Golf Team Finishes Season With Win Over Arcadia

Coach Andy Miracle's Red Devil golf team finished out the 1972 season last week with a 176 - 209 victory over Arcadia and nineteenth place finish in the big district meet held at Pebble Creek Course in Tampa last Thursday.

In the win over Arcadia in the last regular season match of the year, the Devils carried in with a 176 on Bud Westers' 41, Gary Bahwell's 42, Gregg Hart's 45, and Wayne Todd's 48 strokes. Bud Wester was named medalist for the meet.

In the district golf tournament the King High team took first place with a total score of 320 for the eighteen holes and Chamberlain of Tampa came in second to also qualify for the state meet with a score of 323. Also going to the state meet from this district will be the tourney medalist Joe

Pilley of Jesuit and Howard Enlow of Leto. Pilley had the day's best score, a 37-38 - 75. Enlow finished second with a 38 - 38 - 76 and Norman Dudley of King and Jim Peoples of Chamberlain tied for third place with 77's.

Avon Park's team did not have a good day although Bud Wester shot a hot one over par 37 on the front nine and looked like a possible contender for the top honors as he went into the back nine. Wester finished high for Avon Park with 37-46 - 83 followed by Gary Bagwell with a 45-50 - 95, Greg Hart with a 49-48 - 96, and Wayne Todd with a 48-51 - 99.

Coach Miracle will letter the top four boys on the team this year - Bud Wester, Greg Hart, Gary Bagwell and Wayne Todd. The boys have had a fine season and are looking forward to an even better record next year.

tricians be used to install water, sewage and electrical lines.

It was pointed out by members of the mobile home community that this rule pertained to housing and not to mobile homes in which wires and pipes are already installed and require only connection to facilities external to the coach itself.

Young explained, as he had at several previous meetings, that the mobile home owner can obtain his own hook-up and, therefore, does not need to hire licensed mechanics to do the work for him. No one present objected to the requirement that a representative inspect the hook-up for compliance with safety and health standards.

Wayne Linkman, president of Mustang Mobile Homes Corp., from Jacksonville, told the Commissioners that 40,000 mobile homes are being introduced into the market each year and stressed the importance of the mobile home dweller to Highlands County. He called for a set of rules that would set forth in writing the county's requirements for mobile home installation.

Young pointed out that county regulations are based on minimum performance standards, not on specifications. He said that he inferred that the mobile home industry wanted specifications dealing with such matters as wire sizes and pipe diameters. He felt that he could accommodate this request for more definitive specifications.

Chairman Jackson asked Young to compile a list of all existing rules and regulations that apply to mobile homes, and to meet with a representative group of mobile home people to identify specific clauses that are inappropriate and must be considered for alteration.

Young estimated that he could have the list prepared in two or three weeks.

Before the meeting adjourned, the Commissioners heard a plea voiced by several mobile home park owners that a special "limited" license be established for electricians and plumbers who work on mobile homes. Young said that he would try to arrange a test for mobile home mechanics if he were told to do so, but that he did not believe it was practical to do so.

Robert D. Jr., County Attorney, reminded all present that county laws precluded the Board from acting immediately on suggestions presented at the meeting. Legal notice must, by law, be advertised to alert other citizens of changes contemplated in the existing code. Chairman Jackson assured attendees that other meetings would be held to review specific proposals for changes in the code that resulted from suggestions received at this meeting, as well as from other sources.

Mrs. G. F. Ward Tells Group What County Is Facing

"The people crush in Highlands County is on and we are in it."

"It is quite possible the population will go to 45,000 then to 75,000."

"There are 150,000 platted lots - five for every man, woman and child in the county, 11,000 to 12,000 of these are for mobile units."

Speaking before a breakfast meeting of Sebring Chamber of Commerce in Fisher's Restaurant Tuesday, Mary Ellen (Mrs. G. F.) Ward, head of the Highlands county planning and zoning board told it like it is and may be for this county in the years ahead.

"Is agriculture to be primary, or are we in the process of changing to something else?" she asked. "We now are primarily agricultural with our citrus groves and cattle ran-

ches. But there are 150,000 platted lots - five for every man, woman and child in the county."

As of now, 40,000 acres are in citrus, 30,000 in platted land, she said.

Noting that it has been predicted that our growth in 20 years will be up to 120,000, she said that it is quite possible the population will go to 45,000, then to 75,000.

"We need to think how would you serve that many people? Water alone would be an immense problem. How would we supply the necessary roads, medical services? Schools would be important. What kind of community are we headed for between now and 1990?"

What the county and the planning board are doing now vitally affects how this county will develop, she pointed out. "If the development is

Know Your Hospital

by John McClellan
Administrator
Walker Memorial Hospital

An area which causes hospital costs to increase is uncollected bills. It is difficult for me as administrator to understand why a person, while making regular payments on automobiles, T.V.'s, homes and even real life luxuries, can neglect to pay for something he doesn't want, and certainly no one wants to be sick.

In reviewing our accounts, I find that thousands of dollars worth go into forced collection each year. To help correct this and keep hospital costs down,

we request that individuals not having insurance make a \$300 deposit upon entering the hospital, and then pay weekly or upon discharge, whichever comes first.

Persons being admitted to the hospital who are covered by hospitalization insurance will be admitted without being requested to make a cash payment. They will be asked to sign an authorization for the hospital to collect their insurance to pay for their hospitalization costs.

We request the insurance company to verify the benefits that we may expect them to pay on the hospitalization. When we receive this verification prior to the discharge date of the patient, we request the individual to pay the difference upon leaving the hospital.

Those persons being admitted to the hospital who have no hospitalization insurance and are not covered by one of the federal programs, Medicare, Medicaid or any other of the state programs, will be requested to make a cash deposit at the time of admission and to pay the balance of their bill on discharge.

This may seem harsh to some, but no one gives thought to making a cash payment when buying a home or automobile or other appliances. Certainly the hospital is not trying to determine who is honest and who is not honest, but expecting payment for the services rendered. Those individuals who will not pay their hospital bill unless the hospital goes to considerable expense trying to collect.

The majority of the patients coming to the hospital have hospitalization insurance and there is no problem. There are some instances that will pay out-patient services, others will not. Those receiving treatment in our emergency room are expected to pay cash for their services unless they have insurance which adequately covers the expense. However, no person in need of emergency treatment is refused this service because he does not happen to have the cash with him at the time.

One's portfolio is in a triangle with the base the largest portion in cash, next should be protection or insurance. Next comes home, then investments, and last the smallest portion for speculation.

We must first look for three important things: 1. Safety in investing, 2. Income derived from the investments, and 3rd, growth.

ROTARY CLUB NEWS

"This is the hardest part of
the air conditioning business",
classified Kenny Long during a
statement talk before the
Avon Park Rotary Club.

Introduced by David Lanier,
Kenny came to Avon Park from
Pennsylvania at the age of five
and graduated from the Avon
Park High School. When he
returned from a hitch in the
Navy in 1964 he purchased a
half interest in his father's air
conditioning and heating
business.

Whereas his father had
worked in the maintenance of
air conditioning equipment,
Kenny expanded the business
by taking on the distributorship
and sales of several well known
lines as Armana, Fodders and
Whirlpool, along with being a
builder and dealer of air con-
ditioning and heating equip-
ment.

Kenny's father, on retiring,
sold his remaining half interest
to Clayton Seneing, a former
partner in Pennsylvania. Under
the name of Long & Seneing
they now service air con-
ditioning and heating equip-
ment in homes, stores, dairies
and other locations. With
dairies milking cows far into the
night it is not uncommon to
receive a call at 2 a.m. to ser-
vice milk refrigeration units.
With a state masters license
in air conditioning and heating,
Kenny and his partner have
seven to eleven people working.

As building in this area they
pioneered the use of fiber glass
lining of air-ducts, thus
reducing the noise of fans and
moving air. This past mild
winter season was a slow season
for heating equipment as people
tried to get by with what they
had.

A brisk question and answer
period helped make this an
informative and enlightening
classification talk.

Lions Club News

The first April meeting
brought out a full house, most
of whom took due notice of the new
6:30 starting time.

Notwithstanding, the attendance of
more than the usual number and
the problem of a few
stragglers, the Bebebebs fed all
with ample portions of meat
loaf, parsleyed potatoes,
creamed corn and all the
trimmings. Dessert of chocolate
ice cream roll put the group in
just the right frame of mind for
the rest of the evening.

It may be that the little extra
zip in the preliminaries could be
attributed to the rousing
welcome and return of Lion
George Kelsey, Lion George
seems to be recovering nicely
from brain surgery.

The passing of Lion Walter
Nierstheimer will be mourned
by all Lions of Avon Park. His
ready wit and helpful hand will
be sorely missed.

Lion President Giddens took
note of receipt of Certificates of
Gratitude from the local
Council of the Girl Scouts of
America and from Leader Dogs
for the Blind of Rochester,
Mich. The certificates
documented the appreciation of
contributions made by the Lions
of Avon Park to these
organizations.

The evening's main program
was a question and answer
session between the Lions and a
remarkably poised and at-
tractive young lady of sixteen,
Miss Suzie Robinson, a
sophomore student at Sebring
High School. Suzie, who has
been blind since an early age,
transferred to the public school
system from the Florida State
School for the Blind at St.
Augustine. Assisted by her
parents, Mr. and Mrs. Richard
Robinson, Suzie gave a detailed
review of day to day activities
at the St. Augustine School. She
also gave candid reflections of
how a child feels and develops
in a world without sight. The
degree of independence and self
confidence acquired by Suzie,
along with her native ability
was evidenced by her ac-
ceptance into the National
Honor Society during her first
year in competition with normal
high school students.

Thanks to the Sebring Lions
Club, Suzie expects to go to the
Michigan leader dog school in
June and return after four
weeks with a leader dog, its
eyes and all the added con-
fidence the combination will
bring.

REHEARSAL DINNER
On Friday evening, April 7th,
Mr. and Mrs. Royce Henry
entertained the wedding party
and immediate families with a
rehearsal dinner.

The tables were decorated
with a wedding motif. The
bride-elect wore a lovely white
long sleeved crepe dress with an
orchid corsage for the rehearsal
dinner.

Don't wait for hot weather. Now's the time to check your
air conditioner and make certain it is operating properly.
Turn on your unit now. Does it cool every room the way you like it?
Need new filters? Repairs? You'll avoid the summer rush
by checking your unit now.

And if you are buying a new air conditioner this year, be sure
to select a high efficiency unit for economical operation.

The higher the efficiency of an air conditioning
unit, the lower the operating cost will be.
Here's how to check the efficiency of a unit:

All air conditioning manufacturers rate the cooling capacity of their units in
British Thermal Units (Btu's) and the electricity required for the unit in watts.
The unit that delivers the most Btu's per watt is the most economical to
operate. The most efficient units manufactured today produce from 7 to 10
Btu's per watt. So make certain the unit you are considering
rates as high in this range as possible.

Pathfinders Camp At Inverness

Several hundred youngsters from 43 different Jr. Pathfinder Clubs among the Florida Conference of Seventh-day Adventist Churches set up for an exciting weekend campout last Friday at the Citrus Wildlife Area near Inverness. The very active club of about 35 boys and girls with their sponsors from the Walker Memorial Church participated with considerable enthusiasm in this annual event featuring activities similar to those of Boy and Girl Scouts with special emphasis on the spiritual theme of nature, worship, and sportsmanship.

Saturday's program included outdoor church, hikes, and exploration of interesting caves nearby, all high-lighted by the evening campfire talent entries in which the Avon Park group rated highly. Quite a number of the newer Pathfinder members also offered to share their faith, telling how being part of this youth organization strengthens their spiritual outlook on life.

Which is one of the prime motivations intended by the sponsors. On Sunday, the youngsters from Walker Memorial did very well on camp and sports competitions and already look forward to next year's Camporee.

APCI Nursery

"How We Grow Them"

by Jim Kiser, inmate

On the 15th of March, we were honored to have twenty-seven members of the Avon Park Women's Federation of Garden Clubs visit the Nursery.

They were able to view at first hand, the many new projects that are underway. Their appreciation and warm response gives us much encouragement for our futures. These lovely ladies not only gave us a cash donation, they started our 'new classroom building fund' off with a check. We have a long way to go towards this building, but when these ladies start on our dreams, they become a reality.

PALMS: This is about the last chance to get fertilizer on your palms before the rainy-season starts. Make 1 ft. deep holes, at 2 ft. apart in a circle. The diameter of the circle should be as wide as the foliage spread. Fill the holes with a 6-8-10 (or equivalent) commercial fertilizer and close the holes. This same process can be applied for all your large trees. If the foliage on your palms is yellowing, they might be in need of manganese sulfate. A frizzle leaf condition also indicates this need. Most of our palms here are fed manganese sulfate once a year.

WATERING: April is often a very dry month. It may be necessary to get that hose working to fill in for any lack of rain. You may wash off your leaves and raise the humidity by splashing that hose around, but you cannot give the roots what they need with this method. Do water deep by setting a sprinkler, or use a soaker. I use a soaker for the rose beds, as I do not want to encourage disease with wet foliage. If you do your watering in the morning you will be

giving your plants a chance to fully absorb the moisture while reducing the spread of fungus.

PINCHING AND PRUNING: Trim the young tender growth on your shrubs to induce full branching. Hibiscus and crotons can be pruned heavily for the desired shape, or they can be cut-back to within a few inches from the ground. Do pinch the tender shoots that are not trimmed. Most of your annuals should be pinched to achieve a full plant that will give you more blossoms. Keep pinching those azaleas too!

TEA SCALE: Our Camellias and Ilex 'Holly' have had heavy infestation from this scale. The tops of the leaves show a yellowing and in the exact same areas underneath the leaves are the white cottony clusters of scale. By using a mis of Malathion and Summer Oil, I gave gained control. This is the time to do a full general spraying in your yard. As the warm weather increases, so do the insects. Consult your local nurseryman for specific needs in insect and disease control.

QUESTIONS AND ANSWERS: I will be glad to attempt answering any garden questions you might have. You must ENCLOSE A SELF-ADDRESSED STAMPED ENVELOPE FOR THE ANSWER TO BE SENT. WRITE "How We Grow Them" AVON PARK SUN, AVON PARK, FLA.

Gordon MacCalla Will Run For Circuit Court Judge

Gordon MacCalla, Polk County Solicitor for the past nine years, today announced that he will be a candidate for Circuit Judge.

Gordon MacCalla

Before becoming County Solicitor, MacCalla was City Judge of Winter Haven for seven years and for eight years was an Assistant County Solicitor, first under Clifton Kelly and then under J. H. Willson, both of whom are now Circuit Judges.

MacCalla, a lifelong resident of Polk County, attended its public schools and received his law degree from Stetson University where he lettered in sports and coached football while studying law.

Upon return from Navy duty in World War II, MacCalla resumed the private practice of law until elected County Solicitor in 1962.

MacCalla is a member of the bar of the Supreme Court of the United States, the Florida Supreme Court and all other courts of the State, an active member of the National District Attorneys Association and the American Judicature Society, and an officer of the Florida Prosecuting Attorneys Association.

Appointed last Fall by the Governor as Chairman of the Governor's Council on Criminal Justice, Region Six, MacCalla has been a leader in criminal justice reform.

In discussing his reasons for running for Circuit Judge, MacCalla said: "I have given many years of service to the court system of this State, a new court reform, the office of County Solicitor will no longer exist. I hope the people of Polk, Highlands and Hardee counties will put my knowledge and experience to their good use as one of their Circuit Judges. I will serve them well."

Few people are smart enough to know when they have had enough, without having to be told.

Seminar For Citizens To Be Held In Bartow April 18

About 600 persons from throughout mid-Florida are expected to attend the observance of Earth Week Tuesday in Bartow.

It is a "clean air" seminar for citizens and is aimed at combating pollution.

At least one bus-load of students from Highlands county and several adults will be among those present for the day-long observance in Bartow's Civic Center.

One of the speakers will be the Eastern Airlines captain W. L. Guthrie who gained nationwide publicity when he defied the airline policy of dumping waste fuel which would further pollute the air. He was fired, then rehired.

Another speaker will be Architect Ron Ginn who moderates a daily radio commentary program on urban affairs over WPKM-FM. He is an urban design specialist.

Other speakers will be Dr. Ruth Weiner, chairman of the Department of Chemistry, Florida International University, Miami; Mrs. Jeanne Malchon, chairman of the Florida Council for Clean Air; Lee Kerner, acting regional engineer, Florida Department of Pollution Control; Gordon Palm, consulting chemical engineer and Robert Crawford, III, a special assistant to the Florida attorney general on air and water pollution control.

The event will run from 9:30 a.m. to 3:30 p.m. It is sponsored by the Mid-state Tuberculosis and Respiratory Disease

association, Elizabeth Kircher, program director for Mid-state, and Kenneth Morrison, of Mountain Lake, are making arrangements. Marshall S. P. Pollard of Lake Placid is a member of the Mid-state board. The public is invited.

WINN-DIXIE FREEZES ALL GROCERY AND MEAT SHELF PRICES DURING APRIL!...

Recently, we announced that Winn-Dixie WILL NOT INCREASE the shelf price on any Grocery or Meat item through the month of April. Also, we will IMMEDIATELY REDUCE the shelf price on any item for which we receive a reduction in the wholesale price during that period. This action was taken to further assist the Federal Government in their effort to control inflation and to continue our efforts to offer the consumer the lowest possible everyday prices on finer quality foods. We will continue to pass on additional savings each week with our "7-Day Advertised Specials."

"WE'D LIKE TO THANK THE MANY SUPPLIERS WHO HAVE JOINED US IN OUR FIGHT..."

Promising not to raise prices to us.

Recently, Winn-Dixie responded to consumers' growing alarm over rising prices by putting a price freeze on all meat and grocery items. We'd like to thank the many suppliers who have joined us in our fight by promising not to raise prices to us.

Over the past 20 years, the cost of living has gone up tremendously. Rent has increased 57 percent; medical care 128 percent; clothing has gone up 58 percent... and yes, the cost of food has increased 43 percent. However, in 1951, 23 percent of your total income was spent for food. In 1971, only 16 1/2 percent was spent for food. But we realize that's a lot of money. And that's why Winn-Dixie has frozen prices.

Joe A. Adams

G. FRANKLYN WARD, Jr. of Avon Park, left, general manager of Ward's Nursery, receives a certificate of honorary membership in the Citrus Club of Florida Southern College from Jere L. Stambaugh III, a junior from Auburndale and secretary of the club.

Stambaugh is this year's winner of the \$300 scholarship given by Ward's Nursery in memory of the late William F. Ward, founder of the citrus nursery and donor of the Ward Horticultural Laboratory at Florida Southern.

Commissioners Ask For Study Of County's Water

The County Commissioners agreed Tuesday to spend \$13,000 next fiscal year to study the quantity and quality of Highlands County's water.

The study would actually cost \$20,000, half of which would be funded by the federal government through the Department of the Interior.

Richard C. Heath, a supervisory hydrologist working for the Water Resources Division of the Geological Survey in Ocala, explained the program that has been worked out for the county.

Under the proposed plan, stations would be established on lakes and creeks in the county to monitor water quantity and quality.

The results of the monitoring program would provide an index against which change in water availability and quality might be measured as pasture land is transformed through urban development.

Biological and chemical checks would be made during "high", medium and low periods, i.e., during September, January and May, respectively. Quantity would be checked

monthly and ground water would be checked annually.

Heath explained that monitoring devices would be established on the following county lakes: Pythian, Letala, Letta, Bonnet, Sebring, Little Redwater, Dinner, Jackson, Josephine, Annie, Placid, Mirror, Sirena, June in Winter, Grassy, Huntley and Clay. In addition, Carter, Josephine and Arbuckle Creeks would be monitored.

Some of the lakes and creeks in the county are already being monitored for flow rates and water levels through a program operated by the Internal Improvement Trust Fund.

Heath stressed the fact that the Water Resources Division is an information-gathering body only. It has no responsibility for acting should it discover that the county's waters are being polluted or are being drained through the process of urban development.

The Commissioners agreed that they must have the type information that the study is designed to provide if they are to make intelligent decisions in the future.

They voted approval of the program at the \$13,000 level provided the federal government matches the county's contribution.

Heath could give no guarantees that the federal portion of the study money would be made available.

In the event that the Department of the Interior is unable to enter into a cooperative arrangement with Highlands County, the Commissioners will then have to decide whether they will fund a reduced monitoring program paid for entirely with county money.

Devils Will Host Sub - Group Tournament Starting Today

The Avon Park Red Devils will host a sub-group tournament starting here at Head Field tonight (Thursday). The Class AA District 6 championship will be determined by two sub-group meets with the winners of each meeting next week in a best-of-three game series.

Tonight in the first game at 7:30 o'clock the Fort Meade Miners will play the Mulberry Panthers and at 9 o'clock the Avon Park Red Devils will take on the Santa Fe Crimson Hawks.

The finals of the sub-group being played here will be played on Friday night starting at 7:30 p.m. between the winners of the Thursday night games.

At Sebringville the other sub-group meet will be held with Frostproof, Zephyrhills, Adairsville, Pinedale and Pinesprings competing to meet the winner of this meet next week.

The winner of AA-6 will move on to the regional meet and possibly to the state baseball tournament.

The Red Devil varsity baseball team finished the regular 1972 season with two wins and a loss last week to close with an 11-5 record. Today (Thursday) the Red Devils will participate in one of the sub-group tournaments for Class AA District 6.

The two wins last week were over Clewiston 12-4 and Fort Meade 11-3 and the loss was a nine inning affair to Alva Saturday night by a score of 7-6.

In Clewiston Tuesday night a week ago the Devils slammed out fourteen hits to take the 12-4 win from the Lake-Ridge Conference foe.

Don Sizemore blasted a homerun out along with a triple by Tim Underwood and doubles by Howard Sizemore and Leon McRae. Sizemore went 4 for 4 against the Tigers and Underwood hit three for four as the Devils tore up the Clewiston pitcher. Sizemore and Nate Williams both went two for four and Keith Richards, Eddie Ezell and Howard Sizemore all had the one hit.

Archie Bass started on the mound for Avon Park and hurled one and two thirds frames before he was relieved by young Buddy DeWitt. Bass gave up two runs and four hits. DeWitt pitched one and a third

innings, allowing no hits but taking the responsibility for two runs. Don Sizemore came on in the fourth with no outs to finish out the seven inning game.

Sizemore gave up only one hit and struck out 9 batters during his four innings on the mound. Last Friday afternoon the Red Devils really blasted Fort

Meade in their own park as they boomed out fourteen hits again to take the 21-1 victory in five innings. Arlie went the distance for Avon Park giving up two

Nine Arrested At Party

Sheriff's deputies interrupted a party at Sparta road shortly after midnight Sunday night and arrested nine people, six of them from Sebring.

Most of the charges were for possession of alcoholic beverage by a minor and unlawful assembly.

John Roy Wright, Jr., 20, of Sebring, was charged with possession of alcoholic beverage by a minor, resisting arrest without violence and unlawful assembly.

John W. Wright, 44, of Sebring, and Gregory Arthur Daddins, 22, of Sebring, were charged with seven counts of contributing to the delinquency of minors by giving them alcoholic beverage and unlawful assembly.

Bonds for John W. Wright were set at \$7,100; for Daddins, \$3,600, and for the others \$100 for each count.

The three youths were in progress in a wooded area on a vacant lot next to the Wright

home on Sparta road. City police alerted the sheriff's office that a party was in progress. Deputies Richard Cooper and Mike Mercer drove to the scene, parked their cars in the darkness and watched proceedings.

Sheriff O. L. Raulerson said that the deputies watched about 20 minutes and that the group was around a campfire drinking and talking. When two started to leave, the deputies made their presence known and said all were under arrest. Wright, Jr., already was in his car, a can of beer between his legs.

Raulerson said a deputy reached for the beer and a few words were passed. Asst. Police Chief Craig Graybill and Patrolman Steve Gustaf helped transport the crowd to jail.

When the group appeared Monday before County Judge Marvin Reber to wait for the arraignment, two friends of the accused were on hand. They had something to say and the judge said he felt they got too smart. He ordered both placed in jail for 24 hours on contempt of court. Jailed were Philip George Howell, 19, of Sebring, and Debbie Cunningham, 19, of Colwell, Mich.

The Republicans, he said, plan to take it to Federal court if plans are approved as is.

Highlands Re-Districted In Two Parts Over Protest

Despite protests from both Democrats and Republicans, Highlands County has been re-districted by the State Legislature so that part of the county is one district, part in another.

The splituation drew from Rep. Bob Johnson (R. Sarasota) the comment: "They didn't give a damn about the little counties like Highlands and protected the big delegations. The Democrats gerrymandered all over the state and the Republicans will take it to federal court."

The redistricting plans - these are three - will have to be approved by the state supreme court. There will be a hearing Apr. 22, with preliminary hearings and oral arguments being heard this week.

Democrats as well as Republicans were unhappy with the decision to split up Highlands county in different districts for the Florida House of Representatives. The Legislature also re-districted for the U.S. Congress House of Representatives and for the Florida Senate.

Sen. Wilbur Boyd, of Palmetto, was chairman of re-districting. Boyd has represented this district and under the Senate re-districting would continue to do so.

Boyd's office said the re-districting involving this county has been done as follows: House districts 49-50-51-52, which will have four representatives; that top

northern part of Highlands county, which includes Avon Park; part of Ocoola and part of Polk counties.

District 75 - the lower part of Highlands county including Sebring and Lake Placid and areas north and west of the city of Avon Park.

Congressional District No. 18 -

all of Highlands county, Collier, Indian River, Ocoola, St. Lucie, Martin, Okeechobee, Glades, DeSoto, Sarasota, Charlotte, Lee Hendry; parts of Orange, Palm Beach and Sarasota counties.

Florida Senate - All of DeSoto, Glades, Hardee, Highlands, Manatee and

Okeechobee counties.

In the Congressional district there will be a new Congressman, for Highlands was re-districted out of the district in which Cong. Paul Rogers, who now represents Highlands, now lives.

Know Your Hospital

by John McCrellan
Administrator
Walker Memorial Hospital

Hospital Utilization, perhaps, is one of the most written about subjects we see in hospital and medical printed matter today. The word utilization is self-explanatory in most cases, but when it is applied to the hospital, probably confuses a large number of people.

The definition used by hospital and medical personnel is that the doctor admits a patient to the hospital only when necessary for proper medical care and discharges that patient as soon as maximum hospitalization benefits have been received.

Because of the importance of proper utilization of hospitals and particularly those participating in the Medicare program or in any other federal program, our records are subject to review by the Social Security Administration, by the State Health Department, by Blue Cross and other insurance coverage relating to the patients for which they pay. In the event the utilization of the hospital is abused by the patient staying much longer than is necessary, Blue Cross, as the financial intermediary for the Social Security Administration may upon audit of the record, require the hospital to refund the money which was paid for the over-extended stay of the patient concerned.

Another penalty the hospital faces for improper utilization is having the authorization to participate in federal programs revoked. Should the hospital grossly violate the utilization program, Blue Cross could also cancel its contract with the hospital. Contrary to what was 20 years ago a hospital is no longer autonomous in its operation. It is sometimes difficult for a family to understand why a member of the family must be transferred to a nursing home when they are unable to care for themselves, however, because of the rules under which we operate, we are required to do so even though

the patient himself is paying and there is a surplus of empty beds in the hospital.

A patient is not in need of hospital care when custodial care will suffice. Custodial care is defined as "care designed essentially to assist an individual to meet his activities of daily living." Example: Services which constitute personal care, such as helping in walking, getting in and out of bed, assistance in bathing, dressing, feeding and use of the toilet, preparation of special diets, supervision of medication, which can usually be self administered and which does not entail or require the continued attention of trained or paraprofessional personnel. This is contrary to 10 or 15 years ago when a patient could stay in the hospital as long as he had money to pay for the charges.

LeBeau made his spectacular flag jump from Gossick's plane to open the show and Walt and Sandi then Don circled the parachute in his day's second precision jump was made later in the show using a para-glider type of chute. The Pierces and the Gossicks and Bob LeBeau contributed the show. The Gossicks arranged for planes and pilots as well as donated the gasoline for the Penny-A-Pound ride. Young fliers-in-training donated ground services for the planes.
