ADULT EDUCATION
Forty million adults, with money to learn, are on their way back to school. Most will take courses that range from the arts to Zen, while some will go to play - marketing games, that is. Students at the Sales and Marketing Executives International Graduate School - many of them accomplished executives - take refresher courses for two weeks each year at Syracuse University.

Florida ranked 34th among the states in pupils per class.

Average Family In County Worth \$12,300

What is the net worth, at the present time, of the average Highlands County family? What assets has it accumulated - the form of cash savings, insurance, equity in its home, automobile, jewelry, household equipment, pension reserves, investments and the like?

It's \$12,300. Most families have only a vague idea of how much they are worth. Were they to take stock of what they own, they would probably discover that they are richer than they imagined.

Some guidance for them is provided in national studies of consumer finances, conducted by the Federal Reserve Board and others.

They show that there is a direct relationship between income and net worth. Families with very low income have been able to accumulate very little, while those in the upper brackets have assets equal to several times their annual income.

Applying the national yard stick to Highlands County and to the earnings levels in its area, the indicated net worth of the average local family figures out to approximately \$12,300.

The amount quoted relates to the so-called "average" family. For those in the local area in other income brackets, the estimates are as follows: income of \$3,000 to \$7,500, assets of \$13,200; income of \$7,500 to \$10,000, assets of \$15,000; and income of \$10,000 to \$15,000, assets of \$20,000.

Taken into account is the market value of all housing, furniture, clothing, cars and other equipment, bank accounts, the cash value of insurance policies, pension plans, business interests and security investments.

Offsets are bank loans, in installment debt, mortgage obligations and all other accounts payable.

In the great majority of families, it is pointed out, whatever their process is the result of their own efforts and savings. Only in one case out of 20 has an inheritance accounted for a substantial part of their net worth.

Additional nominations may be made by the incumbent ASC county committee. A recent change in the nominating procedure seeks to insure fair and impartial elections by reducing vote splintering of minority group candidates.

This year, for the first time the election of ASC committee members throughout the nation will be held during the third week in September. Primary elections had been held at various times in different states from July through December.

This year's election will be held by mail balloting during the period September 18-22. ASC county committees are elected for three-year staggered terms. To be elected this year is one member of the county committee and two alternate committee members. The alternates to be elected for one-year terms.

ASC Slates Being Established For Election

ASC county committees should always be the best people available, according to Ralph Richardson, county of the Agricultural Conservation Service. States of nominees to fill the vacancy in the ASC county committee are being established at the ASC county office. Committee elections will be held the second week in September.

The committee system is the backbone of the farm program. The committee selects the representatives to the Agricultural Conservation Service. Its responsibilities include the conservation of natural resources, the stabilization of agricultural communities, and the promotion of activities which protect and improve farm life.

In Highlands County, Richard explained, 233 farmers took part last year in one of more programs administered by the ASC committee. Funds disbursed under the committee's supervision amounted to approximately \$65,000.

Last year, approximately 50 acres of farmland were improved under the Agricultural Conservation Program cost-sharing arrangement. The total investment in conservation was about \$40,000 with about half coming from the participating farmer and the balance from ACP.

The county office committee pointed out that a list of eligible voters in the county is available in the ASC's county office. He explained that any local resident who is eligible to take part in an ASC farm program may vote in the county committee elections and he may hold office as a committee member.

Further information regarding qualifications of committee members is available at the ASC county office.

Farmers who are eligible to vote in the county committee elections also have the right to nominate by petition as a candidate for committee membership, any farmer who is eligible and who has indicated that he is willing to serve.

Such petitions, each nominating one farmer and signed by six or more eligible voters, may be filed at the county office any time before August 28. Eligible voters may sign as many petitions as they wish.

Additional nominations may be made by the incumbent ASC county committee. A recent change in the nominating procedure seeks to insure fair and impartial elections by reducing vote splintering of minority group candidates.

Couple Weds in Double-Ring Rites Monday Night at Methodist Church

Miss Cassandra Lee Tomlinson, daughter of Mr. and Mrs. Ray Tomlinson of 211 Oak Ave., Sebring, Florida, will graduate from the Fashion Merchandising division of Williams College for June 19, 1967, at Sebring at 2 p.m. on Saturday.

The bride, given in marriage by Dr. Henry E. Kost, wore a white gown, fashioned of white antique rose lace, featured a deep neckline and roll collar. Beneath was a sheer, full-length cathedral train of the lace. Her net veil of sheer illusion, was attached to a tiara of pearls. She carried a basket of white carnations, with blue satin streamers.

The groom, wearing a white tuxedo, carried a white carnation. The bride's bouquet was a cascade of white carnations, and she wore a petal effect veil held in place by a white tiara.

Victoria Tomlinson, sister of the bride, served as flower girl. Her pale blue dress was trimmed in white lace and she wore a white lace hat, white gloves, and carried a basket of white carnations.

The bridegroom's mother wore a white lace dress with blue and light blue accessories. She wore a white carnation corsage.

Patricia Casey of Avon Park, attended her brother-in-law as best man, and Robert A. Brooks, brother of the bridegroom, was an usher.

The wedding reception was held in Layton Hall immediately following the ceremony. Flowers from the church banked each side of the bride's table, overlaid with a white cloth and net, with a large blue satin bow at each corner.

The bride's wedding cake was topped with a miniature bride and groom. The small bride was dressed in lace material from the bridegroom, and the bridegroom was a lieutenant's uniform, denoting his rank.

The table, which held the bride's bouquet and the punch bowl, was overlaid with white cloths and net, with long blue satin streamers, attached.

Wayne Buchanan was at the guest book, and Mrs. Patricia Casey, sister of the bridegroom, served punch. Mrs. David Jones of Marion, Ohio, aunt of the bride, cut and served the wedding cake.

When the couple left for a short wedding trip, the bride wore a white gown, with black patent accessories, and the corsage lifted from her hair. They will be at home at 211 Oak Ave., Sebring.

The bride is a graduate of Sebring High School, and Williams College for Women, in Ft. Lauderdale, from which she received a degree in fashion designing. While attending Williams, she was judged most outstanding in home economics in 1965-66.

MAN'S BEST FRIEND IN NEED IDEED

Man's best friend is his dog. But is dog's best friend his master? "Yes, if he merits it," answer the sponsors of National Dog Week (September 24-30), which has as its slogan, "Deserve to be Your Dog's Best Friend."

There are many ways to earn the title of dog's best friend. For one thing, a dog owner can see to it that the pet is free of fleas. Although the flea menace is more prevalent in the summertime, a dog can pick up a few fleas anytime and anywhere. Sergeant's, a leading maker of dog care products, has developed an effective and unique weapon to do battle against the dog's biggest nuisance.

Called SENTRY Collar, it is a clear plastic collar impregnated with a special insecticide that kills fleas for at least three months. The formula is adaptable to fit most dogs and its transparent composition blends with the dog's natural coloring.

On the market for around two years, SENTRY Collar is reported to be the most popular dog care product ever to make the SENTRY Collar long has received the Good Housekeeping Seal of Approval and is registered with the U. S. Department of Agriculture.

ABOUT ASSOCIATIONS

From Girl Watchers Anonymous to an organization calling itself "The International Concentrated Order of Moo Moo," Americans of all ages gather together in groups to prove that things get done—and get done better—when they're done in unison. Many professional and trade associations, like the American Hotel & Motel Association, have facilities to study long range economic developments, staffs to interpret and direct trends and to research technical and market statistics.

FEA is financed solely by dues of its members—no public funds are used in its operations.

The night performances staged by the Mermaids each Saturday have become increasingly popular since their introduction two years ago.

Big Cars Will Continue To Run In Grand Prix of Endurance

It appeared "almost certain" today that the big fast cars which drew the crowds will continue to run at Sebring in the Grand Prix of Endurance next March.

And plans are forming up for a second race, a season opener, beginning in December, 1962.

The subject of my recent visit to the local race committee as it will have to be entirely separate from the March event and subject to separate financial conditions.

Smith said he would know by the end of the week if he was returning to New York for "further conversation in this connection."

Early in July, a rule change was voted which would prevent the big cars—the Ford, Chaparral and Ferraris—from racing at the Grand Prix of Endurance.

However, many protests were lodged, and the automobile industry is now lobbying on London and Paris for conferences to get it reversed. The larger engines have been considered the major attraction of the Sebring race.

The rule cutting down engine sizes was made by the FIA and also affected the races at Le Mans, Targa Florio and Daytona.

With the big cars out of the races, many felt that the race supporting public would not go in numbers to watch a bevy of Sprites, Alfa, Triumphs and the like buzz around the track.

The basic reason for the request for the change centered around the ultra high speeds on the LeMans circuit.

CHARTERS CITRUS GROUP
Secretary of State Tom Adams has announced charting of a corporation, Clagett Taylor, Inc., of Sebring. The corporation will deal in the citrus business and issuance of 1,000 shares of common stock valued at \$100 was authorized.

Incorporators are J. Clagett Taylor, Annie Laura Taylor, and Joseph O. Macbeth, all of Sebring.

Smith said that plans for the December race "naturally are still in the discussion stage with the committee."

Guardsmen Reminded Of Compensation

With time at hand for ex-tensive summer training exercises, Florida National Guardsmen and Reservists are reminded of their eligibility for VA compensation for injuries sustained during such periods.

Active duty training accidents which result in the graduation of reservists are compensated by the Veterans Administration in an amount determined by the extent of the disability.

Injuries added that guardsmen and reservists are also eligible for VA medical treatment for injuries sustained during active duty periods.

The Veterans County Service Office will assist guardsmen and reservists who have claims against the VA.

Fishing License A Florida Investment

When you buy a fishing license, you actually purchase more than the privilege of fishing in Florida's fresh waters. A license fee may be classified as a contribution toward conservation or an investment in the future of Florida's future fishing.

A fishing license is not a tax, but a user's passport to healthy recreation, a key to dollar one of the greatest values of today. For three dollars, a resident can fish 24 hours every day, all year round. There is no closed season and no size limit on fresh water fish. Best of all, a fisherman can fish with the knowledge that his license fee is working to produce better fishing.

A good fisherman observes the fishing rules and regulations, obtains a proper license, keeps it as a mark of discipline and displays it with pride.

ASC Committee Nominations Invited

ASC county committees should always be the "best people available," according to Ralph Richardson, County Office Manager, Agricultural Stabilization and Conservation Service. States of Florida to fill the vacancy on the ASC county committee are being established at the ASC County Office. The committee elections will be held this week in September.

"The Committee system is the backbone of the farm programs," Richardson declared. "Its responsibilities include the conservation of natural resources, the stabilization of agricultural commodities, and price support activities which protect and improve farm income. We need the best possible cross-section of farmers on the ballot to insure effective administration of the various measures."

In Highlands County, Richardson explained, 233 farmers took part last year in one or more programs administered by the ASC Committee. Funds disbursed under the Committee's supervision amounted to approximately \$95,000.00.

Last year, approximately 9700.0 acres of farmland were insured under the Agricultural Conservation Program cost-sharing arrangement. The total investment in conservation was about \$56,000 with about half coming from the participating farmer and the balance from ACP.

The County Office Manager pointed out that a list of eligible voters in the County is available in the ASCS county office. He explained that any local resident who is eligible to take part in an ASCS farm program may vote in the county committee elections, and he may hold office as a committeeman regardless of race, color, creed, or national origin.

Further information regarding qualifications of committeemen is available at the ASCS county office.

Farmers who are eligible to vote in the committee elections also have the right to nominate by petition a candidate for

committee membership any farmer who is eligible and who has indicated that he is willing to serve. Each petition, each nominating one farmer and signed by six or more eligible voters, may be filed at the county office any time before August 28. Eligible voters may sign as many petitions as they wish. Additional nominations may be made by the incumbent ASC County Committee. A recent change in the nominating procedure seeks to insure fair and impartial elections by reducing voter eligibility of minority group candidates.

This year, for the first time, the election of ASC county committees throughout the nation will be held during the third week in September. Previous elections had been held at various times in different States from July through December.

The 1966 ASC elections in Florida were held in August. This year's election will be held by mail balloting during the period September 18-22. ASC County Committees are elected for 3-year staggered terms. To be elected this year is one member of the County Committee and two alternate committeemen. The alternate to be elected for 1-year terms.

BIG BIKE WEEKEND

The newly merged Seaboard Coast Line Railroad ranks eight in mileage among the nation's railroads.

With the big cars out of the races, many felt that the race supporting public would not go in numbers to watch a bevy of Sprites, Alfa, Triumphs and the like buzz around the track.

The basic reason for the request for the change centered around the ultra high speeds on the LeMans circuit.

A Loss For Libraries

Library services in Florida's public schools lagged behind the national average, a situation destined to grow worse by 1970, according to a \$2.5 million cut in the education budget, money budgeted for library services.
Florida school libraries, designed to serve students and faculty alike, are spread so thin that one librarian serves 832 pupils. The minimum ratio recommended by the American Library Assn. is one librarian for each 300 students for the first 300, after that, an additional librarian per 400 students.
The 1965 Legislative passed legislation to provide one librarian per 300 students. Gov. Kirk's cut will not permit Florida to meet the law. For only 67 library units each year of this biennium — one per county.
The State Department of Education asked for 2,398 — one for each 300 pupils.
The 1966 Accreditation Report for Florida Schools reveals that only 5 percent of the public schools in Florida meet the standard of one librarian for each 300 to 400 pupils.
The same report revealed that only 24 percent of Florida's schools met even minimum standards for books in their libraries.
Florida spends, according to the superintendent's biennial report, \$127 per pupil per year for library books, audiovisual materials, newspapers and magazines and other library expenses. The national average is \$126. The American Library Association minimum standard is \$4 to \$6 — four to five times more than Florida currently spends.
To top it all, the Governor's cut provides no new money for library expansion to accommodate growth.

Farm Bureau Schedules Meet On Development

The city of Winter Haven will be the site of one of five important Florida Farm Bureau Federation policy development meetings, August 30, according to an announcement today by FFBF officials.
"All central Florida farmers interested in the development of FFBF policies for the coming year are invited to meet in Winter Haven for a full day of discussion of policies and problems most important to them," Art Karst, FFBF president said in announcing the meeting.
The meeting will be held at the Bon Ton Cafeteria, Green Street, Winter Haven, beginning at 10 a.m.
In announcing the Winter Haven meeting, Karst pointed out that Farm Bureau policy "should and does begin at the grassroots level" and urged all area farmers to attend.
"Farm Bureau policy development meetings are held each year in various parts of the state, and representatives can gather to discuss these important local, state, and national issues which the farmers themselves feel most affect their particular areas of interest," Karst said.
Following the Winter Haven meeting, Farm Bureau representatives will return to their home counties for further discussion on issues at county Farm Bureau annual meetings.
Each county Farm Bureau is asked to draw resolutions to be acted upon at the annual Florida Farm Bureau Federation state convention. This year's convention will be held in Hollywood Beach, November 2-7.
"Unlike many organizations today," Karst explained, "Farm Bureau direction begins from the bottom and goes to the top. It is at the 'grass roots level' that our policies are decided. We are proud of this policy development process and hope that the Winter Haven meeting will attract farmers from throughout central Florida," he concluded.
Similar day-long policy development meetings are slated in Clearwater, Aug. 29; Gainesville, Aug. 31; Deltona, Sept. 6; and Tallahassee, Sept. 7.

FIX-IT TIP

• If you plan to use an oil-based paint, you can make your brushes behave by dipping them in linseed oil before painting. To keep them pliant, always clean them with a paint thinner immediately after painting. If you use a water-based paint, no prepainting break-in is necessary for brushes, and you can easily clean them afterwards in water. • Use oven cleaner to remove spilled paint from the fireplace bricks.

During the early settlement of this country, the Indians were called "copperheads" by the colonists who were attacked by them. Later, Washington Irving used the term in his book, "History of New York," to apply to the Dutch settlers.

Copperheads look somewhat like rattlesnakes and they are as poisonous but lacking a rattle, they strike without warning. "Copperhead" is also a term applied to a person who strikes without warning.

THERE IS A SIMPLE APPLICATION TO FIT YOUR BUSINESS...

Restaurants, apartments, banks, hotels, churches, entire shopping centers and many more commercial and industrial establishments are being equipped conditioned with Bryant GAS Air Conditioning. More and more business owners realize the many advantages of providing summer comfort for their customers and employees.

The Bryant GAS Air Conditioner is reliable, simple to install, practically maintenance-free, economical to operate and the ideal answer to any commercial and industrial application whether it's for modernizing of existing buildings or for installation in new facilities. It is an air-cooled, remote water chiller which can be matched with Bryant furnace, duct heaters, boilers or all-weather rooftop units for a quality, year round heating and air conditioning system. Or it can be installed as an attractive package unit operating as a cooling only system.

These owners have selected Bryant GAS Air Conditioning knowing that they will enjoy the benefits of a quality system engineered for long life and peak efficiency year after year. Whether you're planning to replace old equipment, add air conditioning or build new facilities, don't make your comfort system decision until you have investigated the advantages Bryant GAS Air Conditioning offers you. Representatives of your heating and air conditioning requirements, from the smallest to the largest, there is a Bryant system, powered by gas, the low-cost, dependable fuel, to meet your specific needs... backed by factory-trained sales and service personnel.

In the News

NEW JOB for a prominent Washington attorney, David Ginsburg, is executive director of the President's Special Advisory Commission on Civil Disorders. Though he admits his life and upbringing have been "absolutely middle-class," those who know him say he has special qualities of understanding and compassion which will help him ride herd on the blue ribbon panel's investigation of Negro ghetto life.

10 Reasons Why You Should Buy a 1967 Cadillac NOW!!

1. There will be a considerable price increase on next years model in all probability.
2. The price that you will pay today for a new 1967 Cadillac means it is an even better investment than usual.
3. The 1967 Cadillac is the most successful car that Cadillac has ever built. Truly the most luxurious with standard and optional equipment not offered by any other make of car.
4. Trade-ins are at their highest value right now.
5. Cadillac has one of the finest warranties offered in the industry because it is the standard of the world and this means no finer quality is available.
6. The 1967 Cadillac is the most perfectly balanced Cadillac ever built with very little difference between front and rear axle loadings which means that its handling ability is unsurpassed.
7. Quietness and comfort has been engineered into the 1967 Cadillac.
8. Buy the 1968 safety features at 1967 prices.
9. We must clear out all our remaining 1967 Cadillacs by September 15th.
10. Drive a 1967 Cadillac and watch the world watch you.

Here Are a Few Examples of Our In-Stock 1967 Cadillacs

A LUXURIOUS 4 DOOR HARDTOP DE VILLE
An arctic white with a black vinyl painted top and black all weather interior. Air conditioning, power steering, power brakes, tilt and telescopic steering wheel, Power seats — all six ways, tinted glass all the way around, white side wall tires, an AM radio and many other extras make this Cadillac one of our most luxurious.

A COMFORTABLE AND FUNCTIONAL 4 DOOR SEDAN DE VILLE
This sedate blue 4 door features a pillow rest for added safety and protection. Air conditioning, power steering, power brakes, six way power seats, soft ray glass and our AM radio along with other extras add to the comfort and quality of this 1967.

A MONEY SAVING CALAIS 4 DOOR HARDTOP
An eye catching white added to a list of options such as air conditioning, power steering, power brakes, power windows, white side walls, AM radio and many other extras. These options give you the comfort and control that will only be in a Cadillac at the price of many so called medium priced cars.

WEDNESDAY IS LADIES' DAY AT

WELLS MOTOR CO.

SO IS MONDAY, TUESDAY, THURSDAY AND FRIDAY!

Time was when Lady Fair trembled at the thought of braving the "mysterious depths" of an automobile service department. Then came Customer Care to her rescue. Now milady accounts for more than 50% of all service business! They know that they get friendly, courteous treatment and understanding. What's more, they get the finest in car service.

It's all part of... **customer care**

Housing Project To Be Named DeLaney Heights By Board

The Housing Authority of Avon Park adopted two resolutions in their regular monthly meeting last Thursday night formally naming the new site of their housing project and also naming two new streets to be constructed with public funds and dedicated to the city.

Mini-Skirts Out: Proper Attire In

Mini-skirts, long hair, beads and in general, sloppy dress are "out" and good grooming and proper attire will be "in" at Avon Park High School this year.

This is not a new policy but it is one that has to be stressed each year, particularly in this era of long hair and short skirts.

Supervising Principal Guy Garrett said yesterday that school officials have become concerned at some of the extreme modes of dress which have been appearing in public schools.

Dress which may be appropriate for the beach, playground or entertainment world is not appropriate for school, Garrett said.

Each school principal is empowered to determine the standards of appropriate dress and enforce these standards, Garrett said they are expected to exercise good judgment in terms of weather conditions and the relative age and maturity of students with respect to their clothing for classroom activities.

It is the desire of each of our schools to establish a classroom atmosphere conducive to the best learning experience and appropriate dress, said Garrett.

He stressed this an important phase of desirable school atmosphere and school officials have learned through experience that students who pride in neat appearance and dress have greater pride in their school and classroom work.

Boys are expected to have clean-shaven faces, comb hair of conventional length, shirts buttoned and tucked into their trousers unless short is tailored for outside wear.

Trousers must be worn at waist level and those with long legs must have been hemmed.

And socks must be worn. Girls must be modestly dressed and skirts must be of acceptable length.

They are expected to be well groomed without excessive use of makeup.

Proper grooming and dress will be required when students enter the school building each year. Those not meeting standards will be sent home and told to return later.

It was the opinion of the entire board and voted on by the city council at its Monday meeting that the number one adjacent to the Elementary School should be named in honor of Mayor E. A. DeLaney, who has served for twenty years in a public capacity and whose name and fortitude according to the Housing Authority press release has inspired the project moving at a steady and straight forward pace. It is the intention of the Board of Commissioners of the Housing Authority to name the new housing project in honor of the city's Mayor E. A. DeLaney. Four of the councilmen voted for the resolution.

Wayne W. Albright abstained during the roll call on the motion.

The DeLaney Heights project will consist of 40 one-bedroom units and 10 no-bedroom units (sleeping rooms).

Mr. Turnbull, Housing Authority Chairman, stated to the "Sun" that this project will also house a community hall and meeting place. A center for special activities and crafts, laundry with washers and dryers.

Mr. Turnbull also revealed that site number two will be called "Lakeland Park" for its location near the south side of Lake Tulane.

These two sites names will be used as a point of reference for the official mailing address for all tenants.

Lakeland Park project will have 14 one-bedroom units, 40 two-bedroom units, eight three-bedroom duplex units, 12 four-bedroom units and 6 five-bedroom units. A total of 126 bedrooms and 416 rooms in all. In 30 buildings will comprise the project. There will also be a maintenance building as part of the project, a day care center that also may be used as a commissary room. A community hall for children that includes a kitchen and toilet facilities. There will also be an office for the Executive Director of the project.

The Housing Authority Board selected "Shoreline Drive" for the name of the new street to be constructed through the shoreline of Lake Tulane commencing on Tulane Drive near the east end of the project and running to the west end and joining Lake View Boulevard. They also selected "Edgewater Drive" for the other connecting street running north and south from Tulane Drive to Sunshine Drive near the center of the project.

Chairman Turnbull stated that the hopes to invite the city council and members of the local press corps to its meeting next month.

The association has cleaned an area for parking and another one for car washes.

The Committee headed by Bob King whose task it is to find a golf pin for the new course reports that his committee has received many applications for the job and are continuing to receive applications.

The "Sun" in an effort to give its readers a better picture of the candidates and how they stand on some of the election issues. The City Election will be held on Tuesday, September 12.

Clayton King, Council President is running for a sixth term on the council and has been President three times. He has been a businessman in Avon Park for many years and operates his own business.

Mr. King stated that the new P.A. Golf Course is one of the greatest things that has happened to Avon Park from the standpoint of local people and the many visitors who come to the area. He said that Avon Park has other sports activities and a fine museum center and the Golf course will round out the recreation program of the city.

In other areas Mr. King revealed that a budget has been set up for the next fiscal year.

Re-Elect CLARENCE KING

City Councilman

GOOD NEWS

Avon Park's financial condition is the best ever (more details on this next week).

TAX MILLAGE will be the same as last years (operating losses for debt services should never have to be increased above the present levy. Charges for city services will not be increased. Please send me back as one of your councilmen. I will continue to give the position my best judgement and decisions as I have my own successful business enterprise.

THANK YOU FOR YOUR CONFIDENCE
