Avon Park Red Devil Cindersmen Will Meet Sebring Blue Streaks Here This Afternoon

Avon Park Red Devil track team, coached by Jeff DeCola, will host the Sebring Blue Streaks in a dual meet here at the local track east of the football field today (Thursday) at 3:45 p.m.

The Red Devils, 10 returning lettermen, are expected to be strong contenders for the Class B crown this spring. Last year the Devil cindersmen placed third in district and state Class A meets but lost letterman Mike Furr, Eddie DeLaney and Steve Seims from this year's squad.

Coach DeCola is counting on plenty of strength in the sprint and relay with senior Bill Wild, 1965 Ridge Conference 440-yard champ, and junior Harold Callaway, district champion in the 100-dash and the 440-yard dash, leading the list of six returning sprinters.

Tom Nunalle, Robert King, Bobby Barben and Mickey West will add a year's experience to the sprints, and junior Bobby Barben and freshman Billy Richards also will be running.

The distance runners will be paced by seniors Tom LaPlam and Jack Crunkelton. LaPlam is the 1965 Ridge Conference half mile champion but will probably be running the mile this season.

Crunkelton placed fourth last year in the mile in the Red Devil meet. He will run the half mile this year.

Other distance runners hoping to contribute points this season are junior John Wright, sophomore Jim Burrosca and Roger Hooten, and freshmen Philip Curcio, Wayne Farrell, Tom Townsend, Jim Nunalle and Kenny Dixon.

Mike Coleman, who lettered his sophomore year but sat out most of last season with an injury, is the only returning letterman on the hurdles. He'll be joined by Bobby Burton, Jimmy Callaway, Jay Bringer and Earl Sims.

In the field events Alf Heilig is the returning letterman. In the shot and discus along with runner Callaway and Henry Heilig, Bobby Barben and Andrew Wells.

Doubling up for the high jump, broad jump, and pole vault events will be Jack Crunkelton, Robert King, Tom Nunalle, Tom LaPlam, Billy Richards, and Mickey West.

Next week, the Red Devils will host a possible 4-team meet competing against Waukegan, Frostproof and Naples (tentative). Coach DeCola has scheduled meets for his squad almost every week hoping to pit his athletes against as much competition as possible before the district and state meets later in the spring.

Admission prices to local track meets will be 50 cents for adults, 25 cents for junior and senior high students, and a dime for elementary students, if they buy their tickets at school the day of the meet.

Athletic Director Joe Franz explained that the cost of travel and equipment for the track program was such that it seemed necessary this season to charge admission to the meets.

Disposal Plant Is Voted By Council

First concrete action was taken at Monday night's City Council meeting to get a modern disposal plant functioning in Avon Park.

While agreeing the program presented by Councilman J. R. (Jack) Dugan—one of a number offered by Emory Hawkins of Hawkins and Granham, engineers—probably not the best possible, the Council voted 4 to 1 to go ahead with construction. Plant operation may be more than a year away.

Discussion centered mainly on annual operation of such a plant as considered, which would be between \$10,000-\$20,000 for the \$150,000 plant. Councilman Clarence King, who was elected on a platform opposing issuance of revenue certificates to extend city sewage lines and build the disposal plant, seconded Dugan's motion.

Under the certificate program worked out by the engineers and fiscal agents, the issue would be retired by sewage customers. It would not have forced any increase in property taxes, bond attorneys said.

An objection then was that water department income would have been tied to the issue.

Now the water department revenue, according to the program adopted, is definitely tied to retirement of construction costs at least 10 years.

During Monday night's discussion, it was pointed out that the more than \$30,000 received annually from the water department is now used to operate the city. New sources of city operating funds will have to be sought, the Council agreed.

Council President James Doerz voted "no" to adoption of Dugan's motion, saying it is not the best program that can be worked out. "It was the only dissenting vote."

Councilmen George Borden and Darrah Martin, who pushed for adoption of the revenue certificate program last summer and fall, arguing then that it would provide funds for sewer and plant construction and operation with-

out placing a property tax burden on the city, voted "yes."

Borden declared of Dugan's motion "that if that is what you want I'll agree. But, I do not think it a good program."

Martin, after expressing his anxiety, voted adoption with reservation, saying "It is not business, what is being done."

It is spending money with one coming in to replace the loss."

Council was in agreement that the city would like to get a modern disposal plant operating here, even for the approximate \$150,000 cost, and, hence, on the present sewer lines.

"BEST WISHES," SAYS Major C. T. Hooten, (left) former commanding officer of the Avon Park Bombing and Gunnery Range of the Air Force, to Major M. R. Hardin, the new commanding officer who assumed command recently. Major Hooten has been assigned new duties in Viet Nam.—SUN PHOTO.

Major Hooten Heading For Viet Nam Duty

Major C. T. Hooten, commanding officer of the Avon Park Bombing and Gunnery Range for the last 5 1/2 years, is heading for his third conflict.

A familiar and well-known figure in civil life as well as the military in Avon Park, he is heading eventually for Viet Nam as an officer in the expanded Air Force in the Far East.

Experienced in combat gained in the Pacific Theater of War during World War II, having flown B-24s on more than 20 missions, Major Hooten is taking that fighting experience in the expanding conflict in the Asian peninsula.

In WW II he flew from Philippine air bases in strikes against the Japanese, and when called back into service as the Korean "police action" developed he saw service in widely scattered bases.

A year was spent at a Heilich, Germany where, as a helicopter pilot with the 36th Air Rescue Command, he made a daring rescue for which he won the Air Medal.

Prior to being assigned to MacDill Field, Tampa, where he flew B-24s with the 36th Squadron for one and a half years, Major Hooten spent one year at Fort Belvoir, Wash., with the Air Defense Command.

Another year of duty included Connelly Air Force Base at Waco, Texas where he was with the Air Training Command a year, and at Wichita Falls, Texas where he was a navigator and bombardier instructor.

Another year of Major Hooten's tour of duty included a year at Ellington Field, Houston, Texas where he was a C-47 pilot.

He was assigned to Avon Park Bombing Range as its commanding officer after his experience flying bombers for the 36th, coming here from MacDill.

Major Hooten's first tour of duty ended at Lowry Field, Denver, Colo., in October, 1947, after being stationed there one and a half years.

During a five year interim from service, he was with the Post Office Department at (Continued on Page 2A)

Major Hardin New CO At Bomb Range

Major M. R. Hardin has assumed command of the Avon Park Bombing and Gunnery Range, having taken over his duties some days ago.

He came here from Langley Field, Va., where he flew as a navigator aboard KB-50 tankers for the Air Force's 36th Tactical Air Command.

Major Hardin, a veteran of the Pacific during World War II, was located Headquarters Staff of TAC at Langley Field four years ago when they spent in the aerial target service.

The native of Jefferson County, Missouri, was recalled into Air Force service in October, 1961 during the Korean War after spending 3 1/2 years as a civilian. During that time he was with the Pittsburgh Plate Glass Co., at its Crystal City, Mo., plant.

Major Hardin first went into Air Force service in March, 1942 and started cadet training a year later at Albuquerque (N. Mex.) Field. He spent 18 months at Deming Field, N. Mex., where he received navigation instruction, and went into the Pacific in 1945 where he remained until 1946.

He flew with the 42nd Bomb Group based in the Philippines during his Pacific tour of duty.

On his return to the continent he was assigned to Jefferson Barracks, near St. Louis, where he was placed on Air Force Reserve status in May, 1946.

Following his recall to service in October, 1961, he spent the next four years flying as a navigator officer aboard B-29s and KC-97, the flying tankers of the Air Force.

Next tour of duty saw Major Hardin stationed at Peppercorn Air Force Base in Newfoundland where he spent two years before being returned to the States and Langley Field.

Married, he and his wife, Mrs. Bernice Hardin, are residing at 30 E. Thomas St. in Avon Park.

They have two college students, Donnell, the oldest at age 21, is a student at Virginia Polytechnic Institute at Blacksburg, Va., and their daughter, Lynn, age 18, a freshman at Mount St. Scholastica College, Atkin, Mo.

Each individual student has been making reports on different books which have been adopted by the State Department of Education. When these reports are given orally before the class, questions are asked and discussion results.

We are making a study of the various countries under communist such as Russia, China, Czechoslovakia, Poland, Cuba, and the structure and practices of political parties and governments under the communist dictates with the structure and practices of political parties and governments in our United States. We compare the rights and responsibilities of the individual under the communist influence with the rights and responsibilities of the citizen of the United States. We compare economic, religious, political, educational, and social opportunities of both systems. We endeavor to understand what is necessary to sustain both systems and realize immediately that our

concern first, is a lack of Americanism and second, the perils of Communism.

We conclude that we have no fear so long as each American citizen performs his duties and responsibilities (strength earned his rights and privileges), the source of democracy. With this kind of strength we can resist and overcome any attempt from any revolutionary or totalitarian state.—LINDA DORSEY

Businesses Aid School Yearbook

The production of an annual or yearbook is possible only through the support of Avon Park, Sebring, and Wauchula businesses and firms. The members of the annual staff have been working hard selling advertisements for the yearbook to local stores. Many places have bought ads and the school appreciates their very much. For their support, the students of Avon Park High School are urged to patronize these businesses, now a little later.

Local stores and businesses that have bought ads: Inter-County Telephone and Telegraph, Bar Jewelers (Sebring), East Coffer's, Ridge Florist, Ridge Air Conditioning Inc., Western Auto, Lane's Record Shop, Southern Motel.

Jordan and Son Jewelers, H. Ford, Bill Thornton Radio and T.V., Griffin's Restaurant, Avon Park Restaurant, Florida Power Co., Avon City Bank, Robert King, Realtor.

Park Pharmacy, Eaton's Dept. Store, Mode O'Day, Turner Furniture Co., Bennett and Moseley, Delaney's Hardware.

Hubbard Biggs, Agency, Crenshaw-Coco-Cola Co., Crows and Peedles, Polk Auto Parts, Coker Gas and Electric Co., Ridge Fuel, Avon Park Sun.

The members of the annual staff will still be around trying to sell ads, so all business owners who have not yet bought an ad will be contacted. Anyone who wishes to advertise in the annual may call the school and ask for Mrs. Suggs.

The annual will be college-size this year, therefore, the pages are larger. The staff offer picture ads as well as smaller regular spaces. While an ad in a current publication should produce immediate effects, one in a school annual should continue to yield results as long as a person keeps and refers to his annual, perhaps 50 years.—AVIS STANBERRY and GARY BENNETT

APHS Gives Special Work

The exceptional child program is set up to provide special education for those students with some learning difficulties, who can profit from small classes. Most students take two hours of instruction, which include reading, spelling, modern math, English, consumer education, and occupational orientation.

Avon Park High School is very fortunate in having a program of this type, which helps the slow learning child.—LARRY WATERS

PEGGY JOHNSON AND MIKE COLEMAN gaining experience on the electric typewriters in the Business Department. Each student will have a chance to use these machines sometime during the semester so that they may become more familiar with the different types of typewriters.

Shorthand Is Receiving Experience

The shorthand class, under the supervision of Mrs. Alvina Rutz, is receiving practical experience in secretarial training. At the beginning of the year, Mrs. Rutz began teaching from the Gregg Shorthand textbook.

Each new day's lesson was based on the preceding lesson. With even one day of absence, it is difficult for the student to make up her work. With hard but steady work, the class has just finished learning all brief forms and phrases, and should, with a little effort, be able to write the outline for almost any word in the English language.

The expected speed of a shorthand student at the close of the school year should be 50 to 150 words per minute. Mrs. Rutz is now giving dictation from new letters at 50 words per minute. Next week she plans to dictate at 60 words per minute. By steady work and constant effort, each shorthand student has hopes of reaching her goal by the end of this year.—BRENDA BROWN

To further her education Nancy is planning to attend Orlando Junior College in Orlando.

All-in-all Nancy is a very attractive, courteous senior girl who is liked by everyone and does everything assigned to her with a heart full of fun.—NAOMI LAWRENCE

Business and English Classes To Prepare News on High School

Starting with this edition of The Avon Park Sun, the Avon Park High School Business English classes will have one page to submit articles about their school. This week each student in the two classes interviewed a teacher of his choice and wrote an article concerning the activities of that class or organization.

The purpose of our page in this paper is to better acquaint the community with our school, and its activities.

In the future, our page will vary in its articles and will feature a senior or a teacher each week.

This week the following students submitted an article for the newspaper: Naomi Lawrence, Peggy Johnson, Pat Carroll, Sue O'Steen, Miles Smith, Linda Vinson, Alan Ball, Tom LaFlam, Kathy Lambright, Linda Craven, Janet Phillips, Henry Heilig, Barbara Harden, Linda Dorsey, Brenda Brown, Larry Waters, Janet Douberty, Jerry Batson, John Simpson, Connie Inyart, Gary Bennett, Debbie Booth, Russell Percy, Linda Wester, Tony Todd, Bob Rush, Avis Stanberry, and Jim Renfro.

They worked very diligently to complete these articles in time for this week's edition.

A group of Girl Scouts, in their attractive green uniform, will act as ushers.

Annual Staff Takes Pictures Despite Rains That Came Down

Wednesday, Feb. 23, was a very busy day for the school and some members of the annual staff. Though it was a

very rainy and bad day for pictures, the photographer, Mr. Neal from Delmar, came and some of the pictures were taken. Those that could be made were taken indoors.

Pictures of the Glee Club, FTA, FHA, Devils Club, Cheerleaders, Annual Staff, Key Club, and the various classroom scenes were taken. In the afternoon the pictures for advertisements were taken.

Arline King and Nancy Seibold, co-editors of the annual, and Miles Smith, staff photographer, helped Mr. Neal with the pictures. When the annual staff quit the pictures, they will be working very hard on the layout of the yearbook.—ARLINE STANBERRY and GARY BENNETT

Many Books Are Processed At Library

There were over 100 books processed last week for the new year. The library includes selection and ordering, checking, stamping, typing of cards, numbering books, filing by authors, by title, in shelf list, and by subject cards. The card catalogue is the index in the library. The library is for the junior and senior high.

During the day there are different classes coming and going to work on term papers or to use other reference books.

There are over 1800 books in the library. Among these are biographies, English authors, fiction, non-fiction, reference books, geography and travel.

Mrs. Addie Lee Best, librarian, has great responsibility and is doing an excellent job. She is in charge of the library, record players, film projectors, and strips, and tape recorders, etc.

The bulletin board in the library consists of many different types of seasonal projects. At the present time there is a Florida springtime project on it. These projects are suggested and prepared by two interns of fourth period, after Mrs. Best's inspection.

Usually at least 600 books are checked out by students during a 2-week period.—CONNIE INYART

Office Practice Studies Filing

Mrs. Rutz's senior office practice classes are now studying filing from top to bottom. A filing practice workbook has been ordered which will contain all types of filing. The most widely used, alphabetic filing, is being presently studied.

This workbook will help students do actual filing. Both of the office practice classes are looking forward to using this workbook to further their experience in the simulation of office work.—PEGGY JOHNSON

Kegler Gives Instruction

Coach Franz's physical education classes have some thing different in store for them the first three days of this week. There will be a professional bowler here to give instructions on the techniques of bowling.

This class is sponsored by the National Lifetime Sports Foundations. The bowler is ARNOLD STANBERRY and GARY BENNETT

On Thursday and Friday Coach Franz has planned for all the students to go to the bowling alley and have more individual help.

After this "Bowling Week," Coach Franz plans to move his P.E. classes down to the football field clubhouse. Here they will go through physical fitness drills and track and field events.—JOHN SMPSON

Math Classes Of Interest

The Avon Park High School Math Department is a highly respected department mainly because of the respect for its teachers. One of these teachers is David L. Sechrist, a graduate of Columbia University. He is a very colorful man and very much fun to be around. He entertains his students sometimes by playing his cello.

This week in Geometry we are studying, "Properties of Special Segments in a Triangle," and the "Pythagorean Theorem."

This is an interesting theorem because it states a relationship between the length of the legs and the length of the hypotenuse of a right triangle. This theorem came from a famous Greek philosopher Pythagoras. The people who have studied this theorem before can understand why it will be an interesting week.

The high school math courses, taught by Mr. Sechrist, consist of two 10th grade modern algebra II classes, two plane geometry classes, and one advanced math class.

At the present time the algebra II classes are working on similar triangles, and the properties of right triangles, the advanced math class, which consists of 28 students, is studying the application of the law of sines and cosines in the solution of triangles in trigonometry.

Parents are welcome to confer with Mr. Sechrist at any time.

Home "Ec" Is Stressed

Miss Craven, new teacher at Avon Park High School, is teaching three subjects: English, home economics, and physical education.

In her home economics class her students are studying food nutrients and menu planning. Also, they are studying when to prepare light and heavy meals.

Their home projects this week will be to plan and prepare a menu.—DEBBIE BOOTH and JANET DOUBERTY

Sports Are Being Stressed

A very detailed program in tennis is being taught on the new tennis courts. We would like to thank the Kiwanis Club for money donated for the backstops and the city for putting them up free of charge.

Tournaments will be held in each class for all who want to participate. The winners will receive a small award.

The Junior High just finished a unit in archery and track which they seem to enjoy very much. Miss Joy Craven taught the unit in track and had an outstanding job.

This week a new unit in bowling is going to be taught. The American Association for Physical Education has an educational project called the Lifetime Sports project, an outstanding man in each area of golf, tennis, and bowling is hired to go to different high schools to teach each sport.

Highlands County is very fortunate to have this service. On Thursday all physical education students will go to Ridge Bowling Lanes, during school, where they will bowl two free games.

We feel this is an outstanding program and thank those who make it possible.—LINDA WESTER

City Council Tables VISTA Demands

Avon Park City Council tabled what appeared a demand from VISTA (Community Action Fund, Inc.), the federal poverty program workers to remove all out-houses within the city limits.

Presented in an aggressive manner by S. Wiland, a VISTA worker located here in a resolution he read at the outset of last Monday night's Council meeting, it was demanded the Council take action.

An hour of the meeting was devoted by the Council in explaining action it has taken during the years to remove out-houses in some sections, and defend moves that have been made to uphold the city's codes.

Council President James Doerr, when he found it necessary to call for order, told Wiland he was stepping beyond your boundary, and your actions are resented.

"I am through listening to you and the matter is tabled," Doerr added. Mayor E. A. DeLaney chided Wayne Albright when the latter rose to ask why the Council had not explored means of getting federal funds to build a disposal plant.

The mayor returned that all avenues have been explored for obtaining funds, and "we have got to help ourselves, and defend moves that have been made to uphold the city's codes."

And, he asked Albright "how many times prior to the sewer certificate revenue referendum did you ask efforts by telling me that it was the wrong thing to do?"

And, Mayor DeLaney continued, "People in other towns work together to accomplish things for the good of their cities. Until the Council can work together and cooperate with each other we are going to have problems."

In other action the Council voted 3 to 2 to take a half-page "ad" in the Spring News 12-Hour Race tabloid after Howard Berg presented the proposition.

Joseph McAfee comes in third with 10 pounds, 12 ounces caught in Little Red Water on a reel and rod using a shiner.

Documentary Stamp Sale Up

State Comptroller Fred O. Dickinson reported that documentary stamp tax collections have reached a record total of \$13,217,704 in the first seven months of the current fiscal year.

Dickinson said the fiscal period total was \$13,217,704, more than the \$12,122,785 collected in the same seven months of the previous fiscal year.

Also, said Dickinson, "the January, 1966, collection was the largest in the history of the documentary stamp tax which first was imposed in 1901."

The payments are taxes on deeds, contracts and bonds, and a written obligation to pay money such as notes and contracts.

The January, 1966, stamp tax total which shattered all previous collection records was \$2,079,158. That was \$219,678 more than the \$1,859,479 which was collected in January of 1965.

The dollar value of the instruments on which the tax was paid in January, Dickinson said, was \$2,181,500.

Popular Deeds County was the major contributor to the tax, with a January total of \$320,079. Broward County was second with \$220,535 in taxes paid. Duval County followed with \$188,481, and next was Hillsborough County with \$154,668.

State Comptroller Fred O. Dickinson reported that documentary stamp tax collections have reached a record total of \$13,217,704 in the first seven months of the current fiscal year.

Dickinson said the fiscal period total was \$13,217,704, more than the \$12,122,785 collected in the same seven months of the previous fiscal year.

Also, said Dickinson, "the January, 1966, collection was the largest in the history of the documentary stamp tax which first was imposed in 1901."

The payments are taxes on deeds, contracts and bonds, and a written obligation to pay money such as notes and contracts.

The January, 1966, stamp tax total which shattered all previous collection records was \$2,079,158. That was \$219,678 more than the \$1,859,479 which was collected in January of 1965.

The dollar value of the instruments on which the tax was paid in January, Dickinson said, was \$2,181,500.

Popular Deeds County was the major contributor to the tax, with a January total of \$320,079. Broward County was second with \$220,535 in taxes paid. Duval County followed with \$188,481, and next was Hillsborough County with \$154,668.

And, it is stated in the release, they are excellent wrestlers and cute as kittens.

For a tag team match the Masked Infernos, managed by J. C. Dykes, will have a tussle with Jesse James and his helper, Jack Peck. And, according to the billing, "The Infernos are reported to have a mysterious ball of flame they toss at their opponents."

It could be a production of a dragon match.

Two other matches pit Mike Paidinos against Jack Daniels, he of the Kentucky fame, and, Hiro Mabuda facing Omar Atlas.

Stetson Opens Center At Arcadia

Stetson University, Deland, will open a new Extension Center in Arcadia, according to Rev. H. Frank Williams, director of Arcadia's First Baptist Church, with classes to be held at the Deltona County High School.

The first course offered will be a three-semester course in college credit course entitled "The Life and Letters of Paul Williams." It will begin Monday night, March 6, at 7 o'clock. Rev. Williams will be the instructor.

E. C. Tyson, director of Stetson University's Extension Division, will be present at the opening ceremony, and answer questions regarding the courses.

Teachers in the area will be invited to register for the first course Monday night, March 7, in June 20, 1966. The first course will be held at the Deltona County High School for removal of students and teachers' schedules.

Rev. Williams, the pastor, made four related degrees: BS, from Mississippi College, BD and MEd from New Orleans Baptist Theological Seminary, and MS from Stetson University. He has taught on the college level for the past two years at Stetson Extension Center in World Garden and has served as dean of the Orange County center.

Those desiring further information may call him at either WA9-3431 or WA9-3432.

Fee are \$40 participation fee for all former students of Stetson University, \$36 tuition, \$6 textbook, and \$6.25 for parallel reading book.

The papers or "tree melon" regularly was first in the U. S. apparently wild on the St. John's River near Palmdale, was even more abundant near where Sanford now is located. The exact date when the tree melon was introduced into Florida is unknown.

Highlands County Chapter 222 of American Association of Retired Persons will hold their regular monthly meeting Tuesday, March 8 at 2 p.m. in the American Legion Hall at Avon Park.

All members are urged to attend, as some very important matters are to be dealt with. After the business session there will be an interesting program presented.

Scientists hope to see greater use of the weather-control techniques we already have. They also hope that more money spent on research will lead to more effective ways of controlling weather.

Mark Twain said, "Everybody talks about the weather, but nobody does anything about it."

Modern science already is doing something about it—and hopes to do more.
