

Immunization Questions Topic Of Survey

A study on the extent to which Highlands Counties have been immunized against selected diseases will be the subject of a mid-September survey here.

Mrs. Christine Oates and Mrs. Elizabeth Swenson will be taking a random sample of county households, to determine how fully residents have been immunized against disease.

The immunization is conducted throughout the U.S. every year and provides information on immunization against measles, influenza, smallpox, polio, diphtheria, whooping cough, tetanus, rubella, and mumps. The information is needed for administration of health programs geared to disease prevention.

The health questions are in addition to the usual ones asked in the monthly survey on employment, income and unemployment, conducted nationwide by the Bureau of Census for the U.S. Department of Labor.

Results of the monthly employment survey provide data on conditions in the labor force, prime indicators of the economic health of the country.

For example, the Nation's unemployment rate was 8.4 percent in July, down from the second quarter level of 8.9 percent but still higher than a year earlier. Total employment was \$5.1 million in July.

Information supplied by individuals participating in the survey is held confidential by law and is used only to compile statistical totals.

Sheriff Has Pork Problems

Highlands County sheriff's office had "pork problems" last week. On Sept. 2, Bud Nelson complained that two pigs had turned up on the lawn of his home on State Road 17 north of Sebring. Nelson said he had no idea who owned the "porkers."

At the same time Elaine Nicholas of Avon Park was reporting theft of \$200 worth of pork. The meat was taken from a freezer kept in an unlocked shed at the Nicholas home.

A BIG THANK YOU is the purpose of the cake displayed by Grenadier Band Director Vic McKunas made especially for an appreciation party held Saturday afternoon at the home of Mr. and Mrs. Albert L. Thompson for all the people responsible for making the Scottish Unit possible. Bagpipers shown are, kneeling, Eddie Garner, left,

Mike Regan and O. C. Stephens. Standing are, left to right, Terri Thompson, Rhodona Thompson and Sherri Collier. Terri and Rhodona made and decorated the cake which has a musical scale with perfectly formed and placed notes and a Scottish Highlander in tartan plaid. Photo—Gobble.

Appreciation Dinner Held By Band's Scottish Unit

An appreciation dinner involving the Scottish Unit of the Grenadier Band was held Saturday following bagpipe practice in honor of those who have been instrumental in getting the Scottish unit started.

The dinner was hosted by Mr. and Mrs. Albert Thompson at their home at 1101 W. Pleasant. Their daughter, Rhodona, is one of the bagpipers in the Scottish Unit.

A highlight of the dinner was a beautifully decorated cake made and decorated by Rhodona and Terri Thompson (the two are not related), another bagpiper in the Highland lads and lassies. The cake was decorated with "perfectly placed notes" on a musical scale, Band director Vic McKunas said.

The cake bore the names of McKunas, Mrs. Della Stephens, Jim Huey, John McKinnon, and Gilbert Graham, all of whom were present. It also had the figure of a Scottish bagpiper in tartan plaid.

Graham, bagpipe instructor, Huey, the only bagpipe maker in the U.S., both of Dundee, and McKinnon, bagpipe

master; and Mrs. Stephens have worked hard aiding McKunas in getting the Scottish unit for the local band. McKunas said he anticipates

Lions Slated To Hear Goodwill Ambassador

Albert Hirsch, Goodwill ambassador for Goodwill Industries, will be the guest speaker at the regular Tuesday meeting of the Avon Park Lions Club in their clubhouse on West Bell St., at 7 p.m., according to George A. Kelsey, program chairman.

The Goodwill ambassador will tell of the human touch that goes with the rehabilitation of handicapped men and women at Goodwill Industries. His topic is "The Magic of Goodwill."

Hirsch has spent his adult life before audiences as an entertainer and speaker. He introduced the now famous "Army Air Corps Song" over CBS radio in 1942 and has

the Scottish contingent making their debut during the Grenadier Band activities at the Avon Park Wauchula game in Wauchula, Oct. 10.

Local Man Visits Waste Plant In Pennsylvania

BY SHERMAN WANTZ

Remember Ecologics Corporation?

Well, believe it or not, it's still alive — and doing well — at its home in Red Lion, Pa.

You may recall that a little more than a year ago, Ecologics was a household word in Highlands County.

It was in May of 1974 that Jack Adams, president of Ecologics, negotiated a contract with our county commissioners under which a solid waste and energy conversion plant would be built at the old Sebring landfill site.

That plant was to have burned 50,000 tons of county trash per year in its patented "incinerator" and produced steam, iron, aluminum and glass for resale. It would have eliminated, once and for all, Highlands County's requirements for a new, large central landfill.

Well, as with most of life's panaceas, it didn't work out as promised.

Ecologics backed out of the agreement and commissioners thanked their lucky stars that reaching for an ultimate solution to the county's solid waste disposal problems had simply delayed their search for a landfill site without costing the county any cash.

During a vacation trip last week, I visited Ecologics' pilot plant at Red Lion, Pa., and witnessed the recovery system in operation.

It appeared to be working just as Jack Adams had said. Trash was being fed by conveyors successively to shredders and to air, magnetic and rotary classifiers that removed glass, ferrous and non-ferrous metals.

The refuse that remained after the glass and metals were removed became "fuel" for the chamber that produced steam. The fuel was then fed

through a third shredder before it was blown into the patented combustion chamber where it was consumed at a temperature greater than 2,300 degrees Fahrenheit. No supplementary gas or fossil fuels were added to the combustion chamber during burning.

William K. Barnett, formerly of Clearwater, Fla., now Ecologics vice-president, revealed to me some of the reasons that the agreement with Highlands County had failed.

First, Barnett said, no customer could be found to purchase the steam that would have been produced by burning the county's solid waste. Without a steam customer, Ecologics' system is not economical, he said.

Secondly, Barnett admitted, the system had not really been fully developed at the time it was being considered for installation in Sebring.

It was Ecologics' president, Jack Adams' decision to concentrate on a sales campaign, rather than on a research and development program to improve the system, that was primarily responsible for Adams' leaving Ecologics last February, Barnett told me.

Ecologics retained rights to the "incineration" process that Adams developed and patented. The company no longer uses that term, preferring, instead, to call the burning oven a "combustion chamber."

The Highlands County experience benefited Ecologics. It revealed the necessity for having steam customers, since steam sales pay 70 percent of the plant's operating costs.

Now Barnett said, Ecologics has changed its site selection approach. In

Highlands County, the plant was to have been located at Sebring in the expectation that potential steam users would build plants nearby.

The new approach will see Ecologics erecting its building adjacent to existing plants of steam customers. My examination of the plant convinced me that it is a clean operation. No obnoxious odors were present and noises heard from outside the building were much less than those that would be produced on a normal city street.

The black, inert residue produced from a full day's burning (25 tons) was piled on the ground next to the combustion chamber. If my station wagon's springs could have withstood the weight, I'm sure I could have hauled away the entire pile in one load.

Following its Highlands County experience, Barnett said that Ecologics had retrenched "to solve its engineering problems. The company has adopted a "go slow" policy, confident that when the system is fully demonstrated, customers will beat a path to its door. The

company has invested more than \$1.5 million in the pilot plant at Red Lion which has operated without failure during the past six months.

The most likely first customer for the Ecologics system will be the nearby city of York, Pa. It's proximity to Red Lion — about five miles — will make it readily accessible to Ecologics' management and engineering team.

At today's prices, Barnett said that a plant having a 300 ton-per-day refuse disposal capacity would cost about \$4.7 million. Highlands County's proposed plant was to have had a 200 ton-per-day capability.

If the Florida Department of Environmental Regulation insists that counties follow its current solid waste resource recovery and management rules, county commissioners may once again feel the need to visit Red Lion — and York — to discuss their problems with the new team at Ecologics.

That is — if commissioners can find a suitable steam customer in Highlands County to ease the operation's cost strain on taxpayer's pocketbooks.

County Gets \$61,991 In Taxes From Seaborad

Seaborad Coast Line Railroad paid \$5,769,554 in property taxes for 1974 to the state of Florida and the cities and counties in which the railroad operates, according to W. Thomas Rice, chairman and chief executive officer. Highlands County and the cities therein were paid a total of \$61,991.

Rice noted that payments go into general and school funds of the receiving groups and may be used for any purpose their governing bodies select. No part of the taxes it pays is earmarked for direct benefit of the railroad, he said.

Greyhound Makes It Economical To See America

All Americans can now travel all of America for \$76 on Greyhound's new seven-day Ameripass.

Charles Kirkpatrick, Greyhound official, said that a new seven-day unlimited travel ticket has gone on sale. The new plan has all the basic features of other Ameripasses, but offers an opportunity for unlimited travel at even lower costs.

Others include a new 15-day Ameripass for \$125 which goes into effect Sept. 15, a one-month Ameripass costing \$175 and a two-month Ameripass for \$250.

"This means people can travel any day of the week and go anywhere over Greyhound's more than 100,000 miles of routes throughout the United States and Canada, stopping where they want. Many

connecting bus lines will also honor the new Ameripass," said Kirkpatrick.

Greyhound feels the new Ameripass will be well accepted, particularly by young persons, senior citizens, pensioners, job seekers and others who may have postponed travel because of inflationary and recession pressures.

In support of the government's program to encourage foreign travelers to visit the U.S.A., the seven-day, \$76 Ameripass will also be offered for sale throughout the world.

Ameripass passengers receive Greyhound's guide which describes discounts offered by many hotels, sightseeing companies, attractions and other travel-related services.

Two Airmen In Auto Accident Labor Day

An airman stationed at the bombing range northeast of Avon Park was charged with driving while intoxicated following an accident at 7:20 p.m., Sept. 1.

James P. O'Brien was driving a car owned by a fellow airman, Duane Tallridge. According to Florida Highway Patrol Trooper J. E. Vann, O'Brien was traveling east on State Road 64.

A little less than a mile east of Avon Park, on State Road 64, O'Brien lost control of the car on wet pavement. The car traveled 235 feet along the north shoulder, rolled over one and a half times, coming to rest on its roof.

O'Brien, seriously injured in the mishap, was cited for driving while intoxicated and

for possession of marijuana.

Foss — Weems
James Lewis Foss of Sebring was charged with improper change of lanes. His car collided with one driven by Ethel Marlowe Albritton Weems of Frostproof.

The accident occurred on U.S. 27, a half-mile north of Avon Park, 1:25 p.m. on Sept. 2.

Trooper C. J. Hart said Foss was northbound on U.S. 27, a half-mile north of Avon Park, 1:25 p.m. on Sept. 2.

Mrs. Weems pulled into the median to avoid a collision, traveled 315 feet in the median before coming back onto the road where the collision occurred.
