Winter, 1967-68

The last of the four seasons is upon us. This year Winter began at 8:17 A.M. December 22 and the day is officially known as the Winter Solstice. This is the time of year when the North Pole is tilted 23 degrees and 27 minutes away from the sun, and the nights in the Northern Hemisphere are much longer than the days.

Likewise in the South Temperate Zone the Summer Solstice occurs on December 22 and Summer begins!

Winter ends after two-thirds of March has expired in 1968.

The days, the shortest of which is December 22, will grow longer afterwards, day by day, until night and day will be equalized in March at the Vernal Equinox.—Lake Wales News.

Don't be Sorry—Be Safe

With roadways being invaded with many new bicycle and tricycle riders who had visits from Santa, the Florida Highway Patrol is reminding parents that youngsters need careful instructions on safe riding habits along with learning the skills of riding.

The Patrol lists these reminders: keep at least one hand on the handlebars; never carry passengers; ride only on the bicycle seat; ride on the right side of the street and close to the curb; do not ride more than two side by side, and never hitch rides.

Parents should realize just how important safety rules can be when you consider that a very expendable child riding a very fragile machine is competing for space on the road with cars, trucks, buses, drunks and hot rodders. In a collision with any one of these, the boy or girl and the bike are a dead cinch to come off second best. And not just a second best dead cinch—very dead indeed.

Dogs, Guns and Headley

After a flurry of initial protests from rights groups, the reaction to Miami Police Chief Walter Headley's "guns and dogs" policy in controlling crime and "shoot to kill" was one of relief by the average citizen.

More and more, Miami has become a happy hunting ground for burglars, big ones, little ones, all colors. The Negro crime problem in Miami apparently has caused more problems than the white—all but three of 58 arrests over the Christmas weekend were Negro men.

Far from being alarmed by Headley's position, many Negroes greeted his announcement with relief, happy to have some protection from the young hoodlums in their midst.

Like the maids coming home from a day's work with a few hard-earned dollars in cash. Many have to get home before darkness falls—too dangerous walking from the bus otherwise. The money is carried not in a handbag, but in a bra or a stocking top.

You hear stories from these hard-working, honest people about the man down the street, 40, never had a job, has two teenage sons, no jobs. But they have a car, dress well and eat regularly. Of course the police are there about once a week looking for stolen this and that. And the people who live in the block have to have somebody constantly in the house or father and sons will break in.

And be sure and be home the days the social security check or pension check or welfare check is due. If somebody else gets a sticky finger on it it's gone forever. Without that check, some can't live. To miss one is a tragedy.

Headley is an old timer, a realist and a tremendous law enforcement officer, a former president of the International Association of Police Chiefs. It will be interesting to see how he makes out. Miamians, many of whom have been burglarized multiple times, are rooting for him.

The guns, dogs and shoot to kill policy was announced in the week before the New Year weekend. On that weekend, robberies droppe to 13 as compared to Christmas' 58.

Here Is Good News That Doesn't Change

The news in today's paper may be good or bad. We may be excited or depressed by what we read. Important as it is, nothing is so sure to be forgotten as today's newspaper. Tomorrow's next week—there will be another paper, with different news. Important . . . but always changing.

But there is another kind of good news which does not change. It is the good news that God loves you and that He wants you to enjoy life here and now.

How do we know this? The Bible tells us, "God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish but have everlasting life."

Full of Joy

Speaking to His disciples, Jesus said, "Ask, and ye shall receive, that your joy may be full." He wants us to be full of joy. If we are not, it is not His fault.

Yes, God wants you to enjoy life here and now. He also wants you to go to His beautiful home, later. Jesus said, "In My Father's house are many mansions . . . I go to prepare a place for you. I will come again and receive you unto Myself, that where I am there ye may be also."

But the question arises, How can I become fit to go to heaven, where there is no sin, no sorrow, no pain, no death? How can I meet God's standard?"

The answer is, in the words of Jesus, the Christ. "Verily, verily, I say unto you, except a man be born again, he cannot see the kingdom of God."

What is it, then, to be born again? It is the change which occurs within the person who believes in Christ and takes as his own the life which God offers him as a gift.

Accept Gift

Too easy? When was accepting a gift hard work?

But there is infinite danger in rejecting the proffered gift of God.

The Bible says, "He came unto His own, and His own received Him not. But, as many as received Him, to them gave He power to become the sons of God—even to them that believe on His name."

If you believe Him—take Him at His word and trust in Him—this is the greatest good news for you!

BABSON'S POINT OF VIEW

Babson Park, Mass., January 11. Air transportation—one of the nation's fastest growing industries—is flying into a crisis which threatens to clip its wings, temporarily at least. Airport facilities just aren't keeping pace with the demand . . . air controller congestion is serious, especially on the East and West Coasts . . . and rapidly rising costs post new problems of financing.

Inadequate Facilities

Our emergence into the jet age has broadened the horizons of air transport—both passenger and cargo—but it has also brought us face to face with the need for bigger and costlier terminal facilities. Air traffic has doubled since 1962. You can expect it to double again in the next five years.

Most of the nation's airports are overcrowded . . . some dangerously so. A few are valiantly trying to handle far more planes than they have capacity for. In some airports, radar installations aren't sufficient to do the job that true safety requires.

Instrument landing systems seem not to be foolproof, at best. If not well maintained, they can contribute to accidents. Without question, pilots need the most accurate information possible to permit them to determine whether planes are coming in at the proper angle and altitude . . . but the development, installation and operation of such delicate and sophisticated instruments will entail tremendous increases in the operational cost of airports.

Air Corridor Congestion

Airport congestion is getting worse by the week, with New York's Kennedy and LaGuardia fields, Chicago's O'Hare, and the Los Angeles International approaching saturation points. But there is also over-crowding of the air corridors themselves as passenger, military, and cargo craft take to the clouds in increasing numbers.

In such close quarters, speedy jets are a decided hazard, and the Federal Aviation Administration has set a new speed limit of 288 miles per hour for planes flying below 10,000 feet. Soon to come, perhaps, are regulations calling for wider spacing of aircraft in flight, and when crossing over airports awaiting opportunity to land.

Progress Must Be Financed

Meanwhile, the airlines are entering a critical period of very rapid growth during which their costs promise to rise sharply while their profit margins decline further. Pan American, which has $1.5 billion in new jets on order, has obtained long-term credit of $180 million to finance new planes.

Trans World Airlines announced it had gotten $800 million in new money and refinanced mortgage notes. In today's high-cost, limited availability money market, such sums must surely entail heavy burdens which will be a drain on earnings for some time to come.

Obviously, the airlines are also going to be faced with higher landing, storage, and maintenance fees as airports pass along the huge cost of installing and maintaining new and improved facilities to handle the great increase in air traffic and provide for the growth still to come.

Fare Boosts Due

Curiously enough, the Civil Aeronautics Board continued throughout 1967 to favor reduced airline fares . . . thereby whittling away their earnings base and making it more difficult for them to finance the purchase of new aircraft and new safety equipment.

However, in December the CAB allowed four of the big airlines to increase somewhat their low "Discover America" discount fares on flights between the East and West Coasts.

As the profits squeeze of the airlines intensifies, you can expect CAB to relent further by permitting selected fare increases so that those who fly will pay a bigger share of rising costs. And it's just possible the airlines may one day be collecting a federal head tax on each passenger ticket sold . . . to help pay for new airport facilities and safety devices.

Letter To The Editor

Safety Check No Good Says Resident

Dear Sir:

I read in yesterday's paper that Polk County is setting up a system for the so called "Safety Check" of all automobiles in their county. The county estimates that it will grass $177,000 during the first four months that the system is in operation. The county will check 250,000 cars each year at a specified fee for each car inspection. The local politicians are setting up a special board to hire the men to run this inspection system.

It seems to me the voters of Polk County are being pushed into a compulsory automobile inspection without first getting all the facts and figures on the need for such an elaborate safety inspection. Some questions should be asked first like:

Why is it necessary for this safety check? Will this safety check help to lower the accident rate? Who will benefit the most by setting up this safety check bureau?

What will be done with the large amounts of money collected at the safety check station? Who will operate these safety stations and what will they be paid to operate them? Who will select the personnel to manager and operate the safety check program?

I do believe that the people of Highlands County should be given all the facts and figures on the reasons for having a safety check program in our county before it is adopted.

Our local news media can get this information and should pass it along to all the people as a public service.

Before coming to Highlands County I lived in Chicago, Ill. Chicago, over the complaints of its people inaugurated a car safety check program and it was compulsory to have your car checked twice a year at no charge to the motorist. It proved to be the biggest scandal and flop in Chicago's history.

The so-called inspectors were charging people to pass their cars thru the safety lanes. The Chicago newspaper exposed this program for what it was. Just a huge swindle, and it did nothing to lower the accidents in the area. The program was dropped soon after exposed.

Just recently one of our nations largest universities ran a survey on the necessity of having all cars safety checked. They proved that the cars mechanical condition was not the prime factor and the main cause why we have so many accidents, 75 per cent of all bad accidents are caused by the loose nut behind the wheel, the driver and not the condition of the automobile.

All large insurance companies can give you records that most fatal accidents are caused by drivers failure and not mechanical failure.

Our federal government just opened a new transportation department and they are responsible for starting this new safety check program. If our state refuses to adopt the program it will lose some of its federal aid monies.

I believe that the state of Florida is big enough to tell the federal government that it will look after its people's welfare without any advice or assistance from the Washington politicians.

In my opinion this safety check program is no good. It will do nothing to lower the accidents. Many of our poor people that are driving older cars will be hurt by this program. These people drive their cars in a safe manner and are not the cause of fatal accidents.

More new automobiles are involved in accidents than older cars. Lets put the blame directly where it should be, on irresponsible drivers. Can you imagine passing a new car and then can't drive it until it is safety checked. It makes me believe that the reason for this safety check program is not to cut down on accidents but to provide jobs for certain good politicians.

It is also a form of taxation and as all taxes go in the years to come they will raise the safety check fee to get money for what purpose. Your guess is as good as mine. Think it over carefully.

Rambling Thoughts

By O. L. SHOBE

BUTCHERED TO MAKE A JOHNSON HOLIDAY(?)

Statistics now show that 35,000 policemen in this country have turned in their badges and sought a line of work where they do not serve as targets for "demonstrators," Communists, arsonists, rapists, thieves, looters, and all the forces of the friends from the great deep.

Many of them are enlisting in the armed forces, where they not only get shot at, but have a chance and encouragement to shoot back. One of the chief causes of this hegira of cops is the fact that the courts turn the "demonstrators" loose almost as fast as they can drag them in.

The cause of this astonishing condition? Dirty, low-down politics! One thing heard frequently from the retirees is "I'm not getting shot just to help L. B. J. get re-elected. What do you think I am?"

POOR THING!

In my favorite daily paper I saw a big heading in bold black type: "Large Tanker Limps Into Port." Other ships are gathered around the poor tanker, pushing and shoving in a noble effort to help the injured ship, as can be plainly seen in the picture.

There is something "funny" about the newsprint, however, as we read that the ship had an internal explosion from swallowing sulphur, without the advice of a physician, quite likely. The injured leg does not show in the picture, though. Another heading says: "Florida Woman Dies In Alabama." That happens now and then, though.

One of my friends told me that churchmen should not trot around with "damnonstrators" in these protests of peace-loving mobs, who are burning big holes in cities all over the United States. I told him that it was my wish that they would keep it up in larger and larger numbers.

As the police show signs of using dogs and shotguns on these gentle friends, I'd like to see every dad blamed one of them get a load of duck shot right where it would do them the most good. A few of the gentle Jesus, or Nazareth has no business mixing up with and encouraging lawless rebels.

TWO KINDS OF DEADLY INFLATION—YOU PAY FOR BOTH

When government spends more than it takes in, it has to pay its bills with SOMETHING, so it creates more money. Since government does not produce goods, this means no more money bidding for no more goods, so, of course, prices go up. Exactly like an auction, you want that antique more than somebody else, so you bid UP THE PRICE.

And, when workmen get more pay but don't PRODUCE MORE GOODS to earn it the price YOU pay must include the higher pay-per-piece which the workmen get, but the workmen then have to pay higher prices, too, caused by other workmen, so they ALL demand STILL MORE PAY—and up go prices again.

One is called demand pull inflation, one is cost push, but what do you care about the name—both cost you money by making your savings, life insurance, bonds, pensions worth less and less, and NOBODY BENEFITS! PHOSPHATE MUSEUM AT BARTOW

One of the finest educational exhibits in Florida is located just East of Bartow, on the South side of Highway 60. There is a large elephant-like model of mastodon and a saber-toothed tiger out in front to let people know that the animals are on the loose and anxious to be seen and photographed.

Inside the large building is a series of paintings showing how mankind conceives the earth to get started spinning around the sun, how it cooled off to the extent that life got started, and developed into "us folks."

Inside the building are life-sized "statues" of several kinds of extinct creatures, which, to tell the plain facts, are "fearfully and wonderfully made."

The old exhibit beside the highway at Mulberry was loaded up and brought to this exhibit and some of those bones, when fattened up, would make generous rations for an entire army of dogs. There are leg bones as big around as a stove pipe, with plenty bone attached to them.

We were informed by the lady custodian that the phosphate companies were not keeping up the expenses and that it would soon have to shut down again. That is a sin and a shame if this happens, as it is one of the finest and most informative tourist attraction in Florida.

A visit to this is well worth your time and the gas to make the trip. It is just about one mile East of Bartow on road 60. There is no charge whatever, but a donation would be fully appreciated by one of those things, it would be "all day with him."

Any phosphate companies, or the State of Florida should get in behind this and see that it get the patronage it deserves. Go and see this magnificent exhibit and you will know how this old world "got that way."

BOBBY "HAS IT MADE!"

Investa, the official organ of the Russian Communists, now has made Bobby Kennedy their favorite and election sure now. In a long story in the paper it says that "Nixon does not represent the interests of the people of the United States." That just about sews it up.

Nobody has ever heard of official Communism ever telling a lie or even being wrong about anything. It's good to see Nixon being "defeated" for President of the United States and the Governor of California.

Yes, he was "defeated," all right, right in good old honest Democratic Chicago, by crooked-ness in election shicannery that was enough to make the angels in heaven turn Republican in Texas and several other places.

Governor Brown and his bunch of political gangsters in California won the election in California by the same good old Democratic(?) bonding against Nixon, in the race for Governor.

The voters of California finally showed the party of fraud and vote-stealing what they thought of them when they went to the polies and shoved Reagan into office by a majority of close to one million majority.

Bobby-Sock "Kid-Favorite" Kennedy will have a hard time recovering from the "boost" the Communists have given him. This writer, to tell plain facts, is astonished at this lack of gentle intelligence in Moscow. We can see, perhaps, how this "bust" came about: this world-wide conspiracy has made a slip in its head work.

Their campaign of murder, looting, burning, lack of governmental control of lawlessness which they have helped generate has probably fooled the people who are working another part of their great machine.

Bobby, himself, who proved such a wash-out as Attorney General, would like to take the Investia and all its works out in the back yard and bury the whole caboodle. As for me personally, nothing has pleased me more since Hitler killed himself and Israel licked the Communists down in Egypt. Keep it up, Investia, you are on the right track at last!

MODERATELY DEAD DRUNK

"On Saturday night, he concluded 242 persons not intoxicated but dead drunk, were taken to the police station."—New York Times. Reminds me of a home talent show where one of the actors informed a "drunk" that if he didn't get out of the place at once, he would be "partially killed".

"Although she made no statement on the elimination of her seat, sources said she was caught by surprise."—Harrisburg, Pa., Evening News.

Charles II, King of England, was all the time being warned by his brother, James, to reform his wicked manner of living, for maybe outraged husband might shoot him. Charles would always tell him: "You should not worry about that, Jimmie; nobody wants you for king and that is what would happen if I got killed." L. B. J. is worried about the same thing, I hear, but that would make Humphrey, President, and nobody wants THAT!

Too Late to Classify

By RUSSELL KAY

Nobody knows how many zany laws we have in the 50 states, dealing with just about every subject under the sun, but there are thousands of them, never repealed and still on the books.

A recent issue of Ford Times carried an article by Dick Hyman entitled "It's Still The Law" revealing numerous outmoded laws which have never been removed from the books, laws that apparently seemed sensible and practical when passed but which today are mirth provoking and if any attempt were made to enforce them would create chaos.

Most of them were enacted in the early days of the automobile and were intended to protect and safeguard the public from the dangerous motor vehicles that were appearing on our highways at the turn of the century. Vehicles that traveled at breakneck speeds of 15 to 20 miles an hour endangered pedestrians and livestock.

It appears that just about every community or state had its own ideas about necessary legislation to regulate automotive transportation.

For example, a law student in Miami discovered that it is illegal to proceed down Flagler Street at night in a motor vehicle unless preceded by a lighted lantern, at least eight feet in front of the vehicle. The motorist apparently had a choice of either hiring someone to walk ahead with a lighted lantern or attach a 10 foot pole to his car with a lighted lantern attached.

In Lakeland it is against the law for a motor vehicle to be left standing on the highway unless it is substantially fastened.

In Eureka, Kan., an old law stipulates that before anyone can enter the city limits in an automobile, he must telephone the sheriff and warn him so that people's horses may be properly restrained.

In Oxnard, Calif., the driver would have to wait for a police escort before entering the city and while driving through the city a bell, horn or siren would have to be continually sounded.

A Tennessee law required every motorist planning a drive to take an advertisement in local newspapers at least one week in advance giving the route he proposed to travel.

In Pennsylvania the Farmer's Anti-Automobile Society high pressured the legislature into passing the following regulations: "1. Automobiles traveling on country roads at night must send up a rocket every mile, then wait 10 minutes for the road to clear. 2. If a driver sees a team of horses, he is to pull over to the side of the road and cover his machine with a blanket or dust cover that has been painted to blend with the scenery."3. In the event a horse refuses to pass a car, the owner must remove his car and conceal it in the bushes.

New Hampshire produced the most hilarious regulation of all, with a ruling that read: When two motor vehicles meet at an intersection, each one shall come to a full stop and neither shall proceed until the other has gone.

There are plenty of others, not only concerning traffic but many other subjects. Wouldn't it be a good idea to review all laws and eliminate those that are outmoded and not enforcable?

Rabies Shots for Loose Animals Will Be Mandatory From Now On

With the advent of a new policy on dogs and cats running loose in Highlands County and the hiring of a dogcatcher for the first time, there also is a new policy for those purchasing licenses for their pets. The pets must each have a rabies shot.

The "must" on the rabies shot is a protective measure for the pet, the family and the community. The following article is reprinted as a service to owners of pets who now must have their animals inoculated if they let them run free:

Rabies

Rabies has been known and feared as a fatal, infectious disease of man and animals since Biblical times, yet too many people live in ignorance of its causes and its consequences. In truth, a dog or cat owner, you should assume two important responsibilities:

1. Protect your pet regularly through vaccination against this dreadful disease.

2. Support civic, educational and compulsory vaccination programs designed to stamp out the disease in your community.

The disease rabies is caused by a virus so small that it will filter through porcelain. In this respect, it is like the same class of living agents responsible for polio, smallpox and many other diseases.

All warm blooded animals, including human beings, are susceptible to rabies. The disease is world wide, and has been identified in many types of wild animals, in bats, and in skunks. Pets represent the greatest threat to man, because of their close contact with him. The pet population has reached record heights—the last census showing approximately 25 million dogs and 20 million cats in the United States alone.

Although the incidence of human rabies is very small, approximately 40, the post exposure treatment series are given annually in our country.

The usual mode of rabies transmission is through a bite wound, but it can also be transmitted through the already existing wounds — even minor scratches. The virus, concentrated in the saliva of sick animals, is carried deep into the tissues by a bite. Once there, the virus grows and migrates by way of nerve trunks to the brain and spinal cord. The period between the bite and the appearance of symptoms is called the "period of incubation" or virus growth. This time lapse is extremely variable, and may range from a minimum of 10 days to many months.

There is no known cure for rabies. Once the symptoms appear, the infection will result in death . . . usually within two weeks.

Christmas Seal Goal in Sight, Chairman Says

Hayward H. Davis, Lake Placid area Christmas Seal chairman, reported that $6,745.40 has been contributed thus far to the Annual Christmas Seal Campaign.

"Our goal of $56,700 is within sight," Davis stated. "In the rush of the holiday season festivities, it is easy to overlook one letter, but those letters overlooked pile up for us into a deficit that can seriously hamper our program of the following year."

Christmas Seal funds, he continued, "are the only support for the Mid-State Tuberculosis and Respiratory Disease Association which is sponsoring this 61st annual Christmas Seal Campaign."

"Sending in your Christmas Seal contribution is indeed a new year's resolution that has all year round benefits. It is not too late to mail your contribution today."

The Mid-State TB & RD Association serves Polk, Highlands, Hardee and DeSoto Counties. Persons through the first week in January with the quota in brackets are:

It Is Not Too Late to Sign Up For Medicare

If you are over 65 years of age and neglected to sign up for medical insurance when you received the good news for you, so says W. E. Arnold, manager of the Lakeland Social Security Office.

Yes, it's now open season until April 2. Any person over 65 years of age who has not already signed up for medical insurance under the Medicare program can sign up now. If you sign up during the open season your coverage will not start until July 1968.

What advantage will it be to you? It will pay 80 per cent of your doctor bill after the first $50. It does not matter where the doctor treats you at his office, the hospital, a clinic, or at your home. Also, it covers up to 100 home health visits under an approved plan each year. It also covers other medical and health services, regardless of where rendered, including such things as diagnostic services, etc., X-rays or radium treatments, surgical dressings, splints, casts, etc.

The present cost is $3 per month, but the secretary has until December 31, 1968, to determine exactly what the cost will be for those just coming under it.

Happy Reunion

Yes, it was a happy holiday for Darrell Gonzeles Cloud, age 18, who was adopted at birth by Mr. and Mrs. Hugh Cloud, now residing on Lake Sebring.

The phone rang early the morning of New Years Eve with Darrell's sister, Carolyn Gonzales Proctor of Okeechobee, age 22, at the other end of the line, to tell him that their brother, whom Darrell had never seen was there for a visit. When Darrell heard her say Bennie is here, he just couldn't believe it, but it was true. Bennie Gonzales, age 20, who had lived in Montana all his life and looked forward to being reunited with Carolyn and Darrell was in the Navy stationed in Charleston, S. C., and was actually here.

The three had three days which they crammed with tears, laughter, and getting acquainted.

The most touching experience was a trip to the cemetery, where a number of relatives gathered while Bennie knelt by his mother's graveside, whose funeral he was unable to attend 13 years ago to pay tribute.

Bennie goes back to camp Tuesday night, but the three are filled with happy memories which they will carry in their hearts until they meet again.

There are the grandchildren of the late Mose E. and Bertha Lanier of Sebring.

Southland Court News

The nominating committee made a report Tuesday morning at coffee hour submitting the names of the chairman of the various committees. As soon as the yearly schedule can be finished a copy of the park activities will be available for each person in the park. Forty-two were on hand again to greet friends and drink coffee.

Dr. and Mrs. Dinniwell arrived safely from their Northern home in Hespeler, Ont., to spend the remainder of the Winter in Southland. They are well and had a very enjoyable Summer.

Five tables of cards Friday night, one of bridge with Evelyn Fritz high, two of 500, Sheila Wurster high with 3600, Dorcas Young second with 1940; one of canasta, women won over men, and one of euchre, when men won over women.

Ray and Pearl Kreiser of Mendota, Ill., joined the park this week, to spend the remainder of the Winter. They had bad weather all the way and are enjoying the sunshine we are having. They are located on the lot across from the recreational hall. We welcome them to Southland.

In the shuffle tournament Friday afternoon Betty Peterson and Twylla Wurster had a score of 44 over Russell Lumpkin and Ray Kreiser with 9. It is encouraging to report we had 16 players out Friday afternoon.

The Wursters have purchased an apartment in The Golden Age Villa and hope to be settled by Spring. They have moved to Bonnie Brae until their apartment is completed. We wish them much happiness in their new home.

Mrs. Peterson has bought Laura Staniland's mobile home. This home also will be ready for the new owner in the Fall. The trip to Dunedin was a pleasant one, and on the return trip Goldia took Caroline and Betty the long way back, through Clearwater and along the beautiful beaches. All three were perfectly content to return to Avon Park in the late afternoon.

The Leslie Snyders, who have been in Florida for several weeks, spent a few days with their parents, Omer and Edith Snyder, before returning to their home in Lepeer, Mich.

Baby Gators Edge Panthers 75-73 In Sudden Death Overtime

Monday night in Gainesville, before 4,500 fans, South Florida Junior College Panthers met sudden death at the hands of the Freshmen of Florida Freshmen team in an overtime period.

The regular game ended in a 73-73 tie and head coach Tom Bedford informed the teams that a five minute overtime period required the floor be given over to the Southeastern Conference team 45 minutes prior to sched. and game time. Ol' Miss and Florida were scheduled at 7:45 and only about one minute remained for the Panthers and Irish to finish their game.

It could be ended at 73-73 but a hurried decision was made to play sudden death-first one to score and Lewis, who had been held to only two free throws in the first half, grabbed up the loose ball as the Panthers waited for the second try on the jump since neither of the centers gained a tip and drove in for the winning basket.

It was the finest effort of team play exhibited by the Panthers this year. Down by 18 points at one time in the first half, the Panthers fought back and were down 44-30 at the half.

Earlier in the second half, the Panthers tied the score and were ahead by 48. However, the official scorekeeper called time as he differed with the clock and Panther scorekeeper. The clock and Panther scorekeeper had the score 51 to 48 favor the Panthers. The possible error was that a basket by the university frosh was disallowed by the officials and the official scorekeeper made the signal allowed the two points. At any rate the Baby Gators were allowed two more points and the score went to 51-50.

The lead changed hands eight more times until the Panthers found themselves with the ball, score 73 to 71 and 37 seconds showing on the clock. They worked the ball for the one shot and with eight seconds left a perfect pass to Adonio Whitehead under the basket set the stage for the winning basket. While Mead's shot rolled off the rim and the game ended 73-73.

Thursday night the Panthers continue their road traveling as they go to Winter Haven for a conference game with Polk Junior College. The Panthers are 3-1 in conference play, having lost only to Brevard in Cocoa.

The Panthers' next home game will be a homecoming affair against Manatee Friday night, Jan. 19 at the Avon Park High School gym.

Blow your horn without lifting a finger.

Only Olds dealers have it. A horn control that extends all the way around the inside of the steering wheel. Think of it. You sound your horn with the simple reflex action of your fingers. It's part of Oldsmobile's Tilt-and-Telescope Steering Wheel*— one of the exclusive Olds availabilities for '68. Olds also offers a button that pops open your trunk lid from inside the car. A switch that lets you lock all doors with a single click. Even a buzzer that warns you when you're about to nudge the speed limit. Re-Trial Of Sweet May Be Delayed

The re-trial of John J. Sweet for the murder of Charles Von Maxcy may be delayed until as late as July, State's Attorney Glen Darty says.

"I hope to be able to work out the time in April or between the primaries in May," Darty said in Bartow, where he is presenting cases to a grand jury. "But it migh. be July."

He explained that the trial has to be arranged so as not to interfere with other dates for which defense attorneys Walter Manley of Lakeland and James McKeen of Tampa already are committed. June is pretty well out since Darty must leave June 7 for 16 days of Army reserve training at Ft. Bragg, N. C.

Darty had been hopeful that he might retry the case at an early date. There has been speculation that the trial would be moved from Bartow, but Darty has reaffirmed that Polk County could produce another jury.

The prosecutor said he has talked with defense attorney Walter Manley of Lakeland, who stated the tentative time of late April or early May did not conflict with his schedule. Manley was to contact McKeen. The election primaries are May 7 and May 21.

Darty cited a heavy case load as the main reason for pushing the Maxcy death trial as far forward as July. Apparently Sweet will go to trial alone again, although a Boston man was fingered during the trial as the man who actually did the killing for hire. No Sebring witnesses have been called for the current session of the Bartow grand jury.

"July would be fine with me," attorney McKeen said from Tampa. "If Mr. Darty runs for re-election, it would be hard to campaign and conduct the trial."

Sweet is charged with the murder for-hire death of Maxcy, 41, handsome, socially prominent millionaire citrus and cattle baron, who was shot and stabbed to death in his $50,000 ranch home off Sparta Road October 3, 1966.

Sweet, who was one of Maxcy's pallbearers, went to trial in October in Sebring, but the case was moved to Bartow when a jury could not be obtained here. After two weeks of a trial in Bartow, Judge William K. Love declared a mistrial when the jury failed to agree on a decision. Maxcy's widow, Irene was the chief prosecution witness against Sweet, her former lover.

Mr. Scott stated that he thought he could purchase two used two-way radios for about $150.00 and was asked to investigate further.

A discussion was held on bids on city insurance which were called for on January 22. The City Clerk reported that several large companies had declined to bid due to lack of detailed specifications. Motion by Mr. Lane to cancel insurance bids and to contact a representative of the State Treasurer's office to get help in preparing detailed specifications for new bids.

City Clerk Crews reported surplus cash in checking account of the water system. Motion was made to invest $25,000 from Water System Revenue Fund in Treasury bills.

Mrs. William Guenther Named To Juvenile Court Visitors Board

Recognizing her outstanding ability and the time and effort she has given to Youth Care and the building of the new juvenile home, Judge Mervin Rehrer has appointed Mrs. William Guenther to the Board of Visitors of Juvenile Court.

Mrs. Guenther resigned her post as vice president of Youth Care, Inc., and as a member of the Board of Trustees.

"In her present position, she will be able to do much more for the dependent and delinquent child," a spokesman said. Mrs. Guenther will remain on Youth Care's building committee, which is responsible for all the day-to-day decisions for the construction of the new home.

Mr. Guenther was appointed to fill the unexpired term of his wife, both as vice president and trustee.

Marshall Pollard, president of Youth Care, appointed the following trustees as members of the nominating committee: Mrs. E. F. Westfall, Al Hoepstorff and Robert Lindsay.

Mrs. Pollard urges everyone who has made a contribution of $2 or more to Youth Care to come to the annual meeting at 7:30 P.M. January 15, in the Woman's Club building on West Lakeview Drive. At that time, five trustees will be elected to the board for a term of three years.

Democrats Face Heavy Opposition

Democratic nominees for the offices of Highlands County sheriff and county commission posts will have heavy Republican opposition this year.

Col. W. J. Atkinson, chairman of the Republican central committee in Highlands County, said he knows of two potential candidates for the sheriff's office, and that two Republicans are contemplating the county commission seat in district five, being vacated by Carl McIntyre. There also are candidates for each of the other commission seats, he said.

The colonel and Mrs. Atkinson will lead a group of some 30 Highlands County Republicans—somebody from all of the precincts—to Lakeland January 14, joining with GOP workers from Polk, Osceola and Hardee counties for a precinct action school. It is one of 12 being conducted state-wide.

The session will be held at Florida Southern College. Top Republicans from throughout the state will comprise the faculty, including State Republican Chairman William Murfin of Ft. Lauderdale.

State Economy Well Above '67

The principal indicators of Florida's economy stand well above 1966 as the year ends and provide a good running-start into 1968, the Florida State Chamber of Commerce reported in 1967's final issue of its Weekly Business Review.

"Improvement in income and a gain in jobs are especially indicative of future growth. Although annual totals for 1967 are not in, enough data is available to indicate trend levels.

"Personal income of Floridians is running 11 per cent over 1966. The index for the number of persons on wage and salary payrolls (excluding farm workers) stood at 167 in October, the latest available data. This compares with 181 in October 1966. Manufacturing employment showed this gain in a five-point advance in index and payrolls of manufacturing plants were well over 1966.

"Consumer spending this year is running 7 per cent ahead of last year. The sale of farm products is up 4 per cent and gasoline gallonage sales have gained 5 per cent.

"Over-all business volume is up 9 per cent as measured by bank debits, that is, total checks written. Debits levels in the states larger cities are all up and range from 3 to 14 per cent over 1966.

"It is reassuring to note the number of incorporations of new businesses in Florida is moving ahead of 1966."

30 Pound Packages Can Be Sent by Air

Packages up to 30 pounds for American military personnel served by Army and Fleet Post Offices overseas now can be sent by air transportation at special low rates, Postmaster Bob Young pointed out today.

"Area residents using this new airlift service will get much faster delivery on parcels to military personnel overseas," Postmaster Young said. He said the airlift is available on a space-available basis upon payment of the domestic parcel post surface rate plus a flat $1 fee.

Packages weighing up to 30 pounds and not more than 60 inches in combined length and girth qualify for the new special airlift rate, Young said.

Postal patrons can get the airlift service on packages mailed to all military personnel at APO and FPO addresses overseas, and in Alaska, Hawaii and Puerto Rico. Young noted that the new airlift also applies to parcels mailed back to the States by servicemen from these military post offices.

Parcels on which the $1 fee is paid get air transportation all the way—from here to the port of embarkation, and from there to the overseas base. Postal patrons formerly had to pay air parcel post rates to get similar service.

In many instances, the new airlift rates are considerably below comparable air parcel post charges. He cited these examples.

A mother here sending a 15-pound package to her son in Viet Nam pays $4.30 for the new airlift service. The air parcel post rate for the same package is $12.08.

An eight-pound package going from here to Frankfort, Germany, costs $1.95 under the airlift service. The air parcel rate is $3.02.

The postmaster pointed out, however, that it is not always to the mailer's advantage to use the airlift service. On some light packages air parcel post rates may be lower than the airlift charges.

"Postal patrons should check with the post office for information on the best way to mail parcels to servicemen overseas," he emphasized.

The new airlift service went into effect January 7. No charge is made for carrying the package between the U. S. port and the overseas base.

Until January 7 airlift for parcels to servicemen overseas was restricted to packages weighing up to five pounds. Upon payment of the regular parcel post rates, these packages get surface transportation to the port of embarkation and are airlifted from there to the overseas posts on a space-available basis.

There is no charge for this partial airlift and overseas parcels weighing up to five pounds will continue to receive this service, Postmaster Young said.

Two Now in Race For Carl McIntyre's Seat

Two County Commission hopefuls eying the seat of retiring Chairman Carl McIntyre tossed their hats into the political ring this week as the one announced candidate, Russ Albritton, Jr. bowed out.

Announcing this week in District Five are James Dean Hunt, of 166 Edgemoore, Mayor of Sebring from 1956 to 1963, and Malcolm Walters, 1111 Sunset Drive, a political newcomer.

This will be Hunt's first bid for a county job. He and his family have lived here since 1952, coming from Sanford, N. C. They run Florida Reporting Service of Sebring and Credit Bureau of Okeechobee. Hunt was a city councilman in Sanford for two years. He is a member of the Masonic Lodge.

He and his wife, Annie Laurie, a fourth grade teacher at Woodlawn, have two daughters, Mrs. Jerry Anne Kohn, and Mrs. Billy Alice Valentine, Jr., of Jacksonville.

Walters has lived in Highlands County since 1936, graduating from Sebring High School. He is president of Judge Lane and Avocado Growers Association, Inc., Lake Placid.

He is a director of Highlands County Farm Bureau, Sebring Golf Association, Highlands County Fair, is a member of the Highlands County Citrus Advisory Commission, of Sebring Firemen and of the Presbyterian Church.

He served five years in the U. S. Air Force as a pilot and was retired as a lieutenant colonel. Father of four, he and his wife, Jeanne live in Sebring Shores.

War rumors, both false and true, spread so fast that a "grapevine telegraph" seemed to be operating in every hamlet.

Devils Lose To Terriers 74-60 Saturday

The Moore Haven Terriers took a 74-60 basketball win from the Avon Park Red Devil varsity last Saturday night in spite of a 23 point effort by Devil Kenny Dixon. The loss left Avon Park with a 2-6 mark for the season.

The Devil "B" squad held on to its undefeated status with a 55-41 victory over the Moore Haven jayvee team in the opening game.

This Saturday night, Jan. 13, the two Devil squads travel to Okeechobee for games with the Brahmans and then will be at home again next Tuesday night against the Hardee Wildcats of Wauchula.

Backing up Kenny Dixon's high of 23 points was Avon Park's Donald Strange with 21 counters in the loss last week. For Moore Haven five different boys hit in the double figures with Thomas Ivey topping the scoring for the winners with 19 points.

The two teams were deadlocked 13-13 at the end of the first period after Avon Park jumped off to a 5-0 lead as the game started. Then Moore Haven moved out front 34-29 at half-time and stayed out of reach the remainder of the game.

In the jayvee game Joe Hardy with 14 points, Dec Sisemore with 14, and Clyde Sumbry with 13 paced the Avon Park team to its seventh straight win of the season. The Devil "B" team had previously defeated the Moore Haven jayvee squad by a score of 45-23 in the season opener.

Mrs. W. Cribb Will Head Scout Drive

Mrs. Wayne Cribb has been named chairman of the two Girl Scout Fund Drive for the Avon Park area. This drive which is now in the planning stages is slated to begin the week of January 22.

Mrs. Cribb has served this community in many ways through the years. She has been active in the Junior Woman's Club, having held the office of president as well as that of secretary and vice president at various times. She has helped organize the Mothers' March of Dimes successfully. She is active in the Florida Power Auxiliary serving it in the capacity of treasurer.

The Methodist Church and Avon Elementary School too claim much of Barbara's time. In addition to helping part time at her father's accounting firm she is the mother of three children, the oldest being a Brownie Scout.

Mrs. Billy Cooper will serve as Mrs. Cribb's assistant in this drive to fund the 1968 Girl Scout program. Mrs. Cooper was a Brownie Scout leader last year. She is active in the Beginner Dept. of the Florida Avenue Baptist Church and is a willing worker for Avon Elementary School. She too has a family of three children, one being a Brownie Scout.

These two busy young women are giving many hours organizing this fund drive, its goal having been set at $90. Mrs. Cribb says, "although this is a lot of money, we will be able to reach it. The benefits derived from the Girl Scout program cannot be counted in dollars and cents. If they could be, they would far surmount this sum."

Search For Citrus Queen Underway

The annual search for a beautiful and charming girl to become the 1968 Florida Citrus Queen has begun by the Florida Citrus Showcase which sponsors this contest as one of the highlights of Citrus Festival Week in Winter Haven February 16-24.

Invitations to potential sponsors along with colorful brochures containing rules and regulations about the contest have been mailed to all Chamber of Commerce, Jaycee clubs, colleges, universities and other organizations in Florida.

The winner will receive $1,000 in cash, a golden trophy emblematic of her coveted title and many other valuable prizes.

Venetian blinds are unknown in Venice. They were developed in France, during the 18th century, first advertised about 1760, and some were hanging in Independence Hall, Philadelphia, when Declaration of Independence was signed.

First Community Concert Will Be Held at APHS Auditorium

America's foremost one-piano, four-hand team, Weekley and Arganbright, will be the featured artists in the first concert of the Highlands Community Concert Association. It will be held Thursday, Jan. 18 in the Avon Park High School auditorium at 8 P.M.

Weekley and Arganbright are brilliant young American pianoduettists and have been winning acclaim throughout the United States and Europe. Their friendly, vivacious manner, appealing programs, and sensitive musicianship have endeared them to musicians and laymen alike.

They have been widely praised for reviving an important but neglected medium. A critic for the London "Times" wrote, "This young team ably and winningly demonstrated that the piano duet is a successful medium for the widest range of musical expression."

Though limiting their repertoire to original items for four hands at one piano, their program afforded both variety and substance in works classical, romantic, and contemporary."

Through tireless research here and abroad, they have discovered a great wealth of music by the master composers Schubert, Mendelssohn, Brahms, Liszt, etc., which was seldom, if ever, performed except as solo or two-piano arrangements.

Dallas Weekley and Nancy Arganbright husband and wife have appeared frequently on radio and television here and abroad. In additional to concertizing, they are in the process of editing the complete one-piano, four-hand compositions of Franz Schubert.

The membership drive for the Highlands Community Concert Association was held last Spring and was highly successful. Four concerts will be presented in this county, and membership in the Association entitles the member to attend the concerts in Lake Wales and Bartow also.

Veterans May Get Pension Increase

Although nearly 2,000,000 living veterans and widows and children of deceased veterans received automatic pension increases under the new Public Law 90-77, M. T. Dixon of the Florida Department of Veterans Affairs, estimates that there are more than 14,000 veterans and widows who cannot receive increased payments until they apply for them.

Until the Veterans Administration is contacted by, or on behalf of the veterans and widows scattered throughout the nation, it has no way of knowing who or where they are. Included in this group are certain veterans who have been receiving pensions because they have disabilities which cause them to be housebound but are not severe enough to qualify them for the higher aid and attendance pension payments.

Dixon estimates that some 10,000 veterans in this category may be eligible for the new pension rate of $100 a month instead of the $78.75 or $65.15 they currently receive. The VA is also seeking to locate more than 4,000 pensioned widows of war veterans, which includes the Korean and Viet Nam conflicts, as these widows, who are entitled to an additional $50 a month if they are in need of regular aid and attendance, or if they are patients in a nursing home. Veterans who are on the VA pension rolls are also entitled to an additional amount for aid and attendance allowances while in a nursing home, providing the VA is not paying for his care and keep at the private nursing home.

Attachment Is Sought Against Chick-N Treat

A petition for a writ of attachment against W. R. Cass, doing business as Chick-N-Treat, a division of Freezette, has been filed by A. B. Williams in circuit court.

According to the complaint, Cass leased the establishment August 10, 1964, for 10 years at $1,680 a year, and has paid no rent since January 1, 1967. The attachment is asked because of "fear he will remove personal chattels." A total of $3,699.30 is presently owed, it is claimed.

Chick-N-Treat is located on West Main Street in Avon Park.

Mrs. C. A. Clark Pioneer Resident Died Jan. 2

Mrs. Frances Clark, age 87, widow of the late Clarence A. Clark, passed away January 2, at a hospital in Arcadia.

She was born in Vinton, Iowa, and moved to Florida with her husband and five children, arriving in Avon Park on October 10, 1912 by ACL railroad, which had been operating since July 1912.

She was a member of the First Congregational Church.

In January 1914, the first telephone system was installed in Avon Park, and Mrs. Clark was the first telephone operator. She and Mr. Clark also operated a "home bakery" in the same building which was their home.

During April 1914, the town had an epedemic of typhoid fever. During this time, Mrs. Clark nursed the sick and helped wherever she was needed, as there were no doctors or nurses in Avon Park at that time. The year 1915 brought the late Dr. W. C. Touchton to town and she nursed as a practical nurse with him for 25 years. Affectionately known as "Clark,"

Mrs. C. A. Clark

she was loved by all who knew her.

She leaves to mourn her death, two daughters, Mrs. Raymond Utley and Mrs. Floyd Johnson, both of Avon Park; one son, O. B. Clark of New Orleans, La.; three grandchildren and five great-grandchildren.

Funeral services were held Friday morning at 10:30 A.M. at the Scott-Stephenson-Smith Funeral Home. Rev. Herbert D. Graetz officiated. She was laid to rest in Bougainvillea Cemetery.

Scott-Stephenson-Smith Funeral Home in charge of arrangements.

Redeemer To Have Annual Meeting Sunday

Dean Edward C. Furlong of Stetson University, will be the special guest speaker at the annual parish meeting of the Episcopal Church of the Redeemer in Avon Park, this Sunday, Jan. 14 at the covered dish supper.

He will show color slides of the new Episcopal College that will be built on Stetson's campus soon. This will be the first Episcopal College in the state of Florida.

All communicants of the parish are expected, visitors and guests will be welcome too. Each bring his own table service and a passing dish. Hotel people are urged to come, as their service can be provided at the parish house.

The supper will be at 6 P.M., followed by the reports of progress, election of vestrymen, plans for the future, and the exciting story of the Episcopal College at DeLand with Dean Furlong.

Also, next Sunday, at the 9:30 A.M. Eucharist, for families and the Church School, the new Trial Liturgy will be used for the first time. This is a changed form of the Lord's Supper, or Holy Communion. The parish has been preparing for this for the past several weeks of study and explanation.

On Sunday and Monday, Jan. 21-22, a preaching mission will be conducted at Redeemer by Father Dunstan of the Order of St. Francis. The Day Woman's Missionary Society of First Baptist Church held its January meeting on Tuesday, Jan. 9. Mrs. W. W. McFarland presided, and Mrs. Virgil Tondee, Jr., read the minutes and gave the report from the WMS Council.

Various reports of the work were given during the business session. Mrs. W. C. Touchton, stewardship chairman, reported that the Lottie Moon Christmas Offering for Foreign Missions had passed the goal and reached a total of $5,520.

The plans for the home mission study were presented by Mrs. I. H. Ford. A study of the book, "Trumpets in Dixie," by W. C. Field, will be held in connection with the Orange Blossom Associational School of Missions the week of February 12-16.

Mission Action activities for December included helping each Wednesday with activities at the Ridge Area Day School and contributions to the Community Baskets.

Special Projects chairman, Mrs. Harold Guerndt, asked for old sheets for bandages. Bandage rolling will be at the church social hall on January 16, beginning at 8:30 A.M.

Reports from all the circle meetings were given.

Vice president, Mrs. Charles Burton, checked on the number holding current leadership cards and also on the goals for the 75th anniversary.

Announcement was made of the International Smoking Test on Channel 8 TV on Tuesday night, Jan. 16. Tests will be available at the church on Sunday, Jan. 14 and all persons are urged to participate.

Sunbeam workers introduced were Mrs. Larry Albritton and Mrs. Bonnie McKenzie, workers with World Friends, the eight year old boys and girls.

Mrs. Nila Sherman was introduced as a new member, and Miss Sylvia McFarland and Miss Sally Green as visitors.

The program, "More Foreign Missionaries—NOW," with Mrs. Marshall Davis in charge, was given by members of the Jo Stover Circle. The need for more foreign missionaries was discussed by Mrs. Charles Burton, Mrs. W. B. Johnson, and Curtis English. A panel of three members, Mrs. Claire Stimson, Mrs. Webb Hazen, and Mrs. Edith Wever presented ways that other churches had used to become more missionary. At the close Mrs. English led an open discussion of what First Baptist Church could do to lead more people to become missionaries.

The missionaries from First Baptist Church were named and remembered in prayer. These missionaries are Rev. and Mrs. Sam Longbottom in Viet Nam, Rev. and Mrs. Gene Clark in Japan, and Rev. and Mrs. Charles Lawhon serving in the Philippines.

The session was closed with a prayer led by Mrs. T. P. Brown.

Card of Thanks

The Library Corner

I. ROBERTA—Elizabeth Gray Vining—1967.

Many of us read Windows for the Crown Prince, the first important book written by Elizabeth Gray Vining. This was the result of spending some time as the tutor for the Crown Prince of Japan shortly after the Second World War. She was selected from a roster of many different people by the Emperor to introduce the best of the Western culture to their oldest son. This was not a novel but a story, factual and fascinating.

I. Roberta—her latest—is a novel. "I went back into the parlor and she drank the water. Then she had me who she was and that Tony had died. I told her who I was. We were both Mrs. Anthony Morelli and it was the same man Tony is dead. He died a month ago. I was married to him and she had thought she was." So her writing began that April day in 1886 in a small New Jersey town. That day she discovered her husband was a bigamist in addition to a liar, a thief, and a deserter. But she loved Tony. This strange woman who called herself Mrs. Anthony Morelli demanded to be allowed to adopt Kent, Roberta's five year old son by Tony.

This experience began her introspection of all the events of her life and the family crisis that led ultimately to her decision on June 15.

This is a fascinating novel, moving at a brisk pace, involving you with Roberta in her emotional upheaval.

Bishop Confirms At Redeemer

Last Saturday the Rt. Rev. Williams L. Hargrave DD, Suffragan Bishop of the Episcopal Diocese of South Florida, confirmed the following persons: Mrs. John Taylor, Mr. and Mrs. Raymond H. Stokes, Ben B. Gartner, Jane Childs, Elizabeth Neeley, Dale DeHaven, Anne Fletcher, and Bonnie Fisher.

The services took place in San Ray and in the Church of the Redeemer, Avon Park, last Saturday, the Feast of the Epiphany.

Sunday following day, the Bishop celebrated the Holy Communion, members of the class were present to receive their first Communions in the Episcopal Church.

The Episcopal Churchwomen served a delightful breakfast afterward in the parish house. Then, the Bishop took off for a visitation at St. Wilfred's, Sarasota at their 11 A.M. service.

Rotary Report

Reported by Bob Gay
Wednesday, Jan. 3, 1968

Charlie Collins presented Doc Larsen to give us information relative Walker Memorial Hospital as it celebrates its 50th year in our community.

From the end of World War II in 1946, it became apparent that our town needed a hospital—many meetings resulted—Chamber of Commerce, City Council, Rotary Club, all of which agreed our greatest community need was for a hospital.

"Corky" Pardee arranged a meeting between representatives of the Adventist Church and Avon Park citizens representing the city, Chamber of Commerce and other businessmen. It was apparent that with $400,000 a minimal hospital for the area could be instituted. The church promised $250,000, leaving the city to raise $150,000.

According to Walter Betts, approximately 21 years ago Ralph Grasswell set up the fund raising campaign with results nearly as follows:

Avon Park	$60,000
Frostproof	5,500
Wauchula	5,500
Sebring	5,000
	$70,000

Lykes Brothers donated $5,000, Army Surplus purchases netted $10,000, Charles Walker $15,000 and about two-thirds of the goal was in sight leaving the last one-third or the hardest part to be raised. Ed Todd and Paul Garber raised $30,000 in memory of Charles Walker and smaller contributions of about $5,000 made a total of $125,000.

Local businessmen were able to borrow $14,000 from a Wauchula bank and the hospital was a reality. The local businessmen were never called upon to pay the note as the estate of Charles Walker paid it in full.

Dr. Larsen introduced Dr. Coleman—both of which were on the original staff.

January 6, 1948 was official dedication.

January 18, 1948 first patient admitted.

Dr. Wallace of Sebring was added to the staff and as other doctors moved to our communities the present staff of doctors consists of 12 members.

"Walker" has served approximately 40,000 patients since opening. Between 6,000 and 7,000 babies have been born in the hospital. Four years ago a new wing was added providing an additional 53 beds—the new wing provides new OB department, new x-ray department and most recently a new laboratory was added.

BILL COLLIER, laboratory technician shown with Pink Lady Grace Armstrong in the new blood collection chair, furnished by the Pink Ladies in 1967.

ANOTHER CONTRIBUTION made by the Pink Ladies of Walker Memorial Hospital is the reclining blood donor chair, with Mrs. Lois Walper in the chair, Ann Robbins, Mae Langman and George Walper look on.

The trophy was presented to the winners by Charles Robinson, Bartow, Lieutenant-Governor of Key Club District 10.

Volkswagen introduces the automatic stick shift.

After lo these many years our humble little bug has gone automatic.

Gone is the clutch.

Gone is the wifely whine, "It's cute, but I can't drive it."

Gone is an era of Volkswagendom. Sniff. And in its place?

A Volkswagen you can drive all over town without shifting.

Only on the highway do you shift.

Once. (This is an economy move. Which, after all, is still the name of the game.)

But you do have a choice in the matter: you can drive it the easy way (described above). Or you can start out in low and take it through the gears like a regular stick shift.

The automatic stick shift is an option you pay a little more.

But you do a little less.

MINI-MAXI look is achieved in this harem-style nightdress worn by model at a London fashion show. Elizabeth Hayes designed the outfit to double as leisure wear.

The Things We Say

By RUBY SHANNON

When a sweet young girl makes her appearance with her hair combed, clothes pressed and her make-up on straight, someone is apt to remark, "How pretty". You look like you have just stepped out of the bandbox."

The "bandbox" used in this case has nothing to do with a band that plays music.

In the 16th century, it was a popular fashion to wear a high collar which was called a band. Such bands were starched very stiff and kept immaculate by storing them in a box known as a "bandbox."

The smartly dressed young ladies had indeed been to the "bandbox" to get their stiff collars. The expression, "out of the bandbox," when first used then, had a literal meaning which meant just what it said.

Today, we still have bandboxes. Girls carry hats in them. They are usually round and are made out of material that is not very durable.

When a girl "looks like she has come straight out of the bandbox," it probably means she is freshly washed and dressed.

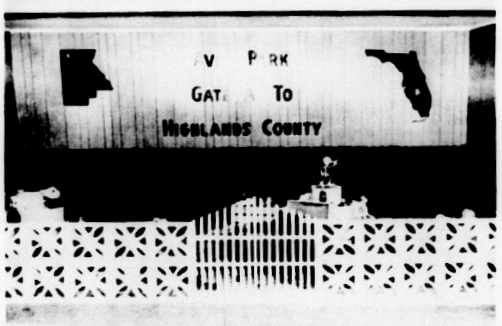
Highlands County Fair Opens To Large Crowd Despite Cold Weather



AVON PARK'S community booth won first prize this year at Highlands County Fair. The brightest of the three community booths, it was beautifully decorated with masses of pink azaleas and orange and golden fruit. This is the first time in some years that the Avon Park booth has taken first place.

What many consider to be Highlands County's biggest and best fair in history is off to a busy week despite unseasonable 41 degree weather opening night which cut slightly into the crowd.

However, over 800 persons braved themselves for the chill Monday and found the largest Midway in the fair's history, plus the first auto show, and some of the best commercial exhibits in years. Commercial space was completely sold out.

The fair continues through Saturday. Gates open daily at 1 P.M. and closing time is around midnight.

Again this year, the county's three cities had large and attractive booths. Avon Park's was adjudged the best with Lake Placid second and Sebring third.

"We have the finest exhibits this year and the most successful fair we have ever had," declared Fair Association President Russ Albritton, Jr. "There was a complete sellout on commercial exhibit space and the educational building is complete-ly filled. People have gone all out to put in exceptional displays.

"We believe that when the gates close Saturday night we will have had our most successful Highlands County fair in history."

The weatherman has promised it will warm up before the week-end, "and we hope he's right," said Albritton.

Feature attraction for opening night was the beauty contest with nine of the county's lovel-est girls competing for the crown of Miss Barbara Bailey, the reigning Miss Highlands County. The outdoor auditorium was overflowing with spectators as the girls in bathing suits smiled their way through goose-bumps and their appearance on stage. Queen Barbara sat on her palm decorated throne through the showing in a lea cut sleeve-less pink evening frock.

The evening gown contest is scheduled for 7:30 P.M. Friday at which time the new queen will be chosen. Judges are from Lake Wales.

Children jammed the fair-ground Tuesday and Wednes-day afternoons—free days for them. Judging of beef animals and the livestock showmanship contest were held Wednesday.

Most of the judging was com-pleted early in the week and the fat steer sale will be held at 3:30 P.M. Friday.

The auto show this year, George Crist in charge evoked much interest. Three antique cars were shown in addition to the brand new models. There was a Baby Overland, circa 1925, owned by Kenneth Grubb; 1906 and 1908 Cadillacs owned by Scott Smith.

New rides on the Midway, operated by Blue Grass Shows, were the Sky Wheel—the huge double ferris wheel—and the Sky Ride.

Bert Harris, agricultural su-perintendent expressed his pleas-ure at the "fine general overall appearance of the fair."

He declared the community booths are looking real good and we have a very nice looking commercial display, real class. And the educational build-ing looks real good."

He pointed out that a change in the routing of traffic has im-proved the fair. As it is now, the public arrives at the Midway from the back of the auto show building. The traffic flow is di-rected so that visitors pass all booths.

"I think really it is much im-proved from last year," he said.

Gene Sauls, taking tickets, noted that the 800 opening night figure was only about 60 less than last year's opening night attendance when the weather was much warmer.

Panthers Meet Manatee Jr. College Friday Night at Avon Park Gym

Friday night at the Avon Park High School Gym, the South Florida Junior College will meet Manatee Junior College in an important conference clash.

ROBERT SKIPPER

The Panthers were scheduled to meet Orlando in a conference game in Orlando Wednesday. Prior to the Orlando game, the Panthers were sporting a 3-2 conference record. Therefore a win over Orlando and Manatee is essential to keeping the Panther hopes alive for a share of the conference title.

The game will begin at 7:30 to allow the student body time for a homecoming dance after the game.

Monday night the Panthers will tangle with high scoring Indian River Junior College of Ft. Pierce at Hardee High Gym in Wauchula. The Indian River team is averaging 114 points per game.

The Panthers have had difficulty in having all boys present at one time all year. Last Thursday was no exception as Thomas Williams, Panther's center, had car trouble and failed to meet the team for their game with Polk in Winter Haven.

Polk won a very close game 80-73 with the Panthers leading most of the way and giving up the lead when two starters fouled out.

Skipper Gaus, hit the basket for 29 points. Kitchens had 10 and Gale 12. The Panthers lost Gale on fouls mid-way the third quarter.

Robert Skipper Will Seek Commission Seat

The race for the county com-mission seat of retiring commis-sion chairman Carl McIntyre turned into a three-cornered one this week, with announcement from rancher Robert Skipper, 45, that he'll run.

Skipper is a cousin of County Commissioner Cecil Skipper. He lives South of Sebring on the Jesse Vaughn farm which he has owned the past three years.

Born a mile and a half from his present home, Skipper has lived in this county most of his life. For two years he lived and worked on the Rex Beach ranch at Avon Park and for 15 years was a sales and installation man for Sebring Welding and Tank Company. He attended Hardee County schools.

He has had a wide range of business experience, and pres-ently is in the citrus and cattle business. He and his wife, Mae, and their four children attend Crewsville Baptist Church. The children, Leta, Wendell., Kelvin and Caroline attend Sebring schools.

Another Rabies Clinic Set For Saturday

One hundred and sixteen dogs and cats were innoculated at the afternoon rabies clinic in Avon Park last Saturday, Jan. 13.

Judging from the number of animals in this area, this is only about 10 per cent.

The next clinic will be held at the five stations in Sebring and Avon Park next Saturday, Jan. 20. Hours from 9 A.M. to 12 noon and 2 P.M. to 3 P.M. This will be the last chance of getting rabies shots at the special price of $2. Veterinarians cost is $3.

After January 20, dogs and cats without rabies shots and licenses will be subject to being impounded. To redeem an ani-mal will require payment of redemption fee of $4 plus $1 per day for board.

Football Banquet Friday Night

Avon Park High School Athele-tic Association president, J. T. Landress, announced this week that tickets are still available for the annual football banquet which will be held at the APCT dining room tomorrow night (Friday) at 7 P.M.

The tickets may be purchased at Leon's Sporting Goods or at Albritton's Barber Shop for the event which will honor all the players and cheerleaders on the varsity, "B" squad, and junior high football teams this past season.

Dean Lemler, popular Devil standout, will address the group of youngsters and fans with a talk on "What Football Has Meant To Me." Lemler has let-tered in football, basketball, and baseball at Avon Park.

Also on the program will be the presentation of four trophies to outstanding players on the 1967 varsity team. Awards will be made to the best offensive player, the best defensive play-er, the most improved player, and the best all-round player.

Red Devil fans are urged to be on hand Friday night to honor the boys and girls who represented Avon Park during the past football season.

Four Arrested Breaking Into Prescott's Liquor Store Here

Three men and a woman were taken to county jail in Sebring Sunday after Avon Park police said they caught them attempt-ing to break into and enter Pres-cott's Liquor Store on U. S. 27 early Sunday.

Sgt. Wayne Bass and Officer Denby Jackson surprised them during a routine patrol. They were identified as Curmel Nun-nery, 56, of Bowling Green, Herschel Cameron, 31, and Jack Cameron of Winter Hav-en and Clara M. Rice, 61, of Bowling Green. Officers said Mrs. Rice was sitting in the car and one of the men was on the floor of the back seat of the sta-tion wagon parked outside the liquor store.

The four appeared before County Judge Mervin Behrer Monday and were bound over for further investigation. They are held in county jail.

Win Tourney

Howard Miner and Frank Love were winners of the Class "A" blind partners tournament held Saturday at the Avon Park Golf Course.

The tournament was based on the best ball with one-half com-bined handicaps.

Class "B" winners were Larry Pickett and Dr. Richard Martin (Gladys Cuppett had a good round of 93. Terry Akin was back on her game with an 84.

COUNTY GETS MONEY BACK

Money being returned to High-lands County for cigaret tax collections during the month of November totaled $15,049.50. Of this $7,269.05 went to Sebring, $5,922.86 to Avon Park and $1,857.59 to Lake Placid. A to-tal of $97,252.12, was turned back to the cities thus far for fiscal 1967.

Franklin Bollen Charged With Embezzlement

Franklin D. Bollen of Lake-land, formerly of Sebring, has been arrested and charged with embezzlement on complaint of Jimmy Yarbrough of Lakeland.

According to the complaint, filed in the office of County Judge Mervin Behrer, Mr. Bol-len was relieving the Sebring man usually on the Mutual Wholesale truck and collected $1,140. from Inmate Canteen, Avon Park.

The complaint further states he went to Avon Citrus Bank, cashed a check and they gave him a cashier's check for $1,000. The complaint further states he was working for Mutual Whole-sale and did not turn in any money to the firm.

Avon Park To Host Music Festival

The Church Music Festival of the Orange Blossom Baptist As-sociation will be held in the First Baptist Church of Avon Park Friday, Jan. 19 at 7:30 P.M.

The festival is for choirs of all ages. At press time there were choirs registered from First Baptist Church, Sebring; First Baptist Church, Wauchula; and First Baptist Church, Avon Park. Choirs from other church-es in the association are ex-pected.

The purpose of the church music festival, as promoted by the music department of the Florida Baptist Convention, is to inspire the churches to im-prove their music ministry in all phases of choral, instrumental, and conducting.

The festival is under the direc-tion of Otis C. Strickler, associa-tional music director. The public is invited to attend the festival and hear these choirs sing.

Rev. Aden D. Childress is pastor of the host church.

Ted J. Ward Heads Avon Park Realtors

The Avon Park Board of Real-tors got off to a good start when the 1968 officers were installed during a banquet, Monday, Jan. 15, at Lakeland Civic auditori-um.

Newly elected officers from all of the eight boards in FAR Dis-trict 10 were installed by David Nussbaum, president of the Florida Association of Realtors. He was just installed in Orlando Saturday night at a state con-vention and this was his first official ceremony.

Officers of the Avon Park board are Ted J. Ward, presi-dent; Robert R. King, vice presi-dent; and Malcolm K. Crews, secretary-treasurer. Other direc-tors are Louis C. Hooper and Hubbard K. Biggs.

President Ward is a past vice president of the Florida Association of Realtors and is currently serving on its policy committee and the state educa-tion committee. Mr. Biggs is on the FAR rules and by-laws com-mittee and Mr. King is on the legislative committee.

President David Nussbaum, a Jacksonville realtor, has been active in state, national and local affairs of real estate since he began his career in 1934. He is a former district vice presi-dent and a former president of the Jacksonville Board of Realtors.

He has been especially active in the field of property manage-ment. He is well qualified to furnish the leadership for the fast growing, powerful Florida Association of Realtors and its 70 member boards.

Attending the Lakeland meet-ing were Mr. and Mrs. Ted J. Ward, Mr. and Mrs. Hubbard K. Biggs, Mr. and Mrs. Robert R. King and daughter, Mrs. Mary Sullivan.

Councilman Found Guilty Of Assault

Avon Park City Councilman Wayne Albright was found guil-ty by a Circuit Court jury of aggravated assault by threaten-ing James K. Cobb with a pistol in the Avon Park Fire Station.

Circuit Court Judge Clifton Kelly, on Thursday, sentenced him to $500 or six months in jail. His attorneys were given 10 days in which to appeal the verdict.

In other cases heard at this session of court, James Wright, accused of larceny of an auto-mobile, was found guilty by a jury and David Wayne Smith pleaded guilty to larceny of an automobile. A Simca belonging to E. R. Johnson of Avon Park, reported missing, was found in an orange grove and linked to the pair. Bloodhounds led of-ficers to Wright and a Mustang which had been partially stripped.

Judge Kelly ordered a pre-sentence investigation for Wright and put Smith on proba-tion for five years, providing he pay half of the costs of restitu-tion, $614, and pay $200 into the jail fine and forfeiture fund.

Charlie Williams, of Lake Placid, accused of striking James Haynes of Lake Placid with a masonry block and tak-ing money, pleaded guilty to aggravated assault and assault and battery. No bond was set and a pre-sentence investigation was ordered.

James Barbee, accused of burglary by breaking and enter-ing, pleaded guilty and was sen-tenced to five years at hard labor, the sentence to run con-currently with a sentence he now is serving from Okeechobee County.

Bill Spencer Sanders and Cecil Wayne Evans, charged with burglary by breaking and en-tering, including a theft of liquor from Prescott Package store, pleaded guilty and a pre-sen-tence investigation was ordered.

James Moss, accused of ag-gravated assault and violation of probation by larceny of an automobile, was warned and re-leased.

Cornealous Warren was sen-tenced to 10 years in prison on his plea of guilty to robbery, grand larceny and burglary by breaking and entering, with credit to be given for time served on a former sentence.

Death in Five Days

Under a county-wide new policy which should whittle down mounting complaints of dogs running loose, dogs without license tags will be picked up and put in Pinehaven animal shelter, the county's dog pound.

There, if they are not claimed by their owners or adopted out in five days, they will be put to sleep. Forever.

This is the way it is in many cities, the big, the heartless cities. But somehow, five days does not seem like enough of a chance for an animal who has in most cases been somebody's pet, has given his love and been loved in return. Ten days would seem to give a helpless animal a better chance at adoption or of being found by his folks. How much more will five extra days of life cost the county?

In an attempt to get dogs and cats and people together, we wonder if organized tours to Pinehaven could not be promoted among clubs. Somebody on one of those tours might just see the pet he or she has been seeking.

Perhaps some regular means of apprising the public of pets on hand could be worked out.

LEWIS LLEWELLYN

Time of Infinite Dangers And Infinite Possibilities

This bids fair to be a momentous year.

With both parties' political conventions scheduled, when presidential candidates will be chosen, with so-called "civil rights" leaders proposing to disrupt the functioning of some of our major cities, and with a former pastor, former congressman, now turned lecturer and rabble-rouser, talking about "a second civil war—the black revolution," the probabilities are that this year will go down in history as one of the most fateful years in the life of our country.

Add to the matters mentioned above the war in Viet Nam and the urgency of the fight to save the dollar from going the way of the British pound, and you have a prescription for eventual disaster if right courses are not pursued.

Yet, for you and me, there is one matter which transcends all of this in importance, for it directly affects us personally and in a way which determines our entire future.

Heart of the Matter

This is the matter to which Dr. Charles Malik of Lebanon, internationally renowned statesman who was president of the General Assembly of the United Nations in 1960, referred when he said:

"It is perfectly clear that we could save nobody and nothing if we are not first sure of ourselves. . . . Nothing, therefore, is more necessary than to arouse responsible Christians from their lethargy and slumber into the infinite danger and infinite possibilities of the moment.

"The heart of the matter," continued the great statesman and world leader, "is faith in Jesus Christ. Do we believe in Him as passionately as others . . . such as the Communists . . . believe in their own ideas and systems?

"If those who profess to believe in Christ and who are in positions of power and responsibility would act in accordance with His principles, the world would be changed.

"But let us not criticize those who are in authority in our nation, our state, or our city, when they fail to follow in the steps of the Master, if we have not ourselves committed our lives to Him.

Personal Destiny

Whatever the course of the nation and the world, our own personal destinies are settled on the basis of our decision to follow Christ or to walk in some other way.

The Bible says, "He that believeth on the Son hath everlasting life. And he that believeth not the Son shall not see life, but the wrath of God abideth on him."

If you are trusting in Him, you can walk safely through a stricken world. And you will be doing your part to change the world. It may be a small part, but, if each of us does his part—great or small—the cumulative results will be surprisingly effective.

"It is better to light a candle than to curse the darkness."

If you have not already taken your stand on the side of Christ, will you do so now?

BABSON'S POINT OF VIEW

More Crises Believed in Store for 1968

...son Park, Mass., January 18. Most observers of the political, economic, and sociological scene are convinced that 1968 will be a year of recurring crises for our nation. What are the difficulties most likely to be encountered and how best can you preserve—or extend—your prosperity this year?

How Much More Inflation?

The Federal Reserve still has not really tightened up on money yet. With cash supplies still large by most past criteria, with continued heavy government spending for both defense and non-defense items and programs, and with the prospect of expanding activity in the automobile industry over coming months, business should be on the rise through much if not all of the first half. But, on the whole, it will be a very high cost boom. In other words, profits will not be commensurate with the increase in volume turnover.

Chances are the economy will start to "overheat" . . . after which you may expect the Federal Reserve, the President, and Congress to take bolder measures to cool it off. When the flood of money is at length dammed . . . when the President imposes selected domestic economic controls . . . when the Congress cuts budget deficits and perhaps enacts higher taxes . . . how will you and your business fare? Will you be in a position to take what comes . . . to ride through the ups and downs that lie ahead?

Manpower and Labor

Whether you are an employer or an employee, developments in manpower and labor will have some effect on your economic situation this year. At least in the forepart of the year, skilled labor will continue to be in good demand . . . while the need will intensify for scientists and specialists. However, there is no shortage of unskilled labor.

Look for a further spiraling of wages during the first six months of 1968 . . . spurred by the recent handsome settlements in the auto industry, expanding living costs, and next month's boost in the minimum wage. All in all, the pressure of wages on over-all costs in manufacturing and service businesses will be keenly felt.

Mend Your Fences

Cost-control will be more important than ever to you as an employer this year. You may have only limited success in bucking the higher price tags on borrowing capital funds. You can't buck the mandatory boost in the minimum wage. But you can exercise a tighter control over your operations with respect to cutting unit costs and to increasing the productivity of your employees . . . for your benefit and theirs.

And if you are working for someone else (and this goes double if you are an unskilled worker!), you ought to remember that your employer has a considerable investment in you and that he pays out a good deal more for you than the wages you receive in your pay envelope. Look about for ways to improve your performance so as to make your work more meaningful and more profitable to you and your employer. Mend your fences, or you may be among those laid off when labor cutbacks become necessary.

Hold on to That Nest Egg

No matter whether you own your business, work for someone else, are a student, or are retired, hold something in reserve for a rainy day. As other costs rise, so too will the cost of credit. Borrowing from tomorrow to pay for what you feel you must have today has become fashionable under the "new economics." But, it can be very risky business if you don't exercise a measure of self-control. In any event, it's costly . . . and you ought not to be paying heavy interest charges if you can possibly avoid them.

If—aside from your reserve for a rainy day—you do have funds to invest, be selective, be cautious, and be patient. Don't jump at any opportunity without investigating its prospects. And remember that if the economy does turn down later this year, cash may well be your best friend.

Health Officer Urges Support Of Control Plan

Editor News:

The Highlands County Health Department appreciates the action taken by the county commissioners and the governing bodies of Avon Park, Sebring and Lake Placid in sponsoring a control program for pets in the county.

We feel, in the Health Department, that these progressive bodies are really doing an important project for the protection of the health of the people of the county in insuring an adequate prevension of rabies in the county.

We urge the support of all of the citizens of the county in helping the warden and elected officials protect all of us against a disease for which there is no known cure.

Endorsement of Animal Control

IT'S ABOUT TIME THAT THAT THIS COUNTY CLAMP DOWN . . . was the oft repeated statement heard at the rabies clinics held last Saturday in Sebring, Avon Park and Lake Placid.

Over five hundred pet owners came forward to have their pets innoculated against rabies and secure a license.

Someone in one of the lines started to complain and several people angrily turned on this person with questions such as:

"Would you want to be responsible for the fatal affects of a bite from a rabid animal?"

"Do you know that strays are running around killing live stock and the next could be your kids"

"If your garbage can dumped over regularly, your lawn and garden dug up when you are trying to have something nice?"

Girl Scout Kick-off Fund Drive Monday

The day designated for the 1968 Girl Scout Fund Drive, in the Avon Park area, will be Monday, Jan. 22, announced by Mrs. Wayne Cribb, chairman.

Approximately 20 women, for the most part mothers of Girl Scouts, have been drafted to solicit funds for this drive. The goal has been set at $990.00 and Mrs. Cribb and her co-chairman Mrs. Billy Cooper, are hopeful that this amount will be reached Monday afternoon.

The Heart of Florida Council reports that there are nine Girl Scout troops in the Avon Park area, three of which have been registered since the first of the year.

Approximately 225 girls benefit from the Girl Scout program here and it is open to any girl who would like to join. There are 42 adults who are registered and who are working to bring the best of scouting to the girls.

Mrs. Cribb reports that on Monday, Jan. 22, mothers recruited to work on this drive, will personally call on citizens and businesses throughout the Avon Park area. A few will be contacted by letter. She hopes that people will think, as they dig deep into their pockets, about the wholesome influence of Scouting for young girls in this day and time, when adults in general are worried about their young people.

Through the Scout council, camp sites are maintained, camping and boating equipment are available, training for troop leaders is given, and professional Girl Scout workers are called on to help with problems that arise.

With all these things in mind, it is hoped that the response of Avon Park will be generous. Our Scouts need your help.

Medical Society Meet At Elks Club

The Woman's Auxiliary to the Highlands County Medical Society held its monthly meeting Monday evening at the dinner hour at the Elk's Clubhouse in Sebring.

Mrs. Pat King and Thel Hartwell were in charge of dinner table decorations. A birthday theme was carried out in table length paper streamers bearing the words, "Happy Birthday." A candelabra at the speakers table holding eight candles signified the eight years the Highlands County Medical Society has been organized.

After dinner, the group separated, the doctors and their wives respectively, to call their business meetings to order.

Mrs. Blanche Ost, president, conducted the ladies brief business session of the evening, then the members visited the county society's booth at the Highlands County Fair. Mrs. Mark Ostling and Jessy Coleman were in charge of setting up the exhibit.

The public is cordially invited to visit the auxiliary exhibit to avail themselves of the information and literature offered there.

Meeting adjourned at 10 P.M.

Those in attendance: Lake Placid—Lisa Eisenbarth and Kathleen Tylar.

Sebring—Anna Mary Botts, Ligia Johnson.

Avon Park — Betsy Coleman, Pat King, Thel Hartwell, Irene Osborn, Blanche Ost and Mark Ostling.

Rambling Thoughts

By O. L. SHOBE

CROP JUST ABOUT READY TO HARVEST

The old saying, "As ye sow, ye shall also reap," is just as plain as the nose on the mastodon's face, and a lot of politicians, especially the Union Labor kind, are right now beginning to demonstrate so plainly that "he who runs may read." The futile efforts of our president, who is trying frantic efforts to "save the dollar," would be laughable if it were not so obtuse and destined to be so tragic. The value of the dollar can be laid right at the front door of result of Union Labor's stranglehold on the party now running the United States.

More misery, less work results in foreign nations overproducing us, the result more of our money goes abroad for foreign made goods. There is nothing that LBJ will do about it that he can do about it, if he wishes to be president again, and HE DOES.

The only way for us to "save the dollar" as the phrase is, is for us to work more hours and stop yelling for more money and less work. We have a world competing with us, and growing more and more pleased to see us in difficulties with our "dollar" to be sure, we saved a lot of the during "war's dread alarm," but the long, fierce battle between wars bedims the fact that we came to their rescue when in trouble.

That is water gone under the bridge, and you Americans are facing a war of peaceful struggle that means bread and butter and do the best you can. Uncle Sam, just like we are doing." This is the attitude of France and the majority of the others, and so reads the history of the past, even away back before it WAS written. Union Labor had better invest more money in books on history and political economy and less on stuffing ballot boxes and bullying members of our law-making bodies. It will pay labor more in the long run, as well as the rest of us.

VACATION MISERY

My face is burned a cherry red, too sore to cut my whiskers, likewise the bald spot on my head; my back is burned to blisters, my feet so cut by oyster shells I scarce can walk, beshrew me! My shoulders burn like seven hells where seashore sun got to me. No sleep comes near my humble cot as night hours drear go creeping, where I vainly seek out a spot where I can do some sleeping. The life that once was blithe and gay is now pure agravation, since wife ey wheedled me away upon a punk vacation.

I spent ten bucks to put a tire where one was looking shabby; ten dollars more a friend to hire to care for "watch" and "tabby;" a kopeck here, two eartweels there, another five-spot younder, enough to make one pall his hair and make his reason wander. Mosquitoes camped upon my frame, so thickly one could scrape 'em; the sandflies plied their wicked game, with no chance to escape 'em; the vermin where we had to sleep, were countless, fat and wealthy; the water smelled like rain-soaked sheep and eggs that were not healthy.

I think, as I sit by the fan upon my roasted hunkers, vacations may be just the plan for gay and frisky younkers; but when a guy who's turning gray imagines he'll be happy with half his hide all burned a way, it shows his brains are sappy. No more in bathing trunks I yearn with nifty mermaids playing, nor do I give a whoop to learn "what sad sea waves are saying." I listened once too oft, alack! to all this beach baloney. I know the skin comes off my back in strips like macaroni; my flesh is sore, my muscles bruised, my legs are lascerated, and gone some jack I could have used to have debts liquidated.

CRACKS, WISE AND OTHERWISE

A man owes it to himself to be successful; after that, he owes it to the Internal Revenue Department, who will send it to our deserving allies around the world.

"As we look down from our place in the balcony, we see a mass of faces on the ballroom floor, dancing arm in arm."—Cleveland, Ohio, Press. There is no language in the world more suitable for describing such remarkable vistas, is there?

WHO SAID THIS?

"The United States is the greatest purveyor of violence in the world today" Ans. Martin Luther King.

Who accused the United States of "cruel manipulation of the poor"? Ans. Martin Luther King.

Who said "The people of Viet Nam watch as we poison their water, as we kill a million acres of their crops"? Ans. Martin Luther King.

Who said "U. S. troops may have killed a million South Vietnamese civilians—mostly children"? Ans. Martin Luther King.

Who said that "American soldiers test out our latest weapons on the peasants of South Viet Nam, just as the Germans tested out their pesticides and new tortures in the concentration camps of Europe"? Ans. Martin Luther King.

Who picked Martin Luther King's lunatic words and broadcast them all over the world? Radio Moscow and Hanoi and every Communist method of broadcasting propaganda.

I appeal to all my patriotic friends of the colored race to write this man and tell him you are through with him! Think of the thousands of brave Negroes now fighting the Communists with a valor that has never been surpassed! Now many of them will die as a result of such idiotic talk!

This is the sap-head who pocketed thirty thousand bucks for his heroic efforts in the "cause of peace." He is the man who has done much to create the impression among millions that the Negro in the United States is aligned with the Communists for the destruction of the largest attempt of a people to form and maintain a government of the people, for the people and by the people. He is an insult to those brave black boys who are fighting for their native land. He should be "squelched" with a hard, vigorous "squelch."

HOGS MAKING MEN OUT OF THEMSELVES

I hesitate to put this story in print in this fine newspaper, first, because it is true; second, because it might stop some old sots from going on getting sottier until they accidently set fire to their breath when lighting a coffin-nail; thirdly, because everyone who reads this column there are untold thousands of em) are certain to get the idea that I am a confirmed liar. (I am one, but not "confirmed.") In this case, I am telling the truth.

One mile northeast from my farm in Kansas, there lived a family of Scots named Gordon. There was an apple orchard on the place 40 acres in extent, the biggest one in miles around, of which I knew anything. The Gordons also had a cider factory, machinery for making "applebutter," and—I hesitate to say it—sold hard cider on the sly. Kansas was legally dry, and the law was fairly well enforced, due to the activities of the famous Carrie Nation, the lady who used the hatchet on all the "joints" that sold booze, until hundreds of women all over Kansas followed her example until the semi-somnolent law got scared and clamped down on the traffic.

All the apple "pumice," (the carved up apples with the juice squashed out of them) were dumped out inside the apple orchard, and the practice actually made topers out of at least 150 hogs. The lady hogs were as bad as the gents, too, after an "apple-jag." Carrie Nation's example had no effect on the mother hogs whatsoever. Now, if you want to "die laffing," get a bunch of hogs soused, and, believe me, you'll laugh until the cows come home.

After the "squashed" apple laid out in the sun and got wet, alcohol would form and it didn't take the hogs long to discover there was some sort of "balm in gilead" to soothe the weary porcine heart. There is nothing on earth any funnier than a herd of hogs on of fullgrown jag. And, there is nothing any more disgusting than a bunch of drunken ladies.(?)

"The panties at the City Hall park are at their prettiest now."—Jackson, Mo., Pioneer. Musta been a wash-out on the fence.

New Year's Resolution 1968

We're starting just now on a bright new year,
I resolve not to waste one week.
It matters so much what I say or hear;
It may hinder the goal I seek.

The year that has passed will return no more
And I wish for this year success;
I will watch my steps till the year is o'er
And only do that which will bless.

I will use my time and will not forget
To dispense both justice and cheer.
I will strive each day till the sun has set
To make this an excellent year.

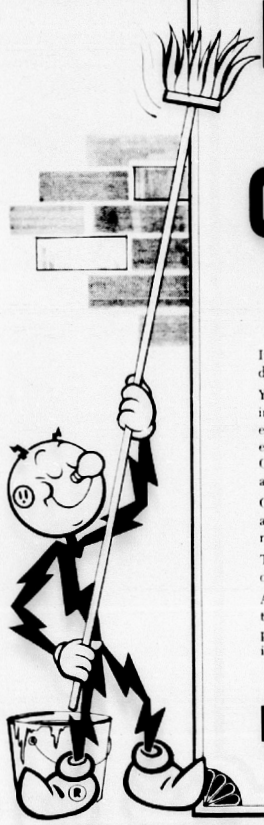
ELECTRIC PRICES GO DOWN AGAIN!



It seems as if everything is going up in price these days, EXCEPT electricity.

Your increased use of electricity year-round, and our investment in larger and more efficient facilities and equipment, are the major reasons we can offset the effects of inflation and reduce the cost of electricity. Otherwise, electric costs would have to go up because almost everything we buy has gone up in price.

Our new billing schedule, effective January 1, 1968, applies to both residential and non-residential customers, who will save about one million dollars annually.

This is the fourth reduction we have made in the price of electricity in six years.

All of us at Florida Power are very pleased to be able to share the fruits of improved efficiency with the people we serve. Bringing you the finest electric service at the lowest possible price is our continuing aim.

Hoods Names Four Men To New Top Post

Hood Industries, Inc. has named four executives to new positions, it was announced today by John M. Hood, company president.

D. P. Smith was named to the post of sales manager of the company's subsidiary, Hood's Dairy, in Petersburg.

Dayton W. Hughes, former retail sales manager of the St. Petersburg office, was appointed director of sales training and safety for Hood Industries.

William J. Jacobs assumed the post of sales manager, St. Petersburg office.

W. F. Walsh was named manager of the company's Clearwater branch.

Hood's operates two milk companies serving West Central Florida. One of their plants and offices is in Avon Park.

BECKY TOMEK and Myrna Denny, outstanding soloists with the Avon Park High School chorus, who were selected to represent the chorus at Daytona Beach last week, winning high honors.

Becky Tomek and Myrna Denny Represent Chorus at State Clinic

On January 11, 12, 13 the Avon Park High School Chorus was represented at the 24th annual Florida Music Educators Association All-State Chorus, Daytona Beach, by Miss Becky Tomek who sings first alto and Miss Myrna Denny who sings first soprano.

In order for these girls to attend this clinic they had to go to Sarasota on December 4, and audition before some of the District VI judges.

These two girls passed their audition with flying colors, by having to sing six pieces of music they had been working on outside of school. Two of the numbers were written in Latin.

On Thursday, Friday and Saturday they attended rehersals under the direction of this year's clinician, Morris D. Hayes, Wisconsin State University. This man did a splendid job with the 600 voice senior high chorus.

The program took place on a Saturday night at the Jai Alai Fronton Daytona Beach to a packed auditorium.

The number of students that took part in all the groups this year outnumbered more than 1,000. These groups were: Junior High School Concert Orchestra, Dr. Lee Christman, conductor; Junior High School Concert Chorus (400 students), Vito Mason, conductor; Junior High School Band, Dr. Gale Sperry, conductor.

Senior High School Concert Orchestra, Dr. Walter Eisenberg, conductor. Senior High School Concert Chorus, Morris D. Hayes, conductor, and Senior High School Concert Band, Dr. Gene A. Brought, conductor.

These clinicians came from the Universities of Wisconsin, Boston, Oklahoma, and Florida.

I wish it were possible for all the people of Avon Park and the State of Florida to experience this great event in the lives of these young people. Maybe some day you will have an opportunity to attend one of these concerts, if you do, take advantage of it and go.

Dessert will be served before the party with prices for each table and a door prize for each party. For reservations, phone Mrs. Harry Baker, GL 3-6284. Donation $1.

The next meeting will be held February 14, 10 A.M. in the Parish House. Mrs. Connell is in charge of the program, which will be "Intercessions and Petitions."

Rinald and Christman to Present Concert Saturday, January 27

St. Francis Episcopal Church of Lake Placid will present two great new faces on the musical scene, Rinald and Christman, in a concert Saturday night, Jan. 27, at the Sebring High School auditorium at 8 P.M.

David H. Rinald, baritone, spent his boyhood near Lake Placid at the Archbold Biological Station.

He is the son of Helen (Mrs. Frank) Rinald and the late Mr. Rinald. He attended the Lake Placid School, Indian Springs School in Alabama, and received BA and MS degrees from the University of Pennsylvania.

He is chairman of the music department at Friends' Select School in Philadelphia, and organist and choirmaster at St. John's Church in Camden, N. J.

Mr. Rinald has been heard as a soloist at the Church of the Advent, Birmingham, Ala., at the University of Pennsylvania with its choral society and orchestra, and most recently with Mrs. Christman in Philadelphia's Mozart Society and other Eastern cities.

Pianist Susan Christman is a native of Santa Barbara, Calif., having lived in Houston, New Haven, Minneapolis, and San Francisco. She received a BA degree from Carleton College in Northfield, Minn., in 1965, where she was the pupil of William E. Nelson.

In addition to her music, she finds time to be a caseworker for the Pennsylvania Department of public welfare. She is married to Webster Christman, historian, and urban missioner for the Episcopal Diocese of Pennsylvania. She has concertized extensively in Minnesota and Connecticut.

Rinald and Christman specialize in performing arrangements of songs of many countries and historical periods. The concert will include an aria from Handel's Messiah; songs by Schubert, Schumann, Wolf, Richard Strauss, and the French romantic composer Gabriel Faure.

Featured will be the works of two American composers, Charles Ives and Stephen Collins Foster. Mrs. Christman will play Debussy's "La Soiree dans Grenade" and "Prelude" from Suite pour le piano. The concert will end with music from familiar musical comedies.

Tickets are priced at $1.50 and 25c for the benefit of St. Francis Episcopal Church.

BATTLE IN FOREST

There is a never ending fight in the forest for moisture, nutrients, and sunlight. And often as not, the victor is an undesirable weed tree which crowds out a valuable slash pine. In scrub oak for instance, newly planted pine seedlings wouldn't have a chance if forest management didn't provide an equalizer such as pre-plant site preparation or chemical herbicides to reduce unwanted competitive growth.

Devils Face Green Dragons Saturday

The Red Devil varsity basketball team dropped two more losses to Okeechobee and Wauchula last week to sink to a dismal 2-10 record for the season and the Avon Park "B" team suffered its first loss of the year to an unimpressive Okeechobee jayvee squad last Saturday night. The Devil "Bees" hopped back on the winning trail last Tuesday night, however, with a 49-41 victory over Hardee High's "B" team. The "B" squad is now 8-1 with eight games left on the schedule.

Both Devil teams will be idle this Friday night but will host the Lake Placid Green Dragons here at the high school gym Saturday night starting at 6:30. It will be the first meeting of the season between the two Highlands County schools. The Dragons are having trouble with winning also this season so the bout should be a fairly even one. Next Tuesday night the two Avon Park teams travel to Frostproof for return bouts with the Bulldogs.

The Devil "B" team ran into all kinds of trouble last Saturday night in Okeechobee when they lost the first game of the year. The Avon Park team had 4 technical fouls called during the hectic game which finally saw two opposing players ejected from the game as tempers flared. Don Sisemore led the losing effort with 19 points and Clyde Sumbry pumped in 15 points to take second high scoring honors while Okeechobee's Williams scored 26 points and Mobley and Sage had 15 each as the young Brahmans won their first game of the season and spoiled the jayvee Devils perfect record.

The Avon Park "B" squad bounced right back last Tuesday night and outlasted the Wauchula jayvee team 49-41 with Joe Hardy and Clyde Sumbry hitting for 12 points each and Sisemore and Willie Joe Seigler scoring 11 and 10 each. Sumbry had 10 rebounds and Clark Jackson turned in one of his better performances scoring 2 points and pulling in 6 offensive and defensive rebounds.

In Okeechobee Kenny Dixon led the Avon Park varsity scorers with 17 points followed by Don Strange with 15 as the Brahmans took a 66-56 victory from the Red Devils. Four Brahman players hit in the double figures to pace the win.

Last Tuesday night Wauchula made it three straight wins over Avon Park's varsity with an 82-56 win as the tall Hardee High boys proved too sharp for the Devil efforts. Bill Knapp scored 22 points for Avon Park but Pete Maravich took top honors for the game scoring 25 for the winning Wildcats.

March of Dimes

Carolyn Tomlinson, city chairman for the March of Dimes, which will be held Tuesday evening, Jan. 30, has finalized her plans for the march, but she will need more workers. The Junior Woman's Club will canvass the city for this worthy cause, along with all women's clubs throughout the nation.

The junior women will meet at the club house before the drive.

Rotary Report

Reported by Father Knapp

Last week one of the most beautiful as well as inspiring programs was brought to us and introduced by George Walper, January chairman. It was made possible because of the 20th anniversary of Walker Memorial Hospital celebration.

Brought here by the Public Relations Director for the Southern Union Conference of Seventh-day Adventists, Oscar Heinrich, it displayed a totally new technique of audio-visual presentation. The story it told was of the attractions of Southeastern United States and geared to attract student graduates from California, yet, to work in the Adventist assignments in this area.

It seems that the great Adventist University, Loma Linda, is located in California, and most of the students elect to stay in that state upon graduation. So, the Public Relations Office of this Southeastern area decided to produce a unique color slide story with sound, to show in California selling our beautiful country.

The new technique consisted in using three slide projectors coordinated and synchronized with a tape recorder. The resulting impression is something like Cinorama, or, at least, wide screen pictures. These screens are used, but not all of the three show the same picture every time the scene shifts.

The narration as well as the music was superb. All of the best spots in the Southeast were covered — mountains, southern mansion, woods, seashore, tropical beaches, etc . . . and historical sites.

George is to be complimented on bringing us such a fine program!

THE BIBLE SPEAKS TO YOU

What's a home made of? Walls, rugs furniture, appliances? Or, is there something deeper to the idea? Listen January 21, W.J.C.M., 9 A.M., to "What Makes a House a Home."

The Library Corner

The Instrument was written by John O'Hara in 1967 who is remembered for all least two of his former novels, Butterfield 8 and Ten North Frederick Street.

Robert Yancey Yank Lucas, the main character of John O'Hara's latest novel, is a playwright, a talented young man dedicated to his writing and driven by it. The story opens with his conquest of Broadway picturing the inner workings of the theatre — the complicated machinery of the production and launching of a major play—and the personalities involved who must combine to make it succeed.

When success comes, it does not satisfy Yank Lucas. Years of preparation and sacrifice have come to a climax with this successful production. Now it seems so easy it has lost its flavor for Yank. He literally walks away from it and his leading lady who loves and needs him.

Without design—purely haphazardly he settles in a little town in Vermont. He becomes identified with the new people. In this surrounding he writes his new play and leaves. This new environment has served his purpose. We have become aware of his complex character.

15 January 1968

To Independent Voters of Highlands County:

With the election of Claude Kirk as Governor, the two party system became a reality in Florida.

We must now consider if this new approach to Florida problems is to be consolidated and improved.

If you believe in Republican Principles, but are still registered as a Democrat or as an Independent, now is the time to stand up and be counted. Change your registration.

The Republican Party believes in making all possible governmental decisions on the local level, instead of looking to Washington for guidance in all we do.

We solicit your vote and your financial help; and right now we need your name listed among those straight thinking Americans who favor the free enterprise system.

Many of us who are now registered Republicans, were formerly registered as Democrats. As Ronald Reagan said, "We didn't leave the Party -- It left us."

Come with us and join the parade to the Highlands County Court House Annex -- Reregister Republican.

Sincerely,

W. J. Atkinson
