Jack Hancock Appointed City Attorney By Council

Perlaski Plans To Rebuild Bowling Alley

John Perlaski, builder and mortgage holder on the plush Grand Prix Bowling lanes which burned to the ground early April 23, plans to rebuild.

His attorney, Hayward Davis, said Perlaski, now of Sarasota, plans to build lanes with about six more alleys than the former establishment. But this will not be done, Davis said, until his suit against Gray Hammond, who was purchasing the establishment, is settled. The suit asked foreclosure on Hammond and appointment of a receiver.

Hammond still owed \$134,567.42 plus interest when the place burned. Hearing on the suit had been scheduled the afternoon of May 15.

Davis said that contrary to previous information, Hammond had not put any lanes on the lanes. And that although Hammond's attorney Frank Bryant had said things had been worked out with American Maritime Foundry which owns the pin setting machines that AMP now is leasing, he saw Perlaski for about \$10,000.

Bryant said the day before the fire AMP had agreed to accept the payments we offered, but that with the place burned down there was no point in providing. He said Hammond had borrowed money to do this which was being wired to him from within the family.

Bryant said part of the debt owed AMP was owed by Hammond, but that Perlaski had paid it, he said, and is trying to get on his feet again, "grateful for the forbearance of creditors."

Throughout the coming week, Mr. Ward continued, community-wide observations are scheduled as realtors in the area join with their more than 6,000 colleagues throughout the nation in directing attention to their calling and the special nature of the services they render.

Realtor Week activities this year will be closely tied in with the broad Make America Better program of the National Association of Real Estate Boards, which was launched in February to help solve the major problems of our cities and towns.

This seven-day program was undertaken since realtors and other experts agree that the betterment of housing for low-income families cannot be achieved unless other problems which are deeply involved in the social ills of our cities can be concurrently solved," Mr. Ward pointed out.

Highlighted under the Make America Better Program are such vital areas important to the achievement of stability and safety in our cities as juvenile delinquency and crime, family education and training programs, rehabilitation and construction, education and training of children at earlier ages, to provide employment opportunities, changes in restrictive practices which unduly increase construction costs, and cooperation and assistance with local organizations in the enactment of these and similar proposals.

A realtor, Mr. Ward explained, is a professional in real estate who subscribes to a strict Code of Ethics as a member of the local and state boards and of the National Association of Real Estate Boards.

"Since it is a trademark, it should always be capitalized as are other trademarks or proper nouns," Mr. Ward explained.

"Further evidence of this fact is that all major dictionaries in the United States now carry, or will carry in their next printing, the correct definition and capitalization of the term."

In discussing the Code of Ethics, Mr. Ward said that it was one of the first such codes adopted in the history of American business. Under its 30 articles, which cover all aspects of real estate transactions, realtors pledge their fair treatment and their total real estate knowledge to both parties to a contract—the buyer and seller.

"Our board was formed in 1963, while the parent group, the National Association of Real Estate Boards, was founded in 1908," he concluded.

With offices in Washington, D. C., and Chicago, NAREB furnishes realtors with the latest information on real estate developments, market conditions, economic trends, and new techniques.

Avon Park area board members include K. B. Buz, K. C. Cooper, Robert R. King, Jr., Ted J. Ward, Mrs. Hazel Wilson, associate.

Deviils Finish Fourth At State Meet

The Avon Park Red Devils track team finished fourth in the Class B state meet held at Gainesville last Friday against a field of 47 other teams.

The Devils scored a total of 22 1/2 points to earn the fourth spot behind champion Tampa Catholic which scored 69 points, Clermont with 36 points, and Tallahassee Florida with 23 1/2. Finishing fifth was Avon Park's old rival Fort Meade with 22 points and Mulberry was right behind with 21 points. Sebring scored 13 points to take tenth place.

The 13 Devils scored their points with two seconds and a third in the three relay events and a tie for sixth place in the high jump. The 880-yard relay team set a new school record coming in second behind Tampa Catholic with a time of 3 minutes, 33 seconds. Running for the Devils were Jim Williams, Willie Seigler, Smitty Callaway, and Leetus McNeil.

The mile relay team also took a second place running the distance in a time of 3 minutes, 31 seconds behind Tampa Catholic's winning time of 3 minutes, 25 seconds. Williams, Johnny Hamilton, McNeil and Robert Walton set the time for Avon Park.

The sprint-medley relay team took a third place with a time of 2 minutes, 47 seconds losing out to first place Clermont and second place Mulberry. The medley was run by Williams, Seigler, Taylor, and Callaway.

Charles Mazonberger tied for sixth place in the high jump event with a 5 foot, 6 inch effort.

It was Avon Park's best effort in Class B state competition and Coach Fred Sandlin complimented the eight boys who represented the Red Devils at the meet for the fourth place finish against the tough competition of the other 47 schools.

Finance Committee Meet Saturday

The Avon Park City Council at its regular meeting Monday, named Jack Hancock city attorney. He will replace Blue Nunnallee who resigned recently.

Hancock, Sebring attorney, was administrative assistant for Highlands County Sheriff Broward and Cook for 11 years. He received his bachelor of arts degree from Duke University in 1966 and finished law school at the University of Florida in 1967. The city attorney is married and has three children.

In other business bids were opened on airport runway paving and lighting. They were:

Superior Paving—Schedule 1 \$22,422.86; Schedule II \$27,444.

Sprinkle-Quimby—Schedule 1 no bid; Schedule II \$15,577.

Bids were referred to Walter Childs of Bristol and Associates for tabulation and recommendation.

Dave Tower of Daskins & Associates presented plans for installing water and sewer lines under U. S. 27 when four lanes are closed for widening and relocating certain lines. He stated that with city forces doing the work the project could be completed for an estimated \$12,000. Motion was made to pass State Road Department required resolution authorizing the mayor to sign permit applications for the work.

WHEREAS, the City of Avon Park, Florida, has proposed to relocate and construct water and sewer lines within the Florida State Road Department Right of Way, along State Road 26 within the vicinity of Avon Park.

Now, therefore, be it resolved by the City Council of the City of Avon Park, Florida, that the Mayor of the City of Avon Park, Florida, is hereby designated as the official representative of the City of Avon Park in all negotiations concerning the proposed relocation and construction; further, be it resolved that as the City's representative, the Mayor is authorized to sign contracts and to bind the City of Avon Park to conditions described in:

Five Point Desegregation Program Adopted by Board

Highlands County schools have adopted a five-point program for further desegregation of schools, but skirted the central problem when will the buildings be built which will house the new, single school system.

A team of consultants from the Federal department of Health, Education and Welfare visited in the county Tuesday and on Tuesday night School Superintendent George F. Douglas told the school board.

"We have said we'll eliminate a dual school system when we have building, and HEW is saying, 'when?' Our arguments are running out of gas."

Chairman Henry Bailey, who participated in the conferences with the HEW team said, "My personal feeling is we should come back at the earliest possible date and ask for a bond issue. We'll need to ask for new cost estimates because building costs have gone up, and interest rates are up. What we asked for before now—\$20 million—now we could build for now will not be adequate two or three years from now—it would take more than."

In April, 1967, voters defeated a bond issue to build new high schools in Avon Park and Sebring, new elementary facilities in Avon Park, Sebring and Lake Placid.

Putting all its construction money into one basket, the board is proceeding with the Lake Placid elementary school. On Tuesday night, it approved preliminary drawings for that school, and Architect Jim Horn said construction might begin by Fall.

Even before the new school is ready, additional students will be placed in Lake Placid junior high classes. To meet criticisms leveled by HEW, the junior high classes will be moved from Carver school at Highway Park to Lake Placid. To house the additional students, portable classrooms will be added at the LPHS site.

The percentage of white teachers on the Carver faculty will be increased next year. Superintendent (Continued on Page Two)

When Highlands county voters go back to the polls May 28, Democrats will have quite a few decisions to make, including their preference for presidential candidates—but the Republicans will not.

Again as in the first primary, registered Republicans will be locked out of the Democratic voting columns. And vice versa. They have no candidates to vote on in the primary—only one state of delegates to the Republican National convention at Miami Beach next month, headed by William Murfin as chairman. Gov. Claude Kirk is one of the delegates.

Democrats will have three choices—a state of delegates for Sen. Geo. A. Smathers for president, organizing chairman Pat Thomas, a slate for Eugene J. McCarthy for president, headed by Allen Millidge as organizing chairman, and an unpledged slate, headed by Scott Kelby, brother of Sebring's Judge Clifton Kelly, as organizing chairman.

Democrats on May 28 will decide between former Gov. LeRoy Collins and Attorney General Earl Farrow to which will face Ed Gurney, Orlando Republican, in November for the seat of former Senator Smathers. They will decide two congressional commission races—that is, Richard Cooper of Orlando for Congress, and Attorney General Ben McGee and Woodrow Waldron and District Five state Representative Skipper and Bill Haynes face each other.

Another decision will be that of Joe Boyd of Hialeah versus Richard Cooper of Orlando for Justice of the Supreme Court. Winning their chance to oppose the men of the other party in November were Robert Rust, who last Tuesday defeated Reid Moore Jr. and will meet Cong. Paul Rogers (D) for the District 8 seat, James Adams, Jr. (D) of Gainesville, who defeated Woodie Liles to meet Da-

vid McCain of Ft. Pierce for a supreme court seat and Vassar Carlton (D) who defeated Hal Deke of Miami and will face Wade Hopping of Tallahassee for a supreme court seat in November.

For a berth on the Florida Public Service Commission, Jess Yarborough (D) of Coral Gables will face Ray Osborne of St. Petersburg in November.

In one of the nip and tuck races decided in last Tuesday's primary, Donald Heath, N.K.O. builder, defeated Andrew Sandgren of Sarasota, and will represent the 11th district of which Highlands county is a part at the state legislature.

Whether to buy new tires as opposed to "recaps" depends on several considerations. (Recaps are old tire carcasses with new treads.) Do you travel a great deal at high speeds or is the car a second car just used for local shopping and errands? Are youngsters driving? They are tempted to speed and "corner fast" occasionally. Is the money involved that significant? By and large I recommend new tires! But, there's a considerable difference in ratings and grades of them! Place your confidence in your tire dealer! He's well educated in tire construction and will advise you and equip your car in accordance with the type of driving you're doing.

New Girl In The Office written by Nancy MacDougal Kennedy is one of the latests the Avon Park Library has obtained on a temporary loan from the Library Service of Atlanta, Ga.

This young adult book is of two couples and a small community and a city. Gretchen Lewis leaves the office at Springfield to go to the home office of a large utility company in the city.

She is trying to forget her love for the branch manager who has been a "big brother" to her since she was a little girl. The two families have been life-time friends. After she is established in the main office, she becomes aware of the petty gossip, jealousies, backbiting in the big organization.

Gretchen, as the pretty receptionist, cannot combine the heartaches and ambitions in this large office. She still retains her love of the country town and Timothy Arnold who lives there.

Tri-County Homemakers Meet

An unusually fine Tri-County FFA meeting was held on Monday at the Avon Park High School auditorium. May 6. Girls assembled from Avon, Wauchula, Lake Placid and Sebring as well as Avon Park.

With a variety of meaning the following officers were installed in a candle lighting ceremony. These girls will serve for two years: Diane Downing, Wauchula, president; Sandra Palmer, Avon Park, vice president; program of work, Lydia Coulter, Lake Placid, vice president of public relations; Ann Walker, Sebring, vice president of recreation; Sylvia Zajech, Wauchula, treasurer.

Becky Tomok, Avon Park, historian; Robbie Browning, Avon Park, public relations; Marlene Johnson, Lake Placid, chaplain.

The Highlands Girls School presented an excellent program of dance numbers, under the

Proposed Radio Station For Avon Park

Avon Electronic Services, Inc., has applied to the Federal Communications Commission for permission to construct and operate a new radio station that would serve the greater Avon Park area.

The proposed station would operate with 100 watts of power on 1360 KC. Studio and offices have been proposed by the local Jim Walker Corp., and would be located just off State Road 17A. Charles Esposito, president of the local corporation, is well known to many in this area. Mr. Esposito has 15 years experience in broadcasting and electronics. He has been employed in the past by RCA, the Bell System and Radiation Service Co. He is presently employed as chief engineer and operator's manager of WHYY in Orlando and the originator of the popular "Chuck Let's Show."

Peggy R. Cook, another officer of H.E.S. Inc., is experienced in local radio. A resident of Haines City, she has owned and managed WHAN of that city for seven years.

Esposito would be the manager of the proposed station and will reside in Avon Park. He also stated another survey will be taken so the needs of the area can best be served.

Citrus Men Can Insure Crops Again

Citrus growers in Highlands and 18 other counties again this year will have an opportunity to insure their crops against hail, hurricane, tornado and freeze damage.

This was announced by W. R. Huey, Florida District Director for the U. S. Department of Agriculture's Federal Crop Insurance Corporation. Quinter M. Luksey, 324 Magdolna Ave., Sebring, has been selected to represent FCIC in Highlands County.

The USDA program is a voluntary insurance plan offered to citrus growers to cover their approximate cost of production in case they should suffer a complete or severe partial loss of a crop.

Citrus growers in Florida last year under the FCIC plan had some \$11 million of insurance protection on their crops. For this amount of crop protection they paid approximately \$1 million in premiums.

The \$1 million in premiums and \$15 million in protection in Florida last year represented the highest participation by growers in history. FCIC is now beginning its 18th year in the citrus belt.

Many growers this year will receive a reduction in premium rate because last year was a "good season." Huey pointed out that each year a grower remains under the program and does not sustain a loss, he benefits by reduced insurance costs in following years.

He said that growers under the program in 1967 will collectively save approximately \$100,000 in reduced premium costs because last year was not a heavy loss season, as many past years have been. This reduction will not apply, of course, to first year insured.

The insurance program carries over from year to year unless cancelled either by the federal agency or by the growers.

Field representatives between now and August 15, or the first hurricane threat, will be calling on growers in the 19 insurance counties in the citrus belt. We thought about Your Greenery — Your Scenery — Your Neighbors . . . Then we thought up the "round one"

The round one is what's new in central air conditioning. Makes all the others . . . well, kind of square.

The round one toasts heat and sound straight up . . . away from shrubs and neighbors. And the round one looks good doing it!

When we designed the round one, we made it quieter, smaller, stronger, simpler and for less money. So a housefull of Carrier Air Conditioned comfort will cost you surprisingly little.

See this latest example of Carrier value: the main reason more people put their confidence in Carrier than in any other make.

Pack a Little Work-Saving Magic in Bag
Every vacationer should have a catchall compartment for special items to help make your vacation easier and carefree. Among such items packed by experienced travelers are:
Eyeglasses - if you wear them, carry an extra pair plus a prescription in the event they break.
Health Needs - if you take medication, have an adequate supply plus a prescription.
First Aid Items - always a good idea. You may not be near a drug store.
Grooming Aids - compact folding iron, basic sewing kit, spot remover. Also, be sure to take along a convenient can of spray starch. A remarkable compound that speeds and eases ironing, and restores like-new body and feel to all your clothing. All come in handy when clothing demands quick attention.
Packing Aids - plastic bags for soiled shoes and wet bathing suits, and an extra pair of clean socks.
Before selecting your vacation wardrobe, ask yourself these questions: What will the climate be? What types of clothing are suitable for daytime? Does the evening call for "dressy" clothing? No worse mistake: cocktail clothes if the attire is strictly casual.
Travel - wide fabrics are everywhere today. No wrinkle synthetics, wash- and wear blends, stretch fabrics that don't sag, knits that pack without protest, no-iron jerseys, are all excellent. These synthetics and wash-and-wear blends are a dream to pack and easy to launder. Just rinse and hang them straight on wooden hangers in dry. Most will improve with a little touch-up ironing, and here is where your travel iron and spray starch are worth the effort of taking them along.
Magic spray sizing is just the thing to perk up travel-weary dresses and sports clothes. Whether your clothes allow a touch-up on arrival or after laundering, you can safely use spray sizing on all synthetic and wash-and-wear fabrics.

TAILORED APPROACH
Japhe's tailored approach to contract security begins with a complete survey of the client's security needs.
"Often a company can make a few simple changes in physical location or personnel traffic to cut pilferage and theft losses. For example, a slight alteration in the location and number of the plant's gates, the use of spotlights in parking areas or the inspection of visitor cards often multiplies the value of a company's security dollar many times over."
As head of one of the member firms of "Automatic" Sprinkler Corp. of America, a leading producer of fire protection and industrial security equipment, Japhe pointed out that his men are often put in charge of a plant's electronic warning gear as well as its sprinkler systems.
Asked if the growing trend toward tight plant, store and office security hurts the morale among honest employees, Japhe responded:

FIX-IT TIP
Fresh paint smell can be eliminated overnight by placing a teaspoon of ammonia in a bowl of water in the corner of a freshly-painted room. Or you can eliminate paint odors when painting by adding a ounce of vanilla extract to each half-gallon of paint.
