Editorial Line-Up For October 24th Issue Of All Florida Magazine

Read about Florida's unique "Prison Without Bars" in the coming issue of ALL FLORIDA MAGAZINE. The prison, which opened last April is testing the theory of good treatment instead of punishment to help rehabilitate prisoners.

"And After the Accident" is an informative article by Pat Ruie about Florida's Financial Responsibility Law. According to the law, involved in an accident must prove his ability to pay the bill.

Petroleum In Florida

Floridians consumed about 3 and ¼ billion gallons of major oil products in 1955, an amount equal to about 906 gallons for every man, woman and child in the state.

Of major oil products consumed in 1955, 3,243,010,000 gallons went to the motorist to power about 1,733,844 passenger cars, 6,120 buses and 244,846 trucks. Industrial consumption of petroleum fuels amounted to 456 million gallons in 1955.

On the domestic side, over 59,225 homes and offices heated by oil burners consumed nearly 71 million gallons of heating oil in 1955—more than double that of five years ago.

On the farm, more than one million gallons of motor oil and 87 million gallons of motor fuels were consumed by farm tractors, trucks and automobiles.

Wholesale distribution of oil products is handled by 1,713 tank trucks which deliver to bulk plants and terminals located close to consuming centers throughout the state. Petroleum bulk stations and terminals in Florida employed 5,530 in 1956.

Customers supplied by bulk plants or marine terminals include the 4,715 service stations in Florida. These service stations did a business of over 288,713,000 dollars in 1954—exactly double the figure for 1948.

The income from petroleum operations in Florida makes an important contribution to the state's entire economy through the purchase of goods and services from other industries.

Florida has one producing oil field, Sunniland. Eleven wells produced 479,000 barrels last year.

Devils To Play Auburndale Friday Night

After being idle last week the unbeaten Avon Park Red Devils will get back into action this Friday night when they travel to Auburndale to meet the Bloodhounds of the Southwest Florida Conference. Avon Park will be seeking their fourth straight of the season having stopped Mulberry 20-6, Kathleen 32-0 and Bartow 44-13. Auburndale will go into the game with a 3-1 record. They were beaten by a tough Haines City team but came back to beat a supposedly improved Frostproof team 34-8 in their last encounter. They also count Lake Wales and Winter Haven as their victims.

The Devils will be trying for their second straight win over the Hounds. They beat the former Ridge powerhouse 21 to 6 on their march to the conference championship last season. Auburndale's loss to the Devils broke their win streak and they will no doubt have this in mind Friday night.

Avon Park has been seriously hit with the flu and only half the squad is able to practice. The game will not be called off unless the rest of the team succombs. Other than the flu the team has had two weeks for the Bartow bruises to heal. No consequent injuries were reported.

The Devils will depend on their very strong line in this game as well as the outstanding running of Fleet Billy Rouse and powerful John Starling. The big red line gave the strong Bartow team only three first downs. Avon Park's passing attack although not outstanding, looked good especially when Jimmy Cooper's aerial was complete to Ben Earnest for the tying touchdown. Avon Park will need all those assets when they go into battle against the tough Bloodhounds. They also need and deserve the support of the entire Devil fans who have a team to be prowd of. GO GET 'EM DEVILS!

State Prison Story To Appear In Next Weeks All Florida Magazine

The Avon Park State Prison will be featured in an article appearing in next weeks issue of the All Florida Magazine.

The article titled "Prison Without Bars" tells of their daily life and how the prison attempts to give the inmate a sense of dignity and usefulness such as he would find in doing a worth-while job in private industry.

Avon Park's minimum security prison is the first concrete effort to rehabilitate Florida's more hardened criminals under the theory that the answer lies in good treatment instead of punishment and under the administration of Superintendent L. L. Wainwright the prison is testing this theory.

The article written by Joy Eyman is very interesting and informative and one that every citizen of the community should read, so watch for it next week.

Singers Needed For Chorus

The second rehearsal of the "Messiah" chorus took place at the Lake Placid Methodist Church last Sunday afternoon at three o'clock. Thirty singers took part, including all but one of the original group of young people who came last week from Avon Park plus a few more.

There is still need for more singers of all [illegible] particularly tenors, [illegible] would like to [illegible] group are urged [illegible] rehearsal next Sunday afternoon at three o'clock. At this time Mr. Paul Buckley, the director, will rehearse the tenor and bass parts of certain passages; while Mrs. Ann McKunas will rehearse certain soprano and alto passages.

The work of the group appears encouraging even at this early stage of preparation, perhaps because many of the members have previously sung the "Messiah" together and the new voices were of good quality. Mr. Buckley, in expressing his appreciation for the efforts shown at the rehearsal, remarked that he hoped to be able to devote more time this year to stressing tonal spiritual qualities in the ensemble singing than had heretofore been possible.

The only hitch which disturbed the harmony of the group to some extent is the occasional sibilant insertion of the publicity chairman who has not been engaged to sing but who, on being carried away by some of the vigorous passages, joins in anyhow. No overt action was taken to eliminate him, as reported last week. However, it was observed that just before rehearsal time several members handed him money. Some believe this was in payment for "Messiah" books which are provided at cost. Others believe it to be hush money.

Arcadia's Blue Jags have played only one conference game but that was a 7-0 victory over Fort Meade.

This week the three top teams will be battling for conference competition and will hold their positions. Ridge conference game pits Fort Meade with Kathleen in a battle for fourth place and Mulberry at Khaleesan. Another the Panthers are the Jags have yet to play. "Fill 'er Up Please"

The simple phrase "Fill 'er up, please" has become an accepted part of the American way of life. But backing up the men who service the request to "Fill 'er up" is a fascinating industry of some 1,600,000 men and women, working at more than 2,000 different trades, crafts, skills and professions— the American oil industry.

This week has been designated by the men and women of the oil business as "Oil Progress Week." They define it as "that period of the year when the oil industry reports to the nation."

Without doubt, there is a great deal to report. The contributions made by the petroleum industry to almost every phase of American life are nothing short of astounding. We not only owe our mobility to petroleum, in the form of gasoline and lubricants, we also are indebted for such contributions as cosmetics, plastics, fertilizers, insecticides and a host of other products—some 2400, in all—covering every activity from aviation to zoology. Even the new synthetic fibers—dacron, orlon, etc.—are derived from oil.

When America's first well was drilled, back in 1859, we were a third-rate power, a horse-and-buggy nation, with most of our energy furnished by men, animals, and crude machines run by steam.

Today we are an acknowledged world power, and most of the energy we use comes from petroleum or petroleum products. After World War I, Lord Curzon said the Allies had floated to victory on a sea of oil. After World War II, Admiral Nimitz said we had won it with "oil, bullets and beans". More recently, the industry again displayed its preparedness—and patriotism—when it went all out to supply Europe's oil needs, in addition to domestic demand, after immobilization of the Suez Canal.

On its record, the oil business merits tribute. And so, this oil Progress Week, we join the rest of the nation in a salute to the American petroleum industry—to its people, its products, and its progress.

"Driving A Bargain"

Oil Progress Week is to be observed nationally during the October 13-19 period. Its purpose is to give the oil people an opportunity to make a report to the nation they serve. And this year's observance has an excellent slogan—"With today's gasoline you're driving a bargain."

That's much more than a good catchphrase. It's a fact. Over the last five years drilling and construction costs have soared; line pipe has gone up over 68 per cent, alloy castings nearly 56 per cent, and oil-field machinery about 25 per cent. Yet—largely due to competition among the many independent oil companies—gasoline prices have increased only a little over 2-½ cents a gallon, exclusive of the direct taxes imposed by the states and the federal government, and over which the oil industry has no control.

And that isn't all. Gasoline quality has been steadily improved—which in itself is a form of economy to the user. Three gallons of present-day gas do the work that used to require four. Today's premium gasolines approach in quality the aviation fuels used during World War II. And the regular gasoline you buy now is almost as good as premium gas was only five years ago.

What is true of gasoline, is generally true of all the other oil products—the thousand and one different kinds that contribute so greatly to modern living and working standards. Oil Progress Week signalizes one of the great industrial achievements of history.

THE "BLACK SHEEP" OF OUR FAMILY

When Johnny started Sunday School . . . the Devil thought he had his foot in the door.

The teachers must have been at their wit's end—but they never showed it. The Superintendent faced many a crisis—but always he was patient. The Pastor even smiled as he returned the confiscated pea-shooter. "You're not a bad shot, Johnny," he said!

Claire and I soon began to realize that Christians *do* turn the other cheek . . . in the Junior Department it's standard operating procedure.

TODAY, Johnny is a freshman in college. Every Sunday he attends the church of our faith near the campus. And, recently, he confided to me his ambitions:

He wants to become an engineer. Then, he wants to marry his childhood sweetheart, Jane. And as soon as they're settled, he wants to teach a class of "real gone" kids in the Junior Department.

Now Claire and I realize what the Church means in the life of the *"black sheep"*—of your family or ours!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Everyone has enjoyed very much the old pictures in the store windows the last few days. It affords much fun to look through them and try to recognize present day citizens. The Old Settlers' are responsible and let's everyone remember to tell them "thanks".

Mrs Harold G. Machler of Chicago spent last week with Mr. and Mrs. H. J. Hahn at their home on Lake Lotela. Mrs. Machler left on Monday.

Plan to attend the Congregational Ladies Aid Apron Sale and Pie Social on Tuesday, Oct. 27 from 2 until 7 in the Parish House next to the church. The pies will be too good to miss and lovely aprons are available for gifts.

Recently the Kiwanis Club sponsored a Children's Day at McDill Air Force Base. The base held an open house for all visitors. Major and Mrs. Carles H. Long and their sons, Chuck and Ted, went to Tampa for the big day. During the day there was a band concert, artillery firing, judo exhibitions, besides many types of planes that were open for public inspection. The Sentry dogs also performed for the crowd and there were helicopter rides for the brave. Chuch and Ted had a wonderful day looking at everything.

CITRUS GROWERS

DITHANE Z-78
ZINEB

DITHANE Z-78 (zineb) was used extensively in last summer's citrus spray program. Owners and operators agreed that DITHANE Z-78 gave excellent control of rust mites—the best they had ever seen.

One important reason DITHANE Z-78 has been so widely accepted by Florida citrus growers is this: DITHANE Z-78, because it gives longer lasting protection and better control, can save you the cost of repeated applications of sulfur . . . and DITHANE Z-78 is compatible with oil and other pesticides.

To get better control of rust mites, to save yourself money and trouble, spray DITHANE Z-78 as soon as mites begin to build up. For Fall application use only 3 pounds to 500 gallons of water. Consult your Experiment Station or pesticide supplier for more details.

Elementary PTA To Sponsor Three Scout Troops

The Avon Elementary P. T. A. voted to sponser three Brownie Scout Troops at their regular monthly meeting on Thursday evening Oct. 10, in the Avon Elementary Cafetorium.

The Brownie troops will consist of girls from the ages of 7 through 9 and most of these girls are attending the Elementary School now. Mrs. Jack Hutchinson, Mrs. Fred Davis, and Mrs. Roy Felknor will lead the three troops. They are hard at work with the organizing at present and were praised by Mrs. James Anderson, president, for their good work.

The traffic problem on South Byrd Street which is east of the new school building was discussed.

It was asked that parents bringing their children to school park and unload only on one side of the street; That all drivers be very careful; watch the traffic; and present any suggestions for improving this condition to Mrs. J. C. Barrow, Safety Chairman.

The meeting was then adjourned and Mrs. Franklyn Ward introduced the speaker, Miss Clara Irene Gilmer. Mrs. Ward and Miss Gilmer told the audience a little of her interesting background in art. Mrs. Gilmer then gave a brief outline of the principles and purposes of teaching art. She stressed the purpose of helping children of all ages to really look at what they were seeing and then think about what they saw. This ability will carry over in other studies and be of great benefit to any child or any adult.

Mrs. Gilmer showed some drawings by young children on a large screen and explained some of her methods through the children's work. A question and answer discussion followed.

A social hour with coffee and doughnuts followed the meeting. Mrs. M. Parry was in charge of the refreshments with the aid of the first grade room mothers.

Close to eighty parents and teachers were present at the meeting with Mrs. Cooper's Second Grade winning the attendance banner and Mrs. Dilley's First Grade Second.

SoilConservation News

By Sam Polston

Clover planting time is just around the corner in the Highlands Soil Conservation District. Joe Kinsey, Marvin Kahn, R. J. Hargrove, E. W. Hartt, and others are ready to plant. Several cooperators who have old stands of clover are getting ready to put on their fall application of fertilizer this month. George Waggaman fertilized 100 acres of clover this week with an O-12-20 at the rate of 500 pounds per acre. Other cooperators are scheduling their fertilizer during the remainder of October.

Julian O'Neal, manager of the Dopler ranch planted 30 acres of angola grass this week with planting stock obtained from the Highlands Soil Conservation District nursery.

The Soil Consevation Service is scheduled to start the final engineering survey on the Fisheating Creek Small Watershed Project about November 1st, according to Mr. H. C. Nelson, Construction Engineer with the Soil Conservation Service. The project embraces about 50,000 acres of land and will require about 18 miles of canals and three check dams to reduce flood damage and conserve water in dry weather. The project will cost about $300,000 with the landowners paying about $50,000 and assuming maintenance at a cost of $10,000 per year. The plan was made possible under the Small Watershed Act and carried out by the SCS. Construction is expected to begin in early 1958.

DO YOU KNOW?

By DALE I. ROYAL, Evangelist

Avon Park Church of Christ

Do you know why Christians are not to practice the Old Testament or Covenant today? It is evident that no religous body (including the Jews) can claim that they practice the laws and ordances God give in the Old Covenant. The Temple worship with the sacrifices and burnt offerings as ordained by Jehovah ceased with the destruction of Jerusalem in 70 AD. Hence NO ONE observes the Old Testament laws in their fullness.

In Romans 7 Paul points out that we cannot be married to the law and to Christ at the same time without being guilty of adultery. Thus we had to "become dead to the law by the body of Christ" that we might be married to him who is raised from the dead (verse 4). This shows clearly that Christians are not under the law. Paul tells us in verse 6 we are delivered from the law. The American Standard Version translates it "discharged". After one is discharged from the Army or Navy he is not under the laws of the Army or Navy. So we who have been "discharged" from the Old Testament are not under the Old Testament laws. There is no practical difference between not being under a law and not being under condemnation of a law. This applies to civil as well as religous law.

Some one says, "But what law is Paul speaking of?" "Is it ceremonial, moral, or civil?" "Is it the law of God or the law of Moses?" These destinctions are man made and artificial. When any Old Testament Commandment was broken (after Sinai) the law of God given through Moses was broken. Verse seven proves this by stating, "I had not known lust except the law had said, Thou shall not covet." The only place this is found under the law of Moses is in the Ten Commandments. This is the law we are "dead" to. This is the law that Christians are "delivered" or "discharged" from. This is why Christians are not to practice the commands and ordances of the Old Testament

New Subdivision To Open Soon

Mr. Fred Deglin of Lake Wales will soon open a new subdivision to be known as Lake Anoka Beach. These lots are located just out of the city limits approximately one block off the new Highway and some lots will face S. Florida Ave. and also Castle Street.

All lot owners will have beach privileges with fishing pier. Some of the lots will extend to the Lake with private beaches. There will be restrictions to protect the property owners. Private roads will extend north and south, and east and west in the subdivision.

Oil Information Committee Report To County During Oil Progress Week

Members of the Highlands Oil Information Committee and others working in petroleum are making their "Report to Highlands County" during this Oil Progress Week, October 12th through 19th.

Mr. Adams, Chairman of the Oil Information Committee, said that during this special week "we in the petroleum industry would like to acquaint the public with some of the things that the industry does in our community.

"The seven oil companies in Highlands are highly competitive—oil's one of the most competitive businesses in America—and yet we can do and do work together for the betterment of our community.

Births

Born to Mr. and Mrs. Richard Landress of Titusville, Fla a son on Oct. 14. The baby is the grandson of Mr. and Mrs. Bob Landress and Mrs. Grace Herring of Avon Park. Mrs. Landress is the former Joan Herring. Both mother and son are doing fine.

Born to Rev. and Mrs. Roger E. Sappington of Lima, Ohio, a son, David Ernest, on Oct. 10. Rev Sappington is the son of Mrs. R. F. Sappington of Avon Park.

WALKER MEMORIAL

To Mr. and Mrs. Paul Dale Jordon a daughter, Wendy Gay, born October 8. Birth weight 6 pounds, 14 ounces.

To Mr. and Mrs. Johnnie Montsdeoca, Sebring, a daughter, Beverly Ann, born October 9. Birth weight 6 pounds, 2 ounces.

To Mr. and Mrs. Charles Ray Fletcher a daughter, Sarah Theresa, born October 9. Birth weight 6 pounds, 13 ounces.

To Mr. and Mrs. LeRoy Crawford a son, Brantley LeRoy born October 12. Birth weight 8 pounds, 1 ounce.

To Mr. and Mrs. Wailon LeRoy Phillips a daughter, Cynthia Yvonne, born October 13. Birth weight 7 pounds, 13 ounces.

To Mr. and Mrs. Frank Brannan of Lake Placid a baby girl born October 15. Birth weight 6 pounds, 10 ounces.

To Mr. and Mrs. George Donald Jones of LaBelle a baby boy born October 15. Birth weight 7 pounds, 9 ounces.

"Employment for some 25 people, a sizeable group, results in an average annual payroll of $85,000 per year. That's a nice sum to be circulated in our local economy," Adams pointed out. With the average family having better than three people in it, you can see that some 75 People are directly affected by this payroll.

"The industry has a tremendous investment in Highlands County. Service stations, bulk plants, trucks and a host of other items run this cost into thousands of dollars. And remember that on top of this most service station dealers are independent business men with an average of $4,000 invested in their business.

"The oil industry is an important tax collecting agency for 10 cents of every gallon of gasoline is tax—collected by the station, payable to state or federal government.

"Oil heat for homes is still another important use for petroleum. And Mrs. Housewife, your milk cartons, floor polish, nylons and a host of other things all come from petroleum. We're glad to be a part of Highlands County and hope the citizenes of our area will join with us to celebrate Oil Progress Week," Mr. Adams said.

"B" Squad Lose To Kathleen

The "B" Football squad of Avon Park High School traveled to Lakeland last Thursday night only to suffer a 19 to 6 loss to the Kathleen "B" team.

It was Avon Park's first "B" game of the season and Kathleens third game of the Jayvee season. Lack of experience coupled with the stage fright of a first game permitted Kathleen to score two touchdowns and one extra point in the first quarter of the game.

From the second quarter on the local boys played on an even keel with the Polk County squad. They held Kathleen until late in the third period when they scored their other six points. Avon Park rallied again in the fourth quarter, and starting on their own 20 drove downfield for a touchdown. Glenn Bass, on a quarterback sneak around his own left end climaxed the drive.

The October 19 play date with Arcadia has been postponed. The time and place of the next game will be announced next week.

Do You Have

Daube

5 medium-sized (1 lb.) onions
1 clove garlic
1 teaspoon salt
¼ teaspoon pepper
¼ teaspoon thyme
¼ teaspoon cayenne pepper
3 to 4 lb. pot roast of beef
3 slices salt pork or bacon
¼ cup butter
3 carrots
1 turnip
2 tablespoons finely chopped parsley
1 bay leaf, crushed
½ cup sherry or Madeira wine

Set out a Dutch oven or a heavy sauce pan having a tight-fitting cover. Clean onions and set aside. Finely chop 1 onion and mix thoroughly with garlic, salt, pepper, thyme and cayenne pepper and set this mixture aside.

Wipe roast with a clean, damp cloth and cut slits several inches apart all over surface of meat. Cut salt pork or bacon crosswise into thin strips. Insert strips and seasoning mixture in slits.

Heat butter in the Dutch oven over low heat.

Slice 2 of the onions and add to heated fat; cook until lightly browned. Put meat into Dutch oven and place onion slices on top of meat. Cover and slowly brown meat.

Meanwhile, wash, pare or scrape carrots and turnip and cut into small pieces. Finely chop the remaining onions. When browning second side of meat add vegetables along with chopped parsley and bay leaf. Turn vegetables several times while meat is browning.

When meat is well browned, add the sherry or wine. Cover tightly and cook slowly over low heat about 3 hours, or until tender. If necessary add more wine or water during cooking period. Liquid surrounding meat should at all times be simmering, not boiling.

When meat is tender, remove from liquid. Liquid may be strained and used for gravy. Serve Daube, cutting meat into thin slices across grain of meat. Serves 6 to 8.

the Department President, Mrs. Drummond.

Mrs. Drummond prefaced her remarks to the group by paying special tribute to the Legion in their work in establishing and maintaining Boys State and their work in connection with the Crippled Children's Commission. Highlands County has reason to know the value of the Crippled Children's Hospitals because of the many children from this area who have gone there for treatment.

Mrs. Drummond then spoke of the work of the auxiliary units which is largely supplementary to the work of the Posts. She stressed the efforts toward rehabilitation of veterans, caring for children of veterans, and the everyday spread of Americanism and National Security, of the Unit Auxiliary of the American Legion.

Active membership and participation in Unit work for every eligible woman in Florida was urged by Mrs. Drummond. In Florida there are three prospects of Unit membership for every Legionaire. She told the members present that an informed participating membership would result in punctual reporting, the only means through which Department and National are aware of the individual unit activities. Enroll and work in the American Legion Auxiliary if you are eligible.

Members of the Avon Park Auxiliary who attended the meeting and enjoyed the delicious dinner and Mrs. Drummond's inspiring speech were Legionaire and Mrs. Hulon Sasser; Mrs. Ben Stewart and Mary Lou Stewart, Junior Member; Mrs. Demos Mandis, Mrs. Alice O. Sherman, Mrs. Cora Wray, Mrs. Florence Dunne, and Mrs. Jim Heim.

public twentieth century service out of nineteenth century facilities," Perry says. "Postmaster General Summerfield, in attempting to revolutionize the outmoded techniques of mail handling in the postal establishment, had to start from scratch. He had to ask the electronics industry to develop machines that hadn't even been invented as yet. This film is a remarkable presentation of the progress being made in the United States mail service."

He added that even if automation is not installed in the Avon Park post office the program will greatly accelerate the only means through which Department and National are aware of the individual unit activities. Enroll and work in the American Legion Auxiliary if you are eligible.
