Council Retracts Airport Hanger Bid Wednesday

At a special meeting Wednesday, Dixie Industrial Sales released the Avon Park City Council from the bid award on the airport hanger which was made Monday night.

The Council then awarded the contract to the Graves Company of Kissimmee who was low bidder.

Dixie Industrial Sales price for the new hanger was \$27,360 and the Graves Company \$25,457. Both bids were revised from the originals in which four other Companies bid for the contract, after the council decided to make changes in the design.

Mayor Jimmie Doers criticized the board for spending taxpayers money on the highest bid.

The new hanger will be built 300 feet north of the center line of the east-west runway.

The old hanger will be converted into a fiberglass boat plant.

3,000 Acres Burn In Eight Days

Nearly 3,000 acres have been burned over by muck fires in Highlands county during the past eight days, as the fire at Marion Henry Bay near the airport developed into the county's biggest.

This fire with its 1,500 scorched and smoldering acres is one of those which has invaded Sebring with its smoke and acrid odor. Another muck fire just south and west has also contributed to local discomfort.

A total of 11 fires now is burning in the county, County Ranger Roy Williams said. Governor Claude Kirk last week asked Highlands to the counties on which a "no burning" ban has been imposed.

"We can not put out these muck fires — it will take a good drenching rain," said Williams. "The little sprinkles we have had are of no value at all."

The rangers, all working six days a week, can only continue to try to control the muck fires and keep them in the muck areas.

"The men are getting pretty tired," Williams said. "It usually is by midnight before we can call it a day."

He is in charge of the seven rangers in Highlands and four rangers in Glades County.

No Burning
Under the burning ban, it is unlawful for any person to set fire to any forest, grass, woods, wild land or marsh or build a campfire or bonfire or burn trash or any other material that may cause a forest, grass or woods fire and law enforcement officers are called upon to give full assistance in enforcing this statute.

There have been a total of 150 fires in the county this year thus far as compared to 122 for the same period last year and a total of 5,822 acres have been burned over.

Florida's worst drought in a quarter of a century was continuing with no relief in sight.

Sheriff's Race Draws Most Interest

A record crowd of Highlands County voters is expected to drop to the polls next Tuesday, and four of the races including the big one for sheriff will be decided that day.

Another race to be decided Tuesday is that for the office of Supervisor of Elections. Facing each other are veteran incumbent Romand K. Drott and A.C. "Austin" Heacock, former chairman of the Highlands County Commission, and a former deputy tax collector.

The battle for the vacant seat of Kent McKinley, of Sarasota, state legislator, 18th district, will be the fourth race to be decided Tuesday. The two candidates, both Republicans and both living on the Florida West coast are Donald Heath and Andrew Sandgren.

Keene Barringer
The big race, the one which election watchers say will bring out the big crowd, the sheriff contest between Joe D. Keene, of Sebring, and Bob Barringer, of Avon Park. Keene is former sergeant in charge of this three-county district of the Florida Highway Patrol. Barringer is former chief deputy under retiring veteran sheriff Broward Collier. Both have been campaigning vigorously for the \$14,700 a year post.

Results
On the Highlands County scene, the hot contest for county commission seats in three tracts, probably will lead to results.

For County Commissioner, District Three, are Democrat incumbent Ben McGee, John Driggers, S. Bill Dzing, Harry Harris, and Woodrow Waldron. In District Five, all Democrats, are Bill Haynes, J. Dan Jett, John W. "Johnny" Bill, Schumacher and Robert Skiffing. Trying for the vacant seat is incumbent Chairman Carl McIntyre.

Polling places will be open from 7 A.M. until 7 P.M. as usual. Drott's office will remain open Saturday until 5 P.M. for the convenience of those planning to vote by absentee ballot.

For Senator
No second primary looms for Ed Gurney, Democrat, and Herman Golden of St. Petersburg, Republicans, running for U. S. Senate in the district. Dave McCain of Ft. Pierce and Ellis Rubin of Miami Beach, Republicans, are running for U. S. House of Representatives. McCain and Rubin-Adkins will face each other in November.

There will be no second primary for Vassar Carlton of Titusville and Hal Deike of Miami, Democrats, running for supreme court judge. The winners: faces Republican Wade Hopkins of Tallahassee in the Fall.

Rep. Moore, Jr., and Robert
Rep. Moore, Jr., and Robert Moore, Jr., both Republicans running for U. S. Representative, will not face a second primary but will must face Cong. Paul Rogers (D) in the Fall.

In the race for Florida State
Service Commissioner, Marlin DesRoches, West Palm Beach, and Ray Osborn, St. Petersburg, both Republicans, won't have to face the second primary. They will have a Democrat to face in the Fall—Harvey Baker or Joe Yarbrough of Miami, or Robert Brand of Boynton Beach.

Probably facing second primary
will be former Sen. Ernest LeRoy Collins of Tampa, Ed Farnforth of Tallahassee, Richard LaFollette of Gainesville, and Sam Fow of Tallahassee, all Democrats, running for U. S. Senator. The winner must face a second primary.

Also probably facing second primary
are Joe Boyd of Miami, Richard Cooper of Ocala, Sam Smith of Lake City, Democrats. Their opponents in the Fall will be C. Richard Lovelace, St. Petersburg Republican.

Registered voters
who think they will be able to vote for both Democratic and Republican candidates of their choice, will have a disappointment awaiting them election day.

Registered Republicans will be able only to vote for Republicans and of course the amendment, Democrats the Democrats. Republicans will be locked out of both Republican and Democrats out of the Republican. Independents will be locked out of both Republican and Democratic columns and will be able to vote only for the amendment.

Avon Park Included In State Fire Ant Eradication Program

The imported fire ant eradication program pushed eastward across Hardee and southern Polk counties and into northwestern Highlands County Tuesday, Apr. 30, Commissioner of Agriculture Doyle Comer said today.

Comer said five low-flying aircrafts are making excellent progress in the scheduled treatment of 2.5 million infested acres in central Florida this year. More than 700,000 acres have been treated to date.

The aircrafts are spreading mixed bait, a granular material lethal to fire ants but harmless to man, animals and wildlife,

according to the U. S. Department of Agriculture.

General nuisances to agricultural operations, the reddish-brown insects build mounds—many as 200 per acre in a heavily infested area—which snarl farm equipment and harass field workers. The ants are easily aroused and inflict a painful sting when disturbed.

Comer said the treatments are under the direction of the state and federal departments of agriculture. Treatments in Highlands County will include Avon Park but will not include Sebring.

SFJC Most Popular Among Highlands County Graduates

South Florida Junior College is the most popular institution of higher learning among Highlands County's honor graduates of 1969. Among the 60 high school seniors who will be honored at the annual Scholarship Recognition, Inc. dinner on Saturday night, 22 have indicated they plan to attend SFJC.

In the printed programs for the Scholarship Recognition dinner at Sebring Hotel, students' honors and future plans are listed along with the point-hour average achieved through three and a half years of high school studies (based on 4 points for an A grade).

An even dozen of the students have chosen out-of-state colleges as their first choice, and 17 plan to enter Florida institutions of higher education other than SFJC.

Two of the honor graduates from Avon Park High—William Knapp and Larry Arlin King—hope to enter service academies. Knapp is aiming for the U.S. Naval Academy, and King, who is third alternate for an appointment to Annapolis, has also applied for admission to the Coast Guard Academy.

A few of the honor students, who have maintained a B or better average throughout high school, have not decided on their post-high school plans.

Dr. John Allen, president of University of South Florida, will be principal speaker for the Recognition dinner.

SMALL DOCKET
There was a small docket for County Judge Mervin Rehner on Tuesday. He fined Rudy Sanders of Sebring \$25 for reckless driving (drunk). Tamm F. Parlier of Avon Park was fined court costs of \$15 for assault and battery on his wife.

County Veterans Receive \$967,000

How are Highlands County's war veterans and their families making out financially? By virtue of new and expanded benefits voted by Congress, they collected more than in any previous year.

According to an estimate based upon a state-by-state breakdown released by the Veterans Administration, veterans in Highlands County and their dependents received a total of over \$967,000 during the fiscal year.

It went to some 630 living veterans and families of deceased veterans in the local area.

Of the \$967,000 that went to Highlands County veterans and their families last year, approximately \$660,000 was in the form of pension checks for totally disabled veterans and compensation checks for disabilities incurred in military service.

To G. I. insurance policyholders and their beneficiaries went some \$102,000 in dividends and indemnity payments.

Other distributions were for vocational rehabilitation, educational assistance, housing grants, loans and for miscellaneous other purposes.

Throughout the State of Florida, where the overall benefits amounted to more than \$281,217,000 in the year, it was equivalent to \$1,534 per veteran.

In some communities it amounted to more than this and in others less. In the United States as a whole, where more (Continued on Page Two)

Polio Case Reported Here Triggers Run on Vaccine

Report of a possible polio case triggered a run on the county's polio vaccine early this week. Some physicians' supplies were exhausted but the County Health Department had plenty of vaccine on hand and was making it available to private physicians.

A tentative diagnosis of polio was made on a pre-school Avon Park child Monday night, and early Tuesday the County Health Department and private physicians were swamped by calls and requests for shots.

The child, whose name has not been released by the Health Department, became ill Friday after attending the morning session at Sebring's First Method kindergarten. Parents of children who had been in contact with the sick child at kindergarten, car pool or near his or her baby-sitter's home were all notified immediately.

Dr. J. D. Workman, county health director said, "The Water Haven pediatrician who made the tentative polio diagnosis said the sick child had had polio vaccine and the case appears to be very mild."

"It will be sometime before we shall have results of laboratory

tests which will make a positive diagnosis possible," the pediatrician said.

In the meantime, Dr. Workman urged parents to contact their physicians and obtain advice about treatment for their children. Tests show that about 80 per cent of the persons who have had the series of shots or the oral vaccine retain immunity. A complicated blood test is required to determine the level of immunity a person has retained.

"Why go to the bother and expense of the blood test when it is so simple to get a booster?" Dr. Workman said. He pointed out that with the sharp decline in polio in recent years, some parents had neglected to begin immunization for this once-dreaded disease and booster immunizations have been widely ignored.

"Any time polio appears we can be certain there has been some break in environmental sanitation," Dr. Workman said. "Right now we have no idea where this child might possibly have been exposed, but it is possible — even probable — that other Highlands County children were exposed at the

same time. The child resides in Avon Park and goes to kindergarten in Sebring, regularly plays with children who attend Woodlawn Elementary School.

"His contacts have been wide, and parents in the Lake Placid region should be alerted to the need to check on polio immunizations," one Health Department employee said.

Dr. Workman pointed out this week that polio is not the only health menace Highlands County has become complacent about. "We have had two cases of tetanus (lock jaw) recently," he reported. Both these cases — which fortunately were not fatal — were in old persons who had never had tetanus shots. They could not remember when or how they got the "muscle" cuts which result in such serious illness.

"Everyone, but especially old people, should confer with the family doctor about tetanus shots and polio and all immunizations and keep these up-to-date," Workman advised.

Chamber Gains Eleven New Members

New members of the Chamber are Lanes Records and TV; Hillel Nursing Home; Agra Chem Sales; M. W. Bishop; Samuel A. King, M.D.; Russell P. James; R. J. Roy Construction Company; L. L. Greedy; Scott-Stephenson-Smith Funeral Home; Hollenbaugh Ceramics Shop and Shop & Go Stores.

Membership plaques are being distributed this week by the Chamber Directors. Residents will recognize Chamber members by the distinctive gold plaque which can be placed on a wall or desk.

The Chamber office is still taking listings for rental units. With an increase in military families, and those associated with the new boat factory, more housing units are needed. Call GL 3-3356 to list your rental houses or apartments. This is a free service provided by your local Chamber.

Athletic Association To Meet Tonight

The Avon Park High School Athletic Association will hold an important meeting this Thursday evening, May 2, at 7:30 in the Florida Power Lounge on West Main St.

Final plans will be made on the Country Western Show that the Association is sponsoring May 24, at Memorial Field in Avon Park.

The profit from this show will go toward purchasing new and better lighting for the football field.

Roy Drusky, nationally known Country and Western entertainer from "Grand Ole Opry," Nashville, Tenn., will be the featured entertainer for the show.

All members are urged to attend this meeting. It will take the help and cooperation of every member to assure the success of the show.

Amendments And Candidates To Be Voted On

Voters on Tuesday in addition to voting for candidates will vote on a proposed constitutional amendment which would permit Highlands county in a local option election at any time to make the post of superintendent of Highlands county schools appointive rather than elective.

Not until the second primary, May 28, will voters get the chance to vote for delegates to a national convention, pledged or unpledged states.

Supporters of George Wallace for president currently are passing out petitions in Highlands county to get his name on the November ballot.

Registered voters who think they will be able to vote for both Democratic and Republican candidates of their choice, will have a disappointment awaiting them election day.

Registered Republicans will be able only to vote for Republicans and of course the amendment, Democrats the Democrats. Republicans will be locked out of both Republican and Democrats out of the Republican. Independents will be locked out of both Republican and Democratic columns and will be able to vote only for the amendment.

Also probably facing second primary are Joe Boyd of Miami, Richard Cooper of Ocala, Sam Smith of Lake City, Democrats. Their opponents in the Fall will be C. Richard Lovelace, St. Petersburg Republican.

Henderson and Erle Lewis add atmosphere to the new office in their jumpers and white blouses, ranging from green, navy, orange, red and yellow, a different color for each day. New computing machines are expected next week.

These Old Pictures...

This is the height of the season for politicians and once again we are reminded that vanity is a very strong part of the makeup of most of us.

There are always one or two of our would-be public servants who have their favorite pictures—and don't you just know it's an older one! Where they look younger and more appealing.

But isn't this rather good? All of us like to put a good foot forward and if a slightly time-worn flattering picture is one way to do it—well, so be it.

Don't we, all of us over 40, wish we could turn back the clock to the time when what we had in the way of beauty we took for granted, never thinking of the day it would leave us.

About the best we can do now is diet, invest in some cosmetics, get a suntan to sort of cover things in general. And those of us with a little moola—get our hairs tucked up, our chins tucked in and our ears touched up.

Few Nominated For Lay Advisory Board

The high level of public interest in public education is exhibited during the February education cross has apparently caused Superintendent of Schools George P. Douglas to report that he has received only eight nominations for persons to serve on a Lay Advisory Board for Highlands County schools.

Most, but not all of the nominations are from the Sebring area. Many nominations are needed from all parts of the county. Douglas said today the county school board is to make appointments to the Lay Advisory Board and Douglas has proposed that the appointments be announced at the May 14 meeting of the board. He had indicated that appointments would not be limited to nominations submitted by the public, but had expressed hope that many of the citizens who had expressed interest in improving the public schools would volunteer to work with the Lay Advisory Board and committee to help appoint for specific assignments.

HEW Officials To Visit County

Top administrators from the Atlanta regional office of the federal Department of Health, Education and Welfare have set May 14 for a visit to Highlands County.

Superintendent George P. Douglas has invited the federal officials to visit Highlands County schools and confer with the school board about plans for further desegregation of schools.

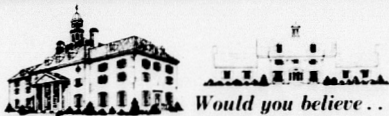

Currently this county is on notice that its school system is not complying with requirements of the 1964 Civil Rights Act. The Highlands County school board has complained that it is in a bind, with federal demand for elimination of dual schools on one hand and shortage of space for operation of a single school system on the other. Maintenance of "small and inadequate" junior high programs in the predominantly Negro Howell, E. O. Douglas and Carver schools is a major point of contention between the county and federal school officials at this time.

Letter To The Editor

A frequent observation of mine has been that Jesus Christ as a baby may have been "perfect" but to remain perfect he had to grow—in wisdom, in stature and in favor with God and man. Heron is found a universal truth. No person, place or thing can remain perfect in a static or lifeless. Everybody and everything must move about improve or deteriorate.

This is true of our fair city, Avon Park. In spite of superficial progress our tendency has been to seek security and comfort in "dormantness." Yet we are beginning to discover that by but we have been handing over our assets and talents to be used by Sebring. There is plenty of need in central Florida for both Avon Park and Sebring without either losing its identity or uniqueness. Sebring is built around a "circle" and would find itself "circling around in circles" were it not for the new center of activity. Avon Park was conceived as a "mile long Mall" with activity radiating along its entire length.

The Mall is a long green stretch of land, which can be and should be lined with life and growth. We have in the Mall a great artery. Let us pray that it does not develop a blood clot at one end while the rest of the artery shrivels up. We are on the threshold of great progress. We cannot rest in smug satisfaction over our perfection without awakening too late and find that our "perfection" has become "putrefaction." We can and must encourage expansion along the Mall to have a continuous growth.

We are now aware when we gave the O.K. for the new post office to be built in an already congested area a block away from our beautiful Mall. Soon the first thing new people in Avon Park will be asking is "where's the post office?" They'll never find it without asking.

How many sides are there in the Mall? Many sides are there in the Mall. How nice it could be to have a beautiful new post office where it could be found and admired. All it can do where it is scheduled to be built is to decrease land values around it for residential purposes.

If Avon Park isn't to become a "ghost town" we must develop to the West. Shortly there will be over a hundred retired couples in the "Golden Age Villas" who would enjoy being "within walking distance" of a new post office. Highway 27, the lifeline of central Florida, is at the West end of the Mall. Already night express buses do not go around the lake into Sebring but stop at Avon Park.

The new industrial development is West of the Mall. The South Florida Junior College site is at the West end of Avon Park. Thousands of tourists on Highway 27 would spend time and money in Avon Park if there were more businesses etc., to attract them near the West end of the Mall.

In a few short years the new Disneyland which is to be many times larger than the one in California, and which has transformed a vast area in California, will be transforming this area.

3,000 Acres

This does not include Highlands County. The county commissioners, in special session Tuesday, voted to ask that this county be included in the Everglades district on a temporary basis. Permanent assignment to the state federal fire control can be made only by the Legislature, but a temporary assignment to the state federal fire control can be made until the Legislature meets.

Highlands county is about the largest in the state, and is near the top in percent of acreage with overhead irrigation. If the drought goes on another month or six weeks, however, even irrigation will find it hard to keep the soil moisture up and water and wells will start drying up.

Get Fruit Picked
Citrusmen are trying to get the fruit picked as quickly as they can, he said, because of the drought causing the fruit to dry up. The dry weather also might cause young fruit to drop before it gets "set," thus cutting down on next year's crop.

Highlands County commissioners sought state and federal aid in fire control Tuesday. The Everglades Fire Control, stationed at Belle Glade, is financed by state and federal money, but the area covered by

The latest book of Elizabeth Ruffert in Doctor With A Mission. The setting ranges from the little native village in the hills of the Brazilian jungle, where Dr. Rufus McGilberry is doing medical research for his Navy service, to a pleasure cruiser which is the only boat available to pick him up and return him to the United States, and finally to the small midwestern community of Bayard.

It was on the cruise ship that the aloof and beautiful Frances Gould who was the Dean of an Eastern Girl's Junior College, who persuaded the doctor to try out his new medical status in

the fascinating, handsome river town. He wished to start a private practice and was intrigued by the stories of the small town where Frances had visited frequently as a small child and to which she was returning as the only living heir to a large estate and considerable fortune. Neither the Bayard stories nor the townspeople were eager to welcome an outsider to their snug established routine. It is the shy poverty-stricken people in the shacks and houseboats along the river banks of Pichon who draw Rufus like a magnet.

This strong novel is of an idealistic doctor who has to reconcile two loves and two ways of life.

Training the human mind is the finest of all arts—and the one most often neglected.

Two Candidates File For House Seat

In Sarasota County two candidates filed for the District 118 seat in the Florida House of Representatives. They are And-rew Sandegren of Sarasota and Donald Heath of Venice. Both are Republicans.

Since no Democrat filed for this seat, the winner of the May 7 Republican primary contest between Sandegren and Heath will be, for practical purposes, elected. The GOP nominee will appear unopposed on the No-

vember general election ballot. The District 118 seat is now held by Rep. Kent S. McKinley, who will retire at the end of his present term and who is serving on Sandegren's campaign committee.

Sandegren has been active in county and state Republican affairs for some 15 years. He is a retired civil engineer and formerly served as chairman of the Sarasota County Planning Commission.

His platform stresses the idea that economy in government should begin close to home, with sound fiscal policies and a fair distribution of the tax load at state and local levels.

He further emphasizes conservation of public lands and preservation of Florida's natural resources, and he favors strong controls against pollution of our bays and rivers.

Andrew Sandegren, we believe, is qualified to serve Sarasota — and indeed the whole legislative district and the state — and we commend him as the Republican nominee for the House of Representatives. — Sarasota Herald Tribune.

THINGS FROM THE PADDED CELL

There was a young lady in Natchez
Whose clothing hung on her in patches
When comment arose
On the state of her close
She drawed, "When ah itches,
ah scratcher."

When Saint George had a laugh
Tered ye dragon,
He pulled ye cork out of ye
fagot.
Then sat ye quite well
For quite a long spell,
He had a most joyful old jagon.

There was an old gent in Khar-
koom,
Who slept with two skunks in his
room.
To remind him, he said,
Of two friends who were dead,
But he never would tell us just
whom.

Because you've never had a
sweck,
In spite of driving fast,
Please don't assume that you're
immune.
Your first may be your last!
I once had a pol in Great Bend,
Who for years I assumed was a
friend.
But this joy of my heart
Proved to be the South part
Of a horse with a northerly
trend.

JOE D. KEENE FOR SHERIFF

JOE D. KEENE — A MAN DEDICATED TO LAW ENFORCEMENT

In response to your letter dated 2-12-68, I have known Sergeant Joe D. Keene both as a trooper and a supervisor for some seventeen years. He has been under my immediate supervision for the past six years during which time he came up through the ranks to position of Sergeant in charge of DeSoto, Hardee and Highlands Counties.

I consider him to be honest, trustworthy, and extremely efficient in every respect. He organized and ran his district with the utmost efficiency and this included some eighteen men under his supervision. He was directly responsible for training and directing the district and making it one of the best in the State.

I consider Sergeant Keene a man dedicated to the law enforcement profession and it was with regret that I accepted his resignation. Believe he had a great future with the Department and only wish I could have persuaded him to stay.

Sergeant Keene will put his best into any endeavor he undertakes and I'm sure this will make him a success.

I might add that I gave Sergeant Keene the highest recommendation I've ever given an employee in my twenty-two years of service with the Florida Highway Patrol.

Sincerely,

JAKE RAULESSON, Captain
Troop Commander

Mr. and Mrs. Harold Wolcott visited his brother and wife, Mr. and Mrs. Carl Wolcott in St. Petersburg last Sunday. Saturday found them with friends, Mr. and Mrs. Donald York in Orlando, enjoying a nice visit.

Last Friday evening Mr. and Mrs. Glenn Long were surprised by a visit from Mr. and Mrs. Shirley Goodell of Milbury, Mass. The Goodells were touring Florida. The two couples met five years ago while on tour in Alaska.

Celebrating wedding anniversaries of Mr. and Mrs. Julius Converse, and Mr. and Mrs. Ory Myers (a wee bit prematurely!) last Sunday, the two couples and Mr. and Mrs. Lawrence Robinson attended Pasadena Community Church and Sunday School in St. Petersburg, followed by an excellent dinner at the Kapok Tree Inn in Clearwater surrounded by exotic Grecian atmosphere. After enjoying the gardens, they drove to Sarasota to view the beautiful paintings of Vincent van Gogh at the Mural Center. Clearwater was a truly inspiring experience, to end a perfect day.

Mr. and Mrs. Herman Yosma entertained his daughter, Katherine, for two weeks ending with a weekend at Sanibel Island.

One of These Days They'll Pick Up a Painter If They're Lucky

Painters take care. A cell block at Highlands County Jail needs paint and Sheriff Broward Coker said as soon as he gets a painter in jailward out of a few other "guys" he'll get right at it.
The Sheriff's plan was revealed to the county commissioners in response to a letter sent to the commission from Florida Division of Corrections. The state division made an inspection tour of the 11-year-old county jail on March 22. Three prisoners were listed in the report sent to the county commissioners.

In addition to pointing out need for paint in one cell block, the report said the jail guardrail sink in the jail kitchen needs to be repaired or replaced, and toilets for the prisoners are crowded.

Sheriff Coker said the toilets have been a problem throughout the jail's history. The jail architect refused to approve the original plans because, he said, the prisoners would be made uncomfortable. But Coker said he'd contact the plumber again.

The county will investigate cost of toilet replacement. But the paint-well right now the jail has more than 50 prisoners. "It's hard to paint when we have so

Lutherans Bid Farewell To Rev. Ivan Miller

Attendance Lutheran Church of Sebring and Resurrection Lutheran Church held a joint picnic in the youth pavilion at Highlands Hammock State Park, Sunday, after services, which were given by the youth of the two churches.

The continued picnic was in the form of a farewell to their interim pastor, Ivan Miller, who with his wife left Monday morning for their home in Reading, Mich. Gifts and a purse of money from the congregations were given to them in appreciation for their services here.

Rev. Elmer Greer, permanent pastor, will arrive at the parsonage the first of June and will give his initial sermon June 8.

Boy Scouts On Land And Cub Scouts On Sea

Learning mapping skills in May will culminate in a "twelve hour" trip to the Boy Scout troops in Highlands District. Ben Foster, District Commissioner of the Highlands District, said that the Boy Scouts of America, announces.

Foster explained that a "twelve hour" is "a compass course bearing with no deviation in matter what obstacles may be in the way. This is a real challenge for Scouts and requires instructions and demonstrations of the use of map and compass.

Other features for the Boy Scout program in May will include games and projects on tracking, training, and stalking. Foster said that the Boy Scouts are on land. Cub Scouts from nearby all Scout troops will follow the sea with the theme, "Davy Jones' Locker." They will study life on and in the seven-petals, Columbus, Magellan's trip around the world, naval heroes, marine life, or ships. The weekly den meetings and the monthly pack meetings in May will expand the Cub Scouts knowledge of the seven through collections, craft projects, and skits.

Activities for high school age Scouts are also mounting in Highlands District. Explorer Post 400, Sebring Jaycees, are planning a skin diving trip to Key West for mid-June. All high school age boys interested in seeing this group contact Ford Haddock III, president of the Post. A medical specialty Post is being organized at Walker Memorial Hospital, Avon Park, for all high school age boys interested in exploring the medical profession. All boys interested in this Post contact District Executive Dan Brooks, EV 5-8574.

HIGHLANDS COUNTY COMMISSIONER

DISTRICT No. 5 Primary May 7

DEPENDABLE EXPERIENCED CAPABLE
THE PEOPLE'S CANDIDATE

Dear Voter:

I promise if elected to distribute all County Business, equally and fairly by competitive bidding, after advertisements. Or are you willing to continue with the policy of giving all County Business to a select few? I will represent all Highlands County fair and impartially.

I will give employment to as many people as possible. Help secure more industry for Highlands County, such as canning, sectioning, and juice plants, to harvest our citrus industry and give more employment.

I will open all creeks, rivers and lakes, for fishing purposes. Open new roads where needed. Keep all bridges in the best possible condition.

I know that the next four years are going to be hard for us all, and I will need your advice and cooperation to make a good commissioner.

I stand for lower taxes and forefeiture on all citrus groves. When I was commissioner I knocked six and a half mills off your taxes.

I will cooperate with the School Board, Hospital and Health Boards, and City Officials as well as the State Officials.

I will give more aid to the aged, crippled, blind and dependent children.

I will cooperate with other members of the board to the best interest of the District and Highlands County. I will give time for all performance of the duties of the Office.

Your Vote and Support will be appreciated at the Democratic Primary, on May 7th, 1968.

Action Filed Against Irene Maxcy

By ROSE MALLORY RICE

After Maxcy filed suit last week in Circuit Court against widow Irene Maxcy, asking that a receiver be named for her late husband's \$100,000-plus estate and a guardian ad litem appointed for her daughter, Marvin, it will be heard June 14 before Circuit Judge J. H. Wilson.

Meanwhile, the ad litem fact right now, petition for the guardianship of the child was granted by County Judge Marvin Hehrer which permits her aunt, Laura Elizabeth Maxcy, to represent the child in legal matters. Physical custody remains with her mother.

The suit for receivership charges Mrs. Maxcy's intentionality and unlawfully seized, abetted, counseled hired or otherwise procured his late husband's murder to be committed and because of her participation, she is ineligible to benefit from his death.

Judge Wilson consented to hear the receivership request but did not think it has jurisdiction. I think this belongs to the county judge," he said. "There may be some features of the case that must be settled in circuit court, but at the moment I do not know what they are. The guardianship matter belongs to Judge Hehrer exclusively.

Attorney Andrew Jackson representing the plaintiffs said the receivership is sought in an attempt to retain something for the children, Charles, by his first marriage to Peggy Maxcy and Marvin.

She'll Get the Most

He pointed out that in selecting dowry, Mrs. Maxcy will get most of the assets, since dowry, as it is figured before any debts are paid, and for all practical purposes, nothing would be left after she took dowry.

She already has received in excess of \$50,000 in insurance and much of the property was jointly held and would not come under dowry. The suit for receivership was filed by Peggy Maxcy as guardian of their son Charles, Marvin, and Citizens National Bank of Orlando, co-executor with Irene Maxcy of the estate.

The receivership seeks an accounting and hopes to prevent Mrs. Maxcy from keeping insurance and other matters she has received since the murder of her husband October 3, 1966. It asks that she be removed as co-executrix. She has immunity in the slaying after testifying in the trial of her former lover, John Sweet for the murder. He will be retried May 30.

Interests Are Adverse
Guardianship of Marvin in legal matters was sought, says the petition, because Irene's interests are adverse and directly in conflict with those of the child.

In detail, the receivership suit asks the court to enter an order requiring the widow to show cause.

Why she should not deliver all assets of the estate which are in her control to her co-executrix. Why she should not be removed, as co-executor and be required to render a final accounting.

Why she should not deliver all property and proceeds which are not listed in the inventory and appraisal as assets of the estate but which she claims by virtue of her death, into the registry of the court or its receiver, pending outcome of litigation.

Minors
The court is asked to determine the rights of the respective parties named in the will, the proceeds of insurance policies, property which may be held as dower and property claimed through inheritance.

The court is asked to declare the defendant "not eligible because of misconduct to receive the benefits from Mr. Maxcy's death."

An accounting is sought for various items received by Mrs. Maxcy and under her control, that she be required to return them or pay the amount of their value.

It is sought to have Mrs. Maxcy turn over funds received from assets of the estate or as compensation for acting as co-executor.

A restraining injunction is sought to prevent Mrs. Maxcy from receiving any further property or proceeds from the property she held jointly with her husband, or "from procuring her election to take dowry" or her petition for assignment of dower.

The complaint asks that reasonable attorneys' fees be set and that Mrs. Maxcy pay interest and court costs.

Attorneys of record for the complainants are Ward, Bradford and Oswald of Orlando, attorneys for the bank, Andrew Jackson of Lake Placid and Carter, Fields, Ward, Emmanuel, Smith and Ouler of Tampa for the other plaintiffs.

Claims Assets
The defendant Irene Maxcy seeks to benefit from Von Maxcy's death, it is charged, by claiming right to all assets of a life trust for \$300,329.79, proceeds of a New York Life insurance policy of which she is beneficiary, right to inherit Maxcy's property, right to be assets under the will, right to take property commonly held by Von and Irene, right to take dowry, the right to be executrix and the right to seek widow's allowance.

The suit charges that Irene Maxcy intentionally, unlawfully, wrongfully murdered and is guilty of the murder of Von

Maxcy. "There is no reasonable doubt as to her guilt and she has not been acquitted because she has confessed in open court."

Because of her participation, she is ineligible to benefit. It is contended, "To allow the defendant the rights she is claiming would constitute a fraud and result in her unjust enrichment. She should not be permitted to profit from her wrongdoing."

Wrongfully Embowered
The complaint continues that she has wrongfully embowered and converted to her own use property owned by the estate and proceeds thereof consisting of cattle, a cattle-holding pen, cows and calves, rental proceeds, fence proceeds, fence posts,ypress, cedar wood, one house trailer, one spray rig for cattle, one four-wheel trailer and van body and pulp wood.

She has received, it says, "income from insurance policies, fruit dividends from various properties plus proceeds of sale of two items of real property."

We're Eating Better Today

Under official proclamation of Gov. Claude Kirk, Florida Products Week is being observed to emphasize the fact that the state's 6,000,000 citizens are eating better today than at any time in history—and at a relatively lower cost.

Hundreds of Winn-Dixie and K & S C & S supermarkets throughout the South are observing the eighth annual Dixie Products event through May 4 with full displays of home-grown products.

The company last year spent \$89,214,796 on salaries, \$17,145,251 on occupancy costs, \$15,420,225 on local taxes, excluding social security taxes, \$12,000,570 on advertising, and \$7,429,224 on utilities. The stores sold 1,729,200,000 pounds of groceries and 1,397,100,000 pounds of perishables.

JUST A PIGEON, but an injured one with a broken wing that narrowly escaped being run over by a car as it ran across Main St. and found refuge in the planted box in front of the "Sun" office. Eugene Haywood, a young business man, a "Sun" carrier, saw its plight and carefully picked it up, found the broken wing and pressing the pigeon gently under his arm, mounted his bike and pedaled home, where he has been caring for the bird. He now reports, the bird is recovering and can fly, but refuses to leave its new home where there is ample food and a new friend.

WEDU Auction Nears as County Exceeds Quota

Highlands County more than raised its quota of items to be auctioned all over the educational television station WEDU, with proceeds going to keep the station in business.

Auction week is May 6-12 with Highlands County night May 10 from 7:30 P.M. until midnight. Art will be auctioned off May 12. Bids can be placed into the station at the seller's expense.

Several oil paintings are included in the \$170,000 estimated value of local goods being sent to Tampa for the auction.

Among the items: a scholarship, theatre passes, a wrap-around wedding covers, radio record album, awarded for two of Harlan Hall organ lessons.

Theatre party sport coats, gift certificates and an automobile are also included.

The Highlands County budget was \$1.4M. with Ford Heacock, Jr., and Virginia Hofmann as chairmen. On the committee were Mary Peoples, Betty Harrison, Alma Hager, "Happy" Stron, Betty Sprinkle, Carolyn Tomlinson, Vicki Keene, Mary Richardson, Connie Taylor, Gladys Bayless, Mary Howell and Elsa Kahn.

WOODROW WALDRON

Candidate for
County Commissioner

DISTRICT 3

DEMOCRATIC PRIMARY, MAY 7

TO THE VOTERS OF HIGHLANDS COUNTY:

Due to the shortness of the campaign, actually only five weeks from qualifying closing deadline, April 2, until the Primary Election, May 7, it has been impossible to cover the entire county and see all of the voters.

As much as I would like to, time does not allow me to make personal contact, so I appeal to you to consider my qualifications for the office of County Commissioner from District 3.

For 12 years, I have been engaged in doing land development. As one of the most important duties of the commissioners is the upkeep of present roads and the building of new roads, I consider myself qualified to handle any problems that might arise in this line.

I am a native of Highlands County, coming from a pioneer family. I am 38 years old, married to the former Louise O'Neal, and we have one son. I am a graduate of Sebring High School and a veteran of the Korean conflict.

I am a member of the Florida Baptist Church, and belong to the Elks Lodge, Sebring Memorial Post of the Veterans of Foreign Wars, American Legion Leslie Collier Post No. 74, Highlands Cattleman's Association and Highlands County Farm Bureau.

A native of this county, I have its interests at heart. I am dedicated to help in its upbuilding and am always available to assist in any way I can. If you elect me to the Board of County Commissioners you will be giving me an opportunity to prove this. Please do.

No. 9 was the distinctive jersey for writer George Plimpton in his brief career with the Detroit Lions. The result was "The Paper Lion," a best selling satire about pro football.

All Florida Magazine this week joined the filming of the movie version of Plimpton's book which is to hit the screens next fall. Many of the Detroit Lions had parts in the movie and there was even a role for Plimpton himself.

6000 Acre Ranch Sold

A 6000 acre ranch was sold by father to son this past week when J. N. McJunkin and his wife, Jessie, sold what formerly was part of the old Carlton ranch near Venus to his son, J. Morgan McJunkin and his wife, Eugenia.

The price paid was \$518,000, bringing the price to \$86.40 per acre. The ranch is in pasture, some grove and agriculture, including watermelons. John B. Gregory, Jr., attorney, said the senior McJunkin bought the property, which is south of Road 70 and west of Route 27, from the Carltons some years ago. It adjoins the Edna Carlton ranch near Graham's Dairy.

The McJunkins hold considerable property in Broward County and live in Fort Lauderdale. The father, he said, is a farmer, and the junior McJunkin has been commuting and running the Highlands County property for some time. He has been developing raw land into grove and pasture and had watermelons planted on some of it, Gregory said.

The United States is classed as the wealthiest nation on earth, by far, yet we have the world's highest violent crime rate, the world's highest homicide rate, by far the world's highest juvenile crime rate, the world's highest divorce rate, and one of the highest suicide rates in the world.
