Rotarians To Hear Candy Man

Members of the Avon Park Rotary Club will be "sweet talked" Wednesday, September 26, at the Jacaranda Hotel. The speaker will be a representative of the Candy, Chocolate and Confectionery Institute, Mr. Ervin R. Shames of Pink Cottage Candies in Mount Dora.

Shames will discuss the evolution of candy from its beginnings in antiquity to the more than 2,000 varieties which are manufactured in modern plants throughout the United States today.

He will point out that candy is food for the psyche, or the nerves, in this "Age of Anxiety" and also is an important energy builder for the body.

Blue Crab production amounted to 24,615,215 pound valued at 1,080,911 dollars for 1961 according to the State Board of Conservation.

Woman's Club Installs New Board Members

New board members were introduced at the first board meeting of the year, held at the Woman's Club House, Wednesday morning, September 12, with the president, Mrs. S. F. Elkhill, presiding.

The new year's work was outlined and Mrs. Elkhill announced that the club's year book would be completed for the October meeting, which will be on Legislation. Mrs. Mervin Rehrer will be program chairman and she expects to have a local speaker.

Plans were made for a group of ladies to attend the state board meeting which will be held in Sarasota, October 1-3.

Serving with Mrs. Elkhill this year will be Mrs. R. M. Coats and Mrs. Louie Reisner, 1st and 2nd vice president; Mrs. George C. Adams, recording secretary and Mrs. J. A. Terp, corresponding secretary; Mrs. Asa Clement, treasurer and Mrs. A. M. Luyben, registrar.

Sixteen board members were present. Mrs. Elkhill served homemade cookies and coffee at the close of the meeting.

Vice President Of WSCS Speaker At Avon Meeting

Mrs. C. Durwood Johnson, vice president of the Florida Conference of the Woman's Society of Christian Service, will be the guest speaker for the Seminar to be held at the First Methodist Church, Avon Park, September 27.

"O Send Us Forth" will be the theme of the seminar, and the title of Mrs. Johnson talk. Mrs. Johnson is known throughout the state for her work with children. She is the immediate past chairman of the Florida Children Commission, and is still on the executive committee. She is also a member of the board of directors for the National Council of State Committee of Children and Youth, and on the board of directors for the Florida Juvenile Court Foundation, and a past president of the Florida Congress of Parents and Teachers.

Registration for the seminar will start at 8:05, classes will commence at 9:30. Miss Clara Mahler, Sarasota district secretary, missionary education, will be assisted by Mrs. Maude Parker who will teach on the Rim of East Asia. Prayer will be taught by Mrs. Junior Avers. Who Cares will be given by Mrs. Clinton Wineland assisted by Mrs. George Clark. Today's Children by Mrs. J. T. Blalock. Missionary Education for Children, Mrs. John Cummings assisted by Mrs. E. C. Kebock. Missionary Education for Youth, Mrs. J. Irvin Muhn.

Mrs. M. L. Turbeville, Sarasota district president, will preside over the business meeting. The secretary of spiritual life, Mrs. Junior Avers, will give the devotions. The Rev. Russell Lenox will give the noontime grace. The session will conclude at 12:30. There will be a lunch served.

Scholarship To Avon Graduate

Darrell Merle Bailey, a graduate of Avon Park High School, has been awarded a $1,000 scholarship to Berry College, Mount Berry, Ga.

Bailey, is the son of Mrs. Myrle Reid. The scholarship is for use during the 1962-63 academic year beginning in September.

In addition to having received the scholarship, Bailey will also participate in the college's work-experience program through which he will receive additional earnings to be applied toward his remaining expenses.

Berry is a fully accredited four-year coeducational college offering the bachelor of arts and bachelor of science degrees. All students at Berry College participate in the flexible work-experience program on or off campus.

The religious program is interdenominational. Students worship in campus chapels and participate in other religious activities.

Students Collect For Goodwill

Avon Park pupils will take an active part in National Employ the Handicapped Week, October 8-12, by collecting clothing for Goodwill Industries. School Superintendent Sheeley Boone is chairman.

Thanks to the school clothing drive in this area and to the Boy Scout clothing collection for Goodwill Industries in the spring, the hire-the-handicapped organization has been able to increase its employment of the handicapped annually.

A year ago at this time, Goodwill had 260 handicapped people on its weekly payroll. Currently, 280 men and women who have disabilities are employed by Goodwill.

If the upcoming drive is a success, Goodwill expects to increase its employment figure to 290 by winter, and possibly 300 by spring, Goodwill executive director Dr. R. C. Adair said.

Night and Morning

Into the west at set of sun
I looked when my day's
work was done.
No evening star was there
to light
My pathway through
the coming night,
Only cloud banks, dour and dun.

O evening sky, where is
your light?
Have you no gleam of
hope tonight?
Echoed the skeptic heart,
"Not one."

But with the peep of
early dawn
I brushed the dews on
upland lawn,
And lo, the clouds had
rolled away
And bright was the east
with breaking day
And birdlings caroling the
morn.

O morning sky, what can
you say?
Have you a word of hope
today?
Echoed the heart,
"Aye, many a one."

H. J. Fenton

NICE CATCH—Richard Derkman, local angler, proudly displays an 8-pound, 10-oz. bass he landed in an Avon Park lake last week. Derkman was using a black worm bait when he hooked the black beauty. He used spinning tackle.

1963 Chevrolet Trucks Now On Display at Avon Park Dealership

New lighter weight, more efficient six-cylinder power, addition of an economical four-cylinder engine; significant suspension redesign for most favoable ride, durability, and load capacity, and new frame designs tailored for specific load requirements head a broad list of improvements offered in the 1963 Chevrolet truck line.

"These advances represent the most extensive chassis changes in our history and combine the best of the time tested and proved Chevrolet features with the latest truck design innovations," J. E. Conlan, assistant general sales manager for trucks, said in announcing the new line.

The new engines are of overhead-valve design, precision cast for reduced weight and with internal reinforcements to assure rigidity and durability. A particularly important feature is use of main bearings between each crankshaft arm, resulting in exceptional rigidity, durability, smoothness and quiet operation.

The 292 cu. in. engine incorporates additional durability features for heavy-duty use. They include forged steel crankshaft, aluminized inlet valves, stellite-faced exhaust valves equipped with rotators, and heavy-duty premium-alloy bearings.

The four-cylinder engine will be used only in ½-ton forward control models. The 230 six will replace the 235.5 cu. in. six in all former applications, except four-wheel drive models, and similarly the 292 will replace the 261 six.

Independent front suspension, with its unexcelled riding qualities, is retained in light-duty conventional models, but coil springs replace torsion bars formerly used. A notable innovation in light-duty rear suspensions are two-stage coil springs which combine driver comfort, cargo cushining, and high-load capacity in one unit.

In medium and heavy-duty models, combining the excellent riding qualities of variable-rate springs with a solid axle provides a rugged, stable suspension with high-load capacity and eminently satisfactory ride.

A ladder-type, channel frame is new in most ½ and ¾-ton models. Stronger side rails and more crossmembers also increase rigidity and durability.

In medium and heavy-duty series, straight channel section frames, with side rail guage thickness increased appreciably in most models, afford a gain in beam strength. Improvement in frame crossmember design also contributes to over-all durability.

In the Corvair 95 front suspension for 1963, greater parts durability and reduced maintenance are provided through extended-life lubrication. Chassis lubrication intervals are extended to 6,000 miles or six months, and engine oil changes to 6,000 miles or 60 days. Also contributing to reduced maintenance on the Corvair 95 are self-adjusting brakes.

Other improvements to the Corvair 95 line include relocation of gear shift and clutch controls to more protected locations for freer operatin, refinements in steering linkage for easier steering and faster response, and heavier rear springs to maintain more constant wheel camber and promote longer tire life.

A 7.2-inche reduction in overall frontal sheet metal and bumper width in conventional-cab medium and heavy-duty models with 5,000 and 7,000 lb. axle ratings is important for increased maneuverability in narrow city streets or loading areas and in logging operations. Interior cab width remains unchanged.

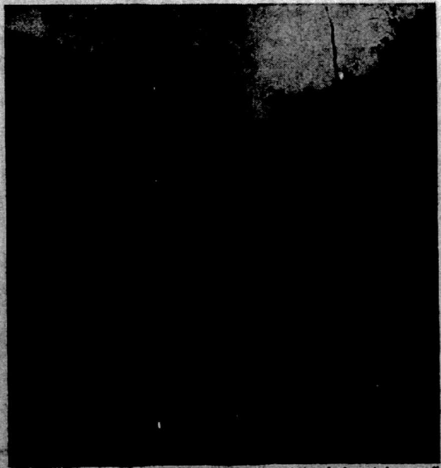
New shear-type sheet metal and rear body mounts in most models contribute substantially to durability of sheet metal by damping out shake, and affording softer over-all vehicle ride.

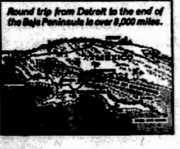
* * *

New power, durability in

1963 Chevrolet truck line

Two new, modern, more efficient six-cylinder engines head a long list of improvements in the 1963 Chevrolet truck line. Other features include [illegible] front axle and spring design in medium- and heavy-duty [illegible] excellent ride and durability; generally heavier frames [illegible] independent front wheel coil springing in light [illegible]; narrower front sheet metal width for easier [illegible] operation on many models and improved body and [illegible] mounts for softer ride.





Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!

Round trip from Detroit to the end of the Baja Peninsula is over 8,000 miles.

Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road is fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet truck caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

Sometimes the caravan crept along for hours in low gear. It took 17 days to go 1,066 miles! This is the road near Loreto.

Avon Park Lakes News

By Thelma L. Merrill
Phone GL 3-6146

T[illegible] Constitution Week, [illegible] 175th anniversary of the signing of the Constitution [illegible] States of America. [illegible] people celebrate the [illegible] of the Constitution, [illegible] document ever [illegible] Let us [illegible] understanding [illegible] appreciation of [illegible] ideals that [illegible]

[illegible] Mrs. [illegible] at a [illegible] in Nashville [illegible] George Burroughs [illegible]

[illegible] come to the [illegible] covered dish [illegible] (Thursday) at [illegible] at the club house. [illegible] for the evening will [illegible] Mrs. Charles Burroughs, Mrs. Emma Coburn and Mrs. Ma[illegible]

Thanks to Mrs. Pearl Castine for her splendid assistance with this column the past several weeks.

Mr. and Mrs. Paul Calvert of Owensboro, Kentucky have rented the Taylor house on Ithaca Drive, for the next few months. The Calverts own lots at the Lakes and may build later.

Thelma Merrill travelled to Des Moines, Iowa for a visit with "home-town" friends and with her cousin, Miss Louise Landes. She also had a pleasant reunion with dear friends Mrs. Faye Marshall of Los Angeles, California, Mrs. Ella Farrand of St. Petersburg, and Mr. Loris Craig of Taipei, Taiwan. Mr. Craig was in the diplomatic service in the far East for many years, and is now American Manufacturers representative in Taiwan. From Des Moines, Thelma went to Bethlehem, Pennsylvania where she was house guest of Mrs. Marjorie Gross. While in Pennsylvania she visited her cousins, the Luybens, in their home Willouio Manor in Zieglerville. She motored to Great Neck, Long Island, New York to attend the wedding and reception of Mr. Robert Brunner of Maplewood, New Jersey and Miss Audrey Frost of Great Neck. In New York she was entertained by friends, Mr. and Mrs. Elton Vineburgh, the high light of which was dinner in the fabulous new restaurant La Fonda Del Sol in the Time and Life Building. Enroute home she stopped in Washington, D. C. for a brief visit with friends. The weather was delightfully cool in the north - but she is happy to be home - in spite of the Florida heat!!

Mrs. Dee Stotts returned to the Lakes on Monday after a brief visit with her brother in Springfield, Illinois and with her sister and brother in Charleston, Illinois. Welcome home Dee!

We recently received word that Ha[illegible] LeCh[illegible] is ill, and we all pray for his speedy and complete recovery.

Mrs. A[illegible] had a "household" accident Saturday - she cut her hand quite severely and we took her to Walker Memorial Hospital for the "stitching".

Everyone is pleased to note the progress in the completion of our new Shuffle Board Courts. Won't be long now!

Mr. and Mrs. George Adams entertained six for dinner on Saturday evening.

After a seven thousand mile journey Mr. and Mrs. Robert Hanford are so happy to be home. On July 9th Mrs. Hanford motored to Grove City and Cambridge Springs, Pennsylvania to visit with her family and friends. Mr. Hanford joined her in Grove City on August 15th in time for Mrs. Hanfords family reunion. They then drove to Albuquerque, New Mexico to visit Mr. Hanfords' family, and while in New Mexico they spent several days at the Art Colony in Taos. The Hanfords then proceeded to Midland, Texas to visit his daughter. We welcomed the Hanfords home on Friday.

On Sunday Mrs. S. F. Elkhill, President of the Senior Womans Club of Avon Park, Mrs. George Adams, Secretary, and Thelma Merrill a Board Member, attended the open house ceremonies of the Highlands County Juvenile Home in Sebring.

I'm confident that "fall-isn't-in-the-air" for we are still having a heat wave, but there were eleven ladies and two gentlemen that walked around Lake Olivia Sunday night.

"About the time you learn to make the most of life, the most is gone."

Births

WALKER MEMORIAL

Mr. and Mrs. Kenneth McLeod, a son, Elbert, born September 5, weighed 7 pounds, 9 ounces.

Mr. and Mrs. Garland Mathews, Frostproof, a daughter, Tonya Marie, born September 5, weighed 8 pounds, 7 ounces.

Mr. and Mrs. Elonza Clebon Culverhouse, a son, Wiley Earl, born September 6, weighed 7 pounds, 10 ounces.

Mr. and Mrs. Rubin Gallegos, a daughter, Linda Jean, born September 7, weighed 8 pounds, 1 ounce.

Mr. and Mrs. David Barney Johnson, a son, David Richard, born September 7, weighed 10 pounds, 5 ounces.

Mr. and Mrs. Laurence Raymond Hanks, Jr., Ft. Meade, a daughter, Shelly Yvonne, born September 8, weighed 4 pounds, 2 ounces.

Mr. and Mrs. David Wyman Wilson, Wauchula, a daughter, Sophia Tinna, born September 8, weighed 7 pounds, 8 ounces.

Mr. and Mrs. Edwin Arnold DeLoach, Sebring, a son, David Arnold, born September 9, weighed 5 pounds, 8 ounces.

Mr. and Mrs. William Monrow Moncrief, a son, Glenn Monroe, born September 9, weighed 9 pounds, 6 ounces.

Mr. and Mrs. Morris Durrance Anderson, Sebring, a son, Kerry John, born September 10, weighed 9 pounds, 3 ounces.

Mr. and Mrs. Ronald Edmund Fagan, Lake Placid, a daughter, Lucy Anette, born September 10, weighed 6 pounds, 3 ounces.

CARD OF THANKS

The many cards and letter, prayers and kind thoughts of me while I was a patient at Walker Memorial Hospital are greatly appreciated. My heartfelt thanks to my many fine neighbors.

Mrs. W. F. Parry

Returns To Medical School

Richard C. Larsen was here for a short visit with his parents, Dr. and Mrs. C. J. Larsen, before he returned to his studies at Loma Linda University, Loma Linda, Calif. where he is in his third year of medical school.

Richard has spent the summer in Puerto Rico, having been one of seven from his class at Loma Linda University who was sent on a mission fellowship. He served in the Balla Vista Hospital, Mayaguez, Puerto Rico as an assistant to the medical staff. Upon returning to the University he will receive a $600 scholarship towards his studies.

En route home Richard visited Jamaica and Haitti and the Virgin Islands.

You will never reach the top by using the feller's face below for a stepping stone.

College Students Returning

Hugh Haynesworth, son of Mr. and Mrs. Earl Haynesworth, has transferred to the University of South Florida, Tampa. Other APHS graduates attending USF who were not reported in last week's Sun are Daryl Bailey, Ben Earnest and Arthur Cody.

Morris Gay has returned to Berea College, Berea, Kentucky.

David and Paul McFarland have returned to the Berry Schools at Rome, Georgia.

Students entering business schools are Judy Martin, Nancy Coleman, Mary Pearce and Judy Hooper, who went to Jacksonville; Frankie Smith, Nancy Lane and Frankie Smith who enrolled in Orlando.

Limit your desire to speed to the dreaming stage only. You'll live longer that way.

WITH NEW GRAN[illegible]

Mrs. W. B. Hilton [illegible] her daughter and son-in-[illegible], Mr. and Mrs. "Tad" Whitehurst, in Valdosta, Georgia, where she went to see her newest grandson, David Murray, born September 11 at the Pineview Hospital in Valdosta. The young man weighed 8 pounds and 6¾ ounces. The Whitehursts have three other children, John, Carol and Barbara.

do you remember?

Do you remember the first time you listened to a **sea shell? And when you watched a sunflower** turn toward **the sun? And when** you tried to guess where the pot of gold **was at the end of the** rainbow? Life is full **of sweet mysteries for the young.** Do you remember?

In fact, life reveals **even more** sweet mysteries as we grow older. When we **think of these things,** the mysteries of life, of God's care **of us,** of the wonders of the universe—you know, that's a way of praying! Yes, just thinking about God.

Fortunately, too, we have the Church—your church —a place to contemplate such things, to pray, to ask questions, and give thanks to Almighty God. Go to the church of your choice this Sunday. There you will find some of the answers . . . to some of these wondrous mysteries.

**THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

COUNTY JUVENILE HOME DEDICATED—Formal dedication of the Highlands County Juvenile Home at DeSoto City took place Sunday afternoon. Open house was held during the afternoon and the dedication address was given by Frank Zych, assistant of the Florida School for Boys, Okeechobee. The home has been leased to the county rent-free by the owner, Mrs Sadie Kahn. (Sun Photo)

Bell-Trimm Wedding Rites At Seventh-Day Adventist Church

Mrs. Alice Jane Bell and Kendrick Trimm were united in marriage Thursday, September 13, in the Walker Memorial Seventh-day Adventist Church at 7:30 p. m. Elder A. W. Ortner officiated in the ceremony. Palms and green foliage were used on the altar. Mrs. C. J. Larsen rendered a program of organ music.

Mrs. Edward A. Cook sang "Give Me Thy Hand", by Dorothy Stewart, and "O, Perfect Love", by Dorothy Blomfield Gurney. Words to the first song were brought from South Africa by a friend of the couple.

The bride wore a soft brocaded dress of street length and a single white orchid corsage. Mr. and Mrs. Robert Arquitt attended the couple. Mrs. Arquitt wore a beige dress with a corsage of white carnations.

At the close of the ceremony, Elder Ortner invited Mr. Trimm's two children, Patricia, who is eleven, and Stanley who is nine years of age, to come to the altar for the closing prayer uniting the family together.

Mrs. Trimm has been the supervisor of the operating room at the Walker Memorial Hospital for the past six years. Mr. Trimm came to Avon Park from Canton, New York.

New HD Agent Meets With A. P. Group Thurs.

Mrs. Pat Hurley, home demonstration agent for Highlands County, met with a group of housewives Thursday afternoon at the home of Mrs. Bobbie Maddox, to discuss the forming of a Home Demonstration Club here for the young homemakers. Mrs. Hurley explained the purpose of the club and the goal, which is to teach the homemaker new and improved ways and methods of home management, and the better way for family and community life.

Ladies present were Mrs. Maddox, Mrs. Judy Brock, Mrs. Annajean Kimbrough, Mrs. Harriett King and Mrs. Gloria Arnold.

An invitation is issued to all homemakers up to the age of 35 years to attend a meeting Thursday, September 27, at 3 p. m. at the home of Mrs. Harriet King, 30 West Winthrop Street for the purpose of organizing a Home Demonstration Club. Mrs. Hurley will be present to give a demonstration program. The hostess will serve refreshments and anyone who is interested in the work is invited to attend.

Picture File Setup By Fla. Development

TALLAHASSEE — Chairman-Director Wendell Jarrard of the Florida Development Commission said today that about 15,000 catalogued negatives and 40 motion picture films will be transferred to the Photographic Archives of Florida State University's Library. FSU's Photographic Archives depict, in thousands of pictures, the history of Florida since the beginning of the Civil War.

Too dated for Development Commission publicity use by changing styles in clothes, automobiles and buildings, many of the photographs were said by Jarrard to possess continuing historical worth for the Archives.

"We are delighted to be able to put these pictures, taken over the years by the Commission's photographers, where they may be of further service to the public," Jarrard said.

In making the transfer, the Development Commission reassembled the pictures in the categories of its own filing system. This was done both for easy access should specific outdated pictures be requested by publications and for convenience in making other transfers as its files are periodically reviewed.

N. Orwin Rush, Director of Libraries for Florida State University, said the Development Commission collection was of "very considerable historical importance" since the photographs reflected Florida recreational, agricultural and industrial activities of the past decade.

"We are grateful indeed to Mr. Jarrard for his thoughtfulness in making these documentary pictures available," said Rush. "These scenes broaden materially the opportunity of the historians, scholars, and others who use the Photographic Archives to see the Florida of yesteryear."

Jerrard said the Development Commission and Florida State University enjoyed a two-way working relationship, since the Photographic Archives also supplied the Commission's frequent need for photographs of a historical nature.

Bates Enrolls At Southern

LAKELAND—Robert Bates of Avon Park is among the 750 new students enrolled for the Fall semester at Florida Southern College here.

A 1962 graduate of Avon Park High School, he is the son of Mr. and Mrs. Grover R. Bates, 1120 West Prairie St.

Florida Southern has 1,800 day students enrolled for the Fall semester. An additional 500 have registered for night classes.

U. of S. Florida Seeking Mascot; Public To Select

TAMPA—The University of South Florida needs a mascot and the public has been asked to help select one.

The new state university, now beginning its third year of operation, has never designated a mascot. The sudden concern over selection of one comes as a result of designing of senior class rings. A blank on one side of the ring awaits selections of a mascot.

Since the University is an integral part of the state, students decided a contest to choose a mascot should be opened to all residents of Florida. Rules for the contest were drawn up by the University Center Program Council, which requires that all entries be accompanied by an explanation of 40 words or less as to why the name would be appropriate.

All entries must be mailed to the University Center Program Committee, in care of the University of South Florida, Tampa. Deadline is midnight, Sept. 23. The earliest postmark will decide the winner in case of duplicate entries.

After the Student Association executive council selects 15 semi-finalists from the entries, a vote by members of the Student Association, faculty and staff will first determine five finalists then on Sept. 28, the winner.

Prizes for the finalists include a portable typewriter, a trip to Nassau, and cash prizes of $30, $15 and $10.

The contest committee said persons entering the contest "should keep in mind that the mascot chosen will be the one most representative of the University, its immediate area and the attitude of its inhabitants."

Wesleyan Guild At Martin Home

The Wesleyan Service Guild met in Wesley Hall Wednesday evening with Mrs. T. O. Martin, chairman, conducting the business. Fourteen members and one visitor were present.

Mrs. Russell Boaz and Mrs. Lee Wentworth presented an inspirational program based on scripture from 3rd chapter of Phillippians.

Plans were made for delegates to attend the District Seminar to be held in Arcadia on Sunday, September 23.

Boy we laid 'em low over the Labor Day weekend. How about let's slowing down between now and Christmas?

NORMAN HOLLINGSHEAD

Hollingshead On Navy Leave

Norman D. Hollingshead is visiting his parents, Mr. and Mrs. L. M. Hollingshead, at their Lake Anoka home. He has completed his basic training with the United States Navy at the Navy Training Center at Great Lakes, Illinois.

Following his 14 day leave at home, Norman will report for further training at the Sonar School at Key West. Before joining the Navy, Norman attended Avon Park High School.

Party For Jim, Gail Chestnutt

Jimmy Chestnutt and his sister, Gail, celebrated their birthdays with a party at their home, 418 West Circle Street on Thursday afternoon. Jimmy was 13 and Gail was 12 years old.

The party was held under the carport which was decorated with festive streamers of crepe paper. The boys brought gifts to Jimmy and the girls brought gifts to Gail. Assisting Mrs. James Chestnutt, Jr., was the honoree's grandmother, Mrs. James Chestnutt, Sr., and her houseguest, Miss Jeanie Bridges of Sanford. They served the guests homemade ice cream with the birthday cakes and punch.

Those present to help celebrate the birthdays were Jeanie DuBose, Marsha McDougal, Marilyn Smith, Emily Rowland, Nancy Mitchell, Sheri Adams, Cheryl Fout, Tommy Walton, Jerry Kendrick, Dennis Raczkowski, Roger Hooten, Darryl Cloud, Jeffry Stokey and Johnny and Marty Chestnutt.

New Audubon Colony Near Brevard, N. C.

Establishment of the first Audubon residential colony in the nation at Sherwood Forest, near Brevard, North Carolina, has been announced by Arthur M. Dehon, Director of Sherwood Forest.

Mr. Dehon said that the Audubon Colony is located in a 950-acre wildlife sanctuary in the heart of western North Carolina's scenic segment of the Blue Ridge Mountains.

Audubon Society members and others with a hobby or professional interest in the out-of-doors are eligible to establish permanent homes or vacation cottages at Sherwood Forest where they will have neighbors who share their interest and who likewise appreciate a setting where natural beauty is retained and man's intrusion is kept to a minimum.

The Audubon Colony is being developed under the direction of an advisory board chairmaned by Ken Morrison of Lake Wales, National Audubon Society lecturer, vice president of the Florida Audubon Society, and former editor of Audubon Magazine.

Plans being formulated for next summer's activity at the Colony include field trips, led by a resident naturalist, through Sherwood Forest as well as nearby Pisgah National Forest and Great Smoky Mountains National Park. Evening wildlife film showings and lectures on nature subjects are slated for Robin Hood's Barn, the Colony's rustic social center that seats 250 people.

Sherwood Forest at Cedar Mountain, 40 miles south of Asheville, already has 20 permanent residences and vacation cottages. A wide variety of sites are available to nature enthusiasts, including lakeshore, brookside, and mountain top. A few rental cottages are available by the week or month from May to November.

Sherwood Forest, at a cool 3,000 to 3,200 feet elevation, supports an abundant population of birds and other wildlife. It also offers rich opportunities for the botanist and entomologist. Many miles of hiking trails through the mountains and valleys beckon to outdoorsmen. Inquiries may be addressed to the Audubon Colony, Sherwood Forest, Cedar Mountain, North Carolina.

CHURCH PICNIC

Members of the Presbyterian Church held a family picnic in Donaldson Park last Saturday afternoon. Most of the church congregation were present to enjoy the get-together. Special guests were the Rev. and Mrs. E. L. Bland and their two children from Charlotte, N. C.

First Meeting Of Founders Circle Thursday

Mrs. Pat White and Mrs. Vern Griffin were hostesses to the Founders Circle of the Garden Club when the first meeting of the Fall season was held at the White home on Lotela Terrace Thursday morning of last week.

Twenty members were present to enjoy the social hour which preceeded the business and program. Bright colored leaves and summer flowers were used on the refreshment table which was overlaid with a lace cloth. Mrs. Fred Jahna presided at the silver service. A variety of fancy pastries were served with the coffee.

A special part of the program was the reports given by Mrs. W. J. Head on her recent trip to Italy and Mrs. W. C. Touchton and Mrs. E. W. Hartt on their summer vacation trip to Alaska and also to the World's Fair in Seattle.

Routine business and plans for future work of the circle was discussed.

Happiness is not knowing enough to realize how much you don't have that others do.

Old Bill says most any idiot can make a living now-a-days, but it takes a durn smart cookie to make out an income tax return.

Ticker Talk

Labor Day traditionally marks a change in the business tempo—a change, with any luck, to a brisker tone more in keeping with autumn weather.

People this year have awaited this change with more than usual interest, which is readily understandable. In most people's minds, it now is up to the remaining months of 1962 to put some gloss on what has been a pretty disappointing business year so far.

Meanwhile, there's no denying that there are a lot of doubters around.

—o—

There is divergence of opinion as to what may evolve in the months ahead. Many believe that the recent pulse of business indicates that there will be at least a slow but sustained rise through the end of this year.

And some think it can carry some way into 1963.

But while there appears to be agreement on the possibility of a mild recession before next year is over, there is a school of thought that it will have its beginning before the end of 1962.

Thus, everyone will be hunting for signs of changes in the making.

—o—

First of these signs of change already has come to light in the volume of new orders placed with manufacturers of durable goods.

Prior to July, the total had declined in four of five months. The seasonally adjusted figure for June was $15.3 billion, the lowest in 10 months and down from the January peak of $16.4 billion. Moreover, starting in February, new orders booked were less than sales billed.

Such a situation has, in the past, signaled the onset of a recession. So July's pickup in new orders was a welcome development indeed.

—o—

Manufacturers of durable goods actually added to their order backlogs in July for the first time since January. Before seasonal adjustment, orders exceeded the value of goods shipped.

There's one bug here, though. After seasonal adjustment, shipments were higher than orders for the sixth month in a row. And most analysis is done on the adjusted figures rather than the raw data.

Therefore, even July's welcome shift will not be taken at full face value. Many observers will wait for the August returns to confirm the July performance—maybe even for September results.

—o—

Everyone is trying to evaluate just how much of the economy's sluggishness is due to steel—and how much lift now is coming from steel.

The drop in manufacturers' new orders—for a time, at least—could be almost entirely attributed to steel. The mills' order backlog was drawn down by nearly $1½ billion from January to June.

For all hardgoods manufacturers, the drop in backlogs during that period was only about $2.2 billion—so steel surely was a big factor.

Orders for steel now are rising. As auto plants get into full swing on new models, demand for steel will push higher. Yet reports from the mills on orders, at this point, aren't too enthusiastic.

—o—

How the public responds to the new cars—how people act toward purchases in general, actually—still is the unfolding story to watch.

As far as non-farm employment is concerned, the summer of 1962 has given an excellent account of itself. Previous records were surpassed by rather wider margins that might have been expected.

It is true, nevertheless, that there was little expansion in the number of factory jobs during June or July. Moreover, fewer workers were getting as much overtime as earlier in the year. This has tended to slow the rate at which purchasing power has been growing.

Moreover, employment in construction has been unable to overtake 1961. The increase in jobs has been mainly in service industries and government.

—o—

Personal income has gone on rising each month since January, each month (seasonally adjusted) setting another new record.

The best gains, however, were recorded prior to May. Since then, monthly gains have been substantially less than in the February-April period.

And when it comes to factory payrolls, there has been no change at all since April (while in the durable goods industries, which are the highest paid, there probably has been some deterioration).

—o—

All things considered, retail sales volume has done fully as well as could be expected (despite the slump in May and June).

Actually, April's seasonally adjusted total for all types of stores may have been distorted by the late Easter. In any event, the figure of $19.6 billion was far higher than anything ever recorded before.

And the drop to $19.1 billion by June still was as high as anything ever chalked up prior to this year.

Finally, when July weighed in with a total above $19.4 billion, it certainly could be argued that consumers were doing pretty well. That was $1½ billion higher than July last year.

—o—

Most students of the economy doubtless will continue pretty much to rest their short-term hopes on the way things go for automobiles.

Sales of new cars, at last report, continued to leave little to be desired. The 1963 model production is off to a fast start. And Detroit is determined to prove that it can put two fat years back to back—something never before done in convincing fashion.

September production schedules have been set fairly well above 500,000 units, highest for the month since 1950. And the industry is talking 1.9 million cars for the fourth quarter, very close to a record.

—o—

FIVE GENERATIONS—Pictured above is five generations of Mrs. Minnie MacCanon, sitting at left. With her is V. I. MacCanon, father of Mrs. A. P. Cook, standing in rear next to her son Robert Cook. Great grandbaby Sharon Cook is held by Mr. MacCanon.

* * *

Family Reunion Held Near Alva On Caloosahatchee River Recently

Mr. and Mrs. Allan P. Cook and daughter, Marilyn, spent a vacation at the original homesite of Mr. Cook's family, near Alva on the Coloosahatchee River.

During their visit, Mrs. Cook assists with the family grocery store, post office and gas station which supplies the community and boating on the river.

Their son and wife, Mr. and Mrs. Robert Cook and baby, Sharon, of Ruskin joined the family, bringing together five generations which included Mrs. Cook's father, I. V. MacCanon and his mother, Mrs. Minnie MacCanon, who live at the plantation home. An uncle, Ivan MacCanon, was also present with the family for the annual summer get-together.

Do It Yourself Remodeling Discussed Here

This question often occurs to home owners who're planning remodeling:

"Should I do it myself or should I hire a remodeling contractor?"

Getting the correct answer is very pertinent to the success of the project. To make a wise choice, several different factors should be considered: type of remodeling, complexity of the work, the capabilities—and limitations—of the "home handyman."

While countless jobs are adaptable to "do-it-yourself," some are beyond the capacity of the average craftsman. If so, it may be false economy to go it alone. Major home improvements, such as large additions, often require expert knowledge of plumbing and wiring as well as carpentry. Unless you're a professional in all these lines, it's best to hire someone who is.

According to the Southern Pine Association, many retail lumber dealers offer "one-stop" remodeling service. In a single, convenient package, the customer procures financing, materials, job supervision and the work. If he handles things himself, he would have to shop for these items and services separately. In addition to the trouble involved, he might end up paying more than if he had availed himself of the "package" deal with less satisfactory performance.

Of course, there are many forms of remodeling which the "home handyman" can safely undertake on his own. But in all instances, he should be sure of his ability to understand and effectively control every phase of the work. Among other things, he needs a good working knowledge of materials plus an awareness of how to purchase them and use them efficiently.

Take the case of lumber, which many remodeling projects require, either in structural items or for decorative purposes. It's true that lumber can be easily worked with ordinary household tools. But this should not obscure the need for "know-how" in procurement and application.

Certain grades are designed for structural use; others for interior paneling, exterior siding, fences, shelves and so forth. On these and other points of sound procedure, the retail dealer is the buyer's best counsellor.

If he's furnished with a rough sketch of the project, complete with measurements, the dealer can estimate lumber requirements. His accuracy here saves you money, and, as he will tell you, full dimensions mean full value.

Lumber is priced by the board foot and the customer's charges are based on the amount of footage he buys. To assure full sizes—and full value—all grades of Southern Pine framing, paneing, siding and trim are properly seasoned and preshrunk before being surfaced to end use dimensions.

Sales Increase By Winn-Dixie

A sales increase of 7.69 per cent was recorded by Winn-Dixie Stores, Inc., during the four-week period ended August 25 compared with the corresponding period a year ago, it was announced.

The volume was $61,458,053 compared with $57,069,352 last year, an increase of $4,388,701.

For the eight-week period ended August 25, sales were $119,697,485 compared with $112,701,910, an increase of $6,995,575, or 6.21 per cent over 1961.

An increase also was registered for the 52-week period ended August 25, when sales totaled $769,020,209 compared with $754,632,994, an increase of $14,387,215 or 1.91 per cent.

Winn-Dixie, which operates a number of supermarkets in the local area, now has 595 retail stores throughout the South compared with 536 units a year ago.

Ben Franklin once said: "The use of money is all the advantage there is in having money." After a statement like that, Ben, it's little wonder that someone suggested you go fly a kite.

Home Mortgages Gain In Florida Over Last Year

Home-purchase mortgages recorded in Florida during the first half of this year totaled $805,833,000, a 10 per cent gain over 1961, almost paralleling the national increase, the Florida State Chamber of Commerce reported yesterday.

"The number of mortgages covered by this amount came to 95,038, just a bit under the 1961 figure, indicating a larger average mortgage this year. Included in these figures are mortgages of $20,000 or less (as reported to the Home Loan Bank Board), secured almost entirely by residential properties and therefore indicative of home financing trends.

"Although the January-June dollar total this year stacked up well against 1961, it was 3 per cent below the same period in 1960 and 7 per cent under 1959, the peak year in Florida. Unhappily, last June showed an 11 per cent decline in mortgage activity, the first monthly drop this year below 1961.

"Savings and Loan Associations were the original lenders of $345,662,000 for home-purchase in the state during the first half of this year, up 19 per cent over 1961; individual lenders handled $152,221,000, a gain of 9 per cent; and commercial banks loaned $71,290,000, an increase of 31 per cent. The balance was handled principally by government agencies with a total somewhat below the 1961 figure.

"Six counties in the state are now reported separately and accounted together for 59 per cent of the Florida 6-month total. Dade had a total of $228,353,400, up 7 per cent from the previous year; Pinellas $57,202,000, virtually equal to the first half of 1961; and Duval's $56,789,700 was up 13 per cent. Broward tallied $76,978,400, Orange $36,764,600 and Volusia $18,297,500 but comparable figures for these three counties for prior years are not available."

Experience is not always the best teacher—usually a good instructor will help avoid a hit-or-miss situation, especially when it comes to driving.

Sachsenmaier On Furlough

Pvt. Ronnie Sachsenmaier completed his basic training with the United States Army base at Fort Gordon, Georgia and spent a furlough at home with his parents, Mr. and Mrs. Bill Sachsenmaier.

Mr. and Mrs. Sachsenmaier were at the base for the big celebration which marked the anniversary of the Training Center at Fort Gordon, when seven thousand men were on the field at one time.

Ronnie was one of eleven men receiving trophies for their records and he was also named the outstanding man in his company. He will be going for advanced leadership training course following his furlough at home.

While at home Ronnie had as his guests Sgt. Bill Carson and Wayne Marino, and among their trips over the state was one to St. Petersburg to visit Freddie Sachsenmaier who is working there at the present time.

Legion Plans Supper Sept. 20

The Avon Park American Legion Post and Auxiliary will sponsor a spaghetti supper Thursday night from 6 to 8 o'clock at the Legion Home on West Bell Street.

Children under twelve will be served at reduced prices. The public is invited to attend. Proceeds will go toward the purcase of equipment for the color guard.

Smith-Hill Engagement

Mrs. Edwin P. Creasey of Holly Shores, has announced the engagement and approaching marriage of her daughter, Miss Alleen Smith, to Robert Hill of Avon Park.

The groom-elect has made his home with his grandparents, Mr. and Mrs. R. L. Hill, for a number of years. The engaged couple have both attended Avon Park High School.

The informal wedding will take place in the First Baptist Church Saturday, September 22 at 7:30 p. m. A reception will be held at the Creasey home following the ceremony. An invitation is issued to all friends and relatives to attend both the wedding and the reception.

CHECK PAINS OF ARTHRITIS RHEUMATISM

Deep-down relief . . . fast, when pain attacks of minor Arthritis, Rheumatism, Backache or Muscular Aches occur. That's what you want. And that's what you get when you take PRUVO Tablets. Proven fast, safe and effective over 15 years of use. OUR GUARANTEE: use the 75 tablet size as directed for 10 days. Given this fair trial, PRUVO may help you. You must get the wonderful relief millions have or your money back. At druggists everywhere.

Avon Park Seeking First Win Against Ft. Meade

* * *

First Circuit Encounter Of Young Season

Smarting from two non-conference losses, the Avon Park Red Devil gridders will jump into Ridge Conference action Friday night here at Memorial Field when they battle with the Fighting Miners of Fort Meade.

The Fighting Miners will enter the fray bolstered by last week's 19-0 victory over the Frostproof Bulldogs after dropping their opener by one point (7-6) to the Wauchula Wildcats of the Southwest Florida Conference.

BULLETIN

Senior linemen Bill Scott and Bobby Briscoe will be sidelined with knee injuries for the Fort Meade game Friday night. Briscoe, outstanding Devil guard, injured his knee Monday at practice and Scott, who has been nursing a bad knee all season, re-injured it and will be out of action indefinitely.

The game between these two close rivals is expected to be a tight defensive battle. The Miners held the Wauchula eleven to seven points and shut-out the Frostproof team which had managed to score one touchdown against Sebring in its opening game. The Red Devils yielded 20 points to Lake Wales but showed a much improved defense against Mulberry last week holding them to six points and allowing the Panthers inside their 20 yard line only twice during the whole game.

Avon Park shut out the Fort Meade team 26-0 last year in the third game of the season but the Miners are fielding a team with 11 returning lettermen this year. The backfield of the Miner eleven is made up of three experienced backs and a very capable new quarterback, Wayne Stokes, John Moseley, 175 pound fullback, and halfbacks Sonny Burchett and Johnny Russell, who both weigh in at 140 pounds, make up the fastest backfield the Fort Meade team has had in many years. Russell broke his leg in the last game of the 1960 season here at Memorial Field in the Ridge play-off game and was forced to sit out last season's play. His running so far this season has been outstanding in Coach Bill Humphrey's opinion.

The Miner's line centers around pivot man 185 pound Jack Cochrane, co-captain of the squad. The tackles, Robert Coulter and Edwin Hancock, are the heaviest boys on the line at 190 and 220 pounds, and Mack Helms and Zebbie Gillespie hold down the guard slots. The ends, John Knight, converted from guard, and Clifton Jenkins, with two letters, are rated as two of the best in the Ridge.

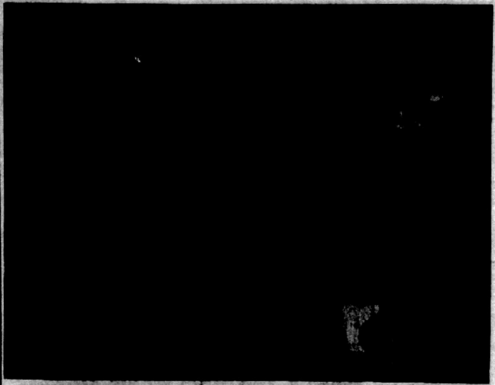
Avon Park's scouting report on the Miners show that they take full advantage of the speed of their backfield with sweeps around the ends and off-tackle quickies.

In spite of the Red Devils sputtering offense last week, the Avon Park mentors felt that they were an improved ball club over their opening game. Weaknesses of the defense were ironed out and the play of guard Bobby Briscoe, linebackers Lanse Padgett and JimBob Maddox, and defensive halfbacks DeWayne Lanier and John Rhoades strengthened the over-all defense of the Devils. With the exception of one 50 yard gain, the Devils held the Panthers to short gains and put on a magnificent goal line stand at one point to hold the Panthers inches from the goal.

The running of halfback Lanse Padgett was the only bright spot in the Avon Park offense which moved well at times only to run out of punch as the Devils neared the panther goal line. The right side of the Devil offensive line was unable to cope with Panther lineman Larry Hagan and his teammates and plays to the right side were either stopped at the line of scrimmage or thrown for a loss consistently. Padgett managed to break away for several nice gains around the left end however. The junior halfback broke loose for a 34 yard pick-up and averaged nine yards per carry for eight official carries.

[illegible] hopes to put more punch in the offense this week and says he may make several offensive line changes for the game against the Miners. Wayne Strickler, a transfer this

(Continued on page eight)



GOAL LINE STAND—A dramatic goal line stand by the Avon Park Red Devil forward wall stopped the Mulberry Panthers just one foot shy of pay dirt in the game here last Friday. This photo illustrates how close the Panthers came to scoring before the Devil defensive unit met the challenge. (Sun Photo)

* * *

SHOULDER TO TACKLE—Avon Park Guard Bob Briscoe, No. 27, puts a shoulder to Mulberry's Charlie [illegible] during the Red Devil-Panther game last Friday. Briscoe played an outstanding defensive game and intercepted a pass. He will not see action this week however due to an injury received in practice [illegible]. Other Red Devil players [illegible] Lanse Padgett, No. 16 John Rhoades, No. 12 and David Ward, No. 16. Mulberry won the hard fought game by a 6-0 score. (Sun Photo)

Experimental Camps For Retarded Children Underway at Wingmann

Camp Wingmann at Trout Lake, which has been the scene of many camps and conferences in the last 30 years, this month has been host to its most unusual assembly. Under the direction of Russell White of Fort Myers, the Sunland Training Center has sent four experimental camps for retarded children to Camp Wingmann.

"Although camping, itself, has been an activity of our state training institutions," said Mr. White this week, "We have not tried co-educational camping in wide age ranges before this. Results have been astounding in their implications for the training of our children, and the patterns set here in our Highlands County location may set a standard everywhere."

Assisting Mr. White in direction of the camp is a full staff of trained professional workers—nurses, doctors, recreation personnel, crafts workers, and house parents. Twenty-four hour supervision is provided by night watchmen who guard against accidents, confusion, and problems which might arise during rest periods at the camp.

First negotiations for use of the Wingmann premises were initiated by G. Franklyn Ward, Rt. Rev. Henry I. Louttit, bishop of the Episcopal Diocese of South Florida, and Rev. John F. Mangrum, rector of the camp and conference center. Dr. James Fodhee, now located in Marianna where he will establish a further training center, conceived of the vacation program as a happy interlude in the lives of many retarded children who might otherwise never have had such an experience.

Mrs. John D. Turner is in charge of housekeeping and kitchen personnel at the Camp throughout the year. She is enthusiastic about the results of the experimental program. "We have found it very gratifying to work with such responsive and thankful youngsters," she states. "Our regular summer program has reached thousands of young people each year. This year we feel we have been privileged to serve an additional 400 boys and girls who really deserve this help."

Father Mangrum pays high tribute to Mr. White for his professional abilities and directional skills. "The State of Florida has been most cooperative with our camp administration. Avon Park is honored to have been chosen as the site where happiness and joy can be given to God's own special children at this camp where so many thousands have been served over these years. One reason we were considered as the site for this successful experiment was the fine work being done in Avon Park by our local group who work with the mentally retarded."

This week will see the conclusion of the first such program conducted by Sunland at Fort Myers. Next September the groups will return to Camp Wingmann for further pioneer work in education and recreation.

SETTLERS REMINDED

This is a second reminder to get your letters in the mail to your friends and relatives reminding them to plan to attend the Old Settlers annual picnic which will be held in Donaldson Park, Wednesday, October 17.

TAKES IBM COURSE

Mike Giddens, son of Mr. and Mrs. John Giddens, Jr., is enrolled at the Charron Williams Commercial College in Miami where he is taking a course in IBM machines.

FINGERPRINTING SESSION—Trooper L. D. Harrell of the Florida Highway Patrol takes fingerprint of Mrs. Margaret Kinsey, secretary at the Florida Alcoholic Rehabilitation Center, last Friday. Trooper Harrell and Sgt. Howard Collins, not shown, used the ARC as a base to fingerprint all state employees in the county. Fingerprinting of state employees was recently directed by Gov. Farris Bryant. (Photo by Norm Pinardi, FARC Staff).

Parents Visits Classrooms During First PTA Meeting of New Year

Departing from its usual schedule of meeting, the Parent-Teachers Association of the Avon Park High School substituted tours of classrooms for its first meeting of the school year Thursday evening, September 20. Despite the constant downpour of rain over 100 persons turned out for the meeting.

After a brief welcome by President Franklyn Ward and introduction of new teachers, John Crittenden, assistant principal, explained to the group the arrangements for the tours. The group was divided into three bodies, with each in turn visiting the Spanish Lab, the Reading Lab, and the Communism vs Americanism class.

In the Spanish Lab Mrs. Chloe Lookhoff explained the use of the intricate electronic system wherein each student listens through headphones to records and tapes of Spanish, spoken by native Spaniards and Mexicans. Each student also has a microphone at his station so he can repeat the Spanish words or phrases and can be monitored by the teacher. Before the 20 minute period had ended many of the parents were proudly uttering full sentences in recognizable Spanish.

Mrs. John Crittenden and Mrs. Devon Reddick demonstrated to the groups the use of aids in teaching remedial reading. Not only are the students enabled to speed up their reading abilities but also to increase their comprehension of the material they have read.

Lee Maness, instructor in the Communism vs Americanism Class, gave a brief resume of the need for the course and pointed out the material that is used in teaching the course.

Following the tours refreshments were served by hostesses Mrs. Morris Adams, Mrs. Willa Padgett and members of the PTA Executive Committee. Mrs. Art Wilhite aided at the punch bowl. Teachers were present to discuss pertinent problems with the parents.

After the general meeting the Executive Committee met and approved the appointment of Jim Anderson as Treasurer and Dean Griffin as Chairman of the Ways and Means Committee.

ATTENDS TRAFFIC CONVENTION

Bill Elwell, who spent a few days with his mother, Mrs. A. McKee Elwell, this past week will leave this week for Las Vegas, Nev. where he will attend a national convention of the Air Traffic Control Association which will be held at the Flamingo Hotel. Bill is employed at the International Airport in Miami.

Final Regular Council Meet Of Fiscal Is Held

* * *

Hunting OKed At Bomb Range

The Avon Park Sun has learned from Congressman James A. Haley that the Avon Park Bombing Range will be open to hunters again this season.

Haley has advised that in a conference with Air Force officials "they plan to follow the same schedule as in previous years with the exception of a small additional acreage" (about 300 acres).

Therefore hunting will be basically the same as it has been on the range in previous seasons.

Kiwanis Plan For Charter Night Oct. 6

The recently organized Avon Park Kiwanis Club was planning this week for their upcoming charter night, Oct. 6, in the Jacaranda Hotel.

The club, sponsored by the Sebring Kiwanis Club, will receive its charter from Dr. James W. Parrish, District Governor, and local club president Ted J. Ward will accept.

Lt. Governor Walter Woofolk will preside at the charter program.

Comprised of 34 local members, the club officers are: Ward, president; Robert D. Young, first vice president; Henry L. Caffee, second vice president; Aden D. Childress, secretary; James N. McDugald, treasurer. The board of directors: Elwood Adams, Thomas Banks, Wm. E. Booth, John F. Crittenden, Bert M. Nunnallee, John W. Wright, Charles Lyon.

Alumni Band To March At Oct. 25 Game

Another alumni band performance has been set for October 25 between halves of the Avon Park-Lake Placid "B" squad football game.

Gene Gorman, long-time band director at Avon Park High, will again direct the band.

Roberta Elder and Gloria Droit will be in charge of a majorette routine. Other band members of the past are invited to take part in the performance. They may contact either Frances Adams or Wini DeLaney.

Proceeds of the game will go to benefit the band association.

Victim of Snake Bite Recovering

Karen Stone, six-year-old daughter of Mr. and Mrs. Al Stone, Falls Church, Va., and granddaughter of Commander and Mrs. O. L. Young, is recovering this week from a snake bite sustained Sunday afternoon.

The youngster, playing with several other children, was bitten by a snake of unknown species in the vicinity of the Avon Lakes Golf Course. She was bitten on the right shoulder.

The child with her parents were visiting the Youngs when the incident occurred.

Councilmen To Be Sworn Sept. 30

Three city councilmen will take the oath of office at midnight, September 30, according to the regulations of the city charter.

Two of those taking the oath are incumbents and one will be new.

George Border and Clarence King are the returnees and Jimmy Doerr will be taking office for the first time. He succeeded in winning the seat formerly held by Mannin Kirkland, 13-year board member.

Holdover members of the five-man board are H. M. (Chic) [illegible] and Sam Mc[illegible].

It was not known whether or not the group would elect a president at the midnight session. Kirkland is president of the board now and [illegible] is vice president.

MANNIN KIRKLAND
. . . bids farewell

Devils, Streak "B" Teams Fight To 0-0 Deadlock

Avon Park's junior varsity football squad played the Sebring "B" squad to a 0-0 tie last Tuesday night at Fireman's Field in Sebring in the opening game for both teams.

It was strickly a defensive battle with neither team threatening seriously except for one Sebring shot at the Avon Park goal line after the junior Red Devils muffed an attempted kick due to a high pass from center and gave Sebring the ball on the Avon Park 12 yard line. Avon Park's defense rose to the occasion, however, and staved off the attack to keep their goal line uncrossed.

Avon Park's "B" defense was handled by ends John Rodgers and Danny Butler, tackles S. Y. Moseley and Bill Nunnallee, guards Bobby Nunnallee and Darrell Landress, linebackers Tommy Marshall, Bobby Coleman, Wolfgang Halbig and Kenny Cook, and defensive halfbacks Steve Seims and Robert King. The 12 boys with help from Don Simpson and Randy Wood held the Sebring offense to only two first downs during the game.

The "Jayvee" Red Devil offense was quarterbacked by freshman Bobby Coleman. Tom Nunnallee, Buddy Thomas and Steve Seims played in the halfback slots and Wolfgang Halbig and Carl Holden alternated at fullback.

Coaches Lee Maness and Ralph Hill will have a little over a week to improve the "Bees" offense before they meet the Sebring boys again Thursday, October 4, here at Memorial Field.

SCHOOL HOLIDAY

Avon Park Schools will be closed Monday, October 1. All teachers will be attending District 9 Florida Education Association meeting in Kissimmee.

MORRIS ADAMS

Representative Adams To Speak At Club Meeting

J. Morris Adams, Representative for Highlands County, will be the guest speaker at the first meeting of the Woman's Club which will be held at the club house, Friday, October 5.

Club President, Mrs. S. F. Elkhill, will be accompanied by Mrs. Fannie Roache to attend the state board meeting in Daytona Beach, October 1-3. They will make the trip to Daytona Beach with ladies from the Sebring Woman's Club.

Kirkland [illegible] Impro[illegible] Bids F[illegible]

[illegible]

Among those [illegible] were J. B. Sparks, [illegible] and Bill L[illegible] all unsuccessful candidates in the recent city election when three seats were filled. James M. (Jimmy) Doerr, a winner was also in attendance.

The meeting marked the end of a 13-year reign for Mannin Kirkland, current president of the five-man board. During his tenure, Kirkland has served as head of the group on three occasions.

In what might be termed as farewell remarks, Kirkland commented on the past administration and said he was "proud of the accomplishments made while he was a member of the board". He will be replaced by Doerr at midnight, September 30, when the newly elected officials will be sworn into office.

George Border and Clarence King, successful incumbents will also take the oath of office at that time.

First order of business was a request from the Highlands County Science Fair for plywood to be used in the annual science fair. Council voted to advertise for bids on the material, which was estimated to cost around $400.

Councilman King took note of a recent article in The Sun which depicted a surplus in this year's budget, indicating he thought it was misleading. He was soon reminded however, by several other board members, that it is a regular custom to carry over certain indebtedness from one council to another.

King referred specifically to the balance on contracts incurred by the council for paying for a fire engine and a grader.

In rebuttal, Border told King that some of his figures appeared to be misleading, but did not care to "Get into a hassel, since he had to work with King for two years".

In other business, the board voted to advertise for bids on road materials to continue a street paving program. Until the recent closing of an asphalt mix plant here, the city was able to purchase materials locally.

The board was invited to ride in a parade in Sebring on October 12, commemorating the semi-centenial celebration of the sister Highlands County community.

Youngster Is Said Improving

Seven-year-old Mary Davis was reported to be improving at Walker Memorial Hospital today from injuries received when hit by an automobile Monday morning. She was enroute to Avon Elementary School.

The second-grade student, daughter of Mr. and Mrs. Wallace Davis of N. Lake Avenue, sustained a fractured leg and pelvis and multiple abraisions and contusions when she apparently darted into the path of a car driven by John Giddens, Jr.,

The mishap occurred at the corner of N. Lake Avenue and East Pleasant Street. Police Chief L. F. Harrison said no charges have been made, pending an investigation.

St. Petersburg Couple Injured

A St. Petersburg couple was admitted to Walker Memorial Hospital Tuesday afternoon after their car collided with a truck on State Road 66 (DeSoto City-Wauchula Road) Southwest of Sebring.

Mr. and Mrs. Max J. Wolfson received cuts and bruises, according to Trooper C. C. Johns, when they attempted to pass a truck driven by Arthur Genton who was making a turn onto Skipper Road. Genton was not injured.

Johns charged Genton [illegible] improper change of [illegible] having [illegible] charged Wolfson [illegible] have vehicle [illegible]

WITH HANDS OR HEAD

[illegible] years ago the majority of [illegible] by hand. The men worked in the fields [illegible] with crude machinery. The women toiled [illegible] after making their own soap. [illegible] with automation and electronics, a ma[illegible] out the work of scores of men in half [illegible] home, automatic ovens and dishwashers have taken a great part of the "hand work" out of [illegible].

Work formerly done by hands now is being accomplished by complicated machinery. The machines are designed and serviced by men and women, and the results are analyzed by them.

About the only time most of us work with our hands is away from the office. Then we know the satisfaction of creating when we garden or do woodworking.

When we started to work, we were very interested in our pay checks. We wanted to buy our own home, own our car free and clear, and we wanted to assure our children of the education we didn't have. But what about the man who has accumulated all the money he or his family could want? He goes right on working for the feeling of satisfaction that he gets from a job well done. He knows he can best serve others with truth by staying on the job. He has faced the challenge of work, enjoys the combat, and wants to win the battle. After a good day's work he enjoys his relaxation more and is restored by it for the next day.

"As you sow, so shall you reap" applies to our work too. Those who lay a solid foundation for their work, who watch over the job, who take the time to complete the task, will reap the benefit of a good conscience, perhaps a better position and more money, but certainly the satisfaction of seeing an idea through to fruition, a letter well written, a program well received.

Since the scarcity of labor during World War II, the caliber of workmanship has slipped. The harvest for the good worker is that much more plentiful.

Workers at one time needed unions to fight for their rights, but the shoe is on the other foot now and management needs protection. We have swung too far to the other side. When any one man or company becomes too large, it is dangerous because it takes away competition—the strength of our country. The right to strike belongs to the worker, but he should not be permitted to strike without sincerely attempting arbitration, nor should he be allowed to walk out when national defense is endangered.

In the next decade or two as we continue to harness the energy of the sun and get bases on the moon, I wonder what our work day will be like?

Orlando, Florida

BIG POOCH AND A MIDGET—Where else but at Goodwill Industries would you find this unusual combination. The midget is one of Goodwill's 280 handicapped employees; the stuffed pooch is one of the discards given to the hire-the-handicapped organization. Goodwill's materials, running low during the summer, will pick up very considerably with its school clothing collection in nine West Florida counties October 8-12.

CRACKER POLITICS

By ALLEN MORRIS

Tallahassee — With truth uttered jestingly, retiring House Speaker William V. Chappell of Ocala briefed his successor on the courting he can expect from lobbyists in the months just ahead.

"Don't let 'em take you up on the mountain," warned Chappell, alluding to the visions of political green-pastures - the Governorship, mayhap - which favor-seekers would word-paint.

Chappell gave this advice to Speaker-designate Mallory E. Horne of Tallahassee in the presence of some 400 Democratic caucus diners, including most of the members of the '63 House of Representatives and many of the professional lobbyists.

It was a truly amazing performance, for the role of lobbyists in the Florida lawmaking process is something the participants seldom talk about.

Because nearly every bill must first clear a committee as it winds its way through a legislative house, the makeup of committees is of special concern to lobbyists.

One vote in committee is worth several times the same vote on the floor. For instance, it took only four votes in the Judiciary D committee to kill or pass a bill in the '61 session but 48 votes to do the same on the floor of the House.

Thus, the Speaker, like the Senate President, with unbridled power to make committee appointments, is a very important person. While he loses some of this power with his announcement of committees at the convening of the session, he still possesses the right within limits to decide which committee will consider a particular bill.

Presiding officers usually have their private "killer" committees.

The professional lobbyist and the knowledgeable lay citizen who may be interested in some special piece of legislation makes his first and usually his strongest efforts on the committee front, by courting the Speaker and the Senate President.

Speaker Chappell led into his publicly-given, private advice to Horne by gently chiding a lobbyist for one of the larger interests in the state for the lack of attention he said he was getting now that he was at the end of his term. (Actually, Chappell will be a mighty important person at the '63 session, for he likely will be rules chairman.)

Then he good-naturedly told, by way of illustrating the process, of the attention he received from the education forces in connection with his appointment of the 19-member House Education Committee.

"Howard Friedman used to call me long distance every day or so to check on my health and tell what a nice fellow I was," laughed Chappell. "And the closer we got to the session, the more often Howard would call."

Friedman, a top assistant to State School Superintendent Thomas D. Bailey, has legislative liaison among his responsibilities.

"He told me that he had great confidence that I would appoint a friendly committee, one which would be fair, and that he knew that I would name the very best man as Chairman," confided Chappell smilingly. "But just to help me, since I would be concerned with 50 committees, he happened to have in his pocket a list of good men.

"Then, I kiddingly let out the word that I was thinking of appointing Bill O'Neill as Chairman instead of Fred Karl, whom he wanted, and Howard started calling me every 15 minutes! But now that I am a has-been, I can't even get Friedman to say 'hello' to me on the street."

It should be pointed out that although Chappell's remarks to Horne were all in jest (Chappell and Friedman are good friends, and Chappell did appoint Karl as Chairman), beyond Chappell's humorous sallies was sufficient truth to bring knowing and reflective smiles from legislators and lobbyists present at the dinner.

For every lobbyist does have a list, perhaps not in writing, of "friendly" or "unfriendly" legislators whom he'd like to see appointed to the committee which deals with his specific interest. And every lobbyist does go out of his way to be attentive to the Speaker at committee-appointing time.

But in the final analysis, it's the Speaker and the Senate President who make the decisions. And often they, as Speaker Chappell ultimately did with the '61 House education committee, skillfully balance the membership so all shades of opinion may have a chance to be heard and possibly to persuade.

DEPARTMENT OF AGRICULTURE

October has been designated as "Animal Health Month" throughout the U. S. You'll be reading and hearing quite a bit about the importance of preventive measures that are necessary for the protection of livestock if the nation's huge animal industry is to meet the needs of our rapidly growing population.

When you consider the tremendous toll that various diseases are taking from the nation's herds and flocks, you'll realize the importance of bringing home to our livestock and poultry raisers the dollars-and-cents value of "programmed prevention" through better management and disease controls.

Though the U. S. is probably the safest country in the world today in which to raise livestock and poultry, various diseases still are costing our farmers from 2 billion to 3 billion dollars every year. Some of the most severe losses are seldom recognized. They exist in the form of decreased rate of gain and lowered production.

• • •

Agricultural economists predict a big shift toward animal agriculture by 1970. Dr. Earl L. Butz, dean of agriculture at Purdue University, described it this way:

"Per capita consumption of livestock products will increase markedly, while per capita consumption of crops, especially cereal grains and starchy foods, will decline. During the past ten years per capita consumption of livestock products increased about 4 per cent.

"By 1970, after cost-reducing technology has been widely adapted in livestock production, per capita consumption will have increased by 10 per cent. When this is combined with the contemplated 20 per cent population increase (to more than 200 million), the effective demand for livestock products will be about one-third higher than now. This shift in our eating habits will move substantially toward solution of our chronic feed-grain surplus."

• • •

It is estimated the average U. S. farm of 160 to 200 acres suffers an average loss of $1,500 a year due to livestock disease. One economist has remarked that no other industry could tolerate such inefficiency. It's obvious, I think, that agriculture itself can't tolerate that kind of inefficiency, and that's why the number of farms and farmers is shrinking every year. Only the efficient ones are surviving, and their rate of efficiency is being increased every year.

To quote Dean Butz again: "Before 1970 science will have moved into the pig pen, the beef lot and the milk parlor in a big way. We'll be making a pound of lean pork with less than three pounds of feed in contrast to five or six pounds today; a pound of good quality beef with one-fourth less feed than today; and a gallon of milk with much less feed."

After noting only a few of the huge annual losses due to various diseases today — 200 million dollars to mastitis, 93 million to leptospirosis, 400 million to loss of baby pigs that die before they are six weeks old—Dr. John B. Herrick, extension veterinarian at Iowa State University points out:

"What is needed is a prearranged animal health program based on the modern concepts of disease control, nutrition, management and a business sense. These herd health programs can be pre-designed, using the veterinarian as a consultant, with periodic herd health checks."

"With the aid of such a program, the producer is able to curtail the losses suffered from what he has blamed on disease, when actually the losses were the combined dificits in management, nutrition, genetics and disease control measures collectively."

"The results can be: (1) more profit to the producer, (2) higher quality animal products for the consumer. This type of program is available for livestock producers today in all livestock enterprises."

• • •

Animal health specialists have pointed out that, up to now, most of the disease control programs on many farms throughout the country have been aimed at "rescuing the perishing." I suspect that philosophy is all too frequently encountered right here in Florida. Why it should continue to persist is difficult to understand.

Disease control programs, to be effective, must be aimed at prevention instead of just treatment. That's why "programmed prevention" is the keynote for animal health month.

• • •

It's interesting to note that Floridians will head up the two most important organizations in the country concerned with health, both animal and human.

Dr. Jack O. Knowles of Miami is president elect of the American Veterinary Medical Association. Dr. Edward N. Annis, also of Miami, is president elect of the American Medical Association.

Eastern Star Opens Season

Leigh Chapter No. 85, Order of the Eastern Star, will open the Fall and Winter season on Tuesday evening, October 2, with a meeting in the Masonic Temple at West Main and Anoka Streets.

All members of the Order, in this or other jurisdictions are cordially invited to attend.

Mrs. Edna Wainwright, worthy matron and Clyde Peugh, worthy patron will preside.

Future Farmers of America

Reporter Frank Phillips

This summer the Avon Park Chapter of Future Farmers has not been idle. Several members attended the state convention at Daytona Beach. Jack Seims and Mike Giddens, officers of last year's FFA Chapter, were among the group. Solon Wilson, Jr., Jim Shockly, Tommy and Dennis Felknor and members of this years Chapter also attended. The Avon Park Chapter was awarded superior at the convention.

Also this summer, Rodney Shelton attended forestry camp at High Springs, Fla. for one week. While there he had to be up early to get his cabin clean before breakfast. Then he had classes from 8:00 o'clock to 11:00 o'clock and again from 1:00 o'clock to 3:45. In the evening, chapel was from 8:30 till 9:15. He said he surely enjoyed forestry camp and hoped the boy that goes next year will enjoy it as much as he did.

Now that school has begun the Agriculture classes have been working hard getting their land laboratory in shape for planting.

Legion Post To Hold Family Nite

The American Legion Post No. 69 and the Legion Auxiliary will hold a family night dinner at the Legion Home, Thursday night, September 27, at 7 o'clock.

Special guests will be the four students who attended Boys' State and Girls' State at FSU, Tallahassee, this summer. They will give reports on their activities at the state capitol while they participated in a mock government of state affairs, which is sponsored by the American Legion to better acquaint students with political procedures of the state.

The Battle of the Backyard

Beautiful gardens and insect-free homes are enjoyed by everyone. They are among life's greatest pleasures.

But when insects strike, plants and trees are stunted and die — home becomes uncomfortable.

To protect our homes and gardens, scientists have developed many useful pesticides. The U.S. Public Health Service reports that they are perfectly safe when used according to directions.

For safe and effective use, READ THE LABEL and follow the directions, cautions, and warnings. And you'll win the battle of the backyard.

Here's the best news yet...
for the home-minded family!

Home ownership for your family may be years nearer than you think! We will arrange a Home Loan that will be custom-tailored to YOUR financial situation, YOUR needs, YOUR income. You repay your loan just like rent. A single monthly repayment can be set up to include principal, interest and property taxes.

Come in and talk it over with us . . . soon!

You will get friendly understanding and careful attention to detail from a staff which is long experienced in home financing.

New Season Is Underway For Garden Clubs

Mrs. W. J. Head, president of the Avon Park Federation of Garden Clubs, presided at the Fall meeting of the Federation, held Thursday morning at the Woman's Club building.

Following the business session, the club was entertained with a special program on birds and animal life in Florida. Mrs. Jeanne Niswonger of Lakeland who is president of the Lakeland area Audubon Society, was the guest speaker. She illustrated her talk with colored slides of birds and animals which she had made on field trips to the phosphate pits around Bartow and in the Everglades.

At noon a lovely luncheon was served by the members who had brought covered dishes of food. During the afternoon Mrs. Niswonger spoke to the Junior Garden Club.

Chief Justice Suggests Change Judicial Council

TALLAHASSEE — Supreme Court Chief Justice B. K. Roberts has suggested to the reorganized Judicial Council that they study a proposal to require all persons charged with felonies have legal counsel when appearing in court.

The courts now are only required to provide an attorney for persons accused in capital cases or for those unable to defend themselves.

Roberts, chairman of the recently reactivated council, said there was a trend in the U. S. Supreme Court to permit release of criminals who were convicted of felonies without legal counsel.

The Judicial Council held a one-day organizational session in the law library of the Supreme Court building, electing as vice chairman T. S. Combs, a lay member from Tallahassee.

COLOR IN SWIMWEAR FAVORED

A gay print of bunch-blooming flowers makes news in knitted swimsuits. The pattern is screen printed in high-voltage color on a soft double knit fabric of Creslan acrylic fiber. The two-piece suit is destined for many happy seasons in the sun without fading, or losing its beautiful shape.

1963 Fords On Display Friday At Avon Park Motor Company

Described as "the most service-free standard-size American car ever offered," the 1963 Ford Galaxie features completely new styling, a new high economy V8 engine, new 36,000-mile major lubrication interval and a new, $10-million soft-soft-riding "compliance-link" suspension.

The new Fords will go on sale here at Avon Park Motor Co.

"The 1963 Galaxie represents an all-out effort by our stylists, engineers and product planners to capture an even greater share of the volume standard-size market," said E. F. Laux, Ford Division general marketing manager.

Galaxie is currently accounting for 46 per cent of Ford Division sales as a separate car line, Mr. Laux said, with the sleek "500 XL" series taking one out of every eight Galaxie sales.

"This consumer trend to sporty and luxurious cars keynotes both the styling and the many comfort and convenience features offered in all 1963 Galaxies," Mr. Laux explained.

Those features include an optional Thunderbird-type swing-away steering column for convenience of entry. Vent windows are crank operated, seat cushions feature three inches of foam rubber, interior door handles are luxurious paddle-type and a new AM-FM radio is optional.

An all-new, three-speed manual shift, synchromesh transmission is standard on all 1963 Galaxie models. The new transmission, first of its type ever offered on U.S.-built passenger cars, is synchronized in all forward gears to minimize hard shifting, gear clash and tooth wear.

The 260 cubic inch Challenger engine is designed to operate on regular fuel, offering good performance and high fuel economy. Custom performance is available in 35 different levels through various combinations of 6 engines, 5 transmissions and 9 rear axle ratios. Two, four and six-barrel carburetion for selected blends of performance and economy are offered on several of the engines.

The complete line of 14 new Galaxies will be introduced in Ford dealer showrooms on Friday, September 28, Mr. Laux said.

Models

A new four door-hardtop model in the Galaxie '500 XL" series heads the list of 14 new Galaxies in three series for 1963. The Galaxie series includes two and four-door sedans; the Galaxie 500 series includes two and four-door sedans, two and four-door hardtops, and a two-door convertible. The sporty Galaxie "500 XL" series now includes a two-door convertible and two and four-door hardtop models.

Ford's station wagons will feature four models for 1963 including four-door, six and nine-passenger Country Sedans and Country Squires, Mr Laux said.

Styling

A sharply delineated contour—running from the outboard edge of the headlamps to the massive, circular taillights—dramatizes the lithe and luxurious character of all new Galaxies. Lower on the body side is another sculptured line, artfully integrated to accent the wheels and the feeling of dynamic motion embodied in the Galaxie for 1963.

This appearance of movement is emphasized in the recessed Thunderbird-style roof with its landau rear pillar, recessed rear window and forward-thrusting lines. The concave Galaxie grille is a contemporary pattern of bars and rectangles with the Ford crest in full color "floating" modernistically in the center.

The Galaxie 500 series is distinguished by special styling treatment in front, side and rear. Radical chrome windsplits in a star-like pattern are placed over the lenses of the taillights on Galaxie 500 and Galaxie "500 XL" models

The ultra-luxurious Galaxie "500 XL" series is further distinguished by special ornamentation, ultra-luxurious interiors and simulated racing "knock-off" wheel covers

Power

The 260-cubic-inch Challenger V8 engine adds still more customer choice of performance and economy to the Galaxie power team for 1963. Quiet-running, incredibly smooth and of modern short-stroke design, the Challenger 260 develops 164 horsepower for plenty of punch on regular grade gasoline.

In racing trim, as used by Carroll Shelby in his Shelby-Cobra sports car, the Challenger 260 dependably delivers an amazing 260 horsepower. In the Galaxie, the Challenger 260 - with optional overdrive or without - offers outstanding durability and economy.

The Thunderbird 406 Super-High-Performance V8 heads the list of six lively 1963 Galaxie engine choices. Developing up to 405 horsepower, this engine proved its stamina and performance when it swept the Triple Crown of Stock Car Racing—winning at Darlington, Charlotte and Atlanta during the 1962 racing season.

With Triple carburetion and Ford's all-synchronized, four-speed floor-stick transmission, the Thunderbird 406 Super-High-Performance V8 offers the ultimate in performance. For the ultimate in economy, there's the 223-cubic-inch 6-cylinder engine with Ford's all-new three-speed transmission and overdrive.

Intermediate economy and performance choices—35 in all—are available. Other engines include the Thunderbird 390 Special V8 developing up to 300 horsepower, the Thunderbird 352-cubic-inch Special V8 rated at 220 horsepower, and the Thunderbird 406 High-Performance V8 delivering 385 horsepower.

Nine rear axle ratios combine with five transmissions—standard synchromesh three-speed, overdrive, Fordomatic, Cruise-o-matic and 4-speed manual floor shift—complete the Galaxie performance and economy lineup for 1963.

Reduced Maintenance Features

Galaxie—which pioneered in the field of reduced maintenance in 1961 with a 30,000-mile major lubrication interval, 4,000-mile oil change and self-adjusting brakes—is more maintenance-free than ever for 1963.

The traditional 1,000-mile new car inspection has been eliminated. "From the time a new Galaxie rolls out of the dealership, no routine maintenance is required for 6,000 miles—about six months for the average driver," Mr. Laux said.

The major lubrication interval has been extended to 36,000 miles and the same figure applies to change of radiator coolant, fuel filter, air cleaner element and front wheel bearing lubrication.

"Over a three year period—the time it takes the average new-car owner to cover 36,000 miles—the owner of a 1963 Galaxie will have saved $153.12 in routine maintenance costs compared with the owner of a 1960 Galaxie," said Mr. Laux, "enough to buy gas for more than half a year of average driving."

The new Galaxie optional AM-FM radio has five pushbuttons—three for FM and two for AM stations Merely pushing the pushbuttons switches from AM to FM stations The optional rear seat speaker has the reverberance to give an effect like that in a concert hall

Keyed to turnpike driving, Galaxie's optional new speed selector permits the driver to set the desired cruising speed The selected speed is maintained up hill and down automatically without foot pressure on the accelerator until the driver taps the brake to stop or disengages the control switch When disengaged, the speed selector may be set to provide a warning upward pressure on the accelerator pedal when a selected speed has been reached.

New Ford station wagon options for 1963 also include a factory-installed, heavy-duty chrome roof-luggage rack.

Completely re-styled for 1963 Ford's top-of-the-line Galaxie 500/XL convertible, shown above, offers luxury car features, such as bucket seats and console, a 260-cubic-inch Challenger V-8 engine, custom-designed interior appointments, and a console-mounted transmission lever. A padded, color-keyed boot covers the convertible top when it is lowered into the storage well, and special 500/XL emblems are mounted on the front fenders immediately behind the wheel openings. Through improved lubricants and special production procedures, Ford has been able to eliminate the historic 1,000-mile inspection on all of its 1963 Galaxies.

The 500/XL convertible is one of 14 Galaxie hardtop, convertible, station wagon and sedan models scheduled to go on display in dealers showrooms on Friday, September 28.

DODGE FOR '63—The standard-size, low-price Dodge for 1963 has a 119-inch wheelbase and larger exterior dimensions which appreciably increase inside roominess and trunk space. Twenty-four different models are offered, including the Polara four-door hardtop shown above.

★ ★ ★ ★ ★ ★

1963 Dodges To Be Unveilded Here At Wells Motor Co. Tuesday

Dodge will introduce a longer, roomier, standard-size entry in the low-prize car market next Tuesday at Wells Motor Co., Avon Park.

The new Dodge is built on a 119-inch wheelbase and is six inches longer than last year's models. The Dodge line offers a choice of 24 different models in three series.

Both the popular-price Dodge and its compact companion, the 1963 Dart, will be shown to the public at dealers' showrooms on October 2.

Wide Selection

Dodge General Manager Byron J. Nichols said the new Dodge, the compact Dart and the luxury-line Dodge 880—to be introduced in December—will give motorists the widest selection of cars in the company's 49-year history.

"We have increased the size of the Dodge, given it greater performance capabilities, lengthened its potential life and reduced its servicing requirements," Nichols said. "We have done this, especially, to permit its owners to take full advantage of our nation's fast-growing network of fine highways and freeways.

"Owners of 1963 Dodges will be able to travel longer distances more rapidly, with maximum safety and in greater comfort.

"Further, we believe that the 1963 Dodge has been engineered and styled so that it meets completely the needs and desires of a majority of the American car buyers."

Increase In Room

Nichols said the bigger dimensions of the new Dodge make possible substantial increases in passenger roominess and comfort, and in trunk space. Leg room for back seat passengers, for example, has been expanded by nearly two inches and knee clearance by nearly one and one-half. Trunk space has been increased by more than 10 per cent.

While the Dodge is larger, less than 45 pounds of weight have have been added and its favorable power-to-weight ratio has been maintained, Nichols said.

The 119-inch-wheelbase Dodge is offered in these three series: the lowest-price "330," the middle-line "440," and the deluxe Polara.

Eight sedan and station wagon models are in the 330 series; eight sedan, hardtop and station wagon models in the 440 series; and six sedan, hardtop and convertible models in the Polara series.

Choice of Engines

The Dodge for '63 also offers a wide choice of engines, including a 225-cubic-inch Slant Six and a family of V-8's with displacements ranging from 318 to 383 cubic inches.

A spirited 383-cubic-inch "eight" is standard on the new Polara 500, successor to the 1962 model which was named "Performance Car of the Year" by a leading automotive magazine.

Also available on a limited basis to certain car enthusiasts is a special Ram-Charger V-8 with a 426-cubic-inch displacement.

A three-speed manual transmission and a three-speed automatic pushbutton transmission are offered on all engines, both six and eight.

Amber-Lensed Signals

Low-beam headlights are housed in the fenders, while the high-beam lights are placed in the grill. Amber-lensed turn signal lights are below the bumper.

The roof, which has a flat silhouette, ends at the rear in a canopied effect over the recessed back window. A wide rear pillar design adds strength and rigidity to the roof. And a sculptured body line just below the windows sweeps the length of the car.

The trunk opening is wide and the trunk sill is low to provide easy loading of luggage. The tail lights are placed in rectangular bezels. In Polara and Polara 500 models, larger bezels house both the tail lights and the back-up lights.

The new Dodges offer 12 exterior colors and 14 optional two-tone combinations. A special two-tone treatment is standard on Polara 500 models.

33 Trim Combinations

Inside, 33 different trim combinations with five basic colors are offered. All are keyed to the exterior colors.

The 1963 Dodge features a host of mechanical improvements designed to make it "dependability-engineered," Nichols said.

Among the engineering innovations are:

A newly developed aerodynamic windshield wiper blade which resists windlift at high speeds. Air flowing over the curved surface of the blade produces a force which increases its pressure on the windshield.

More thorough protection from corrosion. The body of the car is given a deeper dip in anti-corosion primer. Rustproof clips are used for the body moldings. And additional splash shields prevent accumulation of salt and other corrosive materials.

An aluminized exhaust system with a 50 per cent longer life expectancy.

Durable Heel Pad

A larger and more durable heel pad—resistant to women's spiked heels— at the base of the accelerator and brake pedals.

Transistorized radios which provide "instant play" when they are switched on.

A replaceable, automatic-transmission oil filter which extends the oil-change period to 32,000 miles.

New two-ply rayon cord tires with four-ply load ratings. The new tires run cooler at high speeds. With less rolling resistance, they help improve fuel economy.

A closed-crankcase ventilation (anti-smog) system which reduces the amount of unburned hydrocarbons released into the atmosphere.

Kodak Announces Educational Aid Contributions Total $1.2 Million

Some 74 American colleges and universities have received a total of about $1.2 million in contributions under Eastman Kodak Company's 1962 aid-to-education program.

Made public today in Rochester, N. Y., the Kodak program includes 58 direct grants, 22 research grants, special grants for 13 institutions, and a number of other contributions. The program acknowledges the importance of well-educated, well-trained young men and women in the progress of American industry.

"Kodak's program of financial aid to higher education is designed to encourage and support excellence in our colleges and universities," Dr. A. K. Chapman, chairman, and William S. Vaughn, president, noted in a statement. "It also recognizes that these institutions require major financial support if they are to provide educational program of high calibre for an increasing number of young people."

Direct grants totaling almost $240,000 were awarded to 58 privately endowed colleges and universities for 1962. The grants are based on the number of graduates from these institutions who joined Kodak five years ago and are presently employed by the company.

The direct grants help schools to compensate for the difference between the actual cost of educating graduates now with Kodak and the amount that these individuals may have paid in tuition and fees.

The 22 research grants, previously announced and now in use, are valued at nearly a quarter of a million dollars. Ranging from $6,000 to $12,500 each, the grants are awarded to a selected number of graduate departments. The major portion of the funds awarded is available for unrestricted use in research programs and new or improved facilities.

This year a total of 16 research grants went to graduate departments of chemistry. Graduate departments of physics received a total of five grants. One grant was made to a graduate department of chemical engineering.

About one-fifth of the funds awarded in the 1962 research grants program was administered by the Tennessee Eastman Company and the Texas Eastman Company, Kodak chemical divisions. Tennessee and Texas Eastman sponsored research grants for six colleges and universities in the South and the Southwest. The remaining 16 were sponsored by the parent company in Rochester.

Special grants totaling $225,000 were also announced. Included were major "one-time" grants to several universities and a second group of contributions to a number of liberal arts colleges.

The Massachusetts Institute of Technology, Princeton University, and Vanderbilt University shared a total of $175,000 in special grants. Funds awarded under this phase of the Kodak program are intended primarily for use in capital or endowment programs.

Special grants of $5,000 each went to 10 liberal arts colleges. The awards reflect the company's awareness of the important part that these schools play in our system of higher education.

Other special contributions totaled more than $500,000 this year. They include grants to educational institutions in areas where Kodak has major manufacturing interests, contributions to groups such as the United Negro College Fund, the National Fund for Medical Education, and the Empire State Foundation of Independent Liberal Arts Colleges, and occasional grants in fields of particular interest to the company.

Kodak aid-to-education began with the personal philanthropy of founder George Eastman. Contributions in later years were a continuation of Eastman's support of education. The company's program was formalized in 1939, extended to include direct grants in 1955, and modified with a research grants phase earlier this year.

During the past five years Kodak's contributions under the aid-to-education program have amounted to more than $4.5 million.

Baptist GAs At Lake Denton Over Week-End

Junior and Intermediate girls from the Baptist Churches of the Orange Blossom Association met at the Baptist Assembly on Lake Denton last Saturday.

Carol Ann Childress, retiring president, conducted the busi-
retreat. Mrs. Aden D. Childress and Mrs. J. M. Gilbreath are sponsors for the Associational Girl's Auxiliary.

The interesting program announced the activities for the coming year which will be the 50th anniversary year of GAs. Plans were made for the GAs houseparties to be held in November and also for a Golden Anniversary Party to be held at the Florida Avenue Baptist Church for GAs in the near future.

Swimming and other recreation followed the picnic lunch.

Twenty-seven Floridians attended special schools of alcohol study recently on scholarships and fellowships from the Florida Alcoholic Rehabilitation Program.

Florida's first state-wide school of alcohol studies has been scheduled for August, 1963, according to the Florida Alcoholic Rehabilitation Program.

Here and There—

Mrs James Luxton is visiting her brother and wife, Mr and Mrs. James Spencer in Orlando. Mr Spencer has recently undergone surgery and has returned home to recuperate.

John Olga Bridges spent Sunday with friends near Polk City who were celebrating their 50th Wedding Anniversary.

The Dale Jordons return to Avon Park. They have a new home on Margarete Drive at Morning Sun Manor near the end of North Lake Avenue.

Mr and Mrs Charles Boardman have returned from a summer vacation which they spent in Pembroke Mass with Mrs. Boardman's niece and husband, Mr and Mrs W[illegible] Clark.
