Final Game To Be Played Here Tonight

The Avon Park Red Devils picked up a couple of wins on the baseball field last week taking Okaloosa 4-1 last Friday night and Arcadia 10-0 last Saturday afternoon after losing a close one to Frostproof Tuesday night a week ago here at Head Field. The Bulldogs made it two straight over Avon Park with a 2-1 victory. The Red Devils are now 9-5 before traveling to Sebring last Tuesday night for an encounter with the Blue Streaks who had an earlier win over Avon Park.

The final game of the regular season will be played here at Head Field tonight (Thursday) against Wauchula—a team which also handed Avon Park one of its five losses. Then next week, starting April 15, the Red Devils will compete in the Class B District 6 tournament which will be held at a site to be determined later. Competing in the tournament will be teams from Frostproof, Ft. Meade, Turkey Creek, Mulberry, Zephyrhills, Admiral Farragut of St. Petersburg, and Santa Fe of Lakeland.

Avon Park moved out to a one run lead against Frostproof in the second game of the series here at Head Field Tuesday, March 30, but the Bulldogs scored two runs in the fifth frame on three singles to take the lead and hold on for the 2-1 win. Avon Park scored its lone run when Howard Sizemore drew a walk, moved to second on Don Sizemore's bunt hit, and then on a fielder's choice grounded by Clark Jackson.

Jackson took the mound loss for Avon Park. And just 50 years ago this month, partly due to the lack of roads and communication, DeSoto County was split into five smaller counties.

Thus Highlands County was born along with Hardee, DeSoto, Charlotte and Glades. Promptly at 1 P.M. Wednesday, April 20, celebrating the birth of Highlands County, the Highlands County Historical Society has a day-long golden jubilee planned for April 24. Headquarters of the celebration will be the Highlands County fairgrounds.

There will be a program at the fairgrounds starting at 3 P.M. and former Cong. J. Harlan Peterson will be the speaker. This will be followed by a dinner and fireworks.

Congressman Peterson lobbied for the county at the Florida Legislature when the county was divided.

P. G. Gearing will be master of ceremonies for the program. Rev. Herbert D. Graetz, former pastor of Union Congregational Church, Avon Park, will give the invocation. The American Legion, Lake Placid, post will raise the flag.

Mrs. Raab Skipper, president of the historical society will give the welcoming address. She is general chairman of the event. Mrs. Robert Twitty, whose father, E. J. Elberde was the first state representative from Highlands County, will make keynote remarks.

The Staff and Book Club will present a historical pageant. The dinner will be served in a building at the fairgrounds, Mrs. Tom Mitchell in charge. Fireworks will be put on by Edward Kollide.

The public is invited to the event, expected to draw a crowd of several thousand persons. DeSoto County at the time of the division had a population of 25,494. Today Highlands County's population is 29,567. The old

Just 100 years before Florida became a county, Florida became a territory of the United States with two counties, DeSoto and St. Johns. All the territory South of the Georgia line to the Florida Keys was

included in St. Johns County. In the span of 150 years, the present area of Highlands County has been in five different counties: St. Johns, Hillsboro, Manatee, DeSoto.

A booklet is being published containing the story of Highlands County detailing the program for the celebration and other pertinent items.

Highlands County Planning and Zoning Dept. will have seven requests for zoning changes to consider at its April 13 meeting.

Zoning Director John S. Short, changes have been requested for East Grove Community by M. E. Stephens, III, Nancy Beth Stephens, and Margaret Elizabeth Stephens. The county planning and zoning commission will review these requests before passing them on to the county commission for final action.

Showing their concern for the education of other young people, the students of Avon Park High School have raised one thousand dollars to provide for a school in South America.

Working with the Peace Corps' School Partnership Program for the last year and a half, the students have raised the money by sponsoring dances, selling "booster" badges, and selling school pictures. Since Wednesday, \$1,000 dollars was requested to complete the school, the Peace Corps' Partnership Program allocated the additional funds needed.

The students' contribution has been assigned to the Limon-Indanza project in Ecuador. The town in which the school will be built is called Rosario DeYunganza. Rosario is located in the southern jungle of Ecuador. The town proper has about twenty families living in it. The present school house is a twenty year old wooden structure with one large room. In this setting, the town's one teacher is expected to teach forty-five students ranging from grades one through six. The old school is reported to be in very poor condition, and as the building is made of wood, it can not withstand the year round torrential rains which are common to this area of Ecuador.

Henry D. Beeler, the Peace Corps volunteer assigned to Rosario, writes: "The enthusiasm which the town fathers have demonstrated for this project is overwhelming. They are truly excited about the idea of furnishing a new school house for their children. Although they have limited resources and are inexperienced in organizing themselves, they have already formed a committee to head the school construction and have completed the ex-

Easter Sunrise Services To Be Held At Donaldson Park

The annual Community Easter Sunrise service sponsored by the Avon Park Ministerial Association will be held Easter morning at 6 A.M. at Donaldson Park.

The service will be planned and conducted by the Rev. Duane Zoller, and the Rev. Paul Tressel. The Brass Sextette will lead in the singing and play an anthem.

The public is cordially invited.

In the Christian world, Easter Sunday commemorates the Resurrection of Christ. Easter customs, as we practice them in the United States today, are a singular tribute to the spirit of Easter and to the quiet festiveness of a Spring morning when one can almost feel, for a few hours, the prevailing sense of joy and renewal and consideration of our fellowman that 2,000 years ago released humanity from the bondage of sin.

Many capture the spirit of Easter by going to church. The simple Easter egg hunt and the tradition of the Easter basket lend joy and color to the season. All of the ways in which Easter is observed hold a certain humanity—as they should.

Easter is a day of civilizing influence. It is merely one day out of 365, but is a day which expresses the way we should live throughout the year—in humble respect for the unseen power that guides our lives.

Telegrams Sent To President About Calley

Just got Americans pushed into a corner, and they are out fighting. This was proved this past week, with the Calley situation.

The response we received from our article and section to be filled in about Calley's Verdict, was wonderful.

We started receiving mail Wednesday, as soon as our Shopper hit the streets, and started receiving more when our "Avon Park Sun" hit the streets. There has been a steady stream of new patrons people coming into our office to bring the forms, to be sent to National Legion Headquarters in Washington, D.C., to be presented to President Nixon.

County Commissioners

LEWIS LLEWELLYN

If Christ Had Not Risen

Have you ever pondered what life would be like today if the man who died on the middle cross, on the hill called Calvary, had stayed dead?

Nineteen centuries have come and gone since that time. Empires have risen and fallen. Wars have been won and lost. Civilizations have flourished and decayed.

But that one event has had an irrevocable, permanent, and pervasive effect on history. It was one of the most momentous events of all time.

Without the resurrection, Christianity could not have survived. It would have taken its place among the dead religions of a bygone era.

Without the resurrection, there would have been no Gospel. Gospel means "good news." It was one of the most momentous events of all time.

But because of the resurrection, coupled with the promise of everlasting life for all who follow Christ, early Christians faced martyrdom without flinching.

Great Changes

Christians found Greeks worshipping Zeus, and Aphrodite, and a host of other gods and goddesses.

They found Romans offering sacrifices to Jupiter, Juno, Mars, and a multitude of pagan deities.

They found Africans steeped in savagery and witchcraft—even cannibalism.

They told them of a new way of life. They told them of the love of God. They told them that Christ had conquered death.

Christ's teachings have won the hearts of millions of men and women over the world.

Most men are indifferent to outer space—they just want a little inner space in a parking lot.

Suit Filed Against Cone Brothers

Improper routing of traffic on US 27 is blamed for an accident which has given birth to a damage suit against Cone Brothers contractors.

In a suit filed in circuit court last week, Earle R. Albers charges that Cone Brothers workmen had placed traffic routing devices so that an auto driven by Jasper Martins had been allowed to enter supposedly closed lanes of US 27 North of Lake Placid.

A truck driven by Albers and the Martins auto were involved in a collision 3 miles South of Lake Placid. The suit does not name any specific amount of money for damages to the Albers truck and injuries to the driver.

Two Other Suits

Two other vehicle accident suits were filed last week. Gerald W. Knittel asks damages in excess of \$5,000. He claims that a vehicle driven by Maria Ericson of Highlands County collided with a vehicle Knittel was driving and one he was towing. State Automobile Insurance Company is a co-defendant.

Higdon Furniture Co. of Quincy and Howard Carling Clark of Greenhollow, Fla., are co-defendants in a suit filed by John Edward Wilson of Highlands County.

Wilson is asking damages in excess of \$500. A tractor driven by Wilson was involved in a collision with the furniture truck driven by Clark, on US 27 two miles South of State Road 66.

Inn With Franklin's

By C. F. MORELEY

Mr. Blanford informs us that night fishing with him has been slow this week, however, he will let us know when results get better.

Harry R. Doublerly heading for his cabin on the river—next week he will report on action from that area.

Mr. Earl Cottrell dropped by and he is a most likeable person.

Miss Kay Willis and William Dayton, engaged couple who will be married later part of July—Miss Willis from Miami, Mr. Dayton local man, employed by Johns Concrete—seem to be really enjoying their sandwiches and making plans to do a lot of fishing together in the years to come.

Ann Creps who makes the greatest in sandwiches and also in charge of the kitchen is a most friendly person—drop by and enjoy conversation with her.

Cliff Blachly who just loves his golf and plays every Saturday afternoon lives out on Lake Viola and also has a very nice garden.

Mary Blachly, Cliff's wife, happens to be a person with a heart in her like few people I know, she is always doing things for her neighbors—just simply stays busy all the time.

The Blachlys' grandson came in at noon and had to leave 5 P.M. same day for Portage, Ind., however, he did get to at least visit Avon Park.

John and Elma Carr both like their game of golf, also he is a person who can do most everything—a jack of all trades. They are a grand couple to know and be around.

Mr. Fox Ellis local painting contractor gave the bass a fit on a recent trip to Okeechobee Lake—If you don't believe me, just ask him.

Fox tells me to bury some old tin cans around an avocado tree—means to make them bear better and hold fruit as they need lots of iron—remember Fox said it, I didn't.

Richard Birt held a one man road Tuesday with his cattle over in Hardee County. Seems his wife PAID HELP (meaning friends Mott and Ray working for fun) enjoyed all the laughs Richard was providing.

John Putnam who lives between Avon Park and Sebring (fishing is great there and live on Lake Bonnet advises us live bait is getting the best results.

Recently the Reader's Digest published a quotation from Maurice F. Mackey, Jr., which first appeared in Time. This was what Mr. Mackey said: "We shall never find God in this life, that is what makes life tragic. But to stop searching for God, that makes life meaningless."

If it were true that "we shall never find God in this life," life would, indeed, be tragic. And it might be true if there had been no resurrection on that Easter Sunday, 19 centuries ago.

But it is not true. The message of the Gospel is that men can find God in this life—that the resurrected Christ has opened the way for us to have life in a new dimension.

Have you taken your place before the risen Christ? The Bible says, "If Christ be not raised, your faith is vain; ye are yet in your sins. . . . But thanks be to God, who gives us the victory through our Lord Jesus Christ."

Today's Terrible Thought: What if you were born old, and had to live your life backwards, and had to look forward to being a green, silly teenager again?

Jeffery Stokely really gives us a plug when it comes to hamburgers—think his expert opinion means to come on in and see what you are missing.

Josh Gaster and Joe McAfie whose expert fishing pros—haven't told us where they are catching all those small bass.

Milton Stokely and Major E. A. Flint who have a hobby of fixing exotic dishes haven't come around with any free samples—come on fellows—how about a small taste?

Johnny Stickleather sure talks about wanting to meet Helen—Come now John, tell us more—alike we do is print secrets.

Mr. Pete Vinson has sure been giving Pete Vinson plenty of tender loving care—seems Pete has back trouble and fish—but believe me, you can bet they are.

Boy! after talking a very few words of "Baptist" to a "Salem" Joe Mazac—you can almost see a Ford in your future—keep up the good work, any one day!

"Big M" came by and spent 30c—there goes his whole week's allowance, however, he isn't known for spending 30c at any one time, any one place, any one day!

Electric Bed Donated To Hospital

Highlands General Hospital this week received the gift of a \$714.00 check covering the cost of a Hill-Rom electric hospital bed and bedside cabinet. The bed is perhaps the most advanced for patient comfort of any on the market today.

The check came from Union 323, International Brotherhood of Pulp, Sulphite and Paper Mill Workers, representing employees of the St. Regis Paper Co. of Lake Placid.

Highlands General Hospital now has the Tree of Life, a hospital donations plan providing permanent recognition to donors. Any gifts of \$100 or more will place the donor's name on any name they designate on the Tree of Life.

Certain equipment at the hospital also displays a plaque with the donor's name. Persons interested in contributing to the hospital can contact the administrator or the memorials and designations funds committee headed by F. Elgin Bayless.

Solveig Gerrard Honored On 70th Birthday

Mrs. Solveig Gerrard was honored on her 70th birthday March 30 with an open house. Her only wish was to see as many of her friends and the children she had cared for and loved through her 43 years in Avon Park.

One hundred sixty five friends called making the day a special day for her, with the well wishers ranging from four months to two in their nineties.

Each one that called was asked to bring a family picture for Solveig's friendship album which she plans to take to Kentucky as proof that there are no people anywhere like those in Avon Park.

The welcome class of the Methodist Church brought a money tree trimmed with Easter eggs and twenty five one dollar bills.

The tree blossomed so fast that everyone wanted to slip a root of it. Love proved marvelous fertilizer.

One highlight, was a cake made in the shape of a book with "God is Love" on one page and "A true friend loveth always," on the other.

The refreshment table was covered with a lace cloth with arrangements of spring and garden flowers. Fruit punch was served from a crystal punch bowl and small decorated cakes, cookies, Easter cup cakes, mints and nuts were served through out the day and evening by friends assisting: Olga Bridges, Lillian Bridges, Celia Hall, Pauline Smith, Bert Hall, Marion Dick, Jill Stone, Linda Bennett, Sabrina Crowe and Pearl Ford.

Educator Says Student Needs Have Changed

The role of the secondary boarding school has changed drastically in the past decade, Raymond H. Stokes, president of The Highlands School, declared in his welcoming address to the Board of Trustees which met in its quarterly session last Saturday, Mar. 27, in the library of the school.

"In the past, parents sent their daughters to boarding school simply for an education," President Stokes said. "The education they got was orthodox and inflexible and not geared to sound academic program, of course, but at the same time it must be an institution in which a girl can find herself."

President Stokes added that every effort to help the average student succeed and the superior student excel.

"Our school is not a rehabilitation center; we do not deal with emotional problems," he said. "On the contrary, we accept girls who reveal potential for mental, moral and social growth."

The Red Devil track team brought home a second place trophy from the Lake Placid Invitational Meet held at the high school track in that city last Thursday afternoon and evening as they racked up 61 points in the 11-team contest to finish behind Frostproof who scored 102½ points.

This week the Devils maintained Wauchula here at the high school track in a duel meet on Wednesday afternoon. Next week, April 15, the Red Devil thin-clads will also be the host team for a five-team meet including Sebring, Lake Placid, Wauchula and Frostproof. The meet will start around 3:30 P.M.

Highlands Not In Farm Bureau Cut

Officials of the Florida Farm Bureau Federation say President Nixon's "special" revenue sharing proposal could mean the loss of county agricultural extension agents in 19 Florida counties if it is adopted.

Highlands County is not one of them. John C. Lynn, executive vice president of the FFBF said that the counties of Bay,

Escambia, Leon, Alachua, Duval, Volusia, Seminole, Orange, Pasco, Pinellas, Hillsborough, Polk, Brevard, Manatee, Sarasota, Lee, Palm Beach, Broward and Dade could be adversely affected.

These counties since they have metropolitan areas within their borders do not qualify under the federal definition of a rural area.

Social Security Questions And Answers

By JACK CARTER

Social Security Representative
Question—How long must I wait before I start receiving benefits? I became disabled June 15 and filed an application with my social security office on July 20, but have heard nothing so far.

Answer—The disability law provides a full six calendar months waiting period with no benefits payable for that time. Your waiting period would be July through December, and if your claim is approved your first check would be for the month of January and reach you in February. No benefits are payable for the six months' waiting period.

Question—Where can I get a social security medical report form to take to my doctor? He says I will not be able to work for at least 18 months.

Answer—When you file a disability application with the social security office the proper medical forms will be given to you.

Question—I have not kept a record of my earnings during the years I have worked under social security. How will my benefit under social security be figured when I retire?

Answer—The Social Security Administration maintains these records for each worker. If your employer has reported your number and wages correctly,

Workshop Aims at Eliminating Racial Tension In Schools

A workshop aimed at helping eliminate inter-racial tension spots before they become problems was attended by 60 Highlands County teachers.

Dr. John Strickler and Robert H. Simms, both from the Florida School Desegregation Center at University of Miami, were coordinators for the study. Samuel Nixon, Jr., middle school coordinator for Highlands County schools, worked with a county committee of teachers and students which suggested tension spots to be discussed. From this list the consultants chose two questions for workshop study.

Nixon said the two tension areas spotlighted in the workshop were how teachers can develop a "classroom climate" which helps students learn and how teachers can assess, for themselves, how they "come across" to the students.

Nixon said the planning committee had raised questions about teacher mannerisms and ways of talking to students which help create or eliminate tension in the school.

Other workshops are planned for later in the year and hopefully, Nixon said, will include each Highlands County teacher sometime before the school year ends.

For All Eternity

*For since Thy blood was shed for me,
Thy love poured out at Calvary,
My soul from sin and bondage free,
My Christ, for all eternity.*

*For since Thy grace supplied my need,
My mind upon Thy word to feed,
My inmost being calls to Thee,
My Lord, for all eternity.*

*For since by faith I trusted Thee,
In weakness Thou hast strengthened me;
In sickness Thou hast healed me;
My Jesus, for all eternity.*

*Could I but bring one soul to Thee,
From life of sin to make him free,
I'll sing Thy praise and worship Thee,
My God, for all eternity.*

*The Emmaus road to walk with Thee,
O Lord, let me, one mile or three,
My richest fellowship to be,
With Christ, for all eternity!*

Death Is Not The End

I want to die. Have you ever wanted to die? I don't mean "Have you ever considered suicide?"—or "Have you ever been captivated by a 'death wish'?" Those desires are simply wanting not to be alive. They are negative.

We are talking about a positive. It is not the process of dying. I am looking forward to it. It is being dead that I want to enjoy.

If you understood what death is, you might want to be dead, too. Again I say, it is not that you would dislike being alive, just that you would prefer being dead.

Sounds eerie? Then you are misunderstanding.

We Talk About Death

What is death?

This question has been asked so many times it seems stupid to ask it again. But that's the way it is with questions people have never found satisfactory answers to. No matter how personally important the answer to that question might be, people call the question silly, because they don't have an answer to it.

Questions like that aren't ignorant; the ignorance is in us. And such ignorance is silly, because there are some answers available.

We talk a lot about death. We say "dead tired," because dead bodies never move. We say "dead silence," and "deathly still," because dead bodies never speak. We say "dead as a doornail," because dead bodies have no warmth. We say "dead right," because the position of dead bodies is final and irrevocable. We say "dead stop," because dead bodies never move.

Death Is Not The End

I want to die. Have you ever wanted to die? I don't mean "Have you ever considered suicide?"—or "Have you ever been captivated by a 'death wish'?" Those desires are simply wanting not to be alive. They are negative.

We are talking about a positive. It is not the process of dying. I am looking forward to it. It is being dead that I want to enjoy.

If you understood what death is, you might want to be dead, too. Again I say, it is not that you would dislike being alive, just that you would prefer being dead.

Sounds eerie? Then you are misunderstanding.

THIS HOME IS PLANNED TO SAVE YOU MONEY

Maybe you've been thinking, "Sure, I'd like to build on my property, but at today's prices, how can I afford the home I really want?"

You are a person who is handy with tools... if you know how to drive a nail... if you have an ordinary, common-sense ability to work with your hands... Jim Walter will show you a money-saving plan that will allow you to afford the home you think you can't afford... how you can save many, many dollars simply by doing some of the inside finish work yourself. It doesn't matter how much. The more you can do, the more money you can save. Let Jim Walter do the hard part — finish the outside and as much of the inside as you say. Then you take over and finish the rest yourself. Even if you can only do a very little bit, the money you'll save will be worthwhile.

LOW IN COST - BUILT ON YOUR PROPERTY - OVER 20 MODELS

Not only will you save money by finishing some of the inside yourself, but you'll also save on the low, low purchase price and on upkeep because of the low-maintenance materials. Jim Walter built homes cost less, but this doesn't mean you get less. Garbage Rates Increased To \$2.00 By City Councilmen

The pickup of the city's garbage will now cost \$2.00 per month to all residential, trailers and apartments. The Avon Park City Council agreed to the increase due to the garbage department running in the red each month.

CITY CLERK, Malcolm Crews swears in Ferland Cribbs, as the new Chief of Police, while Grady Campbell, Assistant

much money and the department running in the red without some raise in the fees for garbage collection." Clarence King voted "no", with the argument that the city should cut back on its expenditures. King cited the building inspector's salary being too high and said "Don't make any raises until we clean house," referring also to clerical employees at city hall. King contends that the salary of the building inspector could be cut by hiring a retired person who would work for \$150 per month. Mayor Barber and other councilmen defended the office that Spullock now holds and spoke of the work that has been accomplished in the city since a full time inspector has been in office. The new rates will be in effect when the ordinance is passed. City Attorney Jack Hancock will write the ordinance, it will be presented and read three times at the council meetings before it is adopted.

City Council Appoints New Police Chief Monday Night

The Avon Park City Council approved the recommendation of Mayor Barber that Ferland Cribbs, be made Chief of Police. Cribbs, who lives at 1003 West State Road 17A with his wife Carol and two children Timothy, 8 and Kenneth, 7, came to Avon Park in 1940, attended school here and was a graduate of Avon Park High School. He served in the Navy for four years as a supply officer and with the Naval law enforcement. Following his service Cribbs was a trooper with the Highway Patrol at Bradenton. Since his return to Avon Park he has been employed with the DeSota Ranch and Groves as manager for the past two years.

Cribbs will fill the vacancy that was created by the suspension of former Chief of Police Earl T. Gordon, when Mayor Barber suspended Gordon on March 15, following the shooting incident in Haines City. The suspension was later made permanent by a vote of the city council.

Cribbs, who will assume his duties as chief immediately, was sworn in on Tuesday morning by City Clerk, Malcolm Crews at City Hall. "We wish to thank the Mayor, Council, and friends that backed and supported him for the office of Chief of Police," Cribbs said. "With the support of the Council, the residents of Avon Park pledge his full support in fair and efficient law enforcement."

With this appointment, Cribbs will fill out the remainder of the term which was to expire on October 1, but was extended to January 1. Terms of public office will be extended when the legislature passes the bill before the date of City elections. If passed this would extend all office terms until January 1.

Rev. Bruce Mosher Is New Minister at Congregational Church

Rev. Bruce William Mosher takes over the pastoral duties at the Union Congregational Church this weekend. He will conduct the services and preach the sermon at the 11 o'clock service of worship this Sunday morning. Mr. Mosher comes to the Congregational Church from Fort Lauderdale where he was Associate Pastor of the First Congregational Church, in which he has made an excellent record in all fields of pastoral activity. He received a BA degree from Brown University and a BD from Union Theological Seminary. He has specialized training in Ghana, West Africa, where he spent two and one half years under the supervision of the United Church Board of World Ministries. He holds a certificate of Christian Education.

He comes well prepared for his new pastorate. The members of the local church gave him a unanimous call. His ministry in Avon Park begins with great promise for the future. He and Mrs. Ruth Ann Mosher were married in 1959. They have three children—a son, age two and two daughters, ages five and nine. All members and friends of the church are urged to be present at the morning worship service this Sunday to greet their new minister.

REV. BRUCE W. MOSHER

At the Avon Park Council meeting on Monday night, bids for 100 acres of pasture land were opened and Wilbur Gene Selph, received the bid for \$710 per acre. The full amount for the year would amount to \$710 to be paid in advance and liability insurance required.

A discussion was held on the site for the proposed 22 building and a motion was made recommending the County to purchase three lots in back of City Hall. The site on East Main Street proved to be too costly for the county to purchase.

Attention was called to the many courses that are offered by Florida Junior College and the possibility of some of the city employees taking advantage.

LEWIS LLEWELLYN

Neglect of Bible Is Perilous

"We are a Biblically illiterate nation," American Bible Society General Secretary L. L. Llewellyn said.

A Gallup poll conducted in 1964 revealed that 60 per cent of Americans did not know what the Bible's Trinity meant, 66 per cent couldn't say who delivered the sermon on the Mount, and 79 per cent were unable to name a single Old Testament prophet.

If a similar survey were taken now, the results might be even more discouraging.

When Thayer S. Warshaw, a high school teacher in Newton, Mass., asked his 11th grade students to identify the source of such sayings as "the patience of Job" and "doubting Thomas," 90 per cent of the students were unable to give him the answers.

"Bible in a Bad Way"

Some church leaders feel that the Bible is not always exactly in tune with their thinking.

Dr. James D. Smart, professor of Biblical Interpretation at Union Theological Seminary in New York City, expressed his opinion in this way: "The Bible is in a very bad way in the church."

There has been an increasing frustration of preachers with the Scriptures as a basis for sermons.

Lawrence Weik stated, some time ago, "I think we began to get into serious trouble when we took God out of our schools and out of our hearts. We need to reintroduce basic moral values into our lives. We need

to affirm again these American virtues of hope and courage and faith. . . . Somehow I feel that the present travesty of America is that it has long left the truths of the scriptural faith on which many of its founders stood, and to which a majority of the people at least give assent."

"Refresh Our Spirits"

In a message on the occasion of National Bible Week, Nov. 29, last year, President Nixon urged every American to join him in seeking to "refresh our spirits and fortify our resolves by reading the Holy Scriptures."

The apostle Paul, writing to his young friend Timothy, said, "Continue thou in the things which thou hast learned."

From a child thou hast known the Holy Scriptures, which are able to make thee wise unto salvation."

The Bible is God's message to man, given to us to enable us to know the way to happiness and true prosperity—both material and spiritual. It has always sustained its friends and triumphed over its foes.

Throughout the years, many mighty men have exerted their utmost efforts to destroy the Bible—by burning it, by burning it, by killing those who published or proclaimed it. The detractors of the Bible perish, but it remains.

If we neglect the Bible, it will survive. But will we?

New Attendance Zones Drawn By Board

Highlands County School Board has re-drawn school attendance zones in line with new facilities expected to be completed during the Summer vacation.

The new zones, which go into operation at the opening of the 1971-72 year, provide for abandoning use of Deloia City and E. O. Douglas schools in the Sebring area.

Hopewell will be retained as a operating unit of Avon Elementary School.

Board Member Ted Cassin protested the continued use of Hopewell but voted to retain it when Avon Park Board Member G. Franklin Ward said, "Parents with children now at Hopewell say this has been the

best school they've had in years. Avon Elementary is very crowded and at Hopewell the children are not crowded; the facilities are good — so good we cannot walk away from them."

The Avon Park fourth graders will be assigned to the Hopewell campus. All students in grades 1 through three will go to the Winthrop Street campus of Avon Elementary.

Fifth through eight all go to the middle school at the present AVON campus, and grades nine through 12 go to the new high school.

Short statements are generally drawn from long experience.

ROTARY CLUB NEWS

Art Wilhite introduced Judge Mervin Rehner, who spoke on a timely subject: "Crime and the Criminal Procedure."

Judge Rehner outlined the duties of the County Judge and indicated that most of his duties are not pleasant. In addition to his regular judicial duties, the County Judge acts as the clerk of his court. He is chairman of the election board, acts as coroner, and is responsible for the sale of licenses.

Criminal Court duties take up most of Judge Rehner's time. He explained that there are two types of crimes, felonies and misdemeanors. When an individual is arrested on a felony charge, the County Judge explains the charge and sets a date for the preliminary hearing. If sufficient evidence is presented against the defendant, he is bound over to the Circuit Court.

When an individual is arrested or given a citation for a misdemeanor, the defendant comes before Judge Rehner for trial and sentencing. The penalty for a misdemeanor can be a fine, jail sentence or probation.

Jury trials are held every other month and Judge Rehner commended the citizens of Highlands County for their cooperation when called for jury duty.

In closing, the Judge gave four reasons for the increased crime rate:

- (1) Increased population.
- (2) Better police work results in many more criminals being apprehended.
- (3) Many technicalities that allow many criminals to remain free.
- (4) The suspension of capital punishment.

Albritton Pitches 20 Innings To Defeat Wauchula 2-1

The Avon Park Red Devil varsity closed out its regular season of play last Thursday night here at Head Field with a real marathon when they went 20 full innings against the Hardee High Wildcats at Wauchula before winning 2-1.

Devil senior righthander Danny Albritton pitched the entire game for Avon Park setting what is sure to be a record of some sort for high school baseball. The Devil hurler struck out 30 batters during the 20 inning affair and gave up only seven scattered singles to the Hardees. Danny was backed up with outstanding defensive play by his infield and outfield as the Devils committed only one error in the entire game.

Major General Henry W. McMillan, Adjutant General, Department of Military Affairs, State of Florida, reports, Command Sergeant Major Ollie P. Gentry, has been awarded the Distinguished Service Medal, State of Florida, for performance of exceptionally meritorious service to the Florida National Guard.

Wauchula scored first in the top of the first inning as the lead-off batter, second baseman Miles Albritton, singled, took second on a passed ball, moved to third on an infield out and then scored on a sacrifice fly to centerfield by shortstop Lamar Gilliard.

Avon Park tied the game up in the bottom of the fourth frame. With two men out, Keith Richards drew a walk and moved to third on Howard Sizemore's single. He then scored when the first batter threw the ball away trying to catch him going into third.

At the start of the seventh inning of regulation ball the game was all tied up 1-1. Avon Park threatened in the bottom of the tenth when Steve Hartt got to third with only one out but couldn't be thrown in. The Devil's threat ended in the last of the 12th. Keith Richards got to third with only one out but an attempted squeeze batted and the Hardee infield got a double play to retire the side.

Major General Henry W. McMillan, Adjutant General, Department of Military Affairs, State of Florida, reports, Command Sergeant Major Ollie P. Gentry, has been awarded the Distinguished Service Medal, State of Florida, for performance of exceptionally meritorious service to the Florida National Guard.

CSM Gentry, while serving as Administrative Support Technician for Battery C, 3rd Battalion, 116th Artillery, Avon Park, Florida, materially aided in securing a suitable site for construction of a new National Guard Armory for Avon Park. During 1967, CSM Gentry, through his close association and friendship with the Mayor, members of the City Commission and citizens of Avon Park, worked with these people in an attempt to expedite the securing of an armory site. His efforts resulted in a very fine, ten (10) acre site on US 27 being conveyed to the Armory Board, by the community. Again in 1970, when design of the new armory was commenced, CSM Gentry approached the Highlands County Commission and his efforts resulted in the County Commission adopting a resolution whereby they agreed to furnish material and labor for installing sewage and water lines, clearing of property and preparing a topographical survey, all at no expense to the Armory Board. The accomplishment of this work by the County involves a considerable monetary possible for the Armory Board to apply more funding toward construction of the facility.

CSM Gentry's distinguished service to the Armory Board is in the highest traditions of the military service and reflects great credit upon himself, the Florida National Guard and the State of Florida.

Red Devil Track Team Defeats Hardee High In Meet Wednesday

Coach Chet Brojek's Avon Park Red Devil track team really socked it to Hardee High in a dual track meet here at the high school track on Wednesday, Apr. 7 as they won by a score of 102 to 30. The Devils took first place in all events except the discus and the long jump.

This afternoon (Thursday) the Red Devils will host their last meet of the season as they compete with Sebring, Lake Placid, Wauchula, and Frostproof. Events will get underway around 3:30 P.M. and all track fans are urged to come out and support these boys who have had an excellent season so far. Next Thursday the Devil track team will go to Fort Meade for the Fort Meade Class B Invitational Meet.

Avon Park's captain Walter Nunnallee picked up 12 1/2 points with first places in both the high and low hurdles, third in the long jump and a first as a member of the mile relay team. Jimmy Magenheimer had 10 1/2 points with a first in the high jump, a second in the 160-yard low hurdles, a third in the 120-yard high hurdles, and a first as a member of the 880-yard relay team.

Joe Franza also had 10 1/2 points as he won first place in the 880-yard run, second place in the high jump, third place in the pole vault, and a first as a member of the mile relay team. Winkie Hall totaled 12 1/2 points with a time of 2:46 seconds, a tie for first in the pole vault, a second in the discus, and a first as a member of the 880-yard relay team.

Sam Dasher added 10 1/2 points with a first place in the 440-yard run with a time of 55 seconds, a second in the long jump, and first as a member of both the mile relay and the sprint-medley teams.

Arnold Davis took first place in the 100-yard dash.

All three Avon Park relay teams won first places. The 880-yard relay team of Jim Magenheimer, Freddy Jahn, Danny Lewis, and Winkie Hall had a time of 1:42.5. The sprint-medley relay team of Sam Dasher, Jimmy Magenheimer, Walter Nunnallee, and Joe Franza ran the race in 3:50.8. There was a strong wind that kept times from being as good as might have been expected.

In the top of the 16th inning, Wauchula threatened as they loaded the bases with only one man out. But Albritton struck out the next batter and the last man popped up to the second baseman to kill the threat.

The winning run was scored in the bottom of the 20th inning by Clark Jackson. Avon Park's first baseman Clark singled, just beating a grounder, and moved to second on an error on a ground ball hit by Greg Albritton. Clark took third on a passed ball. The Danny Albritton came home and tied to beat Clark up. He missed on the first, but then bunted foul on the second but on his third strike he pushed the ball out into the territory and Jackson beat the throw home by inches to win the game.

Social Security Questions And Answers

By JACK CARTER
Social Security Representative

Question—My son, age 20, who used to get social security, has worked for the last two years. He now wants to finish his schooling. Could he get social security again?

Answer—He certainly can. If he qualifies as a full time student and is not married, he can be paid until age 22, or he finishes school, whichever comes first. File another application, or have him do so himself, as soon as he knows definitely that he will return to school.

Question—I lost my Medicare card. How do I get a new one?

Answer—Very simple. Just phone the social security office, give your name, claim number, and mailing address. You will have a new card in about two weeks.

Question—I have heard of some people having to make several trips to the social security office before their checks started. I work and don't want to take too much time off. Is there any way to avoid too many trips?

Answer—A telephone call to the social security office may make a trip at all. We may be able to complete your claim by phone.

Question—I am receiving social security benefits and will be 65 in a few months. When can I sign up for Medicare?

Answer—About three months before you are 65 and we will mail a card asking if you want to enroll for the Supplemental Part of Medicare. All you need to do is mark the card, sign it, and return it in the envelope we will send you.

Question—I will be 62 soon and I would like to know how much my social security benefits will be to help me in deciding whether or not I can afford to retire. What should I do?

Answer—Call the social security office. Give them your name, social security number, and mailing address. In about two weeks, we will send you a letter telling you what your benefit will be at 62 and at 65.

Youths Attend Concert

Sixteen young people and chaperons from Avon Park recently attended an outstanding concert of "The Encounters" of Nashville, Tenn., on April 9 at the South Florida Heights Church of the Nazarenes in Lakeland. The group is composed of fourteen vocalists and a approximately eight instrumentalists from Trevecca Nazarene College of Nashville.

Precisely on a tour of the Southeast, they have sung to approximately 9,000 people in churches and various city-wide campaigns since they have been organized.

Their message is strictly Christian, and the purpose of the group is to lead young and older people alike to accept Christ as their own personal Savior.

All those attending from Avon Park considered it a most enjoyable evening. It was agreed it was an evening well spent.
