Devil Cagers Visit Ft. Meade Friday Night

The Red Devils headed for Ft. Meade Friday night to play the Fighting Braves and try to avenge a 24-42 loss in the county team suffered early in the season. Next week the Devils will participate in the Ridge Conference tournament which will be played at a location yet to be determined. The Devils' final two regular season games will be played here Friday, 19 and 22 with Fort Meade and Sebring.

Friday night the Devils will surpass the Frostproof Bulldogs with a full court press from the opening of the game and took a 17-11 first quarter lead which they widened into a 32-10 advantage by the half. Frostproof rallied in the second half, however, and pushed in 11 points to tie the Devils at 24 in the third period and 44 in the fourth. The Devils won the final quarter to edge winning six points of the winning Avon Park team.

The Red Devils played control the ball for long periods of time at the close of the third and final periods but Frostproof still managed to steal the ball often enough to give the Devils a real scare. Although they never had the lead in the game.

Forward Leonard Sullivan had seven field goals and three free shots to lead the winners with 17 points. Center Terry Oberle, dropped 14 points through the nets and Wayne Strickler added 12 for Avon Park. Frostproof's Don Sebastian was high scorer for the game with 18 points. The Devils won 64-42.

Davis Seeks Senate Seat

Dunty Also Considering New Office

Political activity in Highlands County was on the upswing today, following adoption of a reorganization plan by the Florida Legislature last week. Object of interest is the senatorial seat of the newly established 19th Senatorial District which comprises Highlands and Charlotte counties.

Whether the political movement continues or not, depends on the decision of the judges in Miami today (Thursday). They will either give the plan approval or reject it at that time.

At present, only one Highlands County man had served notice that he was desirous of a candidacy. He was Howard H. Davis, 34-year old, Lake Placid, who was defeated by G. W. (Dick) Dunty in 1958. He was narrowly defeated by G. W. (Dick) Dunty in 1958 when the county was part of the 27th Senatorial District, made up of Highlands, Harde, Glades and DeSoto counties.

Another Lake Placid attorney, R. P. Dunty, Jr., was also reported to be seriously considering making the race. Dunty at present is attorney for the board of County Commissioners. He was the lower in a representative race against Howard Livingston in 1954. Livingston had been running as a candidate, but told The

Previously Highlands was linked with Harde, Glades and DeSoto counties. Adams said that the 112-member Representative plan was the best possible reorganization, but felt that the Senate could have been reorganized better to meet the population requirements plan—yes.

How Business Looks
The business outlook for the first half of 1957 is generally optimistic. The Federal Reserve Board's index of industrial production shows a steady upward trend. The manufacturing sector is expected to continue its growth, with particular strength in the automotive and electrical industries. However, the agricultural sector faces challenges due to weather conditions and market fluctuations. Overall, the economy is projected to maintain a moderate pace of expansion.

MISS BULL

Miss Bull, she is a gentle thing.
A sort of cow, I've seen.
Who wears a great big ring
In the end of her nose.
It is a funny place to wear
A ring, I think don't you?
Aunt Emma hangs one on
Each ear.
And that is funny too.
She never does a bit of harm.
Miss Bull, I mean to say;
She spends all day inside
The barn.
A ruminating hay.
But if occasionally out
She goes to view the sky.
Then everybody yells.
"Look out!"
"Take care!" I wonder why.
For when I go out there to see
Miss Bull in her nice stall,
She never says a thing to me.
Nor notices at all.

She never takes a dozen winks
Of sleep the living day,
But stands and winks and
blinks and thinks;
She must know lots, I'll say.
I hope that when I come to be
All grown up to the full,
I'll be as nice and wise as she
Is, gentle old Miss Bull.

One of the most pleasant duties of a carrier is accepting the first letter for delivery that a youngster writes, but parents can be instrumental in observing or accompanying the child to insure that the situation does not create a danger to the child. We find that the lanes off the main highways and along side the streets are where the children most often play, and are where the carriers must travel to carry the mail. All patrons with children and neighbors with children in the county are asked to help by keeping children clear of the mail boxes before and during the delivery. The carrier is to deliver the mail.

Patrons are also asked to please keep clear the approach to rural boxes so that the carrier will be able to travel his route and maintain his schedule which will expedite the delivery of mail to everyone on his route.

Gun Accidents Kill 259 In State Last Year

TALLAHASSEE, Jan. 31.—A total of 259 persons were killed in gun accidents in Florida during 1962, of which 103 of the accidents involved hunters, according to the official statistics released by the Florida Game and Fish Water Commission.

There were 103 fatal gun accidents, of which 75 involved hunters. Fifteen of the 19 hunting fatalities were youths under 18 years of age. Seven hunters died from 22 caliber rifle wounds and four from .12 gauge shotguns.

Four hunters were killed while rabbit hunting, three while hunting other than game, one while hunting deer, three while turkey hunting and eight while hunting small game animals.

The Game and Fish Water Commission is offering a clearing house for firearms safety instruction. Lack of training in firearms safety is the cause of many accidents every year. The commission is encouraging all parents to require their children to have firearms training before giving them access to guns.

Nassau County in 1961 led all Florida counties in pulmonary production, followed by St. Johns County.

Our State and National Parks

A Heritage Level plains and craggy mountains, Rough moraines and rushing streams, Flowery vales and sunny meadows, Wooded borders where the wild deer feeds, Smiling lakes and laughing brooks, Ferny brakes and mossy nooks. Here are heard the sounds of nature, The song of birds, the hum of bees, And gently stirred, the whispering leaves. Here, love, let us stroll, Invite the soul To rest and peace. All heartaches cease. In these domains where God maintains His altar still for all who will But carry the whies, who come to walk Cathedral isles, all rival talk Leaving behind, who come to find Those hours that make no harsh demands, That peace which passeth understanding. All this, my love, for you and me, And generations yet to be. Let us go now and keep this eternal state Forever clean, inviolate. H. J. Fenton

Four different ways to make going more fun than getting there

You can see why one of America's favorite outdoor sports is driving Chevrolet, with four entirely different kinds of cars to choose from. There's the Jet-smooth Chevrolet, about as luxurious as you can go without going overboard in price; the low-cost Chevy II, a good-looking car that would send any family packing; another family favorite, the sporty Corvair, whose rear-engine traction

will make you think that ice and snow are kid stuff; and for pure adventure, America's only sports car, Corvair—now in two all-new versions with looks that can stop traffic like a rush-hour bizzard. Picked your favorite already? The next thing is to take the wheel at your Chevrolet dealer's. If that doesn't have you thinking of places to go, maybe you'd rather just have a ball around town!

Fla. Power To Hold Open House At Power Plant Friday and Sunday For Highlands

"All residents of the community and surrounding areas are invited to attend open house at our Avon Park Plant on Friday, February 15, and Sunday, February 17," C. E. Watson, Avon Park District Manager for Florida Power Corporation, announced today.

The hours for open house on these two days are: Friday, from 2 to 5 p. m.; and Sunday, from 1:30 to 4:30 p. m. "Under the direction of Plant Superintendent, C. E. Watson," said Watson, "plant personnel will guide walk-through tours of Avon Park Plant, one of eight electric generating plants in the 31-county system of Florida Power Corporation, was built in 1928 and, today, generates 55,000 kilowatts of electricity."

He pointed out: "If local civic clubs or high school classes would like to tour our facilities as a group, but cannot attend on Friday or Sunday, we would appreciate their contacting our local office as soon as possible; we will make every effort to schedule a tour at their convenience."

Benefit Cage Game Adjudged Huge Success

W. A. Maddox, president of the Avon Park Athletic Association, said today that last week's benefit basketball doubleheader was a huge success and once again brought out the fine community spirit which prevails here.

The doubleheader found the varsity team, 52-49 in the preliminary. The Rotary Club dumped the Lions Club 48-28 in the feature.

The faculty started fast against their younger opponents, running up a quick margin. However, the game score on, so did the faculty and youth came into her own.

The varsity pulled away in the fourth quarter, but the faculty closed fast.

They last quarter surge fell short however, as the youngsters held on.

In the feature, the Rotary Club dispelled rumors that they were a group of "old men." They allowed the Lions to take a brief lead but came charging back, alternating two complete teams to take the victory.

While the excitement on the floor was enjoyed by all, a local group of cheerleaders almost stole the show.

A trio composed of Miss Chloe Lockhoff, Mrs. Lena Suggs and Margaret Baker, all AVHS faculty members, performed the twist, huck-a-buck, and cheered for their male counterparts. Their performance was outstanding.

As the two varsity clubs took the floor, so did a quartet of Rotarian lovelies, dressed in silks and satins. Quality in cheerleading made little difference, as the group made up with quantity. Rotarian President R. M. (Bob) Gay and his lovely associates, Chuck Watson, Jimmy Johnson and W. A. Maddox, thrilled the crowd with their versatile cheer leading.

The Kiwanis Club continued the community effort, manning the concession stands, selling pop corn and operating the admission booths. Their effort was a good one.

And, to keep the fans in a gay mood, the "Hardwood Symphony," playing brilliantly, will long be remembered for their music.

Highlands Health Official Says Venereal Disease Is Increasing

Highlands County venereal disease rate is "pretty bad," County Health Officer Dr. William F. Hill said this week. The rate has at least doubled, perhaps tripled in the past 18 months, Dr. Hill told a Sun reporter. Hill, who works as county health officer in Glades and Hendrix counties as well as Highlands, said the rate is equally bad in the smaller counties he serves.

These soaring rates reflect a national trend which only recently began to receive publicity, Dr. Hill said. The underlying causes in this county are about the same as for other parts of the United States. He listed as number one cause of the climb a relaxation in public attention to the menace of venereal infection. "A decrease in effort in case finding had been the trend everywhere. We always have a 'hardcore' of infected persons who are hard to ferret out. Now the teenage group is dipping into the hard core of infection and producing a great increase in the number of cases."

"A lack of education at all age levels certainly is a contributing factor. Adults, as well as school-age youth, need to be educated in relation to the real dangers," Dr. Hill said. While public health departments do not generally give treatments to individual patients suffering with venereal disease are an exception. "Of course private physicians can and do treat many of the patients," Hill said, "but in these raw treatments may be helped by the health department staff."
