**Prices a Thrifty Man can understand**

Goodyear is the greatest name in rubber. Millions and millions more people ride on Goodyear Tires than on any other kind.

That's why, at times like these, with rubber prices at rock bottom, Goodyear can offer values none can match.

Here we list some of the amazingly low prices now prevailing on Goodyear Pathfinders.

Check the list carefully. See how little it will cost to re-equip your car.

Great, sturdy Supertwist balloons, built to Goodyear standards by Goodyear craftsmen, at prices a thrifty

## THE MACHINE AGE APPLIED TO CRIME

Methods Employed by Criminals Demand New Police Methods, Bankers Association Official Declares

USE by criminals of modern technological developments such as automobiles, machines, and airplanes have given them advantages which old-fashioned local and disconnected police systems are powerless to combat and the situation demands the broader modern protection of State police systems, James E. Baum, deputy executive American Bankers Association in charge of its crime investigating department, declared.

"The Association's Protective Committee has repeatedly urged the advantages of extending state police systems beyond the local eastern States which have enjoyed this protection for many years," Mr. Baum says. "The time has passed when we can rely upon the disconnected and often-times ineffective methods of local and county police forces in the case of automobiles and better roads, to say nothing of airplane runs and airplanes, demands the same wide latitude in authority and scope of operation be given the police no less than the criminal."

Statewide Police Plans Best. He quotes a New York Times article saying that "our system of sheriffs and constables was not designed to meet present-day conditions."

"Every year the robbery experience of banks in the nine States having State police proves the merits and urgency of the State-wide police protection," says Mr. Baum. "Last year, for example, there were 38 bank holdups in Connecticut, 30 in Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island and West Virginia where State police forces are organized; but in 1930 in Illinois alone there were 100 robberies. Although this total is exceptionally high due to an unprecedented number of robberies in New Jersey and Pennsylvania, it is little more than half the number of daylight bank robberies suffered in 1930 in Illinois. Furthermore, this total of 38 robberies in the nine eastern States was exceeded in California where there were 42 bank holdups, and in Ohio where banks suffered 40 attacks."

Holdups Fewer Under New Plan. "If we extend the State police to the robbery experience in these States enjoying State-wide police protection to the record in eight central and far western States, we find a total of 304 bank holdups in the latter group. The odds, therefore, continue to be less than 3 to 1 against the banks in these western States, where they are denied the speedy, coordinated action of State police and take no other means of transportation and communication. The same comparison holds true of the farmers' losses through robberies of livestock."

"Moreover, these State police forces invariably yield an operating profit in the amount of one percent and the value of stolen property recovered. Bankers interested in cutting down the cost of robbery insurance naturally favor this job of extending State police systems as a service to be undertaken alongside the farmers'."

## BANK EMPLOYEES SENT TO SCHOOL

Modern Scientific Financial and Management Methods Taught Throughout Country.

THE American Institute of Bank Employees, Inc., has announced the opening of its new section of the American Bankers Association course 225 chapters, or local banking schools in as many cities throughout the country. One large city chapter has almost 6,000 students, who are combining formal theoretical and practical banking studies with their daily working experience and other places have these schools with a thousand to two thousand students in addition there are fifty study groups in small communities with some 4,000 enrollments. All told over 43,000 bank people are taking these courses—not only clerks, but bank officers and even senior officers in more advanced work.

The work of the institute has been declared to be "a dynamic economic force, pointing toward a broadening, deepening stream of better qualified bankers that could be developed more by the daily workings of a bank itself and it has been suggested that every bank worker should be compelled to combine these courses with his work. A good many banks now make it part of the contract of employment that an employee shall undertake to receive this instruction and that the bank shall be responsible for the cost of the instruction. The new organization will make a vigorous fight for the repeal or reduction of the gasoline tax and auto license tax. Temporary chairman is August B. Mugo with offices at the Bayview Hotel in Tampa. It is planned to organize local associations in every county.

MacClenny.—First carload of corn shipped from here recently.

## Speedboats War on Bootleg "Gas"

Philadelphia, Pa.—In an effort to put an end to the smuggling of gasoline into Pennsylvania from New Jersey and nearby states via the Delaware River, the State Highway Department has put into service six high-speed boats. This smuggling of gas into the state is costing Pennsylvania thousands of dollars annually in gasoline taxes. A check-up of gasoline stations in Philadelphia alone showed that more than 500 dealers were selling "illegal gasoline." Photo shows State Police and ex-Navy men who have been assigned to one of the boats as its crew by Governor Pinchot. Left to right: Lieut. W. J. Ruch, Sgt. R. G. Goodrich, Patrolman E. R. Wallis, Corporal Walter Guhrkoff, Private T. P. Hoffman, and Corporal G. F. Boice.

## NEWS of General Interest To Highlands County

### HICORIA

Mrs. A. V. Angier of Georgetown, Fla., is visiting Mrs. E. A. Whitaker.

Mr. and Mrs. Bill Skipper and son, Billy, were in Sebring Monday on business.

Mr. and Mrs. Hubert Pelham and children attended preaching service at the Baptist church last Sunday night.

Mr. and Mrs. C. P. Tucker and son, Joe, and Connie Garrett were shopping in Arcadia last Saturday night.

Mr. and Mrs. J. W. Peoples and children attended religious services at the Baptist church last Sunday evening.

John Odom returned to Holipaw with her mother who spent Friday and Saturday here visiting relatives.

Mr. and Mrs. J. W. Guthrie and children attended preaching service of the Baptist church at Venus last Sunday night.

Earl Peoples, Rod Morrison, Harry Houston and Harry Ewers saw the movies in Arcadia Saturday night last.

A play supper at Okeechobee last Thursday night was attended by Earl Peoples, Rod Morrison and Harry Houston.

Mrs. Bill Skipper and son Billy, Mrs. W. D. Hope, Mattie and Juliet were in Jacksonville, where they were shopping in Arcadia last Saturday night.

Mrs. E. A. Whitaker, Mrs. A. V. Angier, W. O. Causey and Baby Joyce were visiting in Wauchula and Ft. Meade last Sunday.

G. W. Parker left last Sunday night for Jacksonville, where he went for medical examination. He is a veteran of the World war.

Broward Coker has returned home after a vacation of several days. He is filling his same position at the company's store here.

Mr. Morrison, Harry Houston, Earl Peoples, Onie Garrett and Harry Ewers attended a party at Okeechobee Wednesday night of last week.

Walter Ammons who has been employed in the store at the mill has returned to Kenansville, where he will be salesman in the company store there.

Mr. and Mrs. W. R. McGill and Mrs. Ella Strickland who has been visiting Mr. and Mrs. W. Garrett, and Mrs. J. T. Davidson have returned to their home at Kenansville.

The new board of Hicoria school trustees met Monday night of this week and perfected the organization for the two-year term. W. O. Causey was elected chairman, C. P. Tucker, and C. H. Shackelford, members, all present. W. O. Causey was elected chairman, C. P. Tucker, and C. H. Shackelford, members, all present. The members discussed business pertaining to the school. No definite action was taken on any question. The meeting mainly was for the purpose of organization, and then adjourned to meet at an early date which they will announce later.

Auto Owners Organize. Florida automobile owners who under the new law have to pay 84 percent, or \$21,000,000 of the total annual state revenue, are forming a protective association. The new organization will make a vigorous fight for the repeal or reduction of the gasoline tax and auto license tax.

Temporary chairman is August B. Mugo with offices at the Bayview Hotel in Tampa. It is planned to organize local associations in every county.

Just as the early bird gets the worm, the hog producer who hits the early fall market gets the profits.

### VENUS

J. H. Holcomb and W. E. Masters are repairing the P. E. Talmage house.

Mrs. W. H. Cannon is visiting her daughter Mrs. Farrington at Clewiston this week.

T. M. Morgan has new sweet potatoes, he has four acres planted. He is also cutting hay.

Deputy sheriff W. C. Mathis attended court at Venus Monday this being rule day for Justice district No. 5.

Vera Langford, Vera May Allen and Clarence Langford attended the show at Arcadia one night this week.

Mrs. A. H. Farrington has returned to her home at Clewiston. The baby has recovered from its recent illness.

W. E. Hendry took his wife to the hospital in Arcadia Tuesday. Their many friends hope for her speedy recovery.

Mr. and Mrs. Strickland, Miss Sara Jo Bussey and Leland Crews were the dinner guests Sunday of Mr. and Mrs. William J. Esenlaub.

Fred M. Edwards and wife of Lakeland were transacting business in Venus Wednesday. While here they visited Alex McDugald and family.

W. K. Masters is putting in a restaurant in the Venus old Market building and will serve short order meals and night with cold drinks, cigars and tobacco.

Mrs. Q. A. Strickland is leaving Friday for Orlando to visit her mother. Mr. Strickland will join her in a few days to take a two weeks vacation trip to his old home in Georgia.

Vern Langford, Broward and Norman Cline, Sallie Cline and Wallace Hope attended a birthday party at Lake Port Wednesday night. It was a surprise for Mr. Cline and Broward Cline.

Rev. W. J. Peters filled the pulpit at Venus Baptist church last Sunday, the subject of the sermon being "The Lord's Supper." After the sermon the Lord's supper was administered with good results.

Mr. and Mrs. W. H. Hendry, Francis Jordan and James King of Ft. Green and Mrs. A. Carson, Buena Carson, Katherine Curry and James McDugald of Inokalee were the dinner guests of Alex McDugald and family Sunday.

George and Raiford Durance were visitors in Wauchula last Saturday night.

D. Douse spent the week-end in Tampa with his daughter, Mrs. Gardner Adams.

Gord Durance of Hen Scratch was the dinner guest of his brother, G. W. Durance.

Melbourne.—Development of local Crane Creek harbor underway. Eustis.—Chas. Bray opened Crystal Market on corner Bay and Stevens streets.

Sarasota.—Duckie-Wuckie Sandwich Shop opened under management of A. Addison.

Apalachicola.—Remodeling of Chapman School building progressing rapidly.

## Exchange Juice Co. Studies By-Products

Marketing possibilities of the various juice by-products are being carefully investigated by the Exchange Juice company, the subsidiary created by the Florida Citrus Exchange last year to give impetus to the development of the frozen orange juice and serve as the basis for future Exchange operations in the juice by-products field, according to the "Seaboard Chronicle."

The entry of the national dairy concerns into the frozen orange juice field has relieved the company of much of the experimental labor connected with that project, though it watched the outside activities along this line closely and is engaged in a survey of the consumers.

It is giving its main attention to the field of concentrates and pulp juice used mainly by beverage dealers and the confectionary trade. At the present time various concentrates are being manufactured under its direction in limited quantities.

The company in April purchased 3,000 boxes of grapefruit and 1,000 boxes of oranges. The fruit was juiced and the juice held for later orders. The grapefruit averaged only 3.25 gallons a box, while the oranges produced an average of 4.85 gallons a box. A total of 25,000 gallons of grapefruit juice and 4,700 gallons of orange juice was extracted.

The juice has been made into concentrates on order from the trade, according to the specifications of the buyer. The different orders call for various concentrations and some for various admixtures of pulp juice.

This experimental work is revealing much very important information and is practically paying for itself. It is showing what there is a market for and the outlets for the products. At the same time the company is accumulating valuable data on the cost of production and other angles of the work. John S. Cadel is supervising the work.

## RURAL COMMON SENSE By Speds Johnson

FARM TOURS ARE OF VALUE TO FARMERS AND BUSINESS MEN

Stealing some other person's trouble sometimes gets one in a bind. However, among farmers the practice is rather to be encouraged. So when you get a chance to go on a tour to see what other farmers are doing, by all means grab the chance. No matter whether the farmers are in your own county or in some other part of the state or even in another state.

I may (and do) think that I am a pretty good farmer. Yet I can nearly always pick up some splendid ideas by looking over the work being done on other farms. And I haven't hurt the other farmers by stealing their thunder.

And business men, too, ought to be interested in making farm tours in their counties. They can obtain and maintain closer contacts with the farmers whose business or trade they hope to get or to keep. They can become more familiar with the problems facing farmers, and thus will be more sympathetic. And, some day they may want to retire to the farm, and they will be in a better position to make a go of farming.

The county agent recently conducted a group of us farmers and business men on a tour of some of the demonstrations being conducted on farms in the county. We saw that corn following winter cover crops makes a much better yield than corn growing where no winter cover crops were grown. We saw that peanuts planted thick in the rows, with the rows close, give prospect of returning greater yields than those planted thinner. We saw that peats planted thick in the rows, with the rows close, give prospect of returning greater yields than those planted thinner. We saw that peats planted thick in the rows, with the rows close, give prospect of returning greater yields than those planted thinner.

When the county agent says grab your hat and come along, we are going for a farm tour, by all means join the procession, whether you are a farmer or a business man.

Legal Notices

NOTICE OF APPLICATION FOR TAX DEED. Notice is hereby given that Lewis Myers, purchaser of tax certificate A. D. 1321, has filed said certificate with my office and has made application for tax deed to issue thereon.

Said certificate embraces the following described property situated in Highlands County, Florida, to-wit:

Lot 20, Block H, Marsh Sub-division of Block 20, of the 1st 1/2 section of Section 22, T. 1 N., R. 10 E., S. 12 N.

The said land being assessed at the date of the levying of said certificate in the name of R. K. Bowman.

Unless said certificate is assented according to law, tax deed will issue thereon on the 14th day of August, A. D. 1931.

(SEAL) Clerk Circuit Court, Highlands County, Fla. July 10-17-24-31 Aug 4

## Prizes Offered at Jacksonville Beach Carnival

Jacksonville, Aug. 5.—One thousand Georgia Peaches and Florida Sunshine Queens are expected to compete for the title of "Miss Southeast" and \$275.00 in prizes at the Mid-Summer Interstate Beach Carnival to be held at Jacksonville Beach from five days to Sunday, Aug. 15 and 16.

The carnival is being sponsored by the Edward C. DeSaussure Post No. 9, American Legion, of this city. The principal features of the mid-summer event include a Style Show and Revue with a Model Contest in which girls from Legion Posts in Georgia and Florida will compete; an Open Class Bathing Beauty contest in which any young lady over 16 years old in Georgia and Florida may enter with \$275.00 in prizes; a Junior Beach Costume Parade for children from five years to 16 years; a miniature golf tournament to determine the champion of Georgia-Florida and a dancing each evening on the pier.

The board walk attractions composed of more than 40 amusement features will be in full swing to assist in entertaining the visitors from the two states. Legion Posts are organizing delegations to meet in this inter-state summer gathering, from advance indications promises to vie with the 4th of July and Labor Day crowds at the seaside resort.

Full information regarding contests and carnival events may be obtained by addressing Chas. E. Harris, director at 411 Consolidated building, Jacksonville. The American Legion of Jacksonville extends a cordial invitation to the citizens of Florida to enjoy the week-end with the Georgia visitors on this occasion. The Legion slogan is "Be Here or Be Sorry."

Bids will be asked in near future by War Department for construction of approximately six miles of levee and navigation channel along southern shore of Lake Okechobee between Moore Haven and Clewiston.

Anna Maria.—Work underway of clearing 100-acre tract of land near northwestern end of Anna Maria key, for landing field for All American Airways, Inc.

Fort Pierce.—Laying of foundations for Type-A flashlight air station at airport of Fort Pierce Airways, Inc. underway.

Tarpon Springs.—Eagle Street opened after being renewed.

Ocala.—State convict camp, located on Road No. 19 outside city limits, completed and ready for occupancy.

Drivers of sixes never want less

because it takes six cylinders to give the smooth, silent power that makes driving really enjoyable

Drivers of sixes are spoiled for anything less. Drivers of sixes are sold on multiple cylinders. They would no more think of giving up "six" performance than any other real endorsement of motoring. For them, the whole cylinder question has been settled.

Slip behind the wheel of a Chevrolet Six, and you'll know why these drivers feel as they do. Step on the starter, let the motor idle—and notice its silence. Throw in the

clutch, shift into "low"—and feel that smoothness. Change into "second," hit a faster and faster clip, slip into "high," sweep along at top speed—then throttle down to barely a crawl. The smoothness and flexibility you always get are six-cylinder smoothness, six-cylinder flexibility. Amusing vibration is gone!

Over two million owners have tested and proved this six-cylinder Chevrolet engine. They have found that it costs less for gas and oil than any other. They have found that it actually reduces upkeep costs, by holding vibration to a minimum. They know a six is better in every way—and they would never be satisfied with less!

Twenty beautiful models, at prices ranging from \$475 to \$675. All prices f. o. b. Flint, Michigan, special equipment extra. Low delivered prices and easy C. M. & C. terms.

## Farmers See Much On Recent Taylor County Farm Tour

About 250 Taylor county farmers and business men recently followed County Agent R. S. Dennis on a tour to 12 farms in the county where better farming demonstrations are being carried on. They saw demonstrations showing corn following winter cover crops to be twice as good as check plots, improved cane varieties, the advantages of grade cattle over scrubs, and many other business-like profits of the better methods of farming.

As stated by A. D. Poppell, farmer and county commissioner, "We saw where cover crops were doubling and even tripling the yield of corn. In one of the demonstrations corn following a good crop of vetch was 50 percent better than corn on a check plot which had had six two-horse wagon loads of manure instead of the vetch. Another thing we farmers should take to heart is improved implements. On one of the farms visited we saw extra profits some of the farmers were getting by growing early fattening feds and marketing their hogs in early fall."

Major C. L. Brando of Perry, stated in a recent radio address that business men are also interested in farm tours, since most of them deal with farmers or would like to retire on a farm.

Ocala.—State convict camp, located on Road No. 19 outside city limits, completed and ready for occupancy.

W. M. HETHERINGTON - - - Editor

**SUBSCRIPTION RATES:**  
One Year in Highlands County.....\$2.50  
One Year outside of Highlands County.....\$2.50

Entered at the postoffice at Avon Park, Florida, under the Act of March 3, 1879, as matter of the second-class.  
ADVERTISING RATES FURNISHED UPON REQUEST

Already patriots are slyly urging their friends to urge them to become candidates.

Tampa is seeking a Danish colony for some of her outlying territory. No doubt these people will be found quite desirable. There are lots of Great Danes.

The U. D. C. are up in arms because it is proposed to make Abraham Lincoln's birthday a legal holiday in Georgia. Our prejudices die slowly.

Lots of conditions solve themselves if they are let alone, and nothing is done or said about them. That kind of treatment might be good for hard times.

There are only two really important things in the world today—what Culbertson says, and the advantages or disadvantages of the new-size golf ball.

The Legislature is getting even with you for all those mean digs you gave it. Have you noticed that extra cent on each gallon of gas you buy? And the worst is yet to come.

Twenty-five years from now present day aviation will be looked back upon in the same way as we today look back upon automobilism of twenty-five years ago.

People are still drilling for oil in Florida. We admire their optimism but are afraid their efforts will bring only disappointment. A surer and less expensive way of producing oil in Florida is by planting tung trees.

Agricultural experts predict a fine crop of nuts for Florida. Coming on top of the recent 100-days harvest of nuts, this forecast indicates a supply far in excess of the demand.

A Washington preacher discoursed for two hours on "prohibition, last living, the evil in dancing, famine, blight, drought and pestilence." After such an effort all these bad things ought to disappear.

Can't these big fellows go straight to the heart of a proposition and clarify it with a single pregnant sentence? For instance, Harvey Firestone makes the oracular pronouncement: "If we can get rid of unemployment, the situation will adjust itself!"

Last Monday, August 3, was the 49th anniversary of the sailing of Columbus on the voyage that resulted in his discovery of the new world. There were more "100 per cent. Americans" over here to greet him than there have ever been since. But none of 'em objected to the "d-d wop" landing at that time.

Before sailing for Europe Brer' Cannon spits on his hands and announces what the Democratic party shall or shall not do in the next campaign. Al Smith and Franklin Roosevelt are "out," declares the Bishop. And that's that.

When Miss Cleo Wurst got married to a farmer in Kansas last week the marriage fee was two bushels of wheat. At the present price of wheat that must have made the bride feel cheap, though the groom might claim he got the Wurst of the deal.

When parents uphold their children in misconduct at school, and invoke the law because their youngsters are punished by the school authorities, they are making a noble contribution to future lawlessness and disrespect for all authority.

The tariff is not so bad, now that a commission has been correcting its inequalities. For instance, the duty on pipe organs has been lowered. Now you can drop a pipe organ in your market basket now and then without feeling that the tariff has placed such necessities beyond your means.

Taxes in Florida are high, but look what you get for them. The average Florida small city has improvements immeasurably in advance of similar sized places in other States. These improvements must be paid for, and there is no other way save through taxes to pay for them.

## ANOTHER TAKE OFF

A parachute jumper over at Tampa went up to a height of 18,500 feet, and reports that the temperature at that elevation was six below zero. That's too cold, but it furnishes an idea. A summer resort hotel swung in the air over a big city at about 15,000 feet elevation, ought to furnish a delightfully cool retreat for the hottest nights. The thing would pay big. Just what you would swing it to does not occur to us at the moment—but, anyway, you doubtless get the general idea. You work out the details—we haven't time.

Winter Haven proudly boasts that it is the center of the Florida citrus industry. Frost-proof just as proudly declares that Winter Haven is a prevaricator, and that if she doesn't like that word there is one shorter and uglier. An overwhelming modesty being our most outstanding characteristic, we merely remark that down this way we too know what a citrus tree looks like, and if Frostproof will consent to our taking her in as part of our producing territory, Avon Park is the center of Florida's citrus production. But as between the two belligerent cities, we take a position of strict neutrality.

"Am I a Saint?" is the large display heading of an article in the Fort Meade Leader. We do not know whether it was Editor Cleveland or Business Manager Meek who was asking the question, but the heading caused us to do a bit of thinking about saints, in the midst of which we came across a paragraph telling why the saints were saints: "Because they were cheerful when it was difficult to be patient; and because they pushed on when they wanted to stand still, and kept silent when they wanted to talk, and were agreeable when they wanted to be disagreeable." So there you have the recipe; all you have to do is to put it into practice.

## FRESH FRUIT

By JUDGE JOHN W. DODGE

**EAT FLORIDA FRUIT DAILY.**  
There is no wealth of life without health. Think it over. What does it profit a man if he gain the whole world and lose his health?

John D. Rockefeller, Sr., realized this years ago, and began coming to Florida, staying months every year, and eating fresh citrus fruit, grapefruit, oranges, lemon juices, raised in Florida. He is in his nineties now.

Our own people, and millions of others elsewhere, do not fully appreciate what fresh citrus fruits will do to prolong their lives, and to make them even healthy, wealthy and wise if they eat Florida citrus fruits daily.

Read this, then tell others, spread the good news, advertise your State, sell its products, consume its products, buy at home, keep your money circulating here, and you will get a chance to get some of it back.

One of the finest ways of preventing cold, influenza or pneumonia is to see that your blood stream is well alkalized at frequent occasions with plenty of grapefruit, orange and lemon juice. These three fruit juices should be a part of every one's daily diet. They are especially rich in alkaline mineral matter which the white blood cells of your body require in abundance.

Grapefruit juice is richest in alkalinity. A glass of grapefruit juice taken between meals is virtually an

assurance of disease prevention. Orange juice is a second preventive. It is rich in citric acid which the digestive juices readily turn into a rich alkalinity.

Lemon juice should also be a part of everyone's daily diet. It can be used in many ways. Use it freely on your salads in place of salad dressings. It is a splendid substitute for vinegar in making mayonnaise and it gives all steamed vegetables an unusual flavor when a small amount is sprinkled over them before serving. As blood purifiers these three fruit juices will save you many hundreds of dollars each year in doctor's bills.

There will be no over production of citrus fruits in Florida when we ourselves consume, and advise others to consume, our own fresh, canned and preserved citrus fruits. We will live long and prosper when we.

Boost Florida!

## Echoes of the State Press

### A NEW DEVELOPMENT.

Marketing of citrus fruits by motor truck has grown to such proportions that preparations are now being made to supply the truck brokers with washed, sized fruit at the grove when the 1931-32 shipping season opens. Truck marketing developed to its present proportions of its own volition; that is, the grower and shipper of Florida citrus had nothing to do with bringing into being this new marketing outlet, the maintenance of which costs him nothing and which is a sales and marketing agency he can take or leave as his fancy dictates.

A recent issue of the Leesburg Commercial contains an account of the perfection of an ingenious device by a Leesburg man for washing and sizing of fruit at each grove and loading trucks from bins along the highways, giving the dealers who handle fruit in bulk by truck the kind and size of fruit desired. These individual washing plants, the Commercial says, will cost from \$800 to \$1500, depending on size. The average capacity will be about two carloads a day. Machinery for these plants, the Commercial says, will be built at the former R. E. Olds factory at Oldsmar, a lease for five years having been taken on the plant.

Thus we have a new industry created to supply the demand for a new product, as there undoubtedly is a demand for some kind of machinery to wash and size fruit sold to truck brokers. The one objection the citrus industry has registered to truck marketing was that many truck owners were not any too particular about what kind of fruit they bought, some of them preferring culls and off-sizes at a price to higher grade fruit. Fruit taken direct from the groves, of course, goes to market unwashed and does not present the best appearance and there has been some doubt in the minds of growers whether it is advisable to flood the market with this class of fruit, some of which comes in competition with the higher grades packed in boxes.

This new development in truck marketing of citrus is merely the evolution of bulk sales to truck operators, who during the 1930-31 shipping season moved a tremendous volume of fruit out of Florida, delivering it into markets heretofore unsupplied. Washing and sizing the fruit at the grove will add very little to the expense of handling it and possibly increase its sales value. A higher grade fruit going into the bulk market will undoubtedly create a favorable reaction with the consuming public and possibly increase the volume handled by the trucks, which is certainly to the interest of the citrus industry, as truck sales last year were by far the most profitable of all sales recorded except for fancy packs handled through well established outlets.—Ocala Star.

### ANOTHER KNOCKOUT FOR ECONOMY

After statewide and continued agitation for the abolition of unnecessary state bureaus, departments, offices, the late legislature abolished two—the offices of Auditor and Tax Equalizer.

Now one of these abolitions has been revoked by the veto of Governor Carlton. He has refused his assent to the act abolishing the auditing bureau.

So, one more economy measure goes into the discard, this time by the executive pen.

The governor gives as a reason his doubt as to the constitutionality of the act. It would appear to the laymen that the legislature, creating the office, has a perfect right to do away with it.

The governor, in his remarks accompanying the veto, does not claim that the bureau is absolutely necessary to the business of the state, or that he is opposed to seeing any state office abolished. The latter, perhaps, would have been the more candid statement. In his campaign for election, the governor advocated economy measures, including the reduction of state expenditures by abolishing or consolidating superfluous offices. It's a long way from the campaign speech to this veto.—Tampa Tribune.

**IN THIS THE GARBAGE ERA IN LITERATURE**  
A writer in a magazine published as the house organ of the United States, under the nom de plume, "Delectus," inveighs against the printer and pornographic books and pamphlets now on the market marked as "literature," though he suggests a reform of readers rather than a suppression of the stuff itself, by reformers. He says:

"I have no patience with those holier-than-thous—those blue-nosed imitation prophets who are ever warning that we have become decadent, and unless we repent of our wickedness, we shall suffer a fate no less severe than that which befell Sodom and Gomorrah. And yet, when I look into the literature which marks the present period, I can not help but feel that here, at least, I am in accord with their view, for here we have indeed gone rotten."

"In stores of all sorts, on the newsstands, on the trains, in the railroad stations, books are flaunted and offered for sale to anybody of any age who has the price—which, a few years ago, would have landed the publisher and vendors in jail. They wear the loudest jackets and in the windows and on the counters they occupy front positions.

"Under the flimsy guise of liberal education, broadening the mind, improving the morals and other rot, these filthy books are published and sold for no other purpose than for the filthy lure they bring and are read for no other purpose than for the foul thoughts they breed. If they had but the redeeming quality of good writing, there might be some excuse for their sordid existence. But they do not even have that merit."

"A book advertisement in a metropolitan newspaper throws out this bait to the modern book-lover:—'twice suppressed—once in 1900 and again last February—the world may now have this great novel in all its original beauty and power.' In the same issue, another book with an odorous title is hopefully advertised as one that 'will probably be expurgated some day.' A third book evidently written with the author's eye glued to a boulevard keyhole, is dramatically advertised with the state-sensation at the time, advertised as it was by the Vice Society. The next book went a bit further and the one after that still further and deeper into the swamp until today we are in slime up to our necks."

"I do not look for reform from any constituted authorities who add fuel to the fire and so advertise the spectacle. I look rather to those very people who have been so voraciously imbibing the rot. I expect that they will, like the pig aboard the boat, soon sicken of their overindulgence whereat the filthy stuff which this day is so heavily advertised, will sink in its own slime by its own overweight. And in this thought alone do I find some solace and some hope for American literature."

## DID YOU EVER STOP TO THINK

By EDSON R. WAITE  
Shawnee, Oklahoma

Our politicians have only themselves to blame if their words are often regarded by the public as having no more motive. However, it rarely occurs that such motives are connected with personal gain, but it has very often happened that they are connected with intricacies of party warfare.

So it often comes about that when a high government official passes an optimistic talk on trade or commercial conditions, it is immediately wondered whether he is giving a true result of an investigation based on information at his disposal, or whether he is trying to show that the conditions under the government of which he is a member are not as black as they look.

Some of them may make mistakes in calculating on receipts of revenues from increased trade, when in fact there was a possibility of the anticipated revival of business not materializing as soon as expected.

Trade tendencies, as everybody now belatedly knows, are world wide, and confirmation of the prospective turning of the tide is forthcoming from many quarters, and indications show that trade at least has within it many elements of improvement.

It is quite apparent that the United States led the world towards the high peak of business after the war, and since it also led the world in its reaction due to overproduction, the world should look in that direction for the indication in the turning of the tide that will bring prosperity back.

## GETTING BUSINESS GLOOM BEHIND US

By ROME C. STEPHENSON

**President American Bankers Association**  
THERE is such a thing as over-staying a depression just as there is of over-staying a boom.

Over-confidence makes the great mistake of mistaking a turn in a boom, and under-confidence makes the great mistake of mistaking a turn in a depression. A leading New York banker who asked recently when he could tell that a turn for the better had come, said, "About three months after it has happened."

There is more significance in that remark than appears on the surface. As more and more manufacturers and business men realize that the turn has already come and that they are over-staying the time to adopt constructive policies, they begin cautiously to press their selling campaigns, to speed up their production, to enlarge their working forces and increase their commitments for supplies. It is the gathering weight of their influences that finally raises the pressure of confidence.

The surest way to bring the nation out of the business depression is to raise the pressure of public confidence to the point of becoming a dynamic force. It has invariably been the push of that force which has started recovery in the past, and it is the gathering push of the first indications that the turn for the better is in sight. Who knows but that the first thing we know we will find ourselves looking backward instead of forward as we realize that the turn has already come.

It is a favorable sign of the times that there seems to be general agreement that the bottom of the depression has been reached and all eyes are peeled and looking about for the first indications that the turn for the better is in sight. Who knows but that the first thing we know we will find ourselves looking backward instead of forward as we realize that the turn has already come.

## BANKERS FAVOR GRADUAL CHANGE

**National Commission Reverses Local Sentiment Shows Gradual Evolution in Methods of Conducting Banking.**

Substantial changes are to be brought about in branch banking in the United States that will be far more gradual than those within the state rather than from Washington to interstate lines as proposed to "trade area" branch banking plans a recent report of the National Policy Commission of the American Bankers Association declares.

The extension of branch banking through state action would mean that states not now permitting state banks to have branches or else closing a state's doors to them would in effect liberalize their laws as an expression of changing local desires and conditions, and this doubtless would insure a deliberate, evolutionary process, the report says.

## Reck Home Scene Lovely Bridge Party

Mrs. H. F. Reck entertained on Monday evening at her home in Highland Lakes, the occasion being the birthday anniversary of Mr. Reck.

Roses in dainty shades combined with fern formed a pretty color motif for the party rooms. The birthday cake, iced in white with lighted candles in green was a very pretty feature, and was served with an ice cream.

Mrs. E. G. Todd and Mrs. J. E. Powell received prizes for ladies' high and second high while gentleman's high was won by J. N. Greening of Jacksonville and second by S. E. Booth.

Those present besides the hostess, Mr. Reck, were Mr. and Mrs. J. E. Powell, Mr. and Mrs. L. V. Pringle, Mr. and Mrs. C. E. Crabtree, Mr. and Mrs. William Reck, Mr. and Mrs. S. E. Booth, Mr. and Mrs. Earl Hart, Mrs. T. A. McNicholas, Mrs. M. A. Smith, Mrs. E. G. Todd, F. de Anguera, Dr. Walton C. Touchton, and J. N. Greening, of Jacksonville.

## B. Y. P. U. Social with Francis Skipper.

The Junior B. Y. P. U. held its monthly social at the home of Francis Skipper on Tuesday last Thursday afternoon. Swimming and baseball provided the entertainment.

Later, sandwiches, punch and watermelon were served to the guests on the lawn. Those present were: Evelyn Martin, Hilda Reddick, Hazel Reddick, Clarice Thomas, Evelyn Thomas, Tommie Lou Green, Harold McClelland, Jimmie Lee, Lorentson Connell, Odell Skipper, Francis Skipper, Powell Skipper, Jack Goings, Mrs. B. F. Martin, Mrs. Otto Skipper, Genevieve McClelland.

## Missionary Circles Have Joint Session.

Mrs. K. J. Bailey and Mrs. E. P. Lacey were hostesses at the home of the former on Tuesday to the members of the Mary Roberts and the Turner circles of the Methodist Missionary Society.

Mrs. Steve Roberts led the devotional which was followed by a business session. Individual cakes and ice cream were served at the end of the meeting.

Those attending were Mrs. W. P. Martin, Mrs. T. P. Turner, Mrs. M. L. Rogers, Mrs. A. H. Hancock, Mrs. C. H. Gerrard, Mrs. Raymond Gerrard, Mrs. Mary Skipper, Mrs. Charles Harris, Mrs. Charles Maxwell, Mrs. Mary Roberts, Mrs. Steve Roberts, Mrs. McKee Elwell, Mrs. C. H. Pardee, Mrs. W. A. Luthy, Mrs. Emily Phillips, and Miss Marjorie Lacey.

Mrs. George Moseley and children of Lakeland, were the guests on Thursday night and Friday of Mrs. Virginia Cloud.

Dr. L. M. Simpson of Lake Alfred and Dr. Jas. B. McFarlin of Winter Haven, were here the first of the week studying plant life in the mall. Both are botanists. Dr. McFarlin, who was here last being connected with the University of Michigan.

Charles Sherman returned today from West Palm Beach, where he went Wednesday for a few days with his wife and family who are spending a vacation there with Mrs. Sherman's parents.

Miss Mabel Collins returned Wednesday from Dothan, Alabama, and points in South Georgia, where she has been visiting relatives for several weeks.

Dr. Fred Touchton of Dade City was a visitor here on Tuesday.

Mrs. D. G. Skipper and daughter, Anna Both, left Tuesday for a weeks visit with Mrs. Skipper's sister, Mrs. D. W. Farley in Orlando.

Mr. and Mrs. Harry Dilley and Mr. and Mrs. Raymond Dilley left Sunday for points in Iowa and Michigan where they will spend a delightful vacation.

Mr. and Mrs. H. G. Pygate expect to leave in a few days for Williamsburg, Pa., where they will spend the remaining summer months.

George Mostris left Wednesday for Youngstown, Ohio, where he will join Mrs. Mostris and children for a short visit before returning with them to Avon Park. Mr. Mostris is driving through.

Mr. and Mrs. Oscar Wolff spent last Sunday in Lakeland with their daughter, Miss Louise Wolff, who is attending the summer session of Southern college.

Mr. and Mrs. W. H. Kempton arrived last Saturday from Fairfield, Conn., and are spending some time here. They are camping on Lake Isis on the Dr. Coffin place. Mr. Kempton is a consulting engineer.

Mr. and Mrs. L. S. Brenda visited friends in Moore Haven last Friday. They were accompanied by Mrs. Brenda's son and daughter.

Dr. Walton C. Touchton, and son, Edward, accompanied by Buck Chappell of Sebring, and Walter Touchton of Deland, left Tuesday for Atlanta where they will enjoy a vacation and join Mrs. Touchton and Betty who left several days ago for Georgia.

Miss Frances Hargrove of Lakeland and Miss Gladys Wilkinson of Winter Haven were guests for the week end of Mrs. Virginia Cloud and daughter, Frances, who with Miss Wilkinson, returned to Lakeland with Miss Hargrove on Monday and have been her guests this week.

Mr. and Mrs. Cyril Baldwin and son, Cyril Jr., spent the week end in Melbourne with Mr. and Mrs. Fred Ley. They were accompanied home by their little grand-son Freddie Ley who is spending this week with them. Enroute home, Miss Virginia Baldwin, who has been visiting friends in Winter Park joined her parents.

J. N. Greening, president of the Barnett National bank of Avon Park and vice-president of the Jacksonville bank, is relieving W. T. Coates at the local bank, while the latter is enjoying a three-weeks vacation, a part of which will be spent at Camp Meade, near Washington.

Miss Eloise Hayden will leave Sunday for Los Angeles, Cal., where she will enter training at the Hospital of the Good Samaritan. Miss Hayden who has been connected with the Avon Florida Citrus Corporation has many friends here, both in business and

social circles who will regret her decision to leave Avon Park but who will wish her every success in her new venture.

Mrs. W. A. Roberts, accompanied by her daughters, Misses Wilma and Honey Ste and son, Desmond, are spending two weeks at Daytona Beach. Miss Dorothy Roberts accompanied them over and returned last Friday.

## Curfew Law Passed By Sebring Council

The Sebring city council passed a curfew ordinance this week, requiring children under 16 years of age to be off the streets, parks and other public places after 9 p. m., unless accompanied by parents or guardians. A fine of \$100 or 60 days in jail or both is the penalty for violation of the curfew law.

The ordinance was passed following alleged malicious acts of Sebring youngsters the past month. The latest charge was that the kids had put sand and grease in a visitor's car at a Winter Haven-Sebring ball game. This was later reported to be unfounded, when Police Officer Sinclair of Winter Haven denied that there had been any discourtesy shown Winter Haven visitors in Sebring.

## Sunday School Lesson

FOR AUGUST 9, 1931.

SUBJECT: Saul Converted and Commissioned.  
GOLDEN TEXT: "I was not disobedient unto the heavenly vision." Acts 26:19.

LESSON TEXT: Acts 9:1-9, 17-19; 1 Tim. 1:12-14.

Saul was about 4 years younger than Jesus. He was converted when about 40 years old.

"Saul was born at Tarsus, a member of the smallest of the tribes, that of Benjamin. He was named Saul after the first king of the Jews, who was a member of his tribe, but when he began to travel and preach among the Gentiles he used the Latin name Paul. We know nothing of his family except that he had a sister, and that his father had been made a Roman citizen, so that Saul was a Roman by birth, a great privilege which he found very useful on more than one occasion. Also his father must have been in comfortable circumstances, or he could not have sent his son to Jerusalem to be educated."

A pious Jew, however, such as Saul's father, would never send his boy to a heathen university. Saul was taught first at home, and then in the school maintained in the local synagogue, where he was sent at the age of six or seven. His only text book was the Old Testament. This went on till Saul was thirteen years old and had become a "son of the commandment." He was then regarded as a man and must fit himself for earning his living, for every Jewish boy must learn a trade. This was all the more necessary because Saul was intended for the honorable calling of rabbi or clergyman, and the rabbis received no salary, but carried on the secular business which they had learned in youth. Saul's business by which he supported himself was that of a tent-maker. This was a thriving industry at Tarsus. Cloths abounded in goats and their hair was woven into a stout fabric which served for tent curtains. In this work Saul continued until, at the age of fifteen, he was sent to "the House of Interpretation," the rabbinical college in Jerusalem, in which Gamaliel was a teacher.

"After completing his theological training in Jerusalem, Saul returned to Tarsus, probably serving as a rabbi there for about fifteen years; thus he was away from Jerusalem during the ministry of our Lord, and never saw him in the flesh."

In the lesson for July 26 we learned that Paul was present at Stephen's death and consented thereto, and that he had hatched of the church.

Today's lesson begins, "And Saul, breathing out threatenings and slaughter against the disciples of the Lord went unto the high priest."

And desired letters to Damascus that if he found any of this way, he might bring them bound unto Jerusalem. "This way" meant those who followed Christ, as he said, "I am the way." The letters carried by Paul were from the high priest, Caiaphas, and would be obeyed by the rulers of the synagogues at Damascus. Damascus was a large city, 140 miles north west from Jerusalem.

"And he came near Damascus; and suddenly there shined round about him a light from heaven."

And he fell to the earth, and heard a voice saying unto him, Saul, why persecutest thou me?

And he said, Who art thou, Lord? and the Lord said, I am Jesus whom thou persecutest."

And he trembling and astonished said, Lord, what wilt thou have me to do? And the Lord said unto him, Arise, and go into the city, and it shall be told thee what thou must do."

"And Saul arose from the earth; and when his eyes were opened, he saw no man; but they led him by the hand, and brought him into Damascus."

And he was three days without sight, and neither did he eat nor drink."

The Lord sent Ananias, a Christian in Damascus, "go, inquire in the house of Judas for Saul of Tarsus: for he is beholding a prayer."

"Ananias went into the house; and putting his hands on him said, Brother Saul, the Lord, even Jesus, hath sent me, that thou mightest receive thy sight, and be filled with the Holy Ghost."

And immediately there fell from his eyes as it had been scales; and he received sight forthwith, and arose and was baptized."

After serving the Lord nearly 30 years Paul wrote to Timothy, "I thank Christ Jesus our Lord, who hath enabled me. Who was before a blasphemer, and a persecutor, and injurious: but I obtained mercy because I did it ignorantly in unbelief."

## Sleeps Like a Baby

Mrs. John Simpson says: "At times I am very nervous, and unable to sleep at night. I find that I can take Dr. Miles' Nervine and sleep like a baby. Your money back if this time-tested medicine fails to do as much for you. At your drug store, \$1.00."

## COREY IS BRINGING MESSAGE TO FLA. CITRUS GROWERS

Is Making Optimistic Talks at Series of Meetings Being Held Throughout Entire Citrus Belt.

Probably for the first time in the history of the nation a state stands in the position of a protégé of the federal government to be made an example of progress and prosperity through agricultural organization so that the potentialities of such organization can be demonstrated conclusively under the most adverse of conditions.

Florida is in this unique position, selected by the government for the demonstration, first, because its citrus industry affords the best opportunity for the immediate development of the governmental program, and second, because its people have already gained some experience in organizing the industry and show marked signs of turning from prejudice and bickering over nonessentials, says the Southeastern Chronicle.

This is the message brought back from Washington by Merton L. Corey, Mr. Corey also brought the advice that northern bankers interested in the state and its citrus industry in the same light and are ready to help with active support.

Mr. Corey met with growers of Orange county, speaking Tuesday, July 21, to a large audience which gathered despite a heavy two-hour downpour of rain. The next day 100 growers of Manatee and Sarasota heard him at Bradenton, while at noon of that day, the Rotary club at Sarasota arranged its luncheon program for Mr. Corey, inviting in growers and businessmen to hear him, many of whom motored to Bradenton to hear him at the open meeting.

Pinellas growers turned out more than 200 strong to hear Mr. Corey at Clearwater, Friday, July 24. Included in the audience were many of the largest growers of the county, while many of the gathering were growers who are not affiliated with the Exchange.

Another interesting meeting was held at DeLand, Tuesday, July 28, followed by a similar one at Mims the next afternoon. Others were: Dade City, July 30; Tavares, July 31; Lakeland, August 3; Arcadia August 4.

Mr. Corey is very much pleased over the interest that has been shown. He believes that a preliminary educational groundwork is being accomplished that will relieve much of the individual prejudice, indifference or misunderstanding that holds many of the non-member growers from the Exchange.

"I am very pleased with our progress in this campaign," Mr. Corey said. "The entire Exchange organization, from the Tampa office down to the smallest association, is enthusiastic over the splendid program the government is backing, the accomplishment of which will assure the stabilization of the citrus industry. The earnest and enthusiastic growers and association officers and directors inevitably will win ultimate control for the Florida Citrus Exchange."

"I remind the growers that there is just one organization in Florida which exists for the sole purpose of making more profits for them—the Florida Citrus Exchange. We invite the careful study of every non-member grower, being sure that such investigation in his own interest will convince him that at last Florida has the opportunity to solve this problem."

"I am confident of success for we have a just cause."

## Wauchula Wins From Bowling Green In Tenth Inning 5-2

Bowling Green, Aug. 6.—Wauchula won a thrilling battle here today from the Bowling Green Growers by a score of 5 to 2. Claude Bryant, Wauchula hurler, was touched for 11 hits but held the Growers in check in the pinches.

McKee, for the Growers, pitched a wonderful game giving up only six hits but was given poor support by his teammates.

Score: R H E  
Wauchula 001 000 000 1-5 6 2  
B. Green 000 100 000 1-2 11 8

Bryant and McKee; McKee and Addison.

## SIX SUSPECTS JAILED IN LABELLE ROBBERY

Sheriff Believes Bandit Gang Captured: \$6,000 Loot Not Recovered

Six men have been arrested by Sheriff H. L. Delaney, of Hendry county, as suspects in the robbery of the Bank of LaBelle, which occurred Friday afternoon, when two bandits entered the bank, trussed the cashier and bookkeeper and escaped with \$6,000 in cash, a package of travelers' checks and a number of bonds.

The men arrested were Dan Blount, T. P. Mercer, Jim Amos, Junior Blount, K. E. Savage and Ray Dreble. The sheriff stated, however, that Dreble had established the fact that he was not connected with the crime. All the men, except the Blounts, live in Wauchula.

A. L. Taylor, cashier, and Mrs. Lucille Small, were forced, at the point of a pistol, to enter the vault and lie down on the floor. They were tied securely and adhesive tape placed over their mouths. The robbers then scooped up the money methodically and left in an old Model "T" Ford, which they had cranked by hand. The car was later found burning in the woods nearby.

Sheriff Delaney says he has all the men he is seeking in connection with the crime. Jim Amos, because of the crowded condition of the LaBelle jail, was taken to Moore Haven Tuesday and held there Tuesday night. Wednesday arrangements were made to return him to Hendry county.

The bank's funds have not been recovered and officials of the institution said the loss was fully covered by insurance.

Chevrolet Announces Apprentice School

Plans for the building and operation of a Chevrolet apprentice school of mechanical craftsmanship were announced, yesterday, by W. C. Knudson, president and general manager of the Chevrolet Motor company.

The school building, which will provide approximately 10,000 square feet of floor space, will be erected adjacent to the Chevrolet Detroit Gear and Axle Plant. Work on the proposed building will be started in the near future.

When completed the school will be equipped with every type of machine necessary to all the finer mechanical arts and crafts, and the work will be directed by C. E. Wetherald, general manufacturing manager of Chevrolet.

The Chevrolet course will be an exact duplicate of the school operated by Chevrolet in Flint. While preference will be given to sons of Chevrolet employes, all boys, mechanically inclined, between the ages of 16 and 18 years, will be eligible to enter the Chevrolet school. The normal course will occupy four years and the class will be limited to 50 boys.

"However," said Mr. Knudson, "there will be no hard and fast rules governing the length of time the apprentices will be required to attend the school. Experience has shown that some boys progress much faster than others and these gifted youngsters will be advanced as rapidly as their work justifies."

During the first three months all apprentices entering the school will be placed on probation. If their work justifies the interest shown in them, they will be carried on until they are graduated as skilled craftsmen.

While attending the school the apprentices will be carried on the payrolls under a graduated pay scale. Upon completion of the course, the graduates will be assigned to skilled work in one of the 53 Chevrolet plants located in various parts of the country.

The course as outlined by Mr. Wetherald includes instruction in tool-making, die-making, pattern-making and general machine shop practice.

## REORGANIZING SUGAR MILL AT CLEWISTON

Present Operations of Company Not Costing Receivers

Clewiston, Aug. 7.—(Special)—Steady progress is being made on the reorganization of the Southern Sugar Company, according to reports received from those in charge of the reorganization plans.

With thousands of stockholders scattered all over the United States and hundreds of these having moved from their last address, it has been a great problem to reach every one and get their stock transferred into the new company.

When this work was started, it was not realized at that time, just what a task it would develop into before the plans were worked out to the satisfaction of all concerned.

Judge Whitehurst is working hard in hand with the reorganization manager, and from all reports from Fort Myers he is not pushing those in charge but is allowing them all the necessary time to complete their plans and save the sugar industry for the Everglades.

The operations of the Sugar company at the present time is not costing the receivers one cent. All funds now on hand are being kept intact by the receivers for the benefit of the creditors. Those in charge of the reorganization are putting up the necessary cash to keep the company operating.

It is understood that the reorganization is putting up the necessary cash to put the equipment in good shape for the beginning of the harvest season.

With ideal weather for growing cane, the cane fields have never looked any better at this season of the year. This has been one of the best seasons for growing cane in the Glades, however, sufficient rain has fallen to keep the cane growing and give the field men ample time to keep the grass down and the cane fertilized.

From all indications this year's crop will be one of the finest ever grown in the Glades.

During the next thirty days work is expected to be started on the mill and the field equipment. Men are returning from their vacations and are ready to start putting this equipment in first class condition for one of the largest cane crops ever grown in the Glades.

Reports that have been circulated in the Glades to the effect that the Company has not been able to meet their pay rolls, are unfounded. Every payroll has been met promptly, and all bills have been paid. The commissaries are well stocked and practically all of the day laborers are at work.

The reorganization group intends to carry the sugar company until they have completed the reorganization and actually taken over the properties of the Company. This is expected to be done before the grinding season starts under way sometime in December.

Horace Lane Killed In Automobile Wreck

Word was received here last Sunday of the death in Titton, Ga., of Horace Lane, following fatal injuries sustained in an automobile wreck last Saturday.

Horace Lane, aged 17, was a son of Mr. and Mrs. W. L. Lane, and a resident of this city until about a year ago, when he moved to Titton with his parents. He is survived by his parents, one brother, Eddie Lane, Titton, and two sisters, one in Titton and Mrs. Paul Jordan of Avon Park. Mr. and Mrs. Jordan attended the funeral services Monday.

## MOORE HAVEN LIGHT PLANT IS DESTROYED

Ice Company Supplies Power From Old Generator Until Repaired

Moore Haven, Aug. 7.—(Special)—Fire of undetermined origin completely destroyed the building, generators and electrical equipment of the municipal light plant Wednesday morning, and did considerable damage to the two 150-horse power Diesel type engines. The actual damage could not yet be determined.

City commissioners immediately began plans to provide the town with current at the earliest possible moment, and an agreement was made with G. L. McGowan, manager of the Moore Haven Ice Company, whereby the city has moved a small 42-kilowatt generator from the old plant which was abandoned when the new plant was erected two years ago, to the ice plant and is utilizing a 120-horse

power Diesel engine which the ice company uses to furnish its own lights and power. Superintendent S. C. Stalls, J. M. Fountain, Ed. Lundy, of the city light department, H. B. Stalls, Mr. McGowan and others of the ice plant force, worked continuously until the lights were cut in for the city's use early Wednesday night. The town was without current of any sort about sixteen hours, a remarkably short time.

The current at present is not entirely satisfactory for all uses, as the only generator which was available for instant use, is too small to carry the load, although the engine at the ice plant is entirely adequate to provide sufficient power.

City commissioners are still working on plans to perfect the service until a new building can be erected and the power plant put in

operation again. One of the suggestions is that a proper generator be borrowed or leased for the time the temporary plant will be in use.

T. B. Moody, of Jacksonville, representing the Fairbanks-Morse Company, manufacturers from whom the engines were purchased, was in Moore Haven yesterday and inspected the plant. His report was not given, as the city authorities, but made direct to the company he represents.

The new Diesel engine was purchased at a cost of approximately \$18,000 and installed two years ago when the new building was erected for the plant. Besides this engine the city moved another engine from the old plant, which was of the same power as the new, but was not of such modern design. It also was a Diesel engine and in excellent condition.
