Council Adopts Ordinance To Regulate Airport Traffic

The Avon Park City Council adopted an emergency ordinance concerning airport traffic at their last regular meeting held Monday at City Hall.

The urgency of the ordinance was made known at the last regular meeting, May 22, when Charles Hoke told the council of some near accidents occurring at the city airport. The council decided then that measures were needed so the city could enforce some type of regulations at the field.

City attorney John Hancock drew up the emergency ordinance and gave it to the city fathers last Monday night.

The ordinance calls for minimum landing paths for aircraft, and various standard rules concerning planes on the ground and in the air.

Don Gossick, operator of the Avon Park Airport, complimented the city on the ordinance, and only asked that some of the terms of the law be listed in the ordinance, which was done at the meeting.

Classifying it an emergency, the council read the proposed ordinance on name only, and then, with a motion by councilman Durrah Martin, read the ordinance for its third and final time. It was then given to the mayor for his signature.

Gossick also presented plans to the council for proposed tee hangers for the aircraft at the airport.

This hanger would be capable of housing 8 planes, constructed of steel and placed on a concrete flooring. Each of the eight storage bins would have some type of sliding doors enabling the airplane owners to lock their craft away for its protection.

The mayor, Robert Barben, reminded the council that he feels the airport is definitely an asset to the city of Avon Park, stated that "you really can't put a dollar value on it, and one thing a truly progressive city needs is a good airport."

The city fathers decided to take bids on such a hanger with the rental fees to be decided at a later date.

In other actions taken by the council at their meeting last Monday night, they unanimously decided to accept a contract from United Telephone on the fire alerting system with a price of only $22.00 per month. This system has brought praise from other cities using it. Fire Chief Mack Flowers said at one meeting, the line would place 14 firemen on one line, able to be contacted immediately in case of an emergency, without blowing the fire whistle.

Councilman Hermon Sizemore requested one or more policemen be deputized by the Sheriff, enabling them to patrol problem areas adjacent to the city limits. One area was mentioned, which has been the scene of two shootings in the past two years. The area is also plagued with problem drinkers, who distrub residents inside the city limits. Chief Ferland Cribb was asked to check into this with the sheriff of Highlands County.

It was mentioned at the meeting that the city presently is unable to meet the demands of city employees for ice while they work for the golf course, city jail, and fire department. Councilman Milton Howard moved that the city purchase a 15 cu. foot chest type freezer from Avon Wholesale Electric Supply, at a cost of $206, so ice can be stored and the demands be met. Council President J. R. Duggan was unable to receive a second to the motion, so he passed his gavel to Vice President Durrah Martin, and seconded the motion himself. After this, the motion was passed unanimously by the city fathers.

Raulerson Is Candidate For Sheriff

Sheriff O. L. Raulerson announced this week he will be a candidate on the Democratic ticket seeking the nomination to the office of sheriff of Highlands county.

Raulerson was born in Okeechobee, and received his education in the schools there. Upon graduation from Okeechobee High School, he enlisted in the United States Air Force. After his honorable discharge from the Air Force, he was accepted in 1963 by the Florida Highway Patrol. In 1965 he requested and was granted a transfer to Highlands county. He served with the highway patrol here until he resigned Dec. 31, 1968, to take a position as road patrol supervisor with the late Sheriff Joe D. Keene.

Sheriff Raulerson was appointed chief deputy in September of 1969 and served in that capacity until the death of Sheriff Keene in September 1970. At that time, he was appointed interim sheriff and 10 days later was commissioned by the governor to fulfill the unexpired term of the late Sheriff.

O. L. Raulerson

In addition to his training and experience gained with the FHP, as chief deputy and sheriff of Highlands County, Sheriff Raulerson has received training in riot and crowd control, completed FBI general law enforcement courses, supervision of law enforcement personnel, executive law enforcement development, prevention of civil disorder and numerous other law enforcement courses.

Raulerson stated that he feels his department has progressed in the past two years and has become a more professional organization. He has instituted a new records keeping system which is considerably more efficient and up-dated. New jail procedures are in use which have decreased the cost of jail operation and has increased security and efficiency.

In addition to the operation of the sheriff's department, the responsibility of the new ambulance service has been placed with the sheriff's office, effective Jan. 1, of this year. All men working in this service have received in excess of 300 hours of special training and are qualified first aid instructors.

Sheriff Raulerson, his wife, the former Judy Rains, and their two children Laurie, Age 5 and Todd, age 3, live at 1720 SE Lakeview Drive in Sebring. He is a member of the National Sheriff's Association, Florida Sheriff's Association, Florida Peace Officer's Association, and the Sebring Elks.

Summer Program June 19

Avon Elementary School has a tremendous plan for its summer program. The central idea in planning the summer activities has been to try and reach every elementary student that is available this summer. All of the activities are organized around the needs of children. The child is the hub of the "activity-wheel" this summer.

Children entering first grade in September are urged to attend the pre-school summer program at Avon Elementary school beginning June 19 at 9 o'clock A.M. This enrichment for pre-schoolers will include training in readiness for reading with emphasis in visual and auditory perceptual development, story hour, films and film strips, primary number concepts; music, and art enrichment.

Pre-schoolers living in the Hopewell area will leave Hopewell School by bus at 8:45 each morning and return at 12 noon. The entire pre-school program will be conducted at Avon Elementary.

Registration for the Summer Enrichment program will be Monday afternoon, June 19, 1 thru 3 o'clock at Avon Elementary. Registration for students living in the Hopewell area will begin Monday morning from 8:30 until 12 noon.

This year the summer program is placing emphasis on developing children's strengths in reading and arithmetic. To aid this development the library will be available for use by all children. A well planned and delightful program in reading enrichment, speed reading and arts and crafts is scheduled.

James M. Rimer Will Seek Commission Seat. District I

JAMES M. RIMER, 41, a resident of Avon Park for 10 years, announced that he will be a candidate for County Commissioner, District 1, on the Republican Ticket.

Rimer has had extensive business experience in Highlands County. He has been General Manager of Lakeview Memorial Gardens for the past 3½ years. He attended the University of Georgia, is a Veteran of the Korean War, serving in the Air Force. He is a past Secretary of the Avon Park Jaycee's and was on the executive committee for the Avon Park Diamond Jubilee Celebration. He is a member of the Kiwanis Club, President of the Sebring Chess Club, member of the Chamber of Commerce, member of the Florida Cemetery Association, and zone 1 co-ordinator of Highlands County Civil Defense.

He is married and has 5 children. Under the Election Disclosure Law, Mr. Rimer states, that as General Manager he earns a salary and his living from a Corporation that is licensed in and controlled by the State of Florida.

Rimer knows that the County is going to be faced with a tremendous growth in the next four years and it is time for concerned citizens to provide the leadership for a workable County Government. He is against any increase in taxes, or creation of government bureaucracy. New ideas and thoughts must be provided for a new direction of County policies. The growth that is now upon us should be controlled for the benefit of all concerned. There needs to be more concern by government for the needs of all it's citizens, especially what the growth of Senior Citizens is going to do to our resources. The county will need more Doctors, more Hospital facilities. Transportation problems will arise as the older people will become unable to drive. Fire protection, outside the city limits is already a problem. Rimer states that these are some of the problems that he will look for answers to if he is elected.

Tax Returns Deadline Near For Filing

The intangible personal property tax on cash, stocks, bonds, accounts receivables and other taxable holdings will be delinquent after June 30.

J. Ed Straughn, executive director of the Department of Revenue, urges individuals, fiduciaries, corporations, partnerships and others subject to intangible tax to file their return, along with their remittance, prior to July 1, 1972, in order to avoid a delinquency penalty of five per cent (5) for each month, or portion thereof, on the amount of delinquent tax.

If the tax on intangible holdings as of January 1, 1972, is five dollars or more, the owner is subject to the tax.

Zoning Chairman Will Speak To Avon Park Chamber June 27

John Morris, Chairman of the Avon Park Chamber of Commerce Community Planning and Development Committee, stated this is another service for the Chamber of Commerce members, keyed to stimulate greater interest in the future planning for the anticipated growth of our area.

Eight Thousand Will Drown

More than 100 million Americans will soon take to the water for a summer of swimming, boating, surfing and water skiing. Almost eight thousand will drown.

Tragically, we just do not use common sense when near the water. For some reason, we only see the pleasure and relaxation of things like cars and the water. Danger, however, exists.

Usually we fail to think ahead. Most people realize that they should check for submerged objects before diving, and that they should not eat immediately before swimming. But when friends urge us to join them in an inviting lake or pool, we tend to forget about common sense. That can be fatal.

Water safety precautions are for everyone, not only swimmers and boaters. Sounds illogical? Well over half (60 percent) of the people who drown each year fall into the water accidentally.

They are usually near a dock or shore, but cannot swim. Common sense tells us that anyone going near the water ought to know how to swim. But the joy of being near the water too often replaces foresight.

The Red Cross, YMCA, YWCA and scouts usually give swimming lessons. They are especially important for small children. A child can drown in a supervised wading pool within seconds. Remember, too, that inflatable toys are precisely that — toys, not life jackets.

Other water safety advice: never swim alone; try to swim under a lifeguard's supervision, and avoid swimming near diving board and pier areas. These rules are as obvious as making sure the water is deep enough before diving. People who know water safety rules injure or kill themselves in a moment's carelessness.

A few more tips:

Impressive as they are, storms are dangerous. Water is a conductor of lightning.

When being carried by the tide, swim with the current toward the shore.

If you get a cramp, do not panic. Fear causes untold deaths. Remain calm, try to float and call for help.

Wooden rowboats usually float, so hang on if you capsize.

Swimming when overheated or overtired is as dangerous as swimming right after eating. Wait an hour.

Do more than merely memorizing these points. Heed them. Get a water safety booklet, learn to swim and fully enjoy aquatic activities this summer, but not be one of the eight thousand.

Smith Returns From Trip To Ethiopia

Mr. Charles H. Smith of 204 E. Winthrop has recently returned from the first of a two part assignment in Ethiopia. Mr. Smith is a member of a team employed by Frederic R. Harris, Inc., of New York to make a study of the Imperial Highway Authority's road maintenance program. According to Mr. Smith there is little glamour but nonetheless an underlying sense of excitement to working with people of other countries in surroundings that completely differ from those of Florida.

For one thing, he reports that the climate is quite mild in Addis Ababa where the elevation is 8,000 feet above sea level. Although most of Ethiopia is rough and rugged mountain country there are vast expanses of the typical grassland plains of picture book Africa.

Mr. Smith traveled to many parts of Ethiopia where communication even between natives was difficult, there being over sixty basic languages spoken throughout the country. He found accommodations to be generally acceptable although of a more basic standard than those in the United States. In some areas there is no driving between 6 p.m. and 6 a.m. as a precautionary measure and to protect the traveler from uncontrolled elements.

Mr. Smith says that even though housing and sanitation standards leave much to be desired, Ethiopia with a history of Christian culture of more than two thousand years should not be by passed by the tourist who is in that general area of the world.

Know Your Hospital

THE HOSPITAL BOARD OF TRUSTEES, ITS PURPOSE

The many changes which have come into our hospitals in the recent years, have also effected the purpose and functions of the board of trustees.

The founders of hospitals established these boards to secure financial support for the hospital. In the beginning affluent citizens were recruited, because they had sufficient wealth to help subsidize hospital operation.

In subsequent years the hospital trustees purpose changed drastically.

"Currents in Hospital Administration," published by Ross Laboratories, reports that hospitals today have boards of trustees not only because of legal accreditation requirements, but because, "a board is regarded as a necessary governing and regulating component in the success of hospital operation."

A survey made by "Currents," shows that todays hospital trustees bear the following responsibilities:

To assure that all necessary personnel facilities, supplies, equipment, money, and management are available to achieve accredited status. To act as an organ or review, appraisal, and appeal in a judicial matter. To assure that the hospital is in a position to perpetuate its services. To assure that each patient is safe and fully protected, when he enters the hospital and uses the facilities.

The survey expressed that the hospital board should establish operating procedures, but deligate responsibility for implementing and carrying out these policies to the administrator.

Rotary Report

by Don Farrens

The program this past week was a very entertaining film starring the "Splendid Splinter" of the Boston Red Sox, Ted Williams. Ted has gained a little weight but it certainly doesn't seem to have affected his fishing ability or his love for the sport. We were treated to action shots of the sport's idol catching Tarpon on spinning tackle, a regular rod and reel, and even the Trout fisherman's favorite apparatus - the fly rod. The action was fast and furious and was certainly enjoyed by all.

Bud Worden mysteriously cancelled all appointments and was last seen heading for Lake Istokpoga.

Mrs. Robert Claude Crews

Maness - Crews Married In Presbyterian Church June 10

The First Presbyterian Church, Avon Park, was the scene on Saturday, June 10, of the wedding of Miss Amanda Marie Maness to Robert Claude Crews, at eight o'clock in the evening.

The bride is the Daughter of Mr. and Mrs. Lee R. Maness of Highlands Avenue, Avon Park, and the bridegroom is the son of Mr. and Mrs. C. Elton Crews of Lake Lotela, Avon Park.

Reverend W. O. Ragsdale performed the double ring ceremony before an altar flanked by stately Areca palms. An ornate imported white alabaster column holding an all white formal massed arrangement of stock, glads, asters, roses and carnations formed the background for twin brass 15-branch candelabras which illuminated the wedding party. The bridal couple stood beneath the lighted cross as they took Communion.

The elegancy of dainty white baskets with lilac asters, white pompoms and orange blossoms, marking the families' pews, completed the church decorations.

A white lace covered table held the bride's book, kept by Lyn Dunn of Sebring, which guests signed on entering the church. Two white roses held in a silver bud vase, was used as decoration for the table and were the same roses that were given to the bride on entering the church to be given to the bride's mother and bridegroom's mother, with a kiss, as she left.

Mrs. Jay DeShong, organist rendered a program of Nuptial music, which included, "Air" from Water music by Handel: "Liebestraum" by Schubert; "If Thou Art Near" by Bech: "Cherish", "You'll Never Walk Alone", "Bridge Over Troubled Waters", "Theme From Romeo and Juliet" "Larghetto" by Handel and the traditional wedding marches by Lohengrin and Mendlsohn.

The lovely bride wore a candlelite gown of bridal satin and lace. The lace bodice was accented with high neckline and long lace sleeves, which came to a point at the wrists. The floor length bridal veil of silk illusion fell from a crown of lace and seed pearls. Lace edged the long flowing veil. She carried a formal cascading crescent design bouquet using the bride's favorite flowers, white sweetheart roses, miniature white carnations, white phalaenopsis, fresh orange blossoms and dainty violets.

Miss Pam Maness, sister of the bride, was maid of honor. She wore a gown of lilac moon-dust crepe with matching lilac picture hat. She carried a white formal basket of lilac asters, white pompons, orange blossoms and miniature ivy cascading out of each side.

Matron of honor was Mrs. Norman F. Stewart, sister of the bride from Homestead. She wore a gown of lilac moon-dust crepe, same as the maid of honor, only with white picture hat. She carried a basket of white roses and orange blossoms.

Miss Babs Maness, sister of the bride of Avon Park was bridesmaid. She was gowned same as matron of honor in lilac moon-dust crepe, with white picture hat.

Flower girls were Carol Padgett, daughter of Mr. and Mrs. R. L. Padgett, Lake Lotela, and Angie Crews, daughter of the bridegroom's brother, Mr. and Mrs. Clifton Crews, Lake Lotela. They were gowned in white moon-dust crepe, same style as honor attendants, and carried white baskets with lilac blossoms.

Ringbearers were Skipper Hewell, cousin of the bride, from Iva, S. C. and Denny Crews, cousin of the bridegroom.

Serving as best men were the bridegroom's father, C. Elton Crews and Charlie Hood both of Avon Park.

Usher-Groomsmen were Peter Fredrick, Alan Hutchinson, Avon Park; Tom Pharis, David Pimental and Paul Elwood, all of Athens, Ga.

For her daughter's wedding, Mrs. Maness wore a floor length gold brocade gown with gold accessories and a corsage of yellow sweetheart roses with gold decorative pearls.

Mrs. Crews chose for her son's wedding a floor length gown of pink chiffon with matching accessories. She wore a corsage of white sweetheart roses with green decorative pearls.

Immediately following the ceremony, a reception was held at the home of Mr. and Mrs. R. L. Padgett on Lake Lotela. Assisting in receiving and serving were: Mrs. R. L. Padgett, Mrs. Bill Hood, Mrs. Lew Miller and Mrs. Dennis Hood.

A beautiful white linen drawn cloth covered the bride's table which held the three-tier wedding cake adorned with a dainty chain of lilac and yellow sweetpeas and large roses. Napkins were inscribed with Mandy and Robert and their wedding date. Nuts and mints were in silver bon bon dishes, with the only other decoration, the bride's bouquet and a Dresden candelabra with four white burning tapers. A crystal compote held a gorgeous arrangement of pink and red roses on the buffet, with the bridesmaids' baskets of flowers at focal points in the lovely home. Guests enjoyed refreshemts at tables on the lawn, by torch light, where hot and cold hors d' oeuvres were served with a tasty punch, along with the groom's spice cake. Inside, punch was served from a silver bowl along with hors d' oeuvres from silver trays.

When the new Mr. and Mrs. Crews left on a honeymoon for points of interest in Florida and Georgia, the bride was wearing a bone colored three-peice ensemble, with matching accessories, and a corsage of white roses and violets.

After their honeymoon, they will reside in Athens, Gla.

Mandy attended Avon Park and Sebring schools, graduating with the Avon Park High School Class of 1972.

Robert graduated from Avon Park High School, and is at present a Senior at the University of Georgia, Athens.

Maness-Crews Rehearsal Dinner

Mr. and Mrs. C. Elton Crews entertained members of the Maness-Crews wedding party with a dinner Friday evening, June 9, at Griffin's Restaurant.

The bride and groom's wedding colors of lilac and white were used most effectively throughout the room. The "T" shaped tables and side tables were covered with white linen cloths. The center table held a silver antique branch candelabras with burning tapers. Impressive white and lilace original bird cages containing a pair of white doves, symbolic of Love, was a focal point for all the tables. Smaller arrangements of white and pink mums with lilac astors surrounded a single burning taper centered each table. Bride and groom place cards showing a pair of doves holding encircled wedding bands marked places for the 70 guests who attended this lovely affair for Mandy and Robert.

Smith Donates Book To Library

The Avon Park Library has just placed on the reference shelf a book titled "Lalibela" by Irmgard Bidder.

This book was a gift to the library by Charles H. Smith, who recently returned from a six week assignment in Ethiopia.

This book describes in beautiful prose and vivid color the monolithic churches of Lalibela.

Mrs. Bidder, the wife of the German Ambassador in Adis Ababa, describes the geographical and historical situation of Ethiopia in antiquity and in the Middle Ages and comes to surprising conclusions as to the manifold influences and activities which radiated from this country even in those early times.

The notes accompanying the plates and illustrations deal in particular with the formal details of the various churches and give a very convincing proof of her hypotheses as to the condition and time of their origin.

Mrs. O. G. Knowles returned to her home in Forest Hills this past Sunday after a visit with her son and family, Roy V. Knowles of Eustis.

SFJC Has 116 Vocational Graduates

As the double doors in the back of the Avon Park High School auditorium were opened at 7 p.m. Tuesday, June 6, a double line processional of guests, Vocational faculty members of South Florida Junior College, and 116 graduates of the Vocational Technical Division filed to the front of the auditorium.

The processional music, "God of Our Fathers", was played by Buford Jasper, Music Instructor at South Florida Junior College. The guests, Dean Donald H. Farrens, C. M. Lawrence, Willie Beaty, and Dr. William A. Stallard, took their places at the front of the stage while the Vocational faculty members, Larry Hooper, James Goza, David Wyche, William Hood, Sue Brown, Barbara Jean Kurtz, Charles Goodwin, Berenice Walker, Gene Statler, and Lem Brumley took their seats behind them.

The graduates took their places in the front section of seats which were marked off with orange bows. An arrangement of Gladiolus and mums, in the school colors of orange and white, were placed in front of the podium.

The Invocational was given by Willie Beaty, Minister of Education and Youth at the First Baptist Church of Avon Park. Following the Invocation, Dr. William A. Stallard, President of South Florida Junior College, welcomed over 200 guests, family members, and friends of the graduating class.

Donald H. Farrens, Dean of the Vocational, Technical and Continuing Education, introduced guests seated in the audience. Dean Farrens then introduced the guest speaker, C. M. Lawrence, Administrator of Program and Supervision from the State Department of Education in Tallahassee.

In his commencement address, Mr. Lawrence talked about the American Advantage. He stated that it is an advantage to be in this state and this country today. He went on to state: "Often we wonder what the future holds for us; and where is this advantage. The American advantage did not come easy–it costs something."

"To maintain this American advantage and to take advantage of being an American will cost even more." He used examples to explain that the last two generations have paid the price for the advantage these graduates have. These generations have increased the life expectancy by over 50 per cent. They have more than doubled the labor output and made this a healthier world to live in. They have lived through the greatest depression and fought one of mans grittiest wars to preserve the American advantage. They fought racial discrimination. They built many high schools and junior colleges; trained and hired better teachers; and made education a possibility for many adults who never dreamed of having this type of education."

"The advantages are yours because of the hard work these people have done. If you can do as well as this generation has done, perhaps we can solve the remaining ills in this great country of ours. Negative thinking and belittling will not give you the advantage.

Mr. Lawrence asked if we ever realized that the last four letters in American are "I Can." "Accept the idea that you as an individual can do something and have faith in your own abilities and faith in yourself. The real values in this world will go to those that find it worth fighting for.

In his concluding remarks, Mr. Lawrence remarked, "You have a choice of being a stumbling block or a stepping stone." He then challenged the class to further their education and to be a stepping stone and help society move forward.

Dean Farrens recognized supporting members of the faculty staff and part-time staff of South Florida Junior College. He then asked Dr. Stallard and the Instructor of each class to join him in presenting the diplomas and certificates.

APCI Nursery
"How We Grow Them"
by Jim Kiser, inmate

We had the pleasure of seeing the new fiber-glass roof installed on our Orchid House today. That capable crew finished the complete project in one day. This new roof is just the start - more is to be accomplished on the inside. Now that we will have some control with rain, sun, and insects, we will start off by giving the Orchid House a thorough cleaning. From the point of ecology, I dislike any unnecessary spraying; but to begin without applying both fungicide and insecticide would be equally wrong. I believe what I read on labels and that following instructions is a must. The only damage that I have seen, to both man and plant, has been the result of carelessness.

We had another visit from Mr. Robert Elgin of Avon Park. Never coming empty-handed, Mr. Elgin donated another Magnolia grandifloris to the Nursery. He brought with him another tropical-tree enthusiast from Lakeland, Mr. Robert Snow. Mr. Snow is experimenting with many varieties of salt-tolerant tropical trees and he had some good information for us.

LAWNS: Now is the time when a very unfriendly fellow may take up residence in your lawn. The chinch bug can undo a lot of hard work for you if action is not taken at the first sign of invasion. Watch for copper colored patches on your lawn and search the edges of these patches for the bugs. They are red or black and about one-fifth of an inch long. The damage they do looks similar to sunscald or drought, so check carefully. Locate the bugs before you take action. The chemicals used to eliminate these pests are very toxic, and you must follow instructions to avoid contamination.

FLOWERING TREES: Those that have finished blooming might need cutting back if they take too much space. You have enjoyed their main attraction and it will be safe to give them a light pruning at this time. Bauhinia (Orchid Tree), bottlebrush, royal poinciana, and jacaranda are tropical trees that fall into this category.

AZALEAS: Can be tubbed now for your winter pleasure. What a delight they are for the patio and Florida room in the winter. They can be easily moved now and still there will be time for another shaping before setting their final shape for the winter. Even if you do not have any tub specimens in mind, you should prune now to obtain a pleasing form.

A letter from Mr. and Mrs. Charles Clemmons in Shelbyville, Mich. relating their pleasure when they arrived home and saw their new trailer - it smelled so new and looked so nice. They have planted a garden and in his spare time Charlie goes fishing; caught 19 blue gills last week at one time. They were planning a visit to Mr. and Mrs. Floyd Stevens to help them celebrate their 50th Wedding Anniversary.

Arriving home last Monday, Robert Gibbs is now at Walker Memorial Hospital in intensive care. We are hoping a complete and speedy recovery for him.

Mr. and Mrs. Charles Brush left for Urbana, Ohio last week on a Saturday morning, Mr. and Mrs. Walter Coady left a day earlier than planned. Have a safe trip, folks, and pleasant summer.

Jonathon Wright is spending his days now working at Highlands General Hospital in the office, and pleased to be there.

The Robinsons spent a pleasant Sunday on a trip to Orange City, Fla. to see the new Aldersgate development with Mr. and Mrs. Julius Converse and Mr. and Mrs. Norman Weissert from Fedhaven, Fla.

Shuffling

It was a nice warn Wednesday evening to play shuffleberd. Five courts were in play. Clay Kull and Judy Kerr won in the main event with Gertrude Fensterman and Bernice Long coming in second. Winners in consolation were John Harp and Doc Fields over Herb Woolscroft and Allene Howard.

We had a good rain on Saturday evening just in time to prevent the tournament.

Card Games

With four and five tables in play in pinochle on Monday and Friday afternoons, the high score went to Sadie Benson 789, Blanche Hance 764, Sarah Spindler 761 and Sadie Benson 735.

Supper

Six ladies turned out for the supper on Saturday evening. They were Arlene Lane, Edith Martensen, Rose Meadows, Bessie Trude, Larue Longanecker and Mildred Abel. They had a very nice time together, and also a good variety in the supper dishes.

News of the Week

Merrill Wilmot is in the hospital, and is slowly improving, we hope he will soon be home.

Bruce Kline of Hicksville, Ohio, is now out of intensive care in the Parkview Memorial Hospital in Ft. Wayne, Ind. 46805. Maybe some of his friends will want to send cards.

Dr. and Mrs. A. H. Jienice of Strasburg, Pa. is visiting the Blaine Kerrs. Mrs. Jienice is Judy Kerr's niece.

The Sylven Bakers have been spending their week-ends going camping to various places that they would like to see, near their home in Ohio.

Helen and Elmer Good spent three weeks in Chicago, Hammond and Lincoln, Illinois, visiting friends and relatives. Then they took a side trip to visit Lincoln's home and memorial in Springfield. Also they went to Linton, Ind., to see Elmer's sister.

Minnie Brown took the long way home to Groton, N.Y., stopping in Britton, and Palmyra, Mich. to visit Louise Prelipp and Lillian Iffland. From there she went to Eden, N.Y. to see Flora Hoppe, taking her home with her for a week's visit. They then stopped in Amsterdam to visit with William and Theresa Bayes.

One evening lightning struck Minnie Brown's water pipes, which took some time to get all repaired.

Louise Prelipp and Tom and Alma Moroney spent two weeks in Ireland visiting Moroney's relatives and sight-seeing. We will be interested in hearing more next winter when they return to Avon Park.

1964 FORD V-8 A.T., just inspected. R. C. Johnson 385-4092 Sebring. 1tc

1969 EL CAMINO, all power; 1971 Datsun stationwagon 510, automatic and air; 20 ton Red Arrow air over hydrolic press; 2 ton automotive hoist. 385-5317, Sebring 1tp

1952 PLYMOUTH, ANTIQUE, runs, has rod knock. Body and glass in good condition, tires fair, $50.00. 1962 Nash Rambler Station wagon; runs, has rod knock $15., 385-0593, Lake Road, Lorida Acres, Lorida 1tp

It's sort of a miniature muscle car.

No, the Datsun 1200 Sport Coupe isn't one of those great snorting thunderbarges. But it's not your run-of-the-mill economy car either.

It's something in between. A neat little machine that handles like a sports car, goes like a bat and comes with an economy price that includes a lot of extras as standard equipment. Reclining buckets, tinted glass, whitewalls and nylon carpeting to name a few. Add to that an engine that delivers around 30 miles per gallon. It's a powerful combination at any price.

Drive a Datsun - then decide.

County Ordered Into Court On Re-Districting

The Highlands county board of commissioners has been ordered into Circuit Court today (Thursday) to show cause why they did not re-district in 1971.

Judge J. H. Wilson in an order filed last Thursday asked them to "show cause to this court for their refusal and neglect to divide the county into districts of contiguous territory as nearly equal in population as practicable."

Time of the hearing was set at 2:30 p.m. Commissioners are Andrew Jackson, chairman, Norman Heston, Cecil Skipper, Ben McGee and Robert Skipper.

The judge's order followed a petition by Joe D. Kinsey, former Circuit Judge, filing "as an interested citizen of Highlands county in having the laws executed."

In his petition, Kinsey pointed out that the state Constitution provides that after each decennial census the commission divide the county into districts of contiguous territory as nearly equal in population as practicable.

The Highlands County Commission did not re-district last year, although most counties in the state did, and cited "too much cost for too little change" as the reason for not proceeding.

Kinsey maintained that the re-districting is mandatory. He pointed out that the Constitution provides that the Governor may suspend any county officer for neglect of duty.

Declared the petition: "The present districting is "little more than an invitation to partisan gerrymandering" and violates the State Constitution.

Kinsey's petition asks that the Commission, within a time set by the court, fix the boundaries of the commissioners' districts in compliance with the Constitution or show why they should not do so.

Order Follows Petition By Joe D. Kinsey

According to law, Chapter 124, re-districting "shall be made only in odd numbered years." The law provides that the re-districting be done after the decennial census which was taken in 1970. The first odd numbered year was 1971.

The legal action by Kinsey found Elections Supervisor James Whitehouse in the middle of plans for final forms to notify some 6,000 persons in Highlands county their precincts have been changed. Notification must be complete by the next election which is Sept. 12.

"If the court orders re-districting, it means all precinct lines will have to be changed accordingly," said Whitehouse, who has only days now to get the precinct change forms to the printer.

If the re-districting is not ordered at this time, Whitehouse will proceed with plans for changing the boundaries of six precincts and adding four new ones. Those changed will be 3, 4, 5, 6, 12 and 13. The new ones will be 16, 17, 18 and 19.

The precinct changes were necessitated when the Legislature passed the redistricting for the state House of Representatives. Highlands county was chopped up and the pieces put in three different districts.

"We need a year to do this precinct changing in an orderly fashion," said a worried Whitehouse. "We will just have to do the best we can. I hope we get an immediate ruling."

Re-districting for Highlands county and the state has been done at all levels this year - U.S. Congress, Florida House and Florida Senate. The challenge to the House re-districting plan has been carried to U.S. District Court in Jacksonville, where it is pending.

As it now stands, Highlands county has five districts, No. 1, in Avon Park, has 4,382 registered voters; No. 2, northeast Sebring and going north, 2,265; No. 3, 1,442, southeast Sebring, Lorida area; No. 4, 2,525, Lake Placid and Venus; No. 5, 4,081, from the center of Sebring, west and north to Avon Park and south to Lake Josephine.

THE BAGWELL LUMBER team won the 1972 Avon Park Little League Championship last week as they set a 12-1 record with only one game to play and the closest teams both having 3 losses. Pictured here, before the season began, are members of the Bagwell team: first row, left to right; Randy Elder, Charlie Elder, David Sisemore, Jimmy (Bo) Skinner, and Tim Starr. Second row: Jeff Jackson, James Wilburn, Larry Jackson, Jimmy Spurlock, Joel Wright. Back row: Densby Jackson and Jim Sisemore. (Missing from picture: Dale Sisemore and Billy Boyer)

Bagwell Team Is 1972 Little League Champions

The Bagwell Lumber Little League team, coached by Jim Sisemore, wrapped up the 1972 Avon Park Little League championship last week with a 4-2 win over the second-place Lions team. The Bagwell boys had one game left on the schedule for last Tuesday night to finish out the season but the 12-1 record at the close of play last week was good enough to assure the title to the Bagwell nine.

This week will finish action in the regular season play with Baptists set to play the Lions if weather allowed last Tuesday in the early game and Bagwell going against the Bank. Monday night's games were rained out and will be made up this week to finish the season. Leon's was to play Kiwanis and Rotary was to go against I. H. Ford in the Monday night games.

Tied up for second place with just one game to play for each were Lions and Leons with identical 10-3 records. In fourth place was I. H. Ford with an 8-5 record and Avon Citrus Bank was in fifth with a 5-8 mark. First Baptist was in sixth place with 3 wins and 10 losses and Kiwanis and Rotary were tied for last place with 2-11 records.

On Tuesday, June 13, the Lions handed the Bank a 12-2 defeat as Lion hurler Jimmy Massey tossed a one hitter at the Bankers. O. C. Stephens got a double for the lone hit. Thomas Perrypitched he game for the Bank allowing 12 hits including homerun and a triple by John MicKunas. Jimmy Massey had a double, Ralph Hartt, Allen Roberts, and Terry Massey all had two singles and Ricky Jones, Wayne Roberts, and Johnny Barnes had a single each for the Lions.

In the second game that Tuesday Bagwell shut-out First Baptist by a score of 16-0. Larry Jackson pitched four innings of no-hit ball striking out eight batters while Bagwell batters got 8 hits off three Baptist hurlers. Joel Wright, Bagwell firstsacker, went three for three with three singles, Dale Sisemore, Larry Jackson, and David Sisemore all got a double each, and Jim Spurlock and James Wilburn got a single apiece for the winning Bagwell team.

Last Thursday night the games were played out at A.P.C.I. with Kiwanis winning its second game of the season with a 12-11 victory over Rotary. Kiwanis won with only four hits off Keith Cobb and Ronnie Brock. Kelly Graham and Jimmy Bennett both hit doubles and Jeffery Adams and Eric Wilson hit singles for Kiwanis. Rotary got five hits off Adams and Wilson, the two

Board Discusses Use Of Center

The Board of County Commissioners heard Tuesday that the new Agri-Civic Center will have two kitchens serving the same purpose.

During discussion on use policy, County Agent Bert Harris revealed that the larger kitchen was for demonstration purposes only.

The commissioners expressed suprise. Robert Skipper stated that it was his impression from the architectural specifications that the larger kitchen could handle large banquets.

Harris exclaimed, however, that it would be "like taking a Volkswagen and turning it into a Mack Truck." The kitchen could not prepare food for a very large gathering he said.

When questioned on the similar functions, Harris said, simply that the smaller kitchen can handle 15 to 20 people and is for training purposes while the larger kitchen can handle 40 to 100 people and is for demonstration purposes.

Harris said he favored only non-profit use of the center auditorium which prompted opposition from the audience.

Wes Ward said the center will have the largest room in the county and could be a big money-maker.

Ward cited the concert cancelled by Guy Lombardo as proof of inadequate space in the county.

Harris replied that the auditorium should not be available for another "Woodstock."

"We've been worried about some rock band getting hold of the place, and 5,000 kids tearing it up," he said.

Commissioner Cecil P. Skipper suggested that the county clerk, who will be in charge of scheduling, have the discretion to rent the facility on an individual basis.

The Board upon the recommendation of Chairman Andrew Jackson, decided to accept the use policy with the addition that all local non-profit organizations automatically be approved while all commercial operations be brought before the board for approval until a procedure is smoothed out.

Property Owners May Sue County

A property owner whose land may have been washed away with the help of a road drainage culvert is threatening to sue the Board of County Commissioners.

County Engineer Gordon Hays reported that Ruby Bass of Ft. Pierce believes that his land on Lykes Rd. and Lowe Rd. was washed out because of an insufficiently placed county culvert.

Hays said that two pipes have been added to the location since the washout two years ago and that Bass now threatens to sue if the county doesn't restore the property.

Hays said he felt it was an act of nature and not the responsibility of the county. He was instructed to provide all the details to the county attorney.

In other Road and Bridge Dept. matters, the commission:

– Approved billing county high schools for asphalt used in paving tracks, at the material cost of $9 a ton.

– Approved extension of maintenance of Payne Rd; which requires adding sand on top of the present grade.

– Approved request by J. C. Chapman to allow him to pave a portion of a county right-of-way on his property.

– Approved crowning of First through Fourth Streets in Kissimmee River Estates; instructing the county engineer that this was limited to grader work only.

Local Teacher Attends Workshop In New York

Robert R. Watts, Guidance Director at Avon Park High School, has returned to Avon Park after attending an intensive three day workshop in Rational-Emotive Psychotherapy and Counseling, held at the Institute for Advanced Study in Rational Psychotherapy in New York City. The institute is a non-profit agency, chartered by the Regents of the University of the State of New York, and member organization of the World Federation for Mental Health. It is a comprehensive facility, offering professional training and research in rational-emotive psychotherapy and counseling, as well as public education aimed at helping people move more efficiently toward happier, healthier and more fruitful existences.

The three day practicum in rational psychotherapy and counseling is an intensive course for professionals covering the essentials of rational-emotive psychotherapy and counseling, focusing on such areas as psychological homework assignments, special approaches to handling hostility, cognitive behavior counseling techniques, and educating parents and children. Small core groups from the larger group, aimed at providing participants with a live experience in rational-emotive therapy (RET), was emphasized over formal presentations.

The institutes own private school for normal children is an exciting pioneer effort at integrating emotional education in the classroom with an enriched curriculum to help youngsters realize their highest potentials and become sane, happy adults. Teacher training and parent workshops held under the auspices of the School provide assistance to others in the community in incorporating emotional education into home and school settings.

Albert Ellis, PhD., founder of Rational-Emotive Therapy, Executive Director of the Institute for Rational Living, and Director of Clinical Services of the Institute for Advanced Study in Rational Psychotherapy, conducted the workshop along with Maxie C. Maultsby, Jr., M.D., Director of the Psychiatrit Out-Patient Department of the University of Kentucky. The approach that Dr. Ellis and Dr. Maultsby used is based on the belief that individuals can learn to live rationally by consciously seeing that their self-destructive emotions and behavior arise from their own illogical philosophies. They biosocially acquire ideas, then internalize and keep repeating them. The counselor helps the student, in an unusually comprehensive manner, to challenge these self-defeating beliefs and behaviors, emphasizing cognitive and behavior modification techniques. The clinical, research and educational work avoids empirically unverifiable and semantically confused
