A Strange Inconsistency

Not in living memory has there been so much agitation over civil rights as there is now. Yet, as David Lawrence points out in one of his columns, "strange inconsistencies emerge." For instance, two Senators suggested that President Eisenhower should "personally take those colored children by the hand and lead them into school" at Little Rock. "But," says Mr. Lawrence, "did any of the so-called liberals ever suggest or would they venture to recommend that the president take workmen by the hand and lead them into plants and factories where their right to work—a basic constitutional right—is denied them?"

In major industry today no man can hold a job and earn a living unless he joins and

pays dues to a union. It makes no difference whether he wants to join or not. It makes no difference whether he agrees or disagrees with the policies and actions of the union. It makes no difference whether he regards the leaders and officers of the union as good men or as scoundrels. Whatever the case, the union has an absolute monopoly power to compel obedience, on pain of discharge and unemployment.

The right to work is as basic as any right—free speech, freedom of assembly, equality under the law, or the others. Without the right to work, the force of all the other rights are diminished. When will the right to "join or not join" be established once and for all and the union's power to enforce a variant of involuntary servitude on labor be ended?

Fort Pickens State Park, near Pensacola, was destroyed by a hurricane in 1916.

The Battle of Santa Rosa Island, between the Federal defenders and a Confederate landing force, took place between old Fort Pickens and the U. S. Coast Guard Life Saving Station in Fort Pickens State Park, near Pensacola.

After the hurricane of 1906, Congress appropriated \$307,100 for building sea walls and buildings at Fort McRee and Fort Pickens. The latter fort and huge sea wall may be seen in Fort Pickens State Park, near Pensacola.

The Florida Park Service has cleaned the monuments commemorating the Battle of Olustee, Historic Memorial near Lake City, and the Battle of Natural Bridge Historic Memorial near Tallahassee. At the latter place it has erected interpretive signs.

In Lakeside Park, Erie, Pennsylvania, the Niagara, Oliver Hazard's flagship at the Battle of Lake Erie in 1813, is on exhibit. The remains were raised and repaired in 1913.

The Gregory House in Torrey State Park, near Bristol, has been located in three counties. First, it was in Jackson County before Calhoun County was created in 1838. Then for many years it was in Calhoun County until it was moved across the river into Liberty County.

The Confederates used a cannon mounted on a railroad car at the Battle of Olustee. When Richmond was captured they had a thirteen inch mortar weighing 17,000 pounds mounted on a railroad car.

THE WORK BENCHES OF GOD

Christians are not turned out on assembly lines.

The skill and patience of many a human soul, the blueprint of Christ's own example, and the unseen but mighty craftsmanship of the Creator Himself—these over the decades bring forth a noble Christian life.

There must be understanding, guidance, faith. There must be a Christian home with sincere, loving parents. There must be prayer, the Bible, worship, thought, study. And at length practice and persistence must win many a victory over self before the world begins to recognize the hand of God in the life of a man.

Nearly in the church you will choose, there are busy hands at the work benches of God.

And room for more—your child's and your own!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

DO YOU KNOW?

By DALE I. ROYAL, Evangelist
Avon Park Church of Christ

Do you know that the Ten Commandments are not bind- ing on people today? "Do you mean to say its all right to kill, steal, bear false witness, and even commit adultery?" Of course not. Yet the Bible plainly teaches were are not under the Ten Commandments today.

The Ten Commandments are found in Exodus 20:1-17 and in Deuteronomy 5:1-22. Moses explained (Deuteronomy 5:2-3) that this covenant was not made with the fathers but with Israel. This means the Ten Commandments could not have been given as a general moral code prior to the law of Moses (1448 B.C.). The Ten Commandments, as was all of the Law of Moses, was given

CITRUS GROWERS

For Superior RUST MITE Control

DITHANE Z-78

ZINES

DITHANE Z-78 (zineb) was used extensively in last summer's citrus spray program. Owners and operators agreed that DITHANE Z-78 gave excellent control of rust mites—the best they had ever seen.

One important reason DITHANE Z-78 has been so widely accepted by Florida citrus growers is this: DITHANE Z-78, because it gives longer lasting protection and better control, can save you the cost of repeated applications of sulfur . . . and DITHANE Z-78 is compatible with all other pesticides.

To get better control of rust mites, to save yourself money and trouble, spray DITHANE Z-78 as soon as mites begin to build up. For full application only 3 pounds to 500 gallons of water. Consult your Experiment Station or pesticide supplier for more details.

Forward Control 'Jeep' Truck!

Here's the world's most advanced truck—the new, more powerful 7,000-pound GVW Forward Control 'Jeep' FC-170 Truck:

- More cargo space on less wheel-base! A 9-foot pickup box on a wheel-base only 103 1/2 inches long. Bed is only 27 inches from ground for back-saving ease of loading!
- New advanced design! Spacious Safety-View cab puts the driver in a Forward Control position for greater command of any driving situation... on or off the road.
- New high for "big-load" maneuverability! 4-wheel drive traction and "go-anywhere" "Jeep" maneuverability carry payloads up to 3500 pounds where ordinary trucks can't go.

Other outstanding features: It's engineered as a 4-wheel drive truck—not a modified 2-wheel drive truck, not a conversion - high torque Hurricane 6-226 engine, time-tested and performance-proved - 8-inch ground clearance to prevent off-road "hang-up" - big wrap-around windshield - with power take-off, the new FC-170 operates a wide range of special equipment.

Test-drive this bigger Forward Control 'Jeep' Truck at your 'Jeep' dealer!

 A telephone exchange serves more than 10,000 telephones. With the additional six switchboards the number in use will be 25 positions and will require more than 70 Long Distance operators and supervisors.

New Building And Facilities Represent \$250,000 Expenditure

The expansion and modernization program represents expenditures in excess of a quarter of a million dollars and includes new and modern building addition, additional Long Distance switchboard positions, Central Office equipment, microwave tower and associated equipment, toll cable, local distribution cable and open wire plant. The facilities are designed to furnish adequate telephone service at the present time and the expected future customer requirements, stated Mr. Johnson.

The new building addition is of modern design and will have increased floor space of more than 100 percent of present building which is being completely removed to blend with architecture of the new addition. The first floor will provide space for a new, modern and spacious business office and equipment room. The second floor will provide space for Long Distance switchboards, a spacious operators lounge and future growth.

Avon Park Significant To Inter-County System

Avon Park is an important and integral part of the Inter-County system with more than 2,200 telephones in service, and the Long Distance Center for seven exchanges. Growth in the area continues and all indications are that Avon Park will become an even greater part of the multi-exchange system in the future. Inter-County now serves more than 34,000 telephones and operates a toll network within its thirteen counties with more than 20,000 miles of toll channels. Avon Park and Highlands County has contributed much to the Company's development and in turn the Company feels its obligation to properly meet the communication needs of its customers and citizens in the urban and rural areas by "growing with South Central and Southwest Florida," stated Mr. Johnson.

Devils

(Continued from Page 1)
 Devils started a drive with Starling and Rouse picking up good yardage, however, the half ended before the Devils could score.

The Avon Park lads took the second half kickoff and managed to pick up one first down before the Jacket line toughened up and forced the Devils to punt. The Devil defensive line continued to outcharge and out-hit Summerlin and forced a punt Leroy Farless raced in to block the punt and the Devils recovered on the Bartow 27. What looked like a golden opportunity for the Devils faded when they fumbled on the very first running play. The Jackets still were unable to gain against the spirited Devil line and again were forced to punt.

Avon Park then drove inside the Bartow line only to fumble. The Bartow Jackets, who were under a move and punted out of bounds on their 25. Rouse picked up 2 and Starling 3 back Sunday afternoon. More Jimmy Cooper faked a hand-off and threw a beautiful touchdown pass to Ben Barnett. Starling crashed over for the extra point gave the Devils the one point margin. The two teams battled effectively during the last few minutes. Time ran out with Bartow completing a long desperation pass on Avon Park's 30.

Outstanding for Avon Park, other than the entire line, were John Starling, and Billy Rouse, with their bruising line play, and Jim Cooper, who played good ball at quarterback.

Starling carried 23 times and averaged 4.6 yards per carry and Rouse lumped 21 times for 42 average. The Devils ran up 12 first downs to three for Bartow. Avon Park lost 35 yards on penalties to 10 for the Jackets.

This win over Bartow gave the Devils revenge for the on-field defeat they received last year. The Jackets defeated Avon Park in Lakelands Shrine Bowl last year.

The non-conference win puts Avon Park ahead in all games played but tied with Sebring in conference play. The Devils will be idle this week in preparation for the Auburndale tilt on Oct. 18.

 past the windows of local merchants. They are an interesting bit of Avon Park lore.

The Old Settlers' Association would like to borrow old pictures from local residents and would be very happy to have any pictures that could be given away for their collection. This organization is one of the few which has no dues.

26 Singers

 this season are urged to meet with the group in these early weeks of rehearsal which will take place at the Lake Placid Methodist Church at 3:00 o'clock Sunday afternoon. More singers are needed, especially tenors.

It is reported that the only discount note in the group provided by the publicity chairman, who was heard to blast several lines composed of tune and in the wrong places. It is further reported that the powerful bass section has undertaken to discipline him, in a purely Christian way, and thereby restore harmony to the group.

 acting chairman. In November of that year the incorporation papers of the organization were signed. Three of the original five members signing are still living in Highlands County. They are Mrs. Max Walden, Mrs. Cora Wray, and Byron Shockey, Mrs. Shockey of the Association.

At the first picnic of the Old Settlers' Association, signed eight people registered and signed the charter. The members at this meeting decided to keep a record of Avon Park in order to compile their earliest memories of a history. Several books have been written on the history of Avon Park. The earliest book was by Oliver Marvin Crosby, the founder of Avon Park who is now deceased, and titled "Facts, Both Bright and Blue". Another history has now been written recently and is in the hands of the publishers. It was written by Horace Fenton and is a complete history of Avon Park. Some interesting statistics to be compared with present day figures are in 1894 there were 19 children in school in Avon Park and 100 people living in the community. Today there are over 1100 children in school and more than 6000 people living in the community.

At the 12th Reunion last year there were 85 old timers present in Donaldson Park for a delicious covered dish dinner, election of officers, and an afternoon of reminiscence. Fred Wilde made arrangements for the showing of a picture history of Avon Park. Some of the old prints date back to 1890 and are now being stored in the library.

Remember the date—Old Settlers' Reunion in Donaldson Park on Wednesday, Oct. 16.

SELLING FLORIDA BEEF

Cooper and Starling Outstanding In Red Devils Backfield

Cooper is a very fast, shifty

The two outstanding players in the Avon Park backfield of the Red Devil squad and two of the big reasons for the success of the 1935 team are the persons of Jimmy Cooper and Johnny Starling.

Johnny is a native of Avon Park and started his school career in the first grade here. He is eighteen years old, stands 5'8 1/2", weighs 160 pounds and wears the big Devil Jersey number 12. John started playing football with the Sketers in the eighth grade, playing halfback in the eighth and tenth and playing linebacker on defense.

From the beginning Johnny impressed his coaches and teammates as a brilliant football player. He has lived up to this impression. Last year Johnny moved to the fullback spot where he racked up a total of 89 points in the season's play.

Starling is the most powerful runner on the team. He can go through the line on either side or through the line for long gains or a touch-

down. A fast sprinter, hard to stop, runner, John rolls off the opponents with perfect timing to pick up ten, fifteen, or twenty yards on a plunge. In three games he has racked up three touchdowns and three extra points this season for a total of 21 points. Even with his specially designed harness to keep his left shoulder down and in because of the left shoulder slipping out of joint, Johnny is a tough ballplayer. Playing left linebacker on defense—he is in on every play. A mild-mannered, easy-going fellow, Johnny works hard to improve himself and the team. This fellow is an offensive battering ram, with the ability to outmaneuver the opponents for a clear shot at the goal. To add to his laurels he gobbles up yardage with damaging and dazzling runs through grudging lines. He is one of the better ballplayers to wear the Avon Park uniform and in spite of his hand-capped shoulder, he should win conference honors this season.

Jimmy Cooper, a Senior, is

seventeen years old—weighs 165 pounds stands a full 6 feet and is a right halfback. He wears the red and white jersey number 22. Jimmy is also a native of Avon Park, having attended schools here since the first grade.

His football career started in the seventh grade where he got his start in the backfield. In the tenth grade he moved to the varsity, still playing right halfback on offense and linebacker on defense. A two year letterman, he ended last year with a total of 21 points on touchdowns and extra point plunges.

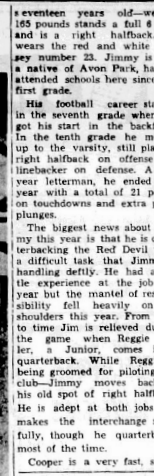

The biggest news about Jimmy this year is that he is quarterbacking the Red Devil team. A difficult task that Jimmy is handling deftly. He had a little experience at the job last year but the mantle of responsibility fell heavily on his shoulders this season for the first time. Jimmy is relieved during the game when Reggie Butler, Jimmy comes in to quarterback. While Reggie is being groomed for piloting the club—Jimmy moves back to his old spot of right halfback. He is adept at both jobs and makes the interchange skillfully, though he quarterbacks most of the time.

Cooper is a very fast, shifty

and elusive runner and is constant threat of going all the way when he carries the ball. He shows terrific speed when he bursts through on a quarterback sneak. It may be short hard burst or a long one on an option but he can for good yardage every time. Jimmy says that his weak point is passing but he is working it and after the throws the Bartow game, no one will deny the fact that he is on way to becoming one of our outstanding ballplayers.

Both Jimmy and Johnny active in High School activities but devote most of their time to athletics. They headline on the base team and have a place in varsity basketball. Jimmy is a veteran of several years, pl centerfield and pitcher on the varsity. Jimmy plays the stop and also pitches. In addition to this Jimmy was Secretary to the Devils Club, Letterman's Organization, both are active in.

These outstanding players will be missed next year as the gaps they leave will be hard to fill. Not only they played outstandingly in the past but watch them this will be their biggest year in their high school career.
