Soloists Sunday will be Miss Beverly Mann of Avon Park, soprano; Ann McKinnis of Avon Park, contralto; Jack Smith of Avon Park, tenor; and Lowell Hill of Avon Park, baritone. Mr. Smith is director of choirs for First Presbyterian Church of Sebring.

The SFJC Chorus presented this Christmas concert at First United Methodist Church, Wauchula, on Dec. 5.

Consumer Service

Warns Shoppers

Robert J. Bishop, Director of Consumer Services, said Florida consumers can get their money's worth from holiday shopping trips if they obey basic rules such as:

Make a Christmas list so you avoid impulse buying.

Homemade Christmas decorations are often more attractive than purchased ones.

Try making some of your gifts—these are often more appreciated than purchased ones.

Select toys that will be interesting to children; remember cost doesn't affect the boy's appeal to the child.

Avoid any toy that may be hazardous to children.

Beware of any bargain that sounds too good to be true; it may not be a bargain at all.

Investigate carefully any so-called "free gifts" which may necessitate buying something at an inflated price.

Take the same care of credit cards as cash and plan your spending so your budget is not over extended.

Keep all sales slips. They may be necessary for refunds or exchanges. Some sales may be final so be sure to understand the conditions of the sale.

Do not do business with a company unless its reputation is known. If there is any doubt, check with the Better Business Bureau or the local Chamber of Commerce.

Zoning

(Continued from page one)

"within a few days." Mayor Barben represented Avon Park Clerk Stroup, council members Cecil Heston and Mrs. E. F. Westfall represented Sebring.

Other business Tuesday the county commission granted a palmist permit to Mrs. Patricia Johnson Uwanowich.

Highlands County Red Cross was given permission for temporary use of the old parole and probation office in the courthouse annex.

The work schedule for the juvenile home houseparents was changed from five days on five days off to seven days on seven days off.

Set a special meeting for Tuesday, Dec. 14, 9 a.m. for county commissioners, the Sheriff's Department and operators of ambulances in the county to work out details on the emergency ambulance service the Sheriff will begin operating in January.

Received a letter from Sebring Ministerial Association pledging support in any projects to provide low income housing within Highlands County.

Commissioners

(Continued from page one)

P. Skipper suggested that the zoning recommendation be tabled "until the county commission can meet with the zoning board" and work out some specific indications to the developer about the density of population acceptable for that tract of land.

Board Overruled Earlier in the meeting the county commissioners, on a 4-to-1 vote, overruled the zoning board and granted a zoning change for a large segment of waterfront in DeSoto City.

Coe W. and Myra L. Morrison had sought a change from single family residential to general retail and wholesale business for seven lots they own on Red Beach Lake.

Their attorney, Hayward Davis, and a number of DeSoto City residents in the audience Tuesday, argued the presence of a grocery across the road from the Morrison property makes the area unsuitable to residential.

Mrs. Ward and Robert Barben of the zoning board said the denial of zoning change had been recommended because "that is a lot of lakefront to be zoned in business" and some of the area is "a fine residential section."

On a roll call vote commissioner Norman Heston cast the lone negative vote.

Two zoning changes were approved without opposition: Walker Memorial Hospital, from single family residential to neighborhood retail, and to Allan P. Cook from multiple family residential to agricultural.

Sun 'N Lakes' Turf and Beach Club plan was referred to the planning and zoning board. The subdivision plan for Nortec Properties was accepted.

Lucille Alice Shockley has line-up to see her sister, Alta Rea, so she will not be able to come down Christmas. I still hope we can get the 1924 class together. Only one has passed on, Nordia Langdon. Can anyone tell me where Aline Marsh lives?

I would appreciate any information or articles, etc. about Old Settlers and old times. My oldest son, Ellis, after he finished at the University in Gainesville, he went to Montgomery, Ala., and was with the Alabama Power Co. for 13 years, retiring last year. He married Evelyn of Montgomery. They have one son, Earl, who teaches science at Auburn University and is married and has a dear little girl, Star, who has just entered school this year.

Letter To The Editor

I am rather late, in thanking Mel Bass, publicly for helping me with the Old Settler's picture. He bought a scrap book and sent it from Sebring to help me one day. Also came back in the evening, which I appreciate so much and his wife came Saturday and took the pictures to the store.

Mrs. Maxwell picked me up, as my daughter and son-in-law were on vacation, just at the wrong time. Mildred has even come up from Putero Rico, when her husband was in the service at Ramey Air Force Base, to attend our Old Settler's meeting and I went back with her one time.

It's beautiful down there, with all the high mountains, but you have to watch your driving. The roads are narrow down the hills and in just certain places, you are allowed to pass each other, when out in the country. The climate is wonderful, hot, but yet it breezes away.

I also want to thank Pearl Spink, for a bundle of Old Park papers. The oldest was dated August 28, 1928. On the front page was a notice of our "Old Settlers meeting," to be held the third Wednesday in October each year, at the Tourist Club, where we always meet.

Also an interesting article about Maie Barnett Humphre, where she won the "Rotary School Honor," for having the best report of achievement last year in college, (in 1928). The prize was a \$10 gold piece, and J. V. Chapman presented it to her. She was a member of the 1924 class in Avon Park, which I have tried so hard to see if we couldn't have a class reunion.

This past Saturday, as Louise Wood McManis was visiting her sister in Sebring, she was Thanksgiving holiday (seemed so good to see her), they identified some of the teachers that taught here, years ago, but so many years passed on, we would appreciate old pictures, etc. for our collection, which will be placed at the band stand in the mall.

C. R. Ginn is the only one of the 1924 class that lives here. He married one of our popular teachers, Annie Ames.

Through Lee Crews in Lake Placid, I was able to get his sister's address: Mona C. Porter, 2531 Crystal Lake Dr., Orlando, Fla., 32806.

Myrtle Conoley is now Mrs. L. M. Gager, 409 Queensbury Rd., Hyattsville, Md., 20780. She is organist in the Jewish Synagogue in Washington, D. C.

Lucille Alice Shockley has line-up to see her sister, Alta Rea, so she will not be able to come down Christmas. I still hope we can get the 1924 class together. Only one has passed on, Nordia Langdon. Can anyone tell me where Aline Marsh lives?

Halbig Finishes Grid Season With Bang

Junior fullback Wolfgang Halbig finished the 1971 season with a "rush" and by doing so gave himself a bright place in Abilene Christian College football fortunes.

The versatile 64, 200 pounder former Avon Park High School athlete, earned a starting role late in the year and finished as the second leading rusher on the team with 301 yards and a 5.1 average per carry. He rolled up most of his yardage in the last three games and had a 54 yard touchdown run in the season's finale.

A hard and bruising blocker as well as a top notch runner, Halbig started his career with the Wildcats as a linebacker and was then switched to tight end where he performed last season as one of the top pass catchers and blockers on the team. After this year's showing, Halbig appears to have a strong possibility of earning a permanent spot in the starting backfield.

Wolfgang is a physical education major and is the son of Mrs. Gertrud Halbig of Avon Park.

DR. GREGORY D. ADKINS, Headmaster of The Highlands School, confers about college plans with two seniors, both of whom will be graduated in a class of 22 next June. At left is Susan High, of Lumberton, Miss., daughter of Mr. and Mrs. Vernon High, who has sent ap-

plications to the University of Arizona and two southern colleges for entrance next fall. Shown also is Kathy Briscoe, of Tripoli, Libya, who has sent applications to Tulane University and the University of Calgary, Canada.

Kirkland's Store Robbed Nov. 27

According to Avon Park Chief of Police Farland Cribb, Saturday, Nov. 27, at 7:49 p.m., two colored males, one with a .22 calibre revolver, entered Kirkland's Market on West Main Street and ordered Gerri Ball, cashier, to give them all

the bills in the cash register. They didn't take any checks. According to the only witness, who drove up as the men made their escape, the get-away car was dark colored. Assistant Chief Grady Campbell and Sgt. Presley Self investigated the robbery.

Chief Cribb said the case is still under investigation with several clues to go on. Cribb also said that several breaking and entering of the local schools have been solved by apprehending of four juveniles.

Guests of Mr. and Mrs. Forrest Wiedeman were Mr. and Mrs. Dale Hoover, from Lorinda; Mr. and Mrs. Arthur Miller, Sebring; Mr. and Mrs. Arthur Taylor, from Lake Shores Mobile Home Park.

Former Cadet Drops By Sun

Every now and then we have people dropping by the Sun office who were connected with the service in some way during World War II, looking up someone or just back to visit. We had someone like this Friday. Howard Lee Elleman of Grand Bay, Ala., was in town to show his wife his home, while in Avon Park, back in 1943. We told him his old home is now Walker Memorial Hospital, which he did not recognize, because of the additions and construction now going on at the hospital. Elleman was a cadet with class 43 at the Army Air Forces 1st Flying Training Detachment at Lowndes Aviation Military Academy. Their address for friends who may want to write to them: Howard Lee Elleman, Rt. 1, Box 1KA, ZIP 36541, Grand Bay, Ala.

Anderson, head of physical education. Students taking the test were: Wendy Frank, Sue Foster, Merry Gregory, Karen McGinley, Kathy Whitson, Jokeyanna, Mimi Boswell, Duane Duff, Dawn Strickland, Durene Hickman, Lesia Price and Cathy Scheferstein.

Mrs. A. H. Wilson of Clio, S. C., and her grandson, Les Jones of Columbia, S. C., were the Thanksgiving guests of Mrs. Wilson's sister, Mrs. T. G. Covington at The Highlands School. All three visited Disney World during the holidays.

Among the winter guests arriving this week are Mrs. and Mrs. Alva Smith of Macomb, Ill. The Smiths were in Avon Park 25 years ago and spent the winter in the home of the late Mr. and Mrs. J. S. Collins. They remember a few of the old timers who are still around.

Also arriving this week are Mr. and Mrs. Edward Berghen of Gobles, Mich.

Cadette Scout Troop 21 Has Busy Month

Cadette Girl Scout Troop 21 of Avon Park packed a wide range of activities into the month of November.

Lynn Livingston, Susie Crews, Misty Hooper and Lucy Jackson, with leader Tim Fisher, "collected" the Brooming Range Road, from Lotella Ave. to Ward's Nursery Road, gathering up trash which littered the roadside. This was part of the Girl Scouts Eco-Action Project.

On November 15, the troop paid its regular monthly visit to the Rest Haven Nursing Home, talking with the inmates and singing songs. Discreet inquiry revealed that dessert for Thanksgiving dinner would be appreciated at the home. As a result, the girls baked (from scratch) 14 mince and pumpkin pies which were delivered to Rest Haven for their holiday celebration.

Outstanding badge work was accomplished during the month. The girls working on the Chef Badge made a delicious orange jelly, certainly an advanced step in the culinary field. Those involved in requirements for the Ceramic Badge, were busy painting attractive ceramic items, prior to their glazing.

Three members of the troop and their leader attended the meeting of the Florida Trails Association which was held at Highlands Hammock State Park on the 12, 13 and 14 of November.

Reported by Charles Collins
Franklyn Ward introduced Tim Herring who is an investment executive with Merrill Lynch, Pierce, Fenner & Smith out of Lakeland. Herring was previously on the staff of Georgetown College in Kentucky.

Herring stated that the current economic situation was not due to any startling new developments but was being pressured by a common enemy of all of us—inflation. One action that could affect things rather markedly in the near future would be a devaluation of the dollar which is being discussed at the present time between the United States and its trading partner nations.

Herring said the market had gone down, not so much from a slowdown in the economy, but from a lack of buyers. It has risen dramatically in the last three days, not because the economic picture is suddenly brighter or different basically from what it has been but because more people are getting their money back into the market.

At Merrill Lynch they stress investigate first—and know why you invest in a certain stock or bond. Herring pointed out the many services available to investors which he felt were essential if the investor was going to match his investments against his individual need. The three basics: what to buy, when to buy and when to sell could be programmed for an individual through the research departments and analysis of the various brokerage firms.

From Maxi To Mini To Maxi Says Old Settler

"Reverend H. D. Gratz phoned over a week ago to see if I would write an article about the styles 70 years ago. Well they went to the other extreme, to what they are now," says Cora Wray, an "Old Settler."

"Our dresses were down to our ankles and we wore two petticoats. The dresses were very full, long sleeves and usually high collars."

Our bathing suits, looked like some kind of costumes. I don't know how we ever swam a stroke. The girls suits were made to come below our knees, with plenty of material used, and short puffed sleeves with a full skirt over the outfit. We always wore stockings.

Our favorite place in 1903 was at Mrs. George Smith's home on the north side of Lake Lotela. There was only two large two-story homes on this side of the lake then and we had so much fun.

At Buzzards Bay, on the north eastern corner of the lake, we could always be sure of catching a good mess of fish. We always walked and thought nothing about it, now it would be terrible to walk that distance.

So now from the mini, some are going back to the maxi, as we had 70 years ago."

Parcels and greeting cards for nearby areas should be mailed no later than December 15.

Air mail parcels for foreign countries and servicemen overseas should be mailed no later than December 16.

Special Christmas hours will be put into effect this week and the service windows will be open from 8:30 a.m. until 5 p.m. Monday through Saturday until Christmas.

Postmaster Young is requesting the help of postal

customers by requesting that greeting cards be separated into local and out-of-town bundles and using the labels on the bundles supplied by the post office.

Carriers have delivered a supply of labels to all postal customers and they are also available in the lobby of the post office as well as rubber bands to secure the bundles.

The Postmaster is also urging that if at all possible mail should be brought to the post office early in the day. By mailing early in the day postal employees can assure that gift cards, and letters can be sent on their way by the earliest possible transportation.

Fulltime SS Administrator

The Social Security Administration has approved establishment of a full time Social Security office in Sebring.

Announcement was made by the office of Congressman Paul Rogers in Washington.

The new office will start with seven employees and will serve Sebring, Avon Park, Lake Placid and Wauchula areas.

It will be under the supervision of the Lakeland office and employees will be transferred from other Social Security offices to Sebring.

The Congressman's office said it is expected the new facility will be open in 30 to 60 days. However, a spokesman at the Lakeland Social Security office estimated "four to five months" judging from past experience.

John Kimac, assistant manager in the Lakeland office, said an attempt will be made to lease space in this area, but if this cannot be found, they "might have to have a building built. We generally find a lessor."

Jack Carter has been handling Social Security matters in this area for some time. Kimac said he does not know at this point if Carter will be put in charge of the office.

He said, will be competitive and several qualified persons may be interested in trying for it.

Key Club At APHS

November 29 was the first day of Key Club Week throughout the nation and several other countries. The Avon Park High School also participated in this particular activity.

Sherwin MacKintosh was in charge of the social held Wednesday for the administration and club leaders, which turned out to be a big success. Helping with the social, besides the Key Club, were the Kevettes.

Thursday, they presented their annual assembly program with Dan Davis as the guest speaker, who narrated a film shown of his travels while stationed overseas in the navy.

The club also demonstrated their particular talents, like a seven piece brass ensemble for example.

Receiving honors and gifts were Bryan Davis for being the grooviest dressed member, Mr. Sechrist for being such an outstanding sponsor and Alesia McColland for being elected the sweetheart.

Both Thursday and Friday, the club ate together in the lunchroom. Danny Davis was chairman of teaching day on Friday, with members teaching classes.

Mrs. Wilda Knapp Honored With Reception at Middle School

Mrs. Wilda Knapp was honored by the members of the Avon Middle School faculty with a reception Tuesday afternoon, Dec. 7, in the Media Center of the Middle School.

The Media Center was attractively decorated with the traditional Christmas decorations, with the nativity scene, being the focal point. The table was centered with a Santa Claus flower arrangement and flanked on either side with red candles in silver candle holders. Coffee was served from silver service on one end of the table with a typical Florida punch, orange juice sherbet from the

other. Many delicious Christmas delicacies prepared by the lunch room staff and the Home Ec Department were served along with nuts and mints.

Chairmen for the tea were Barbara Richardson and Donna Kittrell, assisted by other members of the faculty.

Mrs. Knapp was presented gifts to use in her new home in Tampa.

At the request of Art Whitte and Guy Garrett, Mrs. Knapp, 3 1/2 years ago, came to fill a short-term need in the school. Since then she has remained in the school as a Para-professional, a type of work originated to work in conjunction with the growth and needs of the schools.

She has worked with senior groups, library, guidance and most recently aiding in the reading program presently in the 7th and 8th grade.

The Knapps are moving to Tampa during Christmas vacation where Fr. Knapp will be on the staff of St. Marys Church.

Notes On Helping The Handicapped

The last working day at the Ridge Area Work Center on Tangerine Street in Sebring will be December 23—that is the last working day in this year. The Work Center will open again for the new year on January 3rd. This holiday schedule will apply also to the Developmental Training Program located at the center.

We have had two new clients come in to the Work Center in the last several weeks. A new little boy was admitted to DTP this past week, bringing to a total of six those enrolled in this program. At this time we are badly in need of a high chair for this new enrollee. Anyone who has a highchair that they can spare please call our number and we can pick it up.

The Work Center received a much needed piece of equipment this week. Mrs. Ethel Shoup of Sebring bought for us a Singer sewing machine. This was truly appreciated by all our girls who use the machine.

We could use more volunteers at the Work Center. We are particularly interested in contacting someone who might test and repair small electrical appliances. This, of course, is not the only opportunity for service at the Center but it is a need. We feel that there must be a retiree with the needed skills who would be glad to give a day or a half day to help us. If you know him, please tell him! We need him!

Turner Elected President Of Avon Park C of C

Officers and directors for the local Chapter of Commerce have been recently elected according to Charles H. Watson, president. Elected as President for the coming year is Art Turner, owner and manager of Turner Furniture Company.

Others elected were John Clark, first vice president; Joe Fann, second vice president; E. Lee, treasurer, and Stanley Wells, secretary. The new officers will be installed in March of Next year.

Six local businessmen were elected to hold director posts recently. They were Chuck Metcalfe, Glen Welch, Stanley Wells, John Clark, Charles Collins and John Morris.

Devil Cagers Defeated 87-70 By Arcadia

The Avon Park Red Devil cagers were cold as ice cubes in the second quarter of the big game against the DeSoto High Bulldogs of Arcadia Tuesday night a week ago and came out on the short end of the final score 87-70 to fall from the undefeated ranks.

The Devils will be idle this Friday night but will go to Palmetto on December 27 and 28 to take part in the Palmetto Christmas Tournament. On Monday Dec. 27, the Red Devils will play the host team Palmetto at 8:30 p.m. after Venice meets Clearwater Central Catholic in the journey opener at 7 o'clock. The winners will meet in Tuesday night after the losers play at 7 p.m.

Last Tuesday night the Red Devil varsity and "B" team traveled to Wauchula to play the Hardee High teams with results too late for this week's paper.

In the Arcadia game last week, the Avon Park five jumped off to a 27-19 first quarter lead and looked like they were gonna tear the Bulldogs up. But the second quarter was a complete reversal as the Devils managed only six points while Arcadia pumped in 27 to take a 46-33 lead to the dressing room at half-time. The Red Devils couldn't buy a basket.

County Young Democrats Club Organized Here

The Highlands County Young Democrats Club has been formed according to Mrs. Edna Lockett.

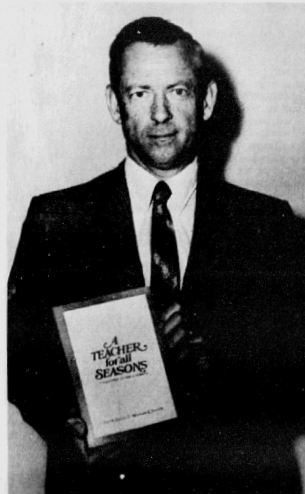

The committee has been working most of this year to get the young democrats organized. At the first meeting last week, 25 persons from Lake Placid, Sebring and Avon Park met to form the initial club.

Don Card of Sebring was elected as president of the club and Jimmy Whitehouse as vice president. Card is the owner of Surplus City on U.S. 27 and Whitehouse works in the Supervisor of Registration's office.

"I'm very pleased at the enthusiasm and the turnout for this first meeting," said Mrs. Lockett. "I believe this is indicative of our young people's interest in their government and in the community."

Card immediately announced that the first objective of the club will be a membership drive and appointed Jim Cook as membership chairman.

Card said the next meeting will be January 13.

DAN A. DAVIS

Local Teacher Author Of Book, 'A Teacher For All Seasons'

The biography of Dr. Ray V. Sowers, entitled "A Teacher For All Seasons," was presented to the public at an autograph party Sunday afternoon, Dec. 12, at the faculty lounge of the Carlton Union Building of Stetson University in Deland.

Dan A. Davis and Michael E. Duclos are authors of the book. Davis, a 6th grade math and social studies teacher at the Avon Park Middle School, was born in Wauchula and graduated from Hardee County High School in 1942 and received his B.S. degree from Memphis State University, and a M.A. degree from Stetson University. He and his wife and three sons reside on Lake Lohela in Avon Park.

Helping to design an electronic test set that saved the U.S. Navy over \$1,000,000 was the highlight of Davis' 26 year career. The test set that tests computers, took the place of many tests sets the navy had to purchase.

Duclos, a graduate of Plant City High School, received his A.B. degree from the University of South Florida, Tampa, and after receiving his M.A. degree from Stetson University he entered the Navy and is currently on special assignment by the U.S. Navy to the Defense Language Institute, Chinese Mandarin School, Washington D.C.

Davis and Duclos researched and wrote the Sowers story during the 1969-71 while candidates for the Master of Arts degree at Stetson University. Both were fellows in the Prospective Teacher Fellowship Program, funded by the U.S. Office of Education, to prepare social studies teachers for the secondary schools.

In the course of their graduate work they became interested in biography and early history. "A Teacher For All Seasons" is the result of their combined interest in historical research and in the man under whom they served as graduate assistants.

The biography is a limited edition published by the Department of Education at Stetson. It is the story of the educational life of Dr. Sowers spanning over 60 years.

Beginning in 1911, one day after he had reached his 18th birthday, Dr. Sowers began his teaching career in a one room school in Iowa and culminating in a Stetson career as both faculty and administrator. Dr. Sowers served as a secondary school principal, dean of students at Florida Southern College in Lakeland, and various posts with YMCA.

Described as "a leader in the pursuit of academic excellence and spiritual maturity," Dr.

Sowers played a major role in the development of the Florida Minimum Foundations program. He was the first elected chairman of the Teacher Education Advisory Committee and served on the Interim Legislative Educational Committee on appointment by former Governor LeRoy Collins.

Although many of his 60 years in education were spent with private colleges, Dr. Sowers has proven a major force in the Public school system. He served as director of the National Citizenship Education Program for The Florida State Department of Education and as the general supervisor of the Jacksonville, Florida, public schools.

Dr. Richard Morland, chairman of the education department at Stetson, stated, "We can truly be proud of the contribution Stetson graduates have made within the school systems not only of Florida but so many other states as well. Great credit must go to Dr. Sowers whose foresight and intellect has so strengthened these students."

The Sowers biography graphically illustrates the fullness of a life dedicated to serving others. It is an inspiration to teachers of all years and in every season. "Dr. Morland added.

The book, "A Teacher For All Seasons," can be purchased at Lake Hyrd Book Store, Hwy 27 North, for \$5.50.

The City of Avon Park received word from the State Water and Air Pollution Control Board that the city dump on State Road 64 would have to be discontinued. This was one of many subjects that was on the agenda for the Avon Park City Council to discuss Monday night.

A petition with 22 signatures of residents living in the area close to the dump was the reason for the complaint from Tallahassee.

City Clerk Malcolm Crews was instructed by the council to reply that they were seeking an alternate method of disposal and that the county would have to be contacted since they participate in the operation of this dump.

Highlights of the new regulations covering municipal dumps were read by the city clerk. Mayor Bob Barben told of more restrictions and more reports being required of the police departments by the state.

Council President Serdynski commented, "because of rising expenses and more regulations required by the state he thought the city jail should be closed and the county jail used to confined city prisoners."

Need for help at the police department in preparing reports and keeping records was discussed and Assistant City Clerk Totie Haywood who has returned to work from her leave of absence, due to the illness of her husband, was assigned to bring the police records up to date until the council reorganizes on January 3.

Because of the illness of her husband, Mrs. Haywood can only work part time and Aileen Downs will continue to work on temporary basis at the city hall.

A lengthy discussion on extension of sewers on North Lake Ave. to property owned by Avon Investment Co., was held with Robert Herman, builder, representing Avon Investment Co., John Lowe, representing Dawkins & Associates, Inc., all members of the council and Mayor Barben taking part.

Dawkins & Associates proposed gravity line with a pump station at Orange Street. Herman had a plan proposed by Roger Mer and a Mr. Kennedy which called for force main all the way from Herman's property. Lowe said this was satisfactory if you did not plan for anyone else to connect to the line.

Mayor Barben said he thought if the city put any money into the line it should take care of other property owners along the way.

Lowe was asked to come back with revised figures to relocate

proposed pumping station near Morning Sun Manor Subdivision. Mark Flowers, who lives in Morning Sun Manor, said he would be willing to pay a share of the cost up to \$150 to \$200 to get sewers and felt other home owners in the subdivision would also.

Councilman Durrah Martin, seconded by Councilman Milton Howard to accept

should be considered first. Only bid submitted for Hillcrest Nursing Home property was by EIKF. Motion by Councilman Martin, seconded by Councilman Milton Howard to accept

bid of EDCE Enterprises for purchase of Hillcrest Nursing Home property in amount of \$1,750 plus \$6,600 equity. Motion carried unanimously.

Mayor Barben reported on a meeting with the county commission in regard to charge for tax assessing and collection. The county had proposed 2 per cent each and then reduced this to 1 per cent. Lake Placid had agreed to the 1 per cent but Avon Park and Sebring had suggested 1/4 of 1 per cent.

The council voted to advertise five city lots for sale to the highest bidder.

A letter from Department of Transportation was read which stated that they were reinstating the improvement of railroad signals at West Main Street and Seaboard Railroad in this year's budget and would do all possible to speed this work.

It was reported that Shelley Marra had not paid for the easement on his taxi strip at the airport. The city clerk was instructed to give him a final notice to be paid within two weeks.

The council voted to give each city employee \$15 Christmas bonus and to give them two working days as Christmas holidays.

The golf club showed report \$5,628.96 paid to the city for November. Mayor Barben commented that golf revenues were up almost \$1,500 for the two months of October and November over last year.

Councilman Clarence King read a letter stating he was paying \$186 as billed for back garbage service under protest. He asked for the note to be included in the minutes of the meeting.

"I have a check for \$186 to present to this council, under protest, for a bill I am accused of owing by Councilman Durrah Martin. I reserve all rights for challenge later."

I have paid everything I have been billed for, for my complex operation on Cornell St. This amount has been greater per year than I believe it should have been with one water meter.

County Teachers Attend Workshop In Miami

A group of 26 Highlands County teachers and school administrators were in Miami last weekend for a human relations workshop.

Staff of University of Miami's School of Education were consultants for the workshop. Samuel C. Nixon, Jr., human relations coordinator for Highlands County schools, said the workshop was aimed at encouraging public school personnel "to examine their own beliefs... and their personal commitments to the goal of achieving equal education for all students."

It also aimed at helping the teachers and administrators analyze problems associated with school integration and increase their skills in finding constructive ways of meeting problems.

The Highlands County educators attending the workshop were Nixon, James Ferrell Smith and Mrs. Jean Wanda Wilson, Richard Perilla, Ernest Sims, Cleveland Henry, John Dupriest, Jimmie Moore, Shirley Lander, Leon Garner, Dewayne Lemier, Mrs. Wanda Wilson, Richard Perilla, all of Avon Park.

Orbia E. Hill, Jr., Miss Betty Phillips, Mrs. Mildred Harner, Wallace Cox, Jack Ingle, Mrs. Fregenia Kneiss, John Freeland, Oliver (Skip) Phibbs, Mrs. Connie Rankin, William Murphy, all of Sebring; Sam Green, Mrs. Joyce Henry, Miss Rebecca McQuillan and Lee Maness all of Lake Placid.

Letter To The Editor

Dear Editor

Having recently moved to Avon Park some few months ago and buying property here, we like Avon Park and find it to be a nice city although we are from a much larger city.

We do find we have one critical situation our young people. There certainly no amusement for them here. We have a young teenager that is very interested in music and does play drums, when and if there was some place for him to practice without having the police called to the door. He and his friends wanting to form a band but how it is to be done if they can't even practice.

One afternoon he and his friends were practicing in our garage at 5 p.m. when the police were called and come to my door. The policeman very nice said he had been called to see if he had to investigate having been to music with about 30 children in the neighborhood being entertained from a call and find these young men in some kind of trouble. He kindly told me yes, but he had a job to do also. I said if the boys couldn't find some other place to practice, I did promise him they were to play no more than afternoons, as they were due to quit at 7.

I can't imagine that music at 5 p.m. would disturb any one especially in my area. The same boys again were practicing a few nights later at another young man's home and the police again were called of course it was dark but not a late hour. Is there any thing we can do to help these young people (boys and girls) find some place for their recreation too.

Having only one theatre here in town and no other entertainment for them. I do feel this is very essential. These are critical ages for them and they need much help in this day and time. I do hope many of you parents do feel and can see the way I do and lets cooperate and see what can be done for these young people. Lets furnish them with some entertainment rather than worry about them when they are else where or possibly behind bars. I certainly would be more than willing to donate some time toward helping these youngsters, also financially and feel many more parents feel the same.

The city has provided and maintains recreation for the tourists namely the "tourist center" perhaps they could assist us too, therefore why can't something be done to help these young teenagers, after all these are our future taxpayers. Not only am I speaking for the welfare of my son but for all the young adults in the near future who are a big majority of we permanent residents are tax

Policies May Be Changed On Public Use Of School Buildings

The advent of new schools

with central air conditioning may lead to new policies on public use of buildings.

At its December meeting the Highlands County School Board instructed Superintendent G. F. Douglas to prepare a study on actual cost for use of portions of the new schools. The study applies only to the new buildings.

Under present policy the schools fire to charge a fee ranging from \$5 to \$15 plus provisions for clean-up. Many times the fee is waived because of educational values in the program being presented.

Discussion about costs of building use arose at the December meeting when the board received several requests. Highlands Community Concert Association was given permission to use the middle school auditoriums in Sebring and Avon Park for concerts in its 1971-72 season. The use fee was waived for these concerts.

The Church of Jesus Christ of Latter Day Saints (Mormons) was given permission to use a meeting room in the county materials center at Orange and Lemon Sts. The board said the church group could use the room through December and

January.

Construction Problems

New school construction problems continue to be a part of the monthly school board meetings. At the December meeting Superintendent Douglas said several roof leaks in the new high schools were reported during the heavy rains of Dec. 3.

Construction on the addition for Lake Placid High is still running late, Douglas reported, noting that "about 60 days work remaining to be done before January 23" (the date the contract calls for completion).

Board member Jack Wink was appointed by the board to work with the Superintendent on developing a plan for repaving the gymnasium in the older portion of the LPHS campus.

Other business

In other business the board approved an official request from Glades County to permit students living in Tasmanian school to attend Highlands County schools.

Authorized out-of-state leave for the Superintendent to attend the American Association of School Administrators convention at Atlantic City, Feb. 12-16.

Authorized use of a school bus for students in Future Farmers of America to attend the Livestock Practice School at Gainesville on Saturday, Jan. 8.

Formally approved an agreement with Consolidated Tomoka Land Co. for use of a parcel of the company land for an environmental study by public school classes.

still is completely complex to mine that Martin has had nothing to say about.

As I see it Martin had made this and other accusations against me mainly because I have been critical of the needs of most of the new taxes and some of the expenditures he has voted for in the last four years.

This note to become a part of the minutes of this meeting."

Councilman Martin replied that he thought Mr. King should pay interest on the money. He requested this also be entered in the minutes.

Councilman King also commented on the recommendation of the city attorney at the last meeting concerning but pursuit. He questioned the Mayor about the practice of police in this regard.

Mayor Barben said it was easy to sit here and with all the facts make a judgment but in the case in question the officer had to exercise his judgment in a hurry without all the facts as to the reason the suspect was fleeing.

Mary Louise Stewart Honored At Bridal Shower At Johnson Home

The Christmas theme was the setting for a kitchen and linen bridal shower in honor of Miss Mary Louise Stewart, at the home of Mrs. William Johnson on Wauchula Road.

Susan Walters received guests as they arrived. Also welcoming the guests were Mrs. Ben Stewart mother of the future bride, Miss Mary Louise Stewart, guest of honor and Mrs. G. W. Neubauer, aunt of the future bride.

For the occasion, Miss Stewart chose a dress of champagne boué, knit trimmed with white sequin. Christmas carols were worn by the future bride and the four hostesses, Susan Walters, Peggy Simon, Esther Johnson and Beth Parker.

An evening of games followed by refreshments were enjoyed by all. The refreshment table was also decorated in keeping with the holiday spirit. Flowers and wedding bells were accompanied by a miniature Santa. Refreshments consisted of small sandwiches in shapes of angels, stars, bells, Christmas trees and Santas. The cake was the center of the table attraction, made to resemble a girl in an evening dress. It was designed by Mrs. Roger Stinson and made and decorated by Mrs. Tom Walters and Mrs. William Johnson.

The wedding of Miss Stewart and Joseph Owen Busche, will be an event of December 27, at Our Lady of Grace Catholic Church. The reception which will immediately follow the ceremony, has been changed to the Florida Power Lounge.

ROTARY CLUB NEWS

REPORTED BY MARTIN J. CAMPBELL

WATER SAFETY

The Rev. Paul Tressell, pastor of the Church of the Nazarene, Avon Park, who has been a water safety instructor for the American Red Cross for 11 years spoke on various aspects of water safety.

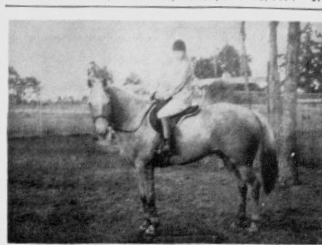

Firstly he described a typical Farm Pond Safety Post, and the need for such a device at every farm pond since no one knows when some rescue aid may be needed at any body of water where people might choose to swim, or even fall in. He suggested that the minimum at any night should be an anchored rope with a weight on the end to aid in throwing it, and preferably with some flotation aid.

Next Rev. Tressell emphasized the proper loading of boats, generally one person per boat, and gave advice on survival should a boat overturn or start to sink—how a boat or even a small log will support a person if they are in the water and do not try to climb on it.

Thirdly Rev. Tressell described the "drownproofing" technique as taught by the Red Cross and the Military.

Finally he gave advice on rescue techniques—not to swim after someone if there is any other way; how it is best to extend yourself by means of a pole, an oar, a towel or even some article of clothing. Above all, don't try to do anything in the water you think you can do, only do those things you know you can handle.

Progress Report On Lowell

In a letter received this week from Mr. and Mrs. Lowell Y. DuBose, parents of Lowell Jr., who is in University Hospital in Minneapolis, they tell of the postponement of his operation.

"Lowell it seems has had one set back after another. Last week his first major surgery schedule was postponed again because of infection on stitches in his back from some minor surgery he had to clear up a couple of sores."

He is scheduled again for Tuesday, but yesterday (Friday) he began to run some temperature. Saturday he still had it, even higher. The doctor suspects a virus, if that is the

trouble his surgery will be postponed again.

Lowell is very disappointed, he has now been down in bed for 13 weeks, and in traction for eight weeks, on his back. He is real thin and isn't his usual cheerful self. Hopes are that he might soon get on the way to recovery, but it looks now more like February before he will be able to come home, if everything goes well."

Lowell and his family wants to thank each of their many friends and for their prayers, their many cards and all the help that has been given. The address again is: Lowell DuBose, Jr., University Hospital, Station 49, Minneapolis, Minn. 55455.
