VERONA AVENUE SCENE—South Verona Avenue looks like this today, as workers make preparations for resurfacing the street and laying a storm sewer, shown at right. The street is one of many within the city limits to get a facelift in the current paving project. Ewell Construction Co. of Lakeland is the contractor.

Clay County Man To Fill School Position

Horne To Replace Markham

In a special meeting this week, the Highlands County School Board appointed Sidney Linton Horne as general supervisor of county schools, replacing Julian Markham, who resigned effective August 1. Horne comes here from Clay County where he was assistant superintendent and finance officer.

Horne is a native Floridian, born and reared in Monticello and a graduate of Monticello High School. He attended the University of Florida on a Senatorial Scholarship, graduating in 1931 with an ABE degree. He received his Master's from the University of Florida in 1930. He reentered the University of Florida in 1932 to take post graduate work in school administration, supervision and finance.

The various positions Horne has held throughout the state include: Teacher, coach, principal in State public schools, posts with the State Department of Education, general supervisor of Calhoun County, and coordinator of instruction, Nassau County.

During World War II, Horne served in the Naval Amphibious Forces in the Pacific Theatre. He was recalled to active Navy duty in 1951 and served as communication officer of amphibious forces at Little Creek, Va. He is a commander in the Naval Reserve.

Horne is married to the former Hilmene Whitlock of High Springs, Fla. They have one daughter, Mrs. W. L. Thompson, Jr., of Charleston, S. C. They are members of the Presbyterian Church.

Fraternity associations include Kappa Delta Phi, honorary educational, and Sigma Nu social.

Bug Expert Speaks To Rotary Club

The everlasting, eternal pest bugs was the topic of the Rotary Club speaker this week. Giving the club a most informative insight into the bug problem was Dr. E. H. Warnhoff, of Winter Haven, an authority on the subject.

Vernon Lanier, program chairman for the month, secured the services of the doctors, who explained the phenomena of bugs, how to control them and the different families of the pesky villains.

Rotary International reached another milestone last month, as the active club number passed 11,000. Rotary is now a part of 123 countries and geographic regions.

Announcement was made that the local club's investment now totals \$1,022.

Avon Fruit Thief Given 6 To 18 Months

An Avon Park man has been sentenced to the state penitentiary for his part in the theft of fruit from a Highlands County grove. Willie McDuff pleaded guilty to the charge of grand larceny and was sentenced to Raiford for six to 18 months.

Judge Clifton M. Kelly, Circuit Court Judge, sentenced McDuff to six months to two years. Dorsey, who also pleaded guilty to grand larceny, was sentenced to Raiford for six to 18 months.

William Benjamin Thompson pleaded guilty to three counts of breaking and entering with intent to commit misdemeanor. He was placed on probation for five years.

Sports Car Races Slated For July 22-23

A two-day sports car rally will be held on the Sebring 12-Hour Endurance Race track Saturday and Sunday, July 22-23. Ken Coleman, director of the Sports Car Club of America, announced this week.

The rally will be run under sanction of the SCCA. Eleven races are scheduled for the week, four on Saturday afternoon and seven Sunday afternoon.

The main events of the week will be run Sunday afternoon. Two 10-lap races and one 12-lap race. Winners will receive divisional championship points.

The races will utilize 3.5 miles of the 5.2 mile Grand Prix course. A long list including some of the top amateur pilots in the state have already registered for competition.

Avon Park 9' Bumped Tuesday

The Frostoproof team handed Avon Park's newly formed team a 6-0 defeat last Tuesday night in Frostoproof.

The Frostoproof team scored their six runs on seven hits and four Avon Park errors. The manager of the home team blasted out a homerun off Avon Park's Norman Willis late in the game.

Avon Little Leaguers Make Tourney Bid

Avon Park's All-Star Little League team will meet Plant City Americans at 3:30 Saturday afternoon at Barranco Field in Lake Wales in District 4 tournament play.

The tournament opens Thursday evening at 7:30 p. m. with Sebring meeting the Ft. Meade team. On Saturday, July 22, Lake Wales meets the Plant City Nationals.

Avon Park plays the Plant City Americans at 3:30. Dale City plays the Lake Wales Americans at 5:30 and Frostoproof takes the two sides of the Sebring-Ft. Meade game at 7:30 p. m.

On July 24, the winner of the Lake Wales Nationals and the Plant City Nationals game meets the winner of the Avon Park-Plant City Americans game at 5 p. m. Monday at 7 p. m. the winner of the Dale City-Lake Wales Americans game takes on the winner of the Frostoproof-Sebring or Ft. Meade game.

Finals will be played at 7 p. m. Wednesday, July 26. Avon Park's team played a practice game with a team picked from all four regular season teams last Tuesday night and the tourney team was 10-0.

Thursday night (tonight) the two All-Star teams will play another practice game to keep the tourney team in top shape. The winner of the practice game will receive a trophy for being the regular season champions. An award for the entire tourney League player will also be presented at the Thursday night game.

J. C. Walker and J. T. Landress will coach the Avon Park team at the District 4 tournament.

ATTENDANCE CONFERENCE

Doyle Griffin, 16-year-old son of Mr. and Mrs. Willard Griffin left Tuesday to attend the Southeastern Methodist Youth Fellowship Workshop at Brevard College in Brevard, N. C. Doyle is a member of the First Methodist Church here, where he is president of the Carolina meeting. He is one of eight from Florida attending the Carolina meeting. He will return to the state he will attend the Methodist Youth Camp at Leesburg.

Baseball Game

Base started the game on the mound for Avon Park. He gave up five hits and three runs. Willis came in in the fifth and sixth. Head Field with game time scheduled for 7:30. Coach, Guy Garrett, manager of the Avon Park team, says that the game will be a "hairy" up baseball game with all corners out and action speeded up in order to get more baseball playing into less time. There will be no charge of admission and Avon Park fans are invited to see the boys in action.

Little League All-Stars — Members of the Little League All-Star team in the District 4 tournament at Lake Wales July 20-23. Left to right: Kenneth Taylor, Bobby Taylor, William, James, Douglas, Richard, Larry, Bobby, Robert, James, Bill, Linton, Standley, Johnny, Edwin, Baptist, Joel, Carpenter, Florida Power, Bobby, and...

County Sheriff Records Seven Citrus Arrests

LAKELAND, July 18 — A total of seven arrests were made for citrus thefts by Highlands County Sheriff Broward Coker and his deputies since January, Robert W. Rutledge, Florida Citrus Mutual executive vice president said today.

Sheriff Coker and the Florida Sheriffs Association are working closely with Mutual in curtailing citrus fruit thefts throughout the state, Rutledge said.

Sheriff Coker served as chairman of the conference of citrus producing area sheriffs that met each month during the shipping season at Mutual's headquarters here. The sheriffs meet to exchange ideas and information on further curtailing fruit thefts.

Dale Carlton, head of Mutual's Grower and Contractor division, said citrus belt sheriffs have arrested 123 persons in connection with fruit thefts so far this year. Carlton, who works closely with the sheriffs, said this is a good indication of how the sheriffs have cooperated with Mutual in a concerted effort to stamp out fruit thefts.

We believe this excellent work by the sheriffs, together with the bonding and licensing division of the State Department of Agriculture has resulted in curtailing citrus fruit thefts by at least one half," Rutledge said.

Rutledge said these efforts have saved Florida citrus growers thousands of dollars.

County To Ask State For Street Changes

Jail Term Set Aside By Judge Clifton Kelly

Arthur Childers Monday won his fight to get out of Highlands County jail. A sentence of six months in jail plus a fine of \$500 or three additional months in jail was set aside by Judge Clifton Kelly.

Childers had been convicted on a worthless check charge. His attorney, Richard Hyatt, petitioned Circuit Court last week for a writ of Habeas Corpus. The petition was granted by Judge Kelly, and Childers appeared in County Court Monday where Judge Kelly, re-sentenced Childers.

His sentence is being continued from day to day and term to term.

According to Attorney Hyatt the penalty, originally set by County Judge Mervin Rehner was excessive. He stated that the state law sets the maximum allowable jail sentence an additional jail term to be served in lieu of fine.

Action Comes After Plea By Mayor DeLaney

Avon Park street and drainage problems were major items of discussion at the meeting of Highlands County Commissioners Tuesday.

Avon Park Mayor E. A. DeLaney, asked that the commissioners adopt a resolution requesting the state road department to make necessary alterations in the drain line near the mall.

The board adopted the resolution—even though it may cost about \$1200. The mayor had, some weeks ago, explained to the board that the state road department plans called for a drainage entrance into Lake Verona at the same spot where the city was planning a beach and swimming area.

The board agreed that this would be undesirable. Tuesday Mayor DeLaney asked the state department to have a culvert placed near the Walker Memorial Hospital, located so low that in this relatively dry summer the water from Lake Lillian is draining eastward, in some cases leaving Lake Lillian "drying up" and dry.

Skipper said he would like to see the state road department's permission to place a temporary block in the culvert. The commissioners refused to intervene in an Avon Park street right-of-way dispute. At the time, Mayor DeLaney asked the board to "instruct the county attorney to sign right-of-way papers so that the Avon Park street program can continue without interruption."

Pardee was in court when the board met. He had received a request. He told the commissioners informally that he represents the county property owners who have given the county right-of-way for the Avon Park street improvement project.

He said the county attorney, R. D. Dunlap, Jr., had been in signing the proper papers for the county property owners. Dunlap did not attend the commissioners' meeting, but said since neither attorney was on hand, he did not wish to interfere at this time.

Art, Crafts, Band Direction Top Summer Rec Activities Here

An arts and crafts class got underway at the Avon Park High School, as part of the Summer recreation program. The class will last for three weeks, Ernest Doty, director said.

Leather work, metal etching, glass etching, copper tooling, monies, model airplanes, hairdressing, textile painting, drawing and jewelry making will be featured.

The classes are held from 8 a. m. to 12 noon and 1 to 3 p. m. in the school art room under the band room.

In other phases of the Summer program, Victor McKenna is in charge of a student conductor class, and Coach Guy Garrett is giving golf instruction.

Thirty students took the out-of-county trip to Vero Beach Monday. This was the last such trip for the Summer program.

The typing classes have worked out well, with good attendance.

Right of Way Taking Filed For Lake Placid

The Lake Placid street improvement project progressed another step last week. County Attorney R. P. Dunlap filed with Circuit Court north of U. S. 27. Just north of Lake Placid the Williams car veered into the south-bound lane and struck another vehicle, the patrolman said.

A total of 38 defendants were named in the suit filed on behalf of the county and the State Road Department. Lands involved have been appraised at \$15,075.

Since filing of the suit some of the defendants have decided on the necessary right of way to the county.

Improvements to the streets of Avon Park, Lake Placid and Sebring were high on the list of priorities for secondary road work this year.

Ohio Family In Hospital After Wreck

A car-truck collision on U. S. 27 has placed three members of an Ohio family in the Walker Memorial Hospital here.

Mrs. Alberts, 45, and two of her children — Joseph Jr., 13, and Carol Ann, 4 — were admitted to the Walker Memorial Hospital about 5 a. m. on Monday.

Mrs. Tieve's condition is listed as critical. She suffered head lacerations and multiple abrasions. The children, who were in the car, were not injured.

The Tieve family had been vacationing in Miami and were enroute home to Cincinnati, Ohio. About seven miles south of Lake Placid a tire blew out.

Tieve parked his station wagon on the road and had it backed up changing the tire when it was struck from behind by a truck driven by James Howard Elwood of Cors City.

Thieve escaped injury. A son, Bud, who was signalling concerning traffic with a flashlight, also escaped unhurt. The mother and other children were asleep in the station wagon.

State Highway Patrolman E. L. Newsum, who investigated the crash, charged Tieve with improper parking and the truck driver as charged with failure to have his vehicle under control.

The Tieve car was knocked 42 feet by the impact. He said the truck-trailer traveled 100 feet before it overturned. He said there was no skid marks on the truck's wheels before the collision.

The truck-trailer, owned by National Brands of Miami, was enroute to Tampa, returning empty beer bottles to a brewer. Newsum estimated damages to the car at \$800. The truck was valued at \$20,000 and a loss of \$1,000 on the truck contents.

VACCINATE NOW!!

When controversy leads to public enlightenment, we're all for it. But there are times when controversy results in public confusion, with disastrous results. This is particularly true when experts clash on technical points that cannot be grasped quickly by those of us without scientific background.

We fervently hope the recent controversy over the relative merits of polio vaccines will not discourage parents from seeing that their families are given a full series of Salk shots immediately. This is the critical time of the year when the unprotected are most exposed to the polio attack. The Salk vaccine is available now. It is more than 90 per cent effective in preventing paralytic polio. Those who have not been vaccinated are gambling against the possibility of being crippled for life through their own negligence.

Whether or not the Sabin live-virus vaccine is a better vaccine than Dr. Salk's is a matter for scientists and physicians to decide—later. The National Foundation, which financed all the research leading to both vaccines with funds contributed by the March of Dimes, gives the only sound advice which parents can follow. It points out that, since no live-virus vaccine has yet been licensed for distribution, since you cannot get live-virus vaccine from your physician, and since the present polio "season" will be over before mass production, licensing and distribution of the live-virus vaccine are completed, there is only one course of action for conscientious parents to pursue. Get your family started on a full series of Salk shots TODAY.

Millions of pre-school children and young adults are still without protection. These are the age groups most open to attack.

Don't let technical controversy confuse you. Vaccinate NOW.

HIGHLANDS LOSES, VOLUSIA GAINS.

When the Highlands County School Board accepted the resignation of William Markham as general supervisor last week, the county's educational system suffered a severe blow.

Not only has Markham been a man of high integrity and outstanding character—an asset to his community—he has fostered and aided in many of the county's efforts to advance its public school system.

He is admired by his fellow educators both in the county and throughout the state, having been a figurehead in the Florida Education Association for many years.

Certainly, Markham's new position as director of instruction in Volusia County Schools presents a challenge. It is our opinion that this dedicated servant of Florida's school system will conquer this challenge, and our best wishes go with him.

Again we say, Highlands loses, Volusia gains!

The State of Citrus

By John Sikes — Florida Citrus Mutual

(John Sikes is pinch-hitting for John Sikes this week in The State of Citrus.)

LAKELAND.—When do you spill spoon s-u-c-e-e-s? Only when it has a serrated tip that makes grapefruit eating a pleasure for over 7,000,000 Americans.

This spoon is Florida Citrus Mutual's famous grapefruit spoon now approaching its fifth birthday. Mutual, after extensive research, decided in 1956-57 season to promote the sale of fresh Florida grapefruit. Since that time seven million spoons have been distributed, more than the U. S. and Canada and orders are steadily coming in. "Our grapefruit spoon has been much more successful than we had ever anticipated," Bob Rutledge, Mutual executive vice president, said. "We definitely feel that our spoon will be the sale of fresh Florida grapefruit. With an estimated 100 million spoons to do in all the housewife has to do is slice the fruit and serve."

Mutual distributed the spoons at cost—four for one dollar which includes shipping and mailing. The spoons are silver-plated and are attractively designed to blend with any silver pattern. Rutledge said other grapefruit producing areas of the U. S. should also appreciate the success of the spoon since it helps all grapefruit eaters, whether in the Midwest, Texas or California, Rutledge said.

"Naturally we feel that Florida produces the best grapefruit in the world but our spoon works on all grapefruit, including those from Texas," Rutledge said. "We like to feel that Florida is always one step ahead of any other citrus producing areas—not only in the quality of fruit produced but also in ideas of how to make it easier for the housewife to serve to her guests."

The spoon has been used for many novel purposes as well as for grapefruit eating. In fact, it is a handy household tool, although it is not advertised as such. The serrated tip is wonderful for cutting out watermelon balls or even making designs on cakes and pie crusts. One user of the spoon wrote Mutual saying that his young son used the serrated tip as a scraper for repairing flat bicycle tires. Another user said although it is not advertised as such, it is a handy kitchen floor spotter. It wouldn't be at all surprising if a lot of folks kept a set in the silver chest for eating spoons. It is an additional set in the silver chest for old folks.

SOFT POINTS
A small-town editor found himself short of material so he wrote the paper was in the hands of the Florida legislature. Commandments which were run without editorial comment. After the paper was published, he received a letter which read: "Cancel my subscription; you're getting personal!"

SUMMER SUNSHINE

CYPRESS GARDENS, FLA.—What a sunflower without a pretty girl in a straw hat? Nancy Logan and this king-sized sunflower team up at Cypress Gardens to capture the spirit of summer.

CAPITOL CAPSULE

By Don Matkilejohn

TALLAHASSEE.—Gov. Farris Bryant says he has no political ambitions beyond his present term.

It all came up when newspaper stories during the past summer months speculated that Sen. Spessard Holland might not run for reelection in 1964 and Bryant and former Gov. LeRoy Collins might run for his seat.

Of course, the key to that puzzle is Holland, who doesn't act like a man about to retire from anything—but makes interesting speculation.

Bryant says he will go back to practicing law in Ocala after his term—which is only seven months old—is finished.

How does he like being governor? Never enjoyed anything more Bryant says.

Chicken-Citrus Battle.—Florida officials think all the fuss about the chicken grade stamping from Georgia is based on a desire to dump sub-quality poultry on the Florida market.

Georgia folks, to get back at Florida's quality marking provision, slapped a tax on Florida citrus.

Citrus tax or no citrus tax. Commissioners of Agriculture says the individual marking and tagging requirement will continue.

Georgia officials, for a time complained about the inspection fee charged, but after these were shifted to Florida distributors—actually whoever paid it, passed it along to the consumer, the Georgia folks went back to complaining about the individual marking or tagging requirements.

They said the federal inspection was enough.

Turkey Extension.—How far the turkey will be extended still is in the air.

Gov. Farris Bryant wants to extend it beyond Orlando to the area of Orlando—about 100 miles northwest of Orlando—to connect up with a proposed Interstate Highway route that will eventually run from the Tampa line near Lake City to Tampa.

To do it, the interstate route would have to be rerouted to the east.

Box Whitening, loss of the Bureau of Public Roads, was asked to make the change. The decision is still pending.

But regardless of the outcome, Bryant says he is going to extend the Turnpike to Orlando. This would involve re-financing the present turnpike bonds, and according to some bond experts would cost a bundle of money.

Former Gov. Collins opposed extending the turnpike because it would cost the state up to \$25,000,000.

The present bonds were sold at a relatively low interest rate—costs would be increased in this early—and in paying the bonds—early redemption of the bonds.

But as yet, Bryant has not been very specific on the financing factors—other than to say it can be done.

For The Record.—The First District Court of Appeals in Tallahassee has ruled that under Florida law an unmarried couple cannot adopt an adult.

The decision came in an estate case involving a 25-year-old Greek who claimed the estate of a Pensacola man who died of a heart attack. He claimed to be the son of the man.

No Taxes.—There apparently won't be any special tax on the Florida legislature's term—despite a still sagging state economy.

Gov. Farris Bryant, an ardent no-taxer, isn't in the mood to get a "big" tax on his rumble from Legislators. It is doubtful that there will

be any move by the Legislature without some prodding from Bryant. Bryant isn't in the mood to prod.

The situation boils down to this. Summer months are traditionally the bad collection months, and although the revenue is lagging behind there would not be any clear-cut fiscal picture until after the heavy winter months' collections are reported.

The state has authority to borrow to keep its head above water during the slow collection months and repay it when the money becomes available. This has been done the past few years, and it is likely that 20 to 30 million dollars will have to be borrowed this year.

By the time the fiscal picture becomes clear, it will be after the first of the year, and all house members and half the Senate will be building up for elections.

It isn't likely that they would come back to Tallahassee to raise taxes just before an election campaign.

So, unless the economy really goes to pot, and it would be hard to believe that it would, the state will have to raise taxes, not expect any special sessions of the Legislature.

Home Grown Tourists.—After visiting Hawaii for the National Governors' Conference, Gov. Farris Bryant reported he ran into Florida residents in Hawaii and even on the rim of the Grand Canyon.

Development Commission. Rose Wendell Jarrard, who is pushing "see Florida first" campaign better check up on these unparaphrased folks.

P. L. The Record.—Missouri on my vacation, Wendell.

Real Trouble.—After all the hounding about Congressional reapportionment in Florida, which had to divide up four new Congressional seats, news stories in midwestern states really tug at your heart.

Such states as Missouri and Kansas are faced with losing congressmen and must reapportion. That's a real problem.

For The Record.—Florida prison camps no longer use sweat boxes.

Sweat boxes are in the news because of a charge by a Marine that he was kept in a sweat box in Okinawa.

Such sweat boxes were in the news a few years ago in Florida, but prison director H. G. Cochran, Jr., says they are no longer used. Solitary confinement cells are still used, but they aren't of a sweat box variety, Cochran says.

Legal Clash.—A case in which a Circuit Judge, Charles A. Wade, Oklawaha County, held a Grand Jury in contempt of court because he said its refusal to indict a man was not conducting trials fairly is headed for an appeal, and has the legal experts looking up the law.

The case brings about clash of the broad constitutional powers of a judge and the broad powers of a Grand Jury.

Legal experts don't know of a case where a Grand Jury has been held in contempt.

The Florida Supreme Court has ruled that a Grand Jury can't cast a reflection of misconduct or maladministration upon a public officer unless it is followed by an indictment of the officer.

The Oklawaha Grand Jury report did not name any names, but recommended that lawyers or law firms related by blood or marriage refrain from practicing before those courts to "remove any hint of suspicion of the impartiality of the courts."

Wade said that the report was "insulting that everybody can't get a fair trial in my court."

Judge Wade is the nephew of an attorney who practices before his court.

CRACKER POLITICS

By Allen Morris

TALLAHASSEE.—Right or wrong, it seems safe to assume that U. S. Senator George Smathers will be running for reelection next year against conditions rather than people.

Unless some type of prominence emerges from the sidelines, which presently appears quite unlikely, the real Smathers foe will be a faceless amalgam of individual variations and protests.

Those who eye politics coldly calculate the Senator will get a minimum of 70 per cent of the vote cast in the Democratic primary next May for that office and a minimum of 60 per cent of the votes in the general election that follows in November.

And that consensus of estimates was reached without knowing what names finally will appear as the Smathers opponents in the Democratic primary and on the Republican side of the November ballot.

This voter opposition will be the bitter test of the sweet for Smathers being the unique role of the traditional politician in Washington and the world as a next-best friend of both President Kennedy and Vice President Johnson.

Being identified so closely with both parts of the Kennedy-Johnson administration poses enormous advantages or disadvantages for Smathers and, in turn, for the people.

It is the key word there, for this identification binds Smathers to some degree to the pendulum of the Kennedy-Johnson popularity.

No one can foresee what will be happening in the World in the days just prior to the elections of May and November, but that is what will influence the Florida voting.

If, for example, the people believe there is a "mess" in Washington at that time, a certain percentage will register their protest by voting against Smathers. And they will be doing so simply that, voting against him rather than for his opponent although the practical result will be the same.

Smathers has not been a Jewish follower of the Kennedy legislative program. Smathers has cast "no" votes which reflect his own convictions. And these may, in turn, reflect the convictions of a majority of Florida voters.

This pattern of being the next-best friend personally but still an independent politician was observed by Smathers laboring diligently for the election of the Kennedy-Johnson ticket but dissatisfied from portions of the Democratic platform. (And if Smathers could not carry his own state for the national standard-bearer, it is well to remember that the Republican victory edge in Florida slipped from 57.3 in 1956 to 51.5 in 1960.)

Few Floridians have grasped the unusual nature of Smathers' national role. He serves as a bridge between two vital elements of the Democratic party which often were in conflict in the past. Yet as this bridge, Smathers is no mere transmission belt about matters in which he has earned recognition.

Smathers has been the personal friend of JFK since shortly after January 1947, when both first took the oath as men.

members of the U. S. House of Representatives. As young men eager to achieve, they swirled about in the House until, as if caught like gold nuggets in the miner's sieve, Kennedy and Smathers were thrown together.

Look magazine recently described Smathers as one of Kennedy's six "real pals" in Washington, with "prompt telephone access" to the President. The magazine said Smathers "serves today as Kennedy's political needle," with mutual ribbing sessions free of sensitivity.

"Kennedy kids Smathers about his profile, his brainpower and his golf."

"As a Southern senator," commented Look, "Smathers is out of step with some of the liberal aspects of the Kennedy program, a point that the President seldom fails to stress at the weekly meetings with Democratic leaders." Smathers being one of the three Senators who gather at the White House on Tuesdays to discuss legislative strategy.

But Smathers also was a member of the "inner club" of the Senate which Vice President Johnson ran as majority leader. Getting along with Johnson seems to mean going along with the Cubans. Not and still retain the respect and confidence of senators who found themselves often opposed to Johnson policies.

As he spoke here and there in Florida these days, George Armistead Smathers is competing in the masters' tournament that distinguishes the political champions from the Sunday foursome winners: the ball cost test of whether a man can be a national leader and still be accepted at home.

As he spoke here and there in Florida these days, George Armistead Smathers is competing in the masters' tournament that distinguishes the political champions from the Sunday foursome winners: the ball cost test of whether a man can be a national leader and still be accepted at home.

"Kennedy kids Smathers about his profile, his brainpower and his golf."

"As a Southern senator," commented Look, "Smathers is out of step with some of the liberal aspects of the Kennedy program, a point that the President seldom fails to stress at the weekly meetings with Democratic leaders." Smathers being one of the three Senators who gather at the White House on Tuesdays to discuss legislative strategy.

But Smathers also was a member of the "inner club" of the Senate which Vice President Johnson ran as majority leader. Getting along with Johnson seems to mean going along with the Cubans. Not and still retain the respect and confidence of senators who found themselves often opposed to Johnson policies.

As he spoke here and there in Florida these days, George Armistead Smathers is competing in the masters' tournament that distinguishes the political champions from the Sunday foursome winners: the ball cost test of whether a man can be a national leader and still be accepted at home.

Russians, he said, would send plenty. The only thing Castro will get from the Soviets is what he's giving the Cubans. Not and still retain the respect and confidence of senators who found themselves often opposed to Johnson policies.

As he spoke here and there in Florida these days, George Armistead Smathers is competing in the masters' tournament that distinguishes the political champions from the Sunday foursome winners: the ball cost test of whether a man can be a national leader and still be accepted at home.

Of Avon Park, Fla.

By BILL POSEY

There's such a shortage of shortening in Cuba since the blockade that even in Miami families are rationed to one pound per month.

Castro made big news out of the shortening shortage so as to leave the impression he had something to cook. The

Avon Park Lakes News

By Mrs. Maura Blacum
Phone GL 3-2221 — Box 297, Rt. 2

This entire community was saddened by the death of Mr. Herbert R. Walsh on Friday, July 14, his 73rd birthday. Mr. Walsh was one of the oldest residents in Avon Park Lakes, and constantly displayed interest in the development and growth. He has served as chairman of the House Committee.

home on Nautilus Drive, from a vacation of six weeks to Maryland to visit their daughters and their families, as well as many of their friends. They extended their vacation into Pennsylvania where they visited the Van Artadaleus at Doylestown, and lunched with the Loyless at Englewood. On the way back they stopped in North Carolina to visit relatives. Their grandson Robert Grey Helfrich returned with them to spend a vacation.

Work on our Club House is progressing the side walls are up and the roof is on. However the ladies of the Women's Group

are anxious to get started on work for the Fall bazaar, and have decided to have work sessions in various homes, the first of which will be this Thursday, July 20, at 1:30 p. m. at the home of Pearl Castine. So please as many as can, come and bring along ideas and suggestions.

The Morgan family have returned to the Lakes for the summer.

Mrs. J. Lowell Stott entertained last Tuesday with a coffee for 14 guests in honor of Mrs. Charles Coburn's daughter, Mrs. William Henderson and granddaughters, Susan and

Sally of Hawthorne, New York. Mrs. Gilbert Forbes of Rochester, N. Y., daughter of Dr. Moehlman of Avon Blvd., is spending some time with her father who is confined to the Walker Memorial Hospital.

Mr. and Mrs. Geo. C. Adams of Verona Road had the pleasure of a week's visit by their good friend and former neighbor, Mrs. Emma G. Fassett of Ft. Lauderdale. During her stay Mrs. Fassett was much impressed with the high altitude in the Avon Park Lakes section and felt she was on a mountain - with the cool breezes and the two lakes in this area.

Being the former landlady of the Adames during their residence in Ft. Lauderdale, and owning a beautiful apartment in the Victoria Park section of that city, Mrs. Fassett was in a position to appreciate the homes which have been built around the lakes, and others which are in the process of construction. A good impression may be the means of a new resident sometime!!!

Just remember this about life my friends: If you don't keep peddling at a fairly fast pace, things get awfully wobbly.

"Suzie Wong" To Screen Here

"The World of Suzie Wong" starring William Holden and Nancy Kwan in the film version of the best-selling novel and stage hit will play at the Hillside Theatre Sunday through Tuesday, July 23-25.

Long announced today. Filmed in Technicolor in Hong Kong, the story of a Chinese girl and her love for an American artist was written for the screen by Pulitzer Prize winner John Patrick, author of "Love Is A Man Splendor Thing".

Holden, who is now residing with his family in Switzerland, makes his first screen appearance in more than a year in the role of the title. The selection of Nancy Kwan for the title role, was the Cinderella story of the year. A Eurasian beauty of Chinese and British parentage, she was the winner of a world-wide talent hunt.

Say "I'm Sorry"

... then bridle your tongue and have a reconciliation. How foolish, how petty, are attitudes which wreck affection and devotion. Hasty words, misunderstanding, false pride, do great harm. Have you been at odds with a friend, one you love, with anybody? That is a delicate and difficult situation. The wedding ceremony is not enough. Even love is inadequate. There must be mutual effort and determined purpose. By their very nature men and women are different. They never see eye-to-eye. But God gave us the institution of marriage and He will help break barriers which separate us when we seek His will. Then, marriage will succeed and each will be proud of the other just because you are so different. A forgiving spirit and a love gift will symbolize your penitence... go to church together. It will help you to say, "I'm Sorry."

Florida Fishing Ranks Among Best In United States

TALLAHASSEE—Time and seasons stand still when you fish in Florida. No matter what the weather, your chances of catching fish exceeds that of fishermen in any other state, said J. W. Woods, fisheries chief, Game and Fresh Water Fish Commission.

According to Woods, many fishermen have a tendency to slow up their fishing activity during the summer months, due to a belief that fish stop biting in hot weather. Actually it's not the fish, but the fishermen that don't like hot weather.

Woods said the most successful fisherman is the persistent fisherman, and listed a series of "things to do" to help insure a successful, safe and enjoyable fishing trip:

Hire a guide, if you're not familiar with the water, or fish with someone that is acquainted with local conditions.

Talk with local fishermen and get their opinion of when, where and how the fish are biting.

Fish in the early morning or late evening hours and keep alert for the sound or sight of feeding fish.

Try to locate sharp dropoffs, sudden logs, shoals, or grassy areas. Be sure to test them all. Check the water temperature and try to locate a spring or rain freshet where the water is cooler.

Use several types of bait or lures.

Check the stomach content of your fish to find what it was feeding on.

Try trolling or fishing in deep water if other methods fail.

Observe all boating and water regulations.

Protect yourself against sunburn and keep your eyes on the local weather conditions.

Fish relaxed and with confidence and above all, be sure you have the proper fishing license.

BE ME LUCK
Mary: So you bought a new car after all. I thought you said your husband could not afford it this year.

Jean: "So I did but we had a stroke of luck. My husband broke his leg and the insurance company paid him \$300."

Auto Tourist Volume Gains In Florida

TALLAHASSEE—Florida's automobile tourist volume increased by more than 300,000 visitors and \$58 million through May over the corresponding period in 1960, Wendell Jarrard, chairman-director of the Florida Development Commission announced today.

Jarrard said research on visitors who come by car (about 80 per cent of the total) shows a 10 per cent rise in this category. Figures for those using planes, trains and buses are computed for the six-month period.

Based on an expenditure of \$8.50 per day per person—the 1960 year-round average—this increase poured \$57,500,000 more into the state's coffers than did last year's spenders during the same period, for a total of nearly \$615 million.

The motoring visitor count for the first five months of 1961 was 3,674,510, compared with 3,258,357 through May, 1960.

Folks who regularly hit the bottle, order keep their foot off the throttle.

TOOTIN' TUTORING—Victor McKenna, Avon Park High School Band Director, standing in the rear, gives a few lessons on horn "toots," as well as student directing. The band instruction is part of the Summer recreation program underway at the school. The band classes will be held for one week, McKenna said.

SEAFOOD MENUS

SHRIMP ESCABECHE

2 pounds raw shrimp, peeled and de-veined; juice of 1 lemon; 1 teaspoon salt.

Combine and let stand for 30 minutes or longer.

1 tablespoon salad oil, or other fat; 1 medium onion, sliced; garlic salt (or 6 drops onion juice).

Heat oil in large skillet and sauté onion until soft, but not brown. Add garlic salt to taste. Remove onion to a bowl. Spoon shrimp into skillet with oil and cook, tossing, until tender and pink.

2 tablespoon salad oil; 3 tablespoon lemon juice; 1/4 teaspoon freshly ground black pepper; 1/2 teaspoon salt.

Combine all these last ingredients, blending well. In a bowl, layer the shrimp with onion and pour the salad oil mixture over all. Chill as long as possible before serving.

Serves 6. Good with this would be green beans amandine, crisply fried potatoes, rye bread and butter. For dessert, fresh peach shortcake.

PIQUANT FISH

2 pounds fish fillets or

steaks; 1 medium onion, sliced; 2 tablespoons lemon juice; 1/2 teaspoon salt; 2 tablespoons pickling spices (tied in a piece of cheese-cloth); 1 tablespoon Italian salad dressing.

Combine all ingredients with enough cold water to cover fish in a large frying pan. Simmer 15 minutes. Drain fish and serve while hot on a platter with cooked broccoli and almonds. Here's the recipe.

Cook broccoli (if frozen follow package instructions). Melt 1/2 cup butter in saucepan. Toss 1/2 cup silvered blanched almonds until light brown. Remove almonds and add 3 tablespoons lemon juice, and 1/2 teaspoon salt to butter. Heat. Pour sauce over broccoli and fish. Serves 6.

FASTEST CRAB SALAD

Remove any shell particles from 1 can fresh or frozen crabmeat. (Allow to thaw in advance if frozen). Soften 1 envelope unflavored gelatin in 1/4 cup cold water. Mix together 1/4 cup lemon juice, 1 teaspoon salt, 1/4 teaspoon paprika, 1/8 teaspoon pepper.

Dissolve gelatin over boiling water. Stir into lemon juice mixture. Chill. When gelatin is partially set, blend in the crabmeat. Whip 1 cup cream. Fold into crabmeat mixture. Turn into mold and chill until firm. Serve on salad greens with marinated artichokes, tomato brusters and crisp celery sticks. Serves 6-8.

FLORIDA LOBSTER WITH MUSTARD SAUCE

Although it is closed season now on fresh Florida lobsters, you will find them frozen in your market.

4 frozen Florida lobster tails; 1 quart cold water; 1 tablespoon salt; 1 lemon, sliced.

Put lobster tails in cold water to which salt and lemon are added. Cover and bring to boiling point (about 12 minutes). Remove and drain. Cut through lining on underside of tail. Pull meat from shell carefully. Arrange on a hot plate and spoon over the most delicious sauce:

MUSTARD SAUCE

Combine in top of double boiler 1 egg yolk, 1 1/2 tablespoons butter, 3/4 tablespoons flour, 1/2 teaspoon ground mustard, 1/4 teaspoon salt, 1/2 cup cream and 1/2 cup water. Set over simmering water and beat with rotary beater until thick, 12-15 minutes. Remove from heat and mix in 1 teaspoon lemon juice. Makes about 1 1/2 cups sauce. Serves 4.

The world's most modern tobacco leaf processing plant will be put into operation in Lexington, Ky. this summer by Brown & Williamson Tobacco Corp. New equipment will feature a unique "linear separator" machine designed by engineers of the Viceroy cigarettes manufacturer.

The feller who loses his temper in traffic is about to lose his hand in the crash.

SHRIMP AND BUTTERBEANS

1 pound shrimp, fresh or frozen; 2 cups fresh cooked white butter beans; 2 tablespoons butter; 2 tablespoons paprika; 1 teaspoon salt; 1/2 teaspoon pepper; 1 teaspoon dry-dusted onion flakes; paprika.

Cook shrimp in enough salted water to cover (boil 5 minutes if in the shell. If shelled, 3 minutes). If shrimp are frozen, follow package directions.

Cook butterbeans in pressure cooker with 1/2 cup water, 1 teaspoon salt and 2 tablespoons butter for 3-4 minutes. Save liquid after draining.

Melt butter in a sauce pan and blend in flour. Measure

liquid from butter beans. Add water to make 2/3 cup. Pour into flour mixture, stirring constantly. Cook over low heat until thickened. Season with salt, pepper, onion flakes and paprika. Stir in shrimp and beans, heating thoroughly. Serve with cornbread squares to 6.

The Florida Citrus Commission has adopted a \$16,120-\$10 budget with more than half going for consumer advertising. Over \$3 million will be spent to reach the buying public.

Most important check on your trip this year is check your speed.

Have you had an addition to the family, infant size, who calls for an addition to your house? Have you a whim for a new porch, a modern kitchen, landscaping, a new driveway? Do you need a new roof, bathroom, new central heating, air conditioning, painting, new aluminum siding?

Then come in and talk about one of our Home Improvement Loans. Up to \$3,500. Up to 5 years to pay. Monthly installments.

Stop in and see Mr. Taylor or Mr. Davis for any help you may need on Mortgage Information.

CHRONIC ILLNESS

DEFINED

The word chronic is derived from the Greek word *chronos*, which means time. A chronic disease in medicine is an illness of long duration. An acute illness—as opposed to a chronic disease—is one from which the patient either dies or recovers completely within a limited time.

Some typical chronic diseases and conditions are arthritis and rheumatism, blindness, cancer, heart and circulatory diseases, cerebral palsy, diabetes, epilepsy, impaired hearing, mental illness, multiple sclerosis, polio and tuberculosis.

The chronically ill person usually is disabled at least to some degree, although many can get about and even be self-supporting. There are an estimated 25 million persons in the United States suffering from some form of chronic illness. Of this number, some one and a half million are invalids, incapable of getting about. With the rapid increase in the number of older persons and the greater incidence of chronic illness in later years, the number of chronically ill will undoubtedly increase.

In addition to older persons, children and young adults are also subject to chronic illnesses. Rheumatic fever, heart disease, arthritis, tuberculosis and polio are among the types of chronic diseases suffered by young persons.

Chronic illness presents many problems. Health authorities state that the two major aspects are prevention of the disease and care and rehabilitation of those who are ill or disabled. As medical science is keeping people alive for longer periods, the attendant problems such as chronic illness must be met and overcome.

Jim Haley Reports

WASHINGTON, D. C. — At long last, there are signs developing around the country of a growing awareness of a fundamental, but long ignored, principle:

"Your government has nothing to give away except that which it has taken away."

I am somewhat heartened by evidence that grass roots resentment against loose and open-handed administration of public relief has begun to have a definite effect on officialdom in scattered parts of our country. I hope that in the future we will see more ruthlessness rather than less against the loose and wasteful practices which exist throughout the whole field of public spending.

The story of attempts to knock chiselers of relief gravy trains in Oregon, in Newburgh, N. Y., and more lately in New York City itself is significant not just because it originated among the people, but also because these scattered attempts are attracting attention in other states, cities and towns.

I do not know whether the grass roots realization that there really is no such thing as something for nothing has come in time to save our governmental economy from the cancerous destruction of the going theory American politics that the simple answer to any problem is the magic word "MONEY."

It is true that the public is awakening, and I think rather rapidly, to the fact that the only money available to make "magic" with is the money that the general public provides out of its own pockets. But, unfortunately, the public generally is far ahead of the professional politician in awareness.

Thus, we have the continuing spectacle of the federal government spreading the outword that "MONEY" is the answer to all the problems of our deteriorating foreign relations, the alleged failure of our educational system to keep pace, the need for more highways, water pollution control systems, power plants, airports, our agricultural difficulties, and any other problem which comes along.

Unfortunately, that attitude is not held exclusively by the federal government. Our states, counties and cities all are standing in line, their hands out, waiting for a share of the magic portion which is Uncle Sam's largesse.

But if "MONEY" is the government's magic word, it is the problem word of the taxpayer. He has to find the money, which he can no longer afford, to pay the bill for the magic the government would work for his benefit. But the truth is that the benefits are at best dubious. I am glad to see those who must pay the bills beginning to demonstrate their resentment.

Former Avon Man Toast Of Okie Air Base

Editor's Note: The following story appeared in an *Endic, Okla.* paper recently, relating the talents of a former Avon Park man, who is quite handy in the kitchen, as well as around a carpenter shop. Mr. Sellers lived here for many years and has many friends in the vicinity.

James R. Sellers, carpenter shop foreman in the Serv-Air Base Maintenance Shops at Vance, Okla., has developed a new pie filling recipe that could make the task of pie baking as simple, and inexpensive, as preparing a cake.

The discovery is not based on the time honored accidental explosion caused by an eccentric inventor becoming entangled in his experiment.

The new pie filling recipe is the result of over 20 years of experimentation with all types of food recipes, whether pie recipes or not, if one could be made without the use of

When the chocolate pie experiment proved successful, Sellers did not try his filling recipe with other kinds of pie, by substituting the flavoring material.

The basic filling recipe worked perfectly with whatever flavoring Sellers used.

The only additions to the filling recipe requires is water and the fruit or flavoring for the kind of pie desired, including instant coffee, which makes a delicious caramel flavored pie, according to Sellers.

All ingredients of the filling are available, in dry form, at any grocery store and the recipe does not require eggs.

Because baking a pie, in spite of our modern preparation methods for other foods, still requires the cupboard to be emptied and all ingredients carefully measured and mixed, Sellers' recipe should be as welcome as the wheel.

To further substantiate the originality of his discovery, Sellers sent his chocolate pie recipe to the Betty Crocker Division of General Mills.

The division checked the recipe against over 200 on file, and the kitchen staff tested the recipe itself. Sellers then received a check for \$25.00 from the Betty Crocker Division.

As to the availability of the recipe, it is still a "trade secret" with Sellers.

Even back in grandpa's time there was something to money sleep. They called it work.

"American Folk."

AWARD FOR SERVICE—Morris Adams, left, area distributor for the Texaco Refining Co., presented Ray Wells with an award which this week, as a token of his company's appreciation for 30 years of service to the Avon Park area, as a Texaco dealer.

Standing on the floating sun deck at Warm Mineral Springs is pretty Duchess Williamson. Duchess is one of many who frequently enjoy swimming at the Springs.

Don't Guess, use the BEST SUN CLASSIFIEDS

CAP NEWS

By Orville W. Via
Visitors at last Tuesday's meeting at the Sebring Air Terminal were Dennis Payne, Sebring, and his cousin, Randy Payne, of Homestead; Rev. Donald Weiden, pastor of the First Christian Church in Avon Park. The squadron was honored with the presence of Major Natale J. Lentini, commander of the West Hollywood Squadron, and his wife.

Effective Tests are being held next Saturday, July 23rd, at the Venice, Florida Airport. It is hoped that many of the senior members and cadets will be able to attend as Venice is probably the closest point these tests will be held this year.

In a letter from an official of the American Radio League in Avon Park, we were informed that we failed to mention the services performed by the amateur radio operators during "Donna" in this column last week. This we did do unintentionally, of course. We have always admired these radio specialists and the many services they perform in all such disasters or any other situations requiring their help. The commander of our local squadron joins me in expressing more fully our views on this situation.

"The Civil Air Patrol in Sebring and Avon Park would be glad to extend to amateur radio operators of Florida and Southeast U. S. their hearty thanks for the splendid work they accomplished during hurricane "Donna." The sudden unexpected failure of our everyday radio equipment, places the burden of responsibility on all operators of shortwave radio equipment. When coupled with the tragedy of severe property damage as was experienced in the hurricane, the task of communications reaches unbelievable magnitude.

The job of emergency communications, when all normal sources of electrical power are unavailable, is confined to those shortwave stations that have emergency power units for the operation of radio equipment. Of necessity this limits the number of people that would like to serve in this capacity. With the widespread damage and power failure in the southern part of Florida during Donna, it was only natural that Civil Air Patrol would pitch in and try to help. The many requests for assistance from Red Cross and Civil Defense would tend to indicate that the help of CAP was needed in addition to that help rendered by amateur radio operators.

In spite of these efforts to achieve communications there were still some areas in the wake of Donna that were without any source of communications. In some instances CAP units were able to help, in some the amateur radio operators were able to help and in many cases both were of valuable assistance. Our respective communities will all be grateful to the help that we render in any emergency. My staff and the members of our squadron join me in thanking those amateur radio operators that have given so freely of their help, both technically and through participation not only during Donna but throughout the years to help in promoting the emergency services we offer.

Allen C. Altvater, Jr.
1st Lt. CAP
Squadron Commander

All members having sold the Air Force Blue Book are asked to turn in the money and the unsold books at next Tuesday's meeting.

A nice turn-out of cadets, senior and visitors greeted Mr. Fred Davis at this week's meeting when he gave a short talk on "Public Relations in CAP." Mr. Davis pointed out that Ivy Lee worked for John D. Rockefeller as the first financial emissary stating that the phone company was first to use a public relations department by hiring women trained in courtesy. It was such a success that the government added such a service to all its departments. "How you act and what you do while working in CAP is a true picture of the public," said Mr. Davis.

Ohio Residents Visit Rev. Boaz

Mr. and Mrs. R. W. Cox and daughter, Diane, of Columbus, Ohio, were overnight guests with her sister and husband, Rev. and Mrs. Russell Boaz. The Coxs were returning home from a vacation to Miami and a cruise to Nassau.

Mrs. Boaz accompanied her sister and family back to Columbus, where she will stay for the Golden Wedding Anniversary of her parents. The Rev. Boaz also plans to make a trip up for the occasion, July 28.

VISIT IN SANFORD

Mr. and Mrs. Robert E. Lee and daughters, Sharon and Diane, will vacation for two weeks in Sanford. They plan to take a house and be near relatives in Sanford and Interprie, and also spend some time at the beach.

QUARTERLY MEETING

The associational quarterly meeting of the Woman's Missionary Society and Youth Department of the Orange Blossom Baptist Association will meet at the First Baptist Church, Mrs. Roanoke Mills Appleby, missionary from Brazil will be the guest speaker.

Avon Park Boy Scouts Hold Camp At Hickory Point

Twelve Boy Scouts and two adult leaders spent an adventurous weekend camping on Lake Arbuckle, July 15-16. The camp was planned by Troop 157 to qualify for the National Camping Award issued by the National Office of the Boy Scouts of America to units with at least 50 per cent of registered Scouts with 10 or more nights of camping during the charter year.

Assistant Scoutmasters L. A. Renfro and Bill Thompson met with the Scouts at the Kings Court Southouse at 3 p. m. Friday, July 16. Gear was stored in the boats which were towed to Williams Fish Camp and launched there. The group then proceeded by boat to Hickory Point on Lake Arbuckle where camp was pitched.

A filling supper the Scouts enjoyed a campfire ceremony. The trip was made Saturday morning after several hours of swimming and romping in the lake.

Scouts making the camp were: First Class Scouts Bill Renfro, Tom Nunneley, Gary Bennett and Jimmy Renfro; Second Class Scouts Nelson Varner, Henry Lohbitter, Johnnie McClure, Jimmy Kendrick.

and Charles Arnold; and Tenderfoot Scouts Fred Crawford, Billy Thomas and David Bascom.

Plans were made for seven Scouts to attend a week's camp at Camp Borein near Tampa. Scouts Nunneley, Renfro, Kendrick and Arnold will attend July 23-29 and Scouts Fries, Thomas, and Bennett will attend August 6-12. Also plans are being formulated for a 6-day camp in late August, which will be held in the vicinity of Avon Park in order to give all Scouts an opportunity to qualify for the Camper's Badge.

Boys between the ages of 11 and 15 may join the troop during July or August and participate in these camping activities.

Troop 157, sponsored by the Rotary Club of Avon Park, has just been rechartered by the local Ridge Council and is planning a full year of outdoor activities and service projects.

Safety word for the week from FHP Bossman H. N. Kirkman: The detour around the straight and narrow path in traffic safety runs right by the graveyard.

Parkway Has Good Fourth Safety Record

TAMPA — John M. Hammer, Chairman of the Florida State Turnpike Authority, said today that the Sunshine State Parkway, Florida's turnpike, came through the lengthy Fourth of July holiday with an excellent safety record.

"In fact, during the period extending from six p. m. Friday, June 30, through midnight, July 4, the Florida Highway Patrol Troop assigned to the Parkway reported only one minor accident on the super-highway," Hammer added.

"The fatalities were reported on the 108.5 mile stretch of divided highway, extending from Miami to Fort Pierce during this holiday period. The sole accident occurred near the West Palm Beach interchange. The driver was uninjured.

"Total attendance at the turnpike troopers issued 57 citations during this four-day period. As a safety promotion, the Sunshine State Parkway issued free vehicle L410 vehicles shown-up equipped with the belts from the Avon Park High School graduating class.

Chairman Hammer added, "As a safety promotion, the Sunshine State Parkway issued free vehicle L410 vehicles shown-up equipped with the belts from the Avon Park High School graduating class.

State Parks Show Increase In Attendance

The increasing need for more outdoor recreation areas in Florida and the expansion of existing facilities is revealed in a 10 per cent gain in attendance at state parks during the first six months of the last fiscal year, the Florida State Chamber of Commerce said yesterday.

"Total attendance at the 38 parks open to the public in the state park system came to 7,722,400 during the six months beginning July of last year, down 38 per cent of this attendance was made up of one-day visitors. Other than advance of camping facilities. During the six month period, camper-days totaled 185,000, a gain of 43 per cent over the previous period.

"Five new parks were opened to the public during the second half of last year and attracted a total of over 30,000 during this period. "Ten of the state parks had attendance of over 50,000 during the period. While swimming, fishing and camping are the principal attractions within the parks, botanical and historic areas account for many visitors as well. The most popular park is Hugh Taylor Birch, a beach area at Fort Lauderdale, which was visited 258,000 times during the six months. Fort Clinch at Fernandina Beach, where camping is important, had 147,000 and St. Andrews Park, Panama City, had 139,000 visitors. The Head Ranch, near Key West, was visited by 114,000 people. Anastasia Park, near St. Augustine, had 96,000. North Little Tallahassee, near Jacksonville, had 83,000. South Little Tallahassee, near Jacksonville, had 75,000. Florida Caverns and Fort Clinch at Fernandina Beach, where camping is important, had 147,000 and St. Andrews Park, Panama City, had 139,000 visitors. Florida's Keys Beckon State Tourists To Summer Fun

MIAMI, Fla.—The fabulous Florida Keys, stretching south from Miami, are beckoning the tourists to summer fun.

With all traces of last year's hurricane wiped away, the Keys gladden once again. Miles of white sandy beaches sparkle invitingly and crystal-clear ocean waters reveal the world's best fishing and game fish.

According to Phil Sadowski, builder and first mayor of the resort city of Key Colony Beach, vacationers continue to "discover" the Keys for retreats and relaxation with a romantic flavor at reasonable rates.

State residents often flee to the Keys for near-to-home weekend jaunts.

Old pirate lore pervades the area while modern structures provide luxuries of the space age.

"We're set for the summer vacation season," said Sadowski. "The hurricane taught us a lesson. We've recovered in time for the summer and fall seasons and are ready for vacationers who want to get away from it all," he said.

Noted as the man who has done more for the Keys than anyone in their history, Sadowski is the originator of armchair fishing from a long pier and hotel.

His hotel is a mariner's answer to a driver's motel. All Key Colony, air-conditioned one and two bedroom units are built along the water, allowing the vacationer to dock his boat right at the door—a real bonus to the tourist who rents a boat and doesn't want to keep returning it to home base.

Boatmen will find the Keys plentiful with fishing camps

and guides who almost guarantee large catches of their home waters. And, landlubbers can enjoy the sport even without a boat by fishing from bridges on the long ribbon of the Overseas Highway which island-hops all the way to Key West, a distance of 167 miles.

The two-lane, toll-free asphalt highway is one of the most beautiful roads in this country. One bridge between Marathon and Bahia Honda is seven miles long.

The road passes through the larger island communities such as Key Largo, Islamorada and Marathon as well as some of the small keys inhabited only by tiny deer and other Florida wildlife.

Tourist attractions such as the Theater of the Sea, McKee Museum of Sunken Treasure and Key West's renowned Audubon House are musts for every vacationer.

Visitors will delight in the unique cuisine of the Florida Keys. Conch Chowder and turtle steak are two delicacies, and no one can resist key lime pie to top off a perfect vacation meal.

The "road that goes to sea" affords travelers one of the most delightful scenic routes in the world.

Little League Extends Thanks To Workers

The Avon Park Little League Association would like to express its appreciation to all the workers who helped out with all the different jobs connected with the running of the program this past season.

Mr. John Townsend, chairman of the concessions, chairman of the concessions, was high in her praise of the mothers who gave so generously of their time in the concession booth. She also felt that a special note of appreciation should go to the fathers who made it possible for the women to spend their time in the booth and who helped out in so many ways with details connected with the smooth running of the concession stand.

Mrs. Charles Moore, Mrs. Gerald Wicker, Mrs. Charles Long and Mrs. Joe Jones were in charge of the concession booth for two week periods during the season and many other mothers aided them in manning the booth.

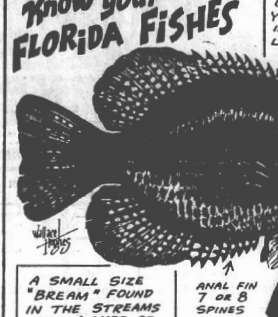

Mr. Archie Jordan is to be commended for his job of passing the bucket for donations every session of Little League play.

Umpires for the season were Larry Albritton and Maurice Albritton and Mrs. Joe Jones were assisted by Charles Warrington, Rene Davis, Chris Copeland, J. L. Townsend, Joe Kinsey and Minter Hall on different occasions. The never appreciated job of umpiring is hereby given a vote of appreciation by a Little League fans and officials.

RESEMBLES THE "SPACKLED PERCH" WHICH HAS 4 ANUL FIN SPINES

FLORIDA GAME AND FRESH WATER FISH COMMISSION

Fla. Sports Fishing One Of State's Leading Enterprises

The sleeping giant of Florida has been its Sports Fishing. Through the years some of the state's leading enterprises have received the recognition and deference to which they are entitled. The trout, bass, catfish, phosphate, and tourists industries have all been accorded their fair share of honors.

Everyone knows what wonderful fishing spots are available along the many miles of Florida's coastline. Recently the department decided to find out how much people spent in their sport of salt water angling.

A detail breakdown of expenditures would not be appropriate here but a few selected facts would be interesting. For instance:

1. During one recent year 28,627 anglers fished from one bridge across the Indian River. They spent \$11,528.07 dollars by our estimates.
2. On another bridge in the same area 12,284 people fished in one year and spent \$11,729.96 dollars.
3. In Biscayne Bay a total of 236,021 fishermen spent \$2,913,292 dollars.
4. On one good day 1,000 fishermen fished from one bridge in Titusville. These data

Commissioners

(Continued from page one) Tax Collector W. H. Prescott was granted permission to carry out a remodeling project in the collection office. He said the project, the removal of an interior wall, had been recommended by the architects who recently made a study of the room.

The charge can be made, Prescott said for \$200 and would provide the collection office with badly needed storage space. He said the expenditure would be borne by the collection office but the expenditure may not be made without authorization by the commissioners.

Supervisor of Registration Roland Drott appeared to make an appeal on behalf of his office's budget requests. He said he had requested funds for purchase of a cash register. He estimated cost of a four-drawer type register would be between \$240 and \$300. He said he had one hundred and fifty last year and expects to collect a half-million this year.

He explained that at present "we are operating with a clear box type of arrangement and that's not practical." He added that if a choice must be made, however, he would give priority to his office's request for five new voltmeter machines.

Clerk Earl Rich presented a letter from Heacock Insurance company which listed suggestions for improving safety measures. As a result of this letter the board voted to purchase fire extinguishers for each floor of the court house and for the boiler room. The letter also suggested that handrails be installed for the stairways to the basement and for the small circular stairway to the court room. Rich said these handrails had been completed before the letter was received.

No action was taken on the suggestion that supervision of all county road crews be transferred to "a safety minded county engineer."

In other action the commissioners approved payment of \$25,000 to Florida Power and Light company for right-of-way period in a pit near route 70.

A bid from Consolidated Finance corporation for clay pit digging right was approved. The bid was for \$20,000 for digging rights for a two-year period in a pit near route 70.

The board voted to notify the unemployment agency that meeting space will not be available in the court house after August 1. The commissioners said the agency has been using the commissioners meeting room and the property "has not been cared for properly."

No action was taken on a request from the highway patrol auxiliary for more space in the court house.

August 1 was set as the date for a public hearing on the county budget for the 1961-62 year.

Red Cross News

The Board of Directors of the Highlands County Chapter of the American National Red Cross met at Fishers Restaurant in Sebring for a "Dutch Treat" dinner and then adjourned to a committee to study the chapter Bylaws for their monthly meeting.

It was pointed out by the Treasurer, George Woodham, that total funds to last until June 30, 1962 amounted to only \$28,677.

Fred Davis, chapter chairman, appointed Malcolm Crews as chairman of a committee to study the chapter Bylaws for their monthly meeting.

New Board members were given a cordial greeting by the chapter chairman. Board members attending were: Fred Davis, chapter chairman; Royal Coats, secretary; George Woodham, treasurer; Malcolm Crews, secretary; John Hoy, Jr., John Kruse and Dorris S. Wooden, executive secretary.

Florida acreage devoted to snap beans production alone would make an acre-wide strip all the way from Jacksonville to Seattle, Washington.

It's astonishing how many people point their car toward the graveyard when they start out to drive each day.

Legion Team Completes Rugged Sked

Avon Park's American Legion junior baseball team ended its season last week with 4-0 losses to both Naples and Bradenton for a final record of one win and seven losses.

In Naples last Wednesday night, Harry Billie pitched a one-hitter against the Avon Park Post 69 team as his team shut out the Avon Park boys 4-0. Jim Bates got Avon Park's only hit—a single in the fourth inning.

The Naples team struck out 14 Avon Park batters.

Naples rapped out a triple, a double, and three singles off Tony Richter, the losing pitcher. They scored one run in the second inning. Pitcher Harry Billie tripled and scored on an error.

In the second inning Billie scored again after double by Bates and B. Folters also scored after singling. Randy Davis drove them in with the third hit of the inning. In the fifth inning Naples added an insurance run which pitcher Billie also scored.

The final game of the season for Avon Park was placed in Bradenton last Thursday after the team had lost to the Red Cross team to get two hits off Bobby Levine as the Bradenton boys shut them out by an identical 4-0 score handed them by Naples the day before.

Leonard Sullivan was the losing hurler. He held Bradenton

Avon Girl Named "Miss Circle F"

Betty Hutchinson, daughter of Mr. and Mrs. Jack Hutchinson, was crowned "Miss Circle F" at the Circle F Dude Ranch camp, near Lake Wales recently.

Bruce Williams of Miami was named "Mr. Circle F."

The camp-wide contest was held July 1 with representatives from each bank participating. The point system of judging was used, with the camper's talents, personality, athletic ability and general camp participation considered.

The winners were honored at the Camp Revue as they led the grand march during the "Fourth of July" Dance.
