How a minus on your paycheck can be a plus in your future.

Sound confusing? It isn't, really. When you join the Payroll Savings Plan where you work, an amount you designate will be set aside automatically from each paycheck. That's the "minus."

That amount will then be invested in U.S. Savings Bonds. That's where the "plus" comes in. Because you're automatically saving for your future, with one of the safest investments there are: U.S. Savings Bonds.

And, by deducting a little at a time from each paycheck, you don't feel the pinch financially. Before you know it, you'll have quite a tidy sum tucked away.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 6% % when held to maturity of 5 years, 10 months (4% the first year). That extra ½% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970, with a comparable improvement for all older Bonds.

Put a little "plus" in your future. Join the Payroll Savings Plan.

Take stock in America.
Now Bonds pay a bonus at maturity.
