New Insurance Agency Opened

By Melvin Off

Now being formally introduced to the Avon Park area is the newly-organized ABC INSURANCE SERVICE.

The friendly, modern office at 5 Avocado Drive (1/2 block northwest of Lake Lillian) is under the direction and ownership of a local resident, Melvin D. Off, who is recently completing specialized insurance study at Jacksonville University, was certified by the state as a licensed agent. He also holds a graduate degree in Business Administration and previously owned real estate firms in Illinois and California before establishing his business interests and home here in Avon Park.

In announcing his "ultra-personalized service," Mr. Off emphasizes the popular new trend ABC INSURANCE SERVICE features this preferred type of insurance protection which offers either dividend savings or rate deviations. Coverage is also carefully "customized" to the actual needs of the individual policyholder. Mr. Off is proud to represent several widely recognized and reputable insurers, principally Auto-Owners, Michigan Millers, and American Central Insurance Companies, whose diversified facilities provide a wide range of trustworthy protection on Property, Automobile, Liability, Casualty, and Marine risks for most individual or commercial policyholders.

"Our interest is devoted to the best interests of the insurance public," asserts Mr. Off, "and since many folk do not fully understand their present policies, often over or under insuring their valuable possessions and investments, we're always glad to discuss these matters without obligation." Mr. Off also urges the public to investigate the many benefits and advantages of the highly popular Package Policies which now offer several very important coverages in combination and at much lower rates than formerly.

ABC INSURANCE SERVICE wishes to thank Avon Park as a community, and the other good insurance agents nearby, for the opportunity to serve for and with the finest people in Florida.

Winter Guest Club News

The old club house is just about bursting with music these days. On Sunday, the 13th, at the Music Appreciation Hour the following concert was rendered: Sousa Marches by the Goldman Band; Great Overtures by Lawrence Welk; Favorite Hymns by the Augustana College Choir, and several instrumental selections from famous authors. Thirty-five music lovers enjoyed the program. There should have been more. "Music hath charms to soothe the savage breast," so we have read, and who of us doesn't need such charms occasionally?

And on last Sunday afternoon the hymn singing night lifted the roof off. There were 106 lusty folks present, and didn't they go it! Under J. Shill's inspiring leadership folks simply can't help letting their voices out. The opening prayer was by the Rev. S. M. Seavey of Illinois, the closing prayer by the Rev. H. Folked of Wis. There were vocal solos by Mrs. J. R. Ford of Montreal, Canada. Two trumpet numbers by Miss Sharon Nations, and two readings by Mr. Howard Kellogg. It was a gallant crowd present, a fine entertainment for God and man, and the next sing will be on the 4th of December at 3 p. m.

A goodly number of mouths are watering in anticipation of the dinner here on Thanksgiving Day. And as we read the list of good things to be brought to go along with the grand turkey, or turkeys, they will adorn the tables, our own tongue began to wag and feel funny. Said fowls, we understand, are to be cooked at the Ray Bakery and brought down whole to be carved in the kitchen. And who will do the carving, distribute the trimmings and so on? The ladies, so we are told, and why not some of the men who should be good at that? Oh, they would just be in the way, we were informed. Oh, well, may be they will wash and wipe the dishes. We are pretty sure some of them have done that before this.

At the Friday night dance there was a slight drop in the attendance, owing probably to a dance the previous evening. Sixty were present, practically all being dancers. No large group of spectators as we so frequently

have. Some members of the Guest Club seem to get much pleasure just watching others dance, and they are always welcomed.

Another Sunday note. On the afternoon of the 27th, at three o'clock, there will be a stereo-phonetic concert in the club house to which all are invited. New members are especially welcomed.

The two new courts for shuffleboard seem to please everybody even though they are not quite ripe enough to be played on. We must hold our horses for a little while yet. What also gets the approbation of everybody is the new concert walk leading to the east end of the house porch. It looks like a fine job, broad as well as smooth. No excuse now for anybody to stumble there.

The usual games went on during the past week. The penmanship people's popular party prospered on Monday the 14th, and so it was good old Tony Kerr who beat them. Mrs. Potter next. There were five tables of them too. The bridge players played next day, five tables of them also, and at set of sun it was found that Mrs. Richmond and Mr. Lupton were highest with a score of 5950. Mr. Nickerson came next with a score of about a thousand less, being exactly 4810.

The bulletin board announces the glad news that on the 25th a host of Sebringites will come up to do battle with the Avon Parkers on the local courts. There are wanted nineteen teams to show the invaders how to play. It is to be hoped that our local experts take care not to lay in too much turkey and fixin's the day before. All should be quite up to scratch on that day.

As for the two home tournaments the week, the pick-up partner one on Wednesday brought new names to the front, namely, Mr. and Mrs. Bull, who took first honors, while Mr. and Mrs. Byrner took the consolation event. A real family affair, that was. The weather was fine for playing last week, just about right for both tournaments. The Saturday pet-luck tournament was won by H. A. Smith and Jack Flaggett, the consolation event by Mrs. Bush and Mr. Hestelock. And that's all the news fit to print just now says The Stroller.

A goodly number of mouths are watering in anticipation of the dinner here on Thanksgiving Day. And as we read the list of good things to be brought to go along with the grand turkey, or turkeys, they will adorn the tables, our own tongue began to wag and feel funny. Said fowls, we understand, are to be cooked at the Ray Bakery and brought down whole to be carved in the kitchen. And who will do the carving, distribute the trimmings and so on? The ladies, so we are told, and why not some of the men who should be good at that? Oh, they would just be in the way, we were informed. Oh, well, may be they will wash and wipe the dishes. We are pretty sure some of them have done that before this.

Pumping Started On Lake Verona Friday Afternoon

The State Road Department started the pumping lake Verona this week.

The round-the-clock operation is handled with the use of three large pumps and long lines of irrigation pipe through which the water is being forced over the hill into Lake Viola. The effort is being made to lower the lake to a level which will expose a section of U. S. 27 alternate at the lower end of Main Street which has been inundated since Hurricane Donna. So far the three-day efforts have resulted in about a 12 inch drop in the lake level.

'Thaw' In Funds Hoped For By Administrator

Hopes for a "thaw" in the
funds for exceptional child ed-
ucation in Florida were voiced
by one of the program's adminis-
trators last week.

Dr. Robert Gates, who is ad-
ministrative advisor to the ex-
ceptional child program, spoke at
a meeting of the Highlands
County Exceptional Child Teach-
ers in Sebring. He said that he
was "very hopeful" that the funds
which were frozen by an
economy-minded legislature
earlier this year, will be "thawed
out".

"Now, more than ever," he
said, "we need to plan for all
types of exceptional children—
the gifted, the emotionally dis-
turbed, the mentally, physically
and neurologically handicapped.
The modern world is constantly
becoming more complicated."

He emphasized that exceptional
children, therefore, need more
help in making adjustments.
Dr. Gates was warm in his
praise for the exceptional child
program being carried on in
Highlands County. "It is on the
cutting edge of education," he
said.

Several administrators and
guidance committee members
from Highlands County were
guests at the meeting. Dr. Gates
addressed. Exceptional child per-
sonnel from Hardee, DeSoto and
Glades Counties also were guests.
The speaker was introduced by
Mrs. Orpha Brown, coordinator.

of education for exceptional
children in Highlands County.
Dr. Gates, in addition to his
work in the exceptional child pro-
gram, serves as coordinator for
the state of Florida for the Na-
tional Defense Education Act.

These Clash at Homecoming

The Ridge Conference Southern Division football championship will be decided Wednesday night at Memorial Field when the Avon Park Red Devils play the Sebring Blue Streaks in the traditional Thanksgiving Eve "Turkey Game."

It will also be Avon Park's Homecoming game with a big pep rally and parade Wednesday afternoon, special pre-game ceremonies at 8:30, and an elaborate half-time show featuring bands from both schools.

The climax of the homecoming festivities will be the big game with kick-off time scheduled for 8:30. Eight seniors will be playing their last regular season game for Avon Park. Fullback Joe Milton, halfbacks Raymond Hall and Dick Nagel, ends Dale Batton and Milton Stokely, guards Clayton Jenkins and Don Guy, and center Jim Porter.

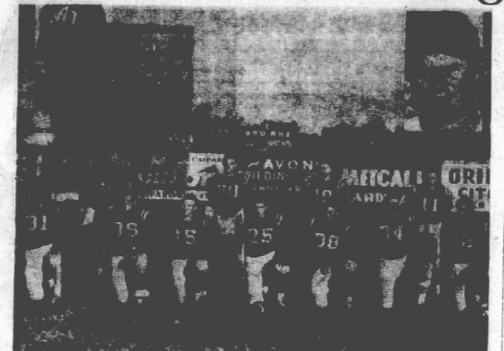

The Avon Park-Sebring game is always a hotly contested game with the mythical Highlands County championship going to the winner. Although Sebring was supposedly the Ridge Conference coach's pick for conference champion this year, their season record isn't too good. They have lost to Mulberry, Ft. Meade, and Okechobee while defeating Kissimmee, Frostproof, Kathleen, and Arcadia in Ridge games.

They also lost to Lake Wales and won over Punta Gorda. In non-conference games for an overall record of 5 wins, 3 losses, and 1 tie. The Blue Streaks have been handicapped with injuries the past six games but are expected to be near full strength by game time Wednesday night.

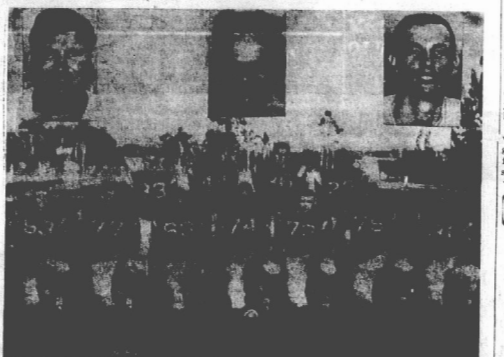

The Red Devils have a lot at stake in this game. In spite of the fact that they are far out front in overall Ridge standings, they need a win or a tie to clinch the Southern Division title according to the new Ridge Conference ruling on how the championship is won.

The Devils would also like to make it five years in a row that Avon Park has not been defeated on their home field. Devil teams have been tied at home but not defeated since 1955 when Ft. Meade won a post-season game from the home team.

The season records give Avon Park the edge in this year's battle but as every Red Devil and Blue Streak fan knows, records mean nothing in the Avon Park-Sebring game. The Red Devils have wins over Mulberry, Kathleen, Frostproof, Arcadia, Kissimmee, and Okechobee and a 5-6 tie with Ft. Meade in conference games. They lost to Wauchula and

SEBRING BLUE STREAK starters for Wednesday night's annual Thanksgiving Eve game will be, front row, left to right: Chester Clarke, Lee Buchanan, Roger Gaston, Elvyn Robertson, Pete Coburn, Bobby Tolson, Tony Richter, Wayne Parks, Gary Lander, Irving Fordham, Jackie Newcomer. won from Belle Glade in non-Sebring can penetrate the strong conference tilt for an over-all Red Devil defense or hold Avon Park's flashy offense in check. The Devils have scored 198 in order to score the Streaks points to their opponents 108. The two big questions about Milton, the defensive signal in this year's game are whether caller for Avon Park.

Avon Park Link 2— Dates Set For Hog Season In Wildlife Areas

TALLAHASSEE—Status of Florida's wild hogs as game animals was clarified today by A. D. Aldrich, director, Game and Fresh Water Fish Commission.

Wild hogs may be taken as game animals only during the open season designated for wild hog hunting in six wildlife management areas.

The special wild hog areas and seasons are as follows: Eglin Field Area located in Northwest Florida, provides an open season for wild hogs during the deer season with a daily bag of one and season limit of two. Camp Blanding Wildlife Management Area located in North-east Florida, provides for a daily bag limit of one and season limit of four per hunter.

Avon Park Wildlife Area located in Central Florida, provides an open season on wild hogs starting January 8, and a season limit of two per hunter. J. W. Corbett Wildlife Management Area located in South Florida, has a daily bag of one and a season limit of two.

Everglades Wildlife Management Area located in South Florida, has a daily bag of one wild hog and a season limit of two.

Outside of the six areas, the Game Commission claims no jurisdiction over hogs of any kind at the present time.

Clarification of the status of wild hogs as game animals was given in response to a query from interested persons, Aldrich said.

Supervisor Cites Accomplishments In Food Program

Expansion of training programs for school lunchroom personnel has been one of the accomplishments of the past decade. Mrs. Thelma Flanagan, state supervisor of the school lunch program, cited a long list of accomplishments in an address before the Highlands County School Foods Service Association.

Nearly 50 of the school lunch personnel of the county attended a Thanksgiving dinner at Woodlawn Cafeteria in Sebring on November 16. County School Superintendent Fred Wild and Superintendent-Elect Andrew Miracle were guests.

Mrs. Flanagan pointed out that the school lunch program is a comparatively new addition to the school programs. Although it is new, she said, a large program of training for personnel has been developed. In Highlands virtually all lunchroom employees have had special training for their work—some of them having completed as many as three 36-hour summer training courses.

Miss Elizabeth True of Lake Placid is president of the Highlands County School Foods Service Association and was in charge of plans for the program last week.

Minstrel Planned For December 9

A minstrel is defined in the dictionary as "a wandering musician, a dancer, a singer of ballads, a singer of comedy songs." This general description embraces the minstrel as we know him in the United States, the specialist in burnt cork.

A half century ago, the minstrel show was the big thing in entertainment across the country. When the minstrels came to town, the young and old gathered around to see the big street parade, the band with the slide trombone, and the promise of a tuneful, funny show that evening.

Shortly after the turn of the century, however, the professional minstrel, as such, became a rarer and rarer sight. The

Junior Class of Avon Park High School plans to revive the tradition and spirit of minstrelsy by presenting a spectacular performance entitled "Burnt Cork & Melody." December 9, 1960, 8:00 p. m., in the high school auditorium.

"Burnt Cork & Melody" is a complete minstrel show. There are countless gags because, as Joe Miller once wrote, "Jokes are the answer to an End Man's prayer." Favorite songs of the oldtime minstrel are included to add verve and spark to the show. In addition, there are three or four new songs never before presented for performance, but definitely in the best minstrel tradition.

This unforgettable presentation is under the direction of Mrs. Fatt C. Hall, Mr. Ellis Watson, Mr. Glenn Hopson, and Mr. Howard Allen, all faculty members of Avon Park high school.

These are only a few of the 1,500 brands of distinguished merchandise you'll find at S&H Green Stamp Redemption Centers and in the pages of the new S&H IdeaBook.

Two Big Guns For Homecoming

Halfback, Lamon Money and defensive halfback Dick Nagel are both expected to play an important role in the outcome of the Avon Park-Sebring game Thanksgiving Eve. Both have been outstanding in their respective positions all year and both will have to play mighty good football if the Devils hope to win over the Straks.

Dick Nagel is a seventeen year old senior who transferred to Avon Park from Chamberlain High School in Tampa the last of his sophomore year. He is 5'7" tall, blond haired, and weighs 140 pounds. Last year he played on the Red Devil "B" squad and this year he earned a permanent job at defensive halfback because of his scrappy, fighting spirit. Although he is not as tall as most opposing pass receivers, Dick has proved to be an ex-

cellent man on pass defense. He has intercepted five passes this year and scored the Red Devils first touchdown of the season when he ran a pass interception for a score in the Mulberry game. Because Dick is an aggressive defensive back, he rarely misses his man. He likes football and likes to be in where the playing is rough.

Dick also plays basketball and baseball. Last year he earned a varsity basketball letter as a guard on the Red Devil quintet and he played second at second base on Avon Park's baseball team although he didn't earn a letter last season. He says that baseball is his favorite sport so perhaps he will see more of him on the diamond this spring.

Dick is a friendly, enthusiastic student who leads a well-rounded

life at school. He serves as vice-president of the Glee Club where he is one of the twenty-three boys who blend their voices with fifty girl vocalists. After graduation, Dick plans to join the Navy and make a career of it.

Lamon Money, a sixteen year old junior, is a triple letter man for the Red Devils. By the end of his sophomore year, he had earned two letters in football, one basketball letter and two baseball letters. This year he has been the leading scorer for Avon Park's football team and has kept fans on their feet with his dazzling runs.

This flashy halfback is a natural athlete. He weighs 155 pounds and is 5'8 1/2" tall. As a ball carrier, he is always exciting because he is fast and agile and can cut manuever his opponents with his quick changes of directions and bursts of speed. He can make yardage through the line on quick-penetrator or counter plays or loosen up the defense with a long, fast sweep around either end. Opponents have found him shifty and elusive as he fakes his way for long gains. He is an explosive runner with a natural instinct for feeling and reading his way through the opposition.

Lamon also is a good pass receiver. This year he has caught eight passes for a total of 94 yards gained. But his specialty is returning kick-offs or punts. So far he has returned 22 kicks for a 172 yard average per return. And speaking of kicking, this versatile halfback is a pretty fair kicker himself. He has done most of the punting for the Red Devils this year and has a 30.6

yard average per kick for 18 punts. Ninety-one punts have been scored by Lamon in the last nine games. He has scored 67 points in conference games and hopes to take over the lead in that department against Sebring Wednesday night. At present, Quin Clements of Mulberry leads the conference. Lamon has gained 1048 yards on the ground against the last nine opponents and has a 6.7 yard average per carry. So far no team has prevented him from scoring this season.

On defense Lamon either plays left outside linebacker or deep safety man. He has improved this year as a defensive ball player and has helped the Red Devil defense hold down the scoring of their opponents all season. He has intercepted one pass this year.

When asked what his plans for the future were, Lamon laughingly replied that he was going to play professional football for a career. He thinks halfback Lenny Moore of the Baltimore Colts is the best pro halfback in the business and his teammates have nicknamed him for that outstanding pro ball carrier.

Fans will be seeing lots more of this junior athlete who has no lack of confidence in himself in any sport. As soon as football season is over, he'll go to work on the basketball court and then next spring he'll be pitching or playing shortstop for the Red Devil baseball nine. If Lamon doesn't get a severe case of "senioritis" during football season next year, he will undoubtedly stand out as the best all-around kid in the Ridge Conference.

NOTICE To Property Owners and Voters

Dates Set For Orange Regional Science Fair

BY ALBERTA JONES
(Staff Writer)

March 9, 10, 11, have been selected as the dates for the 1960 Orange Regional Science Fair. Students from junior and senior high schools and upper elementary grades will make between 250 and 300 projects for this fair at Dade City.

A new schools building, now being erected on the fairgrounds at Dade City, will be the site of the fair.

Highlands County schools will be permitted to enter a maximum of 50 projects. Other entries will come from the schools of Hardee, Hernando, Pasco and Ocala Counties.

Professor Roy S. Kiser of Lakeland, chairman of the 1961 state science fair, is also chairman for the fair at Dade City.

Floyd H. Clark, coordinator of special abilities for Highlands County schools, is a member of the regional fair committee. Mr. Clark said a maximum of 72 of the Highlands entries for the regional fair will be selected from among projects shown at the county fair (set for Avon Park in February).

The remaining places will be filled in other ways. In 1960 Avon Park science students entered 45 projects in the Orange regional fair at Wauchula.

Categories for the regional fair will be physiology, botany, zoology, astronomy and geology, chemistry, physics and mathematics (or arithmetic for the lower grade levels).

Jacaranda Hotel—

Scottish Rite Club Meets Here

Scottish Rite Club of Sebring entertained with dinner and program on ladies night at the Jacaranda Friday night at 7:30 p. m.

Mr. and Mrs. Jack DeLaney entertained a group of their employees at the buffet Friday night.

Medical Association met Monday, Nov. 21. Table decorated by Mrs. Sam King. Thanksgiving motif—colorful fall leaves scattered windowless. Refreshments—white chocolate, cornucopia filled with fruit and vegetables of season and strutting turkey gobble.

Monthly Rehearsal

Rehearsal for the annual Memorial presentation will be held this Sunday, (Nov. 27) at 2:30 p.m. at First Baptist Church. It is expected that this will be the last practice session to be held in Avon Park.

First of the 1960 performances will be in Sebring on Dec. 4. The Lake Placid presentation is set for Dec. 7. The local presentation will be at 8 p.m. on Dec. 11 in First Baptist Church.

During the 1959-60 season 57,000 carloads of vegetables were shipped from Palm Beach County.

To build interest in the coming science fairs, Mr. Clark is showing to the Highlands students a movie of the 1960 Tampa Tribune Science Fair. Sebring High School students saw the movie on Tuesday. Avon Park students will see it Wednesday.

Those of you who stayed up the other night and watched another TV "spectacular" which was narrated by Edward R. Murrow on "The Harvest of Shame," probably came up about as red necked as this editor.

The program was aimed at the plight of the migrant worker in part but was aimed directly at the state of Florida.

According to the program, Florida is the cause of the entire problem posed by the migrant. Murrow pointed to the big grower as the cause of the poverty of this group of people and to Immokalee and Belle Glade as the spawning ground for those that follow the harvest up the state and eventually end up in the north.

We certainly are not condoning the actions of the labor contractor or the conditions in which these people live... the thing that is not condoned is that migration is a state of mind and there is certainly no reason to condemn a state as was done on the program, as a "breeder of evil."

We feel that Murrow could well have extended his "Harvest of Shame" to the cherry pickers in Michigan or the "apple knockers" of Washington or even to his breeding ground of shame in the back alleys of his dearly beloved New York City.

It is also our personal idea that a lot of the criticism of the south and especially Florida along these lines is because of the fact that there is an industrial revolution underway with the movement of plants and factories daily to the state, that this is used as a strike-back at the area.

In the case of the migrant workers, and we have seen a lot of them in our time, having come from the apple and soft-fruit area of Washington State, they have held true to form since I can remember them working for my father years ago. Certainly today it is just as true that no one holds a gun to their back and tells them that they are now migrant workers... again it is a state of mind.

During the '30s there was mass migration to the west coast from the ill-famed dust bowl when the "Okies and Arkies," as they were called, came west in droves. Those of this group of migrants moved to find a new land, which they did, and today they are some of the pillars of many communities.

We agree that something should be done for the migrant worker possibly in sanitary facilities, better housing and pay, but the workers must be willing to accept these things.

We can remember new farm labor camps in Oregon which were built at tremendous expense to house the migrants and at the end of one season were not fit for the rats which ran in and out the broken windows and the doorways with the door hanging by one hinge (if there was a door left).

Public sympathy is a great weapon, Mr. Murrow, but don't point it at a great state when all the others are just as guilty of your "Harvest of Shame."

WE'VE GOT HOMEWORK

Advised by the latest report on the election returns that President-elect Kennedy will be the twelfth American President to be elected with less than a majority of the popular vote, we are reminded once more that our Electoral College system is not what it was set up to be.

Maybe it worked alright when there were 13 states. But it is certainly all wrong when victory in half that many can establish the winner in all 50.

OUR SUGAR SLIPPED — VIVE LA CLEWISTON

Last week we expounded on the wonderful all-Florida produced banquet... this was an apparent mistake because we didn't mention the fact that Clewiston sugar was on the table... we got back a little note from Beryl Bowden editor of the Clewiston News noting the fact that we had not noticed this fact. It wasn't our intention to name all the products on the table but we take the correction and hereby notice Clewiston sugar... every new and then editors do leave things out inadvertently and we apologize in this instance... you should know about things like this, Mrs. Bowden.

Out in Oakland, Calif., there is a cat named Herman who, as the result of a court order, has been confined to house arrest, because of the complaint of a neighbor who raises Siamese cats... seems that Herman has been interfering with the neighbor cats and, it is assumed, may have corrupted the pure blood lines of the Siamese progeny... strikes us that there are two things amiss in this ban on normal cat living... first, Herman is suffering from the established custom of blaming the male when accustomed and proper family life is interrupted... second, the judge completely disregarded the nature of cats.

DECEMBER ALREADY? What? December already? Where did the other months go? Seen from the other end of the 'scope I thought they were rather slow... But now, looking back from this end they seem to be piled in a heap... If I just had a time that needs be... there'll be no time for sleep... I guess I'll just have to work harder... If I just had a couple more hands... Next year, I'll just have to do better... Make and keep resolutions (I pray) One thing I promise myself not to do... Is to live tomorrow... today! Promises are made to be kept, too... I make 'em and break 'em, and can't seem to help it... Am I by myself... or do you? To repeat... I promise me one thing... And I'm writing down what I say! I'm going to wait for tomorrow... And try living today... today!

DON'T SELL US SHORT

Letters TO THE EDITOR

November 28, 1960
Avon Park, Florida
Gentlemen:

The Resolution adopted by the Legislative Council in Boca Raton relating to the introduction of local bills materially changes the practice heretofore used for such type of legislation. In that the Resolution provides that all local bills be filed with the Chief Clerk of the House by March 25, 1961, the final draft of proposed local bills must be submitted to me by no later than March 5, 1961, for after the Bill has been delivered to me I must forward it to the Attorney General's Office in Tallahassee for final typing and subsequent presentation to the Chief Clerk.

In that this is the first Session under which the Resolution will operate, there will be quite a flood of local bills in the Attorney General's Office and it is imperative that I get our local legislation to him by at least the 5th day of March.

All local bills must either contain a provision for submission after its passage by the Legislature to the Citizens of the County for approval or Notice of intention to apply for each local bill has to be published at least thirty days prior to introduction into the Legislature.

Senator G. W. Williams of Wauchula and I will hold public hearings through the County during the latter part of December or the first part of January so as to afford everyone desirous of discussing local bills to present their program.

The hearings will also be open to matters of general concern to the residents of Highlands County and our Citizens are cordially invited to attend and join in the discussion.

It would be appreciated if you would run a story advising the residents of our County to give serious thought to any proposed local legislation and to complete

their program by the above dates. Appreciating your assistance in the matter, I am Yours very truly, Howard G. Livingston, Representative, Highlands County

I'll take even money up to two-bits that despite all the world-wide publicity about J. Fitzgerald, Jr., the parents will send announcements, and give 100 to 1 odds I don't get one.

On a second thought, they may not officially, or maybe it's socially, mean any such routine event. For there ain't nothing more routine than a new sin in the Kennedy clan.

And if you talk of the kid don't, for 'even's sake, call him an heir. The Kennedys don't have heirs. They have millionaires. Joe Kennedy's grandchildren don't go straight home from the hospital, they go by the bank on the way.

As a direct descendant of a long line of Southern gentlemen and an authority on these diabolical I have to take issue with one Robert T. Pittman, who wrote a newspaper piece praising collards as "The Southern Green Vegetable Supreme."

I consider I am without peer as a fifth generation consumer of Dixie vittles, so I take up pen on behalf of myself, Fuller Warren and border on other Panhandle Crackers, and proclaim turnips, and not collards as the "Greens Supreme."

I ain't aiming to low-rate collards and ham hock. They is right tasty, and a cold collard sandwich with a bowl of to-beer is hard to top as a midnight snack.

But I've got all over the South, and that ain't no did-dle. Dixie what can top turnip greens and now belly served with corn bread and hard charred butterbiscuits. Right now my mouth's watering so I can't write no mo'. And if the paper's a little damp you'll know why.

The State of Citrus

By John Dickson
Florida Citrus Mutual

LAKELAND.—If you're quick on the figures, a good way to become an expert on Florida citrus would be to absorb the 125 pages of facts and statistics contained in the Florida Citrus Mutual's just-off-the-press 1959-60 Annual Statistical Report.

The book, compiled by Mutual's Statistical and Economics Division, of which Bob White is the economist and market analyst and Bill Conner the statistics, gives you the last-word data on everything pertinent to citrus from production and utilization to small what the weather in the citrus belt was about this time last year.

"It is as complete and comprehensive a work of its kind as any large agricultural industry as we believe possible to compile," Mutual's executive vice president Bob Rutledge says about the book. "It's statistical reports and other complementary citrus data add even further to the information which makes Mutual power-members the best informed agricultural producers in the world."

The table of contents, itself, requires four pages. Florida's tomato harvest averages more than \$40,000,000 annually.

oranges, how many Valencia's were produced in Florida in 1959-60, or 46-47, or 29-60, or the years in between? Just turn to page 1. How many seeded and seedless grapefruit? Same page. Or if you're more immediately interested in the number of bearing acres of citrus in Florida, California, Texas and Arizona over the years from the 1930-31 season through 1959-60, it's in the book.

How about production and movement of Florida's famous frozen orange concentrate, and the other processed products of the citrus industry? All in the book.

Or about "on-tree" prices—what the grower receives. Seven pages of this important information. Since weather has so much bearing on citrus, its production, movement, etc., the booklet tells you not only the freezing points for from everything to small green oranges to tender growth and open blooms, but the 10-year average annual precipitation for selected districts, including Brooksville, Bartow, Ft. Myers, Orlando, West Palm Beach, Tampa and Lakeland.

Plus, all manner of other temperature and rainfall info on about any area of the citrus belt. In fact, if it's about Florida citrus, or having any significant bearing on Florida citrus, you'll find it in the Report.

Florida's tomato harvest averages more than \$40,000,000 annually.

Survival Course Date Is Changed

The Personal Survival in Disaster course, which was scheduled to begin in the county in January will be set for a later date. John Crittenden will be one of the team of four teachers from Highlands County to attend the Training Institute to be held in Polk County. This class will begin January 16, and run for three weeks. These teachers will return to their towns, to teach the course of Personal Survival in Disaster to any interested citizens who will attend the classes, and the date for these local classes is to be announced in the future.

The annual Thanksgiving Dinner served by the Ladies' Club of the Avon Park Lakes Association attracted eighty-five diners who filled the dining room of the Clubhouse to overflowing. Ideal weather permitted many to choose tables on the porch overlooking Lake Olivia. Turkey was served with all of the trimmings imaginable and the meal was voted the best ever. The tables were beautifully arranged in Autumn decor by Mrs. DeStott and Mrs. Pearl Gastlin. Mrs. Bea Luyben was hostess and was assisted by Mrs. Emma Coburn, Mrs. Olga Fowler, Mrs. Laura Wareham and Mrs. Hedy Riley. The spirit of neighborliness existing here in this Community is further exemplified by the kindly attention and services bestowed upon a lone elderly and infirm gentleman who lives just outside our boundaries. One of our residents and his wife (who has already earned the title of "The Good Samaritan" quite accidentally) became acquainted with this case and have been ministering to this old fellow's needs. The

other day they found our kind and efficient mail-carrier shaving the old gentleman (after hours) and picking up his clothing to take home for his wife to launder. Small wonder that folks choose this Community as their home in preference to a crowded city where your neighbor is a stranger to you.

Mamie Lander Is Honored Here By Leigh Chapter Of Eastern Star

The Leigh Chapter 85 of OES was host here last week to one of the probably most widely traveled and known persons in the Order of Eastern Star, Mrs. Mamie Lander.

Sebring Drops Homecomer To Red Devils Wednesday

HOMECOMING HIGHLIGHTS—He's loose, and Lamon Money was as he rolled into the open to rack up another TD for Avon Park as the Red Devils topped the Sebring Blue Streaks on Thanksgiving Eve. (Top photo). A heart breaker is shown here as Money again crossed the stripes only to have the touchdown called back. (Second photo). And half-time entertainment was spectacular as the Red Devils marching band took the field to accompany the majorettes in a lighted "fire balloon" routine.

Lamon Money, Avon Park's flashy junior halfback, led the red hot Red Devils to a 21-14 Thanksgiving Eve football victory over the Sebring Blue Streaks before a huge crowd of cheering homecoming fans at Memorial Field.

Money put on a magnificent display of ball carrying for the Red Devils. He scored all three Avon Park touchdowns on runs of 58, 85, and 61 yards. He also had one TD called back by a holding penalty and almost scored another touchdown when he raced 60 yards only to fumble into the end zone. The fleet Devil halfback ran 226 yards and scored all three touchdowns the first four times he carried the ball—85 of those yards were racked up with a scoring kick-off return.

But in spite of Money's spectacular playing, it definitely wasn't a one man victory for the Devils. The entire Avon Park squad played inspired ball with Joe Jackson and Jolting Joe Milton leading the outstanding defensive action.

Avon Park's first score came early in the game after the Devils held the Streaks for four downs at the Avon twenty-two. From that point, Money stum-

bled and Sebring with a 27 yard gain on the Devils first offensive play.

On the second play Raymond Hall was thrown for a two yard loss, but Money took care of that on the next play when he took a hand-off from Seims and faked off half of the Blue Streaks and out ran the other half for a 53 yard scoring scamper. Raymond Hall powered through for the extra point to put the Devils out front 7-0.

But Sebring bounced back on the next series of plays and drove 77 yards for a score of their own. Jack Newcomer connected with end Tony Richter for a 36 yard pass and then hit end Irving Fordham with a 35 yard pass to put the ball inside the Red Devil one yard line. Newcomer tallied the six points himself with a quarterback sneak and then fullback Gary Lanier blasted through the line for the seventh point and tied things up 7-7.

However, Sebring's joy was short-lived. The Devil's speed merchant, Lamon Money, pulled in Lanier's kick-off on his fifteen and raced straight down the middle of the field for another Avon Park touchdown. Again Raymond Hall made the extra point with a drive through the middle and the

and kicked out to the fifty. Sebring's last drive of the half was nipped in the bud by Dale Batson who intercepted a pass on the Devil 20 yard stripe.

There was no scoring in the third quarter except for a touchdown by Money that was nullified by a fifteen yard holding penalty against the Devils early in the period. Avon Park's defense held the Streaks on two drives during the third quarter. Once the Streaks had the ball on the Avon fifteen after recovering a Devil fumble. But the big Red Raider defense drove them back to the thirty where they lost on downs.

The Blue Streaks' longest drive of the game started off the fourth quarter. Blue Streak halfback Gene Durrance intercepted a Red Devil pass and speeded 52 yards to the Devil 12 yard line before he was brought down from behind by Avon Park's senior center, Jim Porter. Then fullback Gary Lanier added seven yards. Durrance moved the ball on to the Devil 3 inches short of a first down and the Streaks fumbled on the next play. Jolting Joe Milton, the Devil's defensive captain, pounced on the ball to halt the Sebring threat.

Money lofted a 42 yard punt out to the Avon 45 and Sebring drove the second touchdown drive of the game. Big Irving Fordham was the spark for the Streaks as he rolled around end for gains of fourteen and five yards and then took a pitch-out on the ten and raced into the end zone standing up for a Sebring score. Fordham also ran the extra point slicing right through the middle of the Avon Park line. So with five minutes and ten seconds left in the game the Red Devils led 21-14.

The Streaks kick-off was short and Ed Touchton picked it up and carried it to the Avon 42. Money gained six yards. Milton lost three and a five yard penalty against Avon Park set the ball back on the forty. It was third down and twelve to go with 4:51 minutes of playing time. Seims pitched wide to Money and he staggered through the Sebring secondary and broke into the clear with one Blue Streak close in from an angle. Just before Money stepped into the end zone the Sebring defender made a leaping tackle and Money fumbled the ball into the end zone as he tried to stretch the ball over the goal line. Sebring recovered the ball in the end zone for a touchdown and took possession of the ball on their own twenty yard line. Money came out of the game as the Avon Park fans roared their tribute with a standing applause.

Sebring had three minutes and seventeen seconds left to tie up the game, but the Avon Park defense got tough and the Streaks fumbled on their own thirty. Again Joe Milton was on hand to cover the fumble and kill the last Sebring chance.

It was a thrilling game from the opening kick-off to the final whistle. Both teams played hard, clean football and the capacity crowd thundered their approval on every play. Money's offensive show was the highlight of the game along with the Red Devil's timely defensive stands. Money gained 266 yards from scrimmage for an average of 15.6 yards per carry. He returned one kick for 85 yards and punted twice for the Devils for a 43.3 yard average per kick. His three touchdowns gave him a total of 85 points in Ridge Conference games and put him in first place in Ridge scoring. He scored 109 points in all ten games this year.

End Joe Jackson was a real stand-out on defense for Avon Park. He was in on tackle after tackle and threw the Streaks for losses many times. Linebacker

and fullback Joe Milton also played a whole of a game on both offense and defense. He broke Money clear of the line on most of his runs and helped the Red Devil line hold Sebring's star fullback, Gary Lanier, to 56 yards gained from scrimmage. Lanier averaged 4 yards a carry. Half-time Show At Homecoming Said To Be Most Impressive Sight

The APHS Red Devil Band under the direction of Vic Mickunas, presented one of the best shows ever witnessed on Memorial Field, according to many spectators, at the Homecoming game between Sebring and Avon Park, Wednesday, Nov. 23.

Led by Miss Carolyn Biggs, the Majorettes were also outstanding in their twirling acts with fire batons, while the field was in complete darkness.

With the field lights out, the students wore tiny head lights of red, white and blue to form a very impressive sight as they formed an outline of the map of the state of Florida and played the state song, "Swanee River" to a jazzed tune. They also played "The Stars and Stripes Forever", and "The Ballad of the Republic".

The Sebring Band also performed during the half-time of the game, to a most appreciative audience.
