

at all."

Thos. Paine Was Born Jan. 29, 1737

Was of Great Help to Washington During Revolutionary Days

As the country pays tribute to George Washington during this year, making the 150th anniversary of his birth, the United States Bicentennial Commission reminds us that it is well to mark with some thought the anniversaries of other patriots without whose loyal help George Washington might never have been able to achieve what he did.

One of these is Thomas Paine, who was born on January 29, one hundred and ninety-five years ago. This remarkable man was the son of a Quaker who lived in Thetford, England, a stay-maker by trade. Like all sturdy English yeomen, the father expected his son to follow the family calling, but young Thomas soon tired of making stays and became an excise-man. After a turn at this, he tried teaching in London. But already he had shown evidences of an intelligence far out of the ordinary, and had gained the acquaintance of Benjamin Franklin, then living in England.

In 1774, Paine emigrated to America, bearing a letter of recommendation from Franklin, which soon obtained the editorship of "The Pennsylvania Magazine," published in Philadelphia. Even then the American air was full of the spirit of independence, and Paine not merely swung into the movement but rapidly forged to a place of leadership. It is said that his genius was waiting for just such an opportunity, and, using his magazine as a means of expression, Paine launched the first of those writings that soon inflamed the country with enthusiasm for freedom.

This was his "Common Sense," afterward issued in pamphlet form and circulated all over the Colonies. It blew away every vestige of the old king and monarch, boldly urged Americans to assert their own national sovereignty, and so stirred public opinion to the highest pitch.

In a publication of all Paine's writings and letters, the late Monroe D. Conway presents this remarkable writer as playing a mighty part in the shaping of the future United States. It is Conway's belief that Paine's clarion writings, laid the foundation of Independence and even some articles in the Constitution. We know that Washington, the great leader of the Revolution, was deeply respected Paine for the tremendous influence this writer exerted in maintaining the spirit of independence during the darkest moments of the Revolution. Indeed Paine's famous broadside, beginning "These are the times that try men's souls," was written, it is said, on the head of a drum when Paine was a soldier under Washington's command and when the discouragements of the retreat across the Jerseys had dashed public support of the war to its lowest ebb.

In the fall of 1776 Paine enlisted as a volunteer in the Continental Army and became aide-de-camp to General Greene. But military duties, far from dulling his pen, only gave him a more intimate insight with which to write, and during this period with army Paine began that series of 16 pamphlets which he assembled under the general title of "The Crisis." These maintained his reputation as one of the leading influences of the Revolution.

But writing far from exhausted all of Paine's abilities. In 1777 he was made secretary of the newly formed Committee of Foreign Affairs established by Congress. He served one year as clerk of the Pennsylvania Assembly.

In 1782 Washington got him a grant of \$800 from Congress to continue his writings. In the New York gave him a tract of 277 acres of land in New Rochelle; Pennsylvania gave him 500 pounds, and, in 1785, Congress awarded him \$3,000 to keep him from want.

With independence won in America, Paine was next attracted to the struggle for liberty in France. He played a prominent part in the French Revolution, at one time being thrown into prison and narrowly escaping the guillotine. He was arguing in behalf of the deposed king. He continued a prisoner until James Monroe, the new American minister to France, obtained his release. But during his months in prison, Paine lost favor with many of his former idolaters by writing his harsh and unflinching book, "The Age of Reason," and argument for deism which many took to be atheistic. This work long cast a shadow over an achievement so dear to patriot and lover of liberty. Now his fame is emerging from under this shadow, and his remarkable genius and achievements begin to shine for what they were: writer, philosopher, soldier and champion of liberty.

Plant City.—Building permits issued here, during 1931 totaled \$40,848.

Here's New Firestone "Air Balloon" Tire

When Firestone pioneered and developed the original balloon tire in 1922, they established the principle of very large cross section tires and using very low air pressure and on wheels of small diameter. The "Firestone Air Balloon" simply emphasizes a further degree of this Firestone principle to give added riding comfort and safety.

A new low pressure tire, so ample in its billowy proportions that it gives the impression of being attached to the hub of the wheel instead of to the rim, is announced by the Firestone Tire & Rubber Company.

Known as the "Air Balloon," the new tire carries only ten to fourteen pounds pressure and is designed primarily to increase riding comfort. Exhaustive tests made by Firestone Engineers have shown that its cushioning qualities bring about the nearest approach to "riding on air" that it is yet possible to achieve in tire manufacturing. Cobblestones, curbs, tracks, road ruts and similar rough spots of the highways are taken with scarcely any jar at all.

Along with the comfort phase of their engineering task, the Firestone designers also developed the safety features of the new tire. It is announced that mud, sand, and soft ground, wet or slippery pavements are negotiated with ease and safety heretofore unobtainable. In this respect the tire achieves one of its most important features, since the combination of low pressure and increased riding surface give it a much higher resistance against skidding than has ever before been attained.

Both the tire and the special wheel were planned by Firestone Engineers with an eye to beauty. The special wheel is a concave black disk, attractively set off with rings of polished chrome. A complete set includes five "Air Balloon" tires and five wheels and an arm for adjusting the steering.

The evolution of tires for smaller cars, for example, the tire size has been increased from cross section width measuring 3.00 inches to 3.50 to 4.40, then to 4.50 and later to 4.75 inches. Now the "Air Balloon" approximately doubles the cross section size for small cars and increases the air volume about four times.

Institutions of State at Fair

Inmates To Exhibit Work at Tampa From February 2 To 13

Tampa, Jan. 27.—Progress made in training students and patients at Florida state institutions during the last year will be depicted at the South Florida Fair, Feb. 2 to 13, where a comprehensive exhibit of products and art work with manufacturing processes will be demonstrated under the personal direction of J. A. Macintosh, superintendent of the world's fair exhibit and for four years in charge of the state displays here.

From the prison farm at Raiford will be shown an excellent exhibit of taxidermy, together with an educational display showing the various methods used in tanning and preserving leathers.

From the school for the deaf and blind at St. Augustine will come several students to demonstrate the manual use of hammers and brushes, showing how the sightless are taught industrial pursuits. According to Mr. Macintosh, this exhibit will be one of the most interesting sections of the state displays.

The farm colony at Gainesville will demonstrate weaving machines and looms, the Industrial School for Girls at Ocala will display fine needle work while the patients at the state hospital at Chattahoochee will have a magnificent display of art, needle and cabinet work.

For the past year the patients confined in these various institutions have been preparing these exhibits for the South Florida Fair, according to Mr. Macintosh who claims that the exhibits this year will represent the finest work of the kind to be found any place in the world.

HINTS TO HOUSEWIVES
Weekly from Home Demonstration Specialists, Tallahassee

CITRUS PRESERVED.
While an abundance of citrus fruits are on hand the housewife should not forget that they will make good preserves. Trying a few is the best test.

Use 1 pound of grapefruit peel, 3/4 pound of sugar, 1 pint of water, and 2 slices of lemon, 1/2 inch thick.
Select bright fruit with thick peel, and wash carefully, using a brush to remove stains. Cut in strips or shapes. Remove the bitter from the peel by adding 2 pints of water to the pound of fruit and the lemon, and boiling for 15 minutes. Pour off the water, and repeat the process until the desired taste is reached. Then add the peel and lemon to a boiling syrup made from the sugar and a pint of water. Boil until the peel is transparent and the syrup sufficiently heavy.

Whole Kumquat Preserves.
Use 1 pound of kumquats to 3/4 pound of sugar and 1 pint of water. Wash the kumquats in soap and water. Sprinkle them with a tablespoonful of soda, and cover with boiling water. Let stand 10 minutes, and rinse them in three changes of water.

Make a slit 1/2 inch long on one side of each fruit, and boil in water for 15 minutes. Repeat this boiling process three times.
Then add the kumquats into a boiling sugar solution made by dissolving the sugar in the pint of water. Boil gently until transparent and until the syrup gives a slight jelly test. If the vessel is covered just before it is moved from the flame, and allowed to stand for 25 minutes it will help to plump the fruit.

Sour Orange Preserves.
Cut or grate off the yellow part from oranges, leaving the white portion of the peel. Cut in halves, squeeze out the juice, but don't break the peel. Put 4 oranges so fixed into 5 quarts of water, and boil for 20 minutes. Change to fresh water and boil for 15 minutes. Change the water twice more, boiling from 8 to 10 minutes each time. Drain, and boil in a syrup made from 1 part of sugar in 1 part of water until the syrup is transparent. As the syrup boils down, add water to keep the original density. Pack the transparent fruit, strain the syrup, and boil it until thick. Pour it over the fruit, and process 10 minutes, then seal.

To Hold Field Trials For Dogs of County

Highlands County Fish and Game association is sponsoring a series of field trials to be held at Sebring on Thursday, February 18. Dogs owned by residents of the county will be eligible for entry and those interested are asked to communicate with A. C. Altwater or Doyle Schumacher, Sebring. There will be prizes awarded for the best dogs.

Tampa.—50 new cigar factories opened here during 1931.

Dairy Cows Must Be Bred Now For Fall Freshening

Breeding dairy cows so that they will freshen in the fall has many advantages, Hamlin L. Brown, dairy specialist with the Florida Agricultural Extension Service, believes. That would mean that the cows should be bred in late January or early February.

During the summer there is always a surplus of market milk while tourists from the North offer a market for much of the winter supply.

Another advantage of fall freshening is that the cow has the summer, when there is plenty of food, to get in good condition for calving. Thus, the calf will be stronger and the cow will produce more milk that is of a better quality.

Full freshening fits better into the raising of calves since the calf may be turned on pasture during the spring and summer and be grown out well at a low cost.

The general farmer will usually find pasture easier to obtain in winter, and the biggest demand for fresh cows is during late fall and early winter. The cow that calves in the spring will naturally produce best during the winter, and then spring and summer pastures will tend to keep this production up.

Mr. Brown advises against planning to enlarge the calf crop. He advocated the use of only high quality, purebred bulls, and the close culling of the dairy herd as well as the calf crop.

Taylor County Men Profit From Growing Pigs On Grazing Crops

Letting sows farrow on grazing crops and keeping the pigs there for four months proved profitable to two Taylor county farmers who conducted demonstrations with County Agent R. S. Dennis last year. There were 10 sows in the demonstrations. They farrowed 89 pigs. Three of them were mated by the sows and 85 were raised. They were farrowed in March and when butchered in October weighed 160 to 170 pounds.

Oats were planted in November, and the sows were turned on them in February, just before they farrowed. They were kept on the oats until May, and fed about one-third grain ration. The pigs were then turned on cuttail millet, sorghum, and peas, and watered from an automatic barrel. They were kept on this grazing until they were put in early corn and peas for fattening.

The adoption of this practice would mean thousands of dollars to the farmers of the county, since worms cause the loss of many pigs and stunt the growth of many more. Mr. Dennis said. No signs of worms were reported by the two demonstrators, who were the late W. B. Davis and Brade Hendry.

Homestead.—New wholesale fruit and vegetable marketing platform opened here.

Inverness.—Work started on proposed city park.

Good Teeth are So Essential

Nature endowed the human race with good teeth. But man, due to his predilection for soft foods, has largely lost his heritage. Riggs Disease, or pyorrhea, claims countless victims each year, in ever increasing numbers.

Gums become soft and sabby and cleave from the teeth. The teeth, in turn become loosened in the jaw, discolored, and eventually come out, or have to be removed. This loss is a real calamity, but, in many cases, may be avoided.

Riggs Medicated Tooth Powder is a medicated cleansing powder. It is antiseptic, pleasant to the taste, and contains no harmful drugs nor injurious ingredients. Its use keeps the teeth a gleaming white, keeps gums firm and healthy, and prevents pyorrhea.

Fine Pictures Are Still Playing At New Circle Theatre

Following the recent big film hits shown at the New Circle theatre, "Sehring's Friendly Flayhouse," Manager Charlie Morrison announced the dating of several other film successes. As this last of your paper is being read, "Platinum Blonde," featuring Robert Williams, Loretta Young and Jean Harlow is scheduled for showing Friday and Saturday with matinee Saturday at 3:30 p. m. Following "Blonde," "Lovers Courageous" with Robert Montgomery and Madeo Evans will be the attraction Sunday and Monday, with a popular matinee Sunday afternoon at 3:30. Next Tuesday and Wednesday, John Gilbert assisted by Ed Brendel and Lois Moran will be seen in "West of Broadway" considered this popular star's finest picture. Then will be presented a feature picture that will be the talk of this section for months to come, when on Thursday and Friday, "The Sign of the Cross," with Miss Helen Hayes, will be shown. "The Sign of the Cross" which brings to the screen for the first time a new personage in Miss Helen Hayes, if her work doesn't make an impression on the audience that will last indefinitely then we miss our guess.

Next week will be concluded with "The Unexpected Father" featuring Slim Summerville and Zasu Pitts in a picture that was made for laughing purposes, only. Selected shorts of a wide variety will feature each program. Some of the coming attractions include "Private Lives" with Norma Shearer, "Sidelwinks of New York" with Buster Keaton, "Peach O' Reno" with Wheeler and Dee, "Honey Diver" with Marjorie Rea, Clark Gable and Wallace Beery, "Susan Lennox" with Greta Garbo, "The Sign of the Cross" with Miss Helen Hayes, and "Bad Girl" and other pictures too numerous to mention. The New Circle is still living up to its name and can't show them all, so we show the best.

Seed Treatment Controls Sweet Potato Diseases

Treating seed sweet potatoes with corrosive sublimate is an effective means of controlling several fungus diseases that might give trouble later on, according to Dr. W. B. Tisdale, plant pathologist for the Florida Experiment Station. Just before bedding, these potatoes that show roots or blight should be discarded. The healthier ones should be dipped for five to eight minutes in a solution of corrosive sublimate made by dissolving three ounces of the crystal in 24 gallons of water. Ten to 16 bushels have been treated and one-half ounce more of the crystals, making up to 24 gallons with water, and treat 10 more bushels. The solution should then be discarded. He advised bedding the potatoes as soon as they are treated. Corrosive sublimate is a deadly poison and should be handled with care.

Many of the shrubs in Florida woods may be used in landscaping the yard. Try some of them this winter.

Treat truck seed with 1:1,000 corrosive sublimate and thus eliminate diseases that are carried on the seed.

War Spirit Captures Youth of Japan

Tokyo, Japan.—Since the outbreak of hostilities in Manchuria between the Chinese and Japanese everything in the latter country is centering on war talk and as a result even mere youngsters are willing to shoulder the musket. Bearing out this statement our cameraman in his journey through a Tokyo suburb caught these two miles all set for an attack on the enemy with aluminum pan helmets and bamboo guns.

Green Corn Yields Best If Fertilized and Planted Early

Green corn planted early and side-dressed with nitrate of soda has given best results in tests at the Florida Experiment Station.

Of plantings made side by side the fifth of February, March 1, April, May, and June the February plantings have given the highest yields with those of March a close second. Roasting ears were produced on the February plantings about 10 days to two weeks earlier than on the March plantings.

In co-operative tests on a farm near Alachua were 450 pounds of a general fertilizer was applied per acre the yield was 21 crates per acre more than where no fertilizer was applied. However, on a nearby plot where only 200 pounds of nitrate of soda was applied as a side-dressing the yield was as high as the complete fertilizer plot in addition to more of the crates being ready for harvest early in the season.

In another test at Gainesville 100 pounds of nitrate of soda per acre as a side-dressing was compared with 200 pounds. At a time when half of the shoots were in silk there were a third more shoots on the 100-pound plot and 70 percent more on the 200-pound plot than on a plot where no soda was used. Rates of application of nitrate of soda over 200 pounds per acre did not further increase the earliness of the crop.

Corn Yields More.
Corn following vetch and Austrian winter peas yielded an average of 20 bushels per acre more than that on nearby check plots in demonstrations conducted by county agents and farmers in Union, Bradford, Marion, and Hamilton counties last year, reports W. T. Nettles, district extension agent. There were 23 demonstrations covering 225 acres of corn.

Tampa.—Officials of American Eagle-Lincoln Aircraft Corporation of Kansas City, inspected possible sites here for location of large \$1,000,000 aircraft factory.

Plant Corn About Tomato Fields To Trap Fruit Worms

A double row of corn planted around the edge of tomato fields and an occasional double row through the field will serve as a trap crop for the tomato fruit worms, says J. R. Watson, entomologist with the Florida Experiment Station.

The same worm that bores into the tomatoes is also known as the corn ear worm and the corn borer. It prefers corn and will leave the tomatoes for the corn. Mr. Watson advises planting the corn so that it would come into silk at about the time the first tomatoes are forming. The moth that lays the egg which causes the worm prefers shade, so a row of peas between the double row of corn is suggested.

If it is not practical to have the corn come into silk when the first tomatoes are forming, corn that is high will give some protection. The moth will lay her eggs in the buds to produce what we know as the corn borer. At this time the worm in the corn should be poisoned, and a dust made by mixing on pound of lead arsenate to 10 pounds of lime is recommended.

When the corn begins to silk it should be dusted every three days providing one wants to get roasting ears free of worms. The removal of the ears from the field will destroy many worms that might emerge and attack the tomatoes later.

This trap crop will greatly diminish the worm-damage to the tomatoes but may not entirely control it, Mr. Watson said. Since the tomatoes are usually sprayed for fungus diseases with bordeaux mixture, he advised adding one pound of lead arsenate to each 50 gallons of bordeaux. Spraying should begin when the tomatoes begin to form and continue until just before they are ready for market.

A Service To Meet Needs.

"Those who are enemies of co-operative marketing," says Board's Dairyman, "are now pointing out the 'great

Eddie Cantor's definition of a communist is "a fellow who has nothing and wants to share it with you." It is usually the fellow who has nothing to divide who favors an equal division of all wealth.

"Jobs not beer, are what men need and want" is the oracular declaration of Mrs. Ella Boole, national W. C. T. U. head. But, Ella, darling, just now it seems there are a good many men who have neither jobs nor beer.

S. L. Lowry, of Tampa, announces as a candidate for Representative in Congress from this district. Another good man, but there is still no reason why a public servant, tried and true as Mr. Drane, should not be continued in the position he so ably fills.

One murder to every 15,000 people in the United States; one to every 225,000 in England. The difference is due to the swiftness and sureness of English justice as compared with the antiquated and inefficient court procedure in vogue in this country.

It was not the church people, it appears, nor yet the "hundred percenters," who voted down race-track gambling in Tampa. West Tampa and Ybor City cast the decisive vote against the movement. But you know how it is with "these foreigners" — they are responsible for everything that's wrong!

Refreshing to note that a couple of gentlemen have announced that they will not be candidates for Governor. Hoorsay! Now let a lot more of 'em make the same announcement, and we'll be convinced that there are no more of those who are candidates than who are not candidates. We've been a bit uncertain about this so far.

4-H boys in Hillsborough county produced over 75 bushels of corn to the acre, selling the product at an average of \$55 to the acre. If this gets out we'll have all the corn farmers of Iowa and Illinois down here. They'd think they were doing well if they made half that much money on their home farms. Looks like Florida is the real corn State.

Bill Murray shocked the Anti-Saloon League Convention by the suggestion made in an address to that body that there might be a better way of dealing with the liquor problem than the present prohibition method. Bill explains everything happily, however, by remarking, "I simply overrated the intelligence of the audience."

Permitting his name to be entered in the North Dakota Democratic primary to be held March 18, Governor Roosevelt's hat is formally in the ring. Now what's worrying lots of people is whether the brown derby is going to plop beside it. Huey Long, of Louisiana, says Smith can win, Roosevelt can not. But Huey is somewhat given to hokey.

The Everglades National Park, embracing a territory of some 2,000 square miles in Dade, Monroe and Collier counties, is well on the way to becoming a reality. Senator Fletcher's bill establishing the park has passed the Senate, and it is believed the measure will have no trouble in the House. The preservation of this fine territory in its natural state is a matter of much importance to Florida, and equally so to the nation. It has features that will more and more attract widespread attention and interest as the march of civilization inevitably will make such areas of natural beauty, plant and wild life conservation, increasingly rare.

OL' MAN TAXES

LEA OBJECTS TO "LUKE."

A couple of weeks ago we ran this short paragraph in this column:

"Luke Lea is 'old running' for Congress in opposition to Mr. Drane. He is too much of a humorist to be taken seriously. Perhaps a compromise might be effected whereby he could write a funny column for the Congressional Record. It would vastly improve the publication."

Mr. Lea objects strenuously to our alliterative handle we have attached to his name. But while he doesn't like the "Luke" idea, he apparently has no objection to our suggestion that he improve the Record with his contributions.

Mr. Lea writes:

"I have a very highly developed sense of humor, but honest I can't see the joke in referring to me as 'Luke' especially since Luke is disgraced, sentenced to prison and has other troubles. I am not related to Luke. He is an entirely different breed of donkeys to myself."

"You say that I am too much of a humorist to be taken seriously, but if you will only stop to think you will know that Mr. Hoover and a number of our other politicians have absolutely abolished the smile from the face of the taxpayer. If you will take the time to study my legislative record and honest and sincere efforts to abolish offices and lower the tax burden you will be convinced that if I am elected along with other humorists of my type, that when our tax assessor sends out his bills it will not only produce a smile, but will make the taxpayer laugh out loud. The greatest need of the times is to restore confidence, and one way to do that is for the press not to mislead the folks by calling me Luke."

"You are going to support me, but you don't know it yet. I will stop to see you when I am in town."

"With best wishes I am,

"G. O. (Not 'Luke') LEA."

We note that Mary A. Stennis, State nutritionist, of the State Department of Agriculture, in enumerating the items available for an All-Florida home products menu, suggests that even the salt-needed for flavoring can be produced by evaporation from the Gulf and Atlantic. There used to be — perhaps is — a considerable industry in producing salt by evaporation of sea water at Key West. Can't name many good things produced on either land or sea that Florida cannot furnish.

It isn't enough that all sorts and conditions of people are offering predictions as to the end of depression and the revival of business, but even the spirits are joining in the game. Out at Fort Worth, Texas, a minister has received a message from his brother, dead twenty years, predicting the return of normal times, the election of the Democratic ticket, and sundry other things that we're sure wouldn't bother us if we had been dead twenty years. At that, we take about the same stock in this "spirit message" as we do in the predictions of any of our living business prophets.

Some way that Reconstruction Finance Corporation, and the other big aggregations of capital created for relief purposes, seems a long ways off to the individual really needing relief. We would advise the latter not to wait for help from that direction, but to hunt

a job at cleaning yards or catching bull-frogs. Shipping a few hundred million dollars around from one bank to another may resemble Hooverian prosperity to those who handle the money, but it is of little interest to the man who is craving a cuppa coffee and a plate of beans.

Governor Carlton very properly refuses to call an extra session of the Legislature to provide additional funds for the schools. There is enough money provided for school purposes — too much for the results that are being attained. With proper business management on the part of school boards, introducing wholesome economies and curtailing needless expenditures, much should be done with the vast amounts collected from the people for educational purposes. There is something wrong with our school system, with the money available, schools can not run full terms and teachers be regularly paid. But there is no good reason to wish a special session of the Legislature upon the people.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE
Shawnee, Oklahoma

When I visited my old friend, Major MacDonnell, at La Jolla, California, recently, we motored down to Tia Juana, just over the line between California and Baja California, south of San Diego, for dinner at Alex and Paul's restaurant — and what a dinner!

When I think of that wild duck — that Crepe Suzette — Alex Cardini and Paul Maggiori, two Italian boys, have had years of training in their profession in the finest restaurants of London, Paris, Berlin, and Rome; they have made for themselves a world-wide reputation among world travelers who demand the best. After thirteen years in Mexico their business has so increased as to necessitate much more commodious quarters so they have taken over the entire Commercial Hotel Building in Tia Juana, which has been remodeled, refurnished and redecorated under the supervision of the well known California architect, Edgar Ulrich, who built the Casa Manana Hotel in La Jolla. The result of Mr. Ulrich's work for Paul and Alex is a tribute to his skill and artistry. The restaurant proper is a charming place, mighty comfortable, homely and beautiful — a most difficult combination to achieve. I know of no other restaurant quite like it.

Alex and Paul's is a gathering place for the great and near-great from all the world; statesmen, military sportsmen, famous cowmen, old time sheriffs, mining men, oil men, writers, moving picture stars from Hollywood, opera singers, and Broadway stage stars and men known the world over for their standing in the law, in merchandising and manufacturing.

Watch Alex and Paul as they greet their guests. See how meticulous they are that every single thing that comes from the kitchen is properly cooked, piped hot and expertly served, then you will understand why Paul and Alex have so many friends among the great and near-great around the earth.

Incidentally, our visit of inspection included the wine cellar. It would bring scalding tears to the eyes of a "Crusader." Labels from England, Ireland, Scotland, Austria, Algeria, Cuba, Australia, Sweden, Holland, Denmark, Canada, Russia, Spain, Portugal, Italy, Germany, Hungary.

Alex and Paul have proven that if you know your business thoroughly and attend to it, you do your best to excel in it, having at all times the welfare of your employees and courteous and friendly and sincere interest in your customers, and tell the world about your business, soliciting their patronage, YOU ARE BOUND TO ATTRACT THE ATTENTION OF A DISCRIMINATING PUBLIC, AND SUCCESS WILL BE YOURS!

APE MEN

By JUDGE JOHN W. DODGE

MAN IS NOT MACHINERY.

"God created man in His own image, in the image of God created he him" is sacred right birth. Are we now selling it for a mess of pottage?

The real man, the true man, the God made men of the world, they "are renewed in knowledge after the image of Him that created him. Men renewed in knowledge are never ape-men.

This is a "Machine Age"; but, there is no reason for men to be automatons — nor ape men. The weakness of man today lies in his ape-like life.

Individuality is man's most precious element of well being. It is being submerged in a mechanistic network and system of imitation, based largely upon a doctrine of standardization, which is falsely applied and taught as to human beings.

John Stuart Mill, in his "Essay on Liberty," writing as both a philosopher and political economist, warned the world, almost one hundred years ago, in these words:

"He who lets the world, or his portion of it, choose his plan of life for him, has no need of any other faculty than the ape-like one of imitation. He who plans for himself, he employs all his faculties. He must use observation to see, reasoning and judgment to foresee, activity to gather materials for decision, discrimination to decide; and when he has decided, firmness and self control to hold to his deliberate decision. — Among the works of man, which human life is rightly employed in perfecting and beautifying, the first in importance is surely man perfecting himself. Human nature is not a machine to be built after a model."

When you and I, and a thousand more, let those who are trying to standardize human nature, who are trying to make us automatons, who are seeking to create ape-colonies out of men, know that it cannot be done, then will individually assert itself.

Away from the jungle of ape-men! Let us renew knowledge after the image of Him that created us men! In the image of God let us, as Americans, be men.

"God give us men — A time like this demands men — true men — thinking men — honest men — courageous men — sincere men — God-like men!"

TOO LATE TO CLASSIFY.

By RUSSELL KAY

I don't know whether Florida cows are contented or not, but if they ain't they sure ought to be. This is the time of year when they are being milked, but nobody can say she ain't kind to her cattle.

I don't know any other state that's built nice concrete sidewalks with tender grass planted on both sides where cows can ankle and nibble. And if you don't think Mrs. Cow has the Right-of-Way, you just DON'T KNOW.

We require our Motorists to BLOW their HORNS, but nobody ever thought of asking a cow to BLOW hers. You and ME have to switch on our tail lights when darkness overtakes us, but Mrs. Cow don't even have to switch her tail.

And if you're just an ORDINARY tax payer, you better be darn careful not to get on the SHOULDERS, but the cows can play leapfrog all over 'em and get away with it.

We hear a lot about highway REAUFICATION, but that must be just a STOCK phrase, anyhow there are more SCRUBS than SHRUBS on most of our roads and our Highway plantings seem to be more BULL than anything else, as far as I can see. But we really ought to capitalize this unique Florida attraction. Why not erect an arch over our main arteries bearing this slogan, "Enjoy Florida ZEPHYRS while dodging our HEIFERS."

And if the Legislature is really sincere in its desire to cut expenses, why not combine the State Highway and Livestock Boards and turn the whole darn Playhouse over to Dr. Knapp, then he could go on ahead and DIP the COWS while his assistant was MILKIN' the MOTORIST.

Last week we had a Strawberry Festival at Bowling Green and this week it's the Orange Festival at Winter Haven. We also have Bean Festivals, Batta Festivals, Watermelon Festivals and if you ask, with 15 Hopelands running for Governor, we're about to stage the greatest Raspberry Festival the world has ever known with freaks, clowns, strong men, BALLOT dancers, TOM-TOMS and plenty of BALLYHOOS.

Winter Haven's Orange Festival is a KNOCKOUT and a wonderful advertisement for Florida citrus, but I can't understand why Jack Guthrie spent so much money for FREE ACTS when he could have assembled all the candidates for Governor on the platform.

HIS, not theirs, and had a grand-stand attraction that would have been a WOW. — But on the other hand, it would have been a lousy trick to play on the Johnny J. Jones Exposition because nobody would care a hang about seein' the FREAK show after that.

And I see where this boy George O. Lea of Bradenton, who's akin to 'land the boy of contribut' editor on the Congressional Record announces that he is gonna campaign from an airplane with a loud speaker. — Well anyhow that ought to be PLANE talk from one candidate, now we might all rise and sing "High LEA, High LEA." I suppose the other candidates will be complain' about the OVERHEAD attached to the campaign.

WHOOOPS and a couple of roosting AH-HAAS. — Now we can close the entries in the Governor's RACE, at last we've got a sure enough DIRTY FARMER in the melee. The gentlemen answers to the name of Montgomery Potter and he hails from Hamilton County. — Now if he got enough votes, I suppose he'll proceed to bury all the other candidates in the POTTERS FIELD. — But what I can't understand is why all the DIRT in politics is always blamed on the poor FARMERS, why don't some of these birds be original and enter the race as a DIRTY lawyer or DIRTY banker or something?

If the Japs succeed in chasing the bandits out of Manchuria, there is a big job awaiting them in Chicago and New York — Jacksonville Times-Union.

Church Notes

AVON PARK High School News

Former Student On Her College Life

Dear Members of Avon Park High: Mr. Fairley asked us, as old students of Avon Park High, to each write a letter to the Red and White, telling you a bit of college life and how we are faring under its shadow. Since I'm the one who has to hurry the others along, especially by Wava who is slow, I'll write first and then maybe the others will follow my lead. This is a most unusual occasion to write a letter, since it is examination week, and if ever one should be feverishly attempting to memorize the text books from cover to cover, now is the time. Nevertheless, the hardest examinations are over, and I have decided not to worry over the others.

I suppose the best way to describe college life will be to start one morning and take you with me through the day. Breakfast at 7:30 and as the others are too fond of sleep to get up that early, Kit and I are the only two to attend this meal. You see, we have a room of our own, and we have three good square meals a day, and I'll admit that I sometimes could enjoy even four. The bell rings at 7:30 and the class room is open until 7:40, and if you aren't there then, you might as well not try to be, for the doors are closed after that time. Classes begin at 8:30, and one is considered lucky who has only a few of these per week. Personally, I would much rather have no classes at all, and no 4:30 afternoon sessions, which fall to my lot, twice a week. The best part of the day is the daily rush for the mail at 8:30. How I would love to let you live through that. If you have never experienced the thrill of a stamp rush in New York, I'll promise you an equally thrilling experience in the College post office. Thanks to bright and long arms, which manage to get my mail without much struggle, but the girls whose boxes are lower, mean in despair over the pushing, "behaving in" which they must become a part of in order to see if Uncle Sam has treated them nicely that morning. You can really enjoy the despair of the college girl over an empty post office box with only the duty to be removed, until you receive such a sensation yourself. If I possessed some of O. Henry's talent, I could easily portray the varying types of humanity gathered here at this time, but since I find myself incapable of such, all I can do is extend to you the invitation to try it once.

The rest of the morning proceeds as most all mornings do, with classes until 12:30. Twice a week we have convocation, (chapel), at 1:30 and you either go and sit in your regular row, or kindly pay a quarter fine to the roll-keeper—we go! This is the time for morning greetings, and parties of new students are exchanged until the bell rings, as a signal for the beginning of the devotional service. Lunch is at 12:40 and should you be sitting in your car, parked at the side entrance to the Auditorium, and see the girls stream out like so many bees, toward the dining room, you would pinch yourself to see if you were dreaming or if it was really an unending, chattering group. Wava and Elizabeth often insist that the dining room gets mixed up in their meal planning, especially when we are served eggs and toast for lunch, but on the whole, the meals are good, and as a positive proof, we are gaining weight, much to my delight!

Afternoon classes begin at 1:30 and continue sometimes until 5:30, classes being each fifty minutes long. Of course, often the school runs so smoothly, that you only have a few afternoon classes a week, and that's quite agreeable. The dinner bell rings at 6:30 and we look forward to this meal as the best of the day. There is a general period of recreation after dinner until 7:45 when the study lights are flashed. At 10:15 the lights flash three times as a signal to get ready for a Journey into the land of Sleep. Lights must be out at 10:30 and quietness prevails in the dormitories.

I could tell you so much more, but the others will want to write some of the other happenings, so I must stop. I'll add just a few facts which may amuse you.

1. If you anticipate attending this institution, learn to walk, for you certainly have plenty of it to do here.
2. One of us, I won't be cruel enough to say that you, insist that the cracks in the sidewalks are too big, since she always falls over them on the way to town.
3. I have to shake Helen every morning to wake her. One cold morning I made her go to breakfast with me, by gentle applications of an icy-cold towel.

Freshman News.

The ninth grade had a class party, Friday, the twenty-second of the month. Ed James, a delightful time was enjoyed by all. Refreshments were passed around. The ones who were present are as follows: Earl James, Denzil Hunt, Ralph Helm, H. L. Bishop, Gwendolyn Connell, Melba Connell, Sara Smith, Irene Goff, Mildred Epperson, Mildred Martin, Louise Helms, Martha Weaver, Allie Lee Bell, Lucy Mae Durn, and Miss Wavanna, our home room teacher.

Sixth Grade Spelling Match

The Sixth Grade Spelling Match was held in the gymnasium, Friday, the 26th of January. The girls of the 6-B class, won the match. The girls who were present are as follows: Evelyn Martin, first place and Harry Corbin second place. We feel that the drill in spelling has been of much value and help to all members of the class, as we are sure we know how to spell correctly now. We wish to thank Mr. McDaniel, who was the judge. We, the members of the 6-B class, wish to thank Mr. Pendleton for his interest and encouragement in offering the prize, which has been an incentive to all spellers to do their best in everything.

Our Senior News Box.

Strange, isn't it, that certain things happen in spite of every precaution we can take? Agnes, a senior basketball player, was given a scar, when she accidentally landed on a barb wire fence at Fort Meade, Tuesday night. They say Chubby has taken up the swimming habit, and can easily perform the task of rescuing a half-drowned school teacher. I understand that Agnes is also teaching swimming lessons. Tree of change. Novel is quite positive that it comes to write poems something on the order of Mac-feld's, only his are concerning lakes, not seas.

We are afflicted with monthly tests this week, an English Test coming Thursday, and how are we to get prepared for it when a viener roast was given Wednesday night? It turned out grand, so they say. About eighteen out of twenty-three attended it.

Don't think we have forgotten about the Senior play to be given in March. How does "Come Sevier" or "The Whole Town's Talking" suit you?

This spelling match idea down in the grades should also be staged amongst the High School Students. I hear we have some grand spellers, toward the dining room, you would pinch yourself to see if you were dreaming or if it was really an unending, chattering group. Wava and Elizabeth often insist that the dining room gets mixed up in their meal planning, especially when we are served eggs and toast for lunch, but on the whole, the meals are good, and as a positive proof, we are gaining weight, much to my delight!

Eighth-A News

The eighth grade girls are having a contest to see who can get the most words from George Washington. Sara Lucy Trent has offered a prize to the winning girl. Although Brent's Durance won the five dollars, our class was well represented by Linda Wingate. She has just as good a chance to win in the contest next Friday as does any one else. Here's hoping you do Linda.

Our play period contest is four to nothing in the favor of the Whites.

Eighth-B News

Well, folks, we have good news for you. Brent's Durance of the Eighth B won the five-dollar gold piece in the spelling match Friday. He is the best speller in the eighth grade and maybe in the state. Who knows?

Archie Bryant, Reporter.

Cheer Leader's Notes On Basket Ball

And that ball game last Friday night with Frostproof. My, my, I can't forget the thing. Red jerseys and red jerseys, there they were.

Honestly, if the truth may be told in this column, that game should go down in this history. (I'm speaking of the girls' game now boys).

Well, our Lady Red Devils were playing to the "pepper lined limit." So was Frostproof. In fact they took the honors, as far as the score goes. But my, what a game. Every man in every man's position was playing to his highest qualification. To my dizzy brain the player who surprises me the most in that game (and that is all the type of playing that I shall ever mention here) was the little guard who matched balls right and left after he came into the game. Agnes Wilkita. But you know a "chance" cheer leader like me should really keep his mouth shut about such things. I must say, too, that our jumping center, Carolyn Reynolds, has not yet found her match in speed. The entire team deserves great credit for that most brilliant game. Now the boys didn't do so well. I give Denzil Hunt the honors, although he wasn't responsible for some mighty nifty passes, that I couldn't help but notice.

Oh yes, and the same team played Ft. Meade last Tuesday night. The girls' game showed some mighty good playing on both sides. The centers had to play most of the game. I mean to say they got most of the action. Our guards made the opposing forwards feel pretty sick, I imagine. But I give the honors to Elizabeth Sheretz who, I believe, never loses her balance. A lot of substitutes were run in, and Martha Weaver did excellently in the running center position. Almaroe McGinnis, who took jumping center for the last quarter, did mighty well for a substitute. But right along out now I receive another shock. Elbel Hixon, a substitute guard, did some of the most brilliant playing in that game. I have seen lately. Of course I'm pretty dumb and rather nervous and easily upset, but what's my story and I stick to it. Martha Hixon was one field goal which should never be forgotten.

Now the boys game should have been better than it was. We had them beat when they were apparently slowed up, or not tried and Ft. Meade redoubled her efforts and sent us home without the bacon. Well we weren't hungry anyway, were we, sis?

I've got to give somebody honors, even if I only saw half of the game and guess who looked better to me in that game? Novell Barwick—and I believe I'd better mention Nelson Smith along there, too, for he's where he should have been several times. Now, you understand, I'm no Basket Ball expert. I'm telling you what I saw.

Now both teams play in Sebring this coming Friday night. I'll warn the cheer leaders to stay off the feet, and pray for a nice night and hope that you will all be seeing the Ladies and Gents of the Red Devils Friday night—"Pep-Plus."

Home Economics News.

The girls of the second year Home Economics class and their instructor, Miss Elizabeth Atchley, motored to Sebring last Monday afternoon.

No, they didn't skip school, get married run away or any of your other silly questions. Just wait a few minutes, and I'll tell you all about it.

The class heard of a beautiful home in Sebring that is open for their inspection, so they rush for to see. Simple, isn't it? The home was truly lovely, one of those modified Spanish types you know. After about an hour of inspection and note scribbling, they moved out to Harder Hall to get a view of the gorgeous landscaping to be seen there and from thence to the Sebring high school building.

The Home Ec department was inspected and all other points of interest including including Mrs. F. F. boys and their chicken house.

The tour was very interesting and quite worth while intellectually. I mean the entire trip, not the chicken house. The class also made an inspection of the beautiful Charles L. L. home on the Sebring road. You see the class is studying Interior Decoration and they wish to see the places of their text books in a more practical light. I'm telling you the activities and interest of this class are something to be gaped at.

Retained For Which Class.

Someone suggested that we should find out certain pupils that were most typical of foreign countries. The final show-down, in my mind reads as follows:

Mary Turner—France, not saying that you can tell her by her lips or nose.

Raymond Vickery—Our little Englishman, with a keen sense of everything in general.

Cameron Epperson—A lucky Jew indeed. The smile and fork in the forehead are typical.

Charlotte Shepherd—A smart, intellectual English Canadian.

Claude Daly—A Frenchman, full of the philosophy sometimes and witty sayings at another.

Gordon Lee—A big Senior manner, something of the Spanish order.

Paul Baldwin—A short-witted Scott.

Maude DeLaney—A thrifty Irish lady.

Oleta Biggie—A German Goddess of the blood quality.

Other types will follow later.

Carroll O. Belin, Senior Reporter.

Jokes

Mr. Roberts—"Anna De, I must say this pudding you cooked doesn't taste very well!"

Anna De—"All imagination Father! It says in the cookery book that the taste is excellent!"

Charles Kempton—"My girl friend doesn't understand me, does yours?"

Nelson—"I don't think so. I've never heard her mention your name!"

Patient (Calling at Dr. Touchton's office while Walton was there): "Is the Doctor in?"

Walton—"No, he stepped out for lunch."

Patient—"Will he be in after lunch?"

Walton—"NO! Didn't I just get through telling you that what he went out for?"

An old lady walked up to a small boy setting on the street corner crying and asking, "Have you lost yourself little boy?"

"No," said the boy drying his tears, "But I've found a street I don't know."

Junior Class News.

Diary of a Junior—Ho-hum I'm so sleepy. This night life is getting me down. Anyway I got to school on time, but as per usual Gwendolyn was late.

The first period I spent all my time trying to find out the difference of writing expert, except, and express in shorthand. The second period I spent more time trying to write the stuff. The more I wrote the worse it got. Short-hand was well named. If I write any more of these long assignments Mrs. Peden assigns, I'll come up short-handed.

In General Science I turned artist and drew the best eye, parts and all with the help of Mary Margaret.

In English we had a test—and oh! What a test! It seems that I had to write a story about a boy thought he was really asleep and having a nightmare.

Re-mind that reminds sleep is necessary to growing boys and girls. Guess I had better get my quota of it.

Sophomore Sayings

Miss Bryant: "A. B., give me a sentence containing detail, deduct, defence, and defeat."

A. B.: "Well, defeat of deduct went over defeat ahead of detail."

Mrs. Giam: "There are no feudal lords today to make the boys stay at home."

Sport: "But what about those feudal papas?"

The Fourth Grade wishes to express their thanks and sincere appreciation to Mr. S. S. Pendleton for his interest in our school through the Spelling Contest which he sponsored January 25. He awarded five dollars to the best Spellers in the Fourth, Fifth, Sixth, Seventh and Eighth grades. Our winner, Alfred Laflam, especially wants to thank Mr. Pendleton for his kindness.

Postoffice Nearing the Century Mark

Apalachicola, Jan. 29.—Dec. 26, 1932 will mark the hundredth anniversary of the Apalachicola post-office. In that time twenty different persons officiated as postmaster.

The first postmaster was Wm. D. Price and the second John G. Price, the inventor of artificial ice. In 1887 he autographed the world with his ice-making machine and as tribute to his inventive genius the U. S. Government has selected him as one of two distinguished sons to represent her in the Capitol at Washington.

Two Women Found Dead In Plane Wrecked On Side Of A Mountain

The white monoplane in which Mrs. Ruth Stewart and Mrs. Debbs Stanford attempted a flight from St. Louis to New York was found imbedded in the heavy woods on Bower Mountain, fourteen miles west of Newville, Pa. Both women were found in the wreckage of their craft. They were instantly killed when their ship became lost the other day in rain and fog and crashed into the wooded slope. Mrs. Stewart and her companion had planned to attempt a record flight from New York to Buenos Aires and were en route to the former city from St. Louis when the unfortunate accident occurred. A party plane, called in to aid in the search for the missing fliers, discovered the ill-fated craft.

Opie Read Endorses the Florida Exhibit

Howey-in-the-Hills, Jan. 29.—Opie Read (who has not laughed and cried with him in his quaint humor and deep pathos) is in full

accord with the Century of Progress exhibit. He says: "Florida's participation in the coming World's Fair at Chicago offers for the first time an opportunity for this state to display her resources in competition with other states and countries. Florida cannot exhibit her climate

USE CARE IN DRAWING CHECKS

It is not at all difficult to form the habit of writing checks carefully. A check incorrectly drawn causes considerable annoyance and embarrassment, to say nothing of loss.

For your own protection we would suggest that you use ink and write clearly the name of the party to whom the money goes.

In writing in the amount, be sure to fill the entire space, so that your check can not be raised.

Try to sign your name always the same and as it appears on the signature card in the bank.

Then last, but by no means least, keep a careful stub record.

These are simple rules to follow but very important.

Sunday School Lesson

FOR JANUARY 31, 1932.

SUBJECT: Jesus Feeds the Multitude.

GOLDEN TEXT: "Jesus said unto them, I am the bread of life; he that cometh to me shall never hunger; and he that believeth on me shall never thirst."

LESSON TEXT: John 6: 1-11.

PRACTICAL TRUTH: "Since Jesus is the bread of life, none need be in want spiritually."

TIME AND PLACE: April A. D. 29; Northeast shore of the Sea of Galilee. After the time of the last lesson Jesus called the twelve Apostles, preached the sermon on the mount, and performed various miracles.

Today's Lesson begins with these words: "After these things Jesus went over the Sea of Galilee, which is the Sea of Tiberias."

"After these things" refers to the attendance of Jesus at a feast at Jerusalem. There were Feasts of Tabernacles, in October; of Dedication, in December; of Purim, in March; of the Passover, in April and of Pentecost, in May. Each of these feasts is advocated by some as the one referred to. Herod Antipas, one of the rulers of Judea, built the City of Tiberias on the western shore of Lake Galilee, and dedicated the City to Tiberias, Emperor of Rome; and the name became attached to the lake nearby. It was also called Lake Genesareth, and in the Old Testament, Sea of Chinnereth.

"And a great multitude followed him, and Jesus went up into a mountain, and there he sat with his disciples. And the Passover, a feast of the Jews, was nigh." The great number were on their way to the Passover feast at Jerusalem. "When Jesus saw a great company come unto him, he saith unto Philip, whence shall we buy bread, that these may eat?"

Philip answered him, Two hundred pennyworth of bread is not sufficient for them, that every one of them may take a little." Luke, 9:12, says "When the day began to wear away." "Two hundred Pennyworth," or about \$2.00, a penny being the price of a day's work. "Andrew" saith unto him, There is a lad here, which hath five barley loaves, and two small fishes; but what are they among so many?"

The barley loaves were round cakes about one inch thick. It was the bread of the poorer people. "Jesus said, Make the men sit down." "about five thousand." And Jesus took the loaves; and when he had given thanks, he distributed to the disciples, and the disciples to them that were set down; and likewise the fishes as much as they would."

Only the men were counted. It is said the women and children were placed in another group. The people ate "as much as they would." The bread and fishes increased as Jesus distributed them to the disciples who handed it to the people. "When they were filled, he said unto his disciples, gather up the fragments that remain, that nothing be lost. Therefore they gathered and filled twelve baskets with the fragments." It was important to save the food, and also our time, health, intellect, and every blessing we have. Upon Jesus feeding the five thousand the people desired to make him king of the Jews, but Jesus sent the disciples across the sea, and he departed into a mountain. That night he went across to the west shore of the sea, walking on the water, and found the disciples in the boat, struggling against the storm. He went into the boat, and immediately they were at the land. On the following day the people gathered around him and discussed the miracle on the previous day. Jesus said, "My father giveth you the true bread from heaven. For the bread of God is he which cometh down from heaven, and giveth life unto the world."

Then said they unto him, Lord evermore give us this bread."

After a discourse by Jesus and much murmuring by the Jews Jesus said: "I am the bread of life. Your fathers did eat manna in the wilderness, and are dead. This is the bread which cometh down from heaven, that a man may eat thereof, and not die. I am the living bread which came down from heaven: if any man eat of this bread, he shall live for ever; and the bread that I will give is my flesh, which I will give for the life of the world."

The Jews ate manna in the wilderness and died; they ate the loaves and fishes on the mountain side and afterward died, but Jesus said "I am the living bread which came down from heaven: if any man eat of this bread, he shall live forever; and the bread that I will give is my flesh, which I will give for the life of the world."

By these statements Jesus referred to his death on the cross, his sacrifice for the sins of the people who would accept him.

Dinner Given by Lake Placid Pupils

Col. and Mrs. F. N. K. Bailey were the guests Tuesday night at Lake Placid at a dinner prepared and served by the home economics class of the Lake Placid high school. An excellent repast was served following which the guests adjourned to the school auditorium where a social hour was enjoyed.

Besides Col. and Mrs. Bailey those present included the school faculty, the local school trustees, Mr. and Mrs. O. C. Parrish, Mr. and Mrs. E. A. Bowers, Rev. and Mrs. R. E. Huey and Mr. and Mrs. B. F. Williams.

Prof. J. S. Rice acted as toastmaster and other speakers were Col. Bailey, Mr. Williams and Rev. Huey.

J. E. Sims was a business visitor in Sebring Thursday.

J. T. Taylor was a business visitor in Sebring Friday afternoon.

Keith Renfroe was a business visitor in Sebring Friday morning.

Rev. and Mrs. G. H. York were visitors in DeSoto City Friday afternoon.

T. J. Whidden of Bartow was a business visitor in town Friday afternoon.

Mr. and Mrs. E. J. Peters were business visitors in town Saturday morning.

Uncle Ned Spencer of Tamsala was a business visitor in town Tuesday.

Jeff Morgan was a visitor in Sebring Thursday evening attending the show.

R. T. Morgan was a visitor in Sebring Friday evening attending the show.

E. A. Whittaker of Hicoria was a business visitor in town Friday afternoon.

Prof. and Mrs. T. M. Johns were business visitors in Venus Friday afternoon.

Mr. and Mrs. R. J. Hood were business visitors in Sebring Tuesday afternoon.

Mrs. Florence Booker was a visitor in Highlands Hammock at Sebring Sunday afternoon attending the Vesper services.

Gilbert Freeman of Avon Park was a business visitor in town Tuesday as a representative of the state automobile tag agency.

Lawton Cook, Marine Gay, Park DeVane, Alma Morgan, Myrtle Johns and Gertie Morgan were visitors in Sebring Sunday evening attending the show.

Rev. and Mrs. Willard Keisling, Rev. and Mrs. G. H. York, Mrs. Florence Booker and Randall B. York were visitors in Arcadia Thursday afternoon.

Claude Cass has traded his two-door Chevrolet sedan for the W. J. (Jack) Williams four-door sedan. This deal was made by Boring and Barnett of Arcadia last week.

Rev. G. H. York, pastor of the Methodist Church at DeSoto City, filed his pulpit Sunday morning and evening bringing a very helpful message at both services. His subject for the morning hour was, "Worshipping God with our Offerings."

Ivey Futch, noted grower of Avocado pears and citrus, is clearing up much land around the lake on which he lives preparatory to planting it in vegetables for the spring season.

Rev. O. O. Taylor of Bowling Green will fill his pulpit at the Baptist Church here Sunday morning and evening. A cordial invitation is given to all people in the city to attend these services.

Professor E. J. Peters of Hicoria was a visitor in town Sunday evening attending the Young Peoples service at the Baptist Church bringing them a message on Temperance and Prohibition.

T. W. Doss was a business visitor in Sebring Saturday.

Miss Lucile Whidden visited friends in Palmdale Saturday.

Jeff Morgan was a business visitor in Sebring Wednesday morning.

C. M. Milligan of Jacksonville was a business visitor in town Monday morning.

Mrs. L. T. Farmer of DeSoto City was a visitor in town Tuesday afternoon.

T. J. Whidden of Bartow was a business visitor in town Wednesday afternoon.

Ernest Mock and Jeff Morgan were visitors in Sebring Tuesday evening attending the show.

Mrs. W. W. Glasgow of Hicoria was a business visitor in town Monday afternoon.

J. E. Sims and Swayne Bowers were business visitors in Sebring Monday morning.

Perry Etheredge of DeSoto City was a business visitor in town Monday afternoon.

Ernest Mock and Jeff Morgan were visitors in Ft. Meade and Wauchula Sunday.

Miss Lillian and Hubert Sharpless of Hicoria were visitors in town Saturday evening.

J. B. North and Asbury Sapp were visitors in Sebring Sunday evening attending the show.

Robert Johns and O. C. Parrish, Jr., were visitors in Sebring Sunday evening attending the show.

Dr. and Mrs. Lee Crews and daughter Virginia Lee, were visiting relatives in Avon Park Sunday.

T. W. Hayes and Charles J. Slaughter of Arcadia were business visitors in town Wednesday of last week.

Mr. and Mrs. Albert Johnson of Hicoria (Sessions Camp) were business visitors in town Tuesday afternoon.

The Ladies' Exchange under the direction of Mrs. Price opened for business Saturday morning in the Arcade building.

T. W. Lofton who recently moved his stock of groceries to Belle Glade was a business visitor at that place last week.

Professor and Mrs. T. M. Johns and son John Eddie, were business visitors in Venus Saturday settling their city.

Professor and Mrs. J. S. Rice were visitors in DeSoto City Sunday attending services at the Methodist Church.

Sam Wamack who has been spending several days the past week at Belle Glade and Miami returned home Thursday.

Mrs. Florence Booker was a visitor in Highlands Hammock at Sebring Sunday afternoon attending the Vesper services.

Gilbert Freeman of Avon Park was a business visitor in town Tuesday as a representative of the state automobile tag agency.

Lawton Cook, Marine Gay, Park DeVane, Alma Morgan, Myrtle Johns and Gertie Morgan were visitors in Sebring Sunday evening attending the show.

Rev. and Mrs. Willard Keisling, Rev. and Mrs. G. H. York, Mrs. Florence Booker and Randall B. York were visitors in Arcadia Thursday afternoon.

Claude Cass has traded his two-door Chevrolet sedan for the W. J. (Jack) Williams four-door sedan. This deal was made by Boring and Barnett of Arcadia last week.

Rev. G. H. York, pastor of the Methodist Church at DeSoto City, filed his pulpit Sunday morning and evening bringing a very helpful message at both services. His subject for the morning hour was, "Worshipping God with our Offerings."

Ivey Futch, noted grower of Avocado pears and citrus, is clearing up much land around the lake on which he lives preparatory to planting it in vegetables for the spring season.

Rev. O. O. Taylor of Bowling Green will fill his pulpit at the Baptist Church here Sunday morning and evening. A cordial invitation is given to all people in the city to attend these services.

Mrs. R. T. Morgan and Jeff Morgan attended the show in Sebring Friday evening.

Miss Mildred Booker and Emmitt Bates attended the show in Sebring Thursday evening.

Mr. and Mrs. G. A. DeVane were visitors in Sebring Monday evening attending the show.

Mr. and Mrs. L. Littleton of Sebring were visitors in town Sunday visiting friends.

Deputy Sheriff Mathis of Venus was a business visitor in town Wednesday afternoon.

Jessie Barwick and Lewia House who have been visiting in Sanford, returned home Saturday.

Mr. and Mrs. L. Henderson and little daughter were business visitors in Sebring Saturday.

Mrs. W. T. Welting and Mrs. Mary Pearce were visitors in Tampa several days the past week.

Miss Winifred Payne and Merle Payton were visitors in the home of Miss Lorrie Henderson Sunday.

Mr. and Mrs. W. H. Hyton, Jr., who have been living in this city moved to St. Petersburg last week.

Miss Jannet Peoples of Hicoria spent Monday evening visiting Miss Emma Laura Payne of this city.

Mr. and Mrs. A. E. Austin and children spent the week-end in this city, visiting friends and relatives.

Mr. and Mrs. R. T. Morgan and small son Lloyd were visitors in Sebring Monday evening attending the show.

Mildred Booker, Emmitt Bates, Rebecca High, were visitors in Sebring Tuesday evening attending the show.

Harry Lee Baker of Tallahassee, connected with the State Forestry Commission was a business visitor in town Monday.

Mr. and Mrs. O. C. Parrish and children, Grace and Gladys, were visitors in Sebring Thursday evening, attending the show.

Mr. and Mrs. Herbert Seaverns and Harry spent Sunday in Avon Park, visiting Mrs. Seaverns' mother, Mrs. J. W. Murrish.

Mrs. Hazel Sessions and Virginia Bowers, were business visitors in Sebring Tuesday morning for the Lake Placid High School.

Mrs. H. G. Gyess and children and Mrs. Ella Smith and sons were visitors in Lake Wales and Homestead Sunday visiting friends.

Mrs. Herbert Seaverns and several girls, members of the Preston Park, visiting Mrs. Seaverns' mother, Mrs. J. W. Murrish.

Rev. and Mrs. G. H. York were visitors in DeSoto City Tuesday evening attending a special given in the Epworth High League of the Methodist Church at the home of Mr. and Mrs. Perry Etheredge.

The Ridge Singing convention will be held at the West Side Baptist Church, Lake Wales on Sunday, Feb. 7th, at 10 a. m., for an all day sing. As a special number the Gannus Brothers will render several selections.

Mr. and Mrs. Bud Hayes, Mr. and Mrs. Bill Cannon, Mr. and Mrs. Ivan Caff, Miss Lucile Whidden, Marine Gay, Rebecca High, Myrtle Johns, Loyce Hancock, Alma Morgan, O. C. Parrish and Lawton Cook, attended the show in Sebring Thursday evening.

Mrs. J. M. Andrews, Mrs. George Kelsey, Mrs. J. W. Payne, Mrs. G. H. York and Mrs. C. T. Jackson were visitors in Frostproof Wednesday attending the District Missionary Zone meeting, comprising the Missionary Societies of the following districts: Lake Wales, Frostproof, Avon Park, Lake Placid and DeSoto City.

There will be a community service held at the Methodist Church Sunday evening at 7:30 p. m. In which all the churches of the community will participate. The subject for consideration will be "Community Co-operation in Christian Service." The Lake Placid Band will give several selections at the opening of the service; this will be followed by a congregational song service. The offering will go to the Florida Methodist Conference Orphanage at Benson Springs. A selection of special music will be rendered.

W. M. Roberts and Sons who

Children Prefer Orange Juice

QUITE a battle is raging in the food world today with an army of tomato juice cocktails endeavoring to capture a portion of the territory long ruled by King Orange. Both tomato and orange are rich in vitamins and minerals. Both are excellent foods for young and old. Dr. Milton T. Hanks, of the Ohio S. A. Sprague Memorial Institute, University of Chicago, advocates from a half pint to a pint of orange juice for tomato juice, because it is a good source of vitamin C. This recommendation is for a larger amount of vitamin C rich foods than has been ordinarily advised. Dr. Hanks has found that this larger amount of orange juice prevented and corrected serious tooth troubles. He found that it furnished more of the needed vitamin C.

have been in the grocery business in this city since 1930 announce the opening of a Cash Better Feed Store in the Moore building on Saturday, Jan. 30th. Full announcement will be found in another part of the paper.

Deputy Sheriff Mathis of Venus who recently purchased the Cash Better Feed Store in the Moore building on Saturday, Jan. 30th. Full announcement will be found in another part of the paper.

Members of the Methodist Church don't forget that Sunday, January 31st, will be observed as Orphanage Day in the Sunday school and church services. All funds received on this day will be sent direct by the Sunday school to the orphanage.

The first quarterly conference for the Lake Placid and DeSoto City charge of the Methodist Church South will be held at Lake Placid on Sunday afternoon, Feb. 7th, at 3 p. m. with the Presiding Elder E. Watt Smith in charge. All officials of the churches are requested to have the written report ready for this city.

The appointment for the conference claims for the DeSoto City Methodist Church has been accepted and pledges have been made by the Sunday School League and Missionary Society to take care of the full amount of the claims. These various departments of the church made and paid their pledge on the claims in full for the past year and it is expected they will do the same this year.

Beginning the first Sunday in March services at Lake Placid Methodist Church will be held on the second and fourth Sundays in the month instead of on the first and third. After consultation with the Board of Stewards and members of the churches here and at DeSoto City it was thought best to make the change in time of holding services at each place. Services for DeSoto City Methodist Church will be held on the first and third Sundays in the month instead of the second and fourth. This change takes effect the first of March.

Lake City—Seaboard Oil Co. received permit to construct addition to filling station on East Duval street.

GIVES NATIONAL ECONOMIC PLAN

By ROME C. STEPHENSON
Former President American Bankers Association.

WE hear much of future economic planning to save the nation from a repetition of depression and promote more stable business activity. I know no better plan to suggest to insure future better times than that every wage earner, every family and every business throughout the country lay down as soon as a program of proper saving as the foundation of their financial policy.

I know of no better plan than this to build for the nation as a whole a stronger economic situation—that is, through a common structure of individual working, earning and saving. And I know of no better plan to revive activity in a depression than to spend a proper volume of past savings to keep the momentum of business going. But unless there are savings in prosperity there cannot be spending during depression.

Those who practiced this plan during the past period of prosperity have a security and a protection against present adversity that could be provided in no other way. Those who did not are the ones who are now most dependent upon others. If there had been more preaching of this doctrine when it was more feasible to put it into effect than it is now, there would be less depression and less financial insecurity.

However, while there should have been more emphasis on savings during prosperity, a measure of the emphasis today might properly be the other way—at least to the extent that those who can safely do so should be encouraged to spend their savings instead of overdoing their savings. While many have seen their earnings fall, there are millions who have not suffered so seriously in respect to the real purchasing power of their incomes. If we listened all the spare moments of the day, one might get the impression that everybody was out of a job and nobody's business was earning anything. Many of our people are able to continue a normal program of prudent buying are curbing their expenditures beyond reason.

A Business Stimulus
The sum total of this unreasonable curtailment of spending is an economic paralysis contributing to the stagnation of trade. By the opposite token, I believe the resumption of normal spending on the part of those who are able to do so would be an important tonic toward the stimulation of trade. I do not mean by this that we should have indiscriminate spending merely for the sake of spending, but the very moderate purchasing which will start the interchange of goods, and unless we have that we cannot have prosperity.

It is my belief that we are at that point in the depression stage of the business cycle that any sound stimulating intervention will start a real movement in the direction of a return toward prosperity. So much of the weakness of the old state of affairs has been liquidated, so many maladjustments corrected and such large volumes of our consumers' goods have been bought or worn out that the pressure of necessary purchases must sooner or later be felt. When that time comes we may consider it the first impulse of a new era of normal business.

Punta Gorda.—New sidewalk being laid from pavements in front of city hall to entrance to fire department.

Sarasota.—Ringing Trust and Savings Bank held open house recently.

Cocoa.—Guile's Service Station, corner of Bevard avenue and Oleander street, being remodeled.

Dance at Jacaranda Hotel Friday.

A dance will be given at the Jacaranda Hotel Friday evening of this week sponsored by George Turner's orchestra, the "Note Knockers."

Invitations have been issued to the following:

Mr. and Mrs. J. E. Powell, Mr. and Mrs. L. V. Pringle, Mr. and Mrs. Herbert Beck, Mr. and Mrs. D. V. Rouse, Mr. H. A. Struble, Mr. and Mrs. Fred Smith, Mr. and Mrs. Mel Smith, Mr. and Mrs. E. E. Melton, Mr. and Mrs. E. G. Todd, Mr. and Mrs. Neal Trent, Mr. and Mrs. Harold Fossum, Mr. and Mrs. L. A. Thomas, Mr. Fredie Burns, Mr. and Mrs. Lawrence Thomas, Mr. and Mrs. Eddie Crabtree, Mr. Willie Brinton, Mr. and Mrs. V. E. Ziove, Mr. Billie Deaucher, Mr. and Mrs. Russell Tinney, Mr. and Mrs. Roland Drott, Mr. and Mrs. John Hood, Mr. and Mrs. Harry Chance, Mr. and Mrs. J. V. Chapman, Mr. and Mrs. Dick Head, Mr. and Mrs. H. H. Wright, Mr. and Mrs. E. P. Loomis, Dr. and Mrs. Arch Morgan, Mr. and Mrs. Tom Culler, Mr. and Mrs. Parke Anderson, Mr. and Mrs. Ford de Anguera, Mr. and Mrs. Mel Bass, Mr. and Mrs. S. E. Booth, Mr. and Mrs. Fred Tillis, Mr. and Mrs. E. F. Carmichael, Mr. and Mrs. W. T. Coates, Mr. and Mrs. D. D. Dorniney, Mr. and Mrs. Gilbert Freeman, Mr. and Mrs. Paul Garber, Mr. and Mrs. Snarr, Mr. and Mrs. E. W. Hart, Mr. and Mrs. George Harvey, Mr. and Mrs. J. E. Head, Mr. and Mrs. Paul Jones, Mr. and Mrs. Dick Keller, Mr. and Mrs. M. P. Fletcher, Mr. and Mrs. Charlie Lanier, Mr. and Mrs. T. A. McNicholas, Mr. and Mrs. D. G. Perry, Mr. and Mrs. O. C. Wilkes.

Mrs. Davison Hostess To Woman's Club.

Mrs. W. A. Davison, president of the Woman's Club was hostess to the executive board of the club at a Florida Luncheon at her home in Highland Lakes on Wednesday, Jan. 26. The officers were seated at a long table in the dining room which was covered with a cluny lace cloth and a bowl of hibiscus was placed in the center with a crimson candle in a crystal holder at either end of the table. The chairman of committees were seated at two smaller tables in the living room and each table was graced with a single hibiscus and a potpourri further enhanced the beauty of the rooms.

A dainty three-course luncheon composed entirely of Florida products was served and enjoyed by Mrs. Davison's guests.

Following the luncheon, the members of the board met in informal discussion of affairs of club interest.

Those present were: Mrs. G. P. Thayer, Mrs. A. H. Able, Mrs. Julia Mason Smith, Mrs. L. E. Bass, Mrs. M. E. Covington, Mrs. May Walden, Mrs. J. E. Powell, Mrs. Fred Stevens, Mrs. W. H. McCallip, Mrs. W. M. Lee, Mrs. E. E. Y. H. H. C. S. James, Mrs. George Scott Knight, Mrs. W. M. Hetherington.

Woman's Club Will Meet at Pine Crest.

The Woman's Club of Avon Park will hold an Open Meeting on Friday afternoon, Feb. 5, at Pine Crest Lakes Club. Everybody is cordially invited to attend and are assured of a welcome. A business meeting will begin at 2:30 immediately after which the program will be presented at three o'clock.

A very interesting subject has been selected for the afternoon, "Drama," Mrs. H. S. Thompson of Maitland, Florida, Editor of the Division of Literature of Department of Fine Arts, F. F. W. C. will give a delightful talk on "The International Note in Contemporary Drama."

Mrs. Thompson is bringing with her Mrs. M. Wright, a New York actress and singer. She has been on the stage with Otis Skinner and John Drew, noted actors. Mrs. Wright will sing and read a short play on the program.

Members of the Sebring Woman's Club have been invited and a large crowd is anticipated.

Mrs. Paul Jones Honored at Bartow.

Mrs. Paul Jones was complimented with a delightful party while visiting friends in Bartow last week with Mrs. S. P. James and Mrs. Paul Burnett. Entertained at the home of Mrs. James. Contract bridge was played and prizes were awarded.

Mrs. Jones is a former resident of Bartow.

Mrs. Anderson Entertains.

Mrs. Olive E. Anderson was hostess to a number of her friends as she entertained at bridge Wednesday evening at her home on East Pleasant street.

The house was decorated with bougainvillea arranged about in baskets. Six progressions of bridge were played after which honors were awarded Dr. and Mrs. George Scott McKnight for high score, and Mr. and Mrs. W. H. McCallip were given a consolation prize.

Miss Inez Dawson Entertains Informally.

Miss Inez Dawson entertained with an informal dance at her home on Tulane circle, Saturday evening. A buffet supper was served at twelve o'clock by the hostess assisted by her mother, Mrs. W. E. Dawson.

The guest list included: Miss Wilma Roberts, Miss Barbara Weaver, Miss Grace Redick, Miss Ethel Clark, Miss Lillian Smith, Miss Mildred Raulerson of Okeechobee, Mr. and Mrs. Roland Drott, Mr. and Mrs. Mel Bass, Mr. and Mrs. Charles C. Ling, Fred Durran, Eddie Clark, Frank Wilkes, Sammy Campbell, Fred Montecosta, Tom Stevens, Cecil Steele, and Roy Raulerson, John Henry Sherman, Tom Pitts, all of Okeechobee.

Mr. - Mrs. Armstrong Honored at Dinner.

Mr. and Mrs. W. H. Yates entertained at dinner on Monday, Jan. 26, honoring Mr. and Mrs. Ernest Armstrong, who were recently married. Mrs. Armstrong will be remembered as Mrs. Lula Blanks.

Lovely floral decorations of pink radiances roses and white American beauties were used about the dining room. The guests were served a delicious four-course dinner after which the bride was presented with a large bouquet of radiances roses and asparagus fern, also a wedding gift.

Covers were laid at the table for Mr. and Mrs. Ernest Armstrong, Mr. and Mrs. David D. Farnell, Mr. John Figg, and Mr. and Mrs. W. H. Yates.

Tuesday Afternoon Bridge Club.

Mrs. George Scott McKnight entertained the members of the Tuesday afternoon bridge club at her home of East Pleasant street Tuesday.

The lovely home was decorated with cut flowers of a variety. A dainty three-course luncheon was served after which scores were totaled with Mrs. R. W. Swearington receiving the high score prize.

The club had as its guests Mrs. R. W. Swearington, and Mrs. E. H. Johnson. Members present were: Mrs. Norton T. Smith, Mrs. J. E. Rodgers, Mrs. Olive E. Anderson, Mrs. Lula Bass, Mrs. John E. Brick, Mrs. S. Y. Hartt and Mrs. E. H. Hartt.

Guild Meeting at Parish House.

The Ladies Guild of the Episcopal church held their regular meeting at the Parish house on Wednesday afternoon of this week.

A short business session was held after which a social hour was enjoyed.

Those present were: Mrs. M. E. Covington, president; Mrs. D. M. Orr, treasurer; Mrs. Kathleen Timm, Mrs. Grover Daly, Mrs. Julia Mason Smith, Mrs. Harcourt Johnson, and Mrs. J. Putney.

Pancake Supper To Be Held Jan. 9th.

The Ladies Guild will hold a pancake supper at the Parish house on Tuesday, Jan. 9th from 12 until 2, and 5 until 8 o'clock.

The following menu will be served: sausages, pancakes, grits, apple pie and doughnuts with coffee.

Mrs. Louis Peoples and son, Louis, Jr., and Mrs. Synd Wyman with small daughter, Beatrice, of E. H. Hill, S. C., will arrive Tuesday evening by motor to spend a week with Mrs. Peoples' parents, Dr. and Mrs. A. H. Able, at their home on 416 Pine Crest avenue.

Miss Circle No. 3 Meets Tuesday.

Circle number three of the Baptist W. M. S. met Tuesday afternoon, January 27th with Mrs. Otto Skipper. After a short business session Mrs. W. C. Touchton led the devotional and Bible study for the afternoon.

Those taking part were as follows: Mrs. Touchton, Mrs. J. L. Collins, Mrs. W. W. McFarland, Mrs. Lonnie Hunt, Mrs. Tim Collins, Mrs. Ellis West, and the hostess, Mrs. Otto Skipper.

Captain W. R. Maynard spent Thursday in Bartow on business.

Mr. David D. Farnell will leave Wednesday for Columbia, S. C., to accept a position.

Friends of little Miss Barbara Ann Radcliff will be sorry to hear of her illness during the week.

Mr. and Mrs. E. E. Melton and baby spent last Sunday in Bartow with relatives.

Tom Stevens spent several days this week visiting relatives in St. Petersburg.

Miss Barbara Weaver, John Reese and Clair Parke were visitors in Vauclava Sunday afternoon.

Mr. G. A. Monk of Pittsburg is spending some time here as the guest of Mr. and Mrs. J. G. Youngson, at Highland Lakes.

J. Paul Garber left Thursday for Washington, D. C. where he will remain for a visit of a week or 10 days.

Tom Pitts, Roy Raulerson and John Henry Sherman of Okeechobee were the week-end guests of Mr. and Mrs. Mel Bass.

Miss Marjorie Lacey of Fort Pierce, spent the week-end here as the guest of her parents, Mr. and Mrs. E. P. Lacey at their home on East Pleasant street.

Roscoe Bass arrived Thursday afternoon from the University of Florida at Gainesville to spend some time here with his mother, Mrs. Lula Bass.

The many friends of little Jack Head, Jr., will be glad to learn of his recovery from an attack of croup which has confined him to bed several days.

Mrs. W. E. Dawson, Miss Inez Dawson, and Billy and Buddy Dawson spent Sunday in Kissimmee, as guests of Mrs. Hunter Dillard and Mrs. Sally Robertson.

Friends of Mrs. H. R. Currie will be pleased to hear of her recovery from a slight attack of pneumonia which confined her to her bed for several days this week.

Clifton McClelland arrived Thursday from the University of Florida at Gainesville to spend some time with his parents, Mr. and Mrs. W. H. McClelland, during the change of semesters.

Miss Christine Reeves has returned from West Palm Beach where she has been employed for the past several months to spend the week-end with her parents, Mr. and Mrs. Glenn Spink.

Mr. and Mrs. Glenn Spink motored to Kissimmee Sunday afternoon to be the guests of Mrs. Marion Lawson. They were accompanied by Miss Christine Reeves, who will spend several weeks there.

Miss Mildred Raulerson of Okeechobee spent the week-end here as a guest of Mr. and Mrs. Parke Anderson at their home on Lake Byrd. Miss Raulerson is a well known member of the social set in this city.

Winter Park - Formal coronation laying exercises held at Annie Russell Theatre, Rollins College, 1932.

Lime Growing Should Be Aided

An industry which has flourished and withered and is now trying to flourish once more on a more extensive scale is lime growing. The efforts to bring back the industry merit the support of all Florida residents to the extent that they will purchase Florida limes as far as possible. Limes can very well be used to substitute for lemons, of which Florida produces none.

The small lime familiar to most users is known as the Key lime or Mexican lime. It is grown on the Florida keys, and has been for years. The fruit is of excellent quality, of the size desired by soft drink fountains, and is a well known product. Lime growers on the keys are now moving the groves, and the production is increasing. This production in Florida, however, will probably be limited, as this lime is very tender and does not grow outside of the keys and the extreme southern tip of the peninsula.

A newer lime in Florida, the Persian or Tahiti lime, is much larger—about the size of a lemon—and is more hardy, growing successfully well into the central part of the state in sheltered locations. It is slightly more susceptible to cold than either grapefruit or oranges. The quality of this large lime is excellent. The principal objection to it by fountain drink dispensers is that it is too large for one lime to make one drink, and thus cut pieces are left lying around the fountain. However, the Tahiti lime is enjoying an increasing popularity, both in Florida and at points where Florida citrus fruits are shipped.

The lime industry has possibilities of bringing still more cash to Florida from citrus fruits, and should be encouraged.
