Fire Truck Due April 1-5

City of Avon Park officials said The Sun this week that delivery of the new fire engine is expected during the first week of April.

The new engine was ordered some months ago and is slightly over due at the present. Hope for the truck is also expected to be delivered within a few days, officials said.

Ridge Area Day School Opens In New Building

Culminating months of planning, fund raising, and construction, the doors of the new Ridge Area Day School, West Charles and North Ryd Ave., Avon Park, were opened this week to the monthly retarded children enrolled there. At the time the final touches are yet to be added, Mrs. Marjorie Pitt, teacher, and her ten pupils began classes in the colorful, brightly lighted classroom Thursday, March 15.

Painting of the pre-school classroom was completed over the weekend, and the newly formed pre-school group, under the guidance of Mrs. Jervell Webber, began their activities Monday morning, March 19. Painters will complete the third classroom and office by the end of this week. Rough grading of the grounds has been completed and landscaping is now in progress through the generous donation of Claude Cole and Eddie Fowler.

In addition to Cole and Fowler, the Ridge Area Association for Retarded Children, wishes to express its appreciation to the individuals and firms who have helped make the new school a reality. These include: Kenneth Grubb, builder; James A. Reim, architect; J. A. Wain, and all other licensed plumbers; Bennett and Mosley, 1101 S. W. 8th St., Avon Park, Fla.; Dick Jardine and Gray Tomlinson, painters; Townend Lumber, Central Builders and Benark, materials; Paul Run, electrician; D. A. & Electric, electrical work; Green's Fuel, the City of Avon Park through day and sewer connections; and in the many donors who through their generous contributions of funds, paid for the construction.

The date of April 30 has been set for the dedication of the new school, at which time the public will be invited to inspect the facilities.

Volunteers to help with the activities program of the school are urgently needed. Anyone interested in working at least one day a week from 9:00 till 12:00 should contact either Mrs. G. F. Ward, Avon Park or Rev. Tom Jones, Sebring.

City Council Approve House Moving Law

School Board Awards Contract For Construction

In a special meeting Tuesday the Highlands County school board awarded a contract for a Lake Placid construction project and approved plans for creating a new school administrative post.

McAuley Construction Company of First Mound was awarded the building contract on a base bid of \$129,270. At the beginning of the fiscal year the school board had announced plans to build additional facilities at the Negro and white schools in Lake Placid.

Tuesday afternoon a motion was passed to amend the current budget to provide an additional \$22,000 in the Lake Placid construction fund.

Superintendent of Schools Andy Miracle reported to the board that the State Auditor's office had recommended the creation of new administrative position, and on the recommendation of Miracle, Billy Caen of Sebring was named to fill the post.

Miracle said the new position will be Coordinator of Administrative and Instructional Services. He reported that state funds are available for such a position.

Caen, who is presently serving as assistant principal of Sebring High School, will assume his new duties at the beginning of summer school.

Miracle said no decision has been as to a possible successor to Caen in the school job. Caen, who will have an office on the first floor of the court house, will assume some of the duties now being carried by the General Supervisor and the Supervisor of Transportation, Textbooks and Attendance.

Miracle told the board that the men now in those two posts are so overloaded that they cannot give sufficient time to some of their most important duties. He said that the General Supervisor "doesn't have time to get into the classroom" because he has to supervise lunchroom, adult and vocational education and administration of the National Defense Act funds.

Thought For Today
The greatest ability is dependability.

TO REIGN OVER RACES—Lovely Sherry Grimes, Miss Florida of 1961, will reign as Queen of the Sebring Races this year. The Auburn-haired beauty is 5' 8 1/2" tall, weighs 125 pounds and has brown eyes. Vital stats: 35-34-36. She hails from Bernards.

Judges From Throughout State Expected For Convention Here

As the racing fans depart from Highlands County traffic court officials will move in to open a week of conferences.

Sunday through Wednesday the Florida Bar Association and the University of Florida will sponsor the seventh annual Traffic Court Conference, and as that conference is concluding the Annual Winter Conference of the Florida County Judges' Association will begin. That conference will conclude on Saturday, March 31.

Both conferences will have headquarters at the Caceres Lakes Club. One of the highlights of the traffic conference will be a field trip to a traffic court session. County Judge Marvin Behrer will preside at the weekly session of Highlands County Court.

Following the regular hearings the traffic officials will hold a discussion of trial procedures for traffic violators. For this special session of the County Court the hearings have been set for 9 a. m. in the large courtroom on the second floor of the court house.

The County Judges' Association program will include a tour of the Alcoholic Rehabilitation Center. This tour is set for Thursday noon, and is set for afternoon Dr. Ernest Sheppard, County District Health Officer, will give a presentation in a panel discussion on "Alcoholism and Mental Health".

On Thursday night the Avon Park Chamber of Commerce will hold a reception at the Florida Power Corp. Employees club house.

Highlands County Judge Marvin Behrer is host for both of the conferences next week.

Judge Orders New Jury Panel

To forestall any further questions about judges, Circuit Judge Clifton M. Kelly has ordered the Jury Commission to select a jury panel.

The special act of the Legislature which set the end of January as the deadline for naming a jury panel, also provided new panels may be selected on the order of the Circuit Court.

On Monday, Judge Kelly issued the order calling for the selection of "not less than 1000 persons" to be added to the list of 1188 residents of Highlands County—believed to be qualified—to be jurymen and shall be submitted to the undersigned Judge for approval.

Judge Kelly's order points out that the Jury Commission has not yet completed its duty by the end of January. The order also provides for the selection of a jury panel by the end of January.

Board Takes Action At Special Meeting

The action growing out of a request by several residents for the next regular meeting of the Board, March 12. At that time the board will consider before the board a request for an action to be taken to move into adjacent to their property. The committee were based on the fact that the other homeowners in the area "would suffer a loss of value" if the translated home was not brought up to standards.

Upon hearing the request, the board will be required to move to inquire future meeting plans within the city to be placed before the board for an okay.

A complete set of plans and specifications must be furnished to the council before a permit will be issued. After a building has been moved, the ordinance calls for meeting the requirements of the Southern Standard Building Code. Before final approval is given, such requirements must be completed within 90 days after house has been moved.

A performance bond, with a minimum of \$2,000, must also be obtained before a house can be moved.

Hamlin, Creel Face Opposition In Race For Commissioner Seats

The county elections turned into a race at the last moment. Shortly before the deadline for candidate filing, Tuesday noon, Vernon Tynes and John W. Hamlin qualified as commissioner candidates.

Ray Creel, of Avon Park, John W. Wirick, Jr., of Lake Placid and Henry Hamilton, of Sebring, also qualified as commissioner candidates.

Tynes, who manages the Budman Furniture Store in Lake Placid, is seeking the district 1 commissioner post now being held by James Creel.

Creel two weeks ago announced his candidacy for a third term as county commissioner. Tynes was unsuccessful in an attempt to get a commission seat.

Tynes will be opposed by James Creel, who has been a commissioner for 12 years.

Language Lab; One of First In State Operating At Avon School

Should a stranger walk into
the room at Avon Park High
School, chances are good that
the first impression would be
somewhat deceiving. A first
glance would make one wonder
what our schools have come to,
since the earphone parbed stu-
dents are all isolated in private
booths, much like one would
find in a class room for brain
washing. Such is not the case.

All of these illusions would
be in great error. The room
houses one of the most advanced
classes at the local school—a
foreign language laboratory. And,
the students do not detect this room.
In fact they, as well as faculty
members, look on it with great
pride. Rightly so, since it is
the only such facility in High-
lands County and one of limited
facilities in the State of Florida.

Mrs. Chloe Lockoff is the
teacher for this new concept in
instruction. Primarily used for
teaching foreign languages, the
language lab can also be used
to correct speech difficulties
such as stammering, stuttering,
pronunciation, etc.

Mrs. Lockoff has labored
long and hard for this special
program and much of the credit
for obtaining the facility must
go to her. She spent a total of
250 hours reproducing tapes
which she now uses in her var-
ious classes. Included in the
teacher's quest for the program
were two summer sessions in
foreign languages at the Uni-
versity of Florida.

Over three dozen tapes—all
made in active Spanish speak-
ing voices—are on file at the
school. This, according to Mrs.
Lockoff, enables the instructor
to drill students on the com-
prehension of the language be-
ing studied in the actual pro-
nunciation.

In order to make the class
relatively private, compartmen-
tized booths have been set up at
the regular classroom desk. These,
coupled with the earphones, en-
able each student to receive the
same hearing that one would
receive in private. Words, syl-
labled by the teacher or taken
off of tapes and then the stu-
dents are required to pro-
nounce the phrases, both sin-
gularly and in unison.

The teacher—in this case
Mrs. Lockoff—is located at a
master console. Through a series
of switches she can "come in"
on any student in the room,
thereby giving added help to
the slower students.

Presently only those students
taking Spanish classes are
made in active Spanish speak-
ing voices—are on file at the
school. This, according to Mrs.
Lockoff, enables the instructor
to drill students on the com-
prehension of the language be-
ing studied in the actual pro-
nunciation.

According to the National
Association of Foreign Language
Teachers, the audio-visual ap-
proach to foreign language
teaching is rapidly gaining
acceptance. The new
system calls for an increased
emphasis first and foremost on
listening to the spoken word and
on oral expression. This is then
followed by reading and writ-
ing, much the same as students
first learn their "ABC's" and
later learn to write.

Language specialists are also
investigating the possibility of
teaching foreign languages on a
broad basis to the student body
as a whole. This is done in the
form of a language lab. In this
lab, students are given a brief
introduction to the language and
then are given a more detailed
study of the language.

Lindsay Gives Insight To Juvenile Cases

Lack of good use of leisure
time, lack of religious training
and lack of parental guidance
were listed among the causes
for juvenile delinquency by
Robert Lindsay, Highlands
County Juvenile Counselor,
when he spoke to the High
School PTA on Thursday night
of the past week. He gave
shocking statistics of the num-
ber of juvenile cases referred
to the courts and stressed the
need for a home in the county
where children can be placed
for care.

The GLAD Way

Too long have we thought of The Way of the Cross as the "sad way." There may be sad moments along every noble path, but not all great ways are sad ways. The path of motherhood may have sad turns but it is a satisfying path. The path of education climbs some difficult and steep places but it is a thrilling way. Isaiah talked about the highway of God, where faithful servants passed on good errands. The way of the Cross is the way one takes when he serves God. It is not the "Sad Way" but rather the "Glad Way." Jesus came by way of the Cross, and the Book of Books on which the cross is planted, tells us to "take up our cross and follow." Whether atop the church steeple or on the highest mountain, it is The Glad Way. Heaven and God are at the end of that way. It is today aglow with the light of forgiving grace. It challenges the weak to walk by faith and offers pardon to those who fall at its foot. It is where Jesus prayed, "Father, forgive them; for they know not what they do." It is The Glad Way.

YOU IN THE CHURCH
THE CHURCH IN YOU
Church is a part of the world and it is here that young and old alike are educated with knowledge that leads to a better life and a brighter tomorrow. In the church the individual finds the religious discipline, spiritual unity, and the fellowship of men in their journey home. This is why we should go to the church of our choice as a habit, as a part of our daily lives, and as a daily mind state.

Ministers of all faiths and the sponsors below share invitation and cost of this page. They urge you and your family to attend church this week.

Lutheran Church To Be Ready For Use By Easter

The Lutheran Church Council met at the home of Mrs. S. P. Elkhill Tuesday evening, March 15, with the Rev. John W. Walters conducting the business.

Reports showed the new church building progressing and plans to have it ready for services at Easter time. Restoration Lutheran Church is affiliated with the United Lutheran Church of America.

Due to the illness of the treasurer, Robert B. Dasher, who is a patient in Walker Memorial Hospital, Lamar Bailey was appointed by the Council to serve as financial secretary and assistant treasurer.

Art Becker, building chairman, reported that colors and furniture had been selected for the Sunday School room and that an electric organ had been presented to the church. The name of the donor will be announced later.

Rev. Walters will lecture in the Episcopal Church April 15. The next council meeting will be held at the home of Mrs. and Mr. Harry Gibson, April 18.

The house served refreshments to the group at the close of the meeting.

Mrs. Moxley Is Winner of FPC District Contest

Mrs. T. E. Moxley's orange cream pie won the top rating in the District Orange Dessert Contest held at the Florida Power Customer Service Center Thursday afternoon, March 15.

Other entries were by Mrs. B. J. Harris, Jr., of Lake Placid and Mrs. W. B. Howell of Ft. Meade. Mrs. Howell was a Division winner. The year's Orange Dessert Contest.

Mrs. Moxley will enter her pie in the Division Contest to be held in Lake Wales Thursday afternoon of this week.

Miss Faye Gordon, Home Service Advisor for the Florida Power Corp., was in charge of the contest. Judges for the District were Mrs. W. E. Page Jr., Mrs. Winifred and Mrs. Jene C. Runkler. Each lady was well qualified by experience and profession to be a judge and they each stated that it was a difficult decision to make since each entry was so beautiful and delicious.

An electric hand mixer was presented to Mrs. Moxley for her District award and Mrs. Jene C. Runkler in the Division Contest will be awarded an electric range.

58th Wedding Anniversary For Eleuthors

Mr. and Mrs. Robert Eleuthors, who are residents at Southland Trailer Park, observed their 58th Wedding Anniversary Saturday, March 17, when their son and wife, Mr. and Mrs. Truman Eleuthors, held Open House in the Eleuthors of the Park from 7 to 9 p. m.

The Truman Eleuthors came from Minola Long Island, N. Y. for the occasion. The happy couple received many lovely cards and flowers from their friends, and a large group of friends called during the designated hours.

A beautifully decorated cake was cut and served with hot coffee.

Gray Ladies' Work Noted

The Highlands County Board of Public Instruction has adopted a resolution of appreciation to Gray Ladies of the county.

The resolution takes note of the many hours that have been spent by Gray Ladies at county schools during the current term.

The resolution read in part: Whereas these ladies have, under the supervision of the schools, ministered to the needs of ill children in the school sick rooms; have aided the schools in getting these children to their respective homes; have assisted in the rendering of first aid to children with minor injuries and have assisted in countless ways in the school's care of sick and injured children; we therefore express our appreciation, signed the Board of Public Instruction.

So if you use Chevrolet trucks constantly bring higher prices at auction all over the country, it means that their quality features pay off for you not only as long as you own them but also when you are ready to trade them—double-wall cabs, doors and side panels, roof insulation, select wood floors, reliable and economical engines, real rugged tailgates, a suspension system that helps prolong truck life.

Now there's a Chevrolet dealer for a quality '62 Chevrolet jobmaster truck.

"Chevrolet Truck Report" is a weekly publication which points out the many ways you can save money on your Chevrolet trucks at one of our 100 Chevrolet dealers.

Why?

If you were a professional used truck buyer, why would you pay more for one make than another?

There may be several reasons, but among them would be:

1. A greater demand for the product

2. A more desirable product for...

REV. JACK WARD

Avon Graduate Named Young Man of Year

The Rev. Jack Ward, was named the "Outstanding Young Man of the Year" for 1962 by the Jaycees of Blackshear, Georgia. Jack is pastor of the Blackshear Presbyterian Church. He is the son of Mr. and Mrs. T. J. Ward and a graduate of Avon Park High School, and Wheaton College, Wheaton, Illinois.

The award was presented by the Mayor, Lee Broome of Blackshear at the annual Junior Chamber of Commerce Banquet of Pierce County.

Mr. Ward was cited for his activities in behalf of the youth of Pierce County, including promotion of a "Youth Rally" in 1961 and work on a softball diamond and basketball goals for local young people.

Proclamation

WHEREAS, the people of State of Florida and Avon Park are dependent upon the natural resources—soils, water, forests, grasslands, minerals and wildlife—to sustain life and contribute to the commerce, agriculture and recreation of future citizens of the State of Florida and Avon Park, and,

WHEREAS, there is growing concern about the future continental watershed population and especially the destruction and drainage of wetlands which provide nesting areas for waterfowl and other wildlife, and,

WHEREAS, these natural water storage areas may be of infinite value to man in the conservation of water resources for an expanding population, and,

WHEREAS, the week of March 18-24, 1962, will be observed across the nation as NATIONAL WILDLIFE WEEK, this being a time set aside to alert all the citizens of the nation to the need for wise and proper use of all the natural resources.

NOW THEREFORE, I, E. A. Delaney, Gov. of the State of Florida, do hereby proclaim March 18-24, 1962, as NATIONAL WILDLIFE WEEK.

Seven Secrets of Becoming Slimmer

Dear Miss Allison: It's all very well for slim girls to talk about fashion! But what can you do when you are pudgy, especially around the middle, and diets don't seem to do a thing for you? Have you anything in your bag of tricks for discussing figure faults?

Answer: Dear M. J. K.: Some recent discoveries in the medical field indicate a good eating reducing diet which works beautifully. When my own investigation and tests are completed, Charm Circle will bring you the information.

In the meantime—the disguise you asked for: Seven Secrets of Becoming Slimmer Right Now!

(The standing, walking and sitting techniques are secrets of grace for any woman.)

1. POSTURE (the way you carry what you have). For correct figure alignment, which will make you look definitely slimmer every minute you maintain it:

When Should You Buy Securities?

If you have money left over after providing for living expenses and emergencies, you may be ready to consider investing.

The right time to make your decision, however, is after you've determined your investment goals. And after you've received facts about the performance of different companies and evaluated their prospects.

Right now, as a starter, drop in and talk over your investment plans. Ask for a copy of "DIVIDENDS OVER THE YEARS." This helpful booklet has records of some 500 stocks that have paid dividends every year for 25 years or more. Or send the coupon, and you'll get a copy free.

Stand with back against wall

—Hoist out about 3-4 inches

—Stretch tall, pushing the top of your head up toward the blue sky, and pulling the rest of you along with it

—Flatten back against wall. You should touch the wall with the back of head, and with entire back, from shoulders to and including the back of your top

Now—step out from wall and walk, holding this correct posture

Picture yourself as a graceful puppet on a string. Your weight is held up for you. Your body will feel light. You'll glide along as you walk

Do not walk too fast, especially when you are wearing heels. Preserve the smooth, easy tempo of true grace!

2. SITTING: Never drop into a chair. Let yourself down gently. Don't bend your body forward as you lower yourself. It looks awkward. (This may take a bit of practice if you are used to "slumping down." But it's worth it!) The same applies to getting into a car. Or intent to sit, to stand any impression of heaviness.

At you sit, hold your torso in the same correct tall position as when standing. Never slump!

You'll look slimmer and more elegant if you cross your legs at the ankles rather than at the knees

3. OPTICAL ILLUSION: Wear slimming colors: deep blues, and soft, muted colors. Don't wear two-toned outfits with the color-break at the waistline.

Your figure will give the most correct impression if you wear one color throughout your ensemble with a second, lighter, and very becoming color used only at the neckline, in the collar, and sometimes in the vest.

Avoid glossy fabrics, such as satin, except for collars.

Avoid bulky fabrics, such as tweed and flannel.

4. SYMMETRY: We'll use the lines you wear to:

a. Look smooth and trim—vertical or diagonal lines, not horizontal

—nothing to add bulk to your basic lines

b. Look streamlined—avoid skirts, slightly flaring

—princess line, buttoned the length of one side

—3/4 length or full-length sleeves (now high-fashion)

c. Bring the attention upward to your face

—wide light-colored collars, to the shoulder tips

—scarf necklines, fastened off-center

5. GEOMETRY: The size and shape of accessories

The hat: wide-brimmed

The handbags: straight-line styles

The shoes: neat, inconspicuous, and beautifully-fitted. Heels of a height in which you can move about effortlessly.

The gloves: matching the color of the body of dress or suit. Length depending upon sleeve length—meet the bottom of sleeves.

The ornaments: carefully-chosen. For example—one striking, jeweled costume pin, placed at the neckline toward one shoulder.

THE SKIRT LENGTH: Your becoming length. But do be sure knees are covered, both when you walk and when you sit!

7. SLIMMING SELECTIONS from the latest fashion showing (Spring 1962):

A chocolate brown princess-style coat dress. Pearl neckline fastened on left shoulder. Scarf may be either beige, aquamarine, apricot, or lavender yellow, according to what is most becoming to you. Hat (in matching brown) a cone-shaped high-crowned, medium-wide-brimmed cloche. All other accessories in the same brown.

No jewelry except a large gold costume pin fastening the scarf. Black crepe, waistline softly defined with subtle tuck detailing (no belt). Front panel skirt. V-collar and vest of honey beige. Black cartwheel hat, black accessories.

Navy, wrap-style, buttoned down length of one side with flat brass buttons. V-neck; wide-crowned white piping collar; piped in red. All accessories navy, except for red handbag.

Navy with pink (or white) longarms (crisp silk organza) collar.

Sea-green tunic-dress, diagonally cut.

Jacket-suit of deep sky blue. Skirt of self-material, pleated at shoulder with supple blue costume jewel. Skirt extending front and back to just above waistline, to minimize waistline. Large self-covered buttons. Skirt-pleat hat.

Charles Anderson, Former Devil Standout Featured By College

A former standout on Avon Park High School athletic teams is currently featured in the Florida Southern College basketball team review. He is Charles Anderson, son of Mr. and Mrs. J. M. Anderson.

Anderson is featured with John Pavia of Miami in a photograph that graces the cover of the review. The two players are the only regulars returning for this year's Moccasin nine. Both are considered excellent professional prospects.

The Avon Park southpaw physical education.

Ticker Talk

ROBINSON TECHNICAL

Robinson Technical Products, through a vigorous acquisition program, has transformed itself from a manufacturer of shock and vibration mounts into a producer of a broad line of technical products for defense, space technology, electronics, construction.

Its four operating divisions now also make high vacuum furnaces and test chambers; special capillary tubing and components; power supplies for computers.

The Robinson Vibration Division, formerly dependent upon production of vibration and shock mountings for military aircraft, is completing a transition for missiles, ships, submarines, commercial aircraft and an increasing number for miscellaneous and industrial uses.

Since its acquisition in 1959, the High Vacuum Equipment Division has developed some \$500,000 back into expanded research. This division designs and produces high vacuum space simulation chambers, electron beam welders, high temperature vacuum furnaces. The end use of this equipment is for the processing of refractory metals, environmental research and testing and metallizing semiconductors and printed circuits.

Some of the space simulation chambers are being used by NASA and the principal space and atomic equipment fabricators.

The Kenaco Tube Division has been considered primarily a producer of copper tubing used in the building industry. However, large capital expenditures have been made at the division's new plant to expand and automate manufacturing facilities.

Sales of capillary and restricted tubing have doubled in the past year and the tubing is presently being utilized by makers of instruments, hospital equipment and missiles. Management is enthusiastic about the new developments and believes earnings of this specialty line can again double in 1962.

Perhaps the most exciting prospects for the future are in store for the Kuprian Manufacturing Division, which has a large stake in the electronic data processing field as a major manufacturer of electrical circuits used extensively in complex electrical systems. About 15 per cent of its production goes to International Business Machines. In addition, after four years of effort it recently received two large orders from two big auto makers for mechanical controls and flexible shafts. These controls, used on compact cars, are now being delivered in production quantities. Sales of this division have more than doubled in the past few years; earnings have increased sevenfold.

Reflecting the recent acquisition, Robinson's gross income increased to over \$15 million in the year ended June 30, 1961 from \$11.7 million in the previous fiscal year. Earnings rose to \$1.06 a share from 96c.

The capital structure consists of 784,869 shares of common preceded by \$275,000 in long term debt.

During 1961 cash dividends totaling 15c a share and a stock dividend of 5 per cent were paid. The Board of Directors recently declared their intention to continue on a quarterly basis dividends of 15c a share.

The outlook for the fiscal year ending in June appears quite favorable, as the results of the Kuprian Division will be consolidated for the first time on a full year basis. Management expects sales and earnings to show a continuing advance.

The material for this column is furnished by the Research Department of Francis I. Dunne & Co., Saratoga office, phone WX-2328.

Avon Trailer Park News

Frank Marker marked his 79th birthday last week. Four Indiana couples, all residents of Mr. Marker's trailer park, gathered for a party at his home. They were Mr. and Mrs. Walter Hall, Mr. and Mrs. Charles Anderson, Mr. and Mrs. Mary Jones, and Mr. and Mrs. John Smith. The party was held at the home of Mr. Marker, who has lived in the park for many years. The guests enjoyed a delicious meal and a good time. Mr. Marker is a well-known figure in the park and is always ready to help his neighbors.

The weekly night square dance was enjoyed, and the winners of the contest were Mr. and Mrs. Harry Longenecker, Mr. and Mrs. Maud Nickels, and Mr. and Mrs. Fred Fife. The dance was held at the home of Mr. Marker, who was the host. The guests enjoyed the music and the dancing. The winners were awarded prizes for their performance.

Four star winner of the shuffleboard tournament March 17 was Emil Fontaine. Lewis J. Roth, park owner, is receiving birthday congratulations. Mr. and Mrs. Paul Sutherlin returned this week from a visit with their daughter and her family at Orlando. Alfred Hager entered Walker Memorial Hospital Thursday and his friends wish for him a speedy recovery. Mr. and Mrs. Frank Marker spent Friday in St. Petersburg. Mrs. Matilda McAllister who has been on the sick list, is reported to be improving.

Farm Workers At New Low

February farm employment was lowest on record for the week. USDA reported last week. Farm employment totaled 1,183,000 persons—a decrease of three percent from a year earlier. Farm operators and other family members working on farms was 1,140,000, down three percent. The number of hired workers, estimated at 995,000, was two percent up from the comparable week of February, 1961. Two species of pickered are found in Florida: the walking—the redfin or barred pickered and the chain pickered.

Devils Top Dragons

Max Bull and Leonard Sullivan drove in five of Avon Park's six runs with two singles and a double in the first.

The Red Devils to a 6-3 Ridge Conference victory over Lake Placid here at Head Field.

The Green Dragons from Lake Placid jumped out to a three-run lead on the first inning when Devil starter Terry Oberle walked two in a row and young hurler Jim Kelly drove in with a double and later scored himself on Bill Lewis's single.

The Red Devils pushed two runs across in the third to close the gap. Darrell Bailey walked and pinch runner Lane Padgett scored and third Randy Lewis walked next and Leonard Sullivan drove them both in with a single to left center.

In the fourth frame, Max Still bunted safely as Terry Oberle came home on the squeeze to tie the game up 3-3. Oberle had been hit by a pitched ball to reach first, stole second and took third on an error by the catcher.

Sullivan and John Rhodes both singled in the fifth and scored on Still's second hit of the game, single to left center. Joe Jackson scored the Devil's final run in the sixth.

After giving up three runs on two hits and three walks in the seventh winning pitcher Oberle settled down and held the Dragons to one hit and one run for the next four innings. In the sixth with one man down, Oberle walked two in a row again and was quickly relieved by Leonard Sullivan.

Oberle struck out eight, walked six, and gave up three hits during his five and a third innings on the mound. Sullivan earned four and walked none during his one and twothird innings of hurling.

Coach Ralph Hill's "B" squad baseball nine will open their season next Tuesday, March 27, against Wauchula here at Head Field in an afternoon encounter starting at 4 p.m.

The 18 man squad has been working out on the practice field across from Head Field for the past three weeks under Coach Hill with Tom Jenkins coaching with the coaching duties.

The "B" squad mound staff made up of Keith Abbotson, Bobby Briscoe, Bobby Coleman, Jeff Childers, and Spencer Oberle. Working out behind the plate are Sammy White and Jay McShane. Bill Ward and Ray Miracle are vying for first base. Wolfgang Halbig and Eddie Delaney are scrapping for second base. Bobby Coleman and Steve Seims are battling it out for the starting shortstop position, and Spencer Oberle and Jeff Childers are both practicing at third base. Working for starting outfield positions are Tommy Marshall, Pop Hutchinson, Bobby Briscoe, John Rogers, Bobby Nunnallee, Wayne Mitchell and Danny Butler.

The "B" squad schedule is: March 27, Wauchula, here; March 29, Sebring, there; April 2, Wauchula, there; April 6, Wauchula home; April 10, Sebring home; April 12, Kissimmee, there; April 17, Sebring, here; April 18, Sebring, there; April 24, Wauchula, there; and April 25, Kissimmee home.

All games are scheduled to begin at 4 p.m. except the Kissimmee game in Kissimmee which will be played at 6 p.m. All home games will be played at Head Field.
