will focus attention on the
Daytona Beach recreational
area.

Fred Miller takes us back to
the early days in Florida's
history with the story of "Flor-
ida's Fabulous Filibusters."
American Cubans who were Cuban
sympathizers, ran through the
Spanish blockade to deliver
arms and food supplies to Cuba
and the cause of freedom and
independence.

Council Meet In
Short Session

All members of the City
Council and the Mayor were
present Monday night, June
10, for a short session of the
meeting at which time a letter
from Ernest Smith was read
and the Mayor announced that
he had appointed the new
city collector.

The Council also cancelled
city hall on June 11, block 80,
Highland Lakes Sub. in the
amount of \$18.63, since this prop-
erty is now outside of the city
limits.

G. R. Wicker requested that
the City build a swimming pool
in front of his house, 301 N. Ve-
rona, on the basis that he
would pay half the cost. The
Council considered this and
then decided to refer it to
the C. D. A. Committee
for consideration.

A written financial report
was sent to the Council by
Cough Garrett on the city
team, it was presented just
as a matter of interest as the
Council has nothing to do with
the upkeep of the team.

Hundreds of Families Living in Tents
Attending Seventh-day Adventist
Camp Meeting Near Orlando

Orlando (Special)—A dozen
services in progress at the
same time for various
groups, several circus-like tents
filled with exhibits depicting
church activities in Florida and
hundreds of families living in
tents partially composed the
picture of the annual Seventh-
day Adventist camp meeting
now in progress near here.

The nine-day convention,
said to be the largest of its kind
in Florida, has drawn more
than 7,000 delegates from every
part of the state. Many are
living in family dwelling tents
others are occupying the dormi-
tory rooms of Forest Lake
Academy facilities where the
session is being held and others
are stopping at nearby
hotels and homes.

Three permanent auditoriums
and numerous large tents are
being utilized by the various
groups from five to 80.

Purpose of the convention,
according to church officials, is
"to provide a vacation with
spiritual emphasis which will

Summer Vacation Sale Days To Be Held By Sebring Merchants

Sebring Summer Vacation Sale Days will be held by Sebring merchants on Thursday, Friday and Saturday, June 13, 14 and 15. This will be the biggest sale of the year and the participating merchants are offering the largest selection of sale items ever before presented in this area.

Midget Leagues Opens Season Tuesday June 25

The Midget Leagues teams for boys 8 to 12 years old were organized by the summer recreation personnel. The leagues, for four teams—Lions, Rotary, Baptist and Jaycees—were made up of tentative plans were made for the Midget League season of play.

The first practice session will get under way on Tuesday, June 25, at 8:30 a.m. All practice sessions will be in the morning on week days. Games will be played on Tuesday and Thursday nights. Rained out games will be played on Wednesday afternoon.

The Midget League needs help on the night games. It is to be played anyone interested. (Continued on page 8)

Judge Rehner Devil Playery

The popular Red Devil baseball players were given their usual outing this afternoon when Judge Rehner entertained the visiting Major League baseball team. The players and fans were treated to a game of baseball.

Local School Gets Teacher's Digest Award

Paul Strasberger, valedictorian of the graduating class at Avon Park High School, has been given the Annual Award for the Teachers Digest Association. The award is presented to the student who has the highest average in the class.

Avon Park Parents Association Plan Activities For 57-58

The Avon Park Parent Teachers Assn. made plans for a full year, 1957-58, at a convention held Monday, June 10, in the Home Making Department of the Avon Park High School. After a lovely luncheon, the association members and teachers attending, Mrs. James Johnson, President of the PTA, welcomed those present.

Jacaranda Coffee Shop Under New Management

Royal M. Coats, formerly of Lake Placid, has purchased an interest in the Jacaranda Coffee Shop. He has taken over the general management of the hotel and the Jacaranda Coffee Shop.

Mc Coats was with the Placid Ridge Country Club for a number of years. The Club has recently been sold to the Florida School of Presbyterian Church U.S.A.

Henry Goodman, formerly of the Club as more fathers throughout the north and south will be food manager, and in charge of the preparation of all special foods. He will continue to serve special dishes to his many friends here who will be glad to know that he is now in the South.

Pastor Harold H. Schmidt, president of Florida Adventists, was the keynote speaker at last Friday's opening session. His subject was "Prepare to Meet Thy God."

Landress Hurls No-Hitter To Beat DuPont

Dale Landress fired a no-hitter for DuPont High School of Jacksonville to lead the Red Devils to a 4-0 win in the first round of the State Class A baseball tournament at Ft. Pierce Tuesday morning. The game was rained out Monday night.

The Devils took DuPont pitcher Bill Hambo, for seven hits—all singles—with Winkie Williams getting two of Avon Park safeties, and Andy Starling, Bill Rouse, Jim Cooper and Chuck Anderson got the Devils other hits.

Landress hurled magnificent ball, walking only two batters while fanning 11 of the 23 men he faced. It was Dale's third no-hitter of the season. Only four DuPont players got on base during the seven inning game which was played with Avon Park on the visiting team.

Leroy Starling fired out two DuPont runners as they attempted to catch up with the Devils.

The Red Devils, however, to take the class A title of the state, will have to win the visiting Major League baseball game which was played at Ft. Pierce.

Monday night the Red Devils are scheduled to meet DuPont at nine o'clock in the quarter finale. Rainy weather has made the schedule uncertain however.

Avon Park Parents Association Plan Activities For 57-58

The Avon Park Parent Teachers Assn. made plans for a full year, 1957-58, at a convention held Monday, June 10, in the Home Making Department of the Avon Park High School. After a lovely luncheon, the association members and teachers attending, Mrs. James Johnson, President of the PTA, welcomed those present.

The value of the Parent Teachers Assn. was stressed by Robert Hall, President of the Student Body, and other members of the Student Council were especially welcomed by Mrs. Johnson. Robert offered the help and cooperation of his group to the PTA at all times.

The time of the September PTA meeting was decided on by the group. It will be held on Thursday, September 19, at 8 o'clock in the Avon Park High School Gymnasium. Mrs. H. Howard Kiebler, State Program Chairman, and Mrs. Fred Eubank, State Vice-Chairman, will be present. C. B. Durden, Reading and Library Services, Mrs. Sam King, Safety, Mrs. W. J. Vail, School Education, Mrs. Robert Barben, and Hospitality, Mrs. Keith Collier.

Chamber Of Commerce Directors Appoint Nominating Committee

At the regular meeting of the board of Directors of the Chamber of Commerce last Thursday night, June 6, a nominating committee was appointed to prepare a slate of officers to be voted on at the next meeting, June 20. Those serving on the nominating committee are Robert Barben, R. R. King, and E. Ray Wells.

It was reported that as of date there is 132 associate members in the Chamber and with their membership fee they have written many complimentary letters in regards to the Chamber, inviting them to join the Chamber. Each month each associate member will receive an official bulletin from the Chamber office.

A report was also given on the membership dinner held at the Jacaranda Hotel and on the welcome committee that called on Dr. and Mrs. Conrad H. Williams, second single of the Avon Park Lakes development.

It was decided that Mrs. Anna Belle Worden, executive secretary of the Chamber, would leave Friday, June 14, to attend the Southeastern Institute at the University of North Carolina.

City To Receive Cigarettes Tax

The City of Avon Park will receive \$2,312.30 as its share of the cigarette tax collected during the month of April. The tax was collected by the Florida Cigarette Tax Commission.

The two coaches of the Junior Legion team are expecting an outstanding season with the first of experienced players and are hoping the Avon Park baseball fans will give the team their support this summer.

School Board Meet In Sebring

A discussion was held Tuesday morning in the Highlands County School Board meeting in regards to the half day of school for the first grade children to include Wauchula and Frostproof. The Board granted the Association's request to transfer children to the center at Avon Park also to furnish \$300.00 expense funds.

The Board is going ahead with plans to operate the Mentally Retarded Class next school term, and believes there will be enough children in this area to include Wauchula and Frostproof. The Board granted the Association's request to transfer children to the center at Avon Park also to furnish \$300.00 expense funds.

Avon Park Red Devils took their first loss of the season Wednesday night when the Pasco Pirates of Dale City gave them a 4-1 shattering in the semi-finals of the State Class A Baseball Tournament.

Don Porter, left handed Pasco hurler, struck out twenty Red Devils to set a new state record. He walked five men and gave up only three hits.

Chuck Anderson takes the loss for Avon Park, although he was relieved in the third inning by Dale Landress. Chuck gave up four hits and Dale gave up one.

The Devils rallied in the top of the seventh when the bases were loaded and Bill Rouse's second single of the night scored Chuck Anderson. Winkie Williams came to bat with two out and the bases still loaded, and flied out to the right fielder to end the game.

Score by innings:

Avon Park	0	0	0	0	0	1	3	1

Legion And Legion Auxiliary Install New Officers At Meeting

The new officers of the American Legion and the Legion Auxiliary were installed at a covered dish supper on Wednesday, June 12, in the Legion Home. Over fifty members of the Legion and Auxiliary were present at the delicious supper and impressive ceremony.

At the meeting the duties and responsibilities of the officers were explained. The new officers are: Grover Bates, Commander; Leary Clark, First Vice-Commander; Frank Anderson, Second Vice-Commander; Peter Boney, Third Vice-Commander; Jim Higgins, Adjutant; Ed Dunn, Jr., Chaplain; and Roy Gast of Sebring, Veterans Service Officer.

Dale Landress Wins Award

Dale Landress, a member of the senior class of Avon Park High School, is the 1957 winner of the Beach & Lomb-Horn Science Award Medal for achieving the highest scholastic record in science subjects during his high school career. It has been announced by A. B. Wilhite, Principal.

Only winners of this Award, presented annually in more than 6,000 secondary schools throughout the country, are eligible to compete for the Science Achievement Award. The award is presented by the Beach & Lomb-Horn Science Award Medal for achieving the highest scholastic record in science subjects during his high school career. It has been announced by A. B. Wilhite, Principal.

Do We Need A Swimming Pool?

Would you or would you not be interested in a swimming pool being built in Avon Park? The Avon Park Sun is making this survey and would appreciate it if you would fill in the coupon below and mail it to the office.

The pool would be used for future summer recreational programs, in teaching the children of our community to swim, and could be used by the school during the Physical Ed. classes for the same purposes.

Avon Park has a number of lakes, but few of them are really safe for young children to learn to swim in. They are all deep lakes and spring fed, many have deep holes that are very dangerous. And there is no beach and shallow water for the children to use.

Do not misunderstand this question, we are not saying one will be built, we would like to know the opinion of the citizens in the community in regards to this question. It would take a lot of planning and time before one could be built, but before any planning is done it must be known if the community is in favor of such a project.

Write The Sun and state how you feel in regards to a pool, The Sun would like to hear both the pros and the cons on this question.

Dear Sir:
Is it still possible to speak the unadulterated truth in regard to this South-Northern (sic) question? Although I have never made any bones about the fact that I am a Yankee, I hate to see hitting below the belt, even in politics. American politics. What I call hitting below the belt is this gag now going the rounds that no doubt a "Southern filibuster" will probably kill the Civil Rights Bill in the United States Senate. Listen, the South by the widest stretch of the imagination is no more than fourteen (14) states out of 48! No fourteen states by any method or ruler can defeat anything in the United States Senate UNLESS they receive a lot of help!

I am one Yankee who dynamically believes in the memorial right and privilege to filibuster in the United States Senate, the highest palladium of American rights, privileges, and Constitutionalism. The filibuster divides the men from the boys; it brings out the real vis-a-vis the "polite," the "political." There ought to be one place under our system of government where one single man can teach the truth as he sees it ad libitum! Abolish the filibuster and you are well on the way to dictatorship in this Nation.

There is such a thing as filibustering FOR something as well as AGAINST something. If the Non-South wants this Civil Rights Bill, let it filibuster FOR it! But don't let the Non-

South hit below the belt by proclaiming that "probably a 'Southern filibuster' will kill the Civil Rights Bill." That is a phony alibi, no more, no less I thank you.

Sincerely,
Henry Stoner

Avon Park Sun June 11, '57
Dear Mr. Myers:

Will you kindly put this letter in your Avon Park Sun as I want all my friends back home to know what a wonderful trip I had, my first plane ride from Tampa to Miami in fact that I am a Yankee, I forty minutes. Then three and a half hours later was in San Juan Puerto Rico. We went 19,000 feet up through the clouds, then could look down when clear and see clouds, we see a beautiful view with all the old castles. One has to see it to appreciate it. They are building for tourist trade and will charge \$25 a night.

We reached Ramey Air Force Base at 3:30 p.m., which is on the other end of the island, a beautiful drive over the mountains. This base is like a large city with all the houses built on the same plan, low.

My daughter Mildred and her husband S/Sgt. Frank Waddell live in the first row of houses next to the ocean.

It is just beautiful here and cool, being on an island. Thank you so much
Cora Wray

P.S.
The P.O. is sending my Avon Park Sun down each week. My address here is Mrs. Cora Wray, c/o S/Sgt. Frank Waddell, 190-54895, 72nd Food Serv. Sqdn. Box 583, Rmde A.F.B., Puerto Rico.

IT IS UNLAWFUL FOR ANY PERSON OR PERSONS TO ENGAGE IN BUSINESS UNDER A FICTITIOUS NAME UNLESS THE NAME IS REGISTERED

The fictitious name statute was recently changed by the 1951 Legislature and the Sun has the necessary forms for proper registration and advertising.

The charge for advertising the notice the necessary four times is \$7.

As amended by the 1951 session, the law reads as follows:

"It shall be unlawful for any person or persons, as defined herein, to engage in business as herein defined, under a fictitious name as herein defined, without and unless said fictitious name shall be registered with the clerk of the circuit court of the county where the principal place of business is, which registration shall consist of filing with the clerk aforesaid an affidavit signed by all interested persons, stating under oath the names of all those interested in the business enterprise, the extent of the interest of each, and the fictitious name under which said business is carried on. Said registration may not be made until the person or persons desiring to engage in business under a fictitious name shall have advertised his or their intention to register said fictitious name at least once a week for four (4) consecutive weeks in some newspaper as defined by law in the county where said registration is to be made, and said registration shall not be accepted by the clerk of the circuit court except upon receiving proof of such publication."

School Out — "What Can I Do?"

School is out and the novelty of children and young folks being "free" again will soon wear off. Then comes the question which will be asked parents, "What can I do?"

The answer for many will be, "Let's go to the State Park or visit a Historic Memorial."

There the school-free boy or girl can hike, stroll, swim or learn to swim, climb, sun bathe, fish, beach comb, boogie, see how wildlife lives, examine soil and rock formations, canoe or boat, camp, picnic and see where history has been made.

After a full day of these activities, the parent's problem is largely one of feeding and supplying a place for tired children to sleep. Energy is used up, some first aid is needed and clothing may require mending, but the question of "What can I do now?" is not asked

for at least another day or week.

The greater part of the cost of using the parks has been paid by the users themselves through the Legislature. Sometimes a small facility fee, guide fee or other charge is made to help bear part of the cost of operation.

However, in any case, the cost per visitor is quite low. The value received is very high. Memories or pictures of the summer activities will last throughout the year. "In order to take cognizance of Governor Collins' interest in State Parks and to observe the month of June as "Recreation Month," the Florida Board of Parks and Historic Memorials cordially invites Florida's citizens to make full use of our excellent system of Parks and Historic Memorials," said Director Emmet L. Hill.

Act Before It's Too Late

The National Board of Fire Underwriters, with the full support of local insurance agents, throughout the country, has been carrying on a campaign urging people to review the extent of their insurance coverage and to make the proper adjustment when underinsurance is discovered. The personal economic interest of the insurance business and the agents in such undertaking is obvious. But this is one of those happy situations where the campaigns also serve the economic interest of everyone with a home or other kinds of property subject to destruction by fire and related hazards.

Most of us are underinsured—and for a reason that can largely be covered in a single word: Inflation. Roughly speaking, the cost of just about everything in common use, homes included, has doubled since the end of World War II. Also, we have made material

additions to our possessions like TV sets and appliances, of an expensive character.

The National Underwriter magazine has been printing actual examples of losses to policy holders resulting from underinsurance. A widow in Ohio sustained a \$2,141 loss on household goods and had only \$1,500 of insurance, so the difference of \$641 came out of her pocket. A mercantile building in Maryland had a loss of \$178,556 as against insurance coverage of \$127,500—the insured thus was out \$51,456. A home in Rhode Island sustained a loss of \$15,812, and there was but \$7,000 of insurance—so the owner had to produce \$8,812.

In most cases, our insurance coverage has not kept pace with the increase in values or prices, or with our expanding list of personal possessions. The wish property owner will take the hint—and see his local agent before it's too late.

Don't Forget The Baby

The parents of a two-year-old Florida girl recently told a newspaper: "We intended to have our Jody vaccinated against polio from the time she was one. But whenever we made plans to see the doctor, Jody had a cold or something happened to postpone the visit. Last summer she contracted polio. Now she needs a crutch and a brace on one leg."

A Texas mother made this statement: "I saw two of my three tots lamed by polio after I had put off having them vaccinated. My advice to other parents is: Don't make the same mistake I did."

Two out of every five cases of paralysis

polio recorded by the National Foundation for Infantile Paralysis are children under age five. And nothing is more pitiful than a child disabled at the very beginning of life.

How soon should an infant get his vaccination? The man who knows best is Dr. Jonas Salk, who developed the polio vaccine. His answer is: "Give the first injection at three months. The second should follow two to six weeks later. Two shots are good, but for maximum effectiveness a third is needed seven months after the second."

So when you are vaccinating the family, don't forget the baby.

Where Will \$94 Billion Come From?

In an interview appearing in U. S. News & World Report, Secretary of the Interior Seaton effectively defends this Administration's concept of "partnership" electric power development—under which the federal government, local government and local bodies, and private enterprise all cooperate to bring needed projects into being.

The Secretary said that we will need an investment of \$94 billion in power facilities in the next 20 years, and that Congress just can't be expected to appropriate that kind of money for the purpose. This observation is especially relevant today, in the light of the overwhelming demand for economy in government, and a growing sentiment in favor of getting government out of activities which can be undertaken by taxing, self-supporting private enterprise.

Mr. Seaton also said that opposition to partnership is largely a result of misunderstanding, and that "allied and actual enemies on the part of private utilities had something to do" with that.

Those who feel this way should think the matter over again. If private utilities or any other private enterprises get out of line, the law can move to correct matters—and it has done that time and time again. We can and do take care of private monopolies—either by forbidding them altogether or regulating them where local, limited monopolies are necessary to good and economical public service. But a political monopoly—such as the centralized power groups want—is beyond effective control. It feeds and fattens—at the expense of the liberties of the people, as well as of their pocketbooks.

A Masterpiece in the Flower Kingdom

The orchid is a flower of great beauty! It is recognized by horticulturists as a masterpiece in the flower kingdom, and reaches maturity only after seven years cultivation.

Physical beauty is the only requirement the orchid must fulfill to assume its place in the world. It is otherwise a soulless botanical specimen.

The botanist who cultivated this flower also possessed a son, and as the orchid approached maturity so also grew the child. The flower and the child were the objects of his greatest pride and affection. While his success with the orchid was certain, he failed in the greatest responsibility of his life—the training of his son.

The father's failure was caused by his inability to see the all important difference between the soulless flower and the immortal soul of his son. He thought only of the physical and mental prowess of his boy and thus neglected the child's greatest potential heritage—spiritual development. He had forgotten there was a Church! He had forgotten God!

The Church offers guidance and help to parents in the training of their children. Every parent and every child needs the sustaining strength of the Church.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

How This Newspaper Helps Advertisers...

Ring up Sales

You have at your disposal the finest advertising research system ever devised—the cash register.

When you run an advertisement, you listen to the cash register the next day. If it rings merrily, you know that your advertising was effective. Sales, in the final analysis, are the main reason why most people advertise.

Your experience in selling and your knowledge of your products and services have a perfect ally in our experience—as typographers, as market analysts, as newspaper people, and, in fact, as successful advertisers, ourselves.

Let us show you how this combination of experience, building together on an accurate knowledge of our audience, can help ring up more sales for you through more effective advertising.

Call us this week.

"This newspaper is a member of the Audit Bureau of Circulations, a nonprofit, cooperative association of publishers, advertisers, and advertising agencies. Our circulation is audited at regular intervals by independent A.B.C. circulation auditors and their reports are made available to our advertisers without obligation."

MEASURE OF SERVICE...MARK OF INTEGRITY

"Too Late To Classify"

By RUSSELL KAY

The first story I ever wrote on the subject of ramie was written 35 years ago when I was on the staff of the Florida Grower. Since then I have talked and written about ramie because I am confident that some day it will bring millions of dollars to Florida.

My good friend Nathan Mayo saw a future in ramie many years ago and has done much to encourage consideration of its possibilities by both growers and industry.

Ramie is a fiber plant that produces a fiber superior to long staple cotton, it has been used for centuries and is recognized as one of the most valuable fibers known to man. Its principal asset is its long wearing qualities, it wears like iron and has been successfully used in hundreds of ways.

The Orient has had a monopoly on the production of ramie because of favorable growing conditions and cheap labor which enables declassification at a price that prevented competition from this country.

Now after years of experimentation a new type declassifying machine and process has been developed that will permit Florida to compete and group of enterprising men have organized a corporation to

engage in the commercial production of ramie in Florida. The new declassifying process was developed by William Pierce of Belle Glade. His machine automatically shreds the bark from the plant and removes the valuable fibers from the gum, stapling the cleaned fiber in convenient lengths and does the job quickly and efficiently making it possible for Florida to successfully compete in its commercial production.

The characteristics of ramie that make it so attractive to textile men are its high resistance to abrasion, freedom from rot and mildew, it is stronger when wet than when dry, high tensile strength and the ease with which it can be combined with other fibers such as cotton, linen, wool, rayon, orlon or nylon.

Its uses are practically unlimited and cover a range from heavy marine rope, fire hose, tires and on down to the finest cloth for wearing apparel. Ramie suits compared with the finest Irish linen and wear longer. Handkerchiefs made in Japan of ramie have been marketed in this country for years and their quality is excellent.

The new firm that will undertake to market ramie as a competitive fiber is Pierce Florida Ramie, Inc., which has already purchased extensive factory and growing properties. The project is being financed by Palm Beach and Broward county men who see a great future for it since the plant can be grown in the Glades area with success.

The new organization is taking over the properties of the Newport Industries which has pioneered the growing and marketing of ramie in the Glades on land of the United States Sugar Corporation. Last year Newport processed 2,500,000 pounds of ramie fiber, most of which was shipped to Japan.

The Florida Development Commission, the Florida State Department of Agriculture and others are keenly interested in the possibilities ramie presents for the development of large industries in the agricultural and textile fields.

Once the bugs are eliminated and we begin producing ramie on a competitive basis it will mean employment to thousands of agricultural and industrial workers and those behind the project see this new industry as rivaling citrus, winter vegetables and cattle.

"recent developments" which he said point to the soon return of Christ and the culmination of all things: "The accelerated turmoil and uncertainty in the Middle East developments which could lead to the Biblically-described Battle of Armageddon; the moral decay of society; the government shown by the rising crime rate and by the unprecedented corruption by men in high places; degeneracy of the home and religious life, with only a form of godliness."

Sunday was devoted primarily to a Christian fair presented by the young people of the church. Exhibits and numerous demonstrations such as life saving and first aid were featured.

The nine-day convention ended Saturday night. Among the featured speakers this week are Francis D. Nichol, Washington, D.C., editor of the Adventist's weekly Review and Herald; Taylor G. Bunch, widely known Christian author from Takoma Park, Maryland; and Melvin K. Eidenroth, professor of practical theology at the Washington (D.C.) vidios for three or four scholarships annually, with flexible stipends based on financial need, and with a total combined value of \$9,000.

Although the Science Award Medal is presented upon graduation, the winner must be selected at an early date because applications for the scholarship must be filed with the University on or before March 1. The selection of the winner is based upon scholastic achievement in science, with incidental consideration of general academic standing, qualities of leadership, and extra-curricular activities.

Both the Bausch & Lomb Science Award and Science Scholarship programs have been officially approved by the National Association of Secondary School Principals, and educators throughout the country. These awards are recognized as significant evidence of scientific aptitude, and

Washington SEE SAW

by W. W. PERDUE

THE OLD "HOOON"—Folks who know Florida politics generally agree that Congressman Bob Sikes has West Florida in the palm of his hand. But, if you are driving out that way and see a sign that says,

"Bob Sikes Highway,"—remember this—It doesn't own it. It's just named after him.

The Florida State Senate has given his name to State Road No. 85, running from the Alabama line to Fort Walton Beach. It so happens that this 50 mile stretch of road runs through Gretna, Sikes' home town. No particular reason was given by the Senate for naming the highway after Sikes—They seem to like him, that's all.

NEW OFFICERS—The Florida State Society made up of anybody from Florida who works in Washington—and has the \$2.50 membership fee, held its annual election last week. Congressman Dante Passell was named president.

First time a member of Congress has held the job. First Vice-president is Brig. Gen. Chester R. Allen (getting to be a habit with the general. Two weeks ago he was elected vice-president of the Washington Alumni Club of the University of Florida). Second Vice-president is Mrs. Sikes (another first). Secretary, Bill Adams, administrative assistant to Congressman Charlie Bennett (not the first time this job has been wished on a hard-working staff member). And Treasurer is Mrs. Sarah Shiner, who works for Senator Holland (this is undoubtedly the first time any money was ever left in the treasury. Mrs. Shiner already has \$317 to look after). A great new season is anticipated by all loyal members.

Let's have a party.

GREAT DAY—While Congressman Dante Passell was getting elected President of the Florida State Society "in absentia," he was winning the annual Congressional charity ball name from Capitol Hill. This came one year for the benefit of the crippled children of this area. To keep backache and sore muscles at bay, many, only five innings are played. It was in the top half of the fifth inning—the Democrats were leading by 10 to 4. The bases were loaded. A tense moment. Two out. The Democrats could blow this one! Then a hard line drive to have encouraged countless young people to the consideration of careers in science.

Senior Class Members Honored

The Senior Class Members and their dates were honored Thursday night, June 6, by Mr. and Mrs. Milton Stokes with a party at the Florida Power Clubhouse.

The sixty seniors and dates wined, danced, ate watermelon, and cakes with their punch. Mrs. Paxton Hill and Mr. John Crittenden helped Mr. and Mrs. Stokes serve the seniors.

Do You Have

Crunchy Coffee Cake, it is perfect for mid-morning snack and for that late Sunday breakfast.

- 1 cup sugar
 - 2 cups sifted all purpose flour
 - 2 teaspoons double action baking powder
 - 1/4 teaspoon salt
 - 1 teaspoon cinnamon
 - 1/2 teaspoon nutmeg
 - 1/3 cup shortening
 - 1 cup milk
 - 2 eggs
 - Topping
 - 2/3 cup light brown sugar
 - 2 tablespoons butter
 - 2 tablespoons butter
- Make topping first: Combine brown sugar and flour; cut in butter to resemble corn meal. Add chopped nuts. Chill until ready to use. Combine and sift together the first six (dry) ingredients. Add shortening and milk and beat 1 1/2 minutes or 225 strokes (if using an electric mixer, use low speed until ingredients are blended, then beat at medium speed for 1 1/2 minutes). Add eggs and beat another 1 1/2 minutes. Add eggs and beat another 1 1/2 minutes. Pour one-third of batter into utility pan, the bottom of which has been well greased (do not grease sides). Sprinkle half the topping over this batter, cover with remaining batter, and sprinkle with remaining topping. Bake in a moderate oven, 350 degrees, 35 to 40 minutes, serve warm.
- Want to send your favorite recipe to the Sun office so that we can publish it, it doesn't make any difference if it is for salad, cake, pie or a covered dish, we will be glad to have it.

OLDSMOBILE

"He sure knows how to pick 'em"

Bridemaid: You mean Lucille . . . or are you talking about their Oldsmobile?

Best Man: Both! But I was really looking at their car. What a beauty!

Bridemaid: They sure are a lucky couple.

Best Man: And smart, too. That Olds costs less than you'd think. It has style that stays in style. They get real comfort . . . a wonderful ride . . . and the big Rocket Engine . . .

Bridemaid: She looked so lovely . . .

Best Man: They'll really find out how smart they are to own an Olds at trade-in time. Why, an Olds brings a better price than less of the most expensive cars, even after a couple of years of use.

Bridemaid: You know what I wish? I wish that someday . . .

Best Man: That you can own an Olds? Don't waste your wishes. Let's take a ride in my Olds Rocket 88. Maybe your dreams'll come true sooner than you expect.

DODGE TRUCKS most powerful of low-priced 3

Dodge matches reserve power against truck "C" in this test for safety passing ability. All three are comparably equipped and loaded with 1000 lbs. A skilled test driver is behind each wheel. Here's the flag, they're off!

Dodge takes an early lead and at 30 m.p.h. is widening the gap. Truck "C" and truck "B" are straining to deliver their peak performance. But that Dodge 204-hp. V-8 keeps gaining easily. Its added power means less wear, fewer repairs, too.

In just one quarter mile Dodge is five lengths ahead of truck "C", seven lengths out front of truck "B". And this is but one of a complete series of actual road tests that prove Dodge the outstanding value of the low-priced three.

● Your Dodge truck dealer has proof that Dodge leads in many ways. Come in . . . see other certified test-photo sequences . . . and take a demonstration ride!

ONE DAY

**IN THE LIVES OF
PEOPLE SERVING PEOPLE**

The fireman, the turbine operator, the surveyor, the home service adviser, the plant operator—all are typical of the variety of skilled people needed to bring you the electricity to live and work better... electrically.

Of course, these are just a few of the specialized jobs in our business. We have over 1,800 skilled employees throughout our organization, many of them with more than a quarter of a century of service to their credit.

These are people serving people! Experienced people who work round the clock every day in all kinds of weather... people who are planning and building new facilities to give you better electric service... people who are engaged in constant research for new and better ways... just to be ready with a dependable supply of electricity when you flip the switch in your homes, stores, farms and industries.

Miss Crane Is Married To Leslie Collins

Miss Helen Elizabeth Crane, daughter of Mrs. Thomas S. Crane of the late Mr. Crane, of Chickamauga, Ga., became the bride of Leslie Edward Collins, son of Mr. and Mrs. J. E. Collins of Avon Park, Fla., on May 11. The ceremony was held at the Mission Ridge Baptist Church at 4 o'clock in the afternoon. The bride's brother, the Rev. James L. Crane, was the officiating minister. A program of nuptial music was presented by Miss Lilli Mae Collins of Avon Park, Fla., sister of the bridegroom, who gave vocal selections, and Jack Wall, at the organ.

Harold R. Crane gave his sister in marriage. The bride was attended in a wedding gown of Chantilly lace and nylon tulle over white satin. Her gown was fashioned with a basque bodice, Queen Anne collar and long sleeves extending in points over the wrist. She wore a fingertip veil of bridal illusion attached to a Juliet cap of lace and seed pearls. Her flowers were a bouquet of stapanotis centered with white orchids.

The matron of honor, Mrs. William B. Jennings Jr., a cousin of the bride, wore a bouffant dress of midnight green crystal-ette. Junior bridesmaids were Miss Carol Lynn and Miss Glenda Crane, nieces of the bride. Their dresses were of yellow and orchid respectively. Another niece, Miss Becky

Crane, who was flower girl, wore a pink dress, and the attendants to the bride wore headresses fashioned of crystal-ette and net in colors matching their dresses and all carried white lace mounted with snapdragons.

Julius Collins of Avon Park, Fla., brother of the bridegroom, was best man. Ushers included Donald Crane, brother of the bride, and George Louis Broom of Jacksonville, Ala., her cousin.

For her daughter's wedding, Mrs. Crane chose a dress of beige lace which she wore with tan accessories and a corsage of pink roses. Mrs. Collins, mother of the bridegroom, wore a pink costume with white accessories and a similar corsage.

Following the wedding, a reception was held at the home of the bride's mother. Assisting were Madeline James L. Crane, Harold Crane, Thomas Durham, Homer Hardeman of Atlanta, Ga., and A. R. Broom of Jacksonville, Ala.

For the couple's Southern wedding trip, the bride wore a travelling costume of mauve linen with white accessories and a white orchid corsage. Upon their return, Mr. and Mrs. Collins will make their home in Whitehouse, Fla.

Additional out of town guests attending the wedding were Jim Win of Miami, Fla.; Mrs. John Louis Broom of Jacksonville, Fla.; Steve Hardeman of Atlanta, Ga.; Mr. and Mrs. W. M. Broom, Paul Broom and his daughter, Miss Peggy Broom, and Mr. and Mrs. Thomas Durham, all of Summer-ville, Ga.; and Mr. and Mrs. J. L. Crane and children, Carol, Glenda and James Jr. of Trion, Ga.

Miss Anne Nolin Becomes Bride Of Mr. Thomas A. Manning

MISS ANNE NOLIN

Mr. and Mrs. C. T. Nolin of Avon Park have announced the marriage of their daughter, Anne, to Thomas A. Manning, son of Mrs. Bettie Manning of Atlanta, Ga., and A. R. Broom of Florida, Ala.

The wedding ceremony took place at the Bethlehem Baptist Church, Victoria, Ala., at 6:30 Thursday, May 30. The Rev. R. Fuller read the marriage rites in the church decorated with lovely spring flowers. The bride was given in marriage by her uncle, R. D. Dyess and her only attendant was her cousin, Miss Genevieve Kelley of Flomaton, Ala.

A reception for the young couple was held at the home of Mr. and Mrs. R. D. Dyess immediately following the ceremony with many friends and relatives attending. Mr. and Mrs. Manning left on a short wedding trip during the reception.

Mrs. Manning will be at home at the Hart Hotel in Flomaton, Ala., where she is living with her grandmother, while her husband finishes a tour of duty with the Navy at Pearl Harbor.

Mrs. Manning was graduated from Avon Park High School in June 1956. She was president of the Senior Class, member of the student council, and active

in a great many school activities. She has been working with Southern Bell Telephone Co. in Flomaton for several months and will continue to do so. She is a member of the Popular Dell Baptist Church in Flomaton.

Thomas Manning was graduated from High School in Eba, Ala. He is a member of the First Baptist Church of Eba.

At present he is serving with the United States Navy in the Sixth Fleet stationed at Pearl Harbor.

Congregational Church News

VACATION BIBLE SCHOOL. Vacation Bible School started at the Union Congregational Church Monday, June 10, with a large number of children present and a number of women of the church helping carry out the program. Mrs. M. G. Whitcomb is director of the Bible School with Mrs. Fred Mont-deca, Mrs. Arlin King, Mrs. Jeff Barrow, Mrs. Mae Langman, Mrs. Andrew Miracle, Mrs. Joe Franza, Mrs. Will Bennett, Mrs. M. J. Thompson, and Mrs. Hue Nunnallee teaching and assisting the teachers

of the various classes. Marcia Bilber is playing the piano for the Bible School.

This year the closing day will be Wednesday, June 13, with a picnic during the day and the final program that night. All parents and friends are invited to attend the program. Each child who has had perfect attendance will receive a prize that night and some of the work done by all the classes will be on display.

MEN'S ASSOCIATION

The Men's Association of the Union Congregational Church met Wednesday night, June 5, in the Church Parish House for a Father-Son Supper with 22 men and 14 boys present.

Officers for the coming year were elected. They are Jim Anderson, president; Bill Hood, Vice President; and Dick Thayer, Secretary-Treasurer.

Bill Hood furnished a program of movie cartoons for the children. The delicious supper of fish and hush puppies was cooked by the Rev. Herbert Goetz, Lamar Wild, and John Clark.

The next meeting of the Men's Association will be in September.

YOUNG ADULT CLASS

A chicken supper was served the members of the Young Adult Class of the Union Congregational Church Saturday night, June 8, at the Florida Power Clubhouse.

Officers elected to serve this group for the coming year were: Guy Garrett, President; Jeff Barrow, Vice-President; Mike Whetstone, Secretary; and Mervin Rehner, Treasurer. After a short business meeting the group enjoyed an evening of games.

Hosts and hostesses for the delicious supper of fried chicken, baked beans, cold slaw, cake and coffee were Mr. and Mrs. M. G. Whitcomb, Mr. and Mrs. J. C. Walker, Mr. and Mrs. Mike Whetstone, and Mr. and Mrs. H. C. Townsend.

The next meeting of the group will be in July with Mr. and Mrs. Harry Culp, Mr. and Mrs. Jeff Barrow, and Mr. and Mrs. Roger Zeigler in charge.

Tough jobs demand a Universal 'Jeep'

A 4-Wheel-Drive Universal 'Jeep' takes you to the job, wherever it is—on the road or off! This rugged performer carries men and equipment over the highway in conventional 2-wheel drive. Then, when work calls for travel off the road—through mud, sand or snow, up hill or down—you shift a single lever for the extra traction of 4-wheel drive. With power take-off, or hydraulic lift, the Universal 'Jeep' does an almost endless variety of jobs. To find out what it can do for you, ask for a demonstration.

CRACKER POLITICS

BY ALLEN MORRIS

Tallahassee — Observers are predicting the "even" side of the Senate will experience some notable face-changing before the next regular session of the Legislature will convene in '58.

There seems to be no particular reason for the anticipated turnover among the "even" side of the Senate, but it is a fact that some of those who closely watch legislative politics.

Ordinarily, although the elections of 1954 were an exception, the greatest change occurs on the "odd" side of the Senate's calendar. This side divides the Senators representing odd-numbered districts from those who serve even-numbered seats among the 38 districts.

With staggered four-year terms, election comes to all Senators on a particular side of the aisle every two years. Next year, all the "even" seats will be up for election.

Interestingly, among the seats on the "even" side are those of such long-time Senate leaders as President W. A. Shands of

Gainesville, past President W. Turner Davis of Madison and past President S. D. Clarke of Monticello.

The continuity of the staggered four-year terms produces something of a feeling of stability among the Senate, as contrasted with the belief that turnover comes high in the House. There, with 86 members and a two-year term, the rate of change has ranged from one new face out of three in '57 (tossing the previous session as the basis) to three new faces out of four in '53.

Yet the Senate experiences change, too, and a good deal more than even a regular observer might suspect before comparing the voters. Again using the basis of figuring one session against its immediate predecessor, and simply taking into account those Senators who returned after breaking their service, there were 9 new Senators at the '57 session; 14 in '55; 11 in '53; 8 in '51; 11 in '49; 9 in '47; 17 in '45; 14 in '43; and 17 in '41.

Change on the "odd" side of the Senate aisle is expected because all but one of the rotating districts which survive are among the odd-numbered seats. Four of these rotating districts are left among the "odds," only one among the "evens."

Rotating districts are those in which, by a gentleman's agreement reached by county political leaders long ago, the Senate seat is passed automatically from one county to another every four years. That makes it possible for each county in a multi-county district having such an agreement to get in turn the privilege of furnishing the Senator.

There may be an argument for rotation. Certainly defense could come from Senator M. B. Knight of Blountstown, whose home county of Calhoun is on the short end of population in a district which also includes big Bay county.

Yet, the question might be raised there of whether the people of that four-county district voted in 1956 for the man or the agreement since Knight defeated Bay county candidates who sought to break the rotation.

But the trend has definitely been against these agreements, and they have been cancelled by the voters in three districts—possibly four during recent years. A Senator who cannot be re-elected has neither the incentive of public accountability for his legislative record nor quite the strong hand in the Senate itself of a man with whom his colleagues may have to reckon in the next four years. Obviously, these are important factors in both the stature and the influence

of a Senator.

On the "even" side, which comes up for election next year, the surviving district in which rotation is practiced is the 38th, of Pasco and Sumter counties. The 38th is presently served by Senator J. C. Getzen, Jr., of Bushnell, who has preserved his public accountability and some measure of continuing influence by running for the House the years when Pasco had its Senate turn.

There is hysteria, confusion and general emotionalism connected with the closing days of every legislative session, and the '57 session has been no exception. Some of the natural reasons are:

1 — The tendency of most people to procrastinate. (Justice E. Harris Drew remarked the other day upon the rather large number of notices of appeal filed on the 50th day when 60 days are allowed for these. He felt the lawyers in most lawsuits know at most at once they intend to appeal, and that some lawyers would wait until the next-to-last day regardless of the number permitted.)

2 — The tendency of many people to quibble over detail when the pressure of time is lacking. (In lawmaking, the really fine art is sensing just the right moment. A legislative body will accept in the final days some measures it would summarily reject earlier.)

3 — In and about each session of the Legislature, there are people and interests committed to preservation of the status quo. It is to their advantage to have the Legislature kill time and for the members to weary themselves.

4 — For a year, legislators receive much knowing from lawmakers. Then, suddenly, the positions are reversed. In panic, some legislators will endeavor to rewrite the record upon which the voters will pass.

Speaking of the record, former Rep. George Inman of Bradford county—now the Senate's stalwart associate reading clerk—tells how he, as a freshman legislator, accepted as an act of kindness the offer of some colleagues to assign him part of their quota of the House Journal for daily mailing to folks back home. He learned the hazard of this when next he campaigned, for many of the constituents he had favored with the Journal turned up with marked Journals to demand an explanation of why he had voted as he did on particular bills. Thereafter, Inman was among the kindly veterans who made Journals available to freshmen lawmakers so they could learn the same lesson in the same hard way.

Do We Need A Swimming Pool?

Would you or would you not be interested
in a swimming pool being built in Avon Park?
The Avon Park Sun is making this survey and
would appreciate it if you would fill in the cou-
pon below and mail it to the office.

The pool would be used for future summer
recreational programs, in teaching the children
of our community to swim, and could be used by
the school during the Physical Ed. classes for the
same purposes.

Avon Park has a number of lakes, but few
of them are really safe for young children to learn
to swim in. They are all deep lakes and spring-
fed, many have deep holes that are very danger-
ous. And there is no beach and shallow water for
the children to use.

Do not mis-understand this question, we are
not saying one will be built, we would like to
know the opinion of the citizens in the community
regards to this question. It would take a lot of
planning and time before one could be built, but
before any planning is done it must be known if
the community is in favor of such a project.

Write The Sun and state how you feel in re-
gards to a pool, the Sun would like to receive
both the pros and the cons on this question.

Ted Ward Elected Chairman County Red Cross Chapter

Election of officers and reports of committees featured the annual meeting of the Highlands County Chapter of the American National Red Cross held in the City Center room at Sebring on Monday night, June 17. Mr. Ted J. Ward of Avon Park was elected chairman for 1957-1958 succeeding Mr. Richard Archbold. Mr. Ralph Eymann of Sebring was elected Vice-Chairman. Mrs. Mable Thompson of Sebring was re-elected as Vice-Chairman of Volunteers. Mr. Malcolm K. Crews of Avon Park was re-elected as Secretary and Mr. Ken Wilson of Sebring was elected Treasurer. Executive Secretary Mrs. Dorthie S. Wooden gave a report of 5 weeks she spent in disaster work during the floods in Virginia last spring. She personally handled 37 cases which needed aid to rehabilitate them after their homes and personal belongings were destroyed or damaged by high flood waters. Mrs. Wooden also gave a report of the 1957 fund-raising campaign which showed that Highlands County raised \$4,125.53 of their \$7,371.00 quota. Avon Park's quota was \$2,300.00 and only \$1,716.54 was collected. It was stated that due to many disaster calls during the past two years the Red Cross had

J. E. Collier Leaves A&P

J. E. Collier has accepted the position as manager of Cooper's Market in Lakeland and will assume his new duties there next week. He has been manager of the local A&P Store for the past four years. Mr. and Mrs. Collier have purchased a home in Lakeland and with their children, Larry, Bobby and Janice, moved this week. Jess W. Smith of Wauchula is relief manager at the local A&P Store.

Band Students Leave For Camp

Seven members of the Avon Park High School left Sunday afternoon to attend the University of Miami Band Camp at Coral Gables. The Camp will last for five weeks but some of the students will remain at camp for only the two weeks course.

Those boarding the Silver Meteor Sunday were Tina Ann Delaney, Cyler Coleman, Marilyn Graetz, Sammie Wright, Bob Ed Church, Dalton McCullough, and Anita Lonscomb.

Wilhite Entertain Rotary Directors

A. B. Wilhite, president-elect of the Avon Park Rotary Club, entertained the newly elected board of directors of the club with a dinner Tuesday night at Griffin's Restaurant.

A short business meeting was held following the dinner at which time plans for the 1957-58 Rotary year were discussed. Board of Directors of the coming year were appointed by the newly-elected president and approved by the Board of Directors.

Those attending the dinner and meeting were: E. Ray Wells, F. G. Ward, Robert Barben, Hubbard Biggs, David Lanier, and E. A. Shepherd, a member of the board, was unable to be present.

Rotary To Install New Officers Tuesday Night

Installation services for the newly elected officers of the Avon Park Rotary Club will be held Tuesday night, June 25, at 7:30 p.m. at the Jacksonville Hotel.

Prior to the installation ceremony the Rotarians and the Rotary-Ann's will enjoy a Buffet Dinner served by the hotel. It was agreed at the weekly luncheon meeting Wednesday that due to the weather and since this was to be an informal affair that it was not necessary to wear coats, sport shirts will be the attire of the majority of the members.

Officers to be installed include: A. B. Wilhite, president; David Lanier, secretary-treasurer; E. Ray Wells, vice-president; and M. G. Whitcomb, sergeant-at-arms.

E. Ray Wells, retiring president, will present awards to members having 100% attendance during the past year. An interesting program is being planned by the committee.

A. F. Anderson Vice-President Of Rexall Drug

A. F. Anderson, liaison man for the past five years between the Owl Rexall Drug chain and the Rexall Drug Company, has been named Vice-President of the Charge of Rexall Division Chain Operations, according to John A. Shepherd, president of the Rexall Division. In addition to filling this newly-created post, Anderson will also serve as president of Chasco, a New York City corporation presently serving fifty-five Rexall-affiliated drug chains.

Band Students Leave For Camp

Seven members of the Avon Park High School left Sunday afternoon to attend the University of Miami Band Camp at Coral Gables. The Camp will last for five weeks but some of the students will remain at camp for only the two weeks course.

Those boarding the Silver Meteor Sunday were Tina Ann Delaney, Cyler Coleman, Marilyn Graetz, Sammie Wright, Bob Ed Church, Dalton McCullough, and Anita Lonscomb.

Wilhite Entertain Rotary Directors

A. B. Wilhite, president-elect of the Avon Park Rotary Club, entertained the newly elected board of directors of the club with a dinner Tuesday night at Griffin's Restaurant.

A short business meeting was held following the dinner at which time plans for the 1957-58 Rotary year were discussed. Board of Directors of the coming year were appointed by the newly-elected president and approved by the Board of Directors.

Those attending the dinner and meeting were: E. Ray Wells, F. G. Ward, Robert Barben, Hubbard Biggs, David Lanier, and E. A. Shepherd, a member of the board, was unable to be present.

FATHER'S DAY AT THE GOVERNOR'S MANSION—Governor LeRoy Collins is surrounded by an attentive family as Florida's first father observed Father's Day. A special recipe, Beef Burgundy, was served. Governor Collins and his preparation was personally supervised by Mrs. Collins. The recipe was state winner in a beef recipe contest sponsored by the Florida Beef Council. The winning recipe was entered by Mrs. Virginia Cooper of Orlando. More than 3,000 homemakers entered the contest.

School For Retarded Children To Be In King's Court Building

The Administration Building at King's Court in Avon Park is being made ready for use as the school for Retarded Children, under the sponsorship of the Ridge Area Assn. for Retarded Children. The building, which is presently used by a Boy Scout and Girl Scout troop, is scheduled to be set up for operation in the next school term. Arrangements have been made for the scouts to continue use of a portion of the building.

Mrs. Andrew Miracle, Avon Park Junior Women's Club, has been selected by C. F. Ward, President of the RAARC, to head the School Improvement Committee. Others serving with her are Mrs. Ralph Kelley, Senior Women's Club of Avon Park; Bill Kellogg, Avon Park Jaycees; J. A. Wise, T. B. Dunn, and Bill Monsalvatge. The Jaycees have adopted the school improvement as a work project and, with paint furnished by the City, plan to paint the interior of the building and do other repair work.

A committee composed of Mrs. Jewell Shepherd, Chairman, and Mrs. M. Taylor Lee has prepared a list of needed material and equipment. This has been submitted to the Budget Committee, under the direction of Mrs. Harold Barker. Others on Mrs. Barker's committee are Mrs. M. J. Thompson, Mrs. Bobbie Campbell, and Mrs. Ed Hodgson. The list of Supplies will be donated. The Highlands School Board has appropriated \$500.00 to help meet the budget to equip and operate the school. This is in addition to the appropriation made by the County for a lea-

Police Cruiser In Accident

Once again the new Police cruiser has been involved in an accident. Late Friday afternoon Ast. Chief Blanford started to pull away from the curb on Lake Ave. and the Mail and pulled into the path of an oncoming vehicle.

The truck was owned by the Inter-County Telephone and Telegraph Company and was driven by Preston Lee Roberts, 38, Hubbard Biggs, David Lanier, and E. A. Shepherd, a member of the board, was unable to be present.

No one was injured in the accident and the estimated damage to the left front door of the police car was \$20.00.

GYMNASIUM ACTIVITIES

The annual Summer Recreation program of the Avon Park Schools, under the direction of Supervising Principal A. B. Wilhite, will get under way at 9:00 a.m. on Tuesday, June 25, at the high school gymnasium. Recreation personnel will be on duty Monday the twenty-fourth but the program for participants begins Tuesday.

Following registration, refreshments will be served by several high school girls. The gymnasium will open at 9 a.m. next Tuesday for every morning thereafter for sports and games activities. Both indoors and outdoors. Circus activities will be emphasized for any boy or girl who is interested. The singing is outdoors beside the gym and trapeze, swinging ladders, Spanish web, and Golden Fair work will be offered. Coach Franza hopes many young people will take advantage of this chance to learn new circus skills this summer.

Another added feature this summer will be a number of movies in sports such as basketball, swimming, fishing, hunting and others in the use of boats, guns, rods and reels, etc. These movies are interesting and educational and a large group is expected to attend the showings. They will be shown during the hot part of the day to a quiet activity.

PRE-SCHOOL PROGRAM

Pre-school children will meet with Mrs. Morgan, County Music Supervisor, on Mondays and Wednesdays from 9 to 11 in the cafeteria at the new Avon Elementary School. Their activities will include stories, music, games, listening and doing activities, and a refreshment period each time they meet. This program is designed to help boys and girls get ready for the first year in school. Every child who will attend public school for the first time next year should enroll in this part of the program.

DRIVER EDUCATION

Don Hansen will again direct the Driver Education program at the Avon Park area. Students and adults may register on Thursday, June 27, from nine until five in the Driver Education room under the Band room. The State Course for Study for Driver Education will be followed. This course will be taught in classroom activities using the Driver Education textbook as a guide and some time will be spent on Safety in Driving and in taking Time and Reaction Tests. The greater part of the time will be spent in the control car in the practical phase of the program however. Any adult or student who wishes to may enroll in this course.

TENNIS

Mr. John Crittenden, an expert tennis player, is interested in starting a class in tennis. Elementary school children who have a request may sign up next Tuesday. Classes will be held in the mornings and late afternoon. Balls will be furnished for this activity.

DAY CAMPING

Every Friday during the summer an excursion will be made to some place of interest within a radius of one hundred miles from Avon Park. Trips to Vero Beach, Highlands, River State Park, Lake Wales, and other places will be made. The trips are an all day affair and students must take a picnic lunch and drink or money for cold drinks.

Progress Is Being Made On Avon Lakes Golf Course

Considerable progress is being made in the construction of the Avon Lakes Golf Course. Several tees and greens have been shaped and covered with a mixture of top soil, overburden and fertilizer and are now being fertilized by the Bapco Water Safety Field Representative and Instructor for the State of Florida will be in the county to teach the last 15 hours of the course during August 1st to 15th.

Plans are being made for the course to be taught in Sebring, the first 15 hours of the course will be taught by Phyllis Hyatt of Sebring and Jamie Lee Edge of Avon Park. Bob Zubrod, Water Safety Field Representative and Instructor for the State of Florida will be in the county to teach the last 15 hours of the course during August 1st to 15th.

Be Careful, Drive Careful

If you are a man between 25 and 44 years old, and you drive a car, be extra careful in traffic over the Fourth of July weekend.

The National Safety Council, which is conducting a nationwide campaign to hold Fourth of July accidents to a minimum, says the typical holiday traffic victim is a male driver between 25 and 44 years old. He usually is the only one killed in the crash in which he is involved, either because he is alone or because the others were lucky enough to escape death.

The accident in which the typical holiday victim dies occurs between 6 p.m. and midnight—with the odds on 6 to 9 p.m.—on the night of the first full day of the holiday period.

The accident is most likely to occur on a rural highway or in an unincorporated area, and the chances are good that the victim has been drinking.

The typical victim is speeding when the accident occurs. It is caused by an out-of-

control plunge off the road or a rending crash with another car.

A recent study by the Council of holiday traffic accidents shows that the most dangerous period for the holiday traveler is while en route to his holiday destination, rather than the trip home.

Motor vehicle accidents lead the list of Fourth of July hazards, the Council says. Drowning from swimming and fishing accidents is the second biggest risk. Other causes of death are fireworks and firearms, sunstroke and heat exhaustion, food poisoning and falls.

One hundred and fifty-eight national organizations have joined with the Council in a united effort to curb these accidents. The Fourth of July safety campaign is designed to increase public awareness of the extra holiday hazards and the extra caution needed to overcome them. It also seeks to help officials, traffic officers and safety leaders in their efforts to hold down the death toll.

There's No Monopoly In Packing

Many changes have taken place in livestock buying, packing plant operations, and meat merchandising over recent years. Entirely new concepts of the function of a meat packing industry have come into being. And, this industry has become more and more competitive.

As an example, in the last 20 years the commercial slaughter of livestock by the four top packers has become a materially smaller proportion of the total slaughter. Many new slaughtering and packing companies have been established, and many more have expanded.

Actually, monopoly control in the packing industry is impossible for several reasons. The supply of livestock is not subject to control—4

million farmers and ranchers do the producing, each makes his own decisions, and each is an independent operator. The supply of meat to consumers is not subject to control either—most meat is perishable and it must move quickly into consumption without regard to price. And the consumption of meat by consumers also is beyond control—50 million housewives make their decisions independently, and if they think prices are too high they buy another food.

Finally, the clinching fact is found in the packers' profit experience. All monopolies are big profit makers—that's one reason they're created. Packing profits have been consistently low for many years—much lower than for manufacturing business as a whole.

Where Advertising Is Welcomed

An impressive evaluation of the merits of newspaper advertising as compared with television advertising has been provided by Robert J. McBride, director of Research for the Detroit Free Press. He says: "People watch television because of the entertainment—commercials actually are intruders. A survey by Northwestern University shows that 61% of housewives would prefer TV without commercials.

"At the same time, advertising is an in-

tegral part of the newspaper. Readers buy the paper for the ads as much as for the editorial matter. Both men and women readers plan their shopping from the newspaper. The Northwestern survey shows that 92% of the respondents want their newspapers with advertising."

This brings Mr. McBride to his completely logical conclusion: "The advertiser gets the best results when his message is welcomed and desired."

Medicine And Politics Don't Mix

"We have had amply demonstrated to us that medicine and politics do not mix." That quote is from a magazine which can speak with authority—the British Medical Journal. Britain has had socialized medicine for many years, and her National Health Service employs something like 99 per cent of all British doctors.

The Service's current troubles have been much in the news lately. The most publicized issue has been doctor's pay—by any reasonable standard, it is low and the government so far has refused to make adequate adjustments. But there is more to the matter than this economic factor. As the British Medical Journal puts it, "The employees have lost all trust and confidence in their monopoly employers." As evidence, it cites the fact that in recent months there has been a striking increase in the numbers of doctors investigating the possibility of leaving England for one of the Dominions.

What are the troubles, other than the salary problem, that socialized medicine has brought to Britain's doctors? The Journal has this to say: "The pettifogging arguments about whether a food is a drug, the form-filling, the regulations, earnest discussions on whether a week's leave not taken one year can be carried on to the next, the ever-increasing intrusion of the administrator both centrally and locally—all this and much more is turning medicine into an administrator's maze."

Then the Journal makes the most ominous statement of all—"The unfortunate doctor soon loses his sense of direction and will end up by losing his sense of profession."

Measures are periodically proposed in this country which would give the government sweeping and varied controls over the doctors and medical practice, and thus set the stage for ultimate socialized medicine. We can profit by Britain's costly example—and avoid such schemes like the plague.

WHAT RELIGION DID FOR BASEBALL!

Today's athlete wants to win fairly according to the rules. Primitive man had no rules, no sense of fair play. In the intervening centuries man learned more of God. He began to apply basic religious principles of honesty and integrity to all the activities of life. Finally, he decided that even his games ought to be played by such standards.

Sometimes we say that sports build character. We really mean that fair play—the religious principle we have tried to incorporate in our games—turns mere competitive effort into a character-molding experience.

But life is more than a game . . . and Christian character is more than sportsmanship.

The Church teaches all of us the principles of moral and spiritual living. It brings us into a reverent relationship with God himself. Its truths not only inspire fair play . . . but victorious living.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

More Than 500 Seventh-day Adventist Young People Take Part In Summer Camp

Orlando (Special) — More than 500 Seventh-day Adventist young people from churches in all parts of Florida, participated here this week in a demonstration of how youthful Christians may be constructive in both work and play.

A large, circus-like tent was filled with exhibits of Christian youth work, a parade was held with dozens of floats and marching groups participating and numerous demonstrations were featured in such activities as first-aid.

The entire program was held on the campus of Forest Lake Academy near here, and in connection with the annual state-wide Seventh-day Adventist camp meeting which ended Saturday, June 15. More than 5,000 attended.

First prize winners in church-sponsored exhibit entries were youth groups of Daytona Beach, Forest Lake, St. Petersburg, Taft, and Tallahassee. A loving cup for the most blue ribbons went to Taft, and the best were Daytona Beach and St. Petersburg.

In personal exhibits first prize winners were: Ernest Palmer, Cocoa, cookies; Jimmie Hawthorne, West Palm Beach, cakes; Jane Seagraves, Zephyrhills, candy; Joyce Keslake, Orlando, bread; Roberta Bandy, Zephyrhills, canned foods.

First prize winners in sewing arts were: Kaye, Miami, dresses; Anne Earley, Tallahassee, skirts; Frances Hartwell, Avon Park, aprons; Wilberta Griffith, Cocoa, embroidery and also aprons.

Tied for first place in float entries were Walter Memorial Church, Avon Park, and churches of Daytona Beach. Second prizes went to Winter Park and Orlando entries.

In a special sermon aimed at Adventist young people, the camp meeting delegates were told that "a spiritual awakening among southern youth is adding momentum to the current religious revival and promises that it will continue indefinitely."

According to L. M. Nelson, of Atlanta, Ga., youth leader for the church in the Southeast, "this awakening has far more significance to the future of the country and to the future of the Christian church, than any other element in the religious picture at this time."

Legion Nine Wins 11-0

Avon Park's American Legion Junior baseball team got off to a bang-up start last Monday night at Head Field by whipping Sebring's Post 7 team 11-0 behind the four hit pitching of lefty Chuck Anderson.

The Avon Park nine, sporting brand new gray and red uniforms, served notice to District 8 that they are out to win the championship this summer as they collected nine hits off Sebring's hurler and scored 11 runs while holding the Sebring boys scoreless.

In the bottom of the first inning, with two outs, Jim Cooper was walked by starter Jerry Sheffield. Dale Landress then sent Cooper home with a single. Chuck Anderson followed with a walk and Tommy Deuberley pushed them both home with a double to left field. Tommy's hit was the only extra-base hit of the game.

Avon Park scored again in the second inning when Tom Bass and Bryan Kempton reared first on a walk and an error and scored when Cooper rapped out a single. Landress got his second single of the night before the inning was over.

Winkle Williams, Jim Cooper and Leroy Starling all hit singles in the fourth and Avon Park took advantage of two Sebring errors to score two more runs.

In the fifth frame Billy House led off with a single, Williams and Cooper walked, and Rouse stole home on relief pitcher Donald Long. Two more walks and two Sebring errors were responsible for Avon Park's last three runs.

Sebring's four hits were all scattered singles. Travis Wise got one in the second, Jerry Sheffield, the losing pitcher, got one in the third and one in the fifth and Julius Foster also got a single in the fifth. Chuck Anderson struck out 12 batters and walked three while posting his first Legion win this season.

Landress snuffed out a Sebring threat in the fourth with a double play. He fielded the ball, stepped on second and fired to Tom Bass at first for the other out.

The Avon Park Post 69 team has high hopes of going to the State American Legion Junior baseball tournament this summer according to comments by team members. Let's turn out for the glory, they say, and the communities of the county during the past year. Mrs. Woodson reported that the Home Service committee had handled an average of 28 cases per month during the past year. Mrs. Wilson gave a report of the Red Cross.

(Continued from Page 1) rates for the purpose of construction of said road upon the understanding that one-half of said sum is to be repaid to Highlands County by State Road Department, from Primary Funds in accordance with agreement with Hon. Albert L. Rogers, member of State Road Department.

The Commissioners accepted the bid of Otis Williams for the sale of 10 acres to Highlands County for a clay pit.

The Board will advertise for bids for the new jail.

A request will be sent to the State Road Department to construct a sidewalk to within 1200 feet of the City Limits on east side of State Road 25, north of Avon Park, and on the west side to the south side of the cemetery.

The Commissioners authorized the clerk and chairman to sign amendment to the Fish-eating Creek Marsh Watershed application and approve final plans of said watershed district.

The Board decided to accept the Errors and Involuntaries report of County Tax Collector in the total amount of \$1458.76.

It was agreed that the County would continue in the participation of the water resources survey by U.S. Geological Survey.

A. F. Anderson—

(Continued from Page 1) last eight years, who assumes the post of Executive Vice-President of the Tolly-Bessell Drug Company chain in Sioux City, Iowa, about July 1.

Returning under Anderson as General Manager of Chasco will be Paul E. Koeningberg, the corporation's merchandise manager since 1953.

With Owl and Rexall since 1953, Anderson has an outstanding record and is exceptionally well qualified for his new responsibilities. He has been an extensive background in all phases of drug store operations, with emphasis on chain drug stores.

He has served Owl in a number of positions, including merchandise manager, advertising manager, regional director, and Vice-President and Director of Sales. In 1952, Rexall closed his Avon Park branch and the two companies more closely in the promotion of Rexall products.

Rotary News

Randy Robinson, Safety Officer with the Florida Highway Patrol, spoke on a timely and interesting subject at the regular luncheon meeting of the Rotary Club Wednesday, June 12, at the Jacaranda Hotel. Officer Robinson gave some facts and figures on the accidents that occur on highways and their causes. He showed some slides of accidents that never reach the papers or T.V. and sketched in the details of the traffic situations that caused the terrible wrecks. Officer Robinson stated the seriousness of the accident problem and urged all thinking members of our country to do all in their power to promote highway safety.

After the speech, Don Hansen, who was a guest of Ray Wells and is in charge of the Florida Country Drivers Training Program, made a report to the Rotarians on the successful results of the countrywide program. These figures will be published soon and the Rotary meetings will first time they have been announced.

Mr. Hansen feels that through such programs as the Drivers Training Program the safety of the highways of our country will be measurably increased.

Visiting Rotarians included: Loring Peeples, Sebring; Mel Bass, Frostproof; Russell Brown, Sebring Springs, Fla.; R. M. Gay, Arcadia; Royal Coats, Sebring; and E. F. Armstrong, Hicksville, Ohio.

CDA Meeting Postponed

The regular June meeting of the Avon Park Civic Development Assn. Executive Committee has been postponed until Tuesday night, July 2, because of conflicting meetings.

Legion Team Plays Ft. Myers Here Friday

Avon Park's Post 69 Legion team will play Ft. Myers at Head Field tomorrow night at 8 p.m. in a game which was originally set to be played in Ft. Myers. It will be the third game for both teams.

Ft. Myers and Avon Park both won their opening games with Ft. Myers taking Bradenton 9-5 and Avon Park shutting out Sebring 11-0. Yesterday (Wednesday) Avon Park played in Arcadia and Ft. Myers played at Sebring.

Next Monday the local Legion nine will again play at home meeting Bradenton at Head Field at 8 o'clock. Wednesday, June 26, the team will travel to Sarasota to meet the defending District 8 champions.

Coaches Joe Franza and J. C. Walker have an experienced squad this summer with Dale Landress, Chuck Anderson, Billy Rouse and Winkle Williams available for pitching duties and Leroy Starling filling the slot behind the plate. In addition to these boys, Post 69 will have Tom Bass alternating with Anderson on first, Wayne Kempton filling in for Landress at second, Jimmy Cooper handling shortstop, and Leroy Parkes taking over for Williams on third when Winkle takes the mound. Tommy Deuberley, Bryan Kempton and Gail Hovey will join with Rouse in the outfield positions.

Other boys who were dressed out last Monday night were Reggie Butler, Jimmy Bates, and Ed Touchette. Several other boys are expected to report for practice this week. Jack Seims will be manager for the team and Eddie Bates is the bat boy.

Wood Kitchen Selected for "Daylight Research"

Beautiful wood kitchen cabinets were selected for their variety and variety of appearance in reflecting natural light in the "Daylight Research Room" in Ann Arbor, Michigan. Glass-look wall areas and three skylights emit the maximum amount of natural light in the unusually well designed kitchen. Backs of the factory-made wall

cabinets are removed so that when the cabinet doors are opened, natural light illuminates the cabinet interiors. The kitchen is a long corridor-type room with base and wall units of wood lining the two long walls. The latest in built-in appliances completes the truly modern and convenient kitchen.

IT IS UNLAWFUL FOR ANY PERSON OR PERSONS TO ENGAGE IN BUSINESS UNDER A FICTITIOUS NAME UNLESS THE NAME IS REGISTERED

The fictitious name statute was recently changed by the 1951 Legislature and the Sun has the necessary forms for proper registration and advertising.

The charge for advertising the notice the necessary four times is \$7. As amended by the 1951 session, the law reads as follows:

"It shall be unlawful for any person or persons, as defined herein, to engage in business as herein defined, under a fictitious name as herein defined, without and unless said fictitious name shall be registered with the clerk of the circuit court of the county where the principal place of business is, which registration shall consist of filing with the clerk aforesaid an affidavit signed by all interested persons, stating under oath the names of all those interested in the business enterprise, the extent of the interest of each, and the fictitious name under which said business is carried on. Said registration may not be made until the person or persons desiring to engage in business under a fictitious name shall have advertised his or her intention to register said fictitious name at least once a week for four (4) consecutive weeks in some newspaper as defined by law in the county where said registration is to be made, and said registration shall not be accepted by the clerk of the circuit court except upon receiving proof of such publication."

any attention to what the gentleman from Michigan said. That gentleman and his colleague here, the gentleman from New York (Mr. Powell), have done more damage to the Negro race in the South than any other two men since this country was founded."

BREAKFAST GUEST—Two days after the President's attack on stomach trouble, Congressman Bill Kramer was a guest at a White House breakfast for 40 Republican Congressmen. "President Eisenhower certainly looked fine," Kramer said. "He was full of life and seemed to be in high spirits. He divided his time between the four tables and talked freely about any subject that was brought up. I was particularly impressed with his enthusiasm for world peace — a subject that seems to be uppermost in his mind."

HOLLAND ON CIVIL RIGHTS — While the Senate was getting set for an all-out fight on the civil rights bill, preliminary sparring took place on the floor last week. Senator Douglas was speaking for the bill and implied that all Southern Senators were opposed to a type of civil rights for the negro. Senator Holland rose to take issue with him. Holland pointed out that for 10 years he has been backing a constitutional amendment to do away with the poll tax in national elections. He said this would extend the voting privilege to thousands of persons who do not have it now — rather than "protect" those who now have it. When the House bill on civil rights comes to the Senate, Holland plans to offer his anti-poll tax bill as a substitute.

BACK AGAIN — In Washington for his summer job in the office of Congressman Bob Sikes again is Robert Cameron McKnight, Crestview. McKnight has just completed his third year at Florida State University and will attend the medical school at Washington University in St. Louis. He is the son of Rev. and Mrs. J. M. McKnight.

KEY DEER REFUGE — Certain of passage in the House is Senate's bill to set up a 1,000-acre reserve in Monroe County as a refuge for Florida's unique Key Deer. This place of a temporary set-up now operated by the Interior Department. Found in no other part of the world, these little fellows are almost extinct. Last census totaled them at about 120.

NEW FACE — Phil Marvin, of Palatka, a senior at the University of Florida, has just checked in the office of Congressman Bill Matthews where he will work for the summer.

BLACK FUNNEL of the tornado which hit Dallas, Texas on the night of April 2 is shown as it screamed along toward the west end of the city, where heaviest damage occurred. In its 40-mile path, the funnel dealt death to nine persons, injured 178, and destroyed or damaged some 200 homes and businesses, worth \$1,200,000. Dallas City-County Civil Defense, the Red Cross, police, firemen and other disaster agencies set up medical aid stations and shelters within a matter of hours after the twister. — Wire Photo

"Too Late To Classify"

By RUSSELL KAY

Stories of courage in the face of adversity are not uncommon, but now and then we encounter one so astounding and inspiring that it stops us in our tracks and makes us realize how fortunate we are and how trivial and meaningless in comparison are the problems we fret and worry about.

At the age of 22 Mrs. Fern Farris of St. Petersburg was happily married and the mother of a little girl nearly four years old. She had a radiant personality and her life seemed secure.

When polio struck Mrs. Farris was hospitalized. For two long years medical science did the best it could for her, but it became evident she would be crippled for life. Then fate struck another cruel blow and she lost her husband while still helpless in the hospital.

When finally released her right leg was damaged, her breathing difficult and she was so paralyzed that she did not have the use of arms or hands. The Polio Foundation and the Department of Vocational Rehabilitation sent her to the Woodrow Wilson Rehabilitation Center in Virginia where she was taught how to care for the daily demands of living.

How could a person so handicapped ever hope to secure employment or in any manner become even partially self-supporting? How many people would have had the will and courage to carry on under such circumstances?

She applied to Goodwill Industries in St. Petersburg, the organization that is helping so many handicapped people by giving them employment at some type of work they are still able to perform despite their particular handicap.

In their shops and studios in St. Petersburg, Jacksonville and many other cities throughout the country you find thousands and thousands of workers making a livelihood restoring furniture, electrical appliances, clothing and many other items that have been given to the organization. When restored they are sold in Goodwill stores and the money received helps pay the workers and maintain the organization. It is a wonderful work and worthy of your full support.

But what could even Goodwill, Inc. offer a woman unable to use her arms or hands? What use did the pieces that might be employed in some manner. Analyzing her case, two things stood out, her wonderful personality and cheery voice.

There was a need for someone to phone selected names in an effort to secure donations of material that would be used in the work shops, but how could Mrs. Farris use a telephone?

Finally, Telephone Co. engineers found the answer. An executive type phone and microphone, took care of speaking and hearing. Floor switches and foot pedal made it possible for her to call numbers with her feet. But it was necessary to record the information on a typewriter. To do this Mrs. Farris holds a pencil in her teeth and with it taps out the necessary information on a typewriter.

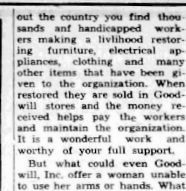

Because of her amazing achievement toward rehabilitation now Mrs. Farris is chosen National Goodwill Worker of the year. She was sent to Washington where she was the guest of many national leaders and officials. Later this year she will be sent to the national convention of Goodwill Industries of America in Denver at Florida's official delegate where she will be guest of honor at the annual banquet.

Her story is being told to handicapped people everywhere by bringing courage and hope for those who are determined to overcome every handicap and do to their utmost to help themselves.

AGRICULTURAL APPROPRIATIONS — The Senate passed the Appropriations bill for the Department of Agriculture and Farm Credit Administration Tuesday, June 11, 1957, after a vote of 78-18.

As a member of the full Senate Appropriations Committee and also of the Subcommittee on Appropriations for Agriculture, I assisted in providing adequate funds in this bill to insure the continuation of several activities of importance to Florida, and to lay the groundwork for others.

Our Committee added \$400,000 to the House bill to strengthen plant quarantine services at ports of entry. This will help to prevent new plant diseases from being introduced into the United States.

Two years ago our Committee increased pest control funds to step up research on eradication of the screw worm. The Agricultural Research Service has since completed its studies and developed eradication methods. Because of recent heavy losses from this pest by our Florida livestock industry and the recognition of the recent action of the Florida Legislature in appropriating substantial funds to participate in a cost sharing screw worm eradication program, I secured the inclusion of screw worm eradication in the bill.

Of the amount appropriated for plant and animal disease and pest control, \$250,000 is allocated for continuation of the screw worm eradication program. \$500,000 will apply on continuing surveys and mapping infestation in citrus groves by spreading disease.

We also provided funds for the extension of the rural development program to States which do not now have it. This extension will include the pilot programs which are now being worked up in Swann and Washington Counties. Other States may later come into the program.

GOOD SPELLERS HERE — Paul Willis, of Mirror Lake School, St. Petersburg, and Gayle M. of Ocala, a student of Hardee County Junior High School, Wauchula, were here last week to compete in the National Spelling Bee. I enjoyed visits with them in my office. Paul, sponsored by the St. Petersburg Times, was accompanied by his mother, Mrs. W. A. Willis, an aunt, Miss Fitzpatrick, and his teacher, Miss Mirabel Tucker. Gayle, sponsored by the Miami Herald, was accompanied by her mother, Mrs. John E. McCaleb.

ENP HEARINGS — The Public Lands Subcommittee of the Senate Interior Committee held hearings Tuesday and Wednesday of this week on the bill to introduce for Senator Smith and myself to finalize the boundaries of Everglades National Park. In testifying in support of the bill we two Senators were joined by Congressman Dante Fascell and Paul Rogers, who represent the Districts affected. Gov. Collins' support was registered by John D. Pennekamp, the Miami Herald, who also represented the Florida Board of Parks and the Florida Game and Fish Commission. Officials of the National Park Service and the U.S. Wildlife Service also strongly supported the bill and supporting statements were filed by National Audubon Society and the National Park Association. A number of other representatives of Florida groups and individuals testified either for or against the measure.

Gas Tax Collections In State Rise 211-Fold In 36 Years

Jacksonville — It was just 36 years ago this week that Florida highway users first began paying a tax on gasoline. More significant than the increased number of cars, he said, is the present combined tax rate of 10 cts. a gallon in this state, which is equivalent to a 47 pct. "sales tax" on gasoline.

With regards to the State tax itself, Ade said the \$98.9 million during 1957, while the Florida highway users are now paying to the tune of a million dollars every three days add up to 211 times as much. This revenue in its first year the tax was in force.

Now, he said, the State tax at 7 cents a gallon, is expected to take in an estimated \$98.9 million during 1957, while the 3-cent federal tax will swell the total amount collected within this state to an estimated \$134.3 million.

Ade noted that these combined taxes on gasoline, which Florida highway users are now paying to the tune of a million dollars every three days add up to 211 times as much. This revenue in its first year the tax was in force.

One of eastern Canada's greatest and most colorful summer events is scheduled to be held at Sembride in the "Garden Province" of Prince Edward Island in mid-July.

The carnival this year is being sold from July 15 to 20 inclusive. The carnival is famous throughout Canada for its parade, a circus, a soapbox derby, speedboat racing, a Maritime truck and field meet, a saddle and step-dancing contest, spectacular fireworks displays, and the viewing of a beautiful island as the Sun Sets.

Prince Edward Island is reached from mainland Canada by the train or Canadian National Railway, and the luxury ferry "Algonquin" is the fastest vessel of its kind in the world. It is one of the regular ferry services connecting the island from Cape Breton in New Brunswick.

FOUNDER'S CIRCLE

Founder's Circle of the Avon Park Federation of Garden Clubs held its regular monthly meeting Thursday, June 13, at 10 o'clock in the home of Mrs. Clifford C. Seibert with Mrs. R. L. Maxson serving as co-hostess. The 21 members present and Mrs. B. M. Davis won the plant drawing.

The program consisted of short talks by three members of the club. Mrs. Frank Love gave a great deal of interesting information in her talk on "Trees Suitable for a Small Garden." "Ground Covers" was thoroughly explained by Mrs. Charles Baker. Mrs. R. H. Ponderfeld gave many helpful hints to Florida gardeners in her discussion of "Bulbs for Florida Planting."

Mrs. C. E. Lanier, Founder's Chairman of the Plant Exchange, announced that the exchange would take place from 8 until 12 in the morning on Tuesday, July 15, in the Tourist Center. All Avon Park residents are invited and urged to take part in this to share their plants and to get new species for their gardens.

The hostesses served the members a delicious refreshment. The next meeting of Founder's Circle will be Thursday, July 11, at Mrs. J. W. Richmond's home with Mrs. C. R. Pixler as co-hostess. This will be the annual covered dish picnic.

HIBISCUS CIRCLE
Hibiscus Circle of the Avon Park Federation of Garden Clubs held its regular monthly meeting Thursday, June 13, at 10 o'clock in the home of Mrs. C. R. Ginn with Mrs. Mervin Rehner serving as co-hostess. Mrs. Arlin King was welcomed as a new member to the Hibiscus Circle.

The members of the circle were asked to bring plants and cuttings to the home of Mrs. Rehner on Monday at the request of the Rev. Herbert Graetz for use at the picnic on camp on the Bombing Range.

Mrs. Ben Stewart gave an interesting talk on the Florida State Parks and Wayside Parks. Mrs. Stewart described some of the parks and told what tourists could expect to see. She stated that there were now more than 100 wayside parks with tables, benches, and a supply of water for the use and enjoyment of travelers in Florida.

First Baptist Church News

The Wild, Wild West was the theme of a party given by the Adult 1 Department of the Sunday School of the First Baptist Church at the Baptist Camp on Lake Dexton Friday night, June 14. Bob Henderson was the ranch foreman in charge of the 35 "dukes." Punch was served from a barrel and the camp decorated with cacti and other western trimmings. Western music was played during the party and the members were dressed in their "rattle rattling" clothes. Each cowboy was branded on arrival and the cake was covered with various brands. A galloping good time was had by all the "dukes."

BIBLE SCHOOL

The Daily Vacation Bible School at the First Baptist Church started Monday with 189 children attending and more expected later in the week. The Commencement Program will be held for all parents and friends to attend and see the school work on Wednesday, June 26 at 7:30 o'clock.

BUSINESS WOMEN'S CIRCLE

The Business Women's Circle of the First Baptist Church met Tuesday night, June 11, at the home of Mrs. Estelle Jones who served delicious refreshments to the members. Mrs. Velora Johnson, Mrs. Ophelia Rhiner and Mrs. Evie Canup were in charge of the program. The next meeting of the circle will be at the home of Miss Evie Canup on Tuesday, July 9, at 8 o'clock.

DAR Entertained At Home Of Mrs. Demos Mandis

Mrs. Edward E. Adams of Winter Haven, State Regent of the Daughters of the American Revolution, was the guest of Patriots Chapter, D.A.R. on Friday, June 14 at their Flag Day program held at "Manwood" the home of Mr. and Mrs. Demos S. Mandis south of Avon Park.

A bountiful carry-in supper was enjoyed by the members and their families following the Flag service at which Mrs. Walter H. Mather, regent, presided with the chaplain, Mrs. Robert Disher leading the Pledge of Allegiance.

During the supper hour Mrs. Adams spoke briefly on the activities of the State and National Society and later before the Elks at their Flag Day Ceremony in Sebring. Members of Patriots Chapter and their families were guests at this service. Music was played during the service. To the "Youth of Today" which was presented by Mrs. Wicker. Ten members enjoyed the delicious refreshments served by the hostess, Mrs. Lockett.

For Happier and Safer Motoring

Planning a trip this summer? The handiest thing yet to have in your glove compartment is the brand new Turnpike Guidebook just published by Parade Magazine in cooperation with the American Automobile Association (AAA). With it comes a unique up-to-the-minute map of the nation's great new superhighway and toll-road network.

A special feature of the highway map is a brand new table showing shortest distances between dozens of points as measured on new superhighways. With Guidebook and accompanying map—available together for only 25¢—it's easy to plan just how you can best take ad-

Mrs. Charles E. Lanier assisted the hostess with arrangements and decorations at "Manwood."

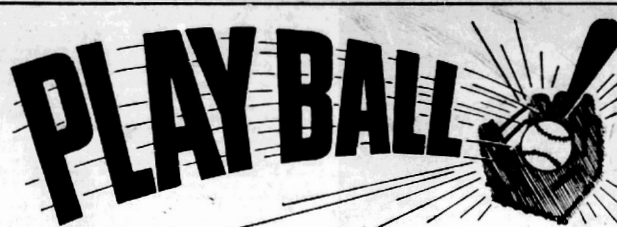

The next meeting of Patriots Chapter will be on October 7 with the meeting place to be announced later.

Bobby Whitcomb Given Surprise Birthday Party

Bobby Whitcomb was the greatly surprised honored guest at an open house in the Florida Power Clubhouse Wednesday evening, June 12, given by Miss Shirley Waters of Sebring. The occasion was Bobby's birthday.

The Clubhouse was decorated with greenery and beautiful hibiscus for a cool and summery effect. A table covered with a lace cloth held the cleverly decorated large birthday sheet cake and punch bowl surrounded with colorful hibiscus. Mrs. Jim Strull of Sebring and Mrs. M. G. Whitcomb assisted Miss Waters in serving the guests.

About 30 of Bobby's friends dropped in for an evening of visiting to make the surprise complete.

NATIONAL WARNING System, or NAWAS, of the Federal Civil Defense Administration is activated at the central center in the Command Air Defense Command headquarters at Colorado Springs as Gen. Earle E. Partridge (above), CONAD commander, sees the new or one of two similar centers on the East and West Coasts. Information on an impending attack can be relayed directly to 100 warning posts throughout the nation. From these posts, local warning units would take over. By a simple switching process, state civil defense directors can also use the net locally to transmit detailed warning and survival data to CD forces in the field. (U. S. Air Force Photo)

Beach. An old friend of Mrs. Conk's, Mrs. J. A. Franks, Jr., and her daughter, Linda, of Auburndale will visit the beach with them.

Sarah Norris, formerly of Avon Park, has been elected president of the student body in the Pahokee Senior High School for next year. This is the first time in the history of the school that this office has been held by a girl. Sarah is also president of the Methodist Young Peoples Fellowship Sub-District in Pahokee. She will graduate from high school in 1958 and plans to attend Florida State University.

Airman 2nd Class Virgil Tondoe had a leave from Memphis, Tenn., where he is stationed, and has been visiting his parents, Mr. and Mrs. Virgil Tondoe, Sr. An Avon Park guest, Airman 3rd Class Kenneth Kershner of Pennsylvania has been visiting the Tondoes in Avon Park.

Mrs. Stafford Williams spent Monday and Tuesday visiting her parents, Mr. and Mrs. R. J. Johnston, in Jupiter Beach. Her daughter, Thelma Williams, managed the Kiddie Korner while she was away.

Mr. and Mrs. Robert Keller were guests of Mr. and Mrs. H. E. Keller Father's Day week-end.

Dan Norris, former resident of Avon Park and graduate of Avon Park High School, has finished a tour of duty in the navy and is living in Pahokee now. He and his wife are the parents of a six weeks old boy, Richard Daniel Norris. Mrs. Norris is from Pennsylvania. Dan is working as a TV technician in an appliance store in Pahokee.

Mr. and Mrs. Charles Smith, former residents and now of Macon, Ga., visited Mr. and Mrs. Virgil Tondoe Sunday. While in Avon Park they also got their daughter, Jennelle, from Camp Wingmann where she had been attending a camp.

Mr. and Mrs. Leslie Crews will have as their guests for the next two weeks Mr. and Mrs. Ralph Garland of Breese-wood, Penn. Last summer the Crews visited the Garlands and toured the northeastern states and this summer the Garlands will visit them and tour Florida. They all plan many trips to interesting attractions in this part of the state. Mr. Garland and Mr. Crews were good friends when they were both in the Army.

Mannin Kirkland and son, Wallace, left Friday, June 14, by plane from Tampa for Dallas, Texas. Mannin played in the National Left-handed Golf Tournament there on Tuesday, Wednesday, and Thursday. Miss Jan Saylor returned to

New Fad For Small Fry

A bright, go-getting chairman helped break all attendance records at a recent New Jersey PTA gathering by dressing up a fetching idea for meeting notices. She decorated the foreheads of her school's pupils with a startling variety of adhesive bandages—not the usual solid-color strips, but bandages cleverly designed with animals, rulers, alphabets, zippers, arrows, even wolf tracks. Some were shaped like hearts, diamonds, and four-leaf clovers.

Following Madam Chairman's instructions, the children informed their surprised parents that the stickers were merely reminders of that week's PTA meeting. On the appointed evening, the school auditorium was unable to handle the rush, so effective were the sterile "reminders."

Johnson & Johnson introduced these new BAND AID "Charmers" to satisfy youngsters everywhere who yearn to patch themselves up or play doctor to baby doll and teddy bear. "Charmers" go a lot further, however. With over twenty designs now available in a variety of bright colors and shapes, small fry collectors are "trading" them, and teen-agers are using them as attention-getting devices. Stuck rakishly over one eye, they have a distinctly "come-on" effect. There are countless other uses. Young Cub Scouts attend den meetings with a "wolf track" strip stuck to the wrist as a badge. Neighborhood groups choose particular shapes or designs as club insignia. A fraternity group recently pledged

young initiates to secrecy by sealing their lips with "zipper" strips. A candidate in a school election, emulating the donkey and elephant of grow-up politics, campaigned behind his own identifying animal design, his booster proudly wearing the insignia of their chosen "party." Girls, from rompers to teen-agers, place the heart patches on each cheek, while a diamond patch on the appropriate finger symbolizes a girl's best friend. Since the "Charmers" also serve serious first aid functions in providing protection for minor cuts and bruises, they are gradually becoming everybody's best friend.

INFORMATION ON AVON PARK OF INTEREST TO EVERYONE

Did you know that according to the first census taken in Avon Park in the year, 1894, there were only 19 children in school and 93 persons living in the community? This year there were better than 1100 students enrolled in the Avon Park Schools and the estimated population of the community is 6,000 which is increasing rapidly, at a greater rate than the State Average.

In the early 1900's there was only one general store in Avon Park, and it was operated by B. F. West and son, Ellie. Once a week Ellie went around and took orders and made the deliveries. The store contained the Post Office, grocery and dry goods department and feed store, the West family lived upstairs. Some of the Old Settlers still remember the prices of those days, a few of them are; flank steak 15c lb., milk 4c a quart, carrots and vegetables 5c a bunch and large eggs 25c a dozen. Today Avon Park has a large number of grocery stores with items that were not even dreamed of in those days.

In 1911 all roads in Avon Park were strawed with pine needles and so were the side walks except for a few places that had boards laid down to walk on. Now our

streets are paved and side walks are being built in all sections of town.

The first phones in Avon Park connected the home (Hollyhurst) of Major Davidson with George Smith's General Store. Today we have better than 1400 telephones in our city. And the telephone company is building a beautiful new building, another landmark for our community.

Each year Avon Park is continuing to grow, and that is the way that it should be. It is the responsibility of every citizen to do every thing in their power to aid the community in this growth.

Avon Park is the oldest city on the ridge section of Florida. A section once described by the Columnist, Paul Gallico, as a "Veritable paradise of shining blue lakes and green hills—as unspoiled as the Garden of Eden". It is with pride that the citizens, and winter and summer guests, agree that the Mall, creates a sound foundation for the slogan "The Jacaranda City", prettiest City on the Ridge.

WIN A \$2,500 IRRIGATION PUMP
in the big Worthington "Rain or Shine" contest

How accurate a weather forecaster are you? Just name the days it will rain next month and you may win a new irrigation pump for your farm worth \$2,500.

It's easy as pie to enter. Just circle the days that you think it will rain during July. Then write a statement of 25 words or less, completing the phrase "I want irrigation for my farm because"

Your entry will be compared with precipitation records kept by the U. S. Weather Station at Tampa, Florida. The entry coming closest to the actual dates that rainfall is recorded* will win the \$2,500 pump. (Only in case of ties in naming the dates will the statements be used in the judging.)

You can't count on rain! Worthington and its Florida distributors are sponsoring this giant pump giveaway to demonstrate that age-old adage, "you can't count on rain." This year might be another hot, dry year and your farm may have a crop failure. Then again, we might have enough rainfall for a bumper crop.

Either way your income is protected when you install a Worthington irrigation pump. Not only will it protect your crops during droughts, but in good years it can pay for itself in greater yields. With a Worthington pump you never have to try to out-guess the weather.

Don't wait to irrigate. Now is the time to install an irrigation system for your farm. Should you buy a Worthington pump during the contest and later win one also, your full purchase price, up to a maximum of \$2,500 will be refunded.

Contest ends June 30. Send in your entry right away. To be eligible for the \$2,500 Worthington irrigation pump it must be postmarked on or before midnight June 30. Read the rules, then use the official entry blank. You can get additional copies from your nearby Worthington turbine pump distributor. His name is listed below.

*In order to count as a day of rain, at least one hundredth of an inch of rain must be recorded by the Weather Bureau at Tampa. "Trace" amounts of precipitation will not count.

WIN THIS \$2,500 PUMP. The prize includes a pump designed for your well and ready for connection to power line or engine. The value of the prize cannot exceed \$2,500. (Well, installation and accessories not included.)

OFFICIAL CONTEST RULES

- Write your entry on this official contest entry blank, properly filled out and signed with your legal signature. Additional entry blanks are available from your nearest Worthington vertical turbine pump distributor, but only one entry per person will be accepted.
- Any bona-fide farmer (owner or operator), and/or member of his immediate family, is eligible. No employee of Worthington Corporation, its distributors, its advertising agencies or their families may compete. Contest subject to all U. S. Federal and State regulations.
- Entries will be judged first on the basis of the number of days of predicted rainfall as compared with official records of the U. S. Weather Station at Tampa, Florida. In case of ties, the entrant that has come closest to picking the actual dates that rainfall was recorded* will be declared the winner. If a tie still exists, the 25-word statement will be used to name a winner on the basis of originality, sincerity, and aptness of thought.
- Sole responsibility for judging will be with the Advertising and Sales Promotion Department, Worthington Corporation. Decision of the judges final. All entries, contents, and ideas therein become the property of Worthington Corp. No entries returned.
- Mail entries to "Rain or Shine" Contest c/o your nearest Worthington Distributor. All entries must be postmarked before midnight June 30, 1957.
- The winner will be notified shortly after the close of the contest.
