THE AVON PARK City Council is all smiles as they look at the 1970-71 budget which totals \$1,124,100.14 after the budget ordinance passed its first reading. The ordinance will be read again at the next council meeting on Monday, Aug. 10. From left to right are

Councilmen Russell Scott and Milton Howard, Mayor Bob Barben, President Jack Duggan, City Clerk Malcolm Crews, and Councilmen Don Sordynski, and Vice President Durrah Martin.

Action On Police Academy Delayed By State Cabinet

Avon Park is one of only five cities still seeking location of the proposed police academy in their own cities.

Action on the location was postponed for up to one month at the meeting of the state cabinet in Tallahassee with the delegations of the cities on Tuesday.

Avon Park Chamber of Commerce President Charles Watson and City Council President Jack Duggan attended the meeting with Representatives Jim Tillman of Sarasota and Don Heath of Norfolk.

Sebring Chamber of Commerce Executive Secretary Martin Grahler and City Clerk Jack Stroup joined

with the Avon Park officials in a cooperative effort to interest the cabinet in the proposed location south of Avon Park near South Florida Junior College.

A special meeting of the Avon Park Sebring, and Lake Placid Chambers of Commerce and City Councils will meet in the municipal building of Sebring Friday night at 8 P.M. to discuss the request and determine what further action can be taken to get the academy located in this area.

The state cabinet has postponed a decision on the site of the academy for up to one month. During this time the

area officials and interested citizens will be able to make formal application with written specifications concerning the proposal which the group plans to offer the cabinet.

Avon Park City Council President Duggan stated that Representatives Tillman and Heath cooperated very well with the Avon Park and Sebring officials. The two legislators pointed out the proximity of the proposed police academy to the South Florida Junior College.

They also showed that the site was near the Florida Firemen's Association building and the National Guard Armory. A firing range would be available.

The purpose of the police academy will be to train law enforcement officers in a 10-week course enabling them to return to their local positions better able to fight crime. The Department of Law Enforcement in Tallahassee is pushing for a site in that city in order for the academy to be near the police laboratory, crime information computer and criminal identification apparatus.

Other cities who have sought the site include Bartow, Sanford, and Gainesville. Sanford has offered the use of a six-year-old \$600,000 building on the old Sanford Naval Air Station at an annual lease rate of \$20,000.

City officials from Avon Park and Sebring met with this area's three state representatives Thursday for a noon dinner meeting at the Holiday Motel in Sebring. The purpose of the meeting was to discuss the presentation which was made before the state cabinet on Tuesday morning in Tallahassee.

On Friday Representatives Heath and Tillman met with Avon Park Chamber President Watson, Sebring Executive Secretary Grahler, and Councilman Grahler to write up the assets of the area and the reasons for locating the police academy here.

Critchfield Adopts Plan To Settle With Creditors

Critchfield Marine has filed its permanent terms of arrangement for settling its accounts with creditors in the Federal Court in Miami July 21.

The creditors have been notified that a meeting will be held Thursday, Aug. 13, at 11 A.M. in the Bankruptcy Courtroom in Miami. The purpose of the meeting is to give the creditors an opportunity to examine Critchfield Marine, advise the court of pertinent facts, nominate a stand-by trustee, appoint a committee of creditors, indicate acceptance or rejection of the plan, and transact any other necessary business.

J. Albert Burnett, who is the sole owner of the corporation, was principle stockholder when the firm was sold to Quadren, Inc., of New York last Fall. In the ten-month period when Quadren operated the business the company went bankrupt, and the present statement of condition lists the amount of debt at \$777,310.00.

Burnett met with the Avon Park City Council June 29 and was granted a reduction on the lease rental for the building and property which the city has leased them from \$250 to \$50 per month for the next two years. At that meeting Burnett informed the council that the company's 15 large creditors favored the reorganization plans.

Burnett has stated that the company plans to operate on a limited basis, building two to three boats daily, for the remainder of the year. Plans for expansion to a nine to 12 boat daily production are anticipated for early next year.

The Reorganization Plans Critchfield Marine has arranged the unsecured creditors into three classes. Class A creditors are those whose claims are in excess of \$300,000.

The agreement calls for

payment of five percent of the five percent interest charged on the total principal in three installments from the confirmation of the agreement to January, 1972. Payment of 10 percent of the original indebtedness at an interest rate of five percent would begin on January 15, 1973.

Class B creditors are those whose claims range from \$50,010 to \$300,000. These creditors will receive 15 percent of the amount owed to be paid in three equal monthly installments in January and June of 1971 and in January of 1972.

Class C creditors, whose claims amount to \$50 or less, will be paid in full within six months of the date of the final confirmation of the reorganization plans. However, no Class B creditor will be allowed to reduce the amount of indebtedness to \$50 in order to qualify as a Class C creditor.

Secured claims against Critchfield Marine amount to \$592,910.00 and unsecured claims total \$582,356.00. The Citizens National Bank of Orlando is a secured creditor entitled to a priority status in

an amount of \$325,000.00. The security agreement pledges the company's accounts receivable, cash, partially completed, completed, raw, and work-in-process inventories.

In the event that the majority in number and amount of unsecured creditors accept the plan and the court confirms the plan, the Bank has agreed to reduce the amount of indebtedness by \$50,000 to a total of \$275,000.00, to reduce the interest on the remainder from nine to six per cent, and to defer payment on interest and principal for a year from the date of the order of confirmation.

If the terms of the arrangement are confirmed, Burnett has agreed to waive payment of \$31,266 which he personally has as a claim against the company. He has promised to manage Critchfield Marine until all unsecured creditors, except Quadren Corporation have been paid in full without receiving compensation except for reimbursement for out-of-pocket expenses. And he has promised to invest \$75,000 of his own money in the business if necessary.

Martin Lone Qualifier In Race For Avon Park Council Posts

Incumbent City Councilman Durrah Martin is the only candidate who has qualified for one of the three city council seats which will be vacated after September.

The seats presently occupied by Council President Jack Duggan, Russell Scott, and Durrah Martin will be involved in the September 22 city election, since these

men's terms expire at the end of September.

Duggan stated last week that he was not planning on running in the next election. Scott has also indicated that he will not seek re-election.

The deadline for qualifying for the city election is August 21, and citizens may register to vote until after that date.

City Council To Meet Again Monday Night

The Avon Park City Council will meet Monday, Aug. 10, at 7:30 P.M. The council will present their plans for construction of a new recreational facility at the last meeting of the council. The Club has asked that the city give financial assistance in order for the club to erect the building.

The council may also hear from the Progressive Civic Club, which was scheduled to present their plans for construction of a new recreational facility at the last meeting of the council. The Club has asked that the city give financial assistance in order for the club to erect the building.

Johnson And Jackson Fail To List Finances

Two candidates for county office missed the Monday noon deadline for filing financial reports.

And by law, both now can be challenged in court before or after election and would be subject to removal or suspension from office if circuit court rules against them.

That's the law, according to assistant court clerk Jim Fyle. Andrew Jackson, Lake Placid attorney, running for county commission, said he "slipped up" in forgetting to file. He filed his report at 4:15 P.M. Tuesday.

Johnny Johnson, Avon Park, running for school board, still had not filed by Wednesday afternoon. He could not be reached for comment. Both are Republicans.

However, in order to disqualify either man, some person would have to go to court and seek the disqualification. This has never happened in this county.

REP. GRANVILLE CRABTREE, center, received assurance Monday that Gov. Claude Kirk will ask law enforcement commissioner Bill Reed to postpone asking for a decision on location of the Little FBI academy. Left to right,

at a planning luncheon Thursday at Holiday Motel were, Martin Grahler, executive secretary of Sebring Chamber of Commerce; Crabtree, and Charles Watson, president Avon Park Chamber of Commerce.

County Adopts \$1,957,000 Budget For Coming Year

The Board of County Commissioners formally adopted the Highlands County Budget for 1970-71 Tuesday after restoring a juvenile court salary of \$4,000 which the board had deleted a few weeks ago.

The budget totals \$1,957,000, the same amount they previously had approved tentatively. The board action was taken after a number of persons associated with the court in both official and unofficial capacities

appealed for the restoration of salary of a part time assistant commissioner. They all agreed that the position—that of a woman assistant commissioner—is essential to adequately carry out the functions of the court. The post now is held by Susan Adger, who has extensive experience in juvenile court counseling.

In addition to the salary request, the board also approved the cost of several items of equipment required for court work. One was a microfilm reader.

One of those urging restoration of the salary cut specifically asked the board why the salary cut had been made and why several equipment items had been eliminated.

Commissioner Cecil P. Skipper replied that the requests for increases in the juvenile court budget amounted to 67 per cent in two years. He added that that was out of line compared with other departments.

The board also clarified the salary of John P. Perry III, new juvenile court counselor. The tentative budget had listed his salary as \$7,200.

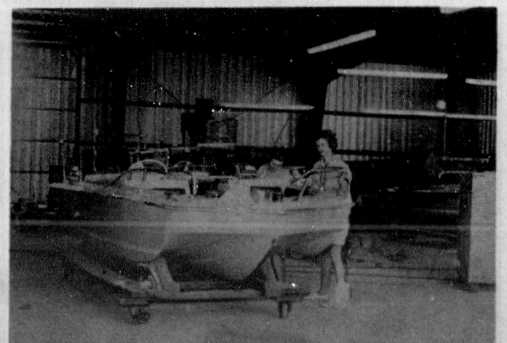

Actually Perry had agreed to begin the job at a salary of \$7,200 with an agreement that it would be boosted to \$8,200 Oct. 1.

The final budget provides for the \$5,500 salary.

David was taken to Winter Haven hospital with head injuries. Scott was the 17th person to lose his life in an auto crash in the county this year.

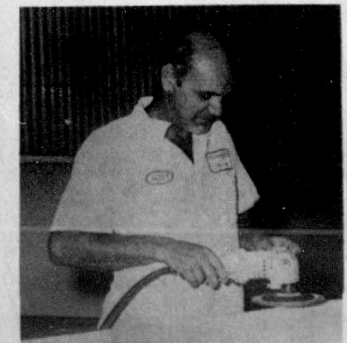

In the cattle truck, carrying six head of cattle, were Ralph Messenger, 29, of Tampa, accompanied by his daughter, Lucy, and baby Ruthie. The Messengers complained of sore backs. The cattle were unharmed.

Robert A. Mitchell, 41, of Bradenton, suffered a broken leg after hitting two Angus cows of Lyles Bros. at 9:30 P.M. Sunday. He was helped out of his car in a nearby canal by an unidentified passing motorist, who had struck one of the dead cows and crashed into a bridge. The motorist also called an ambulance for him.

MRS. BATTIS, right, and Mrs. Jelly add finishing touches to a Critchfield boat. Donald Loy is inside the boat. Once the fiberglass has been spread over the mold, a wood floor and back are added

and covered with fiberglass and resin to make it waterproof. After the hull has been cured it is lifted from the mold and bonded to the deck and the interior equipment is added.

BILL WHITE of Avon Park smooths out rough edges of a boat deck at Critchfield Marine's boat plant. The boats are built from the outside to the inside, beginning with the application of a layer of paint to a re-usable mold. Then the fiberglass strands are laid on the paint, resin and a catalyst are applied, and chopped fiberglass is spread over the surface.

Will Egypt Learn From History?

The conflict between Israel and Egypt is building up to a crescendo, as the world watches with despair and watches.

Despite diplomatic moves that may ease the tension temporarily, Egypt and the Arab nations are on a collision course with Israel.

What will be the outcome? Will the United States and Russia become directly involved, or will Israel be able to defeat Egypt again without involving other nations in the war?

It must be going to Nasser to have such a confrontation with the Israelis, who in the days of Egypt's glory were the slaves who built the pyramids and did the manual work of the Egyptians.

Learn From History?
But Nasser should read the history of his nation. It might save him from making costly—even disastrous—mistakes.

When the Israelites had been slaves for centuries and the Egyptians were well satisfied with this arrangement, one day Moses appeared before the pharaoh of Egypt and demanded that the Israelites be let go.

The pharaoh's reply was predictable contemptuous: "Who is Jehovah, that I should obey his voice?"

The pharaoh's reasoning, no doubt, went something like this: "Why should I, the pharaoh of divine origin—with plenty of Egyptian gods to worship, pay any attention to the god of the people who are our slaves?"

It was true. The Egyptians had plenty of gods and goddesses.

The Nile was a sacred river. The goddess Heka was represented by a frog. The god of

the city of Memphis was represented by a bull. The goddess of Thebes was represented by a cow.

The chief god was Ra, the sun god. The pharaohs were held to be divine.

So what reason was there for the divine pharaoh to pay any attention to the God of the Israelites?

Over a period of time, disasters fell on Egypt, at the command of Moses, speaking and acting in the name of Jehovah God.

The waters of the Nile were made to turn blood-red and undrinkable for a period of seven days. Frogs filled the land, jumping into the houses of the people, into their beds and their ovens. The cattle of the Egyptians, took sick and died.

For three days there was no sunlight in the land of the Egyptians—black darkness pervaded the land.

These and other plagues finally caused the Egyptians to let the Israelites go. The cattle of the Israelites were let go. The demand was put forth in the name of Jehovah, the God of Israel.

The pharaoh's reply was predictable contemptuous: "Who is Jehovah, that I should obey his voice?"

The pharaoh's reasoning, no doubt, went something like this: "Why should I, the pharaoh of divine origin—with plenty of Egyptian gods to worship, pay any attention to the god of the people who are our slaves?"

WILLIAM HALFORD at his typewriter during treatment at the Bureau of Alcoholic Rehabilitation, Avon Park.

Halford Writes About His Rehabilitation Experience at BAR

Editor's note: The following story was written by William Halford during his 28 days of treatment at the State Bureau of Alcoholic Rehabilitation, Avon Park. He wanted it published, hoping that it might inspire other problem drinkers to seek help. This is the first story he has ever written for publication. He entitled it "Where There Is Hope."

By WILLIAM HALFORD
There were about 50 people in the small but comfortable auditorium. It was cool and some were shifting about in their chairs restlessly. Most of them were new patients and each had come as part of an induction procedure. Each was aware and hopeful that the next four weeks would answer one question they all shared, "How can I stop drinking?"

The cold projector warmed and the first flickering frames colored the screen. Although Bill was anticipating the movie, he sensed something wrong with Jay who sat next to him.

Jay was shaking badly. A pleading emotion faded from his eyes. Then agony twisted his mouth and clear droplets oozed through his lips. His arms became drawn and his legs stiffened. His whole body began convulsing, jerking as if dancing a spasmodic rhythm to some strange ritual.

Bill sucked air, relating the surprise and shock at what he alone was witnessing and let out a loud, instinctive "Stop!" In another breath the projector quit and the lights went on. Jay's having a convulsion! Help him! I don't know what to do!"

Tension left the room and people began shuffling around, talking in serious hushed tones. Bill followed someone toward the exit. Ann brushed by him in the doorway choking with nausea.

While others comforted Jay, Bill stood alone outside in the

late, Summer afternoon quiet. "What's the matter Bill?" He turned to see Mel, a state counselor, standing nearby. "That wasn't a very pretty sight in there," Bill said.

"No. Sometimes life isn't very pretty," Mel remarked. "Life isn't a very pretty," the thought kept repeating in Bill's mind. He became aware of a gripping horror in his chest. His insides were knots of anxiety. Fear choked him.

The scene in the auditorium a few minutes before was more than a helpless man having a fit. It was an alcoholic seizure. To him an untimely, prophetic picture of death because Bill knew he was an alcoholic.

Bill's mind wandered back over the calamity of his life. What a miserable existence it had been. The pain and humiliation he'd caused those who loved him. Who could love him? The blackouts. All these times he didn't even remember driving home. Could he have killed someone?

His thoughts went back to that morning in a train station 200 miles away. The soft hopeful expression in his wife's weary, wrinkled face as she said goodbye holding their young daughter's hand. The endless ride. Sitting motionless, staring monotonously at the meaningless countryside passing and listening to the rails trying him. " . . . go back go back . . . go back."

He was confused. Why was he like this? He remembered attending an AA meeting several years back and hearing a seemingly unaffected fellow happily tell how he overcame the bottle. It was hard to believe that the man telling the story ever had the miserable experiences he described. He told that discovering faith was the key to the happiness he now shared with others in life. That faith he found was in himself.

Why was Bill remembering this? The only thing he'd ever had faith in came out of a bottle.

He recalled stepping off the train and looking at the quiet, almost deserted little station. Behind him the cars jerked

noisily to the command of the powerful engine and began to pull away. He felt as though he stood in some ominous void, numb. He was alone.

Then a taxi drove him down a smooth narrow highway passing lush planted groves heavily with green harvest. The early morning countryside seemed to be another strange dimension.

He finally stood at the reception desk solemnly responding to the admission procedure. He thought about the smiles, the pearly voices, and the energetic movement in the administration building as an aide led him through to a dormitory. Bill remembered how the aide's friendliness made him comfortable. And after a brief tour of the grounds they were in the lounge with the other patients.

"Hello Bill, I'm Jack. This is Louise. And over here . . ." He thought about these introductions and how he found himself moving around, shaking hands, " . . . yes, I'm from . . ."

Somewhere they all seemed familiar. He felt he'd met them all before some other time, another place. He saw a town drunk, a bawling looking man who seemed to have lost grips with why he ever existed. A lawyer. A clergyman. A barber. A waitress. A carpenter. A tired housewife.

"Watch it Bill!" Someone touched his arm indicating he move as Jay was being rolled by on the stretcher.

Jay was semi-conscious and pale. His eyes were blank and telling he was unaware of what had happened. His general appearance was one of relief as if he'd given part of his sickness away. He was alive. It was this time. He was alive.

"All right, will everyone please return to their seats." Projected on the screen was a man, unshaven and wrinkled sitting at a table at home. He was weak and would have to begin sipping carefully from a chalice of hope.

"This is an alcoholic," the narrator began, "a compul-

The black alcoholic — is he comfortable among his white brothers who are also alcoholic. More and more evidence is beginning to show that more than likely he is not.

An interesting article recently appeared by staff writer Margaret St. Louis in the Today newspaper in Cocoa. It was headlined "Negroes Feel Better Segregated."

Under the titled series, "Alcoholism: The Road to Hell and Back," the writer noted that, at least in her interviews at St. Louis, she found that the blacks in the nation are in the state of understanding the illness of alcoholism that the white man went through 25 years ago.

Literature, pamphlets, movies and talks on the problem of alcoholism are usually in the language of the white, middle class.

A recovering alcoholic who now helps to run an all-black half-way house for alcoholics — Alcoholic, Inc., at 218 Oleander St., Cocoa seems to feel that the black man, at this stage in the state of understanding the illness of alcoholism that the white man went through 25 years ago.

Richard Leonard, a recovered alcoholic who is struggling to keep his black half-way house going, "AA and other organizations who are working in the field, just don't make it because of a complete socio-economic and cultural difference."

Director Lemmie Rowe, said that black spouses and relatives have little sympathy for the drinker. "They think excessive drinking is just lack of will power."

Leonard points out that the black man is also afraid of losing his job if it gets out he's getting help for alcoholism. "As far as we know at the State Bureau of Alcoholic Rehabilitation in Avon Park here there is yet no reason to dispute such feelings. Nor would we want to. Every man or woman, regardless of race, creed or color responds to different types of treatment. Perhaps the black half-way house is an experiment in the right direction."

Besides the Bureau of Alcoholic Rehabilitation, AA, and the new Harvard County Mental Health Center recently established in Rockledge, just outside of Cocoa, there are not too many black professionals established in the field of the illness. I think it safe to say we need more.

Perhaps time will provide the answer.

Further information on the illness may be obtained by writing the Bureau of Alcoholic Rehabilitation, Information Services, P.O. Box 1147, Avon Park, Fla. 32825.

The time has come to take further serious looks into the alcoholic and his problem — be he black or white.

"There is hope," Bill thought. Suddenly, he realized that his presence here demonstrated his hope. The realization became a warm vital lump inside him. Knowing where the hope was originating told him where the answer had always been. He was weak and would have to begin sipping carefully from a chalice of hope.

Modern Laboratory Equipment To Improve Efficiency at Walker Memorial Hospital

The above picture is not some complicated equipment in the space program at Cape Kennedy, but rather the latest laboratory equipment recently installed at Walker Memorial hospital, Avon Park.

Viewing the equipment is Dr. Robert Cass, hospital pathologist, Dan Ledbetter, and Bill Collier, laboratory technologists.

This capable and highly mechanized equipment with a purchase price of \$55,500 is called the Technicon SMA 12 Jr. (Sequential Multiple Analysis). The system simultaneously performs 12 biochemical determinations on each individual serum sample at the rate of 36 samples per hour.

Mr. Ledbetter and Mr. Collier have just returned from attending a special training session in the operation of the 12 Jr. They relate that some of the results to be expected from this new equipment are: (1) reduction of laboratory cost to the patient; (2) the analysis prescribed by the doctor will be more accurate and complete than those

by manual techniques; (3) the laboratory reports can be in the patient's chart much more quickly, thus enabling the doctor to make an earlier diagnosis.

Walker Memorial Hospital is accepting the challenge in every way possible to keep abreast of the times and the demands for efficient medical service. A spokesman said: "Through sharing the services of the SMA 12 Jr. with Highlands General Hospital and other members of the medical profession, we are able to bring a new dimension to this section of Florida in caring for the diagnostic needs of patients."

Miss Fields - S. J. King III Marry In Jacksonville Church

Miss Priscilla Lynn Fields, daughter of Mr. and Mrs. Don Southerland of Jacksonville and a former resident of Avon Park, was married on Saturday, July 25, to Sion Joseph King III, son of the Junior Kings of that city, in Saint Catherine's Episcopal Church, with the Reverend Henry Hoyt officiating, assisted by Michael Penland, acolyte. Nuptial music was played by Cliff Parrish, organist.

The bride is the granddaughter of the late Mrs. Priscilla Camp Chisholm of Avon Park. Her paternal grandmother is Mrs. G. C. Fields, Sr., of San Carlos, Calif., also a former resident of this city.

Given in marriage by her father, Don Southerland, the bride wore a gown of imported silk organza over tulle. It featured Empire lines, with a slim bell skirt, scoop neckline, and elbow sleeves. Heavily embroidered Venice lace framed her face and cascading into a flowing train. She carried a prayer book showered with white sweetheart roses and phalaenopsis orchids.

Mrs. Joy Samorsky was matron of honor, and Mr. King served as best man for his son. Attendants were the Misses Cindy Alexander and Janie King, sister of the bridegroom, both of Jacksonville; the Misses Lark Adams and Reggie Welch of Avon Park; and Miss Elizabeth Riker of Gainesville, cousin of the bride.

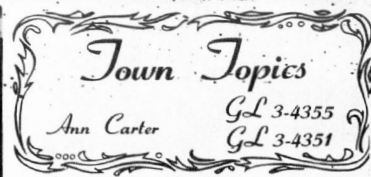

Junior bridesmaids were Stephanie Chisholm and Anne Riker, also cousins of the bride. The attendants wore matching gowns of crystal peau in shades of powder blue, French blue and gold. Heavily embroidered train accented the Empire waist and elbow sleeves, charming the bride's gown.

Their maline veils were caught to circlets of embroidery, and they carried bouquets of white and yellow daisies.

Usher-groomsmen were Clay Fields and Neil Southerland, brothers of the bride; Woody Tillman and David King, cousins of the bridegroom; Gene Davis, Tommy Herrington, Larry Sanda, and Joy Samorsky, all of Jacksonville.

For her daughter's wedding, Mrs. Southerland chose a beige lace coat over a sleeveless sheath of ivory crepe. Her accessories were lime, with a corsage of miniature orchids. Mrs. King, mother of the bridegroom, wore a turquoise lace coat over a linen dress. She wore matching accessories and carried a white cattleya orchid.

Out-of-town guests for the wedding included Mrs. Harriet Riker, Gainesville, aunt of the bride; Dr. and Mrs. Lewis F. Chisholm, Homestead, Fla.; Mrs. Henry Turner Edmundson and Hank,

Mrs. Martin Is Author For Children's Book

Mrs. Virgil D. Martin, has become a well known author in the field of children's books. Her most recent book, "The Little White Cloud" is in its second printing.

Mrs. Martin, the former Vivian A. "Bibi" Dean is married to Virgil Martin, son of Mr. and Mrs. Durrah Martin, Avon Park. She began writing seriously a few years ago, with her family's encouragement.

"The Little White Cloud" is the result of getting down on paper a story that she created one afternoon for Charles her youngest son. They had gone to school to pick up Ken and Bill, his older brothers, arriving a few minutes before dismissal. Charles was restless and there were no books to read so Bibi looked up in the sky creating a story about the Clouds, Belinda, Tim and Mr. Henry. The story became a favorite and one day was shared with a friend, Lila McCall, an artist who began to sketch and the story came to life.

"The Little White Cloud" is a "For-Fun" book for children but also an educational and literary treat because of its rhyme. In connection with publicity for the book, Mrs. Martin and Mrs. McCall have spoken before many clubs and organizations. "The Answer" a humorous inspirational tale has been developed by the ladies to share with these groups. They are working on other books, some devotional books, a book of installation services for clubs and organizations, a speech correction book and several children books.

As a former resident of Avon Park and the daughter of Mr. and Mrs. Reeves Dean, Bibi was known well in Avon Park. She attended Avon Park High School, a majorette in the local band, active in various school, community and church affairs and graduated salutatorian of her senior class. She attended Florida State University and graduated from the University of Florida with a degree in Education. She furthered her studies at the Junior College of Broward County at Fort Lauderdale. She has also been a teacher, primarily in remedial speech.

MRS. GAYLE MURDOCK

Miss Georgia Ann Franza Weds Gayle Murdock

In a beautiful double-ring ceremony, Miss Georgia Ann Franza became the bride of Gayle E. Murdock, Troutman, N.C. Wednesday evening, July 29 at the Union Congregational Church.

The bride is the daughter of Mr. and Mrs. Joseph A. Franza and the bridegroom the son of Mr. and Mrs. F. Edwin Murdock, Troutman, N.C.

The altar was enhanced by two, 14-branch cathedral candles, with white tapers and two tall standing baskets of white gladioli, apricot carnations, golden mums accented by the golden cross and ribbon and green foliage. The white satin kneeling bench held the golden cross and matching candelabras.

Mrs. Edna Jackson was organist and John Hason was soloist.

Given in marriage by her father, the bride wore a full length formal gown of imported organza over a fitted sheath of tulle. Her kiosk was styled with heavy Venice lace with short sleeves.

Mrs. Franza, the former Vivian A. "Bibi" Dean is married to Virgil Martin, son of Mr. and Mrs. Durrah Martin, Avon Park. She began writing seriously a few years ago, with her family's encouragement.

The full chapel length train bordered in matching Venice lace fell from the demi-waist. Her veil of silk illusion was held in place by her beautiful Grecian headpiece. She carried a cascade of white daisies with apricot and yellow roses and white satin streamers.

Miss Susan Franza served her sister as maid of honor. She wore a floor length gown of apricot chiffon, empire waistline with elbow sleeves. A matching bow held the flowing panel at the empire waistline. Her colonial bouquet was of apricot roses, carnations, statice and daisies.

F. Edwin Murdock, served his son as best man.

Ushers were Joseph M. Franza, brother of the bride and Robin Austin of Tampa.

Mrs. Franza wore for her daughter's wedding, a champagne dress of knit, and a corsage of apricot roses accented by net leaves etched in tiny pearls with a green contrast.

Mrs. Murdock wore a pink linen dress with a beaded

neckline and a gardenia and white stephanotis corsage that she wore on her matching pink purse.

The reception followed the ceremony at the home of the bride's parents.

Mrs. Lucy Derkman, director of the wedding, presented the guests to the receiving line.

The three-tiered wedding cake, topped with a heart with, miniature cupid and tiny pearls was arranged on the round table of spin, covered in bridal net.

The punch table was tastefully decorated with a white lace cloth, which held the abundance of hors d'oeuvres assorted dainty pastries, and the twin punch bowls were presided over by Miss Candi Flint and Miss Arline Kind.

A buffet table held assorted meat cuts, cheese, cut bread slices, with party sandwiches in every description.

Helping serve were, Mrs. Phyllis Martin, Hollywood, Mrs. Jane Garrett and Mrs. Fred Jahna.

Miss Mary Linda Derkman, attired in a soft lavender dress with white trim and red rosebud corsage presided at the bride's table and passed out the tiny rice bags in apricot color to the guests.

The backyard, decorated with western lanterns, with the Franza's own branded barbecue shelter was one of the highlights of the reception. Tubs of ice held the cold drinks, with varieties of chins, and dips.

For her wedding trip of a tour of Florida the bride wore a navy tunic with white bell-bottom pants.

Mr. Murdock is presently serving with the United States Army and will be stationed in Korea, and the bride will join the teaching staff at the Highlands School for Girls.

Melodic Metal

A pure nickel overwrap of very fine wire is used on high-quality strings for musical instruments to give them the right pitch and resistance to corrosion.

Batteries Better Camels

The vented rechargeable nickel-cadmium batteries used for emergency lighting have been found to require addition of water only once every 10 years.

Jamless Locks

To prevent sticking and jamming of door locks that must operate in corrosive atmospheres, cylinders of high-quality locks are made from a copper-nickel-zinc alloy called nickel silver.

Avon Mobile Home Park News

By RUTH E. ROBINSON

Basil and Rosa Krontz report from Butler, Ind. that they are enjoying a wonderful summer going to lots of picnics, reunions, etc. They have just returned from a camping trip down on Lake Erie.

Helen and Hubert Smith have been this summer tending their crops and raising grass. They have especially enjoyed going with Patty Ann to the horse and pony shows. Patty has done well since this is her first year in 4-H. So far, she has won 10 ribbons—six firsts, three seconds, and one third. Hubert's youngest brother has had a heart attack. He is in the hospital at this time and is getting along just fine. He hopes to be released some time this week.

Helen also states she is planning on adding another three-wheel bicycle to the park. Helen and Hubert plan to return to the park October 28.

Gladys Gieb reports from Canton, Ohio where she is residing with her son. She is having a good time having lots of things to do. She is looking forward to her return to her home here in the park.

Leo and Bertha Wagner send a great big hello to everyone in the park. Neither of them is in good health, but are still looking forward to the time in the Fall when they will make the trip south to be with us again.

Glen and Mildred Long went with a group of senior citizens on a boat trip up the Hudson River. The trip took them to New York by bus where they embarked on the boat. They traveled up the river to Bear Mountain State Park where they disembarked. Buses took them from there to West Point Military Academy where they enjoyed a guided tour of the Academy.

Mildred Shearer had a lovely time touring the New England States. She and Gladys Gieb plan to return to the park sometime in October.

Mr. and Mrs. Harry Jordan report from Hendersonville, N. C. There are lots of shuffleboard excitement there with a national tournament going on that week. The Jordans plan to return to the park soon.

Floyd and Edith Stevens report from Allegan, Mich. Both are fine. Edith continues to make improvement. She says she is still going too slowly to suit her but is thankful she can get around by herself. Floyd is helping the Herman Youngs put up their sewing at their mobile home at Swan Lake—just 10 miles west of Allegan.

Robert Gibb has gone for his eye operation. He will be in the hospital for about 10 days. His address while at the hospital is: c/o W. A.

Shands Teaching Hospital and Clinic, Gainesville, Fla. The annual Avon Mobile Home Park picnic will be held August 12 at Bourne, Ind. at the Community Park located three blocks north of the stop light on US 30 then turn right to the end of the street.

Ennette and Sallie Wright were surprised with a visit by Sallie's brother, wife and son, Norman and Barbara Miller and son Gary. It was like a family reunion visiting with Mrs. Nina Miller, mother of Norman Miller and Sallie Wright.

Fast, Hot and Salty

Hot seawater moving at high velocities presents one of the most severe corrosion tests for copper-based piping systems for shipboard cooling. The 20-to-35-year life of a ship.

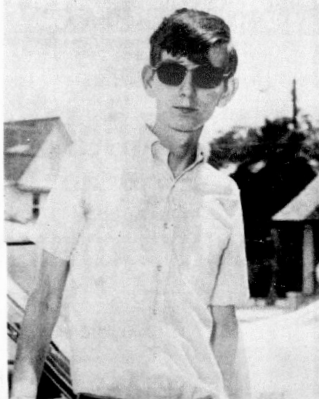

At today's prices, breaking a mirror is most certainly seven years' bad luck.

PICTURED ABOVE is a section of Touchton Drug's which is undergoing a complete remodeling. Shown is "Marie" one of the favorite waitresses at the serves

the crowd that gather there every morning. Also pictured are two young men that are stationed at the Avon Park Bombing Range.

CLASS SET AUGUST 11
Highlands County Department of Civil Defense will be conducting a class in radiological monitoring August 11-25 on Tuesday and Thursday nights.

DONNIE SINGLETARY is now on leave from the VA Hospital in Gainesville. Donnie, son of Mr. and Mrs. Clifford Singletary is enjoying a visit with his family until August 25 when he returns to Gainesville to await his medical discharge from the Marine Corps.

County Residents To Be Stopped From Using Dump

County residents other than those in Lake Placid will be banned from using the Lake Placid town dump unless the county keeps the debris in the dump covered more adequately, Mayor Alfred Moretz threatens.

In a letter read at the meeting of the County Board Commissioners Tuesday, Moretz contended that the county was not keeping its agreement to have the county hauler keep the debris sufficiently covered. Unless the agreement is kept, he said, the town will restrict use of the dump to residents of the town.

Board Chairman H. Earl Crutfield requested Charles Morgan, county administrator-engineer, to see that the county hauler keep the debris sufficiently covered. The commissioners received a notice from Walker Memorial Hospital at Avon Park that it anticipated a rate increase for indigent patients not covered by Medicare. The present daily rate is \$47.25.

Commissioner Jean Whitaker cast the lone negative vote against a proposal to advertise for purchase of a gradeable for road work. A proposal to buy the equipment was made by Charles Morgan, county administrator-engineer.

Whitaker objected to the proposed purchase on two grounds, he said, first that Morgan would not be available to direct the use of the gradeable because he is resigning at the end of August, and that the purchase would eliminate the use of the mobile crane that the county paid \$34,000 for a relatively short time ago.

BOB JOHNSON and Dr. Lusk, both of Sarasota, candidates for two of the three representative seats for this district, occupied by Representatives Tillman and Heath, were at the meeting Thursday at the Holiday Motel. After the discussion of the police academy ended, Tillman, Heath, and their opponents, and Rep. Granville Crabtree talked about politics in an open-floor question-and-answer session.

By DAVE LLEWELLYN
Put it this way, how long can you tread water?

That's how comedian Bill Cosby presents the significance of Noah's flood. It is a personal significance.

So the whole world was once destroyed by a flood—so what?

It makes little difference to you—because you weren't there, with no place to go but under.

Worldwide geologic changes occurred as a result of the flood of plagues. You don't think about death very much and don't figure that you need to for a while.

Catastrophes are like that. When they happen to someone else, they are of passing concern. When they happen to us, they are devastating.

No matter how much an outsider, associate, or companion is concerned, his involvement in tragedy cannot approach that of the victim.

Total Catastrophe

Last weekend, a college friend of mine drowned. His death made me sad for a while—and still solemn. My deepest reaction, however, could not even be compared with the grief of his family.

And neither of our responses could approach his involvement. For him the catastrophe was total.

Actually he was a Christian and his death was not tragic, but victorious. Yet, speaking in human terms, it seems the worst of disasters to die—especially when you are young and have not yet sucked life dry.

If you know much about Noah, you know you can relax about

another universal flood. God promised never to destroy man in that way again.

If you know a little about science, you take confidence in the laws of thermodynamics, which suggest that the ultimate end of the universe will be a gradual running out of energy and heat billions of years from now.

Whether you have thought about these things or not, you probably expect to live a long and comfortable life in our land of plenty. You don't think about death very much and don't figure that you need to for a while.

Sudden End Predicted

But if you knew Genesis 8:22, you would know that the earth is not going to run down like an old clock. We can expect an abrupt end to things.

If you ponder politics at all, you might suspect that the world will not survive this generation.

And if you knew prophecy, you would know that unexpectedly things are going to get much worse and then God is going to destroy the world as we know it.

If you are typical, you haven't thought about any of these things. And you are not going to, now—even though you have been warned.

When the end comes, God says, "As in the days of Noah" people will be unaware and unprepared.

Of course, you may not live until then.

Whether alone or in the final world holocaust, you will die. It ought to make you think.

It ought to make you think about life.

Mr. and Mrs. Clay Kull Take A 22 Day Switzerland Tour

This tour of 22 days was called the Switzerland Alpine Spectacular which adequately describes it in the word spectacular.

There were 28 in our party. We encountered temperatures suitable for visiting at the lower lake levels of a raging blizzard near the St. Bernard Pass, where we saw 13 kennels, two in a kennel of the big friendly St. Bernard dogs.

Transportation was by air to Zurich, then by motor coach, boat, train, rack and cog railway, cable car, chair lift and elevator.

Our first stay was in the Swiss capital of Bern where we saw the historic Clock Tower with its animated puppets, and the famous Bear Pit. This is a land of flowers where every house, even businesses has window boxes, especially red geraniums on each floor.

Then across Lake Thun to Interlaken and on to Grindelwald, a base for visiting the Jungfrau. The next morning we boarded a train on the highest rack railroad in Europe to the top of the Jungfrau, 11,333 ft. through many tunnels and snowsheds, or galleries, to the ice palace where we had a brilliant view of the Jungfrau itself, 13,642 ft. We were in the snow now.

The next day over twisting, good but narrow roads, along rushing streams and waterfalls we came to Montreux, at a lower elevation on Lake Geneva. Then we visited the Casino for a game of Boule and the Castle of Chillon. We continued along the north shore of Lake Geneva, at the foot of the Savoy Alps, through the city of Lausanne, to the largest city in the French speaking area, where we had lunch at a delightful place. This is wine country where there are many rock-terraced vineyards, apple, black cherries, pears, plums, strawberries and gorgeous flowers.

Our next stay was across the border in Chamoin, France, for a magnificent view of Mt. Blanc, 15,783 ft. the highest mountain of the Alps. The following day included the world's most spectacular border crossing by cable car from France into Italy over the shoulders of Mt. Blanc. We changed cars three times during the two hour trip, reaching the highest point at Aiguille du Midi, 12,606 ft. There is also a tunnel under Mt. Blanc.

We continued north into Switzerland up the Rhone valley to Sion, where we had beef fondue; then to Visp, boarding a narrow-gauge train to the enchanting resort village of Zermatt, 3,515 ft., one of the few places left where autos are not allowed. A horse drawn carriage took us to our hotel, this is a ski center in the winter, but the streets were full of mountain climbers' in their knickerbockers, heavy shoes and packs on their backs. At 6 o'clock each evening the goats, with bells around their necks are brought down from the hillsides right through the main street, about 15 of them. Naturally all other traffic stops.

Next morning we took a cog-wheel railway to Gornergrat, and two cable cars to the Matterhorn, for views of the majestic Matterhorn, 14,890 ft.

While in Zermatt it was my pleasure to talk to Adolph, the guide who was with Richard Halliburton when he scaled the Matterhorn.

The following day we boarded the Glacier Express to Brig, where we met our motorcoach for trip to Davos, Italy, via the Simplon Pass, and finally back into Switzerland to Locarno on Lake Maggiore for two nights. The next day, Sunday, we drove on the Autostrada down the broad Ticino valley to the colorful lakeside resort of Lugano and to the Lake Como district in Italy, one of the world's most luxurious resort regions, having lunch at a quaint place in Cernobbio.

Returning to Locarno in Switzerland and again up the narrow, winding roads and hairpin curves, where these long motor coaches have to be carefully manipulated. In one short tunnel we met a car pulling a short but wide trailer, too wide for passing. The trailer had to be unhooked and pushed back out of the tunnel. There were many tunnels and galleries and the ever changing scenery of valleys green with hardwoods and evergreens, and distant peaks.

On the following day our coach headed toward Arosa, 6,250 ft., a land of medieval castles, bridges, tunnels and limestone cliffs 1600 ft. high. Arosa is a ski resort in winter, a beautiful place for hiking in summer. Aboard the Rhaetian Railway in a four hour journey through the high Grisons and

the Engadine valley we headed for St. Moritz for two days. Luncheon was aboard the train. Here one could shop, skate, hike or take the funicular or ski tows.

Next we followed the River Inn through a coffee roasting place down into Italy again through Tirano and over high passes for the spectacular views of the Morteratsch Glacier to our Swiss destination at Bad Tessa.

Tessa, a noted health spa in a beautiful spot along the River Inn.

Our next stop was in St. Anton, Austria, where we had an evening of Tyrolean folk music and dancing. Through Vaduz, capital of tiny Lichtenstein, we came to Einsiedeln for a visit to the Monastery of the Black Madonna.

Our final stay was in Lucern for four days, for shopping and two unforgettable trips one to Mt. Pilatus by cablecar and down by the steepest rack railroad in Europe, then by steamer across Lake Lucern.

The other was an all day trip to the Rhone Glacier and its scenic grandeur was perhaps the highlight of the tour. We went into the ice tunnel about 300 ft. We returned to Lucern through the William Tell country and then to New York and Orlando by plane.

Disappearing Islands
A few authentic cases are known of islands disappearing. When the volcanic island of Krakatau blew up in 1883 it completely disappeared below the sea. Islands have appeared and disappeared again in the Aleutians.

Electricity can be a hazard anywhere and most homeowners manage to double and triple the hazard. Here are some points to help minimize the danger:

- Don't run cords too close to radiators or over them, under them, on them. Again, there's a danger of damaging the insulation.
- Light appliances, such as mixers and sewing machines, require a light house-hold oil—the kind generally sold in an applicator can. Lubricate at the points indicated in the instructions that came with the item. Unless specified otherwise, lubricate at least twice a year—more often with heavy use.
- Don't overload outlets.
- Don't run cords under rugs. The wear and tear on the insulation will eventually break through it, creating a fire hazard.

Charles Morgan Resigns Post With County

County Administrator-Engineer Charles "Chuck" Morgan turned his resignation in to the County Commission Tuesday and said he is leaving his post here to become county engineer for Bay County.

Morgan said he will assume the new post at Panama City August 31. It pays \$20,000 per year, compared to \$17,472 in Highlands County. The substantial salary increase was a definite factor in his deciding to leave Morgan said.

Morgan came here in October of '64 from Sarasota where he had been director of public works for Sarasota County for eight years. Before that he was assistant county engineer in Hillsborough County. He is a graduate of Michigan State University with a degree in engineering.

Under Morgan's administration, the county wide zoning plan was launched. It is shortly expected to be validated.

Mr. Morgan's wife Mary and son Scott, 9, will move to Panama City later this month.

CHARLES "CHUCK" MORGAN

The Big Room in Carlsbad Caverns, is the largest open space underground known, some 20 times the area of the next known cavern competitor.

MAYOR BOB BARBEN, right, escorted Senator Lawton Chiles around the city when Chiles came to visit Wednesday.

July 29. Here they admire Chiles' "Walking Senator" sign.

Avon Park Sun, Sebring News To Print Book

The Sebring News now is in the process of assembling material and selling advertising to produce a book that will help in the promotion of the county.

The News is being assisted in Avon Park by the Avon Park Sun. Representatives of the two papers will be calling on merchants and businessmen in the coming weeks.

The Sixx's inch book will feature a full color cover and will contain a complete story of the three cities inside the county, plus added attractions which make living in the Ridge area so desirable.

Copies of the book will be distributed free to the Chamber of Commerce in each city as well as to all advertisers, hotels, restaurants and similar business establishments.

The News has been planning and working on the book most of the summer and has hired additional personnel to help in the selling of advertising.

Advertising rates for black and white and spot color advertisements will be about one-half those of a firm from outside the county that is currently engaged in trying to sell advertising for the same type book, although quality and printing will be the same, Don Terry, News advertising manager, said.

SENATOR LAWTON CHILES, the "Walking Senator," and his daughter Gay, walked right in to the Avon Park Sun office Wednesday afternoon, July 29. And his wife came in too, and sat down, and talked with the staff of the Sun.

Lawton Chiles Strolls Around
Avon Park Wednesday, July 29

Senator Lawton Chiles, dubbed the "Walking Senator" because of his famous 1,000-mile walk through Florida, strolled around Avon Park last Wednesday to meet people. Mayor Bob Barben went with him.

Senator Chiles, and his wife Rhea, and their daughter Gay were all in Avon Park and visited with the Avon Park Sun staff. The Chiles' have three other children in addition to Gay. They live in Lakeland.

Chiles, who is running for the U. S. Senate seat which Senator Spessard Holland will be vacating, began the novel campaigning policy in Century, Fla., near the Alabama line way back in March. The young, Florida State Senator plans to walk all the way to Key West.

"I want to hear what you have to say," Chiles commented in reference to his long trek through Florida. The affable Senator cited the need to bring more of the government closer to home, closer to the people it was intended to serve. Through this trip he claims he'll get more knowledge about this state than any other candidate could possibly have.

Chiles has been a member of the House of Representatives in Florida from 1959-66 and has worked as a State Senator since then. Chiles takes credit for introducing the bill that changed the Marianna boys school from little more than a juvenile prison to a modern, special-education facility.

He has been chairman of the State Senate's Ways and Means Committee, which is responsible for providing funds for operating the state.

Football Fans Encouraged To Reserve Seats

August 14 is the deadline for Red Devil football fans to reserve their reserved seat tickets for the coming home football games according to Avon Park High School athletic director, Joe Franz.

Holders of reserved seat tickets from last season may renew the same seat tickets for the price of \$3 from now until August 14 at the high school office on weekdays between the hours of 8:30 A.M. and 12 noon and 1 P.M. and 4 P.M.

Then starting August 17 and going through September 4, a reserved seat ticket holder may exchange his ticket for another spot in the reserved seat section if there are any available seats.

On September 8 through September 18 the remainder of the reserved seat tickets will go on sale on a first-come, first-served basis.

The Red Devils will host Mulberry, Arcadia, Lake Placid, Okechobee and Sebring this Fall and will play the following teams out of town: Father Lopez of Daytona Beach, Fort Meade, Wauchula, Charlotte High of Punta Gorda, and Frostproof.

The season tickets will sell for \$8 this year due to the rise in admission price to \$2 per game for adults and \$1 for students. Coach Franz explained that rising costs of insurance, equipment, and transportation forced the advance in the admission price.

The season tickets will also admit the holder to all home "B" squad and junior varsity games.

Elementary students will again be able to purchase advanced tickets to the home varsity games at a price of 50c each week before the game.

Local Resident A. G. Downing Dies In Ohio

Albert G. Downing, 86, died Sunday, Aug. 2, in Kettering Memorial Hospital at Kettering, Ohio, during a visit to his son, Norris J. Downing in nearby Middletown, Ohio. Downing had lived in Avon Park Lakes. He retired in 1948.

Funeral services were conducted Wednesday, Aug. 5, at 11 A.M. at Wilson-Schramm Memorial Home in Middletown. Interment followed at Acacia Park Cemetery in Chicago.

Downing had visited his son in Middletown only briefly before he entered Middletown's local hospital. From there he was transferred to Kettering Memorial Hospital for further treatment. He underwent surgery for a heart condition and died as a result of complications.

Downing, who was born in Noblesville, Ind., worked for 45 years with the Illinois Bell Telephone system and was a member of the Sunshine Telephone Life Members Club, a group in which each member has served for at least 20 years with the telephone company.

He is survived by his son, Norris J. Downing, two grandchildren, James Downing of Middletown and Mrs. Ann Brandshaw of Chamute Air Force Base, Ill., and four great-grandchildren.

Brain's Growth

According to scientific studies, the size of the human brain has remained virtually unchanged during the past 100,000 years. Earlier, it had tripled in size during a period of 400,000 to 500,000 years.

Sgt. Andrade In Thailand With U. S. Air Force

U. S. Air Force Staff Sergeant Albert M. Andrade, son of Mr. and Mrs. Loren E. Beamer of 159 Brisco Road, Arroyo Grande, Calif., is on duty at Nakhon Phanom Royal Thai AFB, Thailand.

Sergeant Andrade is a civil engineering specialist with a unit of the Pacific Air Forces, headquarters for air operations in Southeast Asia, the Far East and the Pacific area.

The sergeant, who previously served at Ellsworth AFB, S. D., attended Arroyo Grande Union High School and completed requirements for his diploma after entering the Air Force.

His wife, Irene, is the daughter of Mr. and Mrs. William Cribb of 238 E. Canfield St., Avon Park.

THE BATTLE against blind mosquitoes continues at South Florida Junior College as Lorenzo Nelson washes down the library steps. Lorenzo, wearing a gas mask to protect him from inhaling fumes in the high afternoon temperature, is an aqueous solution containing

Malathion. This solution washes the dead blind mosquitoes off the walls and kills live mosquitoes that light on the washed surfaces. Lorenzo is enrolled during regular sessions in the air conditioning and refrigeration course.

MOBILE HOMES

SIX MILLION Americans seeking a sanctuary from urban life now dwell in the 2,000 Mobile Home Parks that have sprung out across the nation since World War II. They have created a whole new life style. Probably the fastest growing area in the United States since last year one out of every three new one family dwellings sold in this country was on wheels. Today for only 1 1/2 the price of a modest suburban house a family can buy a 12' x 36' air conditioned mobile home with two bedrooms, a comfortable living room and well equipped kitchen. This equipped mobile home owners can join a self sufficient colony complete with swimming pool, recreation hall and shuffle courts. Escaping the worries of street crime and lawn mowers. Most important perhaps they are able in large measure to choose their neighbors. Mobile home dwellers like to know that theirs is the only way to live and that their instant communities offer an answer to the problem of urban pressure cooker. Come visit Gray's Mobile Estates, Sebring. S2P46

Youthful Pleats

PLEATS THAT FLIP and flutter around thirty knees are so flattering when you walk or run. Sew this pleated dress from pleats by the yard. For that professional dressmaker look, sew with Taton Polyspun Thread, completely compatible with all soft synthetics. Polyspun, the "now" thread, gives with your fabric, seams never pop or pucker. It comes in popular and fashion colors. Choose a Taton Zephyr Zipper with the flexible nylon coil to zip the back neckline of your dress. McCall's pattern 2130 available in misses' sizes.

New U.N. Medal

United Nations Secretary-General U Thant exhibits a Proof Set No. 1 of the United Nations 25th Anniversary Commemorative Medal he received at a reception for the National UN Day Committee. The Proof Set consists of the first medals struck in each of the five official UN languages, minted by the Franklin Mint of Franklin County, Pa. Proclaiming the theme — Peace, Justice and Progress, the coins are available in 1 1/4", 1 1/2" and 2 1/4" sizes, at \$5, \$10 and \$20 respectively, at participating banks throughout the country.

Spice CABINET

PEAR-CRANBERRY SAUCE

1 (1-lb.) can Bartlett pear halves
2 cups fresh cranberries
1 cup sugar
1 teaspoon grated lemon peel
Drain pear halves, reserving syrup. Slice. Combine reserved pear syrup with cranberries, sugar and lemon peel. Bring to boil and simmer five minutes. Add pear slices and simmer five minutes longer. Serve warm or chilled at meat accompaniment. Makes about three cups.

STRICTLY FRESH

One of the best ways to take a great deal of advice you're offered is with a grain of salt.

People with nothing to do are often the most devoted workers.

If you can recall when kids collected cigar bands, you have a mighty good memory for such an old rooster.

Good neighbors always come in pairs.

Show us a man who never stops smiling and we'll show you a fellow with a poor set of store-bought choppers.

Only Ambulance Service In City May Stop Soon

"I'm going to try to continue to offer service just as long as possible," Claude Lee of Ridge Ambulance Service told the Sun Tuesday. Lee is losing money.

The problem as he presented it before the City Council Monday is that most of the people who use his services aren't paying. If his ambulance service is discontinued, Avon Park will have no ambulance service at all.

The biggest single problem which Lee has to deal with is the Medicare patient. People who use the service and are covered by Medicare are sent a check which covers 80 per cent of the cost for an ambulance trip to or from the hospital. The individual is supposed to add 20 per cent of the cost to the amount of the check and pay the ambulance service in full.

However, according to Lee, these people are not paying him with the money Medicare sends them. The cost of a trip is \$25 plus 80 cents per mile.

The businessman added that about \$1,000 is owed to the service by the patients of the Hillcrest Nursing Home. Lee stated that he is averaging 40 per cent collection on other people who use his service.

Lee further commented that his salaries to employ two men to operate the service cost him \$250 per week and that there are other expenses incurred in running the business.

He stated that the ambulance service makes three or four times as much as he is hoping something would happen to enable him to continue to offer the service.

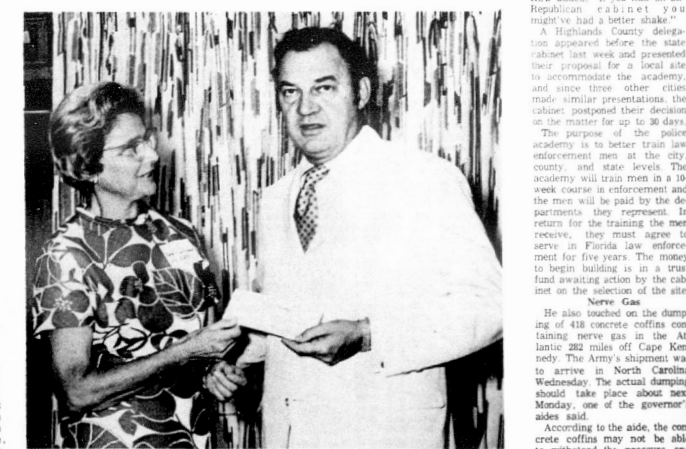

Kirk Doesn't Foresee Site Of Academy In Avon Park

Gov. Claude Kirk met with Highlands County Republicans at a campaign breakfast Monday morning in the Holiday Inn in Sebring. About 100 enthusiasts greeted him.

The proposed police academy which Chambers of Commerce and governmental officials throughout the county have been acting to get located south of Avon Park.

"I see no reason for it to be in Tallahassee," Kirk stated. Tallahassee is the location suggested by William Reed, director of the Department of Law Enforcement, because of the proximity of the academy to the department's headquarters.

Reed has also suggested the site because it would be near the police laboratory, crime information computer, and criminal identification apparatus.

MRS. G. F. WARD, president of the Ridge Area Association for Retarded Children, receives a \$1,000 grant-in-aid check from Gov. Kirk, who

presented the check on behalf of the State Division of Retardation when Kirk was in Sebring Monday.

Governor Presents RAARC With Grant-In-Aid Check

Following the campaign breakfast Monday morning in Sebring, Governor Claude Kirk presented to Mrs. G. F. Ward, president of the Ridge Area Association for Retarded Children, a contract check from the grant-in-aid funds of the State Division of Retardation. The check for \$1,000 is to be used in evaluation services for the retarded, developmental training for pre-school retarded children, and for a coordinator of programs for the retarded of this area.

Matching funds raised locally in evaluation services for the retarded, developmental training for pre-school retarded children, and for a coordinator of programs for the retarded of this area. The check for \$1,000 is to be used in evaluation services for the retarded, developmental training for pre-school retarded children, and for a coordinator of programs for the retarded of this area.

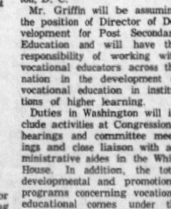

Developmental training has been offered to young pre-school children from Avon Park, Sebring and Lake Placid at the First Christian Church since 1967. The summer phase of the program has been staffed for Miss Arlene King and Mrs. Martha Wade of Avon Park. Steve Marine of Lake Placid has handled transportation from that community for children in both the developmental training and Summer-Fun Camp for retarded children.

Griffin To Take Post With Vocational Association In D.C.

Dean H. Dean Griffin of South Florida Junior College has announced that he will accept a position with the American Vocational Association in Washington, D. C.

Mr. Griffin will be assuming the position of Director of Development for Post-Secondary Education and will have the responsibility of working with vocational education across the nation in the development of vocational education in institutions of higher learning.

Dean Griffin has stated that he deeply regrets leaving Avon Park, South Florida Junior College, and all the associations accumulated over the years and has expressed a thought that this is one of the things detrimental to accepting a position elsewhere. He grew up in Hardee County and attended Hardee County High School.

H. DEAN GRIFFIN

Mr. and Mrs. Griffin and family plan to move to their new home in McLean, Virginia, sometime this fall.

Prior to this he had developed two new vocational programs in the State of Florida on the high school level and has been involved with the development of all vocational-technical programs as well as the total college.

For the past three years Mr. Griffin has been the Dean of Vocational-Technical Education at SFCJ and has been involved with the development of all vocational-technical programs as well as the total college.

County Officials Meet To Discuss Police Academy

Representatives from the city councils and chambers of commerce of Avon Park, Sebring and Lake Placid met with county commissioners at the new municipal building in Sebring last Friday night to discuss the formal presentation which Highlands County will make in its bid to the state cabinet for location of the proposed police academy site south of Avon Park.

Rep. Don Heath, of Nokomis, told the Sun Friday that he expects the presentation of this material to be made at the state cabinet's meeting on Tuesday, Sept. 1.

Heath said that he had a long informal talk with State Police Commissioner Bill Reed the night before the cabinet first met to discuss the location of the academy. During the meeting Reed was persuaded to recommend that the cabinet wait 30 days before coming to a decision on the location. Reed favors a Tallahassee location.

Highlands County Sheriff Joe Keene stated that he will be attending a meeting of the Region Law Enforcement Agency on August 19. This group is composed of law enforcers from 10 counties in south central Florida. It was requested that Keene get the sheriffs of

these counties to stand behind him in requesting the Avon Park site for the police academy.

The county commissioners plan to write to the commissioners in these same ten counties to get letters of support from these groups. It was pointed out that the Avon Park site is within 175 miles of 72 per cent of the state's population.

One purpose of the police academy is to provide law enforcement officers throughout the state the necessary 200 hours of training required by the legislature. The academy would also train 175 men at a time in a 10-week law enforcement course and would offer a short course in law so the officers would know more than the basic elements.

Changes Proposed In Trailer Park Ordinance

City Attorney Jack Hancock suggested that the city include specific standards in a new zoning ordinance. The code was written to limit the establishing of mobile home parks, modular home parks, etc. except in areas which would be especially suited for such dwellings.

The purpose of the addition of standards was to make the ordinance more definitive and prohibit the ordinance from being successfully contested in court. The ordinance states that any plans for expansion of a presently existing mobile home park or any building of a new installation must be presented to the Board of Adjustment, which will study the individual request and make a recommendation to the zoning board, which is composed of the members of the city council.

Red Devil Squad Try-Outs Set For Next Wednesday, Franza Says

All candidates for varsity and "B" squad Red Devil football positions are asked to report to the football fieldhouse at Memorial Stadium next Wednesday, Aug. 19, at 3:30 P.M. Some of the prospects will have physical examinations on that day and others will work out in shorts.

The rest of the week the boys will report at 6:30 P.M. each evening to prepare for the 19th.

Head football coach and athletic director Joe Franza will be assisted this season by a seasoned staff of coaches. Ralph Hill, Eddie Lewis and Ken Shackelford will work with Franza with the varsity boys and Dewayne Lemler and Ed Culbertson will again direct the "B" squad activities.

BUREAU OF ALCOHOLIC REHABILITATION

alco- topics

By JOHN A. WILLIAMS
Editor, Information Services

Support by Dr. Roger O. Egeberg, assistant HEW Secretary of Health and Scientific Affairs is a bright light on the horizon for the illness we call alcoholism.

And since alcoholism is the most neglected health problem in the nation today, support of such cabinet members and distinguished Senators, including Harold E. Hughes, Jacob Javits and Frank M. Lausche.

Dr. Egeberg recently said that HEW is "now taking steps to elevate the National Center for Prevention and Control of Alcoholism to the level of a division within the National Institute of Mental Health."

Under the provisions of Senate Bill S 3838 a National Institute for the Prevention and Control of Alcoholism Rehabilitation would be set up.

Six million dollars have been requested in fiscal year 1971 to implement the Alcoholism Rehabilitation Amendments Act of the Community Mental Health Centers Act.

The new bill stresses the need for much needed treatment at the local level to initiate and improve badly needed prevention, treatment and rehabilitation services at the community level.

It's now up to the Congress to make the funds available. The thrust and aim of the bill.

we think, is a giant step in the right direction.

For the sake of Florida's some 100,000 alcoholics such monies as would be allocated on the state and local level is vitally needed if the illness is to be prevented and treated by qualified personnel.

Just the cost savings to taxpayers alone, in dollars and cents, should be a tremendous saving over the many archaic programs that simply arrest and dry out the problem drinker and then turn him back to the streets to begin his compulsive drinking pattern all over again.

A recent national report once again points out that for fiscal year 1970, \$355 million was invested by the Federal government in the comprehensive field of mental health, including research, treatment and rehabilitation programs.

But less than three percent of this amount, \$10 million, has been requested to alcoholism and alcohol problem areas, despite the fact, which cannot be repeated too often, that alcoholism ranks with cancer and heart disease as one of the nation's leading killers.

For more information on the illness of alcoholism write to the Bureau of Alcoholic Rehabilitation, Information Services, P.O. Box 1147, Avon Park, Fla. 33825.

We'll be glad to give you more facts.

Haynie Suggests Town Meet To Discuss Sewers

Editor, The Avon Park Sun:
The Avon Park Chamber of Commerce asked five board members for their opinions on what should be done with regard to the City Council's proposed sewerage plan.

It is my opinion that to take the plan for sewerage that the engineers have presented will work a hardship on too many people. The plan raises the sewerage rate from \$1.00 to \$5.00 per month, increase the water minimum from \$2.50 to \$4.00 on 1/2 inch meters and \$6.40 on 1 inch meters.

The minimum is increased for larger meters. The meter installation charges are also increased considerably.

The revenue from the water department goes to pay off the bonds, so taxes will have to be increased to take up this loss of revenue some \$25,000 to \$30,000 per year. The city finances are now such that they cannot buy cars for the police, had to borrow \$1200.00 to buy a radar system. It is possible new taxes will be added even though we have just been saddled with a \$50,000 (approximately) tax increase.

On the plan suggested by the engineers, everyone who has a sewerage line running by their home will have to pay \$5.00 per month. This is not being done at this time.

I believe some additional lines are in order. I think they should be placed where they would have the most connections at the lowest possible cost. This should be done as near as possible with local labor and with local financing.

I have been told this was done in Lake Placid. The engineers have already been paid approximately \$25,000 to make the plans the city now has and to oversee the city disposal plant. If this \$25,000 plan goes through they will get another approximately \$200,000.

I suggest the Avon Park Chamber of Commerce sponsor a town meeting at the high school auditorium and that there be a panel of four pros and four cons on this subject. After a given period of time, questions would be taken from the audience for their views. The Chamber and the Council should be able to be better informed as to the feelings of the Avon Park citizens.

George Haynie

Social Security Questions And Answers

Question — I just hired a domestic who has requested that I deduct Social Security from her wages. How do I do this?

Answer — If you pay the domestic \$50 or more in a three-month calendar quarter, including the cost of transportation as wages, you deduct 4.8 percent of her wages as social security tax and match this with an equal contribution, for a total tax of 9.8 percent. If you've never had domestic on whom you paid social security tax, you will need two forms which can be obtained from your District Director of Internal Revenue. One is an application for an employer's identification number and the second, Form 941, an employer's quarterly report form.

LEWIS LLEWELLYN

Is World Getting Better or Worse?

Some time ago, Dr. George Gallup reported that 78 per cent of Americans were pessimistic about the moral trends in the world.

Specifically, to the question, "Do you believe that the world today is getting better or worse in terms of: (a) morals, (b) religion, (c) honesty," 78 per cent of Americans replied that the world is getting worse morally.

In the area of honesty, 61 per cent said the world is getting worse.

Fifty per cent expressed the view that the trend in religion is downhill.

Why the Pessimism?

What is the reason for this dim view of the times? One reason is the moral dilemma of the war in Vietnam—with one side claiming that our present position there is immoral, and the other side stating that to withdraw and leave thousands of innocent people to be slaughtered by the Viet Cong would be grossly immoral.

Another reason is the internal unrest—with rioting on the campuses and in the streets of our cities becoming commonplace. This would have been unbelievable, only a few years ago.

Still another reason is the alarming incidence of crime—apparently beyond the power of the police to control.

The National Commission on the Causes and Prevention of Violence said in its report, "Fear of crime is destroying some of the basic human freedoms which any society is supposed to safeguard."

In Washington, D.C., the nation's capital and now also the nation's crime capital, Rep.

Frank M. Clark, D-Pa., has bought iron bars for the windows of his twice-burglarized house, two blocks from the Capitol Building.

The Library of Congress now closes half an hour early each day, to allow its employees to get home before dark.

In East Orange, N.J., it is reported that the police have suggested that no woman venture out alone on the streets after 2 P.M. since some of the most vicious muggings occur in broad daylight.

Is there reason for alarm—for a pessimistic view of the world?

Undeniably, yes. Yet there is reason for hope, too.

Long ago, the Scriptures predicted that "in the last days perilous times shall come." "Perilous times" were predicted—and they have come. The condition will become worse if present trends are not halted.

Perhaps you haven't thought of the world situation as a sign of the times. Perhaps you still don't. But, at least, it's an interesting coincidence, isn't it?

"Look Up!"

But there is another message in the Bible for those who have determined to walk with God in this world.

Here it is Jesus said, "When these things begin to come to pass, then look up and lift up your heads, for your redemption draweth nigh."

Maybe we ought to pay more attention to the Bible, after all. Maybe it has for us a message that we need in times like these.

Maybe if we followed Biblical principles in our lives—and in our nation—there would still be reason for hope and for real optimism.

5 Doves Fields Will Be In South Florida

There will be five public dove fields in the South Florida Region. The five fields will be located, one each, in Hernando, Hillsborough, Pasco, Highlands and Charlotte counties.

The Highlands County dove field is southeast of Avon Park, on route off Route 17 on the Allwater Road.

Maps of each field will be available to be picked up or by mail at the Lakeand Office of the Game and Fresh Water Fish Commission on North Lakeand Hills Blvd.

Major J. O. Brown, regional manager, advised that the fields will be open Wednesday and Saturdays during the three-part season. Each field will be evaluated on the basis of an available supply of doves at the field each shooting day. Any field not producing a sufficient harvest of doves will be closed until more dove appear or until the season closes. Local papers will carry the notice in the event of closure of one of the managed dove fields.

Wildlife Biologist, Frank Winston, who has been closely monitoring and preparing the prospective fields, reports that they have all been planted to brown top millet and combine peas. Several fields already show germination and sprouting and should produce well, barring natural consequences to the contrary.

The tri-season on doves is as follows: Oct. 2 through Nov. 1, Nov. 14 through Nov. 29, and Dec. 18 through Jan. 11. Shooting hours from 12 noon standard time until sunset. Daily bag limit of 18 doves and a two day possession of 36 doves.

order to influence elections. Kirk added that the problem is not one which can be straightened out suddenly.

No reference was made to a Highlands County location for the supermaxi project which is to be built. The governor mentioned that the location in the Everglades had been stopped by conservationists and he proposed the use of the Homestead Air Force Base temporarily if that area is not needed by the Air Force.

MRS. DAVID STANLEY GOSNELL

Gruber-Gosnell Wed In Double Ring Ceremonies

In a double ring ceremony, Miss Jean Louise Gruber became the bride of David Stanley Gosnell, Saturday night, August 8, at 7:30 P.M. at the Presbyterian Church in Pelzer, S.C. with the Reverend Don Waters officiating.

The bride is the daughter of Mr. and Mrs. Eldred Gruber, Avon Park, and the bridegroom is the son of Mr. and Mrs. Willard Gosnell, Pelzer, S.C.

A spiral candelabra with white tapers and two standing baskets of white glads, roses, mums and greenery flanked the altar. A white satin kneeling bench was flanked by the twin candelabras for the candlelight ceremony.

Given in marriage by her father, the bride wore a floor length gown of self-embroidered Chantilly lace over net of alabaster peau de sole with portrait neck line, long tapered sleeves, with a fashionable Watteau chapel train. Her veil fell from her crown cap of silk illusion. She carried a bridal cascade of white roses, daisies, with a white orchid.

Mrs. Ann Rousseau, of Monroe, Mich. served as matron of honor. Miss Candi Flint, and Miss Arline King both of Avon Park, and Mrs. Carolyn Joe Miller of Columbia, S.C. served as bridesmaids.

The attendants wore floor length baby blue gowns with matching lace-pieces and carried cascades of mums, eucalyptus and baby blue ribbons.

Willard Gosnell, of Pelzer, S.C. served his son as best man. Ushers were Philip Gosnell, Mike Campbell, West Pelzer, S.C., Carroll Martin, Woodford, S.C. and Kenny Ross of Williamson, S.C.

Mrs. Gurbie, wore a stylish A-line blue dress in carrying out the bride's train. The bridesmaids wore a white orchid corsage.

Grange Officials Meet With President

National Grange Master, John W. Scott, Legislative Director, Robert Frederick and Legislative Counsel, Joseph Parker on July 10 met with President Richard Nixon at the White House. Master Scott presented the President with petitions from 1800 Granges representing 150,000 Americans who wanted to show their support for their President and for the American system of Government.

The President expressed his appreciation for this evidence of support. He said he has always been impressed with the soundness of Grange policies over the years, and feels that Grangers and all rural Americans are a steady influence on the economy and the attitude of the Nation.

Although the meeting was expected to last only 10 or 15 minutes, the President invited the three Grangers to stay for coffee. They discussed farm legislation, trade and rural development projects. Mr. Scott says the President was very knowledgeable about the Grange, and he praised its family-oriented structure and its programs emphasizing patriotism.

Methodists To Hold Youth Activities Week

The young people of the First United Methodist Church of Avon Park will hold a Youth Activities Week starting Wednesday afternoon, August 19, and finishing up Sunday night, Aug. 22.

Rev. Don Logie, pastor of St. James United Methodist Church of St. Petersburg, will be the inspiration speaker for the worship hour each evening and will also teach the senior high study course — "How To Be A Christian Without Being Religious."

The junior high study course will be taught by Rev. Duane Zoller, pastor of Avon Park First United Methodist Church. This study course will use the text, "Happy Hang-Ups" as a text.

On the opening night, Wednesday, the young people will meet at Wesley Hall of the First United Methodist Church at 4:30 P.M. and then go as a group to take part in an evening of swimming, picnicking, and worship. The group will return to the church at 9:00 P.M.

Each of the other nights, the activities will start with supper at Wesley Hall at 5:45 P.M. Recreation will follow supper and then study courses and worship will close out the evenings at 9:00 P.M.

All Avon Park young people between the ages of 12 and 20 are invited to join the Methodist youth in the activities of the week for food, fellowship, fun and inspiration.

Johnston To Challenge Wells For School Board Position

Republican candidate Johnny Johnston will oppose Incumbent Democrat E. Wells for a seat on the Highlands County School Board. Wells has served five terms.

Johnston and Lake Placid's Andrew Jackson, a Republican candidate for the District Four county commissioner's post, forgot to file statements listing financial contributions by the proper deadline last week. As a result, these men are subject to removal from candidacy or removal from office if anyone chooses to take the matter to court.

When Wells was asked whether he would take such action against Johnston, he replied, "Definitely not."

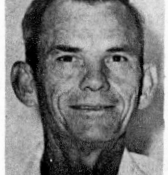

"I don't think we need to spend much money," Johnston said in reference to the school board's financial policy. "I just think the money should be spent more wisely."

He further commented that he thought the administrative setup for operating the school system comprised too high a percentage of the total money spent in Highlands County Schools. But Johnston added, "The budget should give the teachers and students the best facilities and tools with which to work."

The Republican candidate also touched on several other areas. He stated that the school property should be maintained more efficiently the entire year. He declared that the school board has been secretive. "If I go in I will make the action

of the board public through monthly newsletters, open meetings, and open discussions."

Johnston also stated that he

JOHN JOHNSTON

thinks board members ought to have children in the system. The Johnston's have four children, LuAnne 15, John 13, and twins Tommy and Joan, 11.

Do We Really Fear Freedom?

By DAVE LLEWELLYN
We fear freedom.

That is the conclusion of sociologist Erich Fromm.

In fact, whenever possible, we flee from freedom.

Appropriately, Fromm has entitled one of his well-known studies, "Escape from Freedom."

Where do we go? To security. It is a general characteristic of mankind that, if at all possible, we will find someone who will require us to do what we already want to do.

If necessary, we will accept tyranny, in preference to responsibility.

The price of this security is loss of freedom.

In discussing the anti-crime measure which allows legally warranted police officers to enter private homes without warrants, e.g., supporters of the measure emphasize the increased public security in the sufferer detection of crime. They call it the "guilt, enter" provision of the law.

Opponents of this provision, however, point out the loss of personal freedom in the invasion of home privacy. So they call the measure the "no knock" law.

National opinion seems to approve of this approach to the crime problem. This confirms Fromm's thesis: people prefer to give up their freedom, to protect their security.

Freedom Relinquished

On a local level, we accept curfew laws for an entire city when a few dozen dissidents decide to vandalize at night.

Perhaps it would be fairer to say that we fear insecurity. When our safety is threatened, we give up freedom to protect our lives.

The majority of men on both sides of any war hate war.

But the desire for the security of their families and homelands prompts them to relinquish their freedom to live in peace.

Yet we do give up some freedoms without a struggle.

The clearest example of this, I think, in religion. What more personal religion than Herbert D. Graetz, Minister

Johnstons See Indian Artifacts At Otter Springs

Mr. and Mrs. C. Johnny Johnston of Lotella Terrace have returned from a trip to Otter Springs where they had taken their children to participate in digging for Indian artifacts.

They report a successful venture with several projectile points and pieces of pottery found.

The spot is popular with archeology students from the University of Florida, who come on weekends to dig. While there, they viewed the Sapp Family collection which includes several hundred pieces of Indian artifacts.

Otter Springs is a 640 acre, private campground on the Suwannee River and is a popular family campground. It is operated by former Highlands County residents, Jo and Glenn Morton, who send greetings to all their friends.

Weight Watchers To Meet Monday In Wauchula

Weight Watchers is quite frequently a family affair. And so it was with the instructor of the new Wauchula Weight Watchers class, Mrs. Bonnie Neal.

Bonnie has lost 22 pounds, and her sister 25½ pounds, for a grand Weight Watchers family total loss of 47½ pounds.

Twenty-two year-old Bonnie will instruct weekly Weight Watchers meetings at 7:30 P.M. Mondays at the Wauchula Garden Center. Men, women and children are invited to attend.

Weight Watchers is an international weight reducing organization founded by a Brooklyn housewife, Mrs. Jean Nidetch.

In 1961, Mrs. Nidetch was a rotund 214 pounds. In her words, there wasn't a diet she hadn't tried and like all fat people, she was an expert on dieting but could not lose weight.

Finally, she entered the New York City Board of Health Obesity Clinic and tried its high protein diet. She lost 72 pounds in a year and couldn't stop talking about it. The talking took her in the business of Weight Watchers, which now has millions of members throughout the world. Mrs. Nidetch's autobiography was published in May of this year.

Members follow a carefully-planned eating program and attend weekly classes in order to lose weight. Once goal is reached, they may go on the maintenance plan, which teaches them to keep from gaining the weight back.

Miracles Visit Son In Gainesville

Mr. and Mrs. Andy Miracle drove to Gainesville last week to visit their son, Andy Jr., and his wife Tina. On leaving Gainesville, the Senior Miracles stopped at Wildwood to pick up their daughter, Margaret Lynn, who has been at the Girl Scout Camp at Wildwood for two weeks.

The younger Miracles have just returned from a six week tour of the Western States. They visited 24 states, camping in several states and national parks along the way. They visited college friends in a couple of cities. Andy, Jr.'s big thrill came from catching a trout at Glacier National Park. He stayed an extra day to try his luck again, but didn't do so well.

Tina especially enjoyed seeing the bear, deer and elk on the trip. Being from New York she hasn't seen much wild life.

Local Farmers Reminded To Make Nominations For ASC Posts

Eligible farm voters have only four days left in which to circulate and sign nominating petitions for ASC county committees. August 17 is the final date petitions may be filed at the Highlands County ASCS office. Mail elections are set for the second week in September.

"I want to re-emphasize to farmers who are eligible to vote that nominating candidates by petition is of prime importance. If six or more eligible candidates are nominated by petition, no other names will go on the ballot. In the past, the incumbent county committee also had the privilege of making nominations. Now, a county committee may nominate only if fewer than six eligible candidates are nominated by petition—and the committee may nominate only the number of candidates needed to make up a full slate of six nominees," R. B. Oser, chairman of the Highlands County Agricultural Stabilization and Conservation Committee, said.

No special forms are required for a petition—only a sheet of paper naming the candidate. Signatures of at least six eligible voters in the county are required on each petition. Only one candidate may be named on a petition but voters may sign as many petitions as they want.

Mr. and Mrs. Lloyd R. Fillmore Take Six-Week Trip Northeast

The Fillmores left Avon Park Lakes on June 13, accompanied by their daughter and son-in-law, Mr. and Mrs. Ernest Donahue. They visited Washington D.C., Philadelphia and Millersville, Pa. They especially enjoyed the beautiful mountains covered with the blossoms of mountain laurel. Also seen was a family of three deer grazing on the mountain side.

The Fillmores arrived in Wakefield in time to attend their granddaughter Linda's wedding on June 25 to Kevin Donovan of Wintbury, Mass.

Next they visited with their son, Lloyd, Jr. and family in Bar Mills, Maine. While in Bar Mills they attended a wedding, this one of their granddaughter Kathleen, to David Chase of Rockland, Maine, on July 11.

Next they visited with the sisters and brothers of both Mr. and Mrs. Fillmore who live in New Brunswick and Nova Scotia, Canada.

In Danville, N. H., the Fillmores met the first granddaughter, Theresa Jean Collins. Her parents are Pamela and Gary Collins.

After having spent a very happy and wonderful time with their families they left Wakefield, Mass., on July 25 enroute to Syracuse, N. Y., where they called on his nephew, David, and Fillmore and friends, Lew-

ie and Dora Cornish. They left Syracuse on July 26 and enjoyed a trip home through the Smoke Mountains.

After a wonderful vacation the Fillmores were happy to arrive home again on July 29.

Open House Slated For Park Academy Sunday

There will be Open House at the new Park Academy in Avon Park from 2 to 6 P.M. Sunday, Aug. 16. The academy is located on Jackson Street just off North Lake Ave.

The school, organized this year, will accept fifth grade students only. Classes will start August 31. Mrs. Louise Gregg, a teacher for nine years, three of them in Highlands County, will be the teacher.

The public is invited, organizers of the school said, and there will be a few vacancies available for students.

Grange Members Invited To Picnic

Members of Ridge Pomona Grange invite all interested Grange members to a picnic at Pioneer Park, Zolfo Springs on August 23. A pot luck dinner will be served at 1 P.M. Bring a covered dish and your own table service.

Games and entertainment are planned by Barney Reas, the famous clown.

AMERICAN LEGION BINGO Mrs. Mildred Stauback of Avon Park won a \$25.00 jackpot at the American Legion Bingo party last Thursday night. Everyone seems to have a good time at the bingo games. Rain or shine there are games at the American Legion Hall on West Bell Street every Thursday night at 7:30. Coffee or food tea and cookies are free and may be enjoyed while the games are in progress. Everyone is invited.

On Saturday night, there is dancing for adults at the hall from 9 P.M. to 1 A.M. Music by a local combo.

Baldwin Given Fines and Jail Sentence For Driving Illegally

Leon Hanson Baldwin, of Avon Park, was sentenced to 12 days in jail, to be served weekends, and fined \$50 or 20 days for driving while license revoked. Sentence was passed on his plea of guilty last week in County Court.

Other fines handed out included: Gregory A. Berglin, Lake Placid, failure to have vehicle under control, \$50 and 60 days; sentence suspended in exchange for his voluntarily relinquishing driving privileges for six months, probation continued.

Bennett George Dover, Avon Park, no driver's license, \$30 or 15 days.
Melvin Dean Talant, Avon Park, no valid inspection sticker, \$20 or 10 days.
Robert Lewis Payne, Sebring, failure to yield, \$40 or 20 days.
Walter Daniels, Lake Placid, simple assault, estimated a \$50 bond.

ROTARY CLUB NEWS

By AARON CRAVENS

Program chairman, Corky Pardue explained that a committee to help beautify the grounds at the South Florida Junior College had been appointed. Also that the Rotarian Club had appointed a committee and appropriated money for the landscaping.

Low Miller showed slides of the campus before and after some landscaping had been done. These slides pointed out the need for more beautiful grounds. Members of the Agricultural Club cleaned up the amphitheatre area and planted it to grass which was growing in time for the dedication in December.

High school graduates from the area enrolled in the professional lawn management class also contributed during laboratory time in cleaning the campus and planting donated shrubbery.

In March a committee of Claude Cole, Ronald Lambert, John Washington, Bob Gay, Dr. W. A. Stallard, Low Miller, and others were in reviewing the landscaping blueprints came to the conclusion that many of the plants would not be compatible with the area to be planted. Also that the beautification of the campus should begin at the front entrance of the Junior College grounds. Thus the securing and planting of the Phoenix reclinata palm cluster in the center of the turn around drive.

Corky introduced Claude Cole, local plant and shrub expert who pointed out some of the advantages and disadvantages of backyard trees and shrubs versus the planting materials secured from commercial nurseries, which are regulated by the Florida Department of Agriculture. Questions and comments from the floor indicated that the gifts of door yard trees and plants might be expensive in terms of time and effort.

Corky called on visiting Rotarians Louis Altmeyer and Bob Askey of Sebring, who contributed to the program by stating that the Sebring Club would join with the Avon Park Rotary Club in the Junior College Campus landscaping project. Louis cited the cleaning up of the Circle in Sebring did more to unite Rotarians than any other project.

Claude Carroll's Sister Dies In Lakeland

Claude Carroll's sister, Mrs. Sue Hill, 58 of Lakeland died in her sleep at her home early Sunday morning.

Mrs. Hill, a native of Troy, Ala., had been a resident of Lakeland for the past 18 years, moving to Polk County from Lake City. She was the wife of Capt. Olin Hill, retired Troop C commander of the Florida Highway Patrol. She was a Methodist, past president of the National Pulso Foundation, a member of the Circle of Eastern Star.

She is survived by her husband, two sons, Olin Hill, Jr. of Lakeland and Tyler Hill of Port Myers; two brothers, Claude Carroll of Avon Park, and Marshall Carroll, Chalmers, Mass.; and one sister, Mrs. Zola King, Bushnell.

Funeral services for Mrs. Hill was held Tuesday afternoon, August 11, at 2:30 P.M. in the E. G. Memorial Methodist Church with the Reverends David Love and C. T. Hines officiating.

Avon Mobile Home Park News By RUTH E. ROBINSON

Sylvan and Catherine Baker arrived home safely July 30 from their short vacation in Avon Park. They report that the temperature upon arriving in Urbana, Ohio was down to 42 degrees, which was quite cool after experiencing our warm weather in Florida. Sylvan and Catherine have been spending most of their Summer on camping trips, swimming, and attending the many county fairs in the area.

Our new residents, Elliot and Mae Purvis report from their home in Peru, Ind. Elliot experienced a serious operation July 9 but is making a good recovery. They are in the best of spirits and are anxiously expecting to return to the park about October 1.

Regina Roth is feeling better again. She had been quite ill the first part of July. Paul and Patricia report the arrival of Bland and Madea Nieskand, LaPorte, Ind. on Thursday, July 30.

George Bears writes from Rochester, Ind. you know George entered Memorial Hospital in South Bend, Ind. on July 6, was operated on two times, and spent 24 days in all in the hospital. The doctor ran into some unexpected complications and George has to visit the clinic one day of every week for an indefinite period of time. So, temporarily George and Mercedes have given up plans to return to Avon Park until the doctor releases George.

We have enjoyed having Warren (Ham) and Juanita (Nita) Byers of Bourbon, Ind. who are vacationing in Florida for a few days. Sounds like old times again hearing Ham's voice on the Shuffle Court and hearing Ham and Nita sing together in church. So far, our Florida weather just suits them — not too hot and not too cold.

Robert Gibb sends word from Gainesville, Florida that his eye operation has been a success. We expect his return to the park in a few days.

Mae and Roy Girtlen are having a busy Summer in Hendersonville, North Carolina. Ruth Robinson and Larry Robinson celebrated their wedding anniversary July 31. Larry is joining Ruth at Ann Arbor, Mich. to be with their daughter Mrs. Alex Hawkins, who is to soon undergo an operation.

We are happy to announce that Phelps and Josephine Bush of Sharon Springs, N.Y. will be new residents of our park about Nov. 1. Phelps and Josephine have purchased a new mobile home and will reside at court No. 46. Congratulations.
