Let's Help Them

Highlands County School Board and Superintendent of Schools George Douglass appealed last week to the people to help them find a solution to the integration problems facing them.

We think this is a very wise move—and we hope that people in this community who have or think they have some constructive thinking and solutions will take pen in hand or hie themselves down to the board offices.

Here in Highlands County, our board and our superintendent have done a good job towards sensible integration. About 26% of the students in this county are Negro. Of this 26%, 46% already are integrated into the Highlands County School system. This leaves only about 13 or 14% of the entire school body not integrated.

We still have three all Negro schools operating in the county—E. O. Douglas in Sebring, Hopewell in Avon Park, and Carver in Lake Placid. Douglas has kindergarten through eighth grade students, ditto Hopewell, and Carver has kindergarten through sixth.

All the predominately white elementary schools in the county have some Negro students. These children either live in the district or have chosen to attend there.

Our school system will proceed as is for the end of the school year, but there is little doubt but what something will have to be done by next Fall. And right now we don't think anybody has the answer. We hope it is forthcoming shortly.

In the 1968-1969 school year, there were 4,188 white students, 1634 Negro. There were 286 white teachers, 53 Negro. There were 10 schools in the system.

If our board and our superintendent, trying to do their very best, and obey the law, come up with something you don't like, and you haven't spoken your piece—you'll have only yourself to blame.

What's Your Opinion

We can't help wondering why Congress and this nation's top agencies sometimes are so insensitive to the general mood of the public.

In a questionnaire recently posed to his constituents by Cong. Paul Rogers of this district, he asked: Do you favor busing students or closing community schools to achieve racial balance? A whopping 93.1% answered "no", 4.6% "yes" and 2.3% did not answer.

We rather feel that many, many parents in many states other than ours disapprove of bussing, and closing down of some schools to achieve integration, yet the Department of Health Education and Welfare is saying "do it or else." And so there will be bussing and closing of some very adequate school plants or no federal aid to those schools which defy them.

Another question posed by Rogers was: "Do you favor foreign aid?" A total of 77.8% answered "no," and 20.5% "yes" while 1.7% did not reply.

Yet we are continuing the foreign aid program in large degree although there has been some cutback.

On the war, those answering the questionnaire were asked: "Which one of the following most accurately reflects your solution for Vietnam? A total of 62.8% marked "full military effort to win, then withdraw" (note that this does not say we MUST win); 25.4% said "immediate U. S. withdrawal;" 7.3% "continued at present."

The administration apparently is embarked on the course chosen by the 62.8%—but haven't we already "won"? Did not the computers 2½ years ago say we had "won"? Why are we withdrawing at such a slow rate? We see much publicity about the withdrawals—but what about the men who are replacing them? These figures are being carefully downplayed—infact, we have yet to see any.

Other answers to Rogers' questionnaire were: Should the poverty program be continued? "Yes" 40%, "no" 55.2%.

President Nixon has recommended the Surtax be continued. Would you agree if spending is cut and the Budget balanced? "Yes" 59.9%, "no" 37.7%

Would you favor my bill to increase personal income tax exemptions from $600 to $1,200? "Yes" 95.3%, "no" 3.8%.

Should wage and price controls be put into effect to control inflation? "Yes" 65%, "no" 33%.

Do you favor a change in the Electoral College system of electing the President? "Yes" 86.8%, "no" 12.2%.

We can't help but wonder how many other Congressmen are sending out questionnaires to test the desires of the people.

We wonder how many of them are voting or going to vote after knowing the sentiments of the majority.

LEWIS LLEWELLYN

Is Church Losing Its Influence?

Police have been ordered to patrol all 46 of the junior high and senior high schools in Washington, D.C., since a 15-year-old-junior high student was killed in an accidental shooting.

A year ago, an assistant principal was shot to death in a robbery at the school where he worked.

These incidents point up the increasing peril in our nation and illuminate the sad fact that juvenile delinquency has now matured into juvenile crime of really serious proportions.

Religion Losing Influence?

In 1957, the Gallup Poll showed that 14 percent of Americans believed that religion was "losing its influence on American life." By last year the 14 percent had risen to 70 percent.

Would a return to reading of the Bible help to stem the tide — or is it too late?

In England, a publishing house is putting on a massive advertising campaign to promote sales of its new edition of the Bible. Some of the advertisements have indeed attracted attention.

For example, one advertisement asked, "Who do you think Christ was? An old-fashioned Billy Graham? The first true Socialist? Or the Son of God?"

Has much of the unrest and violence in our nation been caused by down-grading the influence of the Word of God?

Remember, our public-school reading books, in an earlier generation, stressed the values taught by the Bible and students were instructed and trained to have a reverence for God and His Word. Are we proving true the statement, "They have sown the wind and they shall reap the whirlwind"?

A dramatic example of the power of the Bible was reported, some years ago, by Clarence W. Hall, who was a war correspondent with US Army troops in the Pacific Theater during World War II.

As the troops advanced across Okinawa in 1945, Hall relates, the advance party was met by two elders of the town of Shimabuku.

"Strangely enough," he relates, "they seemed to need the services of a chaplain." So Hall went in the jeep with the chaplain and met the two old men, who told the Americans that they would like to have a Bible and a picture of Jesus.

Then the story came out.

Power of the Bible

Thirty years before, a missionary had passed through Okinawa on his way to Japan. He was able to stay only a few days, but he did have time to talk with these two men, who were converted to Christ.

The missionary taught them two songs and left them a Bible.

Hall reports that, while Okinawa was filled with communities which were "poverty-stricken, filthy, diseased, heathen," Shimabuku was "clean, neat, and progressive; the people friendly and polite."

What had made the difference? This is what Hall says, "Evidently the lone Bible and two songs—for Shosei and Mojun (the two elders) had led that village in building its entire life upon the Sacred Volume."

Why is it that we, the inheritors of a culture built on trust in God and reverence for His Word, neglect the reading of this Book?

What will be the consequences if we continue to ignore its teachings?

NEW PROFITS FOR SUPERMARKETS

By Babson's Reports Incorporated, Wellesley Hills, Mass., January 22, 1970. Currently there is a strong trend back toward the community shopping center of generations past, but with the big difference that it will be in the form of a gigantic discount market with annual sales of some $10 million. Already, food stores reporting sales of better than $1 million a year account for more than half of total grocery sales, up from only 15 percent twenty years ago. The average annual volume for an individual outlet of a supermarket chain (a firm with eleven or more units) is $1.7 million. And this will be dwarfed by stores of even more impressive size and scope that will be opening during the course of the 1970s.

Consumer Attitudes

Many factors have contributed to the changes in customer habits that have given impetus to the move toward larger, more diversified markets. The grand migration from city to suburbia has caused the death of hundreds of "family" groceries unable to match the vast buying power of the upcoming giants. Consumers have come to enjoy the shelf-shopping rather than the over-the-counter buying of years gone by, with the enormous visual arrays resulting in the purchase of more and more foods. While the population over the past decade has risen at a rate of 1.7 percent a year, expenditures of food have increased 3 percent.

Added to the pulling-power of supermarkets is the preponderance of frozen foods, prepared dishes, and convenience items that have become available in ever-mounting numbers over the past twenty years. Additionally, 35 percent of American families enjoy an annual income in excess of $10,000, up sharply from only 8 percent in 1950. With this increase in affluence, the housewife is upgrading her family's diet. For example, per capita consumption of meat rose from 176.7 pounds in 1950 to 219.5 pounds for the latest year of record.

Raising Profitability

But, profit margins for grocery chains have dropped from 1.44 percent in 1957 to just under 1 percent in 1969. Higher labor and construction costs have been largely responsible, although rising wholesale prices—for the most part absorbed by the retailer — and increasing pressure from sharpening competition have played their roles. Two roads to better profitability are being tried by supermarkets: Diversification into non-food items where there is a wider profit margin, and elimination of fringe incentives such as trading stamps (but in some instances replacing these with discount pricing in hopes of upping profits through higher turnover volume).

Some Plus Factors

Leading supermarket chains are looking for increased sales and earnings through 1970. Most labor agreements signed in 1968 are for three years, with the biggest dent in profits being made in the first year. Hence, this part of increased costs for the remaining two years will be minimal. Wholesale prices, which were increasing over earlier months, may show some softening as 1970 works along. This decline for the most part will not be passed on to the consumer, but more probably used to offset that part of the earlier increase absorbed by the companies in order to remain competitive.

Attractive Buy Situations

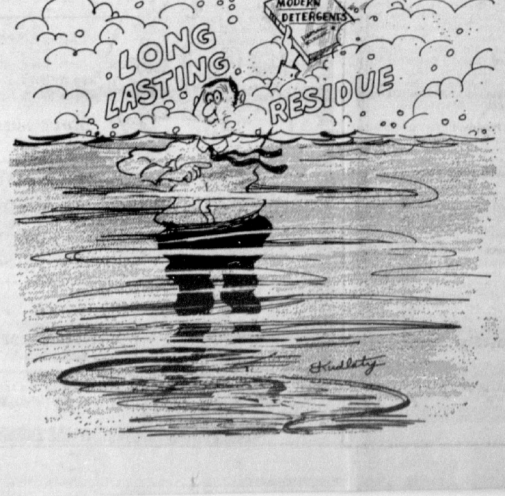

The research staff of Babson's Reports — generally optimistic on supermarkets despite continuing inflation problems — recommends current purchase for appreciation of Kroger Company, price near 28 (NYSE), buy ceiling 36; Pueblo Supermarkets, price near 22 (NYSE), ceiling 25; and Weis Markets, price near 35 (NYSE), ceiling 38.

In the News

TEXAS multimillionaire H. Ross Perot has offered the North Vietnamese government as much as $100 million in services and supplies in exchange for the release of American prisoners of war. Perot, 39, recently tried unsuccessfully to fly Christmas gifts and messages to the prisoners, a project which cost him $500,000.

County Officials Return $47,821 In Excess Fees

Highlands County's five elected fee officials returned $47,821 in excess fees to the county, according to 1969 reports filed with the county commission Tuesday. This is $537 more than the excess fee returns were at the close of 1968.

The officials filed their 1969 reports with the state comptroller prior to a Jan. 15 deadline.

The county tax collector and tax assessor divide fees between the county commission and school board with the latter board receiving the smaller share.

The county commissioners in their 1969-70 budget had estimated income from the fee officials would be $28,000. The actual return to the county commission will be $40,882 and to the schools will be $6,939.

Collector's Fees

The largest excess fee return is from Tax Collector W. H. Prescott's office — $17,972 to the county and $5,265 to the schools. Prescott reports total receipts of $74,502 for 1969.

Expenses for the office were listed at $39,264 with salaries taking $25,816. Postage expenses were $4,334 for the year, and travel cost $761. Expenses for the collector's office the previous year were $32,424.

Assessor Fees

Two officials showed a drop in excess fees. Tax Assessor J. W. "Billy" Martin's fees dropped from $21,236 in 1968 to $13,287 last year. This was distributed $11,613 to the county commission and $1,674 to the schools.

Martin explains that income for his office was down in 1969 and he cited four reasons: he agreed to underbill the county commission on some fees, a change in state law reduced the fees from the school board, Avon Park Lakes special district did not levy any taxes, and a check from Central and Southern Florida Flood Control was too late to be entered in the report.

Martin's office did show an income of $76,733 with expenses of $51,445. The $41,927 salary expense is lower than last year's. The assessor said, because he has not been able to replace a professional assessor who resigned some months ago.

One of the larger expense items is for travel, $1,810 and an additional $2,322 was allocated to association dues and professional seminar attendance.

County Judge

County Judge Mervin Rehrer's excess fees, which were $3,674 for 1968 fell to $276 for 1969. Total income for the office was $48,982 — an increase of approximately $2,000. Expenses climbed about $3,200 to $33,206.

The News noted that Judge Rehrer had not listed travel expenses as had other county officials in their reports. Judge Rehrer said the travel is "probably included" in the figure of $5,896 for office expenses.

The Judge noted that he lists the amounts paid each employee while other county officials do not do that. Total salaries for the county judge's office in 1969 were $26,698.

Under new state laws most of the county officials moved up from $10,500 to $12,000 salary for the year. The county judge's salary advanced to $12,980. An additional $2,520 is allowed the juvenile judge, but this is a straight "in and out" exchange from the county's general budget.

Clerk of Circuit Court

Clerk Earl Rich sees his fee record as an indication of good economic health in Highlands County. Total income in his office was $81,170 and excess fees climbed more than $3,000 to $9,860.

Rich points out that the income from mortgage sales was down to $160 because there were 18 fewer sales in 1969 than in 1968. Tax redemption fees were down more than $300, to $515. At the same time nine more Highlands County citizens paid passport fees.

With travel up and foreclosures down, "The county must be in good health, economically," Rich said.

Salaries accounted for $52,549 of the office expenses for the clerk; dues and travel cost $1,284. Total expense was $59,062.

Tag Agent-Supervisor

Fees from Roland X. Droit, supervisor of elections and tag agent, climbed $800 to $1,159 for 1969. Total fees for the office came to $28,416 and expenses were $16,756. Salaries accounted for $14,166 of the expense and travel for $298.

Small Claims

One office that showed no excess fees was the small claims court. It had receipts of $2,742 and expenses of $211, but the net income of $2,530 was far under Judge David Lanier's allowed salary of $7,500. This office had no excess fees in 1968.

About $45 million has been spent in restoring pioneer Williamsburg, Virginia, to its American Revolution days condition.

Rambling Thoughts

By O. L. SHOBE

I'm weary now of Shylock Holmes and all the imitative crew; I'm tired of triumphs built upon a collar button, as a clue. The sleuth is always tall and thin, with nervous hands and hawk-like face; he scours the slums or moves around in marble halls with equal grace; he always takes some kind of dope or plays the flute or violin, and when he's billed for active work he glues false whiskers on his chin. He always has a Watson near, a tiresome chump who sits and broods, the while the selling-plater sleuth rings off a string of platitudes. Detective yarns are all so stale! The plot is evermore the same: we always have the murdered man, with knives or bullets in his frame; the pantry window is unlocked; the safe's been opened with a file, suspicion shifts until it rests on every man within a mile; the local peelers blunder 'round and ball up things in frightful shape, and then the Great Detective comes, with lens and rule and measuring tape; he crawls around upon the floor, examines all the water mains, and tastes the ashes in the stove, and sticks his nose into the drain; and then he says the problem's solved; forthwith he spends two weeks or more in showing Watson and the world how easy 'tis to be a bore!

INJUNS WERE HEAP BIG IN THOSE DAYS

I am going to take this section of this page this time for a quoted article that appeared years ago in the Tampa Tribune. D. B. McKay, one of the great men of Florida, was conducting at that time what he called the "Pioneer Page," I thought Indians might be rated as "Pioneers," and sent him the following true story: "Governor Gilchrist's Museum." A few Sundays ago your page had a story headed, "There Were Giants In Those Days, Maybe," and the gist of it was that the archaeological spade had unearthed evidence of some king-sized inhabitants in this state at an undetermined date.

I am going to put in my dime's worth to show that your headline would have the truth with the single exception of the word "Maybe." There were giants in this country — and I don't mean maybe or perhaps.

I am sure old timers remember Governor Albert W. Gilchrist of Punta Gorda. When I (and my living incumbrances came to Florida in the Fall of 1914) I landed in Arcadia and took a job with the Arcadia Enterprise, owned and published by the late Andrew Carter. This man was a brother-in-law of mine, and, among other things, had an oyster ("Arny") farm on Lemon Bay, down Charlotte Harbor Bay, near Boca Grande. (Gasparilla, the pirate, was sunk in Lemon Bay by a U.S. gunboat a few years previous to our coming to Florida.)

Mr. Carter arranged a trip to this oyster farm, several of his friends being in the party. Mr. Carter and I went by train the evening before our visit to the oysters, and Gilchrist, who was Governor of Florida at that time, gave us an invitation to visit him and being a politician, he financed a trip down the bay by paying the fares on an excursion boat which seemed to be making regular trips at that period.

I will hurry on to the Giants who really inspired this classic. Mr. Carter and I visited a museum that Governor Gilchrist possessed in the upper story of a two-story building he owned, before going to bed in the great, wooden frame hotel facing the bay, Mr. Gilchrist had an astonishingly large collection for a private museum. There was almost every kind of artifact the early inhabitants of Florida ever used. One of these was a conch-shell battle axe, with a hole bored in it for a handle to fit in it, the pointed end being used to make an impression on people the owner didn't like too much, when applied with enthusiasm and malice aprepence.

He had fossilized shark teeth six and seven inches long. He said the size of the shark could be determined by the size of his teeth, and that a shark with teeth seven inches long would be around 50 to 60 feet long. Sharks 13 feet long now-a-days were considered big enough by pet-lovers. The Governor picked up the lower jaw of a human being he had dug up on an island down the bay, and placed it over the lower jaw of the lovely character who pens these lines. Then he placed a foot rule on the ends of the bone. (He had no further use for it) and there was room for the Governor's large thumb between the rule and the back of my head! It fit my face like an ox-yoke. The jawbone was not as large as the one Samson used on the Philistines, but it might have been that of a politician or some related breed of ass.

Gilchrist next placed a leg-bone, resting the end on the floor, and the thing reached to a point half-way between the floor and the bones I use when sitting down, (called the hip in polite circles.) Gilchrist swore he had found skeletons of these gents that were over SEVEN FEET LONG.

This leg-bone is called a femur, I think, by the folks who make a living by fooling around with bones in various manners. I am 5 feet and 7½ inches in my socks (when I have any), so you can figure that a man who had a femur (that's spelled right) so long that it would reach from the floor three-fourths of the way to my — ah, we will say — pistol pocket — must have been an ugly customer to reach in the dark alleys when he was out on the prowl for somebody to relieve of his mamma.

Gilchrist said he had seen a skull or two where one of these conch - shell scrapping-hatchets had been used with vim and vigor and the results must have been very painful, and he did not doubt that the owners of the skulls might have arrived at the hospitals D.O.A. One or two of the islands that he visited had every appearance of having been used as national cemeteries — Arlingtons, maybe — but there were many of the mounds that had been opened and these inhabitants disturbed in their last sleep by unauthorized and amateur archeologists, where there were many bones as large, and larger, than the ones he had on exhibit.

(You can take it from me and the shade of Albert W. Gilchrist THERE WERE GIANTS IN THOSE DAYS. Date uncertain, though.)

We admit of no government by divine right — the only legitimate right to govern is an express grant of power from the governed—William Henry Harrison.

There can be no fifty-fifty Americanism in this country. There is room here for only one-hundred per cent Americans, only those who are Americans and nothing else. — Theodore Roosevelt.

Your Social Security

Question — My first child was born nine years ago and I haven't work since that time. I had worked under social security for about seven years when I quit. My husband says that if I should die, the children would receive nothing from my social security. Is this right?

Answer. No. Each child would be eligible for a monthly payment from social security. A change in the law last year made this possible. Before the change, a woman must have worked until shortly before her death in order for her children to be eligible for social security payments.

Question — When my wife died in 1963, I was told that our small children were not eligible for social security payments. I believe that it was because my wife had not worked in the three years before her death. The wife of a man who works for me died last month and he has been told that his children will receive social security benefits. His wife had not worked for almost seven years. How is this possible?

Answer — Due to a change in the law, effective in 1968, eligibility requirements are now the same for survivors of women as for survivors for men. You should contact the social security office immediately to file a claim for benefits for your children. Any delay in filing a claim could cause your children to lose further payments.

Question — I was 65 on last May 12. I decided that I could'n't afford to pay four dollars a month for the supplementary part of Medicare, so I didn't sign up for it. After learning of the experiences of some of my friends, I have decided that I would like to sign up for the supplementary Medicare. Am I too late?

Answer — No. You can sign up during one of the next three months — January, February, or March. However, your insurance will not be effective until next July.

Lawman Attacked Thursday As John Sweet Sought New Trial

The "amorous sexual relationships" between Irene Maxcy and an investigator for the old Florida Sheriff's Bureau were attacked Thursday as John J. Sweet sought a new trial.

In an hour-long hearing in Lakeland before judges of the Second District Appeals Court, Defense Attorney Raymond LaPorte, of Tampa, argued for Sweet.

LaPorte declared that Mrs. Maxcy's intimacies with lawman Roma Trulock were improperly kept from the jury that convicted Sweet over a year ago of the murder-for-hire of millionaire Charles Von Maxcy.

Testimony at the trial given by Mrs. Maxcy, he said, declared Trulock accepted clothing that had belonged to her dead husband, took money from her, had sexual relations with her and persuaded her to buy an annuity insurance policy from a friend of his.

Judge William Love, who presided at the trial, had ruled that this testimony was not tending to prove Sweet's guilt or innocence.

Thursday's hearing was attended by State's Attorney Glen Darty, and Assistant State's Attorney Joseph Macbeth, of Sebring, who successfully prosecuted the case. Also in the courtroom was James Maxcy, brother of the slain man. Neither Sweet, Mrs. Maxcy nor Trulock were present. Sweet was in Sebring and had his morning coffee downtown.

The point regarding Trulock was one of three stressed by Sweet's lawyers in their efforts to get him a new trial. Sweet, 54, was convicted and sentenced to life in prison a year ago. He is at liberty on $50,000 bond.

The court took the attorney's arguments under advisement, along with their written briefs. Attorneys Walter Manley and James McEwen of Tampa were present. The earliest a decision could be handed down is one to two months, informed sources said.

Representing the state was Michael Kavouklis, assistant attorney general. On the court were Chief Judge T. Frank Hobson, Jr. and Judges William C. Pierce and Joseph P. McNulty.

The state in responding to Sweet's appeal, departed from its trial goal, "95 per cent of which was an attempt to prove a conspiracy" to bring about the murder, LaPorte told the court.

The state's case, he said, rested largely on the testimony of Mrs. Maxcy and Trulock, but the defense was barred from attempts to cross-examine her "concerning the activities between him (Trulock) and Irene Maxcy — the amorous, sexual relationships prior to and after the arrest of the defendant."

LaPorte asserted Love had outlawed the testimony "on the grounds it was merely an attempt to annoy or harrass the witness."

LaPorte also blasted Trulock's testimony about an interview with Sweet, conducted in the face of a written demand from Sweet's lawyers that Trulock avoid contact with their client, and from which he prepared notes despite a promise to Sweet or Mrs. Maxcy that the interview would be "off the record."

The third major point of error asserted by LaPorte was the "voluminous hearsay testimony concerning a conspiracy that was never proved," centering on Sweet's alleged hiring of Andrew Von Etter and William Kelly to come to Florida to carry out the Maxcy slaying, and the failure of the state to produce Kelly at Sweet's trial.

Kavouklis, in his argument, asserted that recent U. S. supreme court decisions concerning admissability of confessions as evidence do not preclude "voluntary and volunteered statements," and said contentions that Trulock had no right to talk to Sweet assumed their client "could do only what his lawyers told him to do."

Love, in ruling against admission of Mrs. Maxcy's narration of her alleged affair with Trulock, probably had in mind that such testimony hadn't been part of the first trial, the assistant attorney general said, and in any case, Mrs. Maxcy was a witness hostile to the state who could be expected to attempt to discredit its evidence.

All three appeals court judges raised questions of whether Mrs. Maxcy's testimony would have had a bearing on Trulock's credibility as a witness, inasmuch as he would have had an interest in eliminating Sweet as a rival for the woman's favor if what she said were believed by the jurors.

McEwen, in a rebuttal, repeated a phrase he used during the trial — that the state attempted to present Trulock to the jury as a "knight in shinning armor" and recalled testimony by Mrs. Maxcy that Trulock was "jealous" of her.

Mrs. Maxcy has been charged by Darty with perjury. Disposition of her case has been held up pending Sweet's appeal. She is free on $25,000 bond.

WINDSOR CHEAPE of Charlottesville, Va. is shown returning to Mrs. Adele Best a book that he had checked out from the library in 1912. It seems that his family moved to Tallahassee in 1912 and Cheape as a youngster in the seventh grade forgot to turn in his library book. The book, titled "From the Throttle to the Presidents Chair," has been returned to its proper place.

Panthers To Host St. Pete In Wauchula

Thursday night at Wauchula, South Florida Junior College Panthers will host St. Petersburg Junior College in a division three basketball game scheduled to go at 7:30 P.M. The Panthers will be out to avenge a 132 to 84 defeat in St. Petersburg before Christmas.

Saturday night in Sebring, the Panthers will host Orlando in a division three game also scheduled to go at 7:30. This will be the first meeting between the two that counts as the first meeting was in the Orlando Invitational tourney before Christmas.

Probable starters will be John Graham or Willie Marovich at center, Chuck Smith, and Jerry Stephenson at forward and John Beattie and Ronnie White at guards.

Panthers 106, Daytona 104

In a real cliff hanger last Friday night South Florida Junior College Panthers battled to a 106 to 104 basketball victory over Daytona Beach. Daytona jumped out to a 12 point lead before the half, but the Panthers fought back to narrow the gap to 50 to 46. The game was a see-saw affair until with seven minutes to go, the Panthers built a seven point lead with a minute to go and almost had the game tied with a last ditch effort by Daytona Beach. Donald Strange thinking the game was over was going to throw the ball one-half the length of the court toward his basket as a final gesture toward scoring but 6'5 David Palmer intercepted and fired to a team-mate who hestitated for a second before shooting. The ball went in but his shot was ruled no good as time had expired.

Oriental Sauces Spark Up Charcoaled Spareribs

For a special treat, spark up charcoal grilled spareribs with Oriental flavor. A blend of ginger, soy sauce and apple juice, which serves as marinade and glaze in this recipe, furnishes appealing flavor with a Far Eastern accent.

Oriental spareribs can be broiled on any type of grill, including the small Japanese hibachi. The apple-spiced aroma will be equally enticing in the fireplace, garage, porch or kitchen.

When the cookout moves indoors, regulation of the fire is most important. Spread the charcoal briquets evenly over the cooking area. They should be gray before laying the marinated ribs on the grids.

Oriental Spareribs

1 bag charcoal briquets
4 pounds spareribs (cut in serving pieces)
1 cup apple juice
½ cup salad oil
½ cup soy sauce
2 tablespoons brown sugar
2 tablespoons cider vinegar
1 tablespoon instant minced onion
1 tablespoon powdered ginger
½ teaspoon garlic powder

Combine apple juice, oil, soy sauce, brown sugar, cider vinegar, onion, ginger and garlic powder. Mix well. Place spareribs in flat utility dish. Pour marinade over ribs, cover and refrigerate overnight.

Allow charcoal briquets to burn to a gray ash. Remove ribs from marinade and place on grill, rib ends down, about 5 inches from heat. Save marinade. Broil ribs over moderate heat, turning to brown evenly, 2 to 2½ hours or until done. During last hour brush spareribs with remaining marinade every 15 minutes, turning frequently. 4 to 6 servings.

ROTARY CLUB NEWS

By Powell Waite

The Rotary Club of Avon Park is always appreciative of an interesting and informative program at our Wednesday meeting. When the prorgam is presented by one of our own citizens the appreciation is shown even more. Such was the program presented last week by Dr. Walter Ost and Bob Sanborn. Dr. Ost and Mr. Sanborn have recently completed a trip around the world and they came with slides to share a small part of the trip with us. As Mr. Sanborn presented the slides, Dr. Ost explained some of the highlights of each slide and the entire trip. His explanations and quotes were thoroughly enjoyed by all the members.

The primary purpose of the trip was to visit some of the Missions in different parts of the world. The first stop on the trip was Ethiopia, where they visited a mission at Addis Ababa. Dr. Ost explained that the principal source of income of the people came from growing hemp and a few small cattle. After leaving Ethiopia they proceeded into Kenya and spent most of their time in and around Nairobie. On the entire trip Dr. Ost and Mr. Sanborn were not interested in seeing the city life, but wanted to see how the average people live. As Dr. Ost explained, "If you want to see a country you have to leave the hotel and beat the bushes." From the picture he showed it looked as if he spent most of his time "beating the bushes."

They left Africa and went to India where they visited Bombay before moving on to the Islands of Ceylon and Bali. In India, as well as Africa, Dr. Ost told of the primitive methods of doing things, yet the finished product showed good workmanship. He was not too pleased with the drivers in India. He said their idea of safe driving was to drive as fast as the vehicle would go with the horn blowing all the time. Then if they hit someone while the horn was blowing they were not at fault.

Time would not permit the showing of all the slides or talking about all the countries visited. Other countries and places Dr. Ost and Mr. Sanborn visited were Paris, Rome, Athens, Singapore, Hong Kong, Tokyo, Honolulu and many others.

Dr. Ost said after traveling around the world, this was his second trip, he preferred living here in Avon Park over any place he had ever been.

Forestry Crews Fought 125 Fires In '69

An estimated $243,000 in real and personal property was saved by Forestry crews during 1969, as the Division of Forestry took action on 125 fires in Highlands County.

Roy L. Williams, district ranger, said that of the 125 fires, five were cars, four trailers, two houses, one a truck, one a motel and one an aircraft.

"Due to the comparatively wet weather throughout the year, only 1,425 acres were lost due to fire" Williams said. Crews took action on three small muck fires all of which were in remote areas of the county."

There has been some question, he said, about Forestry crews responding to fires other than grass or woods fires.

"The equipment we have," he said, "is designed for woods and grass fires and is subject to be in use in remote areas that take time to get out of, but Division of Forestry crews and equipment will respond to any type fire.

"When calling for assistnace, please remember, our equipment may be in use and some delay should be expected. Also our trucks are designed for woods and grass fires, not buildings."

Little girls are people who just can't wait to grow up and wear the kind of clothes and shoes that are killing Mommie.

FROZEN FRUIT NOT POISONOUS

Frozen fruit is not poisonous — that's just a wild rumor going around, says Tim Hurner, county extension agent, citrus.

"If you eat a lot of fruit that has been frozen, you will get sick," he said, "just like an overripe banana will make you sick."

Damaged fruit will be "sweet and mushy" in spots, Hurner said, but "once it's been dried out, the remaining portion still is good."

Off to Nassau

Highlands County Boy Scouts Will Collect Clothes For Goodwill

Boy Scouts, Cubs and Explorers in the Gulf Ridge Council, which includes Highlands County will participate in the 11th "Good Turn for Goodwill" clothing collection this Spring, according to Don Brooks, District Executive.

Special Scout-Goodwill bags will be distributed to homes in this area on Saturday, Feb. 28. Residents are asked to fill the bags with repairable clothing and household items, which will be reconditioned by handicap men and women in Goodwill's Rehabilitation Centers at St. Petersburg, Manasota, Ocala, Tallahassee and Fort Myers.

Scouts will return to collect the filled bags starting at 9 A.M. on Saturday, Mar. 7.

Nearly 1,600 Scout units in Goodwill's 29-county service area plan to mobilize 48,000 Boy Scouts, Cubs and Explorers for this annual civic activity. They will be aided and encouraged by 2,000 leaders and 10,000 volunteer committeemen.

It takes seven filled bags to keep a handicapped worker active for one day. With 650 workers using more than 4,500 bags every day, a large backlog of materials is needed to keep these handicapped persons in Goodwill Rehabilitation Centers steadily employed.

More than 46,000 bags were collected last year and a considerable increase is expected in 1970. For a number of weeks after the official campaign ends, many additional bags are dropped in the 715 bright yellow and blue Goodwill deposit boxes conveniently located at leading shopping centers.

Articles received through the Scout campaign will be reconditioned and sold in Goodwill's 24 bargain stores to pay the wages of the handicapped workers.

Besides work training at Goodwill Rehabilitation Centers, handicapped men and women receive the services of a fully trained professional staff which include excellent psychological, psychiatric and medical consultation, work evaluation, personal adjustment counseling and other rehabiltation services.

At the St. Petersburg Rehabilitation Center, Goodwill maintains living accommodations in two dormitories for persons from other communities throughout Florida, sent to St. Petersburg for evaluation and training through the Florida Division of Vocational Rehabilitation, the Bureau of Blind Services and other concerned agencies.

"Vocational rehabilitation remains the guiding light of the Goodwill mission," James J. Szenas, executive vice president declared. "Our goal is to return as many handicapped persons as possible to the business world. The "Good Turn for Goodwill" program, sponsored by the Boy Scouts of America, plays a vital role in helping handicapped persons earn a prideful living."

Red Devils Will Host LaBelle Here Saturday in Tough Game

The Avon Park varsity dropped to a 4-5 record last week as they lost to Santa Fe of Lakeland 62-52 and DeSoto of Arcadia 79-68 and won from Okeechobee by a score of 62-35. Last Tuesday night the Devils were to play Hardee High in Wauchula and be idle this Friday night but will host the tough LaBelle team here Saturday night. Next Tuesday night the two Devil squads will also be at home playing a rematch with the Moore Haven varsity and "B" teams.

The Avon Park "B" team was knocked out of the undefeated ranks last week when the Santa Fe junior varsity handed it a 66-48 loss but the Devil "Beez" bounced back and won 54-17 over Okeechobee last Friday night. Their record went to a 5-2 mark last Saturday night, however, when the DeSoto jayvee squad took a 62-57 win from the hustling Devil team.

In the varsity Santa Fe game it was simply a matter of too much height on the Hawks team. The Devils played a slow-down ball but couldn't pull off an upset against the Santa Fe five. Sisemore with 17 points, Hardy with 14, and Stukes with 10 led the Devils in the scoring department. The Hawks have a 9-2 record this season.

Last Friday night the two Red Devil teams both won over Okeechobee and then South Florida's Red Colleges eeked out a win over Daytona Beach in the nightcap of the triple-header. The varsity high school game was slow and dull but Avon Park had an 8-3 lead at the end of the first quarter and moved to a 29-13 advantage at halftime. Neither team could hit the basket well and Avon Park hit only 18 of 41 free shots the whole game. The Devils finally got hot in the fourth quarter and sank 26 points while the Okeechobee could manage only 13.

Don Sisemore led the Devil scoring with 24 points but Joe Hardy had perhaps the best game of the season sinking 19 points and controlling the backboards for the Devils. Herbert Stukes put 11 points through the nets for Avon Park also.

Last Saturday night a make-up game with Arcadia was played with the Bulldogs coming out on top 79-68 in spite of a fourth quarter rally by the Devil reserves. The first quarter was close with neither team hitting well but Arcadia led 16-15 at the end of that first period. A cold second period was bad for Avon Park and DeSoto went to the dressing room at halftime with a 33-25 advantage. In the third period the Bulldogs increased the lead to 55-37 and moved on to a 40-60 lead at one point early in the fourth quarter. Then when Joe Hardy and Willie Seigler fouled out, Thad Tate, Joe Franza, and Wally Pierce came off the bench to spark a rally that brought the Devils to within five points of the Bulldogs at one point in the fourth period. But the Arcadia team fought off the attack and managed a 79-68 win in spite of the scare.

Again it was Don Sisemore pacing the Devil attack with 30 points. Phillip Hall scored 11 for his best effort of the year. The Devils hit 26 of 35 free shots while Arcadia hit only 21 of 37.

After 9 games, Sisemore is still the leading scorer for Avon Park with a total of 202 points and a 22.4 average. Joe Hardy is leading in rebounds with 126 and is also the second high scorer with 12.3 points average per game.

Eighth Graders Win Three Games

The junior high basketball teams have played three games and the eighth grade team of Avon Park have won all three. The eighth graders defeated DeSoto 24-19, Hardee 28-13, and Lake Placid 30-32.

The seventh grade team lost its first two games but won this week in a double overtime by a score of 22-20 over Lake Placid. DeSoto defeated the seventh graders 20-7 and Hardee handed the little Devils a 17-11 defeat.

In sixth grade basketball action this week, Mrs. Corban's room defeated Mrs. Allen's room 19-5. Reggie Tolbert scored 8 points for the winners.

Mr. Land's class now leads the standings with 3 wins and no losses, Corban has 3 wins and a loss; Mr. Ott has a loss and no wins; Allen has two losses and no wins, and Mc-Daniel has two losses and no wins.

The tourney between the five sixth grade classes will start next week.

Bondsman Granted Gun Permit

Bail bondsman Howard Maddox has been granted permission to carry a gun—he second Highlands County citizen to receive such a permit.

Highlands County commissioners voted the permission Tuesday. The request had been presented at the January 5 meeting and tabled for further investigation. At the meeting this week Maddox's attorney, Mrs. Claire Cates, re-newed the request, explaining that her client, at times carries a sizeable amount of cash.

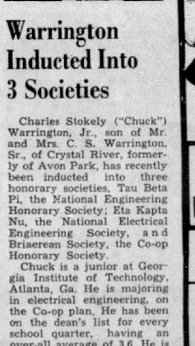

The motion to permit Maddox to carry a gun passed without negative vote, but Chairman H. Earl Crutchfield noted several times during the discussion, "I'm not in favor of a lot of gun permits going out into the county. The more firearms you have out, the greater the risk, and the risk is to the man carrying the gun."

The permit is for two years.

1500 Participate In Food Distribution

During November there were 1,570 persons in Highlands County participating in the family food distribution program. According to a regional report from United States Department of Agriculture, more than 242,000 Floridians participated in the program in November.

The food which had a retail value of over $3 million, included dairy products, canned and dried fruits and vegetables, canned meat or poultry, grain and cereal products, as well as such items as peanut butter and scrambled egg mix.

Warrington, Sr., of Crystal River, formerly of Avon Park, has recently been inducted into three honorary societies, Tau Beta Pi, the National Engineering Honorary Society; Eta Kapta Nu, the National Electrical Engineering Society, and Briaerean Society, the Co-op Honorary Society.

Chuck is a junior at Georgia Institute of Technology, Atlanta, Ga. He is majoring in electrical engineering, on the Co-op plan. He has been on the dean's list for every school quarter, having an over-all average of 3.6. He is employed at Southern Engineering Co., in Atlanta, on work quarters.

His wife, Sherry, is employed at Georgia Tech.

Chuck graduated from APHS in 1966, and was valedictorian of his class.

Is Hate All Right In Some Cases?

By DAVE LLEWELLYN

"Love your enemies."

Biafrans and Nigerians, love each other. Arabs and Israelis, love each other. Czechoslovakians, love the Russians.

Blacks and WASP's, love each other. Students and Establishment, love each other. Protestants, love the Pope.

Who are your enemies? Don't worry about it. Love everyone you think might be an enemy.

Preposterous, you think?

It is because such behavior is deemed "preposterous" by us that we also think preposterous the existence of a loving God. And why so many people think peace impossible.

Not Possible?

"Impractical? We were never meant to practice this," you think? Paul thought it was very practical.

To Christians who were being slaughtered by the Roman government, Paul taught that all believers are obligated to be subject to all governing authorities — and he introduced this by amplifying Jesus' teaching: "Never take your own revenge, beloved, but leave room for the wrath of God, for it is written, 'Vengeance is mine, I will repay, says the Lord.' But if your enemy is hungry, feed him, and if he is thirsty, give him a drink . . . . Do not be overcome by evil, but overcome evil with good." (Romans 12:19-21)

Perhaps in the word "love" there is a loophole? After all, what could be more loving than to defeat an aggressor, in order to show him his error, and then to show him mercy?

There may be honest concern in that logic, but the teaching of Jesus will not allow it. That has to be classified as overcoming evil with evil for the sake of good.

"But I say to you," Jesus teaches, "do not resist him who is evil; but whoever slaps you on your right cheek, turn to him the other also."

The slap on the cheek Jesus uses here for illustration may mean more an act of insult than one of aggression, but perhaps that is still more appropriate. Few of us in America often suffer open aggression; most of our enemies are results of real or imagined insult. A promotion we miss, a party we are not invited to, a time when we pass unacknowledged on the street, a misunderstanding we never patch up — things like these seem to create most of our "enemies."

Love Drives Out Hate

If we loved our enemies, we might discover we did not have so many enemies after all!

Yet Jesus' teaching cannot be limited to insults alone. His full command says: "But I say to you, love your enemies, and pray for those who persecute you; in order that you may be sons of your Father who is in heaven; for He causes His sun to rise on the evil and the good, and sends rain on the righteous and the unrighteous."

Jesus means to love (and pray for) those who actively carry out their hatred for you, just as God the Father loves the descendants of those men who carried out their hatred of God to the point of crucifying His Son, Jesus Christ.

Christ taught "Love your enemies," knowing that His enemies would kill Him, and they did. Yet He forgave them and never rescinded His teaching.

"Love your enemies."

Southland Trailer Court News

By Bessie Paxton

Friday night bingo was well attended with Robert Moynihan and Stewart Dilts in charge. Some people were born under the lucky sign it seems.

The Paxton's daughter, Mrs. James R. Hood, left Sunday for Ft. Lauderdale to join her husband for a two week vacation before returning to their home in Indianapolis, Ind.

Betty Peterson, Dorcas Young and Laura Bernthal were in charge of the Winter Guest Club supper Saturday night. Betty gave a reading, "The Confused Little Boy," which everyone enjoyed. She also read a little boy's idea of a grandmother, which brought a lot of chuckles. We will have to hear Betty give them again at the Park so our many newcomers may join our laughs. Dorcas and Laura did the book work and kept plenty of hot water for coffee.

At the Club supper Saturday night Alton Wetmore read a list of names of those who have ordered Name-Pins and not called for them. They are ready and he would like for these people to call for their pins. Your reporter recognized several names of people from Southland.

Because of inclement weather there was no shuffling Friday afternoon.

Barbara Lumpkin came home Tuesday from Lakeland General Hospital and is feeling much better. She will remain with her parents for a short time before resuming her work. Other known ill are improving.

Several are working on items for the Hobby Show to be held in March. We urge ladies to come to the craft class on Tuesday with their ideas in order to make the Hobby Show a success.

Your reporter wants to thank friends in the Park, as well as those in Avon Park, for their many kindnesses shown during her recent surgery and recovery.

Laura Bernthal and Dorcas Young are the proud owners of a new air-conditioner installed this week.

Mr. and Mrs. Glenn Zeizert of Blissfield, Mich. came Friday to spend a few days with their mother, Mary Strickland.

Did you hear that mocking bird? Hope it makes its home on dead-end street.

The Ritchies, Hindsleys and Marie Stroobant returned Monday evening from their trip to Nassau. They report having a marvelous time, very little rain and the water was delightful.

Bonnie Brae Mobile Home News

Howard C. Snoddy passed away suddenly, Friday, Jan. 16. He is survived by his wife, Grace and three sons.

Frank Robertson who returned to Virginia last September and has been hospitalized since, passed away Thursday, Jan. 15. He is survived by his wife, Lorraine and a daughter. We extend our sympathies to the families.

Albert Sorenson was in Walker Memorial Hospital for two weeks, where he had surgery. He was released on Wednesday. The next day he and his wife left to spend the remainder of the Winter at Marco Island. The Osto Jarretts purchased the Sorensens Mobile Home. We are happy to welcome the Jarretts.

Mrs. Jeanette Black of Sarasota, arrived on Thursday to accompany Mrs. Thelma Chalmers on a trip to Nassau. They left on Friday and will return on Monday.

We are happy to say we now have Wilbur Whitney back with us again, after spending several weeks in Walker Memorial Hospital.

Harry Mason returned from his jaunt over to Fort Myers and a visit with his brother in Vero Beach. It's nice to see him walking with his Susie again.

Saturday, Marie and Paddy Lizotte drove to Tampa to pick up Evelyn Baldwin. Evelyn had been up in New York since the holidays. Glad to have you back Evelyn.

George and Catherine Currie had guests this past week. Catherine's sister and brother-in-law paid them a visit.

Tom Lasse came down to Florida for a week with his grandparents the Vernon W. Sees who are the parents of his mother. The Sees are spending some time here on the Over Night Section. While here Tom stayed with his grandparents from his father's side, Hazel and John Lasse. Tom liked the beaches over in Sarasota and Bradenton so much, that both sets of grandparents and Tom made three trips over to the area.

Seaman Glass Serving Aboard USS Chipola

"It's like being the pit crew for every car on the track," said Seaman James L. Glass.

Glass, 20, son of Mrs. Lena V. Glass, of Avon Park, was referring to the role of his ship, the Pacific Service Force (ServPac) oiler USS Chipola (AO-63), currently serving with the U. S. Seventh Fleet off the coast of Vietnam.

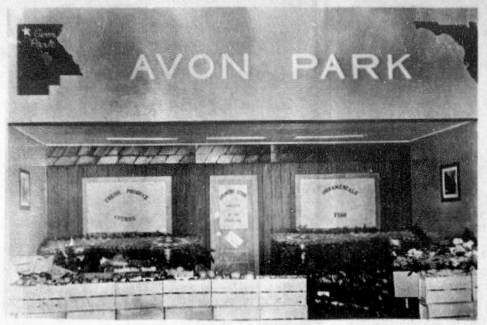

When he reported aboard the Chipola, Glass, who often manned the pit crew for racing friends at Pulaski Speedway, Dublin, W. Va., before joining the Navy, found himself on a "floating pit stop" which takes the pit to the customers—other Seventh Fleet ships on duty in Western Pacific waters.

The basic duties of a fleet oiler are delivering fuel, mail and miscellaneous cargo to foreign and domestic ports and to other ships at sea. The Chipola, homeported in Pearl Harbor, has a long history of transporting fuel around the world and serving in the Pacific during World War II.

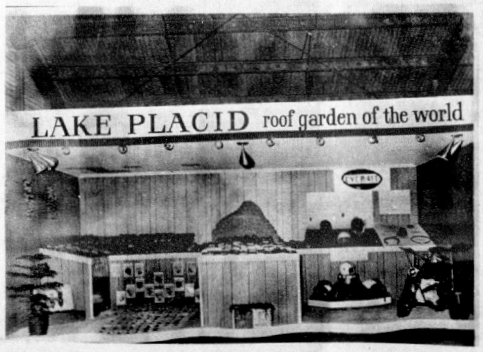

After receiving three Battle Stars for World War II service, she made 20 world cruises before being decommissioned in August 1955. The oiler was recommissioned twice, the last time in December 1960, and has since remained active in the Pacific.

During each of her last five cruises to Vietnam waters, the Chipola has won the Battle Efficiency "E" Award, qualifying her for the gold "E"—the first ServPac ship to achieve the distinction. The Chipola now flies the gold "Meat Ball"—a Battle Efficiency Award pennant with a gold ball on a blue background—and has more than lived up to the hopes of her crew, who have nicknamed her the "Blue Chip."

Seaman Glass' duties include operating a winch while transferring fuel, mail, cargo and personnel to other ships. He was graduated from Princeton High School, Bluefield, W. Va., in June 1967.

AGAIN this year, the Avon Park community booth scored the most points in the judging at the Highlands County Fair. The booth was prepared by Avon Park Chamber of Commerce and was suggestive of a country store. It won a cash prize of $150.

THE LAKE PLACID Community Booth at Highlands County Fair tied with the Sebring booth for second place. Of special interest in this booth was the display of a wide variety of grasses

SEBRING and Lake Placid tied for second place in the judging of community booths. Judging was on general appearance and arrangement, originality, educational value, the number of varieties in citrus (this booth had 53) and the quality and marketability of the citrus displayed. Sebring Jaycees prepared the booth.

Large Crowds Attend Annual Highlands Fair

Highlands County Fair swung wide its gates to an opening night crowd of about 2,000 people Monday night.

And Fair Association president Russ Albritton called it "one of the best ever."

The weather was about 10 degrees warmer than opening nights for the two previous years. The crowd was only slightly less than the record crowd of opening night a year ago. There was just a touch of sprinkles early in the evening, which might have discouraged some few from attending, Bert Harris, Jr., Fair Manager, said.

Treasurer Eldridge Pollard said about 1,000 adult and 1,000 children's tickets were sold opening night. Second day of the fair was children's day, and an estimated 3,000 youngsters trooped to the grounds in the afternoon. A total of 1,302 adult tickets and 333 student tickets was sold that day.

Albritton declared the fair was "one of the best organized in several years. We have excellent variety in exhibits. The exhibitors have outdone themselves. Everything just looks beautiful."

Look Different

Harris said he thinks the community booths "look different and better than they ever have. The livestock show looks good. We have some good animals in it and I think the total participation of 25 girls in the beauty contest was tremendous."

Although the temperature got down to a low of 48 during the night, this was considerably better than last year's 39 and 1968's 40.

There seemed to be an unusual number of young people opening night, perhaps attracted by the beauty contest. And the Midway rides of Blue Grass Shows were swinging with rock and roll music. There is a ferris wheel type ride, a Castle of Horrors, a variety of rides for all ages—and a merry go round.

George Crist, in charge of automotive and outside displays, including the Midway, said the Midway is larger and "I think the displays are better, including those in the buildings."

A total of 19 new cars and pickup trucks are on display. Exhibitors are Sebring Mobile Homes, Campa, South Florida Motor Co. and Crews and Peeples, tractors; Field Equipment, Fred Owen, woodcrafter, Bud Hammond, spin-a-paint, John Hotnich, cotton candy, Sugar Crisp waffles and Sides Auto Parts, with a boat display.

Ellen Landfair, county home extension agent said she felt the entries this year for homemaking skills "are a far more superior quality than last year. The judges were very conscientious and took a long time to decide on each ribbon winner.

Judges were Sue Brown, Joy Criner, Mrs. Don Thieme, Mrs. Marvin Kahn, Mrs. W. J. Atkinson, Doris Young.

Fair Runs Through Saturday

The fair continues through Saturday, opening at 1 P.M. each day with buildings closing at 10 P.M. each night.

The Poultry and Rabbit judging was set for 4 P.M. today (Thursday) and the Blue Maxx band will play for dancing on the stage at 7:30 P.M. today.

The livestock sale will be conducted at 3:30 P.M. Friday.

The Rhythm Ramblers Band and Soul Impacts band from the Avon Park Correctional Institution will play at 7:30 P.M. Friday.

All commercial booths had been sold out for weeks, Jack Masters, who was in charge confirmed, and there were no empty spaces. There is a fine display of new cars—including one purple one!

Police Make 212 Investigations In December

The Avon Park Police Department answered 212 complaints and investigations in the month of December.

There were 194 services rendered, 87 arrests, 17 warrants, 21 accidents, with approximately $10,527 worth of damages with a total of 8,484 miles of patrol cars.

A total of 1,240 hours worked by prisoners and 577 meals served at the jail.

WINKY HALL, junior class president, sells Aaron Cravens, principal of Avon Park High School a magazine subscription. Andy Miracle, class sponsor looks on.

Avon Park's Booth Takes First Place at County Fair

For the third consecutive year the Avon Park Community Booth has been awarded the top prize of $150 in the judging which took place Monday evening. Exhibits by Sebring and Lake Placid were judged a tie, and will share prize money totaling $175.

Avon Park's winning exhibit was arranged in the style of an old country store. Featured in the booth were a lush display of azaleas, chrysanthemums, poinsettias, and evergreens and numerous crates of fresh vegetables. A large and colorful display of citrus fruits formed the background setting.

The exhibit is prepared annually by a committee from the Chamber of Commerce. These include Alma Hooper, executive secretary of the Chamber, and her husband, Larry; J. E. Johnson of Kerns Furniture; Claude Cole, Cole's Nursrey; Mrs. J. E. Johnson, Royce Henry, and R. B. Enoch.

Less Game Bagged With Twice the Hunters

Plagued by unusually wet hunting areas at the beginning of the season, hunters failed to turn out at the Avon Park bombing range wildlife management area this year in the numbers they did last year.

And there were almost twice as many hunters as the number of game bagged.

A total of 10,493 hunters harvested 5,728 items of game on the 108,000 acres at Avon Park: harvested were 90 deer, 129 turkeys, 4,135 quail, 420 squirrels, 68 ducks, 343 doves, 256 hogs and 257 snipe.

This compares with a game harvest of 7,115 by 13,041 hunters signing in last year, which was a record year. Last year's kill was 122 deer, 177 turkeys, 405 wild hogs, 5,033 quail, 550 squirrels, 127 ducks, 142 doves and 549 snipe.

The decreased harvest of turkeys in some areas of South Florida was attributed to the Game and Fresh Water Fish Commission to sportsmen.

Junior Class Starts Magazine Sale January 27

The Avon Park Junior Class will start their annual magazine sale January 27, and continue for 10 days.

The juniors have set their goal at $2500 this year and would appreciate the towns people in helping them reach this goal. They propose that they will not be undersold and promise to meet any price that any other organization offers, selling wide varieties.

The junior class urges you to please save your renewals. If they miss your house, call the high school and one will come out to talk with you.

Andy Miracle, class sponsor, and class president, Winky Hall urges citizens to cooperate with the junior class and save money on your favorite magazine.

It's surprising how many people feel that observing the Sabbath means wearing their best clothes. Trouble with this is — the Lord looks on the inside, not at the clothes.

Highlands Community Concert Will Feature Shari Anderson Thursday

A versatile and talented group, these gifted young American artists who comprise the Columbia Operatic Trio, including soprano Shari Anderson, tenor Melvin Brown, and bass-baritone Jack Davison, will be heard here tonight (Thursday) at Sebring High School under the auspices of Highlands Community Concert Association.

Providing delightful entertainment consisting of operatic excerpts, semi-classical numbers, and Broadway show tunes, they have all performed in a variety of media in major musical centers with enormous success. Each members of the trio has been chosen for his past and present achievements as well as for his future potential.

Youth, talent, attractiveness and spirit make this one of the most delightful ensembles to be heard today. With their particular repertoire, the group has the unique opportunity of affording its audience a sense of the context from which the musical excerpts have been taken.

Miss Anderson, a native of Shenandoah, Iowa, has appeared in opera, orchestral concerts, and recitals, and is the recipient of numerous music awards and fellowships which indicate in what high regard the artist is held by her respected benefactors. Prior to beginning her professional career she earned her Master's Degree in Music by obtaining a vocal assistantship at Michigan State University and she has also been on the voice faculty of Kalamazoo College. Winner of a grant from the Martha Baird Rockefeller Foundation for two successive seasons, 1968 and 1969, she also gave her New York debut recital at Town Hall as a "Joy in Singing" Town Hall Award winner, in May, 1968.

Born near Little Rock, Ark., Melvin Brown was brought up in Southern California, where his family had moved when he was quite small, and there received most of his musical training, beginning with piano lessons and singing as a boy soprano in church choirs. Through his piano teacher, Lyell Barbour, who discovered the possibilities of Brown's natural tenor voice, Brown was able to audition for Barbour's long-time friend, the famed Amelita Galli-Curci, who was then living in retirement in Rancho Santa Fe, Calif.

First prize winner in the National Federation of Music Clubs' Young Artist Auditions, Brown has given many recitals across the country and has been soloist with the Los Angeles Philharmonic, the Little Orchestra Society, the Oratorio Society of New York and the San Diego Symphony.

Davison made his operatic debut with the Santa Fe Opera, in Marc Blitzstein's Regina, followed by engagements with Sarah Caldwell's Boston Opera Group, in Carmen, Boris Goldovsky's New England Opera Theatre, in Rigoletto, the Opera Society of Washington, D.C., in Traviata, the Juilliard Opera Theatre in Fidelio, and the Hunter College Opera Association, in Robert Ward's The Crucible.

His concert and oratorio engagements have included solo appearances at Carnegie Hall with the New York Concert Ensemble, the distinguished Gardner Museum in Boston, and with the Washington National Symphony.

Accompanist John Van Buskirk received his musical training at a number of institutions of higher learning such as the New York State College at Potsdam; the Eastman School of Music, where he studied with Eugene List, receiving a performer's certificate there; Juilliard, from which he received a master's degree; and the Aspen, Col., Music School.

He has also studied accompanying with Brooks Smith, and has worked with Paul Makanowitsky and Walter Trampler in chamber music.

NOW...YOU CAN BUDGET YOUR ELECTRIC BILLS WITH OUR NEW EQUAL PAYMENT PLAN

Amount of Electricity Used by the Average Home Varies Month by Month

NO EXTRA COST! You pay no more for this convenience. You pay the same amount each month. It eliminates higher, seasonal bills. Allows you to budget your payments on a yearly basis.

HERE'S HOW IT WORKS: We add up your electric bills for the past 12 months to determine what your total will be for the next 12 months. We then divide by 12 and bill you for the same amount each month.

At the end of that year, any difference will be figured into the following year.

OUR MERCURY FISHING ENGINES GO PLACES THAT MAKE A FISH THINK TWICE

Kiekhaefer engineers thought like a fish when they designed the fishing Mercs. We've got four models to choose from — 20, 9.8, 7.5 & 4 hp. Glide-Angle design, shearprop propeller drive and Shallow-water Slant let you glide effortlessly through weeds & over submerged logs to those hard-to-reach holes where "lunkers" hide. Full forward-neutral-reverse gearshift and one-hand steering and throttle control make maneuvering in tight spots a cinch. Tilted powerhead, Thunderbolt ignition and Perma-Gap spark plugs let you troll super slow and smooth all day with no puddling of fuel and no fouling of plugs . . . and you can use economical regular-grade automotive gasoline. Anti-corrosion aluminum and a four-step super tough paint process keep your engine looking factory fresh. Add Jet-Prop exhaust and Mercury's System of Silence and you've got the quietest, most advanced engineered fishing engine you can buy. Come on in and try one on for size.

VOLUME XLVI, NUMBER 13 | AVON PARK, FLORIDA 33825—THURSDAY, JANUARY 29, 1970 | GL 3-4351 | GL 3-4355 | 10c PER COPY

MRS. ALMA HOOPER, Executive Secretary of the Avon Park Chamber of Commerce shows the blue ribbon won recently at the Highlands County Fair to Claude Cole, Cole's Nursery and Edward Jackson, manager of Revell Crate Company. These two Avon Park firms were featured in the exhibit, which won top honors for the third consecutive year.

Jaycees Open Information Center Here

Highlands County Tourist Information Center is in operation on US 27, three miles North of Avon Park. The center, sponsored by three Junior Chamber of Commerce units in the county, opened Sunday and will be open from 9 A.M. to 1 P.M. and 2 P.M. to 6 P.M. each day.

Miss Arlynne Grice of Avon Park, receptionist, will serve free orange juice and provide tourists with information about Highlands County.

Ernest P. Norris of Sebring is executive secretary for the information center. Each of the sponsoring Jaycee units has named an information center chairman: Roger L. Stimson of Avon Park, Don Thieme of Sebring and Dixie Scott of Lake Placid.

Norris said an open house to acquaint Highlands County residents with the center will be held in February.

Post Office To Be Dedicated In Ceremonies Here Saturday

Avon Park's new post office will be dedicated on Saturday, Jan. 31. A welcome parade is set for 3 P.M., with the dedication ceremonies to begin immediately following the parade at the new facility located at 100 South Verona.

The new facility is part of the Post Office Department's lease construction program, the local Postmaster explained.

Under this program, investment financing is used to obtain needed facilities which remain under private ownership, pay local taxes to this community, and are leased to the Federal Government.

The Department is now concentrating on constructing new postal units only where they are most urgently needed. In areas where it is practical to do so, existing buildings are undergoing renovation.

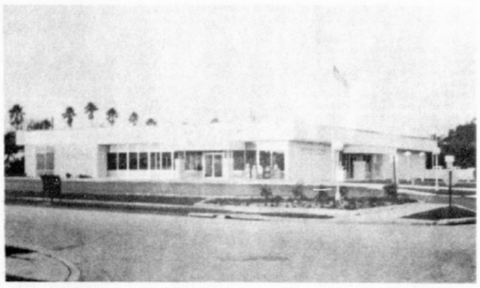

"The fact that Avon Park has been chosen for a new post office," Postmaster Young said, "reflects credit on our growing contribution to the economy and life of the nation."

The Postmaster announced that the following are among the guests expected to attend the local postal dedication:

Honorable Paul G. Rogers, Congressman 9th District of Florida; Honorable James M. Haley, Congressman, 7th District of Florida.

"Our patrons will find doing business here more pleasant. Their mail will be handled more efficiently and this building with its up-to-date equipment will enable our postal employees to work under the best of conditions, the Postmaster commented.

"The new facility," he added, "will be a link with a postal system that today has over 44,000 postal installations. This system serves more than 200 million Americans and handles nearly half of the world's mail. Our nearly 740,000 postal employees are handling over 82 billion pieces of mail a year, including a billion parcels," the Postmaster added.

The new Avon Park Post Office will be dedicated Saturday

The Avon Park Post Office was first established in 1888. The Postmaster gave some facts on the history of the local postal service of particular interest todays as this community plans to add to its postal facilities, as follows:

Number of employees today 24, compared with 12 ten years ago.

Names of former local postmasters and the date they held office—William King, May 22, 1888; Arthur W. Dickson, Oct. 3, 1889; Edward W. Dawson, Nov. 13, 1890; Dorr D. Kinney, July 29, 1891; Benjamin F. West, Sept. 10, 1896.

Also Stephen E. Roberts, Aug. 20, 1900; Gabrel Skipper, Aug. 22, 1903; Marion W. Sargent, Nov. 14, 1904; May J. Dilley, Aug. 19, 1909; Fannie P. Skipper, Oct. 31, 1910.

Citizens Are Responding On Desegregation Problem

Citizens are responding on the public school desegregation problem — mostly with questions — Superintendent of Schools, George F. Douglass said today.

Highlands County school officials had invited comment and suggestions as they formulate a new desegregation plan for the county schools, and in the past week many calls have come into the school office, Douglass said.

Organizations and individuals have talked with the county administrators, but concrete proposals are scarce, he said.

Douglass has met with the schools' Lay Advisory Boards in Lake Placid and Avon Park and with leaders in some civic groups. He reports that confusion has arisen on at least two points.

The point he makes again and again...he says, is that the new plan is for the 1970-71 year. No changes in assignments for students or for teachers will be made this year.

"We are working toward a plan that can place us in compliance with the federal civil rights law by September and avoid disruptions in the middle of next year," Douglass says.

The other point is more complicated: Florida schools are presently at different stages in civil rights proceedings. Some counties, such as Dade, are under court orders from the lowest level of federal courts. Other counties, such as Bay and Alachua, are under orders from a higher court — the appeals level.

Highlands County is engaged in administrative proceedings before the Department of Health, Education and Welfare. It has not been charged in federal court.

School Attorney Frank Bryant has advised the Highlands board to work on a new desegregation plan and attempt to get a hearing on it before HEW.

Douglass said Tuesday, "Many persons have expressed interest. No one has raised an objection to integration of the schools, but how to implement it is the question. We are seeking a plan which can be emotionally and economically sound. And I must keep repeating, it is a plan for next year."

School Men See No Change In Funds

School officials do not foresee any change in federal funding for Highlands County schools as a result of the Presidential veto of the $19.7 billion appropriation for education, health and labor programs.

The President had asked for appropriations of $18.6 billion, and vetoed the more generous bill as inflationary. The principal points of controversy are educational programs not in operation in Highlands County.

Superintendent George F. Douglass pointed out that President Nixon had recommended cutting funds for "federally impacted areas" from a half-billion to $190 million. This is money the federal government sends into communities which have a large influx of children because of federal installations such as an army base.

Highlands County receives no such funds.

"If Congress overrides the veto Highlands County will receive very little new money," Douglass said Tuesday, and if the veto stands a compromise must be worked out. Most educators believe the compromise will look very much like the present level of federal help for education," the Highlands County Superintendent said.

Community Booth Wins First Place

The Avon Park Chamber of Commerce has extended its thanks to the committee which prepared the winning exhibit in community booth competition at the recent Highlands County Fair in Sebring. First prize winner for the third consecutive year, the Avon Park display is prepared for the Chamber by Mrs. Alma Hooper, Executive Secretary of the Chamber, and her husband Larry; J. E. Johnson, Manager of Kerns Furniture and his wife Anne, a former employee of the Chamber; Claude Cole of Cole's Nursery; R. B. Enoch and Royce Henry, an employee of the Avon Park Correctional Institute.

Each year the exhibit features one industry from the community, ornamentals, and a colorful citrus display. Over 100 varieties of citrus were exhibited.

Featured industry was Revell Crate Company, one of Avon Park's largest manufacturers. Daily production at the Avon Park facility is 30,000 wirebound crates, sold wholesale for shipping citrus, produce and fish. A recent addition of 9,000 square feet will increase manufacturing operations and the number of employees in the near future. Plant manager is Edward Jackson, an employee for the past ten years.

A colorful display of ornamentals from Cole's Nursery helped in carrying out the theme of the exhibit. Established in 1961, the nursery specializes in landscaping, shallow wells and garden supplies. Mr. Cole has offered valuable assistance to the committee for the past three years.

The Chamber wishes to extend thanks, also, to all those who helped man the exhibit during the week-long run of the fair; and also for all donations of items used in the exhibit. Without the cooperation of so many individuals, such prize winning displays would never be possible.

Avon Park City Council Votes To Oppose United Phone Company's Request For Rate Increase

Meeting of Avon Park City Council, Monday, January 26.

Two pickup trucks are needed by the city. City clerk and street foreman had checked around town and could not find any priced less than the $500 for which bids are required. Further check to be made.

A report was given that the Department of Transportation had made a survey of the rail crossings at Main Street and a complete revamping of the signals there had been recommended. It would take some time to work out the details with the railroad.

A hearing on telephone rates will be held Thursday, February 5th at Tropical Bank and Trust Company. A discussion was also held of the proposed toll free service between Avon Park and Sebring which would increase base telephone rates. Motion to authorize the City Clerk to oppose making temporary telephonee rate increase permanent at the hearing February 5th, also to oppose free telephone toll service between Avon Park and Sebring.

Parking of vacant trailers and mowing of vacant lots was discussed. Copies of ordinances from other cities were presented by the City Clerk. These were referred to the city attorney for study.

A report was given that surveyor Roger Miller had met with the city clerk, street foreman and building inspector in regards to a certain street right-of-way South of the crate mill and that there was no right-of-way shown on any map or plat at this point. Mr. Smith, whose property is located in this area, was present and participated in the discussion.

A report was given on meeting held by City Clerk, Building Inspector, Housing Director Cecil Skipper and Architect James Heim with Mr. Hardage and Mr. Ridenour from H.U.D. office in Atlanta. They are to forward a letter to the city listing areas where city needs work to qualify for recertification of its workable program.

Building Inspector Spurlock presented three matters. The first was a recommendation from the Zoning Board to approve application of Robert Neely to move a house from Sebring to Fogle Avenue with owner to add to the house to bring it up to 800 square feet and to meet all city standards according to code. Building plans have been filed with the Building Inspector.

Zoning Board recommended that the city request County Zoning and Planning Commission to consider area south-west of Avon Park as residential area, presently proposed as agricultural area. Mayor Barben explained that any change in zoning after adoption would have to have public hearings.

Council approved attendance of Building Inspector at Short Course February 22 through 25 and to pay expenses, approximately $100.

Spurlock reported that Sam McKenzie had moved a former restaurant and service station in two parts from C-1 area on U.S. 27. One section was moved back several hundred feet from highway and other section was moved approximately three blocks away into an R-2 area. No moving permits were secured.

McKenzie said he gave the building to Rev. Holmes for use as a church for the cost of moving of $2,000.00. He reported another mover had asked $2,800 to move the building. His understanding was that a church did not need a permit. Rev. Holmes said he did not want the building and could not use it if it did not meet city standards. Mr. Spurlock said he had closely inspected the building and it would not meet city requirements. He said it might be brought up to standard but such work would be costly.

Mayor Barben said McKenzie would be in violation twice, once on each piece of the building
