FHA-HERO Leadership Seminar

MS. Sheffield And Mrs. Moseley

Kissimmee Park Opens This Friday

Lake Kissimmee State Park, located 18 miles east of Lake Wales on Camp Mack Road, will open Friday, Aug. 5, according to Harmon Shields, executive director of the Florida Department of Natural Resources. Shields said the first phase of development of the sprawling 5,030-acre former ranchland is completed except for paving of some roads.

"We wanted to go ahead and open the park to the public, as the main access road and other facilities are ready," Shields reported. He said no admission will be charged at present, but an entrance fee will be assessed at some future date.

James Cook, chief of the Bureau of Park Operations for the Division of Recreation and Parks, said picnicking facilities, an observation tower, marina concession building and cow camp are ready for use. "Because of the low water table, boats can't be launched from the ramp, but visitors can fish in the canal," he assured.

Lake Kissimmee State Park was purchased by the state in 1970 from the W. C. Zippert family, which had owned the land since 1885, operating it as

Mrs. Violet Moseley, Avon Park FHA-HERO local advisor, along with Paula Sheffield, Avon Park Chapter President and Vice President of Achievement Program for the State of Florida, attended the 1977 National Leadership Convention in Seattle, Washington, July 7 thru 16.

Diary by Paula Sheffield

July 7 - Thursday morning 25 delegates from Florida met at the Tampa International Airport to fly to Seattle, Wash., for the 1977 National Leadership Convention. We departed Tampa at 9:20 a.m. and arrived in Seattle at 2:12 p.m., Seattle time.

July 8 - On Friday, a wonderful combination of a

Fish And Game Advisory Council

Florida's endangered and threatened wildlife will be in good hands and face a brighter future as the result of a wedding of concern and cooperation. In joint action on July 26, the Florida Department of Natural Resources and the Game and Fresh Water Fish Commission nominated a ten-member advisory council which will coordinate programs of research, management and public awareness for endangered and threatened species.

Colonel Robert M. Brantly, executive director of the Game and Fresh Water Fish Commission, and Harmon W. Shields, executive director of the Department of Natural Resources, issued a joint statement saying, "This is a unique council in that it includes representatives of governmental agencies involved with environmental matters and citizen conservation organizations. This is a council with a direct duty and responsibility, and each member is qualified to contribute a particular expertise for the well-being of our endangered and threatened wildlife and aquatic resources."

Nominated to the council to serve with the Commission and the Department of Natural Resources were the Department of Agriculture and Consumer Services, Department of Environmental Regulations, Department of Transportation, Division of State Planning, Florida Audubon Society, Florida Wildlife Federation, Florida Chapter of the Sierra Club and the Florida Division of the Izaak Walton League.

The Endangered Species

Advisory Council will be expected to recommend to the natural resource agencies policies and procedures for identifying and protecting endangered wildlife and will be instrumental in formulating a plan for managing and conserving endangered and threatened species to be submitted to the 1978 Legislature.

The "Florida Endangered and Threatened Species Act of 1977" sponsored by Senator Guy Spicola and Representative Herb Morgan points out that Florida has more endangered and threatened wildlife species than any other continental state and it is the intent of the Legislature to conserve and protect these species as a natural resource.

The Legislative Act requires the creation of the ten-member advisory council and outlines the duties and responsibilities of the council and its members. The Act calls for development of a statewide policy for the protection of endangered and threatened species of wildlife and aquatic life to be submitted to the 1978 Legislature.

Brantly and Shields concluded by saying, "There is real concern for our endangered species and the creation of this advisory council will provide the incentive for developing cooperative support for the species that must be protected or they vanish. There is a fine line between endangered, and extinct and we hope that, through the cooperative concept of the advisory council and ultimate public awareness, this margin can be broadened."

sea-cruise, plus the flavour of a four-hour visit in a foreign port took place on the "Princess Marguerite". Our cruise departed from Pier 89 Seattle at 8 a.m. for British Columbia. We entered Victoria's harbor in the heart of downtown at 12:15 p.m. At this time we boarded a Gray Line to tour the unforgettable Butchart Gardens and the beautiful British Columbia. A full hour was spent in thirty acres of floral wonderlands rated by many as the world's best.

July 9 - Saturday morning through mid-afternoon was a day for shopping and relaxing. That evening we went on the "Discover Scenic Seattle" tour. This was done by motor coach. This tour was an intriguing blend of history, beauty and engineering. We all were fascinated by Chinatown, Concrete floating bridges, Lake Washington, the Arboretum, University of Washington, sweeping views of Puget Sound and Olympic Mt. Range, and Queen Anne Hill.

July 10 - Sunday was "Do your own thing" day. Many of us went to church, while others slept in. That afternoon we all split up and went shopping or sightseeing on our own.

July 11 - Monday... the opening session of the Convention. At the opening session Monday night, Dr. Betty Siegel, Dean of the School of Education and Psychology, Western Carolina University, guided us into thinking about our potential as individuals.

The evening ended on a light note with the "Conc" show-FHA-HERO's crazier version of the crazy TV Gong Show.

July 12 - Tuesday... Regional meetings and personal growth through "self-searcher" sessions.

Youth delegates interviewed officer candidates for the 1978 National Executive Council. That afternoon, 25 small

groups called "self-searchers" were designed to help participants discover and develop personal leadership skills in: goal setting, decision making, self-assertiveness, values clarification and career planning. I attended "self-searching" to clarify values in relation to today's world.

That evening a cruise across Puget Sound to an authentic Indian "Tillicum Village" Salmond Lake, was found most interesting by everyone who attended.

July 13 - Wednesday... Leadership "Sessions on Solutions". Dr. Earl Reum, Superintendent of Student Activities, Denver Public Schools, a dynamic speaker and author of many books, challenged our thinking about leaders, leadership and leading.

We then went on to "Sessions on Solutions" (SOS), which explored group leadership techniques for project planning, chapter group involvement, fund

raising, and membership development.

July 14 - Thursday... The role of the Homemaker and Closing Banquet.

Three exciting concurrent sessions on the leadership role took place on Thursday morning.

I. The Youth Homemaker.

II. Age of Change: Past, Present and Future of the Homemaker.

III. Everyone is a Homemaker.

I attended "Age of Change", which was directed by Fran Prindle, Associate Dean of Instruction. I found this meeting to be most educational.

Thursday afternoon we toured "Seattle's Changing Scene"—Past and Present. We explored the Gold Rush Strip, strolled through the original Pike Place Public Market, discovered the lively place of Pioneer Square, and ended our tour viewing through windows underwater at the fish ladder.

Thursday night was our closing Banquet, which

featured speaker Jeanine Bourgeois, 1973 National Officer, currently 1978 Program Intern, and the presentation of the Honorary membership and Distinguished Service Awards.

July 15 - Last, but certainly not least, on Friday we visited America's Glacier Wonderland, Mt. Rainier National Park.

It's capped with 26 glaciers and towering at 14,410 feet. Mt. Rainier is the greatest single attraction in the Pacific Valley to explore along the trails, taking in the Visitor's Center, and enjoyed a leisurely lunch.

July 16 - Saturday was an exciting day. We were going home. We all had a good time during our stay in Washington, but most were homesick for families and boyfriends. We departed Seattle Airport at 9:05 a.m. and arrived at Tampa International Airport at 7:19 p.m. Mrs. Moseley and myself were greeted there by Mrs. Moseley's husband, Charles, daughter Sharon and son-in-law Doug.

CORDUROY — EAGLE HAS
JEANS AND JACKETS!

7.94

This is an irresistible value! Take one look at these corduroy fashions and you'll agree! The jackets are handsomely styled for a casual look that's right in fashion... tail neatly squared, sleeves carefully cuffed, pockets smartly flapped. The fabric is medium wale corduroy in cotton/polyester with nylon lining. And they come in a terrific array of colors, in men's sizes S to XL! And how about the jeans? They sell regularly for \$18-\$20, but because of slight irregularities that are hardly noticeable, Eagle can sell them for this incredibly low price. They're polyester/cotton corduroy with flared legs, some with four pockets, some with double belt loops & decorative tucked yoke. Choose from a huge selection of styles & colors, waist sizes 29-42, inseams 29-33.
