THE NEW FLORIDA STATE FIREMEN'S ASSOCIATION BUILDING - This is the first building ever owned by the F.S.F.A., now valued in excess of \$75,000, permanently

State Firemen Will Dedicate New Headquarters Saturday

The first building ever owned by the Florida State Firemen's Association as its headquarters, will be dedicated in Avon Park, Saturday, April 21, at 2 p.m.

The idea of owning their own building to operate out of came to light six years ago during a convention. The president of the association appointed a very special committee to look for a site, preferably in the center of the state so that it would be easily accessible from all directions.

The chairman of that committee was Arlo Lawrence of Kissimmee, assisted by George Tillinghast of Ft. Lauderdale and James Flemming of Miami who is now deceased.

In July of 1969 the city of Avon Park offered the F.S.F.A. five acres of land on U.S. 27 South, then valued at approximately \$21,000, at no charge to the firemen's association.

The Board of Directors journeyed here in April of 1970, inspected the site, and accepted it on the spot.

In May of 1970, once again during convention in Marathon, the official authorization for construction was given by the members. Tom Crews, a captain of the fire department in Ft. Lauderdale, was chosen to be the architect for the building, and Avon Park's fire chief, Mack Flowers was appointed to be the building coordinator and construction superintendent.

The building committee headed by George Tillinghast, consisted of Arlo Lawrence, Mack Flowers, Tom Crews,

John Ziegler, Bud Schreiber, Jack Wilson, and Bill Gunther.

The groundbreaking ceremony was held on November 21, 1970; however actual construction began on December 31 of that same year.

How did they build it? Simple, through donations of time and money from fellow firemen from all across the sunny state of Florida.

Naturally, some work had to be contracted out, however the majority of sweat came from fellow firemen.

Now, with the building

completed, it is valued at over \$75,000 including the land it is situated on.

The dedication ceremony will take place at 2 p.m. Saturday, April 21. The public is invited to attend this ceremony and to inspect the building during the open house which will take place immediately following the dedication at approximately 3:30 p.m. thru 5:30 p.m.

Later that evening, a District Four meeting will take place at the National Guard Armory beginning with a dinner at 7 p.m.

Lunches Go Up This Week In County Schools

Lunches in the county's high school cafeterias went up a nickel this week, but the School Board is holding the line on lunches in the lower grades.

The board April 12 approved the nickel rise and hopes to be able to hold down the cost of the lower schools through this school year.

Schools Superintendent George Douglass said "we analyzed very carefully for 30 days and found the elementary and middle schools can make it

another month, hopefully through the year."

In other actions at that session, the board:

-Heard a report from the superintendent that things are not too rosy in regard to the new funding system for Minimum Foundation Funds which support the schools. He said he would go to Tallahassee April 18 for an emergency meeting on this.

-Heard a report that the County Commission is willing

to assist in relocating school offices to the amount of \$60,000. The board directed Superintendent Douglass and board member John Wirick to work out a tentative floor plan with the architect.

-Passed over plans for the summer recreation program since funding in Tallahassee is not yet definite.

-Approved aide-in-lieu of transportation for Keith Bentley retroactive to January 23.

-Distributed for study a revision of the Policy Book with regard to purchasing.

-Received tabulated bids and committee reports on janitorial, classroom, paper and physical education supplies.

-Gave permission to advertise for equipment for classroom furniture and miscellaneous equipment. In Avon Park and Woodlawn elementary schools, the equipment is nearly 20 years old.

-Approved the following out-of-county bus trips: Avon Park Early Childhood units, Frostproof Living and Learning Center, April 18, Busch Gardens, Tampa, April 25; Avon Elementary second grade, Cypress Gardens, April 26; Zolfo Springs museum April 27; Zolfo Springs park, May 4; Avon Elementary fourth grade, Thomas Edison's home in Fort Myers, April 14; Ridge Area Association, Special Olympics, Lake Worth, April 28; Sebring High stage band, clinic, FTU, Orlando, April 18.

-Recommended that Ben Toney, SHS student who assaulted another student with a blunt instrument, be expelled.

-Approved request for out-of-state leave for Barbara Heilig, American Speech and Hearing Association Southeastern Regional Conference May 9-12 in Atlanta.

Bikers will rally at a central point and the measured course will run for 40 to 50 miles. Check points will be set up at intervals along the route, to accurately clock miles ridden by participants. "Walks and Bike Rides have been very successful in other parts of the country," said President Marine, "and have raised thousands of dollars for the mentally retarded. I know we can count on the citizens of Highlands county to make the campaign here an outstanding success."

Interested riders or sponsors are urged to contact Ridge Area Association for Retarded Children at 385-4688.

Date Set For County

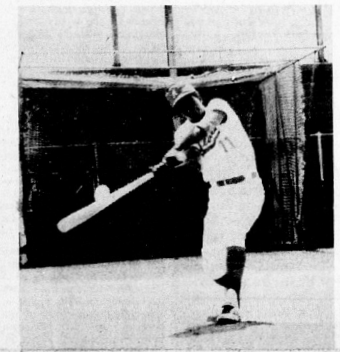

Hike-Bike For Retarded

Steve Marine, newly elected president of Ridge Area Association for Retarded Children, announced the date of the Highlands County 1973 National Hike-Bike for the Retarded.

On Saturday, May 5, Mr. Marine announced, citizens of Highlands county will have an opportunity to take part in this worthwhile event. "We hope everyone who can will join in the 'Hike-Bike' either as participants or sponsors," he said. Marine pointed out that the National Association for Retarded Children has named Calvin Hill, star running back of the Dallas Cowboys, as National Chairman of the 1973 Hike-Bike for the Retarded. The Hike-Bike campaign calls on volunteer citizens all across the country to either "hike" or "bike" for the retarded, over a measured course. Businesses and individuals are asked to

TIM UNDERWOOD, the senior Red Devil pitcher and second baseman, has won eight games on the mound this season and will be ready for action tonight (Thursday) when the Avon Park nine hosts one of the sub-district baseball tournaments here at Head Field. Underwood is also one of the leading batters on the Devil roster with a .358 average for the 19 games.

SHORTSTOP LEON MCRAE has led the Avon Park Devils at the plate this year. The senior all-round athlete has gotten 26 hits in 59 trips to the plate and has a total of 14 RBIs for the 19 games. Leon is expected to pace the Devils at the plate tonight when they compete in the sub-group tourney here at Head Field.

Devils Host Sub-District Meet

Avon Park's Red Devil baseball team won the No. 1 seeding in the Class AA District 6 tournament and will host a sub-district meet here starting tonight (Thursday) at 7 p.m. The Red Devils finished the regular season with a 17-2 record.

In the first game here tonight at Head Field the Fort Meade Miners will take on the Arcadia Bulldogs at 7 p.m. In the second game tonight, Avon Park will play either Lake Placid or Mulberry depending on the outcome of a game played between those two teams last Tuesday night.

The winners of the two games tonight will meet each other at Head Field tomorrow (Friday) night to determine

the sub-district champion. Then next Thursday, April 26, the winners of the sub-district meet here and the winner of the other sub-district tourney will meet in a two-out-of-three game play-off for the district title.

The Santa Fe Crimson Hawks handed Avon Park two defeats last Friday and Monday nights to take the Tri-County Conference championship and knock the Red Devils from the undefeated ranks.

Last Friday night the Santa Fe team won 3-0 here at Head Field and last Monday night the Devils bowed to the Hawks 6-5 in an eight inning game

played at Henley Field in Lakeland.

In between the two losses the Red Devils took a 16-1 win from

Lake Placid on the Green Dravos home field and Tuesday afternoon, April 10, the Devils shut out Fort Meade

13-0 on the Miners diamond. The loss Monday night gave Avon Park a final regular

Kindergarten Registration Disappointing - Roberts

There was a disappointing registration of kindergarten children in Highlands county Friday, but it is hoped more parents will enter their youngsters by Fall.

Total registration of kindergarten children in the county was 155 and of first graders 215.

This will be the first year of the state ordered kindergartens, which are mandatory for the schools to establish, but not mandatory for children to attend.

However, the 155 figure is expected to go up about 100 because there are 28 to 29 children in each of the four migrant kindergarten units already registered in the four year old program and "we assume they feel they already are registered," said Mrs. Mary Roberts, supervisor of elementary education in the county.

The registration at each school on Friday was: Avon Park elementary, 62 kindergartens, 74 first grade; Woodlawn at Sebring, 35 kindergartens, 52 first grade; Fred Wild at Sebring, 19 kindergartens, 44 first grade; Lake Placid elementary, 39 kindergartens, 45 first grade.

Mrs. Roberts said these figures were as of late Friday afternoon, the registration day, and "since then every school

has had some parents come in and register children. Registration, she said, will be open through the opening day of school next Sept. 4.

Mrs. Roberts said that most of the parents who came with the children on Friday brought birth certificates and records of immunization shots the children had had and "I thought this was due to the excellent coverage on newspapers and radio."

She added that the 'Highlands County Health Department came through

beautifully and had a nurse in every school to talk with parents."

In commenting on the small number of kindergarten children registered, Mrs. Roberts said that she had hoped "we would have a figure to give us indications of the children we need to prepare for. A lot of things may have happened. There is a lot of sickness in town. A lot of parents work during the day." She said the county is set up to take care of "around 300" kindergarten children.

Harrison Wins National SDX Editorial Award

John R. Harrison, president of the Lakeland Ledger, vice president of the New York Times, and administrator of its nine Florida papers, has won the national Sigma Delta Chi Distinguished Service Award for 1972 in the field of editorial writing.

It is the second time Harrison has won the award, having won it two years ago. The citation to Harrison reads: "The 10-part editorial series calling for competitive bidding and the removal of patronage from engineering services funded by the state of Florida is newspaper journalism at its best. These concisely written editorials are well documented, tough, designed to result in community action and, above all, eminently readable."

Devils

season record of 17-2 and the Red Devils will host one of the sub-district tournaments here at Head Field starting tonight (Thursday, April 19). In the first game Fort Meade will play Arcadia and the Red Devils will take on either Mulberry or Lake Placid in the nightcap.

On Tuesday afternoon, April 10, the Red Devils took a 13-0 win from the Fort Meade Miners over in Fort Meade in a five inning game. Tim Underwood tossed a one-hitter against the Miners for his seventh mound victory of the season. Only six Miners reached base as the Devils made three errors and Underwood walked three batters in the five inning game.

The Red Devil batters jumped on two Fort Meade pitchers for 11 hits. Tony Williams had a triple and a double and Nate Williams had a double and a single. Leon McRae and Del Murphy both had two singles each and Tim Underwood, Johnny Todd, and Keith Richards all hit one single.

But last Friday night the Santa Fe Crismon Hawks came over to Head Field and knocked the Red Devils out of the win column with a 3-0 defeat. The Hawks scored two runs in the top of the first inning on two hits and two costly errors by the Devils. Then in the third frame the Hawks struck again scoring on a double and a single off starter Buddy DeWitt.

Tim Underwood came on and finished the game without allowing a hit. The senior right-hander struck out nine Hawks in the fourth and two-thirds innings he hurled. DeWitt gave up three runs on four hits in the first two and a third innings.

The Red Devils got only two hits off winning pitcher Stuart Hicks. Leon McRae singled in the sixth with one man down and Buddy DeWitt tripled to the right-center field in the seventh frame with two men down. It was the first loss of the season for Avon Park.

Last Saturday afternoon the Avon Park team bounced back and clobbered Lake Placid 16-1 in a five inning game down in Lake Placid. But for three innings the Red Devils seemed in trouble as they went scoreless while the Green Dragons scored a run in the bottom of the second on an error and a passed ball.

But in the top of the fourth frame the Red Devils broke out of the hitting slump and scored 14 runs on seven hits. They went on to score two more runs in the top of the fifth to win 16-1.

Tony Williams hit a grand slam homerun, Johnny Todd had two singles, Del Murphy rapped out a double and Underwood, Collingsworth, Leon McRae, Nate Williams and Tim Massey all singled once each for the total nine hits off four Lake Placid pitchers.

Buddy DeWitt started for the Red Devils but was relieved by Underwood in the third with two men on and no one out. DeWitt gave up one unearned run and one hit and Underwood allowed one hit and no runs in the five inning game. The win gave Avon Park a 17-1 record.

Highlands County School Districts Rezoned

Re-apportionment of school districts in Highlands county has been completed which puts about 3,100 to 3,200 people in each of the five districts, Superintendent of Schools George Douglass told the School Board, April 12.

"There will be little change in districts One, Two and Three," he said. District Four would expand to take in a great portion of No. Five, and extend south roughly from SR640 and the Avon Park Mall to Hammock Road.

District Two will lose a small portion, about 112 voters, on the northeast side of Dinner Lake. Douglass was instructed to prepare a resolution ordering the re-apportionment which board members will vote on at the May meeting.

Douglass said that in re-apportioning the school districts it was found more expedient to "continue present lines rather than try to follow the new County Commission lines."

Maundy Thursday Communion Today

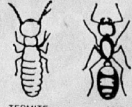

A Maundy Thursday Communion Service will be held, Thursday, April 19, at the First Presbyterian Church at 7:30 p.m.

The choir will sing the anthem "Come to the Cross" by Roger C. Wilson. The Prelude will be "Gotha," Richolson; the Offertory "Were You There"; and the Postlude "The Road to Calvary" by Godfrey. The congregation will sing: "There is a Green Hill Far Away"; "Beneath the Cross of Jesus"; and "When I Survey the Wondrous Cross". The topic of the Communion Sermon will be "I Thirst" which is the fifth word from the

Cross. The Session of the church has designated the Maundy Thursday Communion offering to go for Bible Correspondence work in Karachi, Pakistan.

The Maundy Thursday Communion Service originates from the belief that it was on Thursday that our Lord instituted the Holy Supper. The word "maundy" is an old English word which means "a command". Maundy Thursday is so called from the ancient custom of washing the feet of the poor on this day, which was taken to be the fulfillment of the "new commandment".

First Meeting Of Firemen's Association Was Held In Jacksonville 1925

The Florida State Firemen's Association (F.S.F.A.) actually began with the meeting of nine men on Jan. 2, 1925 in Jacksonville.

The first meeting was held for the purpose of organizing a state organization to better the conditions of fire service and the protection of life and property in the state of Florida.

Present at the first meeting were Chief Haney of Jacksonville, A. P. Sadler of West Palm Beach, T. P. Coe of Tallahassee, B. B. Hart of Daytona, E. F. Beville of Gainesville, Chief Smith of South Jacksonville, R. N. Hershey of Lake Worth, Chief

Townsend of St. Augustine, and F. C. Pfender of Winter Haven.

During that meeting, Hershey was elected Chairman and Pfender was named secretary, incidentally that was a position he held until his death in May 1945.

Hershey and Sadler were appointed to draft the first Constitution and By-Laws while Townsend, Hart, and Smith were selected to serve as a committee to act on matters of legislation.

These nine men decided to hold a second meeting on March 13 with Gainesville selected to be the site.

During this second meeting the By-Laws were amended and ratified and the treasurer

was placed under a bond of \$1000.

The first officers were also elected at that meeting, they were as follows: President, R. N. Hershey; first vice-president, E. F. Beville; second vice president, Captain J. B. Chancey; F. C. Pfender as secretary; and B. B. Hart as treasurer.

Fire Chief Phillips and Pfender of Winter Haven both offered their cities as the site of the first state convention, however Polatka won out on a vote of the majority.

This First Annual Convention of the Florida State Firemen's Convention was held on March 30, 1926.

Since the beginning of the association, the members had

been striving to start an annual Fire College. Their dream finally came true on May 7, 1930 in Daytona. The following year the Fire College was held in Sebring, then shifted back to Daytona where it was held yearly, except during the war years. Presently the College is held in Ocala, Florida, located on permanent premises.

Somewhere around 1932 the "Fla Fireman" was born. This is a monthly publication which reaches all F.S.F.A. members and keeps them abreast of what's happening around the state in the business of fire fighting.

It was first edited by L. E. Vause, a newspaperman in Williston. At first it was in the form of a newsletter, however the members wanted more and it was transformed into a magazine. Presently it is capably edited by the F.S.F.A. Secretary, Sam Heisler, Chief of the Fountain Fire Department.

During the Annual Convention of 1961 which was held in Jacksonville Beach, it was voted to cut the association into six Districts with a vice president in charge of each. Presently, there are 12 such Districts in Florida, a map of which appears in this issue.

Beginning with a membership of nine, the association rapidly expanded until in 1945 it had 1707 members. Presently, the Association is proud to claim over 7,000 members.

"If any fireman in the state of Florida is not a member, we'd be glad to enter them, volunteers, paid men, or retired firemen. All they have to do is contact this office," stated F.S.F.A. Secretary Sam Heisler.

The address of the association is P. O. Box 968, Avon Park, Florida, 33825.

Firemen's Association Composed Of Paid And Volunteer Firemen

The Florida State Firemen's Association is composed of both paid and volunteer firemen, holding the same prestige within the association, either of the two divisions can hold office.

But what exactly is the F.S.F.A.?

To begin with, it's a non-profit organization, strictly dedicated to raise the "prestige of the fire service in the public eye; to provide the firemen of Florida with a strong and unified weapon to assist them in their efforts to better themselves, and the general public in the matter of fire fighting and the suppression of fires."

The association also promotes the interests of Florida Firemen throughout the state, including in the state legislature, compiles statistics and information concerning the workings of fire fighting systems, and induces co-operation between fire departments.

The organization meets once yearly, this year's convention being held in Avon Park beginning on May 16, to decide the following years programs and to elect officers.

The president appoints a vice-president who presides over the activities of the association in each of the districts. These District vice presidents may appoint as many as three members within their respective districts to serve as his assistants. These District deputy vice-presidents are designated a certain zone to operate in.

The District vice-presidents are encouraged to hold up to three one-day meetings for its members to enable them to participate in the affairs of the association. Unfortunately all of the members can't attend the annual convention, so these district meetings enable them to voice their opinions.

Any active member of the association, either paid or volunteer, is eligible to hold any office.

Voting at the convention is on the basis of one vote for each

member department, for each 10 paid-up members at the time of the convention plus one vote for any fraction over the last 10. For example, a department having 65 paid-up members would have six votes for the 60, plus one additional vote for the fraction, five, a total of seven votes.

Voting is done by certified delegates chosen by the various departments they represent.

What else does the F.S.F.A. offer besides information to its members?

One of the most beneficial things is the death benefit fund. The original fund accepts members up to age 45, however a new fund, known as the Senior Death Benefit Fund accepts members of all ages.

To begin with, each member pays a joining fee of five dollars. When a member dies, the person designated as his beneficiary is sent a check amounting to one dollar for each paid up member within the fund at that time. These checks usually average around \$300 in the original fund.

Then the office of the Secretary-Treasurer sends each member of the Fund a notice of the death of a member, telling the name, town, date of death, number of the deceased member's certificate, and the amount paid to his beneficiary. Upon receipt of this death notice, each member then sends in a contribution of \$1.25 to re-imburse the fund.

One dollar is placed into the fund, the remaining quarter is used for operating expenses. When the fund is brought back up to par, the surplus can be used to either pay off another

THE DECISION WAS MADE PICTURED ABOVE are members of the Board of Directors of the Florida State Firemen's Association on April 18, 1970. They are, from left to right, Former Avon Park Fire Chief W. death and give the members a "free ride" or else it can be placed into a reserve fund.

What has the F.S.F.A. accomplished over its years?

In a word, much.

It has sponsored the enactment of the present Firemen's Relief and Pension Bill for Florida firemen. This law diverts one-half of the two per cent excise tax on fire and tornado insurance premiums into the local pension funds of the firemen.

It has successfully sponsored the first state law which made it unlawful to work fewer hours than an average of 72 hours per week. However, many municipalities amended out this law before it was

passed, yet most cities have much shorter work weeks for firemen.

Perhaps proudest of all achievements, was the creation of the Florida State Fire College in 1949. This is now located in Ocala, with a full time staff of instructors, supervised by a superintendent and governed by a board of trustees who are themselves firemen selected by the executive committee of the association.

The association sponsored a state law that enabled independent volunteer fire departments to obtain special "X" tags for their equipment, it was one of the sponsors of the state law creating the office of

State Fire Marshal and a co-sponsor of the annual State Fire Prevention Conference presented by the Fire Marshal.

Presently, the association is sponsoring a franchise Health Insurance plan, where the members can obtain hospitalization and medical insurance at a savings to themselves.

If you're a fireman and you want to become a member, what do you do?

Simple, contact the Florida State Firemen's Association at Box 968, Avon Park, Florida, 33825. Dues are only \$6.00 yearly, and each member is given a membership card, and a windshield decal.

Congratulations To The State Firemen's Association

Joint Meeting Of Grange Held Saturday

Ridge Pastora Grange met with Avon Park Grange, Saturday, April 14, at the United Methodist Church. Worthy Master Beverly Parker presided.

The program for the evening was a quiz on "what do you know about Florida." This was followed by a Legislative discussion led by the State Grange Legislative Chairman,

Ed Mercer. The "beef situation" was the center of the discussion, since it was on the minds of all present. It was felt by most of those present that the boycott would not be really effective.

The next meeting will be May 5, with Lake Placid Grange. The program will be based on Youth.

A home away from homes.

How many times have you told yourself that one of these days you're going to have a home in the country? A home away from the crowds and noise of the city. A home with exciting views and lots of woods and fresh air.

Homes in Spring Lake give you all that and more. Spring Lake is a new, total community being built in central Florida by Coral Ridge Properties and the Westinghouse Electric Corporation.

Spring Lake is just eight miles from the charming, quiet town of Sebring and is on Lake Istokpoga, one of the largest, most beautiful lakes in Florida. That means you'll be able to enjoy swimming, fishing and boating. And the countryside around is as breathtaking as the lake itself. Gently rolling hills. Orange groves. Woods. Fresh air.

There are numerous homes on view in Spring Lake, including five handsome

models by the Deltona Corporation. Take a drive to Spring Lake with your family. See our homes. Talk with our people. Enjoy the country and fresh air. Or, if you can't drive out now, write to Mr. Ireland Sanders, resident home sales manager, 6133 Candler Terrace, Spring Lake, Sebring, Florida 33870, or call collect, area code 813-385-6113 or 6114.

Officials Meet With Grange

Avon Park Grange held an open-meeting Tuesday, April 18 with several organizations and City Officials invited to the pot-luck supper and discussion on community projects.

Master Miriam Debo called the meeting to order. The Bible was opened on the Altar, a prayer given by the Chairman and all joined in the Pledge of Allegiance to the Flag. Mrs. Debo welcomed the guests and then the National Grange principle of sponsoring Community Projects. She then presented the Lecturer, LaVerne Fullmer, and asked her to introduce the guests and Grange members. After a few words of welcome, the group joined in singing "Home on the Range".

The beautification of the mall project of Avon Park Grange has been beautification of the mall. Mrs. Fullmer spoke of the work of Keith Debo, called the "green thumb man", and jokingly asked him to show his thumb. To the delight of the audience, Mr. Debo was found to have two "green thumbs." He has set out 1000 flower plants on the mall. The discussion followed.

The beautification of the mall committed for the City was represented by the Chairman, Stanley Wells; the Chamber of Commerce by the president, John F. Clark and the executive manager, Mrs. A. B. Worden; the Garden Clubs by Mrs. E. W. Hartt; the Winter Guest Club by Mrs. T. R. Clark; the Women's Club by Mrs. Russell Mittle and the Rebekahs by Mrs. Chester Seeger. John F. Clark also represented the Kiwanis Club. The Chamber of Commerce was found to have projects from A to Z. Starting with Advertising and ending with "Zoning," they call themselves "people helpers," as indeed they are. They get requests to solve all kinds of problems.

Letters To The Editor

Editor News:

It has been just about five weeks that has passed since my store was burglarized and the police department said they would keep in touch with me because they had a good lead on the suspect. But the police department hasn't been in touch with me since.

If they are not going to get in touch with me then I wish they would bring my pants back that they found on the parking lot, because I need them to sell and not in some dirty old locker in the department.

It doesn't seem like the department is looking for the suspect, because if they had they would have notified me already.

My loss was \$3,330 and I didn't have theft insurance. There is rumors going around that Broadway did it, if that is what they think, that's their thing. All I want is my goods back and justice done. I don't care who did it.

Sometimes I wonder if they accuse all the business that are burglarized up town on their owners, or is it because I wear a big black hat and glasses, you think I am a gangster. I'm a brother and there is no law against how a man dresses or if they would do something about the hippies.

I think the gangsters are going to take over this town the way people get robbed. I'm thinking about getting me a security guard to work around the clock and I'm a poor man, but I'm going to try to make it. I don't fear anything but death and the good Lord and I think that is the way most people are.

Editor Sun:

Replying to an article in your paper dated April 5, 1973, Re-City Council voting to spend \$5,750 to remodel the Council room.

Why not spend that money on paving some of the streets in the city limits so the postman will have hard roads to travel on, as the postman won't drive on the dirt to deliver mail. I pay City, County and State taxes. I just went to the post office and got a bill from the City of Avon Park for March utilities, for \$7.82, but we can't get our mail delivered.

I say pave \$5,750 worth on the streets so the mail man can ride in style.

Luke T. Sellers

from people who come into the office and by mail from all over the country. One letter asked what there was special for a couple to do in Avon Park on a honeymoon.

The principal discussion was the mall. Most of those present agreed that the great need now is a better irrigation system. Plants and trees cannot thrive here without plenty of water. This has been started and is being added to as money permits. All had high praise for Keith Debo's work with the flowers.

Two visitors signed applications to join the Grange. A short business meeting was held to accept the petitions and transact some important business. The next meeting will be held in the Men's Bible Class room of the First United Methodist Church at 9 p.m. on Tuesday, April 24. Each Lady is to bring a home-made Easter Bonnet to be judged in the Easter Parade.

Junior Varsity Defeats Hardee 15-1 Friday

The Red Devil junior varsity baseball team finished out the season with a 15-1 victory over the Hardee High Jayvee squad last Friday afternoon here at Head Field. The win gave the Devil "Bees" a final record of 9 wins and 6 losses.

Gary Helms hurled a one-hitter against the Hardee boys as his teammates rapped out 11 hits off two Wildcat pitchers. Leading the Red Devils at the plate was firstsacker Mike Pool who went 4 for four with three singles and a double in the five inning game.

Beumel slammed out a try and a single, Jamie Tommonson hit two singles, and Gary Helms, Jerry Robinson, and Mike Minard all had a single each. The Devils scored three runs in the first, three in the second, none in the third and nine in a big fourth inning barrage. Pool's double was with the bases loaded.

But Tuesday a week ago the Devils lost to Sebring for the third time this season. The Blue Streak "B" team defeated the Devils 5-0 here at Head Field. Sebring got 4 hits off losing pitcher Jerry Robinson and the Devils committed four errors in the seven inning affair.

Jerry Robinson hit two doubles and Brad Beumel hit a single for Avon Park's only hits off the Sebring pitcher, Tommy Young.

The fulfillment of God's word...

In the Old Testament Our Lord's birth, death, and also His resurrection were foretold. These events were proclaimed and written about long before Jesus came to earth. God saw that these prophecies were fulfilled — that these things were accomplished. Hosea 6:2 prophecies Christ rising from the dead. The scriptures say that Jesus is now alive, that He sits on the right hand of God and intercedes for us, and that as He rose from the grave, we, who are in Christ, will rise also. On this commemorating Easter let us all be in God's house to rejoice in this promise.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

City Council Has New Hope In Obtaining Water-Sewer Funds

City Clerk Malcolm Crews brought some good news to the city councilmen during their regular meeting last Monday evening, as he reported new hope in obtaining funds for the dreamed of water and sewer improvements in Avon Park.

Crews said Thomas B. Ard, of the Department of Pollution Control from Punta Gorda, had informed him that the state had loan funds available through the sale of bonds by the state to finance the construction of sewers.

Crews said, "The state will sell bonds for the city completely supported in full by state credit. If the city tried to sell them, the interest rate would be at least one per cent higher, with the state's credit behind it, you can get the interest rate more feasible."

When asked if the money was almost a guarantee, Crews said, "He," referring to Ard, "says it could be done."

Ard is to be in Tallahassee the rest of this week, but the council told Crews to set up a meeting with him as soon as possible.

It was mentioned that the state's Special Revenue Sharing Funds could also be used for a project such as this. "I think the first money should go into the water system," stated Councilman Durrah Martin.

Crews told the SUN that a meeting with Ard could possibly take place late next week.

In other matters handled by the city council, Rick Dressel appeared before the board representing the new owners of the used to be city golf course.

Crews presented the council members a list of the equipment at the golf course owned by the city, and appraised values of each. "Review these figures," he said, "and decide if the council wishes to sell them."

Crews told the council that all the figures did look acceptable except for a 1967 Chevrolet pickup which was appraised at only \$450.

"This truck would be worth more to the city than \$450," said Martin.

"I understand," said Dressel, "there's some confusion and mixed emotions about the golf course." "We

negotiated with the bank," he continued, "and it looked like this was the only way the people of Avon Park could have a golf course."

"We could sell it tomorrow at a very good profit," he said. He reminded the council they had been in the business of

managing the course and could understand the expenses involved, however he said the group believes within a few years the course will be self sustaining.

"Over the years we hope we can recover our investment....yet we want to

hold this golf course for the people of Avon Park....We want to work with the city....we'd like to work some type of lease or lease purchase to take this golf equipment off your hands."

Professional President Clarence King spoke to Dressel. "When the news came from Rex Bond,

we had no idea what was happening. It looks like we could have been shown the

Program To Understand Child Learning Started

To serve as a clearing house for better understanding the learning disability child, the

parents and the school, a group of concerned parents and friends have formed, utilizing

the latest information available, and sharing professional help including that of ministers, medical doctors, physiologists and specially trained persons.

Included in their programs are also films and latest information available from the United States Department of Health, Education and Welfare.

Highlands county school system has been selected to be one of three counties in Florida to receive the "Tide VI-G project to aid learning disability children."

Already existing in the school program are part-time classes involving special education for children with these problems. Beginning next year, the Lake Park Elementary school, the Fred Wild Elementary school and the Avon Park Elementary school will be supplied with a full-time learning-disability program. Included in this program will be three additional full-time teachers and aides specially trained in teaching children with specific learning disabilities.

Can you identify a learning disability child? Many children who seem willfully disobedient, lazy, unmotivated or slow reacting could have learning disabilities. One way to identify these children is to be familiar with a check-list such as the following, that outlines many of the symptoms that are frequently present, in differing combinations, in them.

No two children will display

Engineers Call Meeting On Istokpoga Water Level

A large crowd is expected to attend a hearing called tonight (Thursday) by the U. S. Army Corps of Engineers to discuss the water level in Lake Istokpoga.

The meeting will start at 7:30 p.m. in the Ag Center, and although the Corps has publicly stated it feels no changes are necessary many questions are expected and local residents feel the Corps will have to make their position clearer on this.

The Corps, at the request of the Central and Southern Flood Control District undertook a study of the lake recently. A report on the advisability of modifying the flood control project with the lake's water-level control was the prime object.

The 43 square mile lake southeast of Sebring, varies between 37 and 39.5 feet level and now is above 39 feet. The average level is about 38.5 and is regulated.

The Corps investigated three structural alternatives: 1) Construction of a levee along the south and southeast shores of the lake; 2) increase the lake outlet capacity, and 3) reconstruction of the farm levees.

the flood control works considered far exceed the benefits which would accrue. They concluded there would be no benefit to further investigation unless interested parties can substantiate it.

It was further concluded that information assembled should be used by local interests for flood plain management that would reduce future flood damage in the Lake Istokpoga area.

Oral statements will be heard but it is urged that all important facts and arguments be submitted in writing in quadruplicate.

One of the groups expected to appear tonight is the Lake Istokpoga Landowners Association. It is believed their statement will reflect that the lake should be left alone if management continues as it has been.

Urban type development on the lower lands around the lake have made it impractical to dike to raise the lake level any significant extent, many feel.

For many years there have been conflicting opinions on the lake level between homeowners, fishing and agricultural interests.

Santa Fe won its sub-district tourney with wins over Admiral Farragut and Zephyrhills last week. The Crimson Hawks are the only team to have beaten Avon Park this season. The Devils now have a 19-2 record while Santa

Fe is currently 16-5. But the Hawks handed Avon Park two defeats at the close of the regular season and took the Tri-County Conference Championship with the two wins. The Red Devil players are anxious to prove that they can top the Santa Fe team so

the game tonight should be a really hotly contested affair.

Avon Park is the defending Class AA state champion and the Devils looked like just that as they took Mulberry 11-1 in a five inning game last Thursday night. The Devils jumped on the two Mulberry pitchers for 11 hits including triples by Leon McRae and Lawrence McRae and two doubles by Johnny Todd. Todd went three for three at bat against the Panthers. Leon McRae had a single with his triple and Tim Underwood, Tony Williams, Bud Wester, and Buddy DeWitt all rapped out a single in the winning effort.

Buddy DeWitt went the distance for Avon Park giving up only three hits—a double and two singles. The junior right-hander walked only one batter. The lone Panther run came in the second inning on a hit, a sacrifice bunt, and an error by a Devil fielder. The Red Devils committed three errors in the shortened game.

The Arcadia Bulldogs moved to the finals of the sub-district meet by beating Ft. Meade 2-0 on Thursday night. But on Friday night the Bulldogs came up against a fired up Red Devil squad led by pitcher Tim Underwood. Underwood allowed only two hits, walked

the nationwide fuel shortage has tightened the supply of gasoline here, according to local dealers, but there apparently is no crisis.

Most of the distributors have been put on quotas and there have been wholesale price increases. At least one distributor said, in order to protect his customers, he is not taking on any new customers. Guesses as to the duration of the problem range from September to five years from now.

A check of local distributors and local stations, with out-of-county-distributors, disclosed the following:

Joe Stiles, agent for Standard Oil Co.: "We are in about as good a shape as I have ever been. No problems."

Morris Adams, agent for Union Oil Co.: "We were put on allocation April 1 and frankly we are not getting all we can sell. There is no price increase as yet. We have had no diesel fuel of which we are very short. The situation is affecting us disastrously as we cannot supply our customers with all they would like to buy and we do not know what the duration will be."

Friends Of the Library of Avon Park will hold their first annual meeting at the Jacaranda Hotel this Thursday evening, beginning with dinner at 6:30 p.m. Anyone who is interested in the library is invited to attend, and especially the Charter Members and Life Members. Walter J. Auburn of Dunedin will be the guest speaker. He has a lifetime record of working with libraries and library auxiliaries.

Remember Set Your Clock Ahead

Daylight savings time starts early Sunday. At 2 a.m. Sunday citizens are supposed to set their clocks an hour ahead to 3, and lose an hour's sleep in the process. Most Avon Park residents will change the clock when they retire Saturday night.

Postal People Day Is Monday Here

Postmaster Bob Young said today that he hopes our local patrons will come to the Avon Park Post Office on Monday, April 30, "Postal People Day," to receive the attractive free souvenir envelope to be given to all customers.

Also going on sale on Monday will be the unique new set of 10 eight cent postage stamps honoring the two-thirds a million postal people across the nation. Each of the 10 stamps depicts a specific job postal people do. And, for the first time, a message is printed on the reverse side of each stamp, on the adhesive side, in a mint colored dye.

Anyone wishing to complete the envelope with the series of 10 stamps across the top need only pay for the actual cost of the eight cent stamps and may, or may not, request a local cancellation of the stamps.

It is our hope, Mr. Young stated, that this week, by its recognition of all who form the mail service team, will help every citizen understand better what his mail service is about.

And, through that improved understanding, to join with us to find even more constructive ways to carry out our privileged obligation of public service.

The Avon Park Chamber of Commerce annual banquet, held this past week, was the most enjoyable and best attended ever held in chamber history, according to reports from many sources of the 137 members and friends present at this affair.

Lake Byrd Lodge was the scene for the social hour and dinner. The banquet was cleverly MC'd by Will Wright, Dinner music was provided by Vic MicKunas and the talented musicians of the Avon Park High School Stage Band.

Welcome by Morris Adams III, banquet chairman; Invocation by E. Ray Wells and the President's Message was delivered by John Clark.

An entertainment feature by Anna Belle Worden highlighted a surprise Easter Bonnet Style Show. Male models were hand picked from the audience to parade the Easter Bonnets fashioned from lamp shades, automobile hub caps, baby bonnets, milk bottles, etc., decorated with Easter eggs, chickens, rosettes, ribbons and bows. Models selected were Malcolm Crews, Mayor R. J. Barben, J. T. Gibbs, Fred Jahana, Morris Adams Jr., Chuck Metcalfe, Charles Hoke, Ed Bailey, David Lanier and Steve Roberts.

Congressman Bafalis To Speak Here Saturday

Highlands county residents will have an opportunity to hear and speak with their congressman in Florida's 10th district, L. A. "Skip" Bafalis, Saturday, May 5, at the Bombing Range Road (Horse Hammock), Avon Park.

A pit barbecue along with refreshments and music will start at 3 p.m. Signs will be

posted indicating the location of the open-air forum. The event is being sponsored by the Highlands County Young Republicans.

Ernie Norris, chairman, says 5,000 tickets (no admission charge) are being distributed. Tickets are available at Ridge Florist in Avon Park and Sebring.

Everyone is asked to bring a covered dish and service.

Congressman Bafalis is slated to land at one of the local airports prior to the evening's activities.

Some of the legislation which he has sponsored or co-sponsored has been: 1) constitutional amendment prohibiting forced school busing to achieve an arbitrary racial balance; 2) constitutional amendment to allow prayer in public schools; 3) co-sponsored legislation to restore Veterans Day and Memorial Day to their original calendar dates; 4) co-sponsored a bill to pay "adjusted assistance" to returning POWs.

On other issues, Bafalis—a Korean War Veteran—has said: 1) no amnesty for deserters or draft dodgers; 2) supports a national right to work law which protects the American public from compulsory union membership; 3) supports the President on return of death penalty to skyjackers, kidnapers and bombers primarily because Federal crimes as these are rarely crimes of passion.

The 45-year-old Bafalis was elected to the House of Representatives last November and is serving a two-year term.

Devils To Meet Santa Fe Here

Coach Ronnie Jackson's Red Devil baseball team brushed aside the sub-district competition last week with an 11-1 win over Mulberry and a 9-0 shut-out of Arcadia to move to the Class AA District Six play-off with Santa Fe. The best-of-three game play-off will start

tonight (Thursday) here at Head Field with the Devils and the Hawks meeting at 7:30 p.m. Tomorrow night (Friday) the game site will move to Lakeland's Henley Field for the second game of the play-off and if a third game is necessary, a flip of the coin will

determine the site.

Santa Fe won its sub-district tourney with wins over Admiral Farragut and Zephyrhills last week. The Crimson Hawks are the only team to have beaten Avon Park this season. The Devils now have a 19-2 record while Santa

Fe is currently 16-5. But the Hawks handed Avon Park two defeats at the close of the regular season and took the Tri-County Conference Championship with the two wins. The Red Devil players are anxious to prove that they can top the Santa Fe team so

continued "I'm happy we're out." "I hope you all the success in the world."

"We should pick what the city can use," said Martin referring to the list of equipment, "and let the golf course have the rest."

"I make a motion we agree on everything except the Chevy truck," said Councilman Milton Howard. "That truck's worth at least \$600," he finished.

Martin asked the mayor his opinion.

"I've never really felt the golf course was a political liability and I'm glad to see a local group has bought it. I think there's a lot of people living here because of that course."

"We've had to take some harsh words over the golf course," said Martin, "yet I've always been in favor of the course."

Upon a roll call vote on Howard's motion, it went unanimously, allowing terms to be arranged for the possible sale of the equipment to the new owners of the golf course.

King reported to the mayor that he had received complaints from area merchants who had break-ins at their businesses, and then the police department never returned to give any type of progress reports to them, also stolen items never returned.

"I don't know if it's 100 per cent the responsibility of the police to report back," said Barben, "those people are pretty busy up there."

"That may be so," said King. "I don't think these people should be notified."

"Yes they're busy all right," stated Howard, "you go by there almost anytime and see them sitting back in a chair."

Martin brought up the fact that the newest patrol car has yet to have a permanent marker on it. Presently it is used by the police department who attaches a magnetic sign to it, and also by city officials that might have to travel, they also have a magnetic sign.

"Also the chief driving the car and him not wearing a uniform," Martin continued. "I've seen it two, three, four, or five times a day and I saw him driving while nobody's been in the car with no decal."

"You'll keep talking about the police department," Barben said, "I'm gonna stick up for them every time I can."

City attorney Jonathan Hancock was asked his opinion of unmarked autos and plain

clothes policemen.

Hancock said unmarked cars and police would help police in investigations and in preventing trouble before it happened. Marked cars are useful in preventing traffic violations.

Despite this, the council voted that all police cars should be marked.

Fire Chief Mack Flowers appeared before the board, requesting a new radio base station.

"I want to talk to you about that old base station," Flowers began. "Friday night the ambulance and a truck were at that wreck in front of the Southern, and then we had another call." He reported the units lost all communications.

"That base was bought in 1962," he said. "It's been a good one." The council voted unanimously to ask for bids on a new base station.

Herman Sizemore reported that all firemen had qualified with the State Firemen's Standard Board training and had been approved.

"Remember, we have previously agreed to raise their salaries by \$25 a month," he said. The council agreed unanimously. Flowers said only five men would be affected by this raise.

Sizemore moved for a resolution to be passed against the idea of a central dispatching system as proposed by the State of Florida. It was passed unanimously.

In other matters handled by the council Monday night, the board agreed to allow the Highlands County Art League permission to display paintings in Donaldson Park on Sunday, April 29.

Established the position of Librarian with duties and qualifications to be set by the Library Board for recommendation by the Civil Service Board, approved membership for the City Clerk in the International Institute of Municipal Clerks at a cost of \$25, and asked for prices on stack chairs be made available for the new community center.

Only the bid was received for air conditioning the armory and council room at city hall. Long and Sensenig submitted a bid of \$5,509 for the armory and \$2,307 for the council room, the bid was accepted unanimously.

Police Chief Ferland Cribb was granted permission to attend a five day executive police course in Tallahassee.

Drinking Driver School Starts Monday

The drinking driver is going to school.
Starting April 30 in Highlands and Hardee counties, the judges will send all persons arrested for driving under the influence charges to a special five week, fifteen hour course.

The Highlands-Hardee DWI rehabilitation school is being implemented by the Sebring JC's and South Florida Junior College (SFJC). The civic club and state educational institution have worked closely to financially and physically support the school.

The Sebring JC's received a \$500 grant from the U.S. JC's under a new program, Operation Threshold. Sebring was one of the five grants awarded in Florida. The local chapter then contributed an additional \$200 in order that \$700 of funds could be purchased.

SFJC will be the site of the

classes for Highlands offenders while Hardee students will meet at the Wauchula Middle School. The junior college is handling all administrative functions for the DWI school such as hiring, training and paying the teachers and aides. Salaries will come out of the \$30 tuition fee paid by the offenders.

Classes will be held on Monday evening in Hardee county and on Tuesday evening in Highlands county. Only death in the immediate family or sickness verified by a doctor will be valid excuses for missing a session. The maximum number of offenders assigned to each class will be 20. A second class may be started if the need exists.

The course outline is patterned after established DWI schools in the state. Statistics from these schools indicate a sizable reduction in repeat offenses. Nationally, over 50

per cent of highway fatalities are alcohol-related. Locally, the weekly newspapers are always reporting a continuous stream of offenses. (The Sebring News has editorialized on this problem previously.)

The students will receive objective information about alcohol through films, slides and discussion. The instructor for classes in both counties is Joe Adcock, Sebring. The last session will be conducted by Pat Furnival, clinical social worker, State of Alcohol Bureau of Alcohol Rehabilitation (FBAR), Avon Park. Available community resources will be outlined for the students who wish to seek further help.

FBAR is also providing literature for the offenders.

The advisory committee for the school is: Robert Broadbent, chief, Sebring Police department; Ferland Cribb, chief, Avon Park Police
