron, but scoop it up with their long wide open bills and garner it into a pouch attached to their bill, then they contract the pouch and the water is pressed out between the mandibles, then they swallow the fish, and another fish hunt begins.

It is not an unusual sight to see the white Pelicans make a huge semi-circle in the water and gradually work toward the shore, occasionally beating the water with their huge wings, making a great splash accompanied by plenty of noise which drives the fish into shallow water where they can be scooped up more easily.

A great many birds have some unusual habit that is phenomenal, indeed most of their actions are amazing to us if we study them a little. I was discussing the Crow with a man recently, and expressed how shrewd he knew the crow to be, he said that the Crow could read and write, well we have never seen them do that, still the family to which they are considered to be the wisest bird family we have. A great many of us do not realize how clever a bird must be just to escape its enemies and perpetuate itself.

If all birds are the same type of food, they would soon eat themselves out of "house and home", but the different species gather their insects at different heights, and add different assortments of grain, fruit and weed seed, so that no area is never over foraged.

We see a good example of this by watching birds come to our feeders, they will only eat a certain amount of grain regardless of how plentiful it is, then fly over and get a few bits of nut, then to the tree tops or ground searching for their certain variety of insect.

When the time comes for the white Pelican to migrate, it takes off diagonally across the country from the extreme north western part of the country flying usually in a V formation with its neck hunched back against its breast, and spends its vacation in Florida and the Gulf Coast.

It is a beautiful sight to see these birds in flight, the marked whiteness of them and the black primaries and yellowish patch. The Wood Bird also has the black border around the wings and makes a very impressive sight in flight.

Unless the rookeries of the White Pelican has been recently disturbed by progress, he may be found in great abundance in the great Salt Lake region of Utah, also near Lake Klamath which is between Oregon and California.

The Lake Chase, N. D. region is also the home of these beautiful birds, some Pelican rookeries, especially those in the Yellow Stone Lake region are under the care of State and Federal protection.

The White Pelican nests on the ground among rocks or gravel but never in trees, and being gregarious, hundreds of them nest close together, when once the location for nesting has been chosen, we often wonder just how the nesting area is chosen, we can imagine that many of the human family trying to make such a decision.

We know that many other birds like to nest in colonies, but most of them do not wish to be crowded by their neighbors, and if another encroaches too much they will find themselves severely pecked and flapped, and if the area is small and as fresh water fish are not so abundant as fish of salt water, there seems to be a question man's mind who has the priority, but that question does not seem to bother the Pelican or other water birds at all.

Most fishermen fishing in lakes do not have to depend on fish entirely for food, but just use fish to supplement their regular diet. A great many just fish for pleasure, or to be able to brag what good anglers they really are. While the Pelican can get his food in no other way, our wonderful Creator chose to make him a fisherman, so who are we to begrudge him his livelihood.
