A contingent of deputies from Highlands County sheriff's department made a surprise appearance at Oak Island Sunday night and placed 33 persons under arrest for unlawful assembly with the intent to engage in illegal cock fighting.

Deputies led by Lt. Keith Albritton found about 50 persons and a number of game cocks at the home of Noel S. Scott near the Highlands — Polk County line.

Albritton said a pit for cock fighting is located at Scott's. The only Highlands County residents listed among those arrested are Scott, and from Sebring Randall Joe Trimm, 19, Route 3 (South of Josephine Creek); and Clinton L. Gill, 43, 129 Garland Drive.

Most of those arrested listed Polk or Hardee county addresses, but a few were from as far away as Fort Pierce and Fort Myers.

All were booked to appear in county court on May 2. Lt. Albritton said he had been "just kinda watching" and played a hunch in the visit to the Scott property about 4 p.m. on April 6.

He was accompanied by Sgt. Earl Gordon, deputies Jerry Carter, Clark Jackson and Dean Ferguson. The deputies impounded 10 dead chickens found at the scene, but they made no attempt to seize any live chickens.

These chickens are bred to fight and have to be housed individually; they'd kill each other," Albritton said. "The sheriff's department just doesn't have any way to house them," he explained.

Lt. Keith Albritton of the Highlands County sheriff's department sorts through some materials — cock feet and tapes — which may be used in a May 2 hearing for 33 persons charged with unlawful assembly with intent to engage in an illegal cock fight.

County To Participate In Seniors At Work Program

County commissioners agreed Tuesday to participate in the federally-funded Seniors At Work (SAW) program.

County administrator Charles Cullens reported that, initially, 20 jobs would be open to those over 55 years of age who have been unemployed or underemployed for more than 30 days.

Underemployed, Cullens explained, are those now working part-time who desire full-time jobs. However, under the SAW manpower program, full-time employees work only 20 hours per week, he said.

As the meeting proceeded the city council was somewhat in a quandary. The city had received temporary construction money from the State Department of Pollution Control for the payment of engineering services and other related bills.

However, the city had received a letter from the Farmers Home Administration (FHA) stating that FHA could not guarantee replacement of any funds spent until invoices had been approved by FHA and they would not approve

invoices until construction contracts had been signed and approved. With according to the discussion was in contradiction to the terms of the loan contract with FHA.

It was reported that securing easements for sewer lines and pumping stations were the main hold-up, particularly in the Lake Isis and Lake Verona areas. Because of the topography of the land it is considerably less expensive to locate sewer lines and pumping stations near the lake than on the high ground along the streets past the lakes.

Part of this location problem may be solved when surveyors place stakes along the easement lines. Property owners can see exactly where the sewer lines and pumping stations are to be located.

French Tourism Director - Author Vacations In Avon Park Area

During his visit at the Avon Park Chamber of Commerce offices Saturday morning, Doctor of Economics in Tourism, Arnal Delforge of Colmar, Alsace, France had a charming and gracious host to help a gracious host or hostess to be totally at ease.

This vacation-learning trip to central Florida was Arnal's fourth trip to the United States. The first was for a month was to pay his respects to his mother and father-in-law of three years. On the second trip in 1969 he met Bob Talbott at St. Petersburg, where Bob shared his umbrella during a thundershower.

A business trip brought him to Washington and New York in 1973. This trip was his family vacation trip but he kept his eyes and ears open for ideas and new things in the tourism of the central Florida area.

At the office of the Avon Park Chamber of Commerce Anna Belle Worden, Executive Manager of the C of C presented Dr. Delforge with a History of Avon Park, along with the Avon Park Chamber of Commerce Membership Plaque and promotional literature pertaining to the city. Dr. Arnal had high praise for the "We are Friendly Floridians" stickers put out by the local chamber stating that his hostess, Anna Belle was indeed a "Friendly Floridian" as she prepared coffee and found literature for him.

Glaucoma Clinic Set For April 19

The Avon Park Lions Club will be sponsoring a Glaucoma screening clinic at the Lions Club on W. Bell Street on April 19, from 10 a.m. to 2 p.m. according to county chairman of the Sight Conservation Committee.

Glaucoma is an eye condition in which there is an intraocular tension (pressure inside the eye) to a point that causes progressive harm to vision. The harm becomes progressively greater the longer the increased pressure exists; early detection is therefore extremely important.

It can cause blindness if it is not detected and treated early. Of the estimated 430,000 legally blind persons in the U. S., glaucoma is responsible for 13.5 percent of the cases. As many as two percent of the people over the age of 35, it is estimated, have glaucoma. Its greatest occurrence is in the beyond 60 age group.

Joining him on this Florida vacation were his wife Alice (or Sasi) whom he had met in Vienna; their son, Remi and daughter, Valerie and Nadia. Before he left Avon Park on Sunday for home, Arnal had one thing he wanted to do — that was swim across Lake Bonnet. But when he heard there were three alligators in Lake Bonnet he calmly stated "I might remain in Florida forever." To which Anna Belle replied, "We hope not in that condition."

An elderly Avon Park man has been charged with second degree murder in the death of Eddie Austin, 36, of 219 E. First St. Jack Dunn, 72, also of the First St. address, has been bound over to circuit court. Dunn was arrested last Saturday, April 5, after he had called law men to the Dunn residence.

Sgt. Len Askeland, Lt. Richard Cooper and Deputy James Jones, who responded to the call, said Dunn told them he had found Austin's body. A witness charged that Dunn and Austin had been in a fight on Friday, April 4, and the older man had beat at the younger one with a stick.

The fire call was turned into the Avon Park Fire Department at 12:20 a.m., April 1. Firemen reported the house as being totally involved by fire and was considered out at approximately 4:00 a.m.

The one story frame building owned by Leela Davis was insured through the Estelle Fann Insurance Agency for \$10,000 and the contents for \$2,000.

Vandals Damage 19 New School Air Conditioners

Easter week vacation was no vacation for custodians at the Avon Elementary School as they found windows smeared with broken eggs. Mops were used to clean the storage area to the trash containers. The Rex Electric Co. panel truck's windshield was egg splattered and the windshield wiper arms bent with sand put into the gas tank. Damage was estimated at \$75 to \$100 for the truck.

The 19 new air conditioner units installed on concrete bases on the ground all were damaged, some had the cooling fins damaged on all three surfaces, front, end and back. Seven were damaged on the end, 12 on the front surface and 17 damaged on the back of the unit. Ironically neither the electrical or plumbing connections were made.

The eggings of the windows began at the time the minor leagues started their baseball season. The plate glass library window had been egged for the third time. Other windows from the front of the buildings to the rear buildings were also egg splattered.

During the past year awning glass, office door glass and the library plate glass window had to be replaced. The library window costing over \$300 to replace.

County Commissioners

expected to do.

Cullens recommended that the 20 SAW job openings be allocated as follows: Ten to departments working under the county commissioners; one each to the clerk of courts, supervisor of elections, tax collector and property assessor; and two each to the City of Sebring, City of Avon Park and Town of Lake Placid.

Commissioners might, if they wished, take three positions from their departments or take one from each of the three cities, Cullens said. This would provide two jobs with the Ridge Area Retarded Association and one with Fairland Day Care Center.

In approving the program, commissioners C. J. "Buddy" Wise and Ken Wilkinson reserved their right to revise the proposed allocations. Cullens reported that he had received inquiries from several potential employees

under the SAW program.

He promised to present by next Tuesday a detailed list of jobs to be offered to SAW applicants.

In other actions, commissioners: — Agreed to place "illegal to discharge firearms" signs in Istokopka Shores and Sunset Shores subdivisions.

— Waived their agenda to approve the Welfare Director's emergency request for \$450.

— Approved one time repairs to be made to East Circle and West Palm Circle, Lake Grassy Homesites.

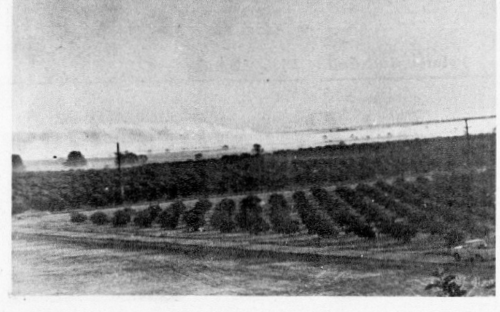

— Accepted for county maintenance Hall St. in Avon Park and Heather Lane in Fransville Subdivision.

— Appointed the following to serve on a committee that will oversee construction of a county building in Avon Park: Commissioner Kelly Phillips, R. P. Dunty Jr., Charles Cullens, Gordon Hays Jr., Bill Stephenson Jr. and Anna Belle Warden.

Busby Threatens Holding Funds From County

An overcast of possible legal action, funds withholding, and investigation in depth clouded Tuesday's county commission meeting. It resulted from a confrontation between county commissioners and Dr. Joe N. Busby over naming Tim Hurner as county extension service director, and produced a stand-off.

Busby, dean of the Florida Cooperative Extension Service, Gainesville, told commissioners that the federal government will not permit him to exempt Tim Hurner from the requirement that county extension directors hold masters degrees.

A court decision in Alabama, he explained, resulted in the Justice Department's applying provisions of the Civil Rights Act of 1964 to the Cooperative Extension Service program. Therefore, he said, federal auditors review all job descriptions and personnel actions to insure that members of minority groups and women are not subject to discriminatory hiring practices.

When commissioners pointed to Hurner's nine years of experience in Highlands County and stated their view that he had a right to succeed

the former director, Bert Harris, Busby threatened that Hurner's performance was not being questioned.

"If I make an exception in Highlands County, minority employees or women who also have the bachelors degree have the right to file charges of discrimination, since they were excluded from consideration in these decisions because of the basic qualification of a masters degree," Busby said.

Appointment of Hurner to the county director's position as commissioners have asked would result, Busby predicted, in an investigation of Hurner's appointment by federal auditors; the issuance of a federal order re-opening all director's positions filled during the past three years to consider minority group and women applicants; the filing of a legal suit by the Justice Department against the Florida Cooperative Extension Service and Boards of County Commissioners; the withholding of federal funds from the Florida Cooperative Extension Service.

Commissioners said they were highly impressed by Hurner's past performance and claimed that he had earned the right to be promoted into

the director's position.

In response, Busby defended educational qualification standards by pointing out that 72 per cent of the county extension agents in agriculture hold either masters or doctorate degrees.

"You realize by now that we're not going to change our minds," board chairman C. J. "Buddy" Wise told Busby. "And you cannot — or will not — change yours."

"Where do we go from here?" Wise asked.

Busby admitted that it would be a serious matter if no compromise could be found.

He warned, however, that he could not jeopardize the rest of the extension service program by granting Hurner a federal appointment as county director.

"We fully intend to keep Mr. Hurner," Wise stated.

If no accommodation between his position and that of commissioners can be found, Busby said, he felt that he would not be allowed to give federal or state funds to Highlands County.

That would include withholding extension service information from the county, too, Busby admitted.

R. J. Barben asked whether or not Hurner might be given four or five years in which to complete requirements for a masters degree.

Busby replied that to grant such an extension might appear to be a subterfuge.

Anyway, he said, he cannot sympathize with Hurner's present predicament because Hurner was advised years ago by district agent, Dr. Earl Kelly, to get his masters degree and had decided not to do so.

Marvin Kahn entered a plea that additional thought be given to finding a compromise position.

"Quite frankly," Wise commented, "I don't see any change in either side."

Commissioners Postpone Action On Rezoning Michael's Property

At a public hearing conducted Tuesday, county commissioners postponed until April 15 action on Norman J. Michael's request that his property on Sparta Road be rezoned from one and two family residential to multiple family residential, motel-hotel-apartment.

The county's Planning and Zoning Commission had previously voted down the request, 5-0.

Representing Michael, Atty. J. Livingston told commissioners that his client wants to construct 11 four-plexes on his 22 Sparta Road parcels.

Under present zoning, Livingston said, Michael could construct 22 duplex dwellings, if he chose to do so. Eleven, four-family units would be

more attractive, he contended, than twice that number of duplexes.

Opponents of the rezoning request, led by Atty. Michael Swaine, called commissioners' attention to land on SR-66 owned by Michael now zoned to permit construction of four family dwellings, but that had not been developed.

Why change zoning restrictions on Sparta Road, they asked, when land belonging to Michael on SR-66 was not being used.

Livingston said his client was agreeable to accepting and recording restrictive covenants that will assure opponents that Michael would use the Sparta Road property exactly as promised.

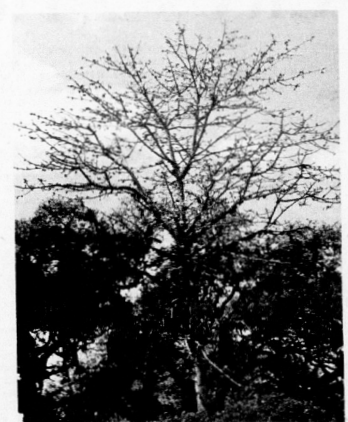

Commissioners gave Livingston and Swaine until next Tuesday to agree on specific language to be used in the restrictive covenants.

In their rezoning actions taken Tuesday, commissioners:

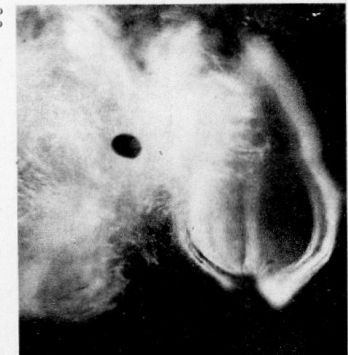

— Approved a request by Benja Properties, Inc., Rafter T. Realty, Inc., and National Bankers Services, Inc., that their property opposite the Kenilworth Lodge be rezoned from multiple family residential to general retail and wholesale.

— Approved eight rezoning requests submitted by Lake Placid Holding Company to correct discrepancies between company and county zoning records that occurred when county zoning ordinances were adopted.

— Denied a request by Lake Placid Holding Company that Placid "Lakes" property overlooking Lake Chiles be rezoned from agricultural to general retail and wholesale.

Federal Bureaucracy May Make Sheriffs Extinct

Florida sheriffs may soon become extinct, O. L. Raulerson told members of the Sebring Chamber of Commerce Tuesday. Already an endangered species, sheriffs may be squeezed out of business by state and federal bureaucracy, the Highlands County sheriff said.

He noted that although in many other states such officers merely keep the jail and serve warrants, in Florida the sheriff is still the chief law enforcement officer. He does not predict that status will endure unless the public can be heard.

"No one wants to listen to local people any more. The concept toward centralization, or regionalization, swallows them up and they are lost in bureaucracy. Small counties are hooked up with larger ones and they can't hear us in Tallahassee."

Tallahassee is so confused it doesn't know to whom it owes allegiance: to Washington, local people, or themselves." He went on to say the state and federal governments take away control from local governments, at the same time loading them with new responsibilities the state doesn't care to do.

"Then the state tells us 'We give you this responsibility, but your county can't handle it. You'll have to elect new people or turn over the operation to us.'"

He pointed to new regulations effective Jan. 1 which give the state more control over local affairs, in that many duties formerly decided by counties will need the approval of Legislature.

Raulerson said the 1974 legislature set forth new jail requirements in 70-page dictum. After appearing in Tallahassee a dozen times the rules were whittled down to 30 pages, then when the state filed, 70 pages were produced again.

"They seem to determine the effectiveness of their laws by weight."

He added that they fail to see the difference between a correction and a detention facility. Five out of his 70 prisoners are in for misdemeanors, leaving little time for the remainder to be rehabilitated before their transfer elsewhere.

Among new requirements are no uniforms or numbers on prisoners, "a detriment to their mental stability," despite the fact that uniforms are a means of identity, prevents them walking off to buy wine or escape, and are a good check on those who stuff their clothing down the commodes to block the drainage.

If it is necessary to remove their clothing, they must be examined by a doctor at regular intervals; for infractions they must be given 24 hours notice of a hearing before a disciplinary committee.

The sheriff was particularly irate over Tallahassee "taking the common sense out. Do they have to tell us that jailers shouldn't report for work under the influence of drugs or alcohol?"

He described Duval County, where prisoners must receive a CARE package, and a local judge has put a cap on the number of prisoners to be held. Each day the least harmful are

released in order to meet the cap. They must also be given their choice of beverage at meals.

"There is a limit to what the taxpayer can afford. It might be all right for the state and federal government, but you can't work on a deficit locally."

The main thrust of his speech was against a state which closes its jails to more prisoners, while for four years it has been sitting on \$70 million earmarked for new prison construction.

"They can't even run their own business, yet they try to tell us how to do it. I am responsible to the taxpayers for the rules passed down by the state. Failure to act means they will remove me from office. I believe it is the people who should remove local officials if they are unsatisfactory."

Raulerson went on to describe the county's ambulance situation. In 1971 private ambulances had to go

out of business because of federal regulations and the sheriff's department took over. Ensuing regulations are going to force the cost steeply upward.

Versatile ambulances that formerly cost \$4,300 will now be large affairs in the \$15,000 bracket; mileage will rise from 9.2 cents a mile to 33 cents; ambulances and men must be located in each of the county's three municipalities, and the larger vans cannot be used for property checks or issuing summons.

"I don't know what we are going to do. It will cost at least \$450,000 and no compliance, no license."

"There is not too much concern for Highlands County's problems. But what if all the chambers in the state, the Rotary and Kiwanis and so forth, got together and asked for local government back. Would they listen? You bet your boots!"

Foresters Fight Fires As Rainless Days Increase

As the number of rainless days grows, the work of Florida Forest Service's fire fighters soars. Late Saturday, the service was called to a major muck fire on the Ben Hill Griffin ranch off Bombing Range Road, north of Avon Park.

By early on April 8 the fire was reported "contained," but 400 acres of muck had burned. A grass fire broke out at Lake Josephine late in the morning on April 8.

On April 1 an illegal burn in Sebring Villa on Old Desoto Road, got out of hand and rangers spent from 3:20 to 4 p.m. extinguishing it.

A series of wild fires east of Lake Placid kept rangers busy last week, and a fire was reported in the Avon Park area on the night of April 1.

Ranger Phillip Conrad returned to his home, on

Sebring route 2, at about 10 p.m. on April 1, just in time to take his wife to Lake Wales hospital.

First Tax Rebate Checks To Be Mailed In May

The first of nearly 3 million tax rebate checks going to Florida taxpayers will be mailed May 9, Charles O. DeWitt, IRS District Director for Florida, said. The bulk of mailings would be completed by the end of June.

Taxpayers who filed returns the earliest will receive rebate checks first. The payments stem from enactment of the Tax Reduction Act of 1973 which provides for a rebate on 1974 taxes of between \$100 and

At 2:35 a.m. on April 2, the Conrads' first child arrived, a seven-pound-one ounce son they have named Edward Paul.

\$200 for most taxpayers, DeWitt said.

The IRS will automatically compute all rebates. Any rebate adjustment made by the taxpayer on a return will only serve to delay processing and issuance of the rebate, Mr. DeWitt said. Such adjustments could also delay any refund due.

He pointed out that married persons filing separate returns will not get a larger rebate than those filing jointly since, under the law, the maximum rebate for a married person filing separately is \$100.

Applications Extended To April 15

The deadline for receiving applications for Youth Conservation Corps summer jobs has been extended to April 15 according to the United States Forest Service in Tallahassee.

The Youth Conservation Corps (YCC) program will start during the first half of June and run from six to eight weeks. It is open to boys and girls aged 15-18 and the basic pay is \$12 per day.

Young people are eligible if they meet the age requirements, have no history of serious criminal or anti-social behavior, have a social security number, and a work permit from the state of Florida. Application blanks have been provided to all school districts. Completed application forms are to be mailed to C. Richard Tillis, Recruiting Coordinator, YCC, P.O. Box 20186, Tallahassee, Florida 32304 no later than April 15. Youth should file applications promptly for consideration.

Letters To The Editor

Editor:

To: Mrs. Ellen (Harry R.) Hunt, Bonnie Brae Mobile Park.

Mrs. Hunt, your letter to the editor in last week's paper touched me greatly. Frequently I have been at fault by misjudging people purely because they — were not the same color as me.

From now on I'll try to hold back snap judgments in regards to a person's integrity and honesty.

By the way Mrs. Hunt, what color was that man?

Catherine Saunders

Editor:

In these days when people are too busy to become involved, it is always a pleasure to commend the exceptions.

This is to recognize the young man who was concerned enough to stop and help the lady who fell on Main Street near Central Ave. on Saturday morning, March 20th.

He offered his help and took the lady home and waited to see if a trip to the hospital was necessary. Special thanks and appreciation is extended to this young man.

Mrs. R. B. Stevens

Congregational Women Install New Officers

The last regular general meeting of the season for the Women's Fellowship of Union Congregational church, U.C.C., was held on Wednesday April 2. Some 40 women gathered for a covered dish luncheon and program which followed. Hostesses were Mesdames Helen Baker, Grace Boney, Ethel Rutherford, Thelma Merrill and Lou Grosse.

President Miriam Debo gave words of welcome. The devotional period was led by Mrs. Beatrice Luscombe. A short business meeting included a litany of dedication of special meaning to those who help with their hands on Third Wednesdays. It was 6:30 on May 7. Reservations will be necessary for this meeting. Call Mrs. Debo or Mrs. Radcliffe.

Water Control Is Here?

FCD Proposes Reduced Water Use

A 50 per cent cutback in the use of Lake Istokopga water is scheduled for discussion at the Central and Southern Flood Control District (FCD) meeting, April 11, in Ft. Myers, county administrator Charles Cullens informed commissioners Tuesday.

Cullens said that a copy of the Flood Control District's agenda contained an item entitled "Consideration of water use restriction, Lake Istokopga."

This item was placed on the agenda by the FCD Department of Field Services, Cullens said.

Planning and Zoning Director Bill Stephenson Jr. told commissioners that he had discussed the agenda item with Jan D. Olson who works in Flood Control's West Palm Beach office.

Olson said that a water shortage emergency exists and that a recommendation will be made April 11 that the governing board of FCD reduce Lake Istokopga water use by industry, agriculture (including livestock) and the public.

Water supplying individuals and domestic users are not to be affected, Stephenson said he was told.

The Flood Control District is concerned about Lake Istokopga's projected water level as of June 1975.

Should rainfall between now and June be sufficient, action to limit use of the lake water might be avoided.

Commissioners ordered that a resolution be prepared to protest limiting use of lake waters if such limitations are to be borne primarily by county residents and not by those living south of Highlands County and who receive their water from Lake Istokopga.

County attorney R. P. Dunty Jr. was asked to investigate the intent of the agenda item and ward the Board of County Commissioner's resolution accordingly.

McFarland And Raczkowski Awarded For Money Ideas

Career employees of the Alcoholic Rehabilitation Center, P. A. "Paul" McFarland and Walter "Wally" Raczkowski received certificates and cash awards for money saving ideas they submitted stated John C. Church chairman of the awards committee at A.R.C.

The State Awards Program gives career service employees a chance to turn in written suggestions as to how some aspect of state government can be improved. Improvements include things such as increased production, improved services, prevention of waste, prevention of accidents, and reduced costs. Ultimately this will serve the interests of the employee, the State of Florida, and the taxpayer.

The employee would fill out the proper form and send the idea to Tallahassee where it would be evaluated, returned, sent to other state institutions and if utilized by the home institution or other institutions the employee would receive not only the award but 10 percent of the savings for a year or up to \$2000 (some cases more).

Paul, a six year employee of A.R.C., suggested that empty Xerox cardboard shipping boxes be utilized to store the A.R.C. records thereby

replacing the standard cardboard storage box costing \$1.65 each. It was estimated 196 boxes would be used in 1974-75 at a total cost of \$326.70. This Paul was received a check of \$33 for the idea.

Maintenance electrician Walter "Wally" Raczkowski a ten year employee suggested that A.R.C. purchases a key duplicating machine to save the expense of an employee going into town to get keys made for the institution. This idea netted Wally not only an award but also a \$14.00 check.

The award certificate reads "For outstanding contributions in promoting efficiency, economy and safety in State Government through the State Awards Program."

Both Paul and Wally have other ideas in the mill awaiting action. For Paul this is his fourth award, the others were: The use of perforated gummed labels with a master sheet and Xeroxing addresses for envelopes. The use of rubber stamps to eliminate the duplicate typing of purchase order information and the use of rubber stamps to avoid the writing out of duplicate standard drug prescriptions for patients (some of which were quite lengthy).

EGGS THROWN AT the Avon Elementary School library window almost obscure the inside of the library. Workmen estimate that it costs \$10 to \$12 to clean the windows every time they are splattered by eggs. Wonder if some mother missed the eggs from the refrigerator?? Photo Miller.

Don't Come Yet, Its Cold And Icy Says Returners

By LORENA WYANT
The Bible Study group has

concluded a series of 18 weekly meetings covering the Book of John. Virgil Weddy conducted the study which was well attended. A booklet of Helen Steiner Rice's poems was presented to Ula Miller for being present every week.

The shuffle courts continue to be an attraction, especially in the evenings when all will be occupied and many spectators are also about. Frequent remarks heard these days there are: "so and so has left for home, wonder how they found the weather up there." Well, several have sent word back—"don't come up yet, its cold and icy".

Among those who left last week were heard such names as: Pero, Baker, Savage, St. Louis, Conrad, Faulkner, Smith and Crocker.

Mr. and Mrs. Albert Keyes, Mr. and Mrs. Harry Burnett, with Mr. and Mrs. Rolie Hendrix went to Lakeland on Wednesday to see the Kansas City Royals beat the Detroit Tigers. They had dinner at the Red Lobster and shopped. The occasion was the Burnett's wedding anniversary.

Callers at Cyril and Mary Misheys on Friday were Mr. and Mrs. Clyde Trescott.

Mr. and Mrs. Lloyd Wyant, with Mr. and Mrs. Ralph Gunning were in Lakeland on Wednesday.

Mr. and Mrs. Russell Wood of Ft. Myers spent the day on Thursday with Mr. and Mrs. Elliot Purvis.

Mr. and Mrs. Robert Lowery, Mr. and Mrs. Harry Burnett were guests at the home of Mr. and Mrs. Vernon Goodman on Thursday evening.

Mrs. Mildred Shearer has returned from an enjoyable month, including Easter, with her daughter and family Mr. and Mrs. Homer Havelon of Hollywood, Florida.

Mr. and Mrs. Elmer Eason of Winter Haven were Thursday guests of Mr. and Mrs. Harry Burnett.

Mr. and Mrs. William Poer of Lowell, Indiana, visited the Bacons and Strombergs several days last week. A note of appreciation for cards and notes sent following the death of Mrs. Fouty was received from her daughter Geneva Hood.

King Sets Record In Meet

MAYOR MARSHALL DAVIS takes a look at a bag of garbage left two blocks from the downtown spotlight and two blocks from the police station. But he wasn't smiling when he told the Police Department to pick up any one dumping garbage. If it has to be used the fine for dumping garbage is up to \$100 or not more than 60 days in jail. Thirteenth century medicine recommended green lizards for diseases of the eye.

The Avon Park girls track team defeated Santa Fe of Lakeland 69-36 on Tuesday, April 10, here at the high school track with the lady Red Devils taking nine of the thirteen first places. Ida King set a new Avon Park school record in the mile run with a time of 6:37.3.

The Avon Park girls are scheduled to go to Ft. Lauderdale this Saturday to participate in a thirty-team meet. Coach Chet Brojek will take ten girls down to the big meet. Senior Renee Crocker, sophomores Margie Taylor, Johnnie Mae McRae, Linda McRae, Sharon McRae, Ida King, and Mary Coleman and freshmen Susan Chandler, Maxine Tate and Margaret Lynn Miracle will make the trip.

Next Tuesday afternoon, April 15, the Red Devils will host Hardee High here in a boys and girls meet. Coach Brojek reported that there will be no high jump or pole vault events due to the fact that the mattresses used in the pits were burned last month. Anyone with old mattresses may contact Coach Brojek to donate them to the track team.

The five girls who won first place against Santa Fe last week were Hattie Rich in the long jump, Renee Crocker in the 100-yard dash, Margie Taylor in the 110-yard hurdles, Margaret Lynn Miracle in the 800-yard relay and Mary Coleman in the 200-yard dash.

The three Avon Park relay teams won over the Santa Fe teams. The 800-yard relay was run by Hattie Rich, Linda McRae, Renee Crocker and Sharon McRae. The 440-yard relay was run by the same four girls and the 800-yard medley relay was run by Pam Baker, Ranya Sanders, Bridgette Randolph and one of the

Stolen Vehicle Found

Winning second places in the meet were Susan Chandler in the low hurdles, Armenia Collins in the shot put, Linda McRae in the 100-yard dash, Ida King in the mile run, Hattie Rich in the 220-yard dash, and Johnnie Mae McRae in the 400-yard dash.

Five Red Devil girls won third place finishes — Bridgette Randolph in the long jump, Mary Coleman in the 110-yard hurdles, Della Kirkland in the shot put and the discus, Deanna Hardy in the 440-yard dash and Margie Taylor in the 220-yard dash.

Deputy Sheriff Finds Stolen Vehicle

Report of a stolen vehicle had hardly cleared the wires when the car was recovered. At 4:56 p.m. on April 2, Florida Highway Patrol's Lake Placid station sent out a notice that a car had been stolen from a parking place at the IGA Store in Lake Placid.

Deputy Sheriff Hugh Hines spotted the car, abandoned at the U.S. 90 and State Road 17 intersection, at 5:08 p.m. No arrest has been made in the case, the sheriff's department said.

Devils Lose

Best Game To Sebring

The Red Devil varsity baseball team lost a 1-0 decision to the Sebring Blue Streaks last Monday night at Head Field in the make-up of a rained out game but it was the best game the Devils have played in the last month. The loss dropped Avon Park to a 7-9 record for the year with three more games on tap this week.

Sebring's Robert Freeland scored the only run of the seven-inning game last Monday night in the top of the third inning. With two men out, Freeland lined a single down the third base line. He took second base when Charlie Tate hit a grounder that was bobbled at first for an error. Then the Devil second

baseman errored on a grounder up the middle by Gary Dicks and Freeland scampered home from second. Devil pitcher Jamie Tomlinson struck out three batters in that third inning but the winning run was scored.

Tomlinson went the distance for Avon Park pitching perhaps his best game of the season as he allowed only a double and two singles to the hard-hitting Blue Streaks batters. He walked only two men and struck out five batters. Sebring's Jerry Heston took the mound to win as he shut-out the Devils but gave up five hits. Heston also struck out 12 Devil batters.

Brad Beumel got two singles off Heston and Mort Jackson, Smokey Hill and Charlie Pugh

got a single each but the Devils could manage only one hit in any one inning. Avon Park left two men on in the first inning, three men on in both the second and third inning and one man on in the fourth and seventh frames for a total of ten men left on base.

Ragsdale, Avon Park, approximately 53 feet. Damage to truck was put at \$1500 while the Plymouth was considered a total loss.

Next Tuesday the Devils will have an open date.

Mulberry & Avon Park 2 Five errors by the Avon Park Red Devils helped the Mulberry Panthers take a 6-2 win at Head Field last Thursday night. The Panthers got only five singles off pitchers Jamie Tomlinson and Timmy Massey but poor infield play by the Devils allowed the Mulberry team to score the six runs. Panther pitcher Jeff Sheridan gave up 7 hits to the Avon Park boys including a double by Timmy Massey but the Devils couldn't get only two runs across the plate.

Massey had a single along with his double and Brad Beumel, Charlie Pugh, Larry

Tomorrow the Avon Park boys will host the Sebring boys team here at the city courts in the third session between the two schools.

He gave up three hits and four runs and Massey allowed two hits and two runs during his three and a third innings on the mound. Massey struck out eight batters.

Cypress Lake & Avon Park 6 The Cypress Lake Panthers stayed just ahead of the Avon Park Red Devils all during a game played at Head Field last Saturday night. The Panthers scored 3 runs in the second, added one more in the third, pushed over four in the fifth and then scored one in the sixth of the seventh. The Red Devils scored their first run in the All second, added two in the third to move up to a 4-3 score, managed one more in the fifth

and two in the sixth to lose by the 9-4 score. Jimmy Douberley went the distance on the mound for Avon Park. He gave up eight hits including a double and walked six batters. The Devil team made a six error in the seven inning game. Two Cypress Lake pitchers gave up six hits to the Devil hitters. Reggie Baker and Jimmy Douberley both got double. Baker's was a sky high pop up toward first base that fell in for a hit and Douberley's was a shot to left field. Mort Jackson got a single in the sixth and scored on Douberley's double. But Freddy Moore led the Devils at the plate as he got three singles in trip to the plate. All three of Moore's hits were right through the middle just out of reach of the shortstop.

Improving Panthers Post Wins

The South Florida Junior College baseball team won four games the last two weeks in March. The steadily improving Panthers are beginning to play respectable baseball. There has been tremendous improvement in the play of catcher Buddy DeWitt (Avon Park) outfielders David Lind, (Sebring), Robert Webb and Tom Ambrogio, and the second base play of Mike Miller. The suspect pitching corps has been receiving good performances lately from Glen Bass (Avon Park) and Al Short. Leading hitter, Robert Webb has recently been seeing action on the mound and turned in a good relief job at St. Petersburg. He also picked up the win against powerful, first place, Manatee.

The Panthers recently notched wins over No. 8 ranked Seminole J.C. 8-7, No. 2 ranked St. Petersburg 3-0, and No. 1 in Division III, Manatee 4-3, and visiting 1974 New England area J.C. champions (25-3 1974 record) Housatonic, Connecticut C.C. by a score of 9-4.

The Panthers are beginning to put their bats to work as evidenced in their 8-7 victory over Seminole. Robert Webb, leading hitter at .360 with 25 RBIs, hit a grand slam home over the left-centerfield wall at Head Field. Designated hitter, Larry Berg, also had a home run for the Panthers. Going into the 9th, SFJC blew a 7-4 lead when lefty, Mike Phillips, tired after relieving starter Al Short who became ill early in the game. Seminole tied the game in the ninth to send it into extra innings. Glen Bass came in to pitch in the 10th. To shut down Seminole and pick up the victory, Berg singled in the bottom of the 10th. Jones ran for him, stole second and went to third as the catcher's throw went into centerfield. DeWitt drove in Jones to win the game as he sent a grounder to the infield.

SFJC traveled to St. Petersburg and won the first game 2-0 at the Philadelphia Phillies complex behind strong four hit pitching by Glen Bass. Bass was never in trouble as he upped his record to three wins against four losses.

Bass was going strong at the end of the first seven-inning game and Coach Hill started him the second game. He pitched three strong innings before being touched for a couple of doubles and two runs in the third. Some sloppy fielding, cheap hits, and walks allowed the Trojans to up the score to an 8-0 loss.

This past week has probably the biggest accomplishment the young Panthers have made this season. They traveled to Bradenton on Thursday March 27, for a doubleheader against the No. 2 team in the State, Manatee Junior College with a 19-2 record. Outfielder, Robert Webb started his first game of the season on the mound for the Panthers. Robert set the Lancers down on three hits for five innings before tiring. Glen Bass relieved Webb in the fifth and shut out Manatee the rest of the game.

SFJC jumped off to a quick 3-0 lead in the first inning as Tom Ambrogio reached first base on an error. Mike Miller followed with a single and both scored ahead of Webb's towering three run homer over the 375 foot wall. Mike Miller reached first base on an error. Miller and DeWitt, executed a perfect hit and run to put runners at first and third. First baseman, Mark Jackson, followed with a line drive over the left field wall 390' away to up the score to 6-0. SFJC struck again in the fifth for two runs. Four straight singles and a bases loaded walk built SFJC's lead to 8-4.

Manatee had single runs in the third and fourth and two in the fifth as Webb tried in his first outing. Webb kept Manatee off-balance with a variety of speed pitches and a blazing fastball. Glen Bass pitched two strong innings to preserve the impressive victory.

The second game was pitched by Al Short. The Manatee players commented during the game that Short pitched the best game they had seen all season. Short was superb, shutting Manatee out for 8 innings on one infield hit that carried off his leg in the fifth. He had 8 strike outs and excellent control for the first eight innings.

The Panthers scored in the fifth when Webb was hit by a pitch. Ken Carson sacrificed him to second. Kim Prevatt walked, but McCarter was thrown out at home trying to score on Tom Ambrogio's hit to right field. However, two straight walks to Miller and Webb gave SFJC a 1-0 lead. In the seventh, the Panthers increased the score to 2-0 on a walk to Prevatt, fielder's choice for Ambrogio, a walk to Miller and a ground ball by Webb which scored Ambrogio as Manatee failed in their attempt for a double play. The Panthers left runners on first and third in the ninth short scoring as they took a 2-0 lead into the bottom of the ninth. Manatee centerfielder, Kevin Hardy, hit a two strike pitch for a clean single to left, only the catcher hit off Panther pitcher, Al Short. Short walked the next batter. The third batter sacrificed the runners to second and third on a bunt which Short fielded and fired to Prevatt at first for the out. The next Manatee hitter walked to load the bases. The number nine batter in the order also walked to force in the first Manatee run. With bases loaded and still ahead 2-1, Short came back strong striking out all-American second baseman, Chris Bifano. With two out, the next batter, Larry Berg, a left-hander, sent Short's blazing fastball into the Manatee 3rd base dugout. He swung late on the next pitch sending a lay fly ball just inside the left field foul line and just out of the reach of the hustling Panther leftfielder to score the tying and winning runs.

It was a heart breaking loss for the Panthers as they were just inches away from sweeping a doubleheader from one of the most powerful junior colleges in the Nation.

After returning from Manatee at 3 a.m., the Panthers were a little tired and played rather sloppily for the first four innings against the defending junior college New England champions from Housatonic, Connecticut. The Hawks jumped off to a quick 5-0 lead on some poor Panther fielding and some timely Hawk hitting. However, Housatonic also made some fielding mistakes and the Panthers outlasted the Hawks 9-8 in the error filled game.

Mike McCall went seven innings on the mound and picked up his first win of the season against one loss. Mark Jackson relieved McCall in the eighth to pick up the save by preserving the victory on some clutch pitching. He also had two RBIs, which moves him up to 25 and a State ranking. Coach Hill is looking for three good high school pitchers, one more catcher to go with super-hustler, Buddy DeWitt, a double play combination at shortstop and second base, and another hard hitting outfielder. If SFJC can recruit these additions, a chance to finish in the top one-half of the tough Division III will become a reality next spring.

Panthers Win

Three In Row

South Florida Junior College Panthers increased their winning streak to three in a row and four of their five games with a doubleheader win (9-3 and 9-7) over visiting Florida College Tuesday night at Head Field.

Glen Bass hurled the first game to pick up his fourth win of the season. After a shaky start, Bass settled down, mixed his pitches well in spacing nine hits and three runs, while striking out three and walking only one. It was a big day for the Panther's bats. Buddy DeWitt had a homer and double with three RBIs. Mark Jackson and Tom Ambrogio added triples as Ambrogio, Mike Miller and Bob Piervinanzi each had stolen bases. Piervinanzi also collected three hits and two RBIs for the afternoon. SFJC totaled 14 hits in the first game with all hitters collecting at least once while accounting for nine runs.

SFJC, after securing a 5-3 lead, led the game in the fifth with a four run outburst. David Lind singled, the shortstop errored Mark Jackson's ground ball, and DeWitt hit a

double off the left field wall to score both runners.

Piervinanzi singled in DeWitt and Ambrogio tripled home Piervinanzi for the ninth run.

Al Short pitched the second game giving up nine hits while striking out 11. Short went the distance for the fifth time this season. SFJC jumped off to a 3-1 lead in the second inning on a walk to David Lind, a single by Keith McCarter, an error by the pitcher on Ken Carson's sacrifice bunt, a walk to Ambrogio, and a couple of wild pitches which eventually scored Ambrogio. A two run homer by FC tied the game until Ambrogio singled in McCarter who had walked in the fourth. FC moved ahead in the sixth on a three run homer. However, the Panthers came right back to tie on Tom Ambrogio's two-run home center over the 375' sign in deep center. FC scored again for the last time in the seventh as SFJC tied the score again when Piervinanzi walked with the bases full to score the tying run. SFJC made the final score 9-7 in the eighth inning on singles to Robert Webb, David Lind, and a couple of Florida College errors.

The double win moved the Panthers into fourth place in

the Division behind Manatee, Bradenton and Hillsborough. SFJC's record is now 9-13 overall and 5-9 in Division III. Division III standings are:

Hi Friends,
This month commemorates two historical and unforgettable tragedies in American History: The assassination of Pres. Abraham Lincoln and the assassination of Dr. Martin Luther King.
The lives which were sacrificed by these men were not in vain, because the results thereof become more self-evident with each passing day. Be it resolved, that we, the people of these United States, shall uphold the principles of these Great Americans, till death do us part.
"Lord God of Host, Be with us yet. Let us forget. Let us forget."

"There is so much discussion about 'welfare' and the recipients thereof. In my humble, but honest opinion, I would say that there are many who abuse this special consideration. However, when I think of the deprived and the grateful, I conclude that the end justifies the means, and I'm left to decide, after all, whom am I to render judgement for or against my fellow man."

Question: How can a person become perfect as Christ commands us to be in Matthew 5:48?

Answer: God does not expect any person to do that which is impossible. It would be cruel for Him to do so. His admonition is, "Ye therefore shall be perfect, as your heavenly Father is perfect." This does not mean perfect in wisdom as God is perfect; it does not mean perfect in knowledge as He is perfect, or perfect in power as He is perfect, because He is infinite and we are finite.

It does mean that we should be perfect in our finite sphere as God is perfect in His infinite sphere. Christ's command that we should be perfect, is the conclusion of the sermon on the mount. The attributes of those who are God's children, are set forth in this sermon. He pronounces a blessing on those who are meek; the poor in spirit; those that mourn; those who hunger and thirst after righteousness; on the merciful, the pure in heart; the peacemakers, and those who are persecuted for righteousness sake. He speaks of His people as being the salt of the earth, and the light of the

world. He admonishes the members of His family to love their enemies, to bless them that curse you, to good to them that hate you, and pray for them which despitefully use you. To those who possess these characteristics, he says, "that ye may be children of your Father which is in Heaven." Matthew 5:45.

God does not expect us to attain this state of character by our own effort, because He knows that we can not. He promises to give us the enabling power. But as many as receive him (Christ), to them gave he power to become sons of God, even to those that believe on his name. John 1:12. When we meet the condition of receiving Him as our personal Saviour, He supplies the enabling power. Then we can say with Paul, "I can do all things through Christ which strengtheneth me; Philippians 4:13."

BASKETS STOLEN

Walter (Chick) Owens
Walter (Chick) Owens, a local youth who has established residence at one Smallwood Lane, New Castle, Del., was here for a few days visiting Robert Wilson Jr., relatives and other friends.

Thought Conditioner for the week

If you pray for achievement, but think defeat, your words are idle because your heart has already accepted defeat. Therefore, practice believing: What things soever ye desire, when ye pray, believe that ye receive them, and ye shall have them. Mark 11:24.

Explorers Enjoy Spring In Okefenokee

A Suwannee River Supercity was held by five members of Explorer Post 156 and their Advisors during the Easter vacation.

Leaving on Saturday morning the group travelled to Stephen Foster State Park in Georgia. Launching their canoes early Sunday deep in the heart of the Okefenokee Swamp they entered the headwaters of the Suwannee River for the beginning of the 64-mile, three day trip. In spite of the cold, rainy weather encountered, the group was able to enjoy the early spring greenery and flowers which were prevalent along the river banks. Large flocks of migrating birds were seen, and the sounds of owls and other night birds enhanced the quiet campsites on the rivers edge. Evenings were spent around the campfire, with plenty of coffee, hot chocolate and toasting marshmallows adding to the fellowship.

Early Tuesday afternoon the tired, wet group had reached White Springs, Florida, the finishing point for the canoes. An overnight stay at O'Leary State Park provided hiking on the trails, swimming, and time for just relaxing before returning home on Wednesday evening.

Super-canoeers attending were John Goff, Chuck Behal, Bill Sharp, Don Canawright, Misty Hooper, Mr. and Mrs. Larry Hooper and Marc Hooper.

Mayor Davis Named To Salvation Army Board

The Salvation Army of Highlands County installed new officers at its annual civic meeting attended by some 200 persons. The meeting and dinner was held at the Church of the Brethren in Sebring.

C. Wesley Ward of Sebring replaced Elmer "Doc" Sherwood as chairman of the Advisory Board, Richard Henderson of Lake Placid replaced Ward as vice chairman.

Ward and Richardson both have spent most of their lives in the public relations and advertising business and both continue in limited capacities in this same business and both are in the real estate business in Highlands County.

The advisory board elected three new members, Mrs. Donna Meyers of Sebring; Monte Delaney of Lake Placid; and Marshall Davis of Avon Park. Delaney is a member of the Delaney family that owns the Lake Placid Journal and Davis is Mayor of Avon Park.

Sherwood gave a report on activities of the Salvation Army in Highlands County for the past year and on the annual maintenance drive now underway to finance the Army's activities for the coming year. The figures showed that the Salvation Army spent a total of \$44,582.55 for the past year. A total of \$24,166 was raised from

contributions in the annual drive and the balance came from sale of items from the thrift store, war cry and contributions from members.

The keynote speaker was introduced by Lt. Col. Harry A. Ward, head of the Salvation Army in Highlands County. Lt. Col. Peter Lindores of Toronto, Canada, told of the work of the Army in many parts of the world. He has traveled to Germany, England, Japan and other countries in work for the

Brigadier Sven Ruthstrom of Jacksonville entertained the meeting with his stories, song and music on the occasion. He is director of the Salvation Army's social services in Jacksonville.

In accepting the chairmanship, Ward said, "of all the charitable organizations I have worked with, I can get more enthused about the work of the Salvation Army. You can see what they do right in your own community, and it is the

one place a person in need can get immediate help."

Ward said money contributed to the Salvation Army stays in the community and very little goes to pay staff or national headquarters. "In fact," Ward said, "only \$7,806 went to pay salaries in Highlands County last year and that includes a full time staff."

"Our annual maintenance fund drive is coming along fine," Ward said, "even in so-called hard times, the drive is within \$4,000 of our \$25,000 goal." The fund drive will continue for another month to raise the additional \$4,000.

The Sebring Lions Club won permanent possession of the bell ringer trophy for winning it four years. The trophy is won each year by the organization collecting most for the annual Salvation Army Christmas drive. Charles Bonebrake accepted the trophy for permanent display in the Lions Den. The Lake Placid Rotary Club won the award for 1974.

BAR Program Is In Nation's Top Ten

The Bureau of Alcoholism Rehabilitation Center in Avon Park has one of 10 programs in the nation receiving two-year accreditation by the Accreditation Council for Psychiatric Facilities (ACPF).

The announcement was made by the Joint Commission on Accreditation of Hospitals (JCAH).

Of 100 alcoholism programs surveyed in the United States since September, 1974, 44 of these were reviewed by the Accreditation Council in March. Forty-two were determined to be in substantial compliance with national standards set by the JCAH, and have been granted certificates. Accreditation is the only nationally recognized measurement of the quality of care provided in alcoholism programs.

The standards were adopted in 1974, developed by more than 300 professionals. They represent basic principles of how alcoholism programs

should operate, regardless of their size or scope. Portions of the standards also address the educational, consultative and outreach components of alcoholism programs.

Of those receiving two-year accreditation in addition to the center at Avon Park were Raleigh Hills Hospital in Newport Beach, Cal.; Melwood Farm, Olney, Md.; Guest House, Lake Orion, Mich.; Hazelden, Center City, Minn.; Guest House, Rochester, Minn.; Fellowship Hall, Greensboro, N.C.; Chat Chat Farms, Wernersville, Pa.; Bexar County Center, San Antonio, Tex. and Depaul

Hospital, Milwaukee, Wisc.

Of the 32 awarded one-year accreditation only one, Bowling Green Inn, was located in Florida. Maryland had eight, Pennsylvania three, Washington State three, and there were two each for Alabama, Illinois, Kansas, North Carolina.

Accreditation is voluntary and indicates to the public and professional community a program's conscientious efforts toward achieving quality care. Decisions on accreditation are based on a careful and reasonable assessment of each individual program.

Burley Enlists In Air Force

Enlisting in the United States Air Force is William T. Burley, son of Mr. and Mrs. Bill Burley of 202 Booker Street, Avon Park.

Airman Burley entered the Air Force's Delayed Enlistment Program (DEP), which gave him the choice of departing any day within the next seven months. He selected June 13 as his entry date for active duty, although he is already accruing time in service for pay purposes as a member of the DEP.

At that time, he will board a jet airliner to Lackland AFB, Tex. where he will undergo six weeks of basic training. The native of Avon Park successfully completed a

series of tests which qualified him to enter the security police field of training.

A 1973 graduate of Avon Park High School, Airman Burley

was a member of the school's football team. He was enlisted into the Air Force by Sergeant Ray Gutzler of the Sebring Recruiting Office.

DO YOU RECALL.....

THOSE WONDERFUL
YEARS...

*They shall abundantly utter the
memory of thy great*

goodness... The Lord has

blessed us with children and

now grandchildren. Our lives,

and now theirs have been

molded in the church. One

generation shall praise

thy works to another, and shall

declare thy mighty acts. Pass

on this priceless heritage to

your children and

grandchildren.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

SENATOR
TOM GALLEN
*Reports
from Tallahassee*

Any person who claims to know the changes our laws will undergo if the ERA set forth above should become a part of the United States Constitution has either an infallible crystal ball or fails to understand the problem.

The uncertainty of its application and uncertainty of its effect causes a great deal of concern among many of us who must cast an official vote. I certainly support its noble sentiments, but I am afraid it will work much mischief in actual application and open up a period of extreme confusion in constitutional law. Florida has led the nation in enacting anti-sex discrimination laws in the field of probate, criminal law, jury service, domestic relations, property rights, equal pay in private and public employment to name only a few.

However, Section 2 of the ERA clearly and unequivocally abrogates States Rights and vests future enactment of all legislation of this nature in the Congress. Though I am a strong believer in States Rights, that alone is not the reason I have opposed the ERA. Of course none of us can predict the laws which Congress will pass under this new authority, but from history we learn that their actions have not been as illogical and unrepresentative of the will of the people as the laws imposed upon us by the U.S. Supreme Court.

As a matter of law, the final and ultimate application and interpretation of the ERA will rest with the U.S. Supreme Court. How will the Court interpret Section 1? Will the Court rule that any classification based on sex must be justified by some good (or very good, or compelling) reason, or will it rule that no such classification can be made? Perhaps the Court will allow a justifiable classification on some subjects and deny the same as to others. To this question there is no answer.

When it was suggested in the U.S. Senate that the language be changed to provide "Equal Protection of the Laws" instead of "Equal Rights under the Law" the proponents protested that courts or legislatures might find compelling reasons for certain classification and such a result was unacceptable. If the U.S. Supreme Court considers the legislative intent, as they properly should, they would then be left with no alternative but to apply an absolute standard. I am not offering this as a prediction because the U.S. Supreme Court has been known to deviate substantially from conventional legal theories when deciding an issue.

There will be a great number of issues brought before the Supreme Court, most of which are impossible to conceive in advance.

Issues such as whether sex segregated schools should be required to admit the opposite sex; may insurance companies continue to charge lower life insurance premiums for women (based on greater life expectancy); will all social security benefits be equalized; can athletic competition remain segregated, even on public facilities; can States require married couples to be of the opposite sex; will homosexuals be allowed to adopt children; can social and service fraternities remain segregated based on sex and also retain their tax exempt status? (Florida's Attorney General has already ruled that such organizations must leave the State campuses unless they integrate.)

Do these questions seem radical and absurd? Not too long ago you would be considered a radical if you suggested the prohibition "prayers in school" today it is the supreme law of the land; or that the U.S. Supreme Court would impose "forced busing" on the Nation; or turn a criminal free if the arresting officer failed to read to him his Constitutional Rights.

In an attempt to analyze the Court's philosophy concerning equal protection under the 14th Amendment, I have reviewed some recent decisions. In *Kilgus vs. Rector*, a Federal District Court held that,

Virginia's policy of excluding women students from one of its State supported institutions, was a denial of the Equal Protection Clause of the 14th Amendment, even though there were other equal and adequate facilities for women students.

The infamous Yale Drinking Club, "Moreys," mentioned in the Whiffenpoof Song, has been ordered to sexually integrate. Also, in *Freidensberg vs. McSorley's Old Ale House, Inc.*, a New York Pub with a 114 year old "Male Only" tradition, was ordered to serve women patrons.

As I pointed out above, the U.S. Senate rejected the substitution of "equal protection" for "Equal Rights" in Section 1. Therefore, if the ERA passes, wouldn't the U.S. Supreme Court apply a more absolute and rigid application of the 27th Amendment than it has already done to the 14th Amendment?

As I stated earlier it is only the method of accomplishing the result with which I differ. I prefer to keep control over the subject rather than relinquish it to the U.S. Supreme Court. Remember the U.S. Supreme Court is insulated from public opinion through life tenure.

Therefore, if we wish to retain some control over our future, we should be reasonably certain of the effect of the laws adopted. In arriving at my decision that it is not in the best interest to attempt to solve sex discrimination problems through a Constitutional Amendment, but rather to use the legislative process, I have drawn on my legal education, 15 years experience as a practicing lawyer, and 9 years in the Florida Legislature. Paul Freund, the distinguished Constitution Law expert at Harvard Law School, has studied and written statements on the ERA as far back as 25 years ago when he was joined in an opposition paper by Dean Roscoe Pound of Harvard.

Freund, has recently stated, "If three-fourths of the States are prepared to ratify the amendment," he argues, "it is hard to see why they must first admonish themselves to do justice before they to justice." The difference, he points out, between a constitutional amendment and writing laws that eliminate sexual practices, "resembles that in medicine between a single broad-spectrum drug with uncertain and unwanted side-effects and a selection of specific pills for specific ills."

Scholarships Available From Winn Dixie
The Florida Farm Bureau Federation (FFBF) and Winn Dixie are again making two \$2,000 scholarships available to a boy and a girl whose parents are active Florida Farm Bureau members. This is a state-wide competition and eligible graduating seniors of Highlands County Farm Bureau families may obtain applications and further information from the County Farm Bureau office.

"Highlands County Farm Bureau is especially interested in this phase of its activities," said Edward L. Smoak, county president. "We like to encourage and promote these young people because we feel the youngsters of today are the agricultural leaders of tomorrow."

A second place award of \$100 and third place of \$50 will also be given for each category. Deadline for those interested in applying for the \$2,000 scholarship is June 9.

Simpson Promoted
Marine First Sergeant Charles D. Simpson, son of Mr. and Mrs. D. V. Simpson of 1613 Palm Drive, Avon Park, was promoted to his present rank while serving at the New River Marine Corps Air Station, Jacksonville, N.C.
