Building Needed For Art Gallery

The Highlands School Art Department is interested in establishing a public art gallery in Avon Park. Jean Kirkhuff of The Highlands School has offered to direct and organize shows if a suitable building is donated for this proposed gallery.

An art gallery would enrich the community and provide an opportunity for exhibiting sculpture, paintings, crafts, and children's art. Traveling shows of professional standing could also be obtained.

Persons interested in donating a building for a public art gallery may do so by contacting Miss Kirkhuff at 453-3181.

Bonnie Brae Mobile Home News

Nita and Jim Ritchie of the Ridge Travel Agency of Sebring will show films in the recreation hall this Friday evening at 7 o'clock on the Mission Trail to San Francisco.

Thelma Chalmers will show slides about Washington and Oregon. She will also show slides on the recent tour she took to Nassau with the group guided by the Ritchies.

We want to extend a welcome to the Vernon Sees as new residents to the park.

We also want to welcome the Jack Dyerets who have recently moved into their new mobile home.

Mr. and Mrs. Frank J. Chockley of Seattle, Wash., are guests of Tom and Ernie Chockley. Mrs. Frank Chockley visited her sister in Pompano last week. While here the two couples visited Cypress Gardens, Highlands Hammock, Lakeland, etc. They are returning to Seattle Wednesday.

We want to wish a speedy recovery to Ruth See who is recuperating in Highlands General Hospital in Sebring. Harry Mason was more surprised on Sunday when his daughter, Mrs. Marianne Welsh of West Hill Ontario arrived at Bonnie Brae. She is a house guest of Mrs. Thelma Chalmers, a friend of hers.

We were sorry to see Wyatt and Margaret Vandever have to leave for Tipton, Ind. They had the very sad misfortune of learning their home in Indiana had burned to the ground and all their possessions were lost in the fire.

Chester Richardson and Floyd Black pulled into Bonnie Brae Saturday with their travel trailers to spend the next few months with us. It must seem like old home week to them because they, Vernon See and Cecil Thompson of Bonnie Brae, all worked for the same company in Wisconsin.

Southland Trailer Court News

On Friday, Jan. 30, nine were out for shuffle. In the play-off Stewart Dittus and Myrtle Heffernan won over Winnie Lumpkin and Charles Wells by a score of 77 to 20. In the consolation, winners were Dorcas Young and Blanche Kirsche over Laura Bernthal and Elmer Kirsche by a score of 79 to 14.

Eighteen ladies were out for Craft Friday afternoon. Several articles of interest were brought. A number of egg cartons of various colors were lined on the table and ladies seem to be quite busy cutting them in small bits. One wondered what they were making. Soon voices expressed accomplishment were heard after the bright colored yarn had formed the center. Each lady had created flowers of various size and colors, some to be placed in vases for table decorations and some for corsages. Interesting how some people can make something out of nothing.

Mrs. Hindley's friend, Mrs. Iva Sternberg of Marion, Ind., wintering in St. Petersburg was a guest. Mr. and Mrs. Delbert Wasdick of Bradenton were surprise guests of Goldie Daus last Saturday. They exchanged news from their homes in Grand Rapids, Mich.

Friends will remember Mr. and Mrs. Wm. Baxter who lived in our Park for several years. After Mr. Baxter's death she returned to Indiana, but this winter is located in Lakeland. She and her daughter, who is visiting her, spent some time in the Park last Wednesday.

Mr. and Mrs. William Taylor of St. George, Ont., and Mr. and Mrs. Iva Schaeffer of Fordwich, Ont., were guests Monday of Dr. and Mrs. Dinniwil.

Mr. and Mrs. Charles Wetts of Green Bay, Wis. came last week for several weeks stay in Southland. They are located in Mitten's trailer formerly owned by Sam Walton.

Mr. and Mrs. George Hindley attended World War I District meeting of Florida at Winter Haven, Saturday.

Earl Maxwell initiated his new ramp Saturday when he returned home from Walker Memorial. The organized W. P. A. Construction Agency consisting of members qualified to use hammer and saw and a desire to be a good neighbor came by two to do this work. If you have their qualifications and desire to join this Agency, contact Harry Barth, foreman. Maxwell is enjoying having visitors and in his spare time trying to figure out how to maneuver the many gadgets used by the temporary disabled.

Evelyn Fritz's daughter, Mrs. Everett Wegerif and two children of Merritt Island spent the weekend with Evelyn.

Friday night bingo was well attended, everyone enjoyed the evening very much. Rebecca Hostetter, Marie Stroobant and Carl Overholt enjoyed a program Monday night at Highland School for Girls.

A good crowd was out Monday night to see the pictures of Grand Canyon, Los Angeles and Hawaii, shown by the Ritches, Disneyland was shown along with the above pictures.

Hetta Cook and Harriet Meisel attended the DAR style show at the Sebring Pier Wednesday afternoon. The dresses were from the Lake Placid Dress Shop and modeled by the DAR members of Avon Park and Sebring.

Mr. and Mrs. Walter Wolcott Mr. and Mrs. Robert Wolcott and Letha Wolcott of Lake Wales, spent Sunday with Hetta Cook and Harriet Meisel. Mrs. Letha Wolcott from Warsaw, N. Y., who is visiting her son at Lake Wales, remained for a few days.

Two car loads of friends from our park motored to Rivercrest Trailer Park at Tavares to spend the day. While there we met many friends of the Lumpkins. The Hadleys took us for a very delightful trip in his motor boat to see the Dora canal which was through a virgin cypress swamp where we saw many unusual wild birds. A large blue Heron ventured within 15 feet of us to look us over. He stood there and we had a very good look at him also. We traveled out a couple of lakes and saw several mobile home parks along the way. An exceptionally good time was had by all.

Any person who is against everything is seldom strong for anything.

THE STUDENT Government Association of the South Florida Junior College, manned an information booth at the Highlands County Fair this past week. The Highlands County Fair Association presented an award of appreciation to the South Florida Junior College Stu-

dent Government for its "Community Concerned" Project. S.G.A. vice president, Jim Nunnallee, of Avon Park, presented the award to Dr. William A. Stallard, Ph.D., President of South Florida Junior College.

Florida Power Offering Equal Payment Plan

Florida Power Corporation is offering its customers a revised equal payment plan which will make budgeting of monthly electric bills very simple.

Under this new plan, a customer's total bill for the previous 12 months is used as a base. A growth factor of four per cent is added to this total when the customer first goes into the plan. This factor is the normal usage growth rate per residential customer on an annual basis.

The 12-month total plus the four per cent is then divided by 12 to give a monthly payment figure for the coming year. At the end of 12 months, under the equal payment plan, the customer's program is reviewed and adjustments made upward or downward according to the actual usage for the year.

If the review shows that a credit has accumulated in a customer's account, this credit is applied to subsequent consecutive bills until it has been fully used. Additionally, the monthly payment is adjusted downward.

If a debit has built up in an account, the monthly payment at the end of 12 months is adjusted upward. A customer on this plan will know at all times how he actually stands. The monthly bills will indicate actual usage and cost in addition to the equal payment.

HUMAN GAME LAWS: For centuries, it was man's custom to kill any other human, whenever he could catch him off guard. In the year 1040 A.D., the churches instituted a sort of closed season for killing other humans, for each Monday, Tuesday, and Wednesday. This, in time was gradually extended to a full time closed season, which is supposed to be in effect, today.

RECOVERING FROM pneumonia in Highlands General Hospital are Beverly and Harold Dyer, who shortly will be transferred to Highlands County's juvenile home. At left is Juvenile

Court Judge Mervin Rehner. Sympathetic people have sent toys and clothes to the children and Beverly holds one of her new dolls.

THESE PICTURES OF Beverly Dyer, 5, were taken Saturday in the Avon Park police station. Shortly before this Beverly had fled to the home of a

neighbor. She told police her "daddy," George Clemmons, had beaten her "real hard."

Murder Charge Filed Against Couple After Beating Child

Two young children, who officers say were their baby sister's bruised body drenched in orange grove last month, today were playing quietly in Highlands General Hospital.

Beverly Dyer, 5, and Harold Dyer, 11, are recovering from pneumonia. And Beverly also recovering from a severe beating.

The dead child, Sharon Dyer, almost two years old and identified as the "Little Miss January" found under an orange tree near Water Haven last month and buried without a name last Thursday in Bartow.

The mother, Mrs. Odessa Lou Dyer, 40, and her fruitpicker boyfriend, crewcut, graying George Clemmons, 41, with whom she had lived since November, are held in Polk County jail without bond, charged with first degree murder in the death of Sharon.

They were arrested Saturday about 4 P.M. charged with child beating, at Porter's Trailer Park in Avon Park where they had been living for several weeks.

Avon Park Police Chief Earl Gordon answered a call to the park after Miss Beverly fled to a neighbor's, a mass of bruises and blood from head to toe. She said her "daddy," Clemmons, had beaten her with a belt, "real hard."

She was wearing a dirty flimsy blue sweater and pants, size too small, and a faded orange shirt in the \$1 degree weather.

Chief Gordon took her to the police station for questioning and it was there she volunteered the information that her baby sister had been killed and hidden under a tree. She posed for pictures at the station for Mrs. Ed Carter, taken for the sheriff's office, showing the

bruises. She was so hurt, Mrs. Carter said, she could not be lifted to the stool and had to climb up by herself.

Gordon moved swiftly to arrest Mrs. Dyer and Clemmons. He located Juvenile Judge Mervin Rehner at the Ridge Bowling Lanes, obtained a warrant on the child beating charge, and with Deputy Sheriff Glen Hartfield, sped to the trailer park to arrest the couple. They were held in Highlands County jail until removed to Bartow on the murder charge later Saturday.

Lived in Elbow

Mrs. Dyer, Clemmons and the children are believed to have lived in an apartment in Elbow, prior to the death of Sharon. The baby suffered from pneumonia although she was killed by a blow on the head.

Sheriff Monroe Brannen, of Polk County, said Mrs. Dyer had given police a statement and told of the events of Jan. 13 when Sharon died. She said she heard a noise in the bedroom "like the baby had been hit" or thrown on the floor, Brannen said. He said the woman stated she took the baby from Clemmons, but the child was already dead.

Little Sharon's body was then taken by Clemmons and Mrs. Dyer and placed under the orange tree. "Very cold Harold came along. Mrs. Dyer said she wanted to take the body back to Georgia for burial — the children's natural father lives there — but that Clemmons threatened her and the other two children.

Threw Away Clothes

Mrs. Dyer then went on to say, said Brannen, that when the body was discovered January 18, they disposed of the child and the child's clothes, tossing the latter in a wooded area, and moved to Avon Park. Beverly and Harold were admitted to the local hospital Saturday. They were reported much improved Tuesday, although "somewhat withdrawn."

Harold was coloring in a book. Beverly was wheeling dolls which people had brought to her up and down he balls in a wheel chair.

Gifts of toys and clothing have poured in for the children.

To Juvenile Home

When they are considered sufficiently recovered from the pneumonia, they will be transferred to Highlands County's new juvenile home, Judge Rehner said.

The brown-haired, brown-eyed handsome child had little to say since they were moved into a pleasant second floor room at the hospital.

They have expressed no curiosity as to the whereabouts of their mother or Clemmons.

Highlands County last week became the first county in South Florida to publish and distribute a community shelter plan.

Boy Scouts helped Civil Defense Director Jim Lawson, to distribute the plan, which tells citizens where to go and what to do in the event of a nuclear attack upon the United States.

The City Attorney reported the present ordinance on cleaning of vacant lots and buildings, the lot owner or the cost thereof was cumbersome. He suggested several changes to simplify the law. This is to be studied further.

A discussion was held of trailers and proposals to regulate the parking of empty trailers.

A letter from the State of Florida was received which stated that no financial help on purchase of radar unit could be given now.

A letter from the Highlands County Planning and Zoning Commission was read which stated they would give consideration to request of the City Council to zone area southwest of city limits as residential.

Fred Chief W. W. Giddens talked about recent false alarms. Since May 10, 1969 there have been six false alarms and only 3 fires on S. Delaney Ave. and S. Carroll Ave. They agreed to try using the small fire truck on calls for these locations.

Fire Marshal approved representing Florida Home Juice Company. In 1964 the city purchased land from Mr. and Mrs. Bang which was later sold to Florida Home Juice for their plant. Florida Home Juice is now interested in purchasing additional land and the city has first option on it. Mr. Nunnelee requested the city execute a quit claim deed to Florida Home Juice Company releasing the city's interest.

Mr. Nunnelee spoke of his efforts to complete a sale of the old theatre and old USO buildings which are part of

A discussion was held of trailers and proposals to regulate the parking of empty trailers.

A letter from the State of Florida was received which stated that no financial help on purchase of radar unit could be given now.

A letter from the Highlands County Planning and Zoning Commission was read which stated they would give consideration to request of the City Council to zone area southwest of city limits as residential.

Fred Chief W. W. Giddens talked about recent false alarms. Since May 10, 1969 there have been six false alarms and only 3 fires on S. Delaney Ave. and S. Carroll Ave. They agreed to try using the small fire truck on calls for these locations.

Fire Marshal approved representing Florida Home Juice Company. In 1964 the city purchased land from Mr. and Mrs. Bang which was later sold to Florida Home Juice for their plant. Florida Home Juice is now interested in purchasing additional land and the city has first option on it. Mr. Nunnelee requested the city execute a quit claim deed to Florida Home Juice Company releasing the city's interest.

Mr. Nunnelee spoke of his efforts to complete a sale of the old theatre and old USO buildings which are part of

the estate of W. T. Connel and which the city had condemned. He asked for suggestions as to how to work this out. He said he was working on a site to move the old restaurant building on South Street.

Mr. Dugan welcomed a group of girls and their teachers to the Highlands Girls School to the meeting.

Emory Dawkins and Bill Thompson of Dawkins and Associates, reported on an inspection of the sewage disposal plant and plans to get it operating more efficiently. They are preparing a report on the water problems of the Alcoholic Rehabilitation Center but suggested that the possible best way to help would be to loop the six inch sewer main along US 27 back to connect that the cost of doing this could be included in the sewer project.

Dawkins spoke of the proposed 2.2 million dollar sewer improvement program. He said one of the key factors in the financing and suggested the city might wish to call in a fiscal agent to regard. He discussed government grants and said there was a possibility Avon Park might be included in this fiscal year and also that they might have a higher priority name than last year. He suggested a special meeting on this matter sometime the first week in a fiscal agent to request that Dawkins return at the next council meeting.

City Officials Oppose Phone Rate Increase At Hearing

Avon Park city officials knew the \$78 telephone bill was not theirs when they received it, the Florida Public Service Commission was told Thursday.

But they were really surprised to learn to whom it belonged — the Avon Park business office of United Telephone Co. of Florida.

This was one of the incidents related during a hearing Thursday at Tropical Bank and Trust Co. called by the PSC to determine if a rate raise granted the utility a year ago should be made permanent.

The raise, amounting to more than \$1,300,000 a year system wide, could also be varied if service is not improved sufficiently, state officials have said.

City Clerk Malcolm Crews of Avon Park was one of those testifying and, for the city of Avon Park, opposing making the raise permanent. Incorrect bills were one of their complaints.

George Hensley, representing Sebring Chamber of Commerce, James H. Whitaker of Sebring Hills, who presented a petition signed by 43 UTE subscribers, and Howard Hansen, city manager of Fort Meade, were others appearing for groups to oppose the raise and complaining service has not been sufficiently improved.

One of Whitaker's complaints was that they only had a choice of two or four party lines — and they prefer six party, because the other lines cost more.

However, four individuals came forward to say they thought the service had improved materially, each stating they had no personal axe to grind for themselves or the telephone company. They were Ken Williams, former Sebring city councilman. Mrs. Walter Retman, New Roberts.

Several of the complaints were — the fact that toll calls appeared on monthly bills which the subscriber had not made.

Fred Richter, of DeSoto City, who appeared with a neighbor, saying Richter, to protect the service, said he had been advised by the local business office to "just scratch off" incorrect charges, so that it would cost too much to trace it. And so he did.

Bigman and Finlay are on the same multi-party line and complained of the line buzzing and ringing off frequently — and said Richter, "At least 50 percent of the calls we get are wrong numbers — and every time it rains ..."

The difficulties of getting information from the information operator, who is in Ft. Myers, was brought up by several of those testifying. Maxwell Wells, attorney for UTE, said that shortly the information operator

for this area will be stationed in Avon Park and things should get better.

Among those testifying and opposing the raise were Russell Conder, photographer of Sebring, Joseph Hymerling, man-

ager of the Ft. Meade Lumber Co. and Mrs. Ruth Tharp of Avon Park.

Only about 30 persons, other than Avon Park members and technicians for the PSC and officials of UTE, attended the hearing. This was in sharp contrast to the courtroom full of irritated subscribers who crowded into Highlands County courtroom 10 months ago to protest a rate raise. Since that time UTE has spent more than \$1,000,000 in Highlands County alone, and they promise more.

Florida Public Service Commission Chairman Billy Mayo conducted the meeting and with him was new Commissioner Jess Vartanov. Commissioner Jerry Carter was ill. Mayo said a decision should be announced in three or four months after testimony has been thoroughly evaluated. Other hearings are being held in Ft. Myers, headquarters of UTE, and Naples. Mayo said the PSC now, for the first time has its own certified public accountant to match wits with the utilities.

Heading the UTE group at the hearing was President Larry Travis, of Ft. Myers. Travis said that in 1967 he had complained calls from subscribers on "practically every day," and now there are "many successful days when I receive no complaints at all."

Inflation has also hit, he said. Higher interest rates, higher material costs and higher labor costs are reflected in the net investment per telephone installation. This was \$883.24 as of Nov. 30, 1969 as compared to \$781.07 Dec. 31, 1965. The prime interest rate June 30, 1967 was 9 1/2 percent and now is 8 1/2 percent.

President Larry Travis of United Telephone Co. was sort of caught between two fires at Thursday's Florida Public Service Co. hearing. Sebring Chamber of Commerce complained that toll calls between Avon Park and Lake Placid had not been eliminated.

On the other hand, the City of Avon Park complained that it did not want toll charges dropped between Avon Park and Sebring. It would cost subscribers money, was the Avon Park reasoning.

Red Devils Defeat Sebring 99-66; To Play Fort Meade Friday

With a record setting 99-66 victory over Sebring and a squeaking 50-47 win over Okeechobee last week, the Avon Park Red Devils topped their record to 8 wins and 7 losses as they moved into the last month of basketball play.

Last Tuesday night the Devils were to host the Alva team here at the high school gym. Tomorrow night (Friday) the two Devil squads will be in Fort Meade for games with the Mims varsity and "B" teams and next Tuesday night the Red Devils will go to Lake Placid for another game with the Green Dragons.

After 15 games Seimore is now hitting a 23.3 point average per game. Hardy has a 13.6 scoring average; and Herbert Stokes is scoring an average of 8.8 points per game. Hardy has a total of 218 rebounds and Stokes has 146. Seimore has hit 148 free shots out of 200 attempts for a 74 percent at the foul line.

The Red Devil "B" squad, coached by Buddy Marshall, had two exciting games last week. In Sebring it took an overtime period for the junior Devils to come out on top with a 63-50 victory and in Okeechobee the Devil "Bees" won by one point, 44-43, when Clayton McNeil sank a field goal with 9 seconds left on the clock.

The two wins set the Avon Park "B" squad's record at 10 and 3 with five games left of the schedule.

78 Percent Of County Taxes Now Paid

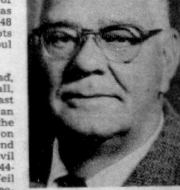

Slightly less than \$2.5 million, or 78 percent — of Highlands County taxes had been paid at the end of January.

According to a report released today by County Tax Collector W. H. Prescott, \$2,338,197 out of a total tax bill of \$3,131,900 had been paid by Jan. 31, and \$2,990 receipts validated.

Prescott said this record is "about the same percentage wise as last year." He said 34,900 receipts had been validated in the first three months of payment a year ago and payments totaled \$2,214,372.

The unpaid balance at the end of January, 1970, was \$993,707 and the unpaid balance at the end of January, 1969, was \$643,000.

Ben Hill Griffin is the only really large taxpayer whose bill is still outstanding. Prescott said the others are the relatively small individual accounts.

The Telephone Hearing

Last Thursday's hearing on whether United Telephone Co. of Florida should be allowed to make permanent the temporary rate raise they got a year ago was short and mild.

Only a few people testified and some of those came to say things are much better hereabouts.

Biggest complaints seemed to be about direct dialing—too many times you end up having to go to the operator to get your number. And information. Sebring, Avon Park and Lake Placid exchange have an information operator, who answers in Ft. Myers. And if you've ever tried to get up to date information, it is an exercise in frustration.

For instance, although changes and new installations are supposed to be in the hands of the information operator within 24 hours—this can stretch to three months and more, the Florida Public Service Commission folks were told.

But these aggravations are small compared to what went on here for many years, when some people found it impossible to get telephones at all if they lived out in some sections of the county. We still remember the Lorinda housewife who had 37 people living in trailers near her who came in regularly to call on her 10 party line! No other service! There now is more service in that area.

The telephone company has spent a lot of money in the county and this is showing in reduced complaints. There were several people at the hearing who were far more concerned with the quality of the service than with the price—although nobody wants to pay anymore than they have to pay.

All in all, United Telephone apparently has satisfied quite a few people in the area, because Thursday's hearing was a far cry from those of a couple years ago.

From where we sit, we don't know whether the rate raise UTF got a year ago on a temporary basis should be made permanent or not—not being accountants and such—but something has quieted down a lot of the customers. And that something has to be better service.

There is still quite a bit to be done, we think, particularly when it comes to direct dialing and short-haul. We understand our information short-haul will be coming from Avon Park, which will help. And if UTF continues to spend money here—and we're told they intend to make more improvements—we should feel it.

There's Some Relief

Parents with young people who are starting to drive the family automobile are finding the costs aren't all gas and oil—and that a large chunk is insurance.

On the plus side, the money conscious insurance companies are looking at statistics and parents of kids with good grades in school or who have satisfactorily completed a recognized driver education course are getting a break.

Some of the insurers are offering a premium discount ranging up to 25 per cent for these young drivers.

Statistics show that although only 20.9 per cent of the nation's motoring population is under age 25, drivers age 24 and younger were involved in 34.6 per cent of all reported accidents and 33.9 per cent of all fatal accidents in this country in 1968.

The number of drivers involved in fatal accidents, ages 20 through 24, in 1968, was 117 per 100,000 drivers, almost twice the average rate of 67 for all age groups, according to the National Safety Council.

The insurance folks, who rely heavily on statistics, found that generally good students also have good driving records.

"Shoe" Sabotage

Hebrew vs. Jewish

The word sabotage comes from sabot, the French word for shoe, after a disgruntled 19th-century French worker clogged his employer's machinery with his wooden shoe.

In modern usage, the word Jewish is the right one to designate the religion. Hebrew is the term for the language of the Old Testament—the Jewish Bible.

LEWIS LLEWELLYN

Can This Really Be Illegal?

Recently, a friend of mine, returning from a trip which had taken him to a distant district attorney, told me of a woman who lived in Czechoslovakia—a woman whose husband, a minister, had been imprisoned because he refused to deny his Lord.

But this faithful woman, talking to her friends and neighbors, a few at a time in her own home, continued to tell others the good news of salvation and joy to be found in Christ.

Meetings Forbidden
Communist authorities warned her that she must not conduct such meetings in her home.

"Meetings," she asked, "there have been only a few people here at a time. Can I talk to my friends in my own home?"

She was told to quit having such meetings, where people were taught to believe in God. But, after all, their husbands were in a Communist country.

The scene shifts to California—Los Angeles County—where the suburban town of La Canada, in La Canada, Rev. Donald Sils, youth minister in the area, has been holding some Bible study meetings in his home.

He has now been ordered to stop holding these Bible studies, which have usually been attended by 25 to 30 young people.

"The minister has had no personal complaints from neighbors," adding, "The minister notes that there is no singing, no music, and those in attendance are urged to be careful not to block driveways when parking their automobiles. Usually there are no refreshments, and noise is held to a minimum."

There is no offering taken at the meetings, which are being held about twice a month.

Rev. Sils has received a letter from a deputy district attorney stating, "It has come to the attention of the district attorney's office that you are conducting regularly scheduled public Bible studies in a residence."

The zoning ordinance does not forbid such meetings; it merely states that homes in that area are to be used as residences—places for people to live.

Can it really be against the law for a minister to conduct a study, quiet Bible studies in his own home—in California?

The record indicates that there

is no legitimate reason for the attack on these Bible study sessions. What the final outcome will be is not yet known.

A Losing Battle
It appears to be just another of the increasingly frequent onslaughts against anybody and everybody who respects the Bible as the Word of God and wishes to teach it to others.

People who read the Bible and live by its teachings are good citizens—honest, law-abiding, compassionate, interested in the welfare of their fellowmen.

Why is it that some people seem to be controlled by an undying hatred for the Sacred Book?

What can they hope to gain by waging this war which they are bound to lose?

Opponents of the Bible have long battled against it—but they have all failed. Why?

Perhaps the answer is to be found in the Scriptures. The prophet Isaiah declared, "The law of our God shall stand forever."

Wouldn't you rather be on God's side?

TEXTBOOK PUBLISHERS

By Babson's Reports Incorporated, Wellesley Hills, Mass., February 12, 1970. The last couple of years have not been particularly bright ones for publishing houses. While President Nixon's anti-inflation program by a wide margin through the greater part of the '60s, publishing issues turned "sour" in mid-1967 when publishing companies' earnings growth began to taper off.

The earnings slow-down was largely caused by a drop in Federal Aid to Education and excessive book inventories brought about by an unprecedented level of textbook returns. While President Nixon's anti-inflation program will likely hinder federal appropriations for textbooks for some time yet, the inventory problems of 1967-68 appear to have been overcome.

Thus, the Babson staff feels selected publishing issues now present attractive purchase opportunities for long-term growth. Our favorites at this time are Addison-Wesley Publishing Co., near 16 (OTC) and Groulx, Inc., near 25 (NYSE).

As Expanding Market
Sales of textbooks depend primarily on two factors: (1) The number of students enrolled in schools and colleges; and (2) the dollar amount spent on textbooks per student. Current forecasts point toward modest increases in elementary and high school enrollments over the next decade and a more marked increase in college enrollments.

According to the Department of Health, Education and Welfare, total enrollment should approach \$2,000,000 by 1977-78, a 7.3 percent gain over the 1970-71 school year.

Some of the insurers are offering a premium discount ranging up to 25 per cent for these young drivers.

during this period are expected to increase about 40 percent, as a much greater percentage of the population goes on to earn not only college degrees but advanced Master and Doctorate degrees.

Publishers of elementary texts, though not expected to enjoy the same favorable enrollment trends over the next few years, should benefit from rising per-student expenditures.

Also, as the present large population of 20 to 25-year-olds marry and form families, the number of births should again begin to rise and elementary school enrollments should show a renewed burst of growth in the second half of this decade.

Rising Book Prices
Another factor pointing toward greater growth in textbook dollar sales is the increasing average yearly amount paid for books per student. In addition to rising prices for books, dollar sales are expected to continue to be stimulated by increasing requirements for books. One book once did the job, now several books and assorted reference materials are required.

College students paid an average of \$19.96 for textbooks in 1965. By 1969, this figure had risen to \$27.02. And, in 1969, the amount had jumped to \$41.79. There seems little doubt but that this trend will continue.

Federal Funding For Education
A powerful stimulant to textbook sales at all educational levels is provided by the U.S. Government through its substantial programs of Federal Aid to Education. In 1966, particularly large federal funding resulted in a 21 percent boost in textbook sales over the previous year.

Since then, in an effort to brake inflation while spending

heavily on the Vietnam war effort, the federal government has cut back on its spending for education. While federal aid to education funding seems likely to remain at a reduced level in 1970, it is expected that an end to the war in Vietnam will lead to substantial increases.

It is felt that many current programs will be replaced by new ones and more emphasis will be placed on stepped-up vocational training. In the past, actual expenditures made under various federal programs averaged about 7 percent of all money spent for elementary and secondary school operations. Doubtless, this will increase in the years ahead.

WHAT DOES THE "FORT" IN "FORTNIGHT" MEAN?
Fortnight is a contraction of fourteen nights. The latter phrase, in the sense of a period of two weeks, was used in English as early as 1,000 A.D. when it was used in the translation of the laws of Ince, who was king of the West Saxons in the Seventh Century. Fortnight has been gradually falling into disuse, being supplanted by two weeks, particularly in the United States. Sen. J. H. C. wrote as follows of the ancient Germans: "Their accounting of time differs somewhat of the Roman; instead of days, they reckon the number of nights. Public ordinances are so dated and proclamations run in the same style."

A discussion was held on septic tank inspections and permits. At present, permits must be obtained from the County Health Department at a cost of \$15. City Engineer H. M. Flowers said the inspections and fee would be only \$2.50. City Clerk was asked to contact Health Dept.

H. M. Flowers said the Civil Service Board wants to get away from temporary appointments. They requested authority to have an examiner give a test to day laborers to qualify them for the eligibility list. Mrs. Henderson to serve as examiner.

Mr. Flowers announced that the State Firemen's Association had accepted the Avon Park site as location for their state headquarters. A meeting has been arranged here for Saturday, April 18 with their board.

Mr. Flowers said 1,800 civil defense packets had been distributed in the Avon Park area. He is to make a trip to Starke Wednesday with County Civil Defense Director Jim Lawson. Motion by Mr. Martin, seconded by Mr. Howard to approve a letter to the Highlands County Commission assuring payment by the city for any items purchased from surplus and to be expended by the city for trip to Starke.

Cold Weather Damages Slight Here

Last week's Wednesday night freeze is believed to have done very little damage in Highlands County, Tim Turner, county agent, citrus, said today.

A freeze forecast for Tuesday night of this week failed to develop and "it was real glad," said Turner. From the forecast this (Thursday) morning.

"I do not think we could stand any more cold right now with all the new growth coming out," said Turner.

State officials on Tuesday estimated that the four consecutive nights of sub-freezing temperatures early in January reduced Florida's orange crop estimates a million boxes, but another, in the field, said it was low.

"I think it's more than that," Highlands County, however, has been one of the least affected by the freeze, Turner said. Temperatures got down to 30 degrees Thursday morning of last week, "but it was just before sunup and didn't hang there long enough to do any damage," he said.

When he got up Wednesday morning of this week to go out and check freeze damage which had been forecast, he saw the thermometer read 38 degrees—so "I just went back and had another cup of coffee."

Temperature didn't get much lower than that during the night.

Turner said he feels that the citrus people will "know better next month" what the damage was when they are more able to assess the fruit damage.

Growers in the county had heaters, smudge pots and wind machines ready to protect their crops last week but Turner said he saw no signs of where grove people had had to use them.

Rambling Thoughts

By O. L. SHOBE

WHAT DOES "LAISSEZ FAIRE" MEAN?

It is a French phrase meaning "hands off" or "let it alone." It is applied to a policy of minimum interference with industry, trade and labor, and is competition in private business without protective tariffs subsidies restrictions or regulations by the government. It is based on the theory that commerce, business, domestic trade, if left alone by the government will adjust themselves to one another. In the field, it means to say to the government, "Don't monkey with the hand wagon unless you too a horn or beat a drum."

Looks to this war expert (who never had a uniform other than for a band) like we might have consulted France about their war with the same gent! They got it in the neck, too, from the same chap! How I wish Will Rogers were alive at this sorrowful hour. He was censured for could have called the turn in fine shape. I think I'll write to the Pentagon and tell them about General Braddock's defeat!

WHO SAID "IF I OWNED TEXAS AND HELL, I WOULD LIVE IN HELL, I WOULD TOUT TEXAS?"

"If I owned Texas and Hell, I would rent out Texas and live in Hell," is attributed to General Philip Sheridan. One would naturally suppose the remark was made after Sheridan became famous as a military commander. Such, however, was not the case. Soon after his graduation from West Point in 1853, Sheridan, then a second lieutenant, was sent to Fort Duncan, Texas. He was in the Rio Grande near Eagle Pass. The weight of evidence indicates that Sheridan made the remark while he was on a visit to, or on duty at Fort Clark, in what is now Kinney County, Texas. In 1853, the officers' mess asked Sheridan how he liked Texas and the remark was made then.

In those days, Texas and the Southwest generally was sparsely populated, and was full of much rude humor. We have it on the evidence of Judge H. E. Levy, of Texas, that in 1853, Sheridan heard from several good authorities in position to know that Sheridan was the target of much rude humor. Davy Crockett, of Tennessee, after he got to Texas, said that he was told that they "might go to hell and he would go to Texas."

Dr. DOUGLAS DEFFATT
All folks who have read your United States history remember General Braddock, I suppose. He went to fight Indians in the same manner armies went to battle on the continent of Europe for centuries, and tried to whip the noble red man in the same manner armies went to battle in a manner that General Braddock and his regiments had never heard of.

General Braddock and his regiments had never heard of the American Indian and a bunch of Colonial roughnecks, who knew Indians and their playful ways, saved what was left of the army of England.

Question—I receive a widow's benefit and am almost 65. I want to sign up for Medicare but I have never worked under Social Security. Do I have any quarters of coverage to qualify?

Answer—Since you are receiving a benefit, you need not any quarters of coverage to be eligible for Medicare. The fact that your husband was paid at Social Security qualifies you for Medicare.

Question—I receive a monthly check based on the work of my deceased husband. Will Social Security help on my funeral expenses when I die?

Answer—No. A lump sum death payment is made only when a worker dies. In this case the lump sum was paid at the death of your husband.

Question—I am a widow and am drawing a widow's benefit from Social Security. I also have a small nursery for children. Do I have to pay Social Security taxes? I need all the money I can get.

Answer—Yes, you have to pay Social Security taxes if you have a profit of \$400. Remember, too, that you are under a retirement test. You are not eligible for Social Security checks if you earn over \$1680.

Eugene Flint Injured In Accident

Eugene Flint of Avon Park was injured and taken to Walker Memorial Hospital after an unknown driver turned in front of his car at 10:20 P.M. Friday 1.4 miles East of Avon Park on Route 27. The unknown driver, in a car owned by Elmer Mayhew, of Avon Park, fled the scene. He apparently misjudged distance and had turned in front of the Flint car as the cars were meeting. Trooper Woods investigated and charges are pending.

Alfred Welch, Jr., of Avon Park, was entering the Avon Park Lakes road 5.2 miles West of Avon Park, trying to get around a labor bus and did not see a car of Madeline Jolly of Avon Park in time. He hit the brakes and slid into her car, an orange tree and a heater.

Damage to the Jolly car was \$300, to the Welch car none, and to the tree and heater, \$100. Trooper F. D. Williams estimated. Welch was charged with failure to yield.

Most of Lawns Are Brown From Recent Cold Spells

The delayed Winter was like a visit from an unwanted in-law. It had to pay us a visit sooner or later.

Little damage has been done, except to make the lawn look like a bride's first attempt at cooking; lawns were burned to a dark brown.

To revive the burnt lawn is easy. All you do is make like a dog with fleas - scratch. Proper application of a lawn rake will remove the winter-killed leaves, clippings from last fall and other debris that prevent green shoots from making a rapid showing.

If the grass was tall when frosted brown, you may remove some dead "fodder" with a lawnmower prior to raking.

Next, give the grass some food and water. The experts say to apply about a pound of actual nitrogen per 1,000 square feet of starving grass. This means about 12 1/2 pounds of an 8-8-8 analysis fertilizer or as little as three pounds of 30 percent superstrength ammonium nitrate.

When in doubt about the strength of the fertilizer apply small amounts so you won't singe the grass with caustic fertilizer. To prevent burns be sure to sprinkle the grass after feeding it. Ample water and warm weather are important in greening up Winter-wary lawns, according to turf specialists at the Florida Agricultural Extension Service.

Some folks like to crew-cut their lawn by shaving off the dead debris of the big freeze. But, remember that scalping is for the Indians or the professional, so scalp with reservation or you might return your lot to a sand bed. If you have already made this mistake, then consider planting a new lawn.

Planting Schedule

If you want gladioli for Easter or Mother's Day, plant them by the last of this month. Plant groups of corns every two weeks from now until warm weather and you'll spread out the flowering season of the blossoms. Be sure to treat the corns before planting to prevent diseases. Treat corns by soaking them in a paper bag containing Spergon.

The planting schedule also includes roses. When planted in January, rosebushes will not sprout, generally, until after frost dangers are past. Water roses at least once per week if rainfall is short. Keep a close check for a disease called "black spot." At the first sign of circular lesions on the rose leaves, spray the plants with a mixture of 1 ounce of Captain, plus a few drops of a wetting agent, in four gallons of water.

Other flower planting suggestions include alyssum, baby's breath, columbula, candytuft, carnation, clarkia, cornflower, forget-me-not, galliarda, larkspur, lobelia, nemophila, Queen Ann's lace, scabiosa, sweet peas, and sweet William. Bulbs than can be planted are amaryllis, calladium, calla (yellow), a ranunculus and tulips.

Vegetable gardeners may like to seed broccoli, cabbage, Chinese cabbage, head lettuce, leaf lettuce, onions, garden peas, Irish potatoes and spinach during the month.

County Residents Are Buying More Insurance Report Shows

Residents of Highlands County are beginning the decade of the 70's with more financial safeguards in the form of insurance than they ever had. They are covered for all kinds of hazards. They have health insurance, burglary insurance, automobile insurance, fire insurance, life insurance and various other forms of protection.

Especially have they been adding to their life insurance. Total holdings of this type of coverage in the local area is now estimated at more than \$115,000,000.

The facts and figures on the number of policy holders and the amount of insurance in force are contained in the current Life Insurance Fact Book and in other year-end statistics. The breakdown is on a state-by-state basis.

It shows that the American people have been adding to their insurance in recent years. Their total holdings now add up to \$1.3 trillion and are growing at the rate of more than \$100 million a year.

In the State of Florida, according to the figures, the amount of force totals \$34,427,000,000. This compared with the 1960 figure of \$12,419,000,000.

In most families the amount of insurance carried is in direct proportion to their income. The total held by the average family in the state, it is found, is equal to 23.3 months income, after taxes.

Applied to Highlands County and to the average income reported for the area, life insurance coverage locally is now estimated at \$13,300 per family.

This is nearly twice as much as the average family had ten years ago.

Of the grand total of \$115,000,000 carried by the local population, the bulk is in ordinary life insurance. Group insurance, generally issued to employers for the benefit of their employees, is in second place.

The reports show that despite the growing protection provided through social security, most families have been adding to their insurance coverage as their income rises.

Men, especially married men, are the most frequently insured. Some 91 percent of husbands carry life insurance as compared with 71 percent of wives.

Shuffling
The shuffling courts have a new look, a finished look. The courts were in a couple of years ago, but we still have the old benches, that were falling apart, had to be repaired each year, and everyone had to be moved to its own court, where it fit. The old score boards all needed repairs.

Now the benches are all new, all alike, the score boards are all new, all alike. They gave the right touch to the new look. We can thank Harry Gibson for this new look. It has been his special project, and he has done a fine job. The whole club says "Thanks, Harry."

It was so cold and windy Wednesday that Mr. Dickson called off the tournament. Everyone would have had the flu or something if it had played.

On Saturday 16 courts of "A" players and 10 courts of "B" players were in hand to play for their points.

Leslie Hildreth and Alva Thompson won in the main over Russell Smith for this week. Consolation winners were Georgina Wernham and Hazel Thompson over Catherine Baker and Robert McBeth.

"B" winners were Harold Wolcott and Ethel Larrey with Martha McBeth and Harold Long the runners-up. Don Mason and Otto Knack won in consolation with Gladys Warner and Arthur Fisher the runners-up.

Card Game
Monday afternoon Loretta Simpson had the high score in pinochle of 715. Keheo came in second with 669. Five tables were in play. Tuesday afternoon bridge had seven tables in play. Len Shorten came in first with 4330, and Tom Hance came in second with 4200.

North-South winners in duplicate bridge on Thursday were Julie and Bud Hawksey first, Lillian and Maurice Brevoort second and third A. E. and Ida Allen.

East-West winners were Sheila and Herman Wurster, Edith Bates and Dorothy Wilde and George and Dorothy Hanners. There were seven tables in play, and Len Ludington was the leader.

Dances
Spectators and guests enjoyed the dances almost as much as the dancers. Guests Monday and Friday evenings were Mr. and Mrs. Arden Hunt from Union Mills, Ind., and Mrs. Reuben Prichard of Cyrus, Ohio. Delores Keheo of Cleveland, Ohio, Rosemary of Little Chute, Wis., and George Knack of Pleasant, Wis., Caroline of Hamburg, N. Y., and Ernest of Toronto, Canada, and Connie Keheo of Union, N. Y.

Birthdays celebrated were Arnetta Kroeber, Amyrd, Jesse Futrell, Glenn G. Jean Morrison, John Perkins and Pearl Knack.

Crafts
About 90 ladies enjoyed their things in craft class Thursday. The same projects are on schedule for May 12.

Entertainment
Cool Daze proved that there will be children, although they are hit age. With 18 bright boys and girls on the scene, the children were very profound ques-

tions. Mary Thomas as the teacher proved up to the task with her repertoire. The specialty numbers performed by Paul Hoppe, Fred Robinson followed by Elizabeth Hyatt and Bud Hawkins on the piano and saxophone, and a vocal duet was enjoyed by all.

Alde Peters imitable as the fisherman proved herself a real professional to the delight of the audience.

Fern Beck, the whistler, whistled like no other person. "There's a Long Trail" The modern version of the old nursery rhyme, Jack and Jill played by Glenn and Mildred Long brought down the house.

No show would be complete without the Shuffle. Under the direction of Lloyd Wyant, they sang three numbers, with Eula Gunning at the piano playing the old familiar "School Days" The Skool Daze skit was brought to a close.

Thursday the 12th, and Tuesday the 10th, the movie "The Music Man" was given in the club house at 7:30 P.M.

Supper
The Saturday night supper was attended by 95 persons. Mrs. Minnie Brown and the Keith Debo were the hosts. Mr. Debo opened with prayer.

Mrs. Carlton was honored by the group singing "Happy Birthday."

Mrs. Floyd Heinrich was reported still in the hospital, while Kate McAlexander, Earl Maxwell, Bill Benerson have been dismissed.

Mrs. Debo announced the program which consisted of harmonica numbers by Fred Robinson, Keith Debo favored the group with poems in his pleasing way. Eula Gunning, at the piano accompanied the group singing, which was closed with the singing of "God Be With You."

ROTARY CLUB NEWS

by Bob Gay

February program chairman, Herb Kelley, introduced Senator Robert L. Shevin of Miami who spoke to us on "Anti-Crime and Law Enforcement Legislation." Senator Shevin makes his authority obvious at the very start of his talk which is authoritative, forceful and well delivered. He talks tough and he means it. Senator Shevin graduated from the University of Florida and the University of Miami. He presently chairs the Committee on Crime Prevention and has many honors and awards to his credit, such as the "Outstanding Young Man in Florida." An interesting local sidelight was presented in the presence of Louis Wainwright, Jr. (son of former Rotarian, same name), who is serving on the Committee for Crime Prevention.

Of approximately 50 bills introduced to the legislature, having to do with crime prevention, it is interesting to learn that 30 were passed and have been implemented—thus assisting the policeman on the beat, the prosecutor in the courtroom, and the judge in the reduction of crime rate. Senator Shevin pointed out that crime and violence are our most pressing domestic

problems. He also revealed that crime and narcotics are directly related. Fifty percent of all crimes of violence committed, are the direct result of narcotic addiction. It appears that the addict who is "hooked" on hard drugs needs from \$100 to \$150 daily to support his habit. Soldon can this large amount of money be secured legitimately and the addict turns to robbery, theft, burglary or other crimes to raise the needed money.

One new law makes carrying a concealed weapon a felony. Through another law to "stop and frisk." The carrying or use of a weapon in the commission of a felony now becomes a separate felony, and convicted felons owning or possessing firearms, now face a mandatory jail sentence.

We can be proud of men like Senator Shevin and his committee for the outstanding work they have done in the legislature, toward reducing crime and aiding our law enforcement officers. Action directed in these areas is needed at all local, state and national levels to restore our nation to its law abiding status.

The official temperature at Miami Beach, Florida averages only 11 or 12 days per year of 90 degree weather — while at Miami Airport, just a few miles away, the tally is 70 to 75 days of 90 degrees or above.

EMILY BATEY

South Florida Junior College Girl Competes For Miss Sunflower

Blue eyed with strawberry blonde hair, Emily Batey has a hint of freckles across her forehead. This lovely South Florida Junior College lass as the "Sweetheart" of the Florida Cattleman's Association was a contender for the honor and responsibilities of being acclaimed "Miss Sunflower" at the Florida State Fair at Tampa last week.

Emily, the daughter of Mr. and Mrs. W. B. Batey, Zolfo Springs, was acclaimed the Sweetheart of the Florida Cattleman's Association at their June, 1969 Summer convention at Palm Beach. Along with 22 other lovely young women, Miss Batey represented at the State Fair one of the agricultural products produced by Florida growers.

The winner of the coveted title of "Miss Sunflower" would have the honor and awesome responsibilities of

representing Florida's agricultural products to the rest of the consuming public. This would entail not only personal sacrifice and time lost from schooling, but also extensive traveling to boost the agricultural products of the state.

Most of Emily's schooling took place in the Clewiston elementary and high school systems. When her father took over the management of El Clair Ranch at Crewsville, Emily attended and graduated from Hardee High School in Wauchula.

As a sophomore physical education major at South Florida Junior College, Emily finds time for ceramics and the chorus. Her plans are to attend the University of Florida at Gainesville and finally teach physical education in an elementary school system.

Colored Communities Oppose Closing Neighborhood School

Re-assignment of Negro students seems to be emerging as the core of a new desegregation plan for Highlands County schools.

Residents in the neighborhoods surrounding the all-Negro Carver, E. O. Douglas and Hopewell elementary schools are opposed to closing of these schools but have varying degrees of hope for maintaining educational centers in their neighborhoods.

Only Hopewell, Carver and E. O. Douglas elementary (kindergarten through sixth grade) are not integrated. Their enrollment accounts for about 5.28 per cent of the entire enrollment in the county.

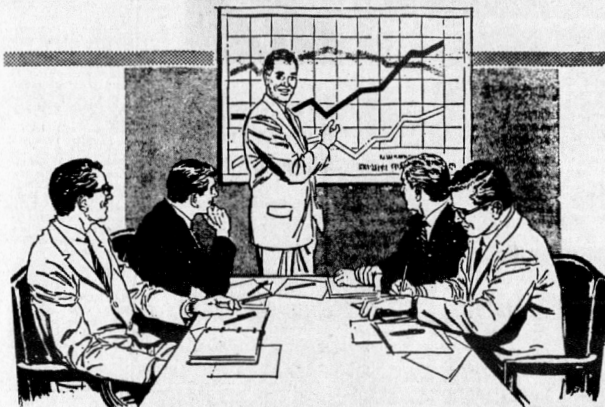

Appealed to Public
A month ago the Highlands County School Board, newly tossed into a second round of administrative proceedings before the federal Department of Health, Education and Welfare, appealed to the public—and the schools' Lay Advisory Committees in particular—to come up with suggestions for a new desegregation plan to be placed in operation at the opening of the 1970-71 school year.

Two of the lay advisory committees will have recommendations before the board at the board meeting at 7:30 tonight (Thursday). The Sebring committee has taken, in general, "a wait and see" attitude, chairman Mrs. Stanley Davis reports. The Lake Placid Lay Advisory Committee, in a formal resolution, calls for removing all elementary classes from Carver and urges use of the Highway Park school's facilities in some way.

Informal Report
In an informal report presented a week ago, the Avon Park Lay Advisory Committee asked the school board to consider a "pairing plan" which would keep Hopewell School in operation.

The new desegregation plan recommended by the Avon Park Lay Advisory Committee takes into account the wishes of the Hopewell neighborhood to keep that school open. Richard Hamm, chairman, said the committee has not passed a formal resolution but informally agreed to assignment of some students to Hopewell to keep it as an educational center.

Two Girl Scouts' Names Left Off Fair Winner's List

Two Avon Park Girl Scouts won inadvertently a third place ribbon from the list of ribbon winners at the recent Highlands County Fair.

Winning three ribbons in the Girl Scout Division was Kelly Griffin, Junior Troop 305. Kelly won a second place red ribbon for her sewing entry, a coulotte dress; a second place ribbon for her embroidered dish towel; and a third place white ribbon for her needlework sampler picture.

Patricia Cravay, Cadet Troop 21, won a second place red ribbon in the arts and crafts division, with her felt rooster on burlap plaque.

Generally, free spenders are poor losers.

Local Golf Course Selected For Hall Of Fame Tournament

Florida State Golf Association members and directors gathered in Avon Park this past weekend to honor one of Florida's golf greats, Leon Sikes, Sr., of Palm Beach. Sikes received the FSGA 1969 Fairway Hall of Fame Award during the two-day affair. In the 36-hole golf tournament held in connection with the award presentation, it was, ironically enough, Leon Sikes, Jr., of Lakeland, who bested his dad and a field of approximately 70 other top amateurs.

Leon, Jr. had come to help pay tribute to his father and found himself the winner of the overall low gross honors as his rounds of 76-78, 154 edged Ken Sils of St. Petersburg and Dave Crum of Lakeland by one stroke. Bob Grimley of Tampa was the overall low net winner with a 36-hole total of 140, including a sizzling 66 on the final day.

In the Senior Division, for those 55 and over, Billy Watts, of St. Petersburg, won the low gross prize on rounds of 83-73, 156. He bettered the second place total of H. O. Davis, Clearwater, by two strokes. Rodney Karlson, of Vero Beach, took the hand-

Young Elected President of Golf Association

The annual membership meeting was held on February 12 at the Florida Power Lounge. Officers for the coming year and three directors to serve for the next three years were elected.

Andy Miracle will replace director John Giddens Jr., whose term expires. Aaron Craven and Bob Young were re-elected for another three year term on the Board of Directors.

The officers of the association were elected from the entire Board of Directors, as follows: President, Bob Young; vice president, Andy Miracle; secretary-treasurer, Aaron Craven.

President Bob Young, who has served 16 out of the past 18 years as a director, announced that he will be stepping down from the position at the end of the year.

During the coming year, the association will be planning the annual golf tournament at the request of members. The Board of Directors also announced they will make the course available to the Avon Park High School Golf team. Bill Beck, who has served as president of the Avon Park Golf Association since it was formed in 1967, was given a standing ovation for his outstanding efforts in the organizing and successful operation of the association. Bill continues on the board as a director.

County May Ask City To Return Defense Material

After a short skirmish along party lines, the Highlands County commission voted, in its Tuesday meeting, a 15 per cent pay boost for Eugene Hamlin, county purchasing agent.

Commissioner Cecil P. Skipper, who introduced the request to raise Hamlin's salary to \$9,000 per year, said the county purchasing agent had been interviewed for jobs in other counties offering higher pay. He said he had "done a little research and found Highlands County completely out of line."

He quoted such figures as \$12,000 for Lakeland purchasing agent, \$12,400 for Gainesville, and \$9,000 for Charlotte County.

The commission Republican, Jean M. Whitaker, challenged the request. "How come we don't do this at budget time? You have just denied my request to raise the truck drivers to a beginning pay of \$80 a week. This will pyramid into everyone wanting a raise."

Skipper said the excess fees from elected officials had been higher than budgeted and the county could afford some raises. Robert Skipper, observing that "lots of our salaries are too low," backed the raise request.

Whitaker's bid for a session to re-work the whole county salary schedule met with a "later," and when the vote was taken on Hamlin's increase no

Closing All Negro Schools Would Save County \$103,000

Highlands County schools could save \$103,000 per year by transferring all regular classes out of the all-Negro E. O. Douglas, Hopewell and Carver schools, some classroom shortages would result.

This is what Superintendent George P. Douglas told the racially mixed crowd that filled the circuit courtroom Thursday night for the February meeting of the school board.

The board began its session in the superintendent's office. It moved first to the county commission meeting room in search of sufficient seating for the audience.

Desegregation was a primary interest of most of the audience and many discussed item in the two-hour board meeting.

Douglas outlined three possible desegregation plans to be closed in operation in the 1970-71 school year: leave pupil assignments as they are now but completely desegregate staff; re-structure pupil assignments so that one or more grade levels would be assigned to Hopewell and Douglas schools; eliminate all three of the all-Negro schools.

The third plan would probably result in assignment of all Sebring's grades 1 through 4 to Woodlawn Elementary, grades 5 and 6 to Fred Wild, and from seventh grade up to Sebring High School.

In Avon Park, 10 classrooms in downtown Avon Park, formerly used by South Florida Junior College, could be utilized for some high school classes, and additional elementary students assigned to the high school campus.

In Lake Placid four additional temporary classrooms would be placed at the elementary school site until the second phase of that school's construction is completed.

Staff Cuts Douglas said that while all teachers on continuing contract would be retained within the county system, the closing of Douglas, Carver and Hopewell would result in reduction of both teaching and non-teaching staffs. The school maintenance budget would also be cut.

In response to questions from Carl Hamer, president of Highlands County Education Association, Douglas said his first estimates of faculty reductions are that six teacher units would be dropped in Sebring, seven each for Avon Park and Lake Placid.

The superintendent said preliminary cost estimates place savings at \$40,000 for closing Carver, \$22,000 to close Hopewell and \$41,000 to close Douglas.

Samuel Nixon, principal of T. O. Douglas School, observed, "I do hope the school board will really weigh what you can save against 40 acres of land, 15 permanent classrooms, a gym

Advisory Committee led the supporters of Hopewell School. The committee chairman, Richard Hamer, asked, "Why abandon 12 good classrooms and one new cafeteria? It doesn't make good economic sense."

Elder Kinross V. Paul, president of the Hopewell Parent-Teacher Association, pleaded,

"The school is practically the only public building we have; you take that and we have nothing in our community. The program we have this year is wonderful; it is equal. Wouldn't it be better to have children at Hopewell than downtown or in portable?"

But when Gordon Dowd of the Lay Advisory Committee said, "We have found no objection" to the Lay Advisory Committee's unanimous request to assign at least one grade to Hopewell School, Board Chairman Henry Bailey read a letter from the Avon Park City Council, a unanimous vote in favor of a freedom of choice plan like is now in operation.

John T. James, who teaches at Carver, asked the school board to send letters to parents in the Lake Placid area asking "for volunteers" — while students to ask for transfer to Carver for 1970-71.

Miss Mary Ellen Jones, Carver librarian, said taking all the children away from Carver and closing the school would "take away community and individual identity."

The Lake Placid Lay Advisory Committee has asked that all elementary grades be transferred from Carver to Lake Placid Elementary but the school board seek other uses for the school, possibly for high school vocational classes.

Board member Ted Cannon moved that a similar plan be applied at E. O. Douglas in Sebring, but the motion died for lack of a second.

Judge Rehner Says, 'No Hurry In Deciding Children's Future'

Temporary haven in Highlands county's Youth Care home has been afforded two children whose mother and her boy friend are charged with the murder of their two-year-old sister.

Beverly S. and Harold Dyer, 13, left Highlands General Hospital Monday where they were treated for pneumonia. Beverly also is recovering from a severe beating with a broom handle and a belt buckle administered by the boy friend, George Clements, 41, and Mrs. Dyer, 40, are being held in Polk County jail in the death of Sharon Dyer.

Arrived at the Youth Care home, the Dyer children quickly adjusted, according to Juvenile Court Judge Marvin Rehner.

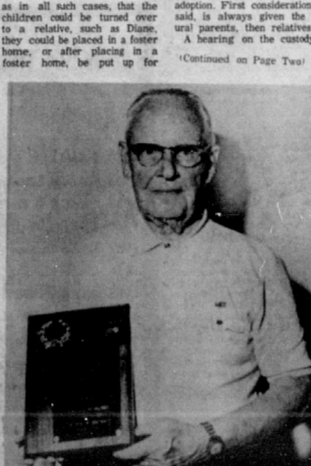

"They are nice, likable kids," he said. "They already love Mr. and Mrs. Todd, the house parents."

The father, James Dyer, a Georgia mill worker, was located last Wednesday night at a Ft. Pierce trailer park, where he had been living with one of his two married daughters, Diane, 16. Neither Dyer nor Diane had any idea where the mother, Beverly or Harold were, until the son-in-law, Terry Ross, saw newspaper accounts of the imprisonment of Clements and Mrs. Dyer.

Dyer and the Russes drove to Sebring Thursday to see the judge. Rehner said the father does not want custody, but that Diane, "who seems responsible" would like to have custody of them.

The judge said, however, he is in no hurry to make a decision on the children's future and wants time to have them evaluated.

There is a possibility, he said,

WM. B. YOUNG received a plaque at the Avon Park Rotary Club's Ladies' Night Saturday, making him honorary secretary and a life member of the club. Inscribed on the plaque is: In recognition to William B. Young for his dedication and service as secretary of the Rotary Club of Avon Park. The board of directors bestowed life membership as Honorary Secretary, Feb. 14, 1970. George Walper, president.

AVON PARK Rotary president-elect, Dr. William A. Stallard of South Florida Junior College presides at the end of a busy day, before a copy of the Declaration of Independence with Powell

Group Interested In Jetport Meet at Griffin's Restaurant

A crowd of 35 interested citizens and officials from Highlands and Polk counties joined in a late lunch dinner at Griffin's Restaurant at Avon Park last Wednesday to discuss the proposed jetport.

The group decided generally that more efforts should be made to obtain the jetport for central Florida. The next meeting will be held at 7:30 P.M. March 4 at the Florida Power Corporation lounge in Lake Wales. At that time the funding of efforts to obtain the jetport will be discussed. Ernest Bredemeyer, president of the jetport authority, is president of the jetport authority.

Not all those attending were in favor of the jetport and some were skeptical that the area has a chance of having the jetport project here, but a general discussion brought out many interesting facts.

Among the facts brought out at the meeting were:

- The Dade County-Collins County jetport in the Everglades is a dead issue by virtue of a recent agreement between the Dade County Port Authority and the federal government, represented by the Secretary of Transportation John A. Volpe and the federal government, represented by the Interior Walter J. Hickel.

- The federal government is committed to supplying the County Port Authority with a suitable alternate jetport site at no cost to Dade County, one of the terms of that agreement.
- The estimated investment of the Dade County Port Authority in the Everglades site is \$15 to \$15 million, the amount of tax money the federal government will have to spend to supply a suitable alternate site for a jetport.

- A sizeable portion of that tax money normally would be spent in land acquisition but since the Avon Park bombing range is already federally owned, that portion of the taxpayer's money could be saved if the jetport could be located there.

Judge Rehner

(Continued from Page One)

the children won't be held in the next three weeks.

The judge denied the request of the father Thursday that he be allowed to visit the children, then still at the hospital.

"Those kids have to get to work," he said. "I did not want to give them a shock which might have set them back."

Clemens and the Dyers lived in a trailer at Porter's Travel Camp, Avon Park. One of the articles found there was a brown handkerchief, one inch and three inches pieces nailed into the end of a nine-inch piece of hard rubber hose. The middle of the hose was hollow, allowing the three-inch piece of broom handle to swing violently and viciously free.

Deputy Sheriff O. L. Raulerson said he showed these to the children but they said they had not been used on them and that they belonged to their real daddy. He said both children said that they had been hit on occasion by Clemens prior to the severe beating of Beverly.

Mrs. Dyer and Clemens met when Mrs. Dyer was a maid at Fellsmere Inn near Vero Beach. Clemens was living in the area. At the time he was wanted by the Indian River Sheriff's Department for neglecting his children and failing to contribute to their support.

He had a criminal record dating back to 1941. His park was littered with arrests for assault and battery, rape, attempted rape and aggravated assault primarily in the Indian River-S. Lucie County area.

The couple became friends and set up housekeeping in a flimsy, peeling, three-room duplex in Elsie. It is here that the baby Sharon died.

Mrs. Clemens was described as a model mother. The house and the children were always clean—everyone seemed to well. She was not working and was drawing welfare benefits for the children.

LEWIS LLEWELLYN

Is Pollution Our Major Concern?

In his "State of the Union" message, President Nixon proposed that the nation should spend \$10 billion in the next five years to control pollution, which he said "must become the major concern of the American people in the decade of the 70's."

Between now and the year 2000, over 100 million children will be born in the United States, the president said. "Where they grow up—and how—will, more than any other thing, measure the quality of American life in these years ahead. This should be a warning to us."

"A Fresh Climate"

Toward the close of his message, he quoted Thomas Jefferson, who said in 1802, "We act not for ourselves alone, but for the whole human race." President Nixon added, "We had a spiritual quality then which caught the imagination of millions of people in the world. Today, when we are the richest and strongest nation in the world, let it not be recorded that we lack the moral and spiritual idealism which made us the hope of the world at the time of our birth. . . . We need a fresh climate in America."

Without in any way minimizing the importance of the campaign to improve the quality of our physical environment, there are many who believe that the quality of the moral environment in which our young people are growing up should be of much more urgent and immediate concern.

The pollution of our moral environment is everywhere. It is in the contamination of our films, our magazines, our late-night television programs, so that our entire society is affected by this moral and spiritual decline.

If we do not succeed in improving our moral and spiritual environment, it may make little difference what we do about our physical environment.

The prophet Zephaniah warned the people of his day that moral pollution would lead to their destruction. "Woe to her that is

filthy and polluted—to the oppressing city," he cried out. She obeyed, but the Lord received no correction. She trusted not in the Lord. She drew not near to be hid. . . .

In spite of repeated invitations presented to the people, urging them to turn to God for salvation and help in all their troubles, the people continued in their evil ways—and their nation was brought low.

Will We Learn?

Will we learn from the experience of other nations? Will our nation's leaders put first things first—or will we in this most crucial hour fail to hear the warning voice of God?

What are you doing, individually, to produce the "fresh climate in America" which is so vitally important? Have you, personally, asked God to cleanse you of your own moral and spiritual pollution so that you can be a force for righteousness in our society?

We must not leave it to our political and spiritual leaders to make these decisions. This is a matter which can be decided only on an individual basis. . . . We need a fresh climate in America and our nation need most urgently now.

Williams Says Changing Insurance Law

Insurance Commissioner Broward Williams has announced sweeping improvement in the administration of Florida's Financial Responsibility Law for the benefit of the state's motorists.

These improvements which will become effective in March, 1970, will not only eliminate tons of paper work, but will also result in a substantial saving to the Florida taxpayer and will place the burden on insurance companies where it belongs and get it off the back of the individual motorist.

Briefly, this is how it will work: Insurance Companies will issue a card to each policyholder showing the name of the Company and policy number which can be presented to the investigating officer at the scene of the accident. The investigating officer will transfer this information to the accident report.

The Financial Responsibility Division, upon receipt of the accident report, will then send a form to the Insurance Company named in the accident report. The company will check its records to verify coverage and will reply to the Financial Responsibility Division only if the person named does not have insurance.

This means that some 80 percent of the people involved in accidents will not have to suffer the aggravation of filling out forms or going through the red tape of proving to the State that they were financially responsible.

People who are not insured at the time of the accident, will, of course, have to continue to meet the requirements of the law.

MAYOR BOB BARBEN introduces Rotary's Ladies' night Saturday. Rotary speaker Howard Higgins at left.

Howard Higgins Touchton Will Sponsor Inter-County Golf Tournament

Led by Bob Barben as president of ceremonies and Morris Adams as chairman of committee including Bob Barben, Lee Corbin, Lew Miller and Art Turner the event was a huge Rotary success.

Our speaker Howard Higgins from St. Petersburg, and Rochester, N. Y. as well as the Boston area enlightened us on the tricky associated with golf.

He started by presenting experiences he represented as a successful health director to his guests and their families in the area. He then proceeded to illustrate and explain many events which have been exposed.

Our food supplied by Camp Winnam was delicious and nicely served. Chairman Glen led spirited singing accompanied by President George Walper on the piano. (Setting in the dark room.)

Bill Young was presented a plaque expressing appreciation for his years of service as secretary and dedication to Rotary. The plaque awarded him the title of honorary secretary and life-time Rotary membership.

Bill Wodtke of Vero Beach, president of the Florida State Golf Association has announced this past week that Avon Park Golf Course was being considered by the four day 1970 PGA member invitational tournament.

The other two rounds will be played in Sebring. Ed Touchton, Sr., who is past president of the association, will be instrumental in bringing this activity and the Fairway Awards Tournament to this area and the Avon Park Golf Course.

Activities such as these are bringing many Florida golfers and their families into the area. Motels and restaurants are being filled by the visiting golfers. Many of whom are planning to return for the third annual Home Juice Invitational which will be played later this year.

With the successful operation of the Avon Park Golf Course now in its third year of operation and recent opening of the Rivergreen South golf course, Avon Park has as the saying goes, arrived on the golf scene.

Wednesday and Ladies' Day on Thursday have become very popular. Also a weekend event and other one day tournaments are held.

During March the new Highlands County Golf Tournament will be played on the Avon Park Golf Course. The tournament will be played in four days and sponsored by Touchton Druggs.

Winners of awards from 49 states are utilizing the Avon Park Golf Course and consider it one of the outstanding courses in Florida. As one city official put it the city operated golf course is attracting many new winter guests who are visiting and staying in the area longer to enjoy this fine facility.

The hopes and dreams of our city in establishing the golf course have become a reality. The addition of this recreational facility has filled a much needed vacancy for citizens and particularly for our young people.

It is an important part of the junior college and high school physical education program.

Red Devils' Record Now Stands At 9-8 With Win Over Alva

The Red Devil basketball teams both took wins over Alva but lost to Fort Meade last week giving the varsity a 9-8 record and putting the "B" squad at 11 wins and 4 losses.

Last Tuesday night the two teams were to travel to Lake Placid to take on the Green Dragons in return games and tomorrow night (Friday), the Devils will host the Fort Meade Miners here at the high school gym. Next Monday night the two Devil squads will close out the regular season with a home game against the Hardee High Wildcats.

Next weekend, February 27 and 28, the Avon Park varsity will compete in the district tournament to be held in Lake Placid.

The Devil varsity outscored Alva 76-45 Tuesday night a week ago here on Avon Park's home court with Don Sizemore sinking 27 points for the winners. Roy Claitt, the other Devil guard, hit for 21 points but Joe Hardy and Phillip Hall were held to 6 points each and Herbert Stukes got only 4 counters.

Thad Tate added 5 points to the total Devil score. Sizemore hit 11 of 13 free shots. It was a different story in Fort Meade last Friday night, however, as the Devil players were unable to hit the basket consistently. Sizemore was held to 17 points although he hit 3 of 3 free shots. Thad Tate sank 14 points for Avon Park and Hall and Claitt added 8 points each. The final score was Fort Meade 66 and Avon Park 50.

The Red Devils trailed at the end of the first period by a score of 9-7 but led at half-time 22-21. Then in the third quarter the Miners hit for 16 points while the Devils managed only 9 points and in the

final quarter Fort Meade hit for 29 points as Avon Park sank only 19.

The Avon Park "B" squad set a new scoring record against Alva when they put 153 points on the board and held Alva to 55. James Perdue scored 23, Clayton McNeil had 21, Steve Cooper hit 19, and Joe Franz scored 15 as the junior varsity boys went on the wild scoring binge.

The Avon Park "Bees" lost to Fort Meade by 3 points in Fort Meade last Friday with a 52-49 score. McNeil had 20 points for high score and Perdue and Franz hit for 8 points each in the losing effort.

Retired Persons Oppose Jetport

At its February meeting the Highlands County Chapter of the American Association of Retired Persons reversed a previously announced stand against locating a jetport in this area.

The AARP directors had gone on record as being "emphatically opposed to having the jetport at the Avon Park Bombing Range."

At the February 10 meeting the majority of the members present voted they would "not object" to having the jetport at the bombing range.

The vote was taken following a speech by Wesley Ward, general manager of radio station WJCM and member of the committee working to obtain the jetport for a Highlands County location.

Ward said the jetport would be used as a "supersonic plane flying to and from foreign countries. The planes would be required, by law, to fly at subsonic speeds over land to avoid sonic booms."

He said demonstrators or equivalent transportation could be used to carry people between the jetport and other airports or to such places as Disneyworld.

Ward said having this jetport in this area would give employment to several thousand people living in nearby locations; it would be a source of considerable tax revenue for the host county and possibly for the state.

He answered the frequently heard objections to having the jetport in this area. He said some protesters say the planes would eliminate 70 per cent of the fumes, and that baffles would minimize noise and vibration from the planes.

Beverly Turner - Chester Clarke Wed In Episcopal Church

The Episcopal Church of the Redeemer was the scene of a very impressive double-ring ceremony Thursday night at 7 P.M. Feb. 12, uniting in holy wedlock Miss Beverly Jane Turner and Chester A. Clarke, Jr. of Sebring.

The bride is the daughter of Mr. and Mrs. John D. Turner of Avon Park and the bridegroom is the son of Mrs. Katherine Clarke and C. A. Clarke of Sebring.

Father John Knapp performed the sacred ceremony with a background of two white bridal bouquets of gladioli and chrysanthemums, flanked by two five-branched candelabras with white tapers. Two green jade clusters accented the altar decorations. Mrs. Helen Fields was organist.

Bride Wears Venice Lace
Given in marriage by her father, the bride wore a formal bridal gown of peau de seie and Venice lace. Her empire bodice of Venice lace had a high neckline with full sleeves. The A-line skirt was covered with a lace outline split panel that swept to a lace edged chapel train. Her bridal bouquet was a cascade of white roses, white mum tuffs, touched with pink miniature carnations and white statice.

Mrs. Linda Branch, Lakeland, cousin of the bride, served as matron of honor. Her bridesmaids were: Betty Rose, Winter Haven; Sandra Harris, Sebring; and Sharon Money, Avon Park. The attendants were gowned in floor length dresses of emerald and Nile green combination. The emerald gowns had scooped necklines, V shaped back and elbow length sleeves with ruffles lined in Nile satin.

The Nile satin skirts were slightly gathered and accented at the back of the waistlines with a tiny flat bow. They were matching emerald velvet gloves and shoes, short white gloves and each carried a traditional nosegay of pink carnations with white statice.

Kristi Harris, niece of the bridegroom was flower girl. She wore a floor length gown of emerald green velvet, long sleeves and round neckline, with lace ruffle at the hem. Matching green peau de seie shoes with lace bows, and green velvet gloves and shoes. She carried a tiny white basket of rose petals. Her dress was designed and made by the mother of the bridegroom.

Earl Lanier, of Fort Lauderdale was best man. Ushers, both brothers of the bride, Wayne Harris, brother-in-law of the bridegroom, and Gary Lanier of Fort Lauderdale.

Scott Branch, of Lakeland and cousin of the bride, served as ring bearer and wore an emerald green velvet one piece John-John suit with brass buttons, white turtle neck long sleeve shirt and white knee high socks. He carried the bride's rings on a white satin pillow.

Mrs. Turner wore for her daughter's wedding a turquoise blue silk coat ensemble, with A-line skirt, short sleeves, rolled collar with crystal beads and rhinestones. Her long sleeved coat matched her peau de seie shoes. She wore a white feather and a net hat and a white orchid corsage.

The mother of the bridegroom wore a lavender bonded crepe sheath, long sleeves and jeweled collar. Cuffs and collar were beaded with crystals and pearls. A sleeveless lace coat covered the dress with matching panel with white gloves and a white orchid corsage.

For her traveling outfit the bride wore a powder blue crepe dress with flowing circular skirt and navy accessories and the white orchid bouquet.

After a wedding trip to New Orleans and throughout the state, the couple will reside in Gainesville, where the bridegroom will resume his studies in veterinary medicine.

Reception
The reception was held at Camp Wingmann conference center, with Mrs. Anne Baker in charge of arrangements.

The bride's table was covered with white satin and a skirt of white taffeta and tied at all corners with nosegays of white roses and stephanotis. The traditional three-tiered wedding cake was topped with a miniature bride and a bridegroom accented with a four-branched silver candelabra with burning tapers, complete of nuts, milk and arrangements of pink gladioli and carnations flanking the cake. The bride's bouquet adorned the wedding cake.

Silver compotes of decorated mints and nuts were placed on the table. Pinks formed the background.

The punch tables were covered with white cloths trimmed with lace. Silver punch bowls, with wedding ring ice molds floating in punch were decorated with greenery and orchids. Redeemer Youth To Beautify Church Yard

Originally it was the Acolytes who were asked to set next Sunday afternoon as a special work session to beautify the church yard. But other boys were invited and some of the teenage girls asked if they could join in the fun. Of course, all of our young people are welcome! The project starts at 3 P.M. Wear old clothes, and bring a leaf rake if possible. A yard cocks will wind up the afternoon. Our young people have done this project twice a year for some time, and the church adults express appreciation for their efforts and interest.

Our young people serve as church school workers, choir members, acolytes, and staff workers at Camp Wingman, and most of them are in church services every Sunday.

Congregational Lenten Service

Did you miss the first service? Have you talked with those who were there? The consensus was that it was "good to have been there." So we urge you not to miss the next one on Feb. 22 at 7:30 P.M. in the sanctuary of the Union Congregational Church where there will be a repeat of the "hymn singing" of special music and a timely message. The Rev. John E. Pickens, Jr., pastor of the Church by the Sea, Madeira Beach, will be the guest speaker. See you there, see you then.

Was Jesus Just A Great Man?

By DAVE LLEWELYN
Jesus was insane, perhaps. Or if not insane, He may have been a liar. If neither of these, He was God. But He couldn't have been merely a great man, the emperor of moral philosophy claims to be God, declares Himself to be the only way to heaven, accepts worship from other men. If Jesus took these roles seriously, He was an egotistical fraud. There is no logical middle ground. Claims to divinity, of course, have been made since by other prominent men — the emperors of Rome, for example. Only Caligula and Domitian took these claims seriously, however, and historians agree that both were insane.

Issue — or Divine?
Jesus didn't get rich, and He refused to become king. So if He was a liar, He must have lied for the privilege of being crucified. That would have been insanity.

It seems the choice is between divinity and insanity. A few theologians these days try to support the second alternative, but no theory I am aware of makes any sense of the rational, peaceful, and humble way of life which Jesus died lived while suffering from His alleged "theomaniac."

Jesus clearly endorsed the declaration of Peter: "You are the Christ, the Son of the living God." If Jesus was the Son of God, then He still is.

Immediately after Peter told Jesus, "You are the Christ," Jesus replied "You are Peter." Then He told Peter two truths about himself.

First, He explained that in comparison with Jesus, Peter was just a man. Second, He said that Peter was the rock upon which He would build His church, and that the gates of hell would not prevail against it.

Lutheran Women Meet

The February meeting of the Resurrection Lutheran Church Women was held last Wednesday afternoon with President Mrs. Lucille Hurst presiding.

Mrs. Peters read an original poem that was written by a friend. Minutes of the previous meeting was read by Secretary Mrs. Fanny Rouch. Progress was made on the minor project.

Refreshments were served by Mrs. Lucille Hurst. The next meeting will be the second Wednesday in March.

RAARC Will Meet Tonight
The Ridge Area Association for Retarded Children will meet tonight, Feb. 19, at 7:30 P.M. at the First Christian Church in Sebring. This proves to be a very important meeting and every member is urged to attend.

CARD OF THANKS
We wish to thank all our friends and neighbors for their acts of kindness and letters of sympathy which all have been of tremendous help in our time of grief in the loss of our brother, Walter Henry Mitchell, and family.

was unimportant, and He used a play on words to contrast the two. He said: "You are Peter" and "Peter" is a masculine word in the original Greek and means a stone. "I will build my church" and "rock" is a neuter word and means a boulder or bed-rock. "I will build my church."

Although Peter played the leading role in the first stage of establishing the church, he was not the foundation itself. "For no man can lay a foundation other than the one which is laid, which is Jesus Christ." (1 Corinthians 3:11)

Next, Jesus explained how important Peter was in his position under Christ. Jesus gave Peter the "keys to the kingdom of heaven." Then He explained their significance: "Whatever you shall bind on earth shall be bound in heaven, and whatever you shall loose on earth shall have been loosed in heaven."

Led by Holy Spirit
The King James Version has popularized a misconception of this authority by its use of "shall be bound/loosed" rather than the more exact "shall have been bound/loosed." Peter's authority is not to make decisions for God to carry out; rather, he was given the privilege to proclaim decisions already made in heaven.

We have roles similar to Peter's. We, too, can be led by God's will through the Holy Spirit and can declare the decisions of God as they are recorded in the Bible.

We, too, can become "rock," solid Christians by building on the bedrock foundation of Jesus Christ. And, as with Peter, these changes will come only from accepting the revelation of who Jesus Christ is.

Panthers Defeat Daytona 99-97 Friday

Last Friday night in Daytona Beach, South Florida Junior College's Panthers topped the Daytona Beach Seabirds for the second time this season by a narrow margin of 99 to 97.

The Panthers played fine ball for the most part but almost blew the game twice. They led by 13 points just prior to the end of the first half but led by only 52 to 47 at the half.

After building a 19 point lead they faltered in the last seven minutes and Daytona took the lead 97 to 95 with 35 seconds left. John Beattie drove the length of the court to make one in to tie the game at 97 to 97. Daytona's Greg Hawver took a long shot that barely missed and Mike Coots, a South Florida Junior College baseball player, rubbed for the basketball team, got the rebound and was fouled by Hawver. Only nine seconds remained as Coots calmly sank both free throws to put the Panthers ahead 99 to 97. Daytona had another shot but John Graham rebounded for the Panthers and held on to the ball to preserve the win.

The Panthers ended their season in Orlando Tuesday night. Chuck Smith with 24, Beattie 21, Ron White 18, Graham 16, Coots 8, Bill Whitener, 6, Charles Magenheim 4 and Rod Hollinger 2 did the scoring for South Florida. However, the state's third leading scorer, swished 45 points to lead Daytona.

NO EXTRA COST! You pay no more for this convenience. You pay the same amount each month. It eliminates higher, seasonal bills. Allows you to budget your payments on a yearly basis.

HERE'S HOW IT WORKS: We add up your electric bills for the past

12 months to determine what your total will be for the next 12 months. We then divide by 12 and bill you for the same amount each month.

At the end of that year, any difference will be figured into the following year.

THE AVON PARK High School Band, under the direction of Vic H. McKunas, will present its last Winter Concert this Sunday, March 1, in the high school auditorium at 3:30 P.M. The band will play its contest music, some popular

selections and will feature John Haxton, tenor soloist. Next Tuesday, March 3, the band will march in the Strawberry Parade in Plant City at 1 P.M. Pictured above are the majorettes who will be featured in the parade.

Devils Will Meet Lake Placid In Open Rounds Of Tourney

The Avon Park Red Devils will take on the top-seeded Lake Placid Green Dragons in the opening round of the Class B District 13 basketball tournament which starts in Lake Placid tomorrow night (Friday).

The Ford Meade Miners will play Frostproof in the first game of the tourney at 7:00 P.M. on Friday and the Devils will tackle the Dragons in the second game on Saturday night around 8:30 o'clock.

The winners of the two opening round games will meet on Saturday night at 8:00 o'clock to determine the champion. The winner of the B-13 tourney will then advance to one of four regional meets on March 6 and 7 and then the state finals will be played in Jacksonville on March 13 and 14.

Lake Placid finished the season with a 13-8 record to earn first seeding. Frostproof was seeded second with a 13-11 record. Ford Meade was in third place with a 10-12 overall record, and Avon Park finished fourth seeding with a 10-10 record.

The Avon Park basketball team finished out the regular 1969-70 season with a thrilling 69-67 win over Hardie High last Monday night here at the high school gym to set a 10-10 record. Last Friday night the Devils lost out 68-63 to Fort Meade in a triple-overtime affair also played here and Tuesday night a week ago the Red Devil victory dropped a 78-63 decision to Lake Placid.

A hot first quarter in which the Red Devils scored 19 points while the Wildcats barely managed only 10 proved to be the winning difference for Avon Park last Monday night as the Devils won 62-42 in the last eight seconds of the game on Joe Hardy's lay-up. The Hardies boys outscored Avon Park in each of the last three quarters but couldn't put the finishing touches on in the last minute as they threw the ball away twice to blow the chance to tie down the win.

Don Sizemore hit 10 shots from the floor and 10 from the bonus line to score 30 points in the big win and Joe Hardy and Herbert Stokes both contributed 11 each with Hardy getting the final basket for the one-point victory. The Devils hit a fantastic 21 of 27 free shots.

The Devil's loss to Fort Meade sank a field goal in the first half of the regular game to the things up 71-71 to throw the game into an overtime period of three minutes. Both teams scored 8 points in the first overtime period and the game remained tied at 79-79. In the second overtime period Avon Park took the lead again and Fort Meade sank a field goal again in the third minute to tie it up at 85-85. Then in the third overtime period Fort Meade stalled until the final minute when they took one shot which Ivory Robinson hit as Don Sizemore fouled him on his way up. Sizemore also sank the free shot and then, with two seconds left

in the game, Avon Park threw a desperation pass all the way down the court after a time out.

County Gets \$962,776 From Sale Of Bonds

Highlands County commissioners now have possession of \$962,776 to pay for a series of capital improvements in the county.

On Wednesday Clerk Earl Rich, Deputy Clerk Jim Pyle and County Attorney H. N. Nunnallee went to St. Petersburg to receive the proceeds from the sale of \$1 million in certificates of indebtedness backed by the commission's share of state race track taxes.

The bonds were bought at discount by Goodbody and Co. of St. Petersburg. Average interest rate for the issue is 7.499 per cent.

Sale of up to \$1.5 million of certificates was approved in special legislation passed by the 1969 Legislature. As a part of the procedure for selling the bonds, the county commission had to adopt, in October, a list of proposed projects with estimated costs for each.

The project list covers \$1.5 million, and the commission will have to adopt a new list reflecting the smaller fund now available.

State law requires that a budget for the funds be formally adopted, a public hearing on the budget must be held and the approval of the state comptroller obtained.

Under the original, and now outdated list, the race track funds were to be allocated this way: Bridge, Road, bridge, \$100,000; second floor for agriculture annex, \$350,000; county office building in Avon Park, \$100,000; voting and recreation building in Veneta, \$150,000; new road and bridge headquarters, \$285,000; resurfacing of county roads, \$100,000.

During World War II, he was a Major, and as public information officer for the 12th Air Force Headquarters in the Mediterranean Theatre and was awarded the Bronze Star medal for merit.

Cigarette Taxes Up

Cigarette tax collections for December, 1969 were up throughout Highlands County as compared to a year ago. Figures were: Avon Park, \$7,606.98 compared to \$6,981.08 a year ago; Lake Placid, \$3,769.22, \$2,544.97; Sebring, \$13,785.22, \$11,057.31; county areas outside the cities, \$1,874.31, \$1,627.72.

Block Saturday

American Legionnaires of Sebring, Lake Placid and Avon Park will join force to make Saturday an all county road block for the weekend. Each post will work in its own community.

LEWIS LLEWELLYN

Will They Expel God from School?

A New Jersey judge has decided that it is unconstitutional to read aloud a passage from the Congressional Record in the public schools.

In Netcong, N. J., school authorities decided that the reading of the prayers printed in the Congressional Record—prayers offered at the opening of each daily session—would surely be permissible under the law.

However, this practice was challenged and New Jersey Superior Court Judge Joseph H. Stamler has ruled that the reading of these prayers in school is a violation of the First Amendment of the Constitution.

Free Exercise of Religion

There are many who believe, on the contrary, that the judge's decision is in violation of the intent of the First Amendment, which states, "Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof."

The phrase "establishment of religion" means, as all should know, the establishment of one certain denomination as the state religion for the entire country—as the Church of England is in England, as the Lutheran Church is in some nations, and as the Roman Catholic Church is in other countries.

This amendment never was intended to hinder in any way the reading of the Bible or praying in public schools—and this was well understood at that time and for over a century and a half afterward.

It is interesting to contemplate what the reaction of the people living at the time of the adoption of the constitution would have been had any court then that the

First Amendment should be interpreted in such a way as to ban prayers and Bible readings in public schools.

Crime in Schools

Another area in which schools are making news is pointed up in this quotation from the New York Times of January 12: "Crime and violence appear to have increased sharply in public schools in urban areas."

The trend is documented in interviews with school officials in 20 major cities.

The report continued with instances of killing, personal injury, and vandalism in public schools in Washington, D. C., Nashville, Tenn., Detroit, Mich., and other cities.

Is there a relationship between the declining emphasis on the spiritual and the declining morality in our schools?

Rights Should Be Restored
The matter of prayer and Bible reading in schools is certain to be taken again to the Supreme Court. We may hope—and pray—that when it is again considered by the nation's highest tribunal the decision will be in accordance with the intent of the First Amendment.

Is it too much to hope that our schools may once again be open to the teaching that "The fear of the Lord is the beginning of knowledge?"

"Be not wise in thine own eyes," the Bible warns, "Fear the Lord and depart from evil."

Restoring the right to read the Bible and pray in the schools cannot be expected to work an overnight miracle in improving student behavior, but if the courts exclude God from the schools, then the courts may expect to be kept busy handling other cases arising out of the ungodly conduct of students.

Local Residents Assemble Income Tax

Residents of Highlands County, who are busy assembling their 1969 income and expense figures in preparation for their Federal income tax reports, can now tell whether the personal deductions they are listing are higher or lower than average.

For their particular incomes, how do their charitable deductions compare with the average of other taxpayers? How do their deductions for medical expenses and local taxes compare?

Answers to these questions come from the Commerce Clearing House, national authority on tax and business law, based upon data from the Internal Revenue Service.

It has released a breakdown showing just how much the average taxpayer in each income category has been deducting for contributions, interest, taxes and medical expenses.

It shows that among families with earnings equal to the average prevailing in Highlands County, approximately 20 percent of gross income, or about \$1,450, is the normal deduction. In families whose earnings are lower than the local average, the amounts that are deductible represent a larger percentage of their income. For those in the higher brackets, on the other hand, the deductions are lower, percentage-wise.

Highlands County families who are in the \$10,000 income range, for example, will be deducting some \$1,870 this year if they conform to the average local income. Those at the \$6,500 level will have deductions of about \$1,370.

The analysis of income tax reports indicates that the principal deductions among families in the lower income groups are for local taxes and for interest charges. Deductions for contributions and medical expenses become more significant as income goes up.

Of the \$1,420 in total deductions taken by most families whose incomes approximate the Highlands County average, \$222 is for contributions, \$462 for interest on installment debt and other obligations, \$436 for state and local taxes and \$270 for medical and dental cases.

The Commerce Clearing House emphasizes that these are purely guideline figures and are not automatically accepted by the IRS. The actual amounts deductible, properly supported by records, may run higher or lower than the average in individual cases.

Red Devils

Meade got possession under its own basket. The ball was tossed in and another field goal made as the game ended to give the Minors the point win.

In the first half Avon Park played a zone defense and trailed at halftime 41-28—a 15 point deficit. Then in the second half the Devils switched to a man-to-man defense and surged forward to tie the game up and even go ahead at one point in the last quarter only to lose in the third overtime.

Sizemore hit for 29 points, Herbert Stukes had 20 and Joe Hardy, 18. Thad hit for 12 to aid the Devil's cause.

The Devils lost to Lake Placid on the Green Dragon's home court was a game in which the Devils trailed all the way and couldn't seem to hit the basket nor stop the Dragons from scoring. Several Devil players were recuperating from the flu and weren't at top form.

This game was high. Devil scored with 20 points. Don Sizemore hit for 15 and Roy Claitt scored 12 as Lake Placid's Norman McMillan scored 20 for the winners.

Don Sizemore finished the 30 minutes with a 22.5 point per game average scoring a total of 470 points of which 184 were scored from the free throw line. Joe Hardy averaged 12.5 points per game and Stukes averaged 9.0 points each game. Sizemore has a .727 percentage for the year at the foul line hitting 184 of 243 shots.

The Avon Park "B" team finished up the year with an outstanding 13-5 record. The junior varsity lost to Hardee twice, Avon once, Fort Meade once, and Santa Fe once. The Devil "Bees" were coached this season by rookie coach Buddy Marshall.

In the final three games the Devil "B" squad won over Lake Placid, 72-67, and to Hardee by a score of 30-37.

The Devil "B" team is to be congratulated on the fine record it set.

Don Sizemore, 45, of 306 Third St., Avon Park, and his wife, Alberta, 30, were ordered held in \$2,000 bail each for trial in Highlands County Circuit Court on charges of torturing or unlawfully punishing a child, following a preliminary hearing this week before Judge Mervin Rehner.

According to Assistant State Attorney Joe Macho, they are specifically charged with depriving a child of necessary treatment or attention.

The charges stemmed from the recent death of their 3-year-old ward, Connie Gainer. The girl is reported to have bled to death internally when four fractured ribs punctured her lung. The girl is believed to have been injured on Jan. 28, without receiving medical treatment for her injuries, authorities said.

The sheriff's office is investigating to determine how the injuries were inflicted.

Avon Park Flying Notes

By ELEANOR TRESOCC

Don and Shirley Gossick began operations at the Avon Park Flying Service September 15, 1969. Formerly of Peoria, Ill., Don was Chief Pilot in charge of flight instruction, charters and activities of pilots at the Byerley Airport, Peoria. The first student under Don's instruction was Paul Lindon of Bowling Green. Paul arrived on Christmas Day. The first to solo was Carl Lindon of 1140 Grand Prix Dr., Sebring. At present Don has about 20 active students, of these 11 have soloed.

An unusual sight for the Avon Park Flying Service was the landing and take-off of a DC-6, 4 engine Air Force plane last Sunday, Feb. 15. It caused some concern for local residents to see such a large plane coming in so low over their homes. The plane landed to take aboard a group of the Civil Air Patrol who had spent the weekend at Camp Wingman.

Major Jim Sizemore of Avon Park flew in this weekend from Pensacola. Jim commutes between Avon Park and Pensacola in his Cessna 210.

Trout, representative from the FAA, was in Avon Park at the South Florida Junior College, Thursday, Feb. 19 to administer tests for the private and commercial license and for Flight Instructor ratings. 14 men who have been flying at the Avon Park Flying Service took the tests.

Last Wednesday, Feb. 18, Gossick began his second session of ground school with 10 students enrolled. The school lasts for about 8 weeks. Instruction in ground school is given by the use of sound filmstrips from Sanderson Flying School and by lecture.

ye together, and for the sake of God resolve to root out whatever is the source of contention amongst you. Then will the effluence of the world's great Luminary envelop the whole earth, and its inhabitants become the citizens of one city, and the occupants of one land, and the same throne.

jewels of gift-ideas for Spring

Since time immemorial the gleam of precious jewelry has never failed to tickle a lady's fancy. Whatever else she may own, jewelry is one thing she can never own enough of.

For spring gift-giving this year, you'll find there's a delightfully feminine group of Lindé Star jewelry that is a precious present to give indeed for Mother's Day, birthdays, graduations and, of course, for the bride-to-be.

Among the jewelled highlights from an extensive collection of pieces available at leading jewelers across the country... a pair of daisy ear clips centered with man-made sapphires; a sapphire cocktail ring set in nuggety 14kt gold and surrounded with pearls; a graceful teardrop pendant of twisted 14kt gold centered with a Star and topped with a round diamond; and a second jewelled ring, this one of polished 14kt gold set with marquise amethysts and highlighted with a pear shaped Star.

Hotter side stripes come into focus... the kind that go all the way up with the pantyhose for as much exposure as the individual desires in spring's mini-to-maxi scheme of things.

One designer traces them on the outside of the legs on two of her newest... the scroll stripe on one... the regimental stripe on another... both line-on-tone on sheer sandalfoot pantyhose in white, bone, pale taupe, navy, brown and black.

NEW KNITS

SHAPE UP

BEAUTIFULLY ...

HERE, CARE-TIPS

The knit-pickers of fashion are as concerned about detail as the nit-pickers, but for far better reasons. They know the details of the new knits for Spring and Summer can set them apart in the fashion picture.

Knits offer the kind of fashions that a woman with her own personal style sense chooses because they adapt so marvelously to her, to the many facets of her life, and to her shape.

Once this adaptability to her shape was something less than an advantage, bringing with it bagging skirts, ballooning elbows and shaggy shoulders. But the new double knits in wools, synthetic cottons, and blends seem to be impervious to such problems. If, occasionally, after a full day of wear, a double knit suit, or a bonded knit dress seems to take on a shape resembling the wearer, simple at-home care restores its like new lines. A pressing with a warm iron and steaming helps revive the original shape between trips to the cleaners.

Magic sizing, sprayed on as you iron, is a good shape-up treatment. And because sizing adds body without adding scratchy stiffness, none of the body-clinging beauty of the knit is lost. Sizing, unlike starch, creates no build-up on the iron, so there's no problem of scorching or flaking. In fact, sizing seems to have a knack for giving loving care to knits, and putting back the like-new body that just wearing removes.

Many of the bonded knits, the blends and the cottons seem to have joined the ranks of today's most popular fabrics. They're machine washable and dryable. It's almost unbelievable, when you see how easily knits have adopted the body conscious look. There are double knits that pucker curves in the long pull of a sweater vest, slinky little knit skimmers to take the place of the classic sheath, flared pleated skirts, and costumes that are cotton-light and cotton-comfortable in clinging weaves.

These are the details the new knit-pickers are looking for this spring and summer. Upkeep? No one worries about it. These knit fashions are in and out of the washer before you can say "knit-iti" and with a touch of the iron and an aid such as Magic sizing they shape up to fashion again.

PAULINE HALL of Howze Electric shows a new Gibson Refrigerator that is being offered at a good price at Howze Electric on South Forest Ave., Avon Park.

THE "VOGUE" in Avon Park is the smart place to go for the newest in hair styles. Here you are treated with special attention. Mrs. Kenneth Filpula is shown with operators of the Vogue, Louise, Wyona and Jackie.

FIT FOR A QUEEN, well—a princess, anyway. A model shows off an evening dress designed for Princess Paola of Belgium. It features diagonal stripes.

William Hurlitt (1779-1830) described fashion as "gentility running away from vulgarity and afraid of being overtaken."
