## The Energy Crunch: How Will It Effect Us?

BY LEW MILLER

Coal oil lamps, Coleman gas lanterns, acetylene gas lights, Delco light systems, wind changers all have characteristics in common, they supplied energy for light were time consuming and often messy to care for and for the most part are lighting equipment of the past.

But are they? President Jimmy Carter's forecast of the United States and the world oil reserves force a crucial look at how grim and dingy the future could be without the lights and human energy saving appliances, or without speedy cars, powerful trucks and fast planes.

To the people of President Carter's generation and older, returning to the past methods of lighting may not be as difficult, as for the younger people who have never trimmed a dirty wick or polished the carbon black off a lamp globe or carried water to clean and recharge an acetylene generating plant with carbide. To young housemothers, driving a horse and rig in the park can be very romantic, but to the older

generation it was a way of transportation and life.

In a statement made after President Andrew H. Hines called the president's message a courageous presentation of a comprehensive national energy policy, such a policy has been needed for a long time and the president's initiative was welcomed.

Hines continued that it was a clear recognition of the rising costs of energy and the realities of impending shortages of many forms of energy, with differences of opinion on what methods can be used to achieve goals.

Hines also stressed that flexibility be left so we are not frozen into one method when another may prove more feasible in supplying energy needs, whether it be coal, oil or solar energy.

Locally, Bill Britt, manager of the Avon Park Florida Power division, stated that the company at present had no plans to switch the local generating plant to coal because of transportation problems. The railroad spur to the power

plant has been removed and transportation costs by other means would be too high.

The company is encouraging builders and contractors to build energy saving homes with insulation in wall and overhead between roof and ceiling, along with double windows. Theoretically it is

possible to reduce energy use 30 to 50 per cent because the greatest use of energy in the home is for heating and cooling.

In regard to the price of fuel oil, Britt stated the price of oil rose three times in 1977, from 10.91 to 12.37 a barrel, with no guarantee that it won't go higher. It took 10 years, 6 months and 21 days

for the company's new Crystal River nuclear plant to go commercial, said Britt. At present, between the winter heating season and the summer cooling, nuclear energy is supplying about 40 per cent of the company's electrical energy. Britt estimated that with the high demand for electricity during the

summer months, the Crystal River plant will supply about 15 per cent of the energy needs. At present the plant is operating at 80 per cent of capacity.

The local steam generating plant puts out 45,000 to 47,000 mega-watts of electricity while peaking units, when

### Street Paving, Parks, Will Be Among Revenue Priorities

The Avon Park City Council has adopted a \$101,552 federal revenue sharing budget for the coming fiscal year.

The largest single expenditure will be made for the paving of streets inside the city. The council earmarked a total of \$28,000 for the project. At their Tuesday evening meeting, bids for work were opened, with Macgregal Corp. of Avon Park submitting the lowest of three bidders—\$19,785 for the project. Work is expected to start within the next 30 days.

The surplus street paving funds will be held until October, when additional revenue sharing monies will be available. The council indicated that more streets would then be re-surfaced.

A new mini pumper will be purchased for \$20,000 to replace the present 1948 model currently being used by the Avon Park Fire Department.

A total of \$21,000 will be spent to install sidewalks in three locations. New sidewalks are slated for S. Highlands Ave., from E. Canfield to E. Main St.; on N. Lake Ave. from E. Morroe to E. Palmetto St. and on S. Florida Ave. from W. Main to W. 8th St.

Council members voted to expend \$10,000 to renovate the 8 mini parks in the city and agreed to include additional lighting at two South-side locations.

City police will receive 2 new patrol

cars and divider guards. The equipment will cost \$13,848.

Recreation was not slighted by the council, as they voted to spend \$5,000 on basketball courts, complete basketball floor and a completely equipped weight and exercise facility.

A proposed \$4,000 renovation to city hall was approved, with the money being

used to install ramps, handrails and toilet facilities for the handicapped and elderly. In addition, the council agreed to look into the purchase of an automated chair-lift for disabled persons.

City Attorney Jack Hancock brought up the question of an equal division of the expenditures between the South side of town and the rest of the city. City Clerk

Malcolm Crews assured Hancock that the city was already at work repairing sidewalks in that area and had just completed \$40,000 worth of street resurfacing with funds from a Housing and Urban Development grant. He added, however, that the city needed to adopt an "affirmative action plan" in regards to this question.

### Mobile Home Park Issue Looks To Be Heating Up

Rules and regulations pertaining to mobile home parks may be heating up into an issue, as the Avon Park City Council Monday evening approved on first reading a request from Clarence King for permission to expand his trailer park.

Freshman councilman David Barefield was the most vocal critic of the proposal, saying the council was putting the cart before the horse.

Although the council approved King's request on first reading, a public hearing on the matter will be held in two weeks.

Barefield indicated that the city has long lacked proper control over trailer parks and was, in fact, considering a special mobile home zoning designation to properly handle the problem. However, he said that the council should wait on granting King's request until that ordinance had been drawn up and approved. "If we do this," he explained, "we will be setting a precedent. Then everyone with a trailer park will appear before the council and demand equal treatment and the council will have to comply."

Presently, mobile home and trailer parks are classified as non-conforming inside the city limits. A zoning designation that usually denotes an undesirable use of property within the given zoning area. Any changes granted to these parks are done so with a special council variance ruling. Barefield explained that he was worried about allowing changes that may not be allowed when the city adopts a mobile home ordinance. "These parks will then

### City Complies With FFA Mandate And Removes Objectional Clauses

The Avon Park City Council Monday evening complied with a Federal Aviation Agency ruling and struck exclusive franchise and non-competition clauses from leases held by Avon Park Flying Service and Highlands Aviation, Inc. on city airport property.

Although the controversy that surrounds the operation of the airport is far from settled, the council's action Monday was a step in that direction. The exclusive franchise segment of a lease held by Avon Park Flying Service was deleted. Although owner Don Gossick indicated that he had no real objections to the deletion, he did voice his dissatisfaction, saying, "This paragraph is what I depended on to prevent the problem I have now, but I will trust Mr. Hancock's decision. Mr. Pardee has told me that (Hancock) has the answer."

The city has been at odds with Highlands Aviation owner James Renfro for several months, as they have denied his request for permission to compete with Avon Park Flying Service. Although the FAA has ruled that this city does not have the authority to do this, the council feels that Renfro's property does not come under FAA jurisdiction.

City Attorney Jack Hancock denied a request from Avon Park Flying Service to have a special provision included in the re-written lease that would force all property holders to comply with a federal proposed master use plan for the airport. Hancock said he could see no reason why this should be included in the lease.

That land use plan calls for the expenditure of \$2.5 million on the airport over the next 10 years. Airport Committee chairman Don Serdyuk told the council that he didn't believe that the master plan would ever be fully utilized. "I don't think that the city or the federal government can justify spending \$2.5

million on the Avon Park Airport," he said. "I don't think that the city is bound to enter into any plan if they don't want to."

Avon Park is currently trying to obtain \$50,000 in FAA money for the airport. Serdyuk added, however, that he realized that the plan would have to be followed if the city wanted federal money. Among other things, the 10 year plan calls for a second fixed base operation by 1984. In addition, all airport facilities are supposed to be moved to the east end of the facility, where Renfro is presently located. "He is right in the way," said Gossick.

### Tax Rolls Are In Avon Park Sun

The largest delinquent tax list in Highlands County's history is included in this week's Avon Park Sun. The 22 and-one-half page list will appear in the paper for the next four weeks.

Aside from the hundreds of items in two beleaguered subdivisions, the Highlands County delinquent tax roll reflects two major problems: cold and communications.

The official list of properties on which the 1976 ad valorem taxes have not been paid was released today by Highlands County Tax Collector J. T. Landrew. Legal advertising of the list containing 4500 items commences this week in the Avon Park Sun. Sale of tax certificates is set for May 25.

Two chunks of agricultural land are on the delinquent roll. The larger is \$23.8 acres on the northeastern side of Lake Pythias in northern Highlands County. Pythias & Co. Inc. is listed as owner of this land which is mostly citrus. The tax bill stands at \$10,185. To this will be the cost for advertising and whatever interest a certificate on this may bring. A. L. Alfred family named Kingdom has held a primary interest in the Fruitland Co.

A company headed by Adrian Chapman owns \$9,978 on 200 acres in south Highlands County. This is primarily citrus land. County Property Appraiser J. W. "Bully" Martin points out that the January freeze cut into

agribusinessmen's revenues at the time when they usually begin to have an upswing in income and can pay taxes.

The economic climate in many places may be reflected in the tax roll here. Out-of-state owners when pinched financially may have to let their Florida property slide into the delinquent status. For some on the roll, however, the big problem appears to be communication.

Some owners do not believe they should be charged taxes until they begin to develop their holdings here. Landrew said his staff has had inquiries from owners outside the United States and from Puerto Rico about when they will be expected to begin paying taxes.

Communications of a different kind are forthcoming on the taxes for a part of Highland Park Estates. Equitable Development Corp., developer of the subdivision, is in bankruptcy. The bankruptcy court has authorized a trustee to work on clearing titles for some of the individual lot buyers.

The court failed to specify the rate of interest the trustee may pay on the old tax certificates. Leonard Pearson, the trustee, said he will have to negotiate

AVON PARK SUPERINTENDENT of Public Works, John Ziegler, looks on as Al Hedges rips out a dead shrub on E. Main St. City crews are in the process of replacing freeze destroyed growth on the mall. (Sunphoto by Russ Dennis)

### Work On Mile Long Mall Will Fix Freeze Damages

Avon Park's prized "mile-long mall" is presently undergoing a face-lifting in the form of new grass, plants, shrubs and watering systems.

According to John Ziegler, Superintendent of Public Works, the new planting will replace freeze damaged grass and shrubs. The work, estimated to cost in excess of \$2,500, is taking place on the mall between Butler Street and U.S. 27. Completion is expected within the next few weeks.

Old growth is being bulldozed off,

with new grass and plants being donated by many merchants whose businesses front on the mall.

"We have had donations of money and plants from several merchants," Ziegler explained, "and this will help the city bear the expense."

Ziegler said that the City Council was unhappy with the way a portion of the mall looked, and wanted to see it replanted to enhance the town's appearance.

In addition to the planting, new

watering systems will also be installed, similar to systems on the portion of the mall from Butler east, towards city hall.

Officials had hoped to obtain enough in donations to replace the dead grass with fresh sod, however, the high cost of this process may make it impossible. "We may have to plant grass seed," Ziegler said, "but that will work out just fine."

The job hasn't been without its

## Editor's Viewpoint

by Russ Dennis

This Friday will mark the second appearance of the Avon Park Sun's second edition. There will be differences between this edition, and the paper that went on sale last Friday.

Among the most obvious, of course, will be the addition of a variety of entertainment, editorial and feature material, supplied to us by Copley News Service. We have long felt that the Sun needed that certain something that will make it truly different from any other area publication. We think we have discovered that "difference".

This Friday, there will be editorial's about the energy crisis, Congress, how to beat high coffee prices

and the trouble that is brewing from our near neighbor, Cuba.

There will be puzzles, home fix-up tips and advice on handling money. Perhaps the most important aspect of the Friday final will be the addition of important local news-stories and photos that came too late for the regular Wednesday first edition.

We, at the Sun, are striving to bring you a better newspaper-in fact our goal is to produce the finest newspaper in the state of Florida. That will take some doing.

Hopefully, the second edition will meet with success. We are sorry that it cannot be included in our home delivery.

## Volunteers Help

Every now and then we come across a group of individuals who are truly unselfing heroes.

The Avon Park Athletic Association is such an organization. A group of men who, while others wring their hands and lament the lack of funds needed to support local sports, go out and get the job done.

Most towns have such an organization, however, few communities can boast an organization that is as active as our Avon Park group.

These unpaid and usually unthanked volunteers have taken on their shoulders the burden of helping to keep local

athletic viable. Everything from new uniforms for the various teams to the maintenance of athletic fields is within their province. From what we can see, they are doing a wonderful job.

It would behoove us to reward their efforts in the easiest way possible-by attending our local athletic contests. Every ticket sold helps the association to fund athletics.

Compare Avon Park's recreation and athletic facilities and programs to other towns our size and I'm sure you will see just how fine a job they are doing. We need more people like them.

## Letters To The Editor

### Change Needed

Dear Editor:  
Welcome, Chet, I applaud your candid statements which appeared in the Avon Park Sun and Sebring News last week regarding the need to look much more carefully at money spent for administrative positions which do not directly nor indirectly benefit our students in the classrooms.

Now, let me assure you that Ruth Davis, Margaret Turnbull and Ken Grady are looking out for the best interest of the children and the schools by proposing a private, organizational study.

How, you ask? Well, here it is. The school superintendent follows criteria for formulating administrative and supervisory positions based upon State Department of Education recommendations. This is what we are presently harnessed with downtown.

Next, you ask why hire an outside firm to do a study when the D.O.E. will do the study for free, thus releasing funds needed for the classroom? It's about the same reason a smart farmer doesn't ask the fox to guard the hen house. Chet, I don't think you'll find that the State Department of Education will tend to disagree with its own recommendations; at least this is highly unlikely.

Now, Ken, Margaret and Ruth also know about the highly unlikely aspect of anything happening more volatile from a State study than a money shuffling of personnel around with new titles if the D.O.E. study is the only study allowed—for whatever reason.

These stalwarts of the Board of call for a businesslike approach to weed out functionally unnecessary and expensive positions at the administrative and supervisory levels in this county.

Let's suppose, Chet, we find that by hiring a private study for \$15,000 (the high figure) and its findings show just one supervisory position paid about \$22,000 a year as untenable, you have not only paid for the study, you have gained \$7,000 in just one year. Then again, you and I both realize as classroom teachers, there may be more than just one unnecessary position which has little or no benefit to the children in the schools. So, Chet, let's all get behind Ken, Margaret and Ruth and help them get the private study and look for some meaningful changes.

David H. Batty

### Study Not Wasteful

Dear Editor,  
I read with interest the letter in the Avon Park Sun last week regarding the proposed study by the School Board of Highlands County. Many of the points were well taken and I would like to comment on a few of them.

Most important was with regard to the question of the wisdom of spending \$12,000.00 to \$15,000.00 on an outside study of our system. First, I would like to point out that any study done for nothing is usually worth the amount paid. All studies of our school system in the past

have been done by the Department of Education in Tallahassee or other educational groups. The very thing the letter complains about most—"too many chiefs and not enough Indians"—is a direct result of implementing the recommendations of these "studies". Certainly as a classroom teacher, I don't think the writer would recommend that students grade themselves.

I share in wanting to make sure "that administrative positions on the county and school levels are justified". That is the whole purpose of the desire to have an outside management group conduct this study.

Yes, I wholeheartedly agree that "the classroom teacher is still the mainstay in the educational wheel". I would like to point out that the hiring of more chiefs and experts to tell us how to teach usually comes about as a result of the recommendations of the very group the writer wants more "free advice" from.

There was an appalling lack of understanding of the working of a School Board with the observation that "just shuffling papers with figures and proposals at a once-a-month board meeting never really enables them to understand the problems of our schools". I would hope this shallow image of how we function is not shared by informed individuals in Highlands County. Just as teachers no doubt spend hours outside the classroom preparing to teach, we spend many hours prior to each Board meeting in study and work sessions, reading proposals, reading those "studies", talking with parents on the telephone, visiting the campuses of each school in the county, in addition to countless hours we spend talking with teachers and administrators in the school system. I personally have spent many hours in the classroom and I do "feel what's going on". I do this gladly, that is why I ran for the school board in the first place and I will continue to give many days each month in pursuit of the responsibilities of the board because I asked the people for this responsibility and am happy of the opportunity to serve.

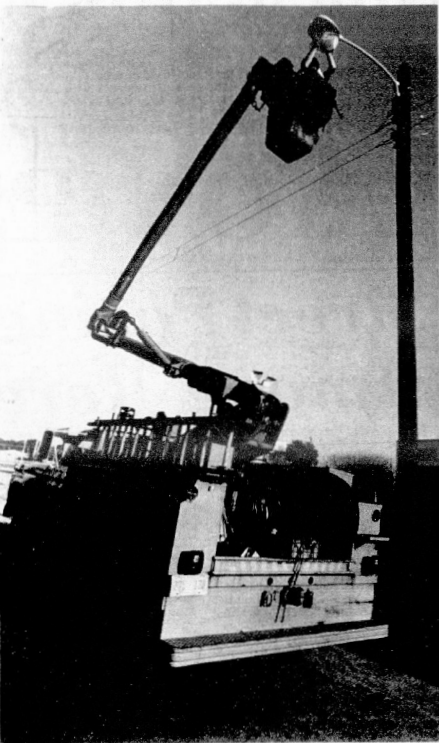

Yes, this outside study is needed. Yes, it will cost the taxpayers of Highlands County—ONCE. My common sense and the telephone calls I am receiving tell me that the study is not only needed but long overdue.

I commend the writer highly for speaking out on what he believes. I sincerely believe that his motives and mine are to seek the best possible educational system in Highlands County for our children. And I would add one further motive on my part at a price we can afford.

Margaret L. Turnbull

### Thanks

Dear Sir:  
I thank you this opportunity to express our thanks to you for advertising the concert by The John Mathews Family.  
Sincerely,  
Sam Kirk

## Interviewpoint

President Carter's sweeping energy conservation plan drew support from many people in Avon Park this week. Although some said the "wouldn't give up their big autos, most felt it was time to do something about the energy crunch.

THIS WEEK'S QUESTION: Do you approve of President Carter's proposed energy plan?

... John Cahill, Park Ridge Hotel. "Yes, by all means. We are too wasteful in this country and we need to stop this. I drive a big car and intend to keep it, but I won't mind paying a tax on it or the increased price for gasoline."

... Mrs. John Porter, 502 E. Pleasant St. "I haven't gone into the plan deeply enough to form an opinion yet. We do have an energy problem, but no single thing is going to solve it. It's going to take many plans."

... Clara Pickett, U.S. 27. "No, I'm not in favor of the plan. I don't believe what President Carter says. He lies a lot. What happened to the \$50 tax rebate? Now, I don't believe what he says. We have too many taxes already."

... Dale Jordan, 31 E. Thomas St. "Yes, I agree with it. Something must be done and this appears to be a step forward, but I don't think a tax on big autos is the answer. We need to stop wasting energy in other areas to make it work."

## Laetrile Must Be Examined

The almost hysterical controversy that is currently raging in this country, especially in Florida, over the use of an alleged cancer treatment is uncalled for.

The drug, laetrile, is illegal to use in this country. The Federal Food and Drug Administration claim that the substance, which is found naturally in peach and apricot pits, as well as in green beans and other vegetables, could be toxic if enough were ingested.

The FDA claims that there is not one shred of evidence which would support claims by proponents of the drug that the substance is useful in fighting cancer.

Unfortunately (or fortunately, if you happen to be one of the millions affected by cancer each year) reputable doctors and scientists have found otherwise.

Evidence suggests that laetrile is, indeed, a useful anti-cancer drug, especially if it is used in connection with a sound nutritional program and in conjunction with some existing cancer treatments.

From the reaction of the FDA and other groups, one would think that laetrile was on the same level as heroin and cocaine. It is ironic that the FDA and federal government have not imposed a complete ban on cigarettes, which are known to cause cancer in some instances, while at the same time violently opposing the testing of a drug that could save many lives.

The crux of the issue is not making laetrile available to anyone who wants it.

It is simply allowing independent research firms the right to conduct tests on the substance.

The FDA presently has forbidden even research into laetrile. Even though such research is frowned upon by the FDA, a number of scientists and doctors seem to have taken the matter into their own hands. The results of their tests, although varied, seem to make it clear that the FDA should act quickly to begin research of its own to clarify the issue. Even the country of Israel is involved in such experimentation. The drug is already legal in Mexico, in fact, that is where most of the American cancer sufferers who seek laetrile go for treatment.

We are not calling for the immediate lifting of bans on the drug, however, we do feel that through research should be made into its alleged properties. Any avenue, no matter how dim, should be studied in an effort to control, then eliminate this disease. We don't think that is being done.

As long as there is the smallest possibility that the drug is useful, there will be many people who will not rest until they have tried it. A person who is suffering from cancer will not be content to listen to a federal bureaucrat's claims that there is no reason to test the substance.

We say test the drug. Satisfy everyone as to its properties, then explain to the public. That is the only way the issue can be settled.

## Things My Way

By ALICE SMITH  
On the thirteenth of this month, the eyes of America were upon us.

Up in Tallahassee, our state senators defeated the Equal Rights Amendment by a 21-9 vote. Depending on your viewpoint this was (a) male chauvinist blow to women's rights, (b) a victory in the battle to protect Motherhood and the American Home, (c) a valiant defense of state rights, (d) an exercise in political maneuvering for power in the Senate, or (e) much ado about something that did not really concern us.

Whatever your point of view, the game was exciting and occasionally down-right funny.

The man who quarter-backed the victory for the opposition was Senator Dempsey Barron of Panama City, former senate president. That "good ole" boy from the Panhandle made the main speech against the proposed amendment to the U.S. Constitution that guarantees women equal rights. Among other things, he cited homosexual marriages and the adoption of children by homosexuals as possible outcomes of court interpretations of the ERA.

In the evening, Senator Barron appeared on television in a debate with Senator Betty Carter of Tampa and delivered the following notable statements for public consumption: The defeat of ERA was actually a stand for state rights; Florida has its own little ERA—therefore there is no need for an amendment to the constitution; the state of Florida takes proper care of its ladies, even going so far as to give widows \$500.00. (This last one I don't understand, perhaps someone will enlighten me.)

A few days later, in the press, Ellen

Goodman of the Boston Globe asked "Will it be a minority of men in a minority of states who deny equal rights to the women of the entire country? Will they do it in the name of protection?"

On the other hand, Malcolm Johnson, editor of the Tallahassee Democrat wrote "It was women who defeated ratification of the equal rights for women amendment in the Florida Senate. It was the determined, organized and vigorous opposition of conservative women which worked the persuasion necessary to swing the majority against ERA."

Here, in central Florida, I doubt if the issue caused much excitement. We're out of the main stream. But consider that over half of the total population, 109 million, is female. Consider that 47 per cent of all women, aged 16 and over, are in the work force. I think, eventually, ERA will make it, in spite of the Southern Bloc.

Anyone for betting?

## Business Briefs

The stock market suffered its largest loss of the year this week in selling that left the Dow Jones industrial average at a new 15-month low.

Analysts traced Monday's decline to the Carter administration's upward revision of its inflation forecast for the year.

The Dow average of 30 blue chips dropped 12.47 to 914.60, for its biggest setback since it fell 17.37 points last Nov. 5.

It was the lowest close for the average since it finished at 912.94 on Jan. 13 of 1976.

Declines overwhelmed advances by a 4-1 margin in the board tally on the New York Stock Exchange.

Domestic automakers said this week new car sales were up 3 per cent and the highest in history in mid-April, the 10-days sales period just before President Carter announced his energy conservation proposals.

The four U.S. automakers sold 280,646 cars in the period, 10,000 more than most analysts had predicted and enough to erase a 13-year record. Truck sales of 94,125 topped last year by 17 per cent and also were a record for the mid-April period.

A new system for taking instant motion pictures apparently is about to be introduced by Polaroid Corp.

Polaroid is customarily tight-lipped about its plans for the camera, which apparently will be called "Polavision," according to a stock market analyst.

## Harry Lee's Trailer Village News

By Mabel Stocker

Several of the people have been playing cards at the shelter in the afternoons and evenings. Many also have been shuffling in the afternoons and evenings.

The Village seems rather empty with several having already returned to their homes in the north earlier and the following returning the past two weeks: Mr. and Mrs. Fred Graper and Mr. and Mrs. Harry Edinborough both to London, Ontario; Mr. and Mrs. Arthur Parker to Corunna, Ontario; Mr. and Mrs. J. Mulder to Kalamazoo, Mich.; Mr. and Mrs. Harold Ayers and son Tom to Ryan, Iowa; Mr. and Mrs. Merle Buck to South Bend, Indiana; Mr. and Mrs. Earl Wheastine to Cedar Rapids, Iowa; Anna Herberger and Lillian Glenn to Virginia, Illinois; Mr. and Mrs. Kent Gilbert and Helen Turner to Youngstown, Ohio; Mr. and Mrs. Vincent Potts and Hazel Davis to Clio, Michigan.

Those returning later are: Mr. and Mrs. George Walker and son James to Coldwater, Michigan; Mr. and Mrs. Leland Halled to Ovid.

## SFJC Term Registration May 2

Registration for the 1977 summer "A" term, will begin at South Florida Junior College at 8:30 a.m. on May 2. Students who have been pre-advised will register by priority number from 8:30 until 10 a.m. Hours for open registration on May 2 are 10 until 11:30 a.m., 1:30 to 4:30 p.m., and 7 to 9 p.m. Persons may register during regular office hours May 3 and from 7 until 9 p.m. on May 4 and 5. Classes begin May 3.

Persons planning to attend South Florida Junior College for the first time should file their applications for admission as soon as possible and returning students should check at the Admissions Office to see if their files are in order. Applications for admission and class schedules are available at the Admissions Office by calling 453-4661, extension 135, in Avon Park.

Michigan; Mr. and Mrs. Ollie Wilcox to Rhaca, New York; Rita Kalaah and Bill Ray to Wyandotte, Michigan; Wayne Brown to Mackinac, Michigan; Elmore Laman and Vera Fatula to Rhaca, New York; Lydia Glenn to Iowa; Mr. and Mrs. Charles Campbell to Manton, Michigan and U. T. Ellenberger to Beaverdam, Ohio.

Ed and Mabel Stocker will be leaving for their home at Lima, Ohio on Wednesday and will be looking forward to returning in the fall. Good-by.

## Graduation At Junior College On May 3

South Florida Junior College graduation exercises will be held at 7 p.m., May 3, in the amphitheatre at the College. The public is cordially invited to attend the ceremony.

Candidates for degrees from Avon Park are Bradley Clark Beumel, Kim Charleville, Joel Clinton Deriso, Michael S. Fortner, Lawrence P. Greene, Jeff A. King, Julia Cynthia Langston, D. Keith McQuaid, Kevin Anglin Murphy, Laurie Elizabeth Peterson, Michael Joseph Pool, Mark Wilson Smith, James Allan Tamen, Thomas G. Wester, Roberta T. Newton, and Sharon Lynn Urie.

## Atkins And Lee Chosen For Boys State

The selections for the 1977 American Legion Boys State are Bret Atkins and Lee Barberie. The alternates chosen were Eddie Garner and Charles Oliver.

Boys States are selected by the faculty of the Avon Park High School and the American Legion Post No. 69, the sponsor chairman Francis A. LaFlam of Post No. 69's Boys State committee said, that 1977 Boys State will be held on the campus of The Florida State University at Tallahassee, Fla. during the week of July 3 through July 9, 1977.

PRE-SCHOOL DANCERS FROM Studio One are all dressed up in mommy's clothes, while entertaining the

Miracle Patio benefit patrons last Friday night. From the left: Ashley Gross, Karen Timlake, Danielle Strange,

## Open House Set For May 4

It was announced by Paul Gentry, president of The Friends of the Library that an Open House will be held in the new library addition at 4:00 p.m., Wednesday, May 4.

The library addition at this time will also be dedicated to Mrs. John Dawson as library patrons of all ages share in the books, films and activities made possible by her generous financial support.

In addition to the people and organizations that have contributed to the library building fund in the past, the following have made contributions as of April 23: Warren Frye, I. H. Ford Motor Company, Ralph Walden, Mrs. Lois A. Smith, Ruth Short, Brad Graf, Laurie Hill, Mrs. Leven Staley, Dr. Dan Davis, Florence Thayer, Ed Luby, Rotary Club of Avon Park and Avon Park Grange No. 203.

Library patron Mrs. George Trogdon has presented "The Children" a painting by Nadine Hoskins, which has been placed on the east wall of the brown and gold carpeted room. A local artist, Mrs. George Bush is painting an original oil to be given for permanent display in the new room which is painted an off-white color.

The library has also received a beautiful plant stand, handcrafted by Ed Luby. The stand, taking 18 hours to make, is approximately forty inches high and is made from the heavy, uniquely colored dark Eucalyptus wood, with a spiral design.

MRS. JANIE CARROLL a library user for over 16 years admires the satiny smooth finish on a gift of 18 hours of love involved in hand crafting a beautiful Eucalyptus plant stand which was presented to the library by Ed Luby for the new room. All it needs is a beautiful plant to hold it down. (Sunphoto by Lew Miller).

## Obituaries

Theodorus E. Mills

Theodorus E. Mills, 72, of Avon Park died Friday, April 22, at Hollywood, Fla.

Funeral services were held 2 p.m., Tuesday, April 26, from F. T. Blount Funeral Home, Tampa.

Interment in Myrtle Hill Memorial Park, Tampa.

He was a native of Georgia and a member of the First Baptist Church of Avon Park.

He is survived by his wife, Annie Laura Mills, Avon Park; two sons, Bobby, Hialeah and Gary of Eustis; three daughters, Mrs. Jacqueline Rhodes, Tampa, Mrs. Geraldine Morris of Bloomingdale, Ga. and Mrs. Kathleen Timberlake, Hollywood; three sisters, Mrs. Lois Dent, and Mrs. Eunice Douglas, both of Swainsboro, Ga., and Mrs. Mady Thigpen of Tarrytown, Ga.; 15 grandchildren and 10 great-grandchildren.

Mrs. Gladys Young Sanders, 56, died early Sunday morning, April 24, at Walker Memorial Hospital.

She was born at Dale Co., Ala., and came to Avon Park in 1924, with her parents, Mr. and Mrs. Aaron Franklin Helms who preceded her.

She leaves her husband, Edgar S. Sanders, Avon Park; two daughters, Mrs. Elaine Elder, Apopka, Fla.; Mrs. Judith Bussey, Phoenix, Ariz.; one son, Robert Rush, Arcadia; two step-daughters, Bridget and Jo Sanders, both of

San Francisco, Calif.; nine grandchildren and one great grandchild; three sisters, Mrs. Betty Newman, Avon Park; Mrs. Louise Shaws, Avon Park; and Mrs. Inez Hilley, McClenney, Fla.

Rosary services were held Monday, April 25, at 7:30 p.m. from Our Lady of Grace Catholic Church with Rev. Father George Fraser celebrating. Interment in Bougainville Cemetery, Avon Park.

Stephenson-Nelson-Smith Funeral Home in charge.

Able S. Dover

Able S. Dover, 65, Avon Park, died Sunday afternoon, April 24.

A native of Calhoun Co., Alabama, he had lived in Avon Park for 25 years, moving here from Alabama. He was retired from the City of Avon Park.

He leaves his wife, Mrs. Lela B. Dover, Avon Park; two sons, T. W. Dover and B. G. Dover, both of Avon Park; one daughter, Mrs. Hazel Nell Floyd, Middle East; six grandchildren; four brothers, Jay, West Palm Beach, Hubert, Ervin, and Charlie all of Alabama; one sister, Mrs. Vera Pierce, Illinois.

Funeral services were held Tuesday morning, April 26, 11 a.m. at the Fountain Memorial Home Chapel, with the Rev. Paul J. Searcy, officiating. Interment followed in Bougainville Cemetery, Avon Park.

Arrangements by Fountain Funeral Home, Avon Park.

## People On The Go Community Events

**W.M.U. To Meet**  
The regular monthly meeting of W.M.U. of Florida Avenue Baptist Church, will be held at the church, Monday evening, May 2, at 7:30. Ladies are urged to be present and bring old sheets to be used in rolling bandages.

**Sweet Adelines**  
Heart of Highland Chapter, Sweet Adelines meet each Thursday evening, 7:30, at the First United Methodist Church, Avon Park.

**Library Open House**  
Wednesday, May 4, the new Dawson Room, at the Avon Park Library will be open to the public.

The dedication ceremony will take place at 4 p.m. and will be followed by an "Open House", during which refreshments will be served.

Visitors will have an opportunity to inspect the new room and learn first hand about the programs and activities planned for its use.

**Bingo**  
There is Bingo every Tuesday night, 7:30, next to Our Lady of Grace Church, in the social hall, 595 E. Main Street.

Early Bird Bingo starts at 7:15 p.m. Everyone is invited to join in the fun.

**Plant Exchange For Public**  
There will be a plant exchange this Thursday, April 28, down by the flag pole on the Mall. Bring what you have to give and pick out what you want. This is for the public and is sponsored by The Avon Park Federation of Garden Clubs.

**Vacation In N.C.**  
Ann Belle Worden and Mildred Head returned Saturday from one week business-vacation stay at Worden's Will Of The Wisp, in Franklin, N.C.

**Knowles Visits Son**  
Mrs. O. G. Knowles spent this past week as guest of her son, Jack Knowles and family in Grand Island.

**Simon On Dean's List**  
Margaret Simon, daughter of Mr. and Mrs. Ed Simon made the Dean's List this semester.

She is currently enrolled as a student at Valencia Community College at Orlando, Fla.

She has just completed her first year majoring in Banking and Consumer Credit.

### Garden Club Offers

## Plant Exchange Thursday

MRS. EUGENIE HAYNIE of the Hibiscus Garden Club, reminds everyone of the Plant Exchange this Thursday, April

28, down by the flag pole on the Mall. Bring what you have to trade and pick out what you want. This is for the public and is sponsored by Federation of Garden Clubs. (Sunphoto by Barbara Cornell).

We wish the following people celebrating their birthday this week a big "Happy Birthday":

April 28 - Dan Bennett, E.A. Delaney Jr., LaDawn Long, Mary Lou Bueche, Peggy Barker, Merle Coulette, Bill Bibby, Ray Bass, Wallace K. White.

April 29 - Kathryn Jordan, Lillian Ashurst, Tim Massey, Buffi Car.

April 30 - Mary Jean Reddick, Melba Barringer, Connie Tillis, Richard Enoch Biets.

May 1 - Gina Bradberry, Joe H. Townsend.

May 2 - Dot Childers, Diane Antley, Rosalind Bryant.

May 3 - Blanche Brantley, Steven Antley, Glenna Tomlin, Jackie Carroll, Gay Crews.

May 4 - Richard Ferguson, Viola Carlisle, J. T. Landress, Elmer Fullmer, Terry Amick, Jill Mims.

If you have a friend or loved one who is having a birthday soon, please call us so we may add them to our birthday list.

Mr. and Mrs. Robert Anthony Ruggiero of Avon Park, are the proud parents of a son, born April 19 at Walker Memorial Hospital, weighing 8 lbs., 12 1/2 oz.

Mr. and Mrs. Donald Thomas Phillips of Avon Park, are the proud parents of a daughter, Misty Dawn, born April 15 at Walker Memorial Hospital, weighing 8 lbs., 8 oz.

Mr. and Mrs. Charlie Odell Love of Palmdale, Fla. are the proud parents of a son, born April 21, at Walker Memorial Hospital, weighing 7 lbs., 6 oz.

Mr. and Mrs. Melvin Edward Vingling of Avon Park are the proud parents of a daughter, Linda Marie, born April 6 at Walker Memorial Hospital, weighing 6 lbs., 15 oz.

## Mother's Day

Mothers receive perhaps the most surface praise and the least real appreciation of anyone in our lives. She is all too often taken for granted, her wishes ignored, her advice scorned, her feelings forgotten; until the day it is too late.

Her life is a mixture of joy, sorrow, love, comfort, pride in her children and husband and worries about their well-being. We are urged in the Bible to honor our parents and to think of our Mother as a symbol of wisdom and kindness, and it takes more than just a gift for a special occasion, such as Mother's Day to do this.

Mother's Day is May the 8th. Let us not forget that we have but one natural Mother, show her your care.

GUEST honoring Rita Rich with a linen bridal shower gathered on the patio beside the swimming pool at Laurie Rehrrer's home last Tuesday evening. From the left, Betty Rich, Maureen Murphy, Beth Ferguson, Rita Rich, Catherine Rehrrer and Vivian Rich. Not present Laurie Rehrrer.

## Rita Rich Honored With Shower

Rita Rich was honored with a linen shower on Tuesday, April 15, at the home of Laurie Rehrrer.

The party was given poolside by the brides attendants, Beth Ferguson, Betsy Rich, Maureen Murphy, Velvet Hill and Laurie.

Rita was presented with a

corsage and after opening her many useful gifts, assisted by Sara Ferguson and Maureen Murphy, the guests were served refreshments around and plant decorated pool patio.

## Camp-Cloud To Wed April 30

The marriage of Marjorie Lynn Camp and Darrell E. Cloud will be solemnized April 30, at the First Baptist Church of Avon Park.

All friends and relatives are cordially invited to attend as the couple become one in Christ.

Lynn is the daughter of Mr. and Mrs. B. F. Camp, Jr. of Avon Park and Darrell is the son of Mr. and Mrs. Hugh D. Cloud of Sebring.

# Cleared Of Wrongdoings

At a special public hearing called Tuesday afternoon, Highlands County Animal Control Officer Hollis Richards was officially cleared of any wrongdoing allegedly committed in the performance of his duties.

After hearing from nine county citizens who expressed opposition to Richards remaining on as control officer, and from 20 residents who had nothing but praise for him, the Highlands County Commission voted unanimously to "deny any request for Mr. Richards' transfer to another department."

The hearing was called after the commission received several affidavits accusing Richards of mistreatment of animals in his charge and violation of county policies.

Approximately 100 persons turned out for the hearing, the majority of whom lent support to Richards' defense. The gallery erupted into spurts of applause nearly every time a speaker finished a complimentary statement about the animal officer.

The full county commission heard the testimony presented, which was prefaced by County Attorney Robert Duntz's "ground rules."

"We will hear statements from both sides," said Duntz, "but the statements will be restricted to what you know, not what you have heard in the beauty shop or in the pool hall. We only want firsthand accounts of what you have seen yourself."

He also said that there would be no arguing permitted in the audience. "All remarks will be addressed to the board. That's the only way we're going to get anything done."

Ray Bowles was the first to address the commission, saying it was his complaint which initiated the hearing.

Bowles is the owner of "Tommy," the feline which was turned over to the pound in January after biting his owner. The cat was later given away, with no record kept of the new owners. His animal never been located shortly before it was, both Bowles and his wife would have been forced to undertake a series of anti-bark shots.

Bowles said Tuesday that when he began to seek action against Richards, "We did not intend for this to be blown into this proportion... We did not want to jeopardize his 16 years as a county employee. We did not feel he was qualified to be animal control officer, and wanted him transferred to another department."

Bowles said that when the cat was taken to the pound, "There was an inexperienced girl there, and a number of dogs running loose."

"We asked that the dogs be contained so that we could take the cat out of the car and put it in the cage... They held the dogs back for a little bit, but they did get by, and when they did, the cat scratched my wife."

"The cat was not placed in a quarantine area, and was not labeled as a quarantine case. That's why it was later given away."

After the cat was retrieved and the Bowles went to claim it, Ray Bowles said his family witnessed Richards "kick a stray cat in the head with pointed cowboy boots."

Many speakers approached the board and said they had been witness to several of the alleged "brutality incidents," and that "Mr. Richards was attempting to control the animals, not injure them."

As for kicking a stray cat in the head with a pair of "pointed toe" cowboy boots, Richards maintained that he never owned a pair in his life.

Bowles said he later talked to Administrative Assistant Charles Cullen, Richards' supervisor, who admitted that the record keeping system "had broken down in this case."

Mrs. Mary Bowles told the board the same story, saying the cat was placed in

a cage "with nothing indicating that this was an animal that could have infected other animals and people."

Robert Skipper said that the control officer "should not be criticized for putting the animal in facilities which the county supplied."

The board pointed out that improvements have been made at the pound for containment of bite cases, but Mrs. Bowles said that the person responsible for the pound should have pointed out the shortcomings to the board long before the incident occurred.

Mrs. Bowles then stated that Richards had kicked the stray cat in the head and sent it spinning across the room.

Two of the Bowles daughters also testified to the same incident, one of them saying Richards had been wearing "pointy-toed boots."

Samuel Castro, a CETA employee stationed at the animal control center, testified that he was the one who gave the cat away, but "I was told by Hollis Richards to give away any cat that I could. Everybody acts like it was my fault that I gave the cat away, but it wasn't my fault. I was told."

Castro said that it was pound policy not to record information on most cats that came through the control center, and also said that Richards had removed a dog from the pound without logging it. He said Richards later returned it when a commissioner began asking questions about it.

Robert Skipper said that the head of the department was not required to notify Castro of all his actions, but the employee said that he was "responsible for those dogs out there. You make it sound like anyone can come in there and do anything they want."

Skipper again said that Richards was not "anyone," but the head of the department.

A Lake Placid resident, Viola Hudson, said that in the fall of 1976, she had taken a stray cat to the control shelter, but the man on duty would not accept it.

"At first he said that 'We don't take cats here,' she said, 'but he later told me that he already had 11 cats and didn't want any more.' He had a very threatening and abusive manner, and told me to take the cat and get out of there."

Humane Society President Sally Gifford told the board that when Richards had been working in conjunction with the Humane Society, the "The records were a mess."

She and Humane Shelter Supervisor Jan Bellinger, recounted cases several years back where Richards was accused of mistreatment of animals, where possible rabies cases were allegedly ignored.

The commission said those allegations had been brought before the board and dealt with at the time. Robert Skipper said they should not be aired again in public, but commission chairman "Jug" Heston said all would receive their chance to speak.

Board members said the brutality charges had been turned over to the state's attorney for investigation at the time they supposedly occurred, but no charges were forthcoming.

Attorney James McCollum representing the Bowles, presented the board with a number of letters from around the state asking that the commission "seriously consider what you are doing here today."

McCollum said he was certain the board did not consider this case "a conflict between the newcomers and the old residents, or the Humane Society and the county commission, or anything like that. I'm sure that none of the commissioners will let your personal friendship enter into your decision, and I think that you should consider that he is your employee."

"If the public does not have confidence in the way he does his job, that will adversely affect what the county is doing."

The hearing was then turned over to those persons who wished to speak in behalf of the animal control officer, and over 20 prominent county cattlemen, law enforcement officers and county employees made their way to the podium to publicly state their high opinions of both Richards and his work.

Sebring Police Chief Craig Graybill sent a letter saying he personally believed Richards was "doing a fine job and was only misunderstood by a very few people."

Graybill's letter also stated that "At no time have I ever seen Mr. Richards mistreat or abuse a single animal."

Throughout numerous conflicts with dog owners over their animals being picked up have I never heard a complaint about the dog being abused."

Mayor Marshall Davis of Avon Park stated, "We have nothing but cooperation from Hollis, and have absolutely no complaints."

Avon Park Police Captain Frank Cratty said that "At no time have I or any of my officers seen any misconduct on the part of Mr. Richards. We have only had 100 per cent cooperation whenever we needed his services."

Two employees of the county Health Department, Jim Brooks and Howard Short, said they had ridden with Richards on numerous occasions and had never seen any mistreatment. However they did note several times when Richards went out of his way to administer aid to an injured animal.

Several cattlemen, including Ike Hart and Wes Davis, said they had known Richards since he was a young man and said that he could handle injured animals with more compassion and dexterity than most men.

One resident said that Richards often went to great extremes to find homes for cats, and another claimed he was just "not a mean man. He's hardworking and honest and does not have it in his character to be deliberately cruel."

Others pointed out that what appears to be brutality to some may just be the force necessary required to handle a wounded or enraged animal.

"The public does not as yet understand or accept the responsibility for the problems with which local governments are faced regarding the overpopulation of animals and the uncontrolled antisocial pet," Duntz quoted the letter. "People are quick to vent their frustrations at agencies which they label, at best, killers."

Robert Skipper said "This is a nationwide problem and I think everybody is aware of it. I have been on this board for eight years and I remember the personality clashes that have come before the board."

"I have investigated every one of these things myself and I feel Mr. Richards has done a fine job. I make a motion that we deny any request to transfer Mr. Richards."

"Buddy" Wise seconded the motion and Carl Arant, Jr., stated that the county has experienced "growing pains, and that measures have been taken to correct them."

"Perhaps the only thing Mr. Richards would be guilty of is poor public relations, but that is by far the smallest thing to be brought up. Perhaps from this he can learn to relate to the public a little better."

The motion to approve Skipper's motion passed unanimously. After the decision, Richards was congratulated and said "I appreciated all the support shown here today. I have always tried to do my best and I will continue to do my best for the county."

## Wauchula Junior Women To Hold Arts, Craft Show

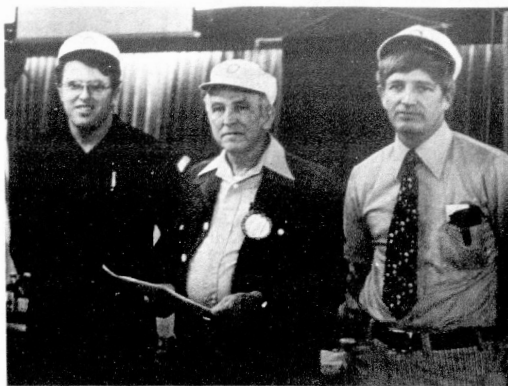

The Wauchula Junior Women's Club is holding Third Annual Arts and Crafts Show Saturday, April 30, in downtown Wauchula, at the corner of Highway 17 and Palmetto St., from 10 a.m.-5 p.m.

Approximately 30 Central Florida Artists are expected, representing all media. Some will be demonstrating their craft.

All judging for the show will be done by public ballot until 2 p.m.

Categories for judging are: representational painting crafts, and photography. Ballots and artwork will be color coded to make voting easy for all.

The Florida Phosphate Council is the show patron. The club membership during their last Wednesday noon luncheon meeting. From left: Will Warner, Brooks and last Wednesday noon Leon Garner. Sunphoto by Barbara Cornell.

PRESIDENT of the Avon Park Rotary Club for the 1977-78 year, Art Turner and Rotary Ann Marva were deeply interested in Past District Governor Mark Hollis' presentation of "The Incredible Bread Machine" at the District 695 conference in Sebring last Saturday. (Sunphoto by Lew Miller).

### Men Receive Scout Award Of Merit

The Calusa District of the Gulf Ridge Council of the Boy Scouts of America presented two of their highest awards to two Hardee County scouters during a dinner awards program last week at the Congregational Church meeting hall.

The two men, Walter Doring of Bowling Green and Bob Estes of Wauchula received the award for their work with their respective Scout Troops and for work with the district organization.

Walter Doring, a Scout Commissioner of Scout Troop 159 of Bowling Green has been active in Scout work since 1946, serving as scouting coordinator and training committeeman. He is also quite active in the Hardee County with the ReAct organization in connection with the Scout troop.

Bob Estes of Wauchula retired from the United States Army, has been active in scouting wherever he was stationed around the world. His last foreign assignment being in the Canal Zone. He is assistant Scoutmaster of Scout Troop 813 of Wauchula and is presently serving on the district scout committee.

### Grady Named To Banker's Agribusiness Committee

F. Elgin Bayless, chairman of the board of Barnett Bank at Sebring, announced that Kenneth H. Grady, president, has been appointed to serve on the Florida Bankers Association's Agribusiness Committee.

The Florida Bankers Association is the state trade association representing over 730 banks in Florida. The association, the legislative voice of the industry in matters affecting banks and their customers, is the organization through which Florida bankers accomplish banker education, inter-bank communications, and public relations.

More than 400 bankers from all areas of the state volunteer their time and efforts each year toward helping accomplish industry objectives. The Florida Bankers Association was founded in 1888 to provide a statewide organization through which commercial banks could work together to improve banking services to the public.

## 300 Rotarians Attend Meeting

With over 300 Rotarians registered for the Rotary District 695 spring conference, Rotary Clubs from Sebring, Avon Park, Lake Placid, Wauchula and Arcadia served as hosts for the three day event at Harder Hall in Sebring last week.

Registration for the conference started Thursday morning, with Thursday afternoon held open for a golf tournament for both men and women. The evening dinner was in honor of the Paul Harris fellows.

The first plenary session Friday morning included a review of legislation to come before the Rotary International Convention in San Francisco in June. The ladies had their own party with a hand meeting.

For the afternoon session the ladies had their choice of bridge, golf, tennis or an art tour. The Rotarians in their second plenary session engaged in discussions of "Matching Club Program," "the Rotary International Club Convention in San Francisco," the "Four way test program" and a presentation of the "Beverly Hills Club" by the Haines City Interact Club.

A Chuck Wagon barbecue at the Agricultural Center in the evening was followed by square dancing to James Rodgers Blue Grass Band with George Hensley, Sebring, acting as master of ceremonies.

At the Saturday morning plenary session the topics of discussion were the Rotary Foundation and Group Study Exchange Program. The ladies had the opportunity to see a style show put on by the J. C. Penney store and an old hat

show put on by Alice Morris, Margaret Collins and Neil Roberts of the Avon Park Inner Wheel Club with Anne Belle Worden narrating the show.

At the noon luncheon meeting Zenon C. R. Hansen, former president and chairman of the board of Mack Truck Co. spoke of being "Tired" of Americans with relinquishing all of their rights to the government by failure to use these rights. Hansen had spent 10 years in Germany before Hitler gained control and four months in Cuba before Castro took over the country. Hansen reported that the people literally gave their countries to the dictators.

During the fourth plenary session, Saturday afternoon, Mark C. Hollis, past district governor, told of "The Incredible Bread Machine" a free swinging unapologetic film that tries to contract the idea held by many graduates that big government will take care of all of their needs. Hollis asked the Rotarians, "How much freedom do you want?" "What is the role of big government?" and "Can big government solve social and economic problems better than individuals?"

The film was designed to get ones gears moving, Hollis told the listeners, sometimes it does it in a negative way and sometimes in a nasty way.

The film in places showed how big government actually hurt the people who it supposedly was trying to help. In the discussion that followed, Hollis told the group, we have to get up and do something about what big government is doing to us. One way to do this was by teaching students practical economics which would involve such things as doing the family grocery shopping and the reasons for making purchases.

In a report on Rotary International

Dr. Leslie S. Wright, personal representative of President Robert Manchester, told of 803,000.

Rotarians in 150 countries with 17,179 clubs. He spoke of the interest in young people and urged each club's youth service program chairman to support all worthy youth programs, along with information on the international youth exchange program.

In concluding his report Dr. Wright quoted Paul Harris as saying, "The greatest use of life is to spend it on something that will outlast it."

In his evening address, Dr. Wright, president of Samford University, Birmingham, Ala. standing beneath the district slogan "New Horizons-Helping People Helping People Help Themselves," told the Rotarians that President Bob Manchester urged the recommitment of individuals and dedication from each Rotarian to the four avenues of service. Each was urged

to stand up for his convictions as there was always the opportunity to help others less fortunate.

A man's beliefs determine his character and his beliefs equip him for acceptable service, Dr. Wright told the listeners. If a man really believes, he is faced with opportunities and responsibilities to be of service. Dr. Wright continued, he who profits most, serves best and only businesses that make a profit serve the community, the others are too busy trying to survive.

Are we doing enough in the way of service, Dr. Wright asked the group. Who needs Rotary? To this Dr. Wright stated, "Ask the people who have benefited." He closed with words from Emerson, "What a man has is a gift of God, what he does is his gift to God."

The conference ended Sunday morning with a meditation breakfast conducted by Rev. Bob Askren of Sebring.

# APCI Jaycees Help Remodel Store

Seven young men from the APCI Jaycees recently spent two days helping the Ridge Area Association for Retarded Citizens remodel the resale store in Avon Park.

Avon Park, Fla. 33825 Telephone  
453-3121

George Spivey, Edward Morin, Robert Gattis, Arthur Hamilton, Steve Stein, Gerald McCarthy, and Meri Mackey, members of the APCI Jaycees spent two days, April 18 and 19 in Avon Park helping the RAARC paint, plaster and in general remodel the resale store located in downtown Avon Park.

The store has been remodeled to allow for better viewing of merchandise which is sold to help support the RAARC. The new paint and plaster, so skillfully applied

by these young men, added greatly to the appearance of the store.  
Ridge Area President, Lynn B. MacNeill expressed sincere thanks to these young men, and to Mr. G. S. Fortner of APCI for a coordinated effort in this volunteer work for the Association.

## Russians blamed for bad winter

U.S. and Canadian scientists think Soviet experiments in weather control may have triggered the bitter cold winter of 1977.  
Weather experts in both nations speculate the Soviets are using powerful radio signals to disrupt the earth's magnetic field, which could alter the path of the jet stream winds and push Arctic air masses deep into the United States.

## Student Holiday

Highlands County school students, kindergarten through grade 12, will have a day off from school Friday, April 28. For teachers Friday will be a workday. The regular schedule of classes will resume on Monday, May 2, according to announcement from the office of the superintendent of schools, Dr. Dan Davis.

## Youth Committed To Training School

A 15-year-old Highlands County youth has been committed to a state training school after he pleaded guilty to a string of charges which made him appear to be a one-man crime wave. When arraigned in juvenile court he admitted he had committed seven burglaries, three grand

larcenies and two petit larcenies.  
Children and Youth Services (CYS) counselors said the youth had been in court on a possession of stolen property charge and in July 1976 was placed on probation in connection with that charge.  
The juvenile court docket for April 18 was a long one, 31 cases. Four of the youths who appeared had been charged with possession of controlled substance when police found marijuana in the car in which all were riding.  
Juvenile Court Judge Clifford M. Kelly directed that two of these juveniles were to be placed on probation and ordered to study a criminal law booklet.

One was placed on probation and ordered to attend group counseling sessions. These three were adjudged delinquent. For the fourth disposition of the charge was deferred for six months.  
Another juvenile who had been charged with grand larceny entered a guilty plea. Disposition of his case was deferred for one year.  
A youth who pleaded guilty to possession of controlled substance heard that disposition of his case will be deferred for five months.

## The Energy Crunch: Will It Effect Us?

put on line, furnish 65,000 to 70,000 megawatts as compared to the 850,000 megawatts produced by the nuclear plant.

The cost of residual oil, which has been reflected in higher local electrical bills and fuel adjustment charges has risen from \$1.58 per barrel in 1972, to \$12.46 in February of this year.

Fuel costs per million BTU's (British Thermal Units) range from a low of 29 cents for uranium; \$1.40; for coal; \$1.70 for natural gas; \$1.96 for residual oil and \$2.49 for light oil. The average fuel cost per kilowatt-hour delivered through the Florida Power Lines is 2.2 cents for oil, 1.2 cents for coal and 3 cent for nuclear fuel. But this does not take into consideration costs of generating plants.

With nuclear fuel costs for KWH far below that of conventional fuels, why doesn't Florida Power build more Nuclear plants? Britt replied that with licensing to build taking 10 years, the cost increases substantially between the planning and completion stage. A conventional fuel plant costs between \$200,000 and \$300,000 while a nuclear plant costs about \$600,000.

Monday of this week, the Florida Public Service Commission granted the Florida Power Corporation a \$60.7 million dollar rate hike, but \$1.36 million less than the company requested. This could bring lower electric bills by June, because the increases in rate will be offset by a reduction in the monthly fuel adjustment resulting from the use of nuclear energy.

The company has asked for a rate increase to include the cost of construction of the nuclear plant, but the Public Service Commission felt that the construction costs should not be reflected in the fuel adjustment charges. Florida Power filed a suit with the state Supreme Court to include the charge to pay for

construction costs.

The Supreme Court delayed the commission's order for two months to give Florida Power time to file for a rate increase. With the rate increase assured the company agreed to withdraw the court suit.

The power company operated the nuclear plant for 18 days in March, which were used to compute May's fuel adjustment part of the power bill. June's fuel adjustment will be made from nuclear energy used in May.

The rate hike will add \$4.84 to the average 1,000 KWH residential bill. Lowering the fuel adjustment because of the use of nuclear fuel, will keep the rate hike down to \$1.78 in May and produce the biggest saving in June. According to the commission the net savings could total \$4.60 monthly for the average residence using 1000 KWH.

With the increase granted by the commission, the base rate for 1,000 KWH used by residential customers will increase from the present \$41.91 to \$46.75 beginning in May. In June the commission said an average of \$2.88 in the company's fuel savings will be deducted from the base rate increase.

Company officials estimate an annual fuel saving from the use of nuclear fuel to amount to \$96 million, with the commission saying it could be as much as \$118 million.

But what of energy for gasoline and for the operation of cars? Locally filling stations contacted reported price increases ranging from 1 to 3 cents per gallon during the past three weeks. Some of the station operators have absorbed the price increase but one said there is only so much of a price increase that you can eat.

All the operators appeared to be in agreement that there was not a shortage of gasoline at the present time, perhaps a

transportation difficulty in getting the gas to Tampa or to Avon Park. One saw a shortage of un-leaded gasoline, because of people using it in cars that were not engineered to use the unleaded fuel.

Most station operators agreed that the proposed gas tax increase could hurt the little man the most, for the man with plenty of money would no problems and would continue driving as before.

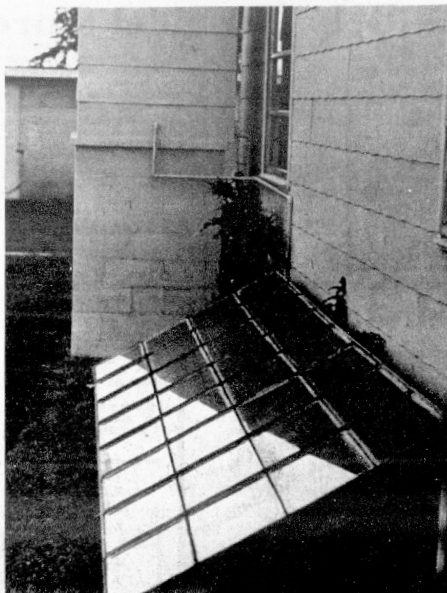

In commenting on the administration being afraid of big profits, George Borden said the "profits, for oil company's should be figured as a percent of investments, like other businesses, instead of the millions of dollars." To Borden, conservation, with a high price, was like taking from one hand, siphoning off the cream and giving it back as skim milk.

Leon Carr felt that any shortages would be to make the price go this summer. He felt that President Carter had the right idea but don't believe Congress will back it up. He was in favor of converting ships back to using coal for fuel and for removing emission controls from automobiles, because of the extra fuel that these equipped cars use.

To Lee Young, the tax increase on gasoline would get more results if it was imposed next month instead of waiting until 1978. He felt that people would be more apt to do something about their driving habits if the action were now.

Another station operator, Clement Goff, believed that this country has more oil reserves than we realize. He reasoned that just as there are many thin seams of coal under ground there are also many small pockets or pools of oil that have not been touched, because we have been skimming off the cream of the oil deposits.

In the meantime people are rigging up their own means of transportation. One of the latest has been a three wheel bike equipped with two chair seats — a modern version of a bicycle built for two.

## Work On Mall To Fix Freeze Damage

problems and rewards. Ziegler reported that one of his men suffered back injuries Monday, when his front-end loader struck a buried man-hole. Ziegler was

philosophical about the mishap, saying that although he was distressed over the injury to equipment operator Jack Eiler (minor back injury), he was glad that the

"lost" man-hole had been rediscovered. "There is no telling how long it has been buried," he said. "We looked for it a while back and couldn't locate it."

## Mobile Home Issue Heating Up

be grandfathered in under existing law and will not have to comply with the new ordinance."

City Attorney Jack Hancock indicated that the council needed to adopt new mobile home guidelines to provide

the city with more control over the parks. The matter is expected to come up for debate at the next council meeting.

## Tax Rolls In The Sun

terms with Tax Collector Landress.

come for some time, the Miami trustee said.

Land Services Inc. and half a dozen other corporations involved in development and/or financing of Orange Blossom subdivision are on the delinquent list for hundreds of lots. Taxes

Frearson pointed out that he is now dealing with only a few hundred of the approximately 400 lots Equitable holds in Highland Park Estates. Settlement of the larger part of the tax bill will not

Land Services Inc. and half a dozen other corporations involved in development and/or financing of Orange Blossom subdivision are on the delinquent list for hundreds of lots. Taxes

for 1975 were not paid but the county was able to sell tax certificates for the Orange Blossom lands. Landress will not speculate on whether all the certificates will sell or what percentage may be bid at the maximum rate of 18 percent.

## Patient Found

glasses and shoes in his room. Keen reportedly exited from his room via a fire escape.

Family spokesmen said that the elderly gentleman was unharmed and, other than a little dirt, showed no ill

effects from his romp. Keen was released from the hospital earlier this week.

## Local Banker Named To Automation Committee

Charles H. Hoke, President and Chairman of the Board, Avon Citrus Bank, announced that Robert O. Bargar, Executive Vice President, has been appointed to serve on the Florida Bankers Association's Automation and Operations Committee.

The Florida Bankers Association is the State trade association representing over 730 banks in Florida. The Association is the legislative voice of the industry in matters affecting banks and bank customers and is the organization through which Florida bankers accomplish their industry tasks of bankers education, communications, and public relations. More than 400 bankers from all areas of the State and from all size banks volunteer their time and efforts each year toward helping the Association accomplish its industry objectives. The Florida Bankers Association was founded in 1888 for the purpose of

**Robert O. Bargar**

providing a statewide organization through which commercial banks could work together to improve banking services to the public.

Bob Bargar came to the Avon Citrus Bank from the National Cash Register Company in West Palm Beach, where he had lived for 11 years and is a native of Van, Pa. With 6 years experience in banking and knowledge of the area and with computer expertise, Bargar is highly optimistic about the future of Avon Park and Highlands County.

Bargar is a member of the Masonic Blue Lodge, Franklin, Pa.; the Zen ZennZen Surine, Erie, Pa.; and the Scottish Rite Consistory, Lake Worth. He has taken various business courses at the University of Pennsylvania including financial management and accounting.

The Bargar's, Bob and Betty, have two married daughters, one son now employed and a daughter, Amy, a junior at Avon Park High School.

## Judge To Rule On Granting Ski-Mask Leader New Trial Friday

At a hearing in Bartow Friday Judge Edward F. Threadgill Jr., will consider whether Ski-Mask Gang Chief Daniel M. Thomas should be granted a new trial. On April 9 Thomas had been sentenced to death.

Defense attorneys have asked the court to determine whether the prosecution had concealed vital evidence in as Thomas was being tried for the murder of Charles Anderson and the rape of Mrs. Anderson.

representing Thomas had stressed that hair samples investigators had taken from the Anderson home and Mrs. Anderson's body did not match Thomas' hair. The prosecution had emphasized that while Mrs. Anderson had been forced to feel on her attacker's body match scars on Thomas.

The defense now contends that similar scars are on the body of another Ski-Mask Gang member, Leo Otis Martin. The defense is asking the court to determine whether the prosecution knew

this and concealed the information during the trial.

The task of legally defending Thomas is being carried by the public defender's office, but Public Defender Jack Johnson has asked the court to appoint other counsel. Johnson says Thomas is not satisfied with the public defender's office, and Johnson has recommended appointment of a private attorney. The court has had some difficulty finding an attorney for the assignment.

## Activities Planned At Library

The Dawson Room of the Avon Park City Library has opened its doors. Numerous and varied activities are planned for this new addition and the library staff encourages the community to participate in these programs.

As a start the room will serve as the spot for the Summer Film Festival for all school-age children. Every Wednesday afternoon at 1:00 p.m. during June and July there will be an hour of FREE FILMS followed by FREE refreshments furnished by the Friends of the Library.

In the fall there will be a Pre-School Story Hour Session for all young people ages 3, 4, and 5 where they will enjoy stories, songs, games, and fingerplays. There will be an afternoon each week set aside for an AFTER-SCHOOL MOVIE for children in grades 1-6. Also the Library will encourage visits by school classes every Wednesday morning from 9 - 12 noon where students learn about using the library, get a FREE library card and check out books for home use after viewing a film or hearing a story.

Every afternoon during the Winter Season there will be an hour of classical recordings played between 12 noon and 1:00 p.m. for those who would like some "musical dessert" for lunch or just enjoy a relaxing break during their work day. Once a week during the Winter Season there will be a film program for adults — FREE OF CHARGE —

featuring entertainment and educational films such as National Geographic specials, hobby instructions, great literature series, travel logs, etc. In the planning stage are FREE conversational Spanish lessons for adults, visiting lectures on such topics as Cardiopulmonary Resuscitation

Procedures, Social Security, Writing Term Papers, etc. as well as bringing authors to speak and autograph their works for Avon Park Library patrons. Doesn't it sound good? Watch the Avon Park SUN for announcements — Call your library — PARTICIPATE!!!!

**PRESIDENT OF SOUTH FLORIDA JUNIOR College, Dr. William Stallard receives a \$2500 check from Art Turner of the Avon Park Rotary Club, with \$1000 being a direct Rotary contribution to the**

Community Auditorium and Fine Arts Center and the \$2500 donation balance coming from the Dr. Hubert Coleman fund. (Sunphoto by Barbara Cornell).

## Aluminum Cans Worth 17 Cents Per Pound

Last month Sebring's ecology-minded citizens earned \$3,066.61 from Reynolds Aluminum Recycling Co. They recycled 18,039 pounds of aluminum.

The public may redeem their aluminum every Friday in May from 11 a.m. to 2 p.m. at the Sebring Lions' Den, 1200 Fairmont Drive.

Reynolds pay 17 cents a pound for aluminum beverage cans and other clean household aluminum items such as pie plates, foil, frozen food and dinner trays, flat piddling and meat containers.

Certain other items, including aluminum siding, gutters, storm doors, window frames, and lawn furniture tubing are also worth 17 cents a pound.

## Little League Parade Is Saturday

The 1977 Avon Park Little League season will get underway Saturday, April 30, with team pictures scheduled for 12:30 p.m. at Donaldson Park, a parade at 1 p.m., and the first of four games to start at 2 p.m. at the Little League Field. The parade will be led by the Avon Park Middle School Band under the

direction of Vic McKinnis. The Avon Park Police Department will provide a fire truck, the Avon Park Police Department will direct the parade, and the mayor and city councilmen have been invited to ride as honored guests in the annual parade. The eight Little League teams will march in uniform with their coaches and

the league umpires. Avon Park Little League president Henry Dennis will be on hand to take charge of parade arrangements. This year the Avon Park Senior League teams will not participate in the opening parade because their season will not start until May 17 according to

Senior League president Ronnie Jackson. New uniforms for the four Senior League teams have not yet arrived and the high school baseball season is still in progress. Also the new city ball complex is not quite complete and Senior League play is scheduled to take place on the new Senior League Field at that complex.

President Dennis urged all Avon Park baseball fans to take advantage of the Little League Chicken Bar-B-Que which will be served from the concession stand at the Little League Field at the corner of N. Azusa and W. LaGrande from 11 a.m. to 7 p.m. Proceeds will go to the financing of the Avon Park Little

League program. Coaches of the eight teams this year are: Rotary, David Brooker; Bagwell Lumber, Don Cooper; Avon Tire Co., Donald Arnold; I. H. Ford, Jim Turnbull; First Baptist, Lew I. Madi; Lions, Buddy Stinner; Kiwanis, Tom Tataris; and Avon Citrus Bank, Gordon Marshall.

## County Players Place In Special Olympics

Forty two participants in Special Olympics from Highlands County met with those of Polk and Hillsborough Counties for district contests Saturday at the Auburndale High School. "Cloudy weather prevailed but the rain held off until most of the events had been completed for a full day of track and field contests, a swimming meet, and a bowling roll-off," said Michael Haines, County Coordinator of the Highlands

County 1977 Special Olympic activities. Most contestants qualified for three individual events and one team event. Training was provided in public school special education and physical education classes and at the Ridge Area ARC's Work Center.

Bowlers rolled from high scores in a wide range of ability classes divided into age and sex categories. Thirteen Highlands County bowlers made the trip to collect six first, three second, two third and one participant ribbon.

Representing Avon Park, Mickie and Pat Toepfer and Rob Ward rated second place ribbons in their respective classes. Debbie Gallimore and Minnie Sue Reed won third place ribbons.

Of the Sebring contingent Celeste Woods, Harcourt Haviland and Reed Robinson won first in their district classes. Other Work Center clients living in Zolpfo Springs, Marcia Bishop, Catherine Gordon and Annie Ruth Peters received first place ribbons; Barbara Duffy a second and Jane Nuttmeier a participant ribbon.

In the field and track events, hastened by the threatening weather, the Highlands County group earned a total of 40 blue or first place ribbons, 10 second place ribbons and 10 third place ribbons.

## Baker Placed Third In Lakeland Race

Coach Joe Baker, Avon Park Middle School physical education instructor, won a third place age group trophy in a 3.1 mile race in Lakeland last Sunday. Baker is a member of the Highlands Runners Club.

The 19:11 clocking was a personal best for Baker. The local distance runner will participate in a five mile run in Lakeland along with other members of the Highlands Runners Club on Sunday, May 15.

## Red Devil Track Team

## Running For Triple AAA District 6 Championship At Ft Meade

The Class AA, District 6 track championship will be on the line tomorrow (Friday) starting at 4 p.m., in Fort Meade as the Avon Park Red Devils seek to outrun their district foes. Finals in the running events are set for a 6 p.m. start.

Fort Meade, Mulberry, Lakeland Santa Fe and Frostproof will join Avon Park in seeking the District 6 AAA crown for 1977. The top three individuals and relays in the district meet will advance to the regional meet which will also be held in Fort Meade on May 6. A championship and runners-up trophy will be presented to the top two district teams and ribbons will go to the top six finishers in each event.

A week ago last Tuesday, April 19, the Red Devils won the Highlands County Championship 11:21 over Sebring, Lakeland High and Frostproof, both Polk County schools, joined the action with Lakeland earning 63 1/2 points and Frostproof taking 64 1/2 points. The Devil wins over the three squads set the Avon Park record for the season at 30.3.

Alfonso Williams won both the mile (4:42) and the 800-yard run (1:59.2). He also anchored the mile relay team of Jerry McKenzie, Reggie Baker and David Williams to a season best 3:32.2 clocking.

Distance runners Jack Collins, James Hamilton, Willie Mabins, and Mark Myers also chipped in with points. Collins won the two-mile run with a personal record time of 10:27 and was third in the mile in 4:52. Hamilton was second in the mile and Mabins and Myers came in fourth and fifth in the two-mile run. Alan Fortis took fourth place honors in the 800-yard run with a timing of 2:12.

Young spring star, David Jahna, won the 100-yard dash with a time of 10.2, and ran on the winning sprint-medley relay team with Edward Dorsey, David Williams and Reggie Baker which posted a season best time of 2:54.

Charles Anderson won the other Red Devil first place ribbon as he stepped the 120-yard high hurdles in 15.0. Teammates Kenneth Burley and sophomore sensation Jim Ervin captured second and third place respectively in the same event. Ervin then edged Anderson in the 330-yard intermediate hurdles 43.4 to 43.6.

The Red Devils took the second through fifth spots in the shotput toss as Robert Packer, Edward Dorsey, Rufus Wilson and Anthony Conner got off good tosses. Alfonso Williams was the only Devil long jumper to place with his fourth place 19' 11" jump.

THE SOUTH FLORIDA Junior College Panther baseball squad in 39 games played have achieved a 25-14 win loss record for third place in the Junior College division, with six players chosen

for the Junior College All-Star team. Squad members are, from the left, front row: Bill McManamin, Ron Bolin, Larry Glass, Tommy Davis, Tom Gregory, Phil Mattair and Mike Phillips. Second row:

Charles Rycroft, Kirk Scheerhorn, Jimmy Higdon, Andy Reilly, Randy Schlosser, Matt Wilson, John Sedlock and Coach Tim Hill. Third row: Rick Harrison, Charlie Falconer, Larry

Hatfield, Rick Minnick, Keith Hendry, Mike Vermillion, Blane McDonald and Dana Waitstead. (Sunphoto by Lew Miller).

## Hike-Bike Set For Saturday A.M.

Little used bicycles being overhauled, last minute exercise cram sessions, and riders going from door to door getting pledges. What's it all about?

It's the annual "Hike-Bike," to benefit the retarded citizens of Highlands County and sponsored by the Ridge Area Association.

Riders will leave from Bill's Corner in Avon Park and from the Circle in

Sebring, at 10 a.m., on Saturday, April 30. Each rider will carry a pledge sheet containing the names of those friends, neighbors and others who have pledged, whatever amount they wished per mile of the Hike-Bike.

Each rider will also be hoping that they will be able to collect enough funds in pledges to win one of the two top prizes, a new 10 speed RAMPAR Bicycle.

Steve Jones, Hike-Bike chairman, reminds those who are kind enough to support the hiker with a pledge, to be sure when the rider returns to collect the pledge, that there is a verification on the Pledge Form, signifying that the rider did actually ride and go the full 20 miles. Jones also wishes all riders good luck in winning one of those two bikes.

## SFJC Panthers

## Lose 2-1 To Indian River

South Florida Junior College lost to Indian River Community College last Tuesday in a non-conference game at Fort Pierce, 2-1. SFJC outbatted IRCC, 7-3, but could not

push across the needed runs to secure a victory.

Mike Vermillion started on the mound for SFJC and took Vernum, from the fourth game, the loss to make his season record 5-3. He allowed two runs Mike Phillips, Kirk Scheerhorn

and Andy Riley set IRCC hitters down in order. However, SFJC hitters could not produce the runs and the game ended 2-1.

Following The Manatee Game SFJC Coach Tim Recaps The Actions Leading To The Victory Last Week (Sunphoto by Lew Miller).

## SFJC Splits With Brevard

South Florida Junior College traveled to Brevard Saturday for an all-important doubleheader. SFJC needed to win both games to insure a spot in the State Tournament.

The Panthers came away with only one victory, a 4-0 win following a 5-2 loss in the first game. The Panthers now must hope Florida College defeats

St. Petersburg. A St. Petersburg win puts them into the State Tournament. A St. Petersburg loss to Florida College forces a best of three play-off with the Panthers for the berth.

SFJC has one game remaining, a non-conference game at home with Seminole this Thursday at 2:15. If a play-off is necessary to determine a

State Tournament berth, it will be SFJC against St. Petersburg at Manatee J.C. on Friday night, April 29, and Saturday, April 30, at 2 p.m.

At Brevard, SFJC was victim of four-run uprising in the fourth inning as Brevard hitters collected five of their seven hits in the fourth inning. SFJC accounted for single runs in the fifth and seventh, but they were not enough to overcome Brevard's lead.

In the second game, John Sedlock shut down the Brevard hitters on three hits as he picked up his fourth win against three losses on the season. Larry Glass provided all the rts for SFJC as he powered a grand slam home run in the fourth inning to give SFJC a 4-0 victory.

THE AVON PARK High School boys track team earned another trophy as they won the Heartland Conference

Championship in Boys Track, 1977, last week. From the left: track coach Ch. Bretz, Charles Anderson, co-captain;

Reggie Baker, Alfonso Williams, co-captain and Harry Williams, coach. (Sunphoto by Lew Miller).

SENIOR MEMBERS OF the Avon Park High School Red Devil varsity baseball team will play their last game of the regular season here at Head Field

tonight against the Palmetto nine, at 7:30 p.m. From the left, front row: Jim Johnson (41), Buddy Hunter (13), Mort Jackson, (4), Joe Gallimore (19) and

Dale Sisemore (12). Back: Steve Arnold (11), John Mickunas (9), Eric Longshore (11), Billy Young (20) and Freddie Moore (14). Sunphoto by Lew Miller.

### Red Devil Team

## Host Palmetto Friday And Tourney Wednesday

Coach Ronnie Jackson's Red Devil varsity baseball team will play its last regular season game tomorrow night (Friday) here at Head Field against a tough Class AA Palmetto team starting at 7:30 p.m. The Avon Park team will host the Class AA, District 13 tournament here at Head Field starting next Wednesday, May 4.

Pairings for that tourney will be announced this coming week-end but Avon Park expected to draw the number one seed with Santa Fe against the number two seed, Mulberry, Frostproof, Lake Placid and Fort Meade will also compete.

Last Tuesday afternoon the Red Devils took their 18-4 record to Bartow for a 4 p.m. game with the Class AAA Yellow Jackets. Victories over Frostproof and Haines City last week advanced the Avon Park season record to 18-4 including the Alumni game. The four losses were to Hardee, DeSoto, Lake Wales and Sebring but the Devils defeated each of those teams once during the season.

Avon Park 10 — Frostproof 0  
Last Tuesday night a week ago, April 19, the Avon nine closed out its district

competition with a 10-0 win over Frostproof in a five-inning game here at Head Field. The Devils posted a perfect 8-0 record in district play this season defeating Mulberry, Frostproof, Fort Meade and Lake Placid twice each.

Steve Arnold racked up his seventh moored win against one defeat as he tossed a one-hitter at the Bulldogs. The senior righthander was relieved in the top of the fifth frame by Jimmy Massey who finished out the game giving up one more hit, but striking out three batters to assure the win. Arnold fanned seven batters during his four full innings of pitching.

Last Tuesday afternoon got only four hits off Bulldog hurler, Eddie Merritt, but took advantage of 8 walks and some good baserunning to score the ten runs in just four innings at the plate. Mort Jackson, John Mickunas, Victor Roberts and Buddy Hunter all rapped out a single in the shortened game.

Avon Park 8 — Haines City 2  
Last Thursday afternoon in Haines City, the Avon Park Red Devils handed the Class AAA Hornets an 8-2 defeat and senior righthander Billy Young posted his sixth mound victory of

the season. The fastball hurler gave up a double and four scattered singles to the Hornet batters in the seven inning game fanning eight. He walked only one batter.

Dale Sisemore, Devil centerfielder, led Avon Park's twelve-hit attack on two Hornet pitchers with three singles. Designated hitter Victor Roberts slammed out a double and a single, Larry Jackson came in off the bench in the sixth and boomed out a triple in the top of the seventh, and Larry Pough, Jim Johnson, and Steve Arnold had two singles each for the Red Devils.

After twenty-two games played Charlie Pough was leading the Red Devils at the plate with a .419 batting average, 22 runs scored, and 12 runs batted in. Catcher Mort Jackson had a .331 average with 30 scored runs and 19 RBI's.

John Mickunas was in third place with a .328 average, 18 runs scored and 14 RBI's to his credit. Junior Victor Roberts led the team in RBI's with 26, had a .322 batting average and had scored 17 runs. Victor is used in right field or as a designated hitter.

## District Golf Tourney Starts Thursday At Sun'n Lakes

Coach Fred Sandlin and the Avon Park high school boys golf team will host the seventeen-team district golf tournament here at the Sun'n Lakes Golf and Country club course today (Thursday) starting at 8:30 a.m.

It is the first time Highlands County has hosted the big district tourney. Avon Park, Sebring, and Lake Placid will be competing along with defending champion Zephyrhills. The top team and

the medalist will earn a berth in the state boys golf tournament at Sarasota.

The Winter Haven Blue Devils are the meet favorites. They will send Tom Glister, Brian Swain, Richard, Mark Warren and Charles Daube Jr. out to battle with the seventy or eighty players in the tourney. There is no class distinction in district or state golf competition so small schools will be

going against teams for Class AAAA schools.

Last year's medalist Bill Belk of the Lakeland Dreadnaughts has graduated so the fight will be on for low score on the par 72, 7,002 yard course at Sun'n Lakes. Some top prospects for medalist this year are Lakeland's Tim Calhoun, Kathleen's Greg Ellis and Tim Keeney, the Winter Haven players along with Avon Park's John and Pete DuPriest and Kevin Janiga of Lake Placid.

## 28 Baseball Players Drafted For Senior League

There were 28 baseball players drafted last Friday for positions on the four Avon Park Senior League baseball teams. The thirteen, fourteen and fifteen year old players were picked from a large group of prospects for the summer league program after tryouts were held several afternoons last week.

Coach Jimmy Hart of the Avon Paint and Body team chose six players to fill out his fifteen player roster. All six picks were thirteen year olds. They were Jeff Brock, Kenny Cribb, Jim Marcum, Joe May, Ricky Norris and David Roberts. Returning players on the A P & B team are Fred Hart, Randy Elder, Wayne Lewis and Steve Thompson. As fifteen year olds, and Ricky Derkman, Tim Cribb, Chris Collins, Sam Barnes, and Mike Shorkey as fourteen year old players.

Coach Johnny Barnes of the newly sponsored Kopta and Bennett Builders team had to fill eight positions on his roster. Barnes is new this year also to the former J. A. Wise Plumbing squad. Added to the squad will be Alvin Comer, Ronnie Barnes, Larin Ellis, Tommy Hipps, Ricky Oates, Jody Johnston, Daryl Walford, Darren Kopta or Todd Bennett. Returning players are Johnny Barnes, Tim Minard, Kelley Graham, Jeff Adams, Dennis Tondee, Alan Liskey and Dennis Barefield.

The Avon Citrus Bank team picked up a new coach, Clark Jackson, and also drafted eight players. Former coach Johnny Elder will assist Jackson. Thirteen year olds picked up were Dwayne Council, David Jackson, Kevin Caldwell, Jeff Heckard and Terry Fortis. Fourteen year old Charlton Weathers and fifteen year old Larry Jackson were also drafted. Jackson will be looking t

several other players before making a final decision on the eight additions. Former members of the team who will return are Bubba Stalling, Jacques Thomas, Robert Williams, Jeff Caldwell, Gerald Jones, Mark Myers and George Wyche.

The defending champion McCann and Sons Ford team will be coached by Jim Sisemore and assisted by David Johnson. They picked up Darwin Ford, Erdley Bent, Tommy Turnbull, Walton Tockton, and Warren Moreland as fifteen year olds and Charles Sigler as a fourteen year old. Returning members of the championship team and David Sisemore, Gary Roberts, Jimmy Brown, David Hardy, Henry Taylor, Terry Kelley, Jerry Jones, Troy Brown, and Ricky Johnson.

League play is tentatively set to start May 17 at the new Senior League Field at the City Ball Complex. Games will be played on Tuesday and Thursday nights at 6 and 8:15 p.m.

### Range Open On Weekend

The entire recreational area will be available for camping beginning at 7 p.m., Friday, April 29, and closing at 8 p.m., Sunday May 1.

As always, all personnel wishing to utilize the Airforce Recreational Area will be required to check in and out with the Air Force Security Police located in Building 425 approximately 1/4 mile past the main entrance of the Range on State Road 64.

All interested persons are urged to confirm these times prior to arriving at the Range by calling 452-4195.

RED DEVIL GOLFER Bill Tharp will be playing in his last high school golf match in the District tournament today (Thursday) at the Sun'n Lakes golf course off of U. S. 27 south of Avon Park. Sunphoto by Lew Miller.

# Elementary School Taught Water, Safety By Coast Guard Auxiliary

Students at Avon Elementary School and Hopewell will enjoy safer boating and swimming this summer. Mrs. Katherine Thomson, Commander of the United States Coast Guard Auxiliary, Flotilla 85, of Lake Placid, presented a cartoon lesson, "Water, N Kids" to the students on Thursday, April 21.

"Dumb Sam," the main character in the filmstrip demonstrated all the wrong ways to behave while swimming or boating. The students were involved by recognizing the unsafe actions of "Dumb Sam."

Approved Coast Guard life jackets, or personal flotation devices, were demonstrated on children. They learned how very important having a life jacket fitted for the person wearing it can be in saving a life. The students were particularly interested in learning that the type of device worn by many skiers is dangerous. The proper equipment is a special skiers jacket.

The Coast Guard Auxiliary is always looking for new members. Membership offers an excellent service opportunity as Auxiliarists patrol marine events and

assist boaters in distress. Many are active in the Auxiliary's Courtesy Motorboat Examination program, or in advanced membership training and teaching safe boating to the public. Any U. S. Citizen, 17 years of age or older, who owns at least 25 per cent of a motor boat, yacht, aircraft, or radio station, or who has special qualifications, may become a member.

The response from the students indicates they wanted to learn and that they will be aware of safe water recreation behavior.

Katherine M. Thomson, Commander of United States Coast Guard Auxiliary Flotilla 85, Lake Placid (above) and Mr. and Mrs. James O'Brien, also of Lake Placid, visited Avon Elementary's kindergarden, first and fourth grade to explain about boating safety. They showed slides and discussed with the children about wearing personal flotation devices when boating. (Sunphoto by Barbara

## Two Named To Civil Rights Commission

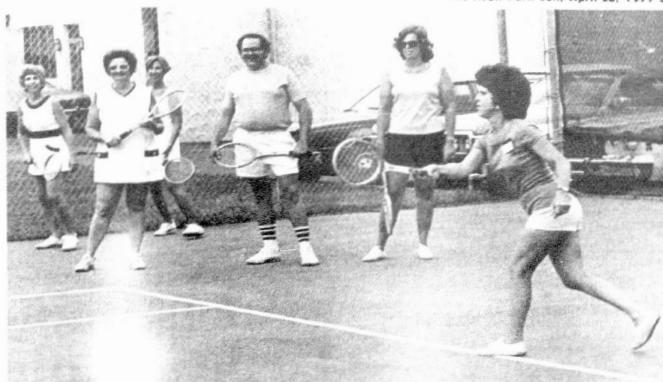

A Highlands County resident and a legislator representing part of Highlands County are among the persons named for new two-year terms on the Florida Advisory Committee to the U.S. Commission on Civil Rights.

James Upchurch of Sebring is a new appointee and Mary Ellen Hawkins of the 8th District of the Florida House of Representatives, is beginning her second term.

The members of the committee are appointed by the U.S. Civil Rights Commission to assist in factfinding and investigative work. Committee members, who serve without compensation, are selected for their expertise and interest in civil rights issues.

Upchurch is rural housing director for the American Friends Service Committee and a nationally known expert in the field of low income housing. He is director of the Rural Housing Alliance and Florida Rural Legal Services. He headed the editorial team for two books on rural housing, the one about Florida is entitled, "Catalog of Misery."

Mrs. Hawkins a former Congressional aide and newspaperwoman, is in her second term in the Florida Legislature.

DURING THE ROTARY District 495 Spring Conference at Sebring, Rotarians and their Rotary Anns had the opportunity to take professional tennis

lessons. Taking advantage of this opportunity were, from the left: Nancy Hensley, Sebring; Margaret Collins and Becky Ferrans, Avon Park; an

unidentified couple from Ormond Beach and Judy Britt, Avon Park. (Sunphoto by Lew Miller).

## Avon Park Golfers Place Second In Heartland Conference At Sebring

The Sebring Blue Streak golf team won the 1977 Heartland Conference golf championship last Monday afternoon at the Harder Hall Course in Sebring as Mark Barnhurst shot a 73 to lead his team over the other four entries. Avon Park came in second with a score of 327, fourteen strokes behind the winners who totaled 313 for the par 72 course.

Lake Placid finished third with a 331 score, Hardee was fourth with 337, and

Okeechobee came in fifth with a 348 for the four-player squad. Six top finishers won All-Conference honors. Barnhurst, John DuPriest, John Whitehead, Elgin Bayless III, Pete DuPriest, and Kevin Janiga were the 1977 top conference golfers.

The Red Devil squad was topped by John DuPriest who shot a 75. Pete DuPriest finished with a 77, Bill Tharp came in with an 85 and Mark Palmer

carded a 90 on the tough Harder Hall Course.

The Avon Park team will host the District Meet at Sun 'n Lakes Golf and Country Club today (Thursday) as teams from all over the area compete for a shot at the state title. There is no class distinction in district golf play. Winter Haven is the pre-tourney favorite and Zephyrhills is the defending champion of this district.

## Radiological Monitoring Classes Scheduled In Highlands County

In Florida each year over 50,000 shipments of radioactive materials cross the state. With this in mind, a nuclear incident in this county becomes more of a reality and possibility. The threat of nuclear attack on this county is small but the consequences would be catastrophic should it ever occur.

Radiological monitoring classes will be held starting May 2, at the Highlands

County Emergency Operating Center (Civil Defense). Three 16-hour courses will be offered: Monday and Tuesday 8 a.m.-6 p.m. Wednesday and Thursday 8 a.m.-6 p.m. and Monday-Thursday 7-11 p.m.

Interested parties please call 385-6133 and advise which class would be convenient to attend.

## Poor Sports Hurt Everyone

By HARVE KOLLMAN

Most Good Outdoors sports persons like the testing of their sight and nerves with a firearm. Shooting a gun has been a major sport as well as a means of livelihood for many of our ancestors in the past as well as for us now. It is considered a patriotic art, also.

The above photo is self-explanatory. It is not hard to believe that kind of a shot who will go forth with a gun and blast away at property not his own — and particularly public property just has to be a bit on the depraved side.

Just off of the picture and to the right is a home, that could have taken the bullet meant for this sign. A ricocheting bullet could have been deadly for an innocent person. A ricocheting bullet to the body of the shooter could have been a public blessing. In the field beyond the shot sign were several feeding cows. These senseless acts do carry stiff penalties, when the senseless person is caught destroying personal or public property. In the case of a person showing into telephone or electric

transmitting equipment, fines go up to \$1,000 and up to a jail sentence of 3 years or both.

Catching human slugs at this kind of destruction is often hard to do. Catching them on a camera film would be a wonderful accomplishment, first to use it as evidence against the shooter, secondly, blowing up the photo to 1/4 page size so some really good publicity could be passed out to such a would be outdoorsman.

Who hunters who live by the rules of good sportsmanship and fairplay should make to effort to ferret out these sort of guys and put 'em away for awhile.

Another shot about 'gun control' recently came to light, in a survey made among teenagers. It was noted that fully 1/4 of the males (up to 21 year old) did not know that a person using a gun to commit a serious crime, whether anyone is shot or not, can be put away in the 'booby hatch' for up to a 3 years to life sentence.

Many of us believe that when a criminal is found guilty of any crime, the judge should

spell it out to every criminal, that this state definitely has a 'death' sentence law and sooner or later, if the culprit does not 'straighten up' could find himself in the 'HOT SEAT'.

Its sickening for most of us good hunters and sport shooters to continually see and read about murders going free to possibly commit further crimes among people that are dear to us. Its time we

legitimate and sporting shooters took a solid stand against murderers, even if we have to pull the triggers against them, as per the State of Utah.

## Efforts Being Made To Save Polar Bear

Now who ever saw a polar bear in Florida? I mean a real live one? In the wild?

The answer, of course, is no one.

Below is a story that shows to what extent this big beautiful animal is being saved from extinction. In a few weeks, as I go north to my camp, I could ask almost a like question to folks around Lake Superior, 'How many of you folks have ever seen an alligator or an armadillo in the wild? We know that the answer would be that no one in that North country ever saw a gator or 'dillo there, and most probably never even saw a picture of an armadillo.

Most of us here have seen many 'gators and armadillos. Many folks (who do not love the 'outdoors' think the only armadillo and gator, should be a dead one. What a selfish thought and ignorant way to think about beings that are about two of the most interesting animals in the world. I still like to see them — anytime I go out. Have seen (gators) not so far away when I have been wading, I stepped on a small one, one day as I was launching a boat, on a cool spring morning. Of course it was in dormancy — sleeping.

All of our birds and animals and fish too, have to be thought of as being benefactors to mankind, we must learn to live with them and appreciate them. Certainly it is the same with the polar bear, by now it could have been a 'No More' animal and what a tragedy that would have been for such a thing of beauty.

The world's polar bear population — the subject of intense study for the past several years — appears stable with a conservative estimate of only 20,000 animals worldwide, the Interior Department's U. S. Fish and Wildlife Service reported to Congress recently.

The greatest threat to these bears is posed by oil and gas exploration, drilling, and extraction on the North Slope of Alaska. Human activity in and near denning areas could cause fewer bears to come ashore to den and, therefore, den on the sea ice. It could also prompt mother bear to desert land dens earlier than normal, taking cubs to sea prematurely. Oil spills from offshore drilling rigs or tankers could reduce the insulating value of the bears' fur as well as damage the chain below these carnivores. There is a potential for development along the entire North Alaska coast from Point Hope to the Canadian border.

This information was published in the Administration and Status Report of the Marine Mammal Protection Act submitted to Congress in late 1976. A limited number of copies are available to the public by writing to the Director, U. S. Fish and Wildlife Service, Washington, D.C. 20240.

Polar bears occur only in the northern hemisphere in association with Arctic sea ice at six isolated localities in the polar region and including the territorial waters of the United States, Canada, Denmark, Norway, and the Soviet Union. Even waters so far north these bears today carry traces of mercury, DDT, and PCB's.

Protection afforded the polar bear varies in the United States, the Marine Mammal Protection Act of 1972 transferred management authority for polar bears to the Federal Government and limited the kill to Alaskan coastal Eskimos for subsistence or for manufacture of traditional native articles of clothing or handicraft. At request by the State of Alaska

for return of management authority for polar bears is now under review by the Interior Department. The plan proposed by the state would allow both recreational and subsistence hunting.

The Soviet Union has not allowed polar bear hunting since 1966. Norway stopped hunting in 1971 and enacted a 5-year moratorium on all killing in 1973. In Greenland only Eskimos or long-term residents may kill bears using traditional ground hunting. In Canada since 1968 hunting has been regulated with quotas.

The annual world harvest of polar bears was estimated at about 900 during 1975. Heavy ice conditions around St. Lawrence Island and the northwest coast of Alaska brought more bears within reach of Eskimos last year and 150 to 180 were killed. The Canadian kill was 600. Greenland residents took 125 to 150. The Soviet Union allows 10 to 15 cubs to be taken each year for zoos.

In November 1973 the five polar bear nations drafted an Agreement on Conservation of

Polar Bears to allow bears to be taken only in areas where they have been taken by traditional means in the past. Further, it prohibits the use of aircraft or large motorized vessels in taking bears.

The agreement calls for national and cooperative international research and management of polar bears. This agreement was ratified by the United States Senate on Sept. 10, 1976.

In 1975 and 1976, American and Soviet scientists met in Leningrad and Moscow to develop long-range research goals for marine mammals. Various research programs have been initiated by the Fish and Wildlife Service in the past year, the most ambitious of which is to conduct satellite tracking of radio-collared bears to document their distribution, migration, and denning patterns. Work is also being done on a telemetry device to be attached to the radio collar so that accurate physiological data such as body temperature and heart rate can be monitored from afar.

## Seafood Program Is Being Presented

Southern seafood lovers will soon have an opportunity to learn more about how their favorite deep-sea delicacies get from the net to the dinner table.

A program designed to acquaint consumers with the procurement, processing and shipment of Florida seafood is being sponsored by the Department of Natural Resources in cooperation with the state's seafood industries. O. B. Lee, DNR marketing specialist, said a Panama City television station will be the first to carry the program scheduled for broadcast later

this month, Lee said. "We are coordinating this program with Florida seafood industries to try to familiarize the public with all that is involved in supplying seafood," Lee explained.

Initially, the program will consist of taped radio and television interviews with representatives of the state's various seafood industries to be broadcast locally, Lee said.

In addition to net-to-table information, Lee said the programs will also address rules and regulations governing commercial fishing and marine conservation

POOR MARKSMANSHIP AS well as bad sportsmanship along the trail is clearly shown by this shot up stop sign. (Sunphoto by Harve Kollman)

## Weather Is Blessing For Us In Disguise

How often have you had a trip planned to Sea World, Disney World, a picnic, or any other outdoors activity and you wondered what the weather would be?

Generally the weather does have regular patterns but now and then good old Mother Nature steps in and crosses us up — and for the good of all of us.

Several times this past week I have listened to radio commentators, while they are making talk say that with a report of rain in the offing, it is an 'icky' day. Often when we have fog in the early morning, a broadcaster will remark it's a terrible 'blah' morning, almost as if the end of the world would come about.

Little do these folks know, that without that rain in the offing, our land becomes dry and if we don't get that rain — we don't get anything to eat. That moisture, that is in the fog, is a very important situation in our well-being. The windy day, that now and then chills us, that we complain about is needed to limber up trees and help the growing process.

So if a little rain, wind, fog and other weather factors don't suit you, because it might put a damper on your picnic, or so important golf or tennis game, etc. remember it's the best thing ever, we humans don't have much to do with determining our weather. But below are a few factors, you can put together, that will help you, most of the time in knowing what the weather may be in our vicinity.

Temperature usually rises about 20 degrees, from the sunrise reading, to your thermometer to the afternoon's maximum. For instance if you have a reading of 90 degrees at sunrise, chances are the afternoon temperature will be in the 90s.

If there is dew on the grass in the early A.M. chances will be that we have little or no rain for the next 8 hours. Fog the same way — with — with an early morning fog, there will be no rain for hours or more.

Most of the time, when heavy clouds look like we could get heavy rain, if a heavy wind comes up, we'll get at the most, just light showers. An absence of bird activity and flight, often denotes some rain will fall, soon.

The best forecaster still is the 'eye' who works for the U. S. weather service, but the fellow that gets the info: out to the radio and TV weathermen, then the local weather man put it together for local forecasts. Of late years the satellites and radar screens have allowed us to forecast weather very accurately.

For tornadoes and hurricanes and the tracking of them, this scientific forecasting has helped us not only in the U. S. but all over the world, and how thankful we should all be for this development — and how

thankful we should be too, that most of our Highlands weather WISHERS don't have much to do in setting our weather patterns.

One of my little weather secrets, is about the guy — or gal, who is continually kicking about the cold weather. That same kicker always complains about the heat, too. As they complain about the wet day, a day of two later they'll make a fuss about the sunny dry day. Just smile and say your good

mornings — and mean it. Your breathing aren't you?

Definitely be a weather watcher when you are out fishing — or boating on a lake. You in a boat, are higher than any place on that level surface. Lightning usually strikes at a higher point. So at the least hint of a thunder storm get to shore in a hurry. On shore never get under one single tree. Protect yourself where there is at least a clump of trees.

## Computer Used To Fight Insects

Hundred of chemicals are being run through a computer in Washington to determine how they are used to fight insect pests across the country. Information on pesticides from all over the U.S. is being systematically 'banked' in the computer. Now, seven states, including Florida, are reviewing print-outs on

pesticides to standardize the information and procedures of the program. Soybean, barley and asparagus crops are being reviewed at this time.

"This is the first national computerized information program to be developed," said Dr. Richard Lipsey, Please turn to Page 5B

# Computers Used To Fight Bugs

University of Florida Institute of Food and Agricultural Sciences (IFAS) entomologist and coordinator of the program.

One of the reasons the program is being developed is for nationwide pesticide use survey. Pesticides labeled for specific pests and crops will be cataloged in this computer data file. The U.S. Department of Agriculture (USDA) will use the information for an immediate response to allegations made by the Environmental Protection Agency (EPA) against important pesticides. This benefit data will be used by the USDA in the National Pesticide Impact Assessment Program. Such information now takes months to obtain. In addition,

the program will help to determine which states have data to support pesticides used on minor crops and commodities.

"Florida will be one of the first states to hook up with the computerized program,

hopefully in August," Lipsey said. "Later, all states can interface with the system, forming a nationwide pesticide computer information network."

The program is being developed by an ad hoc

committee of representatives of the USDA chaired by computer expert Hal Lemmon. Dr. Lipsey is the pesticide expert on the committee.

"Extension specialists, county Extension agents and state and federal agencies

involved with pesticides in Florida should have access to the USDA system if they have a computer terminal," said Lipsey, who also serves as Florida's pesticide chemical coordinator. The terminals cost about \$1,800 each.

The USDA has allocated about \$300,000 to support pesticide assessment teams in the states. An additional \$1.8 million will be given to research projects needed to develop information on the benefits of pesticide use.

## Top Class Scholars Honored

Kim Charleville and Lawrence P. Greene of Avon Park have been named the outstanding scholars of the spring graduating class at South Florida Junior College. They have compiled the highest accumulative grade point averages among sophomores.

KIM CHARLEVILLE

Kim is the daughter of Mr. and Mrs. Preston Charleville of 141 North Lake Avenue. She was graduated from Avon Park High School in 1975 where she was a member of the National Honor Society, Keyettes and High Q Team.

She received the Algebra I Award, was named in Who's Who Among High School Students and was salutatorian of her class. Kim is a member of Phi Theta Kappa, national honorary fraternity, at South Florida Junior College and will be graduated summa cum laude.

Kim will be married on June 4 to Gerald Godbee Jr. of Sebring.

LAWRENCE P. GREENE

Larry is the son of Mr. and Mrs. Bernard J. Greene, Rt. 2, Avon Park. While attending Avon Park High School, from which he was graduated in 1975, Larry was a member of the National Honor Society, Key Club, Annual Staff and High Q Team.

He served as the Avon Park High School Band Captain and received the Algebra II and Band Director's Appreciation Awards. Larry was a senior superlative, was named in Who's Who Among High School Students and received the Junior Women's Club scholarship. He also played on the tennis team.

At South Florida Junior College, Larry is the Vice-President of Phi Theta Kappa, national honorary fraternity, and the Treasurer of the Student Government Association. He will receive his degree magna cum laude. His plans for continuing his education as an engineering major are indefinite.

Michael Furr, son of Mr. and Mrs. Rex Furr, Avon Park, who is an associate in the architectural firm of A. Ernest Straughn, designed an annex to the Lakeland City Hall in 1973. Recently the Lakeland firm of A. Ernest Straughn received a

## Michael Furr Receives Merit Award For Outstanding Design

The Lakeland firm of A. Ernest Straughn has received a merit award for outstanding design for its work on an addition to Lakeland City Hall. Michael Furr, son of Mr. and Mrs. Rex Furr, Avon Park, an associate in the architectural firm of A. Ernest Straughn, was the designer of the project.

The third floor annex was added to the rear of the building in 1973 at a cost of \$410,000. It provided additional space for the city manager's office, attorney's office, the mayor and general services director.

The merit award was presented as a joint effort of the Florida Central Chapter of American Institute of Architects, the Associated General Contractors, the Producers Council and Construction Specifications Institute to recognize outstanding design in a seven county area.

### Banquet To

### Be Held At Congregational

The Women's Fellowship of the Union Congregational Church, U. C. C., will hold its annual Mother-Daughter Banquet on Wednesday evening, May 4, at 6:30 p.m. in Fellowship Hall.

Dinner will be served by a committee with Mrs. Lou Grose and Mrs. Daisy Walling, chairpersons.

Reservations should be made by Monday evening, May 2, by calling, Mrs. Mary Ziegenfuss (432-2020) or the Church office (433-3345).

The Evening Circle of the Fellowship has planned an interesting program. Mrs. Fred Oberst will bring her Doll Collection and present a program.

### Episcopal

### Women Have Suppers

The Episcopal Church of Avon Park is having a series of Covered Dish Suppers through the summer months.

These events will be held on the first Wednesday of the month, and the first one will be held Wednesday, May 4th.

Evening prayer will be held at 6 p.m. and supper will be in the Parish House after the service.

Members are asked to bring a dish to pass and their own table service.

Tea coffee and juice for the children will be provided.

It is hoped many members will make this a looked forward to event, and keep the first Wednesday evening open, to enjoy a nice meal and a pleasant time with fellow members of our church.

The jury said the third-floor annex "is an excellent addition to an old Spanish eclectic municipal structure, that makes its own contemporary statement yet is in harmony with the original building."

Said Furr of the addition: The annex built 16 years earlier was not sympathetic to

## Love Feast Held At Methodist Church

Wesley Hall, First United Methodist Church, was the scene of a Love Feast which was a delightful surprise party for two couples, Wednesday night.

The tables had flowers and ferns down the center of the white cloths. The focal point of the decorations was a Money Tree. Strangely enough, every one wanted a cutting of it to try to raise one.

When everyone had enjoyed a multiple choice of foods, Rev. Williamson asked Pauline and Cliff Smith to stand up.

The Smiths were a bit surprised as they had been told the Oliviers were being honored. As a tribute to years of faithful service in the church, they were presented a silver platter, inscribed, "We love you Pauline and Clifford, FUMC April 1977."

Next the Oliviers were asked

## Circles Of Love Theme For Lady Of Grace Women

The regular monthly meeting of Our Lady of Grace Women's Guild was brought to order at 1 p.m. Thursday, April 21, with a devotional given by Mary Ann Wade.

The regular reports were given, along with a reminder of the 9th annual convention being held in Daytona at the Holiday Inn Seaside. There will be workshop seminars on Birth and Family.

Archbishop Ed McCarthy of Miami will be attending the convention. The theme this year will be "Circles of Love", as being God, life, and family. The Guild's guest this month was Mary Ann McGovern, a Sister of Loretto, from St. Louis, Missouri.

She has taught school and worked with the United Farm Workers Union for 10 years as a supporter. She explained to the Guild the importance of her job to the fruit harvesters, being migrant or stationary. Her job is to go into the field and check on the workers to see that their facilities are clean, and that they have water or first aid if needed. She also explained about the difficulty the laborers will have this year since the freeze hit so hard, as for employment in the summer months.

The next and final meeting for the ladies for 1976-77 year, will be held on the 4th Thursday in May instead of the third. Therefore, the meeting will be held on Thursday, May 26th

the old city hall structure which is a landmark. Care had to be taken not to let the annex overpower the old building. Precast concrete units were used to speed construction and to keep interference with parking at a minimum. The drive-through teller windows were also changed during construction.

to stand; not once, but three times; before they recovered from their amazement. Joyce stood up with both hands pointing toward the minister, saying, "You told me the Money Tree was for the Smiths." However, they did recover enough to come forward and accept a beautifully shaped oak branch, which was literally covered with tens, fives, ones, and a twenty-dollar bill.

Also hidden back of the tree was a 5 pound English Bank Note. Joyce didn't see it, when she went up and put her money on the Smith's Money Tree. The white paper around the tree container was removed showing several familiar English scenes.

Joyce and Joe are going to visit Joyce's mother, in England, soon. This was a bon voyage party for them.

## Voice Of Youth At Academy On May 1 - 7

Voice of Youth meetings will be held by the students of the Highland Lakes Junior Academy. These meetings are presented by the high school students who are speaking out on some of the major problems of the day, that concern old and young alike. They are expressing their views on what they feel are the answers to these problems.

This informative series will begin Sunday May 1 and continue thru May 7. The meetings will begin each evening at 7:30 in the gymnasium at the school.

Highland Lakes Junior Academy is located four blocks west of Walker Memorial Hospital.

The public is invited to attend this most informative meeting.

Highland Lakes Junior Academy is located four blocks west of Walker Memorial Hospital.

## FAITH REMINDS GOOD CITIZENS TO OBEY THE LAW

Since religion teaches us to respect the rights and property of others, the good citizens of our free society will gladly obey the laws of the land, which were established to ensure the observance of those very tenets. We are well aware that these laws are working to protect our freedom, not to curtail it; and if it should ever become necessary to change or abolish a law, we can avail ourselves of the legal procedure that has been provided for the purpose. However, this is a rare occurrence, because most of our laws are in accordance with the basic rules of human conduct, as set forth in the Bible and taught by every Church denomination. By attending your own, you will learn the background for the fine system of laws to which you owe your freedom.

The law is the last result of human wisdom acting upon human experience for the benefit of the public.

—Samuel Johnson

## Keyettes In Week Of Events

The Keyettes of Avon Park High School, participated in their annual Keyette week, Monday, April 18 through Friday, April 22, with Mrs. Betty Burch as sponsor.

Monday, Mardi Gras Day, Lou Abbot (of Abbott and Costello), Marshall Dillon, housewives, farmers, old ladies, little girls, hillbillies and Beattie Bailey appeared on campus.

Scheduled for Tuesday was a softball game with the Sebring Keyettes.

Wednesday, the Keyettes honored the faculty with a tea and Key Clubbers were also invited.

Thursday was set aside for the Keyettes' service projects.

On Friday, the Keyettes presented their 4th annual talent show with over 50 people participating in individual

acts, stage crew, and stage hands.

Keyette week is only one of the many activities of Keyettes. During the year they have collected money for the March of Dimes and the Mid-State Lung Association.

They were also hosts for the South Florida Junior College Auditorium drive; had slave day for Hope, in which they earned \$140; made

Thanksgiving and Easter favors for Senior Citizens; took second place in selling Spaghetti tickets for Miracle Patio project; and also served at the dinner; served cokes at a dance for the Patio Project; and played host to the Ridge Area Retarded Children for an Easter Egg Hunt.

Their final project of the year will be election of officers and induction of new members.

LAST WEDNESDAY AFTERNOON the Avon Park High School Keyettes honored

the high school faculty with a tea in the Media Center. From the left: Sue

Nunnallee, Sherri Collier, Tami Cason, Parke Sutherland and Al Loveless, instructor. Sunphoto by Lew Miller.

### Youth Train For Gospel Ministry At Erskine

The college is people oriented, with counseling and academic programs to serve each individual. There is a student body of seven hundred, with a one to fifteen faculty to student ratio. Sixty percent of the faculty hold earned doctorate degrees.

Erskine offers academic excellence in a Christian atmosphere. Seventy eight percent of the students receive some form of aid in loans, work scholarships, or other ways.

Erskine Theological Seminary was established in 1836, and for one hundred and forty years has been training youth for the Gospel Ministry. Most of the Erskine Seminary graduates become pastors of local churches.

The purpose of the Erskine Capital Funds campaign is for funds over and above the regular operating budget. The General Synod campaign of one million five hundred thousand dollars is only one part of a thirteen million one hundred thousand campaign.

Six million five hundred thousand will be used to build the endowment from the current three million eight hundred thousand, to ten million. Six million six hundred thousand will be used for new buildings, and renovations and repairs for existing structures.

Already as of March, 1977 a total of over five million has been achieved on the thirteen million one hundred thousand goal.

## Helen Tuten Claims

## "Handicrafts-Medicine For Your Nerves"

Helen Tuten, stands holding Cinderella's Coach, one of her many designs in "Egg Art". She makes the coaches complete with a doll inside and white horses.

If you love crafts and unusual things this is your type of article.

Helen Tuten was born in Avon Park and graduated from Avon Park High School in 1936, with eight students in her senior class.

Her first job was in Ward's Store here, and then she worked as an operator on the switchboard and teletype at Ludwick Military Academy and also at Avon Park Bombing Range before and after the war.

Miss Tuten is now in her 32nd year with the Florida Power Corporation at the Avon Park Steam Plant. She started with them in 1945 as a water analyst and clerk.

In spare time, usually the evenings, she works on handicrafts.

"... It's like medicine for me. I do not take nerve pills or any other type of medication. When I work on my craft projects, it relaxes me and I love it," said Miss Tuten.

She has painted scenes on canvas in oil, acrylic and gouache. But she prefers only certain types of scenes, such as Florida tropical fruit, flowers and landscape.

At the present Miss Tuten is making costume jewelry from small chicken and quail eggs.

At one time she gave classes and had demonstrations on the art of flower arranging, Easter, Christmas and Egg decorating.

"...It's like medicine for me.

I do not take nerve pills..."

One year she displayed the Easter Parade, which consisted of bunnies, chicks, carter, etc., in the old Florida Power office (near the Jacaranda Hotel). Every thing displayed was handmade by Miss Tuten.

This past Christmas she decorated a seven foot Christmas tree with handmade ornaments consisting of bird cages, carousel balls, dolls and cars, done entirely in pink and gold. Some of her friends also added ornaments to the tree which was on display in the window of Jimmy's Flower Shop.

Miss Tuten has made patterns for Christmas yard displays. One which was used in Wauchula, was Santa in a bathing suit and all his reindeer in a pool. Santa was climbing out of the pool on one end and Rudolph was on the diving board, complete with a life up nose, ready to dive in.

Santa's sled was parked under an oak tree and all his clothes hung on the branches.

Another display, which she made her brother in Tallahassee, was Santa taking off in a helicopter, with his reindeer leaning on a fence (on the ground) holding a handkerchief and waving goodbye.

About twenty-five years ago, Helen Tuten, made costumes for children here in Avon Park to wear in the Halloween Parade. Many of the costumes were first prize.

She also worked on the Avon Park Community Fair Booth, about ten years ago. She helped plan and construct the booth for about four years. One year she used a tree with lemons, painted as dolls faces with different kinds of hats on, which was very unique.

Now, the hobby Miss Tuten enjoys the best is "Egg Art". This is decorating eggs, such as quail, chicken, goose, ostrich, and rheas.

The egg she prefers to work with is the goose. At one time she could not buy

these eggs from hobby shops and she would have to travel near and far, where ever they heard of anyone who had geese.

"I have gone to some most unusual, out of the way, places and met some particular people and wonderful people," said Miss Tuten.

After she purchased the eggs from farms, they had to be emptied of contents, cleaned, marked and cut with an electric tool.

To clean the egg, she would put a small hole in each end of it, bust the egg yolk with an ice pick, place the egg over a bowl, and then put an ear syringe on the top hole and squeeze. This will push all the contents inside, out the bottom hole.

Then, Miss Tuten, washes the inside out with Lysol disinfectant to kill all the germs. The outside is cleaned with cleanser.

When she cuts the eggs, she makes some with doors and some without. Cuts in the eggs can be made different shapes, such as oval or teardrop, just to name a few.

Miss Tuten lines the eggs with velvet and various materials. However, sometimes she paints scenes on the inside of them.

The outside of the eggs can be decorated with paints, jewels, ribbons, braids, beads, or almost any material.

Most of the materials Miss Tuten uses are imported from other countries.

The figures which she uses inside her eggs are mostly from Germany and some she makes herself.

Some of her favorites are the Cinderella Coach made from a goose egg, jewelry boxes, a church, and now she makes from quail and chicken eggs necklaces and tea sets.

She became interested in egg art in most unusual way.

A few years ago, she read in "Friends" magazine (printed by General Motors) about a lady in Indiana, who had hobbies similar to hers.

She wrote to the woman for many years and they exchanged many ideas on different hobbies. But to this day, they have never met.

The woman sent Miss Tuten instructions on painting and decorating, china eggs, into doll heads. She painted the faces on the china eggs and then made hats for them.

"...It's unbelievable how fabulous some of these eggs are decorated."

The same woman told Miss Tuten about a friend in New York State who had her own boutique shop and asked Miss Tuten to write to her.

After some correspondence with Mrs. Jean Turfner, she came to Florida the next winter. During her stay here she taught Miss Tuten, "Egg Art" and because of Miss Tuten, Mr. and Mrs. Turfner bought a winter home in Avon Park.

The past four years, Miss Tuten has attended the Egg Art Show at the Coco Plum Women's Club in Coral Gables, Fla., where people from all parts of Florida display their decorated eggs and some booths are set up to sell Egg Art material.

This first year she attended the show, she displayed some of her eggs.

"It is unbelievable how fabulous some of these eggs are decorated. They even had evening bags made from ostrich eggs that sold for \$100 apiece," said Miss Tuten.

Another one of Miss Tuten's hobbies is making dainty cards to be used for

Helen Tuten is presently making costume jewelry out of quail and chicken eggs.

enclosure or place cards out of tiny shells.

"... People think I am crazy when I go to the beach and only pick up broken pieces of shells," she said.

Through the years, Miss Tuten has donated her time to teaching crafts and making crafts for different organizations.

She taught at a Crippled Children's Home, that was once located in DeSoto City and worked with the Pink Ladies Auxiliary at Walker Memorial Hospital, where she made flower arrangements to sell in their gift shop.

At the present, Miss Tuten has been giving some of her handicrafts to patients at Hillcrest Nursing Home, for birthday parties held once a month for all patients having birthdays in that month.

She also assists with handicrafts at the home and in any other way she is needed.

Miss Tuten also uses many unusual things in her hobbies. She uses ham, tuna and sardine cans; empty tea containers; bleach bottles; hair curlers; tea balls; Florida gun scales; mustard seeds; tabs off drink cans; drift wood; and dried flowers.

Miss Tuten has given most of her handicrafts away. She has sold very few things down thru the years.

She hopes that thru her hobbies and handicrafts she has added happiness to many people, young and old, and thru these hobbies, she has helped make this world a better place to live in.

Helen Tuten made this doll for a close friends wedding.

The doll is handmade and sits on a pedestal, which is a music box.

ABOUT 25 years ago, Helen Tuten, made Halloween costumes for different children in Avon Park. Many of her costumes won first prize in the Halloween judging. This was a Christmas Tree, worn by Linda Sheppard.

be part-time, full-time, day or night, can be an excellent experience. But, before you enroll you'll want to do some serious investigating to make sure you're getting good quality education. The U. S. Department of Agriculture offers some areas to think about.

Does the school have a program and adequate faculty in your areas of interest?

Is the school accredited? Remember that there is no official ranking of schools or colleges. Academic standing is controlled by accreditation, meaning a school has met or exceeded the standards set by a competent agency.

What is the school's general reputation?

Does it offer a job placement program?

Are its facilities, such as library, laboratories, and classrooms adequate?

Does it offer a strong, supportive student personnel program?

And, if you're going to need financial assistance, remember that individual colleges and universities administer grants, scholarships and most students loans for their schools.

## On The Consumer's Side

If you as a consumer have been misled, deceived, or have questions you need clarified, call the toll free telephone number of the Florida Department of Agriculture, Consumer Services, Tallahassee: 1-800-342-2178.

Question: I am allergic to many of the dyes and additives in foods and consequently have to read carefully the labels on foods I eat. Can you tell me what the FDA is doing in relation to Yellow-dye No. 5.

Answer: The Food and Drug Administration is considering comments to (1) ban the use of the food color FD&C Yellow No. 5 in certain drugs that are intended for allergy-prone consumers and (2) require that Yellow No. 5 be identified by name in the list of ingredients, when the additive is used in food.

FDA says that Yellow No. 5, which is the most widely used color additive, cause allergic reactions in an estimated 47,000 to 94,000 persons in the U.S.

Allergic reactions include wheezing and difficulty in breathing, hives, and stuffy or runny noses. FDA also says that about one-half of the persons allergic to aspirin also tend to be allergic to Yellow No. 5.

Highlights of FDA's proposal are:

+ Instead of listing Yellow No. 5 as "artificial coloring," as is presently permitted for good ingredient labeling, the additive would be specifically identified to enable allergic persons to avoid it.

+ Yellow No. 5 is used in beverages, candy, desserts, cereals, bakery goods, ice cream, dairy products and snack foods.

Yellow No. 5 would be prohibited in all drugs that are frequently used by allergic persons, including certain categories of over-the-counter (OTC) and prescription drugs.

+ For other types of drugs that continue to be colored with Yellow No. 5 the following warning statement would have to appear on the front label: "Warning: This product contains FD&C Yellow No. 5 which may cause allergic-type reactions in certain susceptible people."

Because there is no evidence of allergic reactions to Yellow No. 5 from its use in externally-applied drugs or cosmetics, eye-lipsticks and mouthwashes will be permitted to contain the additive.

Question: I recently purchased a quart size cola drink at a local convenience store and was charged 31 cents. The cola drinks were on sale at four for \$1.00 which naturally would lead me to think the price would be 25 cents per drink. Am I right?

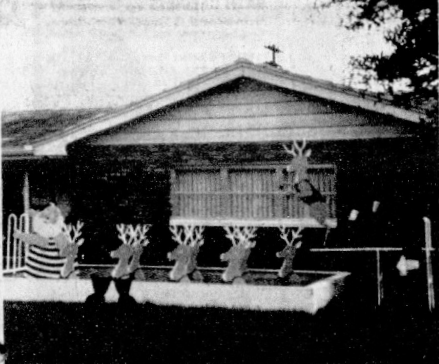

Answer: According to the Federal Trade Commission's regulations which covers the advertising of special sale items by grocery stores, if the store's advertisement says 4 for \$1.00, the customer should be able to purchase one item for 25 cents. If the advertisement says 4 for \$1.00 and 1 for 31 cents, then of course, the consumer would pay 31 cents.

Question: Are there any laws dictating the hours a salesman can knock on your door?

Answer: There are no laws regulating the time of day a salesman can work. If you are annoyed by a salesman's call, you should make your feelings known to the company involved so the practice can be stopped.

Question: I want to go to a computer training school in my area, but my parents are opposed to it. They say it's not worth the money. How can we find out if it's a good school or not?

Answer: Going to school - whether it

Helen Tuten has made patterns for Christmas yard displays. This one was Santa in a bathing suit with all his reindeer in a swimming pool. Rudolph is on the end of the diving board fixing to jump and Santa's sled is parked under the oak tree with his clothes hanging on branches.

photos and text by Barbara Cornell

## Backward Glance

by Barbara

## 25 Years Ago

Law enforcement officers had their usual busy weekend in Highlands County the race weekend that is. Sheriff Broward Coker reported a total of 174 arrests during the period.

Nancy Mitchell was elected by the American Legion Auxiliary as the Girl Stater from this district with Pam Maness alternate.

## 10 Years Ago

Charles Hart and Edgar Pabor were elected King and Queen of Hearts at the festive of May Day, celebrated on the Mall.

At total of 119,835 acres have been leased in Highlands County by Joseph G. Heych, Tampa, representing the Confidential Oil Co. (Red Triangle) of Houston, Tex., according to Harvey T. Pety, Clerk of circuit Court, in which the leases were recorded.

# Bonnie Brae Park News

By Margie Wells

Helen and Norton Worcester are back home after several weeks absence. They visited with their daughter in North Salem and with another daughter in Round Lake, Michigan. They also returned to their former home in Ripley, New York, and visited with friends there.

Their trip from Avon Park to New York was quite hectic because they encountered the big snow storm that struck the East recently and had winds of 100 miles an hour on the New York Thruway. On their way home, they stopped in Cincinnati to visit with their son. Helen and Norton both

agree that they were very happy to get back to Bonnie Brae.

Ger Bohland also returned home this week-end after a visit with her daughters and grandchildren in Chicago. One of the granddaughters was in the hospital while she was there but we are glad she is home and feeling better. Ger and her two daughters entertained with a bridal shower for her niece who is getting married. Ger also said it was nice to be back home again.

Early last Tuesday morning, Ethel and Max Putman had

breakfast with Ann Lockwood before taking off for the cold north. "Bimbo", in her special travel carrier, was full of complaints until the heard the motor start; then, she settled down for a long, long "cat nap."

On Friday evening, Lulu and Louis Potter entertained Dorothy Carroll for dinner before she left for Pennsylvania the next day. We talked with Dorothy on the telephone on Sunday and she reports that she had a good trip. Also, "Jack" seemed to do very well on his plane trip in his dog cage.

We are sorry to report that Frank Webster had a "set back" this week but is glad to report that he is slowly improving. Emily Webster had a pleasant visit this week with Nellie and Larry Brant who live on Lake Viola and with Nellie's sister, Millie Caboon, and Lou Rogers who were visiting the Brants. They were

all former Englewood friends where the Websters lived for twenty years.

Bill and Lee Henline were Thursday evening dinner guests of Rozzie and Lester Parkhurst. Bill and Lee are former residents of Bonnie Brae, and while here, they visited with all their former friends as Bill has retired and they are leaving to make their home in North Carolina.

Thursday evening dinner guest of Lulu and Louis Potter were Maude and Al Wilson, Ruby and Arnold Prall, and Lorraine Robertson.

On Saturday, Thelma Miller and Mary Male from Lake Regions Mobile Home Park had dinner in Lake Wales where they discussed plans for a "sugar" vacation this fall. We are sorry to report that Ed Drake is not feeling well after a fall this past week. We hope he will be better soon.

Dorothy Carroll were dinner guests of Margie Wells at the Jacaranda Hotel. Rozzie was the guest of honor as it was her birthday.

Ann Lockwood joined the regular pinophile group on Saturday night at the home of Mary and Cedric Weirman. Also attending were Thelma Miller and Helen Dyce.

Edna Lewis and Virgil Watson, sister and brother-in-law of P. D. Wells, stopped for a visit with Margie and P. D. on Friday. The Watsons spend the winter in Naples and were returning to their home in Ashland, Kentucky, for the summer.

On Saturday evening, Ruth Smith entertained Minnie Elserminger for dinner. Minnie is a former resident of Michigan.

The crowd at the coffee hour has dwindled some but we are still meeting and having lots of fun. Come on out and join us on Wednesday morning at 9:30!

Francis Cawthorne of Frostproof, always sits in his car in front of the Avon Park Sun to read his paper. He new and he sure enjoyed reading it.

## Parents Without Partners

On April 29-May 1, a Zone L Conference will be held in Asheville, N. C. On May 2, at 7:30 p.m., a meeting will be held on "Accepting Your Sexuality." The First Home Federal Lounge in Sebring a discussion Moderator will be Bill Murphy.

RECIPIENT OF A Rotary Club scholarship, Lou Ann Floyd (right) was a guest at the Wednesday noon luncheon

meeting and was introduced to the club by Joe Johnston of South Florida Junior College. Sunphoto by Barbara Corneli.

MRS. ESTELLE FISCHER, on behalf of the Friends of the Library, accepts a check for library furnishings from Don

Farrans of the Avon Park Rotary Club last Wednesday noon. Sunphoto by Barbara Corneli.

## Rev Handyside To Speak At Fellowship Sunday

Jim Handyside, of Clydebank, Scotland, will be speaking at Highlands' Gospel Fellowship on May 1st, 10:30 a.m. in the Sebring Lion's Club, corner of Fairmont Drive and Cleveland Road.

Rev. Handyside has ministered the gospel in churches, fellowship halls,

pubs, factory parking lots, beaches, street corners and anywhere else where there are crowds willing to listen - and listen they do! He has held his audiences captive, not by force, but merely by his message.

He attributes his ability to speak in such a captivating manner to two causes: one, being the Spirit of God and the other, being his experience in speaking to the passers-by.

Rev. Handyside comments, "To speak to a crowd who can walk away at any moment calls for considerable ability and a short, but interesting message".

Rev. Handyside is a pastor of Clydebank Christian Fellowship in Clydebank, Scotland. He also has an extensive ministry in Wick, Scotland, Wales, England, Scandinavia, Yugoslavia, India, Brazil, and the United States.

Highlands Gospel Fellowship invites all who wish to hear Rev. Handyside to come.

## I Want To Thank

I Want To Thank All The People That Helped Search For My Daddy, Earl Keen Who Recently Disappeared From Walker Memorial Hospital. Special Thanks To The Police Department, Air Patrol, Dr. King. Words Can Not Express How Grateful We All Are.

Sincerely

Catherine McClelland &amp; Family

# Southside Park Community News

By Alphonso Williams  
and  
Calvin Gibbs

**Hi Friends:**  
Welcome to Southside Park Community news. Everything is still there's peace and quiet everywhere, at least momentarily. There were many late goers to church last Sunday because in spite of all previous announcements, they were not aware of the change from one standard time to another. There were more sleepy faces in school on Monday than any time lately, as I assume that it'll take a day or two to adjust. Friday April 29 will be a school holiday for pupils; workday for teachers. Have fun pupils. You have my sympathy, teachers. After about six more weeks, we can all celebrate together. Convention

**Elder C. Black**  
Everyone is cordially invited to attend the Sebring District Convention which will be held at Antioch Temple of the Church of God in Christ O. April 27 through May 2. Elder C. Black is pastor and superintendent. The sensational Florida Messengers, solo, and choir will be presented on Talent Night which is Wednesday night, April 27. Sister Mary Tolbert is the sponsor of Talent Night and invites

others from the community to participate by merely letting her know that you are available. Bro. Nate Crumedy is manager of The Florida Messengers and Bro. S. Williams is their booking agent.

The Apostolic Church of Jesus had regular services Sunday.

Sunday School beginning at 10:30 a.m.

Morning service beginning 11:30, the missionaries department in charge. Sis. Earnestine Dudley missionary president was over devotion and testimony services. Lesson taught by Sister Mary Everett from St. John 10:10 taking for subject "I am." Sister Betty Wilson from Lake Wales taught the second lesson from St. Matthew 22:8-14, taking for her subject "The Wedding is Ready." Both lessons were taught with power and were enjoyable.

Evening service beginning 6:30 missionaries still in charge. This service went in the same line manner as the morning. The first speaker was Mother Dasher teaching from St. Matthew 13:1-4. The second speaker Sister Beata Brown teaching from Job 14:14, II Corin. 5:1, Rev. 14:12. The Lord used her as never before. The Spirit filled the house. Different ones said they have never heard her teach like that before. "You" should have been there. The Lord poured out his Spirit. Sister Brown's subject was "I'll die, will I live Again?"

All visitors are welcome to attend any of our services. Elder Thomas Brown, Pastor Sis. Virginia McRae, Reporter

**Beulah Baptist Church**  
Sunday's services began at 9:30 a.m. with Sis. A. L. Williams acting superintendent.

Morning worship began at 11 a.m. with music by the Junior Choir. The morning message was delivered by Rev. Clifford Mann. Subject: Men Ought Always to pray, and not to faint. Scripture reference,

Luke 18:1-14 verses. Rev. Mann left many wonderful thoughts with us.

The city-wide ministerial alliance also met with Beulah at 3 p.m. Mt. Olive A. M. E. Church and pastor was in charge of the services.

Reporter

**Mt. Olive A.M.E. Church**  
Sunday School, 9:30 A.M.

Morning Worship, 11 A.M. Evening Worship 6 P.M.

Monday night before the first Sunday, choir rehearsal, 7 P.M.

**Tuesday:** Mission 6 P.M. Prayer and class meetings, Tuesday night, 7:30.

Each 2nd and 3rd Wednesday night, rehearsal for the Choir's unit, 7:30.

1st Sunday, communion. 3rd Sunday, "Love Feast."

We were with Rev. William, Mt. Zion C. M. E., Monday night. Rev. Willie J. Jones preached. Subject: Coming to God for Salvation.

Hebrews, 7th Chap. 10th verse—Matthew 13 Chap. 8-9 verses.

1. Coming to God is a belief in God.

2. Coming to God is faith in the word for those who seek Him.

3. Coming to God implies leaving something or giving up something.

**Sudden Illness**

**Elder C. Fogle**  
Elder Fogle was the victim of a sudden and severe illness last Friday. He was convalescing well at home on Sunday. We extend our prayers and best wishes for a speedy recovery.

Hospitalized at Press Time. Sister Louvenia Austin and Sister Maggie Sims. (Note) Please call 453-4000 when you know of others that we may include them in our report.

**Evangelist Samuel Jones**

Evangelist Samuel Jones, a product of Avon Park and son of Mr. and Mrs. James Jones of 1088 So. Delaney Avenue was home for a few days. He had just completed a revival crusade which took him to Albany, Ga., Mobile, Ala., Gulfport, Miss., Hattiesburg, Miss., Jackson, Miss., Camden, S. C., and Salisbury, N. C. He preaches the gospel, which God has led him to search for lost souls and deliver them from a burning hell. Soul stirring and spiritual inspiration come from his messages from God. He preaches Repent or Perish.

## Gross Assigned To Fresh Fruit Division With Griffin

John Gross, resident of Avon Park, Florida has been employed by Ben Hill Griffin, Inc., Frostproof, Florida. He is presently assigned to the Fresh Fruit Division, and will undergo training in several divisions before being permanently assigned.

Prior to joining Ben Hill Griffin, Inc., he was manager of Highlands County Computer Center in Avon Park. John is a graduate of University of South Florida with a degree in Industrial Management. He will continue to reside in Avon Park with his wife, Cynthia, and two daughters, Ashley and Tiffany.

## IF Bill Passes

# Local Motorists Will Save

A typical motorist in Highlands County would save up to \$96 a year in automobile insurance premiums if the reform package proposed by Insurance Commissioner Bill Gunter is adopted by Legislature, said Gunter.

The minimum savings, without sacrificing any liability protection, would be at least \$32.

Gunter emphasized, however, that "not a dime will be saved without favorable action by Legislature, and that depends on a broad public response; that can overcome enormous lobbying pressure by vested interests."

Gunter said, "These are documented savings which would be mandated by law and are based on current rates of one of the largest insurance companies serving motorists in the county. Few drivers would save less and most in the higher rate categories would save more."

"These savings would restore the right to insurance protection to some 1.4 million Florida motorists who have

been priced right out of the insurance market today."

An average driver in Highlands County is now required to pay \$121 a year for mandatory liability, personal injury and uninsured motorist protection. We would be able to reduce that to \$25 a year by carrying only the mandatory personal injury protection.

If he chooses to continue his broader, present coverage, he would still pay only \$96 a year, due to provisions for eliminating lawsuits for pain and suffering resulting from injuries received in automobile accidents. These "speculative damages" now consume 30 cents of every insurance dollar.

"Even though suits for speculative damages would be eliminated, motorists injured in accidents would still continue to collect for all tangible damages, such as medical bills and lost wages," Gunter noted.

His proposed program also deals with insurance fraud and contains measures to substantially strengthen the

Insurance Commissioner's regulatory powers over insurance company rates and profits.

"We're already in a deep insurance crisis today and it can only get worse unless

major reform is enacted."

Legislature this session. "I hope all citizens whose pocketbooks have been drained by rising costs will let their representatives know how they feel," Gunter added.

## Sgt. James Kelly Re-enlists In Army

Sergeant James E. Kelly, while serving with the 3rd Infantry Division in Germany, Park, Fla., recently re-enlisted in the Army for four years Troop B, 3rd Squadron of the division's 7th Cavalry in Schweinfurt, entered the Army in June 1974.

Sgt. Kelly is a 1975 graduate of Daleville, Ala. High School.

OREGON FREED Congress April 23, 1846, adopted a joint resolution to end the Anglo-American occupation of Oregon.

Project HOPE luncheon . . . at left, Joyce Olivieri, Avon Park manager

## HOPE Sponsors Shower Of Love For 200 Elderly

Oldest guest

The oldest guest of the Project HOPE luncheon was Olive Long, 93, a resident of Hillcrest Nursing Home in Avon Park. Mrs. Long's birthdate is March 13, 1884.

On April 19th, Services Over Sixty, which is sponsored by Project HOPE of Highlands County, gave a "Showers Of Love" party for the elderly. Over 200 attended the event, many of them in wheelchairs. For some, this is the only time they have when they can get out and visit with people for many are "shut-ins".

Rev. Ben Williamson, Minister of the First United Methodist Church, opened with prayer after which a delicious covered-dish lunch was served.

Emcee for the entertainment was Tom Rabalais of the Sebring Radio Station. Mrs. Evelyn Jones sang many delightful songs. Chuck Wollangk entertained the group with his guitar playing and George Nicholson played the harmonica. A square dance group from Lake Placid and Sebring gave an exhibition. The Pollard family singers entertained with various selections.

Mrs. Rosemary Deek is Project Director and Mrs. Joyce Olivieri is Avon Park Manager of Project HOPE. Rev. Williamson is president of Services Over Sixty. They wish to express their appreciation to everyone who helped to make this outing a success. They especially want to express their appreciation to the different churches and individuals who supplied transportation to the army

where the party was held. They also wish to thank those who provided food for the guests.

Many of those attending reside in nursing homes and boarding homes; thus, it was a beautiful day for them, not only weather-wise, but also because they were able to be out, renew old acquaintances, and make new friends. It was an enjoyable day for everyone!
