

Here and There

By W. M. Hetherington

THE TAX SITUATION

Here's the tax "situation" as sized up by the Tampa Tribune:

- Taxes on the living.
- Taxes on the dead.
- Taxes when you're working.
- Taxes when in bed.
- Taxes on your labor.
- Taxes on your play.
- Taxes on your income.
- And on what you pay.
- Taxes on your trousers.
- Shirts and shoes and socks.
- Taxes on your lady's.
- Lipsticks, deodorants, and.
- Taxes on your savings.
- Taxes on your notes.
- Taxes on your business.
- Taxes on your votes.
- Taxes when you marry.
- Taxes when you die.
- Taxes when you're sober.
- Taxes when you're "high."
- Taxes when you get here.
- Taxes when you go.
- Taxes on your assets.
- And on what you owe.
- Taxes on your doggies.
- Horses, cows and goats.
- Taxes on your houses.
- Lots and cars and boats.
- Taxes on your future.
- Taxes on your past.
- Taxes when you're eating.
- Taxes when you fast.
- Taxes on Mr. Tax.
- Will we have to stand.
- Taxes on our harps and wings.
- In the Promised Land.

Boy Scout Program At Rotary Luncheon Next Wednesday

The Boy Scout Council committee selected last Thursday night for the purpose of organizing Avon Park Boy Scouts will be the guest of the Rotary club at luncheon next Wednesday, and immediately after luncheon will meet and organize for the coming year. The committee, selected to sponsor the movement on behalf of the Rotary club and the chamber of commerce, is composed of E. G. C. Tidd, president; C. S. James, M. E. Covington, H. P. R. Rock, J. Paul Garber, J. S. Delaney, J. S. Francis and E. A. Delaney.

Next Wednesday's Rotary luncheon will be given over entirely to a Boy Scout program. Plans for taking over the scout property on Lake Lotela are practically complete and will be ready for use of the scouts as soon as the troop is organized.

Church of the Nazarene Celebrates 5th Anniversary

On the coming Sunday, May 10th, the Nazarene church will celebrate the fifth anniversary of its organization. Following the regular custom the church has called an outside speaker, the Rev. C. E. Dewore of Providence, R. I., and Lakeland, Fla. Mr. Dewore will use as a morning subject, "Worthwhile Contentment," and in the evening he will present a message on the subject "The Sure Cure."

City Taxes For April Over \$12,000

Tax collections for the month of April amounted to \$12,785.50, according to reports of S. C. Pardoe, in charge of delinquent collections and City Clerk Louise Browne. The city clerk reported the collection of \$3,233.97 in current taxes and the delinquent department reported collections of \$9,551.51. A substantial portion of each item is to be taken in the form of bonds as part payment. The reports were made at the city council meeting Monday night. Councilman DeLaney suggested that a meeting of city councilmen of the various municipalities of the county should be held to take action to protect each city's interests in county tax sales.

THE AVON PARK TIMES

VOLUME III.—NUMBER 11.

AVON PARK, FLORIDA, FRIDAY, MAY 8, 1931.

PRICE: FIVE CENTS

W. H. YATES NAMED ACTING MANAGER OF AVON COMPANY

Will Succeed J. A. Caldwell, Whose Death Is Deplored In Resolution

W. H. Yates, assistant secretary and treasurer of the Avon Manufacturing company was elected acting manager of the company at a special meeting of the board of directors Wednesday afternoon. Mr. Yates succeeds J. A. Caldwell, whose untimely death last Saturday in Lake Wales brought to a close his association with the company since its establishment 14 years ago.

Mr. Yates has been with the company for the past five years, during which time he has been closely associated with Mr. Caldwell in the management of the company's affairs, and his promotion to the active management of the company is a natural step to carry on the business with as little interruption as possible.

C. B. Ginn, Jr., has been employed to assist with the bookkeeping.

The probability of moving the mill from Avon Park was discussed by the directors, and the general sentiment prevailed that unless satisfactory settlement could be effected between the city and the company, resulting in a drastic cut in taxes, the mill should be moved from this city. It is known that the city has the offer of two free sites in other cities, and exemption from taxes for a period of five years.

Officers attending the board meeting were: J. W. Sample, Haines City, president; C. H. Walker, vice president and treasurer; C. M. Tilden, chairman of the board; W. H. Yates, secretary; W. H. Yates and A. V. Anderson, of Avon Park.

The following resolutions of respect and condolence occasioned by the death of J. A. Caldwell were passed by the board:

WHEREAS, The Supreme Architect of the Universe has seen fit to remove from our midst a valued friend and an esteemed business associate;

Therefore, be it resolved that we express our appreciation of the association and business of such a character as John Alexander Caldwell, and that a copy be sent to his family as well as to the Lake Wales Highlanders, and Avon Park Times and Times.

Witness my hand and seal this 7th day of May, 1931.

J. W. SAMPLE,
C. H. WALKER,
C. M. TILDEN,
W. H. YATES,
A. V. ANDERSON.

Cinderella Operetta Presented To Large Audience Monday

"Cinderella in Flowerland," a beautiful operetta in four scenes was presented to a packed house at the school auditorium Monday night by the fourth and fifth grades, the play having been postponed last Friday due to illness of one of the leading characters. Brilliant costumes and well executed chorus work and dances marked the entertainment as one of the most successful efforts of grade pupils in recent years. Laverne Fortner as Cinderella and Jean Chance as Prince Sunshine filled their roles to the complete satisfaction of the audience, as did each of the other members of the large cast. Teachers and pupils received much praise from the audience for the excellence of the performance.

Packing House Men Propose To Build Canning Factory

Representatives of packing houses of Highlands and Polk counties attended a meeting at the city hall yesterday afternoon and heard Capt. Roper Smith, Arcadia, chairman of the canning committee of the Florida Citrus Exchange explain the process under which a canning organization is set up.

The exchange plan of organizing and financing a cannery located near the plant to handle the canning grade fruit for this section met with the general approval of representatives present, though they did not have authority to give official sanction. Another meeting will be held in the city hall in Avon Park next Thursday afternoon at which time it is expected that representatives will be prepared to act in an official capacity for their respective organizations.

Herbert F. R. Reck, manager of the Avon Park Citrus Growers association, was secretary of the meeting. He stated that sentiment of the meeting was favorable to the organization, and it is likely that some of the members will see some definite steps taken.

BASEBALL LEAGUE FOR RIDGE IS ORGANIZED

Six Teams Already In and Four Others Invited To Join

The second meeting held to organize a baseball league on the Ridge gained quite a bit of headway when managers of six clubs met at Bowling Green Monday night on the Ridge. Another organization of six clubs with Avon Park, Sebring, Bowling Green, Winter Haven, Wauchula and Okeechobee on the roster. Another final meeting was called for Friday night at Avon Park when invitations were sent out to Lakeland, Arcadia, Frostproof and Lake Wales in hopes of making a larger league with keener play and more competition.

Gilbert Freeman of Avon Park was elected president, DeWitt St. Clair of Winter Haven, first vice-president, Hal Long of Sebring, second vice-president with L. Strickland of Bowling Green as secretary-treasurer of the organization.

The old last year's by-laws were read and adopted and after a short talk by a representative of A. G. G. to the public for the purpose of preparing the citizens of both counties to speak with definite knowledge of the unusual features and wonders of Highlands Hammock.

Johnson Will Stage Championship Fiddler's Contest

An old time fiddler's contest will be held in the Avon theatre the night of June 4th. Entrance and fiddler from Sebring and the best from Avon Park will compete for the championship of the county. Besides the honor, the winner will also receive a prize of \$25 to be given by Charles F. Johnson, manager of Avon Park and Sebring Theatre.

According to Mr. Johnson's plans he will hold three fiddler's contests in all, the first two being in the nature of elimination contests. The first will be held in Avon Park at the Avon theatre night, May 26th, and the second will be held at the Circle theatre in Sebring the following Tuesday night, May 26th. The best of these two contests will then compete in the final contest in Avon Park June 4th for the county championship. Prizes of \$15 will be distributed to the winners of the two preliminary contests.

There will be an entrance fee of 50c charged contestants, and admission free to the public. Entrance and fiddler from Lakeland will enter as Avon Park, and all living south of Lakeland will enter as Sebring. The management also plans to have amateur night stunts in connection with the fiddler's contest. Fiddlers who intend to compete are asked to register at the Avon Sweet Shoppe. Judges and other details will be arranged for and announced later.

Avon Park Couple Wed.
Boyce L. Mook and Sallie Kate Cowart, both of Avon Park, were married by County Judge M. C. Whitehouse at court house Monday.

TO HOLD BIG PICNIC AT HAMMOCK ON THURSDAY, MAY 21

Rex Beach Suggests Big Get-together For Folk and Highlands

At a recent meeting of the directors of Highlands Hammock, the president, Rex Beach, suggested a get-together picnic at the Hammock and the date was set for the afternoon of May 21. The matter was placed in the hands of the Associated Boards of Trade of the Sevier Highlands for the necessary arrangements and the secretary, Grosvenor Daws has sent out the following information on the event.

Rex Beach, the distinguished author, a winter resident at Sebring, has suggested that the citizens of Polk and Highlands, county, come acquainted with each other and with Highlands Hammock on Thursday afternoon and evening, May 21st. Mr. Beach's thought is that the people of the two counties should hold a basket-picnic there and thus be able to speak with enthusiasm to all Florida visitors regarding this "cathedral of living trees."

Mr. Beach president of Highlands Hammock Inc. His letter to C. F. Gardner of Lake Placid follows: "April 28, 1931. Mr. O. F. Gardner, Associated Board of Trade of the Sevier Highlands, Lake Placid, Florida. Dear Mr. Gardner:

It seems to me that collective opportunity should be given to the citizens of Polk and Highlands Counties to become acquainted with the beauties of Highlands Hammock. The directors of Highlands Hammock therefore ask you, through your organization, to take such steps immediately as it will bring to Highlands Hammock on the afternoon of May 21st the citizens of the two counties at a basket picnic beginning early in the afternoon and lasting until evening. Highlands county will, as I understand it, provide a band concert and other features of amusement."

On May 21st folks on the weekly closing date for stores and general business I feel sure that with your assistance great numbers can be brought together for an enjoyable experience which will in addition prepare the citizens of both counties to speak with definite knowledge of the unusual features and wonders of Highlands Hammock.

Sincerely yours, REX BEACH."

Sebring, April 28th, 1931.

Highlands Hammock—one name Hooker Hammock—is a lovely little hamlet almost inaccessible. By the generosity of the late Mrs. John A. Roebing of New Jersey, it was bought and presented to the public for the purpose of public care. The tract is 2,000 acres in extent. Permanent highways have been built, for automobiles, and around the Hammock, and a six mile fence of concrete posts and strong wire is now under construction to protect from fire and to conserve wild life. The public dedication took place March 15th this year.

Mother's Day Program Sunday at the Congregational

The annual observance of Mother's Day throughout the nation will be the occasion for a special program and sermon Sunday morning at 11 at the Union Congregational church. The young ladies of the Sunshine Corner Sunday School class will sing the hymn, "Mother Love" and "Mother" will be the theme of a reading by Mrs. Sadie Myers. Brown. Sermon Topic: "Mothers of Yesterday and Tomorrow."

Evening service 7:30 p. m. Sermon: "The Power and Adventure of Seeing."

Mrs. Hughs Called To South Carolina

Mrs. T. H. Hughs and daughter, Dorothy and Gloria left Wednesday night for Wallahalla, South Carolina, and "Mother" will be the theme of a reading by Mrs. Sadie Myers. Brown. Sermon Topic: "Mothers of Yesterday and Tomorrow."

Sebring and Avon Park Battle To Tie

Sebring and Avon Park battled to a 3 to 3 tie the yesterday afternoon at Sebring in a five-inning game that was replete with good baseball. Tom Dimberline for Sebring and Dilley for Avon Park were opposing pitchers and both of them had everything on the ball. The game was called at the end of the five innings, by agreement, so that the Sebring Junior Firemen could play the Frostdrop Bull Pups. This resulted in a 11 to seven score in favor of Frostdrop.

Sebring took an eight to one decision from Lake Wales in the first game of the afternoon.

TEACHERS ARE NAMED FOR SCHOOLS IN COUNTY

Several changes in Avon Park, Sebring and Lake Placid Next Year

The county board of public instruction met in regular session Monday morning and on the recommendations of several boards of local trustees appointed a number of teachers for the coming school year. The Avon Park trustees named Mrs. Sallie Myers, Mildred Myers for the sixth grade, Miss Louise Wolf for the third grade, R. S. Funderburk for the junior high school, B. W. Jenkins as commercial teacher and Miss Elizabeth Atchley for home economics. This fills all the vacancies in the Avon Park faculty.

Mrs. Lela Peeden who was the commercial teacher last year at Avon Park was not an applicant this year and Miss Lora Shatto who taught home economics last year did not apply again, Col. F. N. K. Bailey said.

Sebring appointments on the recommendations of the trustees were Miss Eula Mae Snider to teach history and Miss Ruth Ann Walker who will teach home economics. Miss Snider comes from Bushnell where she was re-elected for another term and Miss Walker has taught at Fort Myers for the past two years and both are experienced teachers and come to Sebring well recommended, Col. Bailey says.

Approvals of the Lake Placid trustees recommendations were as follows: J. S. Rice, supervising principal; Miss Corinne Van Idersliep, Spanish and home economics; Miss Corinne Van Idersliep, English teacher, and Mrs. T. M. Johns and Mrs. T. M. Johns, George Kelsey and Mrs. Lee Crews. Miss Kelsey has been taught at Winter Park for the past several years and was re-elected for another term there but preferred Lake Placid.

On the recommendations of the Sebring trustees the board appropriated \$50 from the district fund towards the erection of a fair pole at school. J. M. Lee, county representative told the board he had the promise of railroad officials that school taxes would be paid by the end of the month.

Rev. P. A. Southard and Family To Go North This Summer

About June first, and as soon as Mr. Southard has sufficiently recovered from his sickness to travel, the Southards plan to leave for an extended visit to their families in Cavendish, Vt., and Gilford, N. H. They will also visit their former charge at Jackson, Me.

Mrs. Southard was brought back from the Weems hospital in Sebring at 11 at the Union Congregational church. The young ladies of the Sunshine Corner Sunday School class will sing the hymn, "Mother Love" and "Mother" will be the theme of a reading by Mrs. Sadie Myers. Brown. Sermon Topic: "Mothers of Yesterday and Tomorrow."

Avon Park Girl Honored at College

Miss Joan Bryant, popular Avon Park co-ed at Southern college, Lakeland, was named in the yearbook, having been chosen as president of the Salmagundi club. Miss Bryant was also voted fifth captain of the basketball team by the college.

Limits Committee To Meet Wednesday

The committee of 10 appointed to establish new proposed city limits held a meeting Tuesday afternoon, and will meet again next Wednesday for final meeting to attempt a settlement of new boundaries.

Fraser Home Is Destroyed By Fire

The home and furniture of J. C. Fraser near the Sebring road in the southeastern part of town was destroyed by fire last Saturday afternoon at about 5:30. The fire is thought to have been caused by an explosion of an oil stove in the kitchen. Mrs. Fraser was alone at the time. She ran to the road and stopped a passing motorist who phoned the fire department, but by this time the flames had gained too headway that it was impossible to save the building, the entire contents being destroyed, with the exception of one trunk of clothing.

JOHN A. CALDWELL DIED LAST SATURDAY

John A. Caldwell, manager of the Highland Cattle company of Avon Park for the past fourteen years, and a prominent figure in the local cattle manufacturing business of the state for twenty years, died suddenly Saturday afternoon at 1:15 in a Lake Wales hospital.

Mr. Caldwell suffered a severe case of flu six weeks ago, and the effects sapped his strength and health, leaving him in a weakened condition. He rallied sufficiently to take up his work again and last Tuesday was able to drive to Jacksonville, where all the landed a meeting of the Standard Container Manufacturers' association, of which he was formerly president. On his return last Thursday, he entered a hospital on Lake Wales where he remained until his death last Saturday afternoon.

He was born at Strawberry Plains, Tenn. and was 64 years of age. He was married in 1900 to Cora Mae Snider, and has three children, Rebecca, Thomas P. Caldwell of Eastern Air Transport, Jacksonville, and Helen.

He had spent 20 years in business in Florida, after business experience in Birmingham and New York. Mr. Caldwell started the cattle ranch business in Wauchula in 1910 and operated a plant there for nine years. He took a leading part in the organization of the Highland Cattle company in Lake Wales and operated the company there until the sale of the plant forced the removal of the mill to Avon Park in 1920, when the Avon Manufacturing company plant was built here and the business was operated by him as general manager since.

Concerning his death and funeral the Lake Wales Highlander, of the time he died, says: "The death of Mr. Caldwell was a great loss to the city. He has always maintained his home in Lake Wales. The house he lived in was one of the first built in this city and during the Caldwell regime there has been no more hospitable home in the city. He was always ready to open his home for a friend or for kin and John Caldwell loved to have his friends gathered around him."

He always took an active part in every movement for the betterment or advancement of Lake Wales. He had served at various times as a director of the Chamber of Commerce, was active in the Presbyterian church and in all good deeds and works at all times.

"Friends have known for six weeks that he suffered severely from his attack of the flu, but few knew how it had left him in such a weakened condition. In fact he probably did not know of his own serious condition because he insisted on driving to Jacksonville no later than a week ago on business that seemed to him to be pressing. Mrs. Caldwell mentioned him, but on his return here last Friday he felt very weak and consented to go to the hospital for a rest. It was one of his first rests and it proved to be his last one. The heart, overstrained by long years of hard work, could not stand the extra strain put upon it by the attack of the flu and he passed away suddenly Saturday, shortly after noon."

"Scores of telegrams came attending the good will in which he was held when the news wires carried the story of his death. A sister at Knoxville, was too ill to attend, and so the funeral services were set for Sunday afternoon. His son, Tom, who had been home to see him a few days before he died from Orlando, was unable to reach him in time by plane and reached here within a few days."

PUBLISHED IN THE METROPOLIS OF THE RIDGE SECTION OF FLORIDA

GARBER WINS IN LARGE CAMPAIGN JUST COMPLETED

Mrs. Kelley, Second, Mrs. Campbell Third and Mrs. Muff Fourth

The big subscription campaign is over and the judges, Mayor W. B. Crawford, Chief of Police R. C. Stivender and Postmaster W. D. Holloway of Sebring, have canvassed the votes received by the contestants and issued a sworn statement announcing the winners of the contest. The winners and number of votes received by each are as follows:

	Votes
J. Paul Garber	27,195,000
Mrs. A. L. Kelley	19,351,500
Mrs. Louise Campbell	16,875,500
Mrs. Eva Muff	15,840,000
Mrs. Roy E. Felkner	2,177,000
Miss Rachel Studley	1,230,000
Mrs. Glen Robinson	470,000
Mrs. C. H. Stutterwhite	335,000
Mrs. Donald Beam	300,000
Mrs. E. J. Peters	115,000

The first prize winner, Mrs. Garber, will receive the Wix Six Club Sedan or if he prefers, the cash that the car would have cost the publisher. The runner-up, winner of second, has her choice of a Ford roadster or the cash cost to the publisher. Mrs. Campbell will receive a Frigidaire, totaling \$200 and Mrs. Muff gets a Majestic radio and Mrs. Felkner and Miss Studley will receive \$25 and \$50 respectively.

All the contestants worked hard and the fight was stiff for first prize. Hundreds of new subscribers have been added to "The News" list and the renewals have just poured in. As one contestant expressed it, getting renewals was "like lake candy from a kid." The publishers can now truthfully state without any fear of contradiction that "The Highlands County News now has the LARGEST PAID IN ADVANCE subscription list of any paper in this immediate area."

The Avon Park Times also added a large list of new and renewal subscriptions and is now a close second to "The Highlands County News" in point of circulation. Together, the papers cover this county. It's the proverbial blanket and advertisers can be assured of full value for money expended to get their message before the citizens of Highlands County.

The publishers wish to thank the contestants and all who helped put the campaign over and make it the success it was. The contest rallied their friends around them and they all contributed to the work of the past six weeks and helped bring the campaign to a successful conclusion.

The judges must not be overlooked. Many thanks are due them for donating their services this morning to canvass the votes received by each contestant.

Several Arrests Are Made By Sheriff

Several arrests were made by the sheriff's forces over the week-end for violations of the prohibition laws and other offenses. Deputy Lamonte Wolf arrested J. E. York and Fasson at Avon Park, both colored, when he found them in possession of home brew. Deputy W. C. Mathis of Venus arrested Prince Williams, colored, and he was charged with the possession of moonshine. Deputy Mathis also made several arrests for license tax violations.

Commissioners O. K. Delinquent Tax Bids

The county commissioners at their regular meeting Monday approved a number of bids for delinquent tax certificates which had been submitted by T. P. Farmer, clerk of the circuit court. All the bids were for the face value of the certificates and a number of them were accompanied by checks or cash for the full amount of the bid.

A letter from the War Department stated that a report on the Kissimmee River improvement project was unfavorable as the amount that would have to be expended for levees, locks and other work would not be justified by the benefits that would accrue.

Florida has an area of 35,111,040 acres of which only 2,297,371 have been utilized for agricultural purposes.

THE AVON PARK TIMES

Published every Friday by the Schaefer-Breking Printing Co., Inc., at No. 5 South Forest Avenue, Avon Park, Florida.

W. M. HETHERINGTON Editor

SUBSCRIPTION RATES:
One Year in Highlands County.....\$2.00
One Year outside of Highlands County.....\$2.50

Entered at the postoffice at Avon Park, Florida, under the Act of March 3, 1879, as matter of the second-class.

ADVERTISING RATES FURNISHED UPON REQUEST

Some one is always "after" Gen. Smedley Butler or Bishop Cannon.

Let's nominate Bryan Untied for President. He has had White House experience.

Politicians and platforms may ignore prohibition as an issue, but the people will not.

With Alfonso the last of the Bourbons has passed. The only good Bourbon came from Kentucky, and passed in 1918.

The boy who cribbed in school and let his mother do his work is now holding public office and sacrificing his community for personal gain.

Fortunately all the foot tax bills introduced at Tallahassee will not become laws. If they should, everybody would move out of the State who could get out.

A man is attempting to walk around the world backward. Nature absent-mindedly was thinking of a crawfish when she made that fellow.

Man up at Asheville shot his wife, and justified the deed by the plea that she wouldn't support him. Let this be a lesson to wives. What do they think they're for, anyway?

Probably very nice to take a trip up North, but those of us who stay at home may settle down with the conviction that there will be a pleasanter summer in Florida than in most places in the country.

When the Legislature assembled Mr. Taxpayer hoped that there would be some action that might reduce his tax bills; now he is fervently praying that he may escape having them materially increased.

It seems that outside of a few disgruntled political enemies the people of the whole country are pleased with the exonerations of Mayor Walker. Attaboy, Jimmy—go ahead with the wisecracks and keep adding to the joie de vivre—whatever that is!

Now if we could only collect a 7 or 8-cent tax on home brew or other forms of bootleg liquor, we could relieve much of the burden gasoline now carries. In the good old days, remember, Uncle Sam got \$1.20 for every gallon of liquor manufactured.

Cucumbers have been bringing the long green into Florida the past couple of weeks. One car shipped from Lake county sold for \$4,750, and at Wauchula buyers have been receiving upwards of \$10 a crate. That hits Old Man Depression right in the tummy and we hope it gives him a bad case of cramps.

Mabel Walker Willebrandt is one of the sponsors of a new organization or group of organizations, to enforce prohibition. At the same time Mabel is drawing a fat salary from a California grape concentrate concern whose business is dependent upon circumventing the intent of prohibition laws. Versatile Mabel!

One good thing after another in Florida. In a very short time watermelons will be going north by the car load, and good money will be coming back to the grower—to say nothing of the watermelon cuttings, when the red, juicy hearts will tickle the palates of us happy Crackers.

Collections are slow, and novel methods of enforcing them are perhaps permissible; but we hope the Tampa plan, wherein if a man owes you \$40 he drives around to your house and takes 40 shots at you, will not become general. By the way, the collector, so far as the record shows, didn't get the \$40 after all. But it was a noble experiment, anyway.

The big paper mill at Panama City has been in successful operation for some months, and it has brought prosperity to a considerable territory surrounding it. Florida pine seems to make a good grade of paper, and the supply of wood for manufacturing paper grows increasingly scarce in all sections of the country. Pine forests planted now would inevitably be a source of great wealth to this State.

Gen. Smedley Butler is pursued by trouble. First he recounts a tale of an automobile ride on which Mussolini killed a child, and it was claimed there was no automobile ride and no child; then there came up a discussion of his being given a medal by the Haitian government for capturing a fort in Haiti, and now the Haitian minister says there never was such a fort.

Hoover supporters are grooming him for a renomination, but they are rather halfhearted about it. They must realize that "Hoover prosperity" has foredoomed its creator to defeat. Nor that Hoover is to be blamed for existing conditions—he has done the best he could, and probably as well as any man in the country under the circumstances—but the people must have a personal goal to bear the blame for the hard times; and Herbert, you are "it!"

Eight candidates for Governor indicated they would probably choose to run at the Wakulla picnic Saturday last week. They were: W. P. Axson, of Havana; Stafford Caldwell, of Folsom; H. H. Durrance, of Jacksonville; Fred O. Eberhardt, of Tallahassee; Franklin O. King, of Orlando; Hayes Lewis, of Marianna; and John S. Taylor, of Largo. Some fine men in the bunch, but we are not going to announce our favorite just yet. Look 'em over, then place your bets.

At the annual dinner of the Gridiron Club, at which notables were panned and satirized, the Nobel prize for literature was awarded to Calvin Coolidge. The character of his writings was indicated by the following alleged quotation: "Two and two are four; Rain is often wet; Iron is made of ore; Fish are caught in a net." That's the kind of stuff that markets at \$2 a word. Good old platitudinous mediocrity is always at a premium. The most appreciated orator is the man who tells the people what they already know. When you want to make a sure-fire hit tell a joke that everyone knows and will recognize as an old friend—and how everybody will laugh!

The Fort Meade Leader is rather outspoken in its displeasure because the orator of the day at the commencement exercises of the Fort Meade High School read his address. The Leader seems to think because the speaker was an "A. M. and L. L. D." from the University of Florida, that he ought to have been able to speak a few lines from inspiration or from memory, and we quite agree with the newspaper. The composition of a speech may be good, but if it is read it is apt to be soporific. Of course, we note from the news reel that if Mr. Hoover has to say "Good morning, pleased to meet you," to a visiting delegation, somebody has the words written out for him, and he reads them, and the same may be said of almost all the big boys except Will Rogers and Jimmie Walker; but it does look like a college professor might deliver a few platitudes to a graduating class without using manuscript. We have a hunch that the next one who is invited to Fort Meade will try to do this. It's bad enough to have to listen to most speeches, even when well delivered.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE
Shawnee, Oklahoma

There was a time not long ago when the United States of America was considered a sort of oasis in a desert of trade depression.

That has now passed and America, like other countries, has been reduced to seeking comfort in the doctrine of the inevitability of improvement.

We read many articles of statistical nature on the ebb and the flow of boom and depressions of years ago. The danger is now that if people are too well persuaded that periods of boom and slump are automatic, many may become indisposed to make the requisite effort to bring back normal times.

It therefore must be emphasized that though there might be a sense of inevitability about the rise and fall, it also would lie within human province to cut short the slump periods.

There is no question but that better days are certain. They are being established day by day.

Some people think that it has not been so much over production as unequal production and, worse still, unequal consumption.

To think and do business as usual, as many industries have done, will bring normal times back. As an example: Those large concerns who have met with the greatest success have been the concerns who have increased their newspaper advertising year by year, thereby increasing sales. This sales effort has kept them from feeling the effects of a slump. All businesses should do the same.

LET'S ADVERTISE AND DO BUSINESS AS USUAL!

REGARDLESS of what we think of it we must admit that Reno gets legislation that produces revenue.

Sunday School Lesson

FOR MAY 10, 1931.

SUBJECT: The Parable of the Pounds.

GOLDEN TEXT: "It is required in stewards that a man be found faithful." I Cor. 4:2.

LESSON TEXT: Luke 19:11-26.

TIME OF LESSON: Last week of Christ's life.

PLACE: On the road between Jericho and Jerusalem.

INTRODUCTION: "The healing of Bartimaeus and the great evening of Zacharias' conversion deeply stirred the dwellers at Jericho, the second coming of Christ; 'When he returned, having received the kingdom, then he commanded these servants to be called unto him, to whom he had given the money.' * * Then came the first, saying, Lord, thy pound hath gained five pounds. And he said unto him, Well, thou good servant: because thou hast been faithful in a very little, have thou authority over ten cities. And the second came, saying, Lord, thy pound also over five cities. And another came, saying, Lord, behold, here is thy pound, which I have kept laid up in a napkin: For I feared thee, because thou art an austere man. * * And he said unto him, I judge thee, thou wicked servant. Thou knewest that I was an austere man, taking up that I laid not down, and reaping that I did not sow. Wherefore then wastest thou my money into the bank, that at my coming I might have required mine own with usury? * * Take from him the pound, and give it to him that hath ten pounds. * * Unto every one that hath shall be given; and from him that hath not, even that he hath shall be taken away from him. * * Thus the servants were dismissed. * * But these evil minis, which would not that I should reign over them, bring hither, and slay them. * * These 'enemies' are those who refuse to accept Christ as king. * * You may be a steward for God by making your home his household, by giving your time, money, and influence to God. * * Rewards faithfulness more than success, character more than reputation. * * Much interest in aviation is being shown in Manchuria."

And as they heard these things, the discussion of Zacharias as given in our last lesson, "Spake a parable, because he was nigh to Jerusalem, and because they thought the kingdom of God should immediately appear." "He said therefore a parable unto them, saying, 'A certain nobleman went into a far country to receive for himself a kingdom, and to return, he called his ten servants, and delivered them ten pounds, and said unto them, Occupy till I come.' * * The 'nobleman' refers to Jesus himself. 'Servants' referred to the disciples, and 'to return' was a delegation of fifty men to him. He called his ten servants, and delivered them ten pounds, and said unto them, Occupy till I come. * * On June 1, 1930, we studied the 'Parable of the Talents.' The two parables are similar but not the same. Of them a writer says, 'The parable of the talents is the story of genius. All the characters were exceptionally gifted. * * This is the same old parable of the common people. * * This is a parable of equal opportunity, those chances for serving God which come to all alike. It differs thus from the parable of the talents, in which each steward had a different amount to start with. There are certain resources common to all men. Each has life, and most of us have the common faculties of the body and at least an average amount of intelligence. * * Our lesson continues: 'But his citizens hated him, and sent a message after him, saying, We will not have this man to reign over us.' These 'citizens' were the Jewish people. * * The words 'into a far country' referred to the ascension of Jesus after his crucifixion, and in the following verse the return of the nobleman has reference to the second coming of Christ: 'When he returned, having received the kingdom, then he commanded these servants to be called unto him, to whom he had given the money.' * * Then came the first, saying, Lord, thy pound hath gained five pounds. And he said unto him, Well, thou good servant: because thou hast been faithful in a very little, have thou authority over ten cities. And the second came, saying, Lord, thy pound also over five cities. And another came, saying, Lord, behold, here is thy pound, which I have kept laid up in a napkin: For I feared thee, because thou art an austere man. * * And he said unto him, I judge thee, thou wicked servant. Thou knewest that I was an austere man, taking up that I laid not down, and reaping that I did not sow. Wherefore then wastest thou my money into the bank, that at my coming I might have required mine own with usury? * * Take from him the pound, and give it to him that hath ten pounds. * * Unto every one that hath shall be given; and from him that hath not, even that he hath shall be taken away from him. * * Thus the servants were dismissed. * * But these evil minis, which would not that I should reign over them, bring hither, and slay them. * * These 'enemies' are those who refuse to accept Christ as king. * * You may be a steward for God by making your home his household, by giving your time, money, and influence to God. * * Rewards faithfulness more than success, character more than reputation. * * Much interest in aviation is being shown in Manchuria."

Best Cotton and Corn Side-Dressing Is Some Quick-Acting Nitrate

Some quickly available nitrate is what the Florida Experiment Station recommends for side-dressing cotton and corn. These crops seem to have made very little response to phosphorus and potash side-dressing, but quick acting nitrates have usually proven profitable.

According to J. D. Warner, assistant agronomist, corn should be side-dressed if it is about 40 days old. About 100 pounds per acre of nitrate of soda, sulphate of ammonia, or similar fertilizer, is recommended. If the nitrogen is applied earlier some of the plant food may be lost by leaching. The fertilizer should be put near the hills but should not be thrown on the tender corn. Side-dressing has proven more profitable when the corn is planted close.

Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and mucky and the world looks punk, don't sweat a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly seem buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. This bloats up your stomach. You have a thick, bad taste and your breath is foul, also often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned. It takes these good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely. But don't take for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Repeat a schedule.

HIGHLANDS HAMMOCK TO ATTRACT VISITORS

Completion of Road From Boulevard Is Urged To Complete Work

By H. Y. POTTS.

When handling public questions it is important that only one side be taken up at a time. Highlands county has four growing cities and villages within its borders. Avon Park, Sebring, DeSoto City and Lake Placid. Also many well developed estates. All of which will derive large financial benefits in future years from those who will be attracted by Highlands Hammock.

Florida has many beautiful and attractive places, the same, or similar, to those of other states. Added to this, the lake four world attractions: Highlands Hammock, Silver Springs, Daytona Beach and Bok Tower. The Bok Tower being the only one that could be reproduced by the hand of man.

Highlands Hammock and the Bok Tower being located near each other; near the center of the state are naturally associated with each other; people coming here will want to, and will see the other. Thus forming a double attraction in the scenic Highlands of the state. Something even, that the whole United States have a right to brag about.

Silver Springs, Daytona Beach and the Bok Tower can be reached by driving through beautiful boulevards.

Hard surfaced roads have already been built through Highlands Hammock. But it needs just two miles of hard surfaced road to connect it with Lake Jackson boulevard at a cost of \$12,000. Just about the price of a modern summer home.

The question is: Can not Highlands county, with its four cities and villages, and many large estates, buy, borrow or steal \$12,000 and pay it to the laborers of the county, who need the work, and have it completed for the tourist rush, when next winter arrives upon the scene?

There are people in 47 states and Canada; say nothing about other countries, who would like to hear an affirmative answer to this question.

CARD OF THANKS

It is in times of sorrow and trouble that one's friends are the more appreciated and their goodness the more apparent. In our time of sorrow we want to take this means of thanking our friends for their kindly acts and words that did so much to mitigate our sorrow. It was kindly of you all.

Mrs. W. L. Caldwell and family.

John A. Caldwell Died Last Saturday

(Continued from page one)

five hours after his father's death. In the mean time friends of the family had rallied to do what they could.

"The funeral services Sunday afternoon were perhaps the largest ever held here, for John Caldwell was universally liked. Rev. S. A. Tinkler paid a tribute of affection and esteem that came from the heart for John Caldwell had always been one of his closest friends and parishioners. "He could always be found in his seat in the little church across the way," said Mr. Tinkler and his voice choked as he thought of the good friend gone.

"Flowers by the truck load came to bring their last message of esteem and respect. Scores of friends gathered at the house and followed the remains to the grave in spite of the rain that came on just as the casket was taken to the hearse.

"At the grave services were delayed by the downpour of rain, but just before the casket was about to be lowered into the grave the sun came out and one of the most perfect and beautiful rainbows that could be formed, bathed the eastern sky line like a promise of the resurrection. John Caldwell, always hopeful, always optimistic, had a fitting burial scene.

"Full bearers were J. W. Sample, James City; A. G. Smith, Wausau; W. H. Yates, Avon Park; Charles H. Walker, Bartow; A. H. Alexander and W. J. Frink, Lake Wales.

"A choir, composed of Mrs. A. J. Knill, Mrs. DeLois, Dr. W. L. Ellis and E. D. Ellis, sang "My Trust is in the Lord," and "Such Fity as the Father Hath." Mrs. W. J. Smith was the pianist.

FLOOD CONTROL DATA PUT BEFORE BANKERS

Aims and Purposes of Project Presented at Bankers Convention

An outline of the general activities and progress of the \$9,000,000 Okeechobee flood control and navigation project now being carried out, was placed before more than one hundred bankers from various sections of the State at the 38th Annual Convention of the Florida Bankers Association held at West Palm Beach May 1st and 2nd.

Howard W. Selby, vice-chairman of the project, presented the outline of the project to the bankers and explained the present status of the huge engineering project now well under way.

Although a spirit of confidence and optimism concerning the benefits of the project prevailed among the residents of the Lake region, according to Don Herr, chief engineer and executive secretary of the Flood Control District, the interest being shown in the flood control project is by no means confined to persons within the Everglades.

The benefits which will be derived from the plan are as varied as the project itself and are commensurate with the humanitarian objective of flood control and the economic one of navigation.

It is pointed out by Mr. Selby that levees constructed to retain the waters in the lake in the interests of flood control also furnish the navigable capacity of that body of water. Dikes will protect the lands from overflow and thereby will permit of their further cultivation for the production of commodities which are the more cheaply obtained in return for reason of the improved navigation. Canals which conduct the flood waters through the uplands to the sea also provide lanes for the movement of commerce.

Not until the project is completed will the full benefits of the combined flood control and navigation objectives be realized. The benefits are not entirely local, Mr. Selby explained. The vegetables, fruit, sugar, and other products of the Everglades have their principal markets beyond the confines of the State. They add to the wealth of the nation. They enter extensively into both domestic and foreign commerce. In return, the numerous commodities required in the region affected, the petroleum products, the agricultural equipment and supplies, the staple foods, the clothing and all the merchandise required to supply the necessities of a large population originate largely outside the state and likewise enter into commerce to the mutual benefit of all concerned.

The British ministry of health has just estimated that to provide pensions of \$2.50 a week for wives of old pensioners would cost \$15,000,000 the first year, rising to over \$20,000,000 in 10 years.

A psychological clinic for children has just been opened in Edinburgh, Scotland.

SPECIAL MOTHERS' DAY SERVICE AT ARLINGTON

"The First American War Mother—George Washington's Mother"

On Mothers' Day, May 10, the American War Mothers will hold ceremonies at Arlington Amphitheaters Washington, D. C. that will be linked with the memory of George Washington through an address to be delivered on "The First American War Mother—George Washington's Mother," by Hon. Sol Bloom, Associate Director of the United States George Washington Bicentennial Commission. Congressman Bloom will dwell upon Mary Ball Washington's great service in the gift of her son to America and to the world, and on the strain on her courage during his dangerous days in battle.

The address will also call upon all the War Mothers, especially, to join their efforts with those of the United States George Washington Bicentennial Commission in its plans for the Celebration of the Two Hundred Anniversary of the Birth of George Washington in 1932.

The ceremonies arranged by the War Mothers for this occasion at Arlington on Mothers' Day will be most solemn and impressive. Most of the speakers will be women. The "Aids of Honor" formed by the Gold Star War Mothers carrying garlands of laurel and white carnations—the carnations serving as the Mothers' symbol, and the laurel as the heroes' emblem. Through this living aisle will pass representatives of 39 patriotic organizations, to place flowers on the Tomb of the Unknown Soldier.

Present among these organizations will be the Virginia State Department of the American Legion, three hundred in number, with their mothers and wives.

The program as arranged includes music by the United States Marine Band, an invocation by Captain Sidney Keys Evans, Chief of Chaplains of the United States Navy; and further addresses by Mrs. Virgil McClure, National President of the American War Mothers; by Major General John L. DeWitt, Quartermaster General, United States Army, on "The Mothers' Pilgrimage," with a closing address by the Secretary of War, Patrick Hurley.

Bertha Curtis Johnson will sing a song by Herman Fakler, the words of which were found on the body of a dead soldier on a battlefield in France, shortly before the Armistice, the title being "Ye That Have Faith." Staff Sergeant Frank Witchey, Headquarters Troop, 34th United States Cavalry, who sounded Taps at the burial of the Unknown Soldier at Arlington on the first Armistice Day, November 11, 1921, will sound the same call on this occasion, and the program will be interspersed with other music.

Later, at 4 o'clock on Mothers' Day, the American War Mothers will hold another ceremony at the Lincoln Memorial, when four trees will be planted and dedicated to the four past national presidents of the Association. These are Mrs. Alice M. French, founder of the Association; Mrs. Mabel D. Digney, Mrs. Margaret N. McClure, and Mrs. Mary Spence.

The ritual of the American War Mothers will be used, conducted by the national president, Mrs. Virgil McClure, and the address will be by Gen. Amos A. Fries. Music will be furnished by the 20th Marine Band, and the Junior 20th Marines will form a guard of honor.

While these observances are being conducted on land, the American War Mothers will be at sea on board the "George Washington," on the first of the second year of pilgrimages authorized by Congress and arranged by the War Department, to enable American women who have lost sons in the World War to visit the graves of their loved ones. On the first of these voyages, and on each succeeding voyage, a day will be devoted to honor the First of all American Soldiers, George Washington, in co-operation with the United States George Washington Bicentennial Commission in its plans for the nation-wide celebration of Washington's Two Hundred Birth Anniversary next year.

English Research Worker Studies Florida Crops

Dr. J. Henderson Smith, with the Rothamsted Experiment Station at Harpenden, England, has just concluded a week's tour of Florida and a several months' tour of the United States. At the Experiment Station at Gainsville he was particularly interested in a new disease of plants, but he immediately became very much interested in the crops of Florida. From there he went on a tour which included Orlando, Plant City, Belle Glade, Hialeah, and other points. The Rothamsted station is one of the oldest and most noted experiment stations in the world.

Red Deviltry.

On Monday evening the grade school children put on "Cinderella in Fairyland" and also a May dance. It was extremely well attended; the main floor of the auditorium was packed and nearly a hundred more found room in the balconies. The costuming of the children was strikingly attractive, being perhaps the most beautiful of any ever witnessed on the local stage.

A representative of the Balfour company, who supplies the graduating classes each year with rings, visited the Juniors and measured them for the "who's who" ring.

The dear old Seniors are running about these days trying to make up book reports and doing up a lot of English grade. They're ending time, however, to get their commencement dresses. One young'un brought hers up for Miss Bryant's inspection. It was a marvelous creation.

—Don Ramon.

Senior News

At the Tuesday morning class meeting, the Seniors elected the speakers for Class Night. Karl Hagan was unanimously elected Class Historian. Both Paul McClelland and Arthur McClelland for Foot and Handmade Form received the necessary two or three votes to make him victorious. Inez Dawson was chosen Class Freshman and Mary V. class "will-maker." The Senior class hopes to present an interesting program for Class Night.

Perhaps you haven't heard about our little champion. Genevieve McClelland, the highest scorer in speed Wednesday eve before made by an Avon Park High school student of typing! And her paper was "How you now have a goal to work toward."

Even the Senior class isn't immune from the "who's who" ring. At the Tuesday morning class meeting, the Seniors elected the speakers for Class Night. Karl Hagan was unanimously elected Class Historian. Both Paul McClelland and Arthur McClelland for Foot and Handmade Form received the necessary two or three votes to make him victorious. Inez Dawson was chosen Class Freshman and Mary V. class "will-maker." The Senior class hopes to present an interesting program for Class Night.

Friday is Senior "kill" day. Wonder if the Juniors will try to "crash" it?

Junior News.

"Vacation—this seems to be a common word in the Junior class for it's all you hear. The Juniors are planning various things to keep them busy and entertained during the coming three months of vacation. The Senior class of '32' will surely have something to talk about from the plans heard. That "going back north" group is getting old, we want to hear something of the south. Well it's being talked about in camping, swimming, boating, fishing and all sorts of fun and games. (Don Ramon's great thought).

There is talk of three Juniors making an expedition trip down Kissimmee river in a small boat. Three or four of the Juniors have bought outboard motors. Look out for an aquaplane spill! And oh, boy, how those far away good fishing and swimming spots will seem so near!

The girls are planning new summer frocks, and the visit to that distant relative. Also, there is one thing we never hear—"I think I will study my school books this summer and be teacher's pet next fall." Well, well after that last remark that reminds me I am not the teacher's pet and my Spanish lesson is lacking.

—Lee.

Sophomore Sentiments

Have you noticed all the new haircuts the girls are getting? When it gets so hot a woman can't stand her curls around her neck—look out—summer arriving. And another thing—all the boys and girls are wearing black and white sport shoes—and the sure sign of all—every body's cranning for final exams. Wonder if you heard the joke on coach at the play Monday night? We saw coach black and white. Coach looked as much as a wet hen. Sure would like to know if the joke hurt at all. Speaking of the play, it was unusually good. I wish to congratulate both the teachers, who worked so hard and the chil-

dren, for their splendid performance—and, oh, yes, the School Band! We enjoyed the music, too. The other day Boots McCranie walked into a local dry-goods store and asked if they had any white duck pants. The clerk replied "Yes, sir. How long, sir?" Boots "How long?" Heck, I don't want to rent 'em—I wanna buy 'em!"

All right, Boots, we know you are only a Freshie—and guess what a Senior did the other day? This Senior girl tripped up to the judge and asked for a license. When the judge inquired if she wished a hunting license, she rolled her smiling Irish eyes up at him and replied, "No, suh! I think I have been hunting long enough. I want a marriage license." Tru La.

Mutt & Jeff.

Freshman News

And here are the Freshies again! And we are here to give you some news from the best class in high school.

We have our "Who's Who" contest the other day and the following were the winners: Karl Hagan, Prettiest girl—Frances Sangster. Best Looking Boy—Walton Touchton.

Most Popular girl—Mildred Lee.

Most Popular boy—Walton Touchton.

Cutest boy—Boots McCranie.

Brightest girl—Evelyn Clements.

Cutest girl—Virginia Baldwin.

Brightest boy—Clyde Clark.

Most Courteous girl—Marcia Weisheyer.

Most Courteous boy—M. L. Silbey.

Now who's not first in Action?

We Freshmen were also very delightfully entertained by one of our classmates, Virginia Baldwin, (vice President by the way) the other evening and I wish to, in behalf of the class, give her a vote of thanks. We thank you very sincerely, Virginia.

Only about a week now until finals begin and all around us we see our friends and classmates deeply engrossed in something they never before thought of—studying—but we naturally would. Isn't life queer?

The Home Ec. girls got together the other day and had a good picnic. They say they surely had a good time.

What would happen if:

Somebody didn't get sent out of English class?

Louis Marshall came to school on time?

Somebody didn't miss his Algebra problem?

Archus got in a real hurry once?

Sport grew up?

Mr. Mummam forgot to take names?

Study Hall got real noisy for Coach?

Home Ec. went off smoothly every day?

Maria found her sewing?

"Shorty" Lee and "Pat" Silbey were not always together?

An Alberta, Canada, organization, headed by New York interests, proposes to pipe natural gas from Kinross, Alberta, 350 miles to Regina, Moose Jaw and Saskatoon.

People of the United Kingdom lighted more than 110,000,000,000 matches last year.
