STANDARD OIL (NEW JERSEY)
Industry leader looks to expanding markets for all products.

Good geographic diversification of investments provides the company with the flexibility to meet changing conditions in world markets and to fully participate in the growing demand for oil energy and products. The contribution of the company's investments to the growth of the world economy was about \$1.2 billion in 1961, up from the \$1.1 billion of the previous year and the \$1.0 billion of 1960.

Of last year's consolidated earnings, 35 per cent was derived from operations in the U.S., 38 per cent from other Western Hemisphere operations, and 27 per cent from the Eastern Hemisphere.

Accounting for more than one-third of total oil production in the free world, Standard Oil of New Jersey had a 16 per cent share of the world's oil supply in 1961. It produced about 60 per cent of the world's requirements for gasoline, and more than 50 per cent of the world's requirements for kerosene, diesel fuel, and other petroleum products.

Standard Oil of New Jersey is believed to have the largest position of domestic natural gas in the U.S. and should continue to show faster growth rates. In the first quarter of 1962, the company reported earnings of \$1.07 a share, including 12¢ a share from a subsidiary net of prior year earnings, compared with 86¢ in the like period of 1961. Present indications are of \$3.09 million in 1962, up from \$2.8 million in 1961.

Its strong marketing organization, should be able to compete effectively in the expanding markets for petroleum products, particularly in foreign areas that are not as industrialized as the U.S. and should continue to show faster growth rates. In the first quarter of 1962, the company reported earnings of \$1.07 a share, including 12¢ a share from a subsidiary net of prior year earnings, compared with 86¢ in the like period of 1961. Present indications are of \$3.09 million in 1962, up from \$2.8 million in 1961.

prevailed before the post-Suez 1958 decline. Declaration of a 6¢ dividend in the first two quarters of the current year points to a more liberal distribution this year. Dividends paid in 1961 totaled \$2.30 a share, consisting of three quarterly payments of 55¢ each and a year-end distribution of 60¢.

Having remained in a rough 20-point trading range in the last half dozen years, the good quality Standard Oil of New Jersey common shares did not participate in the latter stages of the bull market. At about 13.5 times estimated 1962 profits

capacity and less than 9 times cash flow earnings (above \$1 a share), Standard Oil of New Jersey common stock would appear to represent good value in the current market, and purchase is recommended for a combination of yield and worthwhile appreciation potentials over a period.

The material for this column is furnished by the Research Dept. of Francis I. Dunnett & Co., Sarasota, Office, Phone W.X. 2322.

TO WHAT...

...true happiness, or to a state of disillusionment? Will the future be happier because they have a diploma? Unless they are prepared to take prosperity without pride and adversity without anguish... they are still unprepared. What is crooked by nature can only be made straight by God. If they have learned to do their duty instead of demanding their rights, they are learning God's way of life.

Join The Church
The Church is the only place where you can find true happiness and peace. It is the only place where you can find the love of God and the love of your fellow man. It is the only place where you can find the truth and the life. Join the Church today and you will find all these things and more.

APHS Annual Cops First Place; Praised By Columbia Press Group

Avon Park High School is the proud possessor of a certificate from Columbia Scholastic Press Association which reads: "Pittsford has been awarded this First Place Certificate in the 27th annual Yearbook Criticism and Contest conducted by The Association at Columbia University, New York City, October 14, 1961, and signed Joseph M. Murphy, director. 941 points out of a possible 1,000 were received on the rating sheet. A few suggestions were made but most of the remarks were highly complimentary."

Quote from the final comments and constructive criticism: "Your book reflects the enthusiasm of your student body. Your staff really caught the spirit of the school. What is even better, this reader gets the feeling that many students had a share in the work, and that everyone had a good time."

Mary King and Monty Maxwell were co-editors of the Annual last year. Morris Gay was business manager and the editorial staff was composed of 32 students.

Avon Park High School is rated in the medium category composed of school with enrollments between 300 and 600 students, which offers stiff competition to win the First Place Certificate.

Judge Sentences Avon Park Man

Former Avon Park resident Hubert Sadler has been sentenced to prison for his part in a shooting at the M. E. Fishing Camp.

Sadler had been found guilty of aggravated assault in a jury trial earlier this year. Judge Gunter Stephenson had ordered a presentence investigation, and late last week pronounced sentence—six months to five years in prison.

Sadler was accused of having shot and wounded two camp guests in a fracas at the camp where he was then manager.

CARD OF THANKS
We wish to thank our friends and neighbors for their prayers, floral offerings and other kindnesses during the bereavement of our wife and daughter-in-law.

County Officials At Bartow Meet

Highlands County was represented at the open house held Friday at the district headquarters of the state highway department.

County Clerk Earl Rich and Commission Vice Chairman Carl McIntyre attended the ceremonies which were a part of the observance of National Highway Week.

Rich and McIntyre joined other guests at the open house to tour the highway department drafting rooms, soil test laboratory and department offices in Bartow.

The movie, "Highway Horrors," which shows the super-highways under construction or proposed for Florida, was shown.

A suit filed in Circuit Court is asking damages "in excess of \$500" for the death of John Green. The 16-year-old Green youth died as a result of injuries suffered in an auto accident on Lake Avenue on Feb. 28.

Edward A. Harris is defendant in the suit. He was allegedly driving north on Lake Avenue at the time of the accident.

The suit was filed by Arthur Green, father of the accident victim and administrator of the youth's estate. Lefferts L. MacBride, Jr., of Wausau, is attorney for the plaintiff.

Damage Suit Is Filed In Death

Cub Scouts Hold Final Meeting With Swim Party

Den 1 of Cub Scout Pack No. 152 held its final meeting of the year at Florida Power Employees Club, Monday afternoon, May 28 in the form of a picnic and swimming party.

The Cubs completed their last project, which was submitting the gifts to their parents.

A picnic supper of hot dogs, baked beans, slow potato chips, relishes, cake, ice cream and food aid was served by Den Mothers.

Mrs. Earl Rich and Mrs. W. A. Williams. Assisting the Den Mothers were Mrs. D. J. Hart, Mrs. Virgil Simmons and Mrs. Charles Warrington, and Mrs. L. A. Ruffin.

Cubs enjoying the festivities were Darryl Bennett, Dennis Hart, Mike Rock, Glenn Simmons, Ricky Rich, Jimmy Williams, Timmy Williams, Tommy Capell, Jimmy Warrington, and Den Chief, Jimmy Ruffin.

Guests included Mr. and Mrs. Ellis Wilson and sons, Mrs. Hart's daughters, W. E. Rock and sons, Virgil Simmons and sons, Charles Warrington and son, Earl Rich and children, Mrs. Williams' daughter, Dr. Helen Williams and children, and Mrs. Thomas Capell and daughter.

White Bible YWA Ceremony

Miss Ingrid McManis was honored with a White Bible Ceremony by the YWA of the First Baptist Church, on Sunday afternoon, Ingrid is president of the YWA and will be married to Ray Young on June 16, in the First Baptist Church.

The impressive ceremony was conducted by members of the YWA who were dressed in rainbow shades and each holding streamers of a rainbow and each gave Scripture quotations appropriate for the occasion.

The minister, Rev. A. D. Childress made the presentation of the white Bible to Miss Ingrid.

TO SCHOOL WE MUST GO

Each year at this time the Florida Association of Insurance Agents hold their annual school and convention.

There are many new policies and rate changes in insurance and I feel that to give the best service we must attend.

While Emily and I will be out of the office from Thursday to Monday there will still be three in the Insurance Department and two in the Real Estate Department to serve you.

All insurance claims reported will still receive fast, courteous service.

Officers for the ceremony will be those students who have maintained grades of B or better throughout high school. They are: Grand Marshal, Valerie Hays; Vice Marshal, Valerie Hays; Junior Class, Valerie Hays; Senior Class, Valerie Hays; and Graduation Exercises on the basis of their superior academic records.

At a recent meeting of the Junior Class, Mr. White announced that Andy Mirale and Marilyn Cook had been selected for this honor.

Municipal Team Suffers Defeat

Jack Landress was the losing pitcher and Walker took the win for Frostproof. Ottis Lloyd led the Packers at the plate with three singles and a home run for a perfect evening of Frostproof last Thursday when the Frostproof Packers in batting. The pitcher got a double, Grady Wilson hit two hits to defeat Avon Park 12-1. Avon Park managed to get two singles and Conrad and Stewart both hit a single. Avon Park managed to get two singles but couldn't push but one run over Tommy Doublerly and Harry Simmons both hit a double and Jim Pearce, Sam and the insects reach maturity. Elder and John Stirling all hit in two months.

Few hunters understand the intelligence of wild animals. Some hunters will see many deer and few bucks during the season. The hunter convinces himself that there are too many deer and no bucks. He fails to realize that the buck know they are being hunted, while the deer realize that they are protected and safe from most hunters. Therefore, the deer appears boldly, while the bucks carefully remain in concealment.

The world's record bluegill sunfish, taken in Alabama, weighed 4 lbs., 12 oz. and measured 15 inches in length and 18 1/2 inches in girth.

It is unlawful to take any fresh water fish in Florida through use of free-floating hooks, match hooks, firearms, or any other device.

Cheerleaders Chosen For Next Season

Golden Circle At Lawhon Home

Opening prayer was led by Clarice Ford.

Mrs. Lawhon gave a study course about the 12 tribes of Israel. Teams were selected to encourage members to attend Sunday School and Circle meetings. Also to enlist new members. Lois Fout and Sara Reaves are team captains.

White elephants were brought and exchanged among members. A dessert course was served by Mrs. Lawhon to the 12 members present.

(Mostly True)

Now my friend Herb's
a remarkable gent,
He slipped on a pool
and away he went
Down the back stairs
with a crash and bang,
Like the daring young man
who can't take a truck,
Or like a football,
bumpy bump,
Hitting his head with head
or with hump.
And then after with
squattering thump.

They picked him up
and put him to bed.
Remember, Herb
he wasn't dead.

They put him in bed
and he soon recovered,
But he soon summed the doc,
Who X-rayed his head,
And told him he had
a bump on his back,
And when he had finished
telling him, "Gett'f,"
He said, "I mean, it
means 'Great Scott!'"

My friend, Herb, summed
the matter with you, a
bit of a scratch,
a little bit of pain.
One on the head
and one on the calf,
And a few in between.
My, it is to laugh.
You fall on a chair
and breaks no bones,
You fall on a car
and makes no groans.

Nobody else could do
like that.

You must be one
great sport.
You need no pills.
Just take your case
in hand
Ten dollars, please.

So Herb went to bed
for a couple of days
With nothing to fret about,
nothing to do
But soon he was
new vacation.

The whole crowd pondered
the state of the nation,
Lived on beefsteak,
honey and cream,
And read the
Saturday Evening Post.

Meanwhile, the soap
went on as usual
As if he had seen three
ghosts in a row.
He wasn't doctored
except by the doc,
Got new handkerchiefs
by the shock.

All things thought
and things that
That my friend Herb
is one of the best.
Considered his age too,
and his size.

Well, thank the good Lord
he is still alive.

— H. J. Frost

Cub Scout Pack No. 1 will meet (tonight) Thursday May 31, 7:00 p.m. in the Avo Elementary Cadetorium. All Cub Scouts, parents and friends are urged to attend to watch the running of the annual Pine Wood Derby.

[illegible]

The entire squad will go to American Cheerleaders Association camp held at Camp Sparta in Sebring, June 3-10, where they will receive the most complete and intensive training under America's number one Cheerleader, Bill Horan, who will direct the training program.

This will be the first time that the entire squad has attended.

Nils Bateman, a doctoral candidate at Florida State University, has been appointed research assistant for the Vocational Rehabilitation Project at the Florida Alcoholic Rehabilitation Center, according to Ernest A. Shepherd, Administrator.

Bateman will work at the Center during the Summer months and return to FSU in

the FBI to continue work toward his Ph.D.

While at the Center, he will work under James H. Williams, Ph.D., director of the vocational rehabilitation project. He will be engaged primarily in coding information for analysis by computers.

The project is a study of vocational rehabilitation for alcoholics and collaboration between the ARP and the Division of Vocational Rehabilitation.

Alcoholism is the nation's fourth largest public health problem, according to the Florida Alcoholic Rehabilitation Program.

The First Methodist Church begins their Vacation Church School, Wednesday, June 6, at 9 a. m. All ages from kindergarten classes are invited to attend each day from 9 to 11 a. m. Monday through Friday, through June 15.

Students should register at the church on Tuesday, June 5 at 2:30 p. m.

Mrs. David P. McDaniel will be assisted by the following teachers: Mrs. Betty Ormond, Mildred Ferguson, Vivian Burk.

At the field 1/2 mile east of Zolfo Springs. Tomatoes vine-ripened. Price: 10¢ per lb. Cukes and dill pickles \$1.50 for 10. You pick them - bring your container.

Commissioners Consolidate Road, Bridge Program; Name Supervisor

The Highlands County Commissioners have consolidated their road and bridge program to one program with recommendations made recently by the state highway department. The move is a special session last week after the session of the county board of supervisors. The new program will be effective July 1, 1963.

A new vacation plan will give county employees with one to four years of service a week of vacation. The plan will be effective July 1, 1963. Employees with five to nine years of service will be given two weeks of vacation. Those with ten to 19 years of service will be given three weeks of vacation. Those with 20 years or more of service will be given four weeks of vacation.

Mrs. Suggs Is Host To Three English Groups

Mrs. Lena Suggs' fourth and sixth period and the Practical English classes all enjoyed parties at the home of the teacher last week. English IV had a luncheon at noon, going to Mrs. Suggs' home for the regular class period where they listened to a recording of "My Fair Lady." This class has completed the study of British drama with emphasis on Shaw's Pygmalion.

The students brought a variety of food and the hostess served and cooked. They listened to strains of music as they enjoyed the luncheon in the air-conditioned room. The sixth and first period English classes also enjoyed a social hour at Mrs. Suggs' home last week. They listened and discussed Camelot and My Fair Lady, while they were served out doors on the lawn of temporary personnel in the various areas.

Another new policy adopted at the special session was the hiring procedure. In the future, all applications for employment will be either approved or rejected by the entire board, not just one commissioner, as in the past.

A uniform pay period and pay scale was also instituted. In the future, road and bridge crews will be paid on the 15th and 30th of each month instead of weekly. The pay scale was standardized at the following rates: per hour: Truck drivers, \$1.25 to \$1.50; utilitymen, \$1.50 to \$1.75; druggists, \$1.75 to \$2.00; and other employees, \$1.75 to \$2.00.

Miss Kathryn Dasher was honored with a shower on May 13 at the home of Mrs. Louis R. Nickles. Mrs. R. B. Knuch was co-hostess for the neighborhood party which brought friends and gifts for the new bride to be.

After the gifts were opened and admired the hostess served a daffodil cake with punch.

Rev. and Mrs. Boaz Honored On 25th Wedding Anniversary Sunday

The Rev. and Mrs. Russell Boaz were honored by members of the First Methodist Church on Sunday, May 27, when they celebrated their 25th wedding anniversary. Rev. Boaz is pastor of the local congregation.

The Woman's Society sponsored a family covered dinner at noon, held in Wesley Hall, which was attended by a large number of the congregation. The Church Board presented the honorees with a silver serving tray engraved for the occasion and the WSCS presented them with a silver dish.

The affair was a surprise. A beautiful decorated cake was cut and served following the dinner. The Boaz's daughter, Mrs. Carl Thrasher of Savannah, Tenn., arrived Saturday for a surprise visit with her parents for the occasion of their Silver Anniversary.

Here and There—Moultons Return To Elkhart, Indiana Home

Mr. and Mrs. Glenn D. Moulton will be returning to their former home in Elkhart, Ind., to be near their relatives and friends when they observe their 50th wedding anniversary on June 12.

Mr. and Mrs. Harvey Olsen moved to Meridian, Miss., over the weekend to meet their daughter, Mrs. Russell Pannell and baby daughter, Becky, who returned home for a visit while Mr. Pannell is on a trip.

Mr. and Mrs. K. W. Ball of Hollywood have been the guests of their son and family, The Donalds of Highlands Lakes, Mr. and Mrs. Donald Ball and children, Judy, Donald and Allen, expect to have this week for their summer home in the Great Smokies near Robbinsville, N. C.

Mrs. W. C. Ackerman of Washington, D. C. has been the guest of her aunt, Mrs. Ada Cooper, at 205 S. Lake Avenue. Mrs. Cooper's nephew, W. C. Ackerman, is associated with the Education Section of the United States Government, in Washington.

Mr. and Mrs. Iva J. Glockner of Avon Park, were among recent guests at Stonehenge in Ridgefield, Connecticut.

Mrs. G. C. Touchton is visiting with her sister, Miss Sally Green, and other relatives in Atlanta, Ga.

Mr. and Mrs. Harvey Hill and daughter, Velvet, were weekend guests of Mrs. Hill's parents, Mr. and Mrs. J. W. Whitehurst, and her sister and brother-in-law, Mr. and Mrs. Earl Rich. The Hills are graduates of APHS, Class of '50.

Mrs. Hill is the former Velma Whitehurst. He is stationed at Panama City Air Force Base.

There are between 140-150,000 alcoholics in Florida, according to the Florida Alcoholic Rehabilitation Program.

350 Motorists Take Advantage Of Safety Check

About 350 motorists took advantage of the Avon Park Junior Chamber of Commerce's annual Auto Safety Check on Saturday, May 26, according to Harold C. Worden, Jr., project chairman.

Ten per cent of the automobiles checked during the day proved defective in at least one of the ten items checked, Worden said, but a surprising 62 per cent of the automobiles

Rejected returned during the day with the defective items repaired. They were then awarded the "Circle of Safety" stickers.

Eight members of the Junior Chamber of Commerce checked automobiles under the supervision of Florida Highway Patrol Trooper C. C. Johns and City Police Chief L. F. Harrison.

The Auto Safety Check is an annual project of more than 2,000 local Junior Chamber of Commerce organizations throughout the country. The "Circle of Safety" stickers, awarded to automobiles which check out properly on all ten items, are nationally recognized emblems of safety.

Afternoon Tea Honors Seniors

The annual Tea honoring the senior graduates from JPHS Class of '52, was held at the Jacaranda Hotel Friday afternoon with Student Council officers and the Senior Class officers acting as hostesses under the direction of Miss Cheryl Gorman.

The Student Council and their sponsor, Miss Millie Pearson, has sponsored this annual tribute to the seniors for the past several years.

A variety of party dainties were served with punch while the guests talked, mostly of plans for their graduation.

HIGH SCHOOL

Congratulations Avon Park High School Graduates

A bright future—for young people

Having money to spend when you need it is a key to success. Here are a few good rules to help young people save:

1. Keep your eyes on your long range goals; college, a business of your own, marriage, a home.
2. Make saving a habit. Pay yourself first by putting something aside regularly out of your allowance and earnings.
3. It does make a difference where you save. Here your money earns excellent returns and is safe... insured by a U.S. Government agency.

HOME OWNERS . . .

Plenty of money immediately available for long term mortgages at 6% interest on owner occupied homes.

Good Crowd On Hand For Glee Club Concert

The senior and junior high choral groups, under the direction of John J. Almle, presented their annual Spring Concert, May 22 at 8 p. m. in the high school auditorium. The auditorium was well filled with parents, friends and music-lovers who spoke only words of praise to this excellent performance.

The girls were all dressed in beautiful evening formal and the boys also wore formal attire to make a lovely picture to look at as well as to listen to.

The concert was more effective because of the lighting effects and the sound, which were controlled by Frank Phillips, Lathan Smith and Chris Copeland.

The choral groups were honored with a reception at the Jacaranda Hotel following the concert.

SPACE SCORE CARD

A brilliant Malcolm S. Carpenter's thrilling orbital space battle, following through to the exploit of the space age, is a tribute to the intelligence and versatility of the planning and minute-by-minute guidance of the mission. When things went wrong there were alternatives. In those last moments before re-entry when there seems to have been a combination of fuel shortage and difficulty in starting the retro-rockets—the exact details will doubtless be forthcoming—a whole series of factors enabled Scott Carpenter to get through; a remarkable system of liaison with Cape Canaveral, well informed guidance from the ground, the intelligence of the astronaut himself in the capsule, and the variety of means available to cope with the difficulties.

Now both the United States and the Soviet Union have put two men into orbit. The competition becomes keener. But it would be dangerously misleading to assume that an equality of numbers means the two countries' space flight programs are at the same stage of progress.

They may be. But they also may not be. It is wise to base one's estimate of the state of the space race on what is known rather than on what is assumed or fondly hoped.

Unhappily, little is known about the Soviet program, except that it is struggling with problems broadly similar to those of the American Project Mercury and that a massive space ship has been tested.

Both programs are developmental. Their space flights, epochal as they are, are not an end in themselves. They are a means of developing the knowledge and experience to make space travel a practical operation. It is in the attaining of their objectives in this line that the success or failure of these adventurous project lies.

Lt. Comdr. Carpenter's flight is another giant step in the United States program. We can say this because we know Project Mercury's goal and can use it as a yardstick.

We do not know how to assess the Soviet program. Its goals are secret. Its attainments are so inadequately reported that they are potentially subject to great misunderstanding.

We would not be surprised to see a multimanned Soviet spaceship go into orbit tomorrow, beating the United States by many months with this feat. But this is pure guessing.

The wise course for the United States is to set its own goals high and maintain them. Then the need for continuing support of this demanding and expensive project will be self-evident. The United States will make an outstanding showing in space regardless of what the Soviets do, if it aims high enough.

—Reprinted from Christian Science Monitor, May 25, 1962

The Farm Front

by Doyle Conner
Communicator
Florida
Department of Agriculture

June is National Dairy Month

At the time the Administration's 1962 farm program was presented with its highly controversial supply management proposals for dairy production, it suggested well-meaning but unrealistic proposals for increasing the demand for dairy products.

It is not too late to correct the imbalance. The industry organization has been distributing a wide variety of material aimed at increasing the demand for dairy products.

I'm glad to see the U.S. Department of Agriculture getting into the act in a big way with a variety of folders containing facts and suggestions ranging from merchandising by food stores to recipes for harried housewives who often find it difficult to figure out something to eat.

Perhaps I'm old-fashioned but I still don't expect to see a woman's clothes or cosmetics. I expect to see a woman's face and a woman's smile.

June is dairy month. It's a perfect time for you to highlight the flavor, richness, versatility of milk and milk products. Collectively, they are the marvels of dairymen and dairymen's products.

What will come out of all this? I certainly do not know. I am no expert in foreign relations. But this I do know.

What will come out of all this? I certainly do not know. I am no expert in foreign relations. But this I do know.

Washington Report

By Congressman Jim Haley

WASHINGTON, D.C.—Fidel Castro has not changed, and will not. He is today, as he was yesterday and last year and before that, still a cunning international blackmailer and political thug. And, therefore, it is imperative that any approach from him, any maneuver by him, be regarded by this country with the maximum of distrust and suspicion. The odds are that whatever Castro is up to, it has the ultimate objective of setting up the United States—and the free nations of the western hemisphere—for a double-crossing stab in the back.

Our experts in foreign affairs (if there is anything in their record which would justify calling them that) should be alert for what he is—as deadly as a cobra and as treacherous as a jackal.

If his public warning that the United States must come to his rescue to avoid closer ties with Moscow is not a "cover" for the puppet behind-the-scenes negotiations, then it is surely and obviously blackmail backed by the threat of nuclear war.

On the other hand, if Castro is seriously trying to put across a wild deal to achieve equality with the United States, then it is the country's "most-favored Communist" then it is only because the Good Lord will protect us (for nothing else can) if our Government fails for any reason to take the bait.

Somewhat, all this sounds to me like it is a part of a plot carefully drawn up not by Castro but by his master, the Kremlin. And I suspect that we should greet it with just the same amount of trust: None whatsoever.

CRACKER POLITICS

By Allen Morris
TALLAHASSEE—U.S. Senator George A. Smathers was in town for a few hurried hours the other afternoon, as jauntily as only a public officer can be who has just collected 82.5 per cent of the vote.

He still had to clear the hurdle of a Republican foe in November before being certain of title to six years more in the Senate, yet Smathers was understandably elated by the lopsided approval of his performance so far by the Democratic voters.

The victory in the fall will not be so overwhelming, for to the apparent irreducible bloc of Democratic anti-Smathers votes will then be added the straight-ticket Republican plus the personal following of his GOP foe, Emerson Rupert of St. Petersburg.

Actually, the Smathers percentage vote in the Senate is primary fact of a few points from his 87.5 triumph of 1958. Then, however, he was an opponent from a relatively small State, Florida, whose prosperity moves on wheels—already have earned him national recognition. The Chicago Daily News once called him a "president statesman" and both Time and Newsweek applauded his legislative deftness.

It's tough, unglamorous work, this business of striving to legislate money—various methods of transportation into a healthy, dove-tailing operation which will effectively and efficiently serve both the public interest and their own. But we're moving, remarked Smathers.

We're trying to develop a strong transportation system for the nation by giving each State the right to use its inherent advantage freely," he asserted. Smathers, continued, "The Senator, the railroad, find their most useful freight place in long hauls, trucks, the short hauls, and waterways, the hauls in the middle."

His energies as a Senate specialist in the transportation field of vital dollar-and-cent interest to Floridians whose prosperity moves on wheels—already have earned him national recognition. The Chicago Daily News once called him a "president statesman" and both Time and Newsweek applauded his legislative deftness.

where time is not an urgent consideration. He said these natural advantages had been handicapped in various ways by regulatory agencies through artificial discriminations, mainly rates, with Congress now trying to whittle away at these barriers to free competition.

Smathers said he felt Congress would pass this year a measure intended to shrink the so-called "gray area" in trucking.

He said a Florida public service expert calculating today was in violation of regulations through the transporting of unauthorized cut-rate carloads. "It is easy to imagine," he said, "how this illegal traffic adversely affects the legal carriers."

After the discussion of such headline matters as Medicare and Florida's efforts to snare defense industry, Smathers talked animatedly about his continuing role as Chairman of the Senate's Surface Transportation Committee, a subcommittee of the Committee on Interstate and Foreign Commerce. (The Senator also is a member of the Senate's standing committee on Finance, a topflight assignment.)

BPWC Holds Dinner Meeting

To close the year's work, Business Woman's Club held a dinner meeting at the Restaurant in Sebring Monday night of last week. Thirty members and guests enjoyed the affair.

Members were placed in a shape with central floor arrangements. The place cards were miniature report cards and tiny diplomas, and it was soon revealed that the entire evening was to honor Miss Millie Ferguson who will be leaving the teaching profession at the end of this school year.

The evening was spent with entertaining games and variety of prizes were awarded to lucky people.

Hospitals stay loaded with the victims of traffic accidents throughout—It Can't Happen To Me!

Don't forget to renew your birth month. If May is your birth month.

GOOD LUCK TO YOU Class of 1962

A BRAND NEW PRESS BOX will greet members of the Fourth Estate who will come here next week to cover the Florida State High School Baseball Tournament. Located over the third base dugout, the box will accommodate writers, the scorekeeper, public address announcer. Workmen are shown adding the finishing touches.

Baseball Tourney To Start Here Monday

State's Best To Vie For Class Championships

The Florida State High School baseball tournament will open at Head Field, Monday, June 11, with eight Class A High School teams from throughout the state competing for honors. Winner of each division will take home the title of "State Champions" for the next year.

Some of Florida's top prep baseball players will take part in the tournament, many of which are being eyed by the major leagues. Thus the reason for the expected heavy influx of major league scouts, metropolitan newspaper representatives and college scouts.

The tournament is sponsored by the Avon Park Chamber of Commerce in cooperation with the Avon Park High School and the Florida High School Athletic Association. Lafayette College, a member of the AFHS coaches Guy Garrett and Joe Franks are serving as co-chairmen of the tournament, representing the Chamber.

According to a schedule released last week by Golden, four games will be played on Monday and Tuesday, constituting the first round. Four games will also be played Wednesday, pitting the semi-finalists in both divisions. Class finals will be played Thursday night. If inclement weather does not interfere, a play-off game between the Class AA and Class A titlists is planned for Friday night.

Highlands County fans are particularly interested in the tourney since the Sebring Silver Streaks are rated as a strong contender for honors. It will mark the second time the county team has taken part in the tournament since it was moved here from Ft. Pierce last year. Avon Park lost out to Deland for the championship last year. The local Red Devils were perennial contestants in the state event when it was held in Ft. Pierce.

Deland, the current Class A champion, will be back seeking a repeat crown. Robert E. Lee High of Jacksonville was last year's Class AA champ, did not survive sub-group competition and will not be back.

Jefferson of Tampa, rated by many as the class champion among the bigger schools, was downed last week when two of her top players were ruled ineligible for participating in a semi-professional league. A member of the Sebring Silver Streaks, Class A winner, was also disqualified on similar grounds. It is expected to include the tournament as a success, the City of Avon Park and the Chamber of Commerce have given the playing field in top condition.

First game of the tournament will pit two Class A teams, Deland and Sebring. It will begin at 7 o'clock Monday, followed at 8 o'clock by the Class AA game between Ft. Pierce and Jacksonville. The complete schedule:

Game 1 — 7 p.m. — Deland vs. Sebring.

(Continued on page 2)

Jackson Is Outstanding Senior Athlete; Presented Trophy Friday

Joe Jackson, a triple letter winner for the past two years at Avon Park High School, was presented a trophy for being the outstanding senior athlete for the 1961-62 school year at the high school closing ceremony last Friday afternoon. Athletic Director Joe Franks made the presentation after telling the student body that Jackson was selected for his senior on the basis of his sportsmanship, leadership, loyalty, training, and athletic ability during his years on Red Devil teams.

At the same time Jackson was presented a trophy for being the best defensive basketball player this season. Franks praised Jackson for four years of fine football playing at the Red Devil school and also told the students of his ability in basketball and baseball. He was picked this season as a member of the All-Edge basketball team and was a member of the Edge All-Conference football team last year.

Franks also presented a trophy to Lamon Meyer for the best offensive football player, the best all-around basketball player, and the best baseball player. Bobby Bates won a medal for the best all-around basketball player and also won the coveted Ed Gough Memorial Trophy for the All-Edge honor basketball team.

66 Seniors Receive Diplomas In Commencement Exercises Tuesday

Sixty-six seniors—one less than the class of a year ago—received diplomas at Tuesday commencement exercises Tuesday night in the Avon Park High School Auditorium.

The valedictory address was given by Marilyn Gratz, who shared the high honor with Joyce Antley. Ruth Border gave the salutatory address. She thanked the graduates for their service to the community.

"The Character of Our Nation" was emphasized in addresses by Miss Antley, Frankie Smith and Linda Smith. Topics were Loyalty, Dependability and Honesty. Each speaker offered a challenge to the youth of today to measure up to the full expositions of good citizens.

Miss Antley, Gratz, Border were presented the William T. Smith Award for the best valedictory address. Miss Antley also won the PTA Scholarship of 1962. The valedictory address was given by Marilyn Gratz, who shared the high honor with Joyce Antley. Ruth Border gave the salutatory address. She thanked the graduates for their service to the community.

Mrs. Monsalvate Passes Tuesday

Mrs. Kathryn B. Monsalvate passed away Tuesday morning at St. Joseph's Hospital. She had sustained a broken hip recently and was unable to get up.

The deceased was a member of the St. Joseph's Church of the Redeemer, was a native Florida and came to Avon Park about six years ago.

She is survived by her husband, Mr. Monsalvate, and two sons, William E. Monsalvate, Jr., a student at the University of Florida, and John Monsalvate, a student at the University of Florida.

Funeral services will be held at 10 o'clock Tuesday at St. Joseph's Church. Burial will be in the St. Joseph's Cemetery.

Funeral services will be held at 10 o'clock Tuesday at St. Joseph's Church. Burial will be in the St. Joseph's Cemetery.

813,650 Building Permits In May

The building permit total for the City of Avon Park climbed to \$1,613,650 for the month of May as three permits were issued for new construction and a like number for alterations.

Permit totals for the month of May were \$13,650. This was divided as follows: \$12,000 for new construction and \$1,650.00 for alterations and alterations.

Permit totals for the month of April were \$12,350. According to City Clerk Lucille Shockley.

Honor Assembly Held At APHS Last Friday

The final assembly program for Avon Park High School was held Friday afternoon. Honors and awards presented at this evening session included a very special ceremony at which time the principal, A. B. Wilkie, and Miss Millie Pearson were made honorary members of the National Honor Society.

They became the first honorary members of the Avon Park Chapter, Miss Ruth Border, retiring president of the NHS, and Miss Millie Pearson, who pointed out that honorary membership is not easily obtained, in fact, harder than to earn membership into this national society, which is based on scholastic record, character, leadership and service.

The following students were given awards: Frank Phillips, Jimmie Green, Latham Smith and Chris Copeland, for outstanding service rendered with the public address and lighting system of the school, and Latham Smith for Safety Patrol service. Others who rendered loyal, valuable service and helped protect their schoolmates in the Safety Patrol were: Alf Hellig, Bobby Light, Don Pyle, Dennis Pearl, Carol Keller, Rebecca Palmer, Brenda McCall, Virginia Wertheimer, Stephanie Woodworth and Cynthia Thompson.

Joe Kraus was named the outstanding student for 1962 in Biology.

John Rodgers, highest average for the year in general science.

Cindy Metcalfe, highest scholastic average in chemistry.

Ruth Border, highest scholastic average for four years in science, physics, chemistry and biology.

Chuck Worthington and George Ann Franks, 8th grade mathematics award.

Spencer Oberle, with an average of 96.5, was awarded the history medal for outstanding achievement in the field of historical knowledge.

Jane Nunnallee, with a yearly average of 99.6, won the social studies award.

Spencer Oberle, with an average of 96.5, was awarded the history medal for outstanding achievement in the field of historical knowledge.

Commissioners Sice Fees for Pauper Burial

Summertime Reading For School Teachers

Summertime reading will be anything but light for the teachers who are preparing to teach Florida's new Communism and Communism course.

As the 1962 school year enters its closing days, the county Board of Public Instruction officers began preparing the books on the bibliography for the course.

Superintendent Andy Miracle said the Highlands County school board has purchased a complete set of the materials recommended by the State Department of Education for teachers to use.

As might be expected, most of the books look heavy and the titles indicate that the contents are not exactly light reading. Miracle said the teachers will be expected to begin "boning up" immediately so that this material will form a background for workshops later in the summer.

Highlands County school board has made plans to send teachers which will be conducted at the University of Florida and the American Union.

Every student in his third year in high school, after the 1962-63 year, the study must be taken by all fourth year students.

Miracle said that in this county the study will be incorporated into the American history course. This course has been required of every third year student in Florida high schools.

Working the communism study into the senior (fourth) year for the seniors not taking the course of Problems of American Democracy, can broaden their study to include the Americanism vs. Communism material.

However, this is an elective course, Miracle said, and other ways will have to be worked out for the seniors not taking that elective.

Miracle said it now appears that in Avon Park High School the Americanism vs. Communism course probably will be taught in part by television. The course is to be presented via channel 3.

Some adult organizations are urging the Florida adult state to take advantage of the offering of the new course on television.

In a speech made Monday in Avon Park, Florida Federation of Women's Clubs President, Mrs. J. R. Glover, said she and her group intend to send their moral support to the school as this new study begins.

She said the women's club across the state are being urged to make the books on the course bibliography, which is available by purchasing them for public and school libraries.

Placid Driver Is Charged After Accident Here

County Court "business" suddenly boomed this week. Judge Mervin Rehner was confronted with a docket of 39 cases, involving 34 different prisoners, at the Monday morning session of court.

Among the cases were three against Highlands County drivers. Driving while intoxicated was the charge against Ben Gillipie, 53, white, and Austin Pickins, 39-year-old Negro. Both men are from Avon Park.

Each entered a plea of guilty. Gillipie was fined \$200 or 90 days in jail, and his right to drive revoked for a year. He also pleaded guilty to driving without a license and on that charge was fined \$30 or 15 days in jail.

Pickins was fined \$200 or 90 days in jail, and his driver's license revoked for six months. On a charge of assault with a deadly weapon he waived preliminary hearing and was bound over to Circuit Court. Bond was set at \$1,000.

Henry Vernon Duncan, Jr., 28-year-old white from Ft. Placid, entered a plea of no contest on a charge of driving while intoxicated. He was fined \$200 or 90 days in jail, and his driver's license revoked for six months.

Duncan was the driver of a vehicle that rammed his way into another car driven by Dr. Sidney Gills, pastor of the Sebring Assembly of God Church. The mishap occurred Sunday night on a four-lane stretch of U. S. 27, about one-half mile north of the Avon Park city limits.

Duncan, proceeding South, was in the north bound lane of the separated four-lane highway when the accident occurred. Neither driver was injured. A Moore of the Florida Highway Patrol investigated the accident with the aid of the Highlands County Sheriff's Department.

Improvements Underway On City Beach

Workers are busy hauling in sand to make at least part of the city beach on Lake Verona safe for youngsters to swim. George Border, city councilman in charge of the project told The Sun that present plans call for improving a portion of beach on the North side of the pier.

George Border after fill has been hauled in, an area will be roped off for non-swimmers and teenagers. He pointed out that the only thing that would help the high and dry pier situation was nature — with an extended rain season.

Border was appointed at the last council meeting to work with Mayor E. A. Delaney in making the beach safer. In back of the council's mind was that since school has been dismissed for the summer, youngsters would frequent the beach in much greater numbers.

The councilman continued to urge parents to keep a sharp eye on their children when they are swimming in the area. Even with progress, Lake Verona is still known to be very deep.

Those might be looking up for Border however. Avon Park was drenched with its first heavy rain in recent weeks on Tuesday and forecasts call for more. Could it be that Mother Nature helps those who help themselves.

Collier Bound To Circuit Court

In County Court Tuesday, Judge Mervin Rehner denied a motion to quash charges against E. Collier.

Collier, at the request of his attorney Harry Lee, has been bound over to Circuit Court. Bond, set at \$10,000, was continued.

Collier allegedly issued a check for worthless checks in a transaction to purchase cattle.

Summer Rains Finally Begin

The long awaited Summer rains appeared to have finally descended on the Avon Park area at 1:25 in the afternoon today did considerable good to drought stricken groves, pastures and lawns.

Rainfall for the five day period ending today totaled 1.50 inches, a substantially more than has been recorded during the last two months in such a period. And, according to forecasts, the rest of the week should be so lucked.

Class Holds Swimming Party

Last Friday at the Florida Power Clubhouse, Mr. Hemphill's Room 8-4 held their end-of-the-year Swimming Party and Picnic.

Twenty students enjoyed a swim in Lake Lotela, then

listened to records and danced. A picnic supper of hot dogs, cole-slraw, potato chips, relishes, cupcakes and punch was served in the group by the chaperones, Mr. and Mrs. Franklin Ward, Mr. Hemphill, Mrs. Schold and Mr. and Mrs. Charles Ward.

The boys and girls contributed toward the party, and the class wishes to thank those parents who donated food and extra money to help make the party a success.

APHS Grad Has Golf Pro Position

Wayne C. Knowles, a former graduate of Avon Park High School, has accepted a position as assistant golf professional at Ryeview Golf Course in Rye, New York.

He left for New York, April 6, and plans to return to Avon Park the latter part of November. While in New York, Wayne will be working under Jim Turney, a professional golfer. After returning home in November, Wayne will be associated with Pinecrest Golf Club in Sebring.

Birthday Party At Tondoe Home

Mr. and Mrs. Virgil Tondoe surprised their neighbor, Mrs. Claire Province, with a birthday party Friday night. They had invited the honoree to come over for homemade ice cream late in the afternoon. She brought along the many gifts that her little first graders had brought to school Friday, which she planned to open and enjoy while they ate ice cream. The surprise came when friends began to arrive bringing gifts also.

Mrs. Tondoe had baked and decorated a large cake for the occasion. Nuts and mints and the homemade ice cream were served after the gifts were opened and admired.

Guests invited were Mrs. Georgia Dunning, Mrs. Addie Lee Best, Mrs. I. L. Hall, Mrs. and Mrs. Harvey Hart, Mr. and Mrs. David P. McDaniel, Clyde Parvill, Mr. G. L. Harrison, Miss Salie Harrison, and Mrs. Patti Hill.

Faculty Honors Miss Pearson

Lady members of the APHS faculty enjoyed a luncheon at the home of Mrs. Charles Mueley on Lake Viola, Monday. The affair was planned as a courtesy to Miss Millie Pearson, who will end her duties at APHS because of her retirement this year.

Mrs. Mary Jean Reddick and Mrs. Patti Hill assisted with the luncheon, after which the ladies returned to their classrooms at the school to complete their day's work.

FHA Holds Final Meeting, Select New Officers

The Future Homemakers of America held their last meeting of the year on May 31 at the home of Cindy Metcalfe. About 25 girls attended, dressed as Hawaiians.

After a hot dog supper, their business meeting was held. Anita Lombardi, the retiring president presided. New officers were elected. They are as follows: Deborah Reddick, president; Carol Ann Childress, president elect; Bonnie Oberle, secretary; Judy Prichett, treasurer; Cathy King, vice president of projects; and Cindy Metcalfe, vice president of program of work. The remaining four officers will be filled at the beginning of the school year. All the officers along with the members of their respective groups will have a workshop in the fall.

Following the elections and business meeting, everyone enjoyed an hour of fun.

Here and There—Mrs. Wilson Visits Relatives In Tallahassee

Mrs. Murray Wilson went to Tallahassee on Friday and she and her daughter, Miss Edith Wilson, a student at FSU, visited relatives near by before returning home.

Mr. and Mrs. Virgil Tondoe met their daughter, Miss Patti Tondoe, in Winter Haven Sunday afternoon. Patti had made the trip from FSU, Tallahassee to visit her mother.

She will be going back to FSU for summer school on June 17. Miss Salie Harrison of Aubrey College, Ky. spent a few days with Miss Reba Clarke in Decatur, Ga., enroute home. Salie was met by her mother, Mrs. L. Harrison, in Haines City Thursday and together they attended the graduation of Miss Judith Lee Hilschke, a student at RCHS. Judy had entered the first grade in Avon Park when she made her home here with her aunt and family.

While in Haines City, The Harrisons were guests of her mother, Mrs. Araminta Reynolds.

Mr. and Mrs. J. W. Cross of Shreveport, La. and Mr. and Mrs. Rhonda Harris of Goodline, La. were guests this past week of Mr. and Mrs. R. D. Reddick.

Mr. and Mrs. Claude Chamberlain have returned from an extended visit with their daughter and other relatives in Mississippi and Missouri. They took his mother, Mrs. E. G. Chamberlain to her daughter's home, Mrs. Ruth Hawkins, in Leesworth, Kansas, and they visited Mr. and Mrs. Emory Scott who were last winter and sent greetings to their friends here.

The Chamberlains also saw their great granddaughter in Tallahassee, Louisiana.

Refreshed guests with Mr. and Mrs. C. A. Gruber at Lake Lillian, were Mrs. Emma Hutchinson and Mrs. Claude Turner of Melbourne.

Mrs. Ford Shows Slides of Europe To 6th Grade

Mrs. I. H. Ford paid a return visit to the Sixth Grade Class of Mrs. Betty Anderson on Wednesday, June 23, to show her beautiful color slides of Europe.

The boys and girls were especially interested in Mrs. Ford's pictures and interesting talk as they had just finished their study of these countries in their social studies class. The pictures covered England, France, Switzerland, Italy, Germany, Austria, and Germany. A visit into East Germany from Berlin made by the Fords gave the sixth graders a more vivid picture of the nature of the Berlin Crisis and a slight idea of what conditions are actually like under Communist rule.

It was very interesting to the children and their teachers. Mrs. Ford had spoken to the group earlier and shown her pictures of the Middle East when they finished that unit of social studies. At that time she graciously consented to the children during their study of Europe and their enjoyment of the pictures on which their textbook studies were based.

Mrs. Ford helped a great deal to make social studies seem real and present to the sixth grade by the generous gift of her time, films and interesting narrative.

Senior Luncheon At Jacaranda

A custom which had its beginning in the early thirties when the PTA entertained the graduates with a breakfast, was again held this year in the form of a luncheon at noon, at the Jacaranda Hotel, Thursday, May 31.

The Jacaranda has been the center of many activities of the school for many years. Its present owner, Roy Goates, invited the class to hold their tenth year reunion at the hotel as his dinner guests, if he is still in the hotel in 1972.

Following the delicious buffet dinner the class officers and school principals made brief speeches. All paid tribute to Miss Millie Pearson who was also a guest of the class, and who will retire this year.

The class returned to the school building where they made final plans for the graduating exercises and the baccalaureate services.

REV. BOAZ ATTENDS FAC

The Rev. Russell Boaz, pastor of The First Methodist Church, will be attending the Florida Annual Conference of the Methodist Church, this week. The conference is held at the First Methodist Church in Lakeland.

may now be presented. Granted that 1962 will not shape up to the boom year that had been predicted by some only a few months ago, the statistics show what has been accomplished thus far this year, and projections of what's ahead indicate that 1962 will go down in the annals of business history as a good year.

To cite a few facts: In 1962, the Gross National Product this year may be at an all-time high of \$200 billion, up from \$161.8 billion in 1959. The rate of unemployment is a record low of 4.2 percent, down from 6.7 percent in 1959. The average weekly wage is up 10 percent from 1959. The average hourly wage is up 10 percent from 1959. The average weekly wage is up 10 percent from 1959. The average hourly wage is up 10 percent from 1959.

It was a very interesting to the children and their teachers. Mrs. Ford had spoken to the group earlier and shown her pictures of the Middle East when they finished that unit of social studies. Ticker Talk

FOR INVESTORS

There is an old adage which is more true today than ever. It is that in the stock market nothing changes faster than sentiment.

So far in 1962 we have seen a fall from favor of yesterday's glamour stocks, such as those of the electronics and vending machine companies. And, the overall trend of share prices has been downward. At its recent low, the stock market, on the average, was 16 per cent beneath its all time high recorded last November. But, the loss for many individual shares considerably exceeded this decline.

At this time, after a decline of this magnitude, it is well to take a look at the picture in our opinion—at the present and future opportunities that

in our opinion. Looking ahead some of the potentialities for future growth in our position, increase, financial growth, continued high spending for research & inflation, price level, and the present availability of shares. A share of a company's price/yield basis.

This is a very interesting to the children and their teachers. Mrs. Ford had spoken to the group earlier and shown her pictures of the Middle East when they finished that unit of social studies. At that time she graciously consented to the children during their study of Europe and their enjoyment of the pictures on which their textbook studies were based.
