School Board

(Continued on page eight)

An attorney who was investigating for a bank loan disapproved a trip of last week by \$75 to \$70 had been given to the school board by the Church of the Brethren.

In some manner this gift was "lost" and the school board did not know it owned the land until the question of a valid deed arose. The land has been "sold" several times and several persons are holding "deeds".

The board expressed sympathy for the people now claiming the land. Board Member Ray Wells said that Mayor E. A. Delaney had assured the present owners that the city of Avon Park would help bear the expense of getting clear title to the land.

The board voted to proceed quickly with erection of a new four floor addition to the school parking lot at the school maintenance area.

The board also voted that some buses have been damaged by children playing around them. The board voted to get into school vehicles and attempting to drive them.

A bid for \$187,735, from Reeves company of Tampa, was accepted for the new arrangements for the new arrangements. Other bids accepted were Universal Diesel Book company, Jacksonville, \$912,600; re-binding 702 books; Brown of Tampa, \$440; for an International Business Machine type writer for the county school office. Bids for agriculture equipment for Avon Park High School were referred to a committee.

Miracle was authorized to conduct a survey to determine the needs of the county. He wishes concerning continuation of the career increment program.

A request was received from Ruth Archer Brown for permission to use the school building for a studio where she would give private piano, vocal or speech lessons to high school students. The request would be subject to the high school study hall period to take lessons.

The request was approved subject to Mrs. Brown's work being "satisfactory" as judged with George Douglas. Ted Cason and Ray Wells voted this motion and it was carried against it.

Upon the recommendation of Miracle the following personnel changes were approved by the board: Edna Mueck was appointed scoring machine operator for the county testing program for 1961-62; Maggie Williams, Joseph B. Smith, William Dabbs, John Gene as bus driver; resignations accepted from Julian Markham, general supervisor; Patricia Jackson, teacher at Woodland school bus driver.

The school board voted to allow the school board election to be combined with a freeholder referendum on the establishment of a county hospital. Supervisor of Registration Roland Drott had suggested that the school board and county commissioners might save money by combining these two county-wide elections.
