What Do I Wish?

THE CHURCH FOR ALL— ALL FOR THE CHURCH

The Church is the greatest factor in the building of a character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Pam can't keep a secret. She'll probably tell us what she wished before the cake is half eaten. Whatever her wish, it will be for a little girl type of thing. But—what of me? What do I wish for my daughter? Success in a career... happy marriage... children... a beautiful home... a fair share of worldly goods... health... happiness? I suppose I wish all of these things for Pam, in some measure. But if I had to limit myself to a single wish—I would ask for her a deep and abiding faith. How wonderful it is to have an unshaken belief in God's ways and His works, plus the conviction of His love for us. Some of us may be limited in our ability to give our children material things, but we need never stint on teaching them spiritual values. Start taking your children to church and church school this Sunday.

Inter-County To Adopt New Telephone Night Call Rates

Effective at 12:01 a. m. on the 20th of March, the Inter-County Telephone System will adopt the United States rate schedule for reduced rates on station-to-station long distance calls placed in the state rate schedule after 9 p. m. to any place within the state of Florida. The rate by the Federal Communications Commission order by the Florida Railroad and Public Utilities on April 4, 1963. This order sets a maximum charge of \$1.00 per minute for a three after 9 p. m. for a three minute station-to-station call between any Florida points. In the 48 states (Alaska and Hawaii are overseas calls) the reduction will range from 20 to 60% for the initial three minutes and from three minutes, and from six to airline distance between rate centers.

In general such as change is a rate center, but small towns or communities may be assigned to an adjacent rate center.

For distances up to 40 miles the rate will be the state rate. For distances over 40 miles the rate will be the state rate divided into blocks and sections.

The blocks are seven miles square, and the sections are 25 blocks or 175 miles square. The rate for the first 40 miles is then determined by measuring the distance between the centers of the 40 mile sections.

For distances over 40 miles the measurement is made between the centers of the 40 mile sections.

Inter-County customers place nearly six million calls annually.

Eighty were present at the meeting of the Inter-County Telephone System, Inc., held at the Avon Park Sun on March 18, 1963.

Mr. R. J. King, General Manager for Inter-County Telephone System, Inc., said that the present long distance calling pattern was a 10 p. m. to 5 a. m. rate of 10¢ per minute, and a 5 a. m. to 10 p. m. rate of 20¢ per minute.

Mr. King further stated that the company expects an increase in the number of out-of-state calls, since greater savings

will be available to Florida points.

Mr. King said that the new rate schedule will be in effect on March 20, 1963.
