Girls Scouts Can Be Admitted To Exploring

After two years of research and field experience, the Exploring Division of The Boy Scouts of America will now admit teenage girls to full membership in Exploring, its high school age action program.

The announcement was made here by Don Brooks, District Scout Executive after word was received that approval had been given by the national Executive Board of the Boy Scouts of America and will be effective April 1, 1971.

Brooks said that the action taken nationally was in recognition of the chartered requirement to serve boys and young men, and it would enable Exploring to more effectively carry out its mandate to meet the needs and interests of today's youth.

Until January 1970, Exploring had been an all-male program. Acting on research studies and recommendations regarding education, religious and youth leaders, Exploring began a one-year trial of admitting young women to participate in the program. Participation was restricted to special-interest Exploring posts, voluntary around a career or vocational interest.

The national Executive Board's action now makes it possible for coeds to become full-fledged members and for adult volunteers to act in leadership capacities.

During the last year there have been 7 Exploring posts in this area with 2 having girls as participants. The posts specialize in such interests as: Astrology, Aviation, Conservation, Law Enforcement and Photography.

Membership in a post or Scout Exploring would be entirely at the discretion of the sponsoring organization, Brooks explained.

Age requirements for girls are the same as male members. Members may enroll upon reaching 15 years of age and may remain through their 20th year.

They reminisced about the years when they both lived in Wisconsin, then traveled to Houston and Galveston where they enjoyed the one of the Florida State Grange Students Fund. It sold for \$12.66 and was divided between Louise Clark and Mrs. Hardee Grange.

The program consisted of an Easter number; Our American Heritage; Highlands County History; Florida Forests; a tree contest; Flag number and Mystery of a Peanut. Thought for the day—"If money doesn't grow on trees, why do banks have branches?"

The next meeting will be held in the Class Room of the First United Methodist Church on Tuesday, April 27, at 8 P.M.

Little Leaguers Will Kick Off Season With Parade Thru Town

Avon Park will officially open the 1971 Little League Season Saturday, May 1, with a parade followed by four games at the Little League Field on the corner of Anoka Ave. and LeFranchise St. The parade time is 1:00 P.M. with the first of

the four games set for 2:00 P.M. The parade will form at Donaldson Park and proceed to the railroad, returning to Donaldson Park to disband. Units expected to be in the parade include Avon Park police Official

Car with Little League officials including Wayne Hickey, District Administrator, and Darrah Martin, president of the Avon Park Little League Association. City officials, junior high school bands, and all teams with coaches and managers.

The Minor League season concluded last week and a player draft was held to fill vacancies on the eight teams on April 29. All teams are now comprised with twelve boys on each team and have been practicing daily

The schedule for the Saturday opening games are as follows: 2 P.M. I. H. Ford vs. Bagwell; 4 P.M. Rotary vs. First Baptist; 6 P.M. Lewis vs. Lions; and at 8 P.M. Kiwanis vs. Avon Citrus Bank. There will be two games a night starting next Monday night on each week night except Wednesday with the first game set for 6:00 P.M. and the second game to follow.

Some questions have arisen as to the method of selection of players for Little League teams to fill vacancies on the teams caused by boys becoming too old to play or moving away. All vacancies are filled by looking on the boys by coaches of the Little League teams. Boys who have played Minor League are eligible if they are under the age of 16 before August 1 of the current year and not over 12 years of age as of that date. In choosing new players, coaches must consider age of player, ability of player, needs of his particular team and other considerations. Each team has 10-16 points assigned for bid purposes each year plus any carryover points from previous years. A brother of a player who has played in the past is eligible to be chosen as one of the coaches may be bid in at a minimum of 500 points higher depending on the desires of various coaches. Highest bidder is awarded the player. If a member of one of the teams is removed from the roster for any reason during the season, he may be replaced with a boy who's name is on the Minor League roster.

SFJC Graduation Set For Tuesday, May 4

Graduation exercises for 36 Associate in Arts candidates and three Associate in Science candidates will be held at the South Florida Junior College amphitheatre Tuesday, May 4, at 7:00 P.M. The commencement exercises will be highlighted by the South Florida Junior College Chorus singing the Battle Hymn of the Republic, conducted by Professor Buford G. Jasper, and conferring of degrees by President William A. Stallard. Joseph C. Smith, President of the Student Government Association, A.M. If it is impossible to register their child with names beginning with letters "A" through "L" inclusive please come at 9:00 A.M. and pupils with names beginning with letters "M" through "Z" at 10:30 A.M. If it is impossible to register your child that morning it is permissible to come in the afternoon.

IS THE FALLING water level in Lake Glenda an omen of what may happen to South Florida Junior College and other junior colleges in Florida if the junior college budget cut by the State Legislature in Tallahassee is finalized and passed? Dr. William Stallard, President and Pat Chambliss, Business Manager of SFJC, pause beside the

student pier and contemplate what budget changes may be necessary next year if the 22 percent budget cut for junior colleges is passed. Since SFJC is the smallest junior college in Florida, it would be one of the hardest hit by the proposed budget cut.—Photo by Lew Miller. See Story Page 2

Scholarship Recognition Banquet Is Saturday Nite

A nurse whose career has emphasized humanitarian service will be the principal speaker for the sixth annual Scholarship Recognition, Inc. banquet Saturday night.

Miss Yvonne Long, formerly of Hardee County, will speak at the dinner honoring the top scholars in Sebring, Avon Park and Lake Placid high schools graduating classes. The program is scheduled for 7 P.M.

Saturday at Holiday Motel Cafeteria. Jack Hancock, current chairman of Scholarship Recognition, Inc., will be master of ceremonies, and Mrs. Hancock will introduce the speaker, Brandon Jones, Jr., will give the invocation.

Miss Long is a native of Ona in Hardee County. She grew up on a farm and graduated from Hardee High School. She received her medical education at Gordon Keller School of Nursing at Tampa General Hospital. After working for a Tampa surgeon for a time, she entered Southwestern Baptist Theological Seminary at Fort Worth, Texas, where she earned a degree in religious education.

Construction On Guard Armory To Start Soon

The new National Guard site is being cleared and it is hoped that construction will start on August 1. Attending and inspecting the clearing were Sgt. Ben Hetson, Malcolm Crews, Jack Duggan, Clarence King, Buddy McKenzie, Cecil Skipper, Chairman of the County Commissioners Board, Malcolm Crews, Jack Duggan.

Federal funds to build the new armory had been earmarked for several years, but it wasn't until June of 1970 that the Florida Legislature overrode the former Governor Kirk's veto of the state appropriation bill and contributing \$80,000 to the 600 proposed cost of the building.

The new structure will be built on a 10 acre site, three miles south of Avon Park on the west side of US 27. The site was donated to the National Guard from the City of Avon Park.

According to the plans the new facility will be similar to the armory at Arcadia. It will include a large drill floor about 160 feet long, with large exhaust fans to provide ventilation for the high ceiling drill area. It will also include classrooms, supply rooms, kitchen, vault, storage areas, restrooms, and the conditioned administrative offices.

The building will be flanked on the west by an orange grove, with the rear all fenced in and used for the storage of equipment and parking areas for guard vehicles. Water and sewage will come from the Avon Park city supply.

The drill floor will be of terrazzo and be the largest assembly area in the county. This will be available for rental for large meetings and dances.

National Guard funds for building are provided for by the state and federal appropriations. Requests for the appropriation were made as early as the mid-60's, but it wasn't until the 70's that the appropriation was included in the state money bill at the last minute as a part of the compromises worked out by the

R. H. Stokes, president, and Dr. Paul Lindsay, board chairman, have initiated changes at The Highlands School for Girls and announced a portion of the far reaching plans for the coming year.

Following careful consideration, Dr. Gregory D. Adkins, of Oxford, Miss., was selected as Headmaster and Assistant to the President, effective immediately. Dr. Adkins, who has for the past four years served as Headmaster of College Hill Academy in Oxford, will coordinate and direct the academic and social program of the school and will move his family to campus for full time activity June 15th. With an excellent scholastic and performance record in the past, Dr. Adkins, a young conservative educator, 30 years of age, is expected

to start it by taking a little over a year to get started but before long it will no longer be a dream but a reality. Those unable to attend clearing ceremonies were Mayor Barben, Durrah Martin, Don Serdynski, and Milton Howard.

Sgt. Lowell W. Ferguson, Jr., 20-year-old Avon Park boy was killed in action in Vietnam April 24 by a booby trap. Sgt. Ferguson was well known in this city for his activities in the amateur band for five years, he played the drums, played basketball, a member of the FFA and drama club. He was a homecoming escort for his senior year and a band officer.

Graduating in June of 1969, he joined the Army in September of 1969. He has served in Vietnam since November 16, 1970, as a Paratrooper in the 17th Airborne Brigade.

He is survived by his parents, Mr. and Mrs. Lowell W. Ferguson, Sr. of 700 Winifred Street, three brothers, Lancer Corporal Dean in the Marines, Richard and Fred at home. Maternal grandparents, Mr. and Mrs. Dean Steitz, of Richmond, Ohio; paternal grandparents, Mr. and Mrs. Frank Ferguson, of Avon Park and Winterville, Ohio.

Funeral services are not complete at this time. Plans for a burial in Avon Park are being made.

Local Teacher Retiring After 42 Years

In April of 1914 William Philip Myers moved his family from Lakeland to Avon Park. It took him two days to make the trip by a mile driven wagon. His family fared somewhat better on a mixed freight and passenger train.

This move might not have been so important except for the fact that it brought three girls to our town. Misses Myers, Alma, Sadie and Mildred, the latter two were to have a profound effect upon the growing life of the community. Miss Alma Myers was to marry Mr. L. P. Moore and live in August, Ga. Misses Sadie and Mildred were to become teachers in our public schools. Together

graduating from the Avon Park High School in 1919. She began her professional studies at Florida State College for women, now Florida State University, from which she received a Primary Certificate of Education, which enabled her to teach. She later studied at Florida Southern College from which she received a Bachelor of Science Degree.

It is interesting to note that she was teaching the first and second grades in Avon Park in 1921, the year that Highlands County was brought into being through an act of the Florida State Legislature. She has the longest career of teaching in the Highlands County school system.

When Miss Mildred started teaching, I. C. M. Ellenberger held both the office of County Superintendent of Schools and Supervising Principal of Avon Park. Thereupon Governor Carey Hardee appointed W. A. Marshall, an undertaker from Kansas City, to the superintendent's office. Mr. Marshall was a man of business experience which would be of great value in the building of a high school. Besides Ellenberger and Marshall the following men have served as superintendents across the years of Miss Mildred's tenure as an active teacher: Col. F. K. K. Bailey, Fred Wild, Andrew Miracle and George Douglas.

To keep our historical perspective, we should mention those men who were the supervising principals in Avon Park: I. C. N. Ellenberger, R. T. Fairley, Stanley Reeves, A. B. Wilbur, R. Guy Garrett and Aaron Craven. In later years the following men served as elementary principals: Vaughn Drivers, George A. Kelsey and Norris T. Brooks.

Through long years of experience in the class room, Miss Mildred became deeply concerned about children with speech difficulties. She finally reached the decision to come herself to work with exceptional children. In order to prepare herself for this new endeavor, she pursued studies at the University of Colorado from which she received a "Certificate in Special Education" dealing

SFJC Could Be Faced With Cash Cutbacks

South Florida Junior College is faced with a serious financial problem if junior college funding currently envisioned by the Senate Sub-committee on Ways and Means is adopted by the Legislature, according to a statement released today by SFJC President W. A. Stallard.

Adoption of the proposed \$72 million funding would represent a cut of approximately 22 percent in the monies presently available for operation of the state's junior colleges, Stallard pointed out.

"Without doubt, there is always room for increased efficiency in any operation and this does not exclude the junior college system. However, a 22 percent cut in operating expenses would not affect the individual junior colleges in the same way.

The larger institutions could possibly increase class size and reduce the instructional staff to provide essentially the same services. For the smaller junior colleges, such as South Florida Junior College, this solution is not possible.

"Most of the academic areas are staffed by one individual and any cut back in personnel would have the effect of eliminating some segment of the program. For example, South Florida Junior College has one

chemistry instructor, one full-time biology instructor and one instructor in business education. If one of these faculty members was released it would mean that these programs would no longer be available.

"South Florida Junior College has always operated on a very close budget, but has never at any time failed to meet its financial obligations. There is no expensive closed circuit television, no theater, no gymnasium and no auditorium. All classes are taught by instructors rather than electronic devices," the president said.

After July 1, no further financial contributions can be made to the college by the school boards of Highlands and Hardee Counties, an amount in excess of \$90,000 which the State had agreed to provide.

The junior college has increased its fee structure to the maximum permitted by legislation.

"The public should be advised of the situation as it affects the local junior college and should contact our local legislators to express concern," President Stallard said.

Irene Maxcy Trial Moved To Dade County

Prosecution of Irene Maxcy on four counts of perjury will be officially handed over to the courts in Dade County Friday.

Polk County's criminal court of record Judge Roy Amidon has granted a defense motion for change of venue, and Dade County was designated as the site for any forthcoming trial of the slain Von Maxcy's widow.

Judge Amidon, in granting the defense motion, noted that the murder trials in which Mrs. Maxcy had testified out of which the perjury charges grew—had had "a great deal of publicity."

Jack T. Edmund, Lake Alfred attorney who recently joined Frank Ragano of Tampa as the Maxcy defense counsel, presented, in support of the change of venue motion a 238-page exhibit, 10 inches wide and 18 inches long, filled with clippings about the Maxcy murder and trials.

Edmund cited the Sebring News and Avon Park Sun as two of the area newspapers and weeklies—that had carried Maxcy stories. The defense did not specifically request that the trial be transferred to Dade County but Edmund did point out that Miami's newspapers had carried fewer stories on the case than the media in this area.

It was also noted that defense counsel Ragano has a branch office in Miami.

Judge Amidon said he had received "many, many calls" about the case and he concluded "it would be virtually impossible" for the defendant to "receive a fair and impartial trial in Central Florida, especially in Polk County."

Robert E. Morgan, chief clerk of Dade County's criminal court of record, said today his office had been advised by attorney Richard Gerstein that the Maxcy perjury trial is being transferred, and But Dixon of the Polk Criminal Court and Beards will have to deliver the bulky files when he makes a trip to Miami Friday.

A spokesman for the Dade County said that while many criminal cases are handled in that county there are five criminal court judges and "there does not appear to be any time when the case could not be tried sometime this Summer."

In the meantime, State's Attorney in this area, Glen Darty, has not set a date for possible third trial of John J. Sweet.

Sweet was once convicted of first degree murder in the death of Von Maxcy. A retrial has been ordered and has been pending for some months.

Maxcy was slain at his Sebring home in October, 1969. The first trial for Sweet was begun in Sebring but a change of venue was granted that moved the trial to Bartow.

That trial ended in a hung jury, and a second trial—in which Sweet was convicted—was held late in 1968. In February, 1969, a Polk County grand jury handed down an indictment charging that Mrs. Maxcy had given false testimony in that second trial.

In January of this year Polk County Solicitor Gordon Macaula filed informations against Mrs. Maxcy listing four counts of perjury.

Darty said Wednesday he will make no definite plans until the perjury proceedings are completed. In January he had cited difficulty in locating witnesses as a problem in planning for a third Sweet trial. In the meantime, Sweet may be expecting a delay; he entered a newspaper subscription for a year, giving a Massachusetts address.

THE 1971 Avon Park Red Devil varsity baseball team finished the season as Class B, District 6 runners-up to Turkey Creek posting a record of 13 wins and seven losses. Players from left to right kneeling: Dennis Hart, Ray Culpepper, Don Sisemore, Eddie Ezell, Steve Hart, and Keith Richards. Standing from left:

Robert Lansing, Howard Sisemore, Jarvis Hart, Clark Jackson, Greg Albritton, Danny Albritton, and Ricky Dick. Devils were coached by Ralph Hill assisted by Ken Shackelford.

Devils Defeated In Game For Class B District 6 Championship

Coach Ralph Hill's Avon Park Red Devil baseball team put up a fight but was forced to accept the Class B District 6 runner-up role last weekend when Turkey Creek came from behind in the seventh inning of the third game to tie it up 4-4 and then moved on in the top of the eighth to win the game by a score of 5-4 here at Head Field last Saturday night.

In the first game the Devils had three game-play-off for the district championship played in the Turkey Creek Gobblers shut-out the Red Devils 6-0 behind the two-hit pitching of Ricky Kelley. Only Devil second baseman Steve Hart and first baseman-pitcher Clark Jackson were able to get a hit off the strong right-hander in the opening game of the series.

The Gobblers jumped on Devil hurler Danny Albritton in the third frame rapping off four singles and three runs and then struck again in the last of the fifth inning scoring three more runs on a double, a single and three Devil errors. All in all Turkey Creek got seven hits off losing pitcher Albritton who was relieved by Clark Jackson in the sixth.

It was a different story here at Head Field last Friday night however, as the Red Devils evened up the game by taking a 4-1 victory from the Gobblers as Devil lefty Don Sisemore held the Turkey Creek batters to three scattered singles.

Avon Park scored three big runs in the bottom of the second inning. Greg Albritton led off and went to first when hit with a pitched ball. Jarvis Hart layed down a grounder and Albritton went all the way to third when the Gobblers pitcher threw the ball away attempting to get the lead runner. Then Ricky Dick lined out a single to score Albritton and Hart scored late on a wild pitch. Dick was driven in on Steve Hart's double before the side was retired.

Avon Park scored another run in the fifth inning. Dennis Hart struck out but reached first when the catcher let the ball get by him. Hart then moved to second when Greg Albritton walked and scored on a throwing error by the pitcher. The Gobblers allowed a shut-out by scoring a run in the top of the seventh on an error and a passed ball.

The Devils got five hits off the Turkey Creek pitchers. Steve Hart had the only extra base hit of the game and Don Sisemore, Clark Jackson, Ricky Dick and Eddie Ezell all had one single each.

Sisemore fanned seven batters as he posted his third win of the season giving up three singles, one run and walking only two batters.

The final game saw both teams using two pitchers as both starters got into trouble in the fourth inning. Turkey Creek opened up the game by scoring a run in the top of the first on two singles and a sacrifice bunt off Devil starter Danny Albritton.

Then Avon Park came back and pushed two runs over in the bottom of the first on one hit batter, a walk, and a sacrifice bunt. The Devils scored two more in the second inning as Greg Albritton singled and Ricky Dick doubled him in and scored himself on a sacrifice bunt by Jarvis Hart.

In the fourth inning Turkey Creek scored two runs on two hits before Don Sisemore came on to relieve Danny Albritton with the bases loaded and two men on. Sisemore struck out the first man he faced. Then in the bottom of the fourth, Turkey Creek changed pitchers when the Devils loaded the bases with only one out. Starting hurler Ricky Kelley was relieved by Dennis Carr who had taken the loss on Friday night.

Avon Park left three men on in the fourth, had the bases loaded and no outs in the fifth,

had three men on in the sixth, and a man on third in the seventh but couldn't score as Turkey Creek roared back in the top of the seventh to tie the game up on Henderson's double tied in with an error by the Devil outfield. Henderson scored on a sacrifice fly to centerfield by shortstop Gary Hinson.

Then the winning run came in the top of the eighth frame when firstsacker Eugene Cook tripled to the right-centerfield fence and was driven home by Eddie Mercer's single. Mercer had two singles and a double in the game.

Turkey Creek got a total of 10 hits off Albritton and Sisemore including the triple and two doubles. Both pitchers gave up five hits each. The Devils managed seven hits as Ricky Dick led off at the plate with a double and a single. Jackson had two singles as did Dennis Hart, and Greg Albritton hit one single. Both teams committed two errors during the eight inning game.

President Stokes also announced that a specific contribution from one patron will enable painting and remodeling of the school to be gotten in the next few days and that another patron caused new transportation in the form of a 15 passenger minibus to appear on the campus last Saturday. Thanks to the help of many other patrons and friends, other programs are in the process of revision. Due to the large number of inquiries for next year, the admissions structure is being altered and will be announced soon. Obviously certain internal changes have been necessary and these are in the process of completion.

Red Cross Fund Drive is reported short of its goal. Avon Park had a goal of \$3,000, and to date falls short of the total by \$2,076.33. There has only been \$923.67 collected to date.

The goal for Highlands County is \$10,348 to date \$8,129 has been collected. Sebring is the only city which has gone over their goal. Their goal is \$3,350 and to date \$6,006.62 has been collected. Lake Placid reports that \$1,196.60 has been collected against their goal of \$2,000.

The Red Cross works on the contributions that are received and if the funds do not come in the services that the Red Cross gives cannot be given. They have never let down anyone that needs them in any emergency that may occur. Let us not let them down and get that check in the mail to help them continue their good work.

"Yesterday in Florida," you'll enjoy every page of it. Now how about this so-called generation gap. What is the new generation talking about. Read the "Greening of America." It's on the non-fiction best seller list and breaking all records. Or how about some nice and easy light summertime reading? Does that sound good? Then for a few chuckles try "The Peanut Classics." Small children in the family? Read the marvelous new, "Mother Goose." is a must. There's Summer fun for everyone at the library.

Scouts In Avon Park Starts Drive To Conserve Water

"In carrying out a program for conserving our young people can surely set an example for us all to follow." This quote is at the top of this notice, to Irving J. Fenn, President of the Boy Scouts of America. The President also expressed his confidence in our youth of today. He requested that the Boy Scouts be given an opportunity to undertake a national conservation good turn in 1971.

In answer to this request the Boy Scouts made for their project for 1971 S.O.A.R. (Save Our American Resources). Each post initiated a program in connection with conservation.

Post 818 of Avon Park under the leadership of James Moore of the State Fish and Game Commission, have started a water conservation project with a slogan "Put a Brick in Your Tank." Coming up with some starting figures the Post has figured out that by obeying their slogan you will not only conserve water but it will save you money on your water bills.

One gallon of water occupies 247 inches of space, with a brick placed in your tank it will occupy 14 inches so by using a brick with every three uses of the water tank you will save one gallon of water.

There is an estimated 30,000 tanks in Highlands County so by saving one gallon this reflects a saving of 30,000 gallons of water a day. It is also contended that by conserving this amount in small areas like the figures for a large city would be beyond a possible county. Locally this campaign has high hopes that the idea will flourish and grow into a nation-wide conservation of water.

Other units are active in plans for the conservation of their many natural resources. Their

ideas put into practice will help the environment in all fields. So you see the slogan "Put a Brick in Your Tank" try it and help the Boy Scouts achieve their goal in their personal endeavor to conserve water for future use.

Kiwanis Lt. Governor Speaks Here

Virgil Davis of Mulberry, Lt. Governor, Division 10, Florida District, Kiwanis International, spoke at the Kiwanis Club of Avon Park on April 20th.

Speaking to the members and guests, Lt. Governor Davis praised the Avon Park Club for its current efforts to enlist new members who are willing to work for a better community. He stressed the need to apply the 1970-71 Major Emphasis Program to local needs. We must strive to "Improve the Quality of Life" through an increased emphasis on "Operation Drug Alert" and to "Improve the Quality of our Environment through Individual and Community Action."

Davis made special mention of current interest on university campuses. He indicated that Kiwanians need to take a more active part in helping with youth organizations, such as Circle K, Key Clubs, and 4-H clubs to mention a few. The Kiwanis motto is "We Build." Lt. Governor Davis challenged each person present to make this motto a reality in our daily lives by taking every opportunity to understand and help with youth. Then, we should not fail to take care for and improve our natural and human resources with active efforts to refrain from causing pollution ourselves but to assist others in improving the quality of their lives.
