Halbig Or Miracle Champion?

Before the 1964 tennis season, the Singles Championship will be decided in the "Hawthorn Club" sponsored tennis tournament. It will be either Wolfgang Halbig or Billy Miracle who will win that coveted trophy.

On Sunday night, the two boys met for a second time in the final match, and Miracle defeated Halbig in straight sets. It was the first loss for Halbig, who had won all six of his previous matches in the tournament at the Hawthorn Club in their last meeting.

Miracle, who was playing with a sore throat and a fever, took the match in three straight sets of 6-2, 7-5, 6-3. Halbig fought with great spirit, coming during the match down to Halbig, however, Miracle's power was the undoing of the underdog.

Since neither boy is a professional, the trophy will be awarded to the winner of the match. Miracle's victory means he will be a third play-off match between the boys, who are scheduled to play on Tuesday night. Weather and Miracle's health permitting.

Miracle earned the right for a second and third shot of Halbig by defeating Robin Dugan 6-3, 6-1, 6-2 after Dugan had defeated Eddie Bates 6-4, 6-2, 6-2 in earlier play.

Wolfgang Halbig and Eddie Bates, because Avon Park's 1963 Junior Doubles Champions by defeating Andy Miracle and Robin Dugan in their final match 6-2, 6-0, 6-6. This was a steadily played match in which excellent teamwork and superior sportsmanship was displayed by both teams.

After the singles match between Halbig and Billy Miracle on Sunday night, trophies were awarded by Kiwanis Club President Henry Coffey to the Doubles Champions and Doubles Runners-up. Mr. Coffey also thanked city officials for their cooperation in providing and improving the tennis facilities.

Andy Miracle and Robin Dugan first received the Runners-up trophies, after which Eddie Bates and Wolfgang Halbig came forward to receive the Champions' trophies. Award of singles trophies was necessarily postponed pending outcome of the Tuesday night match.

On the basis of outstanding golf sportsmanship, general attitude, interest and participation in tournament affairs, Ed and J. Dunne, Jr. presented awards to several other participants. Cans of balls were given to Bobby Hughes, Jeff Chidlers, Mike Dugan, and Roy Coats. A tennis racket with cover and press was awarded to Jim Rodge as the most deserving of all players for these awards.

A "fun" award was also presented to Andy Miracle who had declared himself double-fault champion in one of his matches and said he should receive a broken racket rather than a prize. That is exactly what he did receive with a real ribbon on it and his name painted on it by the legend "Champion Double-Fault Champion, Junior Tennis Tourney, Avon Park, Florida, 1963."

In the ladder tournament, meanwhile, several matches have been played, but the only person to move up the ladder so far is Roy Coats, who moved up one step by defeating Al Yarborough 6-6, 6-4, 6-4.

The ladder, at present time: 1. Gary Browne, 2. Eddie Delaney, 3. Jim Rodgers, 4. Jim Lyle, 5. G. L. Townsend, 6. Jeff Chidlers, 7. Bobby Hughes, 8. Don Collier, 9. John Rodgers, 10. Danny Butler, 11. Andy Miracle, 12. Mike Dugan, 13. Roy Coats, 14. Al Yarborough, 15. Eddie Bates, 16. Robin Dugan, 17. Billy Miracle, 18. Keith Collier, 19. Wallace Kirkland, 20. Carl Coats, 21. Bryan Williams.

Something New Used To Boost City's Benefits

Something new has been added in the way of publicity for Avon Park and Highlands County. The Avon Park Chamber of Commerce has revised their popular Personal Letter and included coverage, not only prizes for Avon Park, but for Highlands County and attractions therein as well.

This letter will be distributed throughout the United States only under the direction of the Chamber of Commerce, but by means of the traveler and visitor sending this precomposed letter "back home." This colorful, easily worded letter was designed to send the message about the attractions of Avon Park and surrounding area in such a manner that it reads like an informal, but personal letter written by sender with a space under the P.S. for even more personal messages to be added.

"It is an excellent way of boosting Highlands County as well as Avon Park," stated George W. Bender, President of the Avon Park Chamber of Commerce.

"Residents of Highlands County, as well as the tourists, are invited to come in, take some time to fill these letters," Mr. Bender added.

DONALD R. HANSFUDER, Superintendent of Avon Park Correctional Institution is shown here presenting High School Diplomas and Certificates of Achievement at the Summer Graduation Exercises held at the prison.

More Hats In Ring

Boiling Political Pot Makes Progressive City

It appears that the political pot for the coming city election is boiling. September 20 is going to show a great deal of activity in the city.

Don Bennett, one of the candidates of the Bennett and Mowles contracting firm, was the first to qualify to run as a candidate.

It is rumored that several other well-known business men are considering placing their hat in the ring in the near future. This is as it should be. The city needs the best material possible for its city.

The voters have made their choice in the past and have chosen men that they believed to be able to carry their loads. It is to be hoped that the city will continue to have the right men in the right places.

By studying the progress of the candidates, the voters can see that the city is in a good position to handle the coming election.

Progress is a necessity in this city. It is a hard job to run a city, but it is a job that must be done.

It is a hard job to run a city, but it is a job that must be done. It is a hard job to run a city, but it is a job that must be done.

It is a hard job to run a city, but it is a job that must be done. It is a hard job to run a city, but it is a job that must be done.

It is a hard job to run a city, but it is a job that must be done. It is a hard job to run a city, but it is a job that must be done.

It is a hard job to run a city, but it is a job that must be done. It is a hard job to run a city, but it is a job that must be done.

It is a hard job to run a city, but it is a job that must be done. It is a hard job to run a city, but it is a job that must be done.

Bible Reading To Continue In County Schools

Bible reading and prayers will continue to be a part of the daily routine in Highlands County schools.

At an July meeting the Highlands County Board of Public Instruction approved its decision to "maintain practices without change."

The traditional opening of the school day has been a reading of a portion of the Bible without comment and a recitation of the Lord's Prayer.

School Superintendent Andy Miracle said that he has received no communications from the state department of education relative to the recent U.S. Supreme Court decision on prayers and Bible reading in the schools.

Highlands school board members said they felt the "moral and spiritual" aspects of the time indicated that no change should be made in the county's practice.

Rutherford Named To Boys Nation

William E. Rutherford, son of Mr. and Mrs. Ray Rutherford of Avon Park, Double Dispatcher, Avon Park Division of Tampa Electric, has been appointed to the faculty for the 1963 session of The American Legion Boys Nation, Washington, D.C. There are only 35 men selected for this important position from across the nation. Bill's appointment is a reflection of his performance as a City Council member of the Palm Bay State staff, Tallahassee, during the past four years.

Annual Boys State and Boys Nation sessions are sponsored by the American Legion throughout the country. Staff members guide the participants through two-week sessions of legislative action fashioned after their regular state and national legislatures. Activities are carried out in the regular chambers of the respective groups.

Post Office Request Zip Code Numbers

Do you know your Zip Code number? If you don't, you should. The Post Office should use the zip code number 32925 on all correspondence.

The Zip Code Number is literally the last word in mail addressing. It should follow the city and state in addresses.

Example: R. D. Young, Postmaster, U.S. Post Office, Avon Park, Florida 32925.

The Zip approach to mail distribution not only makes use of all that is good in the present system, but it also introduces such major changes as the mailing and processing of mail at strategically located sectional centers in the area of delivery.

Any major change in a system as large and complex as the Postal Service must meet certain requirements. Most important, the proposed change must be fully compatible with both the present and future mail handling systems.

The ZIP Code meets this requirement. Use of a national five-digit code as an integral part of the mailing address will mean easier, faster and more accurate manual distribution of mail and the use of numerical characters in the address should definitely advance the cause of automatic code and machine address reading in sorting mail. Finally, ZIP offers a simple, inexpensive plan for preparing mail, compatible with all major addressing systems, and based on a uniform standard distribution pattern.

Further information will be forthcoming in the very near future concerning this program. In the meantime, any questions concerning this can be answered if you will dial GL 3-3825, your local Post Office phone.

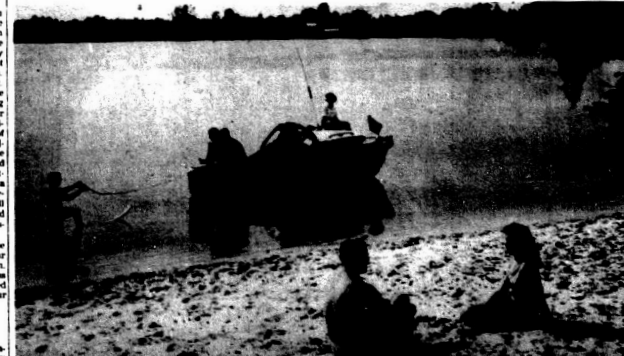

BENEFITS

NEW YORK (UPI) — Life insurance companies pay out nearly \$2 billion in life insurance benefits on an average day of the year, according to the Institute of Life Insurance.

Little League All Star game to be played in Ft. Meade today at 2:00 p.m. The motorcycle will leave Avon Park at 11 a.m. The team will have the support of Avon Park citizens. Front row: Steve Walker, Glenn Ramsey, Billy Richards, Jerry Kendrick, George

Copeland, Clark Jackson and Walter Stein. Back row: Alan Moore, Larry LaFram, Gary Griffin, Dean Lesker, John Alwood, Chuck Long, Robert Stewart and Virgil Steamer, President of the Little League Association.

Thought For The Day

It takes a lot of time to make a thing, and a lot of work to make a thing.

Highlands Court News

At an Avon Park burglary case is among the worst cases which are being tried in the Avon Park Court new year.

Edna Taylor, 37, who is accused of having taken into the Blue Bird Cafe in March 1963, is being tried for burglary, larceny and entering and grand theft.

He was tried in both courts in March 1962 and was sentenced to serve 15 years for burglary and five years for grand larceny. The sentence is not consecutive.

Earlier this year Taylor was a trial of the grounds that he had not been represented by counsel at the first trial. He was at that time accused of burglary and was tried before Judge O. B. Kelly.

This is the first of an expected series of retrials the prosecutor who were not represented by counsel.

On May 8 of this year, J. P. Placide was appointed to replace Taylor at his trial. Later cases probably will be handled by the newly appointed Judge Placide for the 1963 Court. The new court is located in the new building at Lake Wales.

Other cases scheduled for next week in the court include a case involving a 28-year-old Negro from Sebring, who is accused of the killing of James Hines.

Bobby Lee Jackson, 37, is being tried for the murder of an inmate in the hospital. He is accused of committing murder in the first degree.

Joseph Mathis and Luther E. Taylor are being tried for robbing a bank with violence.

Farm Fire Toll Heavy
In Tragedy, Money Loss

Losses of over \$100 million in farm property and crops were reported in the United States last year, according to a survey by the National Fire Insurance Underwriters Association. The survey, which is the most comprehensive of its kind, shows that the average farm lost \$1,000 in property and crops last year. The survey also shows that the average farm lost \$1,000 in property and crops last year. The survey also shows that the average farm lost \$1,000 in property and crops last year.

Gerald H. Creel Is Promoted

Sen. Holland To Head Convention

Florida's second United States Senator, Senator Holland, will head a Florida citrus growers' convention for many years to hold a group of national and state officials participating in the 20th Annual Convention of the Florida Fruit and Vegetable Association at the Americana Hotel in Fort Lauderdale, Miami Beach, September 24-26.

Along with the political group will be a number of important agricultural figures from other states in the union, indicating that considerable attention is being attracted to Florida's agriculture.

According to John W. Evans of Orlando, serving as second year as General Convention Chairman.

Senator Holland, who is a ranking member of the Senate Agriculture Committee and who back in 1935 drafted the legislative act setting up the Florida Citrus Commission, will be the keynote speaker at the opening business session at 2:00 p.m. Tuesday, September 24. He is expected to stress the importance of agriculture in the west and national and world markets and to discuss the latest developments in citrus production affecting the farmers of the state and country.

We are fortunate to be able to schedule Senator Holland for the keynote speech, he will actually be kicking off a convention that will be one of the most important agricultural sessions ever held in the State if not in the southeast. J. Albery Cox, President of the FFA said.

Congressman A. S. (Bud) Herlong Jr. of Leesburg, Florida's Secretary of State, Adam A. Worley, Brown, Chairman of the State Industrial Commission, Laurence K. Walcott of Palm Beach, Chairman of the Interstate Commerce Commission, Commissioner of Agriculture Doyle Combs, and other state and national officials will join heads of many national farm groups in participation during the convention.

Evans said the formal program for the convention would be an important study, committee reports are trying to fit a lot of highly important discussions and talks into a workable schedule, which will allow all attending to take full advantage of the program.

Invitations for the convention will be in the mail within a few days, coming from the office of J. C. David, Secretary-Treasurer and General Manager of FFA at Orlando.

BAKE FACT

NEW YORK CITY — Simultaneous held spots occurring in a husband and wife are not uncommon, reports the Life Reference Service.

Emotional factors appear to be at least partly responsible for the condition. One Chicago couple developed a type of madness which left a sharply defined bare spot in almost the identical part of the scalp of both.

A psychiatric evaluation revealed each was emotionally dependent on the other and that there seemed to be a strong identification.

How COOL WILL YOU BE WHEN YOU GET HOME?

Drop everything you're doing and investigate electric air conditioning today. Hot jobs are much more of a pain than you think about going home to cool, cool, air conditioned comfort. It costs less than you think and you can spend the rest of the summer relaxing in cool, air conditioned pleasure.

J. Edwin Larson To Launch New Insurance Growth Plan

TALLAHASSEE — State Treasurer and Insurance Commissioner J. Edwin Larson will launch a new era in insurance industry growth July 19 when he meets with representatives of premium finance companies to plan major legislative efforts to increase the 1961 State premium financing in Florida.

Commissioner Larson said the measure — providing protection for the public in the financing of insurance premiums and guide lines for the industry — will provide a tremendous stimulus to insurance values in Florida. The State has not regulated major premium financing in the past.

The 11th annual meeting in the Insurance Department Conference Room, first floor New Wing Capitol, will precede the July 19 effective date of the new law and serve to inform the insurance industry on the membership of the premium finance business.

Basic purpose of the measure is to set up regulations governing the insurance premium financing for the protection of the public and the insurance industry in Florida, Larson said.

He cited the immediate benefit of the premium finance legislation as the attraction of new business to the industry. One of the state premium finance firms will move its headquarters to Tallahassee.

County Schools Adopt Training Course

JACKSONVILLE — The Board of Health today adopted a training course for health officers in the county.

The course, which will be held at the University of Florida, is designed to provide health officers with the latest information on public health matters. The course will be held over a period of several weeks.

EASY

91 Killed In June Traffic Accidents

THE FARM FRONT

BY DOYLE CONNER
COMMISSIONER
FLORIDA DEPARTMENT OF AGRICULTURE

It is a sad fact that in the month of June, 91 persons were killed in traffic accidents in this state. This is a record for any one month. The Department of Transportation is now making a study of the causes of these accidents and is hoping to find ways to prevent them in the future.

One of the main causes of these accidents is the fact that many drivers are not properly trained. The Department of Transportation is now offering a course in defensive driving to help drivers learn how to avoid accidents. This course is being offered in many parts of the state and is free of charge.

Another cause of these accidents is the fact that many drivers are not properly maintained. The Department of Transportation is now offering a course in vehicle maintenance to help drivers learn how to keep their vehicles in good condition. This course is being offered in many parts of the state and is free of charge.

Another cause of these accidents is the fact that many drivers are not properly maintained. The Department of Transportation is now offering a course in vehicle maintenance to help drivers learn how to keep their vehicles in good condition. This course is being offered in many parts of the state and is free of charge.

Savings and Loan Set Record

ORLANDO, Fla. (AP) — The Florida Savings and Loan Association set a new record for the number of new members in the state during the first six months of 1963. The association reported that it had gained 10,000 new members in the first half of the year, compared with 8,000 in the same period last year.

The association's success is attributed to its aggressive marketing program, which includes a large number of branch offices throughout the state. The association also offers a wide variety of savings and loan products to its members.

SOIL NEWS

By Sam Poisson

The widespread drought in the state has caused a serious shortage of water for the growing season. This has led to a significant loss of crops and has caused a great deal of hardship for the farmers. The Florida Department of Agriculture is now working to help farmers cope with this problem by providing them with information on how to conserve water and by providing them with financial assistance.

How COOL Will You BE WHEN YOU GET HOME?

Long day? The next time you take your bus ride home, think how nice it would be if you were going home to cool air conditioning. See how inexpensive it is to have cool comfort electrically all summer long. Live better electrically.

30

Instant Comfort Electrically

FLORIDA POWER CORPORATION

The Florida Power Corporation is now offering a special program to help homeowners save money on their electricity bills. This program includes a number of energy-saving devices that can be installed in homes at a very low cost. These devices include energy-efficient light bulbs, energy-efficient air conditioning units, and energy-efficient water heaters. By installing these devices, homeowners can save a significant amount of money on their electricity bills each month.

Washington Report

By Congressman Jim Haley

WASHINGTON, D.C. (AP) — The House of Representatives has passed a bill that would allow the federal government to take over the management of the nation's waterways. This bill is part of a larger program to improve the nation's waterways and to protect the environment. The bill would give the federal government the authority to acquire, construct, and maintain waterways and related facilities. It would also give the federal government the authority to regulate the use of these waterways and facilities.

REPAIR REMODEL RESTORE ECONOMICALLY

WISHING YOU COULD give your home a new look? Turn your fancy into facts with an economical Home Improvement Loan. We make loans for room additions, house painting, roof repairs, kitchen remodeling or most any other kind of home improvement. It doesn't matter if you have an existing mortgage and no down payment is required. Up to 36 months to repay in budget-friendly monthly amounts. See us now!
