# The Monsters

There is a money-hungry monster newly in our midst in Avon Park —one we can expect will do nothing but grow and become more entrenched as the years go by.

We refer to the new state water control act which will be administered by the Central and Southern Flood Control District. The act for the first time puts the six northwest townships of the county, in which the cities of Sebring and Avon Park are located, under control—and taxes—of the FCD.

Those of us who live in these northwest townships will be taxed for the first time for FCD next year. And in talking around with various knowledgeable people in the community, we can't see where we will get much for our money, if anything.

The millage for 1973 for FCD in this county was .485 and raised $67,469.51 for FCD. With the addition of the Sebring-Avon Park townships, this will jump to $143,162.36 next year.

We can't possibly see where we in these formerly excluded counties will get $75,692.85 worth of benefit from FCD next year or any year. That's what we'll pay.

There is only one argument pro FCD and it is not a very good one. And that is that this area can be blamed for water running off into the Istokpoga area. Control is needed. Big deal. Can't see where lack of control over the past 100 years caused much ruckus.

Somehow the ecologists have saddled us with this new tax monster. And now that it's on our backs, it is going to be an old man of the sea hard to get off. We may never get rid of it.

We can foretell the growth of FCD—more fancy offices, more officials, making more work for themselves. We are not impressed with what they have done so far. We refer particularly to the Kissimmee River. It took hundreds of thousands of dollars to unbend the river and now it seems they need to rectify that very costly mistake and bend it back.

A prominent Sebring gentleman who used to work for FCD—as a laborer—recalls the boondoggling—that crews worked about four hours a day. They arrived at the office at a certain time, drove to the job, two hours gone, work two hours, eat lunch, work two hours, drive back to the office. And so it went.

Not long ago he had occasion to meet a crew at Kissimmee. They were busy whiling away a couple hours until time came for them to head for the office and check out.

Who needs this sort of thing?

We are getting over-organized, over-ecologized, over-taxed, over-boondoggled, over-state agencied, and fed up. It's easy for our state legislators to vote these things in—but in practical application—wow!

This is not the first time we have been saddled with a monster. Our other local resident monster is Civil Defense. This also was foisted on us by the state of Florida. The yearly budget for the local CD office is $27,556.68 of which the federal government pays half. Of the $27,556.68, $15,488.98 is for salaries.

If we have to have Civil Defense, and there seems no way of getting rid of the money-gobbling creature, we might as well have a dedicated and able director. And we feel we have that in Highlands County's Jim Lawson.

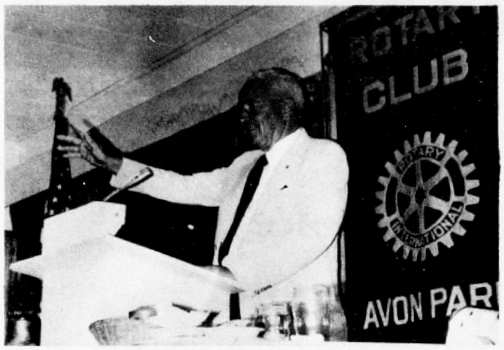

But we can't see where we get much for our money. Sure, we are all organized in case of disaster, hurricane, takeover by the Russians and Chinese (aren't they our buddies now, buying grain, etc.?) Do we really need it?

Lawson points out we can buy surplus equipment through CD for a fraction of the cost; he is helping Lorida get organized on their fire department; he has trained quite a crowd in radiology monitoring. He conducts simulated disaster exercises, has community shelters set up. So? Is this worth $27,556.68?

As to disasters and hurricanes, we can't remember when we ever needed CD here in the past 50 years or so. Hurricane Donna was pretty rough in 1960—but we somehow survived with no loss of life.

So now here we are saddled with two money-hungry monsters who will hang onto our skirts—and our pocketbooks forevermore. Why can't we get rid of them?

If enough of us raise cain with our legislators, maybe we can improve conditions. We hope somebody runs for governor and promises to do away with both these money gobblers. Surely there is a simpler, less expensive way of handling things.

ROTARY DISTRICT GOVERNOR K. R. "Pop" Popham, Winter Haven, waves greetings to the Avon Park Rotary Club during their regular Wednesday noon meeting.

# Rotary Governor Visits Here

Last week the club was honored by the visit of Rotary District Governor K. R. "Pop" Popham who was the guest speaker at the club's regular noon meeting.

A member and past president of the Rotary Club of Winter Haven, Mr. Popham is a manufacturer's representative. He was elected to his present office at the Rotary convention in Lausanne, Switzerland in May, 1973, and will serve until June 30, 1974.

Mr. Popham is one of 344 Rotary governors throughout the world who are serving as representatives of Rotary International in districts composed of member clubs. Each District Governor is responsible for supervising the clubs in his area. Rotary, an international men's service organization, has more than 736,000 members in some 15,600 clubs in 150 countries or regions.

A seasoned Rotarian before his election to the office of governor, Mr. Popham attended an international assembly last May in Lake Placid, New York, at which all Rotary governors for 1973-74 from around the world attended in-depth seminars to prepare for their jobs. One of his biggest jobs will be to hold a district conference of all Rotary clubs in this area. The conference will be held in Winter Haven on April 19-21, 1974.

Governor Popham traced the early history of Rotary, how it was developed and how the four avenues of service came about beginning with the idea of membership classification, establishment of clubs in different cities and areas, the introduction of singing into the meetings and establishment of international clubs. Each avenue of service, Club Service, Community Service, Vocational Service and International Service now have many and varied activities developed over the years.

The theme "It's a Time For Action" can and should now be applied to the Four Avenues of Service. Club Service is the basis and all other service activities depend upon it.

Football fever is upon us and with the season this year comes Don Shula's autobiography "The Winning Edge." Shula talks about the men and ideals that have influenced his life, and for the first time reveals the secrets of planning, strategy, and execution that together form the "winning edge" that has created football's newest dynasty.

Erma Bombeck's "I lost everything in the post-natal depression" is now at the Avon Park Public Library. If you follow her nationally syndicated column you know what to look forward to in her latest book. Erma Bombeck is at her best here.

Joyce Carol Oates, winner of the National Book Award for Fiction in 1970, has a new novel out entitled "Do with me what you will." This is a love story in a contemporary setting which reflects today's social upheavals and shifting morality.

Science fiction fans will be happy to hear we have added the second annual collection of "Best Science Fiction Stories of the Year" edited by Lester del Rey to the Library collection. Here you will find stories that explore the chilling implications of current medical research. Here, too, are stories of humor and surprise. Imagination, believability, and provocative ideas are to be found here in abundance.

Literary news has been made this year with the publication of Norman Mailer's biography of Marilyn Monroe. Since Mailer is considered one of our most important American writers and this is his first biography, many of you may be interested in reading "Marilyn".

This title along with the others mentioned can be found on the "New Books" shelf at the Avon Park Public Library.

I want to remind you that the library is now open with our new hours: Monday, Tuesday, Wednesday and Thursday - 10 a.m. until 7 p.m. Fridays - 10 a.m. until 5 p.m.

# Jaycee Honey Week Will Benefit Retarded Children Across State

Les Norris, president of the Avon Park Jaycees, has been named chairman of "Jaycee Honey Week, for the Retarded, Nov. 10-17." Honey week, co-sponsored by the Florida Jaycees, and the Florida Association for Retarded Children, is a part of Florida Jaycee efforts to assist the retarded citizens in the state.

The Avon Park Jaycees will be selling 8 oz. jars of honey for a donation of $1 each, during "Honey Week". Proceeds from the project will be used to support services and programs that are provided by the Florida A.R.C. and its local affiliates for Florida's retarded citizens.

Norris states that Jaycees will be manning booths in selected areas around the community during "Honey Week". Retardation affects approximately 3 per cent of the population nationally and ranks as one of the major problems of children in our society, stated Norris. Norris also said, "We sincerely hope the citizens of the community will help the retarded by purchasing a jar of honey from the local jaycees during "Honey Week."

An announcement will be made in the next couple of weeks, regarding exact locations where Jaycees will be selling honey, during "Honey Week."

# Grange Members Hear Tips To Successful Gardening

By LaVerne M. Fullmer

Avon Park Grange No. 203 met Tuesday, Sept. 25, with Past-Master, Louise Clarke in the chair. It was announced that Ridge Pomona Grange No. 10 meets Saturday, Sept. 29, at 8 p.m. with Hardee Grange as host.

The program follows, The Florida Number by Alfred Haviland was about the Moonstone, official state gem. Ralph Fullmer stated that the trick to southern gardening is getting to know your bugs, and talked about mites. Loyd Slocum told how to control aphids. Gertrude Slocum described scale as sucking insects which puncture the plant cell with their beak and remain in the same position the rest of their lives. She also explained how to tell the difference between harmful Lace Bugs and beneficial Lacewings.

A guessing game was presented by the lecturer. Louise Clarke gave a patriotic flag number. Thought for the day—"There is no such thing as a little country. The greatness of a people is no more determined by their number than the greatness of a man is determined by his height."

During the social hour, refreshments were served by the Fullmers.

The next meeting will be held in the Parish House of the Episcopal Church of the Redeemer on Tuesday, Oct. 9 at 8 p.m.

### ENROLLMENT STILL OPEN FOR ADULT BASIC EDUCATION CLASSES

Individuals interested in attending classes for the basic skills of reading, writing and arithmetic can still enroll at the Avon Park Middle School on Tuesday at 7 p.m.

These are free classes with books and supplies being furnished. These classes should be of particular interest to those individuals with less than an eighth grade education.

# 'Candy Striper' Volunteers Are Awarded 100-Hour Pins

Walker Memorial Hospital is proud of its "Candy Stripers", the teenage volunteers, who give freely of their time to try and make a patient's stay in the hospital more comfortable.

Their bright, cheerful faces are a welcome sight wherever they may be lending a helping hand. They may be running errands for the hospital staff, refilling water pitchers, or simply taking the extra time to visit with a lonely patient.

After working for 100 hours, each Candy Striper is awarded the 100 hour pin and the Junior Auxiliary cap. At the September meeting, Dan Sanderford, Assistant Administrator of WMH, and Mrs. Josie McDaniel, Auxiliary co-chairman of the Candy Stripers presented caps and pins to Ann McDaniel and Barbara Sourlock.

Officers of the Candy Stripers for the coming year are Arnell Roberts, president; Barbara Ewell, vice president; Ann McDaniel, secretary; and Cindy Goodwin, treasurer.

## Some G.I. Bill Benefits Will Expire Next Year

The G.I. Bill training is still available for some veterans who were discharged from military service as much as 12 years ago, but not for long.

The Veterans Administration today pointed out that Post-Korean veterans—those who were discharged between Jan. 31, 1955, and June 1, 1966—have two more years to take flight training, farm or on-the-job training under the G.I. Bill. But their eligibility for other types of schools and colleges expires May 31, 1974.

# WOMEN'S SECTION

Mr. and Mrs. Archie Ray Culpepper

## Couple Speak Vows In First Methodist Church

The First United Methodist Church was the scene of the marriage of Miss Jill Ellen Stone and Archie Ray Culpepper on Wednesday, Sept. 19. The Rev. Bentley A. Williamston performed the ceremony at 5 p.m.

The parents of the bridal couple are Mr. and Mrs. B. D. Stone and Mr. and Mrs. J. B. Culpepper, all of Avon Park. Mrs. Beverly Mann presented a program of nuptial music.

The bridal couple spoke their vows before the altar decorous with palms and twin bouquets of glads and pompons accented with satin bows. A pair of seven-branched candelabras with burning white tapers lent a soft glow to the wedding setting. The family pews were marked with satin bows.

**The Bride**

Given in marriage by her father, the bride was lovely in a floor-length princess style gown accented with Brussel lace. The long capped sleeves were fitted with lace appliques. Her shoulder-length veil of silk illusion was held in place by a crown outlined with pearls. She carried a cascade bouquet featuring a single white orchid, delicately framed with white roses and speringeri fern.

Miss Mary Candace Reddick served as maid of honor, and Edward Ezell was best man. Ricky Helms and Larry Rebmann were ushers.

Miss Reddick's gown was an azure blue crepe knit, featuring a sweetheart neckline and capped sleeves. She carried an airy pastel Colonial bouquet of starburst pompons, and miniature carnations softened with statice.

Mrs. B. D. Stone, mother of the bride, wore a pink bonded A-line dress with matching lace and white accessories. She wore a tailored deep-pink carnation corsage accented with pink ribbon.

For her son's wedding, Mrs. J. B. Culpepper chose a pale-blue double-knit dress with matching accessories and a tailored white carnation corsage with matching blue ribbon.

## Baerman- Snelgrove Wed In First Baptist Church

Miss Roberta Lee Baerman and Charles Edward Snelgrove Jr., were united in marriage on Saturday, Sept. 15, at the First Baptist Church in Avon Park. The Rev. Aden D. Childress performed the double ring service at 8 p.m.

The bride is a granddaughter of Mr. and Mrs. Lyle Trotter of Avon Park, and the bridegroom is the son of Mr. and Mrs. Charles Snelgrove, also of Avon Park.

Sherwin MacKintosh, organist, and Vic MicKunas Jr. vocalist, presented a program of nuptial music which included "For All We Know", "Theme From Romeo and Juliet" and while the bridal couple knelt at a brass profile kneeling bench, Vic sang the "Lord's Prayer".

Potted wedding palms formed the background for the wedding party as the bride and bridegroom spoke their vows before a brass archshaped candelabra enhanced by an artistically designed cascade arrangement of Woodwardia foliage, white roses and white majestic daisies. Large mixed arrangements featuring pink gladiolus, and blue and green tinted daisies softened with baby's breath rested on ornate white pedestals on each side of the chancel. Spiraling brass candelabras holding 35 tall white burning tapers added to the candlelight setting. Brass three-tiered candelabras accented with pink and green daisies marked the family sections.

**The Bride**

Given in marriage by her grandfather, Lyle Trotter, the bride was lovely in a floor-length satin gown with sheer silk organza overlay. Lace flowered appliques enriched the empire-styled gown, and the long full sleeves gathered to a three-inch cuff was trimmed with the same delicate lace. Elegant lace trimmed the high-styled neckline, down the front of the gown and circling at the hemline. Her floor-length veil and blusher of pure silk illusion was outlined with a chain of lace flowers. She carried an airy delicate flowing cascade bouquet of frosty white daisies, youthfully styled for her gown of classically simple lines.

Miss Janice Murphy was maid of honor. She wore a floral blue print dacron polyester, halter-style gown featuring empire waistline, V-neck and low back. She wore a wide-brimmed nylon picture hat trimmed with satin ribbon. She carried a basket tinted a hue to match her gown, featuring Marguerita daisies, pompons, baby's breath and lacy fern, in a glorious blend of rich colors adding the designers touch to her gown.

Bridesmaids were Miss Belinda Todd and Miss Wendy Jordon. Their gowns, hats and baskets of flowers were the same style as the maid of honor, only Belinda wore pink and Wendy wore green.

Flower girl was Michelle Brooks, daughter of Mr. and Mrs. James Brooks. She wore a gown the same style and color of the maid of honor, with basket to match, filled with mixed rose petals. She wore blue daisies in her hair.

Ringbearer was Stevie Strenth, son of Mr. and Mrs. Leroy Strenth, who carried a satin and lace covered pillow.

The bridegroom chose for his best man, his father, Charles Snelgrove. Ushers were Jerry Wicker, brother-in-law of the bridegroom; Fred Ferguson, Dennis Crews and John Wright, all of Avon Park.

Groomsmen were Eddie Ezell and Virgil McInvale, both of Avon Park.

The bridegroom, best man and attendants, all wore royal blue crushed velvet King George style tuxedos with light blue ruffled shirts trimmed in black with black bow tie and pants.

The grandmother of the bride, Mrs. Lyle Trotter, wore for her granddaughter's wedding a pink silk ensemble with sheer overlay, appliqued around the neckline and edge of inverted pleats. She wore white accessories and a corsage of baby pink sweetheart roses with accents of green.

For her son's wedding, Mrs. Snellgrove chose blue linen trimmed with flowered appliques, featuring short sleeves and high neckline. She wore matching accessories and a corsage of rose-pink sweetheart roses with accents of white.

The bridegroom's grandmothers wore corsages of white miniature carnations.

**Reception**

Immediately following the ceremony the bride's grandparents, Mr. and Mrs. Trotter entertained at a reception held at the church social hall. Mrs. Sharon Wicker, sister of the bridegroom was in charge of the bride's guest book.

Palms, greenery and baskets of gladiolus and daisies were at focal points in the social hall.

The bride's table was covered with a white cutwork lace cloth adorned with mixed flowers and greenery. A white lattice screen ornamented with wedding bells and greenery formed the background. The three-tiered wedding cake - centering the table was richly formal and joyfully reverent. The top was crowned with a tall cathedral arch decked with a dramatic spray of orange blossoms and tiny pearls, and centered with the traditional bridal couple pledging their love beneath a golden cross. Between the tiers, separated by filigree columns, cherubs frolicked and angels played their harps in celebration. The cake was decked in blue and pink sweetpea clusters and wedding bells, carrying out the bride's color scheme. Serving the cake were Ila MacKintosh and Cathy Cloud.

The punch table, also covered with cutwork lace, was crowned with a formal silver candelabra holding a mixed bouquet of roses, carnations and baby's breath. Mints and nuts were served along with the punch by Pam Anderson and Peggy Snelgrove, sister of the bridegroom. Dainty white napkins were inscribed in silver with the names of the bridal couple, "Robin and Butch", and their wedding date, Sept. 15, 1973.

Assisting the servers were Mrs. Ophelia Rihner, Mrs. Sharmon Duhn, Mrs. Jane Wells, Mrs. Dorothy Atkins, and Mrs. Gerald Wicker. Sherri Wells passed out rice bags to the guests, to shower on the couple as they left on their honeymoon.

**Daytona Beach Honeymoon**

When the bridal couple left on a honeymoon trip to Daytona Beach, the bride was wearing a dark green, sleeveless dress with white pin stripe, accented with white collar and green polka-dot tie. She wore white accessories and her going away corsage featured white Marguerita daisies.

# Junior Varsity Loses On Last Minute Fumble

Avon Park's junior varsity football team lost to Frostproof last week 18-14 with less than two minutes left on the clock. The Devil "Bees" were leading 14-12, had the ball on the Bulldog 20, and were driving when a fumble was picked up by a Frostproof player and run 80 yards into the end zone for the winning touchdown.

Coach Lemler commented that the boys played a very good second half. If the boys continue to work and improve as much as they have the last four weeks, the Devil jayvee squad is going to be playing some exciting football.

Tonight (Thursday) the Avon Park junior varsity will play the Blue Streak jayvee in Sebring starting at 7:30 p.m. The Red Devils are 1-1 for the season and will be ready for the big Sebring team hopefully.

Last week the Avon Park offense was led by Reggie Baker who ran 80-yards from scrimmage for the first Avon Park score. John MicKunas handled the quarterback duties with James Ross, Kenny Burley, Moses Anderson and Anthony Gaines all sharing the ball carrying duties with Baker.

The line was led by tackles Jim Stewart, Noel Braithwaite, John Dewbre, and Bill Tharp. Playing guard were Mike Cobb, Harry Stukes, Joe Galimore, Tommy Pralo, and Steve Roberts. Freddie Moore was at center. Charles Glenn, Ben Wright, and Mort Jackson alternated at ends.

Others who saw action on defense were McArthur Rouse, Willie Jervier, Dale Sismore, Randy Cobb, and Ricky Lee.

Coach Lemler hopes that the following boys will be in the action soon, Robert Brown, John Caulkins, Lynn Cantrell, Clifford Coleman, Kenny Light, Jim Lanier, Steve Simpson, Melvin Collins, Tyrone Moss, Richard Stevens, Darrell Davis, Glen Baker, Calvin Baker, and David Cannie.

# Food for Thought

By Jane Nickerson

One of the cleanest bodies of costal salt water remaining in the continental United States has a fishery resource that has hardly been explored. It's Apalachicola Bay in the Panhandle and its treasure is, of course, its famous oysters. They provide 80 per cent of the Florida production.

Men have struggled with their shells and savored their delectable contents since the first Indians appeared on that north Florida shore 10,000 years ago. Remarkable in a period of a worldwide protein shortage is the fact their supply has not been exhausted; indeed it could be expanded.

Remarkable, too, is the purity of Apalachicola Bay. Unlike Escambia, Tampa and Biscayne Bays, which once yielded oysters, it has escaped pollution. When Georgia and Alabama industrialists recently suggested that the Apalachicola River that feeds into the bay be canalized, to expand shipping, Floridians objected emphatically and understandably. The bay must remain clean.

Dr. Charles B. Rockwood, associate professor of economics, Florida State University, told me that after an 18 months' study he had concluded that only 5 per cent of the bay was in oyster production but that 40 per cent could be. The harvest could be substantially increased, he insisted. It has varied from 2 to 5 million pounds annually over the past 13 years. To furnish those statistics, gallons of shelled oysters are converted into pounds.

Rockwood has recommended to the Department of Natural Resources, to whom he submitted a report of his study, that the state put down on the bay bottom increased amounts of clean, hard, stable material to which young, microscopic oysters, called spat, can cling and form shells.

He also has suggested that the fishermen give up the heavy, hand-minipulated tongs they long have used in gathering oysters for more efficient, motor-driven tongs. And he has urged that more money be spent on advertising.

"It may be," he told me in an educated drawl, "that oysters are going out of fashion. When I was a boy in the Midwest, we thought shrimp weren't fit to eat. I wonder if people have gotten the notion that oysters are not entirely suitable food. At any rate, they need more publicity."

Rockwood admitted that private industry with large investment might expand oyster output in Apalachicola Bay more quickly than the more frugal State of Florida and that large investors might explore leasing of the bay bottom from the state and introduce some of the sophisticated methods of breeding and gathering oysters that have been used off Connecticut and most notably in France.

Furnishing favorable conditions for the infant mollusks and moving them from one bed to another to encourage their growth are oyster-cultivation measures that go back to the Romans. In the fourth century, Ausonius wrote of oysters being brought from Brindisium to Pureoli, north of Naples, where they were fattened in the Lucrine Lake, separated from the Mediterranean by a narrow channel.

But the community of Apalachicola, more than half of whose residents depend on oysters for at least part of their living, are dead set against the state's leasing any bay bottom to commercial interests. Leases are a fighting word there and throughout Franklin County, which worked to give a law written into the State Legislature forbidding a state agency to issue leases in the area. No leases have been issued anywhere in Florida for 15 years.

"The bay's always been a public resource with free access in which anyone could gather oysters," Rockwood explained. "Public sentiment is against limiting access in any way. So we had to come up with alternatives—such as the State's putting down material on public lands for the oyster spat, which would be costly. But incomes are pitifully low in Apalachicola and people need to gather and sell more oysters."

Rockwood reminded me that Apalachicola was prosperous before the Civil War, the third largest cotton-shipping port on the Gulf. The city is at the mouth of the Apalachicola River, which was used to convey cotton from Georgia and Alabama plantations.

It's that river emptying into the bay that helps to provide an ideal habitat for oysters, William K. Whitfield told me. He is an administrative assistant in the Bureau of Marine Science and Technology.

"The fresh waters of the river reduce the salinity of the bay," Whitfield explained. "In addition, there's an offshore land barrier that holds in those waters and keeps them from dispersing rapidly. Oysters prosper because their enemies, like the oyster drill, leech and boring sponge, thrive in a highly salty environment."

Rockwood's notion that oysters may be going out of fashion may prompt native sons to voice flat denials. How could that mouth-watering Apalachicola delicacy, in a class with the state's delicious watermelons, seeded grapefruit and tupelo honey, be anything but very much in favor? Aren't we all joyful oysters R again in season?

"You could eat them in the summer, too," Whitfield explained. "They wouldn't make you ill. When water reaches 73 degrees F., as it does in the summer, oysters spawn and grow thin. When spawning ceases as water cools, they fatten and from September to January may double in weight, a growth rate far greater than that of oysters in Northern waters. Florida law says their shells must be at least three inches when harvested."

Speaking of shells, I'll gloss over directions on opening an oyster because I've never been able to do it. In common with food-lovers everywhere over the centuries, I applaud oysters raw and chilled, perhaps with a glass of ale or white wine and thin-sliced pumpernickel spread with sweet butter. A quarter of lime is all the "sauce" I need.

Prolonged heat ruins oysters, but that doesn't mean you can't stew, fry and escallop them. Just make sure the cooking is minimal. Here's a dish I found in an Apalachicola community cook-booklet published in 1928.

**APALACHICOLA CHICKEN-OYSTER PIE**

3 cups oysters (1½ pints, purchased measure)
1 cup oyster liquor
¼ cup butter
¼ cup minced celery
2 teaspoons minced onion
2 teaspoons minced parsley
¼ cup flour
1 cup chicken broth
2 cups cooked or canned chicken
Dash mace
Salt and pepper to taste

1. Drain the oysters of their liquor; measure. There should be one cup. Add chicken broth or water to make that amount, if necessary.

2. Melt butter in a heavy two-quart saucepan. When butter is hot and foams, add the celery, onion and parsley. Cook five minutes over low heat, stirring often. Blend in the flour. Slowly add the oyster liquor and chicken broth, stirring constantly. Continuing to stir, bring to a boil over moderate heat and let simmer a minute or two.

3. Add the oysters, chicken and mace. Season with salt and pepper. Keep hot.

4. Preheat oven to 425 degrees F.

5. Prepare the biscuit mix according to package directions for rolled biscuits.

6. Turn the oyster-chicken mixture into a two-quart casserole. Top with the biscuit rounds. Put any extra biscuit rounds on a greased baking sheet. Bake 12 to 15 minutes, or till biscuits are golden. Serve immediately.

Yield: Six servings.

## Homemakers Hear Program On Blood

The Avon Park Extension Homemakers Club met on Monday, Oct. 1, at the Florida Power Lounge. The program was on "The Dangers of Hypertension or High Blood Pressure", given by Mrs. M.M. Bush, who had attended a workshop on the subject in July at the University of Florida in Gainesville.

The future meetings will be at the Florida Power Lounge, on the first Monday of each month, unless otherwise notified. Seven members were present at this meeting.

The Extension Homemakers Clubs of Highlands County are beginning a county-wide program to enroll women in the self-breast examination program, to prevent cancer in women of all ages.

Visitors and new members are always welcome.

# 4-H Club Week To Be Observed By Members

The week of Oct. 7 is National 4-H Club Week. The theme this year is "4-H Gets It All Together". All of the 4-H Clubs in Florida and Highlands County will be observing National 4-H Week by attending church together on 4-H Sunday and participating in other special activities during the week.

4-H, the youth development program of the Cooperative Extension Service, offers young people opportunities. It encourages creativity in a learn by doing environment and provides an effective way to citizenship and leadership development. 4-H encompasses all youth—rural, urban, suburban, teens, pre-teens from all races, creeds, ethnic and economic backgrounds. In 4-H, youth forget their differences and learn, work and play together. Today 4-H programs are relevant to the interests of youth and are varied from the formal atnosphere of the school classroom.

4-H volunteer leaders are a vital link in the flow of information to and from 4-H members and professional extension personnel. Although they may share their teaching loads with others...parents, resource persons and others ...these leaders draw heavily from the educational resources of the State Land-Grant Universities and the U.S. Department of Agriculture.

At the present there are 4-H clubs in all areas of Highlands County. If you are interested in joining a local club, contact the Highlands County Extension Office on U.S. 27 South or call 385-5158 for more information.

The chairman of the Cancer Fund, Mrs. Futch, announced that the Chapter had more than exceeded the set goal.

The Matron announced the coming of several important events. Following the meeting the evening was spent in good fellowship.

# Coronet And Charger Head List Of Dodge Intermediates

The Dodge intermediates enter the industry's biggest marketplace with impressive momentum, a new high performance powerplant for the Charger and some styling changes in the Coronet.

The Coronet and Charger are both riding the crest of customer approval with healthy sales charts.

Charger S.E. has been a big winner with tripled sales for the 1973 models. Coronet also performed well, grabbing increased penetration in both the intermediate four-door and wagon markets.

"A big objective was to re-establish the Charger after the softening of the performance market," said Ray Wells, Highlands County Dodge dealer. "The 1973 model did this very well for us.

"The Charger came on as a very strong car with very high owner loyalty. Almost 60 per cent of the buyers came back to Charger. Competitive trades of Charger are up 50 per cent over a year ago," said Wells.

"Our momentum is good. Changes in the 1974 intermediates are designed to enhance product value and customer satisfaction."

Continuing on separate wheelbasses for '74, the 2-door Charger has a sporty 115-inch wheelbase and the 4-door Coronet is 118.

Charger in coupe and hardtop versions has three levels of trim, coupe, Charger and top of the line Charger SE.

Coronet comes in basic sedan and two-seat wagon, Coronet Custom sedan and two and three-seat wagons, and premium Coronet Crestwood two and three-seat station wagons.

Front and rear appearance of the Coronet has been upgraded.

Both six and eight cylinder engines are available as basic powerplants in the Chargers and Coronets.

The new 360 V-8 cubic-inch high performance engine replaces the 340 as a Charger option along with both two and four-barrel versions of the 400 cubic-inch V-8, the 440 cubic-inch four barrel and the standard 318 V-8. The Coronet has a 318 as standard and optional 400.

Exclusive Chrysler electronic ignition system is standard equipment to reduce spark runout at high rpm.

A '74 innovation is a windsheild washer system attached to the wiper arm. New options for Dodge intermediates include the electrically heated rear window, new steal belted radial-ply tires which are warranted for 40,000 miles by the manufacturer, and more complete trailer towing packages.

A new starter interlock unibelt system and a new design energy-absorbing steering column is on all Dodge intermediates for 1974, and there are improvements in cooling and in suspension to extend the quiet car package introduced in 1973.

# Efficient Use Of Fertilizers Is Important

Because of anticipated tight supplies, the efficient use of fertilizers this fall and next spring is of vital importance to Highlands County farmers, according to R.B. Oxer, chairman of the Agricultural Stabization and Conservation (ASC) Committee.

Farmers should begin now to make every effort to conserve and make efficient use of plant nutrients, they should use soil test to determine crop nutrient requirements, rather than just pouring it on, Oxer said.

Pointing out that the Cooperative Extension Service is expanding its education activities in this area, Mr. Oxer said that ASCS is providing support in getting information to farmers.

# Barben Tells Lions Of Highlands Growth

By CLYDE S. NORRIS

Mayor of Avon Park, Bob Barben, was speaker Sept. 25. The mayor talked about the growth in Highlands County. In the near future, another bank, shopping center, and a Ramada Inn will be a realization. Planning for sewers, water and road resurfacing are in the works.

The city has already resurfaced some of their streets, built a new hangar at their airport, lighted one of the runways and re-surfaced the east and west runway. They are now working on eight new T-hangers.

The city has taken over the operation of the library, hired a recreation director, built two new tennis courts, purchased new playground equipment, and refurbished some of the old equipment. They have donated 10 acres for a new state armory. In the past 15 months, the Lions were able to purchase glasses for 42 people. Transportation was provided for a number of people, to Winter Haven and Lakeland, for examinations, that were not available in Sebring. There was a glaucoma screening clinic at no cost to the public, where over 500 people were examined. At Christmas time Lions purchased $367.65 worth of shoes and socks for needy school children in the Sebring schools.

Donations were made to sight conservation, eye clinic, Young Life, Dixie Youth baseball, Florida Sheriffs Boys Ranch, Girls Villa, Sebring High School Scholarship, Leader Dog program, Florida Foundation for the Blind and Camp Wingman, amounting to over $2650.

**RIDING CLUB**

The Nez Perce Riding Club will sponsor an open-horse show at Harold's Arena, South of Lake Placid, one-half mile east of U. S. 70, this Saturday, Oct. 6, starting at 9 a.m.

There will be halter, jumping and performance classes, with no admission charge.

# $2,000 In Ambulance Bills Uncollected

The ambulance bills write-off list has spurred the county commission to thoughts on "getting even." At its Oct. 2 meeting the board approved a request to write off $2,000 worth of uncollected bills.

Board members inspecting the list noted that some of the bills—most of them for $25 each—were owed by residents "we know can pay."

County Attorney R. P. Dunty Jr. suggested "Anyone who can pay and refused to ought to have the stigma of having a judgment against him."

Clerk Earl Rich pointed out that the fee for filing suit and for delivery of notice of the suit—a total of $13.50—must be paid before the defendant can have the record of judgment removed from his credit rating.

The county formerly had turned uncollected ambulance bills to a collection agency, but since the agency operator (Ken Wilkinson) was elected to the commission the county can no longer use this method of obtaining fees from the citizens who have been judged able to pay.

## "Consumers Ask"

**Question: How can a motorist in the market for new tires possibly compare the real cost of radial tires versus belted bias-ply tires and ordinary tires?**

Answer: There's a tremendous difference in the number of miles each tire will go before it wears out. Also, the traction and easy, free rolling of radial tires will give you more gasoline mileage and a safer, smoother ride.

While prices of each of the tire types you mentioned vary widely, try comparing the relative cost per 1000 miles of life expectancy. To compute the cost, knock three zeros off the expected mileage and divide the tire price by tht figure. For example, if a radial tire with guaranteed life expectancy of 40,000 miles is selling for $70, divide the $70 price tag by 40, you come up with the cost per 1000 miles.

Typically, radial tires will give you 40,000 to 50,000 miles of wear; belted bias-ply tires will give you 25,000 to 30,000; non-belted ones will give you 20,000 miles.

**Question: I wrapped leftover meatloaf in aluminum foil and refrigerated it. When I unwrapped it three days later, the foil was pitted. Is the meat safe to eat? It looks and smells all right.**

Answer: The small amount of aluminum dissolved in the meat is not toxic. Aluminum is toxic only when consumed in very large amounts.

The dissolving of the aluminum is caused by oridation of the aluminum that is accelerated by the slightly acid, moist and salty condition of the meat.

**Question: I have to prepare school lunches this year for my children. Is it true that mayonnaise should not be used in sandwiches due to food poisoning?**

Answer: Mayonnaise is often accused, but it is really not the ingredient to blame for food poisoning. Mayonnaise is a very acid food. It contains vinegar, some egg and oil. The eggs are generally pasteurized. Research studies have shown that mayonnaise does not support growth of bacteria.

The main problem with sandwiches is that they receive a great deal of handling during preparation which could contaminate the ingredients. The sandwich ingredients such as meats, eggs, fish and chicken should be handled under extreme sanitary conditions since they provide food and moisture for bacterial growth.

If sandwiches are to be taken to school early in the morning to be eaten for lunch, try making them in the evening, store in airtight wrap such as plastic or foil and freeze them over night. Pack them hard frozen the next morning. By noon the sandwich will have had time to thaw, but will not have had time to reach a temperature high enough to promote the bacterial growth that could cause food spoilage. However, you should remember that some foods do not freeze well.

**Question: What can I do if I am denied credit because of information given out by the credit bureau?**

Answer: Under federal law any consumer either denied credit or charged a higher rate for credit because of information issued by a credit bureau or any credit reporting agency must be told the name and address of the agency. This is the responsibility of the person denying you the credit.

Within 30 days after being denied credit, the bureau is required, at your request, to tell you all the information in your file with exception of medical data.

If you request this information within 30 days of being denied credit the bureau may not charge you for the service. Otherwise, the agency may charge a small fee. The law also requires that the bureau recheck any information you, the consumer, says is untrue. If, after a reinvestigation, you still disagree with the information you are allowed to write a statement (of up to 100 words) which must be kept in your files and reported along with all other information.

For further information which will help you with your consumer problems, write to "Consumer Information", Extension Home Economics, University of Florida, Gainesville, Fla. 32611, or contact your local County Extension Home Economics Agent, Jo M. Townsend, Rt. 3, Box 149-B, Sebring, Fla. 33870, phone 385-5158.

# ☆ LEARNING GOOD HABITS EARLY ☆

*"Train up a child in the way he should go: and when he is old, he will not depart from it."*

This statement (made by Solomon, thousands of years ago) is just as true and vital today as it was then.

Teach your children the good practice of saving for the future. Teach them to attend worship services in God's house by taking them

EVERYONE IN THE CHURCH — THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# Homecoming Queen To Be Named Friday

It will be homecoming for Avon Park students and fans tomorrow night (Friday, Oct. 12) at Memorial Field when the Avon Park Red Devils host the Frostproof Bulldogs in a Peace River Valley Conference football game.

The homecoming festivities will begin at the field at 7 p.m., with the homecoming queen ceremonies climaxing with the crowning of the 1973 winner. The football game kickoff is slated for the regular 8 p.m. time.

The homecoming parade with floats and queen contestants will take place this afternoon (Thursday) at 3:30 p.m., starting at the post office. The parade will wind its way up and down the mall and finish up at the parking lot south of the football field for a big pep rally by the Devil cheerleaders.

Frostproof has dropped to Class A this season after losing out in the finals of the Class AA play-offs last season. The Bulldogs have a 1-3 record but have lost two of those games by scores of 14-13 and last week held Mulberry to a 6-0 score. - The Frostproof team won its opener over Moore Haven 20-6. Last year Frostproof defeated Avon Park for the first time in many years and will undoubtedly be out to spoil the Red Devil's homecoming and make it two in a row.

The Avon Park team has a 2-2 record after last week's 22-0 win over Wauchula but most fans feel the Devils will have to play their best game of the season to win over their neighbors from Frostproof. Coach - Ralph Hill says his squad is down to 23 boys and Devil scoring ace Ricky Claitt lost three teeth as a result of an injury in last week's game. The game shapes up as a real hard fought battle with the team which gets the breaks getting the victory.

**Avon Park vs Wauchula**

The Avon Park defense again took the spotlight as the Red Devils posted a 22-0 win over the Hardee High Wildcats of Wauchula last Friday night here at Memorial Field. The Devils picked up two Hardee fumbles and ran them in for touchdowns and tackled a Wildcat back in his own end zone for a two point safety. Nate Williams, linebacker, scored one TD when he picked up a fumble on the 15 and ran it in. Barnard Jackson, defensive end, scored another touchdown for the defense with a run of 60 yeards after picking up a fumble forced by Nate Packer. Jackson also got credit for the safety as he tackled the Hardee quarterback in his own end zone for two points.

Avon Park started off the scoring in the first quarter. The Devil defense had forced the Wildcats deep into their own territory and Hardee had punted out to the Wauchula 45. From that point the Devils drove on the ground for the six pointer. Ricky Claitt scored the TD running around right end from 12 yards out. Buddy DeWitt had a couple of good gains in the drive as did William Burley and Timmy Massey. The kick for the point after by Nate Packer was wide and no good.

The second quarter of play was strickly defensive with neither team able to sustain a drive. Late in the first half, Avon Park did drive to the Wauchula 30-yard line only to have two 15-yard penalties push them back. A 33-yard run by William Burley was the highlight of the drive.

The second Avon Park touchdown came early in the third quarter. Avon Park kicker Nate Packer drove the ball into the end zone on the opening kick-off to give Wauchula possession on the 20-yard line. On the second play from scrimmage, a Hardee back fumbled the ball and Devil linebacker Nate Williams picked the ball up and raced the 15 yards into the end zone for his first TD of the season. Ricky Claitt bulled through the center of the line for the two-point conversion and suddenly Avon Park had a 14-0 lead.

Wauchula fumbled again on the next crive and Ronnie Dick

# Kelley Phillips To Fill County Commission Seat

KELLEY E. PHILLIPS

Kelley E. Phillips, resident of Avon Park the past 16 years, was appointed by Gov. Reubin Askew to fulfill the unexpired term of suspended County Commissioner Mel Bass. And on Tuesday he attended his first meeting but not as a commissioner. His commission has not yet come through. His bond was approved by the commission.

Bass, who has vowed to fight for the job he lost, sat beside Phillips in the audience. His attorney S. Colquit Pardee said it is too early at this time to comment on Bass' plans.

Bass, serving his first term as a commissioner, was suspended after attending only 25 out of 45 meetings and being arrested three times for drunk driving. He currently is undergoing treatment at the Nu-Way Center.

Phillips, a native of Georgia, is a Navy veteran of World War II who has operated a grocery store in Avon Park. At present his wife, Lucille, operates their store and he is a part-time employe of United Telephone of Florida.

Since he is a part-time employe, he said, this will give him the chance to devote sufficient time to his new county job.

# Milton Howard Qualifies For 4th Term On Council

Incumbant City Councilman Milton Howard decided to run for re-election as he completed his qualifications on Oct. 4, at City Hall.

Howard, first elected to his current position in October of 1967, told the SUN, "since being a councilman I feel I have done all in my power to make Avon Park a better place to live."

A resident of Avon Park for 23 years, Howard is married to the former Bessie Jewel Campbell. They have seven children, six of which have graduated from the Avon Park High School.

Howard is employed by Southeren Coastline Railroad, serving them for 31 years. He is a member of the Florida Avenue Baptist Church, the Masonic Lodge No. 45, and the Avon Park Athletic Association.

"In my opinion," Howard stated, "sewers is Avon Parks main need, which we, the present council, are working at now. We are working to improve our water system by removing all the small lines and replacing with larger pipes to improve pressure."

Howard says he is against any new taxes in the city but is for assisting the schools and college, resurfacing more streets and sidewalks, a good police, fire, and ambulance service, improvement for the community center and the library, and for removing junk cars, cleaning vacant lots, and beautifying the city.

Hermon Sizemore, the other incumbant city councilman still has yet to announce his intentions as his sat along with that of Howards and present Mayor Robert Barben come up for grabs in December.

# County Writes Off $2,290 In Bills

Highlands County Commission in their Oct. 2 meeting wrote off 75 "uncollectible" billings for ambulance services, totaling $2,290.

Five of the writeoffs were for indigents. The others were persons who did not pay after having been billed three times.

There were 31 writeoffs for Sebring persons, 24 for Lake Placid and 11 for Avon Park. Amounts ranged from $5 to $109.

Those from whom the county was unable to collect were:

Suzie L. Baker, 400 Weigle Ave., Sebring, $109; Paul Wiggins III, 405 Tulane Drive, Avon Park, $87; Gene Whitaker, Lake Placid, $62; Cathy Glisson, 1148 Stillwell Road, Belle Glade, $25.

Dane Myers, Sebring, $15; Donald Hines, 208 Lindemore St., Minerva, Ohio, $25; Sarah W. Maas, 133 S. Franklin, Sebring, $25; Elmon Wilson, 721 Lemon St., Sebring, $25.

# City To Close Park At 11 P.M. Each Night

Late night visitors will no longer be welcome in Donaldson Park. The City Council Monday night voted to close the park and turn off the tennis court lights at 11 p.m. each night on recommendations from the Chamber of Commerce, Mayor Robert Barben and Police Chief F. E. Cribb in hopes that the early closing will aid in the prevention of breaking and entering of businesses in the area.

A city-wide curfew for persons under 16 years was also discussed but not acted upon.

The Council accepted bids on two trucks to be purchased for city use, a garbage truck cab and frame and a utility pickup. The low bid from Bill Owens Ford was accepted on the garbage truck. I. H. Ford Motor Co. was low bidder on the utility vehicle.

City Clerk Malcolm Crews informed the council that the lawsuit of Mary Alice Palmer against the city over injuries sustained in a fall on a broken sidewalk had been settled out of court for $3,500.

The Council agreed to accept two plots of land along Railroad Ave., from the Seaboard Coast Line Railroad under condition that the railroad would not be assessed any of the cost of paving the property.

A contract to have two old tennis courts resurfaced was accepted by the Council.

The annual report of the Building Official which was read to the Council showed a total of almost $2½ million in permits issued for the year - Oct. 1, 1972 through Sept. 30, 1973.

# County Gets 4 Bids On Landfill

Highlands County commission has turned up four more landfill bids but not enough information to make a decision on location of a new sanitary landfill.

At its Oct. 9 meeting the board referred numerous technical questions to County Engineer Gordon Hays and set Oct. 23 for decision on the controversial question.

The new bids—all for leases—offered prices from $5,000 to $15,000 per year. Three of the new sites are clustered in the center of the county; one of them is south in Highlands County which, according to Avon Park city officials, will make the new site too costly.

The new offerings are from Ted Hill, Darrell Williams, Ellis Rushlo and a bid from L.

# Here's Where To Write

Editorials on probate reform, the high cost of the new water resources act and the doubtful need for Civil Defense recently were printed in Avon Park Sun.

We urged our readers at that time to write to their legislators and to others they think might be able to do something about these matters.

Here is the list of our men in the Florida House of Representatives. Also listed is Rep. Bob Johnson, who formerly represented this area and who is currently active in preparing a bill for probate reform in this state.

# County Gets Bids On Landfill

Continued From Page One

E. Selph Jr., and C. Smith for land they own jointly.

The Selph-Smith parcel of approximately 20 acres lies south of State Road 17A (Tangerine Avenue), not far from the present City of Sebring dump. The lease would be for 10 years at $8,000 per year.

The Ted Hill bid, cheapest of the three, is for 20 acres for five years, at $5,000 per year. This bid specifies that an all-weather road should be built through the center of the parcel which lies south of U.S. 98 and west of State Road 17, adjacent to Yellow Bluff Creek.

Hill told the commissioners that a road right-of-way has been dedicated along the line he had specified for the landfill access road.

Largest of the parcels offered for lease is a 40-acre tract west of Henscratch Road and south of Josephine Road. Darrell Williams, the owner of this tract, said access would be from Payne Road off State Road 66 or from Henscratch.

He offered the land for a minimum of five years for $10,000 per year or for a maximum of 10 years, the price for 10 years to be $75,000.

Most expensive of the lease prices is for the Ellis Rushlow parcel, 20 acres for five years at $15,000 per year. This land lies between DeSoto City Road and State Road 17.

Commission Chairman Robert Skipper observed, "I hate to keep postponing this but at the same time we have to know what we are doing."

**Weeks Left**

In a letter to the commission, Sebring City Clerk Jack Stroup pointed out there is eight to 10 weeks of use left for the present Sebring landfill and nudged the commission to make a site selection soon.

Avon Park Mayor Bob Barben, in his letter to Chairman Skipper, said the northside landfill now being used by Avon Park and "a large number of users from outside the city" has "many years left." He said a site south of Sebring would require such long hauls that it would be too expensive for northern Highlands County users. He suggested operation of smaller sites that would require less hauling.

In response to questions from Hill, Hays said a "ball park estimate" of the cost of building an all-weather road into a fill would be $15,000 per mile. However, Hays did not have information about roads that might be needed for each of the three new proposals, nor, did he have any information about the water table for each of the three. He was instructed to put together this information as quickly as possible and have some recommendations ready for the commission. After Hays demurred on having detailed reports ready within a week, the board voted to consider the landfill question again on Oct. 23.

Hays was able to tell the commission that at present rate of use the county is using four acres of landfill per year. The commissioners debated at some length how large a site the county needs and whether a 20-acre parcel is too small.

Commissioner Buddy Wise observed, "I can't see that we'll grow so fast we'll use up 20 acres in two years."

On the other side Commissioner Norman "Jug" Heston said, "In two or three years we could be back facing these same problems and the price of land will be 'way up."

Wise added, "In five to 10 years I don't think we can bury garbage."

# Liquor Store Robbed

By Officer GENE HANCOCK

Investigation by the City Police department disclosed that at approximately 11:40 p.m. Saturday a Negro male entered Prescotts Liquor Store on Hwy. 27 S. and demanded that the cashier, Bill George, put all the money from the register into a paper bag and hand it over. The subject stated he had a weapon but did not display it. It is unknown if the subject left on foot or in a vehicle. A records check revealed that a total of $471 had been taken.

In a report filed by Patrolman Bob Oberther, he stated that Clifford Crosbourne was stopped for a stop sign on E. 6th St., and was struck in the rear by a '67 Mercury operated by Raymond Curry Jr. The Crosbourne vehicle, a '67 Dodge and the other vehicle both had damage estimated at $50. Curry was cited for following too closely.

Annie Ruth Kelley, Bradenton, was cited for violation of right-of-way and no valid driver's license as the result of a traffic accident Tuesday. The accident occurred when Kelley, operating a '67 Ford, stopped for the stop sign at the intersection of W. Pleasant and Hwy. 27, and then pulled into the path of E. M. Cabine, who was traveling south on 27 in a '70 Pontiac. Damage to the Pontiac was estimated at $200, while the Ford sustained damage of $400. Sgt. Presley Selph investigated the accident.

Henry A. Hanson was cited for violation of right-of-way Wednesday when he drove his '65 Chevrolet into the path of Pamela Grissom of Wauchula. Hanson had stopped for a stop sign on Central Ave., and then pulled in front of the Grissom vehicle which was traveling east on Bell St. Patrolman Bob Oberther estimated damage to the Hanson vehicle at $350 and damage to the Grissom vehicle, a '71 Chevrolet, at $500. Mr. Hanson was slightly injured in the mishap.

In a report filed by Investigator Archie Hancock, he stated that three Avon Park men have been arrested for breaking and entering of two residences and a local business. The two residence breaking and entries occurred at 1010 and 1008 Kingdom Way near Lake Isis, Avon Park.

Charles Avery, who resides at 1008 Kingdom Way, reported that approximately $300 worth of miscellaneous household goods was taken from his mobile home on Sept. 21.

Constance Allred, 1010 Kingdom Way, also stated that miscellaneous household goods valued at approximately $300 had been taken from her mobile home the same date.

The breaking and entering of the business occurred at Revel Crate Mill where tools, rope and a cash calculator were taken. Total value of these goods was estimated at $1500. Investigation disclosed that the subjects had taken the goods and merchandise for the purpose of reselling them for cash. The tools, rope and calculator taken from the Crate Mill were recovered; also the household goods taken from Avery were recovered. A partial recovery of the items taken from the Allred home was made.

# Lions Will Provide Drumsticks

The big news for now is the commitment of the Avon Park Lions to provide chicken barbeque dinners at the big Halloween Festival on Saturday, Oct. 27. The plans are to make 400 meals available to the first 400 hungry customers. Service will begin about 4 p.m., and the price is a most reasonable $2 per plate—quite competetive these days. Remember too, all proceeds go directly into sight conservation funds most of which are applied to local needs.

The big news for the future is approval by the Lions directors of a new project in its fund raising group. The project will comprise a jointly held public auction and chicken barbecue with the first annual event tentatively set for Dec. 1. All member Lions are urged to attend the regular meeting scheduled for Oct. 16 to participate in planning this big project.

The first meeting for the month of October was highlighted by films of Red Devil football presented by Coach Ralph Hill and Assistant Coach John Pilcher. There were moans and groans at the showing of the Mulberry game but these were offset by a more pleasing picturing of the Santa Fe game. As usual, the Rebekah ladies did their fine job of feeding the Lions and their guests. Ham, creamed peas and carrots, mashed potatoes, salad and dessert made a real good repast for all.

# Citrus Harvesting Starts This Week Here

Harvesting of the Highlands County citrus crop has begun for the 1973-74 season.

First citrus to be harvested was the pink grapefruit in a 20 acre grove owned by Crutchfield Groves Inc. which began on Sept. 10. The fruit went to Crittenden Fruit Co. in Orlando and Hoppi Hall picked.

Tim Hurner, assistant county agent, citrus, said the Sept. 10 date was "fairly early". Picking of oranges is expected to start this coming week.

In the two previous years, the first fruit to be harvested from the county's 38,500 acres of citrus was the white Marsh seedless grapefruit in the Ingle family grove near Sebring.

The Florida Crop and Livestock Reporting Service at 3 p.m. Oct. 12 will release its annual prediction for citrus production in the state.

Hurner's estimate for the coming year's production is 165,000,000 boxes of round oranges and 49,000,000 boxes of grapefruit.

Highlands county orange groves are chiefly Valencias although there is sizeable acreage in Hamlins.

Polk county was the biggest producer of citrus in the state during the 1972-73 season with over 61 million boxes and Lake county was second with over 33 million. Highlands county had about 12 million.

United Growers in Orlando said its annual production area poll reveals that Florida growers estimate their 1973-74 commercial citrus crop at 159.7 million boxes of round oranges, 47.9 million boxes of grapefruit and 4.9 million boxes of temples.

Wilson McGee, general manager of United, said rain and favorable weather have increased sizing of the fruit but, there are losses due to extensive hedging and topping and killing effects of "decline". McGee said the poll indicated new crop round oranges would have fewer solids and produce less gallons of frozen concentrated orange juice per box than last year.

# Church To Honor Rev. Pickens

The Rev. and Mrs. John Pickens will be honored on their 50th anniversary of his ordination into the Christian ministry Sunday, Oct. 14, during the 11 a.m. morning worship service at Union Congregational Church. Immediately after the service, at 11:45 a.m., a coffee will be held in Fellowship Hall so that friends, neighbors and church members will have an opportunity to visit with the Pickens on this occasion. The deaconate urges the public to attend.

The Rev. and Mrs. Pickens are well known across the state of Florida and in Highlands County. They came to Avon Park in January 1948 to set up Congregational Conference Center at Lake Byrd. He worked as Lodge Manager and Mrs. Pickens as hostess for eleven and one-half years at Lake Byrd Lodge. While serving in this capacity, Mr. Pickens also served as Christian Education Secretary for the Congregational Church for the State of Florida. Since leaving this position, the Rev. and Mrs. Pickens have served various churches as interim minister, including North Miami, Holly Hill, New Smyrna Beach, Palm Beach Gardens and Key West. The Rev. Pickens served as associate with his son, John Pickens Jr. at the Church-by-the-Sea, Madeira Beach, from October 1962 to July 1967.

About 60 years ago the Rev. and Mrs. Pickens began with the ministry in Detroit, Mich., with a church there and also some preliminary study with college and seminary in mind. However, World War I changed his plans but not his desire to enter the ministry. During the war he continued to work with the Federal Motor Truck Company as Transportation Engineer; also with the Highway Transport Division of the U.S. Army. During that time he was still active in church work. At the end of the war the Pickenses moved to Rochester, N.Y., with the Selden Truck Corporation, and immediately became involved with the Columbia Avenue Church of Christ Disciples.

The New York and New Jersey Christian Missionary Society (Disciples) made a special effort to train laymen for the ministry since they did not have enough ministers to meet the demand. By 1922, the Rev. Pickens had more and more conflict between business and church work. A choice had to be made, and he entered the full-time ministry and was ordained at Columbia Avenue Church of Christ (Disciples) on Oct. 18, 1923. He served for three years at Eagle Mills Church of Christ (Troy); then became Field Secretary for the New York State Christian Endeavor Union with headquarters in Buffalo. In 1930 he returned to the parish with the Congregational Church and served 11 years at Lake View Church (Erie County); three years at Norwood.

During World War II, the Rev. and Mrs. Pickens were sent to Key West by the Congregational Home Board to serve civilian emnoloes of the Naval Base, living in the Poinciana project, Federal Housing Authority. For this work in Key West, the Rev. Pickens was honored by a Citation for Distinguished Service given by the Board of Home Missions of the Congregational and Christian Churches in its annual General Confernce meeting in June 1948 while meeting in Oberlin, Ohio. This citation states: "John E. Pickens, well-beloved minister of an established parish, who left this security for a war-born community with an uprooted population of civilian war workers, far from former homes, in a trying climate, with none of the institutions or relationships which make for wholesome community life, we are honored to present you for special recognition. You found an existence in Poinciana Place, Key West, Florida, a small Sunday School, organized by a handful of devoted women. Within a month you organized a church and a Sunday School properly staffed and conducted along the best modern lines which continued for three years until the entire project became the property of the United States Navy. All the property the church ever owned consisted of draperies and furnishings with which, week by week, a bare auditorium was transformed into a worshipful sanctuary. Not content with the normal religious services of a church, you led, sponsored, and in many cases a administered every sort of community enterprise; had charge of three day nurseries; developed a youth center with evening recreation for young people; were editorially cited as the most useful citizen of Key West. John E. Pickens, in a community where homesickness was universal, job turnovers were at an unusually high rate, and juvenile delinquency was a menace, your influence and service enriched countless lives. The Board of Home Missions, representing the Congregational Christian Churches of the United States, cites you for meritorious service." After this work, the Rev. Pickens continued as minister of the First Congregational Church until January 1948.

By his side, working at home, in the community, and in the church, has been his faithful wife, Mary. Through the years his ministry has been her ministry. Since their retirement and short term stays in Avon Park, between service to churches as interim minister, the Rev. and Mrs. Pickens have endeared themselves to Highlands Countians as citizens concerned and involved in many forms of community service. They have served and worked with the people of Avon Park and Union Congregational Church since their coming to this area in 1948.

REVEREND AND MRS. JOHN PICKENS

They have five children—Mrs. Althea Fowler, organist at Arlington Congregational Church in Jacksonville; Mrs. Helen Southern of DeLand; the Rev. John Pickens Jr., pastor of Madeira Beach Congregational Church, UCC; Mrs. John R. Moore, wife of Commander in the U.S. Navy; and Mrs. Nancy Webber, personnel department of the B.A.R. The Rev. and Mrs. Pickens reside at 60 E. Wolf Street, Avon Park.

# LEARNING GOOD HABITS EARLY

*"Train up a child in the way he should go: and when he is old, he will not depart from it."*

This statement (made by Solomon, thousands of years ago) is just as true and vital today as it was then.

Teach your children the good practice of saving for the future. Teach them to attend worship services in God's house by taking them

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

GEORGE PHELPS, Walker Memorial Hospital's most reknown patient, is being served from the "cheer cart" by Candy Stripers Ann McDaniel, Cindy Goodwin and Barbara Ewell, from left. One of the most enjoyable services that the Candy Stripers offer is to take the "cheer cart" to the patients. On the cart they have candy, chewing gum, toilet articles, such as combs and brushes, and even pens and notepaper. It' is literally a rolling store brought right to the patient's beside. Magazines donated by the Candy Stripers are given away to any patient who would like to pass the time by reading. - Photo by Sharpe

# Bankers Attend Workshop

About 50 bank presidents and other representatives of lending institutions attended the second annual Ag Lenders Range Workshop held Oct. 2 at Holiday Inn, Lake Placid.

Among the speakers were Gene Felton, vice president of ALICO Land Development Co. of LaBelle; Clifford Carter, range specialist for the soil conservation service; Hank Leithhead, range conservationist from Fort Worth Tex., and Lynn Harrison, president of the Florida Range Committee.

There was a panel discussion by Charles Shackelford, president of the Federal Land Bank Association of Wauchula; Herbert Cook, president of the Southwest Florida Production Credit Association, and Robert Morris, vice president of the Exchange National Bank of Tampa.

Pete Heard, SCS biologist from Gainesville, showed slides and talked on wildlife management.

The ranch of Bruce Blount was toured and a pork barbecue, complete with swamp cabbage and trimmings, was served. Bob Barben of Avon Park, chairman of the Highlands Coil and Water Conservation District Board, presided at the meetings.

TONIGHT AT AVON PARK

# Jr. Varsity Hosts Santa Fe

The Avon Park Red Devil junior varsity will host the Santa Fe "B" team here at Memorial Field tonight (Thursday, Oct. 11) due to a change in the site of the game. The two teams were originally scheduled to play in Lakeland but Santa Fe could not obtain a field so the game has been moved here to Memorial Field with kick-off slated for 7:30 p.m.

Last Thursday night the Devil jayvees dropped their second game of the season as the Sebring Blue Streak "B" team took a 16-0 victory at Fireman's Field in Sebring.

The Avon Park boys played a fine defensive game against the big Streak squad which had some 50 boys dressed out for the game. Sebring scored its first TD in the second period on a 20-yard pass play on fourth down. The Streak pass receiver got behind the Devil defender and went into the end zone standing up. The run for the two point conversion was good and Sebring led at halftime by an 8-0 score.

The game rocked back and forth through the third period with Sebring drawing quite a few penalties. Then in the fourth quarter, Sebring intercepted an Avon Park pass deep in Avon Park territory. A couple of plays later, a Sebring back broke through the Devil line on an off tackle play and raced over 20 yards in for the score. Again the run for the two-point conversion was good and the Sebring "B" team had the 16-0 victory.

Avon Park's James Ross turned in an outstanding performance on both offense and defense. Randy Cobb was singled out for good defensive play by Coach Dewayne Lemler who felt his boys did a good job of holding the Sebring boys to the two touchdowns.

John MicKunas quarterbacked for the Devil "Bees" and made several good runs up the middle on keeper plays. In the backfield with Ross were Reggie Baker, Anthony Gaines, Charles Anderson, Ken Burley, and Dale Sisemore. On the line and on defense were Willie Jervier, McArthur Rouse, Randy Cobb, Freddie Moore, Mike Cobb, Tommy Pralo, Joe Galimore, Noel Braithwaite, Jim Stewart, Melvin Collins, Charles Glenn, and Harry Stukes.

The Devil junior varsity will also be at home at Memorial Field next Thursday, Oct. 18, against the Mulberry junior varsity.

THE REFEREE signals an Avon Park two-point conversation as Ricky Claitt (25) bulls across the goal line in the third quarter of the game which the Devils won 22-0 over Hardee High last Friday night at Memorial Field. Claitt also scored a TD to push his season total points to 40 in four games.

## Homecoming Is Friday

recovered for Avon Park at the Hardee 29-yard line. Three plays later Ricky Claitt raced 22-yards in for an apparent TD but it was called back with a motion penalty against Avon Park.

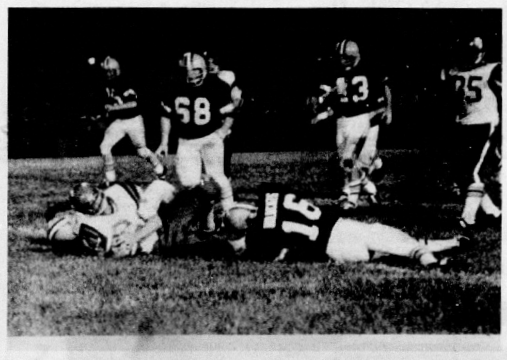

Late in the third period Timmy Massey broke loose for a 45-yard run to the Wauchula 16 where he funbled the ball and Wauchula recovered. But that run set up the next Avon Park score—a safety—when Barnard Jackson tackled Hardee quarterback Ronnie Faison in the end zone.

The final Avon Park score came late in the fourth period. Hardee had blocked an Avon Park punt and had good field position at the Avon Park 18-yard line. But the Red Devil defense rose up and drove the Wildcats back to the 25-yard line and then as the Devil rushed the quarterback who dropped back to pass, Nate Packer knocked the ball loose from Faison. Barnard Jackson picked the ball up and ran some 60 yards for the touchdown. Packer's kick for the extra point was blocked but Avon Park had the 22-0 victory over the Wildcats.

Avon Park held the Wauchula rushing offense to a minus 54 yards with Ronnie Dick leading the tackles with seven and two assists. Marvin Jackson had six tackles and Joe Louis Smith and Nate Williams both had five tackles each.

Timmy Massey ... d up 71 yards in seven carries, William Burley had 60 yards for eight carries, Ricky Claitt was held to 39 yards in 11 carries, and quarterback Buddy DeWitt had his best night running the ball as he picked up 34 yards. The Devils had a total of 199 yards on the ground.

The statistics showed Avon Park drawing 98 yards of penalties while Wauchula had only 20 yards walked off against them. The Devils completed two of four passes for 21 yards. Wauchula completed five of 10 for 58 yards. There were no pass interceptions. Avon Park lost two fumbles while Wauchula lost three fumbles.

THE HARDEE HIGH WILDCAT defense descends on Red Devil halfback Timmy Massey after No. 16 brought down the sophomore back to stop a possible touchdown. Massey was the leading Devil ground gainer last Friday in the Devils 22-0 win over Wauchula with 71 yards in seven carries.

## Tennis Tourney Slated

The Highlands Tennis Association, in conjunction with the First National Bank of Sebring, showing their interest in young people of this area, will be raising a scholarship for a South Florida Junior College student by sponsoring a men's and women's doubles tennis tournament. All residents of Highlands County are encouraged to enter.

In hopes of raising a sizeable contribution for the scholarship, the Tennis Association has made this event a fun tournament. Partners for each team for the tournament will be drawn by random. This should add to excitement. No one will know his partner until the draw. The deadline for entries is Oct. 22—Monday.

To add to the enjoyment, First National Bank will be providing four sets of trophies—two sets for the women and two sets for the men. Each team has at least two chances to win trophies due to double elimination. There will be a championship and consolation bracket to provide for the double elimination.

The tournament will be held at Harder Hall starting Saturday morning, Oct. 27, and will run through Sunday afternoon, Oct. 28.

Send name, address, sex and $3 fee to W. E. Page, P.O. Box 602, Sebring, Fla. 33870.

# Halloween Parade And Carnival Is Set For Oct. 28

The Annual Halloween Parade and Carnival sponsored by the Elementary P.T.A. will be held Saturday Oct. 27. The ever popular parade will start at 4 p.m., with the Carnival starting immediately after the parade.

The Children's parade lineup, headed by Mrs. Myrtis Guerndt, will be at the enclosed area behind the old armory. Pre-school through sixth graders will be judged with three categories in each grade. The divisions for the costumes are "Most Like Halloween", "Most Original", and "Most Beautiful".

All entries on wheels or in groups will be in the Novelty Section also meeting in the same area. Judging will be from 3:30 to 3:45 p.m. No child will be judged unless he is in the correct place. Ribbons will be worn in the parade. Please remember these times so your child will not be left out.

The float section of the parade headed by Mrs. Janet Willis will form on South Verona Ave., from the Post Office to the middle school. No letters of invitation will be mailed out this year, but you may send an entry form clipped from the paper to Mrs. Janet Willis, P. O. Box 512, Avon Park, Fla., 33825 or call 453-6732 after 5 p.m. You are asked to try and let Mrs. Willis know, no later than Oct. 24, so the lineup can be made and each person entering a float or decorated car, can be contacted by phone and a number in the parade line-up, given to you. You will also be told to come east on either Camphor or Walnut, turning left onto Verona. This is to keep all floats moving in the same direction. There will be parade helpers at each corner to show you the proper side of the street. If everyone will follow these directions, it should stop some of the confusion that washad last year in the line-up.

Judging of the floats and cars will be from 3:15 to 3:45 p.m. If you want to enter your float or car in the judging, please keep these times in mind. Plaques will be given to the winners before the parade starts at 4 p.m. Plaques will be given for the following, 1. Most outstanding business float; 2. Most outstanding business decorated car; 3. Most outstanding club float; 4. Most outstanding club decorated car.

# Rotarians Hear History Of Social Security Service

Program Chairman Norris Brooks introduced Stacy Thomas of the Sebring office of the Social Security branch of the Health, Education and Welfare Adminstration.

Stacy gave a quick review of Social Security when it started in 1937 with a one per cent withholding of the first $3000 of earnings as contrasted with today's 5.85 per cent withholding and the increase for next year will amount to $1008 on the first $12,600 of earnings.

Benefits in 1937 were mainly for retirement. Today's benefits have expanded from the cradle to the grave. Limited retirement benefits can start at 62 years of age with full retirement benefits at 65. Wives and children of deceased security covered participients receive survivors benefits, which children receive benefits until age 18, or if they go to college until age 22.

The survivors benefits is a type of insurance in which the adverse monetary affects of the wage earner's death spreads the catastrophe over the entire population.

In the social security disability program, the worker who has been covered by SS for five of the last 10 working years will have benefits for his wife and children. The Medicare Health was set up for those 65 years of age and over. Last summer this program was extended to include disabilities of both the breadwinner and members of his family.

A supplemental program will be placed in effect in January to eliminate some of the disparity between various states in the aid to dependent children, aged, blind and disabled. The basis of aid will be the income and assets of the recipient. This new program will extend SS coverage to six million more persons in addition to the 30 million now covered by Social Security.

Stacy brought out some of the proposed changes now being talked about by both Congress and Social Security personnel, retirement at age 60, but at extra cost to the retiree; perscription drugs under medicare at $6.50 to $12 per month; extending coverage to Federal employes and the black lung program with benefits for former affected coal miners.

A question and answer period revealed that a retired person under Social Security may now earn $2100 a year but in 1974 he or she will be able to earn $2400 without a penalty.

# Local Doctors Attend Seminars

Two local doctors, Burton C. Ostling, M.D., and Donald C. Hartwell, M.D., attended the Annual Scientific Assembly of the American Academy of Family Physicians in Denver, Colo., Oct. 1-4. More than 3,500 family doctors participated in this once-a-year continuing education conclave.

These local physicians, who are members of the Academy, were present to hear 15 nationally-known speakers discuss up-to-the-minute health care topics. They also had an opportunity to attend their choice of clinical seminars on 36 different topics and visit 115 scientific and 250 technical exhibits.

Subjects covered in this four day scientific session are of immediate interest to family doctors, both in their everyday practices and in their continual endeavors to keep abreast of the latest advances in medicine. This year, topics included current Chinese medical procedures, drug therapy, shock, genetic counseling, diabetes, the coronary prone patient and breast surgery.

The Academy, headquartered in Kansas City, Mo., is the nation's second largest medical association and the only national medical organization that required its more than 34,000 members to keep "going back to school." All AAFP members must complete 150 hours of continuing education every three years.

## Board Overturning Zoning Commission's Dicision

A unanimous recommendation of the Highlands County Planning and Zoning Commission was overturned by the board of county commissioners Oct. 9—but not before argument among the county commissioners became heated and loud.

The board voted three to one to approve rezoning of nine lots of Martha Estates from single family residential to one and two-family residential.

The disputed tract lies off Sparta Road, adjacent to the former Boy Scout camp area.

Commissioner Ken Wilkinson, who voted against the rezoning, argued the zoning board "sits up here for a half-hour or an hour and then no one sees fit to vote for it; we listen for five minutes and overturn their recommendations."

Wilkinson's principal opponent was Commissioner Norman "Jug" Heston, but it was Commissioner Buddy Wise who remarked, "This is the final body. If objections were so strong the opponents would be here; this is the one that counts."

Zoning Director Bill Stephenson said opposition had come from landowners who said they had invested in the area with the idea they would be in single family residential area with little traffic and much quiet.

Jack Short, who represented Martha Estates before the county commission presented a petition signed by nine of the 10 residents in Martha Estates. The petition stated these residents have no objection to the proposal to build duplex housing along one side of the subdivision. "The only people objecting do not live in Martha Estates," Short argued.

**Split Session**

Following the zoning clash, the commission recessed for a time to allow commissioners to attend a public hearing on proposed regulations under Florida's new water resources law.

Upon their return the commissioners turned to another recent controversy—the county law library. At the Oct. 9 meeting the commission agreed to follow the library committee's recommendation that more space be made available for the library.

In recent weeks the county's bar association had registered complaints that the library, which is financed from fees assessed on suits filed, operates poorly. Lack of space for shelving books has been cited as a major problem.

# Letter To The Editor

## Probate Reform Needed

Editor Sun:

Thanks for your editorial relating to probate reform.

As you know, I was a prime sponsor on the Uniform Probate Code in the last session. We had much behind-the-scenes opposition on this matter although no one would dispute the need for probate reform publicly. The end result was that a joint legislative commission on probate reform was established to report back to the next session. I am a member of that commission and, to date, we have met several times throughout the state.

I feel the commission will report a product that results in genuine probate reform for Florida. If probate reform does not come in the next session, the main reason for its failure to pass will be that the public took for granted that legislation would result from need. This is not the case since legislation usually results from public pressure being maintained on individual legislators.

Your editorial will certainly help in keeping this problem in the minds of your local delegation.

I hope to see you sometime soon and certainly wish I still represented Highlands County.

## Lt. John McClure Receives Naval Aviator Wings

1-Lt. John K. McClure had his naval aviator wings pinned on by his wife, Ginger, in ceremonies held at the U.S. Naval Air Station at Chase Field, Beeville, Texas on Aug. 3. His designation represents 18 months of flight training, both at Chase Field and at the Naval Air Station in Pensacola.

Lt. McClure, son of Mr. and Mrs. William K. McClure, Bell St., Avon Park, and married to the former Marie Louise (Ginger) Peeples of Sebring, reported to Training Squadron 26 on July 24, 1973, for basic jet training in the T2C Buckeye jet aircraft. Upon completion of basic jet training, he then reported to Training Squadron UT-24 also at NAS Chase Field on March 12, 1973, where he received approximately 20 weeks of advance instruction in the TA4J "Skyhawk" jt aircraft.

Jet aviation training covers basic studies in engineering and navigation simulated flights in flight simulators, familiarization of the type of aircraft used, basic and advanced instrument training, extended navigation flights, and landings aboard the aircraft carrier USS Lexington.

Upon completion of this training, he received his coveted "Wings of Gold" and has orders Cherry Point, N. C.

THOMAS LUKE BISHOP, graduate of Avon Park High School, has been promoted to electronics technician, third class, in communications by the U.S. Navy. He entered the Navy in March of this year. Bishop is a son of Mrs. Jean McCoy of Avon Park.

# Tailoring House Opens In Highlands County

The internationally known tailoring house of Harry Oliver announces the opening of a new branch in Sebring.

Mr. Oliver, president of the Indianapolis based firm, has taken residence at 327 SE Lakeview Drive and will conduct the Sebring branch from that address. His wife is a great-niece of the late Heinrich Rohde.

"I plan to personally call on our clientele at their offices—by appointment—to show them our suitings and coat materials, or I will arrange to make the showings in the individuals' homes," Mr. Oliver said.

More than 3,000 samples of suitings will be shipped to the Sebring branch from the better known looming houses of England, Scotland, France, and Italy. Mr. Oliver will personally handle the measuring of Sebring customers.

In addition, Mr. Oliver stresses the importance of meticulous fitting. He will provide a "basted try-on". The customer will actually see his suit in the formulative stage, and will try it on before the final tailoring.

Some years ago, Mr. Oliver collaborated with a London looming house in the designing of an unique weaving process exclusive for the Oliver firm. It is a clear-finish, hard wearing pattern known as the "Oliver Twist."

The Harry Oliver tailoring company in Indianapolis takes up the entire floor of the Roosevelt building in that city. Mr. Oliver is semi-retired and their son-in-law is running the Indiana store.

# Local Board Members Agree On Douglas Site For School Complex

Discouraged over costs of filling in land on Route 27, offered for their offices complex, Highlands County School Board decided Oct. 11 to take a good look at the E. O. Douglas school site.

The Douglas site of about 40 acres would have about 25 acres available. Buildings now on the property house the kindergarten and exceptional child programs.

In discussing the site, George Douglass, superintendent of schools, said he would not be adverse to the site, which the school board already owns. He pointed out there would be room for administrative offices together with space for school bus headquarters, business maintenance and storage of materials.

Members agreed they would try to get together later in the week to view the site by jeep. The county has requested the board move offices from the court house as soon as possible, since the space is needed by the courts. A total of $60,000 has been allocated by the county toward a new offices building.

Highlands County Property Owners Association recently recommended that the board choose the Douglas site since they already own it. The Avon Park board members, G. Franklyn Ward and E. Ray Wells, have said in open meeting they felt Douglas site might be practical.

In other actions at the Oct. 11 meeting, the board:

–Approved the low bid of $5,186 from Welco Mfg. Co. of Avon Park for lawn and garden tractor, subject to federal grant.

–Heard Douglass disclose that so far the lunch room program still is operating in the black.

–Approved use of Avon Park Middle School gym by the Air Force; and use of Sebring Middle School auditorium Saturday night Nov. 17 by Sebring's Congregation of Jehovah's Witnesses.

–Approved a resolution to continue participation with cooperative film and other instructional materials library project.

–Approved a request from the Gideons to make available New Testaments to fifth grade students in the county.

–Heard a vandalism report that Carver at Lake Placid still is being severely vandalized; that bricks have been thrown through parked bus windows at Lake Placid High School, and a bullet hole was found in a trailer at Carver.

–Heard a report from George Crist on number of students being transported by bus.

# Contractor Certification Faltering

Highlands County Commissioners and members of their Board of Adjustments, Appeals and Examiners agreed Tuesday that their system for certifying contractors operating in the county was not working.

Acting Building Director Hank Eures concurred, stating that by eliminating its previous written examination requirements, Highlands County is becoming known statewide as an easy place for a contractor to obtain his certification of competency.

The commissioners expressed their reluctance to accept the results of written examinations as final evidence of a contractor's ability.

"Some of the county's best contractors haven't had much formal schooling," Commissioner Robert Skipper pointed out. "They don't do too well on written exams, but that doesn't mean that they don't know their business."

Commissioner Norman "Jug" Heston charged that the H & H Block tests contain "trick" questions.

One such question, Heston said, asked for the "nominal" dimension of a 2x4. The answer, according to Heston, is two inches by four inches. "Actual" measurements, (as opposed to "nominal" measurements), of a 2x4 are less than 2x4 inches.

"We shouldn't deny a contractor a license to work in Highlands County just because he misses such trick questions," Heston contended.

Sol Moseley Jr., a member of the county's examining board, reported that the present system of issuing certificates without examination was not effective.

Moseley said he feels that about 60 per cent of the contractors issued licenses since he joined the board were not competent.

"I wouldn't have them working for me," Moseley said.

Daniel Wirick, another member of the examining board, suggested that tradesmen such as painters, blocklayers and drywall installers be licensed virtually without examination because they are required to work under the direct supervision of competent general contractors.

However, Wirick called for tightening up of licensing requirements for those who are authorized to obtain building permits in their own names.

Wirick recommended that such prime contractors be required to pass a 20-question written examination administered and graded by the board of examiners.

If the contractor taking such a test failed it by a small margin, he could be examined further, orally, by the examiners.

If the follow-on examination indicated that the applicant was unqualified, his license application would be denied.

Wirick suggested that a contractor, failing the county examination, could still qualify for a license by taking and passing the appropriate H & H Block test.

The county commissioners accepted Wirick's proposal as did his fellow members on the board of examiners.

Commissioner Skipper instructed the building director to work with the examiners to perfect details of the proposed plan to improve county contractor certification.

# Allegations For Suspending Bass Ruled Insufficient

Allegations in the governor's order suspending Highlands County Commissioner Melville Bass of Avon Park from office were insufficient, Senate hearing officer Fred Karl ruled Monday in Tallahassee.

However, Bob Mounts of the governor's legal staff said he will file an amended order of suspension specifying acts of drunkenness and neglect of duty.

Attorney S. Colquitt Pardee, representing Bass, said at the pre-trial hearing in Tallahassee that his client's problems "have been overcome" as they relate to three incidents of charges of driving while intoxicated.

Karl said he wants to defer inquiry and recommendation to the senate until disposition of pending driving charges.

Bass, who is less than half way through the 13 weeks he must spend at Nu-Way Center, where he is undergoing treatment on alcoholism, will face trial in county court on one drunk driving charge when he concludes his stay at the center. He was arrested three times for drunk driving.

Attorney Pardee calling the driving matters "very minor", told Karl one charge has been disposed of by the court, a second should not have been made, and the third is highly questionable. It is the third one on which Bass faces trial.

Mounts said the amended order of suspensions, due early next month, probably will raise 20 missed commission meetings since Bass took office a year ago as indicative of Bass' approach to the job.

Karl said the first order is insufficient in shoring up allegations of misfeasance, malfeasance, neglect of duty and drunkenness because it merely states that Bass was charged. Legal precedent required a statement setting out the ultimate facts, he said.

"You haven't alleged enough to constitute grounds for removal," Karl said in a hearing. "If you want to stand on that I would just go to the senate with that report."

The Constitution of Florida gives the senate the duty of deciding if executive suspensions are justified. The senate may remove a suspended official or decide action against the office holder was not justified.

# '72 Fire Loss Put At $3,500

The Avon Park Fire Department held this year's city fire loss figure to $3,500, a drop of $43,800 from the fire loss total for 1972, despite an increase in the number of alarms answered.

A total of 405 alarms were answered during the year, according to the department's annual report for the year ending Sept. 20. Rescue and Ambulance calls lead the list with 296 calls; building fires totaled 37; grass or wood fires, 43; automobile fires, 11; and miscellaneous calls, 12.

There was an estimated $590,000 in property involved in the fires.

The fire department at present has four trucks, seven full-time firemen and 16 to 20 volunteers. A new pumper truck has been ordered and delivery is expected shortly. With the new pump truck along with the two pumpers already in use, the department will have at its use a total pumping capacity of over 2,800 gallons per minute.

In the past two years, the fire department has spent $6000 on new equipment.

# Devils Win Homecoming Game

The Red Devil varsity football team avenged a 1972 loss and made a stadium-packed homecoming crowd happy last Friday night with a 22-0 victory over the Frostproof Bulldogs. It was the third win against two losses for Avon Park with just four games left on the 1973 schedule—all on the road.

Tomorrow night, Oct. 19, Avon Park will be idle with an open date. The following Friday, Oct. 26, the Red Devils will travel to Arcadia for a battle with the Bulldogs in a non-conference game. The Bulldogs are having their troubles this year and have a 2-3 record to date with Charlotte High on tap for this week.

The big homecoming game between the Red Devils and the Frostproof Bulldogs looked for awhile like it would be a battle between two teams weakened by injuries and discipline problems but Avon Park's leading ground gainer, Ricky Claitt, earned the Red Devil - badge of courage for playing the whole game in spite of losing three teeth and missing most of last week's practice from injuries received the previous week. The Frostproof team was weakened by several players being benched for the key game.

After the beautiful homecoming queen ceremonies during which Debbie Minard was crowned the 1973 queen, the Red Devils kicked off to the Bulldogs to start the big battle. Frostproof couldn't mound a first down from their own 22 and was forced to punt out. Avon Park took the ball on its 40 and quickly drove to the Frostproof 25-yard line before the Bulldogs held.

Frostproof tried a running play that got nowhere and then quarterback Jimmy Hurst dropped back to pass. He threw the ball to the 40-yard line where Avon Park's Mearl Robinson intercepted and raced back the entire 40 yards into the end zone for an Red Devil TD. Nathaniel Packer kicked the extra point and the Devils had a quick 7-0 lead.

The Bulldogs then put together their longest drive of the game as they moved from their 25-yard line to the Avon Park 28 before they were again forced to kick. The kick went into the end zone giving Avon Park possession on the 20. After a couple of first downs, Sean Murphy dropped back and kicked a 40-yard punt to the Frostproof 11-yard line.

On the next offensive play by the Bulldogs, they fumbled and Jerry Robinson recovered for the Devils at the 17. The Red Devils looked like a sure bet to score but Bulldog David Lamons intercepted a DeWitt pass at the goal line to stop the drive. The remainder of the second period was a defensive battle and the half-time came with the score still 7-0.

The third quarter was the big one for Avon Park as William Burley scored two touchdowns and Nathaniel Packer kicked a 31-yard field goal to put 15 points on the board. The Devils scored from the second half kick-off with a 60-yard drive on the ground. William Burley took the ball over for the score from three yards out on a first down. Nathaniel Packer faked a kick and tried to hit Ricky Claitt with a pass for the two-point conversion but it failed.

The next Red Devil score was set up by a blocked Frostproof punt. Bernard Jackson broke through and blocked the punt. Joe Louis Smith picked up the ball and

AVON PARK athletic director Joe Franza is shown accepting a gift from the Avon Park Boosters Club presented by Hue Nunnallee at the halftime of last weeks homecoming football game. Franza was presented an 1100 Remington Vented Rib Shotgun, a carrying case, a case of shells, game belt, set of leggings and a hunting cap in appreciation of his work with Avon Park youth as head football coach at Avon Park High School from 1949 through 1972.

# Water Offered For County Building

County Engineer Gordon Hays told the County Commissioners Tuesday that drilling a well in Avon Park to furnish water for the Road and Bridge Department's barn, the Motor Vehicle Inspection Station and the voting building, would be too costly to consider further.

Hays reported that he had received bids in amounts ranging from $1800 to $2500 to sink the well.

In sharp contrast with the above bids, Avon Park has offered to furnish pipe and water meters to the three county buildings for $1395. This price would require the county to dig and cover the water pipe trenches.

The Commissioners instructed Hays to get prices on contracting for the trenching job with one of the street paving companies now working in the county.

Hays reported that B. M. Ernest, whose property lies adjacent to the county barn in Avon Park, has offered to supply the county's water needs on a temporary basis.

In other business of particular interest to Avon Park residents, the Commissioners:

–Heard the county attorney report that he had completed his review of the title abstract for property on which the county's office building in Avon Park is to be constructed. His review uncovered a defect, in that the seller, the Avon Park Youth Center Development Association, Inc., is not mentioned in the abstract as owning the property on Canfield St. and Lake Avenue. The county attorney has contacted an official of the Youth Center Development Association to correct the apparent defect.

# Student Holdiay Oct. 18-19

Thursday and Friday, Oct. 18-19, will be student holidays in the Avon Park schools.

Thursday will be Teacher In-Service Day Training, with teachers involved in County level and school departmental meetings.

Friday will be Parent Visitation Day at the schools, from 8-3. Some of the teachers will be out of town attending various meetings, so parents are asked to call ahead, to see if the particular teacher they wish to see is at school on Friday.

The Avon Park Middle School, Hopewell and Avon Elementary School will have Parent - Teacher Conference Oct. 18 from 6:30 p.m. til 9 p.m. and Friday morning, Oct. 19 from 8 a.m til 12 Noon.

# Qualifing Deadline Near For City Election

Spokesmen at Avon Park City Hall reported to the SUN that no new candidates have stepped forward during this seventh week of qualifying. The same spokesman stated so far voter registration has been "light".

With the deadline just over two weeks off, only one person has decided to run for city mayor, a seat presently filled by Robert J. Barben who hasn't yet stated his intentions.

Marshall Davis, former Assistant Postmaster here, was the first person to qualify, doing so on Sept. 4 bidding for the mayor's seat.

One week later Wilson Smith of Stephenson-Smith Funeral Home threw his hat into the ring for one of the two council seats coming up for grabs in December.

During the fourth week of qualifying time, Leslie R. Norris, operator of the Screech Owl, also decided to run for one of the council seats, as did incumbant Milton Howard on Oct. 4.

Prospective candidates should go by city hall to obtain all of the necessary forms that must be filled out along with opening a campaign fund at the bank. A qualifying fee of $25 is also necessary. The books for qualifying, along with voter registration, will remain open at city hall until Nov. 2, during normal working hours.

# Homecoming Game Victory

Continued From Page One

moved it to the 10-yard line game. Packer's kick was no before being brought down by a good but the Devils had a 19-0 Frostproof tackle. From the lead.
10, Burley blasted through for Frostproof fumbled again on the second touchdown of the its next possession on its own 22-yard line and Dennis Avery pounced on it for the Devil recovery. A couple of 15-yarders kept the Devils from driving in for a touchdown so on fourth down, with the ball on the 13-yard line, Nathaniel Packer kicked a field goal from the 21-yard mark. The three points finished out the scoring of the evening giving Avon Park the 22-0 win.

Frostproof put together a scoring threat midway in the fourth period when the Bulldogs passed and ran from the Avon Park 43-yard line to the Devil four before Avon Park stopped them on four plays within the 10. A 44-yard kick-off return by Jimmy Hurst had given the Bulldogs the good field position.

Late in the game Nate Williams recovered Frostproof's three fumble to ice the game away.

Red Devil Marvin Jackson was the leading tackler on defense for Avon Park with 12 tackles and four assists. Bernard Jackson had five tackles and six assists, Nate Williams had six tackles and three assists, and Moses Anderson, Mearly Robinson, and Jimmy Carter all had credit for four tackles each. Joe Smith turned in an excellent defensive game and quarterback Buddy DeWitt made a TD saving tackle on the long kick-off return by Hurst.

# Softdrink Machines Are Found Vandalized

By Officer GENE HANCOCK

In a report filed by Patrolman Gene Hancock, he stated that the Police Department received word from the County Sheriff's office that several soft drink vending machines had been vandalized in the Sebring area. Upon checking the machines in the Avon Park area, it was found that the machine located at the bus station had been broken into, however the machine was out of order and no money was taken. This was discovered by Deputy Bob Hopton, at approximately 1:17 a.m., Sunday. At 3:19 a.m., Hancock found the Coke machine at a used car lot on Highway 27 had also been vandalized, and the money taken out. The investigation is continuing by both departments.

Charles J. Deegan, Sebring, was charged with violation of right-of-way following an accident at the intersection of S. Central and W. On December 31, a barrel of oil cost us $1.68. Today it costs us $3.45. We don't know about tomorrow.

The wildly escalating price of foreign fuel oil is causing us problems, and costing you money.

But price isn't the only concern with fuel today.

While we do have oil contracts with reputable companies through 1977, these contracts are only as good as these companies' ability to deliver.

And available world supplies are dwindling.

That's why we all need to use the fuel we have as conservatively as we can.

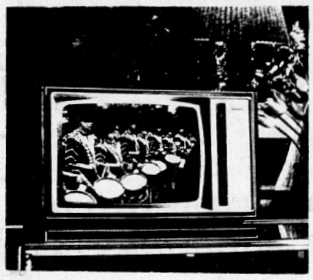

And that's why your electric bill, as hard as we've been working to keep it down, has been going up and will continue to go up.

## Jayvee Offense Runs Over Santa Fe, 38-6

Coach Dewayne Lemler's Red Devil junior varsity put on an offensive show last Thursday night here at Memorial Field taking a 38-6 victory from the Santa Fe Crimson Hawks of Lakeland to set a 2-2 record for the season.

Tonight (Thursday) the Devil junior varsity will be at home again hosting Mulberry here at Memorial Field at 7:30 p.m. Next week the team will travel to Arcadia on Thursday for a game with the junior varsity Bulldogs of DeSoto High.

The Avon Park offense rushed for 322 yards against the Crimson Hawk jayvee defense last week with speedy back Reggie Baker scoring four touchdowns and two two-point conversions. Kenneth Burley scampered some 60 yards for a touchdown and James Ross and Anthony Gaines both scored a two-point conversion each. But it was the whole offensive team that put it all together last week. John MicKunas, Marvin Williams, and Dale Sisemore all saw action at quarterback; Ross and Burley ran from left halfback; Baker, Charles Anderson, and Robert Brown took turns at right halfback; and Anthony Gaines, Ken Burley, and Randy Cobb all did some ball carrying from the fullback slot. On the offensive line, it was Charlie Glenn, Willie Jervier, and Clifford Coleman at left end; Jim Stewart and Ken Light at left tackle; Mike Cobb, Joe Galimore, and Steve Roberts at left guard; Freddie Moore and Tommy Pralo at center; Harry Stukes, Pralo and Tyrone Moss at right guard; Noel Braithwaite, Carrell Davis, and Hicks at right tackle; and Ben Wright and Mort Jackson at right end.

Coach Lemler praised the playing of offensive linemen Mike Cobb, Harry Stukes, Jim Stewart, and Noel Braithwaite. He said the defense was led by Darrell Davis, McArthur Rouse, Melvin Collins, Freddie Moore, Harry Stukes, Randy Cobb, Mike Cobb, James Ross, Reggie Baker, Anthony Gaines, and Ben Wright. Darrall Davis just became eligible and did a real good job at defensive tackle. Also seeing action on defense were Charlie Glenn, Hicks, Richard Stevens, Jim Lanier, Steve Simpson, Clifford Coleman, and James Ross.

The offense had several sustained drives during the game. At one point it moved from its own 35 yard line down the field for a touchdown. Usually the Devils had better field position than that as the defense held the Santa Fe squad to just one touchdown.

## Mr. And Mrs. Love Honored On Anniversary

Mr. and Mrs. Shannon Love were honored by their children on their "60th Wedding Anniversary" with a reception at the Florida Power Lounge on Sunday afternoon, Oct. 14, from 1 until 7 p.m.

Mrs. Martha Patterson, daughter of the Loves received the guests, with over a hundred signing the guest book during the afternoon.

Mrs. Oscar Laye presided at the money tree, which was a lovely live orange tree in a container covered with pink net and circled with green leaves and pink flowers. The guests attached money to the limbs and leaves, which amounted to $216, an anniversary gift to the honorees.

Mrs. Ben Love served the beautifully decorated cake from a table covered with a lace trimmed cloth. Candles twinkling along a pathway of pink blossoms set off the sculptured elegance of the pure white three-tiered cake, which was decorated with garlands, colonial scroll, and fleur de lis swags. The cake was topped with a romantic crowning touch of lyrical beauty and charm, two cheerful lovebirds singing in a bower of flowers. A large crystal bowl of mixed roses added to the beauty of the table.

The two granddaughters, Miss Tammy Love and Miss Debbie Love, presided at the punch bowl, which was surrounded by fern and pink hibiscus. Compotes of nuts and mints also decorated the table, which was covered by a white lace trimmed cloth. The misses Cathy and Debbie Williams assisted with the serving, and Mrs. Hubert Bussard was circulating hostess.

The lounge was decorated throughout with bouquets of roses and pictures of Mr. and Mrs. Love before their marriage and family group pictures made during the years. Belle Satterfield and Shannon Love were married on Oct. 12, 1913, at Hurricane Mills, Tenn., and set up housekeeping in Dickson, Tenn. They moved to Nashville in 1914, where Mr. Love worked as a carpenter and general contractor until his retirement in 1955, at which time they moved to Avon Park, and have been residents here since that date.

All three of the Love's children were at the reception, Mrs. Martha Patterson, Nashville, Tenn.; Joe Love, Nashville; and Ben Love, Avon Park.

The Love's have ten grandchildren and thirteen great-grandchildren. Five of the grandchildren attending the reception were Bobby Love, Nashville, Tenn.; Tommy Love and wife, Daytona Beach; Edward Lee Patterson, Nashville; and Misses Tammy and Debbie Love, Avon Park.

The Rev. Warren B. Wall officiated at the double ring ceremony at 6:30 p.m. as tiki torches framed the garden setting. Mr. and Mrs. Lawrence W. Saucier

### THE BRIDE

Given in marriage by her father, the bride was lovely in a candlelight organza gown, reminiscent of the 19th. century, with ruffles at the yoke and sleeves. The double ruffle at the hem formed a pinafore look in the back. Her carriage hat complimented the gown with its large bow and waist length veil in the back. She carried an arm bouquet of long stemmed pink rose buds.

Maid of honor was Miss Cathy Turner, sister of the bride. She wore an organza pink print gown with a deep ruffled collar and pink cummerbund which formed a bow and streamers in back. She wore a white picture hat with fresh matching flowers on the side. She carried a basket of daisies and fern.

The bridesmaids' gowns were all styled the same as the maid of honor, with Mary Turner, sister-in-law of the bride, wearing blue; Margaret Hamilton, sister of the bridegroom from Orlando, wearing yellow; and Candis Weekley, cousin of the bride from Pensacola, wearing apricot. The bridesmaids all wore matching hats and carried baskets of daisies.

Larry chose for his best man, his father, Ray Reffett from Palm Bay. Ushers were Richard Hamilton, brother-in-law of the bridegroom, Orlando; Mike Chambers, Miami; and Wesley Turner, brother of the bride, Avon Park.

For her daughter's wedding, Mrs. Turner wore a blue dotted-swiss gown with white accessories and a pink rosebud corsage.

Mrs. Reffett chose for her son's wedding, a blue crepe gown accented with white trim at the neck and hemline. She wore white accessories and a corsage of pink rosebuds.

### RECEPTION

Immediately following the wedding ceremony, Mr. and Mrs. Turner entertained at a buffet dinner served on the patio to all the guests. Old fashioned bouquets, burning torches and candles were used throughout the garden setting. To further carry out the "old fashion setting" the guests were entertained during the reception by a Barber Shop Quartet, composed of Carl Arant, Billy Martin, David Sechrist and Dan Rutman.

The table which held the beautiful tiered cake was decorous with baskets of flowers and candles. Tall hurricane lamps stood majestically on each side of the table in the garden setting. The cake was of royal proportions with four small cakes on revolving stands setting off the three tiers soaring above. The small cakes were centered with angels playing their harps while roses and clusters of rosebuds in the bride's colors of pink, blue, yellow and apricot blossomed amid rich swags and scrolls of snowy white. The striking foot-high ornament of a crown of white orchids gave glamor to the traditional bridal couple in an arched garden setting. Mrs. Ann Baker of Tampa served the cake.

Guests served themselves from a silver, circular three-tier fountain, with hanging baskets of fern forming the background. A tall silver candelabra with burning tapers and flower arrangement in the bride's collors, centered the buffet table, which was laden with silver trays of chicken salad in pastry shells, a huge silver bowl of peach halves, served with a topping of cottage cheese and cherries, relish trays and home-made rolls.

Dottie and Richie Hamilton and Jennifer Ash passed out long stemmed roses filled with rice, which the guests showered on the bridal couple as they left on their honeymoon.

### HONEYMOON IN SOUTHERN STATES

When the bridal couple left on a honeymoon for points of interest in Atlanta and Chattanooga, the bride was wearing a green knit pantsuit. After their return, they will reside in Lakeland.

The bride will graduate in December from Florida Southern College in Lakeland, with a B.S. degree in Psychology. The bridegroom is a 1972 graduate of Florida State University, Tallahassee, with an A.B. degree in Criminology.

### OUT-OF-TOWN GUESTS

Out-of-town guests attending the wedding on Saturday were Mr. and Mrs. Sam Ash, Arcadia; Mr. and Mrs. George Landquest, Arcadia; Mr. and Mrs. Garland Roberts, Fort - Myers; Mr. and Mrs. Charles Moore, Lake Wales; Mr. and Mrs. Richard Hamilton, Melbourne; and Mr. and Mrs. Raymond Turner, Miami.

The Turner-Saucier wedding party were entertained at a dinner at Clayton's Restaurant in Sebring, on Friday, Oct. 5, following rehearsal. Hosting the affair were the bridegroom's parents, Mr. and Mrs. Leroy Reffett of Palm Bay.

Teammates Eugene Sneed, Reid Wall, Doug Fletcher, and Raliegh Turnbull captured places two through five as the Red Devils shut out the Blue Streaks with a 15-40 score. Other finishers for the Devils included Jerry Sensenig (11), Edward Jones (12), Ken Collinsworth (15), Ricky Spurlock (16), Walter Newton (17), Eric Simpson (18), Edward Moses (20), and Charles Luke (21). Three unofficial runners who did well were Mike Owens, Jack Collins, and Clarence Spry. All three of these ninth graders will be official this next week according to Coach Chet Brojek.

Last Friday the Red Devils finished second in the seven team Lakeland Invitational. James Brown established a new Lakeland Course record of 12:25 as he outdueled Joe Franklin of Haines City for individual honors. James broke his own year-old record of 12:44 for the two and a half mile course. Eugene Sneed placed fourth with a good 13:10 time. Larry Sneed was ninth with an excellent 13:24 time. Doug Fletcher and Raliegh Turnbull captured 29 and 33 spots to close out the Devil varsity scoring. The Devils ran without several varsity runners because of homecoming activities at Memorial Field and because of personal trips. Coach Brojek expressed extreme pleasure at the performances turned in by Brown and the Sneed brothers in the Lakeland meet.

In "B" team action in the Lakeland meet the Devils were paced by Edward Jones with a 15:35 clocking good for twelfth place. Jerry Sensenig, Jackie Roberts, Ricky Spurlock, Frank Anderson, and Eric Simpson placed seventh, twententh, twenty-fourth, twenty-fifth, and twenty-sixth respectively as the Devil "Beas" finished fourth in the competition.

THESE THREE Red Devil cross-country runners have turned in excellent performances this fall with Coach Chet Brojek's squad. From left are Doug Fletcher, Larry Sneed, and Raliegh Turnbull. The Devils will run in Mulberry this week and will be at home next Tuesday afternoon.

## Mrs. Suggs Returns From Trip To Canada With Son And Family.

Mrs. Lena Suggs returned Oct. 7, from a trip that began in Atlanta with her son and family, Dr. and Mrs. Morris Suggs, Anne, Jenny and Elena.

Mrs. Hazel Howell joined her there. They took a plane to Fredericton, New Brunswick, Canada, where a rental car was waiting for them. They found Prince Edward Island a refuge of serenity and beauty. Next they toured Nova Scotia; first was the Cabot Trail that is believed by many seasoned travelers to be the most beautiful scenery in North America. While Mrs. Suggs would not agree with that appraisal, the scenery filled them with awe, a sense of glory and inspiration. After that they followed the sea along the central and southern sections, as well as through the fertile valleys cut by rivers and dotted with lakes. The Evangeline Trail, highlighted by the restoration of Grand Pre' came next. There Longfellow is honored as well as Evangeline and Gabriel.

Last they did the cities of Truro, Dartmouth and Halifax. They turned in their rental car at the Halifax airport. Their next stop was a visit with the Rev. and Mrs. Don Whitcomb at Paxton, Mass. Jean and Don made every effort to show them the beauty and historic aspects of the First Congregational Church, one which dates back to the 1700's. Some of his parishioners invited them on the Woman's Club Tour of Homes. Their trips to Sturbridge and the Monastery nearby, a tour of the church highlighted by learning to do "grave rubbings" of the old tombstones, were some of the activities. However the hospitality of Jean and Don dwarfed everything else.

Their next stop was with Dr. and Mrs. Harold Carrin and children, John and Christy at Boone, N.C. Beth and Harold have a unique beautiful home on top of a mountain that provides views that rival the world's best mountain scenery. Mrs. Howell left the second day to visit with her family.

Mrs. Suggs remained for several days to enjoy the Appalachian University football homecoming games; a celebration dinner, and at a later date, a fashion show and buffet dinner.

She then returned to Atlanta and later proceeded to visit with Jane, Lisa, and Wade Hall, as well as Susan and Bob Takacs in Gainesville. Her visit with her mother, Mrs. W. M. Reddick at Forest City, completed her trip.

# Red Devil Homecoming 1973

AND HERE ARE THE Cheerleaders with the school emblem, ready for the "big reds".

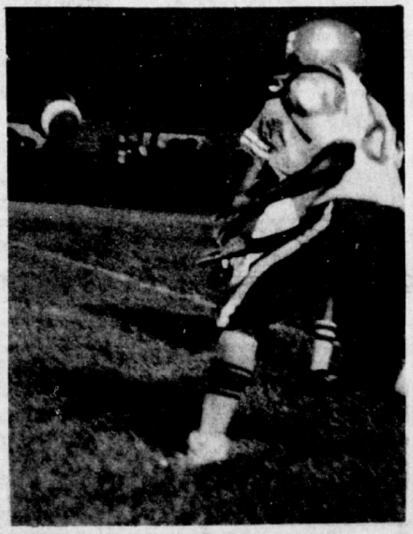

PART OF THE FLOATS and decorated cars can be seen down Main Street in Avon Park during the Homecoming Parade, preceding the "Pep Rally" held at Memorial Field on Thursday, before the Homecoming game on Friday.

FROSTPROOF PLAYERS watch helplessly as Ricky Claitt (25) dives for a Bulldog fumble. Nate Williams (61) ended up covering the ball to give Avon Park one of three fumble recoveries in the game last Friday which Avon Park won 22-0 to cap off the Red Devil homecoming activities.

NO PARADE WOULD be complete without the "sounds of a big Tuba". (executed by Keith Crews).

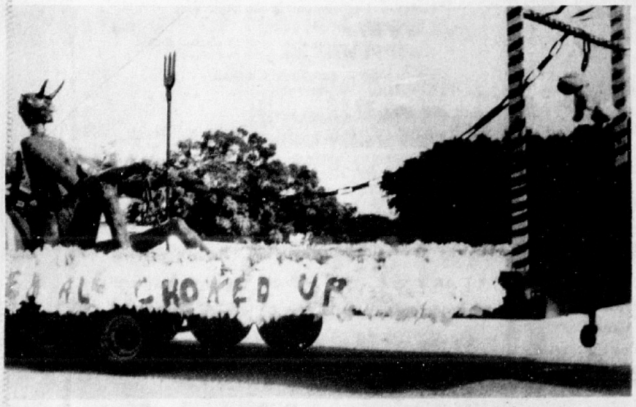

THE BALL looks like an easy catch for Red Devil Nate Packer but the oncoming Frostproof defender got a hand in the way to knock it away

A DISPLAY OF flags preceded the High School Band in the parade on Thursday, Oct. 11.

A "FUNERAL FOR THE BULLDOGS" won second place in the float competition, the work of the Glee Club.

THE SOPHOMORE CLASS won first place with their float of "WE'VE GOT 'EM ALL CHOKED UP".

# Learning Disabilities Test Developed By Local Doctor; To Be Promoted Nationally

By ELOISE SHARPE

This month, a unique learning disabilities test will be published and promoted nationally, after being developed by Dr. Brian T. Jordan, director-psychologist at the Highlands Mental Health Center. Academic Therapy Publications, a California Company, is very enthusiastic about the response this diagnostic test will receive from psychologists and teachers working in the area of reading problems and learning disabilities. The Jordan Left-Right Reversal Test, as it is called, makes it possible to reliably measure the significance of children's letter and number reversals.

DR. BRIAN T. JORDON, director - psychologist, at the Highlands Mental Health Center, is shown giving the "Jordon Left-Right Reversal Test to a fourth grader. The test published this month, makes it possible to reliably measure the significance of letter and number reversals in children, and will be used by teachers and clinicians nationwide. (Photo by Sharpe)

Dr. Jordan stated "The occurance of visual or written reversals like "d" and "b" is a fairly normal event for young children around age five or six, however the presence of reversals has also long been suspected to be a symptom of a neurological learning problem." Dr. Jordan's test is the first instrument to make it possible to measure the normal-abnormal limits of this problem, when given the individual age and sex of a child. Previously, most educators used a rule of thumb measure, but had no statistical norms to go by in evaluating the normal child.

**Developed here in Highlands County**

Dr. Jordan was pleased when he mentioned "The test is the result of a lot of local effort and cooperation. Usually educational and psychological tests emerge from high powered universities or research hospitals, not small towns like the ones we find in Highlands County." The 36 year old psychologist first became aware of the urgent need for such a test related to visual reversals in children, some five years ago when he was on the staff of a community clinic in Louisiana. At that time, he began some preliminary work on developing the test, however the project was dropped when moving to Highlands County three years ago.

As a part-time consultant to Highlands' public schools since 1970, Dr. Jordan continued to encounter cases of neurological learning problems and also the unsolved issue of "how to accurately measure the meaning of reversed letters and numbers." This prompted him to renew his research. The master copy of the test was actually done by a local artist in Sebring, who knew how to make perfect backward letters from his work doing signs on windows.

A UNIQUE LEARNING disabilities test will be published this month nationally by Dr. Brian T. Jordan of Avon Park, shown above with wife, Susan, going over the research data, which resulted in the Jordan Left-Right Reversal Test, making it possible to reliably measure childrens' letter and numbers reversals. (Photo by Sharpe)

In order to gather the 3,000 cases Dr. Jordan needed for the basic normative data, field testing was done at many schools across the country. At the same time, local school officials like George Douglass, superintendent of Highlands County schools, and Thomas R. Johnson, head of Pupil Personnel Services, were extremely helpful in the testing of local children.

Last spring Dr. Jordan's wife, Susan, became a research assistant on the project. Dr. Jordan notes "woman's lib wouldn't be happy, as I didn't pay my wife." Mrs. Jordan spent many months doing the complicated statistical analysis needed for test reliability and validity. The local Bureau of Alcoholic Rehabilitation was most helpful in offering caculators during off hours to the research team. Alan VanLewin at the Alcoholic Center, assisted the Jordans at times for statistical consultation. Meanwhile at the Jordan household, piles of research data made the dinner hour a dubious venture at times. In looking back, Mrs. Jordan commented, "I really enjoyed the challenge and would like to see more women realizing the opportunity to use their abilities through the home while still being a housewife."

Final negotiations for the marketing of the test took place last spring when two companies were interested. Dr. Jordan made his final choice with a company which he feels will use the test to advance the field of learning disabilities and help children with this disorder. Presently the test is available to teachers and clinicians nation wide.

**Causes of Visual Reversals**

In questioning Dr. Jordan, who is a clinical psychologist, about what causes reversal problems, the subject turned to neurology. "Actually it was easier to develop the test on an empirical basis, than to explain the causes, mainly because we just don't know," he stated. The awareness of this childhood disorder is relatively recent. Common classical symptoms include - poor academic achievement, average but uneven mental abilities, hyperactivety, perceptual motor problems and often visual or written reversals. The latter, mirror image reading, is thought to occur due to mixed neurological dominance. Normally in the school aged child, the left hemisphere of the brain controls all psychological functions. "However," Dr. Jordan continued, "with competing right and left side dominance, in a child, the results are often mirror image writing or reading." By way of treatment, certain drugs can be used to control hyperactivity and recently the Highlands County schools have begun three learning disabilities classrooms for remedial teaching.

**Uses of the Test**

Dr. Jordan's Left-Right Reversal Test can be used by teachers as a valuable screening instrument in the classroom. An abnormal score would cue the teacher to give closer attention to potential reading problems that may exist. If the overall academic picture looks suspicious, the teacher would then request a professional psychological - evaluation and diagnosis. On the other hand, a normal score on the test can calm the concern of a parent or teacher who has noticed a child making letter or number reversals, but wasn't sure if a definite neurological problem really existed. An additional use of the new test exists for psychologists, psychiatrists and pediatricians who employ diagnostic test batteries in working with children's disorders. Dr. Jordan feels his efforts will help many children and make a worthwhile contribution to the field of learning disabilities.

Dr. Jordan received his professional training at Emory University in Atlanta, receiving a Doctorate in Clinical Psychology. He is a member of the American Psychological Association and also chairman of the professional affairs board for the Florida Psychological Association.

The Jordans came to Highlands County from Covington, La., in 1970, and lived in Sebring for eight months. They were impressed with Avon Park, as an ideal small town, bought a home on Lake Lotela, and have lived there since. When Dr. Jordan is not at the Mental Health Center, and Mrs. Jordan is not at Walker Memorial Hospital, where she is in charge of the Candy Stripers, they can be found out on Lake Lotela, either fishing or skiing, as both are avid outdoor enthusiasts.

## IN NEED OF *Specialized* HELP

The car's acting up . . . sometimes he can repair minor problems himself . . . but this time it looks like it may require the work of a specialist. To correct this problem he needs a mechanic, someone who has the knowledge and equipment for this particular work.

In spiritual matters, individual worship is necessary and vital to one's life, but God in his wisdom has said that we need to worship with others too. At church we can receive help from those who have dedicated their lives to special service for God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

EVERYONE IN THE CHURCH . . . THE CHURCH IN EVERYONE

# Rev. Mulkay Presents Program On Holy Land To Avon Park Rotary Club

The Rotary Club of Avon Park was priviledged to hear and see a program on the Holy Land this past week. The speaker was the Rev. William T. "Bill" Mulkay, pastor of the First Presbyterian Church in Frostproof. The Rev. Mulkay told the Rotarians that his hobby was travel, and that he has made it a profitable hobby by becoming a tour guide director during the summer months. His travels have taken him to all parts of Europe, including a trip most recently to Greece.

The Rev. Mulkay has also visited South America, and has made three trips to Israel. These trips have included peaceful times, and also some times such as now, then they had to cross through a "no-mans land" to reach the country of Christ's birth. His comments on the latest developments were that he was not surprised, and expected constant turmoil in that area of the world for years to come. He has seen that many Arabs and Jews have learned to live together, but that the nations of that area still consider themselves mortal enemies, and consequently war will probably be a way of life in the Holy Land.

He concluded his talk with a series of slides that he personally has taken. These included scenes from the Mount of Olives, Mount Zion, The Garden of Gethsemane, The Church of Saint Peter, Where the cock crew, the purported Hill of Calvary, a Tomb simular to that of Christ's burial place, The Shepards Field near Bethlehem and the City of Samaria.

Norris Brooks, program chairman for the month of October presented the Rev. Mulkay with a certificate of appreciation from the Rotary Club of Avon Park at the conclusion of the program.

THE REV. "BILL" MULKAY of the First Presbyterian Church, Frostproof, describes some of the highlights of his travels for his Rotarian audience.

## Rummage Sale

The United Methodist Women are sponsoring a "Rummage Sale" on Friday and Saturday, Oct. 19 and 20, from 9 a.m. until 5 p.m., in the classroom building back of the church.

# Plans For Christmas Bonnanza Announced

The Episcopal Church Women of Avon Park met for the first meeting of the 1973-74 season on Wednesday, Oct. 10, in the Parish House of the Church of the Redeemer, after the midweek Communion.

After a short coffee, Mrs. Eugene Hise brought the meeting to order. Mrs. Mabel Paine opened the meeting with prayer. The secretary's and treasurer's reports were read and approved.

Mrs. Hise announced that plans for the "Christmas Bonanza" are shaping up. The event will be held on Thursday, Dec. 6, and will open at 10 a.m. and continue until 7 p.m. Refreshments will be served all day. The chairman of the various booths asked for donations. They will contact members later. Members are asked to mark the date on the calendar, and come and bring their friends. A good time is promised to all. Also good food.

Mrs. Sherman Francisco thanked all the members who helped her in the very successful Rummage Sale. Without their help, before, during and after the sale, it would have been "no sale."

Mrs. E. G. Todd introduced Mrs. Carolyn Moore, speaker for the day. Mrs. Moore is the new librarian for the city, and a real asset to the community. Born in Mississippi, she finally reached Avon Park via California. Since her arrival, the library has taken on a new look, with fresh paint inside and out; Mrs. Moore making the plans, and the city fathers, approving and paying. She told of the plans for library use. Many of the books were outdated and worn. Those too tattered for repair were thrown out. This year she is concentrating on buying childrens' books. Next year, adult books will be purchased. She is also putting in a lot of paper-backs, as she has found that young people will take them instead of hard backs. She is instituting a story hour for the children, and hope to obtain films for the older children.

Many new books will be purchased, and 30 magazine subscriptions, in addition to those already in the library. She ended her talk with a guessing game. She gave a clue, and asked members for an author's name. It was fun, and members remembered more names than they thought they knew.

Mrs. E. Hise thanked the hostesses, Mrs. E. M. Bryant and Mrs. G. L. Buck for the delicious refreshments. The next meeting will be Wednesday, Nov. 14, after midweek Communion.

# Halloween Parade And Carnival Saturday

The annual Halloween parade will be held Saturday, Oct. 27, starting at 4 p.m. with the carnival starting immediately after the parade.

The children's parade line-up, headed by Mrs. Myrtis Guerndt will be at the area behind the old armory. The gates will be open at 3 p.m. for line-up to begin. Gates will be closed at 3:30 for judging. Any child not in the line-up by 3:30 will not be admitted until judging is over, at 3:45. Ribbons will be given and pictures will be made at 3:45. Kindergarten will be added to the line-up this year. Judging will be in three categories in each grade. The divisions for the costumes are, "Most Like Halloween", "Most Original, and "Most Beautiful".

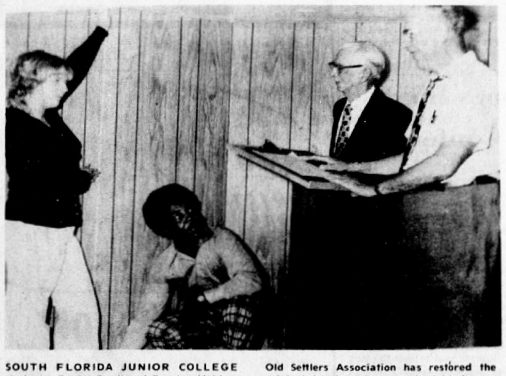

All entries on wheels or in groups will be in the Novelty Section. Ribbons given will be worn in the parade. Please remember these times so your child will not be left out.

The float and marching units section of the parade headed by Mrs. Janet Willis will form on South Verona Ave., from the post office to the Middle School. Everyone entering in the section please contact Mrs. Willis before Friday, so line-up can be completed. Also all floats are asked to come south on Lake Ave. to Bell St., turn left coming up beside Middle School gym, then turn north on Verona heading back toward town. This will keep traffic moving in the same direction so as to help hold down confusion. Everyone entering this section of the parade will be notified by phone their position number in the parade. Numbers will be on either side of the street facing the way you are to be driving.

Judging of floats and cars will be from 3:15 to 3:45 p.m. If you want to enter your float or car in the judging, please keep these times in mind. Plaques will be given to the winners before the parade starts and pictures will be taken after the parade is over. Plaques will be given for the following, Most outstanding business float; Most outstanding business decorated car; Most outstanding club float and Most outstanding club decorated car.

The Lions Club of Avon Park is once again going to serve its famous chicken BarBQ following Saturday's Halloween parade. Service is set to begin shortly before 4 p.m. at the Lions' booth in Donaldson Park. The club plans to barbecue four hundred servings for the first four hundred hungry customers. Each serving will include one-half a barbecued chicken, baked beans, cole slaw, roll and iced tea. The price is set at a most reasonable and competitive $2 per plate.

Please remember that all moneys received through public projects of this type are funnelled by the Lions into community benefit programs. You are thus given the opportunity to salve your hunger and contribute to a better Avon Park at one and the same time.

SOUTH FLORIDA JUNIOR COLLEGE students, Becky Ewell and Preston Mobley, both of Avon Park, are measuring the interior of the band stand on the Mall, for the cabinets to be built. The Rev. Herbert D. Graetz (second from right), president of the "Old Settlers Association and Mr. Leo L. Gleese, Drafting Instructor of South Florida Junior College, are offering suggestions. The Old Settlers Association has restored the original bandstand, one of eight known original bandstands in the United States. The SFJC students will draw plans and the Avon Park Correctional Institute shop will build the cabinets, which will become a part of the mini-museum to be established in the bandstand building, by the Old Settlers Association of Avon Park. # Stricter Trash Ordinance Passed; Curfew Discussed At Meeting

Don't wrap it, bag it! This is essentially what citizens of Avon Park are going to have to do with their trash.

The Avon Park City Council Monday night passed an ordinance requiring specific handling of trash by citizens for pick-up and disposal by the city. The new regulations go into effect immediately.

The new trash regulations are:

No trash shall be deposited for pick-up except that which results from ordinary yard and tree maintenance. Specifically excluded from pick-up are building construction debris, metal objects, complete tree removals or debris from extensive storm damage.

All leaves, grass cuttings and other debris which would not tend to puncture plastic bags must be placed in either plastic bags with tied tops or in cans with tight-fitting lids no larger than 30 gallons. Tree limbs must be cut in lengths not exceeding four feet and weighing not more than 30 pounds. Palm fronds over four feet long will be accepted.

The locations for depositing trash for removal will be subject to approval of the superintendent of public works.

Accumulations of trash and rubbish which the city shall not remove under the provisions of the ordinance may not remain along easements or right-of-ways longer than one week.

The city has recently purchased a new garbage truck with expected delivery in the near future.

In other Council action, a discussion.

The ordinance has grown out of several complaints by citizens and the Avon Park police force of juveniles reportedly causing disturbances late at night and being involved in some breaking and entering incidents. A recommendation for the Avon Park Chamber of Commerce suggested some sort of regulation that could improve the present situation. A curfew curfew ordinance which would require all persons 17 years old and younger to be off city streets and property by midnight received heavy was decided upon.

A presently unenforced curfew dating back several years requiring that persons 16 years and younger be home by 10 p.m. is still on the books in City Hall and technically still in effect. "What we're actually doing is liberalizing the laws," said Councilman Milton Howard. "Ten p.m. is just too early."

The Council agreed that enforcement of the existing law would not work.

Mayor Barben, outspokenly for the curfew, said, "Kids don't need to be walking the streets at all hours of the night as they are now doing." He said that the curfew would not be used to harrass anyone, but that it would be for the youngsters "own good." He cited an example of several very young children, aged five years and up, whom he took home after a recent ballgame because the children had no arrangement for transportation but to walk.

Robert Woodruff was the only councilman to speak against the curfew ordinance. He contended that such a curfew would be difficult for the police to enforce in that determining a person's age might prove difficult at times. Woodruff cast the only vote against the first and second readings of the ordinance. An ordinance must be read three times before being passed.

The proposed ordinance, according to City Attorney Jonathan Hancock, would hold the parents or legal guardians responsible for the children caught breaking the curfew.

THE DATE ON the calendar (Monday, Oct. 22) signifies the date incumbent Mayor Robert J. Barben paid his qualifying fee to City Bookkeeper, Virginia Henderson. Mayor Barben first served the City of Avon Park as a Councilman in 1953, and was elected Mayor in 1969, a position he has held continuously since. He is now seeking his third term as Mayor of Avon Park. Photo by Sharpe.

## Time Ends

Daylight Savings Time will go off in Florida at 2 a.m. Sunday. Don't forget to set the clock back an hour when you go to bed Saturday night—and enjoy that extra hour of snoozing!

# Public Hearing On Avon Growth Is Scheduled By City Council

The Avon Park City Council will hold a public hearing Monday Nov. 5, at 7:30 p.m. in the Council Chambers of City Hall to consider a general growth plan for the city, including a new zoning ordinance and an ordinance for regulation of subdivisions. All interested persons are invited to attend the hearing.

Copies of the general plan, proposed ordinances and the proposed zoning map are on file in the city clerk's office weekdays, 8 a.m. to 5 p.m. for public inspection.

A master plan for the city was begun in July 1972 as a requirement by the U.S. Department of Health Education and Welfare in Avon Park's bid for Federal aid on a sewer program.

HUD has since lost authority over such matters, but with the report already funded and in progress, the master plan was completed.

"We no longer were required to have the plan for our sewer work," Malcolm Crews, city clerk, explained. "But since it (the report) was already funded, we decided to go ahead with it. It will give Avon Park some kind of direction for the next 20 years," he said.

The master plan is basically a guide to the future development of Avon Park and its immediate surroundings. The plan is compatible with the comprehensive growth plan for Highlands County, according to the report by the consultant firm, Candeub, Fleissig and Associates.

The general planning program is broken down into two parts, a technical report, and a regulatory control

# Barben Qualifies For Third Term As Mayor Of Avon Park

Incumbent Mayor Robert J. Barben completed his registration at City Hall Oct. 22, deciding to run for a third term.

Barben, a native of Huntingdon, Pa., has been a resident of Avon Park for the past 24 years. He is married to the former Jane C. Hartt, they have seven children, four of which have graduated from Avon Park High School and three are currently enrolled at the Middle School.

Barben and family are members of the Union Congregational Church of which he is a member of the Board of Trustees.

Mayor Barben is also a member of the Rotary Club, past president of the Chamber of Commerce and past president of the Junior Chamber of Commerce; he is presently the chairman of the Highlands County Soil and Water Conservation District, a member of the board of directors of Adams Packing Association, Inc., in Auburndale; a director of Growers Fertilizers Co-op., Lake Alfred; president of the Florida Agricultural Tax Counsel, a member of the board of directors of the Barnett Bank at Sebring, and has been a member of the board of directors Florida Citrus Mutual for the past 18 years.

"I love politics" stated Barben as he told the SUN he first went into Avon Park City Government as a city councilman in 1953. He served the citizens for two terms in that position. In 1969 he was elected to the seat of Mayor, a position he has held continuously, now running for a third term.

"I'm basically interested in the City of Avon Park and its people," Barben said, "and I feel there are quite a few challenges coming in the future."

We need to continue our work on sewers and water improvement.

"With more people coming to the city," he continued, "we have more problems. I'm interested in the city having a good police department and fire department."

Barben said a lot of changes have come to the city since he was first elected Mayor. "The city's equipment is the best it ever has been. We have just recently cut the millage rate one-half mill. This progress

# *Devils Travel To Arcadia Friday*

The Avon Park varsity will travel to Arcadia tomorrow (Friday) night for a football game with the DeSoto High Bulldogs after a week off due to an open date. Kick-off time is set for 8 p.m.

The Red Devils will go into the game with a 3-2 record after consecutive 22-0 wins over Wauchula and Frostproof. Arcadia has won only two of its six games taking a 12-6 victory from Naples and a 27-6 win from Sebring. The Bulldogs lost 20-0 to Bartow, 21-7 to North Fort Myers, 35-14 to Venice, and 10-8 last week to Charlotte High of Punta Gorda. But Coach Hill says that Venice and Charlotte are both undefeated Class AAA schools and the Bulldogs have played a very tough schedule.

After scouting the Arcadia eleven last week, Coach Hill said that the DeSoto High team was undoubtedly the best-balanced ball club the Devils have met so far. They have an excellent quarterback in Ted McKenzie and the offense can move the ball very effectively on the ground or through the air according to scouting reports.

The Red Devils have shutout the three teams they defeated but gave up 20 points to the tough Mullberry squad and allowed Fort Meade to score 19 against them. The Devil defense has been tough however. It will have perhaps its toughest job this week trying to hold down the Arcadia offense which has dropped three straight games and will be desperate for a win at this point.

Avon Park's defense has not only held down the opponents scoring, it has been responsible for several of the touchdowns the Devils have scored this year. Nate Williams has scored a defensive TD, Bernard Jackson scored a TD and a safety on defense, and Lawrence McRae ran a punt back early in the season.

Ricky Claitt is the leading scorer and ground gainer for the Red Devils. He has scored 40 points in the five games and has rushed for a net 437 yards in 71 carries against the five opponents.

# Stamp Hearing Draws 200

More prosecutions, tougher state laws and computerization could result from a public hearing on food stamp abuses held Oct. 22 at the Ag. center.

About 200 persons from several south Florida counties attended the hearing conducted by U. S. Senator Lawton Chiles and Florida Senator Tom Gallen. The crowd showed enthusiasm for prosecutions and tougher laws. They were only lukewarm to the computerization suggestions offered by Senator Chiles and welfare professionals.

Senator Chiles raised a lonely voice on behalf of the federal government's program to make food available to the needy at lower costs.

"I don't know how some aged people would stay alive without food stamps. I don't think anyone wants to deny these people or deny children food but how to get abuses out of the program is the problem," the Senator said.

The Senator drew warmer

# No Arrest In Robbery

Two black males in their early twenties robbed the package liquor store in the Village Lounge in Avon Park of an estimated $237 in cash at about 1:30 p.m. Wednesday, Oct. 17, according to police.

The two men, allegedly entered the store together, one then occupied the clerk's attention as the other removed a cash box from behind a counter. The two then left together on foot in direction of the railroad tracks, police reports show.

The coin box and about $119.50 was found shortly after the incident during a police search of the area. No arrests have been made in connection with the case and the investigation is continuing.

# Only North Entrance To Range Open To Hunters

LAKELAND – Hunters who plan to use the facilities of the Avon Park Bombing Range during this year's gunning season will have their entrance and exit limited to a gate other than the main entrance, according to Major J. O. Brown, Regional Manager for the Game and Fresh Water Fish Commission's South Region.

"The United States Air Force, which owns and manages the range, has directed that a checkpoint other than the main gate be used this season," said Brown. "A number of factors dictate that the only possible alternative we have is to use the Frostproof entrance."

The Frostproof Check Station is located on Lake Arbuckle Road between Highway 64 and Wilson Road.

"We anticapate that there may be some delays caused by using just this single gate," Brown said, "but we're cooperating with the Air Force in an effort to meet their requirements and to make things run as smoothly as possible."

THE ANNUAL HALLOWEEN parade and carnival is sponsored this year by the Elementary Parent-Teachers Organization, and will be held this Saturday, Oct. 27. Mayor Robert J. Barben is shown here signing a proclamation designating Saturday, Oct. 27 as official "Trick or Treat" night in Avon Park between the hours of 7:30 and 9 p.m. Co-chairmen of the event, Mrs. Wayne Cribb (left) and Mrs. Bill Owens from the PTO look on. has come by a joint effort of the council, city clerk and myself and with the aid of the department heads and city employes."

It is the duty of the mayor to look at all projects, and the overall fiscal policy of the city and to report what his opinion might be."

"We're presently building two new tennis courts and remodeling the present facilities and adding new types of lighting. We're also building handball courts, and always looking for more recreational projects for the residents. An overall planning and zoning survey of the city is in the final stages of completion."

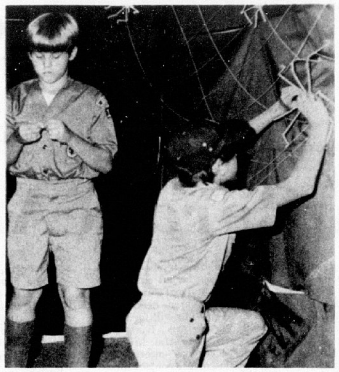

Barben, a graduate of Juniata College in Huntingdon, Pa., holds a B.S. degree in Economics and Marketing, also a Doctor of Law Degree from Dickinson Law School in Carlisle, Pa.

"I've had 24 years of business experience and a lot of political experience", stated Barben.

"I think that over the time I've been in office, the city has progressed a lot, not because I was there, but through a joint effort between the council and the mayor."

To date, Barben's position is opposed by Marshall Davis.

Deadline for qualifying is Nov. 2, as the books will close at city hall at 5 p.m.

# Kelley Phillips Confers With Avon Park City Council

Kelley Phillips, acting county commissioner, discussed several of the city-county problems facing Avon Park with the City Council at its regular meeting Monday night.

Phillips said that he "wanted to get filled in" on the views of the Council members and citizens of Avon Park concerning such issues as the sanitary landfill dispute and the need of a county building in Avon Park.

Phillips was appointed to his new position by Governor Reuben Askew, following the suspension of former commissioner Mel Bass.

# Food Stamp Hearing

**Continued**

response from the big audience when he advised, "If we don't prosecute some cases—hang some crows on the fence—we'll get fraud."

He urged members of the audience to insist that state's attorney try food stamp fraud cases.

When Joe Hilliard, president of the Hendry County Cattlemen's Association, snapped, "I bet more beer and wine than eggs are bought with food stamps," Chiles shot back, "That's breaking the law just like robbing a store."

**Can't get help**

Hilliard, one of the early speakers on the program which ran for more than two hours, summarized complaints of many of the agri-businessmen at the hearing: "We can't get workers to work for us. Young workers don't want to work on farms when they can get fed."

Hilliard and a number of other speakers said many of the workers they now have are careful to maintain income below the levels set by law as being the qualifying mark for food stamps.

Kenneth W. Ringdahl, manager of the Lakeland office of the Florida State Employment Service, explained that workers must register for work, accept job training or already be working a minimum of 30 hours per week in order to qualify for food stamps.

The exceptions to this work requirement, he said, are persons under 18 or over 65 years of age, a person caring for a young child or for an incapacitated adult, a student enrolled at least half time in school or trainging program.

Student participation in the program drew fire from the audience here. Wesley Ward of Sebring was applauded several times as he made one of the sharpest attacks of the hearing. He charged that a college student driving a late model sports car had shown him his food stamp book.

**Need cooperation**

Doug Endsley, director of the Florida Division of Family Services, said the division is now involved in 1,600 cases of welfare and-or food stamp fraud.

Both Chiles and Gallen said prosecutions seem to be hampered by lack of clear lines of responsibility. Gallen said he has filed a state bill which will make the illegal buying or the sale or trading of food stamps a felony. Both the buyer and the seller would be considered guilty of breaking the food stamp law, he said.

Chiles said he had talked with a Clewiston food store owner who said few grocery operators bother to check identification—as the law requires—and if the identifications were checked frauds would be more difficult to execute.

Several times Chiles and Gallen and the state welfare staffers asked for more cooperation from the employers.

John Morrison, Vero Beach citrus grower, won a burst of applause when he complained that attempts to check on recipients through Social Security and Internal Revenue Service records would be meaningless because "some of these people never have paid Social Security and never paid any income tax. They call it the 'white man's tax,' Morrison said.

Later Chiles observed; "A lot of employers must help, assume some real responsibility. One reason income tax is not paid is the worker is paid in cash at the end of the day and no records are kept. "You get that W-2 at the end of the year and you know the employer is reporting what you've been paid," Chiles said.

He urged prompt reporting of known cases of fraud so that prosecutions can be made. He said his office in Washington or the one in Lakeland would follow up on reported cases of fraud.

Endsley said administration of the food stamp program is costing Florida about $7 million this year, or four per cent of the total cost of the program. He said computerization would cost $300,000. He contends that by using a computer, welfare workers and unemployment rolls can be compared quickly so "you don't have to add a thousand workers to the welfare department."

Ward said he has made a careful study of food stamp law and regulations and "I figured out how I can have an income of $1,000 per month and be eligible for food stamps." Under those circumstances, he contended, "a computer won't help a thing," a comment which drew applause.

**Simplified plan**

Dick Harley of Hardee County offered a simplified plan to correct abuses—work. Aside from those physically unable for labor "put everybody to work even if we have to pay 'em for filling up holes, but everybody work for at least 40 hours a week. Pay 'em $2 an hour. When they discover they can make more money working for someone besides the government, they'll take those jobs picking fruit or doing some of these other jobs. Spend the money on jobs and you won't have to fool with all this policing."

The hearing was designated as being for DeSoto, Glades, Hardee, Hendry, Highlands, Indian River, Manatee, Martin, Okeechobee, Palm Beach, Polk and St. Lucie counties.

report. The technical report includes a guide for future development in housing, commerce and industry, recreation and open space, transportation and community facilities and utilities. The regulatory controls report includes comprehensive revisions to the city's zoning ordinance and subdivision regulations. The proposals are designed to assist in implementing the general plan for Avon Park.

Crews said that the new plan would be open for discussion by the public with the City Council. It will be the Council's decision whether or not to accept the new growth program.

# March Of Dimes Holds New Orleans Conference

Seven persons from Highlands County attended a two-day regional conference in New Orleans sponsored by the National Foundation March of Dimes.

Attending were Steve Roberts, chapter chairman, and Mary Ruth Knight, Janice Polston, Mr. and Mrs. Bob Terrell and Mr. and Mrs. Thomas Lenihan.

Convention and travel expenses were paid by the local March of Dimes chapter.

According to Roberts, attending the annual conference is a vital function for persons who form the nucleus of each local chapter.

"We find it is the single most important thing our workers can do," he explained, noting that the workshop not only informs about the valuable work being done by the March of Dimes in helping to prevent birth defects, but "it is such a tremendous force in getting our people enthusiastic and stimulated."

Roberts said leaders from the March of Dimes national headquarters are on hand to give information lectures on all phases of the campaign's organization and work, and it would be impossible for three or four persons to attend all these sessions.

Awards were also presented at the conference.

Roberts said he feels the fact that Highlands County March of Dimes leaders attended the annual regional conferences in the past has enabled this chapter to make such as outstanding record.

Five persons attended in 1972 and this year the county campaign produced 35-40 per cent greater revenues than in 1972 – making it the first in per capita funds raised of all chapters in the continental United States.

The Highlands County March of Dimes Walkathon this year was the most successful in national campaign history, raising about $25,000.

According to Roberts, research and clinical work to prevent birth defects which occur each year to some 250,000 American babies is the continuing goal of the March of Dimes.

March of Dimes volunteers are sponsoring educational and community service programs to inform the public about means of prevention, in addition to the fund-raising activities which support further research and treatment.

# Pollution Control Disagrees With Barben On Landfill

Although Mayor Bob Barben has said the Avon Park city dump is good for another 10 years, the Florida Department of Pollution Control says otherwise in a letter evaluating county landfill sites to Gordon Hays Jr., county engineer.

The state agency, which is pressing for a better waste program in Highlands County said after a recent inspection of disposal sites in the county:

"Avon Park - under current method of operation available space for disposal appears to be reaching its limit."

The agency said the Avon Park dump has a lack of daily cover, which is a violation of state health garbage and rubbish rules.

The agency pointed out equipment breakdown has "apparently been a major problem, resulting in large amounts of refuse remaining uncovered. Rain has prohibited vehicle accessibility."

The agency said Lake Placid is violating the rules in that there is a lack of daily cover and refuse is strewn over a wide area due to infrequency of compaction and cover.

The DeSoto City dump, which lacks daily cover, also is violating, according to the letter to Hayes. The report says of the DeSoto City dump: "Improper disposal of dead animals. (a violation) Information indicated gates are left open after workday. Dead animals and other refuse are then indiscriminately deposited at the site. Material is also being segregated with brush being piled and then pushed into a ravine. This situation is conducive to open burning."

The letter to Hayes, signed by Ronald D. Blackburn, engineer technician noted that more stringent rules are expected to become effective soon and urged "immediate consideration be given" to the problems.

Furthermore, Sebring, Avon Park and Lake Placid disposal sites all are in violation of pollution control laws.

MR. and MRS. WILLIAM GLENN McKOWN

## Wood, McKown Speak Vows In Baptist Church

The Chapel of the First Baptist Church was the scene of the marriage of Miss Linda Darlene Wood and William Glenn McKown on Saturday, Oct. 13. The Rev. Aden D. Childress performed the double ring service at 8 p.m.

Parents of the bridal couple are Mr. and Mrs. Lelon A. Young and Mr. and Mrs. John W. McKown, all of Avon Park.

Jerrold Perkins, organist presented a program of nuptial music which included "Love is a Many Splendor Thing", "Love Story", and "We've Only Just Begun."

Jerome Antley, vocalist sang "I Believe", as the bridegroom's parents were seated; "Because" as the bride's mother was seated, and the "Wedding Prayer" as the bride and bridegroom knelt in prayer at the kneeling bench.

A large majestic brass candelabra with burning tapers, enhanced with a gracefully cascading arrangement of white roses, white daisies and woodwardia fern, centered the background of potted wedding palms, forming the setting for the bridal couple. Flanking each side of the white and brass kneeling bench were white pedestal urns of mixed bouquets featuring gladious, daisie pompons and carnations in the bride's chosen colors of yellow and orange. Yellow satin wedding bowsland greenery marked the family section.

**The Bride**

Given in marriage by her father, the bride was lovely in a beautiful white silk organza floor-length gown. Chantilly lace encircled the high neckline and sheer bodice. The long sheer sleeves were widely cuffed with lace flowerlets. The full skirt was trimmed at the hem with a row of Chantilly lace and with four rows of lace down the back forming a chapel train. A cluster of lace petals ornamented with seed pearls and sequins held her elbow-length veil of silk illusion. She carried a classic bridal bouquet in a cascading style, featuring ivory roses and baby's breath, with a hint of color, styled to compliment her gown.

The Maid of Honor was Miss Holly Ann Murphy, who wore a gown of bright yellow knit, with princess styling, puff sleeves and sweetheart neckline. She wore a yellow wide-brim hat laced with yellow ribbon, and accented with yellow and orange daisies on the side. She carried a natural wicker basket filled with yellow and orange daisies, carnations and statice, with a just-picked look.

The bridesmaid was Miss Tara Young, sister of the bride. She wore an idential gown of yellow knit, with puff sleeves, princess styling and sweetheart neckline. She also wore a matching wide-brim hat and carried a wicker basket of matching flowers.

Flower girl was Miss Shelly Coleman, who wore a yellow knit floor-length gown, with puff sleeves and round neckline. Lace encircled the neck, sleeves, bodice front and bottom of gown. She wore a band of yellow ribbon and white lace in her hair, and carried a natural wicker basket of petals.

Ringbearer was Master Scott Coulliette, with attire to match the attendants.

Mr. McKown chose for his best man, Bubba Liles of Tampa, formerly of Avon Park. Usher-groomsmen were James Loughan of Avon Park, and Walter Kempton of Tampa, formerly of Avon Park.

Mrs. Young wore for her daughter's wedding a formal blue knit ensemble with cardigan jacket and matching accessories. She wore a white cymbidium orchid corsage trimmed in pale blue.

For her son's wedding, Mrs. McKown chose a flowing chiffon gown in shrimp pink with matching accessories. Her corsage was a yellow cymbidium orchid accented with gold.

The grandmothers each wore corsages of pink and white carnations.

**Reception**

Immediately following the wedding ceremony, Mr. and Mrs. Young entertained at a reception in the church social hall. Miss Denise Grimsley was in charge of the bride's guest book.

Bouquets of mixed arrangements in the bride's colors of yellow and orange along with palms and greenery added atmosphere to the reception hall.

Two punch tables with appointments in crystal, flanked the bride's round cake table, each covered with elegant floor-length imported cutwork and lace tablecloths.

The three tiered wedding cake was crowned with a lavish spray of glamorous satin and organza blossoms curved elegantly over a filigree garden gazebo, with the traditional bridal couple standing under the lacy dome. Beneath the happy couple, cherubs frolicked and angels played their harps in celebration. The cake was decorated with yellow sugar filigree doves and bells, and hung with clusters of sweet-peas in yellow and orange, carrying out the bride's fall color scheme. The bride's bouquet lay in front of the cake, which centered the table.

Assisting in serving were Miss Pam Robbins, Miss Janet Williams, Mrs. Billy Murphy, Mrs. Clay Williams and Mrs. Hershal Massey.

**To live in Tampa**

When the bridal couple left for their honeymoon and new home in Tampa, the bride was wearing a white pantsuit ensemble with navy blue turtleneck, and jacket with bands of multi-color around the waistline.

The bride is a 1972 graduate of Avon Park High School, where she was active in the Student Council and F. H. A. She is employed at Pantry Pride in Tampa.

The bridegroom is also a graduate of Avon Park High School with the class of '73, and worked for three years with Pantry Pride in Avon Park. He is presently attending United Electronic Institute in Tampa, and working for Pantry Pride in Tampa.

Team totals for the Red Devil's fourth meet victory of the season were Avon Park - 26, Venice - 32, and Wauchula - 77.

In the "B" team race at Wauchula, Venice with 16 points defeated Avon Park's team which finished with a total of 40 points. The "B" finishers and positions were Frank Anderson, fifth; Jerry Sensenig, seventh; Ken Collinsworth, eithth; Ricky Spurlock, ninth; Leroy Caldwell, tenth; Jackie Roberts, eleventh; Jack Colins, thirteenth; Charles Luke, fourteenth; Edward Moses, fifteenth; John Ferguson, sixteenth; and Mike Ownes, seventeenth.

Last Thursday, Oct. 18, the Devils completely outclassed conference foes Santa Fe and Mulberry at Mulberry. Team results showed Avon Park with 15 points, Santa Fe with 47, and Mulberry with 68 points. The win was the Devil's fifth meet victory of the season. James Brown set a new course record of 10:52 for the 2.2 mile course. He was followed by a long line of Red Devils as Avon Park captured the top eight spots. Eugene Sneed, Reid Wall, Matakiah Fogle, Hezakiah Fogle, Edward Jones, Raliegh Turnbull, and Doug Fletcher followed Brown across the finish line in places two through eight. Frank Anderson was eleventh, Jerry Sensenig was twelvth, Ken Collinsworth was fifteenth, Jackie Roberts was sixteenth, Walter Newton was nineteenth, and Edward Moses was twenty-sixth for the other Devil finishes.

Larry Sneed who missed the last few meets because of injury will soon begin working out with the team again. Coach Brojek feels that Sneed will be back in top form in time for the district and state meets in mid-November. Brojek was very pleased with the fine team efforts by the Devil thin-clads this past week.

# Jayvee Gridders Lose To Mulberry, 28-8

Mulberry's junior varsity handed the Avon Park jayvee squad a 28-8 defeat here at Memorial Field last Thursday night before a sparse crowd of spectators. The loss set the Devil "Bees" record at 2-3.

Tonight, Thursday, the Avor Park junior varsity will go to Arcadia for a game with the Bulldog "B" team. Last season Arcadia was the only team to beat the Avon Park junior varsity.

Mulberry started off the scoring with a touchdown and a two-point conversion. Avon Park came right back and tied the game up with a TD and the running extra points.

But after Mulberry scored again and missed the conversion try, the Red Devils seemed to loose heart and let down. A fumble in the Avon Park backfield deep in Mulberry territory stopped one possible scoring drive.

With Mulberry gaining in confidence and the Devils letting up, the baby Panthers went on to score two more touchdowns and one two-point conversion to take the 28-8 victory.

Seeing action for Avon Park were John MicKunas, Dale Sizemore, Willie Jervier, Reggie Baker, James Ross, Ken Burley, Charles Anderson, Robert Brown, Anthony Gaines, Randy Cobb, McArthur Rouse, Freddie Moore, Mike Cobb, Tommy Pralo, Joe Galimore, Noel Braithwaite, Jim Stewart, Charles Glenn, Harry Stukes, Ben Wright, Darral Davis, and Marvin Williams.

The Devil junior varsity staff of Dewayne Lemlar, Harry Williams, and Ronnie Jackson hopes to have the Avon Park team ready to play a full four quarters of ball this week against the Bulldogs. If not, it could be the start of the first losing season an Avon Park "B" team has had in the past several years. The coaches say, "when the going gets tough, the tough get going.", Fans will see this week if the Devil "Bees" are tough or not.

On December 31, a barrel of oil cost us $1.68. Today it costs us $3.45. We don't know about tomorrow.

The wildly escalating price of foreign fuel oil is causing us problems, and costing you money.

But price isn't the only concern with fuel today.

While we do have oil contracts with reputable companies through 1977, these contracts are only as good as these companies' ability to deliver.

And available world supplies are dwindling.

That's why we all need to use the fuel we have as conservatively as we can.

And that's why your electric bill, as hard as we've been working to keep it down, has been going up and will continue to go up.

# Selph Is Honored With Shower

Miss Charlotte Selph, bride-elect of Carl Barnes was honored with a miscellaneous bridal shower at the Florida Power Lounge, on Thursday evening, Oct. 18.

The hostesses, Miss Renee Choate, Mrs. Becky Shelton, Mrs. Elaine Weinziril, Mrs. Myrna Cobb, Mrs. Norma Jean Hill and Mrs. Audrey Renner presented the bride-elect a corsage of pink rose buds, which complimented her brown and white knit dress. The mothers of the bridal couple, Mrs. Wilbur Selph and Mrs. James Barnes Sr., were also presented pink and yellow rose corsages.

White lace trimmed clothes covered the refreshment and gift tables. Centering the refreshment table was a gorgeous arrangement of roses in pastel shades, which was complimented by crystal candelabras on either side with burning yellow tapers.

A tasty pink fruit punch was served with assorted nuts, pastel mints, chips and dips, in silver servers at one end of the table. At the opposite end the guests were served cake which was beautifully decorated in the bride's colors of pink, green, yellow and apricot. The cake was adorned with four tiny white swans and a cupid water fountain on a blue lake.

Potted green palms decorated the party room. A brandy sniffer which held a large white candle surrounded by fern and pink rose buds, adorned the table where the bride's book was kept for the guests to sign.

The gift table held a "bride and groom" centerpiece. Helping Charlotte record and display her many gifts were Lynell Rogers and Renee Choate.

The hostesses presented Charlotte with a dual control electric blanket. A door prize (a crystal candy server) was won by Miss Linda Hill.

I am a candidate for City Councilman.
I express my opinion that the Civil service should be left for the City employees, as a source of protection for them. I know that some of the City Councilmen have depended on Unions for protection, and that they want to take the same thing away from the city workers. Why should such a thing be - for people to work so long and have no protection for them. It's so the Councilmen could have the workers work "X" number of hours without OVER Time. So I am against this move.

# Girl Scouts Camp At O'Lena State Park

The Trailblazer Girl Scout Troop, Senior Troop No. 45, sponsored by the Rotary Club and their advisor, Mrs. Tim Fisher, spent four fun-filled days (Oct. 18-21) camping at O'Lena State Park. The State Park is south of Lake City and is on the banks of the Santa Fe River. The site of the park was once a small town 100 years ago when the railroad passed it up and it became a ghost town. Another interesting feature of the area is that down from the main swimming area, the river goes underground for about three miles before it becomes surface water again.

A Senior Troop from New Smyrna Beach joined the girls for a four hour tubing trip on the Ichtucknee River. Also camping at the park was a square dance group, the Starlight Shufflers, and the girls entertained this group around the campfire and attended their square dance on Saturday night. Swimming and hiking were also enjoyed by the girl scouts.

Mrs. Lani Wigand came down from Gainesville to join the Scout troop for a day and a night.

## Between The Book Ends

By MRS. R.D. MOORE
Librarian

Elizabeth Borton De Trevino, familiar to many of you as the author of "My Heart Lies South" and "Where the Heart Is", has written yet another fine novel set in Mexico. "The Music Within" takes place at the time of World War II and takes the reader from the poorest Mexican peasant home to the palaces of the very rich. The author's theme centers around music—it sounds from every page. As Miss Trevino is an accomplished violinist, she draws upon her own knowledge of music and musicians to create characters that are colorful, romantic, and exciting.

Dorothy Uhnak is new to the literary world but she is fast making an impact with her novel "Law and Order". Her story is one of violence, conflict and terrible brutalities but also a story that cannot fail to fascinate a reader interested in the day-to-day, hour-by-hour life of a policeman. You may find this book disturbing but I doubt if you will find it boring.

"The Great American Novel" is Philip Roth's newest contribution to the library shelves. "It is the story of the Ruppert Mundys, the only homeless big-league baseball team in American history, whose wretched players wander like refugees from one city to the next during World War II, dropping deeper and deeper into humilation, despair and last place." This is a book that is at the same time hilarious, bizarre, and poignant.

"Beulah Land" by Lonnie Coleman is a story set in a cotton plantation in Georgia in the 1800's. You meet the Kendricks—the reserved, aristocratic masters of Beulah Land and 150 slaves. Lives of master and slave intertwine in this masterful novel of a time and place that was—and is no more.

## Girl Scout Adults Hold Meeting

The adults of the Avon Park Area Girl Scouts met Tuesday, Oct. 16 in the Board Room of the Avon Citrus Bank. An investiture ceremony was held for seven new adult members and a rededication ceremony for the other members present.

Pat Landress and Gwen Hill were elected delegates to the Council dinner meeting in November with Linda Todd and Mae Malcolm elected as alternates.Mrs. Malcolm was also elected to be a member of the area nominating committee. Mrs. Tim Fisher announced that Vivian Permenter would serve as publicity chairman for the Avon Park Girl Scouts.

The group discussed plans for the candy booth at the Halloween Carnival. They saw a film and were given instructions on filling out the new registration forms. The association stressed that Mrs. Cheryl Sanders is the uniform chairman and anyone interested in disposing of an old uniform, please send it to the scout leaders or telephone Mrs. Sanders at 453-5659 and she will make arrangements to collect the uniforms.

ONE HUNDRED, NINETEEN women representing 37 churches of the Florida Conference of the United Church of Christ met last week at Lake Byrd Lodge for a two day "Faith Exploration" program. Pictured above are the state officers of the U.C.C. Women. Front row, left to right Betty Heacock, Miriam Stone, Velva Briedengach, Margaret Davis, Jean Davis, Betty Baxter and Violet Reed. ## 18-Year-Olds Must Still Register

Young men must register with Selective Service at the time of their 18th birthday, even though there is no draft, says W. B. Mackall, Director of the Florida Division of Veterans Affairs. Mackall urged those men who have not registered to do so promptly. "Failure to register is a violation of the law", and could result in prosecution by the Department of Justice.

## Church Program Held At Lake Byrd Lodge

One hundred, nineteen women representing 37 churches of the Florida Conference of the United Church of Christ, met last week at Lake Byrd Lodge for a two-day "Faith Exploration" program. State president, Mary Jean Adams, directed the program with other Avon Park personalities, Amy Jane Lawrence, T. Albert Lawrence, and David Conrad, assisting.

Also participating in the program were the "Young Highlanders" and a new group, the Junior Highlanders, all directed by Evelyn Jones.

A highlight of the program was the presenting of a $5,000 check to Dr. Charles Burns, new UCC Conference Minister. This check will be used to remodel the old Conference office at Lake Byrd into the new "Fellowship House", a center for Leadership Development.

A bookstore presentation was made by Val Wheelehan and the former owner of the Lake Byrd Bookstore, Adra Jochinsen.

## Avon Park Children To Collect For UNICEF

Plans are underway for the children of Avon Park to join over 3.5 million other American boys and girls in celebrating National UNICEF Day on Oct. 26.

Under the auspices of the Avon Park Ministerial Association UNICEF Trick or Treaters will dress up in traditional Halloween costumes and visit homes in small, supervised groups. Instead of "treats" of candy and apples, these children will ask for pennies, nickels and dimes – money to support the work of the Nobel Peace Prize-winning United Nations Children's Fund.

"UNICEF is assisting over 500 long-range programs in over 100 countries," the Rev. Jimmy Norred of the Ministerial Association said. "This is done with an annual budget equivalent to what is spent on world armament in two hours of one day. Coins collected by the children of Avon Park will save other children's lives."

The UNICEF Trick or Treaters will be identified by their official collection box, an orange and black container with a small symbol of a mother and child. "Only children carrying this carton will be authorized to collect for UNICEF," the spokesman pointed out. Children or groups interested in participating in the program this year should first have the approval of their parents or advisor and should then contact the Rev. W. O. Ragsdale or the Rev. Jimmy Norred.

The UNICEF Trick or Treat cartons will be distributed at the First Presbyterian Church, Oct. 26 at 3:30 p.m. A prize will be given to the best costumed boy and girl. And refreshments will be served before the canvass begins at 4 p.m.

900 million children in the developing countries, that is 3 out of every 4, lack medical attention, proper and enough nutritious food and an adequate education, The Rev. Norred said. "We urge all our citizens to participate in this campaign on Halloween and know that as a result of our work many more children will be given the opportunity to grow up healthy and with the skills necessary to lead useful and productive lives."

# READY FOR *New* CARGO

This ship has been emptied of its cargo, and now stands ready to take on fuel and more cargo for further service. If this ship were to remain empty, it would be of no value and would be failing in the one thing that it was built for.

Man was created to be a companion to God, and when he does not join in worship with God, he is failing in the reason for his creation. Make your life mean something for God . . .

EVERYONE IN THE CHURCH — THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# Winter Guest Club News

Elizabeth Clarke

In the shuffling tournament on Wednesday evening the winners were Paul and Anna Manegold over Geraldine Long and James Miller. In consolation Ota Gibson and Duke Christensen won with Florence Young and Dolly Dunnevent the runners-up.

On Saturday evening the rains came just as they were about to start the tournament. It will be held on Monday morning.

Next Saturday, Oct. 27, the tournament will be held at nine in the morning, on account of the Halloween celebration.

One morning this past week Floyd Stevens was busily engaged in removing the grass along the sidewalk in front of the club. Bless his heart. We all thank you.

There will be a new line-up for the shuffling. Alton Wetmore, Duke Christensen and Howard and Bernice Long painted new lines along the front of the courts. This change has been made to help keep the sand off the courts.

On Monday afternoon there were 6 tables of pinochle players with Sadie Benson coming in first with 798 score and Bill Benson second 721. Friday afternoon saw 7 tables in play. Fred Hughes 807 and Sarah Spindler with 716.

In bridge on Tuesday afternoon John Schoen came in first 4890 and Shella Wurster second with 4540.

Thursday afternoon there were 4 tables of duplicate players, and the Howell Movement was used. First Eleanore and Joe Nickerson, second, John Schoen and Jean Ludington, third Marion Todd and Harry Lyons.

Crafts will start on Thursday Oct. 25, at 9 a.m. in the morning. They will start with refrigerator ornaments, miniature. And next week they will have a lesson in the making of safety pin and beads pendants. Along in November there will be a unit in making your own Christmas Cards.

Hallie Wetmore will have as her helpers, Marie Lizotte, Nora Werner, Gene Olson and Grace Romilly.

Gene Olson was hostess to the thirteen members present at the supper on Saturday evening. Margaret Fries played the piano for the group Sing-a-long. And Mrs. Olson gave a couple of readings "The Little Things Were the Life Itself". Mr. and Mrs. Bruce Steele will be the hosts next week.

Ray and Lois Johnson have returned to their home here in Avon Park, after a summer spent in their cottage in Canada. They stopped on the way to visit their daughter and family in Libertyville, Ill.

Glenn and Mildred Long have also returned here for the winter months. They spent the summer in their home in Plantsville, Conn.

Russell and Mary Smith may not be coming back to Avon Park this winter, after spending many winters here. The apartment where they expected to live was not available this winter, and they were afraid they would not be able to find a place to stay. They will be looking for a place some where in Florida as they drive along.

Our total membership so far this year is 129. One member, Jester Cliatt from Miami. Recently returned members are Helen and Elmer Good of Sun Ray, and Dorothea Beechinor of Avon Park.

# County Health Department Obtains Parents Consent Before Giving Pills

The practice of giving birth control pills to minor girls without their parents' consent is not one condoned by the Highlands County Health Department.

Dr. Glenn Hough said his department obtains parental consent before giving the pills to minor girls.

Gov. Reubin Askew has been discussing the discontinuance of giving birth control pills to minor girls without their parents consent. Some county health departments have issued the pills to girls as young as 12 without informing parents or asking their permission.

Dr. Hough said 375 women and girls have received contraceptive devices at the department during the past year. About 50 per cent of these are the pill, he said, the others intra-uterine devices.

# Conservation Committee Nominations Open

Nominations for candidates to the County Agricultural Stabilization and Conservation (ASC) Committee will be open through Monday Oct. 29, reports R. B. Oxer, chairman of the Highlands County ASC committee.

Oxer says that so far as is known no petitions have been signed nominating candidates. The petition period began Oct. 4.

Under the ASC farmer-elected committee system, various federal farm programs are administered by local farmers. Newly-elcted committee members take office on Jan. 1 of each year.

Preceding the November-December mail election, any three farmers may nominate a candidate by signing a petition. Farmers may sign as many petitions as they like. The petition may be on any sheet of paper as long as it includes a statement that the nominee has agreed to serve if elected. Nominating petitions must be turned in at the Highlands County ASCS office, Rt. 3, Box 149-A, Sebring, not later than Oct. 29.

If fewer than four candidates are nominated by petition, the county committee now in office will fill out the slate.

Those eligible to nominate, run for office, and vote in ASC Committee elections include farm owners, tenants and sharecroppers, age 18 or older, without regard to race, religion, color, sex, or national origin. A wife who operates a farm with her husband and whose name is on the deed can nominate, be nominated, vote and serve on a committee.

# 50 New Houses Scheduled To Be Built At Range

Stepped up activity at Avon Park Bombing Range with an attendant increase in personnel has brought a demand for housing which may be solved by construction of 50 homes at the base.

"Our biggest problem is housing," said Lt. Col. Donald Griffing, squadron commander at the range.

Griffing said the homes would be built on a 20 acre area of the range for officers and non-commission personnel and their families. It is hoped construction would start in February.

The force at the base, he said, has been increased to 220, 96 of which are civilians, and should be up to 254 by July 1.

Newest additional function at the range is to train pilots to penetrate radar defenses.

The housing request now is before Congress for approval and "the chances look pretty good," the colonel said. Personnel on the base maintain the targets and provide training facilities for the air crews.

Representatives from the U.S. Air Force and from the base appeared Oct. 2, before the Highlands County Builders Association to ascertain if local builders would be interested in building the project.

The usual pattern is to provide plans and specifications, with one builder bidding on the entire package, including streets, sewers and water in addition to the houses.

However, another plan has been advanced which would allow builders to submit their own plans, such plans conforming with Federal Housing Administration specifications. The houses to be built would be three and four-bedroom ones with the whole project estimated to cost $1,300,000. The sewers and water installations would hook up to existing facilities at the base.

The local builders group was asked for suggestions that would make it feasible to proceed. They suggested that the project be divided into smaller groups of houses, with one firm contracting for sewers, water and streets.

Local builders agreed they did not think any of their group could take on a project this size, as busy as they are with other building projects at this time. And there is a severe skilled labor shortage in the area.

It was suggested that several builders might go in and build 10 or 20 houses apiece.

Present to address the builders at their meeting in the Ag center were Howard Marshall from the tactical air command, Ft. Langley Air Force Base, Virginia; Lt. Ken Werner, MacDill Air Force Base; Paul Joseph, and Capt. Paul Everstack, civil engineer at Avon Park base.

MAYOR ROBERT J. BARBEN has just signed a proclamation designating November 1 - 3 as "LIGHT BULBS FOR BOY SCOUT WEEK" which is sponsored by Scout Troop 814. Members of the organization will be going from door to door selling the bulbs to raise funds for their troop projects. After signing the proclamation, Mayor Barben bought the first light bulbs from scout Mark Brown. Photo by Sharpe.

# *Holiday Inn–*
## *New Motel Slated For Avon Park*

Construction on a new 150-room Holiday Inn is expected to begin the latter part of January or first part of February at Sun 'n Lake, just south of Avon Park.

Jack Weisser said he received a call Monday night that he had obtained the Sebring-Avon Park franchise after the Holiday Inn executive committee approved his application.

Weisser for some years has owned the Holiday Inn at Sun 'n Lake south of Lake Placid. The new inn will be in another Weisser development half way between Sebring and Avon Park.

Weisser said there would be extensive banquet facilities and meeting rooms and that between the dining room and banquet hall facilities, it would be possible to take care of 500 people at one time.

"This area long has needed something like that," he said.

This new Holiday Inn also will have various accommodations for shops such as those handling sundries, and a beauty salon. They will be part of the inn.

Weisser also announced that he will start to develop the first phase of Sun 'n Lake of Sebring subdivision in which the new inn will be located. The inn will be near the entrance to the subdivision.

Next month he said he plans to start developing the first 143 residential lots, putting in central water and sewage, curbs and gutters. There will be a model center with six model homes ranging in price from $25,000 to $65,000 will be built.

"We would anticipate starting to do the actual road work and sewage plant in December," he said.

He is inviting builders in the area to participate in building homes in the subdivision. He is hopeful construction of the homes can get under way in January.

Weisser said he hopes to have the new inn completed in time for the next winter season.

# Question Of Civil Service Is Added To City Ballot

A referendum question as to whether Avon Park should continue employment of city personnel through the Civil Service will be placed on the ballot of the city election to be held Dec. 4.

The City Council passed this measure in a four to one vote during its regular meeting Oct. 22. Herman Sizemore cast the only dissenting vote.

Clarence King, president of the Council, put the measure before the group saying that he did not feel the civil service law is a "good one" and that the citizens should have the opportunity to vote on the matter again at the election, according to the official minutes of that meeting.

In a telephone interview last week, King denied rumors that he and two other councilmen had met previous to the regular meeting to discuss the civil service law. King said that he had "said something during the meeting to the effect that the civil service law had been discussed before", meaning that it had been discussed previously at Council meetings.

"I don't remember just exactly what I said," King stated. "But there was no meeting to my knowledge by any councilmen prior to the (regular) meeting."

A Florida statute termed the "Sunshine Law" would prohibit any such meeting.

The agenda for the Oct. 22 City Council meeting did not list the Civil Service question in either new or old business to be discussed.

King said that he feels the present system of city employment through the civil service is a detriment to the city.

Councilman Sizemore, who voted against placing the question on the ballot, said that from his contacts with city employes, the concensus was to keep the civil service law.

"The referendum question is purely suggestive," said Malcolm Crews, city clerk. The people of Avon Park have voted approval for the civil service law twice in previous elections, the latest time being 1968 and once several years before that, according to Crews.

"It would be up to the City Council to initiate any action concerning the civil service law," he said.

The first time the people voted for the measure, the City Council took no action on it. It was not until the 1968 election when the voters again showed support for the civil service law that the Council voted to begin using the Civil Service. The Florida Legislature the following year approved the Council's request and city employes were first hired through the Civil Service.

A total of 1,449 persons voted in the 1968 city election. Of these, 700 voted for the civil service law and 330 voted against.

Presently all city employes except department heads and elected officials are hired through the Civil Service.

# Red Devils Defeat Arcadia 20-14, Holds 4-2 Record

A fired-up and stubborn Avon Park Red Devil defense spoiled the DeSoto High homecoming festivities and set the Red Devil record at 4-2 as it led the team to a 20-14 victory over the Arcadia Bulldogs last Friday night.

Tomorrow night, Friday, the Avon Park varsity will travel down to Lake Placid to take on the Green Dragons in a Peach River Valley Conference and Highlands County battle that shapes up as one of the best games between the two schools ever. Both teams have identical 4-2 records for the season. The only common opponent of the two teams this far has been Santa Fe. Avon Park defeated the Hawks 35-0 in the season opener and Lake Placid won in Lakeland last week 22-6. The Dragons have a 21-6 loss to Okeechobee and a 7-6 loss to Sebring – the last two teams on Avon Park's schedule. Their wins came over Clewiston, LaBelle, Immokalee and Santa Fe. The Red Devils have scored 114 points and given up 53 in the six games while the Green Dragons have scored 108 points and given up 51 to their opponents in six games. So the game looks even. But Lake Placid will be after its first win over an Avon Park football team and the Red Devils are rolling with three straight victories and the big win over Arcadia last week.

**Arcadia Game**

The game last Friday between the Bulldogs of DeSoto High School and the Avon Park Red Devils started out slow but ended up with an exciting goal line stand by the Red Devil defense that perserved a 20-14 victory for Avon Park.

In the first period both teams were forced to punt the ball away three times. Arcadia moved for two first downs after taking the opening kick-off before punting from its own 42-yard line. Then neither team could pick up a first down until midway in the first period. Avon Park moved over into DeSoto territory on a pass from DeWitt to Marvin Jackson for the Devils only first down of that quarter. A 37-yard punt by Devil Ricky Claitt was fumbled slightly by the Arcadia receiver and he was downed on his own one yard line. After two running plays got nowhere, Arcadia quick-kicked on third down to give the Devils possession on the Arcadia 38-yard marker. But that drive was stopped by a fifteen yard penalty for an inelgible receiver driving the Devils back into their own side of the field. So the first quarter was a defensive as the two teams felt out their offenses.

Early in the second quarter the Red Devils put together a couple of first downs to drive to the Bulldog thirty on a sixteen yard run by Ricky Claitt and some short gaines by Timmy Massey and Claitt. But the drive was stopped back at the thirty-five after a five yarder was marched off against the Devils and Ricky Claitt punted high to the Arcadia seven. Big Ted McKenzie took the punt in and started upfield. He was hit at the fifteen and the ball squirted out to the right side. Ricky Claitt scopped it up with blocking in front of him and ran into the end zone for the first TD of the game. It was a fifteen yard scoring run for the husky Devil linebacker. Nathaniel Packer's attempted pass for the two-point conversion was no good but the Devils had a 6-0 lead midway in the second period.

Arcadia fumbled again on the following kick-off but the Devils couldn't move the ball for a first down from the

# Britt Will Seek Council Seat In December Election

Robert L. Britt, former Avon Park Policeman, announced Monday of this week, that he will be a candidate for councilman of the City of Avon Park in the upcoming election to be held Dec. 4. This will be Britt's first bid for any political office.

Britt is a native of Avon Park, and is married to the former Helen Baker of Fernandina Beach, Fla. She is the Media Specialist at Avon Park High School.

They are members of the St. Mark Missionary Baptist Church, and have two sons enrolled at Avon Elementary.

Britt was educated in Highlands County and continued his education at Bethune - Cookman College for three years, in Daytona Beach.

While attending college he sang with the renown Bethune - Cookman Concert Choir. He also served as vice-president of the student government association.

Upon leaving college, Britt returned to Avon Park and assumed a position with the Federal Government as a superintendant for the Eradication Program in Sebring.

Leaving that job, Britt accepted the position as plant engineer at the First Baptist Church on Lake Ave., a position he currently holds.

Britt has also served on the Avon Park Police Department for four years, from 1966-70, holding down a day shift at the church and a night shift with the police department.

Britt is currently serving as Secretary of the local Elks, president of the Avon Park Civic League, and a member of the Knights of Pythias.

When asked of his political stand, Britt stated, "Generally, among the things in which I believe are fairplay, justice for all, progress and honesty in government."

Britt continued, "Specifically, I am one hundred per cent for Civil Service of all city employees. Also, I would like to see improvements made with the police and fire departments, by getting better qualified men. I believe taxpayers should know

ROBERT L. BRITT

how their money is being spent. I would like to be a councilman for all the people in Avon Park."

To date, along with Britt, incumbant Milton Howard, Wilson Smith, and Less Norris have qualified to run for the two council seats up for grabs.

Councilman Hermon Sizemore told the Sun last week that he "will not run for re-election."

"I feel that it is in the best interests of the city of Avon Park and the people that I don't seek re-election," Sizemore said.

Sizemore has served two terms on the council.

For the mayors seat, incumbant Robert Barben and Marshall Davis have qualified at city hall for that position.

Deadline for qualifying is Friday, Nov. 2, at 5 p.m. In order to make the deadline, any interested person should immediately contact city hall to obtain the necessary forms that must be completed and open a campaign fund.

Registration for voting will also close at that time.

# Scouts To Sell Light Bulbs

Boy Scout Troop No. 814, will conduct an all-out drive from Nov. 1-3, to sell electric light bulbs to residents according to an announcement made today by David Brown, Scoutmaster of Troop No. 814. The money will go to support troop projects. The light bulbs will be sold in packs of six, each containing two 60-watt; two 100-watt bulbs, at the regular retail price of $2.

Every householder can use light bulbs, and this drive gives everyone an opportunity to buy a good supply of a needed product and at the same time help a worthy cause. The entire membership of the troop has been organized to supply friends and neighbors with light bulbs delivered right to their homes.

# Board Rejects Subdivision Application

The Board of County Commissioners on Tuesday rejected an application to record a plat submitted by Bluff Hammock Estates.

The subdivision, located off U.S. 98 in Lorida, was declared unacceptable because the measured water table was too high to permit the proper functioning of septic tanks.

# *Landfill Site Unopposed*

The County Commissioners apparently selected the right spot for its sanitary landfill operation because no one showed up at Tuesday's meeting to complain about locating it on a 40-acre plot lying between U.S. 27 and Red Beach Lake.

Commissioner Robert Skipper did hint, however, that a number of residents of DeSoto City are concerned about the route that trucks hauling trash to the dump will be permitted to use.

County Engineer Gordon Hays recommended that the landfill site be approached from the east along DeSoto City's Seventh Avenue West where the county owns a 50-foot right-of-way.

Hays recommended that the road be paved to the entrance to the landfill gate and that roads within the disposal site be covered with shell material to give it an all-weather capability.

Commissioner Norman "Jug" Heston expressed the view that two curves in the Seventh Avenue approach might produce hazardous driving conditions.

Hays stated that an alternative approach to the site might be along the old DeSoto City tractor road that runs north from U.S. 27. He pointed out, however, that the tractor road is only "two ruts wide", and is not owned by the county.

Del Preston Jones, a resident of DeSoto City, recommended that the county acquire land needed to construct a road to the landfill area directly from U.S. 27, a distance of some 300 feet.

Jones suggested that the crossover and the acceleration and deceleration lanes that will be built to accommodate traffic flowing to and from the civic center could be used by trucks entering and leaving the nearby land fill entrance.

The commissioners directed th[illegible] to investigate all possible approaches to the site and to report to them at a special work session they have scheduled for Nov. 9, at 7 p.m.

During the Nov. [illegible] work session the commissioners also

# Bishop Henley Accepts Christmas Seal Position

Bishop James W. Henley (ret.) of the United Methodist Church has again accepted the responsibly assignment to serve as Christmas Seal Chairman for the Mid-State Tuberculosis and Respiratory Disease Association for the 1973 campaign.

"I enjoyed my work as chairman last year. I have become more fully aware of the scope of valuable services made possible by Christmas Seals. It is because of this awareness that I am glad to serve again for in this way I too, perhaps, can touch the lives of the many people served by this organization. I still find it difficult to believe that so small a budget can produce such a tremendous program," said Bishop Henley in accepting the assignment.

Young people are interested in worthwhile endeavors as was manifast in the volunteer services of Sue Marshall and Sam Smilee throughout the past year. Bishop Henley has appointed Sue Marshall to serve as "Miss Christmas Seal Ambassador" and Sam Smilee as Youth Chairman of the 1973 Campaign.

Should there be some confusion as to the return address of Fairfax, Va., this is a center which has been established by the American Lung Association to handle undeliverable pieces of mail. This will absorb some of the work load placed on small staffs in local association offices. All contributions are to be mailed to the Mid-State Tuberculosis and Respiratory Disease Association in Bartow. As usual, the contributions will remain in the Mid-State area to continue programs in the following categories; tuberculosis, emphysema and other respiratory diseases, smoking and other drug abuse, air conservation, and general health and welfare.

The association serves Polk, Highlands, Hardee, and DeSoto Counties.

## Landfill Site Is Unopposed

plan to consider sanitary landfill problems such as: charges for use of the site, boundary fencing (type and quantity) as well as other requirements that will be imposed on landfill operations by new state legislation and administrative codes.

County Attorney Robert Dunty Jr. clarified a point that was misunderstood last week when the decision to purchase the landfill site was made.

Dunty said that 28 lots, not 12 lots, as was reported last week, were not owned by D & B Enterprises, Inc., and were therefore not part of the sanitary landfill property purchased. The 28 parcels belong to 12 different owners, Dunty said, explaining the misunderstanding.

The commissioners granted Dunty authority to purchase abstracts for the 28 lots to enable him to search ownership titles as well as to begin negotiations with parcel owners leading to the eventual purchase of these lots by the county.

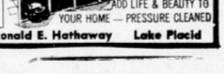

## Board Rejects Subdivision Application

Health Department recommended that the plat be rejected until the subdivider offers to remedy conditions that could affect the health of future residents of Bluff Hammock Estates.

County Attorney Robert Dunty Jr. told the commissioners that the subdivider could remedy conditions at Bluff Hammock Estates by providing a drainage system to draw-down the water table by filling the area to raise it above the water table or by installing a suitable waste disposal system.

PROGRAM CHAIRMAN Norris Brooks (center) presents Bill Stuart, (left) Bartow and Dr. Tom Willard, Lakeland, with certificates of appreciation. Tom is wearing a jacket he received while with the Study Group in Japan.

# Rotarians See Slides Of Japan

By Charles Collings

Program Chairman Norris Brooks brought Bill Stuart Jr. and Dr. Thomas "Tom" Willard, who were part of a Study Exchange Group between our Rotary District 695 and Japan's Rotary District 360.

Bill Stuart, a native of Bartow is past president of the Bartow Rotary Club, chairman of the Rotary District Group Study Exchange Committee, Rotary District Governor nominee 1974-75 and as an active member of many organizations was named an Outstanding Floridian in 1971. Bill showed slides of the Japanese way of life and supplemented these with excellent commentary. Japan is obviously a dynamic nation very much on the move. Just as obvious is that this nation, which once lived unto itself, must have foreign markets for its' industrial output in order to supply itself with products it does not and cannot obtain from within its' own resources or boundries.

Dr. Tom Willard, a native of Beaumont, Texas, has a Ph.D in Chemistry from Tulane University and teaches chemistry at Florida Southern College at Lakeland and was the non-Rotarian selected by Lakeland South Rotary Club to make the trip. Tom was very grateful and very enthusiastic about the trip. Especially noticable to him was the "make it go" attitude of the Japanese people, the way they helped each other and how much every one hustled.

Population density in Japan is extremely high and land prices were also high. While industrial wages were not that bad, most Japanese workers have to make do with about one fourth the buying power of their American counterparts. Crime was almost non-existant but western customs and habits and life styles are on the upswing.

This coming year we will be receiving a visit from the Japanese Study Exchange Group and hopefully we can help make their trip as meaningful to them as this one was to Bill Stuart, Tom Willard and the rest of our District Study Group.

# Devils Defeat Arcadia

Bulldog 36-yard line and Arcadia took over after four running plays netted only five yards. The Bulldog offense also had trouble moving at that point and after picking up only three yards in three plays, they punted out 45-yards to the Devil 21-yard line. Buddy DeWitt went to the air as time was running out in the first half. First DeWitt hit Marvin Jackson for a 17-yard pick-up. Then he passed to Ricky Claitt for a 21-yard gain. A five-yard run by Claitt moved the ball to the Arcadia 35-yard line where the drive stalled. So Claitt punted into the end zone and Arcadia took over on its own 20. They were thrown for a four-yard loss as the horn blew ending the first half.

After DeSoto High homecoming queen crowning festivities, the two teams came back with Avon Park electing to receive the kick-off. Mickey Claitt took the kick and ran it back to the Avon Park 31-yard line to start off a scoring drive by the Devils. William Burley carried the first three plays of the second half picking up yardage to the fifty. He added another seven yards and Massey picked up three for a first down at the forty of Arcadia. Then Burley bulled for seven more and Ricky Claitt went nine yards to the 25 for another first down. A penalty moved the Devils back five yards after a one-yard pick-up. Then an incomplete pass to Ricky Claitt brought up third down and 14 needed for a first down from the 29-yard line. Buddy DeWitt dropped back to pass, got in trouble, rolled out to his right, and finally found Timmy Massey waiting in the end zone. DeWitt heaved the ball through the arms of a Bulldog defender right in front of Massey and the ball fell into Timmy's arms for the touchdown. Nathaniel Packer's kick for the extra point was no good, so the Devils led 12-0.

Avon Park's first lost fumble set up the first Arcadia score. At the Arcadia 49-yard line a Bulldog fell on a fumble by a Devil back. On the very first play after the fumble recovery, left halfback Dale Redden rounded his right end and raced down the sideline 51-yards for a touchdown. Redden then attempted to run the two-point conversion but was stopped short by the Devil defense.

Avon Parks third touchdown came late in the third period. A 42-yard punt by Avon Park's Sean Murphy had backed the Arcadia team down to its own five yard line. The Devil defense held and a short punt from the 11-yard line was taken in at the Bulldog 40 by Ricky Claitt. The speedy Devil halfback just burst through the Arcadia team and cut across field for the 40-yard jaunt into the end zone for his second TD of the evening. Ricky then took a pitch-out from DeWitt and skirted his right end for the two-point conversion and Avon Park had a 20-6 advantage as the third period ended.

The game rocked on in the middle of the field for about half of the final quarter. Then Arcadia intercepted a Devil pass at the Avon Park 44-yard line and moved to the Devil 19-yard line with the aid of a pass interference penalty against the Devils. But from the 19, McKenzie passed deep to a receiver in the Devil end zone and Nathaniel Packer came up with an Avon Park interception in the end zone.

The Devils took over on their 20 but on the second play the ball squirted from Claitt's hands and was recovered on the 25 by a Bulldog. It took just four plays for Arcadia to score from there. A couple of passes and two short runs and Amos McQuay bulled in from the one yard line to close the gap. A pass from McKenzie to Robin Guidry was good for the two-point conversion and suddenly Arcadia was back in the ballgame with the score 20-14.

With just about four minutes left in the game, Avon Park took the kick-off and moved up to the Devil 45 before the offense was forced to punt. A 25-yard punt gave Arcadia possession on its 31-yard line with 2:38 left in the game. That's when the game got exciting. First Ted McKenzie hit Dale Redden for a gain to the Avon Park 40. Then there were two incomplete passes and a five-yard pass to Frank Moseley. With fourth and five, McKenzie hit Amos McQuay on a controversial catch at the sideline yardmarker on the Devils side. The official ruled it an inbounds catch for a first down at the 30. McKenzie couldn't find an open receiver on the next play so decided to run, and managed to get to the Devil nine-yard line for a first down.

That's when the Devil defense put on a show. Two running plays got the ball to the one-yard (or closer) line. With time running out on the clock, the Bulldogs slammed at the middle of the Devil line and didn't budge it. On fourth down the Bulldogs slammed toward the line again and once more the Devils refused to give an inch. The defense had held for four downs within the nine-yard line and two of those with the ball within inches of the goal line. Avon Park took over possession with 19 seconds left on the clock and never came out of the huddle.

It was a great triumph for the Avon Park defense which has been impressive all year but never so tough as last week. On that line that held the Bulldogs were guards Ronnie Dick and Dennis Avery; tackles Joe Smith and Jimmy Carter; linebackers Ricky Claitt and Nate Williams; and ends Marvin Jackson and Bernard Jackson. Coach John Pilcher also had high praise for the defensive backfield of Mickey Claitt, Mearl Robinson, Jerry Robinson, and Nathaniel Packer, and said that Timmy Massey played just about everywhere on defense during the game. At one point the sophomore linebacker was playing noseman on the line.

The statistics showed how even the game was. First downs had Avon Park ahead 10-7; 133 yards rushing for Avon Park and 113 for Arcadia; 88 yards passing for the Devils and 81 for Arcadia; one interception by each team; two fumbles lost by each team; and eight punts by each team with Avon Park averaging 33 yards per kick and the Bulldogs getting 36 yards per kick. Avon Park passed 17 times and five completions—Arcadia passed 22 times with eight completed. The Devils, of course, drew 50 yards of penalities while Arcadia had only five yards walked off against them.

# Many Local Residents Feel Earth Tremor Saturday

Persons in Highlands County, along with hundreds of other people from Cocoa Beach to Daytona Beach to Tampa, felt a mild earth tremor about 2:18 a.m. Saturday.

There were shattered windows and cracking walls in other counties, but no damage was reported here. Some people here reported the trembling lasted perhaps a minute or two and dishes rattled in the cupboards.

Radio station WJCM received 18 calls reporting tremors, mostly from Sebring, a few from Lake Placid and the Lake Josephine area.

Announcer Ron Wilson said one man called from the Woodlawn area to say he felt the tremors in his sleep, told his wife about them—and was promptly accused of drinking. The caller said he was relieved to find what had happened.

The tremors were felt at Lakeview Towers and Virginia Zinser, who lives on Osceola Ave., reported she was awakened by the tremors.

Spokesmen at the National Earthquake Information Service in Boulder, Colo., said the tremor might have been too small to register on the Richter Seismographic scale or that a powerful nuclear explosion set off by the Soviet Union made it impossible to get a reading of the smaller tremor.

A spokesman at the University of California's seismographic station in Berkeley said the Florida tremor "definitely is not related" to the Soviet explosion.

Over the state, the Brevard County Sheriff's Department at Melbourne reported several shattered windows and one incident of slightly cracked walls.

Residents of Cocoa Beach thought the tremor was a launching of a secret spy satellite and rushed outside to look into the sky. There was no launching. One man in that area reported the tremor was "similar to a rocket going off." Another Cocoa Beach man said the tremor lasted about five seconds and shook the whole house.

A woman in Polk County told the sheriff's office some pictures fell off her wall.

A woman in Tampa said her bed moved and she thought somebody had pushed it.

Orlando police said reports of buildings shaking came from persons at Orange Memorial Hospital, Southern Bell Telephone Co., and the Orlando Sentinel. Some thought the tremors were an explosion.

Florida is not in an "orogenic zone" where earthquakes occur, according to Dr. R. G. Stevenson Jr., an assistant professor of geology at the University of South Florida, but added that "we are not too far away" from such a zone in the Caribbean Sea.

He said that "you could probably say that one is a stray from the Caribbean area." He said there is no reason to expect a repetition in the near future.

The parade stepped off at 4 p.m., led by the preschool age group, followed by every kind of goblin and get-up imaginable; the city dignitaries, fire truck, floats, both the high school and Junior bands, and last but not in any way, least, the largest mounted horse riders ever in any parade in Avon Park.

The parade terminated at Donaldson Park, where there was a "gopher race" with Juanita Robbinson, sponsored by Estelle Fann Ins., coming in first; William Tomlinson, sponsored by Jahna Concrete, coming in second; and Micheal Pate, sponsored by Bill Owens Ford, coming in third.

The Band Parents Association had a booth, the Lions Club served their barbeque chicken, both Girl and Boy Scouts, school and other organizations had booths of all kind to please any fair goer.

After the parade and carnival, official "Trick or Treat" night was enjoyed by youngsters between the hours of 7:30 and 9 p.m. As always, Halloween time in Avon Park, was lots of fun, and a great success.

## Local Women Attend Cancer Society Meeting

Mrs. Jacob F. Wagner and Mrs. Ted Daigneau from Highlands County Unit of the American Cancer Society joined more than 300 of the Society's volunteers in Palm Beach for the twenty-sixth Annual Meeting of Members of the Florida Division, Oct. 26 - 28. Mrs. Wagner said the purpose of the meeting was to elect 1974 American Cancer Society Board Members and Officers, review the previous year's highlights and plan for the future programs in controlling the nation's number two killer.

Mrs. Wagner said that Saturday's sessions highlighted a series of subjects dealing with cancer. Presentations were made by a panel of nationally recognized authorities with discussions focusing on "Human Values and Cancer". Panelists and subjects were: Moderator, Malcolm S. Van de Water, M.D., the current president of the Florida division of the American Cancer Society. Panel participants: Donald H. Dilmore Sr., C.L.U., Dallas, Texas, subject "The Impact of Cancer on the Family"; Paul Chretien, M.D., head, Tumore Immunology Section, National Cancer Institute, Bethesda, Maryland, subject "Quality of Survival"; Walter Murphy, M.D., Department of Radiotherapy, Roswell Park Memorial Hospital, Buffalo, N.Y., subject "Quality of Survival."

A luncheon address entitled "New Methods of Cancer treatment" was made by Dr. Chretien.

Keynote speaker for the two-day session was the Honorable Paul Rogers, U.S. Congress and Chairman of the House Public Health and Environment Sub-Committee. The Florida Congressman was instrumental in passing the National Cancer Act of 1971.

Mrs. Wagner reported that at the close of the 1973 fiscal year, total contributions to the Florida Division of the American Cancer Society fell just short of the three million dollar mark. Forty percent of this money goes to support national research programs, and sixty per cent remains in Florida for continuing year-round support of research education and patient service projects.

## Charlotte Selph, Carl Barnes Wed In Double Ring Ceremony

The Florida Avenue Baptist Church was the scene of the marriage of Miss Charlotte Elaine Selph and Carl Norman Barnes on Saturday, Oct. 20. The Rev. Bentley A. Williamston performed the double ring ceremony at 7:30 p.m.

Parents of the bridal couple are Mr. and Mrs. Wilbur G. Selph and Mr. and Mrs. James W. Barnes Sr., all of Avon Park.

Sherwin MacKintosh, organist, presented a program of nuptial music as the guests were being seated. Vic MicKunas, vocalist, sang "Love Story" as the bridegroom's parents were seated; "We've Only Just Begun", as the bride's mother was seated; and the "Wedding Prayer" as the couple knelt in prayer at the profile kneeling bench.

An arch candelabra with 15 burning tapers centered the background of palms. On each side of the altar were candelabra bouquets of fall colored glads, carnations and daisies. The family pews were marked with ivy and satin bows and leaves in fall shades.

**The bride**

The bride, escorted to the altar on the arm of her father, was lovely in a beautiful floor length gown of imported French Chantilly lace. The fitted bodice was enhanced by a scalloped Sabrina neckline of sequins and lace trim. The long tapering sleeves ended in a point over her wrists. The bouffant skirt featured cascading ruffles sweeping to a full Cathedral train. Her fingertip veil of pure silk French illusion, which was outlined with matching Chantilly lace was attached to a cap of lace and seed pearls. She carried a delicate collage bouquet of white butterfly roses, baby's breath, and miniature carnations designed to be carried on her mother's bible.

Miss Sebrina Monts De Oca served as maid of honor. She wore a gown of bright yellow bridal satin with empire styling and a sweetheart neckline. The bodice and long fitted sleeves were overlaid with a floral printed organza of yellow, pink and apricot. She carried a Victorian bouquet of mixed flowers of golden daisies, yellow starburst pompons, orange miniature carnations, yellow statice, dried flowers and baby's breath with a rich ribbon accent. She wore in her hair a head piece of flowers that matched her bouquet.

Serving as bridesmaids were Miss Renee' Choate of Lake Placid and Miss Vickie Selph, sister of the bride. They each wore identical gowns of bright yellow satin with empire styling and sweetheart neckline, with bodice and sleeves of printed floral organza to match the maid of honor's. They wore a head-piece of flowers that matched their Victorian bouquets, the same as the maid of honor.

Mr. Barnes chose for his best man, Tony Peebles of Winter Haven. Usher - groomsmen were Wesley Turner and Howie Godwin, both of Avon Park.

Mrs. Selph wore for her daughter's wedding a formal gown of aqua blue knit with matching accessories and a tailored corsage of yellow miniature carnations accented with gold.

For her son's wedding, Mrs. Barnes chose a formal gown of powder blue and white print jersey, with matching accessories. She wore a tailored corsage of white miniature carnations.

The three grandmothers also wore corsages of miniature carnations to match their ensembles.

**Reception**

Immediately following the wedding ceremony, Mr. and Mrs. Selph entertained at a reception which was held in the social hall of the church.

Flower arrangements in the bride's chosen colors of yellow, pink, and apricot were used at focal points throughout the room. A white damask cloth covered the table holding the bride's book, which was kept by Miss Debbie Bodenstein, cousin of the bride.

The bride's table was covered with a white lace trimmed cloth, held the wedding cake which was assembled on a lace cake stand, consisting of four individual heart shaped cakes on revolving plates, above which rose three additional tiers. The top was crowned with an ornament as graceful as a corsage with a spray of velvet orchids curved on a seed pearl heart forming a dramatic backdrop for the bridal couple. Cherubs holding doves, graced each of the hearts. The cake was hung with clusters of sweetpeas in yellow, pink and apricot, carrying out the bride's color scheme. Complimenting either side of the cake were tiered crystal candelabras with burning white tapers. Dainty napkins were inscribed with Charlotte and Carl and their wedding date, October 20, 1973. Mrs. Audrey Renner and Mrs. Myrna Cobb served the cake.

The punch table was covered with a white lace trimmed cloth and decorated with greenery. Pink rosebuds surrounded the crystal punch bowl. The "wedding punch", along with assorted nuts and mints, was served by Mrs. Paula Nicholas and Mrs. Debbie Kendrick.

Miss Traci Hill passed out tiny yellow net bags filled with tinted rice to shower the bridal couple as they left for their honeymoon.

**Honeymoon in Florida**

When the couple left for their honeymoon, touring sights of interest in Florida, the bride was wearing a black and white knit jumpsuit and a corsage of roses, carnations and babies breath, which was lifted from her bridal bouquet. After their return, they will reside at River Ridge, Avon Park.

The bride is a 1973 graduate of Avon Park High School, where she was a member of the student council, F.H.A., Annual Staff and Devilettes. She is a secretary at the Florida Alcoholism Institute.

# Jayvee Gridders Spark Hot Sports Weekend For Red Devils

The Avon Park junior varsity football team started things off for a victorious Red Devil sports week-end last Thursday night with a 20-6 victory over the Arcadia "B" team on the Bulldogs home field. The win evened the Devil "B" team's record out at 3-3 with two games left on the schedule.

Tonight (Thursday, Nov. 1), the Avon Park junior varsity will host the Sebring Blue Streaks here at Memorial Field starting at 7:30. Sebring is the only team the jayvees meet twice this season. Earlier in the season the Sebring team defeated Avon Park in Sebring by a score of 16-0 in a hard fought game. Tonight the Red Devil "Bees" will be out to avenge the loss. It should be an interesting game. Fans are urged to come out and back the Devil junior varsity team in these two last home games of the season. Next week the "B" team closes out the season against Okeechobee here.

The Avon Park junior varsity showed last Thursday night that they were willing to pay the price to be a winner. The Arcadia team took the opening kick-off and marched 70-yards from the 30 on a long series of plays to drive in for the score and take a 6-0 lead. The extra point try of a kick was good but the play was nullified by an offsides penalty and on the next attempt, the Devil defense stopped a run around right end to lead the score at 6-0.

On Avon Park's first series offensively, they were unable to move the ball. But the Avon Park defense held Arcadia on its second offensive series and took over the ball on the Devil 30. Two plays later, Riggie Baker, behind the good blocking of the offensive line, broke off left tackle and ran 68-yards for a touchdown. Charles Anderson ran the extra point and the Red Devils took an 8-6 lead.

Later in the first half, Arcadia drove from its own 28-yard line all the way down to the Avon Park one-yard line before the Devil defense was able to stop the drive. Coach Dewayne Lemler commented that this was the turning point in the ball game. The score remained 8-6 at the end of the first half.

Then with 3:09 minutes left in the fourth quarter, Devil halfback Kenneth Burley ran the ball in from the seven yard line for the second Avon Park touchdown. The Devils had moved the ball to the two-yard line on a 25-yard run by Reggie Baker, who faked a punt and ran the ball around left end. The offense then lost five yards on the first two plays before Burley scored from seven yards out on third down. The extra point try failed and the Devils led 14-6.

There were only seconds left in the game when Charles Anderson broke through off right tackle and dashed 27-yards into the end zone for the final touchdown. The game ended with the Avon Park team out front 20-6 for its third win of the season.

The offensive line was led by tackles Jim Stewart and Mike Cobb; guards Joe Galimore and Tommy Pralo; ends Ben Wright and Charles Glenn and center Freddie Moore. The running backs were Reggie Baker, Anthony Gaines, Charles Anderson and Kenneth Burley and the quarterbacks were John MicKunas and Marvin Williams. Other Devils who saw action on defense were McArthur Rouse, Willie Jervier, Noel Braithwaite, and Dale Sisemore.

Coach Lemler was proud of the boys for the win, especially since four of the regular starting team were out of action due to injuries. It is hoped that the Devils will be at full force for the game with Sebring tonight.

Those on the injured list are Harry Stukes with a sprained ankle; Darral Davis, with a pulled ligament; Melvin Collins, appendectomy; Terry Hicks, knee injury; Robert Brown and James Ross, sprained ankles. Coach Lemler expects Ken Light, Steve Simpson, Jim Lanier, Jim Stevens, and Tyrone Moss to be in the middle of the action in the next two games also.

Against Arcadia last week, Reggie Baker picked up 111 yards of rushing and Anderson had 47 yards on the ground. Marvin Williams, Jim Stewart, and McArthur Rouse led the tackle list with seven each, closely followed by Charles Anderson with six stops. Mike Cobb got credit for three tackles, Randy Cobb pulled down one, and Freddie Moore got two tackles. Kenneth Burley picked up 24 yards running and Anthony Gaines had 11 yards for the evening.

# Rotary Club Cross Country Meet Will Host Seven TeamsTomorrow

With the Peach River Valley Conference championship tucked under their belts, the Avon Park Cross-country boys will host seven teams in the Avon Park Rotary Club Cross Country Invitational here at the high school course tomorrow, Friday, Nov. 2, with the "B" teams running at 4:15 p.m. and the varsity starting at 5 p.m.

The Red Devils are the defending champions of the Rotary Invitational. Coach Chet Brojek stated that this week's meet will be one of the biggest in the area with eight teams taking part. Haines City, Lake Wales, Sebring, Lakeland, Mulberry, Wauchula, Santa Fe and the Avon Park squad will be running in this year's expanded Avon Park Rotary Invitational. There will be trophies presented to the first and second place varsity teams. The top 20 runners in the varsity competition will receive ribbons and the top 15 finishers in junior varsity competition will get ribbons. All awards and trophies are provided by the Avon Park Rotary Club.

Last Friday, Oct. 26, the Devil Harriers annexed their second straight conference title in convincing fashion as they outclassed their Peach River Valley Conference foes. Teams totals showed the champion Red Devils with 18 points, Fort Meade 74, Santa Fe 79, Frostproof 84, and Mulberry 108 points. The Devil thin-clads garnered another trophy for the school for their efforts.

James Brown established a new conference record of 12:48 for the 2.5 mile course as he took first place breaking his year-old mark of 12:55. Eugene Sneed captured second place with a fine 13:19. Reid Wall was third in 13:38. The team tri-captains duplicated their one, two, three finish of last year in leading their teammates to the victory.

Other Avon Park runners in the top ten and making the All-Conference team were Matakiah Fogle, fifth; Hezakiah Fogle, seventh; Doug Fletcher, eighth; and Raliegh Turnbull, ninth. The Devils placed 7 on the 10-man all-conference squad.

Still other Avon Park finishers were Edward Jones, 11; Frank Anderson, 15; Walter Newton, 17; Jerry Sensenig, 19; Eric Sims, 20; Leroy Caldwell, 27 - unofficial; Jack Collins, 30; Clarence Spry, 31 - unofficial; Jackie Roberts, 33; Edward Moses, 38; John Ferguson, 43; Charles Luke, 47; and Mike Owens, 48. Larry Sneed, Ken Collinsworth, and Ricky Spurlock will be returning to action this week in preparation for the Rotary Invitational.

Last Tuesday, Oct. 23, the Red Devils defeated Fort Meade in a dual meet by a 15-40 shut-out. It marked the squad's third victory in a row. The top six places went to Avon Park as James Brown won in 13:17 time for the 2½ mile course and was followed in places two through six by teammates Eugene Sneed, Reid Wall, Matakiah Fogle, Hezakiah Fogle, and Doug Fletcher respectively. Other high finishers for the Devils included Raliegh Turnbull, Edward Jones, Clarence Spry, Frank Anderson, Walter Newton, Jerry Sensenig, Jackie Roberts, Ken Collinsworth, Leroy Caldwell, Edward Moses, Charles Luke and John Ferguson.

EUGENE SNEED, a senior track member, holds the team trophy.

Coach Brojek announced that the District 6 AA and AAA Cross-Country championships will be held in Avon Park on Saturday, Nov. 10, at 10 a.m. "We are most proud to be the host school again this year," stated Brojek. Top teams will qualify in the district meets for the chance to compete in the state cross-country championships to be held in Titusville on Nov. 17. The Avon Park Red Devil Team is the defending State Class AA champion.

If you have never seen the finish of a cross-country race, you should be at the front of the Avon Park High School Administration Building tomorrow, Friday, evening around 5 p.m. or Saturday morning, Nov. 10, at 10 a.m. to see an exciting finish to the 2½ mile run by these dedicated boys. Coach Chet Brojek has built the Avon Park team up to a state championship and has increased the number of boys out for this demanding sport consistently over the past several years.

# Church Holds Annual Bazaar And Pie Social

The annual "Bazaar and Pie Social" sponsored by the Ladies Aid of Union Congregational Church, which was held on Oct. 23, in Fellowship Hall, was one of the best ever.

There were tables of needlecraft, homemade baked goods and a "white elephant" table, which patrons attending enjoyed browzing through, after being served delicious pie or cake and coffee.

The Ladies Aid, which sponsors this annual event, said much of the success goes to the committees who worked very hard planning and carrying out the days activities, and to the public who patronized the Bazaar. They are now looking forward to the next one.

# Church Gives Local Library Books-

The Church of Jesus Christ of Latter-day-saints, more commonly known as the Mormon Church, have given the Avon Park Public Library, some of their best books to be used by the public. These have been presented to the library by Elder and Sister James H. Lee, missionaries in this area. The books are, "A Marvelous Work and a Wonder", the "Articles of Faith, and Second Book of Mormons." These are given by the Church to help people who are interested in different religions, or learning about the restoration of the true gospel of Jesus Christ to the earth and what they teach, may have an opportunity to get this information through reading these books.

These books are hard bound library editions and have also been presented to the South Florida Junior College by Elder and Sister Lee and also placed in the Lake Byrd Book store. Elder and Sister James H. Lee have been working in this area knocking on doors, acquainting people with the teachings of their church and answering their questions. Anyone wanting information, may call them at 385-3819 before 9 a.m. or after 10 p.m. They will be happy to come to any group or home to present film strips or talk to or answer any questions at any time, or write to Rt. 1, Box 805, Avon Park, 33825.

WILFORD J. BEUMEL (right) Dean of Administration at South Florida Junior College, accepts a $224 scholarship check from Alvin J. Marrow, president of the Highlands County Tennis Association, following last week's county-wide tennis tournament. Proceeds for the scholarship were collected from the tennis tournament by the HCTA and will be used to subsidize a needy student during this coming semester. The tournament was sponsored by the First National Bank of Sebring.

### REBEKAH STATE PRESIDENT TO BE HONORED FRIDAY

Eleanor Seaverns Rebekah Lodge No. 65 will honor its state president, Margaret Land with a dinner this Friday, Nov. 2, when she makes her visit to Avon Park. # Family Holds Reunion

A family get-together was held on Sunday, Oct. 28, at the home of Mr. and Mrs. L. A. Stewart. This was the first time all the family had been together in several years. Those attending enjoyed visiting, reminiscing and lots of good food, including delicious biscuits made by Mrs. Stewart, for which she is famous.

The family gathering was planned especially for Mrs. Chester Brojek Sr., who flew down from Erie, Pa., for a weeks visit with her parents, the Stewarts, and son and daughter-in-law, Mr. and Mrs. Chester Brojek Jr. of Sebring.

Those attending along with the Brojeks were Mrs. Lon Collier (Annie) and children, Sherri and Butch from Fort Pierce; Mrs. J. V. Moseley (Velma) and son, Jerrold, Cape Coral; Mr. and Mrs. Ben Morgan (Violet) from Sorrento; Mr. and Mrs. Ben Morgan Jr., from Apopka; Mr. and Mrs. Steve Stewart, Winter Haven; and Mr. and Mrs. Leon Stewart and son, Jimmy, Avon Park.

# The Book Ends

By MRS. R.D. MOORE
Librarian

Remember Jessica Mitford's expose, "The American Way of Death?" It was a runaway best-seller and a controversial topic for many months among readers everywhere. Miss Mitford now has a look at our correctional facilities in her latest book, "Kind and Usual Punishment, the Prison Business". No doubt there will be a furor over this beyond anything yet written about the prison system. Read and make your own judgements.

"There have been excellent scholarly and military histories of the Second World War, but no popularized one-volume history of that global conflict. Now an Englishman with a genius for making complex actions and events instantly understandable, has covered every major phase from the ridiculous 'phony war' to the final victory over Japan, in a manner that is informative, exciting and clear." So reads a review of Mark Arnold-Foster's "The World at War now available at the Avon Park Public Library. Based on the 26 hour television series narrated by Sir Laurence Olivier, this reads like a novel and should prove to be popular with history fans.

Hunters, target shooters, collectors, gunsmiths and historians take heed. "The Firearms Encyclopedia" by George Nonte is now available for you to check out for home browsing from the Library. Authoritative and comprehensive, it defines and explains all terms relating to firearms, their use and development. The history of guns is covered along with instructions on cleaning and repairing firearms.

Although not new in the sense of hot off the press, we have added two books that are new to the Avon Park collection that those of you who are interested in gardening should enjoy. "How to Grow Roses" by McFarland and "All about African Violets", by Free, are now available. McFarland's book is newly revised and updated and gives basic information for all rose growers on newer cultural methods and practical ways for using roses. The Free book is for the amateur gardener who wants a comprehensive study of all the problems likely to be encountered in raising African violets.

A reminder of new library hours:

Monday, Tuesday, Wednesday and Thursday—10 a.m. until 7 p.m.

Fridays - 10 a.m. until 5 p.m.

# Three Arrested For Drugs

Three young persons, two of them men stationed at the Avon Park Air Force Base, have been arrested on drugs charges following lengthy investigation by Lieutenants Richard Cooper, Mike Mercer and Glenn Hartsfield of the Highlands County Sheriff's office.

John Herman Nemecek, 21, Pamela Gayle McCann, 18, residing at 242 Oak St., Sebring, and William Gerald Dunn, 23, of 411 Walnut St., Sebring, have posted bonds and are awaiting court appearances.

Nemecek was charged with possessing marijuana, sale of narcotics and possession of paraphernalia. His bond is $15,000. Mrs. McCann is charged with possessing narcotic paraphernalia and marijuana. Her bond is $5,000

Dunn was arrested Oct. 22 on two counts of sale of marijuana and his 1973 van truck impounded. Bond was set at $20,000 but, in an appearance before County Judge Mark Richardson Jr., was reduced to $2,000.

# Children's Fall Picnic Is Success Despite Foul Weather

Neither rain, nor wind, nor the threat of tropical storm "Gilda" could prevent the Avon Park Jaycees from sponsoring their first Jaycee's Children's Fall Picnic, which was held Saturday, Oct. 20.

The picnic started at 1 p.m., with the children getting a name tag and being introduced to Les Norris, president of the Avon Park Jaycees; Jim Goza, secretary; and Lynn MacNeill, the chairman of this project.

After the introductions, the children had organized activities such as foot races, for which the first three place winners received ribbons denoting the event and in which place they finished. Following the races it was time to eat. Each child had hamburgers, hot dogs, baked beans, potato chips, milk and orange juice. Every child was invited to eat and drink all he could hold—many ate more than they could hold.

The entire project was a direct result of three active members. Can you imagine obligating yourself to baby-sit and feed over 100 children. That's exactly what the Jaycees did.

"However successful this project", said Norris, "if we had not had financial support and donations of merchandise, we could never have gotten off the ground. We owe much thanks and appreciation to Kirkland's Market, Pantry Pride, Winn Dixie, L and L Groceries, Phillips Corner, Shop and Go, Starling's City Market, West End Grocery, Hood Dairy and McDonalds of Sebring. These merchants have helped us in anyway they could and for the Avon Park Jaycees and 123 happy children, thank you," said Norris.

The picnic is the first project sponsored by Avon Park Jaycees in some time, since the club disbanded some years ago. "We are a young club", said MacNeill, "this entire project was put together by only three active members. If three young men can do something for the community such as this, imagine what the Avon Park Jaycees could accomplish if some of the other young men would come out and join the Jaycees."

The Jaycees have another project, "Honey Week", which will be held on Nov. 10-17. This is actually a state-wide project by which the Jaycees try to help raise money for retarded children of Florida. "The beautiful thing about this project," said Norris, "is that 65 per cent of the profit stays right here in Highlands County, to assist the Ridge Area Association for retarded children. Arrangements have been made so that we will have a booth at the Highlands County Art Festival," said MacNeill. "We will be selling jars of honey for $1 each and would love to sell all that we have ordered."

Young men in orange vests with Avon Park Jaycees on the back, will be selling the honey to help the retarded children.

Any man between the ages of 18 and 35, who is interested in becoming a Jaycee or talking to one of the Jaycees about the club, is invited to attend the next meeting, Nov. 5, at 8 p.m., at the Jacaranda Hotel.

KETCHUP, MUSTARD, or both—was quite a decision to make for 123 children attending the Avon Park Jaycee Annual Fall Picnic. Carl Bentley, left, striped shirt, from the Sebring Jaycees, looks on as Lynn MacNeill and Les Norris, Avon Park Jaycees, serve the food while Jim Goza, hidden in the smoke, cooks the hamburgers and hot dogs. The picnic was held on Saturday afternoon, Oct. 20, at Donaldson Park. Photo by Miller

# Food for Thought

By Jane Nickerson

If there were left-over pone the children would beg to eat it as a bedtime snack, Mary Lou Dyer told me. She is a favorite reference on Old South cookery, born 73 years ago to a woman who had been a slave, reared in Georgia and a resident of central Florida for more than a half-century.

Mary Lou recalled that you grated raw sweet potatoes and made them into pone by adding what you could find—water or if the cow weren't dry, milk; butter if some were cooling in the well, an egg if the hens were laying, sugar or cane syrup or molasses, a bit of flour, some spices.

You ate sweet potato pone when it came from the oven, hot and fragrant, she said, or when it had cooled. You greedily gobbled it with country ham and red eye gravy or fried chicken or if time were lean, by itself. Sometimes it was dessert.

It's become even more since—a symbol of old-fashioned, rural South domesticity, a key to memories of wood stoves, homeground corn, kerosene lamps and a life tied to the soil and seasons. There was no air conditioning back then, but there was satisfaction.

And sweet potatoes, made into the pudding-like pone (which comes from a Delaware Indian word meaning baked) or roasted in hot ashes, were the fabric of daily good eating—easy to grow in a light soil, high in calories for an active people, nutritious (because of their vitamin A), versatile, fine-flavored. When you came from school, Mary Lou remembered, a cold roasted sweet potato tasted delicious.

M. F. Hetherington, the Polk County historian, writing of how it was a century ago, noted:

"A patch of sweet potatoes furnished a staple article of diet as well as a coffee substitute. The potatoes were cut up in small cubes, dried, parched and ground, providing a not unsatisfactory beverage."

And George M. Barbour, a newspaperman who toured the state about 1880, summing up his observations in a book he called, "Florida for Tourists, Invalids and Settlers," wrote:

"Sweet potatoes are as indispensable here as rice to the Chinese, macaroni to the Italians or Irish potatoes to the Irishman. White or black, no family is so poor it does not have a potato patch."

Food costing what it does, perhaps we should all go back to growing sweet potatoes on those vines that flower in rose-violet, funnel-shaped blossoms. But more curious than their disappearance from home plots is the fact they have ceased to be an important commercial crop in Florida. Much of what we savor comes from Georgia, Alabama, Louisiana. Few showed up in the fresh vegetables shipped from Florida last year, which accounted for almost half the total shipments recorded in the country.

James M. Stephens, vegetable crop specialist, University of Florida, told me why:

"Twenty years ago our sweet potato crop, of some size, was hit by a weevil. We've since conquered the pest, but we haven't persuaded farmers to go back to sweet potatoes. We don't know why. They take to mechanization, give a good yield for little labor, are well accepted. A Floridian of Southern background will enjoy one at almost any time of year."

Some sweet potato cultivation goes on in the Panhandle, Stephens said, and referred me to an innovative gentleman, George Henry, assistant county extension agent, Leon County. Henry said:

"About five years ago I persuaded a small group of black farmers, most of whom grow okra under contract to the Campbell Soup Company, to form a co-operative. They bought a mechanical digger and put up a curing house eight miles northwest of Tallahassee. The project's been a success. This fall we're digging a variety called Red Jewel—a fiber-free, real sweet, a yellowish-red flesh."

To heal the skin, often broken during harvest and so avert spoiling, sweet potatoes are cured at high heat and high humidity for about six days, Henry told me. The most delicious ones are two to three inches long, about two inches in diameter. Floridians prefer those that are moist and red-fleshed, often calling them "yams". That is a misnomer. The true yam belongs to an entirely different family, and is grown chiefly in south Dade County for the Cuban market.

Back now to Mary Lou. She reminded me you could mash sweet potatoes for a party and spoon them in hollowed-out orange shells, put them in a pie or slice cooked ones and fry them slowly. Slowly because they caramelize easily under high heat. But pone, she thought, was still the best because it tasted so like home.

**SWEET POTATO PONE**

2 medium-large sweet potatoes (about ¾ lb.)
½ cup butter, melted
1 egg, slightly beaten
¾ cup sugar
¼ cup light or dark molasses
1 cup milk
1 teaspoon vanilla
½ cup unsifted flour
½ teaspoon salt
½ teaspoon cinnamon
½ teaspoon nutmeg

1. Grease a six-cup baking dish. Preheat oven to 325 degrees.

2. Peel sweet potatoes. Grate medium-fine on a conventional four-sided kitchen grater. There should be two cups, slightly packed down.

3. In a medium mixing bowl, stir together the sweet potatoes and butter. Add the egg, sugar, molasses, milk and vanilla. Beat well with a spoon after each addition.

4. Stir together the flour, salt and spices. Add to the potato mixture; beat well.

5. Turn into the baking dish. Bake for about two hours. During the first hour of baking stir the mixture five or six times. The finished pone will be lower than the top of the baking dish. Serve hot or cold. Reheat any left-overs, if desired.

Yield: Six servings.

# SURE HANDS OF THE SURGEON

A child walks . . . an arm is straightened . . . a growth is removed . . . these and many other things are the result of the fine work of the surgeon. This is an occupation and a labor worthy of appreciation.

A star . . . a new born baby . . . the world itself . . . these and many other things reveal God to us. *"The heavens declare the glory of God; and the firmament sheweth his handywork."*

*Psalm 19, 1*

**God has wrought a great work. Let us show our love and appreciation by worshipping him in Church**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

EVERYONE IN THE CHURCH ... THE CHURCH IN EVERYONE

## Christmas Parade Dec. 3

The Avon Park Chamber of Commerce office has already received notice of entries for the Christmas Parade slated for Dec. 3 this year. Several bands have been scheduled to appear in what promises to be the biggest parade in the history of Avon Park.

All business, organizations, churches and individuals that plan to take part in this spectular affair are urged to register with the Chamber of Commerce as early as possible.

This year the parade will be televised on Channel 3, with the date to be announced later.

# First Step Toward Sewer Construction Likely Soon

A step toward the beginning of construction of a sewer system for Avon Park is about to be made with the City Council expected to approve a master plan for city growth very soon. The master plan is a requirement of the Farmers Home Administration for loans such as Avon Park is asking to help finance the sewer system.

A public hearing on the proposed city growth plan Monday night filled the City Council Chambers of City Hall with interested citizens.

Frank Blandford, who helped develop the master plan was on hand to answer questions about the plan and discuss the needs for such a plan.

Blandford said that the projected population for Avon Park in 1990, "if the city keeps 20 per cent of the county population", is 15,000. He said that now, Federal agencies required such a growth plan but that state monies might eventually be put under simular restrictions.

The new growth plan would include an updated zoning ordinance and a subdivision ordinance.

Copies of the general plan, propsed ordinances and the proposed zoning map are on file in the city clerk's office weekdays, 8 a.m. to 5 p.m. for public inspection.

In response to a question during the hearing, Clarence King, president of the City Council, said that it would be the duty of each citizen to check about the zoning of his own personal property with city officials. He said that the city would not make efforts to contact the citizens.

Fred Hughes, chairman of the city Planning Commission, expressed displeasure with the attendance of Commission members at previous meetings and called for a meeting to be held 7 a.m. Friday. "I don't want to put my name on something unless we're for sure everything is in order," he said.

The growth plan must first be approved by the Planning Commission before going to the City Council. There it must be made into a proposed city ordinance and subsequently approved by the Council before becoming a law upon publication.

He has had surgery and regular treatment at the March of Dimes program at Primary Children's Hospital in Salt Lake City. Now he can walk with the aid of braces and crutches. ## Devils Will Travel To Okeechobee

After an impressive 28-14 win in Lake Placid last Friday night over the Green Dragons, the Avon Park Red Devil varsity football team will travel to Okeechobee tomorrow night (Friday, Nov. 9) to take on the Brahmans in a non-conference game.

The Okeechobee eleven is having one of its best seasons in the past several years. At present the Brahmans have a 5-2-1 record with a 21-6 win over Lake Placid and a 14-0 win over Sebring. But Okeechobee has lost its last two games bowing to Venice 31-13 and Cypress Lake 23-10. The Red Devils on the other hand are riding a four-game win streak with a 5-2 record. Both teams count on a strong defense and a ground game on offense so the outcome of the match is pretty much a toss-up this year. Last year Avon Park handed the Brahmans a 41-7 beating here at Memorial Field.

**Lake Placid Game**

Red Devil senior Nate Packer caught a touchdown pass from quarterback Buddy DeWitt and kicked four extra points to lead the scoring for Avon Park in the win over Lake Placid by a score of 28-14 last Friday night. Again the Red Devils spoiled a homecoming game for the second week in a row.

The Green Dragons took an early lead in the game when safety Alfred Irvin took an Avon Park punt on his own 10-yard line and ran it back 90 yards for a TD. Avon Park had punted from the Dragon 43-yard line after failing to pick up a first down after the opening kick-off. The Dragon's kick for the extra point was blocked but the big homecoming crowd was happy with the 6-0 lead.

Later in the first period, Avon Park took advantage of a 23-yard punt return by Ricky Claitt to drive in from the Dragon 32-yard line. Ricky Claitt took the ball in from two yards out on fourth down. Packer's first of four extra point kicks put the Devils out front 7-6.

Before the first quarter ended, Mearl Robinson, Devil defensive halfback, intercepted a Dragon pass on the 50 and returned it to the 22-yard line before he was brought down to set up the second Red Devil score. A running play by

# Old Settlers Recognize Dr. Coleman On His Retirement After 25 Years

There was a good turn-out at the "Old Settlers" annual picnic held last Thursday, Nov. 1, in Wesley Hall of the First United Methodist Church.

Mrs. T. Hayes Maxwell was chairman of the event. The Rev. Bentley A. Williamston, pastor of the host church, returned thanks and asked for blessings on the day's activities. After everyone partook of the delicious food, Ann MicKunas led the group in an "old time sing-a-long", which brought back memories to all present. One of the lawyers in town was caught harmonizing quiet well.

The Rev. Herbert D. Graetz, president of the Old Settlers Association, introduced George Haynie and Mayor Robert J. Barben, who both gave fine tributes to Dr. Hubert W. Coleman, a prominent physician in Avon Park for more than 25 years, who recently retired from active practice.

Ann MicKunas led the group as they all stood and sang to Dr. Coleman, "For He's A Jolly Good Fellow", after which she paid special tribute to Dr. Coleman by singing and dedicating especially to him, "Sound of Music".

Three people were present at the meeting who were born in Avon Park, Mildred Wray Waddel, Jane Hartt Barben and Evelyn Martin Blake. Attending from the farthest distance were Mr. and Mrs. L. N. Smith and Mrs. Evelyn Blake, from Tampa, who are sisters, the former Lutrell Martin and Evelyn Martin.

Many of the real "Old Timers" were missed at this meeting, being unable to attend because of sickness or other reasons. A prayer was said and a time of memory set aside for honoring those deceased since last year, the total being 39.

Mrs. P. C. Boney introduced the guest speaker, T. Mabry "Jack" Carlton of Wauchula, who spoke on "The Necessity of Preserving Our Heritage." His talk was very interesting and well received, making us all stop and think.

**Dr. Hubert W. Coleman**

Highlight of this year's annual "Old Settlers" Association picnic and meeting was the honoring of a man in Avon Park, who has helped or touched many families in some way, Dr. Hubert W. Coleman, who retired recently after more than 25 years of helping people in this area.

Many interesting facts were brought out while George Haynie and Mayor Robert Barben paid tribute to this deserving man. Mayor Barben told how Dr. Coleman had faithfully cared for the football teams for some 15 or 20 years, giving them their physicals, attending games at home and away, sitting there on that sideline bench, ever ready to give aid to the injured, and never charging a cent. One lady in the audience stood and said, Dr. Coleman took care of the young preachers of Avon Park, as well as the athletes.

George Haynie thanked the Old Settlers for paying tribute to an "Old Settler" that deserves all the recognition he receives. Dr. Coleman was a Navy doctor, coming here from Jacksonville in 1946, opening up an office next door to George in Dr. McKnight's office. (George said the Rev. Graetz knew he was a nosey, snoopy individual when he asked him to tell some of the early doings when this young doctor came to town). George said he did see something, "I saw a man that went to his office early in the morning and worked until late in the afternoon. Then after dinner he made house calls for 2, 3 or 4 hours."

When Dr. W. C. Touchton retired in 1947, Dr. Coleman moved to his office at 12 S. Lake Ave., where he has practiced until his recent retirement.

In 1948, Walker Memorial Hospital came into being, and Dr. Coleman not only played a large part in making this possible, but also helped to make the hospital prosper and expand.

George told about one of his stays in the hospital not long after it opened. When Dr. Coleman came in to visit him one morning and asked him if he had any problems, George said, "When I shaved this morning with my single edge razor, I had an especially smooth shave, but my face doesn't feel any different than it did before I shaved." Dr. Coleman looked at his razor and said, "George, you do have a problem, you put the blade in upside down."

One of Avon Park's renowned vocalists told of how Dr. Coleman had her singing as he delivered her baby daughter; and another patient of Dr. Coleman, recalled him talking about sports during her baby daughter's delivery, the doctor knowing how she loved sports. I'm sure everyone at the meeting could recal happy and sad times in their lives,

## City-Wide Sale Set By C Of C

"Shopportunity Days", an effort by the Avon Park Chamber of Commerce to show the people of the community that it pays to "Shop in Avon Park", is scheduled for Nov. 15, 16 and 17.

Participating merchants will be featuring special sales in their stores during the three-day sale with the idea of showing Avon Park residents that they can save money by staying in the city to shop rather than going to larger cities in the surrounding areas.

A special advertising section for the merchants participating in "Shopportunity Days" will appear in next week's (Nov. 15) issue of the Sun.

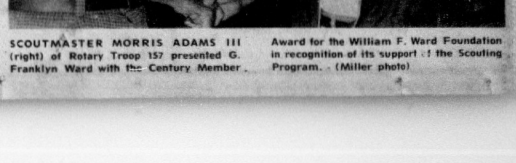

The Merchants Committee of the Chamber of Commerce, headed by J. T. Gibbs, conceived the idea of "Shopportunity Days", and was responsible for recruiting merchants to participate.

# Episcopal Church Women Set Meeting Wednesday

The Episcopal Church Women of Avon Park will hold their regular meeting on Wednesday, Nov. 14, in the Parish House of the Church of the Redeemer, after the midweek Communion.

The Business meeting will start at 10:25 a.m., after a short "coffee".

Mrs. E. G. Todd has a very interesting program planned for this meeting. Mrs. Adams, Horn of Plenty owner, will be the speaker. She will also show some of the items created in her store. It is hoped members will get some ideas for the upcoming "Christmas Bonanza", being planned by the Church women. The Bonanza will be held on Thursday, Dec. 6, in the Parish House, and everyone is looking forward to this event. There will be booths for many different things, both antique and new. Starting at 10 a.m., it will continue until 7 p.m. The snack bar will be open all day dispensing the goodies for which Redeemer members are famous. Mark the date on the most used calendar and plan to spend some time that day at the "Bonanza".

The Board will meet on Monday, Nov. 12, at 9:30 a.m.

## Continued Old Settlers

with Dr. Coleman lending his strong helping hand.

Dedra Ann Carter, daughter of Mr. and Mrs. Edward Carter, born Sept. 13, 1970, was the last baby that Dr. Coleman delivered.

In 1963, a group from the Avon Park School had a contest to choose the most popular person in Avon Park. Dr. Coleman won by a large majority. Then in 1964, the Avon Park Chamber of Commerce selected a committee to choose the "Outstanding Man of the Year". This award was to go to the man they felt had contributed the most for the betterment of Avon Park. Dr. Coleman was chosen because of the many hours he had devoted to our youth and because of his devotion to all.

# District CC Meet Saturday

The District 6 AA and AAA Cross Country Championship meets will be held Saturday, Nov. 10, on the Avon Park Course with starting time set for 10 a.m. The 2.5 mile circuit ends in front of the high school administration building and Avon Park head coach Chet Brojek expects increased competition for the District titles this year.

The AA competition finds the host Red Devils, defending district champions, the team to beat. Led by tri-captains James Brown, Eugene Sneed, and Reid Wall, the Devils are one of the top AA squads in the state. Others running on the district team for Avon Park will be Larry Sneed, Matakiah Fogle, Hezakiah Fogle and Raliegh Turnbull with alternate Doug Fletcher and Edward Jones available if needed. The AA district includes Lakeland Santa Fe, Mulberry, Fort Meade, Arcadia, St. Petersburg Bishop Barry, and Avon Park. The best challenge to the Devils will come from Bishop Barry which was added to the district roster at the last minute this year. Two teams and the top five individual finishers will qualify for the State Cross-Country championships in Titusville on Nov. 17. The Red Devils are the defending State Champions.

In the AAA meet which will be run at 10:30 a.m., Haines City will be favored to repeat as District Champions. The Hornets are led by wiry Joe Franklin. Other teams in the AAA district include Sebring, Auburndale, Lake Wales, Bartow, Wauchula, and Hernando. At least two and possibly three teams and the top five individuals will qualify for the state championships next week.

The Red Devils finished second in the Rotary Invitational sponsored by the Avon Park Rotary Club last Friday here on the Avon Park course. The Haines City Hornets took first place honors with a team total of 22. The Red Devils were second with 46 points, Auburndale third with 103, Sebring fourth with 106, Wauchula fifth with 113, Lake Wales sixth with 131, and Santa Fe last with 170 points.

Individual honors went to Hornet speedster Joe Franklin with a winning time of 12:49. The time was well off Avon Park's James Brown's record of 12:29. Brown was injured in a gun mishap last Wednesday and was unable to run Friday. Coach Brojek stated, "We hope Brown will be able to run in the district meet this coming week." The loss of Brown would diminish Devil chances of a repeat state crown. Top finishers for Avon Park in the Rotary Invitational were Eugene Sneed third with a 13:08 time, Reid Wall fourth in 13:11, Larry Sneed twelvth with a 14:06, Matakiah Fogle, thirteenth, Raliegh Turnbull fourteenth, Doug Fletcher 20, and Edward Jones 25.

The remainder of the Devil Cross Country team ended their season with the Rotary Invitational. Many outstanding efforts were turned in by seniors Ken Collinsworth, Leroy Caldwell, Jackie Roberts, and Edward Moses; junior Ricky Spurlock; sophomores Frank Anderson, Jerry Sensenig, Walter Newton, Eric Simpson and Charles Luke; and freshmen Clarence Spry, Jack Collins, John Ferguson, and Mike Owens. The team had 22 boys participating as the season ended. This is quite a large number for a AA school. Coach Brojek said he is looking forward to the return next year of many fine underclassmen.

The Red Devil cross country team would like to thank the Avon Park Rotary Club for sponsoring the Invitational again this year. Without such sportsminded individuals as the Rotarians, the meet last week could not have been such a success according to Coach Brojek.

Lets have a big crowd of spectators out at the high school Saturday morning at 10 a.m., to show these fine Red Devill athletes that they have the backing of Avon Park as they try to capture their second consecutive district title and qualify for the state meet.

# Kiwanians Discuss Budget

By Jim Williams

The Kiwanis Club held its weekly luncheon at the Jacaranda Hotel in downtown Avon Park, Thursday, Nov. 1, at 12:05 p.m. Guy Adams, Kiwanis president, brought to attention of club members the 1973-74 budget and Kiwanis projects adopted by the board of directors at its Thursday morning breakfast meeting.

Reminding the club members of the Kiwanis motto, "We Build". Adams called attention to this year's Kiwanis Club contributions, 12 in all, including "SFJC Scholarship", "Furnishing a room in the local hospital", "Little League", "Christmas Cheer", "Girl Scouts", "Boy Scouts", "4-H Club", "Salvation Army", "City-County Agriculture", "Summer Camp", "Key Club", and "Circle K Club".

These community service projects are financed through the Kiwanis Club's fund drives including the "Pecan Sale" coming up in a few weeks. "Kiwanis Popcorn Time" to follow the pecan sale, "Kiwanis Radio Day", and a "Kiwanis Movie" have been sponsored by the club.

On each project the club offers a product to the public that yields the full value a buyer would ordinarily pay for it. The Kiwanis Club uses the profits from these sales to make possible its contributions to the betterment of the people of Avon Park. Kiwanis International stipulates that all funds raised from money making projects involving the public must be used solely as contributions turned back to the community. Kiwanis Club members donate their time to these projects.

The program chairman introduced Larry Hooper, an instructor at the South Florida Junior College and Scout Master of Boy Scouts of America, Troop 156. This troop which is sponsored by the Union Congregational Church of Avon Park belongs to the Calusa District including Hardee, Highlands, and Southern Polk Counties. Larry spoke of next summers high adventure trip to the Boy Scouts 137,000 acre ranch named Philmont, located at Cimarron, N. M. The Gulf Ridge Council of which the Calusa District is a part will take four buses on the trip to New Mexico in 1974.

# Book-Review Presented At Club Meeting

The Avon Park Woman's Club met in regular session last Friday. They had the pleasure of a fine program.

Mrs. Aden Childress gave a devotional of Thanksgiving, using Psalm 100 as her text.

Mildred Long and Catherine Baker sang two numbers, "Thank You Jesus" and a fun song "Neath the Old Apple Pie Crust". They were accompanied by Edna Jackson.

Ann Robbins introduced Mrs. Paul Phypers of Lake Placid, who gave a good book review of "The Salamander" by Morris West. This is a recent best seller and a story of intrigue and politics in Italy. The review made most of us want to go get the book and read it to get the details the Mrs. Phypers couldn't tell because of lack of time.

The lively business session was presided over by the president, Alice Smith. Announcements were made of the Holiday Fair for Nov. 10 at the Club House, which is to be an all-day selling of many items, including aprons, owls, beads and food, etc. There will also be the opportunity to buy a cup of coffee and a piece of pie. Alma Smoot is the chairman - do come see what they are offering.

Joyce Wagner announced a rummage sale for Friday and Saturday, Nov. 16 - 17, at the club house. Many different items will be on sale.

Next meeting will be the Annual Holiday Musical on Dec. 7 at the Baptist Church.

# Palmer Team Remains Undefeated

After three nights of action, the Palmer Electric Service junior league basketball team is the only undefeated squad with a perfect 3-0 record. The Palmer team, coached by Jim Sisemore, has won over Maryland Fried Chicken 33-24, Starling's City Market 44-22, and Touchton Drugs 30-20.

Tied for second place after three games are Touchton Drugs and Maryland Fried Chicken with 2-1 records. Touchton Drugs team is coached by Albert Moss and has beaten Winn Dixie 18-12 and Franklin's Inn 36-16. Maryland Fried Chicken's team is coached by Clayton McNeil. # Between The Book Ends

By MRS. R.D. MOORE
Librarian

Whether you are a newcomer to Florida or a resident of long standing, the collection of Floridiana that we are building at the Avon Park Public Library should be of interest to you. Some of the titles we now have on order and that will be arriving shortly include:

"Your Florida Garden Soils" by Seton Edson. 500 questions and answers concerning Florida's soils and care for successful plant growth are to be found here.

Carlyle Luer's "The Native Orchids of Florida" is on order. This title includes several hundred color photos of our native orchids with morphology, classification, and description.

An author from Tampa, Robert Long, has written "Flora of Tropical Florida" which is devoted to native and naturalized seed plants and ferns of Southern Florida. You will find 125 full-page line drawings of major plant families and diagnostic keys for identification of 179 families, 762 genera and 1647 species.

Two Florida biographies are on order. Catherine Peare's "Mary McLeod Bethune", the story of the founder of Bethune Cookman College at Daytona Beach plus an outstanding new biography of Osceola.

A title I am personally awaiting is "The Armadillo" by Theodore Munch. For the past two months the flower beds at my home have become the private domain of an industrious armadillo and I intend to read and learn how to banish him forever!!

Gardening in Florida is different from any other state because of the climate, soils, etc. The book "Your Florida Garden" by John Watkins is the book to cure your Florida gardening problems.

Already on our shelves we have Florida materials dealing with the Everglades, snakes of Florida, camping in Florida, Florida fishing, shelling and beachcombing in Florida, birds of Florida, and several histories of Florida. Of course, we have multiple copies of Horace Fenton's "History of Avon Park."

Along with many additional titles of Floridiana, we have added several special Florida magazines to our collection that I hope you will enjoy. "The Florida Sportsman" is here and subscriptions begin next month to "Florida Cattleman", "The Florida Gardener", Florida Naturalist", and "Florida Wildlife."

"SAVE FUEL" IS SNOOPY'S NEW SLOGAN

SNOOPY GOES TO WORK FOR ENERGY
. . . Peanuts hero just lies down

and it's more than just a slogan, it's a real need, not only for today, but for a few years to come. Until very recently, the United States was an energy-rich nation with abundant resources of all forms of fuel. Today we know this situation no longer exists there is in fact, a shortage of all types of energy which probably will continue for some time.

What can you do right now to help ease this shortage? The answer is simple:

USE LP-GAS MORE EFFICIENTLY
CONSERVE LP-GAS WHEREVER POSSIBLE

By conserving LP-gas, you will be doing your part to make sure you and your neighbors will have enough for such essential requirements as home heating, cooking, water heating and other residential uses. You will also be doing yourself a favor by helping to lower your gas bills.

Snoopy is used by Nixon's Citizens Advisory Committee on Environmental Quality by permission of Charles Schultz and United Features Syndicate.

HOW YOU CAN CONSERVE LP-GAS AND SAVE MONEY

MORE INDOOR COMFORT AT LESS COST
Have your LP-gas heating system checked once a year
Weatherstrip and caulk around all windows and doors
Install storm windows and doors
Don't overheat your home
Control humidity for fuel saving and comfort
Keep filters clean

CONSERVING LP-GAS IN THE KITCHEN
Match the LP-gas flame with the size of the pot or pan
Cover pots and pans
Look for the clean, blue LP-gas flame
Never use your range or oven for home heating
Save LP-gas with oven meals and broiled foods

HOT WATER ISN'T FREE
When installing a water heater, place it as close as possible to the kitchen, laundry and bath
Fix that leaking faucet!
Whether by hand or with an automatic dishwasher, you will save hot water by washing a full load of dishes at one time
Don't let a stream of hot water run down the drain when washing or shaving . . . fill the basin with only as much as you need
Showers save on hot water

SAVE IN THE LAUNDRY, TOO
Try to wash a full load of clothes each time
Dry full loads, too
Never overload your washer or clothes dryer
Keep the lint filter clean on your LP-gas clothes dryer for most efficient operation
Follow laundering and drying instructions for your washables

PROPANE MOTOR FUEL SAVES ENERGY
High octane LP-gas motor fuel gives more power per gallon and reduces maintenance costs

# Rotary Club Hears Plans For New Motel

"Our speaker today is a man that really believes in America. He has a good reason to believe in the opportunities and freedom offered in America", Norris Brooks, program chairman told the Avon Park Rotary Club as he introduced the speaker Oscar George of Lake Placid.

Oscar was born in Czechoslovakia, graduated from the University of Budapest with a Master's Degree in Political Science and was imprisoned by the Russians in 1945 because of his political activities. He escaped, located his wife and baby girl, who had been born while he was in prison and walked 200 miles to the Austrian border.

In 1950, Oscar arrived in the U.S. without a dime in his pocket but with a lot of determination. His first job was as a grease monkey. Since then he has been manager and innkeeper at some of the finest country clubs and hotels in America. Recently he was appointed General Manager and Innkeeper of the Lake Placid Holiday Inn. His duties will include supervising the construction of the soon to be built Holiday Inn just south of Avon Park.

In referring to some of his experiences before reaching America Oscar told how a European guide gave three observations of the U.S.; treat the janitor nice – he may some day be your boss; the average American doesn't own his car – the finance company does; and when you apply for a loan, pretend you don't need it and you will get it.

Oscar in pointing out reasons why the Holiday Inn franchise has been granted for this area, stated that the Lake Placid facility had far exceeded the original expectation because of local support and the patronage of the travelling public. Thus the new facility will start with 150 rooms, have several large dining rooms, one to be a Polynesian Room. There will be a number of small meeting rooms for individual group meetings. There will also be a large lobby to be surrounded by a shopping area.

Ground breaking for the new facility on Highway 27 between Avon Park and Sebring is scheduled for Dec. 1, hopefully with Governor Rubin Askew as the speaker. Target date for completion of the first phase of the motel complex is Thanksgiving Day, 1974.

In describing his work, Oscar told the Rotarians that the hotel-motel industry was a career that offered many opportunities, especially for the nearby Junior College students, should they be interested in this type of work.

OSCAR GEORGE tells Rotarian about new Holiday Inn.

On Wednesday evening 15 courts were in play for the last time with no points for the season. Alva Derr and Frank Fread won in the main event with Alton Wetmore and Harold Faulkner coming in second. In consolation the winners were Nora Werner and Ellen Coombs over Henry Barnett and Lavern Staley.

The "A's" had 12½ courts in play with Frank Burnett and Leslie Hildreth winning over Louise Bell and Clay Kull. Consolation winners were Bertha Brush and Florence Young with William Baxter and Martha McBeth the runners-up.

In the afternoon the "B's" did not finish their game because as they finished the third game, Chris Steen slumped to the ground and before the ambulance arrived he was gone. He was a good shuffler and we shall all miss him.

In Pinochle on Monday and Friday afternoons with six and seven tables in play the winners of high scores were Margaret Masuch 783, Phyliss Gaeta 726, William Benson 827, and Juanita Carr 815.

Herman Wurster and Eleanore Nickerson had high scores in bridge on Tuesday afternoon - 5160 and 4220.

In duplicate bridge they had four tables of players, so the Howell movement was used with the following results: first, Bertha Brush and Edith Bates; second, Maurice Brevoort and Jean Ludington; and third, Eleanore and Joe Nickerson.

More and more ladies are coming to the craft class on Thursday morning. They were still working on the making of small refrigerator bugs. They are so cute. Next week they will probably work on the making of pendants of safety pins and beads. They are beautiful.

The dancers had a good time on Monday and Friday evenings with the square, round and pattern dances. The Hully Gully is especially popular.

On Saturday evening there was a long table of folks having a good fellowship over the fine food. There were 44 present with Bruce and Nellie Steel acting as host and hostess.

Mrs. Steele gave three readings from the magazine "The Good Old Days". They were "Cleaning the Basement", "Mother" and "Halloween in 1900".

Betty Gough led the group in singing with her daughter, Connie, at the piano. Hosts next week will be Lavern and Grace Staley.

The first Board Meeting was held on Tuesday evening Nov. 6.

We have a membership now of 234. They are returning fast. New members are Carl and Dorothy Kieffer, Olmsted Falls, Ohio; Violet Gray, Avon Park; and Catherine Roy, also of Avon Park.

Recently returned are Mildred Abel, Toledo, Ohio.; William and Myrna Baxter, Minerva, Ohio; Florence Beck, Avon Park; Allen and Minnie Carlson, Jamestown, N.Y.; Mark and Amber Coates, Almond, Wis.; Roy and Jean Cartwright, Blenheim, Ont.; Hetta Cook, Warsaw, N.Y.; George and Ellen Coombs, Solon, Maine; Harold and Margery Faulkner, Urbana, Ohio; Lou and Matilda Fornes, Avon Park; Doris Harris, Minerva, Ohio; Ed and Cecelia Healy, Strathroy, Ont.; Floyd and Mertie Heinrich, Elmira, N.Y.; Clarence Higgs, Avon Park; Leslie Hildreth, Laconia, N.H.; Valda Hisey, Avon Park; Edith Martensen, Avon Park,; Donald and Florence Mason, Levant, Maine; Walter and Margaret Masuch, Sebring; Harriet Meisell, Warsaw, N.Y.; Rose Meadow, Avon Park; Bertha Montgomery, Avon Park; Genevieve Moran, Blue Earth, Minn.; Leon and Edith Parcell, E. # Retirees Honored With Halloween Party

It was a gala affair at the Jacaranda Retirement Hotel last Wednesday evening, Oct. 31, when members of H.O.P.E. (Helping Older People Everyday) accompanied by the Avon Park Correctional Institute Band sponsored a Halloween party for the retirees at the Jacaranda. C. Louis Cameron, chairman of the A.P.C.I. Jaycees (which was adopted Jan. 21, 1973) said the primary objective and purpose of H.O.P.E. is to bring as much happiness, meaning and humanitarian good to the elderly as possible. And it seemed that Cameron and the six other Jaycee members, and the seven-man band clad in prison white uniforms were doing just that at the party.

Cameron, the 25-year old chairman of project HOPE, was born and raised in Vermont, and had a HOPE club in Ft. Lauderdale serving Broward County on an individual volunteer basis, extending into private homes. Cameron was founder and director for 9 months, and was helped by the Service Agency for Senior Citizens of Broward County and United Fund in Ft. Lauderdale. He was sentenced to two years for misuse of a credit card, and intends to become a male R.N., working with elderly people, when his sentence is completed next year.

As of Oct. 30, 1,588 elderly citizens in local nursing homes and retirement centers have been reached through the entertaining activities provided by HOPE. The activities have consisted of color movies, sing-a-longs, country and western band music, chapel choir, folk-music, bingo, letter-day and visitations.

HOPE is a newly conceived program for any correctional institutional Jaycee Chapter in Florida, dedicated solely to the elderly in nursing and convalescent centers or retirement centers. Some 34 trips have been made from the Avon Park Correctional Institution to Cottrell Nursing Home and Florida Brethren Homes, both in Sebring; Hillcrest Nursing Home and Jacaranda Hotel in Avon Park; Lake Wales Convalescent Home and Ridge Convalescent Center in Lake Wales. This month, the project got approval to extend its program into the Lakeland area.

Prison is a word that conjures up thoughts of iron bars; barbed-wire fences and convicts in striped uniforms. Only a small minority of people ever know this type of prison. Yet there is another type of prison, a great majority of people face – the prison of old age and lonliness.

Many people, when they reach their twilight years, are fortunate enough to remain in good health, have adequate income or own their home, and thus are able to maintain a reasonably active and full life. But for a great many others, this "prison of age" and lonliness leads to a life of confinement in convalescent or nursing homes, where oft times they are abandoned and forgotten by their families and live only to die, with little to do but sit and stare into space. Thus, they become prisoners just as surely confined as inmates within a penal institution.

Recognizing this fact, and fully knowing what it is like to be confined, members of the APCI Jaycees, strive to do their best with project HOPE. They try to show the elderly and the lonely there is something to live for – that there is still a purpose in their lives.

Cameron said "the sing-a-longs and musical entertainment are the favorite activities of the elderly, even if they just sit there and pat their foot, and it's kind of reactions from the elderly that makes it all worthwhile."

Various members of the Jaycee Chapter, volunteer their time and effort with this project, which involves more work with record keeping and communication than one would think, stated Cameron.

Visitations occur on every trip the project makes. Many residents are unable to get up and around, and many are confined to their bed, so members go to their rooms and visit. They write letters and hand out religious phamplets provided by the APCI Chapel. On every visit, birthday cards are brought along, so when it is learned from the staff that someone had a birthday that week or day, a card is given them.

Cameron, a prisoner, who has recognized the fact that the aged are prisoners also, has adopted as the motto for the APCI Jaycees Project HOPE, "One type of prisoner, helping another type of prisoner – the prisoner of age and loneliness."

Cameron hand-picks the men for Project HOPE, and said "I am very adamant and screen my volunteers carefully." He convinced the institution's Superintendent Herbert C. Kelly to approve Project HOPE as part of the work-release program, and has the sanction of APCI Classification Supervisor and Jaycee Sponsor, E. Odell Carlton, and individual staff members who give their time to sponsor the many trips.

HOPE is designed to become the number one project of the APCI Jaycees this year, and material has been submitted to state headquarters in Lakeland and also to the National Headquarters in Tulsa, Okla. for possible awards.

The present board of directors are - president, Frank Sutherland; external vice-president, Mike Peters; Internal vice-president, vacant; external director, Ted Hartley; Interior director, Paul Gognon; executive secretary, C. Louis Cameron; treasurer, Al Metz; and state director, James Hardy. New elections will be held Nov. 15.

Cameron said, "gratification comes to the men when smiles are found on the usual sad and empty faces; and letters from nursing home staff and residents, as well as a few from the residents' loved ones. All of these things are a joy to the project HOPE members."

## School Complex To Be Built At Sebring

Highlands County School Board voted unanimously Thursday night to build their new administrative offices building on an acre parcel of the Sebring High School property.

The board, in accepting the recommendation of a committee headed by Chairman Henry Bailey, instructed Superintendent of Schools George Douglass to get going as soon as possible on plans for the building, which will be an economical steel structure.

In recommending the high school site over the E. O. Douglas school site, Bailey said he and board members Dan Wirick and Ruth Davis spent two hours inspecting both sites. He said they felt the Douglas site was more suited to the school bus complex some time in the future when the bus complex has to move from its present downtown location to make room for an expanding Middle School.

"We figure the proximity of the high school site to the court house is important," Bailey said, and "the site would require very little preparation."

Leveling and some filling would have been required at the Douglas site, he said.

Superintendent Douglass said he feels the acre site at SHS next to the Shop and Ge on Highlands would be adequate. County Commission has allocated $60,000 toward construction.

In other actions, the board:

--Voted to purchase underground gasoline tanks at a cost of $1,300 from Standard Oil Co. Ownership of tanks would permit the board to obtain better fuel bids it was pointed out.

--Accepted the Coker Fuel Co. bid of 30 cents per gallon for LP gas for the remainder of the school year. This compares to 26 cents paid last year. Coker Fuel was the only one of five firms requested for bids to give a bid.

--Approved lowest and best bids on food items and frozen foods.

--Appointed Jack Ingle, Ruth Davis, Norris Brooks and David Robinson as a committee to evaluate bids on paper and classroom supplies.

--Approved food service employes of Fred Wild School to use the cafeteria for a spaghetti supper Dec. 7 to help defray expenses to the state food service convention in Jacksonville in April.

--Approved internal accounts and lunchroom audits.

Only people with tickets will be served so plan to get a ticket for each member of your family. The meal may be eaten at Head Field or picked up and taken home.

## 89 Deer Killed At Bombing Range

The number of hunters trying for game on the opening weekend, Nov. 10-11, of the hunting season at Avon Park Bombing Range dropped considerably this year—and even then, the great majority of them went home empty handed.

A total of 2,996 hunted at the range and the kill totaled only 601. This compares to 4,983 hunters and a kill of 1,428 for the opening weekend last year.

The kill this past weekend at the range was 89 deer, 263 quail, nine dove, 40 turkeys, 65 squirrels, 114 hogs and 21 snipe. This compares to 71 deer, 977 quail, 45 dove, 49 turkeys, 52 squirrels, 73 hogs and 159 snipe last year.

**Fisheating Creek**

It was a different story at Fisheating Creek where 3,000 hunters registered this year compared to 1,500 last year. However, the kill this year was generally smaller.

The harvest over the weekend was 12 deer, 15 turkey, 135 quail, 108 squirrels, 18 hogs, 93 snipe and no doves. This compares to last year's harvest opening weekend of 19 deer, 15 turkeys, 252 quail, 181 squirrels, 21 hogs, 234 snipe and four doves.

## Poll Indicates Employes Favor Civil Service

A poll of city employes cast through secret ballot and verified by a notary public, shows that at least 84 per cent favor keeping the Civil Service. The results of the poll were presented to the city council by Councilman Herman Sizemore Monday night. Forty-six ballots were returned from the 50 employes presently under Civil Service. Of these, 42 voted for the city to keep Civil Service and four voted to abolish it.

Sizemore said that he was presenting the results of the poll, which he conducted, to the rest of the council to show "how the city employes feel about the Civil Service".

"This is all contrary to what I've heard," said Clarence King, president of the city council. "I don't feel that it (Civil Service) is working...under the conditions we have now. I'm not against the employes and I'm not out to fire anybody," he said.

Asked what his objections to the Civil Service were, King said that it was "costing the City too much money."

"How is it costing us money?" Sizemore asked, directing the question to King.

King noted all the typing, use of a copy machine, and paper as the expense he was referring to. "It boils down to this," King said to Sizemore, "I don't think it is working, and you think it is."

The matter of collective bargaining by city employes in several cities was brought up by Sizemore. King said that he had rather have collective bargaining than "what we have now".

Mayor Robert Barben, entering into the discussion, said, "Some points in the Civil Service are working pretty good now." He said that the screening of the job candidates had been working quite well.

He listed two points, however, that he disliked about the present system; one being the number of city employes (three) on the Civil Service Board; the other, that the city council is getting too far out of contact with the Board.

"This act that we are operating under takes too much control," Barben said.

Durrah Martin ended the discussion by noting that the referendum question is on the December ballot and cannot be taken off.

In other council action, City Clerk Crews read a portion of a Florida statute, the Home Rule Act, which became effective Oct. 1, of this year, that alters the way in which the city may pass ordinances. The new ruling requires that the ordinance title must be published prior to the third reading in addition to being published in full after the final hearing. In the past, a proposed ordinance needed only to be published after the final hearing.

A request for a rate increase of 50 cents per month by Highlands Cable TV, a subsidiary of Cox Cablevision, was tabled pending a public hearing to discuss the increase. The hearing is set for 7:30 p.m., Nov. 26.

The third reading of a city curfew ordinance was postponed until the ordinance title could be published with notice of the final reading. The curfew ordinance will be on the agenda of the next regular council meeting.

Several instances were reported to the council in which citizens had failed to put their garbage cans by the curb early enough for pick up by city trucks on their first morning run. The council agreed that the trucks would no longer double-back to these residences for the garbage that day, but would return only on designated collection days.

## Devils Prepare For Battle With Streaks

The Red Devil varsity football team will go into the final game of the season in Sebring Thanksgiving Eve with a 6-2 record after shutting out the Okeechobee Brahmans 13-0 last Friday night.

The big season finale between the two Highlands County arch-rivals will be played at Fireman's Field in Sebring next Wednesday night, November 21. Avon Park is riding a five game win streak and Sebring has won its last four games after dropping the first five.

The Streaks stand at 4-5 going into the bit game. The two teams have played five mutual opponents - Arcadia, Okeechobee, Lake Placid, Fort Meade and Wauchula. Avon Park beat Arcadia and Okeechobee while the Blue Streaks lost to both but Sebring defeated Fort Meade 12-0 while the Red Devils lost to the Miners 19-6. Both teams beat Lake Placid and Wauchula. But as usual, all records go outof the book when Avon Park and Sebring meet. The Blue Streaks have won over Avon Park the past two years.

**Okeechobee Game**

Last Friday night the Avon Park Red Devils turned the ball over to Okeechobee the first four times they had possession and drew 125 yards in penalties but managed a 12-0 victory to upset the Brahmans homecoming. It was the third straight homecoming the Red Devils had spoiled.

Ricky Claitt rushed for 134 yards in spite of having many long gains nullified by penalties. The hard-running Devil back scored the first Avon Park touchdown early in the second quarter on a 35-yard burst through the Okeechobee line off tackle. The T D jaunt culminated an 80-yard drive on the ground by the Red Devil offense. Included in the drive was a fifteen yard advance caused by a penalty called against the Okeechobee coaching staff. The kick by Nate Packer for the extra point was no good.

The first quarter of play had been a series of outstanding play by the Devil defense and a series of errors by the Devil offense. On the first Avon park possession an Avon Park back fumbled on the very first play and Okeechobee recovered on the Devil 39-yard line. The defense held for four downs. Then the Red Devils moved for one first down but Okeechobee intercepted the first of three passes in a row. The first interception came on the Brahman 38-yard line. Again the Devil defense stopped the Brahmans cold and forced a punt. Then Avon Park, forced to pass on long yardage because of a fifteen yard penalty, tossed another interception. This time the Brahmans took over on the Devil forty-five. Four running plays netted Okeechobee only nine yards against the tough Devil defense so Avon Park tried again. A couple of running plays lost yardage so once more the Devils went to the air and Okeechobee intercepted on its own 35-yard line. As the first quarter ended, Okeechobee was forced to punt after its fourth possession without making a single first down.

That's when the Red Devils took over and finally put an 80-yard drive together to move to the first T D of the game. The remainder of the second period was all defense although the Brahmans did fianally put a couple of first downs together before their longest drive of the game was stopped at the Devil thirty-seven. Penalties kept the Avon Park offense from

## Between The Book Ends

By MRS. R. D. MOORE
Librarian

Elizabeth Seifert, author of more than 50 novels about American doctors and their problems, has added yet another to her credit. "The Doctor's Private Life" is the story of Dr. Barrie Fales, chief of pediatric surgery at a renowned clinic, and married to a glamorous woman who is a successful psychiatrist. The ideal marriage of two rich, famous people Far from it- as you will discover in this vivid portrayal of the daily drama of life and death as seen through the eyes of a physician.

Two biographies have been added to the "New Books" shelf at the Library this week. "Return to Earth" by Buzz Aldrin and Edward G. Robinson's autobiography "All my Yesterdays." The Aldrin biography is a most candid 'inside' look at the human side of the space program. Buzz Aldrin, as you will remember, was a member of the team that made the historic first landing on the moon. What you may not know is that Aldrin suffered a severe mental depression following his return and this is the story of his search for the road back to health. It may prove to be a bit controversial as author Aldrin speaks openly about the politicking begind the scenes; the rivalry among the astronauts and the deprocessing after the flights. Edward G. Robinson was one of the most celebrated film stars of all time. His autobiography is a remarkable self-portrait of an actor, art lover, humanitarian and writer whom readers will find a man of wit and great sensitivity. His book is refreshingly honest.

Decorating a room can be an awesome experience but with Barbara D'Arcy's "Bloomingdale's Book of Home Decorating" you will get a great deal of assistence. You have seen Miss D'Arcy's model rooms in McCall's, the New York Times Magazine, House and Garden and many other national magazines. Her book tells you how to organize—how to work on developing taste and flair and all the things that give your home atmosphere and make it suitable for your particular style of living.

## Devils

cranking up again.

Okeechobee took the second half kick-off and moved to its deepest penetration of the night when a long run and the only pass completion of the evening advanced the ball to the Red Devil 22-yard line before they were driven back. A 49-yard field goal attempt was short and Avon Park took over to control the ball most of the third period. Neither team threatened again in that period. But Avon Park started a drive late in the third quarter that finished up in the Brahman end zone early in the fourth period. From the Brahman forty-three, Timmy Massey, Ricky Claitt, and Mickey Claitt advanced the ball all the way to the Okeechobee five yard line. Then Ricky Claitt had the ball knocked from his arms as he ran into the end zone and a Brahman recovered behind the goal line for a touchback.

The Brahmans took over at their own twenty but couldn't move and punted out to the Red Devil thirty-five. This time the Devils put the ball in for another score on the 65-yard march. Again it was Mickey and Ricky Claitt and Timmy Massey moving the ball on the ground to the Brahman thirty. Ricky had a 25-yard jaunt in the drive. A series of penalties finally set the ball on the Okeechobee 25-yard line and from that point Buddy DeWitt dropped back and fired a long pass to Nate Packer who hauled it in at full speed in the end zone for the six pointer. It was Packer's second TD. reception in as many games and DeWitt's third TD toss in the last three games. Ricky Claitt's run for the two-point conversion was stopped short, so the Devils led 12-0.

The Brahmans had two more shots at scoring but the big Red Defense was just too much for the Okeechobee offense and the quarterback was sacked six times in the last five minutes. The Devils got to the quarterback nine times during the game to keep the Brahman passing attack ineffective. Nate Williams, Dennis Avery and Jimmy Carter led the Devils in tackles with a total of 20 between them.

Statistics gave Avon Park 11 first downs to Okeechobee's 6. The Devils rushed for 213 yards on the ground and held the Brahmans to 63 yards net rushing. Thirty-five yards and one T D came from the Devil's passing game in spite of the three interceptions while Okeechobee completed only one of eight passes for 11 yards. Avon Park lost two fumbles and the Brahmans none. The Devils punted twice for a 36½ yard average with Sean Murphy doing the booting. Okeechobee punted five times for a 33 yard average. The big statistic was Avon Park's 125 yards of penalties against Okeechobee's 30 yards.

It was a big win for the Red Devils and Coach John Pilcher's linemen can take a bow for the outstanding job against the Brahmans. the Devil defnsive backfield of Mearl Robinson, Mickey Claitt, and Jerry Robinson are due plenty of credit for the fine pass coverage they did to assist with the sacking of the quarterbacks so many times.

## -Letter To The Editor -
## Avoid Deception Of Lies

Editor Sun:

Avoid deception by word or silence. This especially to be insisted upon in the early education of young people. It should be pointed out to them with continual earnestness that the essence of lying is in deception, not in words. A lie may be told by silence, by equivocation, by the accent on a syllable, by a glance of the eyes attaching a peculiar significance to a sentence and all these kings of lies are worse by many degrees than a lie plainly worded.

So that no form of blinded conscience is so far sunk as that which conforts itself for having deceived, because the deception was by gesture or silence, instead of utterance. And finally, according to Tennyson's deep and trenchant line, "A lie which is half a truth is ever the worst of lies."

Don't forget about the new VFW of Avon Park for information comments, suggestions, etc., write to Paul Williams, Rt. 2, Box 285, Avon Park.

The VFW meets every first and third Thursday of each month in the upstairs of the Avon Citrus Bank.

# Old Fashion Service Held At Church

The First Christian Church of Avon Park started off the season with an "old fashion prayer meeting" on Wednesday evening, Nov. 7. The Youth Group of the church sponsors this weekly service.

The ladies came dressed in their long dresses and bonnets and the men came in old blue jeans or overalls. Everyone looked as though the past were here today.

The service was lighted by lanterns and the men sat on one side of the church, while the ladies sat on the other - as in days gone by. There was a display table with old Bibles and articles of religious nature that were old and dated way back. Peppermint sticks were given to everyone.

It was quite an interesting and unusual service, enjoyed by all - bringing back memories for some in attendance.

# Traditional Thanksgiving Service Set

Traditional Thanksgiving services will be held at all Churches of Christ, Scientist, next week.

Testimonies of gratitude are featured at the public services which have been held annually for more than seventy years. No collection is taken at the services.

At Christian Science Society of Avon Park, Avon park Lakes, the Thanksgiving Proclamation of the President of the United States will be read.

The service will be conducted by Mrs. Ruth Nickoley, the First Reader, and Mrs. Hazel Morrill, the Second Reader. Services will be begun at 11 a.m. on Thursday, Nov. 22.

"Let the heavens be glad, and let the earth rejoice: and let men say among the nations, The Lord reigneth," one of the Scriptural passages will state.

Citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include this statement: "Divine Love always has met and always will meet every human need."

One of the hymns of gratitude to be sung at the service includes the verse:

"This is the day the Lord hath made; Be glad, give thanks, rejoice;

Stand in His presence unafraid, In praise lift up your voice.

All perfect gifts are from above, and all our blessings show

The amplitude of God's dear love, which every heart may know."

# Steve Roberts Speaks At Women's Club Meeting

Steve Roberts of Avon Park, chairman of March of Dimes for Highlands County, was guest speaker Nov. 1 at the Lake Placid Junior Woman's Club meeting. Roberts was accompanied by his wife, Nell, and they presented a film on March of Dimes work and treatment of birth defects. Roberts told the group that Highlands County was highest in the continental states in contributions, and Walk-a-Thon receipts ranked highest in the nation.

The Juniors promote the March of Dimes collection each April with members taking part in the "Mothers' March. Mrs. Ken Dyer was presented a recognition award for her part in the march last April, and her service as chairman for the local club.

Roberts informed the group that any family having a child with birth defects is eligible for help through the March of Dimes—there is no qualification, status, or waiting list. Birth defect centers are located in Gainesville and Miami. Anyone desiring such help locally should contact the Lake Placid Junior Woman's Club.

During the business session, Mrs. Gary Stephens reported on the adopted children at the Sunland Training Center, Fort Myers. Discussion followed on Christmas activities for the children at the center. The group would like to purchase a used 26-inch bicycle for the adopted boy at the center. Anyone having such a bicycle available may contact Mrs. Mike Knox.

Club members discussed plans for a Santa House with puppets, story-teller, Santa and gift shop. Mrs. Gary Dressel was to look into a place to hold such. A Christmas dance was tentatively scheduled. Can goods for a Christmas basket should be brought to the next regular meeting on Dec. 6.

## City To Dim Lights

Avon Park along with many other cities throuthout the nation will dim the Christmas glitter just a bit this year in an effort to help conserve energy.

Work crews began hanging the holiday decoration along the mall Wednesday, but current has not yet been connected to the bulbs. During the week before the Chamber of Commerce Christmas Parade, crews will go back to the decorations and plug them into the electricity.

The City Council noted that this would cause almost double work but decided that in view of the present energy crisis that the extra work would be the best solution.

Previous plans were to hang and light the decorations this week, leaving them illuminated through Christmas. Plans still call for the lights to be on through Christmas, after they are lighted in early December.

The lightbulbs in the decorations this year are of a lower wattage than previous years, a city spokesman said.

## Junior Varsity Close Season

The Avon Park junior varsity football team closed out the 1973 season here at Memorial Field last Thursday night with a 41-8 loss to the Okeechobee Junior varsity. The loss gave the Avon Park squad its first losing season in several years as they finished with a 3-5 record.

Last week the big junior Brahman team proved too much for the Devil team just as the big Sebring squad had outmanned the Devils the week before. The only Avon Park score came too late to change the outcome of the game against the Brahmans.

Finishing the season for Avon Park in the backfield were quarterbacks John MicKunas, Marvin Williams, and Dale Sisemore; running backs Reggis Baker, James Roass, Kenneth Burley, Charles Anderson, Robert Brown, Anthony Gaines, and Willie Jervier. Linemen and ends who closed out the year for Avon Park were; Randy Cobb, McArthur Rouse, Mike Cobb, Tommy Pralo, Joe Galimore, Noel Braithwaite, Jim Stewart, Charlie Glenn, Ben Wright, and Darrell Davis.

# Junior Women Plan Follies

The Avon Park Junior Woman's Club held its November meeting on Tuesday, Nov. 6, at the clubhouse. Mrs. Lois Sachsenmaier lead the devotional, flag salute and Lord's Prayer.

The club president, Eileen Martin, introduced the guest speaker for the evening, Mr. Gunther, who is with the city recreation department. He told about the changes made to the old Armory, along with the present use and the future plans. It was a very informative and interesting talk.

Refreshments were served before the business meeting, of cake and punch. The cake was beautifully decorated with a horn of plenty. A Thanksgiving theme was used in decorations. Hostesses were Vickie Flowers and Edie MacNeill.

The business meeting was opened with reports on the "Follies." Ads are coming in real good and they will be ready for printing by the end of November. Also posters are in the making. The Christmas party date was set and final plans made.

The club's project for November is to furnish Thanksgiving baskets for two needy families. Members were reminded to bring dolls for next months meeting.

Several prospective members were introduced and welcomed.

DENNIS GUENTHER, Director of Recreation for the city, was guest speaker at the Tuesday evening meeting of the Junior Woman's Club. Mr. Guenther told about the changes made to the old armory, along with the present use and future plans. Photo by Sharpe.

# Mrs. Shepherd Leads Panel Discussion

MRS. JAMIE EDGE (far left) was panel moderator at the Nov. 6 meeting when Delta Kappa Gamma met at Florida Power Lounge for their regular meeting. Guest panelists who spoke to this professional education group on the topic of "The Need for Continuing Education for Women Educators" are shown here, from left, Mrs. Charles Shepherd, Mrs. Nina Parnell, Mrs. Sharon Hawkins and Mrs. Barbara Heilig. - Photo by Sharpe

"As a member of society, I must assume my responsibility in the decision of whether we will survive or perish," said Mrs. Charles Shepherd, Avon Park retired teacher, as she led off the panel discussion at the Delta Kappa Gamma meeting held Tuesday evening, Nov. 6, in the Florida Power Lounge.

"Society changes so the teacher should change."

"Parents of children with disabilities are frustrated parents. Good teachers care enough to help parents find out what children's problems are."

"To create an emotional climate for learning, 'Love, Listen, Learn, Live,'" added other panelists, all of whom are actively involved in the educational process. Besides Mrs. Shepherd, who regularly volunteers her services to the children at Avon Elementary, the panel included Mrs. Nina Parnell, teacher aide at Avon Elementary; Mrs. Sharon Hawkins, who works with the parent group in the Association for Children of Learning Disabilities; and Mrs. Barbara Heilig, Speech Clinician with the County Schools.

In the spirited discussion which followed the panel, women educators from Lake Placid, Sebring, Avon Park responded to the panel challenge, exhibiting their own concerns for the need of further education for teachers and change in the teaching system.

Lunch which was served by the Avon Park members, under the chairmanship of Mrs. Charles Moseley preceded the business meeting, chaired by the President Mrs. Dorothy Clark of Sebring. Assisting Mrs. Mosely were Miss Sara Sellers, Mrs. Sadie Brown and Mrs. Betty Burch. Table decorations were provided by Mrs. Charlotte Smith. Chairman for the evening's program was Mrs. Mary Anne Reddick, who was unable to be present due to educational duties in Tallahassee. In her absence, vice president, Mrs. Jamie Edge served as panel moderator. "It's not later than we think," she said, "It's sooner than we expect."

"SAVE FUEL" IS SNOOPY'S NEW SLOGAN

SNOOPY GOES TO WORK FOR ENERGY
. . . Peanuts hero just lies down

and it's more than just a slogan, it's a real need, not only for today, but for a few years to come. Until very recently, the United States was an energy-rich nation with abundant resources of all forms of fuel. Today we know this situation no longer exists there is in fact, a shortage of all types of energy which probably will continue for some time.

What can you do right now to help ease this shortage? The answer is simple:

USE LP-GAS MORE EFFICIENTLY
CONSERVE LP-GAS WHEREVER POSSIBLE

By conserving LP-gas, you will be doing your part to make sure you and your neighbors will have enough for such essential requirements as home heating, cooking, water heating and other residential uses. You will also be doing yourself a favor by helping to lower your gas bills.

*Snoopy is used by Nixon's Citizens Advisory Committee on Environmental Quality by permission of Charles Schultz and United Features Syndicate.*

HOW YOU CAN CONSERVE LP-GAS AND SAVE MONEY

MORE INDOOR COMFORT AT LESS COST
Have your LP-gas heating system checked once a year
Weatherstrip and caulk around all windows and doors
Install storm windows and doors
Don't overheat your home
Control humidity for fuel saving and comfort
Keep filters clean

CONSERVING LP-GAS IN THE KITCHEN
Match the LP-gas flame with the size of the pot or pan
Cover pots and pans
Look for the clean, blue LP-gas flame
Never use your range or oven for home heating
Save LP-gas with oven meals and broiled foods

HOT WATER ISN'T FREE
When installing a water heater, place it as close as possible to the kitchen, laundry and bath
Fix that leaking faucet!
Whether by hand or with an automatic dishwasher, you will save hot water by washing a full load of dishes at one time
Don't let a stream of hot water run down the drain when washing or shaving . . . fill the basin with only as much as you need
Showers save on hot water

SAVE IN THE LAUNDRY, TOO
Try to wash a full load of clothes each time
Dry full loads, too
Never overload your washer or clothes dryer
Keep the lint filter clean on your LP-gas clothes dryer for most efficient operation
Follow laundering and drying instructions for your washables
