

THE AVON PARK TIMES

VOLUME I.—No. 8.

AVON PARK, FLORIDA, FRIDAY, APRIL 19, 1929.

PRICE: FIVE CENTS

MAYOR'S COURT HAS BUSY DAY MONDAY

Four Cases Disposed Of Net City Sum Of Forty Dollars

"The quality of mercy is not strained" at the Mayor's court, judging by this week's record up to time of this report. Mayor Donaldson did not hang out his sign: "This is my busy day." That was unnecessary. Activity spoke louder than words. Monday was his busy day.

Bill Porter was arrested for fighting, and given a fine of \$5, with \$5 costs, or the choice of working 12 days on the streets. Lige Fields, was also brought in for fighting, and fined \$25 and costs.

Charlie Porter, brother of Bill Porter, faced the judge charged with disorderly conduct. He was fined \$5 and costs.

Edna Lovett was also charged in court with disorderly conduct and fined \$5 and costs.

All the offenders were colored and all were placed under arrest by the colored officer, Walter Young. The disturbance happened last Saturday night.

This is an unusually large docket for the police court and the Mayor handled it with dispatch.

CHURCH OF CHRIST TO HAVE NEW STRUCTURE

New Minister Expected To Arrive The Middle Of June

The Church of Christ building formerly located near the southwest corner of Walnut and Forest, and which was so badly damaged in last September's hurricane that it became necessary to raze it, is being replaced by a more beautiful and more substantial structure on the same corner just east of the former site.

The new structure will be 48 by 58 feet. It will rest on a solid concrete foundation. It will be of frame construction, storm-sheeted, with stucco on steel lath. There will be a double floor. The ceiling will be of matched boards, following the lines of the roof, with open beam effect, about 21 feet in the clear from floor to ridge.

There will be two main entrances, one on the east and one on the north. There will be two rear doors, one on the north and one on the east. The church will face on Forest avenue. There will be four large windows on the north and four of similar size on the south, and one very large in the front. All windows will have circular top.

The floor will be about two feet above grade. There will be two toilets. Roofing, later to be decided upon, will be of a substantial character, probably asbestos-cement. The seating capacity will be about four hundred.

It is believed that the structure will be completed in time for the reception of the new minister who has recently been called. The new minister, Rev. Clyde C. Corner, is from Missouri. He is unmarried. He will be graduated next month from Freed Hardman College, Henderson, Tenn. Though a young man, Rev. Mr. Corner has been preaching for the past four years, while taking his college course. Rev. Mr. Corner comes about the middle of June. He was highly recommended by Rev. M. S. Mason, who recently conducted a revival here, and also by the president of Hardman college.

Winter Residents Have Times Sent

Quite a number of winter residents feeling the need of the Avon Park paper that gives them the local news have left their subscriptions at The Times office in order that they may keep in touch with activities during the summer. Many kind words have come to the office regarding the news that is given the public.

J. B. COEN IS SPEAKER AT ROTARY LUNCHEON

Politics Not Allowed At The Rotary Meetings, He Said

Rotarians met Wednesday noon at the Hotel Jacaranda. After luncheon, J. B. Coen talked briefly on "Rotary's Attitude Toward Politics." Mr. Coen stated that Rotary is not allowed at meetings to recommend, endorse, or discuss the merits of candidates for office. Many candidates took pleasure in informing the public that they are self-made men. Said Mr. Coen: "There is no such thing as a self-made man." In his opinion a man's success is frequently owed to the community in which he lives. "Rotary gives to the community the idea of service above self," continued the speaker, "which, when applied, makes community spirit. This is to a community what cement is to concrete."

The speaker stated that there were editors of newspapers who will put editorials in their papers that are calculated to stir up strife, which is far from being in accord with the practice and principles of Rotarianism. He referred to a good Rotarian as one who observes the golden rule. He reminded the club that the world is looking to Rotary for service and that Rotary should exert every effort to make good.

N. A. Broking from Sebring Rotary was a guest, and there was also a visitor from Frostproof Rotary.

The following members announced their intention of attending the District convention at Orlando (an account of which is given elsewhere): Col. C. R. Head, Dr. D. G. Ferry; J. B. Coen, J. S. Francis, Fred Smith, N. H. Trent, J. V. Chapman, Dr. I. W. Chandler, E. E. Melton (and wife), J. C. McDonald, Gilbert Freeman (and wife).

COMMANDERY CONFERS DEGREE OF RED CROSS

Neal H. Trent Recipient Of Two Degrees In The Masonic Lodge

Holyrood Commandery No. 27, K. T., held its regular monthly meeting last Monday night, James W. Geary of Sebring, Eminent Commander, presiding.

The Red Cross degree and the degree of Knight of Malta were conferred upon Neal H. Trent, a Royal Arch Mason, belonging to Highlands Chapter. Past Commander Mark W. Lance gave valuable assistance in the work, and after the close of the meeting gave instruction in drill.

Frater Lance, as proxy for the Eminent Commander at the Grand Conclave of Florida, held recently at Daytona Beach, made report of the work done at that meeting. Six Knights are requested to attend the May meeting at which time the Temple degree will be conferred upon those entitled and present to receive it.

FIVE INDICTMENTS IN HIGHLANDS BANK CASE

Six Officers and Directors Are Named In Bills; Bonds Made

Five indictments involving six officials of the Highlands Bank & Trust company, were returned Saturday at 1:15 p. m. by the grand jury after several days investigation of the affairs of the closed institution. Reconvening at 11:30 a. m. the jury stayed behind closed doors until their report and true bills were handed to the court at 1:15. A crowd had thronged the corridors of the court house most of the morning and a good many diners were spoiled as the majority of those present stayed until the report was returned by the jury.

All the indictments were for violations of the state banking laws and the first named C. A. Skipper, F. T. Haskins and J. H. Garst and contained 18 counts and specified illegal and excessive loans. In the next two indictments C. A. Skipper was named alone and in the fourth one C. A. Skipper, F. T. Haskins, George E. Sebring, Jr., and J. H. Garst were named. The fifth indictment named C. A. Skipper, Walter I. Moyer and Myrtle Jack and contained three counts and charged false entries, one of which is said to concern the sum of \$60,000 and another the sum of \$15,000.

Capases were immediately issued for those named in the indictment. (Continued on page six)

CHURCH CONFERENCE TO MEET NEXT WEEK

Congregational Churches To Hold Three-Day Session

The 46th annual conference of the Congregational churches of Florida will meet in Avon Park, Tuesday evening, April 23 at 7:30, the session continuing until Thursday afternoon. This state meeting will bring well over 100 delegates, clergy and laymen, as guests of the local Congregational church. They will be entertained in the homes of the members and in the local hotels, a lunch being served each day by one of the women's societies of the city. On Wednesday afternoon a motorcade is planned through this section of the Highlands, ending with a picnic supper on Lake Lotela.

The local entertainment committee planning to care for the delegates are Mrs. Stella Mitchell, chairman, Mrs. Olive Anderson, Mrs. A. H. Able, W. H. Yates and R. H. Stodden.

At the popular service Wednesday evening at 7:30 Dr. C. R. Raymond of Chattanooga, one of the national secretaries of the church, and C. S. Bates, a member of the Missions board will be the principal speakers. On Tuesday evening, Dr. C. A. Lincoln of Daytona, moderator of the conference, and Rev. M. J. Sweet of Tampa will be the chief speakers, but the official welcome of the convention will be given by Mayor C. S. Donaldson of Avon Park. Both Dr. Lincoln and Mr. Sweet have been former residents of Avon Park, the one connected with the schools and the other pastor of the Congregational church.

All sessions of the conference are open and the public is cordially invited to attend and enjoy the programs, which begin at 9 a. m. and 1:30 p. m. and at 7:30 in the evening. (Continued on page six)

Immersion Sunday By Southside Baptists

Last Sunday the rite of baptism was performed for two members taken into the new Southside Baptist Church. The service was held at the West Beach hotel and immersion took place in Lake Lotela. J. H. McClelland was in charge of the services. The new members were O. R. Perry and his daughter, Miss Elta.

CARL SIBLEY PASSES AWAY LAST FRIDAY

Avon Park High School Student Dies After Short Illness

Carl H. Sibley, one of the most promising students and athletes of the Avon Park high school, passed away last Friday night. He had been ill but a short time. He was attended by local physicians, and taken to Weems hospital, Sebring, with an affection of the heart, following a case of flu.

Young Sibley took part in the three branches of athletics in the high school and made his letter in all three. He was captain this year in basketball. He was captain for several weeks on the football team, and was also active in baseball. In accordance with custom he held the position of captain by election of the players on the teams. He was elected half-back on the All-Ridge team by the coaches of the Ridge football teams.

Carl was a member of the Baptist Church and consistent in his interest and attendance. His father, Mr. Harmon Sibley, who was here for the funeral, was formerly connected with the freight office force of the Seaboard Air Line in Avon Park, and is at present assigned to duty in Palm Beach.

Carl Sibley was born at Dunnellon, July 19, 1911, and was, therefore, nearly 18 years of age. He had lived in Avon Park about seven years. There survive him, his father and mother, and brother M. L., aged 15, and a sister Willie Mae, aged 12 years.

Funeral services were held at the Baptist Church of Avon Park, Rev. T. O. Baldwin, officiating, and interment was in Avon Park cemetery. L. B. Correll, undertaker, Pall bearers were his schoolmates: T. J. McGinnis, Rodney Durrance, Aubrey Roberts, Fred Wild, Roger Hardegreer and Paul Baldwin.

NEGRO SHOT SUNDAY; ACCUSED NOW IN JAIL

Shooting In Logging Camp Near Kissimmee River Proves Fatal

John A. Baker, colored, aged about 17, was shot at a logging camp of the Sherman Lumber company, near the Kissimmee river, last Sunday afternoon. The shooting was said to have been done by Anthony Brooks, who has since been apprehended at or near Lake Wales, and lodged in the county jail at Sebring. The shot entered Baker's right side about the waist line passing diagonally upward and stopping below the left shoulder.

Baker was brought to Touchton's hospital at Avon Park, where Dr. H. V. Weems of Sebring performed an operation in the effort to save his life. Baker died about 3:30 Monday morning, his remains were prepared for burial by Undertaker L. B. Correll, and interment was at Lake Wales.

B. P. W. CLUB HAVE DELIGHTFUL BRIDGE

The Palm Room Of Jacaranda Hotel Is The Scene Of Party

The Business and Professional Women's club was entertained on Tuesday night at the Jacaranda hotel. The hostesses were Miss H. Hundertmark and Miss Souriloe Kemp. The Palm room was beautifully decorated with Bougainvillea and petunias.

There were five tables of bridge. After conclusion of the games prizes were given. Miss E. Hayden won high score, receiving a beautiful vase. Mrs. Pearl Spink gathered in the consolation prize, a dainty box of stationery. Mrs. A. W. Hammond, won cut prize, a fine handkerchief. Refreshments were sandwiches, cake and punch.

Present were: Mesdames Pearl Spink, Catherine Bristol, A. W. Hammond, Raymond Dilley, C. A. Clark, Clare Mann, O. C. Wilkes, C. R. Head, Floyd M. Johnson, Agnes Cox, Lee Hagood, and Misses Wilma Lear, Eura Lee Durrance, Verta Bradley, Mildred Myers, E. Hayden, Mattie Tompkins, Mable Seybert, Jessie Bane, H. Hundertmark and Souriloe Kemp, the last two being the hostesses. Miss Millie Pearson joined the party at the tea hour.

MINOR MATTERS AT THE CITY COUNCIL MEETING

Reports Ordered Made By the Police and Fire Departments

The City Council met in their council room at the City Hall Wednesday night. There were present: Councilmen Hood, acting president, Stamey, Gregory and Lanier.

The consideration of candidates for position of City Comptroller was deferred until the following night, to which time it was agreed to adjourn the present session, on account of the absence of councilman DeLaney.

C. R. Bennett asked for relief from stoppage of storm water drains near his place. City Engineer was authorized to remedy the condition.

Fire Department Chief requested to be informed when valves for store sprinklers are to be turned off or on, as this has to do with the fire hazards of the property.

W. G. McGiboney was authorized to make repairs to electric cable on south side of Mall between Forest avenue and Post Office building, after approval of his estimate by water and light committee.

Mayor Donaldson offered to submit information regarding municipal matters pertaining to his office. He submitted a written report, which was received, and the different items touched upon referred to proper committees.

Council requested that police and fire departments turn in written reports as to their activities, these reports to be made through the mayor.

Some other routine matters regarding taxation of certain properties were before the council and definite action not taken till council is in possession of detailed information.

Bond issue of \$115,000 recently authorized, was reported sold. Of this amount \$98,000 was used to take up old bonds. Council recessed to Thursday night following.

GRAND JURY REPORTS TO COURT SATURDAY

Several Recommendations Are Made and True Bills Returned

The report of the grand jury as made to the court Saturday morning contains some recommendations that are worthy of attention by the people of Highlands county. The full report as returned by the jurors is as follows:

In the Circuit Court of the Nineteenth Judicial Circuit in and for the County of Highlands and State of Florida. Spring term, A. D. 1929.

Final presentment of the Grand Jury.

To His Honor, W. J. Barker, Judge of the Circuit Court in and for the County of Highlands and State of Florida.

We, the Grand Jury, having been duly empanelled and sworn to inquire and true presentment make in and for the body of the County of Highlands and State of Florida, beg to present as follows:

After receiving instructions from the Court, we retired to the Grand Jury Room in the Court House and proceeded to elect Gilbert Freeman as Foreman and Gerald H. Bee as Clerk.

We have carefully considered all matters brought to our attention and have found true bills in those cases where the evidence was sufficient for the same, and have reported them and presented them upon indictments presented by this Grand Jury in open Court.

The following persons who have been arrested under warrants and were lodged in the County Jail and after investigations of the charges preferred against them, we have found no true bills, namely: Hugh Bost, W. S. Martin, LeRoy McGahee, Roy Lowe and Oscar Lowe.

It appears to the Grand Jury, that if a proper investigation had been made beforehand as against Roy Lowe and Oscar Lowe, that no warrants should have been issued and the State and County saved considerable expenses, for it developed that about all the prosecuting witness desired, was to use the criminal Courts to collect money from said defendants.

In such cases, and especially in cases brought solely for the purpose of collecting a debt and using the Courts for that purpose, we recommend that the County Judge do not issue nor the Sheriff serve any warrant of arrest, until the person applying for same, advances all necessary Court cost. We desire to commend the Sheriff, O. E. Wolf, for doing this, in the case against S. B. Cochran.

In order that the County might save the cost of unnecessary prosecutions, we recommend that no warrant be issued by the County Judge, or by any Justice of the Peace, unless the evidence or facts of the case is first laid before the County Attorney, and until he advises the issuance of the warrant that there will probably be a conviction, except in cases of emergency, or where it is apparent that there will be a conviction.

We recommend that the Sheriff use due diligence to enforce the law in regard to requiring all automobiles to be equipped with suitable front and rear lights and that the speed law be enforced, especially against heavy loaded trucks.

It has been made to appear to us that there are several convicts in the County Jail serving sentences from three to 12 months, and that the county cannot lease them to other counties except at a considerable loss, and as it is costing the county a considerable sum of money to feed those prisoners monthly, we have thought it might be a good plan, if the County Commissioners deem a saving of expense, to have these prisoners taken from the jail each morning, to work upon the county roads, and brought back to jail at night. It seems one man with a truck, could get a good deal of excellent road work out of these convicts, and thereby save the expense of labor the county would have to pay in working on its roads.

We are proud of our Court House, but ashamed of the Court House lawn. We have inquired,

why can't we have a beautiful lawn and the grass growing on it as it should. Upon inquiry we learn that it will cost the county approximately five or six hundred dollars per month in dry season, to keep the grass sprinkled as the City has not given the county any reduced rates. Inasmuch as the lawn of the Court House is located on a City block, and is a public place in the City of Sebring, we think the City should furnish water free of cost to the City. We ask the County Commissioners request this of the Sebring City Council.

The witnesses examined by the Grand Jury are as follows: Geo. C. Connell, Willie Longwood, Missouri Brown, D. S. Skipper, R. W. O'Berry, Will Chester, W. S. Martin, A. F. Helmes, S. P. Cooper, Walter Young, Sam Langford, Edward Smith, K. W. Yates, Mrs. K. W. Yates, Nathan Webb, John Carter, Louise Robertson, Mamie Robertson, Murrie Blunt, Phillip Blunt, R. E. Waterman, R. C. Stivender, E. P. Jackson, Charles Clements, C. E. Lanier, H. O. Sebring, George E. Sebring, E. J. Etheredge, G. F. Bobb, W. I. Moyer, C. A. Skipper, Myrtle Jack, J. H. Garst, Mrs. Mildred L. Parrish, William Parrish, Jr., C. H. Moffett, G. T. Nelson, J. F. Butler and L. Clyde Sasser.

We recommend that the County Commissioners fix the seats in the commissioners office.

We wish to commend M. R. McDonald and especially L. L. Fabianiski for the fair and impartial manner in which they have conducted the investigation before this body.

GILBERT FREEMAN,
Foreman.
GERALD BEE,
Clerk.

Japanese Ambassador Helps Stranded Cars

Driving in Rock Creek, Washington, D. C., Friday evening, the Japanese ambassador, Katsuji Debuchi, observed a number of small cars stalled in the ford at one of the points where the road crosses the creek. The stream, swollen by rain, had flooded their carburetors.

Taking in the situation, the ambassador directed his chauffeur to drive his larger automobile into the creek. Most of the more hapless motorists were mystified at first and inclined to warn the newcomer, but they caught on when the big car was maneuvered into position behind one of the stalled machines and pushed it up on the bank.

With that car safely ashore, the ambassador ordered his chauffeur to turn around and rescue another. The big motor gave no sign of stopping and several round trips were made. Other large cars joined in the undertaking and soon the ford was cleared.

Then Mme. Debuchi reminded the ambassador that he was expected at the embassy to receive 15 dinner guests. Smiling, he waved a good-bye and went off to keep his more formal engagement.

Night Is Best Time To Apply Bran Bait

How a failure to carry out completely the recommendations made by the Experiment Station at Gainesville, may give poor results is illustrated by a recent experience of growers in the central part of the state.

These growers had a bad infestation of grasshoppers. When visited by Dr. Wilmon Newell, director of the Experiment Station, in company with the county agent they reported that they had tried the poison bran bait but had not secured any relief. Upon investigation it was found that the growers had been putting out the bait just before noon. They were advised to put this out at night or very early in the morning.

The growers were reluctant to try the bran bait again, but finally decided to poison two acres that night. The results the following morning were very gratifying, reports the county agent, and if the bait had been applied to the whole field the entire crop of beans would have been saved.

The bran bait referred to is made by thoroughly mixing 20 pounds of bran with one pound of Paris green, and adding water until the mixture is thoroughly moist.

Walton county girls are all electing nutrition and health this year. January was spent in making needed corrections in food and health habits and in physical defects.

Garden club members at Pahokee are making hay while the sun shines, reports Miss Bernice Lyle, assistant home agent. The girls are canning all of their surplus vegetables.

Winter Residents Enjoy Brief Tours

James Aitchison and wife, who have their home in Grimsby, Ontario, but prefer to spend their winters at their home in Avon Park, are making use of the short period left them before their return in taking brief motor trips over the state.

Last week they selected St. Petersburg and Pass au Grille as their touring points. Although they found many of the winter residents had left these places, they

still found much to interest and enjoy. Mr. and Mrs. Aitchison have spent several winters here.

SPLENDID PRIZES FOR JUNIOR BALL CHAMPS

Fifty Thousand Donated By Big Leagues Toward Awards

INDIANAPOLIS, Ind., April 18.—A chance to travel, a splendid trophy, local, state and national honors, and an opportunity to see all the games of the big world series await the sundot nine that forges its way to the championship in the 1929 Junior Baseball Series being conducted by The American Legion, said Dan Sowers, national director of Americanism in charge of the activity.

The Oakland, Cal., junior team traveled a total of approximately 15,000 miles last year before settling down at the close of The American Legion Junior World Series. This team was the first to have its name carved on the permanent trophy provided by Past National Commander Howard P. Savage, of Chicago. This trophy remains in the custody of the Department represented by the champion team until the new winner appears. The award of this trophy will be made next at the Louisville, Ky., national convention of the Legion to the world champions for this year.

Perhaps the grand prize that appeals most to the champions is that offered by the National and American Baseball Leagues, which are sponsoring the Legion's junior program to the extent of \$50,000. The Junior world champions will be the guests of the major leagues at all of the games of the big world series with expenses paid.

National attention was given the world champion last year. They were honored and feted at a big reception given upon their return to their home town city.

Florida Conference Congregationalists Here Next Week

The state conference of the Congregational church convenes in Avon Park next week, the sessions beginning at 10 o'clock next Tuesday. There will be about a hundred and twenty delegates, lay and clerical.

On Wednesday afternoon the session will recess for a real picnic to be held at Pine Creek.

There will be prominent speakers and a previously arranged program of work. The sessions will probably close Thursday afternoon.

Improvement To Public Library

C. R. Barnett, local carpenter, was busily engaged when The Times reporter called, installing an additional stack of shelving in the book department of the Public Library in their new quarters in the City Hall.

These shelves will accommodate at least a thousand more books. Folks who have books they have been intending to donate will find room for them in the book department. Mr. Barnett is doing an excellent piece of work. Donated books should be of similar quality of excellence to match up with Mr. Barnett's work. The librarian will be glad to acknowledge donations.

Nazarene Services Closed Last Sunday

Special services have been held at the Church of the Nazarene for the past two weeks, these services being in charge of the blind evangelist Horace Booker, assisted by the pastor, Rev. W. E. Melton. Rev. Mr. Booker left Monday for Gainesville where he has been engaged for a few weeks.

A club camp in Marion county for 4-H club girls who cannot attend other camps is being planned by Miss Tillie Roedel, home agent. Summer camps offer a splendid vacation for rural boys and girls, and give an opportunity for instruction besides.

DAN SOWERS

Director of Americanism in charge of Junior Baseball activity of the American Legion. Lower—Boys crossing bats and the Savage Junior Baseball Trophy.

WATCHING THAT CAR OF YOURS

Hearing Troubles:

The screwdriver makes a good stethoscope. Putting the point of it on a part suspected of being maladjusted and holding the ear close to the head of the tool will help in the diagnosing of many car troubles. If the noise is accentuated at the particular spot in the engine it is a definite guide to the location of the trouble. It is a good way to check up on suspected pistons or valves.

Stop Light Test:

It is not necessary to have one stand behind the car to note whether the stop light is working. If the ammeter hand flickers when the brake is depressed the light is taking current.

Shows Up Bearings:

In tightening wheel bearings, car owners are warned not to get them too tight. They are told that the wheel should "oscillate" freely. What does oscillate mean in this particular place? The wheel that oscillates is one that when spun by hand will stop and reverse its direction of rotation when the original force is expended. If the bearing is adjusted in such a fashion that the wheel will not oscillate, it very likely will be ground to pieces in a short time.

Loose Fan Belts:

The loose fan belt also is susceptible to breakage. The play which may not be enough to stop the fan from running, subjects the belt to intermittent strains which eventually will break it. Belts are too easily tightened on modern cars to permit this to happen.

Removing Rust Spots:

It takes sandpaper to remove those rust spots on fenders, splashers and other parts that will quickly eat through the metal if left

FROM WELL KEPT COWS

Protect yourself!

Procure your Milk here and you are safe, as the Milk we sell is the product of well-kept, healthy cows.

MANDIS' DAIRY
AVON PARK

alone. Number 1 is a good grade to use.

Most Vital Tools:

What features of the tool kit are most essential to the average car owner? Generally speaking, they are the jack, lug wrench, pliers, and hand crank. They may not be used as often as in earlier motoring days, but when they are needed there is no substitute for any of them. The forward looking car owner, then, always will see that those essential bits of equipment are in their rightful places. Service stations are numerous, but the greatest optimist could not expect to have all flat tires occur in front of one of them.

Slapping Pistons:

To determine which piston or pistons are doing the slapping, short out each cylinder by disconnecting the spark cable. The guilty one will show up in the decreased noise it makes. The engine, of course, should be thoroughly warm for the test.

Watch Your Valves:

High compression must be kept high. It cannot be if the valves are permitted to deteriorate under the tremendous heat and constant impact to which they are subjected. The passion for silent operation impels many car owners to ask for valve adjustments that are too close. Valves, thus, are burned beyond all hope of grinding. On the other hand, if they are allowed to become too loose the hot gases escaping over the valve seats will destroy them.

Explains Wobbling:

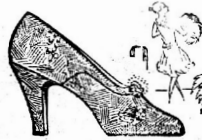

Wear in the kingpin bushing will account for that wobble in the steering. When this malady develops in a car that has seen vigorous service it is well to check up on the bushing before looking upon the fault as being inherent in the design.

Brake Drum Wear:

Uneven wear in the brake drum, due to excessive heat, accounts for considerably more brake inefficiency than many motorists realize. The condition of the drums should be noted carefully when a relining job is ordered. Gridding the drums sometimes is the only way to take advantage of the new linings.

Watch Oil Leaks:

One of the problems with which some engineers seem perpetually busy is that of preventing oil loss through leakage after the car has seen considerable service. In some cars the timing gears are particularly bad offenders when it comes to allowing the life-giving lubricant of the engine to slip away. New gears, whose full, close-fitting teeth

will prevent the escape of oil often provides the most effective remedy for this trouble.

Spoils the Clutch:

All these warnings about keeping the clutch release bearing lubricated are having the effect of making some motorists clutch release bearing-minded. And they are overdoing things in the zeal-ousness. Too many turns of the grease cup spoils the clutch. One usually is enough.—From American Motorist.

Two hundred pounds of lawn grass seed has been ordered by home demonstration club women of Nassau county for beautification of home grounds.

LOCAL "SAFETY FIRST."

"Safety first" seems to be an excellent slogan. In working out plans for safety, it is sometimes well to begin at home.

As is well-known, the auto is the all-important means of transportation in Avon Park. In the absence of street cars and busses, the auto is the conveyance relied upon.

Such being the case, everything possible, considering the means available, should be done in the interest of safe driving. At various points about the city, even in the Mall, there are plants, shrubs, or trees that obscure the view at crossings. Every car driver can tell you of some such view-obstruction with which he meets. Wherever possible, these obstructions should be removed.

There is an alley, used by trucks in discharging their loads at the rear doors of establishments fronting on Main street, between Butler street and the postoffice building—nearly three blocks long. This alley is simply a sand road, having many humps and holes, and it is strewn with broken glass and rubbish. It is a matter of common occurrence for trucks to be pulled out of the holes. The possibility of tires being cut by broken glass is always present.

This may be a private alley, or it may belong to the city; we do not know. Its condition should be improved, regardless of ownership. The alley is public in its use, and it is used much more than many down-town streets. It is an expensive traffic-way to those compelled to use it.

CAR SWITCHING.

Few activities connected with railroad operation are as difficult for the layman to understand as the work that goes on in railroad yards. What is done there often looks like useless effort.

Actually, however, the work follows certain very definite principles. Here, cars are classified and assembled into trains of the proper type, for delivery to destination, or for local delivery. The classifying and assembling goes on at different points along the route, so that whole trains may be dispatched to a definite point without interruption.

Exceptions are made in the case of live-stock, which are placed next to the locomotive, and explosives and gasoline, which are placed at least five cars back of the locomotive. There are switches for inbound trains, and other switches for outbound trains.

Some cars are cut out, and others replace them, with approximately the same tonnage. The yardmaster and switching crew are familiar with the exact location of each track. They know how many cars each will hold. They know when switching may be done at night only, and when it may be done at any time.

There is very little lost motion with expert switching crews. Endlessly in and out of tracks; the panting switchers go; but their crews know what they are doing and how it can best be done.

Movie audiences all over the United States will soon see flashed upon the silver screen the antics of twenty beautiful Sanford high school girls who recently furnished the action for a Fox news reel portraying the harvesting of celery in that city. Chas. in blue overalls and broad-brimmed straw hats, the girls went through the motions of cutting celery, while the cameraman shouted directions, and took pictures of more than a dozen different scenes. It took over two hours to make the reel, which will be a big advertisement for Sanford, says the Herald of this city.—Times-Union.

"Fish in the water pool will prevent breeding of mosquitoes," says Edward C. Vick, noted authority, "and gold fish especially add interest and beauty. Fresh water snails, frogs and tadpoles are helpful in keeping the pool clean. Where there are fish in the pool, it is well to have submerged plants for the protection of the fish from the hands of the children."

The Third Degree

Heard Through the Wicket of the Inner Door

Scribe Billeng, Chief Camel Dietician, Bro. Sed-booth, Camel Manger Inspector, and Bro. Softuck, Temple Archaeologist, were lunching at Aleck's. After abstracting the dessert from its container, the waiter brought in demi-tasse.

"It looks like rain," said Bro. Billeng. "Maybe so," said Aleck, "but it tastes like coffee, just the same."

The Avon Club was preparing one of the Commodore's famous fish fries. The committee on arrangements was planning the menu, and assigning the duties. Suggestion number one came from member Orp. "I'll bring the fish," Orp. "I'll bring the drink," said the Corridor. "And I'll bring my brother," said member S. Seepce.

Companion Bert had been sick for some time. On some days an improvement would be noted, only to be followed by a relapse. The patient finally became despondent and sent for his physician, Dr. I. Wreckaf Chandelier. The latter desiring to encourage his patient said, "There is no danger, I have had the same illness myself."

"Yes," answered the gloomy patient, "but you didn't have the same doctor."

Bro. D. Bepper has two very interesting little fellows, who are destined to follow dad's footsteps. On a certain rainy day they were obliged to play indoors and sought for a suitable game.

"May we play at keeping store in our room, mama," said D. B. Jr.

"Yes," replied the mother, "but I have a very severe headache, so if you do, you must be very, very quiet."

"Oh, that's all right," said the little one. "We'll pretend that we don't advertise."

The girls class in Civil Government was recently having an oral test. They answered correctly the names of the Senators, Representatives, and the Governor of the state.

The Legislature being in session, one sweet young thing was asked to name the speaker of the house. Innocently t. s. y. t. answered, "my mother."

As nothing has been said of late in our editorial columns, about the banking situation it might as well be written here. Street reports are to the effect that several citizens went to Washington for an interview regarding the organization of a national bank.

Others deny this.

Some reports state that a charter may be granted in Tallahassee. Others deny this. Some people think that a \$25,000 bank is big enough for Avon Park. Others deny this. Some think that a \$100,000 capital will be required. Others deny this. The Times believes that this is all that is to be said about the bank situation. Others deny this.

N. B. When anything is really done towards establishing a bank this paper will print it as news. Others deny this.

Echoes of the State Press

MERCHANTS TO OPPOSE SALES TAX.

Members of the various merchants association throughout the state are up in arms over a proposed sales tax bill to be introduced into the state legislature this session requiring all merchants and business men of Florida to pay a tax of two percent on gross sales into the treasury. The bill provides for this tax payment on gross sales regardless of whether the merchant shows a profit or a loss on his business. The result of such a bill would be to add increased burdens to the business men of Florida or force them to increase the price of their commodities, in which event the public as usual, would have to pay the bill.—Bowling Green Exponent.

Out of 1,500 varieties of snakes, only a few are harmful, says an authority on these reptiles. A vast majority are of great benefit to mankind, and especially the farmers. Ever since the story of the Garden of Eden there has been a strong aversion to all kinds of snakes—a very foolish one, the authority adds. In Florida there are many black snakes, varieties of the garden snake, milk snakes and others, all of which are harmless—all of which eat insects, mice and various farm pests. This is the season of the year when men thoughtlessly kill all kinds of snakes with no idea of the great value some of them are in the destruction of farm pests.—Times-Union.

MELON SHIPMENTS.

According to a report received at the office of the Georgia Melon Association in Georgia, its Florida shipping season will open about April 15th. The first shipments are expected from Felda, which is in Harney county. Approximately eight cars are to be shipped soon. The vines are looking fine and the first shipment is planned for about the middle of April.

POULTRY COLUMN

As a matter of local interest, The Times is glad to publish matters of general interest to poultry raisers, they being engaged in an industry that is making rapid strides in our community, and one that is adding materially local revenue. These men not only keep the local markets abundantly supplied with their products but have a substantial shipping trade.

GIVE BABY CHICKS RIGHT START.

Strong, sturdy chicks are essential for success in rearing young stock and poultry raisers everywhere should give this fact more consideration.

It is best to keep the chicks in a darkened box from the time they are taken from the incubator until old enough to be placed under the hover and fed. A regular chick box provided with sufficient air openings to maintain the proper temperature when kept in a moderately warm room is one of the best means for holding the chicks. It is safe to feed chicks the second day after taking from the incubator.

Chicks may be brooded by old hens, but for March and early April hatches the chicks will be too cold, except while under the hen to grow and develop as they should, and a brooder house with a brooder stove should be provided.

Carefully examine each chick as it is removed from the chick box and place only the strong, vigorous individuals under the hover. Chicks with crooked beaks, deformed feet, runty bodies and improperly healed navels should be rejected at the very beginning, as they will not respond to feed and care in a satisfactory manner.

Don't overcrowd. Allow but two chicks for each square foot of floor space (240 chicks in a 10 by 12 foot house), especially if they are to be left in the house after they are six weeks old. There is as much danger of overcrowding late in the season as earlier.

Desirable litter is important and a supply should be on hand well in advance of the chicks. Commercial dried peat, if clean, free from dust and fluffy, makes an excellent litter material. Clean sand or gravel also makes a very desirable litter. It provides the grit necessary for the chick and makes cleaning of the floor easier. When using sand or gravel do not put the chicks under the brooder until ready to feed, as they may fill up on the sand, bad results sometimes being produced.

MORE EGGS MARKETED CO-OPERATIVELY.

Co-operative egg marketing is gaining ground, says the United States Department of Agriculture. More cases of eggs were marketed through farmer-owner and farmer-controlled associations in 1928 than ever before, despite the fact that a score of the associations formed several years ago are no longer functioning.

Seventeen of the larger associations for which detailed data are available for the years 1927 and 1928 received 20 percent more eggs in the latter year than in the former.

Preliminary reports indicate that approximately 4,000,000 cases of eggs were marketed during the year through co-operative associations. The larger part of this quantity was handled by the associations along the Pacific coast, the associations in Missouri and those in Minnesota. New co-operative egg-marketing enterprises were started during the year in New Jersey, Michigan, West Virginia, Colorado, North Carolina and Ohio.

BIG DEMAND FOR HIGH QUALITY CHICKS.

Hatcherymen report a larger demand for high quality baby chicks this season than in 1928, according to the Pennsylvania Bureau of Markets. The demand is greatest for chicks of the highest quality and hatcherymen are finding it difficult to meet this demand because of the small supply of hatching eggs.

Incubators are being filled to full capacity of the entire season and capacity is expected to place them on

ders early in order to avoid the necessity of purchasing late chicks.

It is not unusual to find that poultry raisers have good birds, good houses and everything except good equipment. There is too little consideration given to the need for modern appliances. The dealer can do much to bring this important point home to his customers. The use of the best type of equipment is imperative in these days of keen competition. Metal nests, drinking fountains and feed hoppers contribute to the comfort of hens and aid greatly in maintaining proper sanitary conditions. That means greater egg production. Contented birds produce more.

The best means of controlling colds and roup and in fact all diseases, is to prevent them rather than to attempt cures. Sanitation is the best means of prevention. The feeding of a well-balanced ration also plays an important part in the prevention of disease.

Big Indian Lumber Co Has New Foreman

J. K. Alston, who has been dismantling the Gullidge mill at Haines City, has shipped the equipment to Hicoria, to the Sherman Lumber company.

Mr. Alston has accepted the position of saw mill foreman with the Big Indian Lumber company. He was connected with the Big Indian Lumber company last year, though in a different capacity.

Avon Park Residents Return After Visit

J. W. D. Dorminey, wife and child, J. C. McDonald, wife and child and Mrs. Geo. B. Harvey, have returned after a brief visit to their home folks in Georgia.

The Dorminey and McDonald families spent most of their time in Fitzgerald. Mrs. Harvey was the guest of her mother, Mrs. J. E. Peavey, at Umatilla, and Mr. Harvey's mother at Monticello.

Baptist Attend Meet at Arcadia

Attending the Tampa Division, Women's Missionary Union Tuesday at Arcadia, were Mrs. L. D. Roberts, Mrs. Anna Lawhon, Mrs. Elijah T. Forsey and Mrs. W. A. Hatchell.

All societies in the Tampa division were eligible to representation. The meeting was held at the First Baptist Church, Arcadia.

There are more spring pigs in Leon county than in the past five years, according to G. C. Hodge, county agent.

Acreage in Spanish peanuts will be increased at least 200 percent in Wakulla county this year, states D. M. Treadwell, county agent.

GENERAL NEWS OVER FLORIDA THIS WEEK

Industrial, Financial and Agricultural News of Interest

Announcement has been made by C. C. Middleton president of the Putnam County Grape Growers club, that a series of classes for farmers will be held at Pomona shortly, for study of cultural methods and general care of grape vines. The purpose of the classes will be to acquaint growers in this section with proper methods in bringing their newly planted vineyards to the productive period in the best of condition.

Believed to be the first event of its kind ever staged in Florida, an Amaryllis Exposition exhibiting one of the finest collections of hybrid amaryllis in the United States, was inaugurated in Sanford a few days ago by the Southern Bulb association at its gardens on the Country club road. Eleven thousand bulbs in bloom, comprising 2,700 separate and distinct specimens, were on display. The exhibit, a riot of colors, was as fine a presentation of blending and tinting as was ever shown before at any flower show, it is believed.

The tobacco planting season at Quincy has drawn to a close more than three weeks earlier than it has ever been completed before. The end of the planting season has been brought about so early because of the splendid condition of the soil and the excellent weather conditions which have prevailed this spring. These conditions and the early planting will assure a very early crop this year and in previous years the early crops have always been of the very best.

Watermelon acreage in Lake and adjoining counties has been increased nearly 25 percent over last year, according to partial compilations of planting reports turned in by local agents to the Atlantic Coast Line and Seaboard Air Line railroads. Figures from 23 shipping points give melon plantings that aggregate 7,822 acres, against 6,335 last season. Reports are not yet available from 10 other important places, with a total of 5,805 acres in 1928.

Construction of a large and completely equipped swimming pool on Davis island, to cost over \$75,000 will be started as soon as Stone and Webster, under whose direc-

tions the activities on the island are directed, have had architects approve the plans. The company expects to have the pool ready for use by July 1. Constructed entirely above the ground, the new project will accommodate about 200 bathers. It will be 125 feet long, 45 feet wide, and will have a range of depth up to 10 feet.

With the harvesting nearing the half-way mark, it is now assured that the 1929 Irish potato crop of the Hastings-Palutka district will be nearly 50 percent under the bumper crop of 1928, according to the statement on Saturday of G. W. Lee, of the Hastings Potato Growers association. With loadings Saturday expected to approximate 40 cars, the total movement for the season to date will be about 1,600 cars, Mr. Lee stated. The total estimated crop is but 3,500 carloads, as compared with the more than 6,000 carloads of last year.

Nearly \$5,000,000 was collected in Florida during 1928 on motor vehicle registrations, the Bureau of Public Roads, U. S. Department of Agriculture, announced. In figures on registrations and collections for each state in the Union announced by the bureau, the average revenue for Florida for the year was placed at \$4,935,995 on a total of 352,961 motor vehicles registered. Florida stood 21st among all states of the nation in the number of motor vehicles registered and 22nd in registration fees collected.

SOCIAL and Personal News

Sessions Party Tuesday Night.

Mr. and Mrs. E. L. Sessions entertained a party of friends at their home last Tuesday night. There were three tables of bridge. The decorations were pink and peonies in pastel shades.

First prize was won by Miss Claizelle Whaley, a cake plate. First prize for men went to T. H. Hughs, a deck of cards. Cut prize went to Mrs. A. H. Able, a box of hand made candy. The little daughters of Mrs. Sessions, Marguerite and Dorothy assisted in serving.

D. B. Epperson spent last Sunday in Tampa.

Col. M. A. Wilson, of Ft. Meade, was in Avon Park last Tuesday.

Charlie Liakos of Lake Wales, was the guest of Alex. Stellogeanis on last Thursday.

Garner Barnes, of Macon, Ga., is spending a week with the family of George Connell.

Horace Garner and wife, of Winter Haven, spent the week-end with T. J. McGinnis, father of Mrs. Garner.

E. P. Loomis and family, and M. A. Smith and family, motored to the beach at Cortez last Sunday.

Miss Elizabeth Bangs, who has made her home with the family of J. H. White this winter, has returned to her home.

A. W. Forbes, wife and sister, left for their homes yesterday. Mr. Forbes lives in Nebraska, and his sister in Bedford, Ia.

The family of Jack Head has moved from Todd's Addition to

Morningside. They are very much pleased with their new home.

Misses Christine Reeves, Dickie Martin and Paul Jett, motored to Kissimmee, Sunday, to visit A. W. Sargent, Miss Reeves' grandfather.

Mrs. C. D. Sherman motored to Winter Haven Tuesday, taking her sister, Mrs. Thomas Farrell, to the home of their mother, Mrs. G. W. Oliver.

John D. Raab and wife, Mrs. Katherine Bristol, Mrs. C. F. Weigle, of Sebring, and Mrs. James Shelly, of Detroit, formed a motoring party to Orlando, last Saturday.

Misses Bessie and May Olga Stanford, of Arcadia, were guests of the family of J. A. Gibson, last Friday, and while here attended the senior class play at the Auditorium.

Mrs. James Shelly, of Detroit, who has been spending the winter in Florida, the last two weeks of which she was living at the Jacaranda hotel, has returned to her home.

Richard Brock and family, of Tampa, Florida, and Fair Haven, Mass., were week-end guests of W. T. Hall and family. Mr. Brock is enroute to Kennebunkport, Maine, where he owns the Old Port Inn, and where he will spend the summer.

Lawrence N. Smith and wife and Mrs. C. D. Holstein and daughter, of Jacksonville, spent the week-end with the family of R. C. Epperson. Mrs. Epperson is the sister of Mrs. Holstein and Mr. Smith. Mrs. Smith will remain for a week at the home of her parents, Mr. and Mrs. B. F. Martin.

Cochran's Leave For Detroit, Mich.

S. B. Cochran, of this city left for Detroit last Tuesday afternoon. His wife and sister, Miss Thelma "chief" Cochran will follow him in a few days. Miss Thelma has been a very popular employee of the local telephone office.

KOHLER'S CAMP SCENE OF FESTIVE DINNER

Although a Bachelor, the Host Proves Capable Cook

Kohler's Kamp, otherwise known as the winter home of George W. Kohler, in Avon Park, was the scene of a pleasant farewell party on Tuesday night. The party was given in honor of Mr. and Mrs. A. W. Forbes and their guest, Miss Dunlevy, who left yesterday for their home in Nebraska.

In justice to Mr. Kohler, be it said, he has never married. For the past half-century, more or less, he has been his own maid, housekeeper, chef de cuisine and dishwasher, and has received the distinguished order of merit for accomplishments in each capacity. As a chef Mr. Kohler has invented many mysterious dishes, the component parts of which are rarely ascertainable by ordinary methods of mastication or digestion, either by himself or guests.

Upon arrival of the guests, it was observed that musical instruments, books, papers, magazines and other impediments were pushed aside to a corner of the large banquet hall, and Mr. Kohler's three choice dining tables were placed longitudinally in the center of the room and decorated with "cut flowers" (flowers cut by the rabbits of Kohler's Kamp), and further ornamented with latest editions of The Times, which served a purpose superior to that of the ordinary table cloths.

The host was busily engaged in the preparation of the bountiful repast to be served at 6:30 o'clock, more or less sharp. At 6:30, Western Union time the diners gathered at the festal board. The first course on the menu was chop suey, flavored highly a la Kohler; the second course was jello pineapple sauce. The latter is one of the host's most favored dishes, served with the original Kohler cracker sandwich. The third course consisted of ice cream and cake. Grapefruit juice was the only known beverage, and it was served without trimmings.

The banquet having exhausted both the diners and the delicious viands, Mr. Kohler proceeded to entertain his guests further by giving a demonstration of his magic shaving cream. This cream is spread over the face and allowed to remain for a brief period, after which it was removed, leaving "the skin you love to touch."

Music was furnished by Mr. Kohler, violin, Miss Grace Schweigart, second violin, and Miss Dorothy Schweigart guitar. Following the music the guests played 500, bridge and pedro. The guests, all of whom expressed their appreciation of Mr. Kohler's hospitality, were: A. W. Forbes, wife and their guest Miss Dunlevy, the Schweigart family, Mrs. Lena Blumenthal and her guests, Mr. and Mrs. Geo. Frayke, A. B. Shaffer and wife, A. B. Nestor, and Miss A. Goroff.

United Charities Makes Requests

Application has been made to the United Charities for clothing for two girls aged about 12 and 14, and one boy aged about 12. Any one desiring to donate clothing suitable for these cases may call on or phone Mrs. W. H. Yates or Mrs. T. A. McNicholas.

Rev. J. D. Saxon, of Nashville, Tenn., delivered the sermon at the Church of the Nazarene last Monday night. The topic of his sermon was "Christian Education." He represented Trevecka College, an institution under the control of the denomination which he represents.

PLANE CRASH VICTIM VISITED IN AVON PARK

Participated in Flights in Tampa; Had Many Friends Here

An Associated Press dispatch to the Tampa Tribune under date of April 13, announces the death of A. H. Kreider, president of the Kreider-Reisner Aircraft company of Hagerstown, Maryland, last Saturday afternoon, in an airplane crash in Detroit, during the All-American airplane show. Mr. Kreider participated in an airplane exhibition in Tampa last year, and while here, visited the aviation field near this city and called on several friends who formerly resided in his home city.

Kreider, was flying solo in a Challenger plane, while Alan E. T. Bruce and William C. Naylor in a Ranger plane were flying west over the airport. The Challenger also took off in a westerly direction, and gaining altitude, came up under the Ranger's nose. The planes locked together at a height of about 500 feet, and started spinning to the ground, just about the middle of the field.

A short distance above the field the planes separated, Kreider's spinning into the ground, killing him instantly. The Ranger looped to the ground, turned over and flattened out, pinning Naylor and Bruce underneath. They were extricated and taken immediately to the hospital for treatment.

Kreider, who was about 50 years of age, was married and had a wife and two children in Hagerstown.

FIVE INDICTMENTS IN HIGHLANDS BANK CASE

(Continued from page one) At three o'clock in the afternoon Judge W. J. Barker set the bonds for the accused who were represented by E. D. Treadwell of Arcadia. The bonds were fixed as follows: C. A. Skipper \$12,000; E. T. Haskins and J. H. Garst \$7,500 each; George E. Sebring, Jr., \$5,000 and Walter Moyer and Myrtle Jack \$3,000 each. The defendants were paroled in the custody of their attorney until Tuesday by which time the bonds were expected to be made.

Sheriff O. E. Wolff stated yesterday that satisfactory bonds had been given by the indicted parties and said the bonds had been signed by residents of Wauchula, Winter Haven and other cities as well as local residents. The names of the parties signing the bonds were not made public. The date of the trial has not been set, it being dependent on the time when Mr. Fabinski can return to this county, as he will have charge of the prosecution, Judge W. J. Barker said. The judge added that the date will be as early as possible and maybe in June or July.

Dilleys Entertain at Bridge Monday

On Monday of this week Mrs. Raymond entertained at bridge the members of the In and Out Club at her home. There were four progressions. Lucky chairs drew the prizes. Miss H. Hundertmark and Miss Margaret Pardee happened to be seated in the lucky chairs and drew respectively a novelty necklace and a box of Cara Nome face powder. Cut prize went to Mrs. I. H. Ford. Refreshments were: pink and white brick ice cream and angel food cake iced in pink.

The guests were: Misses Eura Lee Durrance, Eloise Hayden, Millie Pearson, Verta Bradley, Wilma Lear, Sourlie Kemp, Hettie Hundertmark, Mable Seybert, Margaret Pardee, and Mesdames I. H. Ford, Vera Freeman, Floyd Johnson, and the hostess Mrs. Raymond Dille.

CHURCH CONFERENCE TO MEET NEXT WEEK

(Continued from page one) evening. Dr. W. K. Bloom of Washington, D. C., extension secretary of the national church, will speak at 10:45 Wednesday morning and 10:30 Thursday morning. Dr. L. H. Kellar of Atlanta will be heard at 11:10 Wednesday morning. Dr. E. A. King of Miami Beach at 9 o'clock Thursday morning, and Dr. E. C. Gillette, state superintendent for Florida, at 9:15 a. m. Wednesday.

CARD OF THANKS.

We are grateful to our friends for the many kindnesses during the last illness of our son, Carl, and for the beautiful floral offerings at the funeral. Their words of sympathy in our bereavement have helped soften the burden on our hearts. Mr. and Mrs. Harmon Sibley.

LATIN CLUB MEETING HAS GOOD ATTENDANCE

Business Meeting and Social Hour Is Much Enjoyed By All

The Latin Club held its monthly meeting at the home of Miss Oria Baker last Tuesday evening. A business meeting was held followed by an informative program, as follows:

"Te Cano Patria".....by the Club

"Roman Dress, an essay.....by Virginia Chandler

"Burial Places and Funerals," an essay.....by S. P. Durrance

"Travel and Transportation," an essay.....by Claude Daly

"Books," a discourse.....by Alvin Overstreet

"Amusements," a discourse.....by J. T. Willeford

After completion of the program a social hour was enjoyed. Various games were played and contests were held. Rock, flinch and set-back were played.

For refreshments punch, cakes and cookies were served.

Those present were: Melmoth Stewart, Barbara Weaver, Oria Baker, Virginia Chandler, Charlotte Shepherd, Paul McFarland, Mary Vilkaits, Agnes Vilkaits, Helen Schweigart, Gordon Lee, S. P. Durrance, Carrol Belin, Catherine Saggus, Hazel Cameron, Carrol Bailey, Cameron Epperson, Ramon Vickery, Alvin Overstreet, J. Y. Willeford, Eulalia Melton, Claude Daly, Shirley Page Shepherd, Wava Godwin, Pauline Willeford, Colquitt Pardee, Reaves Crews, Clifton McClelland, Genevieve McClelland, Annie Mae Adams, and Miss Millie Pearson, the sponsor.

Mrs. Harry Smith and Mrs. Geo. Hardee, of Bowling Green, were in Avon Park Monday as guests of Miss Eura Lee Durrance.

M'KALIPS ENTERTAIN W. VIRGINIA VISITORS

Expect To Return and Make Future Home In Avon Park

Mr. and Mrs. Charles F. Ice and their two daughters, of Iceland, Paimont, W. Va., were visitors in Avon Park, this week. They are friends of Mr. and Mrs. W. H. McKalips. While in Avon Park they were guests of the Poinsettia hotel. The Ice family spent the winter at St. Petersburg, as they have done for several seasons past. With the exception of Mrs. Ice, this is their initial visit to Avon Park. Mrs. Ice was here during our boom time and is the owner of a lot in Highland Lakes, where she expects to locate in the near future.

Miss Mary Ellen Ice has received some distinction this winter in St. Petersburg. She was the queen on the West Virginia float in the Festival of the States. The float on which she rode during the fete, and which represented the State of West Virginia, carried a 1,200 lb. lump of coal. It displayed the opening into a typical coal mine, with the miners standing there in full miner's working clothes, and with them the pit mule. The mule is taken into the mine, and lives there and works till he is no longer serviceable or till death ends his labors.

Mr. and Mrs. Ice were much pleased with Avon Park and are looking forward with pleasure to the time they will become residents. It is to be hoped that McKalips will interest other friends in the future. They have been very successful in this line in the past. May their success not be their only reward.

Mrs. B. H. James and Mrs. F. A. Durrance motored to Lakeland, Wednesday.

MUSIC CLUB MEETS HOME OF MRS. LANIER

Operas Discussed and Selections Sung By the Club Members

The meeting of the Music Club was held, last Friday, at the residence of Mrs. Lanier. The leader for the day was Mrs. E. E. Madeira, who arranged a fine program from three familiar Grand Operas: Il Trovatore, Bohemian Girl, and Samson and Delilah. Papers, giving the stories of these operas, were read by members of the club, and the readings were interspersed with selections from the different works, sung by members of the club.

It was pronounced to be a most carefully thought out and beautifully rendered program, and thoroughly enjoyed by all.

The program was as follows:

Il Trovatore—
Paper by Mrs. Swearingen.
Ah I Have Sighed 'Till Rest Me.
Sung by Mrs. E. V. Chapman.
Home To Our Mountains, (Duet)
Sung by Mr. and Mrs. Paul Garber.

The Bohemian Girl—
Paper read by Mrs. Dodd, and prepared by Mrs. Rogers.
I Dreamt That I Dwelt In Marble Halls.

Then You'll Remember Me.
Both solos were sung by Mrs. Waller.

Samson and Delilah—
Paper read by Mrs. C. H. Pardee.
My Heart At Thy Sweet Voice,
sung by Mrs. E. V. Chapman.
The various papers were well composed, and instructive as well as interesting. The singing, as usual with them, all sung delightfully.

After the program, delicious refreshments were served.

American Legion To Broadcast Georgia Program, April 25

INDIANAPOLIS, Ind., April 18.—Members of The American Legion in Georgia will be particularly interested in the radio program to be broadcast by the Legion here over station WFPM on April 25. At the request of Joseph M. Carr, department adjutant of the Legion in Georgia, the feature number will be "Legion of America," Georgia's official Legion anthem. It will be played by the Eleventh U. S. Infantry band which provides the music for the Legion broadcasts every Thursday night.

The entire program on April 25 is dedicated to Georgia. Legionnaires, and will go on the air promptly at 10 p. m. Central Standard Time. Listeners will not be able to get the station before that time as it is silent from 8 to 10 o'clock when the Legion program begins. The station broadcasts on a wave length of 423.7 meters, or 1220 kilocycles.

Any department of the Legion or post that would like to have the Ft. Harrison band play a special number should send their request to the Legion's National Headquarters, Indianapolis, Ind., together with the music. The Legion programs are broadcast at 10 o'clock every Thursday night under auspices of National Headquarters and the Indiana department of the Legion.

WRUF Farm Program.

Following is a list of farm talks to be broadcast from station WRUF at Gainesville, Florida, for the week ending April 26. The farm program is given at 1 p. m., each day in the week. The wave length is 204 meters.

April 20—U. S. D. A. Farm Talk.
April 22—Raising Dairy Calves, E. G. Moore, assistant editor, Experiment Station.

April 23—P. S. D. A. Farm Talk.
April 24—Food Value of Milk, Dr. R. B. Becker, associate in animal husbandry, Experiment Station.

April 25—U. S. D. A. Farm Talk.
April 26—Reforestation and Better Pastures, W. E. Stokes, agronomist, Experiment Station.

SUNDAY SCHOOL LESSON

FOR APRIL 21, 1929.

SUBJECT: Comfort for God's People

GOLDEN TEXT: "As one whom his mother comforteth, so will I comfort you." Isa. 66:13.

LESSON TEXT: Isaiah 40:1-11.

For more than forty years Isaiah had taught and prophesied at Jerusalem. He had foretold the final capture of Judah and the captivity in a foreign country. He foresaw and told of the suffering which the Jews must undergo as punishment for their idleness and sins.

In this lesson Isaiah sees and foretells God's forgiveness of the Jews and their return from captivity. He also speaks of the forerunner of the Christ. Our lesson begins, "Comfort ye, comfort ye my people, saith your God."

The word "comfort" has various meanings, according to the connection in which it is used. As used in this lesson it means to be near, able and willing to help one in trouble, like a rescue ship standing by an injured vessel at sea, ready and able to take off her passengers, should the injured vessel begin to sink. Another phase of its meaning is illustrated by the old minister's prayer, "Lord lighten my burden, or strengthen my back." The same thought is expressed in 2 Cor. 12:7-9, where Paul prayed that the "thorn in the flesh" might be removed from him, but the Lord said, "My grace is sufficient for thee."

The lesson, "Speak ye comfortably to Jerusalem, and cry unto her, that her warfare is accomplished, that her iniquity is pardoned." The people of Judah were to be punished by their long captivity in Babylon. In 2 Cor. Paul speaks of "the Father of mercies and God of all comfort." It was unfortunate that the Jews rebelled against God's laws and went into idolatry. It was a pity that they had to be punished for their sins. But, it is comforting to know that they were pardoned and forgiven, and brought back to their old home, but, in the meantime they had to endure the suffering and the degradation which their captivity brought upon them. Many of them died in captivity. So it is with all sin. God will forgive the sinner and pardon his sins, but it is often after long and bitter suffering caused by his sins. How much better would have been had the Jews clung to God and obeyed his laws.

But the commands in the lesson are, "Comfort ye" and "Speak ye comfortably." One writer says, "We do not give comfort to others as often as we might * * * God gives us the privilege, and lays on us the duty of giving comfort * * * as God gives us opportunity." Then verses 3 and 4 of the lesson appear to refer to the preparation for the coming of Christ; "The voice of him that crieth in the wilderness, Prepare ye the way of the Lord, make straight in the desert a highway for our God. Every valley shall be exalted, and every mountain and hill shall be made low; and the crooked shall be made straight, and the rough places plain." In Matthew 3:1-3, we find these words, "In those days came John the Baptist, preaching in the wilderness of Judea, * * * this is he that was spoken of by the prophet Esaias (Isaiah) saying, The voice of one crying in the wilderness, Prepare ye the way of the Lord, make his paths straight."

"And the glory of the Lord shall be revealed, and all flesh shall see it together: for the mouth of the Lord hath spoken it." The glory of God was revealed in the return of the Jews from captivity; but much more in the coming of Christ and in perfecting the plan of salvation; revealed to all peoples and for the blessing of all, * * * Jew and Gentile. Then, in the lesson, the prophet was commanded to "Cry" or speak to the people and make known "God's mercies." The Jews were to be comforted and encouraged by their forgiveness and return to Jerusalem; and we of our day are comforted by the coming of Christ and the offer of salvation to all who will accept it. "O Jerusalem, that bringest good tidings, lift up thy voice with strength, say unto the cities of Judah, Behold your God." Thus it became the duty of the prophet, as

Former Park Visitor Married at Plant City

Announcement is made of the wedding ceremony of Ben E. Rawlings and Miss Lois Louise Moorman at the Methodist Church, Plant City, on Easter Sunday. The ceremony was performed immediately following the close of the morning church service.

Mr. Rawlings is well-known in Avon Park. He was connected with the Sunshine Sales system, and has conducted sales for Ott and Son, and the Persons company.

Avon Motors Co., Has New Repairman

The Avon Motors company, Chevrolet sales and service, has placed its repair department in charge of A. E. Barker. Mr. Barker has been connected with Chevrolet dealers for the past three years as expert repairman, and in addition has had much general experience on repair work.

Ray Guthrie, formerly in charge of the service work for the company, resigned recently and will return to his former home in Raymond, Ill.

Konigstein Tun, (Germany), a wine vault, built by the king of Poland, in 1725, was big enough to hold 233,000 gallons of wine. A railroad in platform on top accommodated 20 persons next to the source of supply.

It is our duty, to make known the forgiveness of God and the coming of salvation through the sacrifice of Christ. "Behold, the Lord God will come with strong hand * * * his reward is with him * * * He shall feed his flock like a shepherd, he shall gather the lambs with his arm." Small comfort in this life, and none in the next, come without knowing and trusting God. Are you on speaking terms with Him?

Citrus and Vegetable Pest Appears In Central Florida

Mediterranean Fruit Fly Is Found In Two Counties Of the State

Infestation of citrus groves by the Mediterranean fruit fly having been found in Orange and Seminole counties, a meeting of county agents was called in Orlando last week end and County Agent Louis Alsmeyer attended from Highlands county. He returned Monday evening and immediately called a meeting of local growers and packing house officials to explain the situation. Owing to the short notice few were able to attend, but Mr. Alsmeyer explained what had been found and the control methods contemplated. Besides attacking citrus, Mr. Alsmeyer said the fly attacks tomatoes, peppers, egg plant, peaches, cherries, guavas, avocados and many other fruits and vegetables.

A strict watch will be maintained throughout the state, Mr. Alsmeyer said, and he personally will circulate around this county and keep watch for any manifestation here. He asked all growers to be on the look-out and report immediately anything unusual and with which they are not familiar. The following story carried in the Tampa Tribune Wednesday morning explains the situation fully and the control methods to be taken by both the state and federal governments. The story was written by Howard Hartley who has had newspaper experience in Sebring. The manpower and finances of the state were mobilized for a finish fight against the Mediterranean fly which has attacked one strip of Florida's citrus belt.

The battle will begin along a narrow front in Orange county where the insect, scourge of European growers, has encroached upon approximately 4000 acres of orange and grapefruit groves. Units of the Florida national guard probably will be called out tomorrow by Adj. Gen. Vivien B. Collins to patrol the roads leading into the fly-infested area.

A quarantine has been declared prohibiting all fruit shipments out of Orange and parts of Lake and Seminole counties.

A bill was introduced in the senate to appropriate \$250,000 from the state treasury to finance the campaign and the governor has released an additional \$50,000 appropriated two years ago to be used in fruit pest emergencies.

Fight Develops Rapidly.

Developments in the war against the first American invasion of the old world insects began early today and the close of the afternoon senate committee meeting found much progress made in perhaps the most intensive struggle against a citrus scourge since Florida growers, backed by the resources of the state, met and conquered the deadly canker.

The Mediterranean fly was first detected in a grove on the outskirts of Orlando more than a week ago when a field worker of the state plant board cut open a grapefruit at supper and found the center infested with worms.

Specimens were taken and sent by air mail to the United States department of agriculture for inspection. The report came back last Friday. The worms, experts at Washington said, were the offspring of the Mediterranean fly, most dreaded of all citrus and vegetable pests.

Advised of the government investigation in a confidential report, President Parrish, of the senate, and Senator King of Orlando, both citrus growers, went to Orange county early Sunday morning and personally viewed the grove in which the fly had been discovered.

They immediately realized the danger and hurried back to Tallahassee for further conferences with Nathan Mayo, commissioner of agriculture, and state plant board experts.

Troops May Be Used.

The result of these conferences were reflected today in a special meeting in the governor's office at which definite plans were laid to finance the campaign. Adjutant General Collins attended the meeting and was immediately sent into

the fly-infested areas empowered by the governor's order to make such disposition of national guard troops necessary to stop fruit shipments from the stricken sections.

The state troops will be used, Governor Carlton said today, to patrol the roads. Trucks loaded with oranges or grapefruit will be stopped because experts of the plant board believe destruction of all fruits in the infested area must be the first step in crushing the fly invasion.

Interesting information relative to the Mediterranean fly, its habits and methods of attack was furnished the Tribune correspondent by L. D. Edge, former state senator from Lake county and prominent citrus grower.

Pest In U. S. First Time.

"This is the first time the fly has ever appeared within the boundaries of the United States," Edge said.

"Investigations have not thus far disclosed how the pest was introduced into Florida, but we believe it came from the West Indies and probably from Cuba. The fly propagates very rapidly, usually within 27 days. The insect first alights on a grapefruit, orange and any vegetable, except watermelons, injects its fluid and stinger into the skin and inside of the fruit or vegetable. Worms grow from the larvae within a few days and eat away the covering, allowing the water content to escape. The damaged fruits or vegetables quickly fall from the trees or vines and the worms dig their way out and then into the ground where their propagation is completed by transformation into flies. Constant repetition of this process indicates how rapidly the insect multiplies."

The best minds of the state and federal agricultural departments have thus far failed to produce a formula for any effective chemical spray to be used against either flies, larvae or worms. Consequently, officials of the plant board will begin the campaign by quarantining the infested area, destroying the fruit in affected groves and stopping all shipment.

Chemical Weapon Sought.

While this work is under way the laboratories here and at Gainesville will be used in a desperate effort to produce an effective chemical weapon to kill the worms in the ground and in process of propagation.

Governor Carlton, Commissioner Mayo and plant board officials are pinning their hopes of a quick victory in the war against the fly scourge upon quick isolation of the infested groves. No reports have been received indicating a spread into the vegetable farms of the lower peninsula although all the products of Florida fields and groves are open to attack and certain destruction unless the flies are stamped out by a systematic and scientific offensive.

Response from the federal departments have been prompt and encouraging. The governor was advised that an entire field crew of the United States department of agriculture was being sent from Texas to be used in the joint state and federal campaign in Florida. These experts have had many years of experience in similar wars against the Mexican fruit fly, a slight less dangerous cousin of the Mediterranean variety. Fifteen government men from Texas are expected to report in Tallahassee before Saturday. They will be sent immediately into the infested areas.

Avon Motors Co., Pleases Two More

Avon Motors company report the sales of two new cars the past week. A sedan was sold to E. H. Lee and a cabriolet to Ernest Jones. Aside from being purchasers of economical transportation of the "six in the price range of the four," both Mr. Lee and Mr. Jones are enthusiastic of their purchases of the Chevrolet.

A corn variety test has been planted in Escambia county under the direction of E. P. Scott, county agent. Five yellow and six white varieties were used.

INSPECTION MADE OF AVON PARK BATTERY

Major Hyatt Finds Men and Equipment In Good Shape

Major Robert F. Hyatt, inspecting officer, with headquarters at Savannah, Ga., made his inspection of the 56th Battery, field artillery brigade, on April 11. Major Hyatt is instructor for the artillery units of the Georgia national guard. He is considered one of the best instructors in the 4th corps area. This is Maj. Hyatt's second trip to Avon Park, and he expresses himself as being very much pleased with this section of Florida.

There was a good attendance at the drill at the time of inspection. The inspecting officer was well-pleased with the condition of the material and property, and spoke favorably for the training of the unit.

Major Hyatt has had much army experience. During the war he was overseas for four and one-half years, of which two and a half were spent in France, and two years in London as military attaché. He was with Gen. Pershing in the punitive expedition in Mexico, and was also in the Philippine campaign against the Moros.

Flagler county is digging its early Irish potato crop fully one month earlier than usual, reports L. T. Nieland, county agent.

C. M. T. C. Doubles Quota In Highlands

Highlands county more than doubled its quota in the Citizens Military Training Camps assignments, according to information received from the District C. M. T. C. officer.

Practically all the men who made application from Avon Park were accepted. Avon Park had more men than the remainder of Highlands county.

Howey Tourists Stop At Jacaranda Hotel

Seventeen tourists from Miami, who are taking advantage of the Howey tours, remained all night at the Jacaranda hotel, after having a good look at the local attractions.

These tours take their sightseers over most of the state, providing a week's trip, stopping long enough at each important point to satisfy the interest of the travelers.

NOTICE

Payment of City Taxes has been extended to May 1, 1929. Kindly pay promptly.
