

Here and There
About Avon Park

By W. M. Hetherington

It seems the irony of fate that the very same appointees of a few months ago must now lose their jobs at the hands of the council who raised so much hell appointing them.

Did you ever expect to see a soup line or a bread line in small towns like Avon Park? Never did? Well, they are the answer to Hoover's promise of a chicken in every pot and two cars in every garage. Remember that one?

According to a recent report the Sebring light and water plant showed a profit of \$85.00 for the past three years. This money was used to pay salaries and operating expenses of the city and in three days of delinquent taxes has proven a God-send. Besides which Sebring has its way going full ball seven nights a week. On the other hand, Avon Park owes about \$20,000 light bill and is in total darkness. Can you beat it?

Our hats are off to Dr. Davison and Mark Covington for getting action on the disputes between the laborers and the road contractors. They went at it in a straight forward manner and were met in the same spirit by the contractors, who fired the superintendent, credited by the workmen with all of the trouble, and seem to have things working smoothly.

Local political big-shots are taking a well earned vacation following the strenuous weeks just prior to the primaries. Among these are Jim Lee and Bert Freeman who are cooling their heels and feasting on fried chicken and butter milk in deah of Georgia. The women went out to keep a watchful eye on them. Harry Chaney and his tribe are out in Oklahoma seeing the home folks. At last reports Ernest Amos is staying at home being sued (in his official capacity, of course) by the Coast Line — and thinking that some folks have all the luck!

TAXPAYERS SHOWING
GREATER INTEREST

State Organization To Call
Meeting Here In Near Future

Greatly increased interest of taxpayers and citizens in civic and governmental affairs is evidenced everywhere according to reports being received. Taxpayers leagues and similar organizations are being formed and working for the reduction of taxes and expense. A statewide organization for Florida was recently formed at Orlando and a charter was approved by the officers within the past few days at a meeting held at Jacksonville.

Paul Vinson is the vice president of this league for this district and he announces a meeting of citizens of the county will be called for the near future at which time the aims and objects will be explained and a drive started for members in this territory.

From Tennessee comes the story of the Taxpayers League of Cooke county in that state and the reduction in the county millage they obtained after a session with the county court which corresponds with the county commissioners in this state. Through their efforts the tax rate was cut 60 cents and it is estimated that a total of \$87,000 was saved to the county.

County Agent Now
Has Soil Tester
Installed In Office

Equipment for the testing of soils in Highlands county agricultural has been loaned County Agent Louis Alamyre by a friend of the local citrus grower and is now installed in his office in the court house. Those wishing to have their soil tested should bring samples of their soils to Mr. Alamyre and he will make the tests in their presence or send them a report later. He will be in his office every day next week for this purpose and the results of the tests are expected to be of great benefit to the growers and farmers of this section.

Samples should be numbered and be accompanied by a tag showing the exact location from which the samples were taken.

The new Spanish Republic has issued an order that all farm machinery be put away and hand labor only used until employment conditions improve.

SEBRING AND AVON
JUNIORS PLAYING
IN 3-GAME SERIES

Sebring Took First Game.
Avon Park Won Second;
Playoff Saturday

The American Legion Junior baseball schedule got under way this week, with the Sebring and Avon Park juniors playing two match games. Sebring won the first game at Firemen's Field Tuesday, 17 to 16. Avon Park juniors took the return game Thursday 10 to 9. With the count one and one, the two teams will play the deciding game at Cardinal Field Saturday afternoon.

Tuesday's Game of
the Series Played at Sebring, the Avon Park juniors took an early lead and held it all the way, until the ninth, when Sebring staged a seven run rally to win the game.

Witness of the pitching staffs of both teams accounted for the big scores. Roberts, Crawford and Surrency, pitching for Sebring issued 14 free tickets to six batters while Hunt, Stebbins and Elder for Avon Park went them one better and were credited with 15 bases on balls. Between the two, 29 men were walked.

Avon Park scored four runs in the first inning on singles by Elder and Beasley, a walk by Mathis and Stebbins' long triple to right field. Willness by Roberts led in two more runs in the third, and Crawford relieved him, but fared little better walking four men in the fourth inning, which coupled with a brace of errors and two hits accounted for five more runs. V. Surrency relieved Crawford in the box in the fourth and held Avon Park to five runs for the remainder of the game.

Meantime, Sebring scored two runs in the first, two in the third, one in the fifth and had a big inning in the seventh, scoring five runs. Going into the ninth the score stood Avon Park 16 Sebring 10. Stebbins started the inning but had trouble getting them over the plate and Elder was sent in to finish the frame. Four of the seven runs needed were already across the plate and the bases were loaded.

Another score came in on an infield out, but Elder loaded them up again with a walk and Billy Long, Sebring third baseman ripped a double through Hunt to tie the score and brought home the winning runs for his team.

Each team collected nine hits during the afternoon.

The score: R. H. E. Avon Park .402 510 112—16 9 0 Sebring .302 010 507—17 9 0 Batteries: Stebbins, Elder Hunt, and Hart, Roberts, Crawford, Surrency, and Freeman.

Thursday's game at Avon Park was different. The local juniors settled down and put up a corking good game. The bases and the eighth inning, the locals staged a rally on straight hits to tie the score, 9 all, and pushed over the new run in the ninth half in the ninth, after holding the visitors scoreless.

In the ninth, Windham started off with a single through the infield. Beasley was sent to run for him and promptly stole second, and scored on Harold's line drive over short, to furnish a thrilling climax to the afternoon's battle.

Hunt and Elder did the pitching for Avon Park, the pair striking out seven.

Mrs. Lucy Boone
Died Monday After
Short Illness

Mrs. Lucy J. Boone, aged 60, died Monday in a Sebring hospital, following a stroke which occurred ten days ago.

Funeral services, conducted by Rev. Heber Weller, were held in the Church of the Redeemer Thursday afternoon, and the body was shipped Thursday night to Kansas City, Mo., accompanied by Mr. and Mrs. G. C. Daly. Services will be held in Kansas City Sunday and the body will be laid to rest beside that of her husband, Dr. J. W. C. Boone, who was buried there two years ago.

Mrs. Boone is survived by daughter, Mrs. G. C. Daly and a son, Dr. Richard Boone of Kansas City.

METROS LOSE TO
WAUCHULLA 9 TO 6

Barrage of Base Hits and a
Couple of Errors Cost
Metros the Game

Wauchulla unloaded a barrage of base hits on their home field Thursday afternoon, and the Mets lost a two costly error accounted for their nine to three win over the Mets. Second baseman Gantt led the attack with a single, a double and a triple out of four times at bat. Smith, Douglas and Wilson also hit doubles while their teammates were getting at least one single each.

Young started for the Mets pitched shut-out ball for the first two innings. In the third, with one out Cowart and McInnes connected for homers. Hines lined to C. B. Martin at short and it looked like a sure double, but C. B. dropped the ball, recovering, however in time to get McInnes at second. Gantt's triple to left field scored Cowart and Hines for the first runs of the game.

Avon Park tied the score in the fourth, when one out, Pugh and McInnes singled, McInnes walked to left field advancing both runners, and they scored on Young's single.

In the fifth, Wauchulla scored three more. McInnes walked, Hines reached first on Young's error, and Gantt walked, filling the bases. Bas was singled in to relieve Young at this stage. Whidden hit to base and he cut off McInnes at the plate. With the bases still full, Smith walked forcing in Hines. Douglas rolled to Bas who cut off another run to the plate, but Wilson delivered a double scoring Whidden and Smith for three runs for the inning.

Wauchulla added four more runs in the sixth. Cowart singled, McInnes and Hines struck out. With two out Gantt doubled scoring Cowart. Whidden singled, Hines walked, and Hines and Gantt, Whidden and Smith counted. The Mets were scoreless from the fourth, with the exception of a new tally in the seventh, when D. Martin tripled and scored on C. B. Martin's long hit to centerfield.

Pugh and Milton each hit three singles. These and D. Martin's triple were the only high lights in the game for the Mets.

The score: R. H. E. Avon Park .402 510 112—16 9 0 Sebring .302 010 507—17 9 0 Batteries: Stebbins, Elder Hunt, and Hart, Roberts, Crawford, Surrency, and Freeman.

Legionnaires Go
To Ocala Meeting

Local Legionnaires attending the mid-summer conference of the official Legion in Ocala last Sunday were Dr. A. M. Morgan, John Hood, Glen Spink and Louis Martin. The group was held at Silver Springs near Ocala.

Want Names of
Centennarians

DeLand, July 15.—The Florida commission, A. Century of Progress, would like to have the names of all present residents of Florida who have celebrated their 100th birthday or will celebrate it before June 1 next year. The Century of Progress exposition will have a special significance for those who have lived through the entire period and who have witnessed or participated in the marvelous changes wrought during the last 100 years.

WORKMEN PREST
LABOR CONDITIONS
AND GET RESULTS

State Road Contractors Come
In Answer to Wires to
Settle Disputes

Following a protest meeting at the city hall Monday night in which seventy-five laborers working on the rebuilding of state road eight stated their grievances, I. D. Manley, president of the Manley Construction company, appeared on the job Friday morning and undertook to iron out the differences between the laborers and the bosses who have been running the firm of Wilkison and Hobson, sub-contractors for the clearing and grading arrived on the job Tuesday in answer to a wire from the city hall of the Monday night's meeting, and his first act was to discharge his superintendent, about whom most of the trouble apparently centered. Wilkison stated that he would stay here and run the job, and that he would do everything possible to adjust any differences that had been caused.

Rumblings of discontent about long hours and slow pay had been heard ever since the job started. Monday night a meeting was called at the city hall to which laborers were invited to state their grievances. About seventy-five of them appeared, both white and colored, and told their troubles. All had the same complaint of long hours, low pay, and not getting their money in full for the work done.

Dr. W. A. Davidson, president of the chamber of commerce, Dr. W. A. Davidson, president, Mayor M. E. Covington and S. J. Pendleton, representing the city, arrived at the city hall after the meeting telegrams were sent to Governor Doyle E. Walton, State Road Chairman Harry H. Wells, Manley Construction company, and Wilkison and Hobson. The wires read:

"Seventy-five men at city hall last night complaining tremendous sub-contractors superintendent Thompson. According to white colored witnesses the promises and does not pay. Wants repairs to work 11, graders 12 hours dollar and quarter per day. Certainly is disgruntled. Suggest you have representative present meeting Friday night."

But Friday night's meeting was not necessary, except to report that most of the troubles had been ironed out. Dr. Davidson and Mayor Walton met every just one here today and went over the troubles reported to them, and were assured by Mr. Manley and also Mr. Wilkison that every job done would be paid the laborers who had been on the job. Wilkison left another job and came here in answer to the wire sent him, and has already got things running smoothly. Mr. Manley came here from Georgia, and has been assured by the contractors that every job claim would be paid, and that participation by any of the laborers in the work was not a condition of employment, and that the jobs were open to all as long as there were jobs to go around.

Family Being Fed On
Twenty-Five Cents
Per Day Per Person

Three people are thriving on 25 cents a day for groceries in an experiment being conducted this week at the Florida Experiment Station. A University professor, his wife, and 13-year-old daughter are being fed for a week at a total cost for groceries of \$5.25.

They were weighed at the beginning of the experiment and will be weighed a week later. Their grocery bill has been averaging over \$10 per week.

Dr. D. D. Abbott, head of the Home Economics Department, and in charge of the experiment, used similar menus to feed himself and son last week for a cost of 25 cents each day, and stated that she felt perfectly satisfied and gained slightly in weight.

Highlands County
Will Join Fight
In Injunction Suit

Highlands county will join 30 other counties in the state in fighting an injunction suit brought by the Atlantic Coast Line railroad, seeking to prevent these counties from collecting 1931 taxes. The railroad claims unfair and unjust assessments, and numerous other complaints.

The suit is brought against Ernest Amos, as comptroller. To protect their individual interests, the 31 counties involved in the suit have asked to be allowed to intervene and contest the suit separately, Highlands county joining in the fight.

County Attorney T. A. McNicholas, representing Highlands, went to Tallahassee Tuesday to hear the railroad's petition for an injunction. The hearing was held before Circuit Judge Love. Upon his return here Friday, Mr. McNicholas stated that he would prepare an answer for Highlands county to be filed within the fifteen day period set by the court.

STATE MILLAGE THE
SAME AS LAST YEAR

County Officials Notified
Mills Remains at Four
and Seven Eighths

County officials received notification this week that the state millage for 1932 will be the same as last year, 4 7/8 mills. This was issued as follows:

State School Fund 2 1/2
Florida State Bond Fund 1
State Board of Health 1/8
Live Stock Sanitary Board 1/8
(Tick Eradication) 1/8
Prison Fund 1/8
Free Text Book Fund 1/8

Total 4 7/8
This state millage will be added to the county millage when this is set by the county commissioners and the two together will determine the state and county taxes for 1932.

The commissioners expect to vote on the budget in the near future but there is no indication at present as to how it will compare with last year. The amount of land maturing and the interest due, plays a large part in determining the amount of the budget and the millage rate.

Highlands county enjoys an enviable position so far with its bonded indebtedness, nothing being in default. Many other counties cannot boast the same record.

The proceeds of the one mill tax for the state school fund is used principally for the institutions of higher learning, the university and the state college for women.

City Refinances
Fire Truck Debt

The city council met in special session Tuesday night, July 12, to refinance the American Life Insurance Company, last Friday afternoon and arranged for a new series of notes on the purchase price of the two city fire trucks. The total amount due on the trucks as of July 1, was \$17,807.36, including interest. Of this amount, \$13,707.36 is past due, according to City Clerk Francis Shockley. Under the refinancing plan, the city made a new series of nine notes running from August 1, 1932 to November 15, 1935. Payments of \$707.36 are to be made this year, under the new plan.

Mrs. Overstreet
Dies After Illness

Following an illness of the past two years, Mrs. A. W. Overstreet passed away at her home, 1101 E. 1st street, Tuesday morning.

Mrs. Overstreet had been a resident of Avon Park for the past seven years, coming here with her husband from Georgia.

The body was shipped to Tifton, Ga., accompanied by Mr. F. Rogers, representing the American Life Insurance Company, last Friday afternoon and arranged for a new series of notes on the purchase price of the two city fire trucks.

Teachers Salaries
Are Cut 10 Percent;
Two Changes Made

Due to the failure of the state to furnish enough funds to the counties and make the full payments expected under the teacher unit system the past year and to their expressed inability to do so during the next school year, the county board of public instruction in conjunction with the local trustees of Avon Park, Sebring and Lake Placid have been forced to reduce teacher's salaries for the coming year. The cut will approximate 10 percent but in no case will any teacher receive less than \$100 per month in these schools, it is stated by county school officials.

Changes in the teaching staffs of Avon Park and Lake Placid were also announced. Miss Pearl Pearce who was scheduled to teach at Avon Park has been transferred to Lake Placid and her place will be taken by Miss Louise Housh of Sebring who has graduated from the State College for Women this summer with the highest honors.

COUNTY COURT FALLS
FLAT FINANCIALLY

Several Liquor Case Defendants Are Freed After Jury Trials

Judge M. C. Whitethair's session of county court Tuesday fell flat from a financial point of view and the fine and forfeiture fund gained very little. Several charged with violations of the moonshine law were freed by the jury and one was found not guilty by a directed verdict, and others were acquitted on technical grounds.

Several before the court included: W. R. Kimbrough, charged with transportation of moonshine was acquitted by the jury.

Marking still further cuts, the park department was reduced to one man and the sanitary department will operate with one man.

The jury failed to agree on Ben Robinson charged with drunkenness and this case ended in a mistrial.

Emery Johnson was charged with the possession of moonshine and was found guilty on a directed verdict.

The case against Jimmie Mitchell charged with petit larceny was nolle prossed but he was ordered to pay the costs.

Maude Tidwell was charged with the possession of moonshine. This case has been dragging along for some time and was finally nolle prossed.

Perry Albritton was charged with operating a motor vehicle with steel tires. The case was dismissed.

Earl W. Blackman had a charge against him of operating a motor vehicle with steel tires. He failed to appear and his was one bond that helped the county out financially.

Harvey was charged with operating a business without a license. He has been gone for some time and the case was nolle prossed.

The charge of larceny against Telford Peden was nolle prossed as he had been sentenced in circuit court and the same applied to Joe Winkler under a similar charge.

The bond of Ite Wilson went to the fine and forfeiture fund. He was charged with transporting moonshine.

R. C. Dunn entered a plea of guilty to a charge of drunkenness and sentence was suspended.

COUNCIL SLASHES
CITY PAY ROLL TO
REDUCE EXPENSES

Cuts Made in Nearly Every
Department and White
Way Turned Off

Faced with the necessity of making drastic cuts in operating expenses in order to carry on through the summer months, the city council got to work on the payroll and lopped \$455.00 off the city's monthly payroll at its meeting Tuesday night.

Carrying out the recommendations of President Pendleton, whose letter to the council suggested "creating a holiday for a few months by having one working in the different departments", the council adopted a resolution by unanimous vote, the effect of which was to lay off "during the financial crisis of the city's affairs," a sufficient number of employees and department heads to reduce the payroll to a point where it can be met out of current collections.

The cut will go into effect July 15. Pendleton cut off the payroll are: Superintendent of parks, superintendent of public works, both day and night policemen, city hall janitor and all other in the street department. By the resolution, the city also withdrew its support from chamber of commerce, which has been receiving \$37.50 a month from the publicity fund. An equal amount was also paid by the city toward the assistant secretary's salary, who has been putting in half time on city work. This was in place of the \$235 paid to two policemen, the city will operate the police department during the emergency for one month for a night watchman, while the day job will be handled by the fire chief with no additional cost.

Making still further cuts, the park department was reduced to one man and the sanitary department will operate with one man.

The city will not haul two trucks as heretofore. The sanitary trucks will pick up garbage only and will not haul two trucks and other rubbish that can be burned.

Cut White Way.

Following the economy measures decided upon at Tuesday night's session, the white way was cut out Wednesday night and will remain out during the emergency, with the exception of Saturday nights when the lights will be on from 7:30 to 11. It is estimated that elimination of the white way will save the city \$125 per month on the light bill. The white way at Highlands Lakes has also been turned out by agreement with the city. This will save another \$50 per month, it is estimated.

Further savings of about \$50 per month will be effected by laying off one of the sanitary trucks and reducing the other truck operations to the minimum.

No supplies or tools will be purchased and this is estimated to save about \$25 per month. All told City Clerk Francis Shockley stated that the reductions would make a total saving of about \$700 per month in operating expenses. The total payroll was cut from \$1020 to \$565 per month. The payroll a year ago was \$1,236 monthly.

A comparison of the monthly payroll before and after the council made its drastic reduction of city expenses follows:

	Before	After
Mayor	\$ 25.00	\$ 25.00
Supt. of Parks	25.00	
City Attorney	25.00	25.00
Supt. of Public Works	25.00	
Fireman	75.00	75.00
Sanitary	135.00	135.00
Chamber of Commerce		75.00
Police	110.00	
City Clerk	125.00	50.00
Sanitary Dept.	100.00	65.00
Parks	100.00	65.00
Janitor	25.00	
Labor, streets	50.00	
Pendleton's Letter	\$1020.00	\$565.00

Avon Park, Florida, Gentlemen:

Being a citizen, taxpayer and member of the city of Avon Park, I have a few suggestions to offer, for being in business, I have been obliged to do, what I am recommending to your body.

First, the City is in debt, and is (Continued on page eight)

Among the things we are fed up on are the Hutton amours and the Aimee Simple tantrums.

Al Smith doesn't sound extremely enthusiastic but he will probably warm up during the campaign. We expect to hear him pointing with pride and viewing with alarm over the "raddio" most any time now.

We were not profoundly interested in the proposition to legalize beer of 3.2 alcoholic content. We are afraid we wouldn't be expert enough to know whether our glass was 3.1 or 3.3. We know that we see preparations on sale at this time with an alcoholic content of similar figures—but without the decimal point—32 per cent. instead of 3.2 per cent.

Heard a speaker the other day who took up all his allotted time in recounting the trouble of the world-depression, lack of respect for law, increase in crime, laxity or negligence on the part of parents, national extravagance, international complications—everything gone wrong. But he made no suggestion as to how these troubles might be modified or corrected. For every depressing thing he mentioned we could think of something fine, and good and hopeful—but he seemed unaware of any of these. Is there not too much of this kind of thing, not only in public speeches but in everyday street talk? Does it do any good?

No Floridian can read without bowing his head in shame the disgraceful chapter of inhumanity and abuse that culminated in the death of the convict Mallibert at a camp in Duval county. Evidence establishes that the prisoner, after unmerciful floggings, was placed in stocks, confined in a sweat box, with a chain around his neck, drawn so tight that when he fainted from exhaustion death from strangulation followed; but this treatment is explained as being "to protect the man and keep him from hurting himself." If half that is charged in this case is true, capital punishment is too good for those who committed this dastardly crime against humanity on a helpless and defenseless prisoner.

We would not refer slightly to the dead, yet it must be admitted that the death of young Reynolds was no special loss to the world. Inheriting a princely fortune which should have made him a powerful and useful man, his wealth, as is so often the case with rich men's sons, proved a handicap he was too weak to overcome. Whatever natural talents he may have been endowed with seems to have been dulled by dissipation, and at the age of 20 a useless life came to a tragic ending. There are thousands of young men of that age today without a dollar in their pockets who are infinitely richer than was this decadent son of an able father, with all his inherited millions.

Congressman Drane, who was defeated for reelection by J. Hardin Peterson, by a lead of 117 on the face of the returns, gave notice of protest to the State Canvassing Board against including the vote of Glades county in the final count. It is rumored that Mr. Drane expects to contest the outcome of the election and to ask for a recount at least of certain precincts where it has been suggested irregularities may have occurred. Usually we do not look with favor on election contests, but with approximately 80,000 ballots cast and a difference of only 117 votes between the candidates, the apparent loser can hardly be blamed for making such investigation as will verify the returns. Honest errors found in two or three precincts might easily change the result. Of two things we are certain: Mr. Peterson had no hand in or knowledge of any crooked work in the election, and no claim of this kind is made; and Mr. Drane wants nothing more than to establish without doubt the correct status of the vote.

Everybody who writes or speaks of the times harps on the string of leadership. The cry is for a superman to lead the world out of the present depths to the heights of prosperity and moral perfection. If some prodigy like this should make his appearance, it is doubtful that he would have many followers.

Some one more prolific in promises and with a bigger ballyhoo would draw the throng, and the "leader" would be left alone with no one to lead. In any event the time when one man could lead his fellows very far passed with the tribe, the clan, or other group that submitted to be lorded over by a patriarch or chieftain, or later by a king. In these days of general education and equal opportunity there is perhaps a plethora of leadership of a kind. Everywhere the standard of the demagogue and the self-seeker is lifted; the man who might offer sane and sincere leadership is overlooked because of the modesty that goes with merit. But despite the bewilderment and perplexities of the day there is one un-failing leadership available to every individual who seeks it—the promptings of the eternal verities with which men in every condition of life are familiar. Industry, frugality, thrift; the working out of one's own economic salvation; the preservation of one's own self-respect; scorning the bread of dependence, whether it be offered through governmental dole or charitable agency; living within one's means, and keeping ever in mind that spending a little more than one's income is poverty, and saving a little from that income is comparative wealth; these are a few of the fundamentals the observance of which will enable the individual to find his way out of the slough of despond to the high ground of economic independence, without other guide or leadership. Better conditions for the individual must come through individual effort, and every individual should recognize his own responsibilities.

National Vitality

By JUDGE JOHN W. DOUGE

I was reading recently an article in the Literary Digest entitled, "Man's Blame for Epidemics." It was about germs and disease, but is equally applicable to our national vitality.

"If you take in thieves as guests, your property will probably be stolen. And if you are hospitable to germs and offer them the food they like, you must expect to have bronchitis, or possibly pneumonia, or meningitis," said the article.

Our National Vitality is now suffering from an accumulation of epidemic diseases of the body-politic. We have, by a gradual process of weakening governmental policies, exposed ourselves to virulent infections, devastating germs, ravishing parasites, and destructive diseases. We are so debilitated that we are not able to resist the attacks of these germs which have produced for us a widespread national depression.

What are some of these body-politic germs? Here are a few—there are many others which could be named:

The "Fraud Germ" was widespread. By deceit and false representations, by the concealment of well known adverse facts, by fraudulent half-truths, by fraudulent propaganda and optimistic interviews, and statements given out to the public, coming from those high in public life, finance, commerce, industry and government, even so-called educators and experts, the masses of the people were fed "fraud germs." The hospitality of the people made it easy for these "thieves as guests" to steal.

"Inflation Credit Germs," a few years ago, worked among and fed upon millions. Money and credit came to us in large value and volume. We ate it—we swallowed it in gulps—we swelled up. But we could not find nourishment in most of it—it was chaff—or watered—or hot air—it was not food but foolishness. Swollen ourselves with this superfluity of money and credit, we sent it to Germany, South America, to the very wilds of nature to feed the pigs, swine and gluttons of other lands—we "cast our pearls before swine." The surplus, at home, we invested in watered stock market securities, stock dividends, overcapitalized fraudulent stock issues.

"Deflation Germs," in our lowered state of resistance, are infatigable revelers, in our national debauchery, found us good food to feast upon. There was a constipated condition which so on arose, about three years ago. The reaction was a diarrhoeic condition. The people have been looted, the credit was held by a few—assets from the body politic got cold feet. At first we thought we had contracted only a bad cold, but it was "intestinal flu," and everything flew into its own little corner, scared and shivering. We have hoarded what we had left. Will it keep life in us?

We must rebuild our National Vitality, destroying the "Fraud Germs," the "Inflation Credit Germs," and the "Deflation Credit Germs."

DID YOU EVER STOP TO THINK

By EDSON R. WAITE
Shawnee, Oklahoma

THAT live cities have leaders who are intelligent and courageous enough to lead.

When they command the allegiance of enough citizens toward a program for development, it is sure to be carried out.

If it were not for this class of men, many cities would be moving backward instead of forward.

When cities wait for prosperity to hit them, without effort on their part, it usually misuses them. The "waiting game" won't work.

When you want anything in this world you have to go after it.

A study of the situation will show that any live city has many advantages to offer.

When a prospect is in sight, everything possible should be done to land it. When no prospects are in sight, boosters should go out and hunt them. With the right kind of effort they can be found.

PROPERLY DIRECTED CO-OPERATION WILL BRING RESULTS.

TRUE STATEMENT OF PAYMENT TO VETERANS

American Legion News Bulletin Corrects Erroneous Ideas of What Vets Get

Many of the erroneous statements which have been made recently concerning government expenditures on account of veterans should be corrected when the opportunity arises. The American Legion News said in a recent bulletin.

One of the most frequently quoted figures in relation to expenditures for World War veterans is General Hines' statement that up to December 31, 1931, the sum of \$1,856,000,000 had been disbursed on account of veterans. Opponents generally assume that this represents the sum spent on World War veterans, when the facts are that this is the sum expended on account of the veterans of all wars, their dependents or beneficiaries, since 1790. For instance, included in this total of veterans' expenditures is the sum of \$8,521,580,597 (or considerably more than half of the total) in Army and Navy pensions. Also included in the sum is \$251,544,429 spent on the maintenance of the Soldiers' Homes since 1867.

Failed to Credit Veterans. Then there is the sum of \$947,003,581 which is included in the total but which can not be charged to expenditures for veterans and stretch of the imagination—it is simply included in order to equal the total of the figures. This figure is the combination of two sums: the first of which represents the insurance premiums paid by the soldiers upon their War Risk Insurance. (Which, in compiling the total referred to, the Veterans' Administration has failed to credit to the veterans.) The second sum of this total is made up of the extra pay received by soldiers on account of dependents. This sum was paid to them in the form of family allowances but was only paid while in the military service, and bears no more relation to payments to veterans than the dollar a day pay of the soldiers.

As a matter of fact, according to General Hines' statement, the total sum which has been paid to World War veterans on account of compensation for death, disability, dependency, disability allowance and emergency officers' retirement up to December 31, 1931 (the latest available figure), is \$2,048,735,392. This is a far cry from the sum of \$1,856,000,000 which is often quoted statement that fifteen billion dollars has been paid out to World War veterans!

Only One Sixth True. Another statement, often heard, but also often difficult to refute, is that the World War veterans are now costing a billion dollars a year. The amounts which will be paid to World War veterans in the fiscal year 1932 (the latest available figure for this item) for service connected disability is \$204,620,000, or about one-fifth of the so-called billion-dollar figure. It is the veterans, widows and orphans of all wars which cost a billion dollars a year.

A breakdown of the sums appropriated for the maintenance of the Veterans' Administration for the fiscal year ending June 30, 1932, illustrates these figures. On the account of the veterans of all wars, subdivided according to their various purposes:

Administration costs of Veterans' Administration for veterans of all wars, including medical and hospital services, soldiers' homes, to \$115,528,795
Printing and binding 100,000
Compensation for disability incurred as a result of service in the World War 204,620,000
Disability allowances for World War veterans suffering from disabilities not connected with the service 104,277,000
Disabled emergency officers of the World War 11,046,000
Compensation for service connected World War deaths paid to widows, orphans and dependent parents 36,284,000
Army and Navy pensions for death and disability not necessarily connected with the service 8,521,580,597
Civil war 97,221,000
Spanish war 116,396,000
Regular establishment 1,127,000
Military and Naval insurance (a government debt for which the veterans are liable) \$500,000,000 in insurance premiums out of their own pockets 117,000,000
Hospital and soldiers' homes construction

WILL SEE WORLD'S FAIR FROM THE AIR

New Form of "Sky Ride" Being Built For Chicago Exposition

DeLand, July 13.—(Special.)—The outstanding amusement novelty of the World's Columbian exposition of 1893 was the Ferris Wheel which revolved on its axis carrying passengers in cars swung from its periphery to a height of about 200 feet enabling the occupants of the cars to get a wonderful panoramic view of the fairgrounds and its marvelous buildings.

The managers of the Century of Progress exposition have evolved what they believe will be a "sky ride" which will put the oldtime Ferris Wheel in the shade as a novelty and which they believe will carry fully 3,000,000 passengers during the 150 days of the world's fair of 1933.

The "sky ride" of 1933 will consist of steel and aluminum cars large enough to carry 30 passengers each which will run suspended from a four-cable track between two 600-foot towers, located 2,000 feet apart—one on the mainland, near Soldiers' Field, and the other on the North side, between the Electrical building and the Court of States. The latter tower will be but a few feet from the Florida building.

The cars will make continuous trips circling the towers which will be higher than any skyscraper in Chicago and will afford a view not only the fairgrounds but of the city and the country for many miles around. The towers will be painted in gay colors and will be brilliantly illuminated at night and will be seen from many miles away. The cars will consist of trails of colored vapor giving them the appearance of huge rockets or comets with brightly lighted tails. A terrible hail-storm of steel will be seen from many miles away. The cars will be suspended from the towers which will be painted in gay colors and will be seen from many miles away. The cars will be suspended from the towers which will be painted in gay colors and will be seen from many miles away.

Five Main Entrances Designated

Chicago, July 13.—Five "main" entrances to the exposition grounds finally have been designated by the management of the Century of Progress exposition. They will be located at 11th, 18th, 23rd, 31st and 39th streets. It was believed that by making the grounds easy of access, attendance at the exposition next year would be stimulated. Therefore, the great number of "main" entrances along the entire "western front."

Over Ninety Percent Baby Chicks Raised

Among the poultrymen of Florida who have raised over 90 percent of their chicks this year are two Okaloosa county farmers, reports County Agent J. W. Malone. Fred Griffith, Greenville, has raised 524 White Wyandottes this year, giving about six percent mortality. E. Robinson, Laurel Hill, has raised 24 of 380 chicks for a mortality of about seven percent. Both of these men followed the plan outlined in the statewide Grow Healthy Chick Campaign.

for the veterans of all wars 12,877,000
State and territorial homes for disabled soldiers (Federal contribution) 722,000
Adjusted service certificate fund (annual government payment on the adjusted compensation) 100,000,000
Total 129,887,795

The foregoing table therefore illustrates that the "billion dollar 'sky ride' cost" actually goes for 1933 (as shown above) the sum is less than a billion, although at the beginning of the present season, the director announced publicly his estimate that it would exceed a billion dollars.

Avon Park Loses To Okeechobee In 9th Inning Sunday

Winning the game and losing it again, the best drama in the history of the Avon Park Metros in their clash with Okeechobee Sunday. Going into the ninth, Okeechobee was leading 5 to 3. The Metros staged a three-run rally to tie the tables 6 to 5 for a few brief moments. In Okeechobee's half of the last inning, Durance hit a homer over the right field wall to tie the score. In Okeechobee's half of the ninth, the Metros followed with doubles, Williamson scored with the deciding run.

Sunday School Lesson

FOR JULY 17, 1932.

SUBJECT: The Passover.

GOLDEN TEXT: "For even Christ our Passover is sacrificed for us." 1 Cor. 5:7.

LESSON TEXT: Exodus 12: 21-28.

Time and Place of the Lesson: B. C. 1490; Goshen, Egypt.

When the Lord commissioned Moses to deliver the children of Israel Moses said to Egypt, "And the Lord said to Aaron, Go into the wilderness to meet Moses. And he went, and met him in the mount of God, and kissed him. And Moses told Aaron all the words of the Lord who had sent him, and all the signs which he had commanded him. And Moses and Aaron went and gathered together all the elders of the children of Israel: And Aaron told them all the words which the Lord had spoken unto Moses, and did the signs in the sight of the people."

God (by Aaron) said to Pharaoh: "Let my people go that they may hold a feast unto me. Pharaoh refused, and increased the burdens of the Hebrews, by commanding that they gather their own straw to make the brick, but make the same number."

Go therefore now, and work; for there shall no straw be given you yet shall ye deliver the tale of bricks."

In Exodus chapters 7 to 12 we are told of the controversies between Moses and Aaron acting for the Lord and Pharaoh opposing him. Demands were made for the freedom of the Hebrews.

Moses first tried to convince Pharaoh by transforming the staff into a serpent and back to a staff, but Pharaoh would not let the people go. Then the ten plagues were sent upon Egypt, as follows:

1. Turning the Nile, and all other water in Egypt, into blood.

2. Bringing up from the Nile great swarms of frogs, which covered the land and entered the houses.

3. Changing the dust of the earth into lice, infesting men and beasts.

4. Swarms of flies filling the entire country except the land of Goshen where the Israelites were.

5. A murrain (an infectious and fatal disease) sent upon the cattle of Egypt, killing all the cattle except those of the Hebrews.

6. Ashes thrown into the air by Moses, becoming boils and blisters upon men and beasts throughout Egypt, including the magicians.

7. A terrible hail-storm smote the land, destroying all the crops and breaking down all the trees, Goshen alone being exempt.

8. A vast swarm of locusts came upon Egypt, devouring all the vegetation left by the hail.

9. Thick darkness that could be felt covered all Egypt for three days, so that no Egyptian ventured forth, "but all the children of Israel and light in their dwellings."

10. The culminating plague, the death of all the first-born of the land, those of the Israelites alone being saved.

In the twelfth chapter of Exodus the Lord gave orders as to the Passover, of which he said as part of today's lesson:

"Ye shall call for all the elders of Israel, and said unto them, Draw out and take you a lamb according to your families, and kill the passover. And ye shall take a bunch of hyssop, and dip it in the blood which is in the basin, and strike the lintel and the two side posts with the blood that is in the basin; and none of you shall eat of the door of his house until the morning. For the Lord will pass through to smite the Egyptians; and when he seeth the blood upon the lintel, and on the two side posts, the Lord will pass over the door, and will not suffer the destroyer to come into your houses to smite you."

The nature and purpose of the Passover is described in verses 26 and 27 of the lesson.

"And it shall come to pass, when your children shall say unto you, What mean ye by this service? That ye shall say, It is the sacrifice of the Lord's passover, who passed over the houses of the children of Israel in Egypt, when he smote the Egyptians, and delivered our houses. And the people bowed the head and worshipped."

The children of Israel kept the Passover, and that night the first-born of the Egyptians in households were slain, but the Hebrews were not injured. Then Pharaoh urged the Israelites to take their families, their flocks and their goods and leave Egypt.

Canadian territory touches ten of the United States.

"NERVES"

Here's a good way to get rid of "NERVES"—A Dr. Miles' Nervine. It's a pleasant, refreshing drink. Nerves relax. You can rest, sleep, enjoy life. At your drug store. 25c and \$1.00.

Wake Up Your Liver Bile

—Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sore and sunk and the world looks pink, don't swallow a lot of salts, mineral water, oil, laxative pills or anything else. Take a dose of this liquid bile and expect them to make you suddenly awake and buoyant and full of sunshine.

For they can't do it. They only make you feel worse and a more persistent doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out bile to keep the bowels moving and to keep the blood pure.

It takes these good old CARTER'S LIVER PILLS to get the liver into the habit of pouring out bile freely. They contain wonderful, harmless, gentle vegetable extracts, meaning when it comes to making the bile flow freely.

Don't ask for five pills. Ask for Carter's Little Liver Pills. Look for the famous red and white wrapper. The red label has the name of the medicine. 25c at all stores. O. H. Co.,

Betty Jane Harvey Celebrates Birthday.

Greeting her young friends wearing a dainty little frock of hand-embroidered pink crepe de chene with hair ribbon and socks to match, Betty Jane Harvey was the honoree at a birthday party given in her honor by her mother, Mrs. George Harvey, 214 East Walnut Street, in celebration of her six birthday anniversary on Wednesday afternoon from three to five o'clock.

The color motif of pink and white prevailed in all the details of the party, the napkins, paper plates and lace doilies being in the chosen colors. The birthday cake which graced the center of the table was iced in pink, and held six light-colored candles in white rose holders with a lovely pink rose in the center holding the traditional candle to grow on.

Ice cream cups and individual cakes iced in pink were served in the dining room from prettily appointed tables.

The little girls were given miniature dolls as favors and the boys received fairly colored balloons. Betty Jane was the center of a number of dainty and useful gifts. Group pictures were taken on the lawn. Mrs. Harvey was assisted by her mother, Mrs. George Harvey, 214 East Walnut Street, in celebration of her six birthday anniversary on Wednesday afternoon from three to five o'clock.

Invited to share this delightful occasion with the honoree were: Arthur, Malcolm and Gene Crews, Helen and Clyde Carter, Jimmy Morgan, Josephine Brown, Mary and Jane Clements, Alice and Bobby Rouse, Elizabeth Carter, Nelly Hetherington, Billy Helm, Nellie Schweigart, Betty Touchton, Frances Brown, Barbara Ann Radcliffe, Barbara Allen Martin, Frances and Sappie Dermigny, Ruth Penelton, Dorothy Lawhorn, Millie and Jerry Connell, Juanita Saults, Marilyn Halliday, Margaret Dillay, Lee Everett Hagood, Marjorie Wells, Jack Head, Jr., Winifred Demore, Virginia Spencer, Madge Plicher, Anna Catherine Carter, Marvin Sherman, Fay Luke, Charlotte Orr, Buck Latham, Mary Smith, Bobby Keller, Lillian Amelia Bennett and Fay Gordon.

Story Hour Will Meet Only On Tuesday.

Beginning next Tuesday both classes of the story hour will be held on Tuesday morning. The smaller children, from five to nine o'clock and remain until ten thirty. The class for the older ones will begin at ten thirty and last until eleven thirty o'clock. Parents are urged to advise the small children to leave promptly at the close of their hour as they will not be especially interested in the story hour conducted for older members. Mrs. Daisy TenEyck, in charge of the programs also stated that the older group could come in any time, provided they come in quietly and do not cause any disturbance.

Mr. and Mrs. Paul Jones and little Betty Jones plan to leave Saturday for Bartow where they will spend a two weeks' vacation.

Mrs. Rumpals Is Hostess To Club.

Lovely baskets of sinuous and crepe myrtle decorated the attractive homes of Mrs. P. A. Rumpals at 24 East Walnut street Wednesday evening when she was hostess to her bridge club. Her fortunate in winning high and second high prizes were Mrs. A. M. Morgan and Mrs. M. A. Smith.

Epworth League Enjoys Party.

The Senior Epworth League met at the but on Thursday evening where they enjoyed a "pop corn popping." Various games were played and food drinks were served. Those present were: Nevela Connell, Agnes Hartfield, Mildred Martin, Martha Weaver, Carmes Booth, Sarah Frances Hancock, Paul McFarland, Fred Reddick, Roland Bailey, Charles Kempton, Phil Lacey and Harry Hancock. Mrs. Hancock assisted with the refreshments.

Bridge Club Meets With Miss Reddick.

The Delta Deck Bridge Club enjoyed a delightful evening on Thursday when Miss Reddick entertained. Zinnias and other summer flowers adorned the party room and following the games, high and second high scores were won by Mrs. Chas. Ling and Miss Ruth Kempton who received prizes.

Mrs. Ford Entertains Missionary Circle.

Mrs. J. H. Ford was hostess to Circle No. 2 of the Baptist Missionary Society at her home, Lake avenue on Monday afternoon.

An interesting devotional was conducted by Mrs. H. M. Hargrove and the lesson was taught by Mrs. J. B. Coen, Jr. A short business session was held.

Monday Club Meets With Mrs. Perry.

Mrs. D. G. Perry was hostess to the Monday afternoon bridge club at her home on Highland avenue this week. The spacious living room was lovely with baskets of summer flowers, pink being the predominant color chosen by the hostess for her decorations.

High score in the bridge games was won by Mrs. J. Paul Garber, and following the awarding of the prize, a delicious ice course was served to the club members present who were: Mrs. Garber, Mrs. Parke Anderson, Mrs. J. E. Powell, Mrs. E. E. Melton, Mrs. W. D. Dornier, Mrs. M. E. Covington, Mrs. A. H. Able and Mrs. M. V. Plicher.

Mr. and Mrs. Frank Costine were visitors to Tampa on Thursday.

Mrs. H. M. Hargrove and Miss Frances Hargrove spent Tuesday in Lakeland.

Mrs. Florence Crews and Mrs. George Harvey were visitors in Wauchula Saturday afternoon.

Mr. and Mrs. M. A. Smith and Mrs. P. A. Rumpals spent the day in Tampa on Monday.

Mrs. Bob Harris spent Friday and Saturday with relatives in Ft. Meade and Tampa.

Mr. and Mrs. Paul Jones and little Betty Jones plan to leave Saturday for Bartow where they will spend a two weeks' vacation.

Mrs. J. V. Chapman and daughter, Jeanette of Deland are the guests of Mrs. Neil Trent, 121 East Walnut street for several days.

Miss Louise Harrell has returned from a short visit to Virginia, accompanying Mr. and Mrs. Paul Faris of Sebring.

Mr. and Mrs. J. S. Francis returned last week-end from Clearwater Beach, where they had spent the week most pleasantly.

B. J. Cowart, son of Mr. and Mrs. Sterling Cowart was taken to a Sebring hospital Thursday night following an attack of appendicitis.

Harry Hancock will go to Haines City today where he will take part in a program to be given there tonight.

Mr. and Mrs. Leo Kirkland and Mrs. R. C. Harris returned this morning from Greenville, Florida where they have been visiting there for a month.

Mrs. John Macey and W. W. Thill of Frostproof spent Tuesday afternoon here visiting Mr. and Mrs. S. E. Booth and daughter Miss Carmen.

Jane Hart, Dorothy McNicholas and Mary McNicholas returned Wednesday from Camp Fowler near Tampa where they have been enjoying camp life for the past three weeks. Mary and Dorothy, the last week, Mrs. Earl Hart and Mrs. T. A. McNicholas motored over for the girls.

The many friends of Mrs. S. E. Booth will be sorry to learn that she is ill in her home, 312 East Pine Street and will hope for an early recovery to her usual good health.

Rev. C. E. Outteridge of Manatee and Prof. and Mrs. C. C. Outteridge of Miami, were guests of Mr. and Mrs. Fred Stevens at Few Acres, Saturday.

Mr. and Mrs. Paul Jones and baby daughter, Betty spent Saturday afternoon in Lakeland and returned to Haines City where they visited friends and relatives.

Mr. and Mrs. Louis Martin and daughter, Barbara Allen and Mrs. M. A. Morgan and daughter, Nancy motored to Wauchula Monday afternoon.

Judge and Mrs. D. V. Rouse and three children, Bobby, Alice and Mary Maxine accompanied by Miss Verna Helm are spending this week at Clearwater, where they are occupying a cottage.

Mr. and Mrs. L. V. Pringle and sons, Vernon and Charles of Sebring and former residents of Avon City, were in Haines City, where they will visit relatives for the next two weeks.

Mrs. Neil Trent and daughter, Sarah Lucy and Mrs. J. V. Chapman and daughter, Jeanette motored to St. Petersburg Thursday for the day.

G. A. Stebbins and J. H. Mills drove to Arcadia Thursday afternoon and were accompanied home by Mary Lydia Stebbins and Joan Mills who have been visiting relatives there since Sunday.

Mr. and Mrs. George Harvey and two children, Betty Jane and Addie, left today for Bainbridge, Monticello and other points in Georgia where they will spend a month visiting friends and relatives.

Fred Ley of Melbourne spent the week-end in Avon Park and was accompanied home on Sunday afternoon by Mrs. Ley and son, Freddie who have spent the past month here with Mr. and Mrs. Cyril Bland and family, 44 Highlands avenue.

Miss Edith McFarland will leave Saturday for Washington, D. C., where she will resume her duties as student nurse at Garfield Memorial Hospital after a pleasant 10 day's visit here with her parents, Mr. and Mrs. W. W. McFarland, 143 North Lake avenue.

Mrs. Carpenter and daughter, Miss Evelyn accompanied by Miss Mary Pabst left Thursday morning for Blakely and other points in Georgia for a 10 days' vacation. They will be accompanied by Mrs. Mary and daughter, Tommie Lou and J. L. Green who have been the guests of their grandmother, Mrs. E. J. Greene for the past month.

Mr. and Mrs. C. E. Lanier and sons, David and Vernon, and Miss Frances Dornier left by motor Wednesday for Jacksonville. Frances went on to Fitzgerald, Ga. Thursday morning where she will visit relatives for the remainder of the summer and Mr. and Mrs. Lanier and family returned to Avon Park later in the day.

Mr. and Mrs. Chas. Pabor and two daughters, Misses Ann, Mary and son, Ed, Mrs. Carpenter and daughter, Miss Evelyn of White Plains, N. Y., and Mrs. W. W. McFarland and daughters, Misses Marie and Edith and sons, Warren and Dale, formed a congenial party motoring to Sarasota Tuesday where they spent a pleasant day enjoying a picnic and swimming party.

Mr. and Mrs. Roy Felkner, of Avon Park who have been spending a short time with their aunt, Mrs. J. A. Caldwell and family, left Thursday morning, motoring thru to Mooretown, Tenn., where they will visit Mr. Felkner's parents for four weeks. Mrs. Felkner accompanied them as far as Jacksonville where she will join her brother, Tom and spend a few hours with him before going to Washington where she will spend several weeks with friends. On her return trip, Tom will join her and they will board the Eastern Air Transport for New York City for a short vacation-Lake Wales Highlands.

'Doomed Battalion' Is Unique War Film

The mountain girl barrier which defends northern Italy has been a battle ground to thrill the imagination. Across its snow-filled passes Hannibal and Hamilcar amazed the Italian world by throwing their elephant equipped legions. More successfully the Visigoths fought their way through rock and storm and destroyed the declining Roman Empire. Napoleon's army braved its horrors to triumph on the plains of Tuscany. But the most terrific conflict of all was reserved for the World War. The majestic snow-capped barrier was the No. 1 Man's Land between the Austrian and Italian armies. No great epic story like "All Quiet" by Remarque has ever been written of this terrific conflict. No moving picture like Universal's transcription of the Remarque story has brought its spectacular features to the screen. It remained for the producers of "All Quiet" to epitomize this entire battle sector in a short and dramatic document entitled "The Doomed Battalion," which will open at the New Circle Theatre, Sebring, on Thursday, July 21st for three days.

This production, filmed in Hollywood and on Mt. Lagazuoli, took one year in preparation, shooting and has emerged from Hollywood with the reputation of even greater thrills and far more story than "All Quiet on the Western Front." Like "All Quiet," it was based on actual experiences. In this instance, the experience of an Austrian officer, commissioned by the Austrian government to enlist a battalion of fighters unique in the history of warfare. This officer, Luis Trenker and the battalion he enlisted consisted of two hundred of the best-known sportsmen, mountaineers, guides and marksmen, who had in peace time used this region as their playground, means of livelihood and tests of strength.

Trenker himself wrote the story of "The Doomed Battalion" and has devised a situation which not only has the virtue of actually but sums up the entire war experience on this most unusual war front in the world. It has been photographed spectacularly both at Universal City and on Mt. Lagazuoli. Nothing to compare with these night battle scenes on the mountain slopes has ever been attempted in moving pictures.

In portraying its tremendous drama, Carl Laemmle has assembled a cast which includes not only Luis Trenker, who after the War became one of Germany's most popular motion picture stars, but Tala Birell, Victor Varconi, Henry Arctus, C. Henry Gordon, H. Gibson, Gwendolyn, Albert Conit and Gustav von Seyffertitz.

"The Doomed Battalion" tells the story of an Austrian mountain soldier guarding a strong-hold thousands of feet above his own home against the onslaughts of the Italian Army. The dramatic tension of war is heightened by the fact that the commandant of the Italian forces is quartered in the mountain soldier's home and that the mountain soldier, through his telescope, can look down into this home. In order to save his life, he has sacrificed so much to hold, it is necessary for him to go into his own home as a spy. What takes place in the home furnishes drama which is intense, vital and startling.

Girl Scout News

There is not much scout news this week. We have a new tenderfoot, Margaret Townsend.

We had court of honor last meeting. Future plans were discussed and we elected Sally Moore as our piano player and Letta Reck as our singing teacher. We hope to learn something.

We had some signal practice last Friday. It is real interesting work. We like it. We played some games too, which hasn't been done for a long time.

Betty Brooks, Scribe.

CHURCH OF THE NAZARENE. Rev. Chas. E. Deware, Pastor.

9:45 a. m. Sunday school session. 11:00 a. m. Morning worship. Subject: "Christ's Great Invitation."

8:30 p. m. Juniors meet with Mrs. Gribble.

6:30 p. m. N. Y. P. S. 7:45 p. m. Evangelistic service. Subject: "Our Attitude Toward the Kingdom."

J. R. Magraway, who has been spending the past winter and spring at his home at Highland Lakes, left Monday for Schenectady, N. Y., where he will spend the remainder of the summer.

Mr. and Mrs. Dewey Johnson and Mr. and Mrs. W. Davis and son, L. C., spent Sunday at Bradenton Beach.

Apparently nothing will come of the uproar over the Sharkey-Schmaling decision. At the first meeting of the boxing commission after the fight, none of the principals or judges were summoned.

SECOND UNIQUE CLUB TENDERS SERVICES

Three Quarter Century Club Wants Space at the World's Fair

Deland, July 13.—(Special)—The National Three Quarter Century club, of St. Petersburg, Fla., is not to be outdone by the Three Score and Ten club of Miami, in the matter of doing its bit to make the Florida section of the Court of States at a Century of Progress exposition at Chicago next year, attractive as a place in which to hold reunions, has tendered the services of its members to that end, to Earl W. Brown, manager of the Florida section.

The National Three Quarter Century club is made up of men and women who have passed their 75th birthday and includes at least one centenarian, in the person of Charles W. Eldridge who still is hale and hearty and a devotee of sports.

During the 1931-32 season just closed, the club had a membership of 317 scattered over the United States and Canada, many of them living the year around in Florida, while others come to the state only during the winter months. The combined ages of the members now on the roster aggregate more than 20,000 years, according to Mrs. Evelyn Burton, Haines City, secretary of the organization.

The Sunset club, of Tampa, is another organization of oldsters made young or kept young through the benefits of the climate of Florida. Mr. Brown says that all those clubs which are such wonderful advertisements of Florida, will be given every consideration when the time comes to plan in detail the interior of the Florida building at Chicago.

Important Advance In Preparation of Citrus Juice Made

The problem of preserving extracted citrus fruit juices is one of the most serious of the citrus industry. The solution is a consequence of experiments recently conducted at the Florida Experiment Station by workers of the Florida Station and the United States Department of Agriculture. The results of the tests have been announced by officials of the two co-operating organizations, and are of particular interest to those attempting to find ways to keep preserved citrus fruit juices frozen or on cold storage.

The tests have shown the cause of the latter taste developed in prepared citrus juices on standing, and point the way to its prevention. They have shown the causes of changes in color and a method of preventing settling or rising of solid particles in the juices.

The bitter taste was found to be due to certain compounds called glucosides. These glucosides, which are the cause of the characteristic bitter taste in grapefruit. Other citrus fruits contain other glucosides. These glucosides furnish drama in the inner peel, the veins, and the walls lining the sections of the fruit. When the juices are extracted in such manner that the parts containing these glucosides are little disturbed, the latter taste does not develop. The citrus oil in the inner peel does not cause the bitter taste.

As the fruit matures the quantity of glucosides contained becomes less and mature fruit is more desirable for juice extraction. The amount of glucosides contained varies to a certain extent with the variety of fruit.

The change which takes place in the color of the juice has been traced to citrus oil. The addition of this oil to the juice mixture causes a change in color from the original to lighter shades. Since color of the right shade is distinctly worth while in high grade juices, the blending of tangerine juice with sweet orange juice is suggested. Earlier work at the Experiment Station has shown this to be one of the most satisfactory citrus juices known.

Citrus juice consists of solids suspended in a liquid. The more completely the solids remain in suspension over a long period of time the better. It has been determined that the rate of settling of the solids appears to be definitely affected by the size of the particles, the smaller particles remaining in suspension longer. Also it has been determined that the presence of small amounts of citrus oil causes the particles to remain in suspension longer. Sufficient amounts of citrus oil will cause all the particles to rise.

The Florida Experiment Station has recently published a report of this work, which was done by Dr. A. F. Camp, Dr. A. L. Stahl and Dr. L. W. Gaddum, on the present staff and Dr. Hamilton P. Traub of the United States Department of Agriculture.

Nazarenes Announce Revival Services

Rev. Chas. E. Deware, pastor of the Church of the Nazarene announces with pleasure the coming of Rev. St. Clair of Berkley, Calif., to conduct revival services beginning July 24th and continuing through August 28th. Each evening at 8:00 except Saturday.

Mr. St. Clair comes to us not as a novice or an inexperienced preacher, says Rev. Deware, but is one of many years experience on the part of the country. He has preached in 28 different states and has been the means of causing over \$3,000 to make the decision for Christ. This great work has been accomplished through his earnest zeal for the souls of men.

Keep the laying flock in good condition this summer, and eliminate the poorer producers as soon as possible.

Florida Motor Lines, serving 80 percent of Panhandle Florida, makes available direct motor coach service to almost everywhere from Coast to Coast. Border to Border. More frequent schedules than any other way.

Important Advance In Preparation of Citrus Juice Made

THE PROBLEM OF PRESERVING EXTRACTED CITRUS FRUIT JUICES IS ONE OF THE MOST SERIOUS OF THE CITRUS INDUSTRY.

THE SOLUTION IS A CONSEQUENCE OF EXPERIMENTS RECENTLY CONDUCTED AT THE FLORIDA EXPERIMENT STATION BY WORKERS OF THE FLORIDA STATION AND THE UNITED STATES DEPARTMENT OF AGRICULTURE.

THE RESULTS OF THE TESTS HAVE BEEN ANNOUNCED BY OFFICIALS OF THE TWO CO-OPERATING ORGANIZATIONS, AND ARE OF PARTICULAR INTEREST TO THOSE ATTEMPTING TO FIND WAYS TO KEEP PRESERVED CITRUS FRUIT JUICES FROZEN OR ON COLD STORAGE.

THE TESTS HAVE SHOWN THE CAUSE OF THE BITTER TASTE DEVELOPED IN PREPARED CITRUS JUICES ON STANDING, AND POINT THE WAY TO ITS PREVENTION.

THEY HAVE SHOWN THE CAUSES OF CHANGES IN COLOR AND A METHOD OF PREVENTING SETTLING OR RISING OF SOLID PARTICLES IN THE JUICES.

THE BITTER TASTE WAS FOUND TO BE DUE TO CERTAIN COMPOUNDS CALLED GLUCOSIDES. THESE GLUCOSIDES, WHICH ARE THE CAUSE OF THE CHARACTERISTIC BITTER TASTE IN GRAPEFRUIT. OTHER CITRUS FRUITS CONTAIN OTHER GLUCOSIDES. THESE GLUCOSIDES FURNISH DRAMA IN THE INNER PEEL, THE VEINS, AND THE WALLS LINING THE SECTIONS OF THE FRUIT.

WHEN THE JUICES ARE EXTRACTED IN SUCH MANNER THAT THE PARTS CONTAINING THESE GLUCOSIDES ARE LITTLE DISTURBED, THE LATTER TASTE DOES NOT DEVELOP. THE CITRUS OIL IN THE INNER PEEL DOES NOT CAUSE THE BITTER TASTE.

AS THE FRUIT MATURES THE QUANTITY OF GLUCOSIDES CONTAINED BECOMES LESS AND MATURE FRUIT IS MORE DESIRABLE FOR JUICE EXTRACTION. THE AMOUNT OF GLUCOSIDES CONTAINED VARIES TO A CERTAIN EXTENT WITH THE VARIETY OF FRUIT.

THE CHANGE WHICH TAKES PLACE IN THE COLOR OF THE JUICE HAS BEEN TRACED TO CITRUS OIL. THE ADDITION OF THIS OIL TO THE JUICE MIXTURE CAUSES A CHANGE IN COLOR FROM THE ORIGINAL TO LIGHTER SHADES. SINCE COLOR OF THE RIGHT SHADE IS DISTINCTLY WORTH WHILE IN HIGH GRADE JUICES, THE BLENDING OF TANGERINE JUICE WITH SWEET ORANGE JUICE IS SUGGESTED.

EARLIER WORK AT THE EXPERIMENT STATION HAS SHOWN THIS TO BE ONE OF THE MOST SATISFACTORY CITRUS JUICES KNOWN.

CITRUS JUICE CONSISTS OF SOLIDS SUSPENDED IN A LIQUID. THE MORE COMPLETELY THE SOLIDS REMAIN IN SUSPENSION OVER A LONG PERIOD OF TIME THE BETTER. IT HAS BEEN DETERMINED THAT THE RATE OF SETTLING OF THE SOLIDS APPEARS TO BE DEFINITELY AFFECTED BY THE SIZE OF THE PARTICLES, THE SMALLER PARTICLES REMAINING IN SUSPENSION LONGER. ALSO IT HAS BEEN DETERMINED THAT THE PRESENCE OF SMALL AMOUNTS OF CITRUS OIL CAUSES THE PARTICLES TO REMAIN IN SUSPENSION LONGER. SUFFICIENT AMOUNTS OF CITRUS OIL WILL CAUSE ALL THE PARTICLES TO RISE.

THE FLORIDA EXPERIMENT STATION HAS RECENTLY PUBLISHED A REPORT OF THIS WORK, WHICH WAS DONE BY DR. A. F. CAMP, DR. A. L. STAHL AND DR. L. W. GADDUM, ON THE PRESENT STAFF AND DR. HAMILTON P. TRAUB OF THE UNITED STATES DEPARTMENT OF AGRICULTURE.

ILLINOIS GOVERNOR IS COMING FOR TARPON

Will Arrive August 1 For a
Week On the Gulf
Coast

Deland, July 13.—(Special)—Gov. Louis M. Emmerson, of Illinois will be a member of the party of Century of Progress exposition officials to arrive in Jacksonville, Monday, Aug. 1, for a week of tarpon fishing at Boca Grande, Sarasota and other Gulf coast points in search for specimens of the "Silver King" tribe with which to adorn the section of the Florida building at the exposition given over to sports.

The invitation was tendered the Illinois executive by Governor Doyle Carlton of Florida, and promptly accepted. The Century of Progress party, including Governor Emmerson, will be met at Jacksonville early the morning of Aug. 1, by Governor Carlton, Senator W. C. Hodges, chairman of the Florida commission; Commissioner of Agriculture Nathan Mayo, and Earl W. Brown, manager of the Florida exhibit at the exposition.

After breakfast, as the guests of Robert Kloepfel, manager of the Hotel George Washington, the party will be driven to Deland for an inspection of the offices and studios of the Florida Century of Progress Commission, and then on to the fishing grounds.

Women To Attend Farmers' Week

Each of the nine home demonstration clubs in Lake county is making plans to send at least two representatives to Farmers' Week which will be held at the University of Florida in Gainesville August 8-12, according to Mrs. Mary S. Allen, home demonstration agent.

Some of the clubs are giving dinners, others are making quilts, hooked rugs, salamis, and the like to earn the small amount of money needed. One club has just completed a lovely quilt and has orders for two more.

The Missouri-Mississippi river system, the longest in the world, extends for 4200 miles through Canada and the United States, and drains an area of 1,250,000 square miles.

The "ALL QUIET" of 1932!
N.Y. RAVED over it

As San Diego Knew the "Lone Eagle"

San Diego, Calif.—On this field at San Diego, Calif., now known as Lindbergh Field, the citizens of the city have erected this statue in honor of Col. Charles A. Lindbergh. It was at this field that the "Lone Eagle" first started to learn to fly and the statue depicts him in old, rough, greasy clothes that made him a familiar figure around the field.

Council Slashes City Payroll To Reduce Expenses

(Continued from page one)
not getting in sufficient money for taxes, as the same are mostly paid in bonds. I suggest the following:

Creating a holiday for a few summer months, by having no one working in the different departments, such as:

Night policeman, the day policeman, and janitor at the city hall. Only employ one man on the city truck, not repair any roads, and operate but one truck, saving gas, oil and tire bills.

The two men at the fire department could act as policemen for the few months. Purchase no fertilizer, tools or supplies for the balance of the summer. In this way we might be able to get along and it would help the city to get on a cash basis.

The park man could act as janitor for the short time. This procedure would be quite a saving, and when the city gets in better financial shape, some of the men could be put back on the jobs. As the above would be quite a saving in a few months all local bills could be paid up, and we could start the fall with no debts but the bonded indebtedness.

Then an effort should be made to not spend more than half the income, saving the balance to take care of the bonds.

These suggestions are given in the best of spirit, with no ill feeling towards any man who might lose a job, but they are made for the best interest of all the citizens of our city.

Of course, I realize that we, as councilmen, will be criticized, but that is now being done because we are not paying our bills and laborers, so I as president, will take all the blame and censure, if any of you will make some such motion, and have it seconded.

Yours very truly,
S. J. Peniston,
President.

Following a general discussion of the necessity of cutting the payroll, Councilman Martins introduced the following resolution, which was unanimously adopted:

Whereas, the city council, sitting the financial situation in the city government, and it appears expedient that some decisive action be taken, and

Whereas, the city council, sitting as a body deems it necessary to immediately reduce certain operating expenses of the city to the end that pay rolls can be met.

Now, Therefore Be It Resolved, That reductions be made in various departments of the city as follows—these reductions to become effective July 15th, and to continue throughout the financial crisis of the city's affairs:

Police Department from \$235 per month to \$50.
Supt. of Public Works—discontinued.
Supt. of Parks—discontinued.
Chamber of Commerce—discontinued.

Janitor—discontinued.
Sanitary department—to operate three days per week.
Street work—discontinued.

S. J. Peniston, President.

STATE ROAD DEPT. ISSUES NEW MAP

Will Show Main Highways
and Connecting Links;
Free Distribution

St. Augustine, July 13.—A new official road map of Florida, corrected to July 1, 1932, has been published for the Florida State Road Department of Tallahassee by the Record Company Press of this city. These maps are for free distribution to individuals and copies will be mailed upon application to the State Road Department, Tallahassee.

No attempt has been made to show the roads in the State, but only the main thoroughfares from one part of the State to another, and such connecting links as will aid the traveler to get from point to point conveniently. In issuing the map, members of the State Road Department, of which H. H. Wells, of Chipley, is chairman, state: "It is the desire of the department that these maps will be of a distinct service to motor travelers, not only the local people but the stranger that comes to Florida as well."

Airports and landing fields in Florida are clearly marked on the map. Mileage tables for principal State roads are given. First class through routes (paved) are shown; also second class through routes (improved dirt) and roads under construction. Special historical spots are designated.

Fine Film Features Are Booked For the New Circle Theatre

Five unusually fine film features are booked for showing during the next week at the New Circle "Sehring's Friendly Theatre" according to announcement made today by Manager Charlie Morrison.

The current attraction to be shown thru Saturday with matinee on that day at 3:30 is "Rebecca of Sunnybrook Farm," Kate Douglas Wiggin's ever-popular story, with Ralph Bellamy and Marion Nixon heading a splendid cast. Sunday and Monday with matinee on Sunday at 3:30, "Bachelor's Affairs," said to be one of the funniest light-comedies of the season, with Adolphe Menjou, Minna Gombell, Joan Marsh and Arthur Pierson, will be the screen feature. Tuesday and Wednesday, next, will be the big double feature program consisting of Bill Lloyd and Ginger Rogers in "Carnival Boat" and Dorothy Mackail and Humphrey Bogart in "Love Affair" as the double attraction. Next week will conclude with the showings Thursday, Friday and Saturday of "The Doomed Battalion" considered the "All Quiet" of 1932. This will undoubtedly prove to be one of the most terrific pictures ever shown in this section and if it lives up to advance notices, local theatregoers are in for a really outstanding picture.

Florida Station's Peanut Breeding In Lead, Says Expert

The peanut breeding work being conducted by the Florida Experiment Station is ahead of that being carried on anywhere else in the world, in the opinion of Bob Barry, manager of the shelling department of Tom Huston Peanut company. Mr. Barry recently visited the Experiment Station and went over its peanut experiments with W. E. Stokes and Fred H. Hall of the agronomy department. Shortly after returning home he wrote Mr. Stokes as follows:

"I feel that I have learned a great deal about peanuts in the 20 years which I have given to them, but you and Mr. Hull showed me things I have never before seen and convinced me that you can solve a great many of the present peanut problems. I sincerely hope that I will have the opportunity of visiting you later in the growing season. I would especially like to see Mr. Hull cross some peanuts, if he doesn't object to an audience. I am convinced that he has that phase of peanut work further advanced than anybody else of whom I know."

NOTICE OF APPLICATION FOR TAX DEED

NOTICE IS HEREBY GIVEN, That A. B. Nestor, holder of Tax Certificate No. 491 dated 4th day of July, A. D. 1927, has filed said certificate in my office and said application for tax deed to issue thereon in accordance with law. Said certificate embraces the following described property situated in Highlands County, Florida, to-wit: Lots 2, 3, 4, and 5 in Block A, Cherokee Heights, in Section 21, Township 23, South, Range 18, East.

The assessment of said property under the said certificate issued was in the name of Unknown.

Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 26th day of July, A. D. 1932.

WHAT DO WE EAT?

WHEN DO WE EAT? "SOUP'S ON," SAYS SAMUEL DURRANCE

City and County Appropriate
\$500 Each for Relief
of Hungry Folks

A plan for the relief of the unemployed took definite shape Monday when a committee from the Avon Park relief commission appeared before the county committee.

oners and secured an appropriation of \$500 to be used to feed the hungry.

At a special meeting of the city council last Saturday, a like amount was appropriated for the same purpose.

Dr. W. A. Davison, president of the chamber of commerce, E. G. Todd and E. A. DeLaney represented the relief organization before the commissioners Monday. As spokesman for the delegation, Dr. Davison asked for \$2,000. He stated that Avon Park had guaranteed \$500 towards the relief organization at the rate of \$100 per month. The commissioners would not allow the amount asked, but granted \$250 immediately and agreed to give another \$250

According to the plan as worked out by the commission, a semi-

A special organization appointed by the city council, and explained to the commissioners, two public eating houses, or soup kitchens are to be established in Avon Park. One of these will be located in the old Avon Park Sash and Door building on the corner of the city square. The other will be located in the quarters for negroes. Meals will be furnished to those in need and worthy of assistance, through the presentation of tickets, issued by captains of the four districts into which the city has been divided, according to the plan. Two meals will be furnished at an estimated cost of ten cents

A kitchen has been equipped and tables built in the old Sash and Door company building for the accommodation of a hundred or more persons. Sam Durrance has been placed in charge of the relief eating houses, and is in readiness to start serving meals as soon as the captains get their requirements in to him, so that he will know how many to prepare for, he stated.

May Seine Lakes.

At the delegation's request the commissioners also recommended to the State Fish and Game Commissioner Woodward that a permit be granted to seine the lakes within the city of Avon Park for all fish except bass, the catch to be used

To help feed the needy,
No Injunction Filed.
 Rumors current around town today that an injunction would be filed to prevent the county from paying out money to the relief fund, could not be verified. Up until late Friday afternoon no injunction proceedings had been filed.

**Avon Park People
 Hurt In Wreck**

Bartow, July 19.—(Special).—Mrs. and Mrs. G. E. Hatch, from near Avon Park, were brought to the city hospital here shortly after noon today following an accident in which their car was wrecked on the road between Bartow and Lakeland-Bartow road. Two small children and a negro maid were not badly hurt and the injuries of

thoughts as the car ran off the road into a deep ditch while she was trying to button her collar seat with his wife, was trying to steer the car when it swerved and ran into the ditch. He received cuts and scratches about the head and face.

A physician said that the patient would probably be released from the hospital late today. The wrecked, evidently going into the ditch at a high rate of speed.

Nearly 14,000,000 tons of coal were mined in England in the last 12 months.

Lake Placid News

By RANDALL R. YORK

PLANT CITY BERRIES DEFEATED PLACID 5-3

Game With the West Coast League Team Was Played Monday Afternoon

The Lake Placid Firemen went down in defeat to the Plant City Berries of the West Coast League at Plant City Monday afternoon by the score of three to five. Costly errors on the part of the Firemen were largely the cause of defeat, as the Berries received eight hits against six for the Firemen and had three men left on base and seven for Plant City.

Cobb for Placid pitched and was safe on third's error, Cox singled to left field. Alsbrook sacrificed, scoring Cobb and advancing Cox to second. Mackey passed to first, Thomas and Roberts were out, retiring the side. One run, one hit, one error, one left. Arioli for Plant City, first up, passed to first, second, Mackey passed to first, by Alsbrook. J. Evers was out short to first, Smith was safe on catcher's error, second to first. Overstreet and Smith went out on a double play, Alsbrook to Thomas to York. One run scored by an error and wild pitch, left on base. One error, two stolen bases.

McAulay led off for the Firemen in the second with a single to right field. York struck out, Thomas singled to center field advancing McAulay to second. Cobb was out, Cox passed to first and Alsbrook was out second to first. Two hits, three left on base, one error. Pope for the Berries went out to center field. A Hicks was safe on second's error and Olander out, third to first. G. Evers was out short to first, retiring the side, one left. Three up, three down for the Firemen in the third frame.

Arioli for Plant City singled to center field. J. Evers was out to left field and Smith singled to left field, scoring Arioli and Overstreet was out to first. One run, two hits. Three up, three down for the Firemen. Pope for Plant City singled in the fourth, A. Hicks was out to catcher, Olander singled over short, G. Evers was out to third, Caldwell singled to right scoring Pope and Ariole struck out. One run, three hits.

Cobb and Cox for Placid passed to first in the fifth frame, Alsbrook and Mackey struck out, Thomas singled and Roberts was out to center field. One hit, three left. Three up, three down for the Berries. Three up, three down for the Firemen in the sixth. Two errors, Pope for Plant City singled, A. Hicks was out to pitcher, Olander was safe on shortstop and second's error, Pope and Olander scoring on the wild play. Caldwell passed to first and Arioli was out to center field. Two runs, one hit, one error.

Cobb for Placid singled, Cox doubled to left field, Alsbrook struck out, Mackey was safe on third's error and Cox and Cobb scored. Thomas singled to center field where he was left on first as Roberts and McAulay got out. The Berries, Overstreet was safe on catcher's error and Pope scored second to first. Murphy, batter for York went out to second, Sharpless singled to left field and Cobb and Sharpless are out on a double play. Smith to Olander to J. Evers. One hit. A Hicks for Plant City was safe on short's error, Olander went to left field and G. Evers and Caldwell struck out. Three up, three down for Placid in the eighth.

Lake Placid—A. B. R. H. P. A. E. Cobb, 2b, 3 0 1 2 0 Alsbrook, c, 3 1 2 0 0 Cox, ss, 3 1 2 0 0 McAulay, p, 2 0 1 0 0 Mackey, rf, 2 0 0 0 0 Thomas, 1b, 4 0 2 10 Roberts, c, 4 0 0 0 0 McAulay, cf, 4 1 1 0 0 York, ss, 3 0 1 0 0 Murphy, 3b, 1 0 0 1 2 Sharpless, lf, 4 0 2 2 0

Keep Cool While You Travel

A new cooling system was installed in sleeping cars of the Pennsylvania Railroad. Here we have one of the machines in operation. This machine cools the car for hour and a half. There is 1800 pounds of ice on each of these machines with a fan driving the air through a shaft.

Left to right: Frank J. Basil placing the ice in the machine; W. R. Wilson, Station Master at the Broad Street Station of the Penn. R. R., Philadelphia, Pa., watching the operation.
