New Subdivision Planned Here

NEW CLUB HOUSE.—This is the artists conception of a new boating clubhouse which will be constructed in the near future in Riverside Estates, a new subdivision which was announced this week by the firm of Brown and Ewe, developers of Ft. Lauderdale. The clubhouse is to be located on the shores of Arbutus Creek six miles east of Avon Park. The land will be divided in parcels from lots to five acre tracts according to the developers. The first block of land will be 750 acres and is a portion of 8,000 acres which the firm intends to eventually develop. According to Lindsay H. Ewe, one of the firm members, construction of nearly seven miles of roadways as well as dredging operations are due to start as soon as details can be worked out with contractors.

The first block of land will be 750 acres and is a portion of 8,000 acres which the firm intends to eventually develop. According to Lindsay H. Ewe, one of the firm members, construction of nearly seven miles of roadways as well as dredging operations are due to start as soon as details can be worked out with contractors.

Eminent Domain proceedings were filed Wednesday morning with Earl Rich, Clerk of the Circuit Court in Sebring, setting the wheels in motion for the clearing of one of the last obstacles blocking the work on a \$350,000 street project for Avon Park.

Securing rights-of-way has been the main stumbling block for the project which will include widening and surfacing of parts of N. Lake avenue from Church street to the truck route and include sidewalks north to Palmello street.

Castle street will be rebuilt from U. S. 27 to Tulane drive around the south side of the lake, angle into Fourth street and end at Highland drive at the Florida Power Corporation Plant.

Bill street will be revamped to Fairfield. Construction will then continue down Fairfield to the south to Cornell and down Cornell to Highlands ave.

The project which will be constructed with secondary road money was brought out last September 1, in a statement by County Commissioner, Cecil Skipper, at which time he had expressed hopes that "construction could start October 1."

His hopes fell short of reality when 61 instruments of right of way were filed in an attempt to quickly clear up the titles to the needed land.

In the action filed this week by County Attorney, Bob Dunty, of Lake Placid, a hearing has been set to be held February 27 in Sebring in the courthouse at which time a judge of the Tenth Judicial Circuit will consider the "takings," and appoint appraisers.

All parties interested in the suit may appear and be heard at this meeting which is scheduled to start at 11 a. m. on that day.

Red Devil Marching Band To Parade In Thanks To Residents

The Avon Park Red Devil Marching Band will parade down Main Street Thursday morning at 11:30. This is the band's way of expressing their appreciation to the residents of Avon Park for making possible their trip to New Orleans.

When sixty-four band members and eleven chaperones boarded the Silver Meteor last Thursday afternoon they were greeted by J. F. Thomas, Jr., Asst. General Passenger Agent for the Seaboard Air Line Railroad Company, who accompanied the group during the entire trip. All arrangements for the trip were handled by Mr. Thomas and everything was perfect. He looked after every band member as if they were his own, and all received his personal attention.

After unpacking at Camp Levy Johnson Friday morning, the band went by bus to Arnaud's, nationally famous French Restaurant, for luncheon. This was indeed a treat for all and the group received an invitation to view some of the most elaborate and famous gowns worn in past Mardi Gras affairs. These exquisite and breath-taking gowns displayed in glass show cases give one the feeling of living in the colorful days of old, when queens were crowned with jewels, furs and satins.

Friday afternoon the group enjoyed a boat trip up the Mississippi River aboard the Streckfus Line Steamer, The President. For many this was their first boat trip and the story of New Orleans was told in such a delightful manner that history was learned with no effort.

Band members got the thrill of observing the Krewes of Hermites Parade Friday night. Saturday morning the entire band in full dress uniform turned out at 8 o'clock sharp for practice. They were then taken to the cafeteria for breakfast. From there to the location for the forming of the Krewes of the Parade. Here they received the most outstanding compliment of any band in the parade for they were given the place of honor marching directly behind the Queen of the Isle Parade, this made them the first band in the parade.

Every resident of Avon Park as well as every band parent should feel proud to have had a part in sending the band to New Orleans for their performance.

OFF WITH THE OLD—ON WITH THE NEW—Pretty Andrea Luker spent 100 years in discarding her old iron cookstove for one of the modern, deluxe ranges being offered by 12 finalists in the All-Florida Orange Desert Contest. Grand Prize Winner will receive six additional appliances to make up an all-electric kitchen. The Contest closes midnight, February 18, and is sponsored by the Florida Citrus Commission in cooperation with Florida Power & Light Company, Florida Power Corporation, Tampa Electric Company, and Gulf Power Company. Truthfully, stunning Andrea is not a contestant—the hulls from Kentucky and is student at Florida Southern College.

In explaining her project, Marilyn says, "The radiation given off by an atomic bomb is in the form of Alpha, Beta and Gamma rays. Ordinarily you can neither see nor hear these rays. Scientists use Geiger counters to listen to radiation. They use cloud chambers in order to see radiation.

"As Alpha and Beta rays travel through the atmosphere they frequently hit atoms and when they do, ions are created. "In a cloud chamber, air becomes super-saturated with alcohol; in simpler terms, the air holds more alcohol vapor than it is supposed to be able to hold. When Beta and Alpha rays pass through a cloud chamber, tiny droplets of alcohol form on the newly created ions. In this way, one is able to see the paths made by the particles which are given off by radioactive materials.

"In my experiments I am trying to discover all of the characteristics of Alpha Beta rays."

Judges for the Science Fair were Peter R. Wright, A. E. Wilson, Parker Young and Frank Wesley, all of Bartow; J. D. Science Fair Winner Tackles Atomic Rays

How many times have you thought, "What will happen to my friends and family in an atomic war?" "What is radiation, anyway?" "How will radiation affect us?"

These are questions that stimulated interest for Marilyn Graetz in her project of Cloud Chambers and Alpha Beta Rays, which she entered in the Highlands Science County Fair and won for herself the First Grand Prize.

In explaining her project, Marilyn says, "The radiation given off by an atomic bomb is in the form of Alpha, Beta and Gamma rays. Ordinarily you can neither see nor hear these rays. Scientists use Geiger counters to listen to radiation. They use cloud chambers in order to see radiation.

"As Alpha and Beta rays travel through the atmosphere they frequently hit atoms and when they do, ions are created. "In a cloud chamber, air becomes super-saturated with alcohol; in simpler terms, the air holds more alcohol vapor than it is supposed to be able to hold. When Beta and Alpha rays pass through a cloud chamber, tiny droplets of alcohol form on the newly created ions. In this way, one is able to see the paths made by the particles which are given off by radioactive materials.

"In my experiments I am trying to discover all of the characteristics of Alpha Beta rays."

Judges for the Science Fair were Peter R. Wright, A. E. Wilson, Parker Young and Frank Wesley, all of Bartow; J. D. Ponds and Miss Louise Williams, Lakeland; John Sims, Frostproof; Mrs. Marybeth Duncan, Auburndale; Mrs. Nibel Alkins, Mrs. Agnes Moore, Mrs. Mildred Farr and Sam Lastinger, Wausau; Mrs. Mary Ann Appivalu, Avon Park.

Only a full-service bank meets all your banking needs!

\$1...\$1,000...OR ANY AMOUNT...

Here's why the best place to save is at a full-service Bank!

There are three big reasons why it's wise to start the habit of systematic saving at a full-service bank:

1. Your money is well-protected in a full-service bank because a bank has a substantial percentage of its funds in cash, government bonds and short-term loans. This means you can be sure you get your money in cash, when you want it.
2. A full-service bank answers all your banking needs, so it's by far the most convenient place to do business. Want a savings account, checking account, low-cost personal loan? No matter what you need, a full-service bank can take care of you!
3. You help build your personal bank standing when you do business with a full-service bank. Bank standing means that a bank knows you... works with you. Actually, personal bank standing is one of the most valuable assets you can have!

So why not develop financial security and independence by opening a savings account today. Open it at a full-service bank where you can get many important advantages.

Better living begins at your full-service Bank

Sebring's Red Devils

Sebring's basketball quintet outscored a scrappy Red Devil five last Tuesday night 42-31 at Avon Park's gymnasium before a crowd of loyal fans from both schools. It was a typical Avon Park Sebring athletic contest with both teams anxious to emerge victorious and the fans screaming their players on to victory.

Again the Red Devils played control ball hoping to overcome the Blue Streaks' height advantage by making every shot count but the skillful shooting of Bill Clark, who totaled 21 points for Sebring, and the able assistance of his teammates Jackie Newcomer and Gary Lanier, who hit for nine and six respectively, proved too much for the home team. Lanon Money was the big gun for Avon Park. He made 11 field goals and one free shot to take high scoring honors for the game with 23. Bobby Bates with five points and Joe Milton with three were the only other Devils who scored for Avon Park.

Sebring led all the way. They pulled slowly away from a 3-4 lead at the end of the first quarter to a 22-10 lead at half-time. The Devils came back and matched the Streaks point for point in the third period and the score stood 21-33 as the final period started. The Streaks 13 point lead was too much for Avon Park to overcome and the Devils hit for only ten while Sebring pumped in nine points in the final quarter to set the final score 42-31.

The preliminary game was won by Sebring's "B" team by a score of 10-29. Stanley Wallace scored 11 points for Sebring and was closely followed by Tony Richter with ten counts. Kirk Parson with four goals and a free shot to lead the Avon Park Jayvees with nine points and Jimmie Maddox and Leonard Sullivan both added eight more points each. All eight of Jimmie's points were scored from the free shot line.

Board Now Has New Policy On Marriage

At their regular Tuesday night meeting this week, the county school board issued a revised disciplinary policy concerning the attendance of married students in schools in Highlands County.

The decision of the board is as follows:

1. Upon marriage, all students, regardless of grade level, forfeit their right to attend school.
2. Any student on becoming married will be automatically dropped from school for the remainder of the school year.
3. A married student will be readmitted at the beginning of the following school year upon favorable recommendation of principal and provided:

a. Such enrollment is approved by the County Superintendent of schools. Approval by the superintendent is subject to periodic review and may be withdrawn in those instances where the conduct of the student is considered against the best interest of the school.

b. They shall relinquish any leadership position to which they have been elected or appointed and shall be disqualified to hold such position. They shall not participate in any extra-curricular activities.

3. Upon proof of pregnancy, a girl, regardless of grade level, forfeits her right to attend school.

4. After the baby is one year old, either of the parents may make application to the superintendent through the principal for readmission to school. The student will be readmitted upon favorable recommendation of principal and superintendent.

5. No student who is the parent of a child born outside of wedlock shall attend the schools of this county unless they first secure the approval of a professional committee appointed by the School Board.

6. Any case where admission is to be denied shall be referred to the school board for final decision.

It was noted by the board however, that this new policy on the question does not affect married students now in school, but does go into effect immediately.

Roberts Observe 53rd Anniversary

Mr. and Mrs. L. D. Roberts observed their 53rd wedding anniversary at their home 511 Tulane Circle, Thursday, Feb. 9, from 2:30 to 6 p. m.

Their neighbors planned the affair and made all arrangements. The home was decorated with flowers, and many friends called to extend their good wishes, even though there had been no previous notice or invitations listed. The local institution honored them through the Ray's Bakery spot on the air during the day Thursday.

A beautiful anniversary cake was cut and served with hot coffee and tea. Mr. and Mrs. Roberts expressed their appreciation to everyone who helped to make the day a memorable one for them.

They are both native Floridians. She was born in Polk County and he in Hardee County. Both in log cabins, where they spent their early childhood. Most of their life has been spent in this area of the state.

They were married in 1908 and

FHA Students Pushing For Better Breakfast

The local Future Homemakers of America, in an effort to get the students to eat breakfast, have served donuts and orange juice for the past two weeks on a trial basis.

Early in the morning there were talkative students in the Home Economics Department enjoying their orange juice and planning their day's activity. The project proved to be very successful.

A skit was also presented as a chapel program to publicize their project. The Future Homemakers were working on their degree served the breakfast. They included Sally Nite, Frankie Smith, Linda Smith, Sara Sloan, Judy Schnell and Joyce Antley.

Avon Park's varsity basketball team took a 53-49 overtime victory from Kathleen last Friday night at the Kathleen gym. The Avon Park quintet played strictly control ball and took advantage of the sharp outside shooting of Lamon Money and the follow up shots of Joe Jackson to edge out the northern division leaders. Money sank eleven field goals and six free shots to score 28 points while Jackson hit nine field goals and two free shots for 20 points.

Avon Park trailed Kathleen by one point at halftime and were still behind at the end of the third period 35-33. But then the Avon Park boys edged ahead and were leading by six points with only three minutes to go in the game. Kathleen switched to a press defense at that point and closed the gap until the score stood 45 all when the final whistle blew.

In the three minute overtime period, the Avon Devils took a quick lead and held on to win 53-49. Money scored six of Avon Park's last eight points and Dick Nagel added the other two points for good measure. The win set Avon Park's record at eight losses and six wins for the season with three games left on the schedule.

Kathleen's Jayvee team romped over the Avon Park "B" team 69-35 with James White setting the pace for the winners with 28 points scored. Kirk Pardee was the star maker for the junior Avon Park team with 15 points. The "B" squad now has a 2 - 11 record.

Friday night the Red Devils travel to Mulberry where they will try to hand the Panthers another defeat and next Tuesday night the Devils will close out the season with a home game against Lake Placid.

General Delivery Is Cause Of Confusion Says Local Postmaster

"Efficient general delivery service can be given by post offices only if the public clearly understands the limitations of such services," Postmaster Singleton explained today. "One can imagine the confusion in a large post office if thousands of people were calling at its general delivery window each day to receive their mail," he stated.

General delivery service is designed primarily for the use of patrons at offices not having carrier delivery service. Mail bearing as a part of its address, "Transient," "To Be Called For," "General Delivery," or other similar words, is placed in the general delivery case to be delivered to the addressee upon his application and presentation of proper identification.

At post offices having carrier delivery service, the postal regulations provide that service through general delivery be limited to transients such as traveling salesmen, tourists, or others who are not permanently located. Persons intending to remain for 30 days or more in a city having carrier service should arrange to receive their mail at a street address or through a post office locker. Change of address orders for mail to be forwarded from general delivery to a permanent local address are honored for a period of six months, unless the patron specifies a shorter period. Such orders for forwarding mail to other than a permanent local address are valid for just 30 days.

When requested by the sender, mail addressed to general delivery is retained at the post office up to 30 days for the addressee's call. If the sender does not specify a retention period,

such mail is held ten days at an office having city carrier service, or 15 days at one not having city carrier service, after which it is returned to sender or other appropriate disposition is made.

"The point we're most anxious to make," says Postmaster Singleton "is that general delivery is a special service designed to fill a special kind of need. It is not intended as a substitute for carrier delivery or service through a post office box."

George Anderson Dies At Local Nursing Home

George O. Anderson passed away Wednesday, February 8, at the Hillcrest Nursing home where he had lived for a number of years. Had he lived until Saturday, he would have celebrated his 80th birthday.

Mr. Anderson came to Avon Park from Richmond, Va. about thirty years ago. He was a native of Baltimore, Md., and retired from the Export Department of the Pennsylvania Railroad. He was a member of the Methodist Church and the Winter Guest Club. He was loved by all who knew him for his kind and courteous manner. On the day of his death, he called Mrs. Biggie, the manager of Hillcrest, into his room and told her that his Engineer had called for him and he wanted to thank her for all the many kindnesses she had shown him during his stay at the Home. Later in the day his longtime friend, Mr. C. H. Corfitt, came to visit with him, and while they talked, Mr. Anderson quietly passed away.

Services were conducted by the Rev. Marvin H. Thompson, Friday, February 10, from the Minnie Funeral Home. The body was forwarded to Richmond for services and interment beside his wife, who preceded him in death several years ago.

His only survivors were two nieces and nephew. Mrs. H. C. Sheets, of Berkeley, W. Va. and George Cashwell, of Richmond, were a niece and nephew reared by Mr. and Mrs. Anderson from childhood, and another niece, Mrs. Joseph Fidler, of Boynton Beach, Florida.

Mrs. Fidler came to attend the services here on Friday.

Language Resources Study Of American Ethnic Groups In U. S.

For many years American Educators and Government Leaders have been concerned that too few Americans possess sufficient knowledge of languages other than English. In order to strengthen America's cultural, commercial and diplomatic ties with the rest of the world, there is a great and growing need of individuals who can speak, read and write other languages.

American of foreign birth and parentage constitute a tremendous resource in this important field.

A two year nation wide study of the non-English language resources of American Ethnic Groups has been commissioned by the United States Office of Education. The study under the auspices of the University of Pennsylvania, will be conducted by Dr. Josua A. Fishman, formerly Associate Professor of Human Relations and Psychology.

Obtaining accurate and detailed information on the large variety of topics that need to be studied will require the good will and active cooperation of ethnic group leaders and organizations both national and local.

The Deansy Meeting will be held in Lakeland, March 1, and members are asked to contact Mrs. Samuel Stewart for reservations before February 20.

Hostesses for the day were Mrs. G. F. Ward and Mrs. P. F. Watterson.

One week ago the Stroller was sick with an ailment from which he recovered quick. Meanwhile the Tattler, who is an excellent battler, took over when asked, said yes right quick and turned in a column remarkably slick. For which we thank that excellent lady and promise we'll share with her come next pay day, our monthly stipend if we get one, maybe.

And now for a chuckle over the game of penicillin. Though we never play it there are several who do. If their number were reckoned 'twould be quite a few. There were six tables of them here last week, and they played like the Dickens; that is, so to speak. And when it was over, these two were in clover: F. Noel and Mr. Kinnel. So it seems penicillin you do very well if your common sense happens to end with an L.

As for the game known as 'Bridge,' so popular among us here on the Ridge, I must say it is in vogue, for as everyone knows there are always times when you run out of rhymes. And so here goes. There were 8 tables last Thursday, thirty-two players bidding or passing, frowning or smiling, and the reckoned their luck, and the luckiest ones that day were Mr. Nickerson with a score of 855 and Mrs. Floyd next and very close behind with a score of 840. Whew! That was close. Now that Mr. Miller is giving instruction in the great game of bridge once a week to all who care to listen we may expect competition to become fiercer and fiercer. It's a great game if you do.

The other competitions of the past week, the shuffleboard tournaments, went on as usual. It was a chilly week, but the sun warmed things up on Wednesday and Saturday afternoons and so the crowd came out. On the 8th it was Mr. and Mrs. Palmer who won the main event. It was Mrs. Reimer and Mr. Floyd who took the consolation. On Saturday, the 11th, it was Williams and Godwin who carried off the laurel crown of victory in the main course. Mr. Reimer and Mrs. Reimer won the consolation. The latter won two consolation the same week. There should be some consolation in that.

On with the dance, and the dance is on as usual, and with more in attendance than the week before. Coughs and colds and tummys aches reduced the number then, but now it's back to normal. Seventy-eight were present at the Friday dance.

Next week being "Valentine Week" the Friday dance will be on a "take-a-chance" pro-

gram. No printed programs then, no announcements. Dancers will have to determine from the music or the talk, just what the number is in. Not even the instructor will know since the title of each number will be drawn from a box. More fun in store for the dancers.

Thursday evening entertainment drew a packed house, standing room only and not much of that. It was a good show, much to the credit of the managers for February. Mr. and Mrs. McWhittie, and Mr. and Mrs. Hoppe, Mrs. Williams led off with a piano solo received with great applause. The "Tin Pan Alley Band" followed with a pleasing medley of discord and harmony, which in some respects quite took the cake. Young Mr. Rhoades sang two solos pleasing to the audience.

Then followed a pleasant skit, "Valentine Portraits," in which couples stood one by one framed like a picture by the two curtains, while the music from behind played or sang "Let Me Call You Sweetheart," or other appropriate melody. Sorry that we not have space here for names of all participants. Finally Mr. Lawrence, a minister who never worked but once in his life, so he declared, entertained the crowd with stories largely drawn from his own life. Mrs. Cole led the community singing gracefully. Altogether it was a pleasing entertainment and everybody went home happy.

Saturday evening saw 91 hungry souls enjoying a most delicious chow. They represented 12 states as far north as Connecticut and as far west as Kansas. After supper came talks by several present telling why they had come to Avon Park. Various reasons, all good. Then came cards for the remainder of the evening. It was quite apparent that all had a fine time, even those who may have got the bid but lost the game.

We have not much about the Sunday sing. It did take place as usual with a good and good crowd present, led by Paul Hifford and Mr. and Mrs. Smith of North Carolina in the absence of the Jerome Shiller. A counting showed 119 on hand, and they raised the rope. Almost but not quite.

The "Arts and Crafts" class is so well attended that it meets twice a week: Tuesday, given to plastics, and Thursday given to mosaics. What a fine opportunity to learn the art of weaving and molding things of grace, beauty, and usefulness.

It is with pain that we record the sudden death of Mr. George Anderson, the second Vice Pres-

STATE FAIR EXHIBIT—This Highlands County exhibit was one of beauty and color at the Florida State Fair in Tampa this past week. County Extension workers Bert Harris, David Martoff and Miss Betty Duckett presided over the exhibit.

February Important Month For Historical Events, Birthdays

Everyone knows that Abraham Lincoln and George Washington were born in February, but several other historical events occurred during the second month of the year.

Daughters of the American Revolution have designated February as "American History Month," and are campaigning to make all Americans more conscious of the nation's history.

Some of the lesser known February events which the DAR is calling attention to are the first meeting of the United States Supreme Court, signing of the chapters of World War II, treaty ending the Mexican War and the death of the famed four chaplains of World War II.

The Supreme Court met for the first time on Feb. 1, 1790. John Jay was chief justice. "On Feb. 2, 1848, the treaty was signed which freed the southern boundaries of the United States very much along the lines of today. Mexico ceded to the American government the lands which are now included in the states of New Mexico, California and much of what is now Nevada, Utah, Arizona, Colorado and Wyoming.

The United States agreed to pay Mexico \$15,000,000 for this land. On Feb. 3, 1943, in the midst of World War II, the transport Dorchester was sunk 100 miles off the coast of Greenland. Ten Protestant ministers, a Jewish rabbi and a Catholic priest gave their life jackets to soldiers who had none. The chaplains linked arms and prayed together as the transport went down.
