Meeting Scheduled On Disposal Plant

Provided engineers and fiscal agent representatives can attend, a meeting will be held Monday night, Feb. 21, at 7:30 o'clock by the City Council to discuss a sewage disposal plant.

Councilman Clarence King asked for such a meeting during Monday night's session of the City Council.

Council Vice President George Border, presiding because of the absence of President Jimmy Doerr due to illness, set the meeting for this coming Monday. It was agreed it would hinge on the presence of engineers and a fiscal agent.

Plans have been completed for a disposal plant which the Highlands County Health Department has told the city it must build to replace the antiquated plant built in 1928 and now termed in disrepair.

Dawkins & Granthami, consulting engineers of Orlando, have prepared plans for a modern plant and are ready to supervise construction, when and if the city is able to obtain finances.

Plans provide for an adequate disposal plant which can be expanded as the city grows, engineers have assured the city.

When voters defeated a projected sewer lines expansion program at the polls last December they also removed any means of financing the disposal plant. It was tied in with a $750,000 revenue certificate issue which would have extended the sewage system to more than 1,000 residents from the present 300 outlets mainly in the business area.

On defeat of the certificate issue the Council noted that the city was without funds at the present to finance any disposal plant.

No member of the city's official family has been willing to discuss publicly a method of financing. King has suggested a plan which, he was informed by other members of the Council, is not possible under the present method of operating the city.

He suggested bank borrowing to finance the plant but was told the city cannot do that under its present charter.

Work at the baseball park is nearing completion, the Council was told by Councilman Durrah Martin. Fences and other repairs have been made for the approaching baseball season.

Martin also reported signs have been painted on the airport hanger advertising Avon Park from the air.

He also advised of needed runway patching work and was authorized to proceed.

Councilmen authorized an appropriation of $200 for Little League equipment after being told light installation plans.

And, they passed an ordinance calling for $30 charge for sewer installation where a lot owner has to cut across a street to tap into sewer lines. This is in addition to the present $20 tappage charge.

Councilmen also unanimously agreed that the city give the South Florida Junior College up to $500 to help defray the cost of a survey being made to provide several Avon Park buildings for temporary quarters.

And, as an item to brighten the closing minutes of the session, a letter was read from a resident voicing near headlights which glow over a parking lot.

It was agreed that as long as the lights are on private property the Council cannot legally turn them off.

And, the board also learned from the attorney general that the city's occupational ordinance apparently is within the word of the law.

On word of this the city clerk was instructed to so notify several who had questioned local license fees.

"CONGRATULATIONS," says Police Chief C. S. Carroll (right) to Grady Campbell on his promotion to assistant chief of police which took place Monday night as the City Council approved the move. Campbell, a patrolman 2½ years, has been an Avon Park resident since 1932 when he moved here from his native Ala. He served 2 years in the Army during WW II. He is married.—(SUN PHOTO.)

Watershed Project Proposed For Lakes In Avon Park Area

A new watershed project to involve several of the larger lakes in the Avon Park region is being projected.

The proposal, now named the Carter Creek Watershed Project, will be discussed at a public meeting Monday, March 21.

Highlands County commissioners Tuesday agreed to co-sponsor the public meeting with the Soil Conservation District.

Leiters of the conservation district — Bob Barben, Jim Maxcy and Sam Polston — presented a request for the commissioners' cooperation. Barben said the proposed project — which would be the fourth one for this county — would include 12 lakes.

The lakes included now are Lotela, Tulane, Anoka, Lelia, Glenada, Silver, Denton, Little Bonnet, Letta, Little Red Water, Sebring and Big Bonnet.

Barben told commissioners that the state is currently making a study to determine the location of property lines dividing private property from the state-owned lake bottoms. He said this is a step toward legal establishment of lake elevations.

"This will take considerable pressure off the commissioners," he said, "and it will help conserve one of our most precious resources, water."

Although commissioners did not take formal action, Chairman Cecil Skipper said he is favorably impressed with materials describing participation in the federal program for distribution of surplus food stuffs.

Highlands participation in the commodity program has been requested by Mr. and Mrs. Steve Wiland, Volunteers in Service to America (VISTA) working in Avon Park.

Skipper told the Wilands Tuesday, "It looks like a good program, and it could save the county some money, but we have not had an opportunity to discuss this with our welfare director."

Wiland did not get a final answer on his request to use the county-owned voting building in Avon Park as a site for a woodworking class. He said one manufacturer has donated a large quanity of plywood for the class and some power tools have been promised.

The county attorney approved a release of liability to be signed by students in the woodworking class, but the commission asked for additional information about liability for property damage.

REP. ADAMS

Morris Adams Will Seek Re-election

Rep. Morris Adams of Avon Park will seek re-election to the Florida House, a post he has held for two terms.

Mr. Adams, in making known his decision to run for re-election, called attention to the fact that he also will face voters of Charlotte County for the first time this year.

This was caused in the reapportionment plan adopted by the last Legislature, effective only for this year's election as a federal court had decreed a change necessary.

Mr. Adams, an Avon Park oil dealer, a native Georgian educated in Highlands schools, in revealing his plans, said he probably will qualify with the secretary of state next week while in Tallahassee on business.

Following is his statement of his intentions:

"I would like to announce my candidacy for representative of Charlotte and Highlands Counties in the state Legislature for the coming election.

"I welcome the opportunity of serving Charlotte County, even though it is my feeling that each county should have at least one representative. Honorable Frank Smoak, the former representative from Charlotte County, joined me in an effort in the last session of the Legislation to defeat the legislation that placed Charlotte and Highlands Counties under one representative, but it will be necessary for the entire membership to be elected in the November election.

"I am sure that the people of Charlotte County will agree that Highlands County has been fair in its dealings with Charlotte County and I feel that I can represent both counties in the same manner that I have represented Highlands County."

Florida Power Honors Trio

Three employees of the Florida Power Corporation in the Avon Park area have received "service salutes" from the St. Petersburg-based firm.

Harry R. Douberley and Leamon A. Kelly, both located at the local generating plant, have been honored for 20 years service with the power company.

Thomas B. Jenkins, purchasing-stores here, has been honored as a 5-years employee, according to "Florida Power Lines", the corporation's monthly publication.

18 Are Hired To Further School Work

To date 18 persons have been hired by Highlands School Board to implement projects under the Elementary and Secondary School Act.

A shortage of qualified personnel is "preventing the immediate launching of strong programs in some areas," according to James Ferrel Smith.

Smith, coordinator of curriculum for county schools, has been serving as director of the federal projects. He said the School Board has hired a librarian consultant and two teachers to relieve overcrowded conditions.

Three helping teachers have been named, but only one is working as a demonstration teacher. Board Chairman Henry Bailey has expressed regret that the helping teacher project has developed so slowly.

This project worked out by Carver, Hopewell and E. O. Douglas school principals—asks appointment of superior, experienced teachers for classrooms in economically deprived areas to allow regular classroom teachers to observe and to work as a sort of student.

Smith said locating superior teachers is difficult and finding them in mid-year has been almost impossible.

Some other positions in the federally financed projects have been filled and are "adding much to our school program." Three aides have been hired for exceptional child classes, five teacher aides, four librarian aides and three attendance aides.

Superintendent George Douglass told the School Board that attendance aides, who have been at work only a few weeks, "have already turned up several families who had never enrolled their children in school."

A secretary has been hired in the schools office to handle the clerical work involved in the new projects, and the superintendent is currently seeking a person who could serve as administrator for the federal programs.

LITTLE LEAGUE OFFICERS who were elected at the annual meeting Tuesday night, all returned to office with exception of Fred Davis (middle) named this year's treasurer. Judge Mervin Rehrer, seated, remains league president while Leon DeLaney, (left) secretary and Bill Thompson, (right) vice president.—SUN PHOTO.

Animal Clinic Set Saturday

Dr. William Jernigan, veterinian, will conduct an animal clinic at Avon Park Fire Station on Saturday, Feb. 19, from 10 a.m. to 12 noon and from 2 to 5 p.m.

County regulations require all dogs and cats to be licensed, and such licenses cannot be issued until the animal has been given an anti-rabies injection.

All dog and cat owners whose pets have not received an anti-rabies shot within the last year should bring them in the clinic.

If your pet has received such a shot within the last year, be sure to bring with you the certificate which was given to you by the veterinian at the time the animal received the anti-rabies shot. This will prove that your pet is now ready to be licensed.

Such shots usually cost $3 but during the clinic the cost will be reduced to $2. Animals which have received the anti-rabies shot can then be licensed.

The charge made by Highlands County for the license is $1.50.

Speeders, Parking Get Council's Ear

Speeders and Post Office parking got the ear of the City Council Monday night when both came in for discussion.

The first discussed was fast-traveling ambulances with screeching sirens down Main Street, causing the Council's hackles to bristle. Thoroughly discussed, the matter was left for development.

Parking around the Post Office was brought to the Council's attention in a communique from Postmaster Robert Young who sought action for the 838 boxholders and window patrons.

Noting there are but 16 parking spaces, the postmaster asked that something be done to facilitate use of the spaces by limiting there occupancy by other than postal patrons.

He suggested reinstitution of parking meters, limiting their time to 12-15 minutes, reinstalling 15-minute parking signs in the area to create a faster flow in and out of the area.

And, Postmaster Young suggested that the 12-15 minute parking limit exist between 6:30 a.m. and 10 p.m., hinting other businesses are attracting long-time parkers other than postal patrons. This especially at night.

Taking no definite action, councilmen did cite need of a new Post Office for Avon Park which provides adequate parking for patrons.

Regarding parking meters, they also noted there is none in operation in the city.

Annual Sweetheart Banquet's Theme 'To Paris With Love'

"To Paris with Love" was the theme of the Sweetheart Banquet held in the Social Hall of the First Baptist Church last Saturday night. The banquet is an annual affair sponsored by the Training Union for intermediates and young people.

Those attending took the part of American tourists in Paris at the Eiffel Tower Sidewalk Cafe for entertainment and the best of food. Tables for four scattered about the Cafe, were covered with red checkered cloths. Each held a candle in wax-dripped bottles.

A lighted, sprinkling water fountain, store front display windows featuring a flower shop, a jewelery store, ladies hat shop, and a fabric shop made the setting more realistic.

There was a star studded sky above and a lighted full moon.

As guests arrived, they were greeted by the head waiter (Dixie Scott), handed a menu printed in French, and seated by pretty waitresses appropriately costumed. (Mrs. Lawler Wells, Mrs. H. R. Baughan, Mrs. Helen Cribbs and Mrs. Dixie Scott).

Junior music was furnished by the one and only "Voncille" (David Sechrist) as he wandered among the tables playing the cello.

A film, "One Way Ticket," was shown during the evening, and a skit, "Waffles Deluxe," was given by Mr. and Mrs. Joe Ward and Mrs. Dixie Scott.

Artist, "Picasso Jr.," (Malcolm Crews), did a painting while telling humorous tales about various persons in the group.

A wandering quartet (Diane Landress, Cheryl Guerndt, Joe Strickler and Johnny Wright) went from table to table singing love songs.

Sixty-nine "Americans" from Avon Park were served during the evening.

Rev. Aden Childress had charge of the closing devotional.

World Day of Prayer Will Be Observed Here On Feb. 25

World Day of Prayer, an annual world-wide observance, will be held in Avon Park, Feb. 25.

Mrs. Katie Bleam, chairman of the United Church Women's local committee, has invited all interested persons in the area to attend special services in the Presbyterian Church at 7:30 p.m.

Now 80 years old, World Day of Prayer is observed in 125 countries and on six continents. In the United States it is sponsored by United Church Women—national cooperative fellowship of Protestant and Eastern Orthodox women's agencies, which is a department of the National Council of Churches' Division of Christian Unity.

"Observed each year on the first Friday in Lent, World Day of Prayer is truly world-wide in character," Mrs. Bleam said. "The same order of service, translated into many different languages is used in all services. This provides a unique opportunity for a deep experience of Christian unity in prayer with Christians all over the world."

She said each year's order of service is designed by an individual or committee in a different country. The 1966 service, based on the international theme: "You Are My Witnesses" (Isaiah 43:10), was prepared by women of the World Day of Prayer Committee of Scotland.

"This year's service stresses the idea that ordinary church members can change the world by their daily actions," Mrs. Bleam said. "It also reflects the ancient traditions of the Scottish church."

Sermonette

REV. HERBERT D. GRAETZ
Union Congregational Church

JUDGMENT THAT BOOMERANGS

"Let us not therefore judge one another . . . for we shall stand before the judgment-seat of Christ." Romans 14:10,13.

Those who are guilty of censorious judgment face a rather unpromising future according to the teachings of the New Testament. We know this to be a fact and yet we are so often guilty of sharp-tongued criticism of others. St. Paul says that we should not dare because we shall stand before the judgment-seat of Christ.

Joaquin Miller wrote the following lines as a young poet.

"In men whom men condemn as ill
I find so much of goodness still,
In men whom men pronounce divine
I find so much of sin and blot,
I hesitate to draw the line
Between the two, where God has not."

After some years had passed, the poet commented on his work: "When I wrote that poem about condemning and judging I was immature. Now after a quarter of a century has passed and I have learned more with the wisdom of experience, I want it read this way, with just one word changed:

Instead of:
"I hesitate to draw the line
Between the two, where God has not."
Change it to read:
"I dare not draw the line
Between the two, where God has not."

It has been noted that "history is strewn with misjudgment." When Keats' "Endymion" was first printed, one critic noted "a certain amount of talent which deserves to be put in the right way." Then there is Ronald Coleman, the actor. When he was starting his career, he was interviewed and tested for a part in a play: "This man," the producer said "will never do. He cannot act, and he never will be able to act, and you had better tell him to look for some other profession before he starves. By the way, tell me his name again so that I can cross him off of my list." Today, he is remembered as one of the truly great actors of the past generation.

Curt criticism is more often than not spoken in ignorance. William McChesney Martin Jr., had been president of the New York Stock Exchange before his induction into the army. He was having some difficulty in executing certain maneuvers as a green buck private. The drill sergeant looked him squarely in the eye and said: "I've seen some stupid people, but you are by far the worst. It's a lucky thing you got in the Army, because you would never be able to make a living anywhere else." Martin's salary with the Stock Exchange had been $48,000 a year. But you may be tempted to say, "the sergeant didn't know." Ignorance, of course, is always a poor excuse.

Take the case of Collie Knox and his friend. Knox had been smashed up in a wrecked plane while serving with the British Royal Flying Corps. His friend had just been decorated for gallantry. They were in their street clothes dining in a London restaurant, when a young woman came up and handed each a white feather, the symbol of cowardice. Of course, she didn't know. But, again, ignorance is no excuse.

Sometimes our words reveal our ignorance. As much so, perhaps, as in the case of the young man who said to a guide in a famous art gallery: "Well, I don't think much of your old pictures." To which the guide replied: "Sir, I would remind you that these pictures are not on trial, but those who look at them are."

Very often by our words of censure we reveal our inmost nature. Dr. Buttrick puts it this way! "Our censure is often directed to the fault in others that is first in us. By transfer we blame a neighbor in order to escape the realities of self-blame." Thus our bitter judgment of another comes back to haunt us.

Jesus gave us an uncompromising word on judging others, when he said: *"Judge not, that ye be not judged."* St. Matthew 7:1. He teaches us that we shall be judged with the same judgment. There is no equivocation in his words. *"With what measure ye mete,"* he says, *"it shall be measured unti you."* St. Matthew 7:2.

Jesus further says that the man who judges stands in the greatest condemnation. He asks all such the question: *"Why do you see the speck that is in thy brother's eye, but do not notice the log that is in your own eye?* St. Matthew 7:3 R.V. Let's be honest with ourselves, the faults of other men may be as splinters, when compared with our own.

St. Paul promises all who judge others in a severe and censorious manner that they will have a day of accounting before the judgment-seat of Christ. That prospect ought to be enough to make one tremble.

How much better it would be if man first judged himself. This is best done in the light of Christ. Once man really comes in contact with the Lord, there is judgment enough for this world and the next.

Man should mind his own business more. If he does, he will find he has plenty to do. VanWyck Brooks says so much in these words: "I begin my work with the same old feeling that I am on trial for my life and will probably not be acquitted."

Retreats Held At Wingmann

This week, the Diocesan Department of Christian Education meets at the Bishop Loutitt Retreat and Conference Center at Camp Wingmann for three days.

Avon Park's Episcopal Church of the Redeemer is a landmark in the city, one of the city's oldest houses of worship, standing as it was built by members of the Anglican faith some years before the turn of the century. It has served many during its years as a mission then in recent years as a parish. Consecrated about 1898, the land and church originally was under the Diocese of Florida, later becoming a part of the Diocese of South Florida when the latter was created. A number of prominent men have served The Redeemer as priests of the Episcopal faith. Among them are Rev. Peter Watterson and Rev. John Mangrum, and now Rev. John L. Knapp. Until The Redeemer became a parish it had several vicars who are now rectors in other parishes.

Mrs. William Henry Is Burned In Explosion at Trailer Home

Spontaneous explosion of a paint remover early Sunday morning destroyed a trailer home and burned a bride of several months, according to Assistant Fire Chief Mack Flowers.

Mrs. William Henry was burned about the arms and legs in the explosion which blasted her husband out of the trailer's front door.

He reentered the flaming trailer through the rear door, he told Flowers, and rescued his wife who had been knocked to her knees.

She was saved from facial and body burns, her husband was quoted as saying, because she shield herself with a paper she was reading when the explosion occured.

Flowers said the explosion and fire occured at 12:15 a.m. Sunday morning at the Parker Trailer Park, near Sebring, county line. The couple was refurbishing their trailer and accidently mixed explosive materials, Flowers said, when the accident occured.

Loss of the trailer was estimated at $6,000.

Flowers said he understood the couple had occupied it a short time.

Mrs. Henry, who was admitted to Walker Memorial Hospital for treatment immediately after the blast, left the hospital at mid-morning Sunday, remaining there only a few hours.

GOP Speaker Quotes Lincoln In Address

Over 200 Republicans in Highlands County gathered at the Sebring Hotel Saturday night in commemoration of the birthday of Abraham Lincoln, an annual event sponsored by the Highlands County Women's Republican Club and the Highlands County Republican Executive Committee.

Rep. Ray Osborne of Pinellas County spoke on the role the Republican Party must play to carry out its duty to the nation.

He brought out some of Abraham Lincoln's strong beliefs on such matters as individuality and States Rights and how these issues have changed since Lincoln's time that Lincoln would not even recognize the U. S. Constitution as it is interpreted today by the U. S. Supreme Court; how the federal government touches all phases of our lives.

"America must return to Individual Freedom," he said.

Osborne added that the people of Florida certainly can not blame the Republican Party for any of the "many weaknesses and faults in the State Constitution." Since the State Constitution was adopted in 1885, it has been amended 133 times, in each instance under a Democrat governor and Legislature as the Republicans have not had a governor or a Legislature since 1872, he noted.

Rev. George C. Stulting gave the invocation and benediction.

Rev. Charles H. Noble, accompanied on the piano by Mrs. Noble, rendered a solo and lead the group singing.

Mrs. I. B. Bristol was recognized for having sold the most dinner tickets.

The Highlands County Women's Republican Club and the Highlands County Executive Committee wish to take this opportunity to thank all those who in any manner aided in making this dinner the outstanding success that it was.

One of the most interesting processes in the sugar cane industry in Florida is the harvesting of the cane. After removing excessive leafage from the field by burning, large crews of workers advance in formation while handcutting the stalks. The cane is then transported to the mill.

LP Will Get Building

Highlands County Commissioners promised Tuesday that the county will construct a county office building at Lake Placid, probably using a part of the funds derived from the sale of the $1 million in race track tax certificates.

The building, which had been projected as a voting station, storage for voting machines, offices for sale of vehicle tags and various licenses, and space for the county health clinics — may become a joint city-county project.

The Lake Placid City Council and the Greater Lake Placid Chamber of Commerce have formally adopted resolutions urging the county to erect a county building in Lake Placid and pledging "full cooperation in such a project."

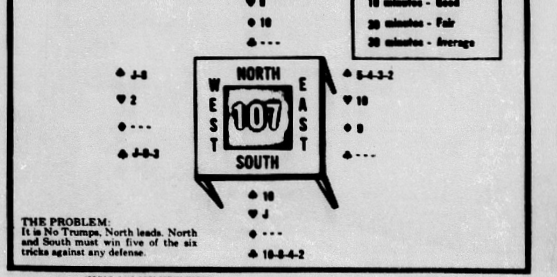
How Good is Your Bridge?

(David N. Laux)



THE PROBLEM:
It is No Trumps. North leads. North and South must win five of the six tricks against any defense.

FALSE SOLUTION:
If North, at trick one, leads the Heart to put South into the lead for the Spade finesse, West simply refuses to cover and South must lose two Clubs.

SOLUTION:
North leads the 10 of Diamonds and South covers the deck of Hearts. Now North's lead of the nine of Hearts puts East into the position of the Heart and South can take his Spade and Club. If South fails to uncover by discarding the deck of Spades and take his Heart, West will lead a Spade into North's Q-9 and North takes the remaining tricks.

Shuffler Invasion Seen For Next Week

Several hundred participants, officials and accompanying wives are expected here next Thursday and Friday as the Winter Guest Club will be host to the Central Florida District Shuffleboard Tournament.

Thirty-six clubs in the district are expected to be represented by 75 two-man teams, according to Howard Kellogg, shuffler chairman of the Winter Guest Club.

A total of 24 trophies will be awarded players in the 2-day tournament, Feb. 24-25, Kellogg remarked, to both A and B winners, and in the consolations.

There will be a distribution of trophies to first, second, third and fourth winners and runners-up in the A division, he added.

A division, for those not acquainted with the termanology of shuffling, is for winners previous tournament competition. The B division is for non-winners seeking to become utilists.

There will be referees for each of the competing courts, as well as scores for each. Kellogg said, beside several other officials keeping count on progressing play.

Winter Guest Club members have the use of 22 courts, and these will be filled with visiting tournament players during the 2-days.

Opening ceremonies will start the tournament at 9 a.m. next Thursday morning.

Building Code Violations Are Charged

Charging three Avon Park buildings containing 52 apartments owned by W. T. Connell as being unfit for the health, safety, welfare and unfit for human occupancy the State Hotel and Restaurant Commission has set a hearing at Winter Park City Hall March 4.

Located at 825 S. Verona, 310 Castle St., and the former USO on First St., more than 10 alleged violations were found at each building in an inspection Feb. 8, the City Council was informed Monday night.

Mack Flowers, assistant fire chief and assistant building inspector, was present at the Council meeting to explain the report made by a state inspector.

He was here to make the inspection requested by Connell at a Council meeting some weeks ago when he appeared to protest an inspection made by city inspectors who alleged inadequate electrical wiring in one of the buildings.

Flowers said Connell refused notice of the state hearing after reading it.

The Council was informed that while the state had licensed the three buildings for occupancy the city had not.

Flowers remarked that any apartment house with more than three apartments comes under state jurisdiction and can be inspected by state Hotel and Restaurant Commission agents.

And, he continued, all apartment houses in Avon Park renting more than three units to the public will be inspected by the city as a health and safety measure.

A Sebring youth was placed on six months' probation in Circuit Court Tuesday. Allan Johnson, who had been charged with grand larceny, had pleaded guilty.

Judge Clifton Kelly did not rule on the plea but placed Walker on probation. Johnson, who had admitted theft of materials from Moye construction Company, was instructed to make restoration as directed by the probation officer.

Bobby Anglin, charged with escape from Avon Park Correctional Institution, was sentenced to five years in prison. At the time of his escape Anglin was serving a five-year sentence for breaking and entering and grand larceny. That sentence had been imposed in Hillsborough in December, 1964.

The state on Tuesday agreed to drop a charge of auto larceny against Anglin.

Two teenage boys appeared in Circuit Court and Judge Kelly appointed the public defender to serve as counsel.

Jerry Vineyard, 17, Sebring, is charged with burglary by breaking and entering into Bob Wolfe's Sporting Goods store on N. Ridgewood Drive, Sebring.

Vineyard, who has been arrested on a series of offenses, had been transferred to Circuit Court from Highlands County Juvenile Court.

Robert E. Nestler, 18, Pensacola, is one of five defendants charged with burglary by breaking and entering at Buddy Birge's Sinclair Service and Radiator Shop on Hwy. 27 south of Lake Placid.

George Osteen, 31, Avon Park, entered a plea of not guilty to a charge of delivery of a nervous system stimulant.

Citrus Plant To Be Opened

LAKE ALFRED—Industry members and the general public have been invited to attend dedication ceremonies at 10 a.m., Feb. 24, for a new $143,000 addition to the citrus processing plant at the Citrus Experiment Station.

Open house will be conducted thereafter until 4 p.m., according to Dr. Herman J. Reitz, Station head.

"The entire research facility will be open to inspection during the period of open house," Dr. Reitz said. "We have prepared a special tridimensional map which will indicate areas of interest in order to facilitate self-guided tours of the Station. In addition, we plan to have citrus scientists at each of the numbered points to answer questions."

Silver Spurs Ready Rodeo

Professional cowboys will compete in the 37th Silver Spurs Midwinter Rodeo to be held at Kissimmee Feb. 18-20.

The Silver Spurs event is approved by the Rodeo Cowboys Association.

Since it is wintertime, with little rodeo activity in the West, cowboys converge on Kissimmee to compete for the $3000 worth of prizes put up by the Silver Spurs, to which is added the entry fees of the cowboys.

Along with the rodeo, which will be held daily at 2:30 p.m., the Kissimmee Valley Livestock Show and Osceola County Fair is scheduled at the adjacent State Livestock and Crops Pavilion.

Hamburger all the way!

Sounds good. Of course some people might just have mustard and pickle or lettuce and mayonnaise but it sounds a little better when you say, "Hamburger all the way!" It's the same way in banking . . . most financial institutions have some services, but only at your BANK can you get COMPLETE service. Yes, checking accounts, savings accounts with guaranteed interest, and all types of loans! In other words, why settle for limited financial service when you can have it "all the way." Get to know your banker; he can become your best friend.

Blue Shield To Play Part In Medicare

Blue Shield of Florida has been selected by the Social Security Administration as the sole fiscal intermediary for Part B of Medicare for Florida, it was announced by H. A. Schroder, executive director of Florida Blue Shield.

Medicare Part B covers primarily the services of physicians, in or out of the hospital. Eighty percent of most charges by physicians will be covered after the individual has paid the first $50 of charges for doctor services during a calendar year.

Unlike the hospital and nursing home care part of Medicare, which requires no premium payment by the beneficiary, Part B requires signing up with the Social Security Administration and paying $3 per person per month, with the government matching this amount. The government has selected March 31, as the deadline for making application for Part B.

Previously, Blue Cross had been designated by the Social Security Administration as one of the major intermediaries for Part A which covers hospital and nursing home care. In Florida this means, Schroder said, that in most cases the hospital and doctor bills incurred in Florida by a Medicare beneficiary for an illness or injury will be processed and paid through the Florida Blue Cross-Blue Shield office in Jacksonville.

In most instances, Blue Cross and Blue Shield will receive claims directly from the hospitals and doctors, determine the benefits, make the payments and then be reimbursed by the government.

All Medicare intermediaries will provide the required services on a nonprofit basis. They will be reimbursed by the government for the benefits that have been paid out, plus acutal expenses incurred in administering the program.

Distribution Sets Record

State Comptroller Fred O. Dickinson has announced a record high monthly distribution of $2,680,000 to Florida counties in state racing tax funds.

Dickinson said the February racing track fund distribution will give each Florida county $40,000. That is an increase of $9,000 for each county above what was received for the same month of 1965.

By Florida law, the racing tax receipts are divided equally among Florida counties.

Dickinson reported that since the start of the current fiscal period for racing tax distribution in November, the Comptroller's Office has sent checks totaling $124,000 to each of the state's 67 counties. That is an increase of $22,000 for each county above the amount received during the same fiscal period a year ago.

According to the Southern Pine Association, the textured surface of rough sawn lumber increases the retention of finishes. The product is extensively utilized on exterior walls of homes and other buildings.

Sebring's New Books

By BONNIE J. LEE
Librarian, Sebring Public Library

"The SEA FLOWER", RUTH MOORE

In her newq novel, Ruth Moore lends modern magic to a classic situation-two young sters cast away on an (almost) deserted island. Her youngsters are blown ashore aboard a trim houseboat, the Sea Flower, of latest design, and the agency is a ripsnorting Atlantic hurricane named Fanny.

From the time of her first big success, Spoonhandle, in 1946, Miss Moore has been justly praised, among other things, for her supremely deft portrayals of the young and the more or less eccentric old. In the Sea Flower she outdoes even herself; for in addition to the youngsters- Marney Lessard, eleven, a somewhat shy, withdrawn, sixteen-year-old and Liz Bigelow, eleven, a one-gurl army against the world-she has achieved in characterizations.

Arvid, sixty-ish, stretching himself, no matter how much his feet hurt, to do the right thing and have others do the same, is that rare creature, a man of genuine good will.

Add to these as a major character Toughy, the quintessence of cat; an attractive young couple at a crisis in their marriage; a no count fisherman, Ed Snorri, and his devilish twin sons, Dewey and Truman-and the mixture is ready to boil.

Miss Moore says that this novel wrote itself-a statement which might mean many things. What it means here is that The Sea Flower is compulsive reading, in which the arts of an accomplished storyteller are in full panoply. The settings are New York City, upper New York state, New Hampshire, and Maine.

"A SECOND STORYTELLER's choice", Eileen Colwell

Following the success of her first annotated collection of stories or telling to children, A Storyteller's Choice, Eileen Colwell has now compiled a companion volume on the same pattern. Once again, each has been carefully chosen for its effectiveness when told along and each is accompanied by valuable notes on the best way to tell it.

"The LIGHT OF THE PAST", A Treasury of Horizon

"History in the broadest sense-" the arts and ideas and customs which are the record of civilization itself is a specialty of Horizon's and the subject of this anthology. The Light of the Past contains 28 articles and pictorial features selected from the many published in the magazine (an illustrated quarterly of the liberal arts) since it first appeared in 1958.

The contents of this volume range through many centuries, many cultures. Sumer, the world's first civilization...the legendary age of the Trojan Wars and Homer's heroes...the mighty empires of Greece and Rome....the Crusades....the Renaissance. . . . Elizabethan England. . . . the splendid 17th andd glittering 18th centuries in Europe. . . . the turbulent cultures of Africa. . . .

Along the way, the reader is introduced to a fascinating array of history's great, gifted, and gaudy:conquering heoes.

The Light of the Past has been edited for the intelligent general reader with a mind for good scholarship, an eye for excellence in art, and a lively pleasure in using both to explore man's long cultural history. This book can be enjoyed as an absorbing, colorful adventure through 5,000 years of civilization's, and can heighien perception of the light cast by those centuries on our world and ourselves.

MARRIAGE LICENSES

In Florida marriage licenses are issued through the County Judge's office. Highlands County Mervin Rehrer today issued a reminder that a premarital blood test is required of each person applying for a Florida marriage license.

The following applications for licenses were filed in the County Judge's office this past week.

Patrick Dennis Collins, 21, Avon Park, and Myrla Mary Blackburn, 19, Lake Placid.

Maryland Wilson 19, Lake Wales, and June Elaine Rimes, 16, Avon Park.

David Ward, Jr. 20, Lake Placid, and Yvonne Marie Collier, 17, Lake Placid.

Virgil Ray Mercer 23, Sebring and Patsy Ann Jones, 20, Lake Placid.

Jerbbie Lavon Bryan, 20, Sebring, and Joy Ann Musselwhite, 18, Sebring.

Ernesto Avela Sanchez, 20, Lake Wales, and Luvel Morel, 17, Lake Wales.

Proved His Point

H. Lloyd King Jr., 12, of Little Rock, Ark., won a certificate of merit from the Boy Scouts of America recently for saving his 5-year-old brother from drowning last May. Last summer, Lloyd took a life-saving course from the Red Cross and flunked it. They said he could not swim well enough.

Authority Gets Planning Fund

Twenty thousand dollars has been alloted the Avon Park Housing Authority to begin work on planning 100 housing units for Avon Park.

J. T. Landress, local Housing Authority chairman, received word of the allotment from Florida U. S. Senators Spessard L. Holland and George Smathers.

The allotment is the first step in a program to provide low rent housing for Avon Park residents of the minimum to help eliminate blighted areas in Avon Park by the Authority formed here less than a year ago.

It was this hope the Authority had been wanting to get the project started.

Architects James Heim of Avon Park and Roland Sellew were appointed by the Authority some months ago as a step in planning.

The units will consist of apartments of one to four rooms for low income persons and families with modern conveniences in pleasant surroundings well kept landscaped surroundings.

Sites are under consideration of the Authority.

Boy Scouts Will Distribute Goodwill Bags On Saturday

Scouters of Highlands District met with Goodwill Industries representatives at a Goodwill dinner and Scout Roundtable at Griffin's Restaurant Tuesday evening, Feb. 15.

Work being done for handicapped people in the St. Petersburg Goodwill plant was discussed. It was learned that it takes seven bags of discarded clothing and other items to keep one employee busy one day. So, for the 600 workers employed it takes 3,500 bags.

In order to accomplish this job, Goodwill calls on Boys and Cub Scouts each year at this time to distribute bags, and later to pick them up, as one of the Scout's good turns.

On Saturday, Feb. 26, at 9 a.m. Avon Park Scouts will

Junior College Citizens Group Organized To Aid Development

Formation of the South Florida Junior College Citizens Committee Inc., was effected at a meeting of interested citizens in the area to be served by the college at the Avon Citrus Bank Tuesday night, Feb. 15.

The group organized a non-profit corporation to raise $50,000 needed to renovate two Avon Park buildings for temporary facilities of the junior college.

The City of Avon Park, to start the fund drive, recently announced their pledge of $10,000 during a Kiwanis Club meeting attended by mayors and representative citizens of several area communities.

In forming the SFJC Citizens Committee Inc., it was decided that each community to be served by the junior college will have a vice president and director to serve on the corporation board.

Officers were named, as well as vice presidents and directors, at the organization meeting in Avon Park.

Dr. William A. Stallard, college president, will be an ex officio director to serve on the board.

Avon Park officers selected include R. M. Gay, president; T. J. Ward, vice president; David Lanier, secretary, and Charles Whitehead, treasurer.

All are representative business leaders. Mr. Gay is district manager of Inter-County Telephone System; Mr. Ward a Realtor; Mr. Lanier an attorney, and Mr. Whitehead president of the Avon Citrus Bank.

Selected to serve as vice presidents and directors—all named are to serve for one year, including officers — were:

Wauchula—O. K. Stringer, vice president, and C. M. Stewart, director;

Zolfo Springs—John Alexander, vice president, and W. H. Gilliard, director;

Bowling Green—Fred L. Cotney, vice president, and Mac D. Bryan, director;

Lake Placid—Alfred Moretz, vice president, and Alfred Eide, director;

Sebring—John Carson, vice president, and Mrs. Elgin Bayless, director.

Those named are from Hardee and Highlands Counties, the two counties designated primarily to be served by the college.

Others attending the meeting included Mayor Paul Thomas of Wauchula; Mayor E. A. DeLaney of Avon Park; J. C. Gabbard of Wauchula; R. V. Kirby, Avon Park, district manager of Florida Power Corporation; George Haynie, vice president of the Avon Park Chamber of Commerce; Jack DeLaney, president of the Avon Park Chamber, and Mrs. Anna Belle Worden, executive secretary of the Chamber.

Monies collected for the $50,000 renovation fund will be used for that purpose only. Buildings involved are the Brickell and Todd buildings on E. Main Street. Classrooms are to be installed in the former while the library will be located in the latter, a former grocery store which was air conditioned.

A student parking lot also will be available at the Todd building.

First act of the SFJC Citizens Committee Inc., was to approve start of the library.

Precaution will be taken to safeguard all monies received for renovation of buildings for temporary location of the college. Mr. Whitehead, the treasurer, was named to receive donations for deposit in the Avon Citrus Bank to the credit of the college building fund.

Mr. Whitehead's office is at Avon Citrus Bank, W. Main St., P.O. Box 1087, Avon Park. It also will be the Citizens Committee Inc., address.

Authorized to sign checks were the president, secretary and treasurer, any two of the signatures to be recognized.

Heating and lighting of the two buildings were discussed, with heating to be added at the Brickell building.

Bids are to be taken for all major work, including materials also needed.

James Heim, architect on the temporary projects, has prepared plans for the work, which have been approved by all agencies involved with but minor corrections.

Need for temporary facilities, Dr. Stallard has pointed out repeatedly since assuming the presidency in early December, is to get the college started on its first semester by Aug. 15.

He has said, space needed by the college can be better determined after it has been in existance at least two years.

While leases on the two buildings involved will be for two years, the college will have the option of use an added year, if found necessary. Both buildings have been offered the college rent-free by their owners.

No dormatories are to be included in the state construction, only administrative and classroom buildings—those needed to carry on college instruction preparing students for institutions of higher learning or for a complete two year course.

Internationally Famed Sebring 12-Hour Race, Just Around Corner. Drawing Top Cars, Drivers

Roaring down the starting stretch, the internationally famed Sebring 12-hour endurance race is just a month away from the green flag.

Race Director Alec Ulmann is optimistically eyeing entry of at least 140 of the world's fastest racing machines for competition on the cement strips of Sebring's airport.

Seventy are expected to roar away at the start of the Friday, March 25 four-hour contest for international touring sedans with one and sometimes two championship caliber drivers to each car.

Fords galore, ranging from the winning GT 40s, to GT X and a Cobra — 13 in all — so far are on the entry list.

Ferraris too, are back in the picture after a year's factory layoff, five of the eight entries coming from "home," Modena, Italy. The remaining trio are entered by American owners from U. S. hometowns.

Chamber Will Hold Dinner On March 17

Plans for the annual dinner of the Avon Park Chamber of Commerce March 17 are progressing, according to Robert Barben, chairman of the dinner committee.

Barben make his report at last Thursday night's meeting of Chamber directors who were told that Mark Wheeler is a forceful speaker, and has a good message to bring to the meeting.

Wheeler is in charge of community development for the Florida Power Corporation.

President Jack DeLaney suggested that presidents of Chambers of Commerce of Lake Placid, Wauchula and Sebring be invited to the dinner.

R. M. Gay, director and president of the recently organized South Florida Junior College Citizens Committee, reported on formation of the group. During a discussion of safeguards for funds collected for work of temporary college quarters several believed all protection would be taken. It was felt, officers of the committee will keep a detailed budget and expenditures for benefit of the public.

Those desiring to make donations may do so at the Avon Citrus Bank, the designated depository, specifying they are for such a fund. Or, they may be mailed to the bank in care of its president, Charles Whitehead Jr., committee treasurer.

George Haynie, Chamber vice president, following DeLaney's statement members of the Chamber, as individuals but not as the Chamber of Commerce, will assist in the fund collection, said he believed civic organizations should get behind the move.

Haynie suggested the PTA and parents of junior and senior high school pupils, potential college students who will benefit from the college, should aid the fund drive to start the college Aug. 15, opening target date.

DeLaney cited need for a Chamber membership drive, and, the orange juice party set for March 3 by the Women's Division for feminine visitors in Avon Park.

And, he read a statement regarding the board at a later date adopting a formal resolution seeking a new National Guard Armory for Avon Park. The present building, he thought, then could be turned into a Youth Center since, he said, the city is in need of a place for youth activities.

The present Youth Center is now being used as a meeting place by senior groups. It was closed some months ago because of lack of attendance at youth programs.

FLORIDA COST OF LIVING

You may have heard the comment: "Florida is a nice place to visit, but I wouldn't want to live there—it's too expensive."

Taint so, and the figures prove it.

A survey made by the Florida Development Commission shows that the cost of living in the Sunshine State is less than the national average in all major categories except rent.

For instance: The median value of homes in Florida is $11,800 as compared to $11,900 for the United States; the median rental rate is $60 per month, compared to a national average of $58; average utility costs in Florida run to $11 a month, while the national average is $13.

Food costs in Florida are generally lower because this is an agricultural state, but there is a tendency to equate grocery prices with those in other areas of the nation.

Clothing is cheaper, because you don't need winter togs in Florida. (Let's not mention those brief cold snaps when we wish we owned a fur coat.)

Most important for many people is the fact that the annual per capita tax burden is only $202.93, which ranks Florida 34th among the 50 states in that category. We have no state income tax.

It should be borne in mind however, that these figures are averages. As pointed out by Dr. John Boynton, director of research and planning for the FDC, "You CAN live cheaper in Florida than in other states, and you CAN live more expensively."

In our opinion, it's worth whatever it costs.

COST OF BAD DRIVING

Property damage insurance on automobiles is going to cost more in most Florida counties—including Palm Beach—starting March 2, with the approval of State Treasurer and Insurance Commissioner Broward Williams.

Political, economic and legal reverberations are assured.

A renewed clamor for safer driving, which might be more productive, is less likely.

Cost of premiums on insurance sold by more than 200 companies will go up an average of about 10 per cent, with the greatest increase on $50 deductible collision policies. In Palm Beach County, the latter will jump from $44 to $54 on a typical new low-priced pleasure car.

Williams previously had resisted pressure from insurance companies for rate increases. He rejected 11 previous requests.

Justification for the one now approved may still be open to question. Already it has drawn a legal challenge from Miami's city attorney. But considering that Williams approved it on the eve of a political campaign, there must have been compelling reasons for his decision.

One reason certainly must have been the increase in traffic accidents in Florida. Last year's 1,659 deaths and 88,009 injuries on state highways is indicative of the serious problem.

Such figures do not seem to bother drivers very much. They go along their merry and reckless ways convinced that it cannot happen to them.

But when they have to dig down into their jeans for extra cash to pay for property damage, the penalty for bad driving hits home.

Just plain driving is costly enough. Unsafe driving can be prohibitive.

nouncing, gave the following statement:

I wish to announce my candidacy for the State Senate, 29th District, representing Charlotte, DeSoto, Glades, Hardee, Highlands, and Okeechobee Counties.

For eight years, I served the people of Highlands County in this capacity. During this period, I secured the passage of a bill creating the Alcoholic Rehabilitation Center located in Avon Park; acquired state appropriations to help finance the construction of the 4H Club Camp near Lake Placid, and co-sponsored the measure creating our new junior college - South Florida Junior College. Also, it was my privilege to steer the passage of a bill in the Senate resulting in the eradication of the screwworm in Florida. I was helpful in locating the headquarters for this program near the Sebring area.

It was always a pleasure to work with local officials and interested citizens towards the improvement and upgrading of the Highlands County's education and highway programs.

Because of reapportionment, more and greater demands will be made of your representative in the State Senate. It is more important now than ever before that our voice in Tallahassee be one of experience and influence. Drawing upon my previous years of service as State Senator, I feel that I can give you the kind of representation you desire and deserve.

are expected. At least, as of Feb. 16 they were listed. Others have been entered by American Porsche owners, one of them Briggs Cunningham who at one time produced an American competition car, manufactured in West Palm Beach, Fla.

Car manufacturers are sending machines to Sebring to gain fame, if possible, for their productions, seeking the prestige of a Sebring winner.

British Motor Corp., of Abingdon, England has several of the popular MGs in the present entry while Standard Triumph Motor Co., of New York has several Triumphs posted seeking recognition for another bright British car.

Lotus-Cortuna, two by the way, are entered by Alan Mann Racing, London, one to be wheeled by Graham Hill and Jackie Stewart, a top racing team known worldwide.

In case you are wondering last year's winners, Jim Hall Midland, Texas and his partner, Hap Sharp, are expected with their Chaparrals — two of them — from the Chaparral Cars of Texas.

While Hall and Sharp will drive one the other will be piloted by Jo Bonnier of Switzerland and Phil Hill of Santa Monica, Calif., according to present indications.

Hall and Sharp covered 196 laps in the Enduro, finishing four laps ahead of a Ford GT 40 with Bruce McLaren of New Zealand and Ken Miles of Hollywood, Calif. at the wheel.

Has the Volkswagen fad died out?

Yes.

But it was an unnerving experience while it lasted.

Because after we introduced our completely sensible car, people ran out and got it for completely frivolous reasons.

The first people bought VWs just so they could be the first people to have one.

And a lady in Illinois had one because it looked cute beside her "real" car.

However, the faddists soon found out that the bug wasn't an expensive ($1,574) toy, but a cheap ($1,574*) car.

As a fad, the car was a flop:

When you drive the latest fad to a party, and find 2 more fads there ahead of you, it catches you off your avant-garde.)

But as a car, the VW was impressive:

If you had to go some place, it took you. Even when some cars wouldn't. And when you got there, you could park it. In places where other cars couldn't.

Once people took the bug's good points for granted, it became the best-selling car model in history.

And that's when the VW fad ended.

Carlton Asks More For Land

Winston B. Carlton is seeking additional compensation for his ranch land lying adjacent to the proposed flood control canal being constructed by Central and South Florida Flood Control District.

Carlton in a suit filed Feb. 10, alleges that he will be deprived of use of a part of land when the canal is constructed.

The land is used for grazing but the canal — too wide and deep for cattle to cross—will cut across the property, Carlton asks for an immediate jury trial.

He is listed as one of the owners of parcel 8 valued at $2,596 in the condemnation.

Carlton sought to have his land exempted from the condemnation suit on the ground that it lies in Okeechobee County rather than in Highlands where the suit was filed. The Circuit Court ruled hat the land is in Highlands County, and this ruling was upheld in an Appeal Court opinion recorded in January.

Truck Wreck Brings Suit

A Dade County man is asking damages in excess of $5,000 for injuries allegedly suffered when a truck he was driving collided with another truck at Avon Park on the morning of Feb. 18, 1965.

William Lee Hucks claims he was driving a truck owned by Lumidor Manufacturing Corp. north on Hwy 27 when his vehicle was struck by a truck being driven by John Mosley of Highlands County.

B. C. Cook and Sons of Haines City are listed as owners of the truck driven by Mosley. The accident was at the intersection of Highway 27 and West Cornell Street in Avon Park. The Cook truck was allegedly headed west on Cornell Street.

Seeds Gone

The Florida Forest Service is sold out of slash pine seedlings for the 1965-66 tree planting season.

As of today, the state forestry agency is accepting orders for only sand pine, Arizona cypress and longleaf pine—and the supply of those is only running short.

The Service has been advised by St. Regis that slash pine seedlings are available from its Lee Nursery at Lee, Florida, in Madison County. Those desiring seedlings should contact the nursery direct.

Pole-Frame

If you are planning to build a vacation home on an exposed coastal area, you should consider wood-pole frame construction.

Pressure treated wood poles are imbedded directly in the soil with the house built around their upper extremities. According to the Southern Pine Association, the house is spared the direct impact of hurricane spawned tidal waves which pass instead beneath the raised dwelling.

Sebring Seeks Suit Dismissal

The City of Sebring and Mayor J. A. Butler have asked Circuit Court to dismiss a suit filed against them by Joe D. Kinsey.

The formal motion for dismissal, draen for the Sebring officials by city attorneys Macbeth and Breed, claims that the Circuit Court lacks jurisdiction and adds that "the defendant cannot frame a responsive pleading to o complaint so vague and ambiguous in nature."

In a suit filed two weeks ago Kinsey, a former Circuit Judge, charged that the mayor and city officials had made reports which tended to degrade his reputation.

Ferrari Will Be At Sebring

Stung by their 1965 defeat at the world famous Sebring 12 Hour Endurance Race, Ferrari plans now call for entering all new sports prototype with undisclosed power plants in the Saturday, March 26, Enduro.

Brought to their heels after years of road racing victories, the Ferrari factory strategy plans for a field of three prototypes and one of the highly successful Dino machines.

Chevy-Powered Chaparrals riding high on their 1965 total victories throughout the U. S. will be back with two all new cars to be driven by Jim Hall and Hap Sharp of Midland, Texas.

Not yet answered is the million dollar question from the Ford Motor Company as to their all out effort to again win the coveted GT and Prototype auto road racing laurels they won so handily in 1965. Word has it that the all new Fords will be entering engines up to more than 427 cu. in. of brute horsepower.

Advance ticket sale reports show the new spectator areas to be a popular move on the part of the organizers. For the choice spots and seats in the new areas write now to A.R.C.F., P.O. Box 71, Sebring, Florida, 33870.

Disposal Plant Still In Nebulous State

Avon Park's projected sewage disposal plant remains in a nebulous state.

City councilmen met last Tuesday night, Feb. 16, in a special, called session with engineers and a fiscal agent when it was found they could not be present Monday night, Feb. 21.

After meeting and discussing seven plant plans, and various methods of financing, councilmen adjourned without firming any agreement, even to a future session.

It is understood one councilman injected the thought of using cigarette tax returns toward financing the plant. Others said its removal from the operating budget would cripple city operation and force a higher tax rate.

Another hinted at letting health officials—county and state—force the issue, removing any stigma from the Council, if the latter is forced into upping taxes, or creating any new source of revenue for payment of the plant.

And, it was disclosed, construction costs are not the only problem, there is that of operating the plant after it is opened to care for the approximate 300 outlets now being served by the outmoded disposal system.

Looking over the horizon, others of the Council viewed impact of the coming South Florida Junior College and Avon Park Housing Authority's 100-unit low-cost development.

One person eyed the situation, turned away saying, "The present situation smells."

When voters defeated issuance of revenue certificates to pay for the disposal plant and sewer line extension in a referendum last Dec. 7 the council, at a succeeding meeting agreed there are no funds with which to build a disposal plant.

Many Enter Leon's Winter Fish Contest

Several hundred anglers have registered in Leon's Sporting Goods fishing contest. If you have not registered you may be missing a chance to win one of the 10 free fishing outfits.

J. B. Gaster is in the lead with a bass weighing 11 pounds, 14 ounces caught in Little Red Water Lake using a reel and rod with a live shiner for bait.

Joseph McAfee is in second place with one weighing 10 pounds, 12 ounces, also caught in Little Red Water using a reel and rod with a live shiner.

In third place is Doyle Hornsby with his bass weighing 10 pounds, two ounces caught on spinning tackle in Lake Athrop in Lake Placid using a live shiner.

Alton LaFlam comes in fourth with a bass weighing nine pounds, 12 ounces caught in Lake Istokpoga on reel and rod using a Dalton plug.

Fifth place is held by Paul McAfee with his bass weighing eight pounds, 12 ounces, also caught in Little Red Water on a reel and rod using a shiner.

Wayne Douberley is in sixth place with a bass weighing seven pounds, two ounces caught in Lake Lotela on a live shiner.

There is still four more places that any size bass could take.

Conservation District Aids Landowners

By SAM POLSTON

Soil Conservation Service engineers last week assisted several Highlands Soil Conservation District cooperators with water control problems.

Marvin Kahn was assisted with drainage on 1,000 acres of pasture on his ranch southwest of Sebring.

O. W. Casperson was assisted with the design and layout of four miles of canal and four water control structures to regulate the water in the channel and prevent erosion.

Bob Barringer of Avon Park was assisted with water control on 160 acres of organic land that will be used for pasture.

George Richardson of Lake Placid was assisted in the layout of a mile of ditch that is being constructed for water control on 160 acres of land, part of which will be planted to caladiums this spring.

Max Hoffman of Lake Placid was assisted with the design of structures for regulating water on 600 acres of muck land that is being farmed south of Lake Istokpoga.

C. E. Crews, SCD supervisor of Avon Park, was assisted with design of a sprinkler irrigation system for 100 acres of citrus.

Istokpoga marsh landowners group, headed by Mrs. Edna P. Lockett, met and made definite plans for trying to let a contract for construction of the first phase of their project prior to June 30. One of their stumbling blocks is easements from the State Road Department for getting water from Lake Istokpoga across Hwy. 621 to the south for irrigation purposes.

This project involves water control on 26,000 acres of organic land south and east of lake Istokpoga. The flood waters will be collected by more than 20 miles of channel and discharged into flood control canal C-41. Numerous structures will be installed to regulate the water in these channels for agricultural water management.

With these water control facilities, the entire area will be highly developed. The Soil Conservation Service will share with the landowners in the cost of construction of this project under Public Law 566 (Small Watersheds Act).

The Highlands County Commission has agreed to operate and maintain the project, once it is completed.

SOME LUGGER is that displayed by J. H. Gaster as he has the 11 pound, 14 ounce big mouth weighed at Leon's Sporting Goods store. The beauty was caught on a reel and rod using a shiner Thursday, Feb. 17 in Little Red Water while the angler was wading along the bank.—SUN PHOTO.

"LOOK WHAT I CAUGHT," says Joe McAfee's smile as he holds the 4 bass caught Thursday, Feb. 17 at Little Red Water off Hwy. 27, south of Avon Park. Largest of the 4 weighed 10 pounds, 12 ounces. McAfee's fish were entered that morning shortly after he caught them in Leon's Sporting Goods winter fishing contest.—SUN PHOTO.

Juvenile Gets Two Years

A two-years prison sentence was meted out this week to a Sebring teenager who has a long history of breaking and entering offenses.

Jerry Ray Vineyard had been charged with burglary by breaking and entering, but in Circuit Court on Monday the prosecution agreed to accepting a guilty plea on the lesser charge of breaking and entering with intent to commit a misdemeanor.

Highlands County juvenile authorities had waived jurisdiction and turned Vineyard over to the adult court where Judge Clifton Kelly set the youth's penalty at two years at hard labor.

Also in court Monday Robert Edward Nestler, 18, of Pensacola, pleaded guilty to burglary by breaking and entering and a presentence investigation was ordered.

Sammie Scrivens, 47, of Sebring pleaded guilty to aggravated assault, and a presentence investigation was ordered.

Beaches Color Due To Quartz

Why are the beaches on the northern Florida coast whiter than those on the southern coasts?

Paul H. Unverzagt, park attendant at John C. Beasley State Park, near Fort Walton Beach, was asked this question by tourists so many times he decided to find out the answer.

Unverzagt said the University of Miami Marine Laboratory explained to him that the northern beaches are composed of a white quartz sand and only small amounts of other materials.

The Laboratory said that the southern beaches also contain quartz sand, but the sand is mixed with tiny fragments of sea shells and coral.

The park attendant said he was told that the shell fragments were mainly responsible for a brownish coloration to the south Florida beaches.

The report pointed out that the offshore slope in the southern areas is more gradual and shells are more easily moved up on the beach by wave action

Women Hear Court Cases

More than 60 persons, mostly members of the six woman's clubs of Highlands County, attended the annual "Day in Court" held in Highlands County Juvenile Court Feb. 17.

Judge Mervin Rehrer opened the session with a statement on the philosophy of juvenile courts, then presided for hearings on four cases characteristic of those handled in juvenile court.

In a traffic case a teenage boy lost his driver's license for a year. A boy involved in a breaking and entering case was committed to Highlands County Juvenile Home for a year. This is the first time that such a commitment has been made to the county home which has, in the past, been used for temporary care only.

Two boys accused of breaking and entering were placed on probation for a year.

Parents of three children who have not been attending school were ordered to place the children in school or face charges in adult court.

Judge Rehrer said this was the eight session for the Day in Court, and the attendance this year set at new high.

Avon Park Club Takes Honors At Art Festival

Mrs. Norris' entry was a Christmas tree made of pine cones. The miniature cones were gathered in Pennsylvania this past summer by Mr. and Mrs. Norris.

Thirteen members of the Junior and Senior Clubs attended the Festival, and assisted Mrs. T. H. Maxwell who was in charge of the registration of all entries in the exhibit. Mrs. Maxwell reported that more than 150 items were entered in the various categories.

According to the judges, the handiwork of the women was outstanding, making it difficult for them to choose the winners.

Each person entering the sewing contest modeled their garment.

The crafts, needlework, crocheting, knitting and ceramics represented outstanding talent.

The art exhibit featured oils, sketches, photograph tinting and water colors. Mrs. J. A. Bloomquist entered pictures in three of these categories.

The Bartow Woman's Club served a luncheon at noon.

Mrs. Richard Conibear of Lakeland was general chairman for the Festival.

Cub Pack 156 Has Meeting

"Transportation" was the theme for the January meetings of Cub Pack 156 and was demonstrated at the Pack meeting Jan. 27 in Fellowship Hall at the Congregational Church.

The meeting opened with a flag ceremony by Den 4 Cubs David Metheney, Hal Worden, Vic MicKunas, Dennis Crews, Jose Torregressa, Jim Turnbull, Greg Owens, Chris Owens, Glenn Stone, and Charles Evans.

Malcolm Crews led the Cubs and guests in singing during the early part of the meeting and later Mrs. Ami Lawrence was the song leader.

Den 1 presented a skit about an echo in the forest. These Cubs were Kyle Hassfurder, Kenney Collingsworth, David Lindgren, Dee Flowers, and George Heatherly.

The next part of the meeting was devoted to a display of handicraft by the Cubs of Den 3. Before the meeting opened Den 3 "rocket" was set up in the front of the hall. The rocket, made of heavy card board barrels stood 15 feet tall and was complete with blinking red lights in the nose cone and clouds of vapor from "fuel" in the form of dry ice under the tail section. In connection with this and following the transportation theme the Cubs had made space helmets and a "control panel" for their space adventures.

Other handicrafts exhibited were wooden benches made by the Cubs which they use at their den meetings, Christmas table decorations, candles and "snow scenes." Tommy Lawrence was the "MC" for this part of the program and called on Cubs Ricky Lanier, Steve Childress, Greg Jarvis, Richard Birt, Jamie Tomlinson, John Wright, and Steve Jarvis to help exhibit the handicraft and explain how each item was made.

Another skit was performed by Den 2 based on the transportation theme. The Cubs all wore space helmets and demonstrated different forms of "transportation" on skate boards, stilts, tricycle, skates, etc. The Cubs in this skit were David Hamm, David Cook, Jeff Scott, Mike Stroud, Ricky Spurlock, Danny Davis, Frank Farrell, Nicholas Fells, and Garnet Oliver.

Seniors Will Present Play

Date for the play has not been determined—next Friday or Saturday—but the cast from the Avon Park High School Senior cast is ready.

Reason for delay in firming curtain time is the Red Devil cage team's appearance in the district basketball tournament. If they win this Friday night it means the Senior play mey be means the Senior play may be 5. As of this writing it is billed for Friday, March 4.

Seniors, entering their final week of rehearsals on "The Very Opposite Sex," are sure they have a fine vehicle to present those who like theater. They have worked long, hard hours in perfecting their roles to project their characters into "life" for the audience's benefit.

Nothing dry will be seen the night of viewing, but a real-life role will come from the high school auditorium stage, all aver, to give the audience benefit of stellar casting and directing.

"The Very Opposite Sex," either next Friday or Saturday night, will be a play to be seen, all Seniors agree.

6-Pony Hitch Will Be Seen At Horse Show

Among feature attractions at the Imperial Charity Horse Show at Winter Haven, March 1-6, will be a fast stepping exhibition of teamwork and skill by the Victor Comptometer Corproation 6-Poney Hitch.

The matched Shetlands perform precision maneuvers while pulling a miniature fire engine. It is a five-eights scale reproduction of the antique steam pumper in the Smithsonian Institute.

With the fire engine belching smoke and clanging its bell, the dapper animals scamper through cloverleafs and figure eight patterns.

The lightest or lead ponies do most of the running. The middle pair, known as the swing team, turn the fire wagon. Last come the wheel ponies who do most of the pulling. They are the heaviest pair, providing the weight necessary to make quick stops.

The Imperial Charity Horse Show is sponsored by American Legion Post No. 8, Winter Haven for the benefit of their Children's Hospital and the Winter Haven Boys Club.

Mrs. Lookhoff Attends State Teachers Meet

Mrs. Chloe M. Lookhoff, modern foreign language teacher at Avon Park High School, attended the annual meeting of the Florida Chapter of the American Association of Teachers of Spanish and Portuguese at the Angelbilt Hotel in Orlando, Feb 18-19.

Membership in the State Chapter includes teachers of Spanish from the university level to the junior and senior high school level. Also included are county foreign language supervisors.

The program included addresses concerning preparation of Spanish teachers on all levels, the foreign language in the elementary school program; use of placement test in the foreign language program; ideal achievement of high school foreign language students who plan to continue language learning in higher education; and, general curriculum on the high school level, including all areas.

Emphasis was placed on English as a linguistic subject as well as modern language programs.

The most valuable aspect of the entire program was the fact that all activities, (addresses and social) except the business meeting and the address by Dr. Joseph W. Crenshaw, assistant director for curriculum of the State Department of Education, were conducted in Spanish.

The professional information concerning foreign language programs throughout the state on all levels and the progress of students in programs which parallel the one which is offered in Avon Park High School inaugured the Avon Park High School representative and answered many questions that will help solve local problems. Mrs. Lookhoff said she has returned to her responsibilities with enthusiasm, and will aspire to greater depths of learning for the remainder of the school year.

People Over 65 Urged To Get Medicare

If you have reached 65 and are not receiving social security or railroad retirement benefits, and have not signed up for Medicare, now is the time for action, W. E. Arnold, social security district manager in Lakeland, stated.

He explained that almost every older person in the Nation is eligible for health insurance under the new law passed by Congress last year.

The major part of hospital charges and doctor bills will be paid for those people 65 or older who sign up for the health protection, Arnold said.

We are especially trying to reach two groups of people right now. One group includes those over 65 who have not applied for social security retirement benefits because their earnings are too high to permit cash payments. These people will have Medicare protection by applying for it.

The second group we need to get in touch with may have had little or no work under social security, Arnold explained. If they are 65 or over, they can get the health protection by enrolling for it.

This group also includes aliens who have had at least five years of permanent residence in this country.

Arnold said that health insurance benefits begin next July. "I cannot overemphasize the importance of prompt action by all those who are eligible," he said. "This applies to several thousand persons in this area.

Further information can be obtained in person, by mail, or by telephone from the social security office in Lakeland, located at 300 S. Florida Ave. nue. The telephone number is 686-6195.

Not Difficult To Estimate Water Need

You can't always be sure when it's going to rain, but you can control the amount of water used to irrigate your turf.

It's not too difficult to make a "reasonable estimate" of the water needed by the grass or to measure the amount you apply.

W. L. Pritchett, soils technologist with the Florida Agricultural Experiment Stations, says the depth of which the greater part of the grass roots are confined can be checked with a cup cutter, soil tube or similar instrument.

The depth won't be more than a foot or so with most turf, says Pritchett, and the soil below this point should be wet only slightly.

Using more water than needed to saturate the root zone is a waste of water and nutrients. Water waste is an important economic factor in urban areas of the state.

The soil scientist explains that it takes about one inch of water to wet a fine sand a foot deep.

If in doubt about the texture of soil or its water-holding capacity, check the depth the water moves through the soil after applying a given amount.

Pritchett says some reduction in nutrient leaching can be affected by the choice of fertilizer materials. For example, nitrogen materials that slowly become available (soluable), such as urea-formaldehyde, natural organics or coated materials, are "less subject to leaching" than soluables like ammonium nitrate or urea.

Sarasota Methodist District Youth Rally Saturday In Arcadia

The annual Youth Rally for the 55 Methodist Churches of the Sarasota Dstrict will be held Saturday at the Trinity Methodist Church in Arcadia.

Approximately 400 young people of junior high, senior high, and older youth are expected to attend the rally starting at 4 p.m. and continuing until 8 p.m.

The Sarasota District Director of Youth Work, Rev. E. L. Dinkins, Venice, and the associate directors, Rev. Al Davis, pastor, Christ Methodist Church, Bradenton, and Rev. Charles Trembly, associate minister, First Methodist Church, Fort Myers, have coordinated plans for the rally with the theme "Christ, His Church, and Me."

Guest speaker will be Rev. Stuart I. McRae, chaplain of Florida Southern College, Lakeland. Four Quest groups will be held: "Resources and Worship Aids," led by Miss Eva McClamrock, director of Christian Education, First Methodist Church, Sarasota; "Youth and Church Responsibility," led by Rev. Charles Trembly; "Church Related Vocations," led by Dr. Frank Carwithen, pastor, Trinity Methodist Church, Bradenton; "The Methodist Youth Fund," led by Rev. Carl Shafer, pastor, North Methodist Church, Sarasota, and "Adult Workers With Youth," led by Miss Edith Goodwin, associate youth director, Florida Methodist Conference, Lakeland.

A part of the rally this year will be the awarding of a scholarship for a week at the Florida Methodist Youth Camp, Leesburg, for the best poster promoting attendance at the rally. Each local church will have chosen its best poster to bring to the rally to compete with posters from all the other churches.

The four hour schedule also includes registration time, fellowship, singing, and a presentation of the revised summer camping program. Several state officers and leaders will be present to assist in the rally.

Each young person attending is asked to bring a sandwich supper, and the beverage will be furnished. Rev. Del S. Dixon, pastor of the Arcadia Church, is directing the preparations for the host church.

The Sarasota District of the Methodist Church extends from Bradenton to Naples, and inland to Avon Park, Sebring, Lake Placid and Immokalee.
