

**Tampa Man Named Chairman
of Committee Appointed
By Carlton**

Expressing his appreciation for the "honor" conferred upon him as a member of the committee, he said after the meeting in a short statement emphasized: "We are going to do it, and we are going to do it to accomplish this aim."

"It is a business organization and we are not a political group," he said, "and the other members of this committee will make no political statement. We will let no stone unturned in making our investigation of this state in this critical situation. Personally I plan to give my entire attention to this problem."

The resolution of declaration was unanimously approved by the committee.

"Whereas, Florida's tax and fiscal problems study and reform is a matter of the highest importance and may be more equitably distributed; therefore, be it resolved that the Florida Citizens Tax Reform Committee be authorized to declare its purpose to study the tax systems and problems now existing in this state and to make recommendations to the end of recommending for legislation necessary remedial legislation."

when done.

100,000 EXTRA VOTES FREE AS A BONUS

This offer is good only until 6 p. m. Wednesday, Mar. 26

100,000 Extra VOTES

Will You Win Them
?

100,000 EXTRA VOTES will be given as a prize to the ONE contestant who secures the greatest number of UNITS.

A UNIT is 1,000 gold card votes and 1 one year subscription to this paper.

This offer ends at 6 p. m. Wednesday, March 26th.

RULES OF CONTEST

1. Contest Closes April 17, 1930, at 9 o'clock p. m.
2. Any reputable white man, woman or child is eligible to enter this contest, so long as they are not an employee or a member of a family of an employee of this paper or dependent upon a Gold Card Store owner.
3. Votes are free and are obtained by trading with Gold Card Merchants and securing subscriptions to this paper.
4. Gold Card votes must be turned in to the paper each Wednesday, when an official ballot will be given contestant.
5. Votes or ballots are not transferable once they have been turned in to the office.
6. Any collusion on the part of contestants to the detriment of other contestants, will cause the votes of those taking part in such a combination to be cancelled.
7. The paper reserves the right to add to the prize list, amend or alter the rules for the protection of contestants, Gold Card Stores or this paper. The management guarantees fair and impartial treatment to all contestants, but should any question arise, the decision of the paper considered absolute and final.
8. In case of a tie, tying contestants will each receive the prize tied for.
9. In entering this contest each and every contestant agrees to abide by the rules as set forth above.

THE PLAN

All of the merchants who co-operate with the Gold Card Trade-in-Avon Park Campaign will be known as Gold Card Stores, they will issue 25 votes with each 25c purchase, 50 votes with 50c purchase, and so on. The Avon Park Times will issue votes with each new and renewed subscription, the person having the largest number of votes on April 17, 1930, will be awarded the first prize, the person having the next largest number the second prize and so on. If you want to win an automobile don't hesitate, but get started at once. IT COSTS YOU NOTHING TO ENTER OR WIN. READ HOW TO ENTER.

Joint Hostesses at Bridge Party.

Mrs. E. P. Loomis and Mrs. D. G. Perry entertained at a lovely bridge party Saturday afternoon at the Jacarana hotel.

The St. Patrick motif was used as a decoration scheme in the spacious reception room where tables were spread for games. After four progressions of bridge were enjoyed, prizes were awarded Mrs. L. E. Thomas, high, Miss Mattie Tompkins second high, Mrs. Parke Anderson cut and Mrs. D. G. Skipper low.

The guests were: Mrs. H. G. Chance, Mrs. W. T. Coates, Mrs. Tarpley, Mrs. Mark Lane, Mrs. S. E. Booth, Mrs. P. L. Rumpas, Mrs. W. D. Dorminey, Mrs. Fred Smith, Mrs. M. A. Smith, Mrs. W. C. Touchton, Mrs. N. H. Trent, Mrs. C. E. Lanier, Mrs. E. W. Lander, Mrs. D. V. Rouse, Mrs. E. W. Hart, Mrs. Charles Sherman, Mrs. L. V. Pringle, Mrs. Norton Smith, Mrs. Henry Timm, Mrs. E. F. Carmichael, Mrs. Parke Anderson, Mrs. E. E. Melton, Mrs. C. S. Donaldson, Mrs. C. H. Pardee, Mrs. S. C. Pardee, Mrs. Ray Brown, Mrs. L. E. Thomas, Mrs. Charles E. Wright, Mrs. Fossum, Mrs. A. H. Able, Mrs. G. E. Stebbins, Mrs. R. T. Fairley, Mrs. John Hood, Mrs. W. A. M. McCallip, Mrs. Jack Head, Mrs. Mel Bass, Mrs. Lula Bass, Mrs. Wood, Howard Kennedy, Mrs. J. V. Chapman, Mrs. D. G. Skipper, Mrs. T. C. Hobbs, Mrs. H. W. McKelvie, Mrs. John Cupples, Mrs. Elizabeth Gammon, Mrs. W. H. Yates, Mrs. George Harvey, Mrs. Kress, Mrs. J. P. Garber, Mrs. C. P. Anderson, Mrs. H. E. Godwin, Mrs. John E. Brick, Mrs. J. B. Stringfellow, Mrs. J. B. Stringfellow, Miss Florence Straubel, Miss Mattie Tompkins, Miss Katherine Seagraves and Miss Mildred Myers.

Mrs. Reck and Mrs. Brich Hostesses at Bridge.

Mrs. H. F. R. Reck and Mrs. John Brich entertained at a bridge luncheon at the Reck home on 111 East Verona avenue Monday afternoon.

A two-course luncheon was served to the guests at one o'clock, of bridge were played. The rooms were colorfully decorated in cut flowers with green predominating, in keeping with the St. Patrick idea.

Scores were kept on Shamrock tallies. Prizes were awarded Mrs. McNichols, first; Mrs. Dickinson, second; Mrs. Mel Bass, third; and Mrs. N. T. Smith, consolation.

Their guests were: Mrs. Park Anderson, Mrs. Paul J. Garber, Mrs. Norton T. Smith, Mrs. W. T. Coates, Mrs. M. W. Lane, Mrs. H. E. Godwin, Mrs. C. S. Donaldson, Mrs. G. E. Stebbins, Mrs. W. H. McKelvie, Mrs. John Cupples, Mrs. P. L. Rumpas, Mrs. E. H. Hart, Mrs. S. C. Touchton, Mrs. N. H. Trent, Mrs. D. V. Rouse, Mrs. Florence Straubel, Mrs. Jack Head, Mrs. J. V. Chapman, Mrs. L. V. Pringle, Miss Inez Reilly, Mrs. S. C. Booth, Mrs. M. A. Smith, Mrs. Melton, Mrs. C. E. Lanier, Mrs. W. D. Dorminey, Mrs. W. A. Marshall, Mrs. E. G. Todd, Mrs. S. Y. Hart, Mrs. E. D. Canfield, Mrs. L. E. Bass, Mrs. Fred Smith, Mrs. Melvin Bass, Mrs. C. H. Pardee, Mrs. S. C. Pardee, Mrs. A. H. Able, Mrs. T. C. McNichols, Mrs. R. W. Swearingen, Mrs. Lawrence Thomas, Mrs. Fossum, Mrs. Henry Timm, Mrs. Dickinson, Mrs. W. H. Yates, Mrs. E. P. Loomis, Mrs. Pletcher, Mrs. G. P. Thayer, Mrs. Henry Lander, Mrs. C. P. Anderson, Miss Elizabeth Ewing and the hostesses, Mrs. Reck and Mrs. Brich.

Harold McClelland Host at Party.

Harold McClelland was host to a number of his little friends at his home on Central avenue last Tuesday evening. Games and contests proved pleasing entertainment for the little folk. Later in the evening light refreshments of punch and cookies were served. Those present were Gladys Helms, Hilda Reddick, Evelyn Martin, Mary Coen, Hilda Reddick, Edward Touchton, J. J. Green, Howard Johnson, Raleigh Foster, Billy Joe Virtue, Johnnie Saggs, Harold McClelland and Mrs. B. F. Martin.

Four Hostesses Entertain at Bridge Tuesday.

Mrs. Lee Everett Hagood, Miss Millie Pearson, Miss Verta Bradley and Miss Wilma Lear were joint hostesses at a lovely bridge party Tuesday.

Each guest was given a dainty green sachet bag as a favor. Refreshments of ice cream with a small green shanrock in the center and cake was served the guests by their hostesses at the close of four progressions of bridge. Honors were awarded Miss Mattie Tompkins high, a green boudoir pillow and Mrs. S. C. Pardee, second high, an attractive green and white apron.

The guest list included: Mrs. J. B. Stringfellow, Miss Mattie Tompkins, Miss Kate Tompkins, Mrs. Raymond Diller, Mrs. C. A. Clark, Mrs. Charles Sherman, Mrs. Francis Shockley, Miss Ann Wise, Miss Laura Lee Durrance, Miss Margaret Pardee, Mrs. S. C. Pardee, Mrs. Robert Ward, Miss Grace Reddick, Miss Ethel Clarke, Mrs. D. V. Rouse, Mrs. F. Straubel, Mrs. D. A. Gerrard, Mrs. G. P. Thayer, Mrs. C. P. Anderson, Mrs. H. W. McKelvie, Miss Helie Hundertmark, Miss Clara Hundertmark, Mrs. R. T. Fairley, Mrs. Phil Lacey, Mrs. W. W. McFarland, Mrs. D. G. Skipper, Miss Mildred Myers, Mrs. Ray Brown, and Mrs. Floyd Johnson.

Int. C. Y. P. U. Party at West Beach Hotel.

Edgar Louis Smith was host to the Int. C. Y. P. U. Monday evening at the West-Beach hotel. Many games, songs and boating were enjoyed during the evening. Later light refreshments of sandwiches, cookies and punch were served to the guests.

Those present were Miss Gwendolyn Weaver, Miss Melba Connell, Miss Martha Weaver, Miss Gwendolyn Connell, Miss Irene Ford, Miss Louise Helms, Miss Lucile Langford, Miss Frances Lane, Miss Virginia Baldwin, Miss Mildred Lee, Miss Mildred Epperson, Miss Zella Langford, Mrs. Mary Margaret Mills, Miss Sarah Smith, R. W. Swann, Mr. Lawton Roberts, Mr. G. A. Christopher, Mr. Denzil Hunt, Mr. Alvin Overstreet, Mr. Billy Mason, Mr. W. A. Maddox, Mr. Fred Reddick, Mr. Harry Hancock, Mr. Ernest Eares, Mr. Kelly McClure, Mr. Bill Lacey, Mr. Junior Stebbins, Mr. Phil Lacey, Mr. Willie, Mr. Otto Foster, and Mr. Edgar Smith.

Chaperones were Mr. and Mrs. Smith, Mr. and Mrs. W. K. McClure, Mr. and Mrs. Ben Fussell.

B. P. W. C. Hold Social Meeting Tuesday.

The regular social meeting of the Business and Professional Women's Club was held last Tuesday evening, March 18, in the Club Rooms, Brickell Hall, with Miss Margaret Pardee and Mrs. Helen Mann acting as hostesses.

Refreshments and bridge were enjoyed by the members, Miss Mabel Sybert receiving a deck of cards for having a great number of cookies, and Miss Millie Pearson receiving a similar prize for high score in bridge.

After the games refreshments, consisting of ice cream and cake were served to the guests. Those present were: Mesdames Fedalma Hagood, Frances Clark, Thelma Dilley, Pearl Spink, Fannie Reeves, and Misses Ethel Clark, Grace Reddick, Millie Pearson, Verta Bradley, Wilma Lear, Kate and Mattie Tompkins, Jennie Waychoff, Souri Lee Kemp, Ettie and Clara Hundertmark, and the hostesses.

Misses Anderson Complimented at Picnic.

Miss Ira Gunter and Miss Ora Baker were hostesses to a picnic and wicker roast last Tuesday night in honor of Miss Elton and Evelyn Anderson at Lake Viola.

The usual sports with games and contests was the entertainment throughout the evening. At a late hour hot-dogs were roasted by an open fire.

Those present were: Miss Leota Baker, Miss Ora Baker, Miss Leota Baker, Miss Ira Gunter, Miss Bonnie Lee Douglas, Mrs. Ruby Ritzinger, Mesdames Donald Wingate, Joe Winkler, Warren Ward, Raymond Vickory, Fred Simpson, Claude Daley, Paul Baldwin, Frank Crosstie, Lamont Roberts and Tom Mathews.

Miss Reeves and Miss Reddick Entertain.

One of the most attractive parties of the season was given last Thursday evening at Lake Byrd Lodge with Miss Christine Reeves and Miss Grace Reddick as joint hostesses. St. Patrick decorations were carried out in a very charming manner in the floral array and bridge appointments. Honors in bridge were given Mrs. Paul Jett high among the ladies, Mr. Joel Chester Grace high for the men, Miss Jerry Helms consolation for the ladies and Mr. Stewart Thayer consolation for the men.

Those present were: Mr. and Mrs. Paul Jett, Mr. and Mrs. Roland Drott, Mr. and Mrs. Francis Shockley, Miss Ethel Clarke, Miss Louise Brown, Miss Catherine Seagraves, Mrs. Russell Tinney, Mrs. Lora Hart, Miss Jerry Helms, Joel Chester Grace, C. P. Garrison, Stewart Thayer, Eddie Crabtree, and Francis Roberts.

B. Y. P. U. Meets With Miss Saggs.

The B. Y. P. U. of the First Baptist Church met at the home of Miss Katherine Saggs Friday night. The young folks enjoyed an evening of games, songs and a dance. A lovely lady came was made and much fun was had in pulling it.

Mr. and Mrs. Chamberlain, of East Palestine, Ohio, were in Avon Park this week. The latter mentioned to the chamber of commerce that her old home was Canonsburg, Penn.

Dr. and Mrs. H. G. Cress have returned to their home in Mont-

SUPT. MOOSE SCHOOL VISITS DONALDSON

Educator Is Head of Large Fraternal Industrial School

Prof. and Mrs. E. N. Roselle and son Richard Donaldson Roselle, and Prof. and Mrs. S. W. Petty, all of Moosehart, Ill., who have been spending a few weeks at Palm Beach, stopped a couple days in Avon Park as guests of Mayor and Mrs. C. S. Donaldson.

Prof. Roselle is a cousin of Dr. Donaldson.

Prof. Roselle is General Superintendent of Education for the Loyal Order of Moose which embraces the national school of the Moose fraternity at Moosehart, where millions of dollars have been spent in a great industrial school. This has been the pet project of James J. Davis, Secretary of Labor in the cabinets of President Harding, Coolidge and Hoover. Prof. Roselle is also inspecting Florida colleges and industrial schools, and the old folks' home of the Moose about 35 miles south of Jacksonville, which is also under his direction.

The broadcasting station of the Mooseheart School is operated at a cost of \$40,000 a year, and Prof. Roselle suggests that any Florida radio fans may hear their children's programs every Tuesday and Thursday evenings at 9 to 9:30 by tuning in on W J J D.

They have one boys and girls band of 42 instruments and another of 72 instruments, together with children's story entertainments. The Mooseheart broadcasting station also gives a Sunday afternoon program at 4 to 5 which however, may not be heard so well.

Prof. Roselle is also inspecting the past two weeks the guests of Mr. and Mrs. George D. Harvey, Mrs. Cress is Mr. Harvey's sister.

Mrs. Covington left on Friday for Palm Beach, where she will be for about 10 days, when Mr. Covington will drive down to bring her home.

Dr. Woodson, prominent physician of Birmingham, Ala., who has been spending the winter with Mr. and Mrs. John Marks at Roseville, is leaving soon for his home. Mr. and Mrs. Marks will accompany him home.

C. W. Westcott and V. A. Simmons, bankers of Belfast, Maine, called at the city hall on Wednesday with reference to their holdings of Avon Park bonds. After getting the facts on the real economic features of the city they expressed themselves as pleased with the situation and our future program.

Mr. and Mrs. J. S. Donel, of Elkina Park, Pa., who are spending the winter at Clearmont, visited the chamber of commerce Wednesday. Mr. Donel had been before and liked Avon Park so well he wanted his wife to see the city.

Mr. and Mrs. J. S. Donel, of Elkina Park, Pa., who are spending the winter at Clearmont, visited the chamber of commerce Wednesday. Mr. Donel had been before and liked Avon Park so well he wanted his wife to see the city.

Mr. and Mrs. J. S. Donel, of Elkina Park, Pa., who are spending the winter at Clearmont, visited the chamber of commerce Wednesday. Mr. Donel had been before and liked Avon Park so well he wanted his wife to see the city.

Mr. and Mrs. J. S. Donel, of Elkina Park, Pa., who are spending the winter at Clearmont, visited the chamber of commerce Wednesday. Mr. Donel had been before and liked Avon Park so well he wanted his wife to see the city.

Mr. and Mrs. J. S. Donel, of Elkina Park, Pa., who are spending the winter at Clearmont, visited the chamber of commerce Wednesday. Mr. Donel had been before and liked Avon Park so well he wanted his wife to see the city.

Mr. and Mrs. J. S. Donel, of Elkina Park, Pa., who are spending the winter at Clearmont, visited the chamber of commerce Wednesday. Mr. Donel had been before and liked Avon Park so well he wanted his wife to see the city.

Mr. and Mrs. J. S. Donel, of Elkina Park, Pa., who are spending the winter at Clearmont, visited the chamber of commerce Wednesday. Mr. Donel had been before and liked Avon Park so well he wanted his wife to see the city.

In Florida. Through a hook-in Dr. Preston Bradley of the Peoples Church, Chicago, uses the Mooseheart Station Sunday evenings 8:30 to 9:30; these religious services may be heard in Avon Park.

Prof. Roselle on his visit to Avon Park described the operation of this Mooseheart colony school in Illinois, which is located on a tract of several thousand acres, and embraces a community of several thousand persons, termed the "City of Childhood." There are 150 buildings comprising cottages, homes, schools, shops, hospital, etc., where the children are given vocational training that fit them for life, all free, although their average expenditure per child is \$800 annually. The boys and girls also do part time work in the industries and on the farm by which they earn money to buy extras that they may wish to buy, the case of the death of a lodge member his widow and children are all taken to Mooseheart and given home and life training. Prof. Petty, whom was in the visiting party and is Supervisor of Plant and Construction at Mooseheart, gave much attention to the various types of building construction at Avon Park.

As there is no Moose lodge in this part of Florida there is some or put in the savings bank. The

Moose order thus affords the most practical insurance help, as in talk of organizing one in Avon Park. Prof. Roselle stated that while he has no part in the organization of lodges he would report the matter to Secretary of Labor Davis at Washington who would give it personal consideration. Mr. Davis, by the way, will probably soon be elected as Senator from Pennsylvania to succeed Senator Grundy.

In making cookies to be sent through the mail cut them with the lid of a coffee or baking powder can. They will shrink a little in baking and fit snugly in the box when done.

Bucky Harris says he does not intend playing this year unless an injury or illness incapacitates Charley Gehring.

CHECK SPRING LOSSES OF CHICKS BY DISEASE

Bacillary White Diarrhea and Coccidiosis Worst Enemies

As spring arrives chick diseases if allowed to go uncontrolled will take the usual high toll of chicks hatched, but with proper precautions this loss can be reduced to a minimum. Dr. E. F. Thomas, assistant veterinarian in charge of poultry disease work at the Florida Experiment Station, recently stated in an address over WRUF:

Bacillary white diarrhea and coccidiosis cause the greatest losses, he explained. Bacillary white diarrhea causes the chicks to appear stupid, droop, and stand around in one position with eyes closed. The liver is brownish-yellow and the intestines and lungs may contain small white spots, and the kidneys may be congested.

This disease is carried in the egg; thus it is important that the mother hen not be vaccinated to blood test is commonly used to determine carriers, and he stated that chicks should come from blood tested stock.

The disease is also carried in the incubator, and the cause of fumigation at the rate of 35 cubic centimeters of formaldehyde poured over 17.5 cubic centimeters of permanganate for each 100 cubic feet of air space; keeping the incubator closed for one hour.

Chicks showing symptoms should be destroyed as soon as noticed. The brooder house should be disinfected with a five percent solution of creolin, he said. Strict sanitation practices should always be followed.

After the chicks are two weeks old their greatest danger is coccidiosis, which gains entrance through the mouth. They will drop around with project legs, huddle up, and in a few days deaths will start and increase.

Sick chicks should be isolated as soon as noticed, and given a dose of Epsom salts, four ounces per 100 kept without food for 24 hours, and then given buttermilk and gradually brought back to the regular feed. Preventing spread of infection is most important.

Proper management, plenty of sunshine or cod liver oil, and strict sanitation will keep baby chicks losses to a minimum, he concluded.

RURAL COMMON SENSE By Spuds Johnson

SPUDS JOINS FLORIDA FARMERS' RADIO CLUB

Neighbors hereabouts say that I am one of the "jinnest fella" they ever saw. "Spuds" is just a thing from an anti-mad-dog society to a co-operative marketing organization, is what they say. However, they are slightly wrong. I do join lots of things, but I always pick the ones that suit me while and will help me.

My latest joining has just occurred. I have joined the Florida Farmers' Radio Club. This club is conducted by the station with the Florida Agricultural Extension Division at Gainesville.

(Where I go for a lot of information), and carries on its programs over WRUF, the state and University radio station. The club was started the first of March, and holds its meetings over the radio the first and third Mondays in each month. A lot of club features and usually a short talk on the program, which starts at 12:15 and continues for 30 minutes.

I find that I get a lot of good information and entertainment from the radio programs. You know, the Agricultural Extension Division is putting on a daily agricultural program at 12:15 Eastern Time, and I listen in nearly every day. Get a lot of good dope, too.

Any of my fellow farmers who are interested in hooking up with this radio club can do so by writing to the Florida Farmers' Radio Club, Agricultural Extension Division, Gainesville, Florida. They will get a membership card with a picture of WRUF on it, and telling them about the club and their privileges as members. And they may get started to listening regularly at the agricultural programs, which will be worth while to them.

E. H. Rucker Entry Is Leading Egg Contest

Chipsley, March 20.—A pen of White Leghorns owned by E. H. Rucker, Ottumwa, Ia., was leading the fourth Florida National Egg Laying Contest. Mr. Rucker's pen to a report by E. F. Stanton, supervisor. The 10 high birds have produced 955 eggs for the 366 days entered, and a 897 production since the contest began November 1.

The highest individual to date was a White Leghorn owned by E. H. Rucker, Ottumwa, Ia., with 101 eggs for 100 points. The production to March 1 averaged 58.6 eggs for the 366 days entered, and a 897 production since the contest began November 1.

How Farmers Can Go Broke

THE Agricultural College of the University of Tennessee suggests these ten ways for a man to go broke farming.

1. Grow only one crop.
2. Keep no livestock.
3. Regard chickens and gardens as nuisances.
4. Take everything from the soil and return nothing.
5. Don't stop gullies or grow cover crops — let the topsoil wash away.
6. Don't plan farm operations — it's hard work thinking — trust to luck.
7. Regard your woodland as you would a coal mine; cut every tree, sell the timber and wear out the cleared land cultivating it in the same crop year after year.
8. Hold fast to the idea that the methods of farming employed by your grandfather are good enough for you.
9. Be independent — don't join with your neighbors in any form of co-operation.
10. Mortgage your farm for cash to pay for things you would have cash to pay for if you followed a good system of farming.

Home Demonstration Exhibits Shown In Five County Fairs

Five county fairs have been held during the past few weeks in the five counties of Florida, according to Miss Mary E. Keown, district home demonstration agent, who cooperated with the home and home demonstration agents in giving educational exhibits.

The exhibits at the five county fairs were: Home Improvement, Gardening, Lawn and Landscaping, Poultry, and Food Conservation, respectively.

USEFUL RECIPES By Betty Barclay

Changed eating habits confront the farmer. Season, of course, is a first thought at this time. But as foods, however, have been lost, lose their appeal when the time is a twice-daily habit. Salads offer a welcome change in the diet, and the refreshing fruit salads. A notably good fruit salad is made by utilizing a bouquet of lettuce which — because it has so many uses — is always good to have around. It requires only a little work as it is at hand during the winter season and may be prepared and cooled in the refrigerator to serve in cocktail, salad or dessert.

Because of the large size of the oranges now in the market, it is practical to serve the mixture in a large bowl. The fruit is cut in small pieces, and the dressing is made by mixing the fruit with the dressing. The dressing is made by mixing the fruit with the dressing.

Fruit Mixture in Orange Cups
3 oranges
12 slices pineapple
12 marshmallows
1/2 cup sliced bananas
1/2 cup sliced peaches
1/2 cup sliced apples
1/2 cup sliced pears
1/2 cup sliced grapes
1/2 cup sliced kiwi fruit
1/2 cup sliced melon
1/2 cup sliced cantaloupe
1/2 cup sliced watermelon
1/2 cup sliced honeydew
1/2 cup sliced muskmelon
1/2 cup sliced cantaloupe
1/2 cup sliced watermelon
1/2 cup sliced honeydew
1/2 cup sliced muskmelon

Cut orange in two. Remove pulp and seeds. Cut out a small piece of the orange peel and use as a handle. Fill with the fruit mixture. Place in a bowl of ice and water. Let stand for 10 minutes. Serve with a sprig of mint.

Cut pineapple, marshmallows and bananas into small pieces. Mix ingredients. Fill orange cups.

As A Salad
Cover with mayonnaise which has been mixed with whipped cream (1-3 cup of whipped cream to 1 cup of mayonnaise) and garnish with a sprig of mint. Serve in small pieces.

As A Dessert
Serve with whipped cream in place of mayonnaise.

Make A Fruit Cocktail
Cut a smaller section in the center of a glass — without dressing. Put a small amount of dressing in the center of the glass. Add fruit mixture in orange shell. The dressing will be worth while to them.

As A Salad
Cover with mayonnaise which has been mixed with whipped cream (1-3 cup of whipped cream to 1 cup of mayonnaise) and garnish with a sprig of mint. Serve in small pieces.

As A Dessert
Serve with whipped cream in place of mayonnaise.

Make A Fruit Cocktail
Cut a smaller section in the center of a glass — without dressing. Put a small amount of dressing in the center of the glass. Add fruit mixture in orange shell. The dressing will be worth while to them.

BORDEAUX SPRAYING PREVENTS FIG RUST

If Rust Not Controlled Trees Will Soon Be Defoliated

Right now is the time to prevent fig rust, one of the most common diseases of the fig. Dr. C. F. Weber, associate plant pathologist of the Florida Experiment Station at Gainesville, says the disease is caused by a fungus and causes the leaves to fall about the time the fruit is full grown.

It makes its appearance on the leaves during the latter part of the summer. When infection becomes severe the leaves turn yellowish or brown and fall. The disease is caused by a fungus of the genus *Ascochyta*.

It was formerly thought that the disease was of no great economic importance, but later investigations have shown that it affects the fruit. The disease usually appears on the leaves about the time the fruit is nearly full grown. In severe cases the trees are completely defoliated in two to four weeks, usually in July or August.

Control measures consist of raking and burning all fallen leaves and spraying with 1-4-40 Bordeaux mixture. The first spray should be applied as soon as the new leaves appear. This should be followed with a spray every 10 days until the new leaves are a half inch in diameter. Spray should then be discontinued until the fruit is picked. Two applications should then be made at two weeks intervals.

HINTS TO HOUSEWIVES

Weekly from Home Demonstration Specialists, Tallahassee

THE HOME LAUNDRY

Washday. Hampers of soiled clothes. Tubs to fill and empty. Backs aching from the work. A household a generation ago. The commercial laundry existed then. It is still there, but it is not so much a household a generation ago. The commercial laundry existed then. It is still there, but it is not so much a household a generation ago.

We are getting ready to make another crop here in the South. Again we face a shortage of feed and again must we bring in from other sections enormous quantities of supplies without which no crop can be made. If our major crops last year had left us money enough to pay for what must be bought it would be a different matter altogether, but as matters stand, the shortage of ready cash is even more pronounced than the shortage of feed. If every Southern farmer last year had produced the fourth of this year's crop, there would not have been the overproduction that played havoc with major crop prices, and there would have been cash for improvements, new equipment and other long-felt wants.

Balanced farming, the combination of plant production with livestock production, will insure agricultural safety and prosperity this year and every year to come. The 15 richest agricultural states average but little more in annual crop values than the poorest states, but the big difference is in livestock values. For every \$100 worth of plant products, one of those Northern states produces, it produces \$81.30 worth of animal products. An average Southern state, on the other hand, produces only \$35.20 worth of animal products for every \$100 worth of plant products.

As Others See Us. Samuel F. Grable, of Fargo, N. D., president of the American Jersey Cattle club, recently told the Georgia Jersey club that he had sold his cow for \$100,000, or any more profitable agricultural pursuit than dairying in his country.

He told of the difficulties that beset dairying in Minnesota, Wisconsin and Iowa, and said that where cattle must be housed in expensive barns six months of the year, and said that he had sold his cow for \$100,000, or any more profitable agricultural pursuit than dairying in his country.

"Down here," he said, "you might throw a dog through the cracks in your barns, but they are good enough for your milk. Cattle and cows can be cheaply constructed and maintained. And as for your labor, I would choose to have a cow that will produce to the unendurable foreigner than to have to contend with the labor in the Northwest."

Honor to Whom Honor Is Due. Newbern, N. C. recently picked County Agent C. B. Paris as one of the citizens worthy of distinguished recognition. Several years ago he organized "The Craven County Farmers' Club." Last year with the help of this organization, Craven county farmers shipped 119 carloads of farm products for which they received an average of \$2000 a week.

Work at the Florida Experiment Station during 1929 continued to show that fertilizing Spanish peanuts with ester of elements or complete fertilizers seldom pays the cost of the fertilizer.

Like Water, March 20.—Every girl who drinks a pint of milk, eats two servings of vegetables, and folds her clothes rack made of light weight material; a white broom for sprinkling clothes or a small sprayer attached to a running water is available.

Eat Vegetables, Drink Milk and Rest For Health

Finds Pleasure In A Back Yard Garden

Chesteron once stated that "The man who finds most pleasure for himself is often the man who least finds it for others."

Nothing could be more true. I have found this to be true after having ignored golf for a decade. Others find pleasure in fishing, hunting, in games of various kinds, and in myriads of ways.

But a large army than many realize find pleasure in gardening. It refers to the uncultivated farm and farmerettes whose gardens are located in back yards, in vacant spots of ground or perhaps in a soil-filled box on the window ledge of some apartment house.

One of these farmers recently acknowledged that he found his life's pleasure by accident. A tiny pea thrust its head above the ground one spring exactly under the eye of an oyster shell.

A few days later, the observer noticed that the shell was being lifted from the ground by a tiny pea that he could have wished off with his finger tip. Still later and that momentous hour had been entirely overlooked, and the tiny pea gallantly spread its leaves and stalks to the air as it basked in the sun-soaked up the rain, and prepared to bud, blossom and bear fruit.

The marvel of this turned an office worker with nothing to do but to wait for the door to open to an ardent cultivator of the soil. Each year the tiny plot of ground near his home has borne a mass of greens, reds, and purples, as the peas, tomatoes, cabbage, and other vegetables mature. He does not grow these vegetables for profit—but for the very joy of growing them.

Top-dressing oats with 100 pounds of sodium nitrate, calcium nitrate, or ammonium sulphate in February or March usually increases grain and hay yield enough to make the practice profitable, according to W. E. Stokes, agronomist with the Florida Experiment Station at Gainesville.

Use hot liquid instead of cold when making an uncooked frosting with sugar that is not lumpy. The lumps will disappear without the labor of sifting or rolling.

The Three Mortgage Lifers

FARM MORTGAGE

Safe or Sorry?

We are getting ready to make another crop here in the South. Again we face a shortage of feed and again must we bring in from other sections enormous quantities of supplies without which no crop can be made. If our major crops last year had left us money enough to pay for what must be bought it would be a different matter altogether, but as matters stand, the shortage of ready cash is even more pronounced than the shortage of feed. If every Southern farmer last year had produced the fourth of this year's crop, there would not have been the overproduction that played havoc with major crop prices, and there would have been cash for improvements, new equipment and other long-felt wants.

Balanced farming, the combination of plant production with livestock production, will insure agricultural safety and prosperity this year and every year to come. The 15 richest agricultural states average but little more in annual crop values than the poorest states, but the big difference is in livestock values. For every \$100 worth of plant products, one of those Northern states produces, it produces \$81.30 worth of animal products. An average Southern state, on the other hand, produces only \$35.20 worth of animal products for every \$100 worth of plant products.

Entertainers and Music Are Added To WRUF Programs

Gainesville, March 20.—The farm program over state broadcasting station WRUF should be more entertaining as well as educational since the recent addition of three musical features each day, and two farm entertainers, Abe Larkins and Bill Hankins, every Monday, Wednesday, and Friday. The farm audience may now request musical numbers that they like; they also enjoy to enjoy these two farm friends who often disagree.

These farm programs are given from 12:15 to 12:45 Eastern Standard Time each day, except Sunday, by the Florida Agricultural Extension Division. Other features for next week follow:

Saturday, March 22.—Florida Farm News. U. S. Farm Science Soapbox.

Monday, March 24.—What Returns Can Be Expected from a Florida Strawberry Farm?—J. R. Watson, professor of horticulture, College of Agriculture, Experiment Station, Farm Question Box.

Tuesday, March 25.—Aphids on Watermelons and Cucumbers.—J. R. Watson, entomologist, Florida Experiment Station. Discussion on killing insects.—L. W. Zeigler in Soapbox.

Wednesday, March 26.—Major W. Flood, professor of horticulture, College of Agriculture, Primer for Town Farmers.

Thursday, March 27.—Further Findings about Strawberry Crimps.—Dr. A. N. Brooks, associate plant pathologist, Florida Experiment Station, Farm Question Box.

Friday, March 28.—Care of the Farm Work Shop.—C. H. Willoughby, professor of animal husbandry, College of Agriculture, Experiment Station, Sheep Have a Place on the North again, Washington county.

Hogs Best Bank Account. J. Bickers, cashier of the Bank of Gainesville, recently told an agricultural extension man that, "Every customer of this bank who has been a hog raiser for a major part of the last few years is out of debt and has a nice bank account."

A strain of cigar-wrappers tobacco that is resistant to "black shank" is being developed by the Florida Experiment Station.

Fill the Pot, Alabama. It is estimated that Alabama fell short 67,000,000 gallons of supplying the milk needs of the state last year. Figuring milk at 20 cents a gallon, it would mean that milk production in Alabama might be increased to the extent of \$13,400,000 a year without extra cost to the state.

Bankers and county agents in 20 North Alabama counties are doing what they can to remedy the situation. They have joined hands in putting over a program that every \$100 worth of plant products, one of those Northern states produces, it produces \$81.30 worth of animal products. An average Southern state, on the other hand, produces only \$35.20 worth of animal products for every \$100 worth of plant products.

The Backyard Gardener
I'll make my spade, my fork, my hoe.
The burning seeds desire to grow
From trolley, auto, cab or train.
And get me close to Nature's heart.

There may be gain in office, shop;
But, oh, the joy when one can hop
From trolley, auto, cab or train.
And put that fragrant soil again.
Your plot may be an eight by four.

My garden—perhaps a trifle more
But we force our spade prongs in
Where wealth is nil. We are akin.
Our golf club is a sharpened hoe.
Our balls are peas, that start to grow
In mellow soil, prepared with care
By backyard gardeners, everywhere.

Resolve to grow legumes this year.

TO BROADCAST TAMPA H. S. MUSIC FESTIVAL

Final Events Saturday Night
March 29 To Put On Air
Through W. M. B. R.

Tampa, March 20.—The final program of the Fourth Annual Florida High School Music Festival to be held in the Municipal Auditorium on Saturday night, March 29th, will be broadcast by F. J. Reynolds's Station WMBR, wavelength 218.8 metres, frequency of 1370 kilocycles through the courtesy and sponsorship of the Musician's Association of Tampa. The program will open promptly at 7:30 p. m. The Musician's Association felt that this would be an excellent way to provide the folks of the visiting contestants' some method of hearing part of the annual Festival.

Contest events open in the First Baptist Church on Friday morning, March 28th at 10:00 o'clock. All contestants will meet in the church auditorium for a short assembly after which all solo events are scheduled to begin.

Group events will open at 9:00 o'clock, Saturday morning, March 29th, at the same place continuing through part of Saturday afternoon. On this day all solo events will be charged to the contestants with the identification tickets will be admitted free as usual.

The Board of Judges this year will be composed of musicians of recognized standing in their communities as well as some of national reputation. The personnel of the Board will be published during the coming week with a short sketch about each.

M. L. Price, chairman of the Chamber of Commerce Festival committee and president of the Association, said that the registration this year indicated the greatest number of entries in any year of the Festival. He stated that nearly every section of the state was represented either through official entries or through tentative entries prior to sending the official entry blanks. There are only a very few of the larger cities that are not represented thus far he added. Mr. Price said that up to the closing time on Monday night, March 17th, approximately one thousand entries had been received.

Omer Carmichael, chairman of the Chamber of Commerce housing committee, stated that all the schools sending in a roll of students expecting to come to the Festival would be assured of proper housing upon arrival. If a school failed to send in an advance list of those expecting to attend the Festival, he added, the housing of that group upon arrival would be considerably delayed until proper assignment of rooms could be made. He has asked all schools expecting housing during the Festival to furnish a roll listing every one at the earliest possible moment.

Numerous cups have been donated by the various musical organizations as well as by various merchants and civic clubs of Tampa for use as awards in the various group contests. Winners in the solo events will be awarded gold medals for first place, silver medals for second place, and certificates of merit for third place. If any contestant ties for duplicate honors, a duplicate award will be made.

Directors of the Association this year are headed by Hon. Doyle E. Carlton, Governor of the State, and include Omer Carmichael, supervising principal of Tampa Schools; Miss Florence Stamp, supervisor of music of Tampa schools; F. H. Spaulding, principal of Hillsborough High School; and M. W. Carothers, principal of H. B. Plant High School, Tampa; Dr. Hamilton Holt, principal of the College, Winter Park; Dr. Clarence Niles, director of the Conservatory, Rollins College; J. M. St. Simeon, president Southern College, Lakeland; Dr. Howard J. Barnum, director of the conservatory of Southern College; Miss Ella Schöbe, opera singer, Dean School of Music, Florida State College for Women, Tallahassee; Dr. Bowman F. Ashe, president, University of Florida, Gainesville; Mr. Grover Strobel, president music group, F. E. A.; and Carl D. Bromberg, president Tampa Chamber of Commerce.

BILL THE BARBER SAYS

A PERSONAL LETTER OFTEN SHOWS SIGNS OF BEING WRITTEN ABOUT A FEW DAYS BEFORE IT WAS WRITTEN, BUT NOT A BILL

SUNDAY SCHOOL LESSON ASK ALL BUSINESS MEN TO AID CENSUS TAKERS

FOR MARCH 23, 1930.

SUBJECT: Jesus Teaching and Healing.
GOLDEN TEXT: "Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you." Matt. 7:7.

LESSON TEXT: Matt. 15:21-28. At the close of our last lesson the Scripture says (Matt. 13:54) "And when he came into his own country, (Nazareth), he taught them in their synagogues." And he did not manifest mighty works there because of their unbelief. We are then told how King Herod arrested, imprisoned and killed John the Baptist. "When Jesus heard of it he departed thence by ship into a desert place." And he healed their sick.

That evening Jesus fed the 5000 with the five loaves and the fishes. Then Jesus sent his disciples, in a boat, across the lake, and "he went up into a mountain apart to pray." At this time a storm arose on the lake and was about to destroy the boat and the Apostles, but Jesus went unto them, walking on the sea. The disciples were afraid. But Jesus said to them, "Be of good cheer; it is I, be not afraid." At the command of Jesus the storm ceased and the sea became calm. "Then they that were in the ship bowed down before him, saying, 'Of a truth thou art the Son of God.'" Their boat came to the shore of the lake (sea of Galilee) at "the land of Gennesaret" (of the Gadarenes, or Gergesenes). The people of that place "brought unto him all the diseased and the maimed, and as many as were touched by him were made perfectly whole. Then came to Jesus Scribes and Pharisees, saying, 'Why do thy disciples transgress the tradition of the elders? For they wash not their hands when they eat bread.'"

Compare the teachings and doings of Jesus with those of the Scribes and Pharisees. Jesus healed diseases and taught the soul's salvation; they taught their traditions, thereby, "Laying aside the commandment of God, ye hold the tradition of men, the washing of pots and cups; ye reject the commandment of God, that ye may keep your own tradition." The state was represented either through official entries or through tentative entries prior to sending the official entry blanks. There are only a very few of the larger cities that are not represented thus far he added. Mr. Price said that up to the closing time on Monday night, March 17th, approximately one thousand entries had been received.

Enumerators Are Sworn To Secrecy and Nothing Will Be Divulged

A. F. Pickard, Supervisor of Census for the 6th District of Florida has appointed Milton E. Skipper as enumerator in Highlands county embracing Sebring and Mrs. Anna K. Stevens embracing Avon Park, for the Census of Distribution and Manufacture, and confidential government reports will be obtained by these enumerators from retailers, wholesalers, manufacturers, mines and quarries. It will greatly facilitate the work of these enumerators if the business men will have the necessary data ready, such as net cash sales, net credit sales, number of employees, salaries paid, rent, etc.

The enumerators and all connected with this work are under oath to give out no information received to anyone. The enumerators are under oath with severe penalty for giving out any of this information so gathered, as well as severe penalty for those who refuse to furnish the information. All information is held in strict confidence and under the law the information furnished shall be used only for the statistical purposes for which it is supplied. No publication shall be made by the Census office whereby the data furnished by any particular establishment or individual can be identified, nor shall the director of the census permit anyone other than the sworn employees of the census office, to examine the individual reports. This is a public service, important and far-reaching, cannot be successful unless the people themselves realize their responsibility and join the Department of Commerce with confidence and full co-operation in this great government undertaking.

David Lusby Passed Away Last Thursday

David Lusby, aged 63, an employee of the Mutual Grate company of this city, passed away last Thursday following a cerebral hemorrhage. Mr. Lusby resided here, though he had a daughter in Utah, with whom authorities communicated.

Funeral services were held Sunday morning at 9:30 at the grave, conducted by Rev. J. H. McCall. Burial was made in Bougainville cemetery. Funeral arrangements were in charge of L. B. Cornell.

The cabbage palm deserves its name from the development of a cabbage-like growth in its top.

Jesus said to his disciples, "Go ye into all the world and preach the gospel to every creature."

The woman came, "And worshipped him, saying, 'Lord, help me.' But he answered and said, 'It is not meet to take the children's bread and eat it to dogs.' When we study the customs of those days and people these words of Jesus are not cruel, as they seem. But, the woman said, 'Truth, Lord; yet the dogs eat of the crumbs which fall from their masters' table.' Then Jesus answered, 'Woman, great is thy faith: be it unto thee, even as thou wilt.' And her daughter was made whole from that very hour." This woman acknowledged Christ, woman, "I am not sent but unto the lost sheep of the house of Israel." When Jesus first sent the twelve he said, "Go into the way of the Gentiles,..." But go rather to the lost sheep of the house of Israel. But after his death and resurrection, just before his ascension into heaven,

CHILD PIANIST FIVE YEARS OLD HONORED BY MUSIC WORLD

Photo shows five year old Ruth Slomczynski, who has won a scholarship at the Curtis Institute, Philadelphia, through a concert for Josef Hofmann, that was announced recently. Her work during the concert included selections from Bach, Beethoven, Mendelssohn, Chopin and Grieg, and her musicianship and technical attainments were praised by the famous pianist and director of the Curtis Institute.

Frostproof Resident Died Last Saturday

James M. Manley, of Frostproof, died last Saturday following a cerebral hemorrhage of the brain. He was an old resident of Frostproof, and besides his wife leaves two sons and a daughter. The body was taken to Port Meade for burial.

Bucky Harris says he does not like playing this year unless an injury or illness incapacitates Charley Gehring.

NOTICE TO MORTGAGEES AND OTHER LIENHOLDERS ON REAL PROPERTY SUBJECT TO DELINQUENT TAXES, SEVEREST ASSESSMENTS, AND OTHER PUBLIC CHARGES, ASSESSMENTS AND LIENS.

It may be that mortgagees and other lienholders are now in the question of priority as between taxes and other public charges, city and their own securities, and are unwittingly allowing interest collection fees, to augment the amount due. Liens due the City are prior and superior to all other liens except those due the State and County, and these may be foreclosed as to take care of delinquent taxes and other public charges. Suits to collect delinquent taxes and street assessments are now in preparation, and beginning with the first of May will be filed as of right as possible. Once filed, naturally there will be no time to delay. The purpose of this advertisement is to save these additional charges and other encumbrances from being added to the property which taxes and street assessments are paid on properties in which they are interested, and if not paid, assessments for interest should be made at once with the City Attorney.

S. COLQUITT PARDEE, City Attorney.

NOTICE TO CREDITORS.

Laws 1927 IN COURT OF COUNTY JUDGE HIGHLAND COUNTY, STATE OF FLORIDA. IN ESTATE OF OSCAR DAVID JOHNSON, Deceased. To all creditors, legatees, distributees and all persons having claims and demands against said estate: You, and each of you, are hereby notified and required to present any and all claims, demands, or claims of any kind, against the estate of Oscar David Johnson, deceased, to the County Court in Sebring, Highlands County, Florida, within twelve months from the date hereof.

Dated February 14, A. D. 1930.

W. HAZEL M. LUTHER, Administrator of the Estate of Oscar David Johnson, Deceased.

52-32.

NOTICE OF ATTACHMENT.

IN THE COURT OF THE JUSTICE OF THE PEACE IN HIGHLAND COUNTY, FLORIDA, DISTRICT NO. 1.

M. H. Gribble, Plaintiff, vs. R. A. Stamey, Defendant.

You are hereby notified that a writ of attachment has been issued against you and your property attached to satisfy the demand of the plaintiff in the above case, amounting to Seventy Five and 00/100 Dollars.

NOW, unless you shall appear before the Justice of the Peace in and for the County and District aforesaid, on the 14th day of April, A. D. 1930, judgment will be rendered for the plaintiff, and your property sold for the debt.

Witness my hand and the seal of said court this 6th day of March, A. D. 1930.

(SEAL) MATTIE W. TOMPKINS, Justice of Peace.

WAY OPEN FOR BOLTING CANDIDATES TO RETURN

Attorney General Thinks Republicans Not a Party at Last Election

Sunshine seems to have broken through the clouds surrounding the state law which requires all candidates at the forthcoming primaries to take oath that they did not support any nominee of any other party at the last general election. According to the Citrus County Chronicle of March 19, Attorney General Davis has handed down an opinion which permits bolters from the Democratic party to return to the fold with grace and clear consciences. The Inverness paper says:

In his opinion sent to a Clearwater attorney, Mr. Davis said the candidates for office in the Democratic primaries are required to make oath that they did not vote for the nominees of any other party, national, state or county at the last general election and that similar oath may by challenge be

required of the voters themselves. However, Mr. Davis continued, after declaring that whatever applies to candidates also applies to voters, "neither the clerk of the circuit court nor the secretary of state would have the legal right to question the veracity of candidates who take the oath, and that after it is taken it becomes a political matter for the voters."

"The terms of the oath," the attorney general added, "are addressed to the conscience of the candidates or elector who takes it, and the candidate or elector has the right in taking the oath to assume the position as a matter of law the word 'party' as defined in section 385 is equivalent to the phrase 'political party' as defined in section 356, and to take the position that because the Republican party was not a 'political party' under section 356 at the last general election that, therefore the candidates or voter may conscientiously swear that he did not vote for the nominee of any 'party' or 'political party' at the last general election, even though in fact the voter did vote for Republican presidential electors at the last general election."

The magrove is a small tree growing in salt marsh.

Nazarene Church To Hold Tent Meetings

The Nazarene church announces that beginning Wednesday, March 26 and until Sunday, April 6, tent meetings will be held on the first open lot just west of the Standard Oil filling station on West Main street.

The services will be held every week night at the tent at 8 p. m. and on Saturday night an open air service will be held on the Mall and from the bandstand, Sundays at 11 a. m., and 7:30 p. m. Rev. Paul A. Southard, the pastor of the Nazarene church in this city is to be the evangelist, and Rev. Chas. E. Deware, of Providence, R. I., new pastor of the Lakeland Church of the Nazarene, will be the song evangelist. Both of these men have been greatly blessed in their respective fields and all feel that they will meet with success in the revival. The public is cordially invited to attend the services.

"Yeh, and I had to pay only two dollars extra for the pigeons!"—Green Goat.

For Economical Transportation

Chevrolet announces A NEW SERVICE POLICY

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

- 1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.
- 2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.
- 3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.
- 4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.
- 5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet

owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

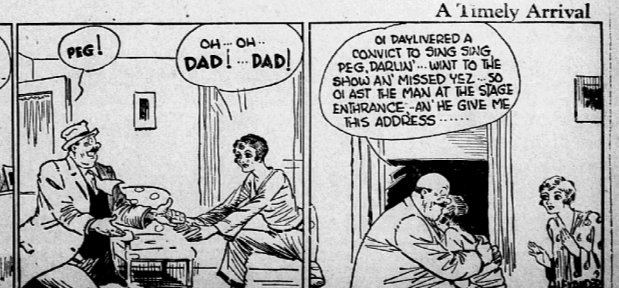

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations! In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy.

EDUCATORS HEAR TAX PROBLEMS DISCUSSED

Evince Hostile Attitude Towards Florida Land Owners' Association Tactics

Distinct hostility was evidenced yesterday by the members present at the County School Superintendents and Board Members conference at the Sebring Hotel, towards the Florida Land Owners' association and the methods used towards tax reform. This association of "land barons" was recently formed at Jacksonville and claim to represent owners of over 10,000,000 acres of Florida real estate. W. C. Sherman is president and offices have been established at Lake Placid from where considerable literature has been sent out over the state to the press and a number of property owners. Considerable exception was taken yesterday by the educators to a certain letter this land owners body has distributed to tax payers and it was claimed this letter had influenced a number from paying their taxes and in some cases where checks had been passed for taxes they had been withdrawn or payment stopped.

The landowners were represented at the morning session by Mrs. F. H. Johnson who was subjected to a number of questions. Mr. Sherman, the president, was not in evidence but W. F. Cochrane of the Consolidated Land company was present during part of the afternoon conference but took no part and had nothing to say on any subject.

Mrs. Johnson claimed the association represented the small property owner as well as the large and presented a very gloomy view of current tax collections which did not agree with the ideas of many of the school men present. She claimed the land was unproductive in a great many cases and the taxes on this land were confiscatory and the counter charge was promptly made that the land owners themselves had taken the turpentine and timber and were therefore responsible for the lands' present condition.

The lady further asserted it was far cheaper to rent than own a home in Florida under present conditions and this statement was challenged by Capt. George M. Lynch of St. Petersburg, chairman of the meeting who stated the taxes on his home were very reasonable and he could rent it for \$1,500 a year. Another member present made the statement following the meeting that he owned property in several states and his experience was that taxes are lower in Florida than elsewhere.

Mrs. Johnson also painted a very dreary picture of Florida's credit, in fact she said the state hadn't any credit any more. She also pictured the big land owners as high minded heroes who had the future welfare of the state at heart and are looking forward for years to come. She was bombarded with questions and was not always very clear with her answers. When asked as to the number of small property owners in the association she said there were as many as the large owners and it was pointed out that if this was the case the small owner was in the minority when it came to acreage representation.

The question was very forcibly raised of the land owners right to deter payment of 1929 taxes as the budget was made up and the money expected to pay debts already contracted for. If they had any complaint it should have been made to the equalization boards before the millage was set, it was said. T. V. Conway predicted the closing of all lumber mills in Highlands county on April 1 if the taxes are not paid and voiced the opinion that the land owners are trying to slide out from under their responsibilities after having depreciated the value of the lands by the removal of the turpentine and timber.

The sales tax was discussed to some extent and following the noon luncheon, J. J. Lynch of Jacksonville gave an eloquent talk on the benefits to be forthcoming from this method of raising revenue. The tax was predicted by Mr. Lynch would be two percent on all retail sales and the merchants would act as the collectors and remit to the county tax collectors once a month.

Mr. Lynch advanced the idea that this tax would place the chain stores on a more equal footing with the independent mer-

chants and would cut the state millage 92 and 98-100 percent and the county millage from 30 to 50 percent. He estimated a total revenue of 20 to 30 million dollars per year from a sales tax. The sentiment of the meeting appeared to crystallize in favor of the sales tax and many questions were put to Mr. Lynch on the subject. The chairman stated he favored such a tax and he believed the principal is right. The benefit to be gained by the schools was emphasized and it was stated that any increase in population would mean more revenue for the schools.

The need of a special session of the legislature was cited and it was hoped that this might be accomplished in the near future. Mr. Lynch predicted prosperity for the state and excellent schools if a sales tax is an accomplished fact as there can be no tax dodgers under this system and everyone pays according to what he buys, he said.

Col. F. N. K. Bailey was a speaker at the morning session and made an eloquent plea for high-minded teachers as it was necessary for teachers to guide and train the children as well as educate them, he said.

The next meeting will be held in Tampa April 24. Capt. George M. Lynch of St. Petersburg was re-elected president; and Mrs. Esther Frances Bradley, also of St. Petersburg, secretary. Miss Clara Gore, secretary to Capt. Lynch, was present and assisted with the secretarial work.

About 40 were present and the meeting was held in the sun room of the hotel and a very appetizing lunch served in the dining room at noon. Highlands county was represented by Col. Bailey, T. V. Conway, and Samuel Long.

THE BREAD OF LIFE

Breads and biscuits made from the refined white flour of the essentials of the balanced diet that bread made of any other flour. This is proved by a recent experiment conducted by the National Soft Wheat Millers Association. Six percent of the essential diet was bread—self-rising flour biscuits made with water, self-rising flour biscuits made with whole milk, yeast bread made with water, yeast bread made with whole milk, commercial white bread, and commercial whole wheat bread.

The increase in weight of the subjects used in the experiment showed greatest with self-rising flour biscuits made with whole milk; second, self-rising flour biscuits made with water; and third, commercial white bread, yeast bread made with whole milk, commercial whole wheat bread, and yeast bread made with water.

The balanced diet demands three main elements: the right kind of proteins, vitamins A to F, and certain minerals. Of the minerals, the following nine are necessary: sodium, calcium, phosphorus, sulfur, potassium, magnesium, iron, iodine and chlorine.

Three of them, sodium, calcium and phosphorus, are introduced into soft wheaten flour millers at the time of milling. The resultant flour, self-rising flour, therefore, contains these three important mineral agents for bone development and growth, in far greater proportion than other flours in commercial use.

FANS FORM MOTORCADE TO SEE CARDINALS PLAY

Large Number Motor to Bradenton On Thursday and Watch Card-Yankee Game

A motorcade of Avon Park people motored to Bradenton Thursday afternoon to witness the "Grapefruit League" game between the Cardinals and the Yankees.

The motorcade was gotten up following the suggestion of M. E. Covington to the city council Monday night that the mayor declare a half holiday and sponsor such a pilgrimage to the Friendly City for the purpose of letting the Cardinals know the Avon Park folks are still rooting for them.

The suggestion was taken up by the chamber of commerce and at the meeting of the board of directors Tuesday night a baseball committee was appointed as follows: Gilbert Freeman, chairman; Chas. R. Head, C. D. Ordway, M. E. Covington, Mrs. Pedalma Hagood and L. E. Thomas. The committee met in the office of Col. Head Wednesday afternoon and organized the motorcade which journeyed to Bradenton to witness the game.

INAUGURATE CLEAN-UP CAMPAIGN IN COUNTY

All Fruit Must Be Off Trees and Groves Cleaned By April 15

All fruit must be cleaned up before April 15, was the warning issued to grove owners by C. E. Baggott, district inspector in charge of fruit fly eradication, at the meeting of grove owners and others interested in fruit growing at the Court House Saturday morning.

Representatives from all parts of the county were present at the meeting and formed a county-wide clean-up campaign organization to work under the direction of county agent Louis Alsmeyer. Those who will have charge of the clean-up work are E. G. Todd and Charlie Walker, Avon Park section, Edwin Lewis, Sebring section, Luther Farmer, DeSoto City section and Albert Devane, Lake Placid. The men on the committee are to appoint as many helpers as they need to work their particular district. The Plant Quarantine and Control administration of the U. S. department of Agriculture will co-operate with the county clean-up organization in their activities.

By staying in zone three last year the growers of the county benefited to the amount of \$200,000, according to figures given by County Agent Alsmeyer. This year there is promise of a much bigger crop and the county growers will benefit to a greater degree if the county can remain in zone three again this year. In order to do this it will be necessary for all the growers and grove owners to pick their groves clean and to destroy all drop fruit. The regulations provide that a

grove be cleaned up as soon as the commercial picking is finished. The county wide clean-up campaign will start at once, it being deemed necessary so that northern grove owners may see that their groves are cleaned before they leave for their homes out of the state. Another reason, said County Agent Alsmeyer, is that all fruit picked now can be marketed but if the growers wait until the end of the season the fruit will have to be destroyed.

Failure to clean up a grove will result in the owner experiencing difficulty in getting a certificate to move fruit this fall. Last year the inspectors did not enforce the regulations to the fullest extent due to the fact that many of the grove owners were not familiar with the regulations but the inspectors will be required to enforce the rules to the limit this year. To avoid trouble clean up your groves before April 15th, is the advice issued by those in charge of the clean-up work.

The host free period for citrus fruit is from April 15th to October 1st. For host vegetable the host free period is June 15 to October 1st.

The cabbage palm deserves its name from the development of a cabbage-like growth in its top.

The date palm and the olive tree in Florida do not bear fruit.
