Devils Will Meet Haines City Friday

The winless Red Devils will try for the fourth time tomorrow to top an opponent but the opposition gets tougher this week as they travel to Haines City to take on the Hornets of the South-west Florida Conference. The 127 loss last Friday to the Fort Meade Miners left the Devils 0-3 as they move into competition against larger schools.

Meets Haines City 7 p.m. at the Haines City High School. The Devils are having a hard time in the game, however, so the game may develop into a defensive battle.

Three Last Funds. Funds from HEW programs now run about \$185,000 a year in this county. Were the food commodities cut off—and this is considered unlikely, the loss of federal funds could run up to \$350,000.

In voting to advertise the bond sales, the board received assurance from George Shaw of the firm of Warrington and Ramsey, Miami, that he will check on how good or bad the market is and "we will not commit you any further until we talk to you early next week."

Shaw, former finance director for the City of Miami, pointed out that "you run the big risk of construction costs going up so much, the bond issue will not cover it if you delay, and every one who has put off a sale has been burned lately when it became absolutely necessary to sell the bonds and certificates."

He advocated the sale be held October 29. Preparing the prospectus and other costs, he said, will run about \$2,000. If a bid is unsatisfactory, it might even be possible to negotiate it and all bids can be turned down, he pointed out.

In other actions, the board received, but did not approve a supplementary school plan survey. The survey due in mid-September differs slightly from the one done two years ago by the State Department of Education. It requires considerably more money.

A major difference is in separation of grades. Currently schools are 6-23, 4-4-4 now is recommended. That is, the first four grades together, middle four together, and the high school have grades K-12 instead of 9-12.

A new elementary school in Avon Park at this time was not recommended. Recommended, however, was increasing the size of Avon Elementary, completing and increasing the size of Fred E. Elementary and closing D-School.

New Cost \$1,318,264. The plant survey of 1966 was estimated to cost \$1,318,264 and

Reception for Congressman Rogers Will Be Held In Avon Park

Congressman and Mrs. Paul Rogers of West Palm Beach, will be guests of honor at a reception on Thursday, Oct. 17, at the Jacaranda Hotel in Avon Park, to which the general public is invited.

The reception will be held from 3:30 to 5:30 p.m. and all residents of Highlands County are invited to attend. Congressman Rogers is a candidate for re-election to Congress, from the 9th Congressional District of Florida, which now includes Highlands County.

Effective January 1, 1969, Highlands County will no longer be a part of the 7th Congressional District. James A. Haley, who has represented this area in Congress for many years, has previously introduced Rogers to many residents of Highlands County.

Congressman and Mrs. Rogers plan to spend the entire day in Highlands County, and this reception will be one of the special events being planned.

Mrs. W. J. Scarborough, of Lake Placid, is general chairman of the reception. Mrs. Robert King, of Avon Park, is in charge of arrangements. Assisting will be Mrs. Frank Bryant, Mrs. Marvin Kahn, Mrs. Floyd Schumacher and Mrs. L. C. Smith of Sebring, and Mrs. T. P. Cissard of Lake Placid.

Although no personal invitations will be mailed, the hostesses are urging all residents to take this opportunity to meet Congressman and Mrs. Rogers.

"It was just a day or two after the fire that we heard he was selling stereo tapes pretty cheap," said Murdock. "We could not prove anything at that time because we did not know the tapes were stolen and the firm had burned down."

The checking continued, he said, with particular attention as to Sasser's whereabouts the night of the fire. Faced with facts, Murdock said, Sasser admitted his part in the fire.

Sasser appeared before County Judge Mervin Rehner for arraignment Monday and was bound over to Circuit Court on a charge of second degree arson. The public defender was appointed to defend him. He will plea shortly in Circuit Court.

Kenneth Sasser had dropped by several times to see his father during the time he worked there, Blackman said. Sasser also was an avid skater and patronized the skating rink which he subsequently broke into.

Murdock said Sasser confessed to the present case and was fired from his job at the time he was arrested. Sasser was also a member of the Junior Women's Club and the Lions.

New Administration Could Save Federal School Money

Faced with almost certain loss of federal money for Highlands County schools, because of the de-segregation problem, school board members Tuesday night agreed to keep fighting until all avenues are exhausted.

They voted to send Superintendent of Schools George Douglas, their president, Henry Bailey, and Frank Bryant to Washington Friday for a hearing before the officials of the Department of Health Education and Welfare.

They also voted to advertise the sale of 4,000,000 in school bonds, backed by the pledge of race track and jail alms monies, the money to be earmarked for local construction.

They will have no plan to present to HEW in Washington Friday, as was explained, because there has not been time to evolve a thorough and workable one.

"We are not now in a position to comply with their demands," Attorney Bryant pointed out. "The only immediate plan would be considerable bussing of pupils. We are charged with failing to achieve the required degree of desegregation and we will try to prove we have done everything we can."

Plan Will Be Developed. Douglas interposed that "a plan will be developed as we go along. Deadline for compliance is September, 1969, and with present construction needs, this is considered impossible to meet."

Bryant said there is now a feeling in Congress that the tough stand taken by HEW may be softened, particularly with the possible advent of a new administration and "every day the case can be prolonged, there is that much more money on the board can get. I think we have some basis for defense, but it is not a sure thing."

If a satisfactory plan can be worked up in the coming months which would be sufficient and should the federal money have been cut off in the meantime, "it would only be a matter of a few weeks before we could be reinstated," Bryant said.

Hunters Take Care

The hunting season started Saturday and many wives and mothers will worry as their menfolk troop off to the fields and woods. Hunting accidents. There was one fatal accident at Avon Park bombing range last year. A warning note comes from the Florida Fish and Wildlife Commission that there are more fatal heart attacks on these hunting trips than gun accidents. So, that's something else to worry about. The wildlife people recommend a physical checkup for hunters before the season gets under way.

Look at the Record

This is a time of confusion for the voter as the charges and countercharges fly—and the promises reach heaven high.

But in many instances—particularly on the national scene—where the man has many years of serving in politics behind him—the voter can get a pretty good idea of what the candidate will do once he is in office by just looking at his record.

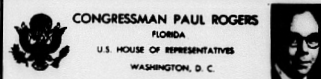

What has the man done in the past? History has proven he will not change to any degree in his line of action. Has he been honest? Has he attended to the voters' business? Does he talk and not do-do?

Can he point with pride to solid accomplishments? Do you like what he did?

You may not like the way a man looks, the way he cuts his hair or wears his tie. He's probably not very handsome either, doubtless being past the age of movie star looks. You may not like his delivery of a speech.

But just remember that it is what is inside a man that counts. What he has done in the past is what makes him the man he is today.

Do you know of any better guideline than this? Or do you prefer to hide your head in the sand and be swayed by emotion and oratory?

CONGRESSMAN PAUL ROGERS
FLORIDA
U.S. HOUSE OF REPRESENTATIVES
WASHINGTON, D. C.

Procedure Explained On Three-Cornered Election

Many people have written requesting information on the procedures which would be followed should no Presidential candidate receive a majority vote in November.

It would be possible for an election solution to be worked out within the Electoral College, where each state has a vote in proportion to its population (Florida has 14). But should the election not be decided there, the President would be chosen among the top three candidates, with each state having one vote.

The vote of a state would be determined by a meeting of the Congressmen from that state. In the case of Florida, each of our 12 Congressmen would vote for a candidate, and a majority of the 12 would determine how Florida's one vote for President would be cast in the House.

As the Representative of the 9th District, I feel that it would be my responsibility to reflect the wishes of the people of our own area, and I therefore would vote for the candidate who received the majority vote in the 9th District—regardless of who that may be. Only in this way can the people be assured that their votes will count.

Florida Delegation:
Here are votes of interest cast by Florida Congressmen since the recess.

Defense Procurement. Authorizes purchase of Defense surplus and permits donation of surplus military equipment to police and fire units: Rogers, yes; Gurney, absent; Haley, yes.
Military Exports. Authorizes

the sale of military equipment abroad, and prohibits military sales to any country which sponsors American fishing vessels: Rogers, yes; Gurney, absent; Haley, no.

Federal Employment. Motion to bring up bill to provide for 429 new "S" grade" employees throughout the Executive Branch: Rogers, no; Gurney, absent; Haley, no.

Foreign Aid Appropriation. \$14 billion for foreign aid: Rogers, no; Gurney, absent; Haley, no.

Agriculture Act. Farm subsidy program: Rogers, no; Gurney, absent; Haley, no.

Letter To The Editor

Our apologies to the people of the community and to the Avon Park Sun. We thought that through our letters to the editor, we were encouraging all citizens to take more of an interest in their local government, and to realize how much even one person might have in bringing about better government. We believe that good government requires principle to be placed above personal friendships. So often, courageous councilmen have had to stand alone in their struggle for equality and justice over favoritism, while less than half of the eligible voters even bother to vote. We are all lapsed human beings

LEWIS LLEWELLYN

Fortas Controversy Raised This Issue

The controversy over the nomination of Justice Abe Fortas to the Chief Justice of the U. S. Supreme Court brought the issue of pornography to the attention of a number of people who had been ignoring the unpleasant subject.

Though the Fortas nomination has been withdrawn, the issue of indecent films and literature is still with us.

Fortas has voted against conviction of those who have been guilty of violating laws against obscene literature and films—in a number of cases, in 5-4 decisions—in effect casting the deciding vote.

Perhaps the most widely publicized such case is the one in which California courts had held a film to be definitely obscene, but Justice Fortas and four other Supreme Court justices decided otherwise.

The details of this particular film are too revolting to be described here. It would seem that nobody who saw it could fail to recognize its disgusting lewdness—and yet a majority of the Supreme Court refused to

sustain the decisions of the California courts.

Fit to Be Shown?

The effect of filthy films and obscene literature on our young people should not be overlooked.

The breakdown of morality has been hastened by their incitements to premarital and extramarital sexual indulgence.

When motion picture advertisements blatantly declare that the films are not fit to be seen by anyone under the age of 18, can we come to any other conclusion than that they are unfit for adults to see, also?

What wholesome entertainment is there that would not also be good for young people to see?

In these very advertisements there is not an implicit declaration that the motion pictures so described are actually demoralizing and degrading—it to be shown only to those who wish to wallow in filth?

The Bible says, "Whatsoever a man sows, that shall he also reap."

The diseases that accompany immoral behavior are increasing

at a rapid rate. In one state—Mississippi—public health officials have warned that there is an epidemic of syphilis that is "getting out of hand."

What Should We Do?

What should a good citizen do to express his disapproval of those who profit from the merchandising of filth to our young people, whether in printed form or in the form of films that excite to unlawful and immoral deeds?

Probably the most effective way to make your position known is to refuse to do business with those who are corrupting our youth.

Some merchants are to be congratulated for clearing out of their stores the moral poison which defiles and degrades the purchasers.

Others may be encouraged to take similar action if the good people of the community will join in an effort to make their community a good place, in which to bring up children who will be a credit to their parents, their community, and themselves.

ADSON'S POINT OF VIEW Future of Vending Machines

Wellesley Hills, Mass., October 10 Over the past couple of decades the automatic vending machine has developed into a robot controlling an impressive segment of big business. Just how great its significance was revealed at a recent convention in Philadelphia of the National Automatic Merchandising Association.

The occasion drew approximately 900 delegates representing better than 6,000 vending service firms throughout the nation.

Upward Bill Stems

To those who may have assumed that the market for vending machines and the expansion of their use had reached the "glut" stage, figures from within the industry will come as a surprise. Total take in this field during 1967 reached a spectacular high of \$4.5 billion. And the projection for the current year promises sales volume almost nine per cent higher, hoisting the dollar turnover for automatic merchandising devices to a new record of \$4.9 billion.

Convention representatives of this thriving industry were especially optimistic about the future. About one-third of the concerns anticipate that within five years their sales volume will pass present rates by 50 per cent, a particularly rosy forecast in view of the wide selling base already established.

Even more arresting, however, is the fact that one out of every five companies represented look for a sales advance of 100 per

cent during that span. Pessimists were almost nonexistent at the meeting.

Focal Product Areas

Most of the business done by vending machines is concentrated in such lines as cigarettes, sandwiches, ice cream, milk, candy, chewing gum, soft drinks and nuts. While discussion on the subject is still somewhat tentative, many insiders look for constant additions to the list of products machine-vendable.

Planners for some department stores and discount houses, faced with steadily rising expenses, aim to test out the possibilities of machine-vending smaller items, clothing, kitchenware, appliances, etc.

For the present, though, surveys show that the quickest changes for the industry are likely to be involved with articles of food and methods of distributing them most efficiently.

As the automatic merchant-dispenser operators have become larger, they have tended to turn their own food kitchens rather than to buy from outside sources. This tendency will persist and become more prevalent, according to the surveys.

In fact, close to one-half of the firms within the Association are currently turning out their food in their own commissaries, with still others expressing interest in this procedure.

Machines vs. No Machines

One of the most striking revelations within the vending industry

is the increasing reversion to non-machine techniques of selling and servicing. High on the list for development are more widespread regulation cafeterias and lunch counters. It should be noted, in fact, that some 35 per cent of the vending machine firms are already selling food by other than automatic-machine methods. Key emphasis for the future is "service" by whatever means.

On the horizon, therefore, loom greatly extended tactics in truck catering and the letting out of concessions.

To save money, more and more of the smaller units are turning to the purchase of their convenience foods from concerns running their own outposts.

Though the larger establishments are still somewhat divided, some purchasing their requirements and some running their own centralized commissaries, the trend is strongly in the latter direction.

Because of rising labor costs and other expense factors, the move toward consolidation of companies has gained speed. And this tendency will become stronger. Some executives in the field point to this inefficiency of workers as one of the worst drawbacks for the industry.

Where profits are lagging, inept or indifferent personnel is often cited as the most telling cause. Hence, upgrading of hiring standards may well be a prime issue for the business in the years ahead.

REP. JAMES A. HALEY

Don't Kid Yourself Your Lone Vote Is Unimportant

WASHINGTON, D. C.—Fulfilling one's duty as an American citizen is really a simple proposition. The most important rule is that is how the least of us participates in his government. That is how it gets to be a "government of the people and by the people, for the people."

Exercise of the right of the

and differences of opinion are bound to arise but public servants need to know where people stand on vital issues.

We have tried to alert the people on these issues. We have also tried to keep the "Sun" from "setting," or having to be moved completely to Sebring for lack of interest by Avon Park residents. We have asked no special privilege for ourselves but felt that the minority "cries" of many citizens could be healed by an airing in the "Sun."

What really surprised us was those who saw "no difference between our letters, discussing people and problems requiring some decision or action by the city administration, and an unsigned public attack on the personal life of any individual. We wish to thank those who did see a difference, and we hope others will come forward and take a public stand on issues vital to all. However, who are we to be no more people can see a difference in motivation, we consider it vital to disturb the peace of "Oldtimers" by our comments. So until a need is felt we say, "Sweet dreams."

Robert W. Hanford

who feel this way. You will reassess your position. It is an unworthy evasion of responsibility. But in this year when we are electing a new President and Vice President, a new House of Representatives and selecting one-third of the membership of the Senate, it is particularly vital to the nation's welfare that all eligible voters participate in these elections.

Our Nation is at a critical moment in its life. We are involved in a terrible and frustrating war, we are besieged not only by our enemies, but by many of our supposed allies who do not like us, and we are torn apart internally by severe and divisive internal problems.

It thus is incumbent upon all of us to devote our minds and hearts to the selection of the best possible government to steer the Ship of State in the years immediately ahead. The collective wisdom of the people—all of the people—is needed to achieve this goal, and that collective wisdom can be exercised only through the ballot box, a massive turnout at the polls.

There is, as is shown by the national public opinion polls, widespread unhappiness among the people with the possible choices they may make in electing a President. There are, apparently, millions who have no urge to vote for any of the three principal presidential candidates.

This, of course, leads to the inclination among many—many who are inured, and who are not on a long-range basis—to evade the simple responsibility of the proper citizen by assuming that his lone vote is of no importance.

I would hope that if there are any among you who read this

representative was soft on crime and hard on police. He refused to vote the \$10,000 benefit to widows of police killed in the line of duty. He voted against the Florida Bureau of Law Enforcement. He did not vote a 20-year jail term to those carrying guns in the commission of crime. He did not vote money for the alcoholic rehabilitation center but he did vote to remove nine state troopers and assign them to the governor's staff.

Harry Truman's 1948 victory shows how important one man's vote can be. Had Thomas E. Dewey garnered just one more vote in each precinct in Ohio and California, he would have been elected then.

All of this says in simple, direct terms that any one vote can mean in a great overall determination.

But beyond that, voting is a privilege; but it also is a responsibility.

Her name is Nancy.
She's 10 years old.
In four years she will be a drug addict.

CRIME PAYS

Why does crime pay?

Your voice was not heard in Tallahassee. Your representative was soft on crime and hard on police. He refused to vote the \$10,000 benefit to widows of police killed in the line of duty. He voted against the Florida Bureau of Law Enforcement. He did not vote a 20-year jail term to those carrying guns in the commission of crime. He did not vote money for the alcoholic rehabilitation center but he did vote to remove nine state troopers and assign them to the governor's staff.

She is among 39,000 students in the United States who scored in the upper two per cent of those who will graduate from high school in 1969. The Commended student ranks just below the 15,000 Semifinalists, announced in September by the National Merit Scholarship Corporation (NMSC).

Their significant academic achievement gives promise of continued success in college.

The Commended students should be encouraged to pursue their education since their intellectual talent represents an important and much needed natural resource. Our nation will benefit from their continuing educational development.

The Commended students' names are reported to other scholarship-granting agencies and to the colleges they named as their first and second choices when they took the NSMQT in February, 1968. The reports include home addresses, test scores, and anticipated college majors and career intentions of the Commended students. NMSC encourages these students to make every effort to continue their education.

Most Alcoholics Come From Dade County For Treatment at FARC

Dade County again furnished the largest number of patients, by far, to Florida Alcoholism Rehabilitation Program inpatient Center at Avon Park during the fiscal year ending June 30.

Dade's total was 196, with Polk County's total of 42 admissions coming in second. Third place was Duval County with 33, fourth place went to bakers Orange and Hillsborough counties which tied with 41 admissions each.

Coming in fifth was Sarasota County with 41 admissions. Palm Beach was sixth with 40, Pinellas seventh with 20 and Broward eighth with 27.

The number of admissions did not necessarily rank according to each county's population. Polk County, for example, ranks eighth in population across the state, but it was second in admissions to the FARC inpatient center.

Polk County, of course, adjoins Highlands County, where the Avon Park Center is located. Center spokesmen point out that the close proximity of Polk County to the center probably accounted for the fact that Polk was second in admissions but eighth in population.

This strengthens the argument that if treatment facilities are located close to home, alcoholics will be far more likely to seek help.

JIM NUNNALLEE is one of the versatile Red Devil linemen who alternates at the guard or tackle position and usually plays both offense and defense. Jim is a senior who has lettered with the Devil year. He weighs around 180 pounds and should be one of Avon Park's most valuable linemen before the season is over.

SENIOR QUARTERBACK Gene Landress moved into the signal-calling position vacated by injured Danny Montadoca this season. The lanky back weighs in at 165 pounds and saw action last season as a relief quarterback and a defensive back. This year Gene is also handling the punting duties and last week had a 36 yard average per kick.

Parents Awarded Posthumous Medal

The Government of the Republic of Vietnam has awarded the Military Merit Medal posthumously to Mr. and Mrs. Carlton E. Cothran in honor of their late son, PFC El Curtis E. Cothran, who was killed in Vietnam.

Delivery of the medal was made by a representative of the Commanding General, Third United States Army for Servicemen of courage and rare self-sacrifice, displayed at all times the most tactful cooperation while aiding the Armed Forces of the Republic of Vietnam to repel the Red Wave undermining South Vietnam and Southeast Asia.

With a real zeal and commendable response, they fought on to the end in every mission and set a brilliant example for their fellow soldiers. They died in the performance of duty.

Exec. Directors Girl Scouts Make Plans

The cooperative planning meeting for presidents and executive directors from five Girl Scout councils was held last week in Winter Haven. Mrs. Joe K. Hays, Girl Scout National Committee member, presided over the meeting. Also attending was Miss Bonnie Wimper, National Council Consultant.

Mr. E. L. Davis, Winter Haven Chamber of Commerce Secretary, told the representatives what impact on Girl Scouting will be created by the opening of Disneyworld.

Plans for future training and special events were mapped out. A training course for leaders will be held at Camp Dorothy Thomas during February 21, 1969.

Tom LaFlam Home On Leave

Thomas Allen LaFlam, FA, USN, son of Mr. and Mrs. Francis LaFlam, 702 W. Winthrop Street, Avon Park, is presently home on leave after completing nine weeks of recruit training at the Naval Training Center, Great Lakes, Ill. Tom, 20 years old, states that while he was in recruit training the U.S. Army men that were called for the riots in Chicago, were given accommodations at the Naval Training Center and he had to be serving his one week of kitchen duty during this time and with more potatoes to peel, approximately enough for 4,000 more men than that Army unit. He was humbled each night.

Tom was enlisted under the high school graduate program which enabled him to be selected for one of the U.S. Navy's service schools. He will be going back to Great Lakes upon ending his leave, but this time in the capacity of a member of the basic electricity and electronics school there. The school will be eight weeks long and then Tom will go for further assignment of his new and exciting career.

Tom told his local Navy recruiter that he thinks the Navy is great and would certainly recommend his friends to follow his footsteps and that the Navy's motto of, "if you want to be something, why not be something special", is true beyond all expectations.

Research Made On Voters' Party Loyalty

Which way will Highlands County residents be voting in November? How fixed has the average local voter shown himself to be in his allegiance to a particular political party?

Interesting findings on the question of party loyalty and on the degree of shifting that has taken place in prior election years have been reported by the University of Michigan's Survey Research Center. They were based upon thousands of interviews with voters in all parts of the country.

The conclusion reached is that a person usually picks his party early in life, generally before age 30, and that his attachment is amazingly stable thereafter.

Only one out of five voters in the United States changes parties during his lifetime, according to the survey.

To what extent has this been the case in Highlands County? The following figures provide the answer.

In the 1964 election, the local vote was 4:47 for the Republi-

can candidate and 4:233 for the Democrat. In 1960 it was 4:30 Republican and 3:122 Democrat. The tally in 1956 was 3:400 for the Republican and 2:296 for the Democrat.

Summing up the results of the three presidential elections, local voters gave a total of 12,296 votes to the Republican candidates and 9,651 to the Democrats.

Thus, the Republicans ended up with some 57 per cent of that total and the Democrats with 43 per cent.

How this compares with the State of Florida as a whole is shown in the overall figures for those election years. The Republicans got 52 per cent of the total and the Democrats 48 per cent.

According to the report, entitled "The American Voter," it is the "volatile" voting behavior of independents that frequently plays a decisive role in elections.

This year, with people strongly divided on the Vietnam issue

and on domestic problems, and with 11 million new voters coming into the electorate, the swings are expected to be greater than usual.

In Highlands County, some 1,300 of these young men and women, who were too young to vote in the 1964 election, have now reached the qualifying age.

Time To Train Deer Hounds October 12-27

At an aid to hunters and to their hounds, the Game and Fresh Water Fish Commission has again established a special deer hound training season. The season, described as a special 15-day toughening period for deer hounds, starts October 12 and continues through October 27, except in the Northwest Florida region where the season starts October 19 and continues through November 3.

During the 15-day training period, hunters will be allowed to train their deer hounds "off leash" during daylight hours. The possession of a firearm and training at night is strictly prohibited during this time. The regulation does not allow the training of dogs on wildlife management areas, areas closed as wildlife refuges or in the Ocala Forest.

According to W. B. Copeland, Commission Chairman, deer hounds trained at any other time, except during open deer hunting season, must be constantly attached to a leash rope in the hands of the trainer. Bird dogs may be trained during the closed season for taking quail with the aid of a pistol firing a blank or solid ball. The carrying or use of a shotgun or rifle while training bird dogs is prohibited.

Women Being Assigned To Pacific Bases

The role of women in the Air Force (WAF) isn't being overlooked in future planning. During Fiscal Year 1969 an additional 673 WAF will be assigned to bases in the Pacific Air Force.

Sergeant John Contorno, local Air Force recruiter, said the nine bases scheduled to receive more WAF are Clark AB, Philippines, 175; Hickman AFB, Hawaii, 63; Kadena AB, Okinawa, 100; Naha AB, Okinawa, 100; Fuchu AS, Japan, 30; Itazuke AB, Japan, 30; Tachikawa AB, Japan, 125; Misawa AB, Japan, 30; and Yokota AB, Japan, 30.

"The increase in WAF overseas assignments offers an excellent opportunity for young high school graduate women who are travel-minded," Sgt. Contorno added.

The assignments in the Pacific are part of an Air Force effort to increase WAF manning throughout the world.

Young women who are high school graduates and have a year to travel may obtain more information on becoming a WAF by contacting Sgt. Contorno. He is located at The Federal Bldg., Lakeland or phone 682-8857.

Florida Alcoholic Rehabilitation Program has a new pamphlet now available for free distribution entitled "Thinking About Drinking." It's geared for the teen-ager and contains a number of thought-provoking ideas.

Among other things, "Thinking About Drinking" states that a majority of teen-agers (meaning about 80%) say that before leaving high school they have "used" alcoholic beverages. "Use," says the pamphlet, may mean anything from a single drink—or even a taste of someone else's drink—to fairly regular weekend beer drinking.

In some communities, as few as 20% may have used alcohol, but in other areas the figure may range as high as 80%. The percentages vary tremendously throughout the country, depending on age, sex, family habits, religious background, friends' attitudes, and community customs.

A first "tasting" experience with alcohol may occur before a boy or girl reaches the age of 11. If parents drink, this first taste most often means having a few sips of a parent's beer or wine or mixed drink in diluted form—at home.

Curiosity and the urge to experiment ordinarily prompt the first "tasting" experience. After this, many teen-agers choose not to use alcohol. They

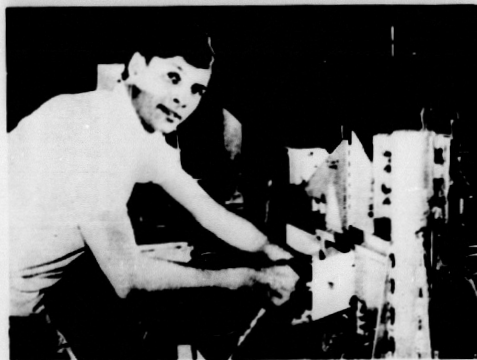

may not like the flavor or the effect or the custom of using alcoholic beverages. They may be going along with parents' wishes, girl friends' or boy friends' preferences, athletic training rules, or their crowd's habits.

Other teen-agers do choose to use alcohol in some form. Beer is their most likely choice. They may like the beverage or the effect it has on them. Or they may be seeking to be accepted in some certain group. Some may be rebelling against parents' restrictions, while others may be following family customs.

For the teen-ager who chooses not to touch booze in any form, there's no need to try to hide from the fact that he or she is an abstainer. There are strong, sensible reasons for not drinking, and any reason for abstaining is a sensible reason for a teen-ager, providing he or she sees it clearly and honestly.

There's never any need for a teen-ager to apologize for not drinking. It takes guts to say "no thanks" to a drink. He should expect others to respect his choice.

"Thinking About Drinking" has more to say on this subject, and it's yours for the asking. Just drop a line to FARP's Information Services, Box 1147, Avon Park, Fla., 33825.

SPACECRAFT BUILDER—William R. Fries, formerly of Avon Park, is a structures mechanic at the Space Division of North American Rock-

well Corporation, builder of the Apollo spacecraft command and service modules in which three astronauts will journey to the moon and back.

Bill Fries Helps To Construct Apollo Spacecraft For Moon Flight

William R. Fries, son of Mrs. Maxine M. Fries, of 1001 Royal Dr., Avon Park, is helping build spacecraft for the nation's lunar exploration program.

He is a structures mechanic at the Space Division of North American Rockwell Corporation, builder of the Apollo spacecraft command and service modules in which three astronauts will travel to the moon and back.

The first manned flight test of the Apollo spacecraft is scheduled for this year. Carrying a crew of three astronauts, the Apollo will be launched from NASA's Kennedy Space Center on an earth orbital mission designed to test spacecraft systems under conditions similar to those to be encountered on a moon trip.

Fries worked on structural parts and assemblies for the spacecraft that will be used in the first manned test flight. He also worked on other spacecraft destined for future tests.

Regarding the moon program, Fries said: "The Apollo program is an exploratory function, utilizing all available scientific knowledge and principles." He said that through this program "we will evolve into the far reaches of space travel."

Fries attended Avon Park High School and the National Air Space Academy. He has a sister, Loni M. Lavender, who lives in Tampa.

The first manned flight test, known as the Apollo 7 mission, will be the sixth flight test of the Apollo spacecraft.

The test will involve the command (crew quarters) and service (supply) modules, both built by North American Rockwell's Space Division for NASA's Manned Spacecraft Center. They will be boosted into an orbit about 100 nautical miles above the earth by a two-stage Saturn launch vehicle.

ROTARY CLUB NEWS

By DR. W. A. STALLARD
Elmer Reynolds, Public Relations Director for Ben Hill Griffin, Inc. gave us a blow by blow description of the recent Democratic National Convention which he attended as an alternate delegate from Florida. As most of us already suspected, the communications media badly failed the American public in the reporting of this event. The news was horribly slanted against Mayor Daley and the Chicago police.

Elmer stated that the hippies were present in force, and even before the convention began, had announced plans to disrupt it as much as possible. Because of these previously announced plans which included burning and looting major downtown hotels and burning the stock yards, many people chose not to attend. The leaders of this group were professional agitators who came to Chicago from all parts of this country and some foreign countries as much as a month before the convention was scheduled to open. Most of these leaders were communists. The Chicago police had informed in the hippie ranks and knew most of the plans of procedure in advance. Most of the injured were hurt trying to protect these leaders from the police; however, most of the leaders were nevertheless arrested and most had previous police records.

Many of the "newsmen" who were hurt were not professional newsmen at all, but freelance writers mingling with the crowd and could not be identified apart from the crowd. Following the arrest of their leaders, the hippies became docile as a group, though their behavior left a great deal to be desired.

The Florida delegation to the Convention was well organized and gave all candidates a hearing in private caucus. On the Convention floor Florida vote went predominantly for Humphrey with a few votes being cast for Senator McCarthy.

THE BIBLE SPEAKS TO YOU ON RADIO

A person with a serious illness can be compared to someone having a nightmare. There is a need to be awakened. The dream that we are cut off from God's goodness and care can be broken. Listen Sunday, 9 A.M. WJCM, "One Element of Christian Healing."

CARD OF THANKS

I am home from the hospital and wish to thank all my good friends for their visits, flowers, cards and gifts, they were deeply appreciated.

For his latest novel, Frank G. Slaughter has chosen to write on his favorite subject—events in the Bible—this theme. This book he has entitled "The Sons of Herod," a novel of Rome and the early church beginning just after the crucifixion of Christ.

The story is told by Prochorus, a freeman, Roman citizen of Judea, as he relates to the "historical and cultural background of one of history's most stirring epochs." Prochorus tells of his love of a woman and his involvement with Christianity. The Roman Empire is ruled by violence, intrigue, personal ambitions, greed, distrust, and a sense of lawlessness. Throughout Prochorus has to decide between temporal rewards of serving Rome and the spiritual salvation of serving Christ. There are five places where he lives, for which he serves as a messenger, taking part in his decisions—Tiberias, Antioch, Babylon, Rome, and Caesarea.

Dr. Slaughter says he is indebted to much resource material, particularly, passages taken from the Jerusalem Bible. He is increasingly amazed at the "remarkable frequency with which fact is indeed, stranger than fiction."

THE PURPOSE OF PROPER ENGINE LUBRICATION is to maintain adequate oil film over the necessary moving parts. The correct grade of oil must sustain this oil film while withstanding intense heat and the close tolerances between those moving parts. Basically, as your miles on miles, the tolerances become less because of wear and a heavier grade of oil with a higher viscosity is required in order to perform the same job of oil film. Much of the driving public takes auto lubrication and oil change for granted. This is a mistake, for with the advance engineering of today's cars it takes not only oil and grease but proper lubrication equipment, technical knowledge and a dedicated service people to give your car the treatment it deserves.

Suffer from See-Saw temperatures?

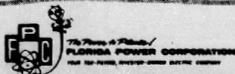

Step up to TOTAL COMFORT ELECTRICALLY
and prevent hot-and-cold miseries.

Winter evenings in Florida can be nippy enough for heat, with days often warm enough for air conditioning. Result—some homes teeter between too-hot and too-cold...and keep you busy trying to strike a happy balance. No wonder the most up-to-date Florida homes are equipped with electric heat pump!

With a flameless heat pump, you set the temperature once and it keeps you in care-free comfort all through the house—year-round. It heats, cools, or turns itself off automatically—no matter how often or how fast outside temperatures see-saw.

Step Up Now and SAVE \$50

Any residential customer who replaces flame-type heating with whole-house electric heating and cooling between now and Dec. 1, 1968, will receive a \$50 installation allowance from us. Get details from your heating or air conditioning contractor.

AT LAST, HERE IS A PLAN THAT ACTUALLY PAYS YOU: ■ **extra cash up to \$10,000** ■ **extra cash from your first day in hospital** ■ **extra cash direct to you** ■ **extra cash to use any way you want** ■ **extra cash in addition to Medicare or any other insurance!**

Act Now—GET FIRST MONTH'S PROTECTION FOR ONLY \$1

Money back in full if not 100% satisfied. No age limit. Join NOW—This Introductory Offer lasts only 10 more days.

NOW... you and your family can join this Extra Cash Income Plan with no red tape, no questions to answer, no medical examination, no age limit, without having to see a salesman and without any qualifications whatsoever. But you must mail your Enrollment no later than Midnight, Oct. 20, 1968.

Why You Need This EXTRA CASH Plan in Addition To Ordinary Hospitalization and Medicare

You know, of course, that the tremendous jump in hospital costs has forced millions who already have hospitalization to dig into savings or go into debt. Even with Medicare, they risk using up their savings or, worse yet, turning to family and friends for help. In fact, very few people have enough savings, hospitalization or income to cover the TOTAL cost of being sick or injured.

How long could you stay in the hospital without worrying about the pile-up of daily expenses? Who will pay for the expenses of extra X-rays, doctor bills, drugs and medicines? And how about the expenses at home—rent, food, telephone and others that just go on and on? With Extra Cash like this, you could avoid having your savings wiped out and your family life upset?

Better Safe Than Sorry

Wouldn't it be comforting to know these problems could be solved by your Extra Cash Income Plan? This plan that gives you \$100.00 a week—IN CASH—tax-free—from the very first day you're in the hospital for up to 100 full weeks.

PAYS YOU CASH... \$100.00 a week from first day in hospital

PAYS YOU CASH... to a maximum of \$10,000.00 any hospital stay lasting 100 weeks!

PAYS YOU CASH... Money mailed direct to you—not to the doctor or hospital!

PAYS YOU CASH... In addition to hospitalization, Medicare and Workmen's Compensation!

18 Important Questions Answered

That tell you how Union Fidelity's \$100.00-A-Week Extra Cash Income Plan gives you the protection you need—at amazingly low cost!

- How much will this policy pay me when I go to the hospital?
You will receive \$100.00 per week.
- When will my hospitalization benefits start?
The day you enter the hospital.
- Will I be paid if I am in the hospital for less than a full week?
Yes. This new plan pays if you are in the hospital for only a day, or a week, a month, a year.
- Does this policy have any "waiting periods" before I can use it?
No. It will go into force on the same day we accept your completed Enrollment Form and \$1.00 premium for the first month's coverage.
- How long will I continue to receive my Extra Cash?
For every day you are hospitalized for as long as 100 weeks for every covered accident or sickness.
- Is there any red tape to join?
No. We only ask you to complete and mail your Enrollment Form before the deadline date shown. No questions to answer. No salesman will call.
- Suppose I collect benefits for a certain sickness or accident. What happens if I am hospitalized again for the same condition?
You go back to collecting your \$100.00 a week until you've been hospitalized for a total of 100 weeks and have collected \$10,000.00. Then, if the same condition puts you back in the hospital after you've resumed your normal activities for six months, you become eligible to receive \$100.00 a week again, for up to 100 additional weeks. Any new condition will be covered immediately, of course.
- How may I use these benefit payments?
You may use them any way you wish—for hospital and doctor bills, rent, food, household expenses or anything else. You alone decide how to use the money.
- Why do I need your Extra Cash Plan in addition to my other insurance?
Chances are your present hospital insurance won't cover all your hospital and medical expenses. Even if it did, you still need extra cash to cover all your household expenses.
- May I join if I am over 65?
Yes. You are welcome to join no matter what your age is. This Plan has no age limit.
- Can you cancel or refuse to renew my policy for health reasons so long as you make your premium payments on time. Also, we guarantee that we will never cancel your protection or adjust your rate unless we take the same action with regard to all policies of this type in your state. You, of course, can drop your policy on any renewal date.
- What is not covered by this policy?
The only conditions not covered are hospitalization caused by mental disorders; act of war; pregnancy, childbirth or miscarriage; or care provided in a government hospital. You are even covered for any chronic ailment or pre-existing condition after your policy has been in force for only two years. Everything else is covered.
- Can other members of my family take advantage of this special offer?
Yes. Just add their names to the Enrollment Form when you fill it in.
- Why is this offer good for a limited time only?
Because by enrolling a large number of people at the same time our underwriting, premium and policy issue costs can be kept at a minimum. These savings, of course, are passed on to you.
- Do I need a medical examination or a statement from my doctor?
Definitely not. Just fill in the Enrollment Form and send it off today with \$1.00.
- What other advantages are there of joining this Plan now?
By joining now you do not need to complete a regular application—just the brief form in the lower hand corner of this page. Also, during this enrollment period, there are no other qualifications—no "waivers" or restrictive endorsements can be put on your policy.
- How does the Money-Back Guarantee work?
Examine your policy carefully in the privacy of your home. If for any reason you are not completely satisfied, return it within 30 days and we will promptly refund your money. Meanwhile, you will be protected while making your decision.
- How do I join?
Fill in the brief Enrollment Form (be sure to sign your name) and mail it with \$1.00 for the first month's protection to: UNION FIDELITY LIFE Insurance Co., 302 S. Jupiter Ave., Clearwater, Fla. 33515.

Even If You Are Over 65 This Extra Income Plan Pays You Cash in Addition to Medicare and Other Insurance!

Even though Medicare will pay most of your hospital expenses, it just can't cover everything. Your Extra Income Plan helps solve this problem by paying \$100.00 a week in cash, direct to you, for as long as 100 weeks... and gives you the privilege of spending this money any way you want. With your total benefit amounting to \$10,000.00 you'll never have to turn to your children or charity. You'll keep your financial independence and enjoy the peace of mind that this Plan's EXTRA CASH will give you.

Absolutely NO LIMIT On Age

This Plan welcomes you no matter what your age is—and without any qualifications whatsoever! Even if you're over 65 you're still eligible... provided, of course, that you fill in and mail the Enrollment Form with just ONE DOLLAR during this limited enrollment period.

EXTRA CASH Gives Peace Of Mind and Security, Helps Replace Lost Income

Everything costs more these days. (Who knows better than you?) Hospital costs alone have TRIPLED in just a few short years... and they're expected to DOUBLE soon. While 7 out of 8 Americans have some hospital insurance, most find that benefits simply don't cover ALL the bills that mount up when sickness or accident strikes.

Union Fidelity created this low-cost Hospital Income Plan to help cover your UNCOVERED expenses while hospitalized... to put EXTRA CASH in your hand for bills from the doctor, the surgeon, the nurse, the druggist or anyone else who provides service and treatment you need and want. You may even have enough left over to help REPLACE any income you lose because of your confinement.

And remember: Your EXTRA CASH is paid direct to you... and you use it any way you want to!

These Are The Only Exclusions!

The new Union Fidelity "Extra Income Hospital Plan" has NO WAITING PERIODS. It covers you immediately for every possible kind of sickness and accident except of course, hospitalization caused by mental disorders; act of war; pregnancy, childbirth or miscarriage; or care provided in a government hospital. You are even covered for any chronic ailment or pre-existing condition after your policy has been in force for only 2 years. EVERYTHING ELSE IS COVERED!

Special \$1.00 Offer Expires Midnight of Date Shown On Coupon Below!

To introduce you to this remarkable new Plan we are making this unusual offer with a Money-Back Guarantee. We will provide you with this tax-free "Extra Income Hospital Plan" Form 478—for one full month for only ONE DOLLAR. To take advantage of this offer, fill in the Enrollment Form on this page and mail it with just \$1.00 before Midnight of the expiration date shown. A full month's protection will go into effect on the very day we accept your Enrollment Form.

When you receive your policy, examine it in the privacy of your home. Show it to your lawyer, your doctor, your clergyman or any trusted advisor. Then decide for yourself... and while you're making up your mind, you'll be protected by this wonderful Plan. If the Extra Cash Income Plan isn't everything we say it is, return the policy within 30 days and your money will be cheerfully refunded with no questions asked. However, if you decide to continue this worthwhile protection, you may do so at these low rates:

Union Fidelity Monthly Renewal Rates

Age at Enrollment	Monthly Premium
0-39	only \$3.80
40-54	only \$4.80
55-64	only \$5.80
65-74	only \$6.80
75 and over	only \$9.10

NOTE: The regular Monthly Premium shown here (for your age at time of enrollment) is the exact amount you will continue to pay for the life of your policy. It will never increase because you pass from the age bracket to the next. It won't even change because of frequent claims or the amount of money you collect. It can change only if there is a general rate adjustment affecting all policies of this type in your state.

How Can We Offer All This Protection For So Little?

If you're lucky, you can buy ordinary insurance at any time and pay regular rates. But NOW—with just a string of your pen—you can get Union Fidelity's \$100.00 a week (\$1428 per year) Extra Cash Income Plan for the special low cost of only \$1.00 for the first month. And how is this possible? BECAUSE UNION FIDELITY ENROLLS A LARGE NUMBER OF PEOPLE AT ONE TIME... direct by mail. This highly efficient "mass enrollment" cuts our costs to the bone. We are able to issue thousands of policies in a few short days. By this method our overhead expenses are reduced drastically. And the savings are passed on to you!

After the first month you continue your protection at Union Fidelity's low monthly rates. And bear this in mind: the rate you pay now will never be increased because of changes in your health or age—nor will your benefits ever be reduced!

A Nationally Respected Company

As important as the cash income itself, the low cost and ease of enrollment, is this one vital fact: Your policy is backed by the resources, integrity and national reputation of Union Fidelity Life Insurance Company of Philadelphia, an old line legal reserve company licensed in 49 states and Washington, D.C.

Easy To Join—No Red Tape—

Join NOW. During this limited enrollment period there are no questions to answer... but you must mail the Enrollment Form BEFORE the Midnight deadline. We will issue your "Extra Income Hospital Plan" and put it in force the very same day we receive your Form.

Why not take a moment right now to fill in your Enrollment Form and mail it with only \$1.00, the "introductory" cost for your first month's coverage.

\$1.00 No Risk Money-Back Guarantee!

Because we're so confident this Extra Income Plan that PAYS CASH direct to you is the best low-cost protection now available, we make our famous Money-Back Guarantee. When you get your policy look it over. You must be 100% satisfied that your Plan is exactly what we promise and exactly what you want. If you're not, send the policy back to us within 30 days and we will REFUND YOUR MONEY IN FULL... AT ONCE. But meanwhile, you will be protected. And if you decide to continue this wonderful protection, you do so at the low rate that will never be raised because you grow older!

Join NOW—"TOMORROW" MAY BE TOO LATE! This is a limited enrollment. YOU MUST ACT NOW! The expiration date shown below can't be extended. If your Enrollment is mailed later, it can't be accepted. TIME IS PRECIOUS! Get your Enrollment Form and \$1.00 in the mail... today!

Red Devils Meet Wauchula Friday In 5th Game of Season

The Avon Park Red Devils fell victim to the passing and running sting of the Haines City Hornets last Friday night losing 32-12 for the fourth straight loss in a surprisingly dismal season for the Devils. The outlook for the future is almost as dim as the facts of the past as the Devils are scheduled to meet the Hardee High Wildcats in Wauchula tomorrow (Friday) night in the fifth game of the year.

The Wildcats are not having a very successful season either having lost their last three outings after winning the opening game against Ford Meade by a score of 20-0. Last week Lake Wales

rallied to hand the Wildcats a 6-0 defeat and Kathleen won over the Hardee High eleven 39-14. Plant City skinned by the Wildcats in the second game of the season in the last seconds of the game by a score of 20-19.

The Red Devils are definitely hurting in the backfield with Willie Joe Seigler playing with an ailing leg and Neal Caswell nursing a bad knee. The running of fullback Billy Richards is one performance which has come up to expectations as the plucky senior has consistently averaged over five yards per carry in the four losing efforts.

Last week Haines City

jumped on the Devils early. Avon Park's kick-off went out of bounds and was automatically set on the Hornets' 20-yard line. From that mark, on the first play from scrimmage, Hornet quarterback Harold Hughes dropped back and heaved a long pass to halfback David Gaffney who took it in about the Devil thirty and raced into the end zone for the six points. Terry Smith's kick for the point after was good.

Avon Park seemed destined to failure from the beginning as Seigler fumbled the ball on the Devils' first running play from scrimmage and Haines City recovered the ball on the Devils' 46-yard line and drove for a second TD in six plays. A 17-yard pass play from Hughes to Smith and an 11-yard advance by halfback Mike Richardson set up the score which came from the three yard line on a running play by Richardson. This time Smith's kick was good and Haines City led 13-0 with only minutes gone in the game.

Late in the first period Avon Park moved to the Haines City eight yard line on a 41-yard pass play from Hughes to halfback Neal Caswell but the Devil's hopes of getting on the scoreboard.

In the second period the action centered between the 20-yard lines until just before the half when Haines City marched from its own 16 for another score. A 30-yard scamper by Hornet quarterback Bruce Falson highlighted the drive and a 30-yard pass play from Hughes to Richardson kept the drive alive after the Hornets drew a 15 yard penalty. The touchdown was scored from the 10 on a pass from Hughes to Falson after Hughes eluded a host of Devil linemen who almost had him trapped for a big loss. Again Smith's kick was good and the Hornets went to the dressing at halftime with a 20-0 lead.

The Red Devils came back to open the second half with their longest sustained drive moving from their own 39-yard line for a touchdown. Halfback Neal Caswell scored the TD skirting right end for the last six yards and going in standing up. Sizemore's soccer-style boot for the extra point was no good. Haines City boomed a right back for another score moving 60 yards on the ground this time for the touchdown. This time it was Bruce Falson darting and scampering 15 yards through the Devils for the score. The point after was no good and the score stood 26-0 as the third quarter ended.

Avon Park's second score came mid-way in the final period. The Devil defense has held on three consecutive passes by the Hornets from their own 18-yard line. Then a rush on the punter caused a poor kick of just 12 yards and Avon Park had a decision on the Hornet thirty.

The Devils moved on the ground for the score with Billy Richardson and Neal Caswell.

(Continued on Page Two)

RED DEVIL CENTER Tom Townsend is one of the most experienced players on the team this season and serves as co-captain with back, Billy Richards. He has been the number one varsity center for the past two years and is considered a prime candidate for district all-star honors this season. Tom also plays linebacker on defense and is one of the main stays in the Devil middle defense.

Superintendent Testified Before HEW In Desegregation Dispute

Highlands County School board's first formal hearing before the civil rights division of Health, Education and Welfare lasted from 10 A.M. to 4:40 P.M. on October 11—with School Superintendent George F. Douglas on the witness stand for virtually the whole time.

The hearing is a part of the administrative proceeding which has been filed against Highlands County School board for alleged failure to comply with federal law requiring racial desegregation of public schools.

The proceeding could result in loss of all federal funds to the county schools.

Douglas said 10 to 12 days

are allowed for preparation of the hearing transcript. After the transcript arrives 15 days are allowed for filing of a brief. Under present law the hearing of fact must be held within 30 days after the brief is filed—or a maximum of 35 days will elapse from the hearing date until a decision is reached.

School board chairman Henry Bailey made the trip to Washington for the October 11 hearing and was prepared to testify, but neither Highlands School Attorney Frank Bryant nor the HEW counsel chose to call additional witnesses after Douglas had completed his long testimony.

Boardman Receives Safe Driving Award

C. B. Gladden, Regional Director of the Atlanta Postal Region announced today the granting of a Certificate for Superior Accomplishment and a check for \$100 to Philip E. Boardman, Rural Route 2 carrier at the Avon Park Post Office.

Mr. Boardman has completed more than 21 years of safe driving, in accordance with the rules and regulations set forth by the National Safety Council. His performance in all elements of his job has been more than satisfactory.

Mr. Boardman has driven more than 400,000 miles for the Avon Park Post Office since September 1935. He was granted military leave in 1942 and served with the United States Navy for four years. After his return from military leave he was appointed Rural Carrier in 1947, and has served in this position continuously since the appointment.

Mrs. Carolyn Tomlinson was presented a Certificate of Award from the Regional Director C. Banks Gladden in recognition of her suggestion to place a sign outside and inside Post Offices that are Civil Service Examining Points—identifying them as such. An outside sign was not recommended. However, a sign will be placed in the Avon Park Post Office identifying it as a Civil Service Examining Point.

Mrs. Gladys H. Smith, Examiner in Charge of the Civil Service Examining Point was presented a Certificate of Training that she has satisfactorily completed the course of Examination Charge given at Orlando, on May 28 and 29, 1968.

ROBERT RUST
Breakfast Honors Bob Rust Today

It will be "Bob Rust Day" today (Thursday) in Highlands County.

The congressional candidate from West Palm Beach, a Republican, will spend all day in the county meeting and visiting with his friends and supporters.

He will start the day with a breakfast at Griffin's Restaurant in Avon Park, time 8 A.M., followed by an appearance at the band shell on the mall and a visit to the business establishments of the city.

He will participate in WSEB's "self expression" program at 12:15 P.M., followed by a visit to the Sebring business district. Starting at 3:30 P.M. he will be in Lake Placid, returning to Sebring to attend a covered dish supper at city pier.

Rust was elected to the Florida House of Representatives in 1966 and re-elected in 1967. He was named as an outstanding member of the House by the legislative press for his leadership and exemplary work in the legislature.

He was author of 12 bills passed in the 1967 session among them were anti-riot and anti-crime bills. The Americans for Constitutional Action have elected him a rating of 80 percent on his conservative vote on legislation.

A resident of Florida since 1960, Rust is 39 years old. He and his wife, Mary, have six children. He is a lieutenant colonel in the Marine Corps reserve and is a veteran of the Korean War.

Attempt To Override Veto Of Garbage Tax Increase Fail

At the first regular meeting of the new administration of the Avon Park City Council Monday night an attempt to override the veto of Mayor Jimmy Deere of the garbage and trash ordinance failed for lack of four-fifths vote with Scott, Last and Martin voting to override the veto and Duggan voting no.

The ordinance which would have added \$21,000 to the city and had already been budgeted. Now the council is faced with either cutting the amount from the budget or finding another way to raise the money.

In vetoing the ordinance Mayor Deere said: "I am often criticized for my compassion for my fellow man, but in keeping with my feelings toward our people that most of necessity live on limited income, I must veto ordinance No. 496 which taxes our poor the same amount as those better able to pay."

Scott asked other members of the council how they expect to meet their obligations without the badly needed money when he urged the members to override the mayor's veto, although later in the meeting the council show no sign of concern while approving items in the budget that are the least urgent.

Also brought up again before the council was the proposed lease of six acres of land at the airport to Shelby Marris. The F.F.A. suggested some changes be made in the lease that was proposed. The main objection was the length which was 50 years. They recommended a 15 year lease with one, five year option.

Mayor Deere recommended a 20 year lease at \$50 per month and any buildings built on the property revert to the city and Marris to pay state and county taxes and no subleasing.

Marris told President Duggan, who was not at the meeting in which the lease was agreed upon, his offer of \$30 per month was arrived at ten percent of the property value, and \$10 per month for the use of the runway.

Marris said another business had contacted him and was interested in starting in conjunction with his business when an agreement is reached on the lease called another meeting for Monday night at which time the recommendations of the F.F.A. will be added to the lease and promised Marris he would get a yes or no on whether or not the city would lease him the land.

An airport committee was named by Duggan. The members are Duggan, Weyman Carver, Charles Whitehead and Don Serdynski.

Another item scheduled for the special meeting Monday night is an explanation from the Avon Park Housing Authority on progress and the reason Don Correll suddenly resigned after being with the project from the time it began two years ago. Robert E. Lee was appointed chairman for the next year succeeding Harold Worden.

A group of local residents named as the Avon Park Ministerial Association asked the council to rescind the ordinance allowing the sale of alcoholic beverages after 12 midnight. Now bars can stay open until 2 A.M.

A motion to rescind the new ordinance failed with a tie vote after Duggan gave Lane the gavel. Martin and Duggan voting yes and Scott and Lane voting no and Howard abstaining.

Those who violated and received parking tickets, which remain unpaid, are hereby warned that unless paid by October 21, warrants will be issued. Fine plus court charges will be imposed. Tickets received for violation are due within 24 hours.

In Other Action
Council agreed to advertise to bids on material for water and sewer lines to the Junior College. Dawkins and Associates also recommended that the city purchase a pumping station and let a contractor install it. The material for the college is estimated approximately \$30,000. In the agreement the college will pay this back in five years.

Agreed to sell land at the city industrial site to Alco Helicopters for \$800 an acre for high ground and \$600 per acre for low ground. Persons having claims on the property will be given 30 days to remove them.

Appointed Mrs. Totie Haywood as assistant city clerk at \$85 per week.

Hired Neil Sellars to make a School and Stop sign and a sign for painting streets, at a cost of \$80. The letters will be five feet.

President Duggan said he had studied the city charter and it showed that the council was a legislative body and work should be handled by the department heads and if they could not solve their problems to bring them to the city clerk and then if not bring them before the council as a whole.

Duggan requested the city attorney to give an opinion on this at their next meeting.

Letter To The Editor

Editor, The Sun:

In a recent issue, Lewis Llewellyn referred in his column, "Pitiful Voluntary Prayer in Schools," to a case in New York.

I have used a similar item in various churches but my information has to do with Illinois rather than New York, although the same prayer and similar court findings. Perhaps both cases are true. Also, perhaps Llewellyn might be interested in the version I have—herewith.

Mr. and Mrs. Lyle DeSpain objected to this prayer being used by kindergarten children. "We thank you for the flowers so sweet. We thank you for the food we eat. We thank you, God, for everything." (same prayer) They brought their objection before the DeKalb County, Ill., school board (1964). The board took God out of the prayer, assuming that would solve everything. But the DeSpains insisted it continued to be a prayer, and the matter into court.

An Illinois court decided it was not a prayer with God omitted—but DeSpain continued to U. S. District Court for Northern Illinois, Eastern Division—where court decision was overturned—it was a prayer. The school board then took it to the Supreme Court where the District Court decision was upheld—IT WAS A PRAYER. According to

Llewellyn's story the Supreme Court refused to hear the case, which amounts to the same decision. Incidentally, it is my understanding that a New York Court has upheld the school board decision that the 4th stanza of "America" cannot be used in the schools. "Our Father's God to thee..." I have not been able to verify this however.

Yours truly

well picking up the necessary yardage. From the 3-year line Richards blasted through the middle for the TD. Don Slemore faked a kick and then passed incomplete on the extra point attempt when his end dropped the ball in the end zone.

The Hornets final touchdown came on the following series of plays when Hughes hit end Doug Hayes on another long pass and the big end rumbled in for the score. The play covered 56 yards. The kick for the PAT was no good and the score was 32-12. The game ended with Haines City in possession on Avon Park's fifteen and driving.

An Open Letter to Highlands County Voters:

In this newspaper there is a pictorial example of the type of terror campaign being waged by the opposition. In the past few months the Wallace Supporters have had two billboards completely destroyed, signs taken from the front yards of supporters and torn up, and we have had bumper stickers and cars while they were parked downtown. This destruction of private property (not to mention the time involved in putting this material up, has cost the Highlands County Wallace Campaign a great deal of money. We need your help in the coming weeks to help meet the expense of the campaign: newspaper ads, radio announcements, etc.) If you would like to help either send your contribution to:

Wallace Campaign Highlands County

20 East Center St.

Sebring, Fla.

or contact us (EV 5-8064) and offer your support. We have been denied equal treatment on national television and in the newspapers nationally, and it seems that there is a small minority who would deny the people of Highlands County from hearing about George Wallace. It is time we stand up for ourselves. We are so intent on refusing to allow the people to decide for themselves whether or not they approve of the policies advocated by George Wallace. The message on the two Wallace billboards before they were destroyed was:

"We Take Courage to Stand Up For America. George Wallace Has It. DO YOU?"

Do you have the courage of your convictions? Vote for the man, not the party.

Sincerely,

Steve Rackley

LEWIS LLEWELLYN

Bible Would Show Safe Way to Go

Mrs. Lyndon Johnson recently was presented a Bible in connection with the planned celebration of National Bible Week, Oct. 28-29.

The ceremony was held in the White House, with Edmund F. Wagner of New York, president of the American Bible Society, and K. S. Gungor, also of New York, president of the Laymen's National Committee, making the presentation.

The Bible is the one book which has stood the test of time and is still the world's best-seller.

"There is a book worth all other books which were ever printed," Robert E. Lee gave his evaluation of the Scriptures in these words.

"The Bible is a book in comparison with which all others in my eyes are of minor importance, and which, in all my perplexities, has never failed to give me light and strength."

"God's Best Gift"

Lincoln said, "This great book is the best gift God has given to man."

Horace Greeley declared, "It

is impossible to mentally or socially enslave a Bible-reading people."

John Wesley recorded in his "Journal" this evaluation of the importance of the Word of God in his life: "I am a Bible-bug! I follow it in all things, both great and small."

However, the Bible is not of much value to those who defend its authority but neglect to read it and allow it to work in their lives.

"What makes the difference," declared the great evangelist, Gipsy Smith, "is not how many times you have been through the Bible, but how many times and how thoroughly the Bible has been through you."

"Light to My Path"

One of the psalmists described the Bible as "a lamp unto my feet and a light unto my path."

Although some scientists question the authority of the Bible, others unhesitatingly affirm it. The late Dr. Howard A. Kelly, of Johns Hopkins University, declared, "My intimate experience has shown me that the Bible is

a living Word, just as definitely God's Word to me—and to every man who reads it—as a letter received in this morning's mail from my mother is her word to me. As such the Bible is its own defense."

If those who want our country to recover from its present descent into the depths of crime and violence would undertake to read the Bible and encourage others also to read it, we would be on the way out of our troubles.

D. L. Moody once said, "Sin will keep you from this book or this book will keep you from sin." Each of us must choose which way it will be in his life.

National Bible Week would be a good time to renew our interest in the reading of the Scriptures.

If you would like to have a free pocket-size copy of the Gospel of John or the Epistle to the Romans, you may write to Lewis Llewellyn, in care of this newspaper or at Box 100, Sebring, Florida. Please specify which book you would prefer to have.

BOUND OVER

Farris Carpenter of Wauchula was bound over to Circuit Court Monday by County Judge Marvin Rehner on a charge of breaking and entering Phillips West End Grocery Area Park, September 1. Bond was set at \$2,500.

Let a man willing to work, work for you—elect Herb Harman County Commissioner.

DO YOU HATE HER? Is getting old a crime?

Why did Rep. Crabtree not vote for salarys for the commission agency? Or for medical services for the needy? Why did he not support the \$10,000 homestead exemption for older and disabled people?

Why did he vote against funds for the Deaf and Blind School? Why did he vote for a 3 per cent sales tax on groceries? Why did he vote against funding community hospitals and the State Board of Health?

Russ Jordan does care. A former state representative, he will protect our senior citizens. He will be present and vote (Rep. Crabtree missed 91 per cent of the voting in the constitutional session).

Final Tax Roll Shows Increase of \$5 Million In Taxable Property This Past Year

Highlands County commis-
sioners accepted Tuesday the ex-
tended 1968 tax roll which shows
an increase of over \$5 million
in taxable values within the
county in the past year.

Billy Martin, county tax as-
sessor, in presenting the roll to
the commission, pointed out that
the 1967 Legislature enacted a
law which reduced valuation on
inventory and livestock 50 per
cent this year and will cut it to
25 per cent in 1968. This resulted
in a \$2.5 million drop in the
county's personal and intangible
tax roll. This was offset by a
\$7 million climb in real estate
values.

The jump in real estate
values is due, Martin said, to
new home construction, a new
condominium apartment build-
ing, some new commercial
buildings, improvements to ag-
ricultural lands and aging citrus
groves.

The total non-exempt prop-
erties in 1968 are valued at
\$209,305,302. In 1967 the total was
\$205,800,340. Homestead exempt
values rose \$945,230 to a new
high of \$35,385,230.

As they adopted the tax roll
Tuesday the commissioners also
issued to the tax collector war-
rents for collection of the 1968
taxes—\$2,858,825.57 or \$442,990
more than in 1967.

Martin said, "Although the

taxing authorities have been
forced to increase the tax rate
by 1.76 mills, Highlands Coun-
ty still enjoys an enviable posi-
tion of having one of the lowest
tax rates in the entire state. All
tax bills will be up about \$1.90
for each \$1,000 of taxable value
to cover this additional levy."

Martin pointed out that the
average county millage in Flor-
ida last year was 15.43 mills and
ranged up to a high of 20.36 in
Gulf County. The four counties
with lower millages than High-
lands County's 11.65 mills (in
1967) had, all added together,
less population than Highlands.

"The figures for 1968 are not
available from the comptroller,"
Martin told the commissioners
Tuesday, but I am confident
that our 12.646 mills will be
low."

Well over half—58.91 per cent
of the 1968 taxes—will go to op-
erate the county schools. With
100 per cent of collections, the
school income will be \$1,694,156.

The county commissioners get
a 35.1 per cent bite for \$1,063,
618. Highlands General Hospi-
tal's share of taxes is down from
5.49 to 4.76 per cent, but the
income will go up about \$4,000
to \$13,000.

Central and Southern Florida
Flood Control (which does not
include all of Highlands County)
uses up .1 of a per cent and

the income may climb to almost
\$10,000 to \$25,000.

The intangible taxes levied for
1968 come to \$77,000.

For county officials it's full
speed ahead now to get the 1968
tax bills in the mail. Collection
of taxes begins November 1
with the traditional 4 per cent
discount for the early birds who
pay in the month of November.

Bond Prices Keep County Out of Market

An overnight skyrocketing in
bond prices has pushed the
Highlands County school board
out of the market place, the
board said.

The school board financial
agents, Wainwright and Ramsey,
contacted Superintendent George

F. Douglas early Tuesday and
told him prices had jumped
sharply this week and they
would advise postponing the sale
which had been slated for Oc-
tober 29.

The issue backed by bonds
from race track and jail jail

taxes will provide the "best
egg" for the school building pro-
gram in the county in the cur-
rent school year.

Douglas said Tuesday that
Wainwright and Ramsey staff
had not suggested a new sale
date.

Four Former Panthers Sign Athletic Scholarships Recently

Four former Panthers at South Florida Junior College have signed full or partial athletic scholarships to four-year schools. These include three baseball and one basketball.

Junior Gale, a Panther guard for two years, signed a full grant in aid to Stetson University. Rocky Kitchens turned down a partial scholarship to Southern State in Arkansas. Skipper Gause is finishing up his degree at South Florida Junior College and is undecided on his choice of schools. Gale is reportedly in line for a starting position at Stetson.

In baseball, Keith Blanton signed a full grant in aid to the University of South Florida at Tampa. Keith played shortstop for the Panthers.

Ted Butler signed a partial scholarship to Stetson and Charles Moonshine signed a partial scholarship to Southern at Lakeland.

The Panther basketballers will begin practice in earnest Monday, Oct. 21, for another tough schedule that includes 21 regular games and two invitational tournaments.

The Panthers will enter the St. John's Invitational in Palatka, January 3-4 and the Edison Invitational in Ft. Myers Friday and Saturday after Thanksgiving.

The Panthers are in mid-term exams this week and some indication of their academic status will be revealed from these exams. The Panthers will play McDill Air Force two practice games prior to opening their season in November.

200 Attend 4-Hers Third Annual Awards Banquet Thursday

About 200 4-Hers, parents, and guests attended the Third Annual 4-H Awards banquet Thursday. The event was held at the Woodlawn Elementary School cafeteria. The theme was "Youth Building a Stronger America."

Twenty-six 4-Hers received awards based on their project record books. Most of the awards were in the clothing, foods, and beef project areas.

These 4-Hers were also presented membership pins signifying their number of years in 4-H.

Two 4-Hers received special awards for their leadership in 4-H over the past year. Bert Harris, III, received the Florida 4-H Key Award sponsored by the Cities Service Oil Company. Bert received this award for his leadership as the Lake Placid 4-H Club president. Highlands County 4-H council representative and many other leadership roles. Ann Walker received the "I Dare You" award sponsored by the Danforth Foundation for her leadership and achievements this past year in 4-H. Ann has won several awards this year in her public speaking project.

Three 4-H alumni in Highlands County were also recognized by the 4-Hers. They were Kelsey Payne, Don Deuchtyler, and Rick Dressel. Kelsey Payne is a rancher from Sebring and is presently very active with the Highlands County Junior Livestock Committee and has a daughter raising her second steer for the County Fair. Don Deuchtyler is a rancher from Cornwell. Don won a trip to National 4-H Congress and the Southeastern Fair in Atlanta with his string of Brahman cattle when he was in 4-H in Highlands County. Don presently has two boys raising steers for the County Fair. Rick Dressel is a dairyman from Avon Park and was in a Horse and Dairy 4-H Club in Dale County in the early 1960's. Rick is presently very active on the Junior Livestock Committee.

Guest speaker at the banquet was Joe Hatch, Florida 4-H Council president from Suwannee County. Joe spoke on what 4-H is all about by relating some of the 4-H experiences.

Last Week For Surface Mail To Far East

The third week in October is the latest date that surface parcels for the Far East should be sent surface mail in order to reach their destination by Christmas.

Taking into consideration the normal length of time in transit, customs inspection, and other formalities that parcels may be subjected to in the countries of destination, surface and air parcels mailed not later than the dates shown below should normally reach the addressees before Christmas.

South and Central America—

surface mail, November 10, air mail, December 10.
Europe—surface mail, November 30, air mail, December 15.
Near East—surface mail, November 1, air mail, December 10.
Far East—surface mail, October 15, air mail, December 10.

Parcels must be in strong containers, with contents snugly packed with sufficient cushioning material around each article to avoid shifting or other inside movement. Heavy kraft wrapping paper, securely tied around the carton helps keep the parcel intact.

Customs declarations, completed by the senders are required on many parcels to overseas addresses. If further information is desired please call the Avon Park Post Office, GL 3-3923.

alco- topics

By PAUL C. FORAKER
Editor, Information Services

This column has now reached halfway into its first year of existence.

It was six months ago that ALCO-TOPICS made its first appearance in many of Florida's newspapers. In fact, 33 carried the first ALCO-TOPICS column which made its debut in mid-April.

Today ALCO-TOPICS appears on a more-or-less regular basis in 45 newspapers, and three of these are outside Florida. One newspaper in Texas and two in Pennsylvania, having learned of ALCO-TOPICS through an article which appeared in a national magazine, wrote us and asked to receive the column for publication each week. This, of course, we were happy to do.

We'd like to make our column today just one big "Y" for you, the publisher and editor of the newspaper in which you are reading ALCO-TOPICS. This column is carried free of charge by every newspaper using it. In other words, the papers publishing ALCO-TOPICS are public-spirited to say the least. Their cooperation means getting the message of Florida Alcoholic Rehabilitation Program across to the people of Florida at no expense to the State other than the cost of preparing and mailing the column.

The response to ALCO-TOPICS from its readers has been gratifying. Not many days go by that we here at FARP don't get requests of varying kinds from readers of the column for usually asking for literature or information on the Program.

We even feel certain that ALCO-TOPICS has played a part in at least a few Floridians with drinking problems seeking help—and finding it—through FARP.

The success of any plan or

program in these closing days of the Fourth Year depends to a large extent on the publicity it is able to disseminate about itself and what it represents from outside sources. This holds true whether the subject is alcoholism or agriculture.

Thus, ALCO-TOPICS is a vital link in the chain of information which FARP is attempting to get across to the people of Florida regarding the 100,000 alcoholics in our state.

The central message of FARP is "Alcoholism Is Treatable," and there are thousands of rehabilitated alcoholics in Florida who will happily attest to this statement.

If you'd like a license plate bearing this message, just drop a line to FARP's Information Services, Box 1147, Avon Park, Fla. 33822. It will be sent you free and postpaid.

FARP has not only license plates, but literature of all types on the subject of alcoholism. We're here to serve you!

And again, thanks to every newspaper publisher and editor who is using ALCO-TOPICS.

THE BIBLE SPEAKS TO YOU ON RADIO

Can hatred ever be changed to love? Yielding to God's love for all men, we can learn to love Jesus' command to love our enemies. Then we discover a power that carries us far beyond merely good intentions. Listen Sunday, Oct. 20, 9 A.M. WJCM to "The Healing of Hate."

Vote for the man that will represent all of the people of the county — Herb Harmon for County Commissioner. pd. pol. adv.

Redeemer Women Hosts Deanery

The Episcopal Church Women of Avon Park, acted as hosts to representatives of the Lakeland Deanery, at the Fall Deanery meeting held at Camp Wingmann on Oct. 7.

Present were 67 members, six priests and eight visitors. After the business meeting the members returned to the Conference Center for a series of "Workshops."

Discussions were held on Christian Education, Christian Social Relations, Church Treasures and United Thank offerings. After a delicious lunch, served by Mrs. Reba Turner in the mess hall, a member from each group gave a summary of the discussions. The meeting was adjourned at 2 P.M.

The Spring Deanery meeting will be held at Bishop Gray Inn, Davenport, March 7, 1969. It is hoped all of the E.P.W. members will make an effort to attend.

A "Spaghetti Day" will be sponsored by the Episcopal Church Women on November 18, to be held in the parish house of the Redeemer. There will be two services, at 11:30 A.M. and 7:30 P.M. Mrs. Ed Hall is chairman of the event and promises a varied and excellent menu with a choice of sauce and desserts, Italian bread and relishes. Tickets are available from Mrs. Rena Smith. Phone GL 3-6005 for reservations. Adults \$1.50, children under 12, 75c. Make reservations early.

Next regular meeting of the Episcopal Church Women will be held November 11 after the regular mid-week communion.

Resurrection Church Women Hold Meeting

The Women's group of Resurrection Lutheran Church held their regular monthly meeting Wednesday, Oct. 9 at the home of Mr. and Mrs. George Marsh, with eight members and one guest present.

Mrs. C. A. Lehman, vice president conducted the business meeting which was opened with prayer by Rev. Elmer Gregg. Mrs. Mervin Rehner gave the devotion. Mrs. Marsh as hostess, served refreshments, during the social hour.

Science Church Sunday Service

"Now that we are ambassadors for Christ, as though God did beseech you by us, we pray you in Christ's stead, be ye reconciled to God."

This passage from Paul's second letter to the Corinthians is part of the responsive reading of this week's Christian Science Bible lesson—sermon titled, "Doctrine of Atonement." It will be read in all the denomination's churches this Sunday.

One of the related passages to be read from the denominational textbook is the following: "Jesus of Nazareth taught and demonstrated man's oneness with the Father, and for this we owe him endless homage. His mission was both individual and collective."

He did life's work aright not only in justice to himself, but in mercy to mortals—to show them how to do theirs, but not to do it for them, nor to relieve them of a single responsibility." (Science and Health with Key to the Scriptures by Mary Baker Eddy.)

Methodist Circle 2 Hold Meeting

Twenty members of Circle 2 of the First United Methodist Church held their meeting, Wednesday, Oct. 9, at the Florida Power Lounge at 9:30 A.M.

Faye Gordon, Home Program, presented and secured the refreshments. Helen Tuten discussed business at large and had made and gave the instructions for making them. Mary Bransell, chairman of the Circle, conducted the business session.

AUDUBON SOCIETY

The Highlands County Audubon Society invites all interested persons to attend a bird walk to start at 8 o'clock Saturday morning, Oct. 18, from the Archbold Experimental Station south of Lake Placid. Dr. Lane, a member of the staff of the Experiment Station, will conduct the group.

Vote for the man who will do the job—Herb Harmon for County Commissioner. pd. pol. adv.

The Avon Park Sun

A DAILY PAPER NEWSPAPER

Avon Park, Fla., Oct. 17, 1968—18

One of our recent mystery stories at the Avon Park Library is Arantha Christ's "Endless Night"

"The site of the house called The Towers had once been known as Gipsy's Arre. When it was sold, Michael Rogers went to the auction, though he hadn't any money. His dream was of a new house on the old site to be built by his brilliant young architect friend."

It was at Gipsy's Arre that Michael first saw the girl he was to marry. The account of Michael's courtship of Elsie, their growing attraction

for each other is the starting point of this drama that begins and ends at Gipsy's Arre.

The story concludes with the revelation of a monstrous crime, complete with all the paraphernalia that has been required to effect it.

In this down-laden story, different in kind from the experience of Hercules Poirot and Miss Marple, all the author's great gifts of subtlety and interpretation are on full display. Here is something extraordinarily exciting.

ROTARY CLUB NEWS

By RAY H. STOKES

Al Burnett, co-owner of Critchfield Marine, spoke to the Rotary Club on the growth of the fiberglass boat industry. The fiberglass boat industry has gained in popularity since 1951 and 1964-68 were big years for this industry.

The Avon Park plant presently employs 63 people with a 1969 projected figure of 150 employees. Five boats per day are presently produced with the anticipated production of 20 to 24 per day.

Water pollution legislation and production risks are two major problems of the boating industry. Florida is the largest boat producing state with Texas second but Florida is not the largest in terms of usage.

Future plans of the Avon Park plant call for manufacturing of complete boat interiors. The first phase of the Critchfield building program in Avon Park is to be completed within a few weeks.

Mr. Burnett extended an invitation to visit the plant.

Yes, it is time for law and order in Florida.

And the only way to get it is to vote for Florida Democrats.

The Florida Republicans had their chance and muffed it. Before his election, the Republican Governor proclaimed he would do battle with crime and make it safe to walk on the streets.

Two years later, neither he nor his fellow Republicans can take rightful credit for one single solid accomplishment in the fight against crime.

The Republican Governor's "personal private army" against crime—a company that employs private detectives—was abandoned after costing a reported three-quarters of a million dollars.

Yet Republican candidates for office in the state of Florida are still advertising that it is time for law and order as though they had invented the idea.

And while the Republican Governor is flying around the country the people are afraid to walk the streets.

Here's what the Florida Democrats have done about the problem. In the past two years, just about every crime-fighting measure on the Florida books was initiated, fought for and passed by the Democratic leadership in the legislature—often against Republican opposition.

Florida Democrats fought for, and passed—against Republican opposition—various laws to care for the families of police officers killed in the line of duty.

Florida Democrats fought for, and passed—against Republican opposition—a committee to study and strengthen our state criminal laws.

Florida Democrats passed a bill—against stubborn Republican opposition—to establish a state-wide Bureau of Law Enforcement with strong centralized powers.

Florida Democrats secured passage of a law creating the Florida Intelligence Bureau. Florida Democrats passed acts to break up riotous assembly—to punish persons guilty of rioting—to prohibit outside agitators from inciting riot on any public campus—to provide additional jails—to set up new police standards. Florida Democrats beat down attempts to abolish capital punishment.

Yes, it is time for law and order in Florida. And the only way to get it is to vote for Florida Democrats.

Yes, it is time to elect people who care about people. Vote for the Florida Democrats.

JERRY KENDRICK is a senior defensive end playing his first year of football on the Red Devil squad. The 158 pound lineman is one of the most improved players on the team this year according to one of the Avon Park coaches. Last week Jerry was used on some offensive plays also and in some of the Devils defensive formations he plays outside linebacker. He is a tough competitor and one of the many Red Devils who refuse to give up in any game.

Red Devil "B" Squad Ties Sebring Headed by Varsity Coaches

Avon Park's "B" squad almost broke the three Red Devil teams losing streak last Thursday night when they led the Sebring junior varsity 6-0 until the final two minutes of play. The Strenks managed to score with time running out on a long pass play but couldn't take the win by scoring the extra point and the two rivals had to settle for a 6-6 tie.

With both "B" squad coaches out of action because of illness, the Red Devil varsity coaches were called into duty for the evening. Coach Larry Pickett took over the Devil junior varsity with help from coaches Joe Franza and Ralph Hill.

team) had lost earlier to Sebring. Both Sebring and Arcadia use ninth graders on their skelter squads but Avon Park's ninth graders play either "B" squad or varsity ball.

George Young Succumbs

George E. Young, 88, died in Arcadia Hospital Saturday night, Oct. 12. He was born in Florida and had lived in this area for several years. He was a retired farmer. Survivors include a sister, Mrs. Mollie Collins, Avon Park. Graveside services were held Tuesday, Oct. 15, 2 P.M. at Oaklawn Cemetery, Plant City, with Rev. E. B. Boykin of the First Pentecostal Church officiating. Scott-Stephenson-Smith Funeral Home in charge of arrangements.

NUMBER 85 on the Red Devil squad this season is offensive and defensive end, Curtis Hulen. In last week's game with Haines City the 166 pound junior, who is playing his last year of eligibility, turned in a stellar performance, especially in the second half. Hulen has caught three passes this season and made two long kick-off returns last week as he was dropped back to strengthen the return effort of the Devils. Last year Curtis lettered as a defensive end. There is a possibility he will be moved to the backfield this week to bolster the ailing running attack.

Girl Scout Troop 117 Elect Officers

Girl Scout Troop 117 held their second meeting of the fall season, September 23, at the United Methodist Church. Officers for the coming year were elected as follows: scribe, Laurie Rehner; treasurer, Dee Dee Jahna; recording secretary, Renee Vieti; publicity chairman, Darlene Vieti; telephone chairman, Linda Barben.

The girls have planned an all day hike to Horse Hammock, Friday, Oct. 18. This will apply as one of their requirements toward a hiking badge.

One patrol of girls has already started planning for the troop Halloween party. Another patrol visited the court house Monday, Oct. 14, which will give them a requirement toward a government badge. Each patrol is working to make this a successful year.
